HIGHWAY BODY TO SOON FINISH ROAD NUMBER 2

Routing of Road One Between Quincy and State Capital Gets Approval Of Board

Hillsborough Road Is Provided For \$750,000 In Contracts Awarded By Board In Past Few Weeks

TALLAHASSEE, July 3.—Steps to complete all the sections of state road number 2 between Lake City and the Georgia line were taken by the State road department, in a quarterly meeting here Thursday, when the chairman was authorized to proceed with plans for constructing the remaining portions of the mile stretch. Under this authority work will be started as soon as possible on 8.2 miles and 11 additional miles early in 1926. The rest of the section already is under construction.

The department has reached an agreement with the Federal Bureau of Public Roads as to the completion of this section of highway, which has been under consideration for many months.

Another question of long standing was settled when the department decided to accept the routing of road number 1, between Tallahassee and Quincy as it is designated by its engineers, the chairman being requested to get approval of the Bureau of Public Roads at Washington of the routing as made.

A resolution was passed at the meeting requesting the federal authorities to place road number 9, between Madison and the Georgia line toward Quitman, Ga., on the federal seven percent system.

Authorized chairman to take 14 township 28 north, range 23 over expenditure of road bond money for construction of roads and bridges as follows: Sumter county, \$650,000; Levy county, for building roads 13 and 19 through that county, and \$2,000,000 voted by Bay county.

Authorized chairman to locate state roads whenever necessary for such action became evident, under authority granted by an act of the 1925 legislature.

The chairman reported that 117 miles of highway either have been contracted for or are under construction during the first half of 1925, as a cost aggregating \$8,067,708.40, with a little less than half of the work completed. Bridges contracted for during the same period had a total length of 12,712.69 ft., at an estimated cost of \$2,712,698.73, of which \$304,229.84 had been spent.

A financial statement submitted to the members by the chairman showed disbursements from January 1 through June 30 aggregating \$4,185,706.41 leaving a balance with the treasurer subject to the department's warrants amounting to \$1,096,222.31. Estimated resources of the department for the second half of the year were placed by the chairman at \$5,309,315.64.

Washington, July 3.—Ambassador Daeschner conferred with Secretary Mellon regarding the French debt.

The whereabouts of Henry Ford's mallet bid for ships disturbed officials.

Increased exports and imports for May were shown in commerce department figures.

Cotton production was forecast at 14,222,000 bales, the third largest crop on record.

The treasury offered a revision of estimates of tax receipts with final figures showing a \$250,000,000 surplus.

Scopes Trial May Be Taken From Dayton

NEW YORK, July 3.—While Dayton is making preparations to handle the trial of John T. Scopes for teaching evolution, there is a possibility that the trial will not be in Dayton at all. Counsel for defense at conference here are reported to have agreed to seek a federal court at Nashville, Tenn., an injunction against enforcement of the law.

Auto Races Feature Program At Daytona

DAYTONA, July 3.—With record-smashing auto races between Sig Haugstahl and Dave Keetzel, and a monster movie parade on the Seaside-Daytona Beach speedway, a state-wide patriotic demonstration and balls in hotel and ocean casinos as a feature, the Fourth will close the Hotlix summer frolic in a blaze of glory.

Preparations have been made to attend even larger crowds than attended on the opening day and arrangements have been made to add several new features.

LeBanon Officials Hold Negro Suspect

BRISTOL, Va., July 3.—A negro thought to be the one who shot three officers at Roanoke, last night is held in LeBanon, Va., according to reports received in Bristol Thursday.

Word of the arrest received here said that the negro refused to give his name and that LeBanon authorities had wired Roanoke police asking them to send a man to LeBanon to identify the negro.

FIVE ACRES LAND TO BE ASKED FOR LOCAL HOSPITAL

Chamber Commerce Members Express Desire To Have Plot On Northeast Corner Old Country Poor Farm

The subject of property upon which the proposed new city and county hospital will be erected was the main topic of discussion at the Chamber of Commerce luncheon at the Seminole Cafe today when a number of the members of the organization expressed themselves on the matter.

A. P. Connelly, chairman of the hospital committee, stated that due to the absence from town at one time or another of its various members it had not met to confer upon the matter of asking the co-operation of the county commissioners in the erection of the new building, but he suggested that members of the committee who are in Sanford on July 6, the next meeting date, of the county body, go before the commission and ask for five, or at least three, acres on the northeast corner of the old county poor farm on Melville Avenue upon which the proposed structure is to be built.

F. P. Forster spoke in this connection and declared that the committee should not think of securing less than five acres upon which to erect a hospital that would cost a quarter of a million dollars, approximately.

