Sheriff investigates fraud at used car lot

From Staff Reports

Investigators with the Seminole County Sheriff's Office and the City/County Auto Theft Task Force are looking into an auto dealership's alleged scheme to defraud. At the present time, there have been at least 14 victims, with possibly more to be located.

The victims purchased automobiles from the now-closed Exchange Cars, 1820 U.S. Highway 17-92, in the Longwood area, between May 1999 and August of this year.

According to Sheriff's spokesman Steve Olson, investigators believe the dealership was selling cars without satisfying the financial liens placed against them. Thus, the owners could never get a clear title and a permanent Florida license tag. In some cases Olson said, the cars were repossessed from the buyers. In one case, a victim bought five cars for export, but never received them.

The Florida Department of Motor Vehicles recently turned the case over to the Seminole County Sheriff's Office. In all, there are six persons affiliated with Exchange Cars listed as suspects, but no arrests have been made at this time.

Investigations have revealed that the victims who purchased automobiles from Exchange Cars lived in Orlando, Apopka, Oviedo, Sanford, and Longwood. Most of the cases involved people who did not receive titles for vehicles they had purchased. Some sold their vehicles through Exchange Cars but never received payment. Investigators are suggesting anyone who may have also been a victim contact the sheriff's office as soon as possible at 407-665-6639.

City takes no action on Metts' request

By Dan Ping

SANFORD — City Commission took no action on request by Jean Metts to exempt her soup kitchen from a settlement agreement with historic district residents.

Metts, who serves as the director of Seminole Volunteer Enterprises Inc., wanted to hold a fund-raiser on Oct. 27 and 28. In a letter to the city, Metts said she the event would "not be free, and we

want to sell as any tickets a possible."

City Attorney William Colbert advised the commission that the city could not make a decision about the fund-raiser without the input of residents from the historic district.

"The city is not able unilaterally to approve or disapprove this request," Colbert said. "There is a third party to this agreement, and they have a voice in this as well."

In March, a group of residents filed

suit against the city, arguing that the commission violated zoning ordinances by granting Metts a parking exemption. Metts planned to serve more than 100 meals per day, but the SVE facility on 4th Street has parking for only four vehicles. The residents claimed the lack of parking and the increased traffic would adversely affect the neighborhood.

The three parties reached a compromise in June that limited that limited the

School board endorses youth commission

By Michelle Jerta
Managing Editor

SANFORD — Seminole officials are joining forces to ensure the quality of life for all youth in the county.

In July, board members of The Seminole Vision established the Seminole County Youth Commission to act on behalf of the diverse issues, concerns and needs of youth in the county. On Tuesday, the Seminole County School Board endorsed the Commission and pledged support for its establishment.

For the past four or five

years, the Seminole County Juvenile Justice Council has been asking one question, "How are our children?" said Hortense Evans, Youth Commission Steering Committee co-chair. "The question must be asked because the answer is central to both the immediate and the long-term health and vitality of the community."

According to Evans, there has never been a county-wide effort to determine if the most important needs of youth are being

Sanford scores big with softball tournament

By Dan Ping
Editor

SANFORD — Team TPS of Louisville, Ky., may have won the American Softball Association's (ASA) Mens Super Slow Pitch National Championship held two weeks ago at Historic Sanford Memorial Stadium, but it was the city's recreation department that won the most kudos.

Comments from out-of-town players and managers were overwhelmingly positive and complimented the city for the tournament's organization, the condition of the playing field

and the available accommodations.

"This is a tournament we look forward to all year," wrote Joe Albert, manager for Sunbelt Plastics. "The staff and grounds crew are in perpetual motion. In my more than 40 years in slow-pitch softball, I have never seen a tournament where the field was dragged, raked and lined after every game. During the four years this tournament has been held in Sanford, the condition of the field has gone from very good to excellent."

Varmints overtake fire hall

ALTAMONTE SPRINGS — The original Sanford Zoo was started when a circus abandoned several animals, including a monkey. The Sanford Fire Department took them in and cared for them.

The act launched the gathering of additional animals, and soon, there were enough to build a zoo at the corner of North Park Avenue and Seminole Boulevard on the lakefront, site of the present Sanford City Hall.

Who knows, Altamonte Springs may be unintentionally starting its own zoo. Several weeks ago, Alan Harris, public information officer with the Altamonte Springs Fire Department announced that the firefighters of Fire Station 14 had adopted a chicken as a pet.

"The chicken started hanging around the station and the firemen started taking care of it," he said. "The chicken has become a permanent mascot of the station."

Now, Harris has reported more creatures. This time however, it's rats at Fire Station 10,

and the firemen have no intention making them a mascot.

Because of what was considered a recurring problem with the rats, an advisory team was called together to discuss the matter. The team was comprised of a group of firefighters, command officers and the Fire Chief.

The determination? Someone had to go — so the rats stayed and the firemen move out of the station to temporary quarters.

Law mandates tough penalties for juvenile crimes with guns

From Staff Reports

As of Oct. 1, juveniles using a gun in the commission of a serious crime will face mandatory jail sentences.

"Using a gun to commit a crime always brings serious consequences to the victim," said Florida Department of Juvenile Justice Secretary W.G. "Bill" Bankhead. "The new 10-20-Life law for juveniles will now also bring serious consequences to 16- and 17-year-olds who turn to gun violence. They will face mandatory sentences in adult prison."

"We're sending as clear a message as possible. Use a gun and you're done, even if you are 16 or 17," Bankhead said.

The law has already been in effect for persons older than 17.

Under the new 10-20-Life law for juveniles, sponsored by state Sen. Ginny Brown-Waite and state Rep. Bruce Kyle, the mandatory sentences include the following:

- Have a gun while committing a serious crime — Mandatory 10 years in adult prison. The law also applies if the 16 or 17 year old has had a prior adjudication (or adjudication withheld) for a violent felony or gun crime, or was pre-

viously committed to a residential juvenile delinquency facility.

"Use a gun and you're done, even if you are 16 or 17."

Secretary of the
Florida Department of
Juvenile Justice

- Pull the trigger — Mandatory 20 years in adult prison.
- Hurt someone — Mandatory 25 years to life in adult prison.

The mandatory adult sentences apply when a 16- or 17-year-old,

carrying a gun, commits one of the following felony offenses: Murder, sexual battery, robbery, arson, carjacking, home invasion, kidnapping, aggravated

SEMINOLE SUMMARY

A GLANCE AROUND OUR COUNTY

Mr. Car Expert

You've been letting on you were a car expert for years. When a car was on the fritz, they could always count on you to say, "Sounds like a clogged manifold" or "Your carburetor's probably thrown a rocker panel."

Red
Green

But now your sister-in-law wants to buy a used car and she's relying on you to give it the once over. And you don't have a clue. Unless the car is in 10 feet of water or it's on fire, you're lost. So here's what you do.

Stand there and listen to the salesman do the work of selling the car. Keep your mouth shut. Look like you're doubting every word he says. But keep your mouth shut. For all the salesman knows, you could be a Class-A mechanic waiting to pounce on any nose-stretcher he might come up with. That'll put him on the defensive and that's where you want to keep him.

He may in fact suspect that you're an idiot. But he can never prove it. As long as you keep your mouth shut.

You And Your Manners

I'd like to talk to some of you diamonds in the rough out there whose social skills lean more toward the WWF than Miss Manners. If your wife's been riding you to act a little more couth, she wants you to have "good manners." And what good manners means is saying the opposite of what you mean and doing slowly what you want to do fast. Mostly what it boils down to is lying through your teeth so you don't lose them.

Actually society decides on the rules of etiquette, but as society changes, so do the rules. Take a look at the young people today. No manners, no pleasantries, no couth. The same way your parents described you.

That's because etiquette is devolving. Just think how bad it's going to be in 20 years. So no matter how rude you are, if you live long enough, the masses will eventually work their way down to your level. So the next time your wife criticizes you for slurping your soup, tell her you're not rude, you're "cutting edge."

The Pain Of Payback Work

Guys hate to ask for help. Women will say it's because we're afraid of looking weak. But we know that's not it. Guys hate to ask their friends for help with big projects around the house because it means selling yourself into slavery. It creates what we call Payback Work.

Say a friend helps me drop a new engine in my van. Now I owe him when he needs help digging holes for his fence posts. Or pouring the cement for his hell-pad. But let's face it, if my job's done, I'm not interested in doing more work.

But I can't relax with that Payback Work hanging over my head. Payback work is like a flu virus or that relative who's using the spare room. You just can't shake it. The Payback system just keeps the whole thing turning like a big wheel. It's like your little job is never done. And the other guy's job is always 10 times more work than yours was.

That's why, when you want something done, do it yourself or wait until it's bad enough to call a professional. You're better to pay in cash once than to pay in Payback Work for the rest of your life.

Toot your flute during October ...

October is the kind of month that ought to please everyone. Disney World opened in October, 1971. The CD Player made its debut on Oct. 1, 1982. Vladimir Horowitz was born on Oct. 1. So was former presi-

dent Jimmy Carter. Ford introduced the Model T on Oct. 1, 1908. Roger Maris hit his 61st home run on Oct. 1, 1961. Merv Griffin began his TV show on Oct. 1, 1962.

Los Angeles Dodgers. Yo-Yo Ma is going to be 45 on Oct. 7. He plays the cello.

October 10 is Bring Your Teddy Bear to Work Day and the 27th anniversary of Spiro Agnew's resignation as vice president. On Oct. 10, 1886, Griswold Lorillard of Tuxedo Park, N.Y. fashioned the first tuxedo. Double Tenth Day — that's Oct. 10.

In China, they are celebrating the mid-autumn festival on the first day of October. The festival is held to worship the moon god. According to folk legend, this day is also the birthday of the earth god, T'u-ti Kung. The festival indicates the year's hard work in the fields will soon end with the harvest. People express gratitude to heaven as represented by the moon and earth as symbolized by the earth god for all good things from the preceding year.

For buffalo herders, Oct. 1 marks the big Buffalo Round-Up in Custer, South Dakota. Herders round-up, brand and separate 1,500 buffalo before auction in November. Estimated attendance of the event is about 6,000.

Armed robbery reported in Oviedo

From staff reports

Oviedo police reported an armed robbery at Toucan Willie's Restaurant, 829 Eyrie Drive in Oviedo early Thursday. Two suspects are being sought.

According to Lt. Marc Beaulieu, just after midnight, two male subjects approached two Toucan Willie's employees in the parking lot after closing, and demanded money at gunpoint. The employees were forced to re-enter the restaurant, and asked to turn over cash.

The men then forced the employees into a restroom. After making more threats to harm the employees, Beaulieu said the subjects fled.

Police did not reveal the amount of money which was

taken in the robbery. One is described as a black male, 19 to 22 years of age, approximately five feet 11 inches tall, 140 pounds, with a thin build and brown eyes. He was wearing a dark hooded sweatshirt, dark baggy pants, and a cloth mask. He was said to be armed with a dark colored semi-automatic handgun.

The second suspect was described as a black male, 19 to 22 years of age, approximately five feet nine, 120 pounds, with "big eyes". He was wearing a Navy blue hooded sweatshirt and sweat pants with a cloth over his face. He was said to be armed with an unknown type handgun.

Anyone with information regarding the whereabouts of these two suspects or having further information on the robbery, should contact Investigator Tom Krakosky at 407-977-6146.

Financial dispute results in arrest

From staff reports

The Seminole County Sheriff's Department reported a Newport, R.I., man was taken to the Seminole County Jail Thursday morning following an alleged property dispute involving threats with a firearm.

According to Steve Olson, sheriff's office public information officer, Henry Lewis Cobb,

48, apparently was owed money for property he had sold to Darla and Joseph Michniewicz several years ago. Cobb is said to have told authorities he unsuccessfully tried to negotiate payment from the Michniewicz family by telephone.

He reportedly said he became so frustrated with the lack of progress in getting his money, he flew to Central Florida two days earlier.

Cobb said he was on his way to the Michniewicz household Thursday morning when he spotted Darla Michniewicz near Sterling Park Elementary School on Eagle Circle South. According to the police report, she was on her way to pick up her children from school.

As she was loading the children into the car, Cobb confronted her on school property. The woman then offered to drive Cobb to the house. Cobb left his

rental car at the school. Upon arriving at the house, Cobb began demanding money from Joe Michniewicz. Olson said there was a struggle, a gun was produced, and Cobb allegedly threatened the man with it.

Joe Michniewicz apparently fled to a neighbor's house and called 911. One of his children fled to another neighbor's house and also called.

