Ignored In Meet To Candidate For Speakership

Group Fight Back

Reply to Made By City's Leader

Jan. 30.—The meeting went on as planned and the committee members of the group were present. The group members were present and the meeting was held in the city hall. The group members were present and the meeting was held in the city hall.

Building Permits Showing Steady Progress In City In Work of Construction

Issue of Week Permits Work to Begin on Three Homes and Many Alterations to Start in Immediate Future

Fair Weather Aids Buildings Under Way

Contractors Expect to Have Masonic Temple Ready For Occupancy March 24

Permits for three new residences and a number of permits for alterations and additions were issued in Sanford during the week ending Friday, a report compiled in the office of the city clerk shows. Fair weather and other favorable conditions speeded the progress during the week on buildings under construction in the city.

Permission to erect a one-story frame stucco residence at 8 E. lot Street has been granted to P. A. Mero. The cost of construction is given at \$5,700. The other residence to be built is that of Mrs. E. N. Scott and is situated on Third Street near Pine Avenue. The first coat of stucco has been applied and the red tile roof of the new Episcopal Church is finished. Interior wood work in the chapel is finished and plasterers are busy in other parts of the building. The foreman of construction, W. N. Reece, declares that all factors entering into the construction of the building are highly satisfactory and the structure will be completed by Mar. 1.

Application of the outer coat of stucco, which is to be stone gray and of the "spatterdash" finish, will begin immediately. The remaining small amount of work to be done about the steep of the building before the final coat of stucco is applied. A large crew of workmen is being employed in an effort to speed up the work in every way possible.

Masonic Temple Work Rushed

Plasterers will begin work next week on the interior finish of the Masonic Temple as the roof has been erected providing a safeguard against the weather. Masonry work is virtually completed and S. T. Hunt, foreman, plans to have virtually all of the finishing work completed within the next three weeks. Every effort is being made to have the building ready for occupancy by Mar. 24, when the first of the new year is being planned as a "house warming."

City Hall Work Progresses

Construction on the New City Hall is being devoted to the roof at the present. The steel beams have been in place for several days and the boarding over which the roof will be laid is now being put in place. The roof is already on all parts of the building save the auditorium. Patches of the first coat of stucco have been applied.

Two new plate glass fronts on First Street between Sanford and Palmtoe Avenues are now completed and three others are under construction. The fronts provide two large windows in which the plate glass is bound in copper lined metal. The Leffer buildings that blocked the continuation of First Street have been torn down and workmen are excavating approximately a foot and a half of earth to bring the site down to the level of the street.

Many Permits Issued

Permits issued during the week included: Alterations and repairs at a building owned by John Prunley on First Street between Fremont and Second streets.

Judge Sharon Holds Farewell Session in Municipal Court

Sitting for the last time on the Municipal Court Bench, Judge James G. Sharon heard evidence Friday morning in 12 cases. The next session of the court will convene Monday morning with Judge W. E. White, recently appointed to succeed Judge Sharon, sitting on the bench.

Though presiding on the county court during the present term, Judge Sharon was given the opportunity to hold municipal court as an adjournment of the county court from Thursday until Saturday morning. The appointment of Judge White is effective Feb. 1.

Those who faced the court Friday morning were: Lonnie Stapp; disorderly conduct, \$15 and costs; Matthews Fleming, disorderly conduct, \$25 bond estrated; John Turner, drunkenness, \$10 bond estrated; B. Corey, drunk, \$10 bond estrated; Eddy Jones, selling liquor, \$200 and costs; Hubber Brown, disturbing public worship, \$10 bond estrated; C. L. Baum, speeding, \$3 and costs; Chris Davis, vagrancy, ten days; Charles Rice, loitering 10 days through sentence was suspended; Abner Constantine, reckless driving, \$10 bond estrated; George Cannon, drunk, \$3 and costs; and Henry Keely, drunk, \$10 bond estrated.

Means Gets \$10,000 Fine and Prison Term

NEW YORK, Jan. 30.—Gaston B. Means, former department of justice agent and Thomas B. Felder, his attorney, were Friday convicted in federal court on charges of conspiring to bribe government officials in the Cruger System and Gibbs Caskey fraud case in 1923.

The verdict was returned under seal Thursday night. After six days of deliberation it was opened Friday. The verdict recommended mercy.

Means was sentenced to pay a fine of \$10,000 and serve a two year term in the penitentiary while Felder was fined \$10,000.

Crowd Surrounds Morgue at Herrin

Following a gun-battle which resulted in the death of S. Glenn Young, Klan leader, two of his followers and Deputy Sheriff Thomas, at Herrin, Ill., a great crowd gathered Sunday at the morgue where the bodies had been taken. Rumors of another outbreak quieted when national guardsmen arrived to restore order.

EXPECT TO SEND FORBES CASE TO THE JURY FRIDAY

Arguments of Counsel Ended Thursday Night; Defense Claims Crime Commission Not Shown by Prosecution

CHICAGO, Jan. 30.—The veteran's bureau conspiracy case was given to the jury in federal court here at 11 o'clock Friday morning. Judge Carpenter cautioned the jury against giving undue weight to the testimony of Elias H. Mortimer, chief witness for the prosecution and party to the conspiracy on which the trial was based.

Mr. Crim contended that while Mortimer was a fixed and a crook, his explanation of the documentary evidence in the case was the only possible explanation and that through his aid, "one of the most vicious conspiracies ever heard of in the annals of this country" had been uncovered.

He traced the beginning of Mortimer's activities in this case to a visit by Mortimer and his wife to Marion, Ohio, in 1920, when the front porch campaign was in full blast. There they met Mrs. Caroling Votaw, sister of the late president.

"They tell you that John W. Thompson and Charles R. Forbes, clever contractors and business men, were duped by Mortimer," said the prosecutor. "They tell you that Mortimer moved in the highest social circles in Washington and that they never got any higher than Mrs. Votaw. They deceived this fine woman, a woman of whom there is no question. Mortimer moved among fixers and crooks and business with the government."

"Charles R. Forbes, who had the highest trust imposed on a human being in our country in a lifetime, always had Mortimer in the office when hospital contracts were considered."

Film Actress Faces Mother in Law Suit

LOS ANGELES, Jan. 30.—Mary Miles Minter's millions which she has earned during her stage and screen career which began when she was a child six years old, today formed a gulf across which the actress and her mother faced each other as opponents in a law suit. She says her mother repeatedly refused to make an accounting of her earnings.

TRADE BODY IS SEEKING HIGH WATER RELIEF

High Water in Local Lake Caused by Diverted Waters From Iconlockhatchee

Suggestion that the Chamber of Commerce take steps to secure relief from the high water which has been prevalent in Lake Monroon and the St. Johns River since last fall, was made at the weekly luncheon of that body at the Seminole Cafe Friday noon by Fred T. Williams.

According to Mr. Williams about 40 years ago Henry Diston, who had acquired a large tract of land in Orange county, paid the officials of that county for the right to divert the flow of waters from several lakes near his property, to the Iconlockhatchee creek from the Kissimmee River.

This was made possible by digging a canal, the permit for which Mr. Williams asserted has never been secured from the United States War Department.

Causes High Water Conditions. Mr. Williams further declared that since that time the surplus flow of waters in addition to the regular flow from Iconlockhatchee have caused high water conditions to be prevalent at Sanford frequently. He expressed the opinion that inasmuch as no permit was ever secured from the War Department to divert these waters by digging the canal and because it has meant the loss of thousands of dollars.

Wheeler Grand Jury In Session Friday

WASHINGTON, Jan. 30.—The Federal Grand Jury before which the department of justice is seeking a second indictment in the Digby case against Senator Wheeler, Democrat of Montana, who is already under indictment in his own state was called together today.

SENATE EXPECTS VOTE ON POSTAL MEASURE TODAY

All Amendments Disposed Of and Modifications in Mail Rate Increase Are Voted Into the Measure

WASHINGTON, Jan. 30.—With all amendments disposed of, final action on the postal pay and rate increase bill went over in the senate late Thursday until Friday, when an early vote on passage is expected by leaders.

As it stands, the bill carries a rider a corrupt practices act limiting expenditures of candidates for the house of \$2,500 and for the senate to \$10,000, with detailed periodical reports from every potential committee, and under certain conditions, from individual contributors. The rider was offered by Senator Walsh, Democrat, Massachusetts, and was approved by an overwhelming vote.

Rate Increases Voted

Modifications in the rate increases were voted into the bill Thursday, but the rate section as a whole withstood two separate attacks which would have eliminated it entirely and left the bill in the same form as passed at the last session and voted by President Coolidge providing only for salary increases.

On motion of Senator Odell, Republican, Nevada, a proposed one cent a pound increase on advertising matter of publications subject to first and second rates was eliminated, and Senator Moses, Republican, New Hampshire, in charge of the bill, obtained the approval of the senate for withdrawal of proposed slight increases in fourth class mail.

Retrospective to July 1

An attempt by Senator Curtis, of Kansas, the Republican leader, to make the salary increase retrospective only to Jan. 1 of this year instead of July 1, 1924, as provided by the measure, was defeated by a close vote. Senator Curtis said a sum of \$38,000,000 was involved but opponents of the proposal insisted congress would not be keeping faith with postal employees if the effective date of the salary increases was changed.

Speakers on both sides of the chamber expressed the opinion that if the bill finally is passed it will be rejected by the house because of the rate increases which, they argued, violate the constitutional requirements that all revenues raising legislation originate in the house.

County Court Is Adjourned To Meet Saturday Morning

Randolph Patterson, charged with possession of liquor, was sentenced to pay a fine of \$250 and serve three months in jail, when convicted in County Court, Thursday afternoon. With the completion of the case, court adjourned until Saturday morning when a number of cases checked for later, will be brought up. The work of the term is expected to be completed when the Saturday hearings are ended.

Big Gallery Expected

The Sanford golf enthusiasts were asked by Mr. Black to turn out in force for the tournament. He declared that a large number of guests at the College Arms Hotel, in DeLand, are planning to come here to watch their favorite pros play and that it is necessary to have a large number of Sanford people on the course to welcome the visitors. It is expected that a large number of golf followers from other towns in the league will be on hand for the play.

The golfers to appear here are: Captain Clark and either Schorr or Fischer of Daytona; H. E. Rawlins and Black, of the Clarendon Golf club, of Seabreeze; W. H. Potts and Andy G. Merrill, of Ormond Beach; D. E. Miner, College Arms, and H. T. Allen, assistant, of DeLand; Otis George and T. L. Voorhees, Sanford; Wrigley, Pustler, Dow George and Tom Kerrigan, Winter Park, Dave Davidson and Brown, of Orlando, and Rigdon, Orlando.

