Fed Association Announces Names Of Players Signed

Uniforms To Be Delivered By April 1; Bus Also Purchased

By ARTHUR BECKWITH, JR., Herald Sports Editor

The Sanford Baseball Association announced at a meeting last night that signatures of four players have been received according to George Stine, president.

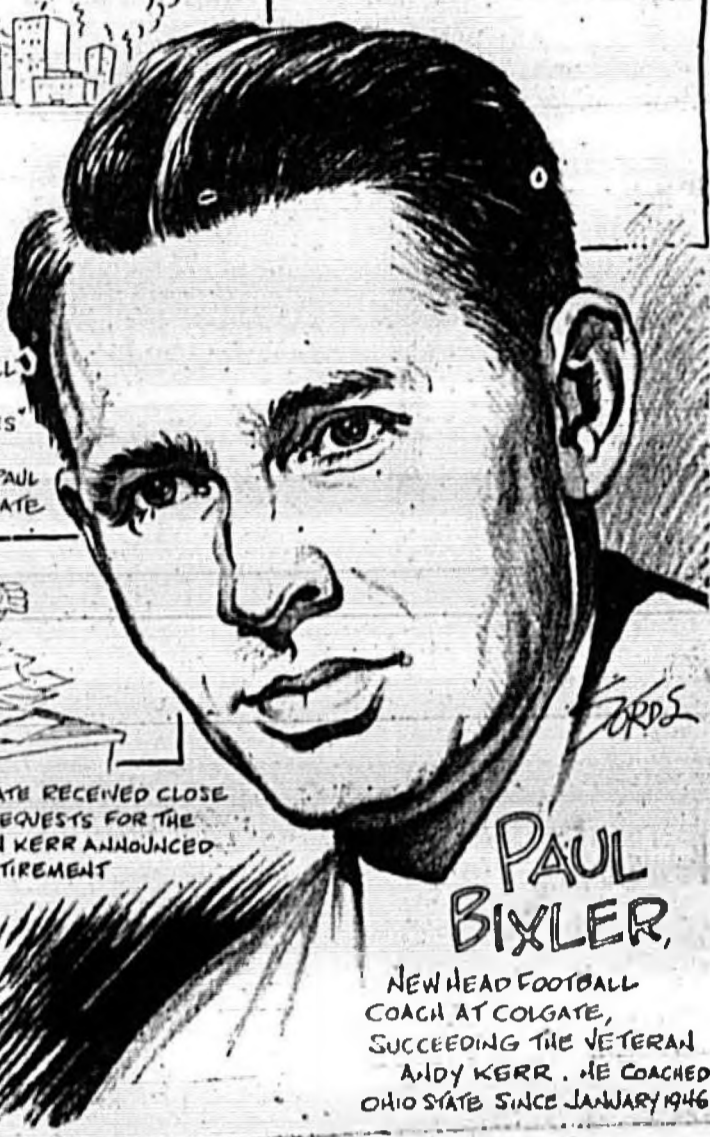

Jerry Silverman, Bob Tuttle, Jim Payne and Ernie Mottler have returned their contracts. Al Bryant, Byron Sharpe, Carl Kettles and Rudy Sloan have yet to return their contracts. It was announced that Ogie Gloriz and Don Zappel have been released.

The Rawlins Company has promised delivery by April 1 of two sets of uniforms. The road uniform will be grey with red letters and numbers while the home outfit will be white with a dark blue "S" and numbers. These uniforms are of highest quality and similar ones will be used by teams in the Major Leagues this year.

The association has been promised the delivery of a new bus by April 1. The bus will be a 25 passenger Wayne deluxe city service type with leather seats. The bus will have a 100 horsepower Ford engine and chassis.

1946 Spells End To Impregnable Army Machine

By FRANK ECK

AP Newsfeatures Sports Editor

NEW YORK—Football during 1946 will be remembered for many years to come. It not only marked the beginning of what promises to be an interesting postwar period on the gridiron but also spelled the end of an impregnable Army team and its two All-America backs, Glenn Davis and Felix (Doc) Blanchard.