Cobb then left in the family car with Darla and drove around talking. She took him back to his vehicle which was at the school, where they were met by Investigator Joe Wasser who arrested Cobb. Cobb surrendered without incident. Two fully loaded revolvers were recovered from Cobb.

Cobb faces charges of armed burglary, aggravated assault, and possession of weapons on school property.

OPINION

Our View

Vote McLain

If Sanford residents want a strong leader who understands them and the issues facing the city, Daryl McLain is the only choice

The voters of Seminole County have a decision to make on Oct. 3. Is the county best served by re-electing a proven leader who has the experience to move our community forward or do we elect a man with little experience, no fresh ideas and an agenda that caters more to special interest than the citizens?

That's the question voters should ask themselves as they consider who to vote for in the primary run-off election between District 5 County Commissioner Daryl McLain and challenger Bob West. Sanford makes up a large portion of District 5, and the city's residents should be especially cognizant of the differences between the two men.

Mr. West has little interest in seeing Sanford reach its potential. Furthermore, Mr. West does not and has not lived in District 5. He is unaware of the issues important to Sanford and has failed to make even a basic effort to learn them, like meeting with city officials or attending city commission meetings (to say nothing of his absence at county commission meetings). Instead, Mr. West has aligned himself with Sanford's leading naysayers. Is that the kind of representation Sanford residents expect from their county commissioner?

While Mr. West has ignored Sanford, he has cozied up to the "leaders" of the city of Longwood and claims he wants to provide the county with the type of government that has characterized that city for too long. Folks, there's a reason why they call the city "Wrongwood." Constant bickering among commissioners has provided ineffective leadership where roads go unprved and many city residents and businesses have no sewer service. And the majority of the \$11 million "budget surplus" Mr. West claims the city of Longwood has is the result of the city collecting taxes to pave roads and then failing to do any work to those roads. Do Sanford residents want that kind of leadership?

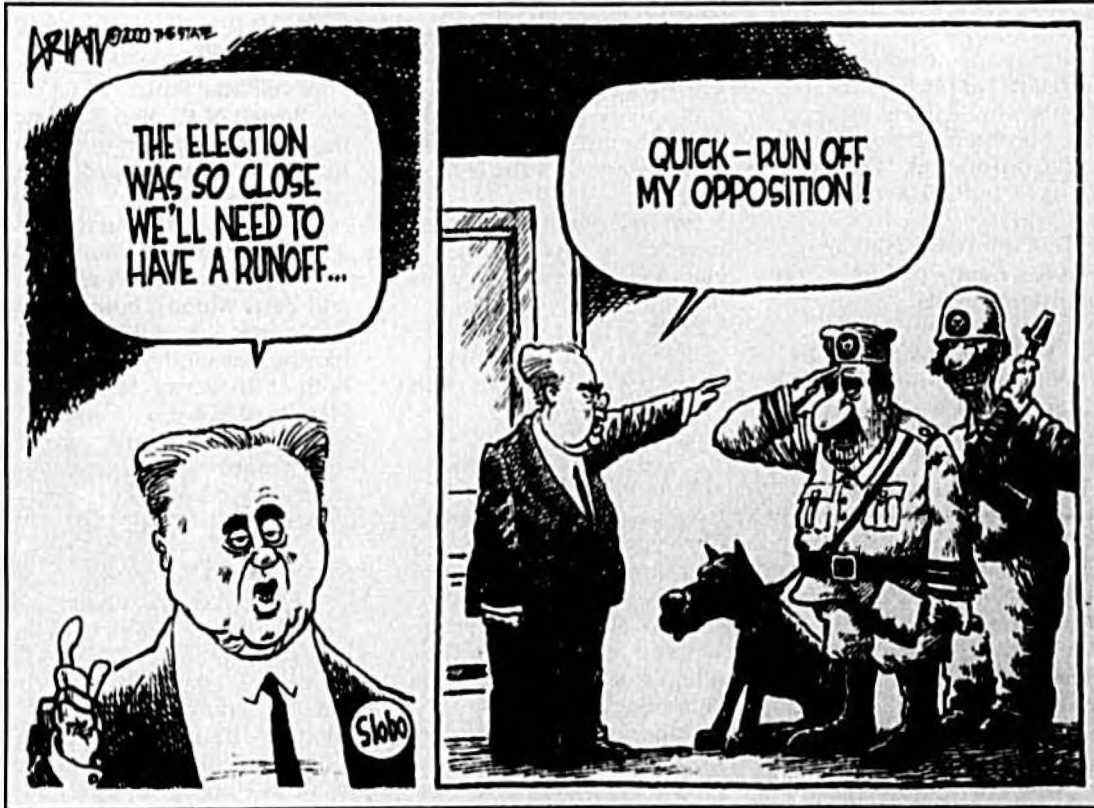

In contrast, Mr. McLain is a Sanford native aware of the issues which affect the city, and he has provided good and faithful service to the city during his time on the county board.

Mr. McLain has earned a reputation as a straight shooter and a fiscal conservative. He understands the commission is obligated to spend taxpayer money wisely. When commissioners were debating building a new justice center, Mr. McLain was the lone voice to raise concerns about \$40 million cost of the project. He thought tax dollars would be better spent expanding the current courthouse.

The Commissioner has also been a proponent of managed growth, realizing that while Seminole County will continue to grow, there is a right way and a wrong way to do it. Case in point is the proposal to build a Super Wal-Mart just west of Sanford on SR 46. Mr. McLain supported the residents concerns that the project was inappropriate for the site. Mr. West? Well, he, in his capacity as a member of the Planning and Zoning committee, voted to allow the giant retailer to locate on the property.

That's a key difference between the two men. While Mr. McLain understands the SR 46/Interstate 4 area will see additional commercial development, he does not believe the county should rubber stamp the first project that comes through. Mr. McLain has the ability to see the big picture.

The choice is clear: If Sanford residents want honest and fair government at the county level from an experienced leader who cares about Sanford, Mr. McLain is the man.

Martinez believes commitment makes McLain No. 1 candidate

To the editor:
As a community activist for the past ten years, I have closely followed Daryl's political career. Together we share an opportunity to excel in government service for the benefit of the citizens of our cities and

Seminole County. Commitment counts. West's platform is one of inclusion. Please vote for Daryl McLain — County Commissioner, District 5, on Oct. 3.

McLain strives to make quality of life in Central Florida better

To the editor:
Commissioner Daryl McLain actively strives to make our quality of life here in Central Florida better. His strongest asset is his ability to overcome obstacles and achieve goals from which we all benefit. High on the list are projects that are a blessing for our neighborhoods.

Daryl's vision of the future of Seminole County is for it to continue to be a better place for our family and especially our children. He looks for ways to get these things done. Whether it is a community swimming facility in the Sanford region or a regional trail system in Winter Springs, Oviedo, Lake Mary, Casselberry, Longwood and

Altamonte Springs, Daryl overcomes objections and keeps his focus on securing this county's destiny.

Daryl finds a way. He views challenges as opportunities. All this while remaining fiscally conservative. Daryl demonstrates this commitment by his active participation in our community. You will see Daryl listening and interacting at home owners meetings and chamber events, regional transportation board meetings and youth group events. Daryl works hard for all of us. I encourage you to vote for Daryl McLain for Seminole County Commissioner.

Scheels writes 'recent editorials ... have been right on target'

To the editor:
Your recent editorials about County Commission District 5 race have been right on target! Without a doubt, Daryl McLain has the experience, knowledge and proven ability to guide the future of Seminole County. With his roots in Sanford, the needs and concerns of this area are of special significance to

Commissioner McLain, as he has consistently demonstrated through his thoughtful responsiveness to numerous issues.

For the past eight years, the citizens of Seminole County have been well served by Daryl McLain. Who is Bob West?

Sanford Mayor gives support and endorsement to McLain

To the editor:
On Oct. 3, the Republican voters of Seminole County must weigh the experience and vision of Daryl McLain against the untried campaign rhetoric of Bob West.

For eight years, Commissioner McLain has given us proactive leadership, tempered by pragmatic caution. While acknowledging the inevitability and need for growth in Seminole County, he has striven to direct development in a responsible manner. To effect progress and safe-

guard public interest, he has labored diligently to build consensus among his fellow commissioners and other entities. In contrast, Mr. West offers us lack of experience and a pervasive conservative ideology that may well prove to be a divisive factor to impede Seminole County's continued progress.

As we evaluate the past and prepare for the future, we would do well to heed the voice of experience and vote for Daryl McLain on Oct. 3.

Stairs states McLain champion for district's restoration process

To the editor:
Commissioner Daryl McLain has been a true champion for the restoration process in his district as well as a driving force for economic development in Seminole County. Commissioner McLain has a true understanding of the needs of the community and will not deviate from his objec-

tives for a healthy and prosperous lifestyle for the people within the county.

The commitment that Commissioner McLain has made to the community has been earnest and valuable and your support to have this dedication continued is greatly appreciated.

Maloy appalled by editorial published in Seminole Herald

To the editor:

I am absolutely appalled at your "Our View" column in your Sept. 20, 2000 "Who's best for Seminole County?" I did not care for the vicious attack your paper made of Mr. Bob West. You speak of issues that separate candidates, well, decency is that issue. First you have to be on the commission in order to vote. Having said that Mr. West knows the traffic and education problems. The things that do separate McLain and Mr. West is morality.

You need to check Mr. McLain's voting record while on the commission. He has voted in a workshop not to discuss the issue. He voted

against an ordinance that would cause dancers to cover up. He again, at a later meeting, voted no on the same issue.

It took the people of Seminole County to collect signatures (petitions) to place the decency ordinance on the ballot. I was one of those people. You know the outcome.

Yes, Mr. Ping, with views like yours, I don't need you in my home.

Please cancel my subscription to your paper and send me the balance of my payment to me, as I remain,

Sincerely yours,

Shoemaker endorses McLain for District 5 Commission seat

Editor's Note: The following letter sent to Daryl McLain was also submitted to the Herald as a Letter to the editor.

I consider it an honor to endorse your campaign for reelection to the Seminole County Commission from District 5. As you know, I have involved myself in many of the development issues that would affect Seminole County citizens and have observed those officials charged with protecting the interests of the citizens of this county. Pressure for more intense development will mandate that even more difficult decisions be made in months and years ahead. For the past four years, you have been involved in the matters that affect our daily lives, traffic congestion, intense housing

and commercial development, proposed tax increases, funding law enforcement and preserving the nature that makes Seminole County so appealing to so many people.

In matters affecting District 5, you have set the pace for the entire Commission in looking beyond the immediate and considering the future.

I am convinced that your decisions, as County Commissioner, have been prompted by your concerns for the citizens of all of Seminole County. I firmly believe you are a man of high moral and ethical fiber and that the voters of Seminole County would be well advised to elect you to the County Commission for another four years.

Narrow viewpoint turns Crews against West for Commission

To the editor:

A few days ago, I received the Florida Christian Coalition's "2000 Voter Guide" for the October 3 run-off election. Among the issues listed for Seminole County District 5 race between Daryl McLain and Bob West was the public decency ordinance to prohibit complete nudity in adult businesses. I am confused by the supposed relevance of this item as this "issue" has already been successfully addressed through public referendum, a strategy wholeheartedly endorsed and championed by Commissioner McLain. Although both candidates responded that they should support this type of leg-

islation, a notation is made that McLain voted against this ordinance in 1998. What the Coalition does not tell voters is that Commissioner McLain voted against enacting the local ordinance because he knew legislation imposed through referendum would provide a stronger defense against subsequent litigation. As a longtime resident of Seminole County, I appreciate and applaud the invaluable foresight exemplified by Commissioner McLain in this issue. The narrow viewpoint of his opponent offers a poor comparison. My vote is cast for Daryl McLain.

OPINION

Readers show support for McLain

To the editor

We are very proud of all the accomplishments that our son, Daryl McLain has done during the time that he's been a Commissioner of District 5. He works hard for the people of Seminole County with honesty and integrity. We are of six generations in this county.

Working with our Mayor, Daryl was able to keep adult entertainment out of Sanford. Daryl is a Christian and family man with a son and daughter. Why would he want such as that in our community?

We know Daryl McLain well and it makes us proud to know he's his own man. He runs on his name and reputation and does not sling mud or tell lies on his fellow candidates.

Daryl is going to be surprised when he sees this in print. We respect and love him very much.

All we've said is true and from our viewpoint. This county is going to be in a sad situation if Daryl McLain is not reelected.

Daryl, good luck in this election.

