Bible Verse for Today

THE SAINT'S ASSURANCE: Fear the Lord, ye his saints: for there is no want to them that fear him.

Achievement

I think no trouble ever came my way... But what it left a joy for every ache.

—By Edgar A. Guest.

Gov. Roosevelt declares that new leadership will restore confidence in this country.

When they used to say that the week will inherit the earth...

One of the most discouraging developments of the past few days is the prediction by Arthur Brisbane...

Well, if there is not another war until the last one is paid for the next war is a long time off.

If gambling conditions as they exist today in Miami continue throughout the season...

Ex-service men in Tampa are organizing the "Veterans of the Republic" for the purpose of fighting "rotten politics."

We've heard so much about Mussolini over in Italy that we'd forgotten all about that country.

General Fechet who has retired as head of the Army Air Corps...

Our Foreign Relations

William Randolph Hearst recently made an address over the radio which appealed little at all to the friends of Woodrow Wilson...

They are "internationalists", he says. By that he means they have had dealings with foreign countries.

Mr. Hearst cited Mr. Garner, the Democratic Speaker of the House, as the ideal type of American statesman.

That's internationalism for you with a vengeance, as Walter Lippman says.

The invention of the means of instant communication and rapid transportation makes isolation impossible.

"The same force which drove Wilson, which drove Harding, which drove Coolidge, which drives Hoover," declares Walter Lippman.

"Since, as Mr. Garner's performance indicates, it is our destiny to work out many of our problems with other nations, I should suggest to Mr. Hearst that a really good patriot is one who does not, by stirring up international suspicion, make it too difficult to deal with other nations."

Daytona's Problems

Daytona Beach has recently been added to that ever-growing list of municipalities which are involved in financial difficulties.

"This city," according to a newspaper account, "faced a financial crisis with a default of bond interest totaling \$30,548 in prospect, overdrawn at the banks, unable to borrow money until a budget has been prepared and so immediate prospects of receiving tax payments."

"As a result of this order the police department will be reduced in half. All trash collections will be suspended beginning today. Garbage will be collected only once a week."

"Janitors, maids and hosts and hostesses at public buildings are to be discharged and no street painting will be done. The number of positions in all but the fire and water departments will be reduced."

"In commenting upon the drastic steps taken to preserve the city's credit Mayor Edward H. Armstrong said, 'the city has no money, is now in default, is overdrawn \$1,000 at the First Atlantic National Bank and has a balance of but \$500 at the Florida Bank and Trust Company, and cannot borrow a cent until the budget is prepared and we are able to present it and an audit as the basis for credit.'"

SHAM WARFARE

That Japanese drive upon the Chinese in Manchuria is not termed official war, although it has the appearance and effect of war.

It is our right, as well as our duty, to see to our defense in the Pacific, and to guard our possessions. But any excessive aggressions or false moves may provide excuses for conflict.

Another factor in the Far East situation is the unrest in the Philippines. Perhaps Japanese plotting may be found back of it.

There is no sham in the facts, although there may be in the warfare.

EINSTEIN AND MOONEY

Einstein came to this country last winter via New York and was met with a blast of publicity.

When Mayor Walker crossed the country to make a similar plea, it saw him as a show-off and an intruder sticking his nose in an affair which did not concern him.

There is no keeping such a palpable case of injustice a local affair. A Dreyfus case, a Sacco-Vanzetti controversy arouses the sympathy of the world.

SANFORD; TWENTY YEARS AGO

A movement was brought before the school board in Miami a few days ago asking that a lunch room for the children be arranged in the central school building.

Speculation was rife today as to what ultimately will be the fate of the Rev. C. V. T. Richardson, who yesterday in a written statement confessed the murder of his former sweetheart, Avis Linnell.

C. A. Hawkins died today at the home of his brother, T. J. Hawkins, on Celery Avenue. His body was shipped to Commerce, Ga. where the funeral will take place.

Mrs. J. N. Standifer and daughter, Miss Ruth Standifer, mother and sister of Mrs. R. C. Maxwell, left for their home at Gulfport, Miss. yesterday morning.

CHASE NATIONAL BANK RETAINS ITS LEAD AS BIGGEST

National City Ranks Second With Cash Rating In 1st Place

NEW YORK, Jan. 8.—The Chase National Bank still is the world's largest bank. The publication recently of the statement of condition of the National City Bank, as of Dec. 31, discloses that it is in second place by a margin of \$130,000,750 of resources, its total being \$1,857,975,421 of resources compared with \$1,988,699,180 for the Chase National. The spread in deposits between the two institutions, however, is but \$49,412,023. Chase National's \$1,459,114,886 of gross deposits comparing with National City's \$1,418,702,860.

