Hike

John Fitzpatrick, who first broached the matter of a pay hike for Commissioners, brought up the subject again this morning. Commissioners receive \$2,400 annually, with \$1,200 for expenses. Fitzpatrick seeks an increase to \$4,800 annually, including expenses.

Other Commissioners made no comment when Fitzpatrick first brought up the matter before the legislative delegation in public hearings several months ago. But he gained two supporters

'Mix' Parks, **Memphis Told**

WASHINGTON (UPI)-The Supreme Court unanimously directed the city of Memphis loday to "promptly" desegregate its parks, libraries and museums and served notice that Southern communities are moving too slowly toward integrating their schools. Today's ruling rejected a plan by Memphis which would have gradually desegregated the parks and other facilities over a delayed perlod of time. The court held that the constitutional rights of Negroes were being violated by the delay.

City officials of Memphis had relied on the court's famed 1955 edict that Negroes should be integrated into the schools "with all deliberate speed." This has been taken to mean on a graduat basis.

gay colors and subtle shades. Jewel tones in plains, in prints and in variegated patterns. Color caught in an infinite variety of fabrics.

Color takes special care in cleaning. While today, most fabrics are yarn-dyed and color-locked, occasion-ally we find colors that run. A fluke can occur even with the finest fabric manufacturer. And this often pre-sents a serious problem for the cleaner, parti ularly in printed fabrics where several colors have been blended to form

the pattern.

This is just one of the reasons why it is always wise to send your colorful and printed garments to a reputable cleaner who will recognize the importance of testing the fabric for color-fastness before determin-ing the best cleaning method. Often a color fixative can be used to prevent fading or running of colors.

The old adage about the old way of doing a thing being the best way is not generally true where cleaning is concerned. Modern science is continually developing new and better methods to care for new fabrics, new dyes, etc. We make a point of keeping up with the latest cleaning developments, so send us your most deli-cate colors, your most fragile fabrics, for safe, thorough cleaning. some advice? Thank you.

DEAR ABBY: Could you please tell me what is the matter with the fashion world today? I am planning to be married this summer. I have been all over town trying to find a dressy fitted suit in which to be married and there is not one to be had. Everything I have seen has a short boxy jacket, which is too sporty. Now I am not criticizing Mrs. Jackie Kennedy, but why does every woman in the country have to dress like Jackie Kennedy? I am sure I am not the only woman who feels this way. I admire her, but I don't want to dress like her. I will get married in a burlap dress before I buy one of those boxy suits. Please, Dear Abby, come to our rescue and get the fashion world on the ball so we can have a variety of styles to choose from.

DEAR OUT: If a store doesn't have what you want, ask the buyer to order it for you. If he can't order it, find yourself a pattern and make it. If you can't sew-find someone who can. If you give up and wear a ... "burlap bag," you"ll still look like Jackie Kennedy. I understand that's what she's going to be wearing this summer.

The City Commission Monday night voted to accept the terms and conditions negotiated with the MacFadden Foundation officials in New York last week to locate a 250 cadet military prep school in Sanford.

City Commissioners agreed to terms of the talks conditioned upon the County Commission's favorable action to clear the county reverter from a certain portion of the city land that is for the school.

The County Commission is expected to act on this request at its meeting Wednesday.

Last week, Mayor Tom MacDonald and Commissioner J. H. (Jimmy) Crapps went to New York to talk over negotiations with J. P. Wiegers, chairman of the foundation.