Considerable discussion was heard on this matter, all speakers urging that at least five acres be secured. It was stated that due to legal entanglements, it might not be possible for the county to give the land as a donation but that a small sum could be stipulated for its purchase.

It was further said that it may be better for the city to bond alone for the erection of the hospital and then ask the county for a millage to be used with a like city tax to help the installation operation.

D. J. Forster briefly stated that it had come to his attention that recent excursion tickets from New York to various Florida cities did not include rates to Sanford and urged the local trade body to "lighten of Sanford" by what is thought to be laxity on the part of the Atlantic Coast Line Railroad Company in this connection.

George W. Knight reported that the local yacht club work is progressing well but that those people who signed their intentions to become members, pay their initiation fees at this time. That is, those who have not already done so.

American Films Have Influence On Homes

RIO DE JANEIRO, July 3.—A moving picture representative says that Brazilian homes are reflecting the influence of American films. Many letters are received by the manager, requesting photographs of the interior scenes of productions having settings in American homes.

He believes that the Brazilian is making his home more comfortable, as rocking chairs and leather lounge chairs were unknown a few years ago. He also believes that the astonishing increase in the construction of bungalows in Rio de Janeiro and Sao Paulo is traceable to the pictures which show exterior views of American houses.

Perfecting by an organization of German radio concerns, the marine wireless telephonic system already has been installed on the Muenchaen, Stuttgart, and Columbus, of the North German Line, and on the Deutschland and Albert Ballin of the Hamburg-American Line.

Since experiments were made three years ago by the United States Lines in co-operation with the Radio Corporation of America and the American Telephone and Telegraph Company. Tests were limited, however, to one way conversation, a new set up the apparatus being required to change it from transmitting to receiving. Connections on this basis were established over a distance of 1200 miles.

PROGRAM FOR DEFENSE DAY IS COMPLETED

Patriotic Address Will Be Delivered By Rev. F. D. King Of Baptist Church; Rev. Nixon To Pronounce Prayer

Men Urged To Enlist For Period One Day

Parade To Form At Army At 8:15 for March to the Park for General Exercises

Preparations for the celebration in Sanford of Independence Day and the National Defense Tests as requested by President Coolidge in a recent proclamation, were completed here this morning, according to an announcement by Mayor Forrest Lake, chairman of the committee to provide the program to be held at Central Park at 8:30 o'clock Saturday morning, July 4th.

The exercises at the park will begin with a prayer by Rev. F. D. King, pastor of the Baptist Church; Rev. Nixon to pronounce prayer.

Following the music, Rev. F. D. King, pastor of the Baptist Church, will deliver an address of a patriotic nature, during the course of which the question of National Defense and the purpose of the Defense Day Test will be made clear.

The exercises at the park will be held at Central Park at 8:30 o'clock Saturday morning, July 4th. The exercises at the park will be held at Central Park at 8:30 o'clock Saturday morning, July 4th.

Wireless Telephone Test From Ship To Ship Is Successful

NEW YORK, July 3.—Successful operation of ship-to-ship wireless telephones was announced Thursday with the arrival of the north German Lloyd liner, Columbus. Scated in a booth on the Columbus, a passenger talked to another on a Hamburg-American liner, ploughing through the Atlantic 100 miles off.