000,000 at the year ended. Surplus remained unchanged at \$90,000,000, while the bank's undivided profits declined from \$26,616,546 to \$11,347,466. Total capital funds of National City at the year end amounted to \$225,347,166, compared with \$291,075,000 for Chase National. In its condition statement as of Sept. 29 Bank of America reported total capital funds of \$69,761,645. National City reports an increase in its contingency reserve from \$6,907,268 to \$25,543,155.

National City reported an unusually high degree of liquidity, with cash and due from banks totaling \$58,191,000 and government securities \$250,611,951, state and municipal bonds totaling \$8,485,206 and securities \$106,892,130.

The report of the City Bank Farmers Trust Company, a National City affiliate, shows total resources of \$70,441,216, compared with \$65,806,102 at the end of the third quarter. Deposits were \$48,829,470, against \$41,455,233. Capital and surplus were unchanged at \$10,630,000 each, while undivided profits declined to \$911,670 from \$2,745,546. Reserves or contingencies, etc., were \$2,669,116 at the year end, compared with \$1,488,934 three months before.

National City, as a result of acquisition of Bank of America

was one of the few banks able to report an increase in total resources during the quarter, its total rising \$35,928,368. Deposits were up \$35,963,807. Most other banks reported lower totals in response to the slackened demand for credit.

Total resources of the New York Trust Company declined in the fourth quarter from \$383,987,275 to \$323,858,218, with deposits falling from \$307,555,018 to 251,415,683. Capital was unchanged at \$12,500,000, but surplus was reduced from \$30,000,000 to \$25,000,000 and undivided profits from \$5,618,245 to \$1,569,173. A \$10,000,000 reserve for contingencies was set up.

The Brooklyn Trust Company's statement of condition as of Dec. 31, 1931, lists total resources of \$158,867,372, compared with \$156,083,345 on Sept. 30. Deposits totaled \$116,774,588, against \$115,711,020. The statement gives effect to the transfer of \$2,250,000 from surplus and undivided profits to reserves, which, it was said, was due to fluctuations in the market value of securities held. Of this amount, \$2,000,000 was taken from surplus which was reduced to \$10,000,000 from \$12,000,000, and \$250,000 was taken out of undivided profits, which stood at \$2,303,065 on Dec. 31, against \$3,081,

JOBLESS ARMY IS KINDLY RECEIVED ON CAPITAL CALL

Men, Haggard and Unshaven, Are Heeded By Catholic Priest

WASHINGTON, Jan. 8.—(A.P.)—The trial of 10,000 marching men echoed across Capitol plaza yesterday to emphasize the appeal of workers to Congress and the President for jobs.

The men, haggard and unshaven, watched a Pittsburgh priest deliver their petition to their members of Congress. They cheered him as he way to the White House.

At both places, Father James R. Cox, their leader, received a friendly welcome, different from that accorded the communistic marchers who came to press demands upon Congress at its opening. At that time guns were seen and threats heard.

President Hoover received the priest sympathetically, listened to his petition for jobs and for federal help for those who cannot find them. He pointed out to Father Cox what the Federal Government already was spending to give employment and said he hoped Congress would soon adopt his program he believed to be the "final campaign against the depression."

On Capitol Hill, Senator Davis and Representative Kelly of Pennsylvania welcomed the priest and the marchers from their state. They received the petition and a little later it was read in the House.

The demonstration there eclipsed the pilgrimage which began in Pittsburgh several days ago. In it there was much of the dramatic.

The long lines of marching men drew up before the long marble steps that lead to the door of the Capitol. Their leaders climbed the steps and handed the petition to the Congressmen. The marchers, The American flag waving. Their band played music familiar to every American and the crowd sang "Keep the Home Fires Burning," "America," and the marching song that many of them tramped by in 1917, "Pack Up Your Troubles in Your Old Kit Bag." Some of them were still wearing overcoats that were loaned to them in the Army.

The petition presented, Father Cox turned upon the throng and they joined him with unpruned hands in repeating the "Oath of Allegiance to the Flag."

Then they went to Arlington to stand at the tomb of the Unknown Soldier in silent reverence.

They had spent a night in cramped quarters, hastily provided after their unexpected arrival late Wednesday night. They had been fed from Army kitchens, but the lack of notice of their coming had caused insufficient supplies to be assembled for their breakfast and some began the day hungry.

