POPE TAKES STAND IN HIS OWN BEHALF ON MURDER CHARGE

Did Not Know Anything About Robbery Plan

DENIES CHARGES

AND ACCUSATIONS OF RAWLINS AND NOVITZKY AND ONLY WANTED HIS FEE.

(By The Associated Press)
JACKSONVILLE, Oct. 6.—Judge Gibbs denied the motion of the defense for instructed verdict and argument will begin at afternoon session of court.

JACKSONVILLE, Oct. 6.—Counsel for Pope resumed today when court opened argument on motion that the court instruct the jury to render a verdict of acquittal. The grounds upon which the instructed verdict was sought were that allegations of indictment against Pope was at variance, that Hickman was not killed during perpetration of robbery, that Pope was not present and that the state had failed to connect the defendant with the case. Both state and defense concluded presentation of evidence yesterday, Pope being the only witness in his own behalf. He denied all allegations of the state.

JACKSONVILLE, Oct. 6.—John H. Pope, local attorney, took the stand in his own behalf yesterday, at his trial on a charge of murder in the first degree. The defense announced it had no other witnesses and began its argument on a motion for an instructed verdict in favor of the defendant.

The argument had not been concluded when the case went over until today. The state rested early in the afternoon session.

Pope was on the stand less than an hour. He denied unequivocally that he had any knowledge of the impending robbery of the Palace theatre here the night of September 4 by Frank Rawlins, who shot and killed George H. Hickman, manager of the playhouse. Pope admitted he had very probably been at certain places described by state's witnesses. He denied that he had told Irwin and John Novitzky, two state's witnesses, when he borrowed their car on the night of the killing that he and Rawlins were going to "stick up" the theatre.

His story was to the effect that he was a victim of circumstances; he had defended Rawlins and W. C. Melton at his trial on a grand larceny charge. Melton was arrested in connection with the present case, but discharged after a grand jury investigation, and so far as known left the city immediately. Neither Rawlins nor Melton had ever paid him anything because of lack of money, Pope said. On the night of the killing Rawlins told him he had learned that Melton had received some money from his sister. He asked that Pope come with him and he would make Melton pay Pope something for the two of them. Rawlins had the impression that Melton, acquiring some money, had gone "under cover."

Rawlins suggested they get Novitzky's automobile, as he didn't know where Melton was. Pope obtained the use of the car and they drove to a downtown poolroom, the location of which is one block behind the theatre and one block west. Rawlins went in search of Melton and returned in a few minutes, saying he lived up the street about a block. They then drove to a point a little more than a block to the rear of the theatre. There Rawlins again sought to find Melton, while Pope waited. He waited a considerable time, he said, probably three-quarters of an hour or an hour, getting out of the car frequently, as he became impatient for Rawlins to return. Finally he drove back to the poolroom in an effort to learn what became of Rawlins. Later, he returned the automobile to its owner. He never met Rawlins again until they were arraigned together on the charge of murder. He disclaimed having ever before seen the pistol, mask and torn pieces of a towel, taken from Rawlins when he was arrested.

GOVERNOR HARDEE
WILL NOT CALL A
SPECIAL SESSION.

TALLAHASSEE, Oct. 6.—
(By The Associated Press).—
Governor Hardee today announced he had declined to call a special session of the legislature at this time as requested by citizens of Dade county, in connection with the issue of county school bonds. Judge Will H. Price, of Miami, conferred yesterday with the governor concerning the proposed session. It is understood that during the conference Price transmitted the proposal that Dade county would pay the expenses of the session.

U. S. ATTORNEY REMOVED FROM OFFICE IN KENTUCKY DISTRICT.

WASHINGTON, Oct. 6.—Thomas R. Slattery, United States district attorney for the northern district of Kentucky, was removed from office today by President Harding, on the recommendation of Attorney General Daugherty.

TO USE SHIPS TO BREAK UP BIG COMBINE

WORKING TO HAVE AMERICAN CARGOES SHIPPED OVERSEAS IN AMERICAN BOTTOMS

WASHINGTON, Oct. 6.—Idle Shipping Board vessels will be used by the United States Department of Commerce to combat an international combine by foreign-owned shipping lines to the detriment of American shipping.

During the war these companies accumulated vast reserves of funds. When the armistice was concluded they started their race to exclude American shipping from important trade lanes.

Thus far their operation have been successful. For while scores of Shipping Board vessels drifted idly at their moorings, American business men have been sending their cargoes abroad in foreign bottoms.

The Department of Commerce has countered by organizing a new division of transportation with E. S. Gregg as chief. Gregg now is actively at work.

Here's how he will attempt to set foreign shipping machinations at naught:

He will ask organizations of business men, such as grain growers' organizations, farmer's organizations and chambers of commerce, to cooperate with him.

Suppose the grain growers' association tells Gregg it wants to ship six shiploads of grain from Baltimore to England on a certain date, Gregg sees to it that six American ships are on hand at Baltimore to take the cargo.

And Gregg is inducing the Shipping Board to allocate its vessels to private concerns on the basis of volume of traffic at the port where the private lessee is located. Formerly the board allocated its vessels irrespective of traffic.

That meant that some ports were jammed with idle ships while at neighboring ports wharves were crowded with goods unable to find carriers or were being shipped out on foreign vessels.

Right now Gregg is making a thorough study of inland rail and water transportation, in its relation to foreign trade. He's trying to get foreign-bound cargoes to ports by the most economical routes.

The division may later take up the proposed waterway from the Atlantic to the Great Lakes which virtually would make Detroit and Chicago ocean ports.

Gregg also will delve into cables and other communication facilities bound up with foreign trade. Complaints of discrimination against American trade by foreign cable companies continue.

One of the Maryland's Huge Motors

This is one of the four electric motors supplying 7,000 horse power to one of the propellers on the U. S. S. Maryland. The mammoth motor is twelve feet high and weighs 12 tons.

YANKS TAKE SECOND GAME OF WORLD'S SERIES TODAY

(By The Associated Press)
NEW YORK, Oct. 6.—With one victory gained, the Yankees go back to the fray today with the Giants fully confident they can turn the tide their way. The Giants did not appear discouraged by the initial defeat and determined to win the second game and even the series. The Yanks and their followers believed they would win again by speed or bases, aggressiveness in field and opportune hitting, to say nothing of the kind of pitching Mays exhibited in blanking the Giants 3 to 0. It was in speed the Giants were reputed to have advantage over the American League champions. Even Manager Huggins, of the Yanks, admitted the Giants were faster but his team showed the most speed yesterday. Hoyt, Brooklyn Scholboy or Shawkey, may pitch for the Yanks today while the Giants may send in Nehf, Tony or Barnes. The Giants today will be visiting team while the Yanks will occupy the places of the home crew held by the Giants yesterday, this changing process involves shifting of uniforms and dugouts. There is not likely to be any change in the batting order of the two clubs.

POLO GROUNDS, Oct. 6.—The Giants primed their southpaw single gun, Artie Nehf for today's world series fray with the Yankees. The Giants also held in reserve their right hander, Fred Toney to shell American Leaguers who toppled the Giants yesterday in the first contest. "Can't say whether it will be Hoyt or Shawkey," said Miller Huggins, manager of

the Yankees as they came on the field for batting practice.

Indian summer day followed chilly night. Sun blazed in clear sky and fans in bleachers grateful for light westerly breeze.

Batteries for today will be: For the Giants, Nehf and Smith, and for the Yanks, Hoyt and Schang.

First Inning
First half first: Giants nothing.
Last half first: Yanks nothing.

Second Inning
First half second: Giants nothing.
Last half second: Yanks nothing.

Third Inning
First half third: Giants nothing.
Last half third: Yanks nothing.

Fourth Inning
First half fourth: Giants nothing.
Last half fourth: Yanks scored one run.

Fifth Inning
First half fifth: Giants nothing.
Last half fifth: Yanks nothing.

Sixth Inning
First half sixth: Giants nothing.
Last half sixth: Yanks nothing.

Seventh Inning
First half seventh: Giants nothing.
Last half seventh: Yanks nothing.

Eighth Inning
First half eighth: Giants nothing.
Last half eighth: Yanks scored two runs.

Ninth Inning
First half ninth: Giants nothing.
Final Giants no runs, two hits, three errors; Yanks, three runs, three hits, no errors.

BODIES OF COUPLE FOUND IN BATH TUB AT JACKSONVILLE

(By The Associated Press)
JACKSONVILLE, Oct. 6.—The bodies of Mr. and Mrs. Antonio Bancourt were found in a bathtub at 1917 Boulevard here this afternoon. First reports to police indicated drowning.

ARMED CONFLICTS SOURCE OF WORRY.

WASHINGTON, D. C., Oct. 6.—Armed conflicts now in progress and the continued threat of renewed clashes present, the chief obstacle to business conditions returning to normal throughout the world, according to a report made by the special committee of the chamber of commerce of the United States, returning from an extended trip through Europe.

K. K. K. VICTIM DEAD

WACO, Tex., Oct. 6.—With the death yesterday of Louis Crow from wounds received in a fight at Lorena Saturday night when Sheriff Bob Buchanan attempted to stop a Ku Klux Klan parade, announcement of the date when the county grand jury will be summoned to investigate the incident was awaited here. Neither district Judge R. I. Munroe nor County Attorney F. B. Tierney have indicated when the jury would be called.

TOO MUCH THEORY ON VOCATIONAL TRAINING SAYS THE DIRECTOR.

WASHINGTON, Oct. 6.—The present system of federal vocational training contains "decidedly too much theory" and needs the injection of practical methods, Director Forbes of the veterans' bureau declared in a report to President Harding made public today and covering his recent country wide inspection of hospitalization and vocational training facilities.

In making public the report Colonel Forbes characterizes the system as "unmistakably and absolutely wrong," and expressed doubt whether "very many men have actually" been rehabilitated by the government and have gone back to their respective communities as wage earners and assets.

"We have farmed men out under this system," the director added, in commenting on the report. "It is nothing short of crime and slavery to put men into some of the places they have been put. I am opposed to the sweat shop system and I do not propose to let more of the former service men be exploited by mushroom houses that have sprung up merely to exploit the soldier and get the government's money."

NINETEEN PEOPLE KILLED IN COLLISION IN FRANCE TWO TRAINS IN TUNNEL

DEPARTMENT JUSTICE AWAITS ACTION CON- GRESS ON THE K. K. K.

WASHINGTON, Oct. 6.—
(By The Associated Press).—
A decision by the Department of Justice as to investigation of the Ku Klux Klan will await action by congress on the proposed inquiry, Attorney General Daugherty said today.

Southern Baptist As- sembly Investigates Charges Against Mays

(By The Associated Press)
ASHEVILLE, N. C., Oct. 6.—Directors of the Southern Baptist Assembly at Ridge Crest who met here yesterday as court of inquiry to investigate charges of alleged immoral conduct and seditious remarks attributed to Dr. Livingston T. Mays, corresponding secretary, adjourned last night to give Mays time to obtain supplemental affidavits in his defense. Statement issued by council that many of the charges against Mays had been disapproved.

FEDERAL RESERVE REDUCES RATE ON ALL REDISCOUNT

PHILADELPHIA, Pa., Oct. 6.—The Federal Reserve Bank of the Third District today reduced its rediscount rate on all classes of paper from 5 1/2 to 5 per cent.

LOS ANGELES, Cal., Oct. 6.—Money was the root of all questions here today in the second session of the American Bankers' Association, forty-seventh annual convention. One question with a promise of making itself one of the big themes of the meeting was revealed in alignment of forces for and against business extension through branch banks, especially by national banks, as suggested in a proposed law reported to be fostered by national banks.

Oscar W. Schaeffer of Girard, Kas., declared an "octopus" menaces state banks. In addressing the state banking division, he branded extension through branch banks as a forbidding of ruin.

Discussion ended in the adoption of a motion placing the division on record as "absolutely opposed to branch banking" with the understanding that the question would be taken before the general session tomorrow.

Comptroller of the Currency Crisinger today told the bankers that profiteering banks must beware for the government is watching them and will not hesitate to charter new national banks within their territory.

From the financial standpoint, the important feature today of the general session of the convention was the report of the economic policy commission. It recorded that the worst financial stringency was over and natural recuperative forces were working for recovery.

REFORMATORY SWEEP BY FIRE; THREE AND MAYBE MORE ESCAPED.

IONA, Mich., Oct. 6.—Michigan National guardsmen and members of the state constabulary this evening were patrolling the outer wall of the Michigan State Reformatory here, where fire destroyed all cell blocks, the administration offices, the chapel and warden's office. During the fire that caused a loss roughly estimated at half a million dollars, three prisoners escaped from the institution.

Only the factory buildings of the reformatory escaped the blaze, being saved by the direction of the wind.

Gov. Alex. J. Groesbeck, Roy C. Vandercok, head of the state department of public safety, and Warden Thomas C. Burns, were in consultation today to map out plans for the rebuilding of the burned structure and for caring for the inmates.

Many Others Are Badly Burned in the Fire

FOLLOWED CRASH

MANY VICTIMS SO BADLY MUTILATED THAT CANNOT BE IDENTIFIED

(By The Associated Press)
PARIS, Oct. 6.—Nineteen persons are known to have lost their lives in a collision of two suburban trains in a tunnel here yesterday. Only four have been identified. Others being badly burned in fire which followed the crash. Some of the victims were so badly mutilated that it is impossible to determine whether they are male or female.

Seventeen of those injured in the tunnel wreck have died in hospitals, according to the Havas Agency, bringing the total number of dead in the tunnel wreck to thirty-three. Exploration of the seventeen burned cars has not yet been possible and it is feared that they contain additional victims.

PARIS, Oct. 6.—Many persons are believed to be dead and burning in the wreckage of a rear-end collision of two suburban trains in the half-mile tunnel leading to the St. Lazare railroad station from which five bodies already have been recovered at 9 o'clock last evening. Twenty seriously injured persons and fifty-three slightly injured also had been recovered.

Seventeen coaches were burning, and firemen, almost helpless, were cutting a hole through the roof of the tunnel through the pavement of Rue de Rome, hoping to create an upward draft in order to allow the smoke and gas to escape. Both trains were filled with homeward bound commuters and authorities say that anyone remaining in the tunnel is almost certain to be dead.

The collision occurred when the 5:52 train for the suburb, Marly-Le-Roi, crashed into the rear-end of a train for Versailles, which left four minutes earlier on the same track, but which stopped inside the tunnel for some unexplained reason. Cries for help and means were audible at both ends of the tunnel.

It is feared that those who were trapped in the burning wreckage may never be identified, as they would surely be burned to a cinder in the intense heat, yet unreachd by the firemen who were directing streams of water from both ends of the tunnel.

Prominent Red Cross Worker Died Today At Home in Menton

(By The Associated Press)
NICE, France., Oct. 6.—Charles Carroll, of Carrollton, Md., who played a prominent part in the American Red Cross work in Italy during the war, died suddenly today in the garden of his villa at Menton, near here. He was a direct descendant of Charles Carroll, noted Colonial political leader who was one of the designers of the Declaration of Independence.

JAPANESE EMPEROR SEEMS TO BE SINKING

(By The Associated Press)
TOKIO, Oct. 6.—Emperor Yoshihito, whose illness has been causing alarm in Japan, is said to be in worse condition in official statement issued here.

FIELDS AND STALEY ADMIT EXPRESS THEFT.

MACON, Oct. 6.—Ernest G. Fields, and R. E. Staley, fugitives until Wednesday, in connection with the recent trail of sixty-four persons accused of conspiracy to steal from the American Express Co., pleaded guilty in United States district court today and were fined \$400 each.

U. G. B. Hogan, well known Laurens county farmer arrested some time ago at the instigation of department of justice officers, on a charge of perjury was freed today by the federal grand jury when a "no bill" was returned.

SANFORD AND ORLANDO HAD SECOND LOVE FEAST AT ORLANDO LAST NIGHT

About Sixty Members From Sanford Were There HAD A BIG TIME

EARLIER IN THE EVENING THE CENTRAL FLORIDA WATER TRAFFIC LEAGUE FORMED.

