

NEW WORKING RULES FOR 400,000 RAILWAY MEN INCLUDE TWO BIG CHANGES

Handed Down Today by U. S. Railway Labor Board

DECIS'N SUPPLANTS AGREEMENT ENTERED INTO BY EMPLOYEES AND R. R. ADMINISTRATION

(By The Associated Press) CHICAGO, Dec. 1.—Action on the acceptability of revised shop rules promulgated by the United States Railroad Labor Board will not be taken until after the first of the year according to an announcement by B. M. Jewell, president of the Railroad Employees' department, American Federation of Labor, with which six shop crafts are affiliated.

CHICAGO, Dec. 1.—New working rules for 400,000 railroad shopmen including at least two important changes, was handed down today by the United States Railroad Labor Board. The decision supplanted the agreement entered into by the employees and the railroad administration September 20, 1919.

Large economies are expected to result from revision of the classification rules, which were made elastic, and hereafter will permit members of certain crafts to do minor jobs previously done by members of other crafts. Statisticians attached to the labor board estimated that economies in operation, increased efficiency, and larger output would approximate \$50,000,000 a year.

Provision for the representation of minorities who may have grievances is another important item of the new rules. Under the national agreement negotiated for employees was placed almost wholly in the hands of labor organizations, with the result that the railroads and many industrial and civic institutions declared that the agreement forced a closed union shop on the roads. Nonunion men found it impracticable to attempt to bring their grievances before the board, and as the rules worked out union officials handled the cases, taking their precedent from the national agreement negotiations, in which union officials acted for the employees in drawing up the agreement under federal control.

"The principle of the open shop established by the new rules," a statement by board members said, "will in fact be more theoretical than practical at the present time, since a large majority of the railroad shops are unionized, and the existing unions are recognized by the board and by the transportation act as representative of the majority.

STINGED SIGN ON TAMPA SIDEWALK PROTEST COURT ORDER

(By The Associated Press) TAMPA, Dec. 1.—More stenciled signs on the sidewalks here this morning following discovery of two at court house yesterday. Among signs to-day were "all crooks go free." "Sell the court house." "Why pay jurors." Signs began appearing after acquittal of DeWitt Adams and Phillip Licatta, tried for attempted robbery in connection with holdup of automobile containing cigar factory payroll.

DEPARTMENT OF JUSTICE SENDS DESTROYER AFTER CHARLES MORSE, FINANCIER

(By The Associated Press) Washington, Dec. 1.—Department of Justice it is understood to-day asked the Navy Department to send a destroyer to intercept French liner Paris and bring back Charles W. Morse of New York, who, it is believed, has left this country in face of grand jury investigation of his ship contract.

New York—Business Associates of Morse said he sailed for Europe last Friday in liner Paris.

KILLINGS SHOW DECREASE IN U. S. SAYS AUTHORITY

MEMPHIS, TENN., STILL LEADS IN NUMBER OF HOMICIDES

(By The Associated Press) NEW YORK, Dec. 1.—Homicides in the United States during 1920 totaled approximately 9,000, a decrease of 500 over the previous year, according to computation by Frederick Hoffman, statistician of the Prudential Life insurance company of America. Figures showed Memphis, Tenn., still in lead with killing record of 6.34 per hundred thousand. In general tables showed Southern states where large negro populations, had the slightest homicide rate and proportion of negroes slain was from three and a half to seven times that of the whites. Average slightly in excess of four to one.

SLAYER OF CASOLETTO IS SOUGHT

AUTHORITIES BELIEVE MURDERER IS NOTED CONFIDENCE MAN

ORLANDO, Dec. 1.—After a full day's investigation into circumstances surrounding the killing of R. Casoletto, alias A. W. Brown, which occurred in the Astor hotel here early Wednesday morning, police said last night the case had narrowed into a search for W. E. Martin, the "dark stranger" who occupied room 24, where Casoletto's body was found, lying in a pool of blood, a few moments after the four shots were fired.

Chief of Police Ed. Vestel and A. N. Graham, an investigator for the United States Postal Service, are of the opinion that Martin is not the fugitive's correct name and are said to be in possession of certain clues which will establish his identity. Police said last night it was likely an arrest would be made in connection with the affair within a few days.

G. H. Hopkins, of Athens, Ga., who was held on investigation, was released yesterday afternoon when Chief Vestel was assured by Athen authorities that Hopkins was a citizen of Athens and could not possibly have any connection with the crime.