Army, undefeated since that rainy afternoon at West Point in 1943 when Navy scored a 13-0 win in the season's finale, finished the 1946 campaign unbeaten, only a scoreless tie with Notre Dame marred an otherwise perfect three-year record. The Cadets won their 27th game without defeat when they beat Navy, 21-18, recently.

Notre Dame, Georgia and UCLA, the host team against Illinois in the Rose Bowl, were the only other unbeaten major elevens.

True to predictions, interest broke all records at the box office. Several major college teams played before 500,000 fans during the season. Typical of the football mania was the largest crowd ever to turn out in the south during the regular season when 70,000 jammed the stadium at New Orleans to see Notre Dame maul Tulane in a game that figured to be one-sided.

Possibly the biggest blunder of the season—or any other for that matter—was committed when Army was voted out of the Rose Bowl as a result of a five-year pact between the Pacific Coast Conference and the Big Nine.

Ironically, Illinois voted against Rose Bowl participation but there weren't enough dissenters in the Western Conference so the Illini, after capturing the Big Nine crown a few days later, accepted the Tournament of Roses bid.

Since the first football Saturday in September when Little Cincinnati beat Indiana, 1945 Western Conference titlist, the season abounded with upsets. The surprise of surprises, though, occurred when Princeton halted Pennsylvania. Princeton wound up with five setbacks. And Texas, with 172 points in its first three games, thought it should be rated on top of the list. The Longhorns soon quieted down, losing to Rice and TCU, a team that had sustained

SURE SHOT

By Jack Sords

SPORTS ODDITY

By Associated Press

San Francisco State College used to call Hunar Stone its one-man track team. In 1936 Stone entered seven events against Chico State College. He won first in the javelin, high jump, pole vault, high hurdles and broad jump. By placing second in one other event, Stone captured 28 points out of the total of 38 marked up by San Francisco State. The youth discovered, however, that he weighed nine pounds less when the meet was over.

SPORTS LAUGH

By Associated Press

The jurist who decided the portal-to-portal pay case, Federal Judge Frank Picard, doesn't mind criticism of his judicial ability. He insists that no disparaging remarks be made about his athletic ability.

In a letter to the New York Daily News, Picard said he noted several misstatements in an article published in that newspaper. He said only one of those worried him, that was the statement that he lost the football game between Cornell and Michigan in 1911 when he fumbled. Recalling that Michigan lost the game when a kick by Brattle was blocked, Picard went on to say: "I didn't fumble once in the entire game, as I remember. I can't remember that I ever fumbled in a Michigan game. Coach Yost never left me in there long enough.

INSIDE SPORTS REPORT

By ARTHUR BECKWITH, JR.

Anderson and Auburn
Willis Anderson has announced that he intends to enroll at Auburn.

According to Coach Carl Voyles of Auburn, he intends to use Andy in the fullback position as a spinger back.

The Auburn system is a modified "A" formation in which the year's most outstanding back, Travis Tidwell, plays the tailback slot. It is proposed that Andy will be working with Tidwell in the set up.

Voyles stated that he needed a line plunging fullback since Travis was available for end-skills and off-tackle slants. In his estimation Andy is the answer. We hope it is.

Willis is a 205-pound well built prospect. He has tallied 24 points for the 1946 edition of the Seminole Celery Feds and it is believed that this is a national prep record.

Auburn has done well in securing the services of this line crushing fullback. Auburn has also "hoken" some of the other better players from right under the noses of the University of Florida and other southern schools.

Clarence Sellers, the outstanding back from St. Augustine, has announced that he is going to be in the Orange and Blue of Auburn next fall.

The Plainmen have also taken two other All-Southern members, John Grannaghan of Lee in Jacksonville and Bill Hogarth of Miami Senior High, have announced their intentions of entering the Alabama school.

The big problem is how did they do it? The decision of three of the state's best prep

Speed Doesn't Count In This Horse Race!