(From Wednesday's Daily)
While the proverbial Pipe of Peace was not in evidence last night, its modern counterpart, in the form of good cigars, were lighted after a very excellent meal, served in the Orlando Chamber of Commerce headquarters, to a gathering of 150 people. The mental, financial and commercial heavyweights of both Orlando and Sanford were present as was also that "we're with you" spirit which was so much in evidence at the Sanford banquet.

In the same respects that "some men are born great, others make themselves great, etc.," the citizens of some communities are born with a civic spirit while others get theirs from bottles. Inasmuch as there were no bottles in evidence last evening, it is safe to assume that the spirit of enthusiasm, which permeated the gathering was that born within the progressive individuals from both communities.

The speakers of the evening stressed the inestimable benefits which would accrue to Sanford and Orlando provided they continued and further developed the amicable relations which now now existed between them. The Hon. M. J. Dactwyler, president of the Orlando Chamber of Commerce, presided as toastmaster.

Mayor Duckworth, J. L. Giles, Flowers & Vorhees, Sam Johnson, Howard Lynear, Franklin King, Mrs. Fuller and S. J. Slych, were speakers from the Orlando Chamber and Sanford was ably represented by President Geo. W. Knight, H. R. Stevens, F. P. Foster, Forest Lake, D. C. Marlowe, E. T. Woodruff and many others.

Retrospect of the Orlando Meeting By A Side Liner

The only regrettable feature of the whole affair was the absence of "Ye Genial Scribe, Bob Holly." Laid up with a bilious attack he did not feel that he would be physically capable of dispensing with the tasteful vands he knew would be served up by the Orlando bunch. It made the Sanford contingent nearly as sick as Bob when it became apparent he would be unable to go. He should feel a lot better today if the well wishes of his many Orlando friends can help him.

Glenn of the Orlando Sentinel, presented a resolution expressing the regret of the meeting at not having Bob present and wishing him a speedy recovery.

Glenn and his contemporaries, the Brossier Twins, and Bob Jolly usually have a great deal to discuss and imbibe when they get together. This probably accounts for the solicitude shown by Glenn last P. M.

Col. Geo. W. Wright, who, when not engaged with his personal affairs, guides the destiny of the livestock Chamber of Commerce in Florida, made a talk that went over big, to use a theatrical expression. One of the lady speakers put a literal interpretation upon the following remark, made by Mr. Foster: "We have met our friends and we are yours." She desired to know which one of the San-

ford bunch was hers and supplemented this question with a glance at the Colonel. What a penalty for being good looking? However, the Secretary was observed sitting close to the Colonel apparently to protect him from the wiles of designing females. Besides the hour was growing late, and the inclination was to go home.

D. A. Cheney, who regulates the prices and flow of gas, water and "juice" in Orlando, demonstrated that he has also been able to regulate his vocal organs and entertained the gathering with two songs. The last one, "It's Always Fair Weather When Good Fellows Get Together," left a feeling of sadness with a great many and the recollections of bygone days were probably responsible for the wonderful expression and technique he put in the lines, "With a Stein on the Table and a Song in the Air."

The facial expression of the self appointed liquid survey committee reported no progress, and after adjournment, returned to Sanford to transact unfinished business.

Mrs. Johns sang an Italian classic. She is a little lady with a big voice and as sweet as "The tintinabulation which musically wells from the bells." No fear of Mr. Johns ever deserting the family fire, and all Mrs. Johns need do is to exercise that wonderful voice of hers, for it is irresistible. Amongst those present were some who looked as tho they enjoyed the Italian part of it. This was probably due to the fact that at some time or other, they had eaten spaghetti in some one of the B. P. red ink gastronomic emporiums for which New York was famous.

Our Hon. F. P. Forster injected some political serum into the meeting which reacted in a most refreshing manner. It was to the effect that Florida would be the recipient of greater Federal patronage if we had two strong political parties.

You had three guesses as to which were Republicans and which Democrats. A look at the expression on their faces and one guess would suffice. Mr. Foster's remarks struck a responsive chord in the breast of "Inland Waterways Woodruff," one of the staunchest legionaries of the G. O. P. (Grand Old Profiteers) and as a result the suggestion of Mr. Foster was heartily endorsed by Mr. Woodruff verbally, and by the smiles and applause of Frank Miller. A believer in transmigration of souls stated that E. T. Woodruff, after shuffling off the mortal coil would, in all probability, take the form of a fresh water Neptune and haunt the St. Johns river, also the canal when it is cut.

D. C. Marlowe, distant relative to the famous Julia, and Sanford's Deane Swift, in his inimitable style pulled his famous flag speech as delivered during the recent conflict by one of our prominent "moichants." D. C. believes in helping us "see ourselves as others see us." Some of the local high lights were hoping that D. C. would only be allowed two minutes, but he went the limit to the great delight of all present.

Forest Lake was anchor man for Sanford. An old campaigner, Mr. Lake knows how to call strikes on an asking the number of prominent lakes audience. An Orlando member upon in Sanford was advised there were three—Monroe, Dand and Forest—the greatest of these being Forest. The meeting was interspersed with booster melodies in which all present participated. These songs were fresh from a wicked pen slung by the secretary of the Sanford Chamber of Commerce. He, no doubt, received his inspiration from the best meeting in Sanford, and more particularly from room 302 which was made famous on that occasion.

Voores and Flowers, of Orlando, were the song leaders and had some clever songs of their own. They operate under the none-de-plum of Mutt and Jeff.

It was a wonderful evening—could not have been otherwise considering the wonderful bunch present. Fine grub—good smokes and beat of fellows evidencing a most sincere desire to co-operate in everything that will make Sanford and Orlando each 25,000 by 1925. The O. C. of C. and the S. C. of C. mean that very thing, too.

President Dactwyler, or "Det" as he is affectionately called, as a diplomat is a regular Elihu Root. Witness the finesse with which he handled the political question previously referred to.

The Orlando people are to be complimented on their unlimited supply of good story-tellers. It's a toss-up as

to whom we will award the Wreath of the Sorrel Cow.

Shorty Cox, secretary of the O. C. C., told the secretary of the S. C. C. last evening that his board of directors had instructed him to land a factory for his town, Orlando (or land dough).

The Central Florida Water Traffic League Born in Orlando Yesterday.

Preceding the love feast of the Orlando and Sanford chamber of commerce, representatives from commercial organizations of sections interested completed the organization of The Central Florida Water Traffic League.

According to the by-laws, the object of this organization "shall be to promote the development of the facilities and business via the St. Johns river, to secure equitable freight rates out of, into and through Central Florida, and generally assist in improving the service of ship via water or truck, and solving the traffic problems of the shippers of freight into and out of Central Florida and its trade territory.

At the evening meeting the combined chambers of commerce stood godparents for this lusty infant, which upon maturity will give a good account of itself.

EAST SANFORD

Mrs. Cal Palmer, of Cameron City, has as her guest her cousin, Miss Martha Gatlin, of Jacksonville.

Miss Hoskins Jones went to Jacksonville on business last Friday, returning Sunday with the Misses Shepherd and Simpkins with her for a short stay.

Mrs. W. W. Miller has returned home from Jacksonville after several weeks stay, having received much treatment taken from a specialist for asthma and a complication of ailments.

Mrs. R. L. Grier, of Cameron City, was the lucky one this Wednesday to get the free dinner set of china at the Sanford Cash Grocery.

Mr. and Mrs. Vance Douglas have the sympathy of every body in the loss of their home on Lake Golden, the fire started about 9 o'clock Tuesday evening in a defective chimney. The piano and some other things on the lower floor was saved. It is understood they have insurance. Their home has only been finished a few months.

Holton Brown is here from Fort Christmas working for his brother-in-law, J. F. McClelland.

Mr. and Mrs. Nick Zernovon were hosts Tuesday evening to a party of 22 friends from town. The evening was very pleasantly spent in games. Very nice refreshments of ice cream, cake and fruit was served. The affair was given in honor of Mr. and Mrs. Stiles, who were married in New York city recently. Mrs. Stiles having come from Cardiff, Wales.

Mrs. L. A. Brundley writes from Charlotte, N. C., that it is very dry and hot up there with many wells gone dry.

The tenant houses on the lowa farm have all been newly painted and present a very neat appearance with green and white paint.

We hear about rain all around us, but it is just as dry here now as if the Valstead act was being enforced. A good many growers have stopped setting plants as the land cannot be wet up enough to keep the plants alive. The Mahoney-Walker Co., have put up a number of gasoline pumping engine here, and we understand they have fifteen more engines to put up in East Sanford that arrived by the boat from Jacksonville. Every farm on the west side of Beardall avenue, from Geneva avenue south, has one or more of the pumping engines at work. It is noticed the farther from lake or river the wells are located that they are the wells to cease flowing first.

CAT GOES FISHING.

PENSACOLA, Fla., Sept. 29.—Joseph Burke, who resides in Bayview Park, here, owns a cat that is making a local reputation as "fisherwoman." Tabby regularly goes to the wharf in the early evening and does her fishing in shallow water. She usually catches from four to a half dozen small fish but Monday night established a record, so far as her owner knows, by landing twelve.

The cat does not possess the usual feline aversion to water but jumps in without hesitation. Her method of fishing is to stand on the wharf a short distance above the water and when a small fish swimming near the surface approaches, she jumps in, fastens her teeth in the back of the finny one and swims ashore with her prize.

A new club house will be erected soon near Pensacola for the Pensacola Yacht Club.

LONGWOOD NOTES

Mr. and Mrs. Tullis were visitors in Orlando Friday.

Miss Leila Fuller spent the week with her aunt, Mrs. Frank Topliff, returning home Friday.

Mrs. J. S. Dinkel and Miss Olive were shopping in Orlando on Friday. Mr. and Mrs. Sam Hutchins and children, were guests of Mr. and Mrs. A. Y. Fuller and family, Wednesday. Miss Frances Fuller accompanied them home.

Miss Omah Allen is spending a few days in Sanford, the guest of her sister, Mrs. Newman.

Mrs. Howard Smith and three children, Raymond, Donald and Olive, returned from Miami Tuesday, where they have been living the last year.

Miss Hettie Arnette left last Friday for DeLeon Springs, where she will teach school.

Mrs. Bryan, of Lake City, spent several days with her daughter, Mrs. Spinks.

Mr. E. W. Miller, of Youngstown, Ohio, passed through Longwood enroute to Orlando to spend several days before opening school.

Miss Mariam Williamson is spending two weeks at Daytona Beach, guest of her aunt, Mrs. Roy McCracken.

Friends of W. J. Woodberry will regret to hear of his death which occurred in Sanford Sunday, September 25. Mr. Woodberry was an old timer here, but left several years ago on account of ill health, going to

The only regrettable feature of the whole affair was the absence of "Ye Genial Scribe, Bob Holly." Laid up with a bilious attack he did not feel that he would be physically capable of dispensing with the tasteful vlands he knew would be served up by the Orlando bunch. It made the Sanford contingent nearly as sick as Bob when it became apparent he would be unable to go. He should feel a lot better today if the well wishes of his many Orlando friends can help him.

Glenn of the Orlando Sentinel, presented a resolution expressing the regret of the meeting at not having Bob present and wishing him a speedy recovery.

Glenn and his contemporaries, the Brossier Twins, and Bob Holly usually have a great deal to discuss and imbibe when they get together. This probably accounts for the solicitude shown by Glenn last P. M.

Col. Geo. W. Wright, who, when not engaged with his personal affairs, guides the destiny of the livest Chamber of Commerce in Florida, made a talk that went over big, to use a theatrical expression. One of the lady speakers put a literal interpretation upon the following remark, made by Mr. Foster: "We have met our friends and we are yours." She desired to know which one of the San-

ford bunch was hers and supplemented this question with a glance at the Colonel. What a penalty for being good looking? However, the Secretary was observed sitting close to the Colonel apparently to protect him from the wiles of designing females. Besides the hour was growing late, and the inclination was to go home.

D. A. Cheney, who regulates the prices and flow of gas, water and "juice" in Orlando, demonstrated that he has also been able to regulate his vocal organs and entertained the gathering with two songs. The last one, "It's Always Fair Weather When Good Fellows Get Together," left a feeling of sadness with a great many and the recollections of bygone days were probably responsible for the wonderful expression and technique he put in the lines, "With a Stein on the Table and a Song in the Air."

The facial expression of the self appointed liquid survey committee reported no progress, and after adjournment, returned to Sanford to transact unfinished business.

Mrs. Johns sang an Italian classic. She is a little lady with a big voice and as sweet as "The tintinabulation which musically wells from the bells." No fear of Mr. Johns ever deserting the family fires, and all Mrs. Johns need do is to exercise that wonderful voice of hers, for it is irresistible.

Amongst those present were some who looked as tho they enjoyed the Italian part of it. This was probably due to the fact that at some time or other, they had eaten spaghetti in some one of the B. P. red ink gastronomical emporiums for which New York was famous.

Our Hon. F. P. Forster injected some political serum into the meeting which reacted in a most refreshing manner. It was to the effect that Florida would be the recipient of greater Federal patronage if we had two strong political parties.

You had three guesses as to which were Republicans and which Democrats. A look at the expression on their faces and one guess would suffice. Mr. Foster's remarks struck a responsive chord in the breast of "Inland Waterways Woodruff," one of the staunchest legionnaires of the G. O. P. (Grand Old Profiteers) and as a result the suggestion of Mr. Foster was heartily endorsed by Mr. Woodruff verbally, and by the smiles and applause of Frank Miller. A believer in transmigration of souls stated that E. T. Woodruff, after shuffling off the mortal coil would, in all probability, take the form of a fresh water Neptune and haunt the St. Johns river, also the canal—when it is cut.

D. C. Marlowe, distant relative to the famous Julia, and Sanford's Deane Swift, in his inimitable style pulled his famous flag speech as delivered during the recent conflict by one of our prominent "moichants." D. C. believes in helping us "see ourselves as others see us." Some of the local high lights were hoping that D. C. would only be allowed two minutes, but he went the limit to the great delight of all present.

Forest Lake was anchor man for Sanford. An old campaigner, Mr. Lake knows how to call strikes on an audience. An Orlando member upon in Sanford was advised there were three—Monroe, Dand and Forest—the greatest of these being Forest. The meeting was interspersed with booster melodies in which all present participated. These songs were fresh from a wicked pen slung by the secretary of the Sanford Chamber of Commerce. He, no doubt, received his inspiration from the last meeting in Sanford, and more particularly from room 302 which was made famous on that occasion.

Voores and Flowers, of Orlando, were the song leaders and had some clever songs of their own. They operate under the none-de-plum of Mutt and Jeff.

It was a wonderful evening—could not have been otherwise considering the wonderful bunch present. Fine grub—good smokes and beat of fellows evidencing a most sincere desire to co-operate in everything that will make Sanford and Orlando each 25,000 by 1925. The O. C. of C. and the S. C. of C. mean that very thing, too.

President Daetwyler, or "Det" as he is affectionately called, as a diplomat is a regular Elihu Root. Withness the finesse with which he handled the political question previously referred to.

The Orlando people are to be complimented on their unlimited supply of good story-tellers. It's a toss-up as

to whom we will award the Wreath of the Sorrel Cow.

Shorty Cox, secretary of the O. C. C., told the secretary of the S. C. C. last evening that his board of directors had instructed him to land a factory for his town, Orlando (or land dough).

The Central Florida Water Traffic League Born in Orlando Yesterday.

Preceding the love feast of the Orlando and Sanford chamber of commerce, representatives from commercial organizations of sections interested completed the organization of The Central Florida Water Traffic League.

According to the by-laws, the object of this organization "shall be to promote the development of the facilities and business via the St. Johns river, to secure equitable freight rates out of, into and through Central Florida, and generally assist in improving the service of ship via water o rtruck, and solving the traffic problems of the shippers of freight into and out of Central Florida and its trade territory.

At the evening meeting the combined chambers of commerce stood godparents for this lusty infant, which upon maturity will give a good account of itself.

EAST SANFORD

Mrs. Cal Palmer, of Cameron City, has as her guest her cousin, Miss Martha Gatlin, of Jacksonville.