Police men had not barred their way. There was an extra detail about the Capitol grounds but they were there to facilitate the movement of the crowd. The marchers had been admitted freely to the Capitol, had strolled through its corridors and had sat with their ex-caterers among the more fashionably dressed spectators in the galleries of the House and Senate.

One of the musicians who participated in the march had \$1,050 in his pocket.

John Cylkowski of Pittsburgh collapsed and was taken to a hospital. The 30-year-old man explained he had been laid off last July

177 on Dec. 31, 1930, and \$9,127,672 on Sept. 30, 1931.

New York Title and Mortgage Company, a unit of the Manhattan Company, reports capital and surplus unchanged at \$20,000,000 and \$30,000,000, respectively, but undivided profits declined from \$14,401,539 at the end of 1930 to \$11,321,562 on Dec. 31. During the year guaranteed mortgages and certificates outstanding increased from \$702,979,828 to \$728,090,245.

The J. Henry Schroder Banking Corporation reports total resources of \$10,619,168 and the J. Henry Schroder Trust Company total resources of \$5,530,776. The banking corporation set up a \$1,500,000 reserve for contingencies. Capital totaled \$5,000,000 and surplus and undivided profits \$2,515,350. Outstanding acceptances amounted to \$15,322,564, compared with \$13,530,841 a year ago.

Ranca Commerciale Italiana Trust Company reports as of Dec. 31 cash on hand and due from banks of \$6,414,896; United States municipal and other bonds of \$1,424,319 and secured loans of \$1,129,876. Deposits totaled \$12,700,325, while capital, surplus and undivided profits aggregated \$4,161,333. The trust company is affiliated with the Ranca Commerciale Italiana, the head office of which is in Milan, Italy.

TARPON SPRINGS—\$24,431 worth of sponges sold recently in sponge exchange.

Electrification of Pennsy Railroad Is Making Progress

NEW YORK, Jan. 8.—Steady progress in electrification of the Pennsylvania Railroad's trunk line from New York to Washington is reported by W. D. Beare, of the transportation engineering department of the General Electric Company, in his review of transportation electrification for 1931. Mr. Beare states that the section between Manhattan Transfer and Trenton will be closed, permitting initial electric service between New York and Philadelphia.

Completion of this project will eventually result in passengers traveling on electric trains from New Haven, Conn., to Washington, without change, such a possibility will come to pass, Mr. Beare remarks. "Some time in the future" after the Pennsylvania terminal in Manhattan has been re-equipped, New Haven is at present the Eastern terminus of the New Haven's electric route.

the underground electric substations which will be part of the new Manhattan subway system. There will be fifty of these substations, with an aggregate of fifty-one rectifier units, representing 15,000 kilowatts. The mercury arc rectifier is General Electric's method of solving electric current conversion economically, these units supplanting rotating machines which required much greater space.

Mr. Beare mentions electric railroad projects either completed or advanced during 1931 by Reading, New York Central, New York, New Haven & Hartford, as well as Pennsylvania, and also a project for the Soviet government in Russia which involves thirty-nine miles of main line track on the Transcaucasian Railroad and includes considerable grades and two and one-half miles of tunnel.

VISIT FOREST TOWERS

ST. PAUL, Minn., Jan. 8.—(A.P.) The tall, wooden lookouts of northeastern Minnesota, where forest rangers spot fires, are becoming popular stopping-off places for tourists. This year it is estimated that 28,000 visited the towers as against 23,560 last year of 18,723 in 1929.

WOMEN AND JUNIORS VINES TENNIS LIST

Players Are Ranked in Country's Leading Stars For 1931

NEW YORK, Jan. 8.—(A.P.)—The selection committee of the United States Lawn Tennis Association recommended yesterday the following list of leading players for 1931.

The list is based on the country's leading players for 1931. The list is based on the country's leading players for 1931. The list is based on the country's leading players for 1931.

The list is based on the country's leading players for 1931. The list is based on the country's leading players for 1931. The list is based on the country's leading players for 1931.

Frank Shields, of New York, member of the United States Davis cup team, was placed No. 2, with John Van Ryn No. 3, John Doe No. 4, Clifford Satter No. 5, Sidney B. Wood, Jr. No. 7, Keith Gledhill No. 8, Wilmer Allison No. 9 and Berkeley Bell No. 10.

The drops taken by Wood and Allison in the ranking were the most precipitate. Allison was adjudged No. 2 a year ago and Wood was No. 4. Gledhill, national intercollegiate champion, rose from No. 14 for 1930 to his present position. Probably the greatest surprise was the lowering of Wood to No. 7. The blond youngster failed badly in the national championships, but he previously had won the singles title at Wimbledon and represented the United States in its unsuccessful attempt to win the Davis cup.