Jean and Ralph McLain

To the editor:

For the last five years your school property tax rate has gone down. And for the last five years money to build schools has increased. Why? Because Seminole County's Economic Development Program has added some \$300 million in new office buildings to our tax base. When business shares the tax burden, homeowners get relief.

In spite of this enormous benefit to the taxpayers of Seminole County, Bob West wants to end the program! Please don't let him do this.

Commissioner Daryl McLain is a proven leader who supports the kind of growth that is good for taxpayers and good for schools. Please join me in voting for Daryl McLain on Oct. 3, 2000. Our children are counting on it.

Sincerely

Larry Furlong

To the editor:

The Woodlands Elementary community residents were very pleased with the quick and positive response of Commissioner McLain reacting to the traffic safety issues on E.E. Williamson Road.

Daryl's effort coupled with District Commissioner Randy Morris opened up a line of communications with county engineering staff that enabled warning lights for students that previously did not exist.

An elected official that is as responsive to citizen concerns as Commissioner McLain is a tremendous asset to this county and needs to remain in office.

I thank you for this concern and showing the residents of this area that they have a friend in Daryl McLain.

Sincerely

To the editor:

First let me commend you for your recent editorial about the upcoming County Commission run-off election for District 5. The record clearly shows that Daryl McLain has served Seminole County with pragmatism and responsive leadership. From responsible growth management and ecological foresight to the promotion of economic development and sound transportation solutions, he has worked diligently to promote the best interests of Seminole County.

When voters go to the polls on Oct. 3, they need look no further than the proven candidate — Daryl McLain

To the editor:

Commissioner McLain was there to hear the concerns the people of Sweetwater had about five-laning the road in front of Sabal Point elementary school. He immediately recognized the plans as they stood would not solve any problem, just move it a block, and spend \$1.3 million doing it. He helped us immensely and came out of district to do it. To me this means he cares about all of Seminole County, not just his district.

September 22, 2000

Dear Fellow Republicans:

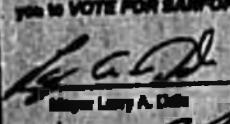

On October 3, two candidates, Commissioner Daryl McLain and Bob West, will vie for the Republican candidacy for the District 5 County Commission seat. With such a weighty decision close at hand, your participation as informed, conscientious voters is crucial.

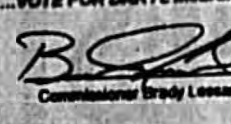

As your elected representatives, we are unanimous in our concern over the most salient issues involved in the upcoming run-off election. Daryl McLain is a lifelong resident of the City of Sanford; there is no doubt that he knows and understands the needs of Sanford and District 5. On the contrary, Bob West doesn't live in District 5, and is not familiar with the area or the issues. As a result, Mr. West has relied on misinformation from a special interest group to supplement his deficit of knowledge. In November of 1999, a referendum to reauthorize our cherished, historic, traditional downtown was overwhelmingly approved by the citizens of Sanford. At the same time, additional downtown was overwhelmingly approved by the citizens of Fort Mellon Park would be enhanced and remain as a public park. Yet Mr. West has aligned himself and his campaign with this small special interest group in their publicized distortion that the park is for sale for commercial development.

Commissioner McLain is a strong proponent of preserving the past while planning for the future to sustain the highest quality of life for our residents. Not only has he been directly involved in the Community Redevelopment Agency for Sanford's Historic District, the purchase of environmentally sensitive lands and the designation of preservation areas throughout the County, Daryl McLain took the lead in creating Highway 17-52's Redevelopment Planning Agency, and was instrumental in developing the State Road 46 Zoning Overlay to ensure scenic gateways into Sanford.

For the past eight years, Daryl McLain has been a champion for Sanford's past and her future. He shares in the legacy more deeply evidenced than through his consistent support of such projects as the community swimming pool at Seminole High School, restoration of the Post 71 and the Historic Sanford Memorial Stadium, the fight to eradicate ridges from the landscape, the Lake Monroe Sewerage, preservation of the seacoast, and continued expansion of both the Central Florida Zoo and the Orlando Sanford International Airport. Mr. West is on record as being opposed to County funding for these type of projects. Commissioner McLain strives to bring quality development that provides decent employment opportunities for his neighbors while bringing unbridled growth from our community. Mr. West is opposed to incentives to bring jobs to Sanford. Commissioner McLain has served us with honesty and diligence. Mr. West has attempted to assure our votes with false information.

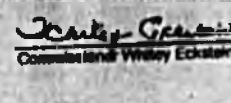

On October 3, your vote will forge the future of Sanford and Seminole County. We urge you to VOTE FOR SANFORD...VOTE FOR DARYL McLain!

Residents will vote for incumbent commissioner

To the editor:
I'm writing this to say what a fine and caring man that Daryl McLain is. I took care of his grandmother in his home. We would watch the Commission meeting on T.V. and I could tell what a good leader he is. This would be the best time of her day two times a month. When a man cares enough to have his elderly grandmother in his home and show her so much love. He's a good man in my eyes.
Please vote for Daryl McLain on Oct. 3. I am. I know him, and he's the one to take care of the business in this county. He treated me like one of the family.

To the editor:
Over the past eight years, Daryl has developed a full understanding of the difficult issues facing Seminole County including growth management, storm water management and conservation issues. His knowledge and experience make him the best qualified candidate to lead the county for the next four years.

Fred Harden

To the editor:
In Oct. 3's run-off election between incumbent Commissioner Daryl McLain and Bob West, voters in Seminole County must decide between a responsive public servant and a dogmatic campaigner. Which is better, the diligence of objective decision-making or the bias of ultra right-wing conservatism? Do we want proven leadership or a decided lack of experience? For me, my family, neighbors and friends, there simply is no choice; on Oct. 3, Seminole County residents must vote to keep Daryl McLain!

Sincerely,
Monica Anderson

To the editor:
Commissioner McLain has been very accessible and effective in helping our church navigate the sometimes frustrating obstacles involved in building our new church facilities in northwest Seminole County.

Over the past dozen years, the name of a time honored Irish traditional jig has become equally well known as the name of the most engaging ensemble in Irish music: Cherish the Ladies. They have grown from a one-time concert concept to an Irish traditional music sensation, literally the most successful and sought-after Irish-American group in Celtic music history. Organized by folklorist/musician Mick Moloney and sponsored by the Ethnic Folk Arts Center and the National Endowment of the Arts, they began as a concert series featuring the brightest lights in Irish traditional music. Through initially the group won recognition as the first and only all-women traditional Irish band, they soon established themselves as musicians and performers without peer and have won many thousands of listeners and fans in their music. Cherish the Ladies are absolutely unique in their spectacular blend of virtuosic instrumental talents, beautiful female vocals, captivating arrangements and stunning step dancing. They are simply a powerhouse group!

They have appeared on CBS This Morning, Good Morning America, Evening at the Pops, PBS and National Public Radio in the United States and on BBC and RTE radio and television overseas. At the Summer Olympics in Atlanta, they were chosen to represent Irish music and culture at the Official Cultural Olympiad.

addressed. The concept of a youth commission was taken to The Seminole Vision on July 6 and on July 14, it was established.

Youth represent 24 percent of the county's population, Evans said. The quality of life for youth is influenced by a wide-range of issues, opportunities, pressures and challenges; including, but not limited to recreation, literacy, safety, values, communication, prejudice and education.

The Youth Commission was established to serve as a community advocate and catalyst in identifying and promoting services and opportunities for youth, Evans said. The Commission will provide continuous and on-going assessment of the variables that affect the quality of life for youth in the county.

The Commission will encourage partnerships, collaboration and cooperation between and among the various private and public resources that affect youth in order to strengthen the quality of life for the county's children.

Evans said.

Durbin, her presentation, Evans described a situation where a 14-year-old Haitian boy was in court for numerous offenses.

"He had signs of mental illness, he was a sexual predator, and when he was released from the hospital, he broke out all the windows of his home," Evans said. "The judge's question was 'where do we place the child?' There were no recommendations.

"There is a dire need for the Seminole County Youth Commission."

Currently, members of the Youth Commission Steering Committee are seeking endorsements from various governmental groups, including city commissions, the county commission and chamber of commerce boards. They are also seeking funds from governments, businesses, foundations and grants to fund specific initiatives.

In November, 15 people will be appointed to the Youth Commission by the board of The Seminole Vision, and an advisory committee, consisting of youth, parents and youth-related service providers, will be developed.

People interested in serving on the Seminole County Youth Commission should call The Seminole Vision co-chairs Diane Parker at 407-333-4748 or Carlton Henley at 407-665-7201.

Once established, the Youth Commission will focus on various activities, including a comprehensive research effort designed to document issues, concerns and needs of youth within the county. In November, it will facilitate a community-wide meeting involving youth, parents and organizations that affect youth.

Next year, the Youth Commission plans on combining and analyzing its research to develop a website incorporating its findings and providing information on youth services within the county.

"I hope we will find every agency and service related to youth in Seminole County and post them on the website," Evans said.

Bankhead said, "The purpose is not to send more juveniles to the adult system, but to prevent the cause of their going into the adult system."

The state attorney in the judicial circuit where the juvenile is arrested does have the discretion to make an exception if he decides there are "exceptional circumstances" that warrant trying the 16- or 17-year-old as a juvenile. In addition, the 10-year mandatory sentence for having a gun while committing a crime kicks into effect only if the juvenile has had prior serious contact with the juvenile justice system.

Sanford OKs pooper-scooper law

By Dan Ping
Editor

SANFORD — Pet owners beware: Sanford now has a new pooper-scooper law.

City Commission approved the new ordinance Monday night, making it against the law for any pet owner "to allow their animal to defecate in any park and requiring pet owners to be responsible for prompt removal and proper disposal of any animal waste."

Several residents questioned the need for such an ordinance and wondered how the city intended to enforce it. Commissioners agreed the ordinance was intended as an informational warning.

"We don't intend for officers to patrol the parks looking for violators," said Commissioner Randy Jones. "This is more for habitual offenders."

Officials from the city's code enforcement department will handle enforcement, and Mayor Larry Dale said residents who have complaints about violators should contact City Manager Tony VanDerworp.

In other business Monday night, the commission:

- Adopted Resolution 1855 supporting Seminole County referendum on Nov. 7 to issue \$25 million in bonds to build trails, including the Lake Monroe Riverwalk as a Showcase Trail. Showcase Trails are considered the county's top priority projects.

- In 1990 Seminole County residents approved a \$20 million bond to fund the purchase of environmentally significant lands. If approved, the Nov. 7 bond issue will expand the original natural lands referendum to connect some 56,000 acres of land with more than 100 miles of hiking, biking, and horseback riding trails. Many of the proposed trails are in Sanford, and the trail system will link Sanford to other areas in the county.

- Adopted resolution 1856, an agreement between the city of Sanford and the Florida Department of Transportation (FDOT) for designing the Lake

Monroe Riverwalk. The agreement stipulates the city must complete the design for the Riverwalk and adjacent portions of the seawall by June 2002. The city will provide \$83,000 of in-kind services, and FDOT, using federal grant money, will fund \$500,000 for the consultant engineering/architectural team.

- Repealed Ordinance 3386. The ordinance prohibited lighting that illuminated property other than where the lighting device was located. It was intended to prevent lights that might be a nuisance to neighbors; however, code enforcement officials said there were difficulties enforcing the ordinance. In addition, city staff said the law was being abused by neighbors who might have unrelated disagreements with the property owner.

