Included On U.S. Marshal's Most Wanted List

Fugitive Captured In Forest City

By Deane Jordan
Herald Staff Writer

A midnight stakeout Sunday at a pregnant woman's home in Forest City snagged one of the U.S. Marshal Service's most wanted fugitives, Edward R. Vigliotto.

Vigliotto, 30, a former hair dresser whose criminal history includes two prison escapes, was being held under maximum security today in the

Seminole County jail.

He was arrested about one-half block from the home of Cynthia Fettig, 157 Alder Ave., in Forest City. Vigliotto, living in West Palm Beach, came to central Florida to visit Ms. Fettig, who was also arrested on a charge of aiding an escape.

Acting on a tip from a Marshal's office in Denver, Deputy U.S. Marshal Brenda Lewis, 23, traced Vigliotto and Ms. Fettig, 22, to the Forest

City home. She and Lucy Hendricks, deputy marshal in Orlando, traced the pair to an Orlando-area restaurant where an employee told them Fettig was near term. The couple had worked there, according to the marshals.

The deputies found the woman's doctor and planned to arrest Fettig when she went to the doctor's office today. When they saw her at the restaurant, however, they followed her home and

set up a stakeout.

Just after midnight, a man resembling Vigliotto arrived at the house and went inside. The marshals got the backup support of three Seminole sheriff's deputies, a Florida Highway Patrol trooper and another deputy marshal.

They didn't storm the house because they were not sure the man was Vigliotto though his car tag

Pope Issues Invitation

Family Meets Freed Hostage

By William Poole

WIESBADEN, West Germany (UPI) — The Rev. Lawrence Jenco, freed from nearly 19 months of captivity in Lebanon, met with 10 relatives at a tearful two-hour reunion at the U.S. Air Force hospital where he is undergoing medical tests.

"The first 10 minutes were very emotional," Andrew Mihelich, 51, the priest's nephew, told reporters. "There were hugs and kisses and lots of tears."

"He always knew this day would come," Mihelich said. "He is a very fragile and emotional man. It didn't take long for the tears to come to our eyes."

The family gave few details of what Jenco told them of his captivity at the hands of Islamic Jihad kidnapers.

But his brother, Joseph, said Jenco was held by the Islamic Jihad Moslem extremists in the same room with three other hostages but he did not give their names. The pro-Iranian group still holds at least three Americans and three Frenchmen.

"He told us he read the Bible, said the rosary and Hall Marys," Joseph said.

Joseph said Pope John Paul II, who phoned Jenco Sunday, has invited him to an audience in Rome when he is fit again but he said nothing definite had been set.

Relatives had said they planned to bring Jenco popcorn, a new pair of glasses and a small bottle of gin to make martinis for

the reunion.

The family said they hoped to be home in Illinois by Friday but said Jenco still had two or three days of tests before him.

"He has recovered quite well, considering the ordeal he has been through," Mihelich said. "You could see his spirits were improving."

The U.S. government provided an Air Force C-141 transport to fly 10 of Jenco's relatives to Germany for a reunion with Jenco, who was released Saturday in eastern Lebanon's Bekaa valley after being held for nearly 19 months by the Islamic Jihad terrorist group.

The family was met at the airport by Robert Oakley, the Reagan administration's counterterrorist expert, and Terry Waite, a Church of England envoy who has been involved in negotiations on the release of hostages held in the Middle East.

They drove to the U.S. Air Force's Regional Medical Center at Wiesbaden, where Jenco, 51, was undergoing tests.