Miss Hoskins Jones went to Jacksonville on business last Friday, returning Sunday with the Misses Shepherd and Simpkins with her for a short stay.

Mrs. W. W. Miller has returned home from Jacksonville after several weeks stay, having received much treatments taken from a specialist for asthma and a complication of ailments.

Mrs. R. L. Grier, of Cameron City, was the lucky one this Wednesday to get the free dinner set of china at the Sanford Cash Grocery.

Mr. and Mrs. Vance Douglas have the sympathy of every body in the loss of their home on Lake Golden, the fire started about 9 o'clock Tuesday evening in a defective chimney. The pinno and some other things on the lower floor was saved. It is understood they have insurance. Their home has only been finished a few months.

Holton Brown is here from Fort Christmas working for his brother-in-law, J. F. McClelland.

Mr. and Mrs. Nick Zernovean were hosts Tuesday evening to a party of 22 friends from town. The evening was very pleasantly spent in games. Very nice refreshments of ice cream, cake and fruit was served. The affair was given in honor of Mr. and Mrs. Stiles, who were married in New York city recently. Mrs. Stiles having come from Cardiff, Wales.

Mrs. L. A. Brumley writes from Charlotte, N. C., that it is very dry and hot up there with many wells gone dry.

The tenant's houses on the loway farm have all been newly painted and present a very neat appearance with green and white paint.

We hear about rain all around us, but it is just as dry here now as if the Valstead act was being enforced. A good many growers have stopped setting plants as the land cannot be wet up enough to keep the plants alive.

The Mahoney-Walker Co., have put up a number of gasoline pumping engines here, and we understand they have fifteen more engines to put up in East Sanford that arrived by the boat from Jacksonville. Every farm on the west side of Beardall avenue, from Geneva avenue south, has one or more of the pumping engines at work. It is noticed the farther from lake or river the wells are located that they are the wells to cease flowing first.

CAT GOES FISHING.

PENSACOLA, Fla., Sept. 29.—Joseph Burke, who resides in Bayview Park, here, owns a cat that is making a local reputation as "fisherwoman." Tabby regularly goes to the wharf in the early evening and does her fishing in shallow water. She usually catches from four to a half dozen small fish but Monday night established a record, so far as her owner knows, by landing twelve.

The cat does not possess the usual feline aversion to water but jumps in without hesitation. Her method of fishing is to stand on the wharf a short distance above the water and when a small fish swimming near the surface approaches, she jumps in, fastens her teeth in the back of the finny one and swims ashore with her prize.

A new club house will be erected soon near Pensacola for the Pensacola Yacht Club.

LONGWOOD NOTES

Mr. and Mrs. Tullis were visitors in Orlando Friday.

Miss Lella Fuller spent the week with her aunt, Mrs. Frank Topliff, returning home Friday.

Mrs. J. S. Dinkel and Miss Olive were shopping in Orlando on Friday.

Mr. and Mrs. Sam Hutchins and children, were guests of Mr. and Mrs. A. Y. Fuller and family, Wednesday. Miss Frances Fuller accompanied them home.

Miss Omah Allen is spending a few days in Sanford, the guest of her sister, Mrs. Newman.

Mrs. Howard Smith and three children, Raymond, Donald and Olive, returned from Miami Tuesday, where they have been living the last year.

Miss Hettie Arnette left last Friday for DeLeon Springs, where she will teach school.

Mrs. Bryan, of Lake City, spent several days with her daughter, Mrs. Splnka.

Mr. E. W. Miller, of Youngstown, Ohio, passed through Longwood enroute to Orlando to spend several days before opening school.

Miss Mariam Williamson is spending two weeks at Daytona Beach, guest of her aunt, Mrs. Roy McCracken.

Friends of W. J. Woodberry will regret to hear of his death which occurred in Sanford Sunday, September 25. Mr. Woodberry was an old timer here, but left several years ago on account of ill health, going to

NUMBER 8

POPE TAKES STAND IN HIS OWN BEHALF ON MURDER CHARGE

Did Not Know Anything About Robbery Plan

DENIES CHARGES

AND ACCUSATIONS OF RAWLINS AND NOVITZKY AND ONLY WANTED HIS FEE.

(By The Associated Press)
JACKSONVILLE, Oct. 6.—Judge Gibbs denied the motion of the defense for instructed verdict and argument will begin at afternoon session of court.

JACKSONVILLE, Oct. 6.—Counsel for Pope resumed today when court opened argument on motion that the court instruct the jury to render a verdict of acquittal. The grounds upon which the instructed verdict was sought were that allegations of indictment against Pope was at variance, that Hickman was not killed during perpetration of robbery, that Pope was not present and that the state had failed to connect the defendant with the case. Both state and defense concluded presentation of evidence yesterday, Pope being the only witness in his own behalf. He denied all allegations of the state.

JACKSONVILLE, Oct. 6.—John H. Pope, local attorney, took the stand in his own behalf yesterday, at his trial on a charge of murder in the first degree. The defense announced it had no other witnesses and began its argument on a motion for an instructed verdict in favor of the defendant.

The argument had not been concluded when the case went over until today. The state rested early in the afternoon session.

Pope was on the stand less than an hour. He denied unequivocally that he had any knowledge of the impending robbery of the Palace theatre here the night of September 4 by Frank Rawlins, who shot and killed George H. Hickman, manager of the playhouse. Pope admitted he had very probably been at certain places described by state's witnesses. He denied that he had told Irwin and Johnny Novitzky, two state's witnesses, when he borrowed their car on the night of the killing that he and Rawlins were going to "stick up" the theatre.

His story was to the effect that he was a victim of circumstances; he had defended Rawlins and W. C. Melton at their trial on a grand larceny charge. Melton was arrested in connection with the present case, but discharged after a grand jury investigation, and so far as known left the city immediately. Neither Rawlins nor Melton had ever paid him anything because of lack of money, Pope said.

On the night of the killing, Rawlins told him he had learned that Melton had received some money from his sister. He asked that Pope come with him and he would make Melton pay Pope something for the two of them. Rawlins had the impression that Melton, acquiring some money, had gone "under cover."

Rawlins suggested they get Novitzky's automobile, as he didn't know where Melton was. Pope obtained the use of the car and they drove to a downtown poolroom, the location of which is one block behind the theatre and one block west. Rawlins went in search of Melton and returned in a few minutes, saying he lived up the street about a block. They then drove to a point a little more than a block to the rear of the theatre. There Rawlins again sought to find Melton, while Pope waited. He waited a considerable time, he said, probably three-quarters of an hour or an hour, getting out of the car frequently, as he became impatient for Rawlins to return. Finally he drove back to the poolroom in an effort to learn what became of Rawlins. Later, he returned the automobile to its owner. He never met Rawlins again until they were arraigned together on the charge of murder. He disclaimed having ever before seen the pistol, mask and torn pieces of a towel, taken from Rawlins when he was arrested.

GOVERNOR HARDEE WILL NOT CALL A SPECIAL SESSION.

TALLAHASSEE, Oct. 6.—(By The Associated Press).—Governor Hardee today announced he had declined to call a special session of the legislature at this time as requested by citizens of Dade county, in connection with the issue of county school bonds. Judge Will H. Price, of Miami, conferred yesterday with the governor concerning the proposed session. It is understood that during the conference Price transmitted the proposal that Dade county would pay the expenses of the session.

U. S. ATTORNEY REMOVED FROM OFFICE IN KENTUCKY DISTRICT.

WASHINGTON, Oct. 6.—Thomas R. Slattery, United States district attorney for the northern district of Kentucky, was removed from office today by President Harding, on the recommendation of Attorney General Daugherty.

TO USE SHIPS TO BREAK UP BIG COMBINE

WORKING TO HAVE AMERICAN CARGOES SHIPPED OVERSEAS IN AMERICAN BOTTOMS

WASHINGTON, Oct. 6.—Idle Shipping Board vessels will be used by the United States Department of Commerce to combat an international combine by foreign-owned shipping lines to the detriment of American shipping.

During the war these companies accumulated vast reserves of funds. When the armistice was concluded they started their race to exclude American shipping from important trade lanes.

Thus far their operation have been successful. For while scores of Shipping Board vessels drifted idly at their moorings, American business men have been sending their cargoes abroad in foreign bottoms.

The Department of Commerce has countered by organizing a new division of transportation with E. S. Gregg as chief. Gregg now is actively at work.

Here's how he will attempt to set foreign shipping machinations at naught:

He will ask organizations of business men, such as grain growers' organizations, farmer's organizations and chambers of commerce, to cooperate with him.

Suppose the grain growers' association tells Gregg it wants to ship six shiploads of grain from Baltimore to England on a certain date, Gregg sees to it that six American ships are on hand at Baltimore to take the cargo.

And Gregg is inducing the Shipping Board to allocate its vessels to private concerns on the basis of volume of traffic at the port where the private lessee is located. Formerly the board allocated its vessels irrespective of traffic.

That meant that some ports were jammed with idle ships while at neighboring ports wharves were crowded with goods unable to find carriers or were being shipped out on foreign vessels.

Right now Gregg is making a thorough study of inland rail and water transportation in its relation to foreign trade. He's trying to get foreign-bound cargoes to ports by the most economical routes.

The division may later take up the proposed waterway from the Atlantic to the Great Lakes which virtually would make Detroit and Chicago ocean ports.

Gregg also will delve into cables and other communication facilities bound up with foreign trade. Complaints of discrimination against American trade by foreign cable companies continue.

One of the Maryland's Huge Motors

This is one of the four electric motors supplying 7,000 horse power to one of the propellers on the U. S. S. Maryland. The mammoth motor is twelve feet high and weighs 62 tons.

YANKS TAKE SECOND GAME OF WORLD'S SERIES TODAY

(By The Associated Press)
NEW YORK, Oct. 6.—With one victory gained, the Yankees go back to the fray today with the Giants fully confident they can turn the tide their way. The Giants did not appear discouraged by the initial defeat and determined to win the second game and even the series. The Yanks and their followers believed they would win again by speed or bases, aggressiveness in field and opportune hitting, to say nothing of the kind of pitching Mays exhibited in blanking the Giants 3 to 0. It was in speed the Giants were reputed to have advantage over the American League champions. Even Manager Huggins, of the Yanks, admitted the Giants were faster but his team showed the most speed yesterday. Hoyt, Brooklyn Scholboy or Shawkey, may pitch for the Yanks today while the Giants may send in Nehf, Tony or Barnes. The Giants today will be visiting team while the home crew held by the Giants yesterday, this changing process involves shifting of uniforms and dugouts. There is not likely to be any change in the batting order of the two clubs.

POLO GROUNDS, Oct. 6.—The Giants primed their southpaw single gun, Artie Nehf for today's world series fray with the Yankees. The Giants also held in reserve their right hander, Fred Toney to shell American Leaguers who toppled the Giants yesterday in the first contest. "Can't say whether it will be Hoyt or Shawkey," said Miller Huggins, manager of the Yankees as they came on the field for batting practice.

Indian summer day followed chilly night. Sun blazed in clear sky and fans in bleachers grateful for light westerly breeze.

Batteries for today will be: For the Giants, Nehf and Smith, and for the Yanks, Hoyt and Schang.

First Inning
First half first: Giants nothing.
Last half first: Yanks nothing.

Second Inning
First half second: Giants nothing.

BODIES OF COUPLE FOUND IN BATH TUB AT JACKSONVILLE

(By The Associated Press)
JACKSONVILLE, Oct. 6.—The bodies of Mr. and Mrs. Antonio Bancourt were found in a bathtub at 1917 Boulevard here this afternoon. First reports to police indicated drowning.

ARMED CONFLICTS SOURCE OF WORRY.

WASHINGTON, D. C., Oct. 6.—Armed conflicts now in progress and the continued threat of renewed clashes present, the chief obstacle to business conditions returning to normal throughout the world, according to a report made by the special committee of the chamber of commerce of the United States, returning from an extended trip through Europe.

K. K. K. VICTIM DEAD

WACO, Tex., Oct. 6.—With the death yesterday of Louis Crow from wounds received in a fight at Lorena Saturday night when Sheriff Bob Buchanan attempted to stop a Ku Klux Klan parade, announcement of the date when the county grand jury will be summoned to investigate the incident was awaited here. Neither district Judge R. I. Munroe nor County Attorney F. B. Tierney have indicated when the jury would be called.

NINETEEN PEOPLE KILLED IN COLLISION IN FRANCE TWO TRAINS IN TUNNEL

DEPARTMENT JUSTICE AWAITS ACTION CON- GRESS ON THE K. K. K.

WASHINGTON, Oct. 6.—(By The Associated Press).—A decision by the Department of Justice as to investigation of the Ku Klux Klan will await action by congress on the proposed inquiry, Attorney General Daugherty said today.

Southern Baptist As- sembly Investigates Charges Against Mays

(By The Associated Press)
ASHEVILLE, N. C., Oct. 6.—Directors of the Southern Baptist Assembly at Ridge Crest who met here yesterday as court of inquiry to investigate charges of alleged immoral conduct and seditious remarks attributed to Dr. Livingston T. Mays, corresponding secretary, adjourned last night to give Mays time to obtain supplemental affidavits in his defense. Statement issued by council that many of the charges against Mays had been disapproved.

FEDERAL RESERVE REDUCES RATE ON ALL REDISCOUNT

PHILADELPHIA, Pa., Oct. 6.—The Federal Reserve Bank of the Third District today reduced its rediscount rate on all classes of paper from 5 1/2 to 5 per cent.

LOS ANGELES, Cal., Oct. 6.—Money was the root of all questions here today in the second session of the American Bankers' Association, forty-seventh annual convention. One question with a promise of making itself one of the big themes of the meeting was revealed in alignment of forces for and against business extension through branch banks, especially by national banks, as suggested in a proposed law reported to be fostered by national banks.

Oscar W. Schaeffer of Girard, Kas., declared an "octopus" menaces state banks. In addressing the state banking division, he branded extension through branch banks as a forboding of ruin.

Discussion ended in the adoption of a motion placing the division on record as "absolutely opposed to branch banking" with the understanding that the question would be taken before the general session tomorrow.

Comptroller of the Currency Crisinger today told the bankers that profligate banks must beware for the government is watching them and will not hesitate to charter new national banks within their territory.

From the financial standpoint, the important feature today of the general session of the convention was the report of the economic policy commission. It recorded that the worst financial stringency was over and natural recuperative forces were working for recovery.

REFORMATORY SWEPT BY FIRE; THREE AND MAYBE MORE ESCAPED.

IONA, Mich., Oct. 6.—Michigan National guardsmen and members of the state constabulary this evening were patrolling the outer wall of the Michigan State Reformatory here, where fire destroyed all cell blocks, the administration offices, the chapel and warden's office. During the fire that caused a loss roughly estimated at half a million dollars, three prisoners escaped from the institution.

Only the factory buildings of the reformatory escaped the blaze, being saved by the direction of the wind.

Gov. Alex. J. Groesbeck, Roy C. Vandercreek, head of the state department of public safety, and Warden Thomas C. Burns, were in consultation today to map out plans for the rebuilding of the burned structure and for caring for the inmates.

Many Others Are Badly Burned in the Fire

FOLLOWED CRASH

MANY VICTIMS SO BADLY MUTI- LATED THAT CANNOT BE IDENTIFIED

(By The Associated Press)
PARIS, Oct. 6.—Nineteen persons are known to have lost their lives in a collision of two suburban trains in a tunnel here yesterday. Only four have been identified. Others being badly burned in fire which followed the crash. Some of the victims were so badly mutilated that it is impossible to determine whether they are male or female.

Seventeen of those injured in the tunnel wreck have died in hospitals, according to the Havas Agency, bringing the total number of dead in the tunnel wreck to thirty-three. Exploration of the seventeen burned cars has not yet been possible and it is feared that they contain additional victims.

PARIS, Oct. 6.—Many persons are believed to be dead and burning in the wreckage of a rear-end collision of two suburban trains in the half-mile tunnel leading to the St. Lazare railroad station from which five bodies already have been recovered at 9 o'clock last evening. Twenty seriously injured persons and fifty-three slightly injured also had been recovered.