CAMPANA, Argentina—What do you think of a horse race which lasts four days, where speed doesn't count, and where the idea is to keep your horse from getting excited?

Whatever you may think of it, more than 60 people were interested enough to try to ride 235 miles in four days.

The winner, Pedro O. Pastorino, won a cup almost big enough to bathe a baby in and took the title of Argentine Riding Champion. Half a dozen North Americans, residents here who are interested in these regularly races, didn't place. A Uruguayan army officer, from the other foreign country represented, finished sixth.

Scoring Is Complicated

The method of scoring is complicated and the winner is the horse with the fewest points against him. Riders, who have to carry enough lead to bring their total weight up to 1008 pounds, start out over a fixed course along country roads.

The second day was typical. The course was 70 miles of dirt road. A rest of 30 minutes was given at the halfway point. Riders were supposed to cover the course in nine hours and 24 minutes, at a steady rate of nearly eight miles an hour.

Getting back in less than the nine hours and 24 minutes over the limit the horse was assessed three points against his record. At the end of an hour after the return, relays of veterinarians went over the horses. Their pulse was taken (back of the left foreleg if you are curious) and one point was charged against the horse for every heart beat per minute over normal. Normal for horses is taken as 38.

The veterinarian could rule out any horse for exhaustion, lameness or injury. Nobody examines the riders, although most of them came in looking more whipped down than the horse. But the theory is that a human knows when to quit—at least

Molter And Hirsch For Horses, Nimitz For War—Is Texas Motto

By RUSS NEWLAND

SAN MATEO, Calif.—Texas-born Willie Molter saddled more thoroughbred winners in 1946 than any other trainer in the United States.

Does Molter have a "system" that brings the gallopers with their noses to the wire first? Sure "nuff he does. But don't get excited. It is ages old, in use long before horse racing became big business.

Molter describes his formula for producing horses into winning condition as merely the application of "common horse sense." He puts it this way: "Every horse has to be trained differently. No two thoroughbreds are alike. Some are better feeders and can be bought to peak racing form through rugged training. Delicate horses require lighter or specialized conditioning."

Whatever the method, Molter added more than 120 winners on California tracks throughout the year.

Molter trains a public stable, representing the small owners and the thoroughbreds range from selling platers to handicap stars.

Like most of the top trainers, Molter has grown up in racing. At 35, he is one of the youngest in his vocation. He was a locker from 1926-30 and has been in the conditioning end for the last ten years. As a rider, he won three important Canadian stakes in five setbacks.

The results of a better-sketched football season are best reflected in The Associated Press All-America team in that only Davis and Blanchard repeated and eight former All-America players failed to make the first team. Davis scored 354 points on 59 touchdowns in four seasons while Blanchard made 231 points in three campaigns.

Professional football enjoyed its best year both at the gate and in playing personnel with the All-America Conference finally getting started in competition with the National Football League.

Fourteen cities say the play-for-pay pigskinners and only Miami and Buffalo failed to support teams in the new conference. The Cleveland Browns won the western division while the New York Yankees scored in the east.

In the National League, the Chicago Bears were winners in the west with the New York Giants copping the eastern honors. In the playoff the Bears triumphed by 24-14.

Youngest regular in the Basketball Association of America is Max Zaslofsky, 20, of the Chicago Stags.

Celery Feds Drop Hard Fought Game To Seabreeze High

The Seminole High School basketball team were bumped, battered and beaten by a hard playing Seabreeze High five from Daytona Beach in a 1 to 23 contest on the local court last night.

The contest, one of the toughest and hardest played here this year, produced many thrills from beginning to end.

Dawson Ziegler, rangy Sand Crab forward, spearheaded the visitors to victory by making seven field goals and two free throws to tally 18 points.

Harold Kastner paced the Fed attack by scoring nine points with four goals and a free throw.

The Daytona team stamped itself as a definite threat for conference championship honors by turning back the Feds in their eleventh consecutive victory. The Sand Crabs have been defeated only one time this year. Lake City High invaded the resort city to defeat both Daytona Beach high schools.