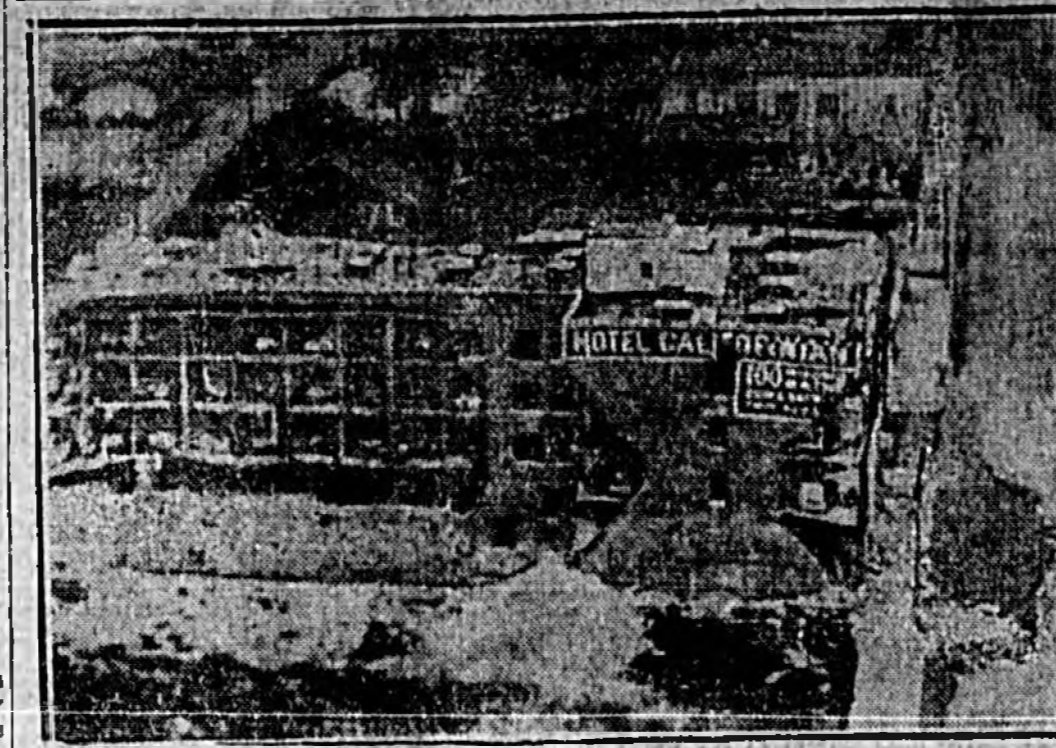

The process has been simplified so that the charge of ten marks, about 2.50, covers the expense, Carl Gerstung, chief wireless operator of the Columbus said upon his arrival. A duplex receiving and transmitting apparatus permits two-way conversation, he explained, on wave lengths of either 1800 or 1450 meters. The charges are expected to be reduced materially as the use of the system becomes more general.

Perfected by an organization of German radio concerns, the marine wireless telephonic system already has been installed on the Muenchaen, Stuttgart, and Columbus, of the North German Line, and on the Deutschland and Albert Ballin of the Hamburg-American Line.

Since experiments were made three years ago by the United States Lines in co-operation with the Radio Corporation of America and the American Telephone and Telegraph Company. Tests were limited, however, to one way conversation, a new set up the apparatus being required to change it from transmitting to receiving. Connections on this basis were established over a distance of 1200 miles.

Rapid development of the system was foreseen by Mr. Gerstung in view of the "highly efficient American telephone service."

Airplane View of Santa Barbara Quake

Here is a remarkable view of Santa Barbara taken from an NEA Service airplane, just after the disastrous earthquake. In the foreground are the ruins of the California Hotel, showing the fallen walls and the exposed cross-sections of the rooms. One entire side wall of the structure collapsed.

SANFORD PEOPLE WILL CELEBRATE FOURTH OF JULY

Many Leave City For Entertainment Elsewhere While Others Will Remain Here; Celerymen To Play Twice

According to announcements made during the past several days the people of this city will celebrate the Fourth of July in a number of different ways, some of them going to various other cities in Florida to attend the big celebrations that are being staged, while others have signed their intention to remain here to attend the National Defense Day exercises at Central Park and the morning and afternoon ball game to be staged between the Celery-Feds and the Lakeland Highlanders.

Still others, have planned fishing trips to the numerous lakes, rivers and creeks in this vicinity and many will go on picnics to some of the woodland springs and lakes which abound in this section of the state.

Sanford residents have already noted the peppy excitement among the members of the younger generation, who, during the past week, have manifested their Fourth of July spirit in the discharging of fire crackers and fire work of various kinds.

Two Baseball Games Those who remain in Sanford will not by any means be deprived of a good time on that day because they did not get out of town to the larger celebrations such as are being staged at Daytona Beach, Melbourne and other cities on the coast.

There are the lakes and springs to which many expect to go late in the afternoon and during the evening for swimming parties and picnics. These places which are frequented by the people of this city, are easily accessible and it is there a number have planned to spend part of tomorrow.

Sanford's stores and other business concerns will be closed as will the banks. The postoffice will also be closed. The Sanford Herald, in keeping with its custom, will not issue a paper.

Santa Barbara Back To Normal As 200 Marines Help Patrol the City

Santa Barbara, July 3.—Santa Barbara was rocked by a heavy quake again at 8:30 o'clock this morning. The quake lasted about six seconds and shook the city rather violently, the vibration consisting of two shocks that appeared to be from east to west and swayed the buildings perhaps more severely than any of the shocks following minor disturbances of Monday.

So far as reported no damage resulted. The occupants of buildings rushed into open for safety.

Santa Barbara did not return to normal yesterday with 200 marine units in patrol work, many merchants opening or preparing to open their stores for resumption of business and relief organizations functioning like machinery.

Herald Will Issue No Paper Tomorrow

In keeping with its time-honored custom of observing the Fourth of July and allowing its employees a holiday so that they may appropriately celebrate the day, The Sanford Herald will issue no paper tomorrow (Saturday).