Seventeen coaches were burning, and firemen, almost helpless, were cutting a hole through the roof of the tunnel through the pavement of Rue de Rome, hoping to create an upward draft in order to allow the smoke and gas to escape. Both trains were filled with homeward bound commuters and authorities say that anyone remaining in the tunnel is almost certain to be dead.

The collision occurred when the 5:52 train for the suburb, Marly-La-Roi, crashed into the rear-end of a train for Versailles, which left four minutes earlier on the same track, but which stopped inside the tunnel for some unexplained reason. Cries for help and moans were audible at both ends of the tunnel.

It is feared that those who were trapped in the burning wreckage may never be identified, as they would surely be burned to a cinder in the intense heat, yet unquenched by the firemen who were directing streams of water from both ends of the tunnel.

Prominent Red Cross Worker Died Today At Home in Menton

(By The Associated Press)
NICE, France, Oct. 6.—Charles Carroll, of Carrollton, Md., who played a prominent part in the American Red Cross work in Italy during the war, died suddenly today in the garden of his villa at Menton, near here. He was a direct descendant of Charles Carroll, noted Colonial political leader who was one of the designers of the Declaration of Independence.

JAPANESE EMPEROR SEEMS TO BE SINKING

(By The Associated Press)
TOKIO, Oct. 6.—Emperor Yoshihito, whose illness has been causing alarm in Japan, is said to be in worse condition in official statement issued here.

FIELDS AND STALEY ADMIT EXPRESS THEFT.

MACON, Oct. 6.—Ernest G. Fields, and R. E. Staley, fugitives until Wednesday, in connection with the recent trail of sixty-four persons accused of conspiracy to steal from the American Express Co., pleaded guilty in United States district court today and were fined \$400 each.

U. G. B. Hogan, well known Laurens county farmer arrested some time ago at the instigation of department of justice officers, on a charge of passage was freed today by the federal grand jury when a "no bill" was returned.

Post cards—local views—1c each at the Herald office.

MINSTREL SHOW GREAT LAST NIGHT

DIXIE MINSTRELS SHOWED TO BIG HOUSE AND SCORED GREAT HIT

(From Friday's Daily)
The Dixie Minstrels made their initial bow to a Sanford audience last night and a well filled house greeted them and made them feel that their efforts were appreciated. The old Princess Theatre had been metamorphosed in a mysterious manner and was almost disguised by the magic hand of an artist who had bulled trellis work, caused vines and flowers to grow and had made a beautiful effect on a stage that is undoubtedly the most wretched in the state. The two sides where the minstrels sat were flanked with a white trellis and posts held white electric bulbs that blended with the flowers and vines and artistic effect and the stage really looked good—just like a real minstrel show stage would look and the boys dressed in white pants, black socks, white shirts, black ties carrying out the White and Black Revue, George A. DeCottes, the interlocutor in black evening dress, the end man in purple and green suits made a most entrancing picture as the curtain rose while they sang the opening chorus and the merry minstrel men cavorted across the stage.

Billy Hoffman, black face in "Down Yonder," Percy Mero in "Ain't We Got Fun," Tom Martin in "Save a Little Dram for Me"; Bob Herndon in "I'm Gonna Quit Saturday," and Geo. McLaughlin in "Free, Simple and Disengaged," were the black face comedians that kept the audience in a roar all during the first part. They are always good and they were especially good in the Dixie Minstrels.

The black face boys who sat in the circle and interrupted the interlocutor by pulling some good stuff all thru the show were Bob Herndon, Tom Martin, George McLaughlin, Percy Mero, Billie Hoffman, Paul Lake, Snowball Sutton, Lil Connelly.

The ballad singers were Maurice Helston who rendered "Crooning" a lullaby song as only Maurice can sing it, and H. J. Clause who sang "Mammy's Little Sonny, Honey Boy" as only Clause could sing it and Sid Rive, that old time minstrel man who gave them "I Found You" as only Sid Rive can render a beautiful ballad. H. J. Clause and the entire company closed the first part but not before the funny fellows had scored some good hits—local hits were missing—and with interlocutor DeCottes had an evening of fun. And by the way George DeCottes is some good looking middle man.

Bob Allison and Fred Rudisill, the boys who put on the show and nursed it into being put on a little skit at the piano while the stage was being set and sang some good, catchy songs and hits. Bob Herndon then came on with one of his inimitable monologue hits impersonating the old time negro preacher and kept the audience in an uproar while he "lucidated" about the church debt. Bob is an old timer on the minstrel stage and always good but getting better with age. The quartette composed of Maurice Helston, S. S. Baumel, Tom Martin and A. C. Warren sang several selections and catchy potpourri that were most ably rendered, the voices blending perfectly and they received the glad hand all along the way.

The Cabaret Scene in which George DeCottes, the interlocutor, entertains his winter guests opened with the beautiful girls gowned in beautiful evening attire seated at tables and the host entertains them with cabaret features, consisting of the song and chorus by Miss Daphne Wimbish "I'm Nobody's Baby" and the chorus of beautiful girls assisting her with a catchy dance went big.

Sam Baumel gave a song that was

"Foot of First St."

HOF-MAC BATTERY CO.

RENTAL BATTERIES FOR ALL CARS

New Filling Station

BARBECUE AND RACES PROVED GREAT EVENTS IN BIG GALA DAY HERE

well received and then some of his great dances and was called back so many times they had to cease calling him for he was all in. Sam is a foot-light favorite and can certainly dance.

The esthetic dancing of Miss Daphne Wimbish in Egyptian costume was a dream of grace, this young lady being the embodiment of the dancers of ancient times, graceful, talented, beautiful in face and figure, exemplifying the spirits of woodland nymphs and fairies.

Tom Martin and Mildred Holly captured the crowd in their catchy duet entitled "Oh Me, Oh My" being a sprightly song and dance and both of them being good in their part.

The grand ensemble of the entire company closed the big show that was a great success in every way.

The following were the members of the circle and chorus:

Bob Holly, Jr., Miss Wimbish, Miss Mero, Miss Henry, Miss Miller, Miss Shinholser, Misses Holly, Miss Smith, Miss Wilson, Mrs. L. J. Allison, Miss Cowan, Lee Peck, Mat Tarbell, Tom Martin, Maurice Helstrom, Sid Rive, Percy Mero, Geo. McLaughlin, Lil Connelly, M. Wimbish, Clarence Mahoney, Lee Peck, Forrest Gatchel, J. Michael, J. Musson, Tom Meredith, Mr. Warren.

The producing staff were:

Executive Committee—J. G. Michael, Chairman; P. A. Mero, W. A. Connelly, J. T. Brady.

Publicity Committee—J. T. Brady, Chairman; P. A. Mero, F. E. Meredith.

Ticket Committee—H. A. Washburn, Chairman; P. A. Dooley, W. A. Rumph, E. A. Chittendon.

Stage Committee—J. T. Brady, Chairman; F. E. Meredith, R. A. Greene, S. A. Dutton.

Producing Staff

Executive Committee—J. G. Michael, Chairman; P. A. Mero, W. A. Connelly, J. T. Brady.

Publicity Committee—J. T. Brady, Chairman; P. A. Mero, F. E. Meredith.

Ticket Committee—H. A. Washburn, Chairman; P. A. Dooley, W. A. Rumph, E. A. Chittendon.

Stage Committee—J. T. Brady, Chairman; F. E. Meredith, R. A. Greene, S. A. Dutton.

ACT I

Entrance of Minstrel, introducing as—

Riders Were Here From Many Parts of Florida

HAD A GREAT DAY

DANCING AT NIGHT WAS A BIG FEATURE OF THE DAY'S INTERESTING PROGRAM

(From Friday's Daily)
Yesterday was one of the greater days in the history of Sanford. There were many hundreds here to spend the day—not as many people as Sanford has entertained in the past but one of the largest crowds in present years and it was a good natured crowd, one that had thrown off all business restraints and had come to Sanford to have a good time. It was one of those old-fashioned days filled with that hospitable spirit of olden days when people met at a barbecue to talk and race horses and have a good time generally.

The barbecue was all ready for the hungry crowd about one o'clock and there was plenty of everything, especially meats—good old Florida meat that vied with the finest of western meat and took first prize. Eugene Roumillat, the boy who has been working early and late with the barbecue stunt, had charge of all the big doings and promptly on time he sounded the gong and the crowd went for the feed and it was some feed. Plenty of meat barbecued to a turn and pickles and coffee and ice water and bread and butter and many people brought well filled lunch baskets and added to the occasion by having a regular picnic lunch under the shade trees on the lake front. As the band played the tournament was held the first event of the afternoon and the following prizes were awarded:

First prize—Sam Brooks, of O teen; second prize, D. P. Self, of Chulota; third prize, Barney Beck, of Sanford; fourth prize, Phil Leonard, of Osteen.

In the horse race the horses were lined up on Palmetto avenue and rode straight across the bulkhead to the railroad track, the winners being Rufus Brown, first and Henry Cameron, second.

In the little pony race Chas. Beck was first, Elenor Cameron was second, Barney Beck, jr., was third, and Jack Stempel was fourth.

Last night the street in front of the court house was filled with sawdust and lighted by hundreds of lights strung across the street the compliments of the Southern Utilities Co. The dancers held away from seven o'clock until midnight at which time they had to take the band off the platform and urge them to go home as they wanted to "play until morning." The street was a trifle rough but the dancers did not seem to mind it as they tripped the latest dances on sawdust just as their forefathers many years ago. The sidewalk was much better and both street and sidewalk was well filled for about three hours.

It was a great day for the first events in the morning until late night. It will be a day that will linger long in the memory of those who came and partook of the hospitality of the Sanford people.

STOP CATARRH OPEN NOSTRILS AND HEAD

Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air-passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.—Adv.

YOUNG WOMAN DIES FOLLOWING DARING LEAP

LONG BRANCH, N. J., Oct. 5.—While attempting to make a flying leap from a speeding automobile to an airplane late yesterday Miss Madeline Davis was so badly injured that she died from a fracture of the skull in a hospital here last night. Her home is in Fort Pierce, Florida. Miss Davis lost her balance as she reached for the bottom rung of a rope ladder suspended from the plane and fell to the ground.

Me-o-my, how you'll take to a pipe—and P. A.!

Before you're a day older you want to let the idea slip under your hat that this is the open season to start something with a joyous jimmy pipe—and some Prince Albert!

Because, a pipe packed with Prince Albert satisfies a man as he was never satisfied before—and keeps him satisfied! And, you can prove it! Why—P. A.'s flavor and fragrance and coolness and its freedom from bite and parch (cut out by our exclusive patented process) are a revelation to the man who never could get acquainted with a pipe! P. A. has made a pipe a thing of joy to four men where one was smoked before!

Ever roll up a cigarette with Prince Albert? Man, man—but you've got a party coming your way! Talk about a cigarette smoke; we tell you it's a peach!

Prince Albert is sold in tippy red bags, tippy red tins; handsome pound and half pound tin tins and in the pound crystal glass tin as well as in a sponge moisture tin.

IF BACK HURTS BEGIN ON SALTS

FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

PLANT CITY STARTS TO MOVE GRAPEFRUIT

PLANT CITY, Oct. 5.—Seven cars of grapefruit, all shipped here from territory to the south, with the exception of some early local fruit, have been shipped to the northern markets from Plant City. The movement began Thursday and has been regular through today, when one car was shipped.

The vegetable movement is assuming importance. There have been 240 packages shipped in two days, not including today's movement. A quantity of eggplants are moving, and a good proportion of both white and yellow squash is being bought and shipped. Shipments of cucumbers, okra and pepper so far are insignificant. Only new pepper is being bought. Prices are considered fairly good. Eggplants are bringing from \$1.25 to \$1.50 per crate. There is a strong demand for yellow squash. Yellows are worth from \$1.75 to \$2.00 on the local platform, and whites run from \$1.50 to \$1.75 per crate. Pepper is worth around \$2 per crate. Okra is demanding from \$1 to \$1.25 per hamper.

FUNERAL OF MRS. F. L. WOODRUFF, JR.

(From Monday's Daily)
The funeral of Mrs. Frank L. Woodruff, Jr., occurred from the home on Oak avenue Saturday afternoon at 4 o'clock, Dr. Brownlee, of the Presbyterian church, officiating. The interment was made in Lakeview cemetery, and the beautiful floral offerings attested to the love and esteem in which the deceased was held in this city.

"These Rats Wouldn't Eat My Best Grain," Says Fred Lamb.

"It's hard to keep rats out of a feed store. Tried for years. A neighboring store sold me some RAT-SNAP. It worked wonders. Gathered up dead rats every morning. Bought more RAT-SNAP. Haven't a rat now. They wouldn't eat my best grain when I threw RAT-SNAP around." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

BANK AND TRUST COMPANY WILL BE ORGANIZED AS SANFORD INSTITUTION

Charter Being Prepared
For New \$100,000
Bank & Trust Co.

OVERSUBSCRIBE

STOCK AFTER ONE DAY'S CAN-
VASS OF LOCAL BUSINESS-
MEN AND INVESTORS

A new financial institution for San-
ford, or rather a re-organization of
one already established, will be the
new bank and trust company, articles
of incorporation now being prepared
for the same. It will be a reorganiza-
tion of the Peoples Bank and whether
the name will be the Peoples Bank &
Trust Co., or have another name
makes but a small difference for it
will be a new proposition with all the
features of the banking system and
with the trust feature added to give
the patrons a much better service in
many ways.

To demonstrate the ready response
that met the efforts of the organizers
and the need of an institution of this
kind in Sanford it is stated that in one
day's time the \$100,000 capital stock
of the new institution was largely over-
subscribed and the books had to be
closed. Of this amount 925 shares are
Sanford people and only 75 shares are
out of town investors, thus insuring
the people that it will be a strictly
home institution in every way. It will
have strong outside financial backing
putting considerable outside money
into Sanford for investment purposes
and will do much toward building up
Sanford and Seminole county. The
trust feature means that money will
be available for loans on real estate to
satisfy the insistent demands being
made every day for the building of
more homes and the enlarging of the
capital stock with the money available
from other sources will make a differ-
ence in the ability of the bank to
place more money in realty loans. The
meeting of the stockholders will be
held as soon as possible after the pub-
lication of the incorporation notice
and B. G. Smith, president of the Over-
seas Bank and well known in Sanford
will probably be actively connected
with the new institution with H. P.
Smith, the present vice-president and
H. R. Stevens, the president of the
Peoples Bank at present together with
several other local financiers and
stockholders making it a progressive
and strong financial institution and
officered and directed by Seminole
county citizens.

The new bank and trust company
will be ready for operation about the
first of November and will add greatly
to the other strong financial institu-
tions of this city. The bank and
trust company will have a capital
stock of \$100,000. The First National
Bank with \$50,000 and the Seminole
County Bank with \$50,000 makes an
array of financial strength that will
attract investments toward this city.
It shows the strength, the courage,
the wisdom, the confidence of the
home people when they put up \$100,000
in one day and oversubscribe that

SOUR STOMACH INDIGESTION

Theford's Black-Draught Highly
Recommended by a Tennessee
Grocer for Troubles Re-
sulting from Torpid
Liver.

East Nashville, Tenn.— The effi-
cacy of Theford's Black-Draught, the
genuine, herb, liver medicine, is
vouched for by Mr. W. N. Parsons, a
grocer of this city. "It is without
doubt the best liver medicine, and I
don't believe I could get along without
it. I take it for sour stomach, head-
ache, bad liver, indigestion, and all
other troubles that are the result of
a torpid liver.

"I have known and used it for years,
and can and do highly recommend it
to every one. I won't go to bed with-
out it in the house. It will do all it
claims to do. I can't say enough for
it."

Many other men and women through-
out the country have found Black-
Draught just as Mr. Parsons describes
—valuable in regulating the liver to
its normal functions, and in cleansing
the bowels of impurities.