STEPS ARE BEING TAKEN TO MATCH MAX SCHMELING

Difficulties Are Encountered In Move To Sign Up Walker

By EDWARD J. NEIL.

NEW YORK, Jan. 8.—(A.P.)—Slightly demoralized but persistent, Madison Square Garden yesterday went about the task of signing Max Schmeling and Mickey Walker for a heavyweight title bout in Miami, Feb. 25.

The net result, however, was the same as Wednesday and the day before. There was no signing. But today is another day and once more the festivities are scheduled.

The reason the German and his

Ritchie Throws His Hat in Ring For Nomination

(Continued from Page One)

deities have stepped us far from safe moorings. The time has come in our nation's life for a return to fundamentals and first principles. In no other way can you find a starting point again for sound thinking and constructive planning.

"We began with a simple and unique system of state and federal sovereignties. And now by sheer force we have seen powers and responsibilities of the states surrendered, rights and privileges of the individual destroyed and the functions of local self-government steadily and progressively weakened."

Further extension of federal powers would imperil government itself and create a burden of taxation which would amount to confiscation, he declared.

Decrying the possibility of compulsory government unemployment insurance, the executive declared that should that ever come to pass, a bureaucracy would be established that would "out-beaurecrat all other bureaucracies."

"Industry itself can avoid this danger by showing enlightened statesmanship of its own," he declared. "It has always seemed to me that the obligation here rests primarily not on government, but on industry."

"I believe the collective wisdom of the American people is against the appalling extension of government into every field of private enterprise. The years of triumphant but self-serving and scandal ridden Republicanism have been responsible for this."

"I believe the collective wisdom is for minimum of government and maximum of freedom, and that it is against public ownership of utilities. Most of all I believe it is against communism, socialism, sovietism, Hitlerism, black shirts, red shirts and all other

What's New In the New Chevrolet Six

When you read what's new in the new Chevrolet Six, you, too, will agree it's the Great American Value for 1932: Syncro-Mesh and Free Wheeling combined for the first time in a low-priced car. Engine and chassis improvements that raise performance to new heights of power, speed and smoothness! The finest Fisher bodies Chevrolet has ever introduced. And the same qualities of reliability and economy that have won the approval of millions of Chevrolet owners. All these you will find in the new Chevrolet Six at one of the lowest prices in the market! That's why the new Chevrolet Six is called the Great American Value for 1932.

Syncro-Mesh Transmission
This new feature of the new Chevrolet Six gives you the best of both worlds. It gives you the low-price of the low-price car. It gives you the high performance of the high-performance car. It gives you the best of both worlds.

A Smoother, Improved Six-Cylinder Engine
New design gives you the Chevrolet Six's new power, smoothness and speed. For Chevrolet's new head engine now has downward exhaust, a new cylinder head, new intake, a more balanced crankshaft and rubber mounts. Features that give you 20 per cent to 25 per cent more power.

Simplified Free Wheeling
Chevrolet Free Wheeling is a new and advanced type, extremely simple in construction. You may take advantage of its thrill by simply pressing a button on the dash. Until you pull the button out again, you are "in" Free Wheeling. You coast along on momentum, when you let it off the accelerator. And you don't wear out your tires.

Power Steering
New feature in Chevrolet's six-cylinder engine enable it to do more work in less time and with a stop-watch acceleration from 0 to 35 miles in 6.7 seconds.

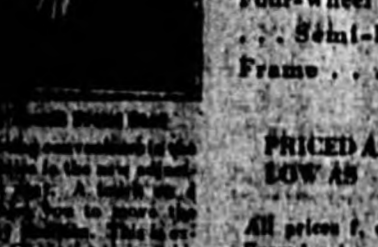

Standard Front-end Suspension
A new method of mounting front fenders, lamps, double tie-bar and radiator to the frame—exclusive to Chevrolet—gives a safe feeling of steadiness on rough roads.

Standard Rear-wheel Drive
The new Fisher bodies are the smartest ever to appear in the low-price field. Their famous wood-and-steel construction is even stronger and quieter. All occupants enjoy greater riding.

Standard Motor Oil
An extra-long overhauled to the Chevrolet Six is the only oil that will give you the best of both worlds. It is the only oil that will give you the best of both worlds.

Standard Motor Oil
An extra-long overhauled to the Chevrolet Six is the only oil that will give you the best of both worlds. It is the only oil that will give you the best of both worlds.

Standard Motor Oil
An extra-long overhauled to the Chevrolet Six is the only oil that will give you the best of both worlds. It is the only oil that will give you the best of both worlds.