The next Sanford contest will be Thursday night in Daytona at the Seabreeze gymnasium when they meet the Leeburg Yellow Jackets in the opening contest of the East Central Florida Conference championship matches.

Among those participating in the contest for Sanford were Buck Gammon, Jan Johnson, Willie Anderson, Lloyd Brain, "Squirrel" Brown, Clarence Grantham Carl Kastner.

CIO President Warns Congress Against Punitive Measures

(Continued from Page One) gives now promise of developing maturity for the first time. Murray concluded his statement with the assertion that the proposed anti-closed shop bill scarcely affects those areas in which its abuse most frequently has been cited. The leaders of America's two big labor organizations are presenting a united front against attempts in Congress to hobble the unions. Yesterday, William Green, the president of the A. F. of L., warned the Senate Labor Committee that passage of restrictive legislation might wreck America's world position. Today, Philip Murray, the president of the CIO, told the same group of senators that curbs on unions would cripple the country's domestic economy. Like Green, Murray opposed all pending bills to outlaw the closed shop and industry-wide bargaining and change the Wagner Labor Law. The CIO president called the bills punitive measures against the unions. He said they were inspired by what he called "business monopolies. And, added Murray, "if they are made into law, they would encourage the monopolies and become the forerunners of a serious depression involving all Americans. He also saw another promise—if Congress laid off a prohibition against industry-wide bargaining. That, said Murray, is the prospect that collective bargaining will come of age in the steel, automobile, electrical appliances, and farm equipment industries. The CIO president detailed his position after inviting all organized labor to join in a concerted fight against the anti-

L. C. Bender Speaks At Kiwanis Club Luncheon Meeting

(Continued from Page One) clared, 57 serious accidents were investigated in which 34 people were injured, seven were killed and first aid was given to 18. Two people have been killed this year so far in motor accidents in the county, he revealed. Umpire George Bari reported that he will leave tomorrow evening for New York where he will appear on a radio program with Walter "Red" Barber, sports announcer and former Sanford resident. He expressed thanks to Kiwanians and others who have made his stay here pleasant, and said he is looking forward to returning here next year with both a baseball and umpire school with 300 attending.

Oil Workers Strike Delayed For 24 Hours

SAN FRANCISCO, Feb. 19.—(AP)—A United States Conciliation Service commissioner announced today that a strike by oil workers in five western states had been postponed another 24 hours. Commissioner Frank Wenig said the decision to delay the strike had been reached in a telephone conference with the President of the CIO Oil Workers' International Union, O. A. Knight. Knight said in a statement that a final effort to settle the dispute will be made at a conference today. The strike had been scheduled to start today and would have involved approximately 20,000 oil workers. union measures now before Congress. That was his intention to merge their huge membership into one organization. In contrast to what Murray said was the trouble with the industrial situation was the testimony of Frederick C. Smith, of Ohio, before the House Labor Committee. Smith asserted that the difficulties are due to what he called the authoritarian regime directly controlling the government. The way to remedy that, he said, is to change the Wagner Act.

LOVELY STAR of the stage and screen, attractive Diana Lynn is shown dining at a popular New York night club with Robert Neal of Houston, Texas. According to current Broadway rumors, the two, who have been seen together frequently, are headed for the altar. (International)

Company Estimates 50 Per Cent Loss In Citrus Fruit

(Continued from Page One) tangerines remain to be shipped. Growers predict that the present warm weather will result in quite a bit of droppage of fruit. Damage is reported as spotty with fruit from some groves ruined while other groves show relatively little damage. All fruit will be rigidly inspected by U. S. inspectors before being shipped. Inspector Bulford reported this morning that he had cut into quite a bit of fruit at Patrick's and found very little damage. Some of the droppage of oranges were reported to have been due to the cold, but not to the fact that they were frozen. Early estimates of heavy loss of cabbage up to 50 percent have been confirmed during the warmer weather, but enough remains to create good business at the State Market where cabbage is today quoted at \$1.00 to \$1.25 per 50 pound sack, depending on quality. Celery quality has also suffered but prices in New York while showing some decrease from yesterday, remain good. Yesterday Semulco County shipped 44 of the 99 cars from Florida, with Sanford sending 32 and Ovid, 12. In New York, fairs were quoted at \$3.75 to \$7.00 this morning as compared to \$6.50 to \$7.50 yesterday. Even 10 dozen to the box were quoted at \$3.50 to \$4.00. Celery haulings are reported as heavy and demand fair, mostly for the larger sizes.