Vote Of Confidence Is Given Herriot By French Parliament

SOUTH LEADS IN CELEBRATION OF MCKINLEY'S BIRTH

600 Guests Gather in Capitol At Dinner Under Auspices Of Ohio Society to Pay Honor to Martyred Leader

WASHINGTON, Jan. 30.—The South took the lead in the national capital's observance of President McKinley's birthday anniversary this year, and at last night's exercises conducted by the Ohio Society, the effort of the martyred president to bring about a thoroughly reunited country was the compelling theme.

John J. Cornwell, the former democratic governor of West Virginia, was the principal speaker, taking for his topic McKinley and the South. Chief Justice Taft was only living ex-president and himself an Ohioan, presided over the gathering of six hundred men and women, many of them guests of honor representing the South. The arrangements were conducted under the chairmanship of Milton E. Riley, who as an Ohio boy, made his entrance into Washington years ago, as a day laborer carrying coal and removing ashes from fireplaces in the treasury department; rose to be assistant secretary of the Treasury under McKinley and now is president of the Riggs National Bank, one of the largest financial institutions in the country.

Governor Cornwell told his audience that both as a democrat and a former governor of a border state, he felt a peculiar fitness to speak on McKinley and The South.

Little Bitterness in South

"Born immediately after the war," he said, "I can testify that there was little bitterness in the hearts of the men I knew who had worn the grey. They had passed through a terrible ordeal. They had no apologies to offer. They felt they had done their duty. They believed the seed of misunderstanding had been sown in the Constitution itself under which slavery was permitted. The questions at issue had been settled by the sword and their great regret was that they could not have been settled without such a horrible loss of life and treasure. They were Americans, loyal to the reunited country."

"And let me recall, in passing, that it was Ohio's first President, Rutherford B. Hayes whose official act gave the hope and happiness to the South. His coming into office was not under such circumstances as to give promise of a cordial feeling in the hearts of the part of the people of the South, but when he ordered the withdrawal of Federal troops from the 'carpet-bag' government to collapse, he paved the way for the restoration of real peace and fraternal feeling in the South."

Relations to South

"But you have come together, as is your custom upon the annual day of the martyred William McKinley, that you may thereby do special honor to his memory. The phase of his public life which I would emphasize is his relations to the South and his influence in bringing about a complete elimination of sectional hate and sectional controversy. I have said truly that there was little bitterness in the hearts of the men I knew who had worn the grey. I think that was true of the men, both North and South, who had done the real fighting, with some exceptions, of course."

"However, politicians, in both sections, were quick to revive and stimulate sectional hate and animosity for party advantage, or personal political profit. Too often there was the waving of the bloody shirt, and it cannot be denied that despite their desire to prove their loyalty and patriotism in every possible way, nevertheless there was much of the feeling that their sincerity was doubted and distrusted by the people of the North and that they were regarded as poor relations rather than full brothers."

Dr. Edwards on Stand in Own Behalf Today

BESSEMER, Ala., Jan. 30.—With court opening Friday an hour earlier than usual, effort is being made by the state and department to finish the trial of Dr. George L. Edwards, charged with wife murder, before Sunday. The doctor was on the stand in his own behalf Friday morning.

Greek Patriarch Is Reported Expelled

LONDON, Jan. 30.—The most Reverend Constantine Ecumenical, patriarch of the Greek Catholic church, has been expelled from Constantinople according to a Reuter dispatch. An Exchange Telegraph says he was arrested and will be sent to Greece.

MARKETS

CHICAGO, Jan. 30.—Wheat: May, 2.03 1/2 to 2.04; July, 1.70 1/2 to 1.70 3/4. Corn: May, 1.35 1/2 to 1.35 3/4. Oats: 63 to 63 1/2.

Bluff No. 3, 702: "Look it up in the dictionary and you'll remember it longer."

Permission Is Given For Alaskan Flight

WASHINGTON, Jan. 30.—Authorization of Ray S. Darling as special agent of the Department of Justice to make an airplane flight with diphtheria anti-toxin from Fairbanks to Nome has been forwarded to Alaska. Delegate Sutherland of Alaska obtained permission from both navy and justice departments for him to undertake the journey in order to speed up relief of those suffering from diphtheria at Nome.

PUBLIC OPINION IS AID IN ENFORCING 18TH AMENDMENT

Prohibition Director Haynes Says Reaction Toward the Consumption of Liquor Is Being Widely Shown In U.S.

WASHINGTON, Jan. 25.—It is the observation of Prohibition Commissioner Haynes that public opinion, expressing itself through various channels ranging from great industrial corporations to the street, is making easier the enforcement of the prohibition law. The addition of the name of the Colorado Fuel & Iron Company to those of other concerns which have forbidden their employees the use of intoxicants, has just been reported at enforcement headquarters. Scores of employers, Mr. Haynes says, have posted notices in their establishments that users of liquor will be automatically dismissed.

The Colorado Fuel & Iron Company gave to each of its workers this notice: "This company is going to get along in the future without the services of bootleggers and their customers. We class as bootleggers all those who manufacture, sell or distribute intoxicants either personally or through agents or members of their families. Such persons will be discharged on evidence satisfactory to the management without waiting for conviction in the courts."

The management held that a miner under the influence of liquor was a dangerous element because of the many chances for disaster underground through carelessness.

An even more drastic rule was recently laid down by Henry Ford, and numbers of hotels and restaurants have acted to banish liquors from their premises. One hotel, Mr. Haynes says, forced its employees to sign a pledge to not sell liquor and as an added precaution employed detectives to search waiters when they appeared for duty.

Some theatres have banned jokes on prohibition from their stages, and one insurance company is asking applicants whether they drink bootleg liquor, Mr. Haynes declares. A western city advised its employees that use of liquor would result in dismissal, and caused each worker to give his signature as evidence that he had been warned.

Intemperance was never wise, economical or safe, in the opinion of Commissioner Haynes, but it is infinitely less so now than ever. Amid the powerful inventions and hurried life of today sound bodies, steady nerves and sober judgment are indispensable to life. This fact is recognized everywhere.

Scientists Seek Clues Of Marine Mysteries

WASHINGTON, Jan. 25.—Among the things the government intends to do during the coming year is to make an intensive study of sea water, its characteristics, and phenomena. The navy department is planning to furnish a boat, the Bureau of Standards will furnish a staff and instruments, and a number of other scientific branches of the government will be represented in the personnel of the expedition, if Congress approves.

A surprising number of missing links in scientific knowledge of the sea remain to be found. As listed by Dr. G. K. Burgess, director of the Bureau of Standards, they include the salinity of the seas, which is in part an effect and in part a cause of ocean currents; the efficiency of the depth-sounding mechanisms; the variation in the pull of gravity over water surfaces, and the variation in magnetic flux which occasions strange deflections of the compass needle.

Inmates Of Prison Cost State 25 Cents A Day For Upkeep

TALLAHASSEE, Jan. 25.—The state spent an average of 20.34 cents daily on the upkeep of inmates at the state prison farm during the year ending January 21, 1924, according to the annual report of Superintendent J. S. Blitch. This is over and above provisions produced at the farm. The average daily prison population was 442.

The balance sheet for the institution for the twelve months period shows: Cash expenditures \$20,122.47, payrolls \$14,526.04, maintenance and improvements, \$160,380.75.

Cash receipts \$37,194.30; credit memoranda, sundries, \$886.13; credit for improvements \$39,984.08; credit for labor in cash expenditures, \$1,933.52, balance (deficit) \$115,031.21.

An itemized statement in the report shows the cash expenditures were for discharge fees, corn, labor, hogs, freight, express, telegrams and other sundries.

Cash receipts amounted to: from the dairy, \$7,917.50, poultry and eggs, \$8,449.28; vegetables, meats, etc., \$14,050.45; ice and cold storage, \$2,196.64 other sundries, \$4,580.45, making a total of \$37,194.30.

Superintendent Blitch reported a net profit from the dairy department (prison labor not charged against it) \$6,431.21; net profit from poultry department (prison labor not charged against it) \$4,280.68.

Prisoners received from counties numbered 491; from road department 88; recaptured 20, sent to road department 388; escaped 33, died (one electrocuted) 8.

STATE ROAD BODY PLANS 607 MILES OF ROAD IN 1925

Will Discuss Program At Its Meeting To Be Held Soon At Miami; Will Complete Lake City-Pensacola Road

TALLAHASSEE, Fla., Jan. 25.—The state road department has incorporated in its budget for 1925 which will be discussed at a meeting scheduled for Miami on Mar. 10, a total of 607.66 miles of new road work. This is in addition to 101.17 miles of federal aid projects now under construction, 129, 79 miles of federal aid projects, already authorized, but on which work has not yet begun, and 437, 17 miles of state projects now under construction.

According to statements of board members, the budget provides for completion of a sand-clay road on Road No. 1 all the way from Lake City to Pensacola, and for connecting links along the route to adjoining states. All but about 120 miles of this road has been taken care of heretofore. This type of road costs around \$2,500 a mile, as compared with the \$20,000 to \$30,000 a mile for the improved types of highways being built on Route 2, 3, 4 and 5 in the central and southern parts of the state.

Mileage proposed in the budget for each one of the designated roads shows 89.60 miles on No. 1, 59.50 on No. 2, 52.16 on No. 3, 135.05 on No. 4, 100.15 on No. 5, and 24 miles on No. 8.

Road 27 is included in the list for 98 miles of improvements, Miami to Maitz while on No. 18 is listed for 19 miles, from Camp Dorr to Lake Anne.

For connecting links to the states on the north, the department proposes to improve six miles between Quincy and the Georgia line, 18 miles from Marianna to the Georgia line on No. 6, and 6.20 miles on No. 7 in Escambia county from Quintette to Pine Barren.

German Cafes After Money of Movie Fans

HAMBURG, Jan. 25.—German hotel and restaurant proprietors are considering the possibilities of moving pictures on the premises as producers of trade. They argue that as there are no free passes to the movies, a condition that prevails largely among the theatres, the man who goes to the movies probably has money to spend for refreshments. Hence if they could get him on the lot, they would stand a fair chance of selling him something more than his movie ticket.

Gold is one and a half times heavier than lead.

land, the Crescent Apartments in Tampa, the Guaranty Building in West Palm Beach and the 310 West Church Street Apartments in Jacksonville being numbered among the notable buildings they have financed through the nationwide sale of first mortgage real estate bonds.