A man answering the general description of Martin was seen walking in Eola Park with Casoletto Tuesday afternoon by traffic officer H. L. Pierce, who stated he had previously seen the couple in Miami and believed they were members of a band of confidence men which has been operating in Florida cities for several years. Detective E. M. Johnson also saw the man together and identified Casoletto as a man he had arrested here last winter, though no charge was preferred against him at that time because of insufficient evidence.

Casoletto had lived for some time in St. Petersburg under the name of A. W. Brown and his wife arrived here last night from that city. Mrs. Brown knew nothing of her husband's business, she told police, and had never seen him in company with anyone answering the description of Martin.

LENA CLARKE CASE WILL GO TO THE JURY TODAY OR TOMORROW MORNING

State in Rebuttal has Only One More Witness—Summing Up Lengthy

ORLANDO, Dec. 1.—(By the Associated Press).—The Lena Clarke case is expected to go to the jury late today or tomorrow morning. The defense closed yesterday and the state in offering rebuttal testimony had only one more witness to introduce and expected to conclude before noon. Indications are that the argument of counsel for both sides will be lengthy.

PROSECUTION HAS CLOSED IN ARBUCKLE CASE

BUT RESERVES RIGHT TO BRING IN ADDITIONAL TESTIMONY

(By The Associated Press) SAN FRANCISCO, Dec. 1.—Arguments and possibly further testimony on schedule for today's session of the Arbutle manslaughter case. The prosecution closed yesterday but reserved the right to bring in a small amount of additional testimony if it seemed desirable.

SAN FRANCISCO, Dec. 1.—The prosecution in the case of Roscoe C. Arbutle, accused of manslaughter in connection with the death of Virginia Rappo, closed yesterday but made reservations which may lead to an extension of testimony for several hours today. The defense attorneys said they reserved the right to controvert anything new brought out, but otherwise they said their case was closed.

Attorneys agreed on four hours for arguments for each side, so that it appeared, they said, the jury might have the issue in its hands by Friday afternoon.

The defense yesterday offered evidence in support of that given by Mrs. Minnie Neighbors, who Tuesday night was placed under arrest on a charge of perjury preferred by the prosecution. Mrs. Neighbors had testified that Miss Rappo had been a guest at a resort near Los Angeles. This was refuted for the state by the hostess of the resort, who declared Miss Rappo had never registered at the place. Yesterday another employee of the resort testified that she had seen Miss Rappo there at the time specified by Mrs. Neighbors.

A leading witness yesterday was Dr. Rufus L. Rigdon, of San Francisco, who was called to rebut defense evidence that injuries of the sort which resulted in the death of Miss Rappo could be caused by agencies other than external force. Dr. Rigdon testified that he knew of no case of his own knowledge where such injuries were purely internal or spontaneous in character.

Today there will be introduced the report of a medical commission of three which was named to determine whether Miss Rappo was in good health at the time she is alleged to have been injured.

Defense adjournment yesterday the defense offered to submit the case without argument, but the prosecution declined.

For Reparation Purposes Will Be Proposed By France

NO MORATORIUM

ON REPARATIONS IF THIS PLAN CAN BE CARRIED OUT BY ALL THE ALLIES

(By The Associated Press) PARIS, Dec. 1.—Receivership for Germany as bankrupt, with autonomous Rhineland to be exploited by the Allies for reparation purposes, will likely be proposed as an alternative to any moratorium on reparations that may be suggested by Great Britain, it was said in official circles today.

LONDON, Dec. 1.—German marks underwent further marked recovery on the London Exchange market today. Heavy buying sent the rate to seven hundred and fifty to pound sterling against yesterday's close of 980.

WASHINGTON, Dec. 1.—A decision by the federal reserve board to send adviser to forthcoming conference of foreign bankers was called by the reparations to discuss exchange stabilization it was announced today.

LONDON, Dec. 1.—Consultations were in progress yesterday at the treasury between Dr. Walter Rathenau, former German minister of reconstruction, Dr. Simon, a German economic expert, and Sir John Bradbury, the British delegate on the reparation commission, and other Britishers. The Germans also met certain bankers, with whom they discussed questions concerning the obtaining of advances to cover Germany's January and February reparations payments and also the possibility of a moratorium. It is understood that Dr. Rathenau also is proposing here a plan similar to the Wiesbaden agreement between Germany and France looking to the rehabilitation of devastated France, applicable to Great Britain, Belgium and Italy as well as to France.