Nancy was scheduled to be born in Asmara, Africa, but thanks to the Air Transport Command, which flew Mrs. Sharp to the hospital, she came into the world in the U. S. Nancy's pop is an army lieutenant. (International Soundphoto)

British Facing New Cold Wave, Less Fuel

Prime Minister Attlee said today that factory production in the heavily industrial Midlands probably can be resumed on Monday. It was two weeks ago that many British factories closed their doors because of the coal shortage. On the other hand, British domestic consumers face continuation of the emergency restrictions on the use of electricity. LONDON, Feb. 19.—(AP)—More weather and less fuel was the story in homes throughout England today. In some parts of Britain, elderly persons are burning bannisters and picture frames to keep warm. Sifted coal dust has become a prized fuel and in crowded East London, old age pensioners are searching through streets and bomb ruins for scraps of fuel. The cold wave that has gripped Britain for one month shows no sign of relaxing its grip. The temperature fell to 19 degrees above zero in some districts last night. British householders are limited to 14 pounds of coal a week if they can get it. But thousands have had none at all since before Christmas and most English homes depend for heat on coal burned in fireplaces. To make the situation even more desolate in London, that city's proverbially gloomy weather has broken all records for gloom. For the 18th successive day, the sun has failed to penetrate thick gray clouds. The previous record was 17 days in 1890. But there's one bright prospect for the British. There appears to be more likelihood that thousands of factories closed for lack of fuel will reopen. The town of Luton opened an emergency warming center for old persons, thereby following the example of Berlin which had a temperature of 12 and snow flurries. It lists at least five more deaths from freezing. The cold spell also has crippled Paris and other parts of Europe. Ice floes have interrupted navigation on the River Maas in South Belgium. **Farmers Offered \$1.00 Per Bushel In Wheat Agreement** WASHINGTON, Feb. 19 (AP)—American wheat farmers are being offered an export price of at least \$1.00 a bushel for the next five years in a proposed international wheat agreement. It was decided today. The dollar minimum proposed in the international agreement draft is almost half what was paid for wheat during January when growers received an average price of \$1.91 a bushel. The proposed export market price is considerably higher than the \$0.75 that prevailed during the 1937-38 year when surplus wheat helped pull prices as low as 31 cents a bushel. The agreement also would fix a ceiling or top price averaging about \$1.30 at farm level. Major wheat exporting and importing countries will be asked to ratify the agreement by August 1. The draft of the agreement will be submitted to an international wheat conference which opens on March 1 in London. The agreement would divide the world market among wheat exporting countries. The United States would get 10 per cent of the first 500,000,000 bushel annual world export demand. Other countries would be allocated the following quotas: Canada, 200,000,000 bushels; Argentina, 125,000,000 bushels; and Australia, 90,000,000 bushels. Another formula would be worked out for sharing export demands in excess of 500,000,000 bushels. With current prices far above the top level proposed by the agreement there is a question whether American farmers are interested in having this country ratify the agreement at this time. Congressional approval would be required. Agriculture Department officials said that world production of wheat

DESPITE THE FUEL and power crisis in England, which necessitated drastic rationing of electricity, a London barber manages to give a customer's hair a tight going-over with the aid of a hurricane lantern. With the worst cold wave in 50 years hanging on, it appeared that the power shut-down would not build up Britain's coal stockpiles. (International)