CITIZENS TO BE JUDGES IN CASE, SAYS W.J. BRYAN

Commoner Says Decision Of Court Will Not Be Final; Right Will Win, He Says

MIAMI, July 3.—Regardless of the court's decision the people must be the final judges whether evolution shall be taught in the schools, declared William Jennings Bryan in an address before the Miami Kiwanis club here Thursday.

"I have no fear that an adverse decision will settle the question of religion," Mr. Bryan said. "Nor will a favorable decision settle the question of evolution. If evolution is a good thing, a decision against it will not prevent it from winning in the end. If real religion is a good thing, it will triumph. If the facts show that evolution is a dangerous thing, the result will be that the American people will find methods of stopping it from destroying a righteous thing."

The wide publicity given evolution and religion is focusing the attention of the world on a subject the people did not understand, the speaker pointed out, and that it is unlawful to teach in public schools.

The law doesn't prevent the press and the people from discussing evolution. It doesn't say it is unlawful to teach evolution up to man. It means that it is unlawful to teach in public schools that man descended from a lower form of life. The law doesn't say Mr. Scopes cannot believe in evolution. It says he cannot teach the subject. The law is simply an effort to control the public schools.

ZEPHYRHILLS — 1,200-acre tract 4 miles northwest, being developed for resort town.

OIL PROSECUTOR SCORES HARDING CABINET IN LEASE

Senator Walsh Says Cabinet Tainted By Tale Told By Doherty Of Leasing Reserves; Story's Weak Points

NEW YORK, July 3.—Edward L. Doherty's recent statement on the Teapot Dome oil leases, if true, places some degree of responsibility for the "oilman transaction" upon every member of the Harding cabinet, Senator Thomas J. Walsh, of Montana, chairman of the senate committee on public lands, which investigated the leases, said Thursday.

Senator Walsh, who is on his way abroad, also regarded as important parts of the Doherty statement which he said showed that the leases were not given Doherty to protect the oil lands from drainage by outside wells.

Mr. Doherty asserts that the subject of the executive order transferring the control of the oil reserves from the navy department to the interior department was discussed in cabinet meetings, at which Secretary of the Navy Denny expressed his desire to have the transfer made, the senator said.

"The source of Mr. Doherty's information is not disclosed, but presumably it came from Secretary Denny, although it is inconsistent with the testimony given by that gentleman before the public lands committee."

According to my recollection, Secretary Hughes and Secretary Hoover, at least, were asked if the subject was ever considered at a cabinet meeting. Both replied that it was not, or at least that neither of them had any recollection of such an event. It will be interesting to learn what they have to say.

Atlanta, July 3.—The government day effort to convict L. J. Fletcher and Thomas P. Hayden, former attaches of the Atlanta federal prison of conspiring to receive bribes when a jury in United States court from wealthy inmates of the prison indicted them here Thursday, rejected inability to reach a verdict and was discharged.

A mistrial was ordered by Judge Ervin after the jury had deliberated 24 hours. Throughout this period the jury was eight, for accused were four for conviction, the foreman announced.

Fletcher, former deputy warden of the prison here was acquitted of bribery charges several months ago when Albert Sartain, deputy prison warden, and his friend, Yaucoque Bixby, both of Columbus, Ga., were convicted on similar charges. The defendant, Fletcher, in testimony denied the government's accusation of wrongdoing.

Hayden, former chaplain of the penitentiary here, did not go on the witness stand, but both defendants must receive the same verdict of the jury, declaring that one man can not conspire alone.

Reputed wealthy prisoners mentioned in testimony and alleged to have paid large sums of money for which they expected to receive special privileges, included Willie Haar and six others convicted on liquor charges from Savannah; George Renaus, so-called bootleg king, Cincinnati; and Annie Kessler and Morris Sweetwood of New York where they were sentenced for violations of the prohibition law. Government counsel last night declined to announce plans for further procedure in the case. The accused men remained at liberty under bonds.

GERMAN PRINCESS DIES — AMITZ, Prussia, July 3.—Princess Wanda von Schoenach-Czulin died suddenly at the age of 77. She was the former mother-in-law of Princess Reznice, wife of the former German kaiser.

Ambassador's Visit Means Debt Parleys Near, Capital Hears

TEACHERS' BODY DROP FIGHT FOR EDUCATION FUND

Association Approves Bill Which Would Provide Commissioner Of Education As Member Of President's Cabinet

INDIANAPOLIS, July 3.—Miss Mary McKimmon, principal of the Pierce School, Brookline, Mass., Thursday night was elected president of the National Education Association, in convention here. She succeeds Jesse H. Newlin, superintendent of schools, Denver, Colo. Miss McKimmon received 807 votes while her opponent, Miss Corneille S. Aldair, of Richmond, Va., received 322.