It is still not known whether Irish affairs will permit the cabinet to consult on the situation with Sir John Bradbury today, or whether there will be a further postponement of such a meeting. In any case Dr. Rathenau will remain in London until Saturday. His visit here is considered important because it is expected that he will rejoin the German government.

BERLIN, Dec. 1.—The return of Dr. Walter Rathenau to the post of minister of reconstruction in the near future is predicted as a result of the negotiations in which he is engaged in London.

FIFTY PERSONS BURIED UNDER FALLING WALLS WHEN THEATRE COLLAPSED

NEW YORK, Nov. 30.—The roof and one wall of the American theatre, under construction at Bedford and Park avenues, Brooklyn, collapsed this afternoon while about 50 men were at work in the orchestra pit.

An hour later firemen has recovered six bodies and had sent about 20 persons to hospitals. The owners, Sylvester Rosenthal and Samuel Moskowitz, taken to the district attorney's office for questioning, were taking arroll call of their employees to determine how many were buried in the debris.

The contractors were unable to tell the police the cause of the accident and this angle was not pressed while the rescue work was in progress. Just what point the casualty list would reach remained uncertain.

The Vernon police station had the highest estimate—25—but an hour and a half after the accident occurred it was believed not more than 15 had perished. It soon became evident that the number would remain undetermined until the search of the ruins had been completed.

REALLY GOOD SHORT SERMON

World Would Be Better If More of Us Had the Ideas of That Little Newsboy.

A bright-eyed, barefooted, shabby little fellow was working his way through a crowded car, offering his papers in every direction, in a way that showed him well used to the business and of a temperament not easily daunted.

The train started while he was making change and the conductor, passing him, laughed.

"Caught this time, Joe!" he said. "You'll have to run to Fourteenth St."

"Don't care," laughed Joe in return. "I can sell all the way back again."

A white-haired old gentleman seemed interested in the boy and questioned him concerning his way of living and his earnings. There was a younger brother to be supported. It appeared. "Jimmy" was lame and "could not earn much himself."

"Ah, I see. That makes it hard; you could do better alone."

The shabby little figure was erect in a moment and the denial was prompt and somewhat indignant.

"No, I couldn't! Jim's somebody to go home to; he's lots of help. What could be the good of havin' luck if nobody was glad? Or of gettin' things if there was nobody to divide with?"

"Fourteenth street!" called the conductor, and as the newsboy jumped out into the gathering dusk the old gentleman remarked to nobody in particular: "I've heard many a poorer sermon than that."—Forward Magazine.

SOHO MAY BE SWEEPED AWAY

Picturesque Part of London Scheduled to Yield to the Demand of Commerce.

Two picturesque slices of old London, known to tens of thousands of Americans, may soon be scooped away to satisfy the demands of commerce. Soho and the parish of St. Giles—or Seven Dials, as it is better known—are about to begin their passage into history and be converted into the most modern business district of the metropolis, possibly a second city of London.

Soho, which probably derived its name from the duke of Monmouth's famous battle-cry "Soho" at Sedgemoor, has experienced many vicissitudes of fortune. In the olden days regarded as one of the fashionable quarters of London, it gradually became the home of bohemianism and the haunt of Sam Pepys and Goldsmith.

Today its dingy and uninviting streets are lined with French, Italian and Swiss restaurants, where Londoners and visitors may learn what the much-praised foreign cooking really is.

The whole district is now almost entirely inhabited by foreigners and is the favorite meeting place of the anarchists of the "tame" variety. For long it was looked upon as the equivalent of the Montmartre, but never at any time has it attained the attractiveness or liveliness of the gay Parisian quarter.

DOES SEMINOLE COUNTY WANT A HEALTH NURSE?

Does Seminole county want a full time nurse, with automobile furnished and without any expense to the county? There is a way to get one. As to the need of a county nurse that will meet every emergency call, there is

no doubt. Sell your quota of \$3,000 of Christmas seals and during the year 1922 Seminole county will have this much needed social service.

\$3,000 pays for a full time nurse with automobile furnished.

\$2,000 pays for a 9 months nurse.