Hole 'Talks Back' At Phoenix Open

PHOENIX, Ariz.—(AP)—Contentants in the recent \$10,000 Phoenix Open golf tournament, won for the second year in succession by Ben Hogan of Hershey, Pa., found one hole that really talked back at them. It was the 18th. As each player retrieved his ball hugging comments came clearly from the cup. It was an innovation in tournament golf, and both players and spectators thoroughly enjoyed it. A small loudspeaker had been carefully placed in the cup prior to the opening of the tournament. Handling the mike connected with this loudspeaker were Barry Goldwater and Vic Armstrong of Phoenix. Another innovation was the use of "walkie-talkies" by means of which hole-by-hole scores of the leading players were relayed from the course to the clubhouse outside the clubhouse. Fans kept abreast of the hottest players without following them physically about the course.

BUDGET INCREASED JACKSONVILLE

JACKSONVILLE, Feb. 19.—(AP)—The Cabinet Commission today increased budget requests of the State Agricultural Experiment Stations and the State Plant Board. The commission raised the experiment stations' request for the next two years to \$3,200,000. The Plant Board budget was increased to \$725,000.

CONSTELLATION PLANE DOWN

NEW YORK, Feb. 19.—(AP)—Coast Guard Headquarters in New York received word today that an Air France Constellation Plane had been forced down in the ocean about 340 miles southwest of Lisbon, Portugal. The plane landed near a merchant vessel. The Coast Guard received a message from the Army Air Forces in the Azores saying it had received an SOS from the

Auto Liability Insurance To Mount

NEW YORK, Feb. 16.—The National Bureau of Casualty and Surety Underwriters announced today revised increases in automobile liability insurance rates in 27 states, the District of Columbia and the Territory of Alaska. The new rates show a 80 per cent rise for private passenger cars and 40 per cent for commercial vehicles insured for property damage. The bodily injury rate changes produce a rate level 10 per cent above pre-war level, with minor variations by state in the case of private passenger cars, the bureau said. William Leslie, general manager of the bureau, said the principal reasons for the rate adjustments were a heavy increase in the relative number of automobile liability claims received, and the greater cost of settling these claims. He declared that since the end of claims has increased in keeping with the mounting number of traffic of gasoline rationing the frequency, accidents. Leslie cited four factors as being primarily responsible for the rise in frequency of claims: New high record of automobile mileage in 1946; many cars are over-age and unsafe; average speeds have been increased; lack of road construction and repair during the war. Insure now—Phone 104 C. M. Bord & Co.

New Draft Act Is Advocated By Truman

President Predicts Confirmation Of David Lilienthal By U. S. Senate

WASHINGTON, Feb. 20. (AP)—President Truman announced today his intention of sending a message to Congress which will advocate universal military training as soon as a special presidential committee completes a study of the subject. The President also stated that he still is considering the question of a message on the extension of the draft law. The present law will expire Mar. 31 unless there is a request for an extension and Congress takes action.

Mr. Truman also told his news conference today that the Administration is doing everything in its power to ease the shortage of railroad box cars. He said the problem is a vital one and that he is doing everything to alleviate it. Various business men have testified at Senate hearings that unless the supply of box cars is increased industry faces what amounts to collapse. Demands for relief have come particularly from Midwest grain operators.

The President also predicted that his nominee for Chairman of the Atomic Energy Commission, David Lilienthal, will be confirmed. He said he is still behind Lilienthal 100 percent.

Furthermore, Mr. Truman said he is going to put up a fight for his \$37,500,000,000 budget, which he considers rock bottom. The President had no comment on a suggestion that he call coal mine operators and union leaders together to avoid a possible strike on Apr. 1.

Mr. Truman also said he has not yet chosen a new United States ambassador to Great Britain to succeed the late O. Max Gardner.

Whitten Appointed Acting Sheriff By Judge R. W. Ware

R. C. Whitten, a deputy under the late Sheriff Charles Hand, has been appointed acting sheriff of Seminole County by County Judge R. W. Ware to serve until the end of the present term of court or until his successor is duly appointed, qualified and commissioned by Governor Milburn Caldwell.