Miss Ella Flagg Young, former superintendent of schools of Chicago, was the first woman president. The Association has dropped its fight for a \$100,000,000 federal aid fund for educational purposes.

The association's proposed bill creating a department of education with an office in the president's cabinet, approved at yesterday's session of the N. E. A., is without the federal aid provision, a feature of other association bills.

In 1918 the association perfected its first legislation for a federal education department. The \$100,000,000 aid was a part. Each year since the association has sponsored the bill without ever having it brought up for final consideration by the congress. This year the federal aid section was eliminated.

Curtis Is Sponsor Bill Senator Charles Curtis of Kansas, majority whip will introduce and sponsor the bill in the senate, according to Miss Chas. O. Will, Kansas secretary of the association's legislative committee, which prepared the measure.

The federal aid section was for equalization of educational opportunity, health, education, adult literacy, Americanization, and technical training. It would be a part of the federal aid section which prepared the measure.

For the first time in educational history, said Joy Elmer Morgan, editor of the Journal of the National Education Association in an address before the association's convention, "a curriculum is being built for the children of all the people and varied to meet the needs of the individual child."

"The old curriculum," Mr. Morgan said, "was handed down by the school superintendents, but the new curriculum being built by all the school forces working in democratic co-operation. The old curriculum was made for adults; the new curriculum calls for mastery of facts; the new curriculum for mastery of life."

Draft Talented Teachers Mr. Morgan declared that society should draft into its teaching army its most talented men and women. "A nation," he added, "which allows its most gifted workers to spend their time on its material resources and puts incapable men in charge of its intellect, the result is a crucifying itself upon a cross of gold, for we need our best minds and our biggest hearts for the schools."

Ella Victoria Dobbs, associate professor of industrial arts of the University of Missouri, declared the "teaching groups" in interesting the schools to the public, are in duty bound to make clear to the public, the reasons for the changes of procedure in teaching methods so that they will insure confidence and support.

APPROVE DEBT PLAN PARIS, July 3.—Council ministers today approved the plan to send French a debt commission to the United States this autumn.

Daeschner Says Visit Purely Informal But Capital Attaches Significance To It

Country Ready To Receive Mission Press Of Affairs May Prevent Caillaux From Heading Body

WASHINGTON, July 3.—Steps were taken Thursday looking to a revival of the discussion of funding France's war debt to the United States.

Ambassador Daeschner called at the treasury for an informal talk on the question and to confirm to Secretary Mellon official reports that the French Cabinet recently had formally acknowledged the government's debt to the United States and was studying for a means for its settlement.

M. Daeschner inquired at the same time whether Mr. Mellon, as chairman of the American debt commission had received any word from Paris concerning the possibility through Ambassador Herriek of official steps by France in the matter, and was told that the only information the treasury had was from the press.

The conversation which M. Daeschner had with Mr. Mellon and Under Secretary Winton was described as necessarily "most informal" since the ambassador had received no instructions from his government to initiate negotiations for funding. The treasury had been watching the situation in Paris closely through news reports and was not surprised when the ambassador called.

Officials declared they had received no definite indication when a French mission authorized to work out a settlement might be perceived as nebulous as before, although they would be more likely to do so, although the activity of the French cabinet gave rise to a suggestion by some observers that the present move might bring more definite exchanges on terms than did the steps taken two years ago, when M. Parnmenter headed a funding mission.

PARIS, July 3.—A French mission to settle the American debt will probably go to Washington by the end of the summer. It is likely that M. Caillaux, minister of finances will head it, although he would prefer to do so.

Tentative plans are under way and the composition of the mission already is under consideration, although no formal decision respecting the appointment of this body has yet been taken by the cabinet.

It would be possible for M. Caillaux to absent himself from Paris during August, when the situation usually is quiet, but after that his presence here is necessary because of the budget and financial problems to be taken up.

The view in Paris is that the mission could serve no useful purpose by being in Washington before September, because it is known that the debt funding commission is already occupied with several European debtors who have opened or are about to initiate negotiations.

Because of M. Caillaux's inability to get to Washington, some prominent financiers are being sought to head the mission. One of those suggested is Robert Masson, active operating head of the Credit Lyonnais. There will be, of course, a number of experts from the ministry of finance, thoroughly familiar with all the facts and statistics.

In the meantime M. Briand and M. Caillaux have taken the new British memorandum under advisement, and the understanding is that the debt negotiations with the United States will be entirely separate from those with Great Britain.