Theford's Black-Draught liver med-
icine is the original and only genuine.
Accept no imitations or substitutes.
Always ask for Theford's. R. W.

amount by many thousand to place
their money in a home institution and
not wait for a foreign company to put
in a trust company to take care of the
many calls for investment purposes.
The new bank and trust company
will start with the best wishes of all
the banks of Seminole county and all
of the people and will take its place
among the large institutions of the
state.

GIBBS HOLDS FIRST PLACE TRAP SHOOT

ROY HARDIN NEXT IN ROD AND
GUN CLUB REC-
ORD

(From Friday's Daily)
L. H. Gibbs, now holds the best rec-
ord for marksmanship for the season
at the Rod & Gun Club trap.
Next to him comes Roy Hardin, a
man who has not been shooting this
season until yesterday but who is
showing up well. J. H. Cowan comes
third with a standing of 733 for the
season.

On account of the Gala Day cele-
bration yesterday many of the regu-
lars were unable to be out as the races
and tournament were being held at
the same time as the trap shoot and
many were busy. To make up for
this several men were in yesterday's
contest who came in for the celebra-
tion and attended the shooting rather
than the races.

On the whole the score is not quite
so good as on previous days but it is
still good amateur work. Yesterday's
results are as follows:

	Yest.	Season	Score	Pct.
Gibbs, L. H.	25-15		750	
Hardin, Roy	50-36		740	
Cowan, J. H.	25-15		733

The Five Smilers Named by Dr. Hyman at Baptist Temple

(From Monday's Daily)
Dr. Hyman gave the results of the
investigations of the Good Fellowship
League last night at the Baptist
Temple. It had been advertised for
some time that Dr. Hyman would give
the names of five of the most pleasant
men in Sanford on Sunday night, five
of the most pleasant merchants next
Sunday and five of the most pleasant
employees in Sanford on the Sunday
night following.

Last night Dr. Hyman said the
League had after much discussion and
mature deliberation decided upon five
of the most pleasant men in the city
and while there were many more they
had finally decided upon the follow-
ing: R. J. Holly, Edward Scoggans,
Jno. D. Jinkins, J. G. Ball, and C. E.
Henry. Watch them smile when they
read of this decision.

When the modern daughter is feel-
ing especially gracious, she is willing
to concede that her mother is a "nice
old thing."

LAKE MONROE

Progress marks the way in this
part of the county. Land is being
cleared, houses built, and the farm-
ing section widening upon all sides.
The stately trees that have long made
beautiful the boundaries of the Mon-
roe road are now falling before the
relentless axe. The highway from
Lake Monroe to First street was espe-
cially attractive on account of the
density of shade and the lovely sub-
tropical effect. Already fourteen
acres are under clearance upon the
east side, that portion having been
purchased by Postmaster Elder, of
Sanford. Upon the west, J. W. Bell is
clearing ten acres, and Neal Cole-
man, who purchased the Warren
place, is completing the improvement
of his farm. Out upon First street,
Mr. Hartline has bought a tract, built
a home, and is getting land under cul-
tivation for farming. R. H. Booth is
clearing up land for cultivating and
will eventually build a larger resi-
dence. L. C. Berd has bought the
Roe place, and is rapidly improving
his new home.

Mrs. Ora Denning Layton, field
worker of the Florida health associa-
tion, employed by the State Board of
Education, visited our school Tues-
day afternoon and gave a very enter-
taining instruction upon sanitation.
Mrs. Layton encouraged the children
to observe certain rules of sanitation
promising that in five weeks they
would be entitled to a certificate of
membership in the health crusade. All
that carry out the regulations for ten
weeks obtain a prize, the children to
the fourth grade a pretty Mother
Goose sanitation book, the remaining
grades, a crusade pin. The children
that persevere in sanitation till the
end of the school year, are awarded a
gold pin. Mrs. Layton is very charm-
ing and her suggestions were met
with hearty approval. Her next visit
to our school in five more weeks is
cagily anticipated.

A heavy rain fell here Sunday. The
soil was thoroughly moistened and
left in good condition for the setting
of celery, lettuce, cabbage, etc.
Farmers are busy here this week with
such crops, though many had already
set plants in the field as we have an
abundance of water in this section,
the artesian wells always respond
freely and naturally despite the most
prolonged drouth. There has never
yet been a single well to fail in the
Monroe locality. Mr. Harry Lappin,
of First street, has completed the re-
tilling of the front five acres of his
farm and is making preparations to
tile a back five acres. The middle five
acres of the place are to be kept in
the woodland and will furnish a loca-
tion for their future residence, a
modern home which they expect to
build some time soon. Mr. Lappin is
fast getting his place in fine condi-
tion, which, with that good location,
makes this farm a very desirable one.

Mr. and Mrs. L. B. Mann enter-
tained the young folks of the B. Y. P.
U., very delightfully Friday evening.
Refreshments were served and the
evening pleasantly whiled away in
merry games.

A jolly party enjoyed a chicken pil-
lau at Hawkins' Springs, Saturday.
They were Mr. and Mrs. Charlie Bell
and son, Ernest, Mr. and Mrs. R. T.
Wynne and daughter, Misses Roberta
and Josephine, Miss Linda and Henry
Miles.

Mr. J. B. Johnson and wife have re-
turned to their home here after spend-
ing the summer in Tennessee.

Messrs. Leo Pryor and Morgan
Chadwick of Knoxville, Tenn., spent
a week here, camping. They will tour
the state before their return north.

Mr. and Mrs. Albert Hawkins and
children, spent Saturday at the beach.
Mrs. Jordan is visiting relatives in
Alabama.

Mr. Frank Lappin, who spent the
past year here with relatives, has re-
turned to his home in Massachu-
setts.

Mr. and Mrs. C. M. Rabun and Mr.
and Mrs. King, spent Saturday at
Daytona Beach.

Mr. Charlie Bales was in Leesburg
on business this week.

Mr. and Mrs. Mark Naugher, of
Tennessee, have moved here.

Mr. and Mrs. Lester Johnson have
returned home after spending the
summer in the north.

Mr. W. J. Jewell is confined to
his home by illness.

Rev. Stackhouse, the Methodist
minister, has gone to Tennessee
where he will locate.

Mrs. Harry Rabun is recovering
after a short illness.

A Southern reformer has been fined
for drunk and disorderly conduct. "If
the righteous scarcely be saved,
where shall the wicked and ungodly
appear?"

PUBLIC SCHOOLS OPENED TODAY FOR THE TERM

ALL OF THE SCHOOLS ARE FILL-
ED AND FINE CORPS OF
TEACHERS

(From Monday's Daily)
Sanford schools opened this morn-
ing with a large attendance at both
High School and the Grammar Schools
and the two Primary schools. Appro-
priate exercises were held at all the
schools and the new school year starts
off with the brightest of prospects.

At the High School Dr. Walker, Dr.
Burhans, Prof. T. W. Lawton, R. H.
Pearman and F. P. Forster and several
other well wishers of the schools
assisted Prof. McKay, the principal, in
welcoming the high school pupils and
gave them good advice upon the com-
mencement of another school year.
The high school this year gives a very
bright promise of having the largest
enrollment in many years and they
have the largest class of freshmen in
the history of the school.

ANCIENT STEAMER LINE RAN TO ROCKLEDGE VIA LAKE POINSETT.

C. H. Leffler brought a card to the
Herald office this week that adver-
tised the steamers running from San-
ford to Rockledge via Poinsett. The
card says: Steamer "Astatula" leaves
Sanford every Monday and Thurs-
day at 8:30, arrives at Lake Poinsett
next day at 7 a. m. Three miles to
Rockledge by hack meeting steamer
going north Tuesday, and south Fri-
day. Returning leaves Poinsett at 3
p. m., Tuesday and Friday, arriving at
Sanford on Wednesday and Saturday
morning, making connection for all
points. In January, the steamer Junita
will be put on the line making tri-
weekly trips. Joe Smith manager, and
E. B. VanDeman agent at Sanford.

Many of the old timers will remem-
ber these little river steamers that
made the upper St. Johns river trip
and the card shows that even in the
early days the upper river could be
negotiated. It was a case of neces-
sity then to use the river and every-
one used it as there were no railroads.
Now the people are again using the
boat lines because the high freight
rates have forced them to do so.

If the boats in the early days could
go from Sanford to Lake Harney and
on to Lake Poinsett they could go
there now and with a canal connecting
with the Indian river go all the way
to Miami.

American Legion Will Celebrate Armistice Day

Expect to Stage Big Parade, Dances
and Carnival

Campbell-Lossing Post of the Amer-
ican Legion is one of the liveliest posts
of World War veterans in the state
and they are up and doing all the
time. They have virtually secured a
lot on the lake front from the city
upon which they expect to erect a fine
building in the near future—one that
will be a credit to the city and county
and to the local post.

The boys are planning a big day
here for November 11th—Armistice
Day—and with big parades, carnival
features, dances and a good time gen-
erally the day will be another mile-
stone in the history of the local post.

They have not settled on the entire
program as yet but they are working
on it with the help of the Auxiliary
ladies and Armistice Day will be one
of the big events of the month of No-
vember in Sanford.

The county commissioners at their
last meeting granted the boys the use
of the court house for the dance at
night and the overflow crowd will be
accommodated at a good dance plat-
form near the court house on the bulk-
head where there will be all kinds of
new features to entertain a big crowd.

CARTER LUMBER COMPANY

SANFORD, FLORIDA

Fordson

TRADE MARK

\$625 f. o. b. Detroit

What Henry Ford Says About Machine Power Farming

"In the tractor the farmer now has a machine in which is harnessed
one of the most adaptable, efficient, economical sources of power in the
world—the internal combustion engine.

"The tractor will multiply the productive capacity of each individual
farm worker from three to four times over.

"It will put the farmer on a par with the city manufacturer. It will
put his produce-producing factory—for that is what a farm is—on to an
efficient production basis.

"It will enable each worker to earn so much more that he can be paid
more and still leave a greater profit for the man who hires him. It will
enable the farmer to work fewer hours in the day, giving him more time to
enjoy life.

"I believe the tractor will make farming what it ought to be—the most
pleasant, the most healthful, the most profitable business on earth."

Foreign Advertising Representative
THE AMERICAN PRESS ASSOCIATION

The Tampa Tribune in an editorial says: "The eyes of the world is on Tampa." You bet; and all of south Florida is proud of Tampa.

The organization of the Florida Water League shows what concerted action will do backed by the various Chambers of Commerce and the trade bodies. That is real team work.

The cool weather is bringing out the people to trade and the merchants of Sanford are taking advantage of the cold spell to put on big sales and do business by stimulating trade. Advertising is the early bird that gets the worm.

Sanford schools have opened, and the prospects are bright for a fine record to be made this year. It behooves all the parents of the pupils and the patrons of the schools, to uphold the hands of the teachers in making our schools the best in the state.

Reports this morning say that western meats have taken a big drop and yet many state papers are claiming that Florida beef is a drug on the market. It seems that at present Florida beef is higher than western beef. Who is suffering now? Florida cattlemen or western cattlemen?

Sheriff of Texas town told the Klansmen that if two of them would go with faces unmasked the Klan could march. Fool orders made by a foolish sheriff. Why ask two of them to go unmasked. Either ask all of them to go unmasked or forbid any of them marching.

Rains are here and there is a big difference in the temperature already and the signs are good for an early fall and winter and a big trade. The celery fields are looking fine today with the prospects of a good crop at good prices. The rains are worth thousands to this section.

Sanford has the brightest prospects of her history and Sanford is going ahead. All it takes is special sales and cheaper prices and more advertising to get the people to come here and trade. Sanford is the natural trading center for this part of Florida and should be made the center by special inducements.

There is so much good to talk about in this city and county and so little to kick about that the Herald takes up but little of the criticism that is leveled at the few men who seem to be doing things and are in the public eye. Knocking never put any place on the map and while healthy criticism is good, continual knocking is bad and there is a difference between constructive criticism and knocking.

Reports from Washington say that the nation's debt continues to increase and it will probably increase right along. We became such spendthrifts in government channels during and after the war that it is hard to get back to safe and sane lines again. But those of us who had no chance to make a million learned to economize during the war and we are trying to economize now but we have to give all that we save to the government to spend.

The Tampa Times is keeping up the fight against the commission form of government. Few newspapers want the commission form of government for it certainly cuts the advertising that formerly went into the papers but the Herald still believes the commission form of government is the most business-like, the most systematic, the most efficient form of city government in the country. It is so good that the counties and states should have the same kind of system. We liked it from the first, we advocated it and we have no reason to feel that it has not been a good thing for Sanford. Until we are convinced that it is not good and only figures will convince one, we will favor the present form with a few changes that would save the city money and we will take these changes before the legislature meets again.

WHY PICK ON FLORIDA BEEF?

There is so much said in the various state papers now about the Florida beef having no markets and being of no value and about the ticks, etc., that a stranger in the state would imagine that the Florida cattlemen were on the road to the poor house. Like every other crop in Florida cattle in a measure depended upon the outside markets for a sale but like all other crops, cattle can be sold at home and keep the cattle owners from starving to death and the outside world can wag along without them. The best markets for Florida beef are right in Florida if the people would get that notion in their heads. We are always trying to buy something outside of the state and the same holds true of our beef and pork and other meats. If a hotel wants chickens or turkeys or ducks they usually get cold storage stuff when they could just as well use the home grown. The cattle men of Florida are not worrying about the cattle business half as much as some other people. The cattle men are not asking for any aid from any outside parties and they seem to be doing very well and if the specimens of Florida beef brought into the markets here in Sanford are an example the cattle seem to be doing very well. And if there is no market for Florida beef at present neither is there any market for the beef of the great West and Southwest and the cattlemen of those great beef countries are having just as hard a time as the cattlemen of Florida and much worse. They are calling for money and asking for help and wailing and gnashing their teeth over the cattle question and the ticks do not seem to enter into the argument at all. We do not see where this knocking of the Florida beef will get us anywhere and this newspaper that has always been an advocate of fence laws and tick laws thinks that a more systematic campaign could be made for the sale of Florida meats than such a campaign of knocks to be made against the Florida beef.

We note the following dispatch from western points in the papers of yesterday that shows the cattlemen of other states are in a quandry and are going out of business:

A serious cattle shortage will confront the United States within a year unless livestock raisers stop the flood of immature cattle to the slaughter houses, Eugene Meyer, Jr., head of the war finance corporation, declares. Meyer returned from a tour of the cattle-raising country in the west and middle west.

Meyer said that he warned bankers that they must extend adequate financing in their respective territories to avoid a breakdown in the cattle industry which, in turn, would seriously affect farmers and the general public.

Assurances were given the bankers that the war finance corporation is anxious to see the cattle industry in a healthy condition and stands ready to assist in every way possible.

Conditions in the middle west and west are far from satisfactory, Meyer said. States which are neglecting their cattle industries are liable to lose them, he said.

Hundreds of millions of dollars worth of feed will go to waste if immature cattle continue to be sold for slaughter, he said, because there will be insufficient cattle to absorb the vast amount of corn, alfalfa, sugar pulp and like crops, which will be harvested.

OFFICERS SHOULD BE CAREFUL.

The Herald makes but few criticisms about the actions of the officials of the city or county. We believe that they are doing their duty as they see it and while they make mistakes they are in the main doing as well as they can. This has been our policy all the time and we are not in the carping critic class of continually harping on the frailties of either officials or of citizens. To err is human and the human race is made up of mistakes. And yet there are times when officers are too prone to beat up a man or shoot a man or go beyond their authority in order to show their authority. As the Irish policeman said when he beat up the prisoner, "It is not because I hate you that I hate you but just to show me authority," and this seems to be the rule with some.

The Herald knows none of the circumstances connected with the shooting of a man here by the officers except that he was commanded to halt and did not and was shot by the officers. He was not advancing on the officers with the intention of killing them as we understand it and even had he escaped he could have been apprehended again but the officers probably know why they shot when they did and they will probably have a chance to tell it in court for there are few instances where it is justifiable to shoot a man. In this instance the officers say they only shot to wound the man and stop him and the seriousness of his wounds will either condemn them or justify their actions.