The Court House will be closed between the hours of 3:00 and 4:00 o'clock Friday afternoon during which time the funeral of Sheriff Hand will be held.

Aviation Conference To Be Mar. 12-13

TALLAHASSEE, Feb. 20. (AP)—A statewide aviation legislative conference will be held in Tallahassee Mar. 12 and 13. Aviation Supervisor William C. Lazarus of the Florida Improvement Commission announced the conference and invited representatives of pilots' and airport owners' groups to attend the meeting.

The group will formulate the aviation legislative program for presentation to the legislature in April.

At the same time Lazarus announced that the Civil Aeronautics Authority soon will provide 500 gallons of paint for use in restoring Florida air markers.

TYPEWRITERS FOR SALE JACKSONVILLE, Feb. 20. (AP)—The War Assets Administration announced today that more typewriters and business machines will be sold exclusively to veterans at the Jacksonville Naval Air Station beginning next Tuesday. For the first two days of the three day sale, veterans will be limited to one machine each, but on the final day they may purchase machines in any quantity.

The potato crops of the four-year period from 1943 to 1946 include the largest, the second largest, and the fourth largest crops in the industry's history.

VIRGINIA BENNIS, holder of the women's distance record for gliders, smiles happily as she lands her Kirby Kite after soaring to 4600 feet at Sanford, where she will compete in the First Southeastern States Glider Contest, Mar. 1 and 2.

Union Chief Urges Congress Not To Ban Big Scale Bargaining

Telephone Workers' Head Opposed To Drastic Measures

WASHINGTON, Feb. 20. (AP)—The President of the National Federation of Telephone Workers appeared before the Senate Labor Committee today to voice opposition to a bill which would forbid industry-wide bargaining in labor contracts. The federation is preparing for a nation-wide strike in April unless its wage demands are met.

The union chief, Joseph Beine, told the committee that the only way his independent union can deal satisfactorily with what he called the monopolistic American Telephone and Telegraph Company is on an industry-wide scale.

Beine had earlier appealed to the CIO and the AFL to join with his independent group and fight valiantly against restrictive laws which a coast-to-coast telephone strike might precipitate. The federation announced that its 25,000 members in every state will walk out on or about Apr. 7 unless they get an increase of \$12 a week.

Another independent Labor group voiced opposition to pending Labor bills. Chairman Edward Wilms of the Independent Unions of New Jersey told the Senators that the majority of the measures under consideration would "ignite a campaign to spread the flames of Communism among legitimate and responsible Labor unions."

Radar To Be Used In Forecasting Storms

WASHINGTON, Feb. 20. (AP)—Rep. Karl Stefan of Nebraska announced today that within a month, a powerful radar storm-detection station will be established in Norfolk, Neb. Stefan said he has been informed the Norfolk station will be one of three to be placed at intervals of about 250 miles on a north-south line in the Midwest.

The stations will warn of severe local storms, Stefan said. It may even be possible to forecast the paths of tornadoes through use of the radar stations.

ONCE IN ENOUGH COLLEGE PARK, Md. (AP)—Armed (One Fish) Gibb, of the U. S. of Maryland, made his unique punning career a short—and winning—one. Gibb moved a 44-pound muck out in the heavyweight class against Army to his first fight, but then ran into difficulty with his uncle, his guardian, who forbid him to fight again.

The area of the continental United States is 3,025,750 square miles, of which 52,018 square miles are water.

India To Gain Freedom In June, 1948

British To Withdraw After 200 Years; Mountbatten Is Named Viceroy

LONDON, Feb. 20. (AP)—Great Britain set the date for India's independence today as Prime Minister Attlee announced that by June, 1948, the British government definitely intends to turn India over to responsible Indian rule.

That was the statement of crucial importance which the Labor government has been piecing for the past two days. It means that the British are pulling out of India after more than 200 years.

Attlee also officially announced that Field Marshal Lord Wavell is being recalled as Viceroy of India. Succeeding him will be admiral Lord Louis Mountbatten. An authoritative source in London said that Mountbatten is expected to leave for India sometime in March.