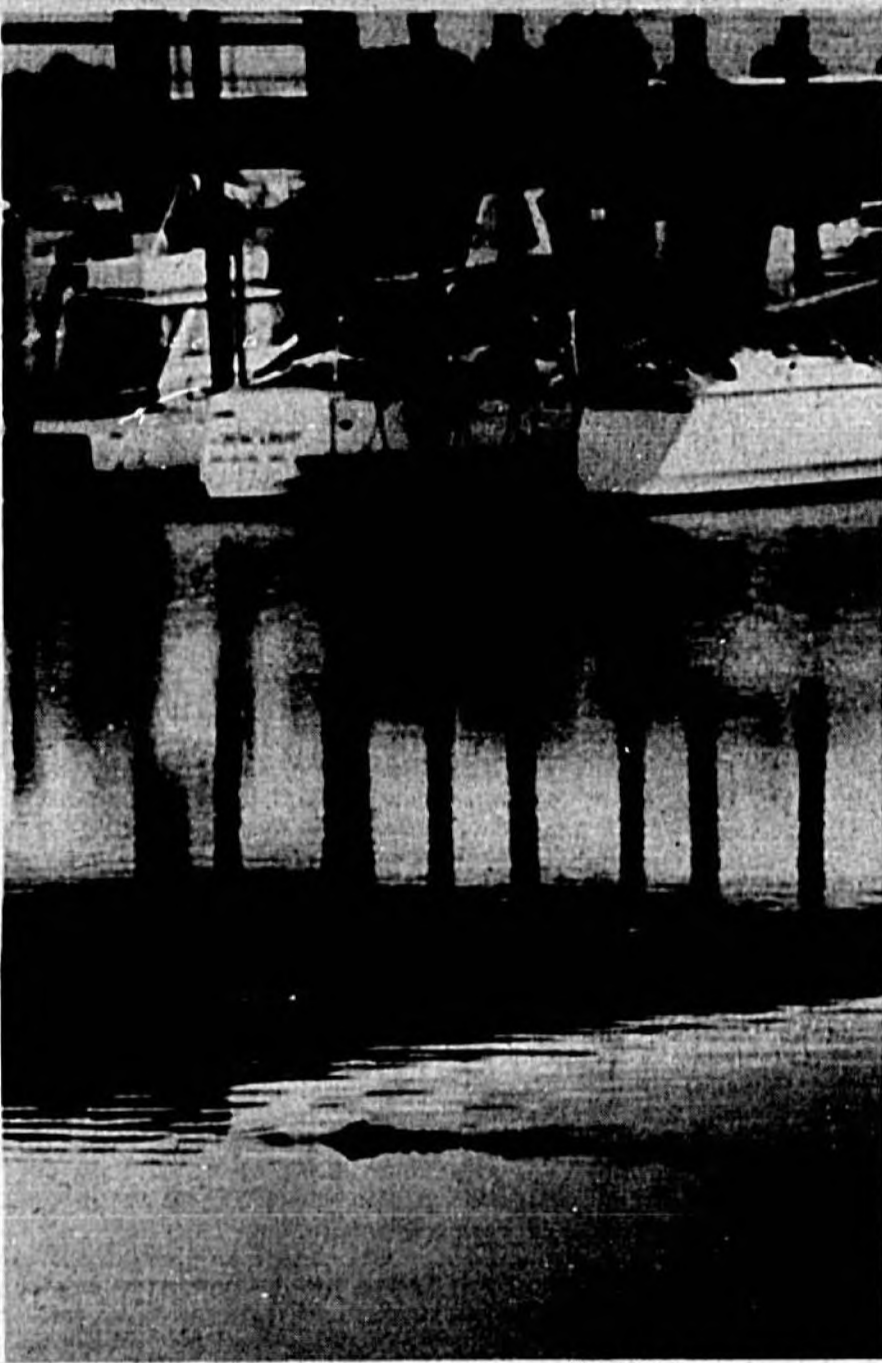

Col. Robert W. Gilmore, the Air Force doctor who gave Jenco a preliminary examination after his arrival from Damascus, said he would have to undergo several days of tests to determine the effects of his captivity.

"He is medically in a satisfactory condition," Gilmore said Sunday night at a press center established near the hospital.

"But he is 51 years old and hasn't slept for three days. He

Husband's Death Closes Case In Wife's Murder

By Susan Loden
Herald Staff Writer

The search for an Altamonte Springs man accused of murdering his wife ended at 4 a.m. Saturday when Bridgeton, Mo., police notified Altamonte Springs police that Alan Harper, 27, had been found dead in a motel room there.