Fate Of Ireland Is Settled When Two Officials Meet

MANILA, Jan. 29.—Governor General Leonard Wood has made a report to Washington regarding the dispute between the United States and the Netherlands governments over the control of Las Palmas Island, one of the Philippine group about 15 miles south of Davao province in the Celebes Sea. General Wood and Governor General D. Fock, of the Dutch East Indies, were authorized by their respective governments to reach an understanding in the matter several months ago and during an exchange of visits between the two an agreement was reached. General Wood said his report was on its way to the war department at Washington, but on account of its confidential nature he could not discuss it.

TAMPA PREPARES FOR BIGGEST FAIR IN CITY'S HISTORY

People Interested In Fair to Open on February 3 Are Coming on Every Train; Entire City Is Decorated

TAMPA, Fla., Jan. 29.—Trains arriving every day are bringing large crowds of people interested in the coming South Florida Fair which opens its doors to the public next Tuesday, Feb. 3. Most of those are seeking space for various kinds of exhibits including not only novelties, but agricultural machinery, auto accessories and all kinds of manufactured products. This unusual crowd thus early gives assurance that the Fair this year will be much larger than ever before and that the attendance will far exceed that of last year when more than 215,000 people entered the gates of The South Florida Fair. It is expected that this number will be largely increased this year because of the intensified interest and further because of the fact that Florida has many more thousands of visitors this year than ever before.

URGENT CHURCH ATTENDANCE

MIAMI, Jan. 30.—The New England Society has adopted as its slogan for the next few days "Go to Church next Sunday." In carrying out the idea, members of the society have arranged to go in a body to the morning services

Florida has 30,000 lakes. Lake Okechobee has the largest area, 1,000 square miles, the record largest in the union.

Council Starts On Drive To Add More First Class Scouts

At the annual meeting of the Regional Executives, Boy Scouts of America, held in Jacksonville, the objective was adopted that 80 per cent of the registered Scouts would be first class scouts before the end of the year and the program approved by the Central Florida Council has every indication that this percentage will be reached. In addition, the usual Monthly Court of Honor will be held in Orlando on Thursday, Feb. 26, and more than the usual interest is being shown in Scouting and the work of extending the movement has been taken hold of more closely by the members of the Civic Clubs all over the territory.

Funeral Services Held

JACKSONVILLE, Jan. 29.—Funeral services were held Tuesday afternoon for W. A. Wilkerson, well known lumberman who died at his home here Monday, after several weeks' illness. He was 50 years of age and had lived in Jacksonville for 25 years. He was a native of Jacksonville, Alabama.

Circuit Court Affirmed

TALLAHASSEE, Jan. 30.—The state supreme court has affirmed judgment of the circuit court for DeSoto county in the case of Walker Bryant, plaintiff in error, vs. the state, defendant in error. The opinion was by Judge West. Bryant was convicted in the lower court on a charge of burning a building with intent to defraud the insurer. The defense contended that the indictment was defective. The supreme court also affirmed the conviction of George Cox who was jointly indicted with Bryant, but who granted a separate trial.

25 U. S. ARMY TENTS
TO BE SOLD AT ABSOLUTE
AUCTION
Saturday—January 31st At 10 o'clock A. M.

The above tents cost the government \$125.00 each, and they are as good as new now.

The size is 16 by 16 and are used with one center pole, there is room for 8 cots in each tent.

Tents can be inspected any time before the sale or at the sale Saturday morning.

These tents are very scarce now, in fact the government has no more for sale we have been told.

Remember the place, time and date and come buy a tent at your own price. They will be sold to the highest bidder regardless of the amount.

BIBLE THOUGHT FOR TODAY.

Tried and Proved:—As for God, his way is perfect; the word of the Lord is tried; he is a buckler to all them that trust him. II Samuel 22:31.

SAY NOT THE STRUGGLE NOUGHT AVAILETH

Say not the struggle nought availeth. The labor and the wounds are vain. The enemy faints not, nor faileth, And as things have been they remain.

Getting Millions From Foolish People

When you read that a Chicago mail order house reports an increase in business of close to three million dollars in the year that has just closed do you recognize another good sign of prosperity in the country, and let it go at that? Or do you also remember that those three million dollars traveled to Chicago from communities that ought to have had the continued use of the money?

IMMOVABLE FRANCE

ASHEVILLE CITIZEN

France looked this way and shuffled her feet recently and we at a distance concluded she had taken a step toward paying her war debt to us. But France did not advance an inch from her position in respect to the debt and apparently has no intention of doing so.

A CRITIC "CALLED"

TAMPA TRIBUNE

A critic of newspapers has come to grief in Binghamton, N. Y. A minister of that city, who imagined that he could run a newspaper better than its editors, has apparently declined a legitimate challenge to show what he could do and has offered public apology to the newspaper he denounced.

IMPOSING ON EDITORS

GAINESVILLE SUN

Frank Wright, our brilliant young sport editor, complains that he has been imposed upon. He says some galoot put in a job on him. "Some news that is brought into newspaper office" waits Frank, "is tossed into the waste basket as unfit for publication. But generally when one brings an article into a news office, it qualifies as news, and is gladly printed. An article that is found on the desk, neatly typewritten and from all appearances, properly signed by a responsible person, is little questioned by the editor, who does not have time or is not concerned with prying in and between the lines attempting to dig out hidden phases of the article."

FLORIDA CRIME

ORLANDO REPORTER-STAR

A Kansas City newspaper, commenting on the recent murder, in Miami, of a Kansas City citizen, seems to think that Florida is filled up with thugs, gamblers and murderers. The editor will only need to reflect, however, to be convinced that if his indictment is true, it is not the fault of Florida, but of those who come to Florida for the purposes named.

GOVERNMENT SALARIES

MIAMI HERALD

A proposition has been made by Hamilton Fish, jr., of New York that the salary of cabinet officers be increased from twelve thousand to seventeen thousand five hundred dollars. This seems an entirely reasonable suggestion.

AS BRISBANE SEES IT

Too Much Killing. 100 Little Pigs. Drifting to the League. An Invention Want-d. BY ARTHUR BRISBANE (Copyright 1924)

HOW LONG is the crime era to last. What causes the shooting mania? You pay no attention when you read about killings based on bootleg or hijacker feuds. But you are bound to notice and wonder about the unnumberable killings of other kinds scattered through the paper.

THE LAST SOLDIER AND STILL GOING STRONG!

DAN DOBBS

Eld Michigan news bulletin courthouse burned, catching from a heated fire. Cincinnati (O.) road trouble. Let girls under incorrectly. Little girls think they are grown.

Getting Millions From Foolish People

When you read that a Chicago mail order house reports an increase in business of close to three million dollars in the year that has just closed do you recognize another good sign of prosperity in the country, and let it go at that? Or do you also remember that those three million dollars traveled to Chicago from communities that ought to have had the continued use of the money?

It's Easy to Crawfish

Did you read that little poem in The Herald the other night called "The Quitter". Probably not. We moderns don't go in much for poetry. It's generally considered a little bit too metaphysical and too abstruse for those in the whirl of this rapidly moving century to bother with. Yet it is too bad you didn't read about "The Quitter".

It was the old theme of sticktoitiveness, "if at first you don't succeed, try, try again." It is the keynote of success in every walk of life. The football player, with broken nose and bleary eyes, is a hero if he keeps battering away at tackle and guard and simply cannot be thrown for less than a yard; if he quits, he's no man at all.

The captain who went to the bottom with his ship as it sank, after hearing the cries of his crew, "There's a man!" was no man at all. It would take twice as much courage and nerve to fight the cold waves and face the ship owners back home as it would to simply give up and swallow a gallon or two. Any fool can die, but it takes a man to live.

And sometimes on the links it seems as if the nervous little pill and all the little gods and devils had conspired to keep you from ever breaking a hundred or winning a hole when anything was at stake, and you think, "Well, I might just as well bust up my clubs and go home. You can't win against the Devil and I guess I wasn't cut out for this game anyway." Remember, anybody can quit, but there aren't very many Bobby Jones in the world.

Then someday some one is going to come along and offer you a little something for that piece of property you have been paying for by the month for the past three years, and you are going to say to yourself, "He's offering me every cent I put into it, and there are a lot of new subdivisions being put on the market and real estate is bound to take a slump. I'm going to get out from under while I can." You've just lost your nerve. What you need is a little tonic. He'll probably sell it in a couple of weeks for twice what he paid you for it. Remember what some sage old realtor advised, "Don't give up the ship, boys!"

It's easy to crawfish and crawl; It's easy to cry that you're beaten—and die; But to fight, and to fight when hope's out of sight! Why, that's the best game of them all! And though you come out of each grueling bout. All broken and beaten and scarred. Just have one more try—it's dead easy to die, It's the keeping-on-living that's hard."

Getting Millions From Foolish People

When you read that a Chicago mail order house reports an increase in business of close to three million dollars in the year that has just closed do you recognize another good sign of prosperity in the country, and let it go at that? Or do you also remember that those three million dollars traveled to Chicago from communities that ought to have had the continued use of the money?

Several months ago The Herald told of the increase in shipments of mail order catalogues throughout the South. A "shop-by-mail" campaign seemed to be running on schedule and with much success. And in every town and village in which no home appeal was made by local merchants, mail order shopping became more general than it has been in years.

One Chicago house collected more than fourteen million dollars through its catalogue selling last year. Other big concerns did quite as well. And the worst of it was, thousands of families were "educated" a little more thoroughly in the art of mail-order shopping, with local merchants and local business in general sufferers from the practice.

When money is sent out of a community for articles that could be supplied satisfactorily by home merchants, something is wrong. Either the public is not "educated" to understand the value of a dollar kept in circulation at home, or the merchants are too far behind the times to be able to cater to the wants of their community.

Money spent in a town continues its service. A five dollar bill constantly traveling from the butcher, to the baker, to the candlestick maker, and back again is a five dollar bill that is actually worth hundreds of dollars. Mail order houses are useful for people who have no chance to deal with satisfactory home stores, but it is a mighty foolish citizen who will unnecessarily send money out of his home markets.

If the world's value of tears, Smile till rainbows span it; Breathe the love that life endears, Clear of clouds, to fan it!—Anon.

GOVERNMENT SALARIES

MIAMI HERALD

A proposition has been made by Hamilton Fish, jr., of New York that the salary of cabinet officers be increased from twelve thousand to seventeen thousand five hundred dollars. This seems an entirely reasonable suggestion.