Will this pay? Yes, if the health of your children mean anything to you. One infected child may give your child tuberculosis.

Your \$3,000 will not only pay for the nurse and auto but will keep the health crusade in the schools; will give educational courses in general health; will give six clinics in Seminole county; will give follow up work and more than all will determine whether the child "with bronchial trouble" is an incipient tubercular case.

In the sign of the double barred cross conquer tuberculosis.

DO YOU HAVE ADAPTIVE TASTE

Traveler Declares Globe Trotter Can Not Be Over Nicer in Choice of Food.

One of the first things a young man who wants to see the world should learn is how to eat. Otis Warren Barrett says so, and if anyone knows he does. He has been wandering into queer parts of the world for the government for years past and he is never sick, says the Kansas City Star.

"Train the palate," says Mr. Barrett. "I can live on palm oil chop in Liberia or raw fish in Japan and never have a qualm. I may not prefer monkeys boiled in grease and eaten with the bare hand, but I can eat monkeys with the best of monkey eaters. The man who is particular about his chop had best stay at home."

Mr. Barrett has made a success of wandering. He is one of the greatest of our agricultural experts. His latest exploit is to teach the natives of the palm countries how to make white sugar out of palm sap—which they never knew before—by which process four hundred and fifty thousand tons of the finest sugar imaginable has been added to the sugar total of the world. In all his years of wandering in swamp and jungle he has never been seriously ill, and he attributes this in part to the fact that he can live at the local table without complaining.

"Cassava paste isn't very good," said Mr. Barrett, reminiscingly. "It doesn't taste like anything, and it is so sticky that if a man were to attempt to chew it his jaws might be clamped together or perhaps his teeth might be pulled out. One just makes a little ball of it, rolls it in gravy as a lubricant, and lets it slip down."

TOLD GEORGE NOT TO WORRY

English Labor Leader Cared Little for That "Divinity That Doth Hedge a King."

Kings have no longer any ruling power in a first-class nation. A little incident in which the king of England figured last year may be told in connection with the new spirit of affairs. The late Will Crooks, a labor member of parliament, a cockney with a big black beard and devoid of attitudes, a sincere and much loved man, as remote from highbrow socialists as from hidebound conservatives, was among the fashionable crowd of guests at the royal garden party.

The king got him into conversation. Will Crooks talked as freely to his monarch as he would to a follower in the East end of London. Both men were soon deep in the troublesome times which were upon England. The king plainly showed his anxiety about the future. Will Crooks, who was the most sympathetic soul in the world, tried to reassure the king as they shook hands in good-by: "Now, look here, old chap; don't you go worrying about things; everything is going to turn out all right, old fellow."

There is cause for a little speculation in what must have been the mental attitude of the nobles and dignitaries clustered round as they observed the familiarity. But what the king thought of it is best expressed by the fact that before the next garden party he and the queen together sent a special letter to Will Crooks and his wife, saying how much they wanted them to be present.—Frank Blyden in the Outlook.

Poet's Tie Shop "Ad."

A poet in whose breast the cares of a collar and tie shop in Asakusa cannot still the Parmassian urge has written the following sign and placed it over his master's shop to cheer the passerby:

"Those who belong to our company are always endeavoring to express their delicate mood and individuality through the goods they are dealing in, from the point of view of making all existence best and most beautiful first of all and then let themselves upward from earth to paradise that is to say, the eternal peace—the ideal—under the elapse of time."

What it means would be difficult to say. While it draws attention to the admirable qualities of the collars and ties and garters. It also seems to indicate a little weariness with Asakusa considered as a stepping stone towards "the eternal peace under the elapse of time."—Japanese Advertiser.

New England True to Tradition.

A certain Red Cross public health nurse, in New Hampshire, reports that the interest in the Red Cross course of instruction in "Home Hygiene and Care of the Sick" in her county is unprecedented. This nurse travels over a considerable area, the county being a large one, including eight towns.