Committee Approves Law Banning Portal To Portal Claims

WASHINGTON, Feb. 20. (AP)—A Senate subcommittee today approved legislation outlawing portal-to-portal lock-out practices. The proposed legislation excepts any agreements negotiated between employers and management on back-pedal pay. Senator Alexander Wiley of Wisconsin predicted that the bill would be given the approval of the full Judiciary Committee on Wednesday.

John Pope Elected Officer In Legion

John Pope, son of H. R. Pope who attained rank of Army captain during his 42 months of World War II service, was elected Monday evening as third vice commander of Campbell Post 53 of the American Legion. He is now associated with his father in business.

Three new members were welcomed to the post, according to Adjutant Joel Field. They are George Stone, brother of Mrs. A. Reid Mann; Eunice B. Williams, Army nurse; and W. J. Rose. Mr. Stone retired after Army service of 15 years.

Among the guests was Leo Donahue, retired Chicago fireman, who has purchased a home in Enterprise. Empire George Barr was present and thanked the Legion members for entertaining his umpire students.

Few Russians Listen To U. S. Broadcasts

MOSCOW, Feb. 20. (AP)—An informal survey of Moscow's "man on the street" today seemed to indicate that the new "Voice of America" broadcasts beamed to Russia are not going over too well. After three days, the broadcasts appear to be getting few Moscow listeners.

Those who have heard them complained that the static was terrible, and they said that if the broadcasts didn't improve no one will listen.

The broadcast is sponsored by the State Department, sent out from New York with a relay from Munich. The Russians said this is a mistake because the American station in Frankfurt gives much better reception. The Russians complained that the programs are too highbrow. They liked the British program better because it has more human interest stories and more fashion notes.

Thirty Persons Killed And 300 Injured By Explosion

Where The "Red Arrow" Jumped Tracks

MEN OF A RESCUE squad are shown struggling on the steep embankment to get the overturned passenger car of the Pennsylvania Railroad back on its feet. The explosion occurred near Altoona, Pa. At least ten persons were killed and 300 injured in the crash. Rescue workers are still recovering bodies from the wreckage. The explosion occurred at the junction of the main line and the branch line at Altoona, Pa.

F. L. Miller Tells History Of Local Masonic Lodge

The history of Sanford Lodge No. 671 and A. M. of the Mixons was told to members Tuesday evening by Frank L. Miller, past master, who revealed that the first lodge known as Mellonsville Lodge No. 671 and A. M. was located over a store owned by M. J. Doyle on a street of the City of Mellonsville, Pa. D. C. Brooks was the first W. M. of the lodge.

Lester V. Fletcher Of Paola Road Dies

Lester Valentine Fletcher, 62, resident here for the past year and prior to that in Orlando for 22 years, died Wednesday morning at a local hospital following a short illness. He lived on the Paola Road. He was born Feb. 11, 1884 in Boston, Mass.

January Bond Sales \$92,551 In Seminole

Sales of U. S. Savings Bonds in Florida reached a post-war peak of \$10,900,734 in January according to a report just received by Vivian A. Sperr, chairman of Savings Bonds Activities for Seminole County from Ralph F. Bagwell, State Director of the Savings Bonds Division of the Treasury Department for Florida.

Strict Inspection Is Ordered On Citrus

JACKSONVILLE, Feb. 20. (AP)—Citrus inspectors have been ordered to get tough in their search for frost damaged fruit as the citrus belt swings back into full gear today.

Both George Conland, chief of the State Inspection Service and H. M. Riley, head of the federal inspectors, said their forces would have great difficulty in finding fruit damaged by the cold. They said it will take some time to find fruit which had been affected by the freeze Feb. 8.

Funeral Services To Be Held Friday For Sheriff C. M. Hand

Funeral services for Sheriff Charles Hand will be held Friday afternoon at 2:00 o'clock at the Methodist Church in Sanford. The Rev. Mark Carpenter will officiate at the funeral. The burial will be in the cemetery at Sanford.