Altamonte police Sgt. Jack Martin said today that within a couple of days, after a few loose ends are tied up, he expects to close his investigation into the death of Mary Harper, 23, of 518 Baywood Court.

Harper was being sought in the July 22 strangulation death of Mrs. Harper who was found dead in her 3-year-old daughter's bed at about 2:45 p.m. July 22.

Harper, who was found dead in a Bridgeton, Mo., motel room at 1:30 a.m. Saturday apparently committed suicide. He had taken a large quantity of an undetermined drug, taped his mouth shut and plugged his nose, Altamonte Springs police spokesman Jim Viner said.

Harper, Martin said, had taken a large quantity of over-the-counter drugs, which by themselves would not cause death. He died from asphyxiation after using the medication to make him drowsy. The plugs in his nose and the tape on his mouth cut off his oxygen supply and he smothered to death, Martin said.

Martin said he has no plans to go to Bridgeton, which is a

suburb of St. Louis, to complete his investigation. He said, Bridgeton police will be sending him the results of their investigation and notes found in Harper's motel room and fingerprints will be evaluated by Altamonte Springs police.

Martin would not say what the notes said, but he said that the Harpers were in the process of getting a divorce and it is believed that led to the killing of Mrs. Harper.

Their 3-year-old daughter was with Mrs. Harper's body when it was found by her sister. Viner said the child apparently believed her mother was asleep. An autopsy showed that Mrs. Harper was killed around 4 a.m. July 22.

The child is in temporary custody of Mrs. Harper's parents, Martin said.

Harper's body, Martin said, will be released to his mother who lives in Iowa. He was an engineer and Mrs. Harper worked at Church Street Station in Orlando.

A capias for a second degree murder charge against Harper in the killing of his wife was issued by the Brevard/Seminole state attorney Thursday, the same day he checked into the motel where his body was found.

At first Viner said Harper was not a primary suspect in the murder, but later he said there apparently was no other person involved in the killing of Mrs. Harper.

Beirut Car Bombing Kills 32

By Riad Raj

BEIRUT, Lebanon (UPI) — A car bomb exploded in a residential area in Christian east Beirut early today, killing 32 people, wounding at least 120 and triggering fires in nearby buildings, Christian radio stations said.

Quoting police and reporters, the Christian Voice of Lebanon said 440 pounds of TNT packed in a Mercedes went off in the neighborhood of Ain Al Rummaneh.

The Voice of Lebanon radio quoted one of its reporters who rushed to the area as saying "there are fires at seven buildings. Dozens of people are surrounded by fires and others are shouting from balconies calling for help."

The blast instantly killed 32 people and wounded at least

120. The explosion also destroyed scores of parked cars, turning them into twisted metal, reporters said.

The ages of many of the victims ranged from 16 to 30 years.

The explosion, coming after shelling between Christian and Moslem fighters, brought the casualty toll in 12 hours late Sunday and early today to 35 dead and 158 wounded — the worst spate of violence since militia groups signed a truce and a Syrian-sponsored security plan was implemented in west Beirut a month ago.

Lebanese Red Cross, civil defense teams, civilians and militiamen pulled mutilated bodies from piles of rubble and carried the blood-stained wounded to ambulances and cars.

"Words fail to describe this crime," commented one witness, quoted by the two radio stations based in east Beirut.

At least 30 civilians, who failed to get out of the badly damaged or burning buildings, were brought down on ladders by the rescuers who fought through flames and billowing smoke, the reporters said.

The two radio stations called for blood donations and asked motorists to avoid streets near the explosion to open way for ambulances heading to the scene.

A series of car bombs and explosions have struck the Christian eastern part of Beirut since last January. In May alone there were four explosions, killing at least five people and wounding more than 100.

In a statement in May, Samir

Geagea, the commander of the Christian Lebanese Forces militias, accused Syria of staging the explosions in Christian east Beirut and said cars had been rigged with explosives in Lebanon's Syrian-held territory.

The 37-year-old Christian militia commander had said the spate of explosions was designed to force the Christians to bow to Syria's will.