There are few government officials upon whom greater responsibility rests today than upon the members of the cabinet, who are the heads of great government departments. Conditions are quite different now, from those which prevailed even a comparatively few years ago. A rather high degree of ability is demanded in cabinet officers. The men who are qualified to hold these positions are able to command very large salaries in private business. They should not be expected to serve the public at such a financial sacrifice as is at present demanded of them.

The people of the country feel perfectly free to criticize cabinet officers if they fail to measure up to the demands. It is only exceptionally capable men who can measure up. There is only one thing that a president can do in the matter of appointments if he is not fortunate enough to secure the services of capable men with a high sense of responsibility to the nation. That one thing is to appoint men who could not hold positions of responsibility in private business. These can always be secured at the salaries which the government pays. But these rarely measure up to the public demands upon them.

Adequate salaries should be paid. It is rather ridiculous that the secretary of state, head of the whole diplomatic corps and in charge of the whole foreign service, should receive a much smaller salary than is paid the ambassador who works under him. And yet this is the case. If the proposed increase is granted the secretary of state will still receive only the same salary as is paid a number of the ambassadors. If the country does not pay better salaries it can expect nothing else than a mediocre standard of ability in the cabinet.

FLORIDA CRIME

ORLANDO REPORTER-STAR

A Kansas City newspaper, commenting on the recent murder, in Miami, of a Kansas City citizen, seems to think that Florida is filled up with thugs, gamblers and murderers. The editor will only need to reflect, however, to be convinced that if his indictment is true, it is not the fault of Florida, but of those who come to Florida for the purposes named.

Enormous crowds come to Florida each winter. The lawless class of people always here and always will follow the crowd. In the winter they will be found at the race tracks and sporting places of Florida, and in the summer at similar resorts in the north. It is the old law of gravitation asserting itself. People will gravitate to the class of people who are of their kind and of their liking. The residents of Florida, for law observance, will measure up with the law-abiding citizenry of any other state. The majority of the winter visitors are as clean and upright in their behavior as the people of the most select community. But the minority can make a bad reputation for the majority in any community. People who visit race tracks where gambling is permitted, or road houses in any state in the Union, take the same chances they take when visiting such places in Florida. It is not the locality but the people that make the reputation.

As Brisbane Sees It

Too Much Killing. 100 Little Pigs. Drifting to the League. An Invention Want-d. BY ARTHUR BRISBANE (Copyright 1924)

HOW LONG is the crime era to last. What causes the shooting mania? You pay no attention when you read about killings based on bootleg or hijacker feuds. But you are bound to notice and wonder about the unnumberable killings of other kinds scattered through the paper.

TWO OLD men past 70 quarreled and clubbed each other, both died. A heading tells you of a husband in Indiana who meets his wife in the street, shoots her four times, and then shoots himself, both dead.

Michigan contributes a poor-house inmate, 65 years old, killing another 74 with an axe while the victim lay asleep in his bed.

MILLIONAIRE bootleggers, poor-house inmates, jealous husbands, all seem to have the same remedy to kill somebody. Some of the most prosperous men in the nation have formed an organization to promote greater respect for the law.

Perhaps the fact that nearly all prosperous men ignore both the law and the constitution when they interfere with their own comfort and pleasure, has something to do with law violations lover in the scale.

A BOY SENT this information to the United States Agriculture Department. Five years ago, when he was in the public school he bought a pure bred big female pig eight weeks old. Since then the pig has added 100 small pigs to the earth's porcine population. The little boy writes: "She paid for my clothes, three years in high school and gave me spending money also. I am now in my second year in college and she is still doing the same."

THIS BOY has joined the "Better Sires-Better Stock" campaign and will work hard to improve the pig breed.

If it were possible to improve human breed as easily as we improve cattle or swine civilization would progress rapidly. Unfortunately, eugenicists make little progress. But something might be done.

That proud mother of 100 little pigs in five years never smoked cigarettes or drank cocktails. And the father or fathers did not set before their sons the example of bootleg lawbreaking and contempt for the constitution.

IN THE way of national news if that should interest you, it seems that the country is drifting toward European entanglements, via the World Court and the German reparations agreement.

First, we throw billions upon billions into Europe recklessly, squandering other tens of millions in graft and waste here at home. Now, itching for a few miserable hundred millions, we send people to Paris to tie this country up in all sorts of uncertain European obligations.

AND THIS is done in spite of the fact that the nation has voted twice with seven millions votes to spare against any League of Nations nonsense. It ought to be possible for the government to understand the meaning of the votes cast in 1920 and 1924. Europe understood the voting well enough but hopes that American statesmen, so called, will pay little attention to the expressed will of the public.

GERMANY IS perfecting a machine to make it impossible for ships to sink. A series of electric pumping machines will take water out faster than it can go in—through any ordinary opening caused by collision. That news would have been more important fifty years ago than it is today.

WHAT IS wanted now is something to make it impossible for a flying machine to fall. That also will come and before long.

Men that have conquered the ocean waves will easily conquer the air waves.

What is the strongest wave of the air compared with the ocean wave that rolls gigantic rocks upon the beach, or eats away a granite cliff? You never saw the wind that could roll big rocks up hill.

CANADA IS growing rapidly. Up there they welcome good immigrants. Here we discourage immigration. One of the most fertile states in the Union, with 35,000,000 acres of land has 33,000,000 acres not yet developed but we say we have enough population.

WHAT IS more important than even immigration, is human happiness and independence. Canadians attend to that. In Canada 92 per cent of farmers own their farms. In the United States only 32 per cent own their land, and others are tenants paying rent.

THE NATION in which those that cultivate the land own the land on which they live, grow in strength. The power of France is due largely to the fact that Frenchmen own their land. That small country has more than six million land owners, a great improvement on the days of monarchy, when a handful of nobles, ecclesiastics and royal princes were the land owners.

IMMOVABLE FRANCE

ASHEVILLE CITIZEN

France looked this way and shuffled her feet recently and we at a distance concluded she had taken a step toward paying her war debt to us. But France did not advance an inch from her position in respect to the debt and apparently has no intention of doing so.

The enthusiastic reception accorded Deputy Marin's speech by his fellow members and the Parisian press and the congratulation extended him at its close by Heriot seems to justify Senator Borah's pessimistic declaration that no part of the debt is to be settled and no part of it is to be paid.

The Journal Des Debits states that M. Marin had the "courage to say aloud, what the entire country thinks silently."

What Marin said was that it would be a moral injustice if France were compelled to pay the enormous sum "demanded of her by the United States"—this being about four billion dollars. He and the supporting press of all parties repeat the old refrain of this country: "The sustenance of our failure to approve the guaranty of safety clauses of the Versailles Treaty. Is it not probable that each nation is absolutely sincere in believing its position right? And if so will it ever be possible to reconcile absolutely divergent views? And Germany stands a grinning spectator of the quarrel between the former allies."

France is willing to pool all war expenses and then distribute them according to the wealth of the countries concerned, which would leave nothing for France to pay. Or France is willing to offset our financial claims by the damages she sustains by our failure to approve the guaranty of safety clauses of the Versailles Treaty. Is it not probable that each nation is absolutely sincere in believing its position right? And if so will it ever be possible to reconcile absolutely divergent views? And Germany stands a grinning spectator of the quarrel between the former allies."

A CRITIC "CALLED"

TAMPA TRIBUNE

A critic of newspapers has come to grief in Binghamton, N. Y. A minister of that city, who imagined that he could run a newspaper better than its editors, has apparently declined a legitimate challenge to show what he could do and has offered public apology to the newspaper he denounced.

Rev. D. Stanley Shaw delivered himself, in the pulpit, of the opinion that the modern newspaper is "unfit to occupy 15 minutes of any Christian's time." He specified the Binghamton Press as being unworthy of the attention of the good people of the city.

The Press naturally "came back." It challenged the reverend gentleman to take complete charge of the paper for one day, with carte blanche to edit it as he saw fit and to make it conform strictly to his idea of what a daily newspaper should be. Attached to the challenge was an offer to donate \$1,000 to any charitable object the minister might name.

Mr. Shaw tried to quibble out of it at first. He finally said that he would report at the office at 10 a. m. to direct the afternoon issue. He was informed that to assume complete editorial charge of the issue, he would have to go to work at 7:30 a. m., when the rest of the staff started in. This would be impracticable, he replied, and then rushed to the opposition paper with a statement charging the Press with unfairness. Getting no encouragement there, he finally informed the Press editor that he had made his pulpit attack without proper investigation or knowledge of how a newspaper is made or edited; and that he wished to apologize to the newspaper and to the public for what he had said.

At his next appearance in the pulpit this minister told his congregation that he had made a regrettable mistake and proceeded to criticize the Press and its management.

This is typical of the average critic of the newspaper. Their criticisms are nearly always entirely theoretical. When challenged to put their ideas into practical operation, they "back out." The Binghamton incident should serve as a warning to others inclined to rush into print or spoken utterance in baseless attacks on newspapers.

IMPOSING ON EDITORS

GAINESVILLE SUN

Frank Wright, our brilliant young sport editor, complains that he has been imposed upon. He says some galoot put in a job on him. "Some news that is brought into newspaper office" waits Frank, "is tossed into the waste basket as unfit for publication. But generally when one brings an article into a news office, it qualifies as news, and is gladly printed. An article that is found on the desk, neatly typewritten and from all appearances, properly signed by a responsible person, is little questioned by the editor, who does not have time or is not concerned with prying in and between the lines attempting to dig out hidden phases of the article."

Ah Frank, my dear boy, this editor hasn't been in the newspaper game very long himself but he has learned a lot about it within the time he has been playing it. That fellow knew 14 he would prepare his "stuff" nicely and put it on your desk you would probably grab at it like a trout grabs at a false minnow and that you would assume the responsibility for it. He knew you wanted something to fill your space with. And that's the way they do this editor. Everybody who wants publicity sends his prepared stuff in like that. Every propagandist adopts that course in order to obtain free advertising. Get a larger waste basket, Frank. Getting to dig out hidden phases of a big one.