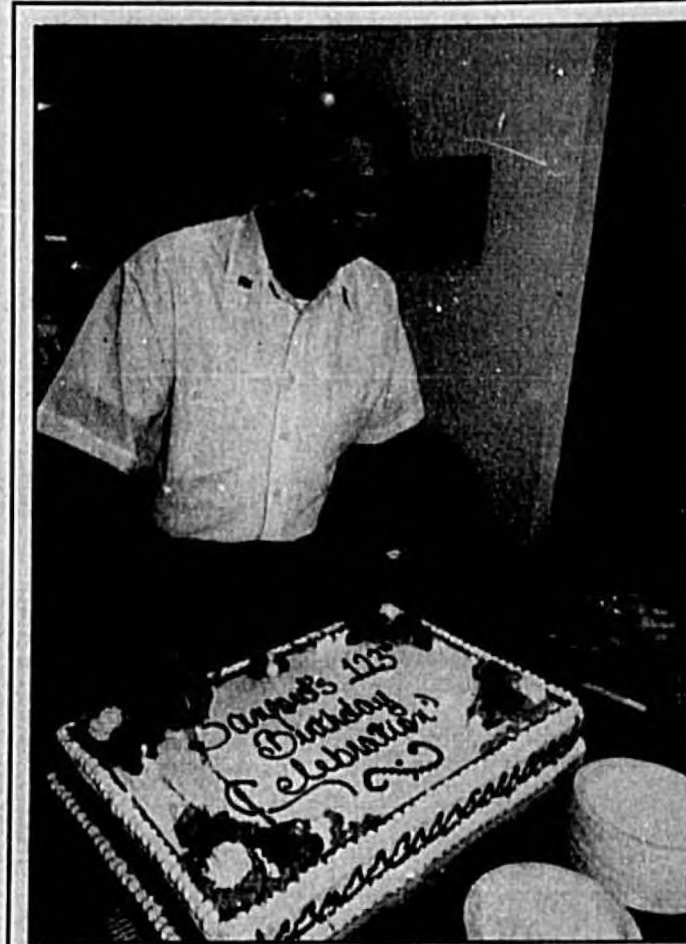

- In one case, a senior citizen, on the advice of law enforcement officials, installed lighting to provide for property and personal security. An ongoing feud

between the citizen and a neighbor led the neighbor to file a complaint. Commissioners agreed such issues are better resolved through the civil court system and indicated other provisions in the code book allow for enforcement if lighting is excessively bright.

- Approved a second reading of an ordinance to annex 1.8 acres between SR 46 and Canal Road, and between Sewell and Rinehart roads.

- Approved a first reading of Ordinance 3580 to rezone a portion of land between East Lake Mary Boulevard and Pine Way, and between Andrews Road and Park National Drive from MI-2 (Medium Industrial) to PD (Planned Development) single-family residential.

- Approved a preliminary subdivision plan for Arbor Lakes, located on the Burke property at 2200 Oregon Avenue. The approval is based in the plan meeting the requirements of the approved master plan and standards for consideration, as well as a final Engineering Plan approval.

Historical Society celebrates Sanford's 123rd birthday

Tom Brown of the Sanford Historical Society cuts a cake commemorating the 123rd anniversary of the incorporation of the city of Sanford. Three of the town's early settlers, Noble A. Hull, Roberts B. Rich, and T. Pearson, posted a notice on Aug. 30, 1877, requesting all registered voters in the proposed city limits meet on Saturday, Sept. 29, 1877, to "select officers and organize a Municipal Government." At that date, T. Pearson was elected mayor. Voters also elected R.B. Rich, A.C. Martin, A. Nilsson and E.S. White as aldermen. A five alderman named Charles was also elected, but his last name is illegible on the original incorporation documents. The city limits began at the lakefront at Sanford Avenue and extended south for 2 1/4 miles; then west for 2 1/2 miles; then north to Lake Monroe; then east to the starting point.

Sanford's new bank, but only temporarily

Location: Community National Bank of Mid-Florida is to be located at 500 West First Street in Downtown Sanford. The structure, known as the Rozier Building, was the former home of ABBA Travel Agency.

Contractor: Community National Bank of Mid-Florida President Michael Scures said there was no formal contractor. "We're just doing some renovation of the former structure at this time. The temporary facility is owned by Rozier properties."

Completion Date: The new facility is scheduled to open the first

week in October. Scures said it could be open by Tuesday, Oct. 3.

FYI: The bank has \$29 million in assets. With its main office located in Lake Mary, Scures said this will be the first branch bank. "It's only going to be temporarily," Scures said. "We are planning to have a permanent facility directly across the street from this location, (413 West First Street

in Sanford), and we hope to be able to open that within six months." He said the new facility across the street will allow the bank to have drive in service, which will not be available at the temporary location.

Missy Pacheco will serve as the new branch manager. Bob Douglas is Chairman of the Community National Bank of Mid-Florida Board of Directors.

Scures has also recently recruited two loan executives which he said will help spur the expansion efforts in Sanford. The two are Jerry H. Johns and Augie Yaldima. Johns will be senior vice president of loans, Yaldima will be vice president of loans.

Community National Bank of Mid-Florida will open its first branch bank this coming week at 500 West First Street in downtown Sanford.

Business Notes

Grand opening
The Huntington National Bank opened its new banking office in Oviedo Friday. The facility is located at 997 West Broadway (SR-426). The facility features full service banking for consumers and commercial customers.

The winner is...
Margaret Bonamassa of Arvida Realty Services, Longwood, was the big winner in a recent realtor sales competition at Alauqua Lakes in Longwood. The six month competition ended Aug. 31 and produced more than \$18 million in realtor sales. Bonamassa was the top producing agent, beating out some 30 other realtors who entered the competition. Bonamassa's sales resulted in the grand prize, a 2001 Jaguar S-Type.

School construction
The team of Ardaman & Associates, geotechnical engineers, has been busy with school construction in various parts of Central Florida. In Seminole County, Ardaman began construction materials testing services for the construction of Bentley Elementary School in Sanford. The company is also working with school boards in Volusia, Osceola, Brevard and Osceola Counties.

New lease
The Pizzuti Companies, a real estate development and portfolio management company recently leased 4,000 rentable square feet to Legg Mason Wood Walker, Inc., on the third floor of the 901 International Parkway Building in Heathrow International Business Center. Legg Mason Wood Walker, Inc. plans to move into its new regional office in early November, 2000.

Business expansion
Tri-City Electrical Contractors has turned to Harkins Development Corporation, a Lake Mary based builder and developer to expand its Altamonte Springs headquarters. Harkins originally built Tri-City's existing 34,000 square foot office and will now handle the design of an existing 11,000 square foot warehouse into office space and construct a 2-story 6,000 square foot addition.

Featured panelist
Roger Soderstrom, owner of Stirling International Realty, Inc., with offices in Alauqua, Heathrow, Seminole Towne Center and Winter Park Village, was a featured panelist recently at the Florida Broker/Manager Profitability Conference in Palm Beach Gardens. He was invited to appear to describe innovative uses of interactive digital communications in the marketing and sales of residential real estate. Soderstrom pioneered interactive displays at the Stirling International Real Estate Showcase Center on Lake Mary Blvd. at the entrance to the Heathrow International Business Center.

New Longwood manager
Michele Kelley, a title insurance executive with six years residential and commercial experience in the Central Florida area has joined Fidelity National Title as branch manager for the company's direct closing operations in Longwood. Kelley will oversee a staff of three and run the day-to-day operations of the company's Sabal Point office that currently services the north Seminole County market, said Central Florida Region President Daniel A. Wallace. Before joining Fidelity, Kelley spent the past three years as branch manager/escrow officer for the Longwood branch of Central Florida Title.

Eckerd Corporation plans grand-opening event for new store

By Nick Pfeiffaut
Staff Writer

SANFORD — The Eckerd Corporation is hosting a Grand Opening Celebration Sunday, Oct. 1, from 9 a.m. until 6 p.m. The new facility is located at 3798 Orlando Drive in Sanford, at the intersection of Lake Mary Boulevard.

Our newly relocated free-

Sanford's new Eckerd

Location: 3798 Orlando Drive in Sanford
Hours open: 8 a.m. until 10 p.m., Monday through Saturday, and 9 a.m. until 6 p.m. on Sunday.

standing store focuses solely on the customer's convenience with a drive-through pharmacy

window, an Eckerd Express Photo Center with one-hour processing, easy parking, out-

standing selections of merchandise and a Food Mart with comprehensive selections of convenience foods, snacks and beverages," said Tom Ordemann, Regional Vice President.

Eckerd Corporation is a wholly owned subsidiary of J.C.Penney Co., and Ordemann reminded customers that the Penney credit card may be used

as a payment method at the new Eckerd store.

For the special opening day event, customers will be vying for prizes such as chances to win one of three four-day/three-night cruises on Norwegian Cruise Lines.

Store hours for the new store will be 8 a.m. until 10 p.m., Monday through Saturday, and 9 a.m. until 6 p.m. on Sunday.

People on the move

Florida Solar Technology, Inc., of Sanford, has appointed two new experienced sales associates. President Skip West said he has appointed Nathan Hallet, with over six years of sales experience, and Stephen Polster, with ten years of experience, to the new positions. West said he plans to increase the sales staff even more in the next 30 days.

Holiday Builders has announced the promotion of Mark Bowes to Regional Manager of its newly formed North Region. Bowes will oversee the company's Deltona, Ocala and Palm Coast Divisions.

Community National Bank of Mid-Florida has named former executive vice president Michael Scures as president, pending approval of the Office of the Comptroller of Currency. Scures replaces Bill Barwick, who had been hired for one year to steer the bank through its regulatory approvals and official opening. Mike Hattaway, chairman of the bank's board of directors said Barwick was instrumental in the bank's formation.

Scures joined the Community National Bank as senior loan officer and was promoted to executive vice president.

Farmer Baker Barrios Architects, Inc. in Maitland, has appointed Marcia M. McCown, interior designer and studio director, and Joan E. Thyer, director of marketing and business development, as associates.

McCown has over 17 years of experience in interior design, programming and space planning for a variety of public and private clients. One of her most notable projects is the award-winning renovation of the Main Street Confectionery Store located in Walt Disney World. Thyer has over 15 years of experience in Marketing and Business Development for the Architectural, Engineering and Construction industries. She is responsible for the development of Farmer Baker Barrios Architects, Inc.'s marketing department.

Florida Solar Technology, Inc., in Sanford has announced two appointments. Five-year veteran Dolly Champ has been named marketing specialist, and Laura Lewis has been named customer service manager. Lewis, a resident of Oviedo, has over 10 years experience in her field. Champ, prior to joining Florida Solar, was affiliated with Disney and Universal Studios.

Tournament

Continued from Page 1A
 Allcorp Easton of Tampa, Creed the grounds crew was at the top of its game. "The playing facilities are in excellent shape, and I think this is an excellent venue for a continuing Super Nationals tournament," Kirk said. "This is a very well run tournament at the Super level. I have been managing at this level for 12 years, and everyone involved made us feel welcome instead of being spiteful and antagonistic. ... Kudos to Tom Farnsworth (Recreation Superintendent), his staff, and the ASA for running a first-class tourney at a top-notch facility."

"We like the Florida location" of the tournament, wrote Mike Glasscock of Team TPS. "The facility has improved every year, and the hotel accommodations have also improved with greater selection."

"This is a terrific tournament with a great facility," added Jerry Angel of Team Worth. "Tom Farnsworth and his staff does a great job."

This was the fourth year Sanford hosted the tournament, and city officials plan to bid for a three-year contract during ASA's winter meeting. Albert said he plans to lobby ASA officials to keep the tournament in Sanford.

"I hope ASA will remember that the Sanford Recreation

Department was largely responsible for the resurgence of the Super division," Albert wrote. "Everyone involved, both the Sanford Recreation employees and the ASA staff, have done a truly outstanding job."

Tournament participants weren't the only ones with good things to say about the event. With an estimated 360 out-of-town guests in Sanford, city officials estimate the tournament provided about \$324,000 in extra revenue for area businesses.

"September is one of our slowest months of the year, and this tournament produced 215 room nights of revenue to our hotel," said Julie Hartline, director of sales at SpringHill Suites. "We are very excited about the renovation of the Memorial Stadium and look forward to more events there. ... We really enjoyed having the teams here and look forward to hosting more tournaments in the future."

Sam Santiago, general manager of the Holiday Inn Express in Sanford echoed Hartline's comments.

"Thank you for allowing our hotel to be the host for your ball team members," Santiago wrote in a letter to parks and recreation director Mike Kirby. "It was a privilege to be of service to you and your guests."

 crew of two emergency workers, one Paramedic and one EMT.

A recreational vehicle was rented to house the firefighters while a move was set up. Wednesday, Sept. 27, the crew was moved to the Seminole County Fire Station 13. They will be stationed at that location for approximately two weeks until a mobile home can be obtained and installed on fire department property.

Station 10 is to be torn down as part of a redevelopment project. Harris said in addition to the station, several homes

owned by a developer in the general area of the station, will also be torn down to make way for new construction.

The new fire station is to be built at State Road 434 at the Maitland Boulevard interchange. Harris said the new fire station could be developed, "possibly in a year or two."

"Meanwhile," he said, "citizens in the area should not notice any significant change in service during the move. All 911 centers have been notified of the change to make sure that the closest appropriate fire and ambulance apparatus be dispatched to an emergency call."

Florida's new area code in Brevard County is now 321.

Because Florida's communications needs are growing, area code 321 is now in effect for Brevard County. Starting October 1, you must dial 321 for your long distance calls to complete properly to the area shown on the map at left.