There is so much for an officer to look out for when he is attending to his duty that it is rather difficult for a man to attend to his duty without

making many mistakes from the view of public opinion. The enforcing of all the laws and ordinances would depopulate the city for half of the population would be in jail all the time. There are many fool restrictions about automobiles that would keep the cars off the streets and make Sanford a place to be shunned and there is much kicking from strangers about the traffic laws being enforced and it is the stranger who helps to damn your town regardless of whether the laws are stringent or loose. An officer at all times should be a diplomat and have the manner of approaching a stranger that will at least leave a good taste in his mouth. There is nothing so disagreeable as having an officer yell at you in a strange town and tell you where to head in and take you up on the slightest provocation to face the judge on a trivial charge. All of you who have been in such a position in a strange place can bear out this testimony. Officers should be gentlemanly, courteous, accommodating and obliging. They should be mighty careful how they enforce the law and should know the law and know how to enforce it.

However, it is a difficult matter to get officers to suit everybody just as it is to get editors to suit everybody.

TOO BUSY TO TALK.

You never see the real busy business man standing around discussing the affairs of state or county or city and bemoaning the fact that Mr. So and So has an office and should be ousted because he put the talker's son in jail or hit his friend or soaked this fellow for something and that the country is going to the demition how wows. No indeed. You see the fellow who has some kind of a job to which he pays but little attention and spends his time on the street discussing the fellows who are making the town. The man who has his own business to attend to and gives his spare time to the building up of the city and to the Chamber of Commerce and the various trade bodies of the city never stands around the street corners to discuss the little picayunish things that amount to nothing. It is always the fellow who has nothing to do, never has done anything and never expects to do anything who does all the talking about his betters. It is the man who is doing something here in Sanford who gets all the censure and the censure comes from the people who are doing nothing themselves. If the people of this city who spend their time talking would get right into the thick of things and become town builders instead of talkers this city would become the city of our dreams—a city of twenty-five thousand people. But from the time that Sanford was started until the present time there has been too much valuable time lost on the street corners discussing the trivial affairs that mean nothing to anyone and the big ones are allowed to go by.

There are just about twenty-five too many street corner gossipers here and if they would take a tumble to themselves and get into the working class they would get a big growth off their systems and help to do something here instead of standing in the way of progress. And usually they are against everything good and wholesome and pure and decent.

Dr. Walker said something about this class in his sermon last Sunday and he intends to say something about them for some time to come and if he will just come out and tell some of the names this paper will take great pleasure in publishing them where everybody can see why they are camouflaging the main issue here in order to cover up their own muddy tracks.

SOFTENING THE WATER.

The last issue of the Arcadia Enterprise had an editorial urging the city to put in a water softening plant. We believe that Bradentown should do this and do it at once. We saw enough of water softening processes recently to believe that this would be a good thing for Bradentown, and would be self-sustaining.—Bradentown Journal.

This is what Sanford needs, and needs badly. The sulphur water causes needless expense to the people of this city and should not be tolerated. Other cities with sulphur water have it softened, and Sanford citizens should demand it.

Some people have strange ideas of the printing business. Grown men come into the Herald office every day looking for work. They seem to think that any ordinary rough neck can step right into a printing office and go to work printing. It takes from three to four years of the hardest kind of work for a greenhorn boy to learn the printing trade and many of them never learn it then. Printing is a real trade and to learn it one must start as a boy apprentice and there are few of them starting. They would rather take an easier job at more pay.

SOMETHING TO CONSIDER.

The people of Sanford are now and have been for years and will be for years to come very much concerned over the question of taxation. You cannot have improvements without taxes and the city that has a low tax rate has one of two things: It has no improvements or it owns the public utilities. Now if the people of Sanford want to improve their town and want lower taxes they will have to get busy on the question of municipal ownership. The Southern Utilities Co., or just like the railroad companies—they will have to be shown and you need expect no favors from them and not even the lowering of one cent on anything they sell. After the war when everything was high they were entitled to a better rate. Now that everything that enters into the manufacture of lights and gas and water and ice has been lowered the people are entitled to a lower rate. Do we get it? Sanford is paying more for ice and water and gas and electricity than many of the other cities in the state of Florida and Sanford will continue to pay it as long as the Southern Utilities Co. is allowed to collect it. The only remedy is to start the ball rolling right now for municipal ownership and while it may take years to put it over it will eventually be put over if the people here are sincere and have the backbone to go ahead and vote bonds for the only improvement that will turn the money directly back to the city treasury. Streets and sewers and sidewalks and many other improvements are needed and should be made but they turn nothing back to the city coffers. Your municipally owned plant's will be money makers for you from the very start and you will see a big difference in the tax rates in a few years afterward.

It is well to take up this matter at once. A new ice factory here would bring down the price of ice and the present company has no franchise to sell ice. Any one can start a factory here at any time and if you are not satisfied with the quality of ice and the quantity your redress is to start another factory. The one prime necessity in the life of the people in the summer is ice. You can get it. Don't bring any more of your troubles to the newspaper about these various phases of the corporations. You have the remedy in your hands to get the proper results. Get it.

THE WAR AGAINST THE KLAN.

It is possible, while disapproving of the Ku Klux Klan as it has been revealed lately, to disapprove also of some of the methods used to suppress the order. In various cities the authorities have taken it upon themselves to forbid meetings and initiations of the Klansmen.

It may be questioned whether such action against the Klan is legal, either when taken by the mayor or police without specific authority or when taken in pursuance of local ordinances especially directed against the Klan. It is still more open to question whether such procedure is sound policy.

The right of assembly is one of the most sacred of American principles, not to be challenged except for the gravest cause. That any particular assembly, or the organization it represents, is judged harmful to the public welfare is not necessarily justification for declaring it outlawed. Only when

\$2,500,000 ORANGE COUNTY HIGHWAY BOND ISSUE IS VALIDATED.

The huge \$2,500,000 Orange county highway bond issue was validated yesterday by Hon. Charles O. Andrews, Judge of the seventh judicial circuit, State of Florida, at a hearing between C. B. Johnson, attorney for the Board of Commissioners for Orange county and Hon. Jos. H. Jones, state's attorney for the seventh judicial circuit. After the hearing, Judge Andrews issued his decree, which will give the county commissioners the power to advertise the bonds, in whole or in part, for sale. After a sale is effected contracts will be awarded and the work of constructing the various highways will commence. The highway from Orlando to the east coast will be the first to be constructed. It will be sixteen feet wide. Of the issue \$150,000 is for an enlarged court house in keeping with the continued growth of Orange county.

Mr. Robinson, attorney for the board, stated yesterday that it had not been definitely decided how the bonds would be disposed of but he considered it likely that only \$1,000,000 of the bonds would be advertised for sale now. The regular monthly meeting of the board of county commissioners will be held this week—Orlando Sentinel.

Work has started at Lake Butler on the construction of the electric plant. Some of the material is on the ground.

In Europe they are extracting edible fats from tar for the manufacture of margarine. For the sake of one's appetite, however, they still cling to the old name.

Never try to explain a failure. Your friends know all about it.

SANFORD ROTARY CLUB MEETING J. TURNER HERE

JUDGE HOUSEHOLDER TAKEN INTO CLUB AS BABY ROTE

(From Tuesday's Daily)
Sanford Rotarians had a big time at their luncheon today having as their guest District Deputy John Turner, of Tampa, a man well beloved by every Rotarian in the United States and Europe, who has met the smiling John at various times. Mr. Turner has just returned from the Rotary trip to Scotland, England, France and Spain and in the latter country had the honor to install Rotary for the first time.

John having lived in Tampa ever since Ponce DeLeon discovered cigars in that city knows the Spanish language and was chosen for the task of placing Rotary in Spain which he did to the entire satisfaction of International Rotary and the Spanish Dona. John today gave a very interesting talk on the trip to foreign lands in which 1,500 Rotarians from the U. S. A. and Orlando met the Rotarians from other countries and it was an international affair in every sense of the word. Mr. Turner had but little time today but he made it count and aside from his very interesting talk on the trip to Europe gave the Sanford Rotarians a fine talk on Rotary and all that it means. There are few Rotarians in the country better versed in the subject or that have Rotary in their hearts as largely as District Governor John Turner and his election to this important post was a great stride ahead for Rotary in the Southeast and his Florida friends are very proud of him and his visits to the various clubs over the state are looked forward to with much pleasure.

One of the features of the meeting today was the advent of Judge Householder, the baby Rotarian and only the press of business kept the Rotarians from giving the Judge a real initiation. He was welcomed by President Stevens and by J. G. Ball and responded in a neat speech that John Turner said was the finest he ever heard from a Baby Rote—but then of course he never heard the genial Judge before.

D. L. Thrasher also made a two minute talk on Rotary that was filled with good cheer and good things for the members.

District Governor Turner paid Sanford Rotary club a fine compliment and said they were doing things and were gaining a fine reputation among the clubs of the state receiving a fine compliment from the Orlando club, that was sponsor for the Sanford club.

Mr. Turner also called attention to the fact that on October 28th Orlando will be the meeting place for the Rotarians of the state at which time there will be at least 500 Rotarians in that city and Orlando wants Sanford to help them in entertaining the guests. It will be an all day affair and promises to eclipse anything ever held in the state before.

Get your battery filled with distilled water free at the Hof-Mac Battery Co., "Foot of First Street." They make their own.

WOMEN'S GUILD

The first fall meeting of the Women's Guild, Holy Cross Parish, was held at the rectory Monday afternoon with a splendid attendance. Many enthusiastic plans were laid in regard to the coming year, December 1st and 2nd. The Guild is making this the banner year, working along new ideas that will give the public more than value received in the largest bazaar ever held in Sanford.

Tanlac is manufactured in one of the largest and most modernly equipped laboratories in this country. Sold by Union Pharmacy.—Adv.

UPSALA AND GRAPEVILLE

Grapeville was blessed with a fine rain last Saturday and we all needed it badly.

What splendid cool weather for work and the opening of school. We hear there are thirty going in on the Upsala bus; nine new pupils this time among them, little Esther Ericson, Russel and Raymond Lundquist are entering for the first year.

Andrew Bertelson, who has again taken up his work at the shops after his accident, was on the sick list for a few days but is better now we are glad to hear.

Emil Magnuson is making his home for the present with his sister and husband, Mr. and Mrs. J. E. Lundquist, who have been such a comfort and help to him during the long illness of his wife.

Mr. and Mrs. Ambrose moved into town and Mr. and Mrs. Henderson and family are now occupying the Beck cottage in Grapeville, coming from Paola.

Nearly all the people from this section took in the great day in town on Thursday.

A card received from Mrs. Collier announces the arrival of her husband at Canton, N. Y., and that they are present at the home of Mrs. Bessie Sellice, whose girlhood days was spent in their home and are enjoying making a number of calls and visits among their old friends.

Rev. Albertson, as usual, gave us a good sermon on "The Inward Man," on Sunday, and Mrs. Albertson a sweet poem, "Weaving in the Loom of Life." They made eighteen calls Saturday in the three fields, at Paola, Upsala, Lake Mary, in one locality calling at the homes of Mrs. Menor, Andrew Bertelson and Emil Magnuson. They were dinner guests Sunday at the Ballinger home and for supper with Mr. and Mrs. Bertelson.

EAST SANFORD

Mr. and Mrs. Hal Colbert have as guests Mr. C's brother, wife and little daughter, of Port Tampa.

Mr. and Mrs. David, who recently returned from Brunswick, Ga., have been visitors at I. D. Hart's.

Carl Chorpeneing and Perry Cameron went to Bostwick via the A. C. L., last week and brought back four horses for Mr. Cameron. The boys camped out nights on the way home and had a fine time.

Argel Cameron and party of friends spent Sunday at New Smyrna.

The death of the lovely little son of Mr. and Mrs. Ben Monroe came as a great shock to every one. They have the sincere sympathy of all east Sanford.

Mr. and Mrs. M. A. Jackson were on a week end fishing trip to Daytona Beach. Among their catch was an 18 pound seabass.

Rhode Island Red hens belonging to Mrs. J. C. Ellsworth laid a curious egg one day recently, a perfectly formed, very large sized egg shell with a normal sized egg in side in another shell. Two shells, one egg.

C. E. Chorpeneing has accepted the contract of carrying all the east side children to school again for the next eight months with his two trucks and trailers. The parents are all much pleased for they feel their children are safe in Mr. Chorpeneing's care.

R. C. Long has just completed the painting of the three school houses for the colored children in Sanford.

East Sanford was favored with a fine shower on Saturday and another on Sunday that done a wonderful lot of good to all growing things.

Routh Bros. Bakery Opens Downtown Store

Routh Bros. Bakery have opened a downtown retail store in the Princess Theatre building in the room formerly occupied by the Quality Shop. Here they will have fresh bread, rolls, cakes, pies and confections of all kinds every day. The retail store will open next Saturday at noon. You know the Sanford Maid Bread and the nice hot rolls that have made Routh Bros. famous. You can get them now at any time at the retail store. See the advertisement in the Daily Herald.

Thousands of weak-run-down men and women have reported astonishing gains in weight from the use of Tanlac. Sold by the Union Pharmacy.—Adv.

Looks like city politics will hold the boards now to the exclusion of everything else. Most people would rather talk politics than business.

—Get your Scratch Pads from The Herald—by the pound—15c.

PERSONAL NOTES

(From Wednesday's Daily)
Mrs. C. J. Wolfe and two children, Clarence and Ralph, have returned from a visit to Wilmington, N. C.

Mrs. A. K. Powers and children, Mariah Ann and Kinchen, have returned home from North Carolina where they spent the summer.

Mrs. W. D. Gillen and son Billie have returned home from Black Mountain and Asheville, N. C., where they spent the summer. They were joined by Mr. Gillen who returned home with them.

Miss Nita Moore was the guest yesterday of her sister, Mrs. K. R. Murrell enroute to Orlando where she will again teach at the Cathedral School.

Mrs. T. W. Getzen and son, Jack, of Lakeland, are in the city the guests of Mrs. Getzer's mother, Mrs. H. B. Connelly.

Mrs. Howard Harris returned from Lake City last night.

Frank L. Woodruff, Jr., has gone to points in North and South Carolina for a few weeks' visit.

J. K. Mettinger is spending several days at Daytona Beach where he is enjoying fishing and crabbing.

Mrs. Clarice Hand, Axel-Hansen, is spending a few days with her parents, Mr. and Mrs. Will Hand. She is now living in Lakeland.

Mr. and Mrs. John Turner, of Tampa, who were here yesterday on a visit, left last night for Miami and other points on the east coast.

Mrs. R. W. Pearson and children have returned from Daytona Beach where they spent the summer and the family are now comfortably situated in one of the new Brison homes on west First street. Secretary Pearson says she now feels like he is living again.

(From Thursday's Daily)
Mrs. H. E. Carlton, of Arcadia, is the guest of Mr. and Mrs. L. Y. Bryan at their home on Palmetto avenue.

Mrs. Howard Harris returned home Tuesday evening from Lake City where she spent several weeks with her parents.

Mrs. R. L. Griffin and Mrs. R. L. Shiholzer will entertain the members of Circle No. 3 of the Methodist church, at a porch party, Monday afternoon at 3:30 at the home of Mrs. Griffin on Myrtle avenue.

Misses Marion Packard and Stella Seidler, of Detroit, Mich., are the guests of the former's sister, Mrs. W. A. Routh, at her home on West First street.

Mrs. C. E. Stafford and daughter, Mrs. Edward Betts returned home on Tuesday evening from an extended visit to the Virginians and North Carolina.

Mrs. E. D. Bullock and granddaughters, Misses Cox and Runyan, of Ohio, arrived last night and are now occupying her home recently purchased from G. A. Speer, on Fifth street.

Miss Frances Chappel, who graduated from the nurses training school at St. Luke's Hospital at Jacksonville, returned home last week and will spend the winter with her parents, Mr. and Mrs. H. H. Chappell, on Celery avenue.

Judge and Mrs. Scheffe Malnes have returned from a trip to the old Maine home at Lake Butler. While there they attended the big picnic and barbecue celebrating the first birthday of the new Union county. Judge Malnes made the speech of the day and told the people about the prosperity of the new counties of South Florida and especially of Seminole.