It is the consensus of opinion at the New England division headquarters that in this county, at least, the future of the American Red Cross is assured because of the great service performed through these classes. New England still lives up to her tradition of recognizing and sponsoring the best that education can give.—Red Cross Magazine.

too early to think about who will represent Seminole county in the next legislature. The Herald has heard nothing from any source about who will make the race and does not know whether our representative, F. P. Forster, intends to cast his hat in the ring or not. This paper does not intend to "Ask Mr. Forster." This is the case of the office seeking the man and not the man seeking the office, and unless we are badly mistaken, the people will demand that F. P. Forster again become a candidate. There are many reasons for this thought. It is democratic to give a man the second term, all things being equal. It is only right that the man in office should have the second term if he has made good the first term, and there is no doubt about Mr. Forster making good and we get his record, not from the people at home, but from his fellow members in the legislature, who know how to measure a man from all points. The members who sat with Mr. Forster in the legislature say he was one of the best men in that body and that he held the respect and esteem of every member of the house. We can well believe this true, for this is his record in his home town, where he has resided for the past thirty-five or forty years (much longer than we can remember, anyhow) and his record is above reproach as a business man, as a citizen and as a man.

This paper takes no part in politics after the campaign has started, and does not intend to take any part this time. But it is well within our province to ask that Mr. Forster, again become a candidate for the simple reason that it is the demand of the people that he stand for the second term. He has had the experience that will fit him for better work; he will fit into the second term without any of the preparation necessary for a new man on the job; he is known among many of the men who will compose the next legislature; he knows all about the many little things and the many big things in the working of that legislative body and he should go back with the experience that will make Seminole county an invaluable representative.

**CRAZY OR SHAMMING.**

It was a bold play to put Miss Lena Clarke on the stand and let her amaze the jury with the story of her previous existences. She professes to remember her spirit life, through all the ages of the world, from the time when, as a sort of spirit atom, she watched God create the universe until she stood before Millmore and the "lights flared up" and all was darkness until she found herself with Chief Vestel.

Her story is crazy enough, in all conscience, but unfortunately for her, it is one which any alienist or psychologist, familiar with the phenomenon of delusions, can dissect and determine with unerring certainty whether it is a genuine hallucination or a fabrication.

Even to our non-expert mind, the story as reported by the Tampa Tribune correspondent, appears to bear the earmarks of deliberate workmanship. Name persons, who dabble in the occult, and let their imagination play with such fancies as the transmigration of souls, are usually secretive about it. Unless they write books or poems, they do not expose their dreams to an unsympathetic public. And it has not appeared in any of the previous discussions of the Clarke case that the West Palm Beach postmistress was any exception to that rule. On the other hand, those who actually possess a hallucination of that character like to discuss it, and are angry with all who refuse to take it seriously. It crops out in everything they discuss. If Miss Clarke really believed her own story, she would never have waited until she was on trial for murder to give it to the public.

Again, there is too much discursiveness about it. It is too logical, yet too illogical. Delusions are usually planned down to a single point. She might suppose herself to be Cleopatra, or Salome, or Lucita Borela, or Helen of Troy, and it is conceivable that she might fancy that Millmore was some historical character who had injured her in her previous existence—that might even constitute the insane motive of a crime by an insane person—but when she branches out, becomes an observer as well as an actor in dozen widely separated historic and prehistoric scenes, she betrays the very opposite of what she is evidently trying to appear.

It is not the story of an insane

person, but a rational person trying to simulate insanity, without a sufficient knowledge of the characteristics of insanity to conform to the rules. It may save her, but it will not deceive those who know how to weigh such evidence.—Lakeland Telegram.

Having been sticking on this same idea for the past fifteen years we would not give it up now when everything looks so bright and the country between Sanford and Orlando is almost built up solidly. This particular section offers more to an interurban line than any other part of the United States and are long some enterprising capitalist will see the chance and go to it. We could build it ourselves, but we are too busy writing such stuff as you are now reading.

**SOME ADVERTISING STUNT.**

The Sanford Herald pulled off an advertising stunt the day after Thanksgiving that was worthy of metropolitan journalism. The edition contained eight pages of advertising from a single Sanford firm. With an advertising clientele like that behind him, the genial Bob's shining caput should grow a luxuriant crop of glossy curly hair. He deserves success for his labors without ceasing for the good of Sanford, and is trying to make it an important wholesale center. Success to his endeavors.—Tampa Times.

Thanks, Brother Worthington. Sometimes we can almost believe that Sanford will grow in spite of all they can do.

There are few towns in Florida that can boast of a more beautiful, comfortable and substantial building than the two-story brick building being completed for George E. Sebring, the founder and builder of this unique town that bears his name. Mr. Sebring has spared neither time nor money in the construction of this block, and when the finishing touches are put on it he is going to have a block that will be a credit to any city in the United States. That is a broad assertion but it is going to prove itself true.