Truck Turns Turtle And Kills 2 Convicts

Augusta, Ga., July 3.—Three convicts were killed and two guards and two other convicts more or less seriously injured today when a heavy truck overturned two miles from here.

Motorcycle Narrowly Misses Mrs. Coolidge

Swampscott, Mass., July 3.—Mrs. Coolidge narrowly escaped being run down by a motorcycle this morning during her walk about Swampscott, a hap to one riding the road saving her.

Markets

CHICAGO, July 3.—Wheat futures, 129 to 140 1-4; December 140 1-2 to 141. Corn, September 102 3-4 to 102 7-8. Cotton, September 45 1-8 to 45 1-4.

Public Education System Of Florida To Be Studied By Special Commission

TALLAHASSEE, July 3.—Consideration is expected to be given at some time in the near future to the appointment of a commission of five persons to make a survey of the public education system of Florida, as authorized by the legislature. The survey will include all schools and educational institutions supported by public taxation, a proposal that has been advocated by the Florida Education Association for several years.

Children Finding Klan Chief Asks Home And Church To Resign Office

INDIANAPOLIS, July 2.—Schools Wednesday have come to be both church and home to many children, Miss Anna G. Fraser of Oakland, Cal., declared at the recent session of the National Education Association.

"In place of the healing of a priest, in place of the loving of the mother, many a child has only the ideals implanted by the teacher," she said.

"Millions of children today know the church only as a place to get married or to be buried from. For a home they have a series of apartments, they move in and out of; they have even an end of parents."

With a weak church, a weakening home, the maintenance of American ideals of personal dignity falls with tremendous force on the schools."

The session tonight ended the third day of the 63rd annual convention.

After the morning session today, the delegates recessed over the afternoon. Many visited James Whitcomb Riley's old home in Lockersby Street, others made pilgrimages to the tomb of Riley in Crown Hill cemetery and the resting place of Thomas Riley Marshall, former Vice-President, nearby.

Juvenile Girl Cases In Duval County Are Increasing, Is Report

JACKSONVILLE, Fla., July 3.—An increasing number of girls are being brought into the juvenile court of Duval county despite the fact that the total number of cases is decreasing. This is shown in the annual report of the chief probation officer of the county to the board of commissioners this week when the court completed its tenth year of service.

The court placed 372 children of delinquency on probation and 90 per cent of them made good, says the report.

Chickens Hatched By Heat In Yuma Arizona

YUMA, Ariz., July 2.—Southern Arizona hatches chickens by its natural heat without either incubator or brood hen. A feed store manager reported today that three eggs which he left on a shelf three weeks ago cracked today and that three husky chicks emerged. The temperature has been above 100 for many days.

Annual Christian Endeavor Convention Will Meet July Fourth At Portland, Oregon

PORTLAND, Ore., July 3.—Fifty special trains are headed toward this city with thousands of Christian Endeavorers from all parts of the United States and Canada who will spend from July 4 to 10 attending the 30th International Christian Endeavor convention.

Edward P. Gates of Boston, general secretary, anticipates a registration of 15,000 delegates. Approximately 12,000 registrations were recorded at the last international convention held two years ago at Des Moines. The growth of the movement during the last two years and increased enthusiasm on the part of constituent churches are responsible for the increased registrations, he said.

W. H. Pinchot, governor of Pennsylvania will give the opening address on "Conservation of American Ideals." Because of July 4 being the nation's birthday, the theme of the session will be "Christian Citizenship." The Rev. Francis E. Clark, familiarly known as "Father Endeavor," Clark, who founded the movement two years ago in Portland, Me., will

preside at the opening session. During the convention Dr. Clark will give an address on "From Portland, Me., in 1881, to Portland, Ore., in 1925," in which he will briefly review the history of the movement from its inception to its present active membership of approximately 4,000,000.

Among other speakers are the Rev. Dr. Daniel A. Poling of New York, the Rev. Dr. Mark A. Matthews of Seattle, the Rev. Dr. A. Ray Petty and Harry Holmes of New York, the Rev. Dr. James Kelly of England, president of the European Christian Endeavor Union, the Rev. Dr. William Hiram Foulkes of Cleveland, the Rev. E. O. Marsden of Alaska, the Rev. Seizo Abo and the Rev. Seijiro Yemura of Japan, the Rev. George H. Hubbard of Fochow, China, and the Rev. J. Christy Wilson of Persia.

Among the conference leaders are Clarence C. Hamilton, A. J. Sbarto and the Rev. Stanley B. Vandersall, who with Mr. Gates shares the responsibility for the conduct of the world-wide organization whose motto is "For Christ and the Church."