Earlier, Christian and Moslem fighters shelled waterfront areas in east and west Beirut Sunday, killing three people, wounding 38 others in the most serious violence since a Syrian-sponsored peace plan was implemented.

Encouraged by the plan that had caused a lull in fighting, hundreds of Christian and Moslem civilians strolled about

Officials Elected By Default

By Paul Schaefer
Herald Staff Writer

What happens if three candidates run for three city commission seats unopposed? In Lake Mary, they'll cancel the election.

Lake Mary residents will go to the polls on election day Sept. 2, and not have any city officials to vote for, even though the mayor, and two commissioners are up for reelection.

There were no opposition candidates for any of the three seats when qualifying ended at noon Friday. Mayor Dick Fess and commissioner Paul Tremel will get new terms by default. John Percy, who filed to run for retiring commissioner Russ Megonegal's seat, will be "elected" to office without a vote being cast.

Both Fess and Tremel are seeking their second two-year terms. Percy is a member of the city Planning and Zoning Board.

The new two-year terms begin October 6. Fess asked city attorney Robert Petree if elections must be held if no opposition candidates filed by Friday's deadline, during Thursday night's city commission budget meeting. Petree offered the opinion that indeed, no election would have to be held if no one else wants the jobs.

City clerk Carol Edwards said not having the election would save the city about \$1,000.

Fess said that city residents will, however, be able to vote for the county, state, and federal races, even with the city government

Hard-Hitting District 14 Nationals Eye State Title

By Scott Sander
Herald Sports Writer

If there is one team that could walk away with a state championship in this week's state tournament in Tampa and Dunedin, it is the District 14 Big League Nationals.

The Nationals, the Section 1 champions, come in to the tournament after crushing every opponent that they have faced with a hitting attack that can be described as no less than awesome.

"We can hit the ball, that's for sure," Nationals manager Howard Mable said. "We need to continue to pound the ball. We have been crushing it so far and hopefully it will keep up."

The Nationals will take on Brevard, the Section 2 champions and the 1984 state champs. "They are going to be a tough team to beat," Mable said. "There are some good athletes that come out of that area."

The opening round game is slated for 8 p.m. tonight at Grant Field in Dunedin.

The Nationals, who are coming off a 23-7 thrashing of Jacksonville in the sectional championship, are blessed with a team that has a very balanced attack.

Baseball

"Everybody does what is asked of them," Mable said. "We have had some pretty easy games so far but the kids on the team know that things are only going to get more difficult as we proceed in the tourney."

Leading off in the batting order and playing second base for the Nationals is Lake Mary's Shane Letterio. Letterio, who was a prime reason that the Rams finished second in the state tournament last year, is a threat to steal any time that he is on base and is an excellent defensive player.

"We need our pitching to come through," Letterio said. "It has been great so far and hopefully it will stay that way."

Batting second and playing center is Oviedo's Mark Merchant. Merchant, a switch hitter, possesses great speed while also having a rifle arm in center field.

"This is the best team that I've ever played on," Merchant said. "It is going to be hard for anyone

to beat us."

Catching for the Nationals is Lake Brantley's Mark Coffey. Coffey, last year's Seminole Athletic Conference batting champion, is possibly the best natural hitter on the team. He is also a fine catcher and has caught a number of fine games recently.

"We expect to do well over there (Dunedin)," Coffey stated. "There is quite a bit of talent on this team and if we all play our best we should be highly successful."

Playing third is Lake Mary's Mike Pinckes. Pinckes is a gifted athlete with the glove while being a superb hitter. "If we don't do well it will be a big surprise to me," Pinckes said.

The leading hitter for the Nationals so far has been Brevard College's Mike Hinde. Hinde, who plays right field, went five for six in his last game belting a pair of homers. "I'm hitting the ball really well," Hinde said. "I hope that I keep on doing it."

University of Central Florida's Kevin Bass is playing first base for the squad while Oviedo's Tony Bellflower will be playing shortstop. Jeff Watson rounds out the team playing in right.