DAN DOBBS: Eld Michigan news bulletin courthouse burned, catching from a heated fire. Cincinnati (O.) road trouble. Let girls under incorrectly. Little girls think they are grown. Woman bootlegger seen. Adrian, Mich. Had cases of beer in one year. Ing too hard will ruin her. New Paris bob shows that perhaps so they can be invitations more easily. What's in a name? New York city, Cal. Sills and an usher in his dress. There is a very strong balance between a radio program and a crossword puzzle. Our big guns, it seems go very far because they have been raised properly, due to other big guns who are. Before you hear about happened in Russia some has happened there. They claim Philadelphia jiggers made only last year, but then it is identical year. Headline says cigarette is increasing, guess, cigarette are in summation. The quaint old custom a miners' strike every resumed this spring. The airplane flight world cost \$17,481. Magnificent! You could get Loeb trial for that amount.

CHRISTIAN ENDEAVOR ENTERTAINS MEMBERS OF CHURCH SOCIETIES

Celebrating the National Christian Endeavor Week, the senior Christian Endeavor of the Presbyterian church invited the members of the societies of the young people of all the churches in Sanford to meet with it in the social rooms of the Presbyterian Church Thursday evening. Among the 75 present there were represented every church in Sanford.

The guests were received by Miss Laura Lehman, Miss Gertrude Rung and Dr. E. D. Brownlee. Many banners bearing the Christian Endeavor seal were used in decorating and the C. E. colors of red and white were further suggested by quantities of roses and sweet peas.

Placed about the walk for the entertainment of the guests upon their arrival were many marked copies of the "Christian Endeavor

World" showing pictures and articles of much interest to all.

Under the delightful management of Mrs. R. C. Maxwell and Miss Margaret Foster games had been arranged for the evening which gave much pleasure.

At a late hour delightful refreshments were served by Mrs. W. D. Greene and Mrs. William Brunley. A very happy evening was brought to a close by the singing of two songs and Dr. Brownlee pronounced the benediction.

This is the first meeting of its kind to be held and it is hoped that there will soon be organized a Young People's Christian Union. As a closing of the National Christian Endeavor Week all local societies are invited to meet for the Prayer meeting at the Presbyterian Church Sunday evening at 6:30 o'clock.

Mrs. Brandt Hostess To Social Club

Mrs. Fred Brandt charmingly entertained the members of the Thursday Social Club at her home on the West Side, it being a celebration of Mrs. Brandt's birthday and also that of her daughter, Miss Irene Brandt.

The rooms were beautifully decorated with potted ferns, flame vine and crystal baskets filled with roses.

Mrs. Brandt was assisted in entertaining by her daughters Mrs. Frank Meisch and Miss Irene Brandt. At 5 o'clock the guests were invited into the dining room where delicious refreshments were served.

Those present were: Mrs. Chas. Ludwig, Mrs. John Pezold, Mrs. Paul Pezold, Mrs. Francis Merrivether, Mrs. M. Zerrenger, Mrs. Lena Krause, Mrs. George Herbst, Mrs. George Fellows, Mrs. B. E. Takach, Mrs. M. Mallam, Mrs. A. DeNeve, Mrs. M. Brannon, Mrs. Henry Richter, Mrs. Jacob Richter, Mrs. Anna Schmah, Mrs. Joe Meisch, Mrs. Frank Meisch, Miss Matilda Stockhoff, Miss Aronaka Takach, Miss Madeline Mallam, Miss Matilda De Neve and Miss Naomi Fellows.

PERSONAL

W. J. Hardy goes Saturday to Tampa on a business trip.

Earl Espy of Savannah, Ga., is spending the week in Sanford.

E. S. Price of Atlanta has arrived in Sanford for a short stay.

Miss Le Claire Jones has quite recovered from her recent illness.

Nat Mayo Jr., of the Summerfield Nursery Company is in Sanford.

Mr. and Mrs. W. J. McCracken of Tampa are visiting relatives here.

Miss Sarita Lake is reported much improved from her recent illness.

A. P. Spencer of Gainesville is in Sanford on business for the week end.

C. B. Brown, of Minneapolis, Minn., is spending a few weeks in Sanford.

Miss Gladys Wilson is ill at the home of her parents on West Ninth Street.

Mrs. B. G. Smith and Mrs. Theodore Aulin of Oviedo spent Thursday in Sanford.

A. J. Richardson and William Burgess are spending the day, Friday, in Daytona.

Judge and Mrs. E. F. Housholder and Mrs. Floyd Palmer motored to Tampa Friday.

Edward Lane is quite recovered from his recent illness and is able to be again in his office.

Mr. and Mrs. Doak of Lake county, Ind., have arrived in Sanford for the winter season.

Mrs. R. J. Holly, and R. S. Holly returned Thursday evening with Miss Mae Holly from Tallahassee.

Max Stewart, Peter Schaal, G. B. Ross will go Friday evening to Orlando to hear Geraldine Ferrar.

Miss Ruba Williams who has been ill at her home on Park Avenue is reported much improved.

M. Kronen leaves Sunday for New York to purchase spring merchandise for his store on Sanford Avenue.

Friends of R. W. Pearman will be glad to learn that he is able to be out after an illness of the past week.

Miss Mary Elizabeth Puleston and Miss Camilla Puleston are ill at the home of their parents in Rose Court.

Mrs. Roy F. Symes, Mrs. A. J. Davies and Mrs. J. McNaught motored from Winter Park to spend Friday in Sanford.

Mr. and Mrs. Frank Miller have as their guest, Mrs. Miller's sister, Mrs. Eva Herndon of New York City. Mrs. Herndon is a former resident of this city.

First Class Passage Is Given Emigrants

BUENOS AIRES, Jan. 30.—A line of one-class passenger ships devoted exclusively to the transportation of emigrants has been inaugurated between European and South American ports by a German steamship company. The first of the line to arrive here brought 1,000 German and other Europeans to Brazil and 1,000 to Argentina.

The ship provides first class comforts and conveniences for the third class price. She has 250 cabins, accommodating two, four and six persons each, with salon, smoking room, library, reading room, two large dining rooms, barber shop and baths. She is a motor propelled ship with a speed of 15 knots.

Railroads Are Denied Temporary Injunction

ST. PAUL, Minn., Jan. 29.—The Western and Southern railroads were denied a temporary injunction to restrain enforcement of lower express rates in territories in a decision of the U. S. Court filed here Wednesday.

There are large numbers of young men who would consent to get married this month if they could find wives who would agree to support them.

Chicago and West Palm Beach are running neck and neck on the price of eggs; 80 cents a dozen. The quality is the same in each place, but in quantity it is presumed Chicago is selling more.

Radio Program

Program for Jan. 31.

WGR—Buffalo (319) 6 music; 7:30-10:30 Metropolitan Life banquet.

WMAQ—Chicago News (488) 8 orchestra; 8:30 photologue; 9:00 Chicago theatre.

WGN—Chicago Tribune (370) 6 organ; 6:30 concert; 3 classical; 10 dance.

KYW—Chicago (535.5) 7 concert; 8 musical; 9:05 Youth's Companion; 9:35 classic; 12:2 entertainment.

WLS—Chicago (345) 7 entertainer; 7:20 big barn dance; 11:15-12:45 Senate theatre review.

WLW—Cincinnati (423) 6 concert, quintet.

WIK—Cleveland (273) 8 rainbow club.

PWX—Cuba (400) 7:30 concert, dance.

WFAA—Dallas News (472.9) 8:30 program; 11 orchestra.

WOC—Davenport (498) 7 Sandman; 9 orchestra.

KOA—Denver (322.1) 10 orchestra.

WWJ—Detroit News (516) 6:00 News orchestra.

KNX—Hollywood (337) 8 music; 9 instrumental; 10 varied; 12 orchestra; 1 popular.

WDAP—Kansas City Star (411) a school of the air; 11:45-1:00 Nighthawks.

KLH—Los Angeles Times (395) 8 concert; 8:30 children; 10 instrumental, vocal; 12 orchestra; 2-4 a. m. Lost Angels.

WHAS—Louisville Times (400) 7:30 concert, Wendall Hall.

WMC—Memphis Commercial-Annual (503.9) 8 bedtime story; 8:30 classical.

WCCO—Minneapolis-St. Paul (417) 8 fireside philosophies; 8:15 auto show.

CKAC—Montreal (425) 6:30 concert; 7:30 variety; 9:30 orchestra.

WEAF—New York (492) 7:00 talk; 8:30 concert; 9:30 soprano; 10 orchestra.

WJZ—New York (455) 6 dance; 7 talk; 7:15 soprano; 7:30 talk; 7:45 string quartet; 8:15 talk; 8:30 baritone; 9 string orchestra;

Man's three periods: Believes everything; believes nothing; wishes he could believe.

At Chicago's most magnificent wedding, in Holy Name cathedral, Loretta Hines, daughter of Mr. and Mrs. Edward Hines, millionaire lumberman, became Mrs. Howell Hoffman Howard. More than 2000 invited guests attended the ceremony, which cost over \$100,000. The Schipa sang and the Chicago-Symphony Orchestra played the bridal march. The bridal couple is shown kneeling in the sanctuary as Cardinal Mundelein performs the ceremony. This unusual picture was taken by NEA Cameraman Fugita, who secreted himself behind a palm in the sanctuary.

Goodyear Company Making Plans For Zeppelin To Be World's First Liner

AKRON, Jan. 29.—Dr. Karl Arnstine, designer of the giant ZR-3, which crossed the Atlantic ocean from Germany in a non-stop flight, has been selected to draw the plans for the Goodyear-Zeppelin Corporation's proposed air liner. When completed this airship will be twice as large as any flyer ever built and will be able to go half way around the world without a stop. Dr. Arnstine formerly was chief engineer of the German Zeppelin company and has drawn plans for more than 100 dirigibles.

The proposed ship will have a gas capacity of more than 5,000,000 cubic feet, twice as great as either the ZR-3 now christened the Los Angeles or the Shenandoah. Officials have not definitely determined whether the dirigible will be constructed for commercial or governmental purposes.

The dirigible would be equipped with a passenger cabin hanging from the keel of the vessel, with a promenade deck and steamer chairs comfortable berths, dining room service, shower baths, and all other modern conveniences. It would maintain a regular two-day schedule between New York and London, if used for that purpose.

Engineers plan the new ship long, with a maximum diameter to be between 850 and 930 feet to be between 115 to 120 feet, the control car hanging ten feet lower. The Shenandoah is 680 feet long and 78 feet in diameter, while the ZR-3 is 600 feet long with a height of 101.6 feet.

The proposed ship would be powered by motors developing 4,000 horsepower against 1,500 of the Shenandoah and 2,000 of the ZR-3.