You may need to reprogram telecommunications equipment like speed dialers, fax machines, PBXs—virtually anything that dials numbers automatically (consult your vendor if you're not sure). If your area code has changed, remember to let friends, relatives, and business associates know. Local calling rates and seven-digit dialing* in Brevard County will remain the same.

For more information about area code 321, visit our Website at www.bellsouth.com/areacode. Or, call us at 1 800 964-7941.

*Local calls between Melbourne (321) and Sebastian (561) will need to be dialed using the area code and the seven-digit telephone number.

Police chase car thief

Herald photo by Tommy Vincent

Tom St. John of the Sanford Police Department dusts for fingerprints on a Pontiac Grand Am GT following a high-speed chase by Sanford officers, as well as officers from the Seminole County Sheriff's Office and the Florida Highway Patrol. The car was stolen by an unknown thief who ditched the car at the corner of Celery and Cypress avenues. The suspect fled the scene. Officers and K-9 units searched the area, but the suspect has not been caught.

number of clients and hours of operation for the soup kitchen. The settlement agreement stipulated Metts could operate Monday, Tuesday and Friday from 4:30 to 6:30 p.m. and a maximum of 50 people could be served each night.

Metts told the commission she was not seeking an amendment to the settlement agreement "because we don't feel like we need one." She said the agreement only "referred to meals for needy people, not people coming to a fund-raiser." Colbert advised commissioners that the agreement made no distinction between meals for the needy and meals for fund-raisers. He also noted the residents concern was focused on "traffic and the number of days traffic would be in the neighborhood."

Joe DeSantis, one of the seven residents who filed suit against the city, said his fellow plaintiffs did not want a special exception made to the agreement. "We don't want to split hairs," DeSantis said. "We would like to see the mediated settlement remain in force."

A number of residents spoke against allowing the special fund-raiser and said Metts could hold those events during the hours of operation outlined in the agreement.

Millard Hunt spoke in favor of Metts' request and accused the commission of engaging in "cultural warfare." Before Hunt could finish his comments, Commissioner Brady Lessard angrily cut him off.

"I said from Day 1 that poor planning on Ms. Metts' part would result in problem after problem," Lessard said. "For you to come up here and accuse us of class warfare is insulting."

Resident Diane Newton said the agreement with Metts was clear and asked, "Why is there a discussion about this? It just blows me away."

Commissioner Whitey Eckstein agreed. "The attorney has said we can't decide this issue," Eckstein said. "There's nothing to discuss. The residents don't want it changed. This discussion is polarizing the community, just like it has from the beginning."

Patriots score come-from-behind win

Dryden scores twice on key fourth-down plays

By Dean Smith
 Sports Editor

CASSELBERRY — Thursday night at Richard L. Evans Field, two football teams steeped in winning traditions squared off in a Seminole Athletic Conference battle that was worthy of that tradition.

But in the end the team that keeps building on its tradition, Lake Brantley, rose to the occasion in the crucial fourth quarter to pull out a come-from-behind

20-14 victory over a Lake Howell team that is trying to regain that winning touch.

"We're young this year with only about 15 seniors and only two or three that have played a lot before this year," said Lake Brantley head coach George Clayton. "But we keep telling our players that tradition doesn't graduate and seniors like Taylor (Ramsaur) Corey (Dryden) and Fernando (Fernandez) are showing good leadership."

"We're winning ugly right now, but we are getting better...slowly."

After a trade of punts, Lake Howell used its single-wing offense (no quarterback behind center) to confuse the Patriots

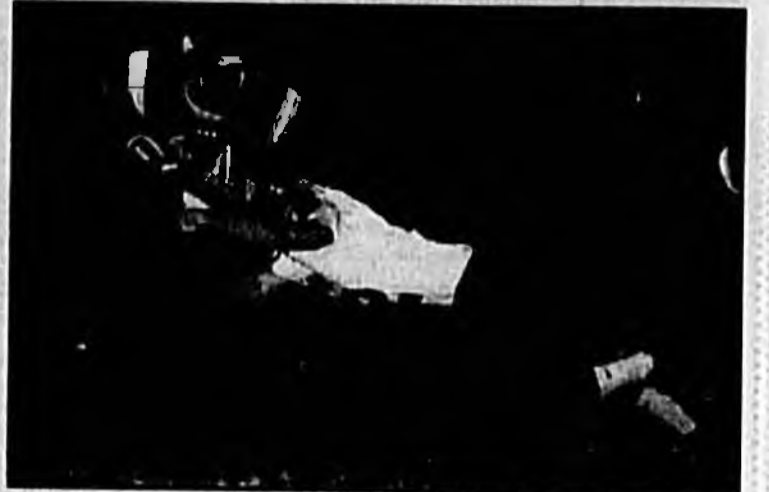

defense and went on 63-yard, 8-play drive to get on the scoreboard first.

A pair of Aston Wilson 8-yard runs and then a nifty fake and 31-yard pass from Wilson to Jonathan Vince put the Silver Hawks in scoring position.

John Williams then took over, going six yards on third and seven and then seven yards on fourth down to set-up Wilson's 4-yard touchdown run. The extra point try was wide left, but the home team was up 6-0 with 2:06 left in the first quarter.

Lake Brantley came right back with a beautiful drive of its own, going 89-yards on 10 plays to take the lead.

Special teams, defense help tribe break losing streak

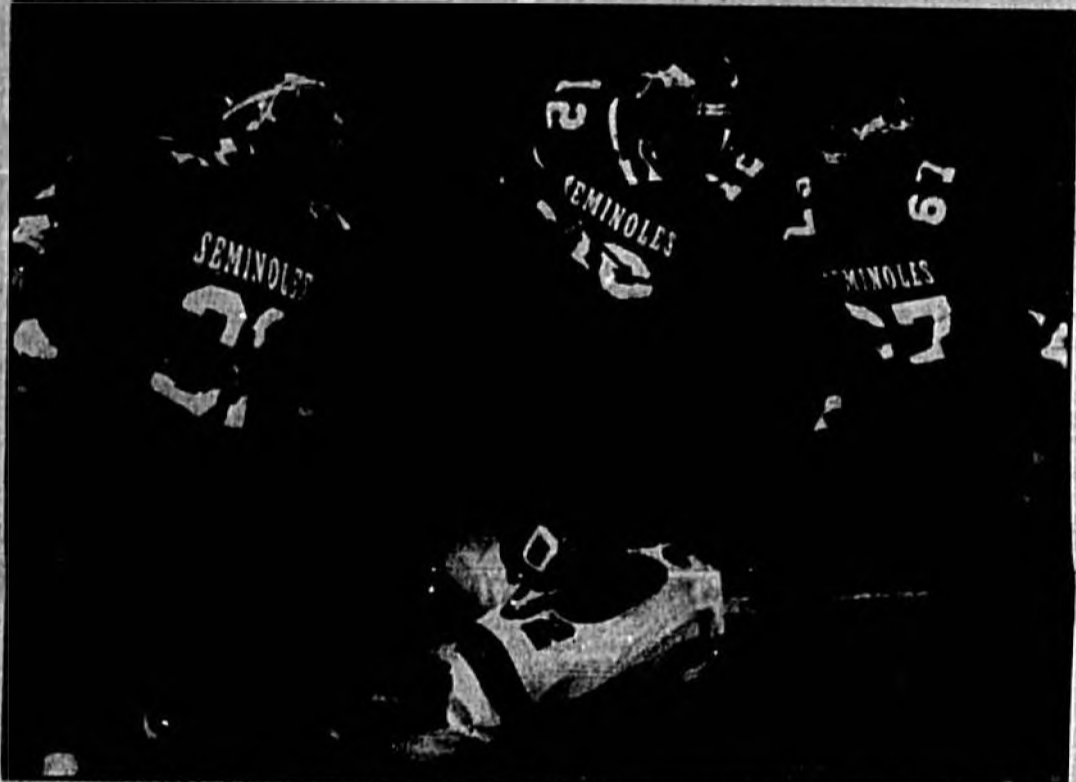

By Tony DeSormier
 Herald Correspondent

SANFORD — It's the hope of every football coach to get contributions from each of the sub units - offense, defense, and special teams - that make up his team. But there are times when one segment of the team makes it easier for the other or others.

On Friday night at Thomas E. Whigham Stadium, for example, Seminole High School's defense and special teams made things considerably easier for the offense, helping the Tribe to a 28-6 win over the visiting Oviedo Lions.

The win snaps a two-game losing skid for Seminole while it was the second loss in a row for Oviedo after starting the season 3-0.

Thanks to the special teams and defense, all four of Seminole's scoring drives Friday night started inside Oviedo territory. The four scoring drives required a total of 19 plays and covered a net of 121 yards.

Tim Hunter (12) leaps over Matt Ford (32) of Oviedo High School during Friday night's action at Thomas E. Whigham Stadium.

"That's what we preach all the time," said Seminole coach Jim Worthington. "We work hard on trying to do a good job on the kicking game. Defensively, we had a good scheme tonight and that helped us establish good field position for the offense."

One thing working in Seminole's favor was the limited availability of Oviedo kicker Steve Asby, who was

restricted to field goal and extra point attempts because of a bout of mononucleosis. As a result, Nick Tenekedes had to handle the kickoff chores while Brett Murphy did the punting.

Seminole, receiving Tenekedes' opening kickoff, returned the ball to the Oviedo 43-yard line and needed just 11 plays to push into the end zone. Willie Bennett (who led all rushers with 114 yards on

19 carries) scored the touchdown on a 3-yard run.

A recovered fumble early in the third quarter gave the Tribe the ball on Oviedo's 21-yard line. Bennett needed just one carry to convert the take-away into points, scoring at 10:52.

Less than two minutes later, the Seminole defense turned

LAKE MARY — Dan Sacco drove in seven runs as Dalli's Pizzeria rolled over Conklin, Porter and Holmes, 16-6, in a battle of unbeaten in the City of Lake Mary Parks and Recreation Department Men's Monday Night Slow Pitch Softball League at the Lake Mary Sports Complex last Monday.

Undefeated Knights of Columbus came back from a week off to drop Nice-N-Easy by the same 16-6 score, and Rick Moreland doubled in the winning in the bottom of the seventh inning as Dead Weight won its first game, 15-13, over Timacuan.

Dalli's Pizzeria leads the league with a 3-0 record with the Knights of Columbus (2-0), Conklin, Porter and Holmes (2-1), Kemco (1-1), Dead Weight (1-2), Nice-N-Easy (0-2) and Timacuan (0-3) trailing.

The league will play a tripleheader starting at 6:30 p.m. every Monday night at the Lake Mary Sports Complex.

Providing the offense were: Dalli's Pizzeria: four hits - Dave Stock (two doubles, three runs, two RBI); three hits - Dan

Cracker Swamp: A trail to the past

Greg Walker
 Special to the Herald

PALATKA — Tired of the Mouse ride and the crowded trails to his front door?

Tired of being parboiled, standing in long lines on hot asphalt with irritable and sometimes rude tourist, and the circus-like atmosphere.

If you have been fleeced enough, and had all the "fun" you can stand, pack your camera, video-cam and binoculars, and take a ride to Cracker Swamp Preserve in East Palatka. It's off the beaten path about 65 miles or so, north of Sanford city limits off Highway 17. The last mile into the preserve is down a narrow forest road that parallels a high masked fence, that hides the game filled woods from public view.

Key Scales, head outfitter, and his staff will be there to welcome you. The length of time and manner you will have to stand in line on arrival is about as long as it takes 20 to 25 people to walk up a wide staircase and take a seat in the Cracker Swamp tour buggy.

The guide introduces himself, quickly starts the engine, and off you go for a trip back in history through a northeast Florida wilderness full of hardwood hammocks, swamps, cypress ponds, palmetto scrubs and pine forest.

Cracker Swamp is a managed habitat for hunting. With excellent guide/drivers you will see Florida white tail deer, flocks of wild turkey, hogs, waterfowl, quail, dove and other small game. Herds of exotic black buck antelope and axis deer roam the preserve for viewing only. They are not part of the hunting program.

The guides will stop to point out native trees, plants, flowers and grasses, and supply the visitor with a complete history and background of the preserve, and stop for photo opportunities.

As the tour buggy makes its way across open woods, you may be able to watch an on-going quail hunt, and see some of the best bird dogs in the south work the fields.

Ram netters win the hard way

Lake Mary gets behind early, but rallies to beat Seminole High School

By Dean Smith

LAKE MARY — It's a good thing for Lake Mary that this match started late.