PROGRAM FOR DEFENSE DAY IS COMPLETED

(Continued from Page 1.)

and the local Junior Chamber of Commerce.

Each of these organizations are represented by Captain Hutchinson to place as many representatives in the parade, which will be held on Sunday, July 5. In order to avoid confusion they will be asked to line up in the parade in the order named in this article, although there is no distinction to be drawn between the various civic organizations.

In a statement this morning, Capt. Hutchinson said that when a sign is given with the National Guard for a single day, as is asked of all able bodied men on Defense Day, he is supposed by doing so to signify his willingness in an emergency to sign up for military service.

Last year, he concluded, a large number of Sanford men signified their intention of enlisting in a unit of national emergency by signing up with the National Guard Units for a period of one year and it is hoped that a larger number will enlist for the single day period this year.

OIL PROSECUTOR SCORING HARDING CABINET IN LEASE

(Continued from Page 1.)

On the face of the Doheny statement. The statement, if true, involves every member of the cabinet in some measure of responsibility for the odious transaction.

Mr. Doheny asserts that when the plan was under consideration—the Pearl Harbor tanks and paying for them in full—that "Fall said that if my company or any other company would undertake the work completed (the construction of the tanks), leases would be made for drilling of such additional wells as would be required to supply the wells with which the navy would pay for the fuel oil in storage.

"This effectively disposes of the

Sanford People Hurt In Automobile Wreck

Two members of the family of G. B. Elliott, of 1007 West Fourth Street, sustained severe injuries last Wednesday when the car in which they were riding, about two miles this side of Daytona, skidded upon rounding a curve and crashed into a telephone pole.

Edward Elliott suffered several bad cuts about the face while Mrs. Elliott received several bruises and a badly sprained wrist, said Mr. Elliott this morning.

Hot Weather Makes Debut In Middle West

CHICAGO, July 2.—Hesitant summer overcame stage fright long enough yesterday to make its bow to the Midwest and then decided to stay awhile. Hot dry winds from the southwest sent the mercury skimming up above the century mark at numerous points. It was 107 degrees at Parsons, Kansas, 106 at Hutchinson, Kansas, while 104's were noted at Salina, Joplin, Des Moines, and Omaha.

The east in contrast to the middle west is fanned by cooling breezes. No fatalities are reported in the western heat wave although 11 prostrations occurred at Kansas City.

Prickly Heat

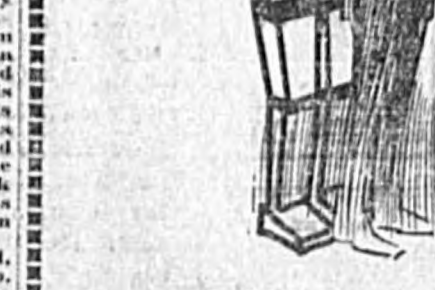

LICARBO DUSTING POWDER soothes and heals chafing. Just sprinkle this powder freely on the parts and the soreness and irritation is gone.

Every mother should keep LICARBO DUSTING POWDER in the home. It stops prickly heat itching at once and causes the rash to disappear. It protects the children against chafing, rashes and skin irritations. It keeps babies happy and contented. USE LICARBO DUSTING POWDER freely. Always keep it in the nursery. It is sold by all druggists. Free sample sent on request by S. B. Leonard & Co., Inc., New Rochelle, N. Y.

ROTOR YACHT TRIED

POTSDAM, July 3.—The world's first rotor yacht was a feature of the exhibition for aquatic sports held recently. It made a trial trip each day of the exhibition on Templin Lake and performed satisfactorily.

STATE ROAD CONDITIONS

ROAD NO. 1. Nunez Ferry to Jacksonville. Nunez Ferry to Pensacola, 9 miles concrete, excellent. Approx. 10 miles under construction. Detours in fair conditions and plainly marked. Pensacola to Milligan, good sand clay, and brick. Milligan to Mossy Head, sand clay, fair. Mossy Head to DeFuniak, under construction. DeFuniak to Caryville, sand clay, excellent. Caryville to Cottondale, unimproved but in fair shape. Cottondale to Marianna, sand clay good. Marianna to Quincy unimproved but in fair shape. Quincy to Littmans, good sand only. Littmans to Conticello, unimproved but fair. Monticello to Aucilla River, good sand clay. Aucilla River to Greenville, sand clay road in good condition. On leaving Greenville take old county road to within six miles of Madison where you will come on an excellent sand clay road to Madison, Live Oak, Lake City and East. There is a short detour in the city limits of the town of Live Oak, Lake City to Jacksonville, excellent.