Shane Letterio

Mark Merchant

The pitching staff consists of Lake Mary's Steve Shakar, Oviedo's Craig Duncan and a host of other athletes.

If the Nationals continue to smack the ball like they have been lately, their opponents better be ready for a long evening of chasing the ball around the park.

Altamontes Invade Tampa

By Chris Fister
Herald Sports Writer

It may not be as scary as *Aliens*, but the City of Tampa nonetheless is preparing for the invasion of the Altamontes.

The Altamonte Senior and Junior All-Stars are both competing in the Little League State All-Star Tournament this week at Tampa. The Seniors will be competing at the Palma Cera-Fair Oaks Complex on South Himes Road while the Juniors will play at the Tampa Bay Little League Complex on Grady/Morrison Street.

The winner of the Senior State Tournament advances to the Southern Regional Tournament beginning Aug. 4 at Coral City. The Junior State Tournament champion goes on to the Southern Regional Tournament beginning Aug. 4 at the Eastmonte Complex in Altamonte Springs.

Manager Woody Woodard's Senior League All-Stars are coming off an impressive Section 1 Tournament in which they won the title in three straight and outscored the opposition, 31-3.

Pitching was the key for the Seniors as four pitchers gave up just one earned run for a team earned run average of 0.28. That included complete game shut-outs by Alex Birle and Shane

Baseball

"Right Stuff" Stuffed and a combined four-hitter by Aaron "The Shiek" Iatarola and Carlos Abreu. Both Birle and Stuffed displayed excellent control as both walked just one batter and threw less than 90 pitches.

"If the pitching continues to do this well, we have a chance to go a long way," Woodard said. "The defense has been strong the whole tournament and the hitting was off for a while but the bats came alive in the final (18-3 rout of West Hernando)."

The defensive leaders in the infield are shortstop Wes Weger and second baseman Abreu. They also had two of the best sticks on the team in the section tourney as Abreu was 7 for 9 (.778) and Weger 3 for 8 (.375) with the only home run of the tournament. Trevor Moore has been a rock at first base and was also 3 for 7 (.428) at the plate. Birle and Stuffed are the third baseman while Pat DeLuca and Jason Varitek share the catching duties.

In the outfield, Iatarola or Stuffed usually start in right with Jimmy Kremer in center and Greg James or Chris

Herald Photo by Tommy Vincent

Altamonte's Terry 'Downtown' Brown scores in section play against Crystal River.

Hillin Conquers Talladega

TALLADEGA, Ala. (UPI) — Bobby Hillin Jr. managed to avoid several earlier wrecks in the Talladega 500 and coasted to victory Sunday when six challengers locked fenders and crashed on the final lap of the race.

Hillin, 22, became the youngest driver to win a Winston Cup race. He pocketed \$60,055 for the victory — his first in 68 starts on the NASCAR circuit.

The last-lap crash at the Alabama International Motor Speedway took Bobby Allison, his son Davey, Tim Sauter, Rick Wilson, Kyle Petty and Joe Ruttman out of contention.

Hillin, who took the lead on lap 179 of the 188-lap race, then led Tim Richmond, Rusty Wallace, Sterling Marlin and Benny Parsons across the victory line.

"There was so much bumping out there you wouldn't believe it," Hillin said. "They were racing with 60 laps to go like there was only one or two laps left in the race."

"I knew we had a good strong car all week," he said. "I felt we were strong. I felt like my race motor was stronger than my qualifying motor. I could run with (Bill) Elliott in practice with ease, so I felt good about the race all week."

There were 48 lead changes by 26 drivers during the race, which Hillin won at an average speed of 151.552 mph. There were nine caution flags for a total of 45 laps.

Elliott, who won the pole position in qualifying, had problems early in the race and never was a factor after going two laps down.

A multi-car crash on lap 159 took out front runners Geoff Bodine, Cale Yarborough, Harry Gant and Darrell Waltrip. Phil Parsons and Richmond were also involved in the backstretch accident, but were able to continue the race.