In a rare Friday match, two of the top girls volleyball teams met up at Lake Mary High School and a good crowd turned out for the Seminole Athletic Conference battle between Seminole and Lake Mary.

The match was supposed to begin at 6 p.m., but because of a three-game junior varsity match won by the host Rams, the varsity tilt did not get started until after 7 p.m.

And the Fighting Seminoles got off to a fast start behind Tara Wiggins and Michelle Cardel, jumping out to leads of 6-0 and 12-6.

That's when Lake Mary decided to start playing, and by the time the smoke cleared the Rams had won 24 of the next 28 points, including 20 points in a row at one point over the first and second games, and cruised to a 15-12, 15-4 victory.

"I guess the wake up call finally came when it was 12-6," said Lake Mary head coach Cindy Henry. "This was a good win for us. We were missing two starters because a lot of illness is going around the school and couple of players really stepped up for us."

"The girls are all capable of playing well, but when you have to change your normal rotation it can sometimes be difficult. I'm pleased because

the girls responded well. It also helped that Seminole didn't have its 'A' game tonight. They

Bucs need a win to keep title hopes alive

By Brady Lessard
Special to the Herald

Welcome to Week Five football fans. We've got a lot of things to talk about so let's get right to business.

Last week The Crystal Ball of Football released his patented FIVE-STAR-ETCHED-IN-STONE LOCK OF THE WEEK. I went with the Indianapolis Colts (-3) over the Jaguars and promised a blowout. Not only did the Crystal hit the target, I hit the bull's eye dead center!

The Colts scored three times as many points as Jacksonville, covered the spread by eight times as many points as they needed, and won the game by more than four touchdowns! Folks when I tell you I see a blowout on the horizon bring your camera, it's going to happen.

I appreciate all the calls and cards but remember, I'm just doing the job The Herald refuses to pay me for doing. I'll continue to work under these repressive conditions as long as I'm assured that you, the reader, continue to benefit.

Last weekend was a disaster for Florida as the Bucs, and of course the Jags, looked awful. Jacksonville had an excuse, the Colts were looking to spank someone and had the talent and crowd noise to do it.

Tampa on the other hand has nobody to blame but themselves. How in the world you give up complete control of a game in the fourth quarter is beyond me, but I want some answers. All the cry-babies that have been blaming Keyshawn all week need to zip it! Keyshawn wasn't playing defense as we gave the game

away. The Bucs need to get their act together before they once again let a season slip away.

The Dolphins looked decent as they beat the all-defeated Patriots, but will need a whole lot more to beat the Colts or my beloved Bills. I still haven't come to terms with the Bucs loss, let's look at the schedule and find some winners.

BALTIMORE (-8) AT CLEVELAND The Ravens look to continue the terror as the Browns return home for this one. Banks and the offense won't have a field day but should get enough to win. Couch has been a solid guy under pressure. Cleveland should be proud.

Ravens 13 Browns 0

BUFFALO (-1) VS INDIANAPOLIS This is the game of the week. Buffalo and Indy will settle once and for all who the best team in the AFC East is. The Bills are coming off an embarrassing loss to the Jets while the Colts are coming in after a short week victory over the Jags. Points will be scored in this shoot-out!

TOO CLOSE TO CALL

JACKSONVILLE (-10) VS PITTSBURGH Jacksonville will stomp the outmatched Steelers. Pittsburgh has never won in Jacksonville and that won't change in this one.

Jaguars 31 Steelers 10

DETROIT (-1) VS MINNESOTA Daunte Culpepper and Company look to remain undefeated as they travel to the Motor City. The Lions always seem to have something up their sleeve at home. The game will be close; but for some reason I have a feeling Detroit takes it.

Lions 27 Vikings 21

TENNESSEE (-5) VS NEW YORK The Giants will take advantage of the wounded quarterbacks in Tennessee and should get the win. The Titans had trouble with the Steelers last week, not a good sign. I like Ron Dayne.

Giants 17 Titans 10

ST. LOUIS (-17) VS SAN DIEGO The Rams could take the day off and still find a way to win this one. The Chargers are an embarrassment to the League and should have their franchise revoked.

Rammies 42 Chargers 10

MIAMI (-7) VS CINCINNATI Speaking of revoking franchises, the Bungles aren't far behind. This team has been a joke. I do however hope they beat the Dolphins. Miami's defense has looked good, and as their running game develops so should their passing attack.

Dolphins 24 Buncles 9

WASHINGTON (-2) VS TAMPA BAY Time for a gut check. The Bucs need to get back on track and the Deadskins won't make it easy. Washington has yet to show the fruits of all their spending, but this may be where you see it. Tampa will have their hands full on both sides of the ball as the home team does whatever it takes to win.

TOO CLOSE TO CALL

GREEN BAY (-5) VS CHICAGO The Packers got their groove back and should have little trouble disposing of the Bears. If Green Bay has any hope of running for the playoffs they must win a game this. Look for Favre to pull out everything he has as the Bears heads get the victory.

Packers 27 Bears 14

SAN FRANCISCO (-3) VS ARIZONA The Niners have played tough all year but continue to have trouble putting opponents away. Owens will be serving his suspension, but it won't hurt the pass attack. Two words, Jerry Rice. I look for the Niners to do their fans proud.

Niners 23 Cardinals 12

KANSAS CITY (-4) VS SEATTLE The Chiefs will take this one seriously, but may have spent their fuel beating Denver. Seattle has yet to prove that they belong in the upper deck of the NFL. Look for this one to be close with the loser considered out of the playoff hunt.

Chiefs 23 Seahawks 21

As all of you know, The Crystal Ball of Football had an exhaustingly accurate week last Sunday. Many of you called me worried that I wouldn't be up to producing another winner this weekend, and I appreciate your concern. However, as I have assured you in the past, my concern is for you, not myself.

Today I'm going with the SAN FRANCISCO FORTY-NINERS (-3) OVER THE CARDINALS as my patented LOCK OF THE WEEK. As I said, the Niners aren't as bad as you all may think, but the Cardinals are.

I'm now completely overwhelmed with exhaustion. My only plan now is to collapse on the couch and ingest football and plenty of fluids. My only comfort, due to The Herald's refusal to pay me, is the fact that I know my readers continue to profit from my prognostications.

Enjoy your football and remember, everything else can wait.

Swamp

Continued from Page 1B scattered about the near 1,000 acres, and game can be seen at anytime browsing through the lush plantings.

It is a quiet, serene ride that will remind any visitor with rural background of something in his/her past. And to others raised in urban surroundings, a refreshing vision of what once was, and still is in part.

The tour ends back at the preserve's rustic lodge sitting beneath an umbrella of huge moss-covered live oaks, and magnolias, for a lunch/dinner of southern barbecue, with all the trimmings. Dining beside a warm fire on the front grounds, guest are entertained by the Chuck Hardwick folk singers with a repertoire of cracker tunes and tales, picking guitars, banjos, mandolins, auto harps, and penny flutes.

It is an excellent trek back through Florida history — the Cracker Days — much like the history of nearby Seminole and Volusia counties, where for decades, ranches and woodlands were owned by family ranchers like the Lees, Yarboroughs, Kilbees, Becks, and Camerons.

"A lot of people don't have much opportunity to get out in the woods and see nature and wildlife," said Key Scales, head outfitter. "So much of the Florida woods are disappearing to development, and a lot of prime habitat is private property, that people can't enter."

"It is really a treat to watch a person see his/her first wild hog or deer," said Scales.

You may find yourself thinking about a return trip to Cracker Swamp Preserve to take in a day's quail or duck hunting. Maybe try your luck in the spring for a long bearded gobbler, or a trophy boar hog.

"This is going to be a good year, and we are excited about it," exclaimed Scales.

According to Scales, he and his staff have been working all summer clearing additional acreage for quail hunting, improving roads, and preparing

ponds for their duck hunting program.

"Mark Hayward, our upland game manager, has been working with his pointers and setters a minimum of three days a week," said Scales. "The rest of the time he is operating a bulldozer, mower and other heavy equipment getting the preserve ready for opening day."

"We all have worked long hours with surveying and clearing land, planting and maintaining food plots, repairing and improving fences and equipment," said Scales.

Our guides Tim Nearing and John Timney have worked with us, and kept a vigil on the movement and size of the deer, turkey and hog population.

"We have an excellent skeet range for hunters who like to get in some shooting time at clay targets," said Scales, "or ponds full of striped bass for outdoorsman who like to relax with a spinning rod, and have a good time practicing some "catch and release" fishing.

The duck program, called "Free flying Ducks," is the first in Florida, and should provide duck hunting enthusiasts with some exciting shoots. Cracker Swamp has a number of ponds and swamps. The preserve has connected the ponds through a series of irrigation ditches. With a reservoir, gates and irrigation pumps, the ponds can be flooded in a matter of hours if needed during dry periods.

"Most of the quail acreage is higher ground and drains to the ponds," said Scales, "and it's a much faster run-off than previously, so consequently the fields stay drier now. Before it took days for the water to drain, but we surveyed and changed some elevations."

Each pond is planted with rice and Japanese millet. At present the lush, thick, feed crop stands above knee-high, and will sustain easily the Mallard duck population this winter. There are also other natural seed and plants in the ponds for the ducks.

"Our deer season is Sept. 1 through Mar. 20," said Scales. "Our feed plots are rich in protein and minerals and the game is healthy. The deer, turkey and hogs are trophy game."

"I have never seen so many turkeys as I have this year," said Scales. "The droughts have contributed a great deal to their survival rate. Wet weather can be fatal to little poulters."

Quail season is Oct. 1 through April 20.

"Mark Hayward is one of the best upland game managers and dog trainers in the south," said Scales. "We had a very successful quail season last year, and with the upgrades we have made this year, we know this season is going to be even better."

"The lodge staff has everything ready," said Scales. "Kathy Lowe, our lodge manager, has the pantry, kitchen and freezers stocked and in order. She keeps the inventory, makes the schedules, phone calls, runs the town errands, and is one of the best cooks you will ever find."

Patriots

Continued from Page 1B

Josh Demateis went 18 yards on a third and five for a first down, then went 46-yards around end as the first quarter ended.

The Patriots then tried to ground it out, as Corey Andrade gained 2- and 13-yards, before Ramsaur gained two and Andrade one before Demateis was hit for a 2-yard loss, leaving Lake Brantley with a fourth and goal from the 4-yard line.

Clayton then went to his bag of tricks, having Demateis throw the halfback option to Dryden, who got open in the back of the end zone for the touchdown. Corey Kalish added the extra point and the Patriots had the lead with 9:12 left in the half.

Neither team was able to move the ball very much the rest of the half and the teams went to the lockerroom with Lake Brantley leading 7-6.

The Patriots got the ball to open the third quarter, but could only gain one yard and had to punt.

Lake Howell took over on its own 17-yard line with 9:39 left in the third quarter and ate up the rest of the period, and then some.

The Silver Hawks ran 17 plays, 16 on the ground, finally scoring on a 1-yard dive by Josh Hancock with 11:28 left in the fourth quarter. Wilson had 56 yards on six carries during the drive, including a 19-yard run on which he carried several Patriots defenders down to the 1-yard line.

Ivan Scott then bulled his way in from the three as Lake Howell made the 2-point conversion to take a 14-7 lead.

But Lake Brantley was not ready to be upset. Jamel Oliver took the ensuing kickoff at the seven and returned the ball to the 43.

Ramsaur then went 37 yards on the first play and the Patriots had a first down at the Silver Hawks 20.

Three plays netted eight yards and Lake Brantley lined up for a fourth down run.

But an illegal procedure call moved the ball back to the 17 yard line and things started to look good for the home forces.

But Dryden, who is quickly establishing himself as one of the top players in Central Florida, got open behind the defense and Ramsaur hit him in the end zone. Kalish added the extra point and the game was tied at 14-14 with 8:17 remaining.

Lake Howell took the ensuing kickoff out to the 31-yard line and looked to be in pretty good shape.

But a holding penalty on first down moved the ball back to the 21 and then the only real mistake of the game came as the

John Williams of Lake Howell dodges a defender in the Silver Hawks 20-14 loss to Lake Brantley. Williams finished with 45 yards on nine carries.

Silver Hawks tried to pitch the ball but there was no one where the pitch went and Fernandez fell on the loose ball to give the Patriots a first and goal from the six.

Ramsaur gained one yard on first down, then bolted into the end zone as Lake Brantley grabbed the lead with 7:35 remaining. The extra point try was wide right and the score stood 20-14 in favor of the Patriots.