BURGLARS TAKE FOOD
CRESTVIEW, Jan. 30.—Cooked chicken is more interesting to some thieves than silverware. Burglars broke into the home here recently of Miss Hertha Henry, county home demonstration agent, and left the silver undisturbed. However, Miss Henry reported that they were not so generous when it came to food. Canned chicken, chicken sandwiches, and filling and pepper relish put up at the home demonstration agents' meeting in Tallahassee last September were carried away.

The men who first spoke of cars that turn turtle never saw a turtle move.

The only people who are at home anywhere are flivverites and Englishmen.

PROMOTIONS AT DODGE BROTHERS ARE ANNOUNCED

Many High Officials of Company Are Shifted To Higher Positions; Office Is Reported Opened in England

According to announcement today by John A. Nichols, Jr., General Sales Manager, the following changes in the executive staff of Dodge Brothers have become effective:

C. H. Jennings, Assistant General Sales Manager, becomes Dodge Brothers dealer in New York City. F. L. Sanford, Director of Distribution, succeeds Mr. Jennings as Assistant General Sales Manager.

John H. Gordon, Director of Field Operations, becomes the Director of Field Survey. F. H. Akers, Commercial Car Manager, and Director of Distribution and Districts formerly handled by Mr. Sanford and Mr. F. B. Wilker, Seattle District Representative, comes to the home office as Director of Service and L. C. Covell, Detroit District Representative is the new Commercial Car Manager.

R. N. Harger, Director of Advertising, has been transferred to London where he will represent the Governing Directors of Dodge Brothers (Britain) Limited. Mr. Harger sailed for London Dec. 6 to take up permanent residence.

With Mr. Harger's departure direction of the promotion and advertising department has been again placed in the hands of Geo. Harrison Phelps, who until April, 1922, was Director of Advertising. At that time in connection with his own advertising business, he became advertising counsel for Dodge Brothers. In this latter capacity Mr. Phelps has been in close touch with all Dodge Brothers promotion and advertising activities and consequently is in a position to resume direction of all policies and details immediately.

There will be no change in the general advertising business of Harrison Phelps, Inc. It will be conducted as formerly at its present location, 110 Rowena Street, Detroit, under the general direction of Mr. Phelps.

Mr. Jennings began business as Dodge Brothers dealer in New York on December 1st. He has been associated with Dodge Brothers practically from the day they began building motor cars, beginning as New York District Representative. Subsequently he was called to Detroit and for two years acted as Director of Service. Three years ago when Mr. Nichols was appointed general sales manager by President F. S. Haynes, Mr. Jennings was made assistant general sales manager.

Eclipse Wasn't Worth Five Hoots To Bozo, Big Owl In Bronx Park Zoo

NEW YORK, Jan. 30.—Professor John Toomey, H. K., B. P. Z. (Head Keeper Bronx Park Zoo), reported yesterday that Bozo, the owl, was badly fooled by the eclipse Saturday morning.

Professor Toomey observed the eclipse from the aviary. So did Bozo. "It was the finest eclipse I ever saw," said Professor Toomey. "All the singing birds were singing to beat the band just before it grew dark. Then as wasn't singin' was chirpin' or making their favorite noises—all except Bozo, the owl. "I was tellin' Murphy, one of the keepers, what a fine day it was for an eclipse when all of a sudden it grew dark and the birds stopped singin' and went to sleep. It was a funny experience. One minute it was light and the racket in the birdhouse was tremendous. The next minute it's dark and quiet as a cemetery, with the birds ruffling their wings so's they can stick their heads under 'em. Then Bozo came to life.

"Whoop! says Bozo, stretchin' himself and blinkin' up at what he thinks is the moonlight. 'Whoop!' says he, wonderin' how the devil he got only two hours' sleep. "The old bird had been hootin' it up all night and about 7 o'clock he'd knocked off and gone to sleep.

"'Whoop!' says he, gettin' ready to do his stuff and fidgetin' around as if to say, 'This is the funnest lookin' night I ever see.' "Whoop! he shrieks, bein' wider awake by this time and shakin' a leg to get his blood in circulation. "Then the darkness melts away as quickly as it had fallen and it's broad daylight again. The change caught 'whoop' of the day, and he's so flabbergasted, he breaks off in the middle of it and just sits there dumfounded, tryin' to decide whether he should stay awake, or go back to sleep, or what.

"Here the poor bird has been waked out of a sound sleep by an eclipse he don't know nothin' about, he lets out four and a half hoots and it's all over. It's not worth it. "Finally he takes one disgusted look around at what's left of the eclipse, and as much as says: 'What a fine false alarm you turned out to be! Then he chucks and goes back to sleep.

"As Bozo went back to sleep all the other birds, kiddin' themselves by thinkin' they'd had a full night's rest, woke up and started singin' again. "Everything's all right now, though. The owl's asleep and the racket's fierce.

Members of the Drum and Cornet corps of the Georgia Industrial Home at Macon, will give a concert at the High School auditorium, Tuesday night, Feb. 7, 8:30 o'clock, it was announced. There, day morning by Clem. L. Hackney, advance man for the troupe. There are 16 boys in the corps, ranging in age from about 10 to 16 years.

The corps is on its regular tour of Florida in the interest of the home in Macon which is in reality an orphanage. The home, which during the years it has been in existence, has taken hundreds of orphan children and cared for them until they were able to earn their own living. It enjoys no regular patronage of any organization but depends for its support upon such activities as the drum and bugle corps.

The concert will be free. An especial invitation has been extended to the children of the town with the belief that they will enjoy the concert somewhat more than grown persons since the members of the corps are children.

Definite steps taken toward establishment of local chamber of commerce.

ALL TRAINS MET BY PUBLISHER OF COUNTRY WEEKLY

Owner of Maine Newspaper Grows Indignant at Hint That He Leads Easy Life; Publishes Daily Routine

AUGUSTA, Ky., Jan. 30.—J. A. Thompson, editor of the Bracken Chronicle, a weekly newspaper published here, believes he works hard. He charges \$1.50 a year for his paper, which is brimful of neighborhood news and more than a matter of state and national intelligence. Some one must have hinted that Editor Thompson was not any too busy, for in a recent issue of the Chronicle he indulges himself to this extent:

"There are evidently people in Augusta who have formed the opinion that publishing a newspaper is child's play, which will cause the average publisher to smile, to say the least. If there is any other job, business or profession where the proprietor puts in long hours and receives less pay we would like to know of it. For instance here are a few of the stunts that the publisher of the Chronicle goes through with daily:

"Get up at 5:30 A. M. rain or shine, cold or hot; go on to the office, goes to the early train lights the gasoline burner on the linotype, returns home, goes through the motion of eating breakfast, writes copy until time for the 8:37 train, gets the 'comers' and 'goers' thereon, goes to the Post Office, where he is greeted by a number of 'Please remits'; looks over the communications to see that no one is 'ripped up the back' and thus avoids a libel suit, or a linking; continues to the office, reads proof, helps 'make up the forms,' feeds the cylinder press two or three times a week—about 2 1/2 hours each time; telephones all over the county in search of news, runs down many clues of alleged news, which often prove to be mythical; comes home at the noon hour, where the same table motions are gone through with; 'digs up' more copy, goes to the 1:24 train, then to the office until time for the 4:07 remaining until the 5:21, whether late or on time; then home for supper, then to the 7:45 train, after which copy is prepared for the next day, and this daily routine is gone through with seven days of the week, excepting that the arising time on Sunday is 6:15 A. M., and we appropriate enough time to go to church and Sunday school."

Though no formal offering of the property has been made, 60 lots in Dreamworld, one of Sanford's finest subdivisions which is being developed by the Bodwell Realty Company, have been sold within the past few days, according to Harry T. Bodwell, president of the company. The sales have been equally divided between local and out of town people.

Mr. Bodwell expressed himself as highly pleased with the showing the subdivision has made and the interest it has attracted which is regarded as an indication of the general interest which real estate development in this city is attracting.

Mr. Bodwell called attention to the entrance gates of the Dreamworld saying that they had caused much favorable comment on the tract. The gates are of concrete pillars, with red tile coping, set in a quarter circle. The gates are built sturdily and will remain a permanent addition to the beauty of the tract.

St. Augustine—Building permits issued during 1924 totaled 694,943 in increase of \$213,117 over 1923.

Plans for construction of \$1,000,000 hotel at Liberty Park.

Plans for construction of 25 bungalows in Seminole Heights district at approximate cost of \$3,500 each.

Vassar Girls Really Not Chimneys; They Merely "Know How" To Smoke

NEW YORK, Jan. 30.—The Vassar College girls really didn't mean all they said about those cigarets.

Miss Ruth Millard, member of the senior class at Poughkeepsie, explained this. A referendum made public Wednesday showed that 433 of the 567 students said they smoked and even went so far as to say they preferred the twenty-to-a-pack brands to the gold-tipped and scented variety.

In order to avoid impressions that the Vassar campus is gray-hued in spite of the ban against smoking, Miss Millard explained that what the girls meant to say was they "knew how" to smoke. She pointed out that less than twenty of the devotees of the 10 of Nicotine had violated the rule which has been in force several years.

Explaining how some girls learn how to smoke, she said: "There are times when it is expedient to light up, at least. Perhaps the boy friend wants a pal or the hostess would think you prudish. The college girl is not prudish and she believes in progress."

"Her parents, to be sure are not so progressive; 400 of them do not approve of smoking among college girls. A goodly portion of them have not approved of bobbed hair or short skirts or rolled stockings.

"The college girls bobbed their hair, tucked up their skirts and asserted their independence. They educate their parents. It is natural that the young should be more adaptable to innovations.

"The agitation at Vassar for the repeal of the smoking prohibition seems to me the expression of a desire for freedom, not the outcry of a group of oppressed nicotine addicts."

May Curb Power Of Japanese Peers

THE HOUSE OF PEERS probably will be the most important problem to come before the Diet at its impending session. The reform bill probably will come up in March and, according to the Japanese press, may create the gravest crisis that the coalition government has faced.

At present the House of Peers has virtual control of the Diet and can block the lower house on any point. A change in the powers of the two houses will be attempted. The essential objective, however, is a change in the manner in which the membership of the upper body is selected. At present half the members hold office by hereditary right, and the other half is equally divided between those appointed for life by the Emperor and those elected by large property-owners.

The proposed reform contemplates the reduction of the first half to about one third of the membership, to be elected by peers from among their ranks, and reduces the imperial appointees to the same number but for terms of only seven years. The remaining seats would be elective.

NEW MEMBER OF BOARD TALLAHASSEE, Jan. 30.—George Blidde of Bunnell has been appointed a member of the board of public instruction for District 1, Flagler county, succeeding J. L. Johnson, removed from the county.