**FOREST LAKE CANDIDATE FOR CITY COMMISSION**

**TO THE QUALIFIED ELECTORS OF SANFORD:**

It is with a deep sense of duty that I have consented to become a candidate for the office of City Commissioner of the City of Sanford, but when 706 of my fellow-townsmen request it, I know of nothing else to do. Having been thus nominated I hereby announce that I am a candidate for the office of City Commissioner at the ensuing election to be held on the 6th day of December next, and pledge myself, if elected, to an impartial and conscientious performance of the duties of the office for the advancement of our city and the welfare of its people.

I want here to express my appreciation for the splendid petitions filed placing me in nomination.

Very sincerely,  
106-10c FOREST LAKE.

**THE WEATHER**

For Florida: Generally cloudy weather tonight and Friday probably rain in the north portion.

Kit Bowden arrived in the city today from Okeechobee City, and will be with the Herald for some time.

Mrs. Stephens, of Melville avenue is at the Fernald-Laughton hospital for a minor operation and is getting along all right.

Ed. Betts is out again after an operation for appendicitis at the Fernald-Laughton hospital performed by Dr. Ralph Stevens.

The many friends of J. G. Ball will be glad to learn that he is improving at the Fernald-Laughton hospital from an attack of bilious fever and a bad cold combined.

**KIWANNIANS HAD FUN TODAY WITH THEIR DINNER AT THE VALDEZ HOTEL**

The Sanford Kiwanis Club believes in having something lively right along with their weekly luncheon at the Valdez Hotel and today was no exception to the rule. They invited some of the Melville Comedians to have lunch with them and for thirty minutes these entertainers gave the Kiwanians some good stuff consisting of songs and sketches and monologues.

Their entertainment was greatly enjoyed and among those of the company taking part were Mrs. Harrington, Mr. and Mrs. Broholm, Mrs. Livingston and Bert Melville and Mr. Maxwell.

Melville's Comedians are giving a good clean show at their tent on First street and they are prime favorites in Sanford. The Kiwanis Club feels greatly indebted to the company that gave them such a fine entertainment and the club and the visitors enjoyed the occasion in the fullest.

**MRS. STELLA ARRINGTON**

is Chairman of the Christmas Seal Sale for the Primary Schools.

The little folks believe in fairies and want to see a sure enough real one. And one is coming to the school in Seminole county that sells the most Christmas seals. This is the health fairy who teaches the boys and girls how to keep well and strong so that the health fairy will always be with them, so they cannot see her at all times.

Mrs. Arrington says that her boys and girls are very much interested in the Santa Claus seals and has taken her quota and over to sell.

The pen is mightier than the sword, but what is needed right now is a pencil that will come out on top in an engagement with a patent pencil sharpener.—Detroit News.

**SANFORD'S TEMPERATURE**

Joyful weather and the brightest of days seem to be our lot for this week. We could stand some colder weather for 78 is summer time again but the little bit of colder weather sent down from Boston on Tuesday was very welcome and we will now reciprocate by sending some fine headed latitude to Boston. And then on top of the good markets and the better weather everything is moving right along and Sanford is getting more notice in the papers of America than ever before and the people are coming here after January first in flocks. Get out your gun and kill you a flock by having accommodations and everything they want.

**WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING NOV. 29, 1921**

Temperature: The week was unseasonably warm throughout the state, there being a daily excess above the normal of from 5 to 9 degrees.

Precipitation: The distribution was uneven, ranging from less than 0.5 inch in the western and northern divisions to 3.0 inches in the southwestern portion of the state.

Condition of Crops: With adequate sunshine and the soil in good condition, crops made good progress. Plowing and the preparation of the soil for December and January planting progressed favorably. Truck is doing well, though celery and lettuce are backward, and planting is general. Out planting continues and that where up looks good. The sweet potato crop ranges from poor to fair, owing to previous unfavorable weather. Strawberry plants are doing well, though backward. Sugar cane did well and much has been cut. The week was too warm for the best development of citrus fruits, and cooler weather is needed. More reasonable weather would result in general improvement of all crops.