Lake Howell started its next attack from its own 38 and quickly moved the ball 27 yards, 20 coming on a pass from Hancock to Brandon Marshall. But a fumbled snap lost nine yards and an incomplete pass left the home team with a fourth and 18 from the 44, forcing a punt.

Lake Brantley took over on its own 20 with 5:25 left on the clock, but never gave the Silver Hawks a chance to see the ball again, moving inside the Lake Howell 20 on 11 plays, 71 coming on nine carries by Ramsaur, who kept the ball on the option and made five first downs before kneeling twice to run out the clock.

"We seem to have something strange happen in every game we play," said Clayton. "This week it was Thursday game, last week a one-hour rain delay. It's kept us from being able to focus on the game and Lake Howell really gave us all we wanted tonight."

(Lake Howell) Coach (Mike) Blacigella and his staff are to be commended, if it wasn't for Taylor (Ramsaur) and a couple of big plays, we were headed for a big 'L'."

Lake Brantley is now 4-1 on the season and will look to go 2-1 in Class 6A-District 2 when it travels to Orlando to take on Colonial next Friday.

Lake Howell, which was coming off its first win in over two years last week, fell to 1-3 and will travel to Sanford to

take on Seminole in a Class 5A-District 4 game at Thomas E. Whigham Stadium next Friday. Both games will begin at 7:30 p.m.

just seemed to be a little out of synch."

It didn't start that way as Wiggins got a kill on the opening point of the match and then pushed the lead to 4-0 for the Tribe on a pair of service aces and a kill from Cardel on an assist from Emily Keysor.

Jessica Chick then proved that she can do more than dominate at the net as the 6-foot-3 junior won a pair of service points to give Seminole a 6-0 lead.

The Rams came back with three points to cut the lead to 6-3 and 8-6, but the Tribe got two service winners each from Wiggins and Chick to go back up by six points, 12-6, and stand just three points from a game victory.

After a pretty good chewing out by Henry, Bryn Mosler put down a kill to go Lake Mary going and after an ace by Kristine Good, served four straight winners to tie the game at 12-12.

After a couple of sideouts by each team, Jenny Davis took

over as the server for the Rams and won the final three points to close out the first game.

After the break, Davis resumed her serving duties and opened the game with an ace and then won four more points to give the home squad a 5-0 lead.

After a one-serve side out, Stephanie Loftin won two points, Angie Pressey won three points and Good won another to give Lake Mary an 11-0 lead before Cardel served an ace to break the 20-point string.

Cardel then won another point on a kill by Tracey Swaynos and Swaynos served a pair of winners to make the score 11-4, but it was only prolonging the inevitable as now the Rams were playing like a machine.

Yarah Otero won a pair of service points and Davis won another to bring the game to match point and Mosler closed out the win with a kill off an assist from Davis.

Davis and Mosler teamed up

exceptionally well for several kills. Davis finished with 14 assists, while Mosler had seven kills.

Lake Mary is now 11-5 on the season and has a huge matchup with state-ranked Winter Springs next Tuesday at home and then travels to Oviedo to challenge a very good Lions team on Thursday. Each match begins with the freshmen at 4:30 p.m.; the junior varsity at 5:30 p.m.; and the varsity at 7 p.m.

Seminole, which has played eight matches over the past two weeks, fell to 11-9 and is faced with three district matches next week.

On Monday the Tribe travels to Bunnell to take on Flagler-Palm Coast (junior varsity at 5 p.m., varsity at 6 p.m.) and then comes home to host Pine Ridge on Tuesday and Spruce Creek on Wednesday. Both of those matches have the freshmen playing at 4:30 p.m., the junior varsity at 5:30 p.m. and the varsity at 7 p.m. at Bill Fleming Memorial Gymnasium.

the ball back over to the offense at the Oviedo 47-yard line after stopping the Lions on fourth-and-four.

After moving to the 28 on three plays, a sack and a clipping penalty pushed Seminole back to midfield. Brad Locke then tossed a 50-yard scoring strike to Ramone Raines, giving the 'Noles a 21-0 advantage.

Andre Green set up the final score, picking off an Oviedo pass and returning the ball to the Lions' 10-yard line four minutes into the fourth quarter. A play later, Bennett scored his third touchdown, this one on a six-yard run.

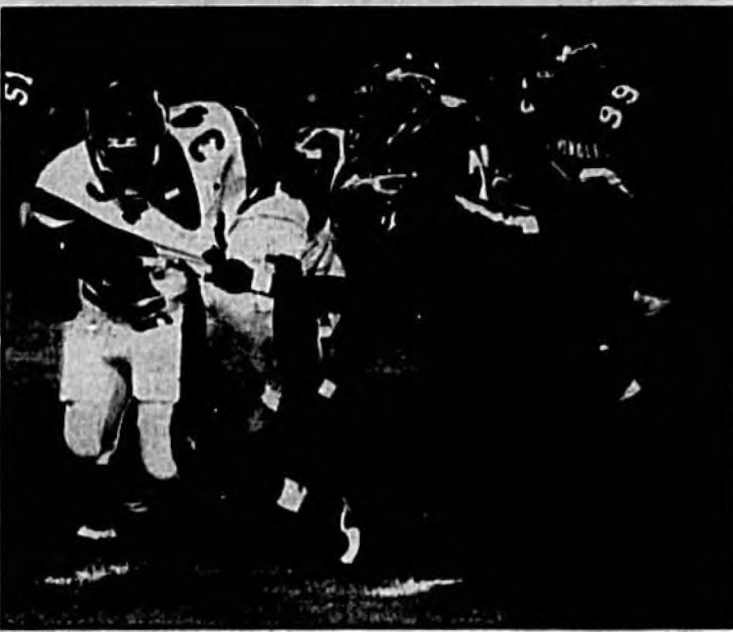

Oviedo avoided the shutout thanks to a 66-yard pass play from Christian Tenekedes to older brother Nick Tenekedes with 6:00 remaining in the game.

"I'm really proud of the way we performed tonight," said Worthington. "We had a tough day Tuesday (when Seminole staged its annual Super Jam talent show). It was the worst day of practice we've had all year, but we came back on Wednesday with a strong effort."

"We have to learn that we have to stay focused all the time. It doesn't get any easier for us. We have 10 good teams on our schedule and we have to be ready to go every night."

Seminole (now 3-2 and 2-1 in the Seminole Athletic Conference) plays again next Friday against Lake Howell in a game that has both district and conference ramifications. Oviedo (3-2 overall and in the SAC)

You can help:

- Stay in deep water channels. Avoid running your motor over seagrass beds.
- Wear polarized sunglasses.
- Don't discard trash into the water.
- Look for the manatee's snout, back, tail, or flipper in the water.
- Look, but don't touch. Please don't feed manatees or give them water.
- Call 1-800-DIAL-FMP or use VHF Channel 16 if you spot an injured manatee.
- Watch for posted speed zone and sanctuary signs.

OPERATE WITH CARE

Break out of your weekend routine

Getting the best life has to offer is as easy as getting on a new-for-2000 Sea-Doo® model. Innovations, such as the first sit-down and three-seater watercrafts, the first watercraft suspension, the first computerized theft-deterrent system, the first fuel-injected watercraft, and the first complete product line-up with sound reduction, continue to make us the industry leader, and this year's models continue that tradition. So visit your local Sea-Doo® dealer today and start getting some real action over the weekend.

The Central Florida Zoological Park kicked off its \$11.5 million Capital Campaign for the Zoo's Phase I redevelopment and expansion plan Monday evening with a gathering of more than 500 Zoo members and friends at the Zoological Park in Sanford.

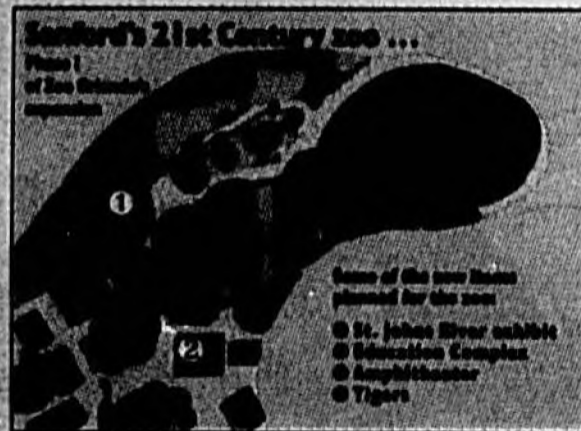

Former Central Zoo Director, Jack Hanna, who now hosts Jack Hanna's Animal Adventures, was named honorary chairman of the Zoo's Capital Campaign.

Hanna praised the work of the Zoo's Executive Director, Edward Posey, and his staff. "This zoo is as good as any zoological park I've been to," Hanna remarked. "A zoo can be on

Chief Tooley discusses past year with Sanford Police Department

Sanford Police Chief Brian Tooley took office on Aug. 11, 1999. Now, after completing slightly more than a year on the job, Nick Pietrafesa of the Seminole Herald questioned him about time served thus far as well his hopes and plans for the future.

Q: You are a Sanford resident now. How do you like the city?

A: My wife and I bought one of the historic Sanford homes, and we are really enjoying it. There are a lot of wonderful people here, and we really consider it home. I believe living in Sanford is very rewarding.

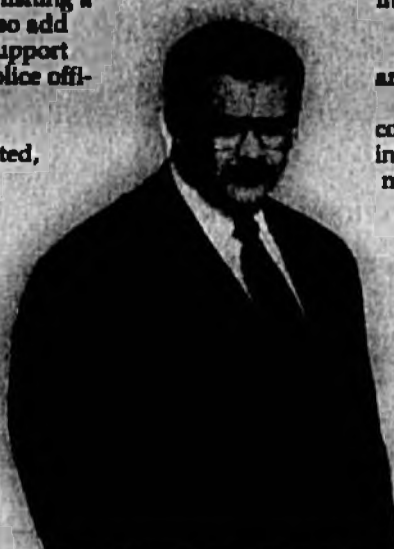

Q: How was it coming into your new job?

A: As you know, when I arrived, there was a consultant's report indicating that there were many problems in the Sanford Police Department. I've

been trying to solve as many of these problems as possible, and thanks to outstanding help and support from the mayor, city manager and members of the commission, we are accomplishing a great deal. I must also add the assistance and support from many of the police officers themselves.

Q: When you started, you indicated you may consider a Deputy Police Chief. Where does that concept stand at present?

A: I took on Mike McCoy, who was a retired Orlando Deputy Chief. He's been in the private sec-

tor for the past three years, but he's one of two Captains we have now. He is working extremely well with the other Captain, Mitch Tindel. Together they've done a great job and are really accomplishing excellent teamwork.

Q: To date, what have you done for which you are proud?

A: My number one mission has been and will continue to be, to make an impact on crime. That includes better officers, better training and equipment, and better investments in our city's future. There have actually been so many changes, and I believe we are now more upbeat. Our officers have a more positive attitude. We are obtaining more trust.

Q: And for the future?

A: I intend to concentrate on reaching out more, especially in the minority communities, to do whatever possible and necessary to serve all of the people of Sanford. I'm very proud of the Sanford Police force, and I know, together, we will be able to accomplish this as well as much more.

Lake Mary Historical Society searching for new members

The newly formed Lake Mary Historical Society has big plans for recruiting new members. Members of the group will be signing up new members at the Lake Mary/Heathrow Festival of the Arts Oct. 7 and Oct. 8. The group signed up volunteers at the September meeting. At this meeting, the group chose the second Thursday of the month as their regular meeting day. They also discussed coming up with a logo for the new Society. Mary Wolfe likes the idea of using one of the pictures of the museum when it was first built. At the time, there was a fountain in front of the building. Harriet Boyd suggested the Society look into getting a sister city in Sweden, since the first settlers in Lake Mary were Swedish. The next meeting of the Society will be 7 p.m. Oct. 12 in the Lake Mary Historical

Museum on Country Club Road.

Lake Mary AARP Gets Wild
It wasn't your usual crowd at the September meeting of the Lake Mary AARP. Things got a little on the wild side, thanks to the Central Florida Zoological Park. Docents from the zoo brought some of their residents for a visit. The wildest, but most familiar one for the residents, was a 4-year-old alligator. Being an alligator when you're 12-feet long means your only enemy is man. It's not always that way in an alligator's life. Out of 100 eggs a female alligator lays, only one will make it to the age of 5. As any child will tell you, alligators are fascinating animals. Researchers will also say the same thing. Alligators don't get cancer or have heart disease.