"I don't really know what happened," Yarborough said, "but I guarantee you somebody made a mistake."

"I had a good chance of winning," Bodine said. "I didn't see what started it. I can only go on what Waltrip said, and he said Phil Parsons got into Harry (Gant) and just kept pushing him. Harry came off the wall and got me."

Leader Dale Earnhardt exited on lap 154 when something let go inside his engine. While he was coming into the pits, he spun and slammed into the pit wall trying to get to the garage area.

Waltrips' car slammed into the pit wall, sending pit crew members scrambling for safety.

Hillin missed the turn into victory lane.

"I'd seen people win races before and there was always people out there showing them where to go," he said. "But shoot, there wasn't anybody out there."

BRABHAM WINS PRIX

PORTLAND, Ore. (UPI) — Pole-sitter Geoff Brabham had to stop for gas with one lap left Sunday, allowing defending champion Al Holbert to slip past him and win the ninth annual G.I. Joe's Grand Prix at Portland International Raceway.

Holbert, 39, of Warrington, Pa., took the checkered flag of the 97-lap race in his Porsche 962 to win his fifth Camel GT race of the year. Bob Tullius finished third.

Lemond Tops Europe's Best, Wins Tour

PARIS (UPI) — Greg Lemond, an American in Paris, has had to earn the respect of Europe's best professional cyclists.

Lemond, 25, was born in Lakewood, Calif., and grew up in Nevada. He has for the last two years endured smug comments from Europeans that he lacked the character to be a winner.

He was called the "American Poulidor," after the French rider Raymond Poulidor who showed great promise a generation ago but always seemed to finish second.

Lemond changed all that Sunday by winning the 73rd Tour de France, cycling's most prestigious race, to become not only the first American champion but the first from outside the traditional Western European cycling powers — France, Belgium, Holland, Italy, Spain and Switzerland.

He beat Frenchman Bernard Hinault, his teammate on the La Vie Claire team who was looking to set a record of six Tour de France victories. Hinault, beaten by Lemond in the mountains, finished second.

After Lemond got up from a fall to retain a lead of more than 20 minutes over Hinault on the 20th of the 2,541-mile Tour's 23 stages, Hinault

Cycling

conceded the race to the American.

"Greg Lemond has proved, by fighting against all limits, that he is a true champion," Hinault said. "I have pushed him just to his limits psychologically. He has proven that he has enormous strength of character."

The victory by the 5-foot-10, 150-pounder ended two years of doubt and disappointment for cycling's first millionaire rider and the first American to threaten nearly a century of dominance of the sport by Europeans.

"I have a lot of determination," Lemond said recently. "I've made a lot of sacrifices most American riders aren't willing to do, so I could really learn."

"It's like if you're a tennis player and you just played on the college circuit, and never on the international circuit, you would never succeed. This is the same thing. You have to be willing to travel and make sacrifices."

Lemond has lived with his wife, Kathy, of La Crosse, Wis., in the village of Kortrijk in Belgium since 1982. They have a son, Geoffrey, who was born in 1984. The family spends about four

months a year in Reno, Nev.

He took the United States and Europe by surprise when he moved to France in 1980 to try Europe's viciously competitive pro cycling circuit. At the time, there was only one other American on the circuit — Jonathan Boyer, who has since returned to the United States.

Lemond, whose sunglasses have become his trademark, was a talented amateur rider in the United States. He left his country when his chance to compete in the Olympics was dashed by the U.S.

boycott of the 1980 Moscow Games.

He began as a trainee on the Renault team, sponsored by the French car and bicycle manufacturer, which was led by Hinault. With Hinault as his mentor, Lemond rose quickly, winning the 1982 Tour de l'Avenir (Tour of the Future), the major stage race of the year for young riders.

In 1983 he won the one-day World Championship race and took the Pernod Trophy as the world's best rider of the year.

Orlando Seeks NBA 'Magic'

ORLANDO (UPI) — Basketball boosters trying to land the city a professional team have no stadium, no players and no franchise. But they do have a name for the team, and it's straight from the kingdom of Mickey Mouse.