JACKSONVILLE — Two new office buildings to be erected at Hogan and Monroe streets.

FORT PIERCE—Over 400 carloads of citrus fruit shipped out of St. Lucie county prior to January 7.

Broadcasting The Forthcoming Yowell-Drew RADIO

Construction Competition

To increase the interest in the most delightful and instructive of all the modern sciences we announce this Radio Construction Competition.

—In announcing this competition we are opening it to every man, woman and child in Sanford who is interested in radio receiving. It is the one opportunity that you will have of constructing a fine five-tube set, built by one of America's foremost radio manufacturers, that will enable you to receive every station on the American continent. The following information about this competition will interest everyone and it is our aim to enroll a great number of radio enthusiasts.

—We have just completed arrangements with one of the leading makers of fine Radio Equipment to supply us with all of the essential parts to build a limited number of receiving sets. The price at which we secured these unassembled sets was so low that it enables us to put them within the reach of every Radio enthusiast.

—Before we can start this competition it is absolutely essential that we secure a sufficient number who are willing to enter this competition and at the start there is nothing to pay unless we secure the desired number of entries.

—Our plan is as follows:—each week every competitor will be supplied with a part of the

set and will be given all instructions by which to assemble it. When the set is completed you will find that the cost is very small.

—At the end of the competition, that is when all sets are completed, we will give one prize for the best set in each class.

- Class A. Men and Boys over 18 years of age.
- Class B. Boys under the age of 18.
- Class C. Women and Girls.

—The completed sets will be judged by a committee that will be appointed by the Radio Club of Orlando. The prizes that will be given will also be selected by this same committee.

Visit the Victrola-Radio-Section, Third Floor, and register your name in this competition. Complete information about the plan will be given you then and the entire success of this feature depends upon the number who register. The competition will be under the supervision of Mr. Geo. Moffat, Jr., manager of our Radio Department.

DICKSON-IVES CO. 2-14 Orange Ave. Orlando, Phone 1106

RECRUITING FOR CAMPS
BIRTH AREA
 Military Training
 Will Care For Nearly
 A Month of Instruction
 During Summer Months

Jan. 30.—The recruiting for the 1925 military training camps of the birth area, comprising Georgia, Alabama, Tennessee, North Carolina, Louisiana and Mississippi, will be officially opened on Feb. 15, as announced by Col. J. H. Barrancas, in charge of the military training camps, which will open in the various birth areas from Feb. 2 to last for a period of 15 days.

Only 8,000 students are to be trained in the birth area, this being due to the limited facilities to care for a larger number, in 1924 more than eight thousand students received by the birth area from the eight states of the birth area, and it is expected that even a greater number will make application for this year, according to the various authorities to issue commissions calling upon the camps for the 80 and thereby gain a true citizenship.

It is not military training, but citizenship, said Barrancas, in commenting upon the camps.

Each student is called to his own community. He is to solve which of the various problems of the law and order, and a great deal.

During hours are devoted to sports and drills, and sports are entirely athletic and citizenship.

Every man may have a chance to gain admission to these camps, it was stated by Colonel Matthews, who is in charge of the distribution of the commissions.

The date for the opening of the camps, July 2, is more than a month distant, it was stated by Colonel Matthews, who has already had approximately 6,000 applications for the camps, and it is expected that the camps are to be held in the following birth areas:

Georgia; Fort Bragg, Camp McClellan, and Fort Barrancas. Students will receive the following instruction:

Fort Bragg: For basic and field artillery training, 900 students.
 Fort Barrancas: For basic and coast artillery training, 400 students.

There are three courses divided into the Red, White and Blue courses, the age limit being as follows: Red course, 17 to 25 years; white course, 18 to 25 years; blue course, 19 to 31 years.

Basic of first year students will be admitted between the ages of 17 and 24 years, it is stated.

First year men, or basic students, will be assigned to camps nearest their homes, without exception, while former students will be assigned to continue training in the last branch of service in which they were entered. Red course students will be permitted to choose their branch of service, however, there will be only a limited number of vacancies for cavalry and artillery, both field and coast. The greatest number of vacancies will be in infantry at Camp McClellan.

The purpose of the training camps, using the military meaning, is described as follows:

"To assemble ambitious young Americans for thirty days training, annually, in citizenship, military drill, self reliance, initiative, good fellowship and leadership, moral and spiritual conduct—how to work hard and effectively; how to play the game of life and win."

The applicant bears no expense whatever if accepted as one of the students—the government paying his transportation from his home and return, in addition to providing money allowances for food, while traveling, all accommodations after his arrival at the camp, and in case of sickness, expert medical attention, and if necessary, nursing. The government goes the limit, and pays the laundry bill of every student.

Only Americans citizens are privileged to attend the various camps, and foreign-born applicants wishing to serve must have taken out first naturalization papers, it is stated.

These camps were inaugurated by the late President Theodore Roosevelt, and in turn have been sponsored by the late Presidents Woodrow Wilson and Warren G. Harding, and lately by President Calvin Coolidge, as well as the leading churchmen and educators throughout the United States. Under the plans of the army, the sons of presidents and governors, and of farmers and laborers, all have an equal chance, and bunk side by side.

Another feature of the training camps is the fact that five military schools in Georgia, South Carolina and Tennessee, have offered scholarships, amounting to a reduction in fees from \$50 to more than \$200 to students this year who are chosen by their camp commanders for their general excellence in drill, athletics and conduct. The following are the military schools and the number of scholarships offered:

Riverside Military Academy, 1; Tennessee Military Institute, 1; Columbia Military Institute, 1; Gordon Military Institute, 5; and Georgia Military Academy, 1.

The student attending one of the four camps will miss nothing during the period that he would otherwise have in his home city. He will be required to take part in some form of athletics, while religious services are held every Sunday, and entertainment is provided.

Enters McClintock Probe

Miss Estelle Eleanor Cehling has injected a new element into the investigation of the death of William McClintock, Chicago's "millionaire orphan." She has handed to authorities four letters which she received from William Shepherd, foster-father of young McClintock, and drawer of the will which made him chief beneficiary. Chief Justice Harry Olson says the letters would be "decidedly important."

Chief Justice Harry Olson says the letters would be "decidedly important."

Rowell Will Inspect Statue of Dog Marks Monument To Woman

GAINESVILLE, Jan. 30.—Colonel Frank W. Rowell, R. O. T. C. officer of the Fourth Corps area, has arrived here for an inspection of the University of Florida military unit. The Florida unit is striving for the rank of Distinguished College class. Louisiana State University won foremost southern laurels last year with a rank of 85 per cent, while Florida finished with a fraction above 81 per cent.

DARIEN, Wis., Jan. 30.—A bronze reproduction of a pet Scotch collie dog, Lassie, tops the monument placed by Charles H. Langs at the grave of his wife, Mrs. Jennie H. Langs, in the little country cemetery here. Beneath the recumbent figure of the dog is this inscription: "Be Kind to Animals."

Lassie, a blooded collie, died several years before Mrs. Langs.

The Langs devoted much of their time and part of their income to the care of animals and humane work. Mr. Langs explained that in placing the reproduction of Lassie at Mrs. Langs' grave he not only regarded it as a tribute to his wife's memory, but believed it would be a lesson in the general subject of kindness to animals.

Man Dies for Assault Upon 10 Year Old Girl

MICHIGAN CITY, Jan. 30.—Peter Vorpolini, steel worker of Gary, Ind., was electrocuted at the state prison Friday for the murder of a ten year old Serbian girl whom he assaulted and strangled to death last September.

First President Of New York Giants Dies In Poverty At Seventy-Seven

NEW YORK, Jan. 29.—John B. Day, first president of the New York Baseball Club of the National League and founder of the Giants, who lost his fortune fighting to keep the Giants in the National League, died in poverty yesterday. He was seventy-seven years old and lived at 547 West 147th Street.

For years he had been a hopeless cripple as the result of paralysis, seldom able to earn the \$5 a day that was his as "inspector of players and umpires" each time he attended a game in New York, and utterly dependent on the pension of a few hundred dollars he received from the club. His wife was the victim of an incurable affliction, but somehow they managed to keep their heads above water and steer clear of any recognizable charity.

Mr. Day was a tobacco merchant of means when he entered the baseball business. He and James "Smiling Jems" Mutrie, his partner in the venture, each pitched a game for the Metropolitans, New York's first profes-

Man Must Be Hero To His Wife If Marriage Is A Success, Pastor Says

NEW YORK, Jan. 29.—A man must be a hero to his wife if his marriage is to be made a success, the Rev. Nelson Junius Springer declared Sunday in his series of lectures on the "Problems of Modern Marriage."

He urged preservation through all trials and tribulations of married life the illusions held by a bride and bridegroom. Springer said a man might fail to make the most of his opportunities or to discharge other duties and still retain his wives respect and love, but:

"Carelessness induced by a tendency to take one another for granted has led many husbands and wives to make a failure of their marriage venture. They must live together on terms of the greatest most complete intimacy and each must have enough of insight and delicacy to maintain in the mind of the other that complete approval on which love depends."

"A man may be guilty of all manner of error, shortcoming, inadequacy, fault and sin, provided that in the circumstances through which he becomes guilty there are no elements of cowardice, hypocrisy, laziness, caddishness, vulgarity or filthiness, weakness and mistaken judgment can be pardoned."

Dr. Springer declared that the very obstacles in the way of imparting information regarding the specific problems of a husband and wife illustrated precisely the sort of thing which must be eliminated from life if marriage is to fulfill its purpose and its promise.

"Coarse habits and expressions must go," he said, "whether they

Compulsory Labeling Of Products Sought

ST. PETERSBURG, Jan. 30.—The First Presbyterian Church is the latest addition to those in this city holding double preaching services each Sunday morning in order to accommodate the large crowds that attend services. The other churches have been observing this custom for several weeks.

Men are inferior in some ways but they can do without a wash rag.

Onrush Of Auto Is Depriving London Women Of Odd Job

LONDON, Jan. 30.—The whip-women of Covent Garden are going to abandon the precincts of this famous produce market for the same reason that the village blacksmith is becoming an automobile salesman. The whip-women are among the picturesque denizens that go along with this most picturesque market square, and for the last 300 years an unbroken line of members of their families have checked the whips of the produce growers who frequent this market.