Are they dangerous? They can be. Of the 22 kinds of crocodilian, only two are serious dangers to humans. The Nile crocodile is responsible for about 300 deaths a year, the Indo-Pacific crocodile, about 1,000. In the last 50 years, there have only been nine fatal alligator attacks in the United States, all of those in Florida. Alligators are naturally afraid of humans. When you feed a dog, the dog recognizes that a human is giving him food. When an alligator is fed by people, he doesn't understand that a person is giving him food. He equates the person as food. That's why it is against the law to feed alligators. They lose their fear of humans and then they become dangerous. In honor of the Olympics, there was a visitor from Australia. The bearded dragon is a medium size lizard that eats mice, plants, flowers and some-

times smaller lizards. Like a chameleon, he can change color with his mood. The beard dragon is unique among lizards. He can retain his body heat much longer than other reptiles. There are still arguments over which animal is smartest, but most people who work with birds can tell you its no contest. The smartest birds in the world are African grays. Besides being able to mimic almost any sound he hears, grays can be taught to tell the difference between colors and shapes. The African gray that zoo volunteers brought to the meeting had not been taught to talk. The zoo believes animals should be, as much as possible, the way they are in the wild. Still, this African gray had picked up numerous sounds, including that of a squeaky gate near one of the animal pens. In other news, the AARP announced their annual Christmas luncheon. It's sched-

five acres or a zoo can be on 5,000 acres — it's how the zoo is run. Ed and his staff here are some of the tops in the country." According to Posey, the new Master Plan will enable the Zoo to nearly double the current collection of 400 animals and expand the existing Zoo site to 40 acres. Plans also will expand on-site environmental education programming to reach more than 75,000 students annually. Posey pointed out that the new redevelopment would focus on animal exhibit quality rather than quantity. "Every attempt will be made to keep the park as natural as possible," Posey said. "We're sitting on a very pristine piece of property, ... and we're spending considerable time and effort to make sure we don't compromise that with our development."

Last year, Posey said, more than 200,000 people visited the Zoo. After the completion of Phase 1, he estimated that the number will increase to more than 400,000. The new Zoo will be constructed in three phases. Phase 1 will include significant infrastructure improvement, including utilities, entry plaza, restaurant, gift shop, educational facilities, parking and roadway improvements. Heart of the Zoo (a four acre open park within the Zoo with a play area for kids and an active water feature), Swamp Forest exhibit "biome" (a bioclimatic community) and an Animal Care Facility (a 1,000 square foot treatment area and laboratory providing comprehensive on-site animal care). Phases 2 and 3 will concentrate on the Open Woodlands and Grassland exhibit biomes, Lake Florida, further roadway and parking improvements,

the Wild Florida exhibit biome, and additional service and support facilities. The entire cost of the three-phase expansion is estimated at \$35 million. Posey indicated that groundbreaking for Phase 1 may take place during the first quarter of 2001. "We're more than half-way to our phase one goal of \$10.5 million," Posey announced. So far, \$5,346,680 has been raised. The Master Plan project team consist of architect (The Portico Group, David Roberts, Principal in Charge), construction management (Wharton-Smith, Inc., David V. Hayes, Entertainment Division Manager, Project Executive), interpretive planning (Aldrich Pears Associates, Phil Aldrich, Lead Interpreter), planning and development (Waters, Pelton, Ostroff & Associates, Inc., Henry Arrowood, Capital Campaign Director).

Attempt to boost friend's ego leaves winner feeling guilty

DEAR ABBY: I just returned from the gym, and I feel terrible. My friend, "Norm," and I are experienced racquetball players, but only recently began playing against each other. Norm has never beaten me and is rarely able to keep the score close. I recently read about a man in his 70s — a scratch golfer — who occasionally loses to lesser players when he feels they could use an ego boost. Of course, the other player has no idea that he has been allowed to win. When I got to the gym this morning for my game with Norm, he began his litany of woes: divorced, estranged from family, barely ekes out a good living, etc. I immediately thought about the golf story, and decided that Norm would win today. The game started strongly in Norm's favor. I had my hands full

just trying to keep up with him. I had decided to keep it close — hit most of the shots to his strong forehand and avoid his weak backhand at all costs. Several times I had to rally to tie up the score. Before long, Norm had 20 points to my 15 (21 wins 11). At that point I did all I could to feed his forehand, not hit any tough shots and let him make the winning shot. He was unable to do so. Finally, after a long volley, Norm hit the ball to me in a perfect "kill" situation. Before I knew what had happened, the game was over. I had won again. Afterward, I told Norm he had played a great game and complimented him on his effort. However, my words felt hollow. I had won. He had lost. The opportunity was gone. I feel miserable. My competitive nature would not give up.

What now?
FEELING GUILTY IN ALBUQUERQUE
DEAR FEELING GUILTY: Now you continue playing racquetball with Norm and forgo throwing any of the games. Norm gave you a run for your money, and soon he's going to beat you fair and square. When he does, the victory will be genuine and the two of you should go out and celebrate. That is, if your competitive nature will permit you to enjoy another person's victory.

You probably never knew that there were blimps at the Sanford Naval Air Station! Well, this one was there on May 15, 1954, during open house on Armed Forces Day. Navy and/or airplane buffs will be able to recognize the other airplanes. This photograph is one of 12 old Sanford scenes contained in the 2001 Sanford Historical Society calendar. They are on sale at the Sanford Museum, Knights Shoe Store and from society members. This photo was made available by Frank Miron, airship captain.

'Hello Luncheon' heralds woman's club's fall season

The Board of Managers of the Woman's Club of Sanford Inc. hosts a "Hello Luncheon" annual event. The purpose of the event is for members to bring guests as prospective members who get a sneak preview of the club's inner workings and structure. This gathering is strictly social and reflects the epitome of hospitality and friendliness.

President Betty Jack was at the door to greet the members and guests upon their arrival at the clubhouse on Sept. 20. It was like old home week since some of the members had not seen each other during the summer. Everybody seemed to have a good time greeting, meeting and eating.

Before the luncheon got under way, the only order of business was the president explaining the club's background and reviewing the numerous community activities in which the women participate. The club is a very busy organization comprised of active and energetic women who like to

whistle while they work. Wilma Heaton, 90, the club's delightful doyenne, turned the calendar back to the days when women wouldn't be caught outside their home without a fashionable bonnet, and arrived all dressed up in a buttercup yellow outfit complemented with a matching hat. Vivacious Wilma kept those around her in stitches with her humorous and witty anecdotes and philosophy.

Past presidents attending were: Winifred "Bill" Gielow, Pat Foster, Ann Brisson, Bettye D. Smith, Hazel Cash, Marty Colegrove, DeLores Lash and Ruth Gaines.

A long-time club member, Peggy Lane, who has been living at Astor, was also in attendance. Peggy said she was so happy to be back in Sanford. But her happiness collapsed in tragedy and despair the next day when her grandson, Phillip Loveland, was killed in an accident in Sanford en route to Seminole High School. The club mourns the loss of this

Guests and prospective members attending include: Joan Eleanor, Cindy Schulman, Jean Rose, Mary Prokesch, Kathy Suhor, Marilyn Blythe, Debbie Low, Nikki Clark, Julie Wallace, Dr. Beverly Boothe and Marion Lind.

The first general business meeting and luncheon of the 2000-01 season will be held Oct. 4, at 11 a.m. The program will be presented by Dede Schaffner of the Seminole County Schools Mentor Program followed by a catered luncheon. Co-chairmen of the luncheon are Zeldia Siskind and Toby Troutman.

Zeldia Siskind will host the monthly Bridge Social at her home on Oct. 11, and Elisabeth Boyd will host the Literary Group at her home on Oct. 18.

Lisa Clontz Honored
The classy, dainty pink invitation to a bridal luncheon shower was a perfect match to the charming guest of honor, Lisa Clontz. Sharon Baragona and Ann Jackson were hostesses at the noon event on Sunday, Sept. 17, at Luigino's Pasta and Steak House

in Heathrow. Lisa, daughter of Dr. and Mrs. Frank (Jean) Clontz will become the bride of Stephen Mark Gelmine, son of Mr. and Mrs. Herbert Gelmine on Oct. 14.

"It was just lovely," Sharon said. "It was so good to see everybody and get together."

Before the luncheon, guests enjoyed a hospitality hour and socializing. They participated in a series of games and each wrote a blurb of marital advice in a book which the bride will surely cherish for years to come.

The guests were given a choice of four entrees from the menu and were served decadent chocolate cake for dessert.

Attending with the hostesses, honoree and her mother were: Darlene Horne, Miriam Doktor, Valerie Weld, Lisa Robertson, Susan Caola from The Netherlands, Dorothy Chandler, Sheryl Laws, Bunnye Bomar, Sandy Brooks, Frances Curt, Carolyn Nutter, Jami Nutter, Angela Baragona, Sally Sawczuk, Holly Richter, Kathy Shaw and Maria Gregory.

Good News For Margie
Margie Beine has a tip for all

the girls out there who may be exposed to a chronic case of the blahs. Rejuvenate at a spa. She and her husband, Bob, spent a recent few days at a relaxing spa at Safety Harbor, compliments of their daughter, Leigh Ann McNair of Chuluota.

Margie returned home and felt like a pampered princess after all the royal treatment. She said she was reluctant to go at first, but is glad she did.

It has been more than 10 years since Margie was diagnosed as a victim of Parkinson's Disease. The debilitating disease has left her crippled and with uncontrollable tremors.

However, she manages to get around with the aid of a wheelchair and walker.

Margie is a long-time member of Beta Sigma Phi sorority and attends many of the sorority functions.

The good news for Margie is she has a forthcoming appointment with a neurosurgeon to evaluate her as a candidate for an implant to control the Parkinson tremors. Margie is excited about the good news, but is a little nervous, naturally. Good luck, Margie!

Young Olympians

Language miscues all in fun

Go ahead and laugh at George W. Bush's difficulties with the English language. The GOP presidential candidate is not the first man of distinction to trip over words like indefatigable and illimitable — and subliminal.

Things like that happened all the time to the Rev. William Spooner, a British clergyman and warden of New College in Oxford.

Spooner was the man who made the verbal boo-boo famous. He has given his name to a form of loony speech known as "spoonerism," or the "transposition of the initial sounds in two or more words." An usher who is offering to show a person to his seat and says, "Let me sew you to your sheet" is uttering a spoonerism.

Spooner, who died in 1930 at the age of 86, was a nervous man who had trouble getting his words to come out straight.

After joining a couple in holy matrimony, he told the groom, "It is kismet to cuss the bride." At a gathering of members of Parliament, he invited everyone to give "three cheers for the queer old dean." He was referring to Queen Victoria and meant to say "the dear old queen."

After dinner at the home of a parishioner, he was offered for dessert a choice between pink tapioca and stewed figs. "I don't like the stink puff," he told his hostess. "I'll take the pig's fleas," meaning, of course, "figs please."

Max Hall, a collector of typographical errors (known as typos), writes in Harvard magazine, "The element of divine authority gives biblical misprints a special position because in all centuries there are those who take the holy scriptures literally as the word of God." How would such literalists have reacted to a typo in a 1631

Bible where the word "not" is omitted in the sixth

Commandment (Exodus 20:14)? The verse reads, "Thou shalt commit adultery." This Bible is known as the "Wicked Bible."

Every Monday, a pastor would dictate his sermon title for the following Sunday to the sexton, who made up the bulletin board in the front of the church. On a particular Monday, the minister told the sexton he would speak the next Sabbath on

"The Widow's Mite." The sexton heard the clergyman clearly enough, but he appears to have been unfamiliar with the story of the widow who was commended by Jesus for dropping a penny — all she had — in the collection box. In any case, passersby in front of the church were startled that week to read that the sermon topic on Sunday was going to be "The Widows Might."

Museum offers people glimpse at Geneva's past

The Geneva Museum opens its doors Sunday for its 2000/01 season, which is from Oct. 1 to May 31. The facility is open from 2 to 4 p.m. each Sunday and can also be opened through appointments for schools and other organizations. The building is located off of State Road 46 at 165 First St. in Geneva. Pictured at right, an old one-man fishing boat sits in the center of the museum's back room. It is the last of the original five custom designed and built by Fred Bradley and Frank Donovan in the 1820s.

Pictured above, Geneva Museum Chairman Lorraine Whiting tells a story about an old wedding dress, probably worn in the late 1800s. Far left, Whiting points out a glass bottle made at a bottling plant in Geneva. At left, a 100-year-old square grand piano donated by Annie Peters Wagnon is on display. It arrived in Geneva after being transported from New York City by wagon, train and boat.