**FURTHER ECONOMIES BROUGHT ABOUT BY PRESENT ADMINISTRATION.**

There seems to be considerable speculation as to whether the taxpayers are getting their money's worth out of the present form of government as it is administered by the present commissioners; it being insisted in some quarters that this is only a "silver" town without prospect of growing, and that the charter should be made to fit the "village."

Comparing the year 1919 under the old form of government with the year 1920 of the new form as administered by the present commissioners, the following figures show further economies brought about by the present administration:

Amount of fines and costs collected 1919, \$1,071.75; 1920, \$9,341.85.

Cost of police department, 1919, \$3,260.70; 1920, \$8,613.11.

Note: Under the old form it cost tax-payers \$1,288.95 more for police than was collected in fines.

Under new form the expense of the police department was nearly three times that of the old, yet there was collected in fines \$728.74 more than the police force cost the tax-payers. The above would indicate that it is a good investment to have a well-administered police force.

Deficit in income, 1919, \$16,154.22; 1920, None.

Excess of receipts over expenditures, 1919, None; 1920, \$2,345.47.

Unpaid vouchers for street lighting and fire protection, 1919, \$17,369.03; 1920, \$7,813.50.

Note: reduction of \$9,556.13 in one year a nabove account.

The Good Government League, S. Puleston, President.

**FORREST LAKE STATES HIS POSITION.**

To the Voters of Sanford: It has come to my attention that efforts are still being made to have the people believe that if elected City Commissioner I would disrupt our present form of government.

Now nothing could be further from the truth than such propaganda, for the following reasons:

First: I will be only one of three commissioners and could not do any act without being joined by one or more of the others.

Second: The City Commissioners cannot under the law abolish the present charter, even though they all combine.

The city charter can only be changed by an act of the legislature, or by a vote of the people themselves.

Furthermore, I have no desire to upset the present form of government, as it is the substance that counts in anything, and not the form. However, there can doubtless be some improvements made in the present charter as has already been demonstrated, for example, the present method of nominating candidates; but such improvements are matters for the legislature, or for the people themselves, and cannot be effected by the commissioners.

I believe that the administrative affairs of the city can be run on a more economical basis than is being done at present, and at the same time, with greater efficiency, and if elected I shall work to that end.

I believe that the law requiring a budget for each fiscal year's revenues and expenses should be rigidly followed, and that the administrative affairs of the city should be conducted on that basis.

I have made no statement or promise of what I shall do if elected, and shall not do so, except such public statements as may be published over my signature, as is this one.

Sincerely,  
FORREST LAKE.

**POLICE SUSPECT "CON MEN'S" WAR CAUSED KILLING**

ORLANDO, Dec. 1.—Chief of Police F. D. Vestal was attempting this morning whether the slaying of R. Casolitto, alias A. W. Brown, who was murdered in the Astor hotel here Tuesday night, was the result of a "confidence men's" war. Chief Vestal said that he did not know whether the dead man had been a member of a wire-tappers' gang but that he had letters and telegrams on his person which when thoroughly investigated, he thought would serve to establish his identity. G. B. Hopkins of Athens, Ga., who was held for investigation, will probably be released later in the day, the chief said. No arrests have yet been made. The theory of a gamblers' or bootleggers' war was also introduced because of a bottle half full of moonshine liquor being found in the room.

## TRUTH SEEKERS CLASS

The Truth Seekers Class of the Methodist Church was entertained on Tuesday afternoon by Mrs. C. H. Smith at her home on East Third St. The large sunny living room was tastefully decorated with a profusion of greenery and was well filled with members of the Truth Seekers Class, about twenty-five being present.

The business session was presided over by Mrs. Crenshaw, class president. At the conclusion of the business, the hostess served a delicious salad course and hot chocolate.

## BRIDGE PARTY FOR MISS HIGGINS

Miss Adelaide Higgins was the charming honoree last evening, when Miss Zoe Munson entertained at bridge at her home on Myrtle avenue. There being five tables of players.

The rooms where the card tables were placed were attractively decorated with tall stately potted palms, and baskets and crystal vases of pink and white roses.

Mrs. LaVerne Hurt making high score was presented a box of stationery and Randall Chase making high score among the men was given an Ever Sharp pencil. The honoree was presented a beautiful basket of white bride's roses, the handle tied with a fluffy bow of tulle.

After the presentation of the prizes Miss Munson served fruit salad, nut bread, stuffed dates, mints and coffee as refreshments.