ROAD NO. 2. Georgia Line to Fort Myers. Georgia Line to Jasper, sand clay road in excellent condition. Jasper to White Springs, sand clay road in fair conditions, rough in places. In leaving White Springs, cross Suwanee River over old bridge in the town of White Springs and take old county road to Lake City. This is the official detour while the highway between White Springs and Lake City is being hard surfaced, and is in very good condition. High Springs to Gainesville 25 miles of asphalt, excellent. First 10 miles south of Gainesville asphalt surface very good. Last 15 miles to Micanopy 5 miles rough. Micanopy to Lowell asphalt surface, excellent. Lowell to Ocala under construction, short detours. Ocala to Belleview and Leesburg excellent asphalt surface. Leesburg to Eastis and Mount Dora, good. Mount Dora to Ft. Myers generally in good condition, except detour between Ocala and Ft. Myers.

ROAD NO. 3. Georgia Line to Orlando. Wilds Landing to Yulee, sand clay road in fair condition. Yulee to Six miles south, shell road in fair condition. From this point on into Jacksonville, to Green Cove Springs paved road, brick and treated rock base. All in good condition. Green Cove Springs to Palatka rough to end of brick at Rice's Creek, brick road from Rice's Creek through Palatka to San Mateo good. San Mateo to Dunn's Creek, fair. Asphalt surface from Dunn's Creek to Sisco, Crescent City, Pierson and DeLeon

Spring, excellent. Streets through Crescent City under construction, DeLeon Springs through DeLeon to Sanford and Orlando, fair.

ROAD NO. 4. Georgia Line to Miami

The Waycross road from the St. Marys River to Jacksonville is open for traffic and newly paved. Surface complete, excellent condition. Road under construction by Duval county from Bayard to St. John county line. Duval county line to Bunnell 62 miles, 9 foot brick road with rock shoulders, fair. Bunnell to end of Reilly's Asphalt road 9 miles asphalt surface, excellent. Volusia county line to Daytona 8 miles, one mile detour, remainder paved. New Smyrna to Brevard county line 16 miles, 4 miles detour, 4 miles shell road, remainder paved. Brevard county line to Titusville 12 miles, 9 miles paved, remainder shell road. Titusville to Cocoa 18 miles, all paved. Cocoa to Melbourne 21 miles, 19 miles paved, remainder shell road. Melbourne to Sebastian River, 16 miles, 5 miles shelled road, remainder paved. Sebastian to Miami 160 miles all paved.

ROAD NO. 5. High Springs to Ft. Myers. High Springs through Archer and Williston to Romeo, fair. Romeo to Dunnellon asphalt surface, excellent. Dunnellon to Inverness and Brooksville, rough, with exception of 8 miles now base just completed near Inverness. Road under construction through Citrus county from Holder to Floral City. Brooksville through Tarpa Branendon and Sarasota to Myakka River, good except for 12 miles of road south from Six Mile Creek under construction. Traffic should take Bayshore Road, Tampa to Bradenton. From the Myakka River to Punta Gorda very rough except six miles. Punta Gorda to

ROAD NO. 8. Haines City to Fort Pierce. Haines City through Frostproof, Subling, Avon Park etc., to Lake Annie, good. Lake Annie to Palm Circle, road is open to traffic, but rough and somewhat dangerous especially in rainy weather.

ROAD NO. 23. Belleview to Plant City. This road is excellent in Marion, Sumter, Hernando and Pasco counties, hard surfaced all the way. This is the best road for travel to Tampa from Ocala. North line Hernando county through Dade City to Plant City, excellent road.

Use of Hands and Feet Figure In Screen Jobs

HOLLYWOOD, July 3.—Hands and feet, how and when they move, are attracting the casting directors of one film studio here, rather than faces and their expressions.

Almost any person can be taught to register certain standard emotions, such as grief, joy, and fear, according to Director Robert C. Vignola, but only a real actor knows what to do with his hands and feet and how to do it naturally.

The result has been that Vignola and his staff, now are directing their first inquiring glances no higher than the waist lines of film applicants. If the hands and pedal extremities make good, then the faces are considered.

Sanford Chero-Cola Co., under present management will not be responsible for debts that have been against Chero-Cola Company.

The Four Major Reasons

To those familiar with the chief reasons for Graham Brothers remarkable growth, these four points loom most conspicuously in explanation of their leadership and lower prices:

1. Price advantage.
2. Exceptional quality.
3. Power and dependability of Dodge Brothers Engine.
4. Character of Dodge Brothers Dealer organization.

Better than a written guarantee of continuous satisfaction, these reasons are too fundamentally important to escape the attention of judicious truck buyers.