GENEVA

Mr. and Mrs. Clifford Proctor took supper with Mr. and Mrs. David Speer, of Sanford, on Thursday evening. After supper they attended the street dance in Sanford.

The little Misses Radra and Louise Culpepper spent the week-end in Sanford with their aunt, Mrs. David Speer.

A large number of people from Geneva attended the Gala Day celebration in Sanford on last Thursday.

Miss Moisan has accepted the position of teacher in the public schools at Longwood and left Monday to take up her duties at that place.

The Sun Beam Band of the Baptist church and their friends, held a delightful picnic on the St. Johns river near Ocoola last Friday. A large number attended and after a pleasant evening of games, refreshments were served under the trees, and the children returned home on the four o'clock train, all reporting a nice time.

Mr. and Mrs. I. D. Hart, of Beck Hammock, were visitors in Geneva Sunday and took supper with Mr. and Mrs. Clifford Proctor.

Mr. and Mrs. Prevatt took supper with Mr. and Mrs. M. E. Wick, Sunday evening.

Mr. Oscar Nicholson, of Daytona, spent part of last week in Geneva attending to business and visiting friends.

School opened on Monday and a good many scholars are attending. Mr. William Kilby is teaching the primary grades, and Mrs. Dooley the intermediate grades and Miss Georgia Pattishall the grammar grades.

Mr. and Mrs. W. H. Kilby were in Sanford shopping Monday.

Mr. and Mrs. Wakefield attended the movies in Sanford Monday night.

Mr. T. W. Prevatt and party were unable to go to Sanford Saturday night but expect to go this coming Saturday.

Mr. D. D. Doane died suddenly at his home Wednesday afternoon at 4 o'clock. Deceased was 87 years old, and was one of the oldest residents of Geneva. He leaves besides a wife, three sons, Harley, of Miami, Arthur of Jacksonville, and Stewart of Geneva. The funeral service will be held

Hit the Nail on the Head

It's getting up courage to drive the first nail that's the hard part about building. You can trump up dozens of reasons for postponing the job—but did you ever know anybody to be sorry he built? Most building materials are low priced now. Not every thing is as cheap as lumber but by the time the other things have dropped probably lumber will rise. So all in all this is a good time for building. Hit the nail on the head!

HILL LUMBER CO.

SERVICE QUALITY PRICE

STRAWBERRY PLANTS FOR FALL PLANTING

from Tenn. farm. Varieties: Klondike and Missionary. Prices: 100, 75c; 500, \$3.00; 1,000, \$5.50; delivered. CABBAGE PLANTS, ready October 15th, and after at \$2.00 per 1,000 delivered. Orders booked now. Address, H. Lightfoot, Altoona, Fla. (Lake Co.)

at 3 o'clock this afternoon, Rev. Thompson will hold the services. Mr. and Mrs. H. H. Pattishall returned last night from their trip in the north.

Mrs. Tom McClean left Monday night for Chuluota, where she will spend two weeks with her daughter, Mrs. Mamie Sieg.

Mr. Mam Long and Mrs. Fred Long of Chuluota, were the guests of Mr. and Mrs. T. W. Prevatt at supper on Saturday evening. After supper Mr. Fred Long entertained a number of his friends with selections on the banjo. Those enjoying the evening of music were, Mrs. I. M. Prevatt and daughter, Christine, Mrs. Harry Rives and children, Mr. and Mrs. McFarlane and children and Mr. Curtis Woods.

Making Extraordinary Mileage a Certainty

Car Owners want more rubber on the tread where the wear is hardest; more gum between cord plies to perfect a resilient and powerful carcass. And they want a scientifically constructed Non Skid tread with all angles and contacts to resist skidding and give sure traction. Firestone Cord Tires have met these demands of the car owners.

Read Letters Below— Records from 29,000 to 57,000 Miles

Cord Tires built the Firestone way could not fail to produce mileage. Every day, from all over the country, comes the word that 10,000, 20,000 or 30,000 miles are frequent and consistent records.

Now and then they are emphasized by unusual instances such as quoted below. Performances like these demonstrate the ultimate possibilities of Firestone Cords under careful driving.

Sept. 14, 1921
Firestone Tire & Rubber Co., Jacksonville Branch, Jacksonville, Florida.
Gentlemen:—
I submit herewith the history of a 32x4 Firestone Cord tire. This tire has run 29,000 miles. I have retreaded it seven times. The average mileage to each retreading was about 7,000. I think you will agree this is a remarkable record. It is especially unusual as I know the owner to be a severe driver. However, he gives his tires proper inflation. The tire in question is not yet out of service and has every indication of being sufficiently strong for another retread. I am mailing photographs under separate cover.
C. U. Penny, Plant City, Fla.

Sept. 5, 1921
The Harvey E. Mack Co., Fifteenth & Harmon Place, Minneapolis.
Gentlemen:—
It occurs to me that you might be interested in the mileage that I obtained from the set of Firestone Cord tires on my Dodge coupe. The first tire went over 57,000 miles. The second tire rolled up a mileage of between 44,000 and 48,000. These were both rear tires and had been cut considerably by chains. The two front tires have gone better than 45,000 miles and are still in good condition. I expect to get at least 40,000 miles from each of them. I need scarcely say that the Firestone Cord will be my tire choice for the future.
Arthur H. Beard, 222 LaSalle Bldg., Minneapolis.

"Made To Make Good"

DR. BELCHER IS INNOCENT SAYS JURY

TARPON SPRINGS PHYSICIAN CLEARED OF CHARGE OF MANSLAUGHTER

(By The Associated Press.) CLEARWATER, Oct. 1.—"We, the jury, find this man not guilty of either of the two counts in this indictment; so say we all."

As the words penetrated to the farthest corners of the hushed, although crowded courtroom, a spontaneous burst of applause came from the mass of spectators. A little cry of delight was heard over the applause, and Mrs. Irving J. Belcher rushed into her husband's arms, smiling happily.

The trial of Dr. Irving J. Belcher was at an end. The Tarpon Springs physician, who had been charged with manslaughter in connection with the death of twenty-year-old Virginia Turner, of Clearwater, whose body was found floating in Booker creek, about fifteen miles from here, Aug. 27, was a free man.

After exactly one hour of deliberation, the jury of six "good men and true" found the verdict for the defendant.

Dr. Belcher, charging him with being an accessory after the fact in disposing of the body of Miss Turner, will be taken up some time during the winter when a judge from another circuit comes to try another case pending in Pinellas county. It is not considered likely, however, that this indictment will be prosecuted.

DEATH OF MONROE BABY

(From Monday's Daily.) The little son of Mr. and Mrs. Ben Monroe died very suddenly Saturday morning and it is presumed that he had ptomaine poisoning of some sort as he was in the best of health up to that time and was taken with a violent illness that carried him off in a few hours. He was the picture of health and had been on this earth just long enough to endear himself with his parents and relatives and friends when he was taken without any warning.

The funeral occurred from the Monroe home on Celery avenue yesterday afternoon at two o'clock. Dr. Walker of the Methodist church and Dr. Hyman, of the Baptist church, officiating, and followed by a large cortege of friends and relatives was taken to Lakeview cemetery for interment.

The sympathy of the entire community goes out to the grief-stricken father and mother whose cup of sorrow seems almost overflowing.

FRED FREDERICKS SHOT BY OFFICERS IS RECOVERING.

(From Tuesday's Daily.) Fred Fredericks, shot by officers Saturday night, is recovering from his wounds, which at first, seemed fatal, but his rugged constitution will stand him in good stead and the physicians think he is out of danger, although badly peppered by small shot, and also a pistol ball in his leg. Officer Harrison wants it stated that he was only doing his duty when he shot at the fleeing fugitive, and that he and City Manager Ryan both had shot guns with the small shot, and both pulled down on Fredericks as he went through the scrub and as Chief Killebrew also fired his pistol, the perforated condition of Fredericks is the result.

It is rumored that as soon as the condition of Fredericks warrants it, the matter will be threshed out in the court at which time it will be determined as to whether officers can shoot at a malefactor after he is commanded to halt or not. This has always been a mooted question, and the result will be watched with much interest here and elsewhere.

"None of the officers had any wish to kill Fredericks or to seriously wound him, and the shooting would probably never have occurred in daylight. As stated in yesterday's Herald, the officers went to Fredericks' place to capture a still and when he was ordered to halt after starting to run, he failed to do so, and the officers fired on him with the result that he was seriously wounded.

HEAT BREAKS WINDOWS.

Sometime ago T. J. Miller, who is having the old theatre building remodelled, was engaged in having the plate glass windows set and was very careful about allowing space for contraction and expansion. Upon being questioned about the matter of setting the glass in windows, he gave out a valuable fund of information about glass in this, and other countries, and the relation of large windows to heat and cold. It seems that others have not been so careful, the following from the Kissimmee Valley Gazette, brings to mind what Mr. Miller said some time ago:

Both the handsomely adorned windows of the Merchants and Farmers Bank facing Boardway have been shattered because of the sun's rays beating upon them. The loss will be considerable. Stanley Bullock, assistant cashier, was standing close by them when the breaks occurred, and investigation shows that they were improperly set, not sufficient space being allowed for the natural expansion. The location of the glass gives them the full heat of the sun during the hottest hours of the day, and an expert glass-setter always allows for the expansion of such large sheets of material. In this case, it is stated no allowance was made for the heat; consequently the breaking.

James Stucky Says, "Rat Cost Me \$125 for Plumbing Bills."

"We couldn't tell what was clogging up our toilet and drains. We had to tear up the floor, pipes, etc. found a rat's nest in basement. They had choked the pipes with refuse. The plumber's bill was \$125. RAT-SNAP cleaned the roden out." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

Another indictment pending against

In response to the inquiry of many telephone subscribers: "What can I do to help my service?" this advertisement is published.

Proper Complaints Help the Service

Telephone subscribers often hesitate to report service and other troubles for fear of reflecting upon or injuring some employe of the company.

Proper complaints, giving the details of the difficulty and the day and hour on which it occurred, are a help to the service.

Such reports enable us to locate and remove the cause of the trouble and, best of all, prevent a recurrence.

Discouragement and disorganization are caused by those who complain to their friends and neighbors and publicly condemn the service without reporting their troubles to the company.

You can help your service by making such reports promptly and in detail to "Complaint."

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

STILL CAPTURING STILLS SHERIFF'S OFFICE BUSY MASHING UP THE MASH.

(From Saturday's Daily.) Sheriff Hand and his force of deputies are still busy capturing the stills of the stills and last night they had reason to suspect that one of these Volstead evaders was working near Longwood, so Sheriff Hand and deputies, William and Jacobs, mounded down that way and found Jeff Parrish at the still. There was 700 gallons of mash and 20 gallons of shine and with all the liquor and with the one who was captured at the still they came to town where the whole affair will be ironed out before Judge Householder Monday morning. Stills are working all the time despite the best efforts of the officers of county and city, to stamp out this illicit traffic, and liquor will be made as long as people want to drink it, but the officers are right on the job, and they never fail to locate the still once their attention is attracted to the location. The public is to blame for the illicit liquor traffic by patronizing the men who make it, and shielding them from the officers of the law.

Where There's a Baby on Farm Keep Rat-Snap.

Rats are on most farms. Once they get inside the house—look out. Rats kill infants—biting them is not unusual. Nursing bottles attract rats. Break a cake of RAT-SNAP and throw it around. It will surely rid you of rats and mice. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

Man can forgive a woman who has more authority than he has, but he can't forgive one who has more brains than he has.

BUSINESS BETTER THE COUNTRY OVER DURING SEPTEMBER

WHOLESALE IMPROVEMENT IS LEADING TO A LESSENING OF UNEMPLOYMENT

WASHINGTON, Oct. 1.—American business conditions improved decidedly during September, in the view of the Federal Reserve Board, which made public last night a distinctly optimistic review of conditions for the month. Important changes for the better were seen in the credit situation, "distinct encouragement" in many basic business lines and strong liquidation indicating increased ability of business to settle its accounts.

The "wholesome improvement" which the board's correspondents found in almost every section, appeared to have been based largely on the advance in cotton prices. As the result of the higher cotton values liquidation has taken place and wholesale and retail trade has been buoyed up, the reports said.

Marked improvement in the credit situation was cited by the review as the noteworthy feature of business during the month, the board declaring that "taken all in all, from a financial standpoint, the month has been in the main a period of distinct encouragement."

The board noted only a slight increase in employment in the thirty days, but added that while the end of the harvesting and crop movement season might tend to increase the number of unemployed, this was likely to be offset by a growth in demand for labor on the part of manufacturing industries.

"Railroads have begun to increase the number of their employes to some extent, especially in the far West," the review continued, "and the fact that building contracts have reached a record figure for this year promises partial employment in that service during the autumn."

OUR WEEKLY BUSINESS REVIEW

By Henry Clews & Co.

NEW YORK, Oct. 4.—President Harding's unemployment conference is the outstanding event of the week in a governmental aspect, and again confirms the opinion that has long been entertained by the community concerning the president's desire to do all he can in the aid of business. The concrete proposals of the conference still remain to be developed, but should at least result in bringing about co-operative effort toward the improvement of conditions.

The Senate and Taxation
Delay in the senate with reference to the tax situation has been disappointing, but may result in the improvement of a measure which is thus far decidedly below expectations. It is announced that Senator Smoot will offer his sales tax plan on the floor and in a form which will be both effective and productive of revenue sufficient to take the place of taxes which it is to supersede. According to computations, the plan proposed by Senator Smoot will be capable of producing revenue up to \$2,000,000,000 per annum; while far from its falling upon the shoulders of the rank and file of the public, it would probably relieve the general mass of the population by eliminating the indirect burdens that follow from the excess profits tax and the high rates of income taxation. While there is opposition to the adoption of a sales tax at present, there can be no question that it is gradually gaining adherents and that eventually there is a good chance of its becoming a law; based on necessity and on merit, it ought to, as it is a simple form of taxation, fair to all. Altogether, the tax situation in its essentials now for the first time seems likely to get a thorough discussion in congress.

Consolidating the Railroads
Several factors have influenced in an important way the attitude of investors toward the railway shares. Their growing earnings and the better prospects which have led the banks to purchase car trust certificates, as freely as they have naturally improving their standing in the eyes of investors. Announcement that the Interstate Commerce Commission is definitely considering a proposal to consolidate the railroads of the country into some 19 or 20 large systems,

taking in all the roads operating 1,000 miles or more, is not yet a market factor, but is certain to exert a most far-reaching influence upon securities from the investment standpoint. One early influence of it would undoubtedly be that of promoting speculation in railroad issues based upon the probable effect of such consolidation in creating a demand for outstanding stocks. The fact that the amount of securities to be issued by each of the consolidated enterprises is not to exceed the physical value of the constituent lines would furnish the basis from which speculation would start. Public hearings before the commission are to be undertaken, and these will be a market factor of utmost importance. The "plan of re-adjustment of New York City Railroads" offers many suggestions, some of them apparently desirable, but is lacking in definite methods for the attainment of its objects. Whatever the results to be looked for they are still far in the future.

Business Still on the Upgrade.
An increasing number of indications of improvement in business is to be noted. Important among these are the continued improvement in the steel trade, where sheet mills are now running up to 75 or 80 per cent of capacity in many instances, the growth of railroad traffic and earnings, much greater activity in a number of the branches business which have heretofore been dull and decided advance in the copper shares following upon reports of improved demand. Retail trade has held its own remarkably well, and during the past few days there have been indications of decided improvement in wholesale trade in not a few particulars. Export demand has again increased, and, if anything, the sale of goods that are being currently made abroad are excessive rather than below normal. Prices continue to advance moderately, thus giving further evidence that the business depression is practically past its turning point.