Miss Higgins wore an exquisite ov-

## STRIKING CIGAR MAKERS CONTINUE TO RETURN TO JOBS

TAMPA, Dec. 1.—Cigar workers continued to return to their jobs here today following a strike of ten days.

A manifesto, issued by the equalization committee of the strikers called the strike off after the committee had examined the situation.

The manifesto declared that 3,000 men has disobeyed orders and returned to work and therefore, "it would be criminal to continue the strike any longer."

The strike, which affected about 8,000 men and women, was in protest against the present wage scale, which was put in effect, it is said, following the introduction of the "open shop" in local cigar factories.

The world news the day it happens, delivered at your door each evening, 15c the week.

## H. R. STEVENS, CANDIDATE FOR CITY COMMISSION

Having served one term as city commissioner, and having had the privilege of assisting in establishing the new form of government under which we are now working, and the people of Sanford having seen fit to place my name in nomination for another term, I hereby announce my candidacy for the position of city commissioner, to be voted for on December 6th next.

In making this announcement, I hereby refer you to city records of accomplishments of the past two years, and if elected I expect to continue to work for good, clean government, and for the interest of our city and its people.

Yours very truly, H. R. STEVENS.

## FURTHER ECONOMIES BROUGHT ABOUT BY PRESENT ADMINISTRATION

There seems to be considerable speculation as to whether the tax-payers are getting their money's worth out of the present form of government as it is administered by the present Commissioners; it being insisted in some quarters that this is only a "flivver" town without prospect of growing, and that the charter should be made to fit the "village."

Comparing the year 1919 under the old form of government with the year 1920 of the new form as administered by the present Commissioners the following figures show further economies brought about by the present administration:

	1919	1920
Amount of Fines and Costs collected	\$1,971.75	\$9,341.85
Cost of Police Department	3,260.70	8,613.11

Note: Under old form it cost tax-payers \$1,288.95 more for police than was collected in fines.

Under new form the expense of the Police Department was nearly three times that of the old, yet there was collected in fines \$728.74 more than the police force cost the tax-payers. The above would indicate that is a good investment to have a well administered police force.

Deficit in income	16,154.22	None
Excess of receipts over expenditures	None	2,845.47
Unpaid vouchers for street lighting and fire protection	17,369.63	7,813.50

Note reduction of \$9,556.13 in one year on above account. THE GOOD GOVERNMENT LEAGUE, S. Puleston, President.

### Today's Best Short Story

Jenkins, a newly wedded suburbanite, kissed his wife goodbye the other morning, and, telling her he would be home at 6 o'clock that evening, got into his auto and started for town. At 6 o'clock no hubby had appeared, and the little wife began to get nervous. When the hour of midnight arrived she could bear the suspense no longer so she aroused her father and sent him off to the telegraph office with six telegrams to as many brother Elks living in town, asking each if her husband was stopping with him over night. Moping came, and the frantic wife had received no intelligence of the missing man. As dawn appeared, a farm wagon, containing a farmer and the dorelfest husband drove up to the house, while behind the wagon trailed the broken-down auto. Almost simultaneously came a messenger boy with an answer to one of the telegrams, followed at intervals by five others. All of them read: "Yes, John is spending the night with me."

### QUIT MEAT WHEN KIDNEYS BOTHER

TAKE A GLASS OF SALTS IF YOUR BACK HURTS OR BLADDER TROUBLES YOU.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat formic acid which excites the kidneys they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy, take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithin, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

### FATE OF PROHIBITION PARTY IS DEBATED

CHICAGO, Nov. 30.—The fate of the prohibition party, debated here all day today at a conference of party leaders, will be taken up tomorrow by the national prohibition committee. It developed in today's discussion that there was some sentiment in the

party's rank and file that its work was done and that its machinery had disintegrated in a number of states.

There was considerable sentiment for reorganizing the party, giving it a new name and furnishing it with a new appeal in new issue. This, however, failed to meet with the general assent.

Protest against extreme pessimism was voiced by E. J. C. Hohenthal of Manchester, Conn. "Liquor was entrenched in this country for many years," he said. "If we expect the millennium to dawn in two years after the prohibition law was passed, we expect too much."

The national prohibition conference in session tonight passed resolutions favoring continuation of the National Prohibition Party to make prohibition more effective.

The resolutions will be presented to the national committee of the party tomorrow.
