It extended the draft law for four years; gave the anti-pover-ty program a two-year lease; continued the Teachers Corpe; extended the food-stamp pregram, increased Social Security J for veterans, enacted a reserve forces "bill of rights"; passed a meat-inspection law; raised the pay of government employes; boosted postal rates; financed the model-cities and rent subsidy programs; and continued the foreign-aid program with re-duced financing.

Not acted on finally, in addition to tax increases, was legislation dealing with crime pre-vention, congressional reorgani-zation, detailed disclosure of in-terest charges, protection of civil rights, copyright law revision, gun control, and election-law reforms.

Some of the major measures left on the shelf with adjournment have passed either the Senate or the House and will be in a position for advancement next year. Some have not yet emerged from committees.

In the field of national defense and internal security, Congress enacted laws to authorize procurement of \$25 billion worth of military equipment, to build \$2.3 billion worth of military housing and other construction, to spend \$2.6 billion for Atomic Energy Commission projects, and to continue the loan of naval vessels to friendly nations.

In international affairs, it did these things: -Increased the U.S. share of

financing the International De-velopment Bank's fund for special operations. -- Continued the Peace Corps

program. -Ratified a treaty for expleration and use of outer space. -Ratified the U.S.-Soviet consular agreement.

Domestic legislation enacted -A ban against a threatened railroad strike pending recommendations of a special labor

-An increase in the national debt ceiling. -Extension of the Appalachian Regional Development

program. -Extension of the life of the Civil Rights Commission. --Creation of a Public Broad-

casting Corporation to facilitate evelopment of educational and cultural television and radio. -Reorganization of the District of Columbia government.

-Extension of the Community Health Centers program. -Authority for the Interior Department to participate in construction and operation of nuclear-power and sea-water

press and its fast-moving of-fense cracked two more oppos-outs this weekend as the Greybounds stretched their record to mate Larry Cote with 10. The Friday's trip to Apopka was Saturday night the Gre a joyous one for Lyman as both hounds pleased a large home

a juyous one for Lyman as both the vareity and Junior Varsity picked up easy wins over the Blue Darters. Hot-handed Mike Hargis hit on nine of 14 shots from the floor as he spearhead-of the 70-50 Lyman win with 15 points. Towering Ron Tulbert canned 14 markers followed by Bob Means with 10 and Chris Butterworth with nine. For the hapless Blue Darters, who could muster only '19 points in the first half, it was R. E. Stokes with 12 and tall John McNeeley with 10.

The Hounds sped to a 15-8 lead in the first period behind But-terworth's six points. In the sec-ond quarter Hargis sank five straight field goals to claim 10 points as Lyman moved farther ahead, 34-19. Tulbert kept the hall rolling in the third period, sinking seven, while Hargis and McNeeley added six each for their teams. Stokes' five points in the final stanza was ineffec-tual and Lyman closed the game the game with a 20-point ped to a 15-8 lead game the game with a 20-point margin. For the first time this

season, the Hounds ran into stiff competition on the backboards. Lyman pulled in 34 rebounds, while the Darters nabbed 24. Tulbert and 6'6" McNeeley grabbed nine each for their re-

FLOAT TRIP

Float fishing has often been overlooked in the mad dash 4. Pinecrest Inn Float fishing has often been overlooked in the mad dash to big impoundments, but this method of fishing remains one of the most satisfying adventures an angler can have. A doit-yourself float trip is a little more work than the commercial variety, but it's a lot more fum. It takes ingenuity and skill in maneuvering your boat downstream, a batter than average casting ability, and a few arm and shoulder muscles average casting ability, and a few arm and shoulder muscles which may have grown soft from disuse.

Use the long winter months to study various areas, the stream should be selected from a detailed county map and have access points no farther than 10 miles apart. A depend-able subbard motor will then heep you within an hear of a take-out point should an unexpected occasion arise. In making a float trip you'll encounter varying types of water which should be fished with different lurse. It's a good presting to the two or fibre reduce the float two oceas make the

water which should be maked with constraint strue. It's a great practice to rig two or three rads so that you can make the switch rapidly. Have a weedless underwater or top water late ready for fishing rocky sherelines in the still pools, and fast moving spinning or wobbling lares for swift water. Stop and fish the best spots. For instance, if you've been goting stilles in the fast water, beach the best above every rifle and fish

Mutual funds, which invest in scores of stocks for their customers, have come out of nowhere, possessing in 1945 assets of less than \$500 million but owning close to \$40 billion in securities 22 years later.

As the insurance company explain their moves, they are hardly abandoning the concept of a guaranteed return, as from a life insurance policy. Neither are they totally embracing the equity concept.

Instead, they are recognizing that mutual funds in various