Market Review and Outlook
There is still lack of activity on the stock exchange, but sentiment unquestionably has undergone a material change for the better during the last several days, and this, as a general

proposition, paved the way for higher values. Plentiful supplies of money; very much more satisfactory results from railroad operations; indications day by day that steel and iron and other branches of trade are reviving and the unabated demand for bonds are good and sufficient reasons for the hopeful feeling now prevailing regarding the share list. Danger of liquidation breaking out again is not to be feared, for the reason that there is no longer need of involuntary selling, and present owners of stocks are satisfied to sit tight in the firm belief that their patience will be rewarded before long. The threatened strike by railway trainmen, while not taken seriously, has a more or less disquieting effect, to the extent at least of holding back would-be buyers. What the market lacks at the present time is sufficient buying power to keep the upward movement going without interruption. At the moment good news of every description is without particular influence owing to the market's sluggishness, but just as soon as the general public are convinced that trade improvement has come to stay, it cannot be doubted that the buying movement will quicken very materially, as the general run of stock is still cheap.

HENRY CLEWS.

OFFICERS WERE UP BOUND OVER YESTERDAY TERM OF CIRCUIT COURT.

Chief of Police Killibrew, Officer Harrison and City Manager Ryan were served with warrants yesterday and brought before Justice of the Peace L. G. Stringfellow on the charge of shooting Fred Fredericks and waiving the preliminary hearing were bound over to the circuit court in the sum of \$500. This is the second phase in the shooting of Fredericks Saturday night when he was discovered at a still and upon being commanded to halt was fired upon by the officers and filled with bird shot. He has been at the hospital since and is thought to be out of danger by the physicians. The outcome of the case will be watched with interest.

It is all right to guard the Panama canal, but what we need in these days is something to keep enemy afloat out of the alimentary canal.

OVIEDO

Mr. J. A. Kilvert has moved into the Nelson place and has rented the office formerly occupied by O. P. Swope. Mr. Kilvert has a large tract of land to develop just north of Oviedo, and will be located here for some time.

School opened Monday morning with an enrollment of seventy, with the following teachers in charge: M. M. J. Okerlund, principal; Mrs. J. N. Thompson, grammar school; Miss Ruth Young, primary. Teachers and pupils are all very much interested in the work planned for the year and the school bids fair to have one of the most successful years of its history.

Misses Mable Swoope and Elizabeth Lawton and Francis Swope from Rollins College spent Sunday with their parents.

Born to Mr. and Mrs. B. F. Wheeler, Friday, September 30th, a fine baby girl, Marion Louise.

Edward McCall, from Stetson University, spent the week-end with his parents, returning to DeLand Sunday afternoon.

Mr. and Mrs. B. G. Smith, Mrs. Theodore Aulin and little Theodore Aulin, Jr. are on an auto trip thro south Florida Mr Aulin joined them Sunday at Arcadia.

Mrs. L. E. Wright was given a surprise party Wednesday afternoon in honor of her birthday. Many nice presents were presented to Mrs. Wright and a most delightful time was spent by the guests. Another surprise given Mrs. Wright was a visit from her son, Lewis, of Jacksonville. Emmett McCall returned Wednesday to Lakeland.

Mr. and Mrs. R. L. Wheeler spent Wednesday in Palatka.

Misses Ruth Young, Virginia Wright, Elizabeth Young and Beverly Wright went to Orlando Monday afternoon.

Mr. and Mrs. R. W. Lawton were shopping in Sanford Wednesday.

The woman's club, opens Friday with a reception for all the ladies of Oviedo. New officers will be installed for the year, 1921-22. On Saturday the library will open for the first time since work began on the club house repairs early in the summer.

Mrs. E. A. Farnell and Alton Farnell spent Wednesday in Sanford. S. W. Wainwright was a visitor to Orlando last Wednesday. Little Miss Gladys Kelsey returned Sunday from Manatee where she has been spending several months with her aunt, Mrs. Lundy. Mrs. Mary Jacobs, Andrew Aulin and Miss Alice Powell spent Sunday at Monroe.

ZR-2 Catastrophe Due to Accident, Says Coroner's Jury

No Evidence as to the Actual Cause of the Disaster

HULL, Eng., Oct. 4.—The catastrophe to the ZR-2 August 24th in which more than forty persons, including sixteen Americans lost their lives, was due to an accident according to a verdict reached by the coroner's jury at the resumed inquest here today. No evidence as to the actual cause of the disaster, the verdict says.

A scientist says the race is growing taller. Evidently the next generation will find it even more difficult to make ends meet.

Modern novels give us glimpses of almost everything in the world except good grammar.

YOWELL COMPANY

"Everything New That's Good"

SANFORD

FLORIDA

CHAIRMAN YOWELL THANKS ALL MEMBERS OF COMMITTEES AND THOSE WHO DONATED

To the Big Merchant's Gala Day and Celebration Last Thursday and Made it a Success

Chairman A. E. Yowell, of the Trade Extension Committee, who had charge and general supervision of the committees on the Merchant's Gala Day celebration given last Thursday wishes to take this means of thanking all those who served on his committee and did so much toward making the day the great success that it achieved. The members of the committees worked early and late to arrange for every detail and only those who have been in similar positions know how much work there is attached to such a big undertaking. There were many good workers on the committee and they rallied to Mr. Yowell's call like soldiers and met every demand made upon them. In a conversation with Chairman Yowell

yesterday a Herald representative was informed that the committee would come out all right on the financial part of the affair as he had figured the accounts very close a week ago and knew about how much it would take to carry the plan through. That this Extension Committee could pull off such an elaborate affair making everything absolutely free and pay all expenses speaks well for the committee and for the business men who responded so generously to the solicitation for money to meet the expenses. Everyone who assisted in any way, and especially those who donated meat and bread, milk, pickles, etc., are hereby tendered the thanks of the Trade Extension Committee through the chairman, Arthur E. Yowell.

OLD LANDMARK BEING TORN DOWN SALVAGE LUMBER

OLD LIVERY STABLE, CORNER OF PARK AND SANFORD, IS GOING

One of the ancient landmarks of the city, and of later years, one of the eyesores, also, is being torn down this week. This is the old livery stable at the corner of Park avenue and Second streets that at present is the property of I. W. Phillips of Orlando. A force of men, under G. E. Hodges, are tearing down the building and Mr. Hodges will salvage the lumber and sell it for building purposes. There is much good framing timber in the building and like all the lumber put into the buildings of the early days, it is of the best and could be used for many purposes in the building line.

It is not known what the future plans of Mr. Phillips are in regard to building on this lot, but he told a representative of the Herald some time ago that he expected to build a nice structure on the lot in the early spring. At one time, Mr. Phillips contemplated an apartment house on this corner, but the city is building so fast, and the business portion of the city is spreading over the side streets now, that it might be better for store rooms or auto sales rooms or some-

thing of the sort. For the present, the lot will be vacant which will be much better than having the old stable building on it that was a menace to other property and looked bad on this fine corner.

It is understood that the City Commissioners will ask other property owners of frame buildings in the business portions of the city to tear down the buildings, especially where they are a menace to other property, and detract from the appearance of Sanford.

Having these buildings on the principal corners of the city was all right in the early days, but the march of progress demands that the owners either build or tear them down, and allow the vacant lots to stand until such time as they can build or sell them to some one who will build. In one way, this seems a hardship on the owners, but any owner of a good corner lot in the business portion of the city, who is unable to build, can easily double his money on his property today and can always sell at a good profit so the ordinance that condemns these buildings is not an injustice to any owner.

The Lakefront Improvement Co., were the pioneers in the work of tearing down old buildings, and they set the pace when they purchased the old Sanford House, and because it was unsightly, demolished this big three story building, and also tore down other buildings on their property. Their example could well be followed by other owners of this kind of property, and they need not wait to be ordered to tear down buildings that are not only fire traps but are objectionable in many ways.

PERSONAL NOTES

(From Monday's Daily)
Robert E. Herndon and Arthur Marshall motored to Bartow yesterday to attend the funeral of James Timberlake.

Master J. B. Coleman left Friday for Tampa where he will attend school this winter.

Mrs. J. B. Coleman is in Palatka where she was called by the serious illness of her mother.

Mr. and Mrs. Raymond Key motored to Daytona Beach yesterday where they spent the day. They were accompanied by Mrs. A. D. Key, who will remain at Daytona Beach for some time with her nephew, Dick Twitchell. Mr. and Mrs. A. D. Zachary and family have returned home from Daytona Beach where they have spent the summer.

Mr. and Mrs. Gatchell left yesterday for an extended visit to St. Louis and other points in the middle west.

Emilio Pons, returned to his home in Tampa after spending several days here as the guest of Alfred Robson.

Mr. and Mrs. S. O. Chase and family, have returned home from Daytona Beach where they have spent the summer at their cottage.

Mrs. John T. Brady returned home last night from Pablo Beach where she has spent the past two weeks. She also visited her daughter, Mrs. Dan Wilder enroute home.

Miss Mildred Dickson has left for Orlando for the winter to be assistant to Mrs. Margaret Barnes at the Jefferson Court Apartments.

Emile Anon was the dinner guest yesterday of Mr. and Mrs. J. S. Wilson.

S. C. Dickson, of Longwood, was the guest of his daughter, Mrs. Chris Matthews yesterday.

Miss Rineau and E. W. Dickson, of Longwood were the guests yesterday of Mr. and Mrs. J. S. Stewart.

Mrs. Roy Symes, of Water Park, is in the city today shopping.

Little Miss Juanita Smith returned home Friday evening from Jacksonville where she was the guest of her aunt Mrs. W. F. Roussiau.

Mrs. H. W. Cameron and three daughters, Dorothy, Lucile and Eleanor left this morning for Bartow where they will make their future home.

R. C. Balfour, Jr., and Homer Williams, of Thomasville, were guests of the Montezuma Saturday.

Mr. and Mrs. H. C. Baker, of Orlando, were visitors here yesterday, registering at the Montezuma.

Dr. L. D. Rhodes, of Tennille, Ga., was a visitor here Sunday.

Mr. and Mrs. Carroll D. Newcomb and son of Stuart, Ga., are spending sometime here at the Montezuma.

Mr. and Mrs. B. A. Howard and family arrived in the city from Pahokee Saturday where the family has been visiting for some time. They will be at home south of the city and Mr. Howard will return to Pahokee Tuesday where he has large property interests and is engaged in the real estate business. Mr. Howard is also engaged in the fishing industry at Okeechobee City.

(From Tuesday's Daily)
Mr. and Mrs. J. M. Dawson, of Richmond, Va., are spending some time here at the Montezuma.

Perry Jernigan, of Sanford, spent yesterday in Tampa shaking hands with friends.—Tampa Tribune.

Mr. and Mrs. Thomas F. East and little daughter, Yvonne, are moving today into the house recently occupied by Mr. and Mrs. Magee at 305 French avenue.

Mr. and Mrs. Magee are now occupying the home they recently purchased from Frank Grayam, on Sanford Heights.

The Misses Muriel, teachers at the high school, are with Mrs. R. E. Tolar for the winter.

Miss Ida Gray has returned from her summer vacation and is with Mrs. Barber for the winter.

Mr. and Mrs. E. M. Johnson, of Orlando, are spending some time here at the Montezuma.

A. J. Daurelle, represented Tampa here yesterday.

C. M. Johnson was a business visitor here from the "City Beautiful," yesterday.

E. M. Nelson, of Mobile, Ala., made his headquarters at the Montezuma yesterday while attending to business.

Miss Elizabeth Humphries, of Dade City, one of the teachers in the public schools here, is pleasantly located for the winter at the home of Mrs. R. B. Langley, on Tenth street.

J. W. Brown, of Riverland, Fla., was transacting business here yesterday.

Howard Lyman, of Altamonte, was in the city today calling on his many friends and transacting business. Mr. Lyman is an orange grower and a fertilizer salesman and knows something whereof he speaks when he says that the orange growers and the vegetable growers of Florida should make good money this season.

DRINK HOT WATER BEFORE BREAKFAST

Says you really feel clean, sweet and fresh inside, and are seldom ill.

If you are accustomed to wake up with coated tongue, foul breath or a dull headache; or if your meals sour and ferment, you have a real surprise awaiting you.

Tomorrow morning, immediately upon arising, drink a glass of hot water with a teaspoonful of limestone phosphate in it. This is intended to first neutralize and then wash out of your stomach, liver, kidneys and thirty feet of intestines all the indigestible waste, poisons, sour bile and toxins, thus cleansing, sweetening and purifying the entire alimentary canal.

Those subject to headaches, backaches, bilious attacks, constipation or stomach trouble, are urged to get a quarter pound of limestone phosphate from the drug store and begin enjoying the morning inside bath.

Just as hot water and soap cleanse, purify and refresh the skin, so hot water and a teaspoonful of limestone phosphate act on the stomach, liver, kidneys and bowels. Limestone phosphate is an inexpensive white powder and almost tasteless.—Adv.

DEATH OF MRS. FRANK WOODRUFF, JR.

(From Friday's Daily)
Death came to the Woodruff home this morning about one o'clock, and robbed it of the young mother and wife. Mrs. Mary Ransome Woodruff, beloved wife of Frank L. Woodruff, Jr., was taken after a few days of battling with the dread destroyer, and with the hopes of friends and relatives alternately rising and falling as hourly bulletins were received from the bedside where skilled physicians attempted to save the life of the little mother who had just given birth to a son, only to have her own life given as a sacrifice.

Death is always a shock to a community, but the death of Mrs. Woodruff, who came here about a year ago as a sweet and winsome bride, has fallen upon the city as a mantle of sorrow to be borne by the community as a whole, a sorrow that enshrouds the lives of all the citizens. Mary Julia Ransome was born in Kentucky in 1898, and lived with her father, Rev. A. J. Ransome in India for some years during her early childhood, Rev. Ransome being a missionary to India, and living there at this date. Her mother died while she was 14 years of age, she coming to the state to reside with an aunt in Greensboro, N. C., and also lived with relatives in Charlotte, Union and Ninety-Six, S. C. Graduating from Woman's College, in Dues West, in 1918, she studied voice in Chicago and then accepted a position with a chautauqua course for a year returning to South Carolina to reside. She was married to Frank L. Woodruff, Jr., on November 24th, and came to Sanford to make her home.

She leaves a father and stepmother, and a little brother, and many other relatives, to mourn her loss, the brother and aunt expecting to arrive here tomorrow.

The funeral will occur from the late residence of Oak avenue tomorrow afternoon at four o'clock, interment being made in Lakeview cemetery.

The sympathy of the many friends is extended to the bereaved in their hour of sorrow.

Will You Spend 65c on Rat-Snap to Save \$100?
One 65c pkg. can kill 50 rats. The average rat will rob you of \$100 a year in feed, chicks and property destruction. RAT-SNAP is deadly to rats. Cremates after killing. Leaves no smell. Comes in cakes. Rats will pass up meat, grass, cheese to feast on RAT-SNAP. Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

An Ideal Home for the Tourist

You come to Florida to enjoy the climate—why not own your home and save rent money? Don't buy one completed—build one yourself. It will cost you much less.

You know what a nuisance it would be to start building a home and find out that you haven't this and you haven't that, or that you figured wrong on the flooring or the shingles. Before you had finished adding these extra items and buying the material and supplies from various shipping points, it would cost you a quarter to a third more than you had figured on.

Why not let us build you a

QUICKBILT HOME

—and guarantee you a full bill of material to complete your home at a "manufacturer to consumer" price? Every plan is accurately figured and double checked. There is no possible chance for mistakes or misfits.

If you wish to do your own building, we will send a factory expert, under our liberal terms, to assist you in building, thereby guaranteeing you the exact fitting of all parts and the placing of the responsibility of your satisfaction upon our shoulders.

SAGE TEA TURNS GRAY HAIR DARK

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

CITRUS SEMINAR OPENS.

GAINESVILLE, Oct. 4.—Control of destructive diseases and insects of the citrus crops was foremost in the discussions at the opening day's session of the citrus seminar, which convened today on the campus of the University of Florida.

One hundred and fifty persons interested were in attendance.

The visitors were welcomed by President A. A. Murphree, of the University of Florida, who said the school attendance in this state had increased 850 per cent. in the past 12 years.

While the conference is splitting hairs about the Far East, China will take her queue from America.