"Magic" was selected from 4,296 entries in a contest to name a potential NBA franchise. It was announced Sunday. The other three finalists were Heat, Juice and Tropics.

More than 3,000 season tickets have been sold for \$100 each. Pat Williams, the former general manager of the Philadelphia 76ers heading the franchise drive, said he needs more than twice that number by October.

Miami and St. Petersburg groups also hope for teams. Aside from the Continental Basketball Association, Florida has been without pro basketball since the ABA's Miami Floridians folded in 1971-72.

Tough Turf

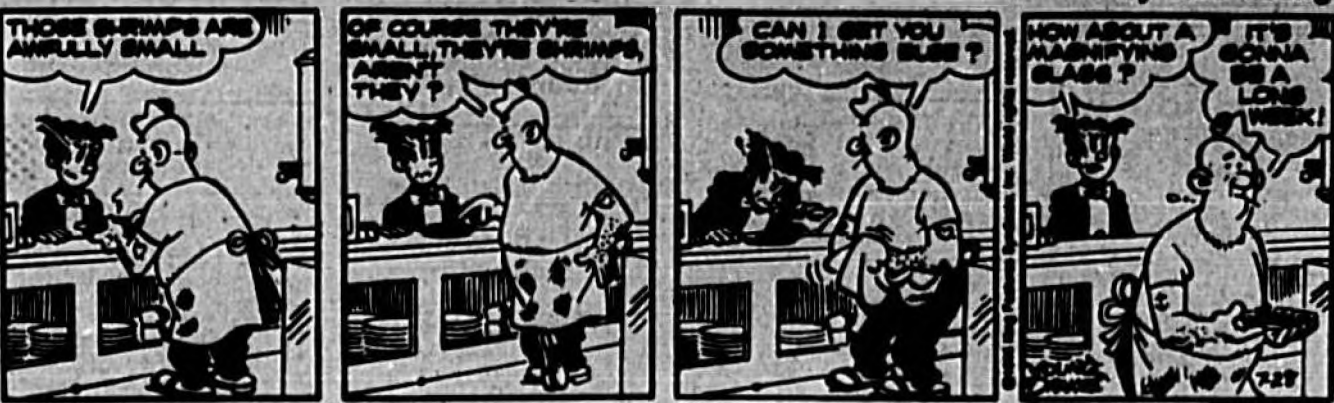

National League umpire Paul Runge looks embarrassed after dropping to the turf to avoid a baseball to the head. He wasn't injured on the mishap.

Raines Takes Batting Lead

With a 5 for 9 performance over the weekend, Montreal Expos' left fielder Tim Raines took over the National League batting lead, boosting his average to .337.

Raines, in the midst of his best season ever, leads Montreal teammate Hubie Brooks by .0003 percentage points. Raines' average is .3370 while Brooks is at .3367. San Diego's Tony Gwynn is third at .336 and San Francisco's Chris Brown fourth at .334.

For all of Sunday's baseball results, see Page 6A.

Chronic Muscle Disease Requires Treatment

DEAR DR. GOTT — I've had myasthenia gravis off and on for about 12 years. Is there anything new in the treatment for this disease?

DEAR READER — Myasthenia gravis is a chronic disease of muscle weakness caused by a defect in transmission of nerve signals from nerves to muscles. There are two basic forms of treatment.

Certain drugs (in the anticholinesterase group) improve electrical conduction from nerves to muscles. These medicines act quickly and are safe, but — by themselves — rarely restore completely normal function. They are used temporarily to relieve symptoms. Neostigmine and pyridostigmine are the most commonly administered medications.

Most patients (and doctors) are more interested in treatment that is curative and permanent. Cortisone has been shown to produce long-term beneficial effects in up to 80 percent of patients. Its method of action is unclear and, unfortunately, the drug has side effects when used for long periods.

During the past few years, specialists have become more enthusiastic about surgical treatment of myasthenia. During surgery, the thymus gland is removed. This technique is quite safe and is said to produce remission or significant improvement in about 85 percent of cases. The operation is not recommended for children, the elderly or those who have a mild form of the disease.

In most medical centers, each case of myasthenia is judged individually. Initially, anticholinesterase drugs may be used to control the disease. Then, depending on the severity of the condition, cortisone may be considered. Finally, thymectomy may be judged to be the most appropriate permanent solution.

More information about this disease can be obtained from the Myasthenia Gravis Foundation, 15 East 26th St., Suite 1603, New York, NY 10010.

DEAR DR. GOTT — I take lithium for manic depression. My husband does not want to have children because he says manic depression is hereditary. Is this true?

DEAR READER — Some forms of mental disorders, like manic depression, do tend to run in families but, to my knowledge, this condition has not been

shown to be hereditary. Ask your psychiatrist to discuss the issue with both you and your husband.

Send your questions to Dr. Gott at P.O. Box 91428, Cleveland, Ohio, 44101.

WIN AT BRIDGE

By James Jacoby
Probably the most exciting and fascinating advanced play in bridge is the squeeze, and many books have been written about it. For a simple and concise introduction, I recommend a pamphlet entitled "Squeeze Play," No. 35 in the Championship Bridge Series published by Devyn Press, 151 Thierman Lane, Louisville, KY 40207. Today's deal features such a play and demonstrates correct technique.

Four no-trump invited slam, and South was happy to accept. Although he had less than a 22-point maximum, he had two suits that could be a source of extra tricks, plus a helpful 10-spot.

After the opening lead, declarer took the right approach. First he counted 11 top tricks. He also noted that he could

make 12 tricks if either diamonds or hearts split 3-3. If neither splits, declarer has to put pressure on an opponent who might have length in both red suits. To do so, declarer must reduce his losers to only one. This tightening of the hand, called "rectifying the count," was accomplished when declarer played low on the first club.

When the suit was continued, he won the ace and cashed four spade tricks. That brought everyone down to only seven cards, and East was caught in the squeeze. If he threw a heart, declarer's last little heart would be a winner; if he threw a diamond, the fourth diamond in dummy would make the slam. Now try it if South wins the first club. East simply lets his clubs go and keeps both red suits under control. The squeeze will not work, because declarer has forgotten to rectify the count.

Major changes are ahead for Leos in the coming year. Send for your Astro-Graph predictions today. Mail \$1 to Astro-Graph, c/o this newspaper, P.O. Box 1846, Cincinnati, OH 45201. Be sure to state your zodiac sign.

VIRGO (Aug. 23-Sept. 22) You are fortunate today in that you have a loyal ally who'll be looking out for your best interests. He or she will be sure all the bases are covered.

LIBRA (Sept. 23-Oct. 23) If you are acting as an agent for someone else today, make the best deal you possibly can, because you'll receive a commission for your efforts.

SCORPIO (Oct. 24-Nov. 22) It's best not to prejudice people or events today. Things may not work out the way you envision them, but there is a good chance they will work out even better.

SAGITTARIUS (Nov. 23-Dec. 21) Tasks that challenge your aptitudes and imagination will prove fun today. Knotty problems will be your cup of tea.

CAPRICORN (Dec. 22-Jan. 19) New people you meet socially today might play important roles in your future affairs. Make it a point to remember their names and affiliations.

AQUARIUS (Jan. 20-Feb. 19) You'll be luckier than usual today in matters where there is something of material value at stake. Wait until the last mo-

ment before making any closing moves.

PISCES (Feb. 20-March 20) Your hopeful attitude will smooth over the road you tread today. It will also make it better for those who walk by your side.

ARIES (March 21-April 19) Pay special heed to your intuition today in situations that affect your security. Don't be reluctant to think big, nor to act boldly.

TAURUS (April 20-May 20) People who have clout and influence will favorably view any requests you make today. Let them know what you need.

GEMINI (May 21-June 20) Your possibilities for achieving an important goal are excellent today. However, more importantly, you'll think of others as well as yourself.

CANCER (June 21-July 22) Dreams and hopes can be translated into realities today. Focus closely on your aims and remain optimistic.