This concession of whip checking, which has supported many families for so long a time, was granted to six ancestors of the present day whip-women in the sixteenth century when Covent Garden was really a convent garden of the Monks of Westminster, outside which the farmers brought their garden truck to sell. In that century half a dozen whip-women took charge of the whips of the farmers to keep them from the hands of thieves, and collected a penny from the owner at the end of the day. The number of whip-women has grown to 12 because some women left their share of

PRINCETON PROFESSOR IS HONORED

BERLIN, Jan. 30.—Dr. Ernest Cushing Richardson, director of Princeton University library, has been designated corresponding member of the Prussian Academy of Sciences in its philosophic-historical section.

What Is The Important thing in Childrens Footwear?

Some people say SERVICE
 Others FIT—

But we claim that it is necessary to combine the two.

Every active child is naturally hard on shoes that means QUALITY.

But they also require shoes that will allow the foot to develop properly that is where FIT plays the important part.

Our children's shoes are specially built to give service and design to give correct fitting.

**AS DECLARED TO
NEXT FUEL AS
OIL DISAPPEARS**

**Seeks Drastic Curtailment
of Oil Uses in Industry To
Result From Creation of a
Federal Conservation Board**

SAN FRANCISCO, Jan. 30.—A resolution in the methods of manufacturing gas in America is almost a certainty of the immediate future, was the prediction made here today by Harry C. Abell, of New York, president of the American Gas Association, in his opening remarks before the regular meeting of gas company executives. This will come about, the speaker declared, because the industry will be called upon to replace the nation's fuel supply of oil with gaseous fuel in industrial heating.

Mr. Abell bases his prediction on President Coolidge's recent action in the creation of the Federal Oil Conservation Board. He interprets this to mean rapid, and probably drastic, curtailment of the use of oil in industrial heating processes where it now furnishes perhaps 90 per cent of the fuel supply where gas could be used.

The estimated available and producible oil in the United States is 2,000,000,000 barrels and the present rate of annual production is 200,000,000 barrels, Mr. Abell said. "It is apparent, therefore, that the supply will last only 12 years. A strict conservation program, national in scope, seems to be the only solution, and such a program means that the industrial plants of the nation will be obliged to turn to manufactured gas for their requirements.

"This means that in ten years the gas output will increase at least 100 per cent and probably a great deal more, and 20,000,000 customers of gas companies."

Mr. Abell warned his hearers of the tremendous task ahead in producing to satisfy this demand, to provide new methods of generation and even to build the requisite additional gas manufacturing equipment. Another problem that must be met and solved, he said, was such adjustment of rates to the public that each customer shall pay the costs he causes the company and not force the industrial user to pay not only his own share but also the losses incurred from those who pay less than their share.

Progress in the gas business during the last two decades has been a record of peak after peak, with three times as much gas consumed during the last ten years as during the preceding ten, the speaker declared. A striking fact is that while the household use of gas increased 100 per cent in the last ten years, the use of gas in industry jumped 1,000 per cent.

"We have got to make plans for industry three times its present size. If gas service does not

replace industrial use of oil this year, the change will be made next year or the year after. It is inevitable. To be able to take on this business we must obtain hundreds of millions of dollars of new capital; we must make gas quicker, and make it in larger quantities; we must have the full co-operation of the regulatory bodies, and we must adjust rates so that the cost of service will be equitably proportioned among all classes of customers."

**Submarine S-48 Is
Held Fast In Mud
Near Portsmouth**

PORTSMOUTH, N. H., Jan. 30.—Submarine S-48, the second States undersize vessel to come to grief on the New England coast in the past three weeks, was fast in the mud in Little Harbor, near Jeffrey Point Friday, after a night of desperate peril of his officers and crew of 46 men. The men are suffering from exposure, their clothing frozen, being taken off this morning by coast guardsmen.

PORTSMOUTH, N. H., Jan. 30.—The United States navy submarine S-48 went aground off this port Thursday night, according to a wireless message received at Kittery navy yard here. Attempts to locate the distressed craft have been unavailing because of a heavy blizzard sweeping the coast in this vicinity.

On Whaleback Beach.
BOSTON, Jan. 30.—The United States navy submarine S-48 went aground at the entrance of the harbor of Portsmouth, N. H., according to a radio despatch received at the Boston navy yard.

A further message picked up at the navy yard here stated that the submarine had grounded on Whaleback beach, off the harbor entrance. The commercial tug Michael Daly and the navy tug James Wooley were reported speeding toward that point. The tender Chewink, and another submarine, the S-51, were reported anchored near by.

**First Unit of Library
Is Nearing Completion**

GAINESVILLE, Jan. 30.—The first unit of the University of Florida's new library building will be ready for occupancy within the next month, according to present indications. This unit, constructed at a cost of \$100,000, will contain reference rooms and library offices on the second floor, and conference rooms, debate hall, typewriter rooms, receiving room, vault and reserve book room on the first floor. It is 167 by 46 feet and has seating accommodations for 300 students in the reference room and 200 in the reserve book quarters.

Once Dad's pants were cut down to fit Willie. Now they are not even cut down to fit dad.

**With Stomach Gone
Man Eats, Improves**

BALTIMORE, Jan. 29.—The stomach removed a week ago in an operation at the Johns Hopkins Hospital, a man is taking food regularly and apparently is recovering. It is the first instance of such an operation being performed successfully in Maryland, according to Dr. J. M. T. Finney, surgeon in charge of the case.

Operation was found necessary because of a tumor. A section of the intestines has enlarged to serve as a stomach. Dr. Finney said that only thirty two such operations had been performed, and that of those one-half were successful. The patients developing normal appetites and living many years.

**Hotel Man Speaks
To Huge Crowd At
Coral Gables Forum**

MIAMI, Jan. 30.—John McEntee Bowman, of the Bowman-Biltmore Hotel Corporation who is at Coral Gables perfecting his last minute plans before construction begins on his newest addition to his string of hotels, spoke at the Coral Gables parents' day on "The Miami-Biltmore Hotel at Coral Gables."

Mr. Bowman began his talk by saying: "It is hard to always be successful, it is hard to always be right, but when a man reaches my age, has had my experience and is handling the big things in the big way that I have to, it is absolutely imperative that I be right."

"This is especially so in the hotel business and I believe that I am at that stage in life where I must be right and that I can not afford to make a mistake. Today Bowman-Biltmore Hotels represent an outlay of fifty million dollars; within five years with the additions to our string of hotels it is not exaggerating a bit to say that our hotels will represent one hundred million dollars and every one of these additions have got to be right, have got to be successful."

"One of the best things about Miami, about Coral Gables is that it has no knockers. When I made the statement that I intended to build by greatest hotel at Coral Gables not a single person told me that I was wrong; on the contrary hundreds have told me how right they thought I was."

INSTALL JEWISH PRAT.

GAINESVILLE, Jan. 30.—Delta Epsilon Phi, local Jewish fraternity organized about a year ago, will be installed during the first week in February, it is stated, as a local of Tau Epsilon Phi, national honorary fraternity for Jewish students. Members of the local chapter are B. J. Minnan, William Edelstein, Morris Bennett, J. V. Safer, Joe Swartz, Aaron Kanner, Morris Solomon, Marcus Edelstein, Frank Williamson and pledge Joe Shapiro.

**VOLUSIA COUNTY
FAIR FORMALLY
OPENED TUESDAY**

**Crowds Throng Fair Grounds
on Opening Day of What is
Declared Greatest Fair in
History of Volusia County**

DELAND, Jan. 29.—By far greater than the initial showing of last year, the second annual Volusia county fair opened its gates promptly at 10 o'clock, Tuesday morning, with all displays, entertainments and exhibits complete in all departments, and not a single vacant space in any of the 10 major exhibit buildings. The fair will close Saturday night.

A slight haze was apparent when Deland awoke Tuesday morning, but by 9 o'clock Old Sol shone forth in all his glory and the day was bright and clear, with promise that this section of the county will have a favorable brand of weather throughout the week.

Although large crowds thronged the fair grounds on Sunday and Monday, many automobiles encircling the new race track for the first time, visitors eager to get a glimpse at the new buildings and the preliminary preparations, even those people were surprised at the great change wrought by a night of labor by hundreds of exhibitors, showmen and the clerical force, for the "wee small hours" had arrived this morning before many of the enthusiastic ones had retired to their homes with a feeling that "all is well." This morning the fair grounds was a veritable fairland, with all its colorful banners, great displays of agriculture, horticulture, floriculture, fine arts, educational exhibit, the great Johnny J. Jones shows, livestock, automobile and poultry buildings literally crowded with the best displays citizens of the county were able to produce.

One of the most beautiful spots on the fair grounds is the area surrounded by the great exhibit buildings, where during the summer months landscape artists busied themselves in the beautification of grounds by the planting of grass plots, flowers, trees, and shrubbery.

In tent-like shape thousands of electric lights form a canopy over this central park and further enhance the beauty of the scenery. The landscaping was done under the supervision of Norman P. St. John.

At the entrance to the fair grounds stands the great arch of Spanish-Moorish architecture in stucco and redbond, with its great dome painted a brilliant yellow. Immediately behind this is the new office building in conventional design and of redbond construction, where the clerical work of the fair association is being carried on by a large corps of assistants to Secretary-Manager, Earl W. Brown.

Ten Reasons Why

YOU SHOULD INVEST IN

OAK HILL

1. AN N. H. GARNER PROJECT

Oak Hill is owned and developed by N. H. Garner, a long time resident of Sanford who knows property values.

2. COMPLETELY IMPROVED

Oak Hill will be provided with telephone, electric light, water, sewerage and beautifully paved streets, and every convenience of modern life.

HIGHLY ELEVATED

As its name implies Oak Hill is a high and well drained piece of ground which makes it a beautiful location for homes

4. BUILDING ACTIVITY

Work on the construction of the first residence in Oak Hill began last Monday. Other lot purchasers plan to build very soon.

BEAUTIFICATION

Streets in Oak Hill now being paved are flanked by beautiful overhanging palms. Many gorgeous oaks throughout the subdivision lend beauty and shade.

6. THE GROWTH OF SANFORD

The rapid expansion of Sanford will soon envelope Oak Hill and make of it a most popular residential district for those with business in the city.

7. SUPPLY AND DEMAND

So great has been the demand for Oak Hill property that 15 lots were sold on the first day of sale. Immediate action is necessary if you wish to participate in the substantial profits that will be made here.

8. LOW PRICE

An investigation will disclose the fact that Oak Hill lots can be purchased at a lower price than any other lots of similar worth in the city.

9. TERMS

\$25.00 cash will provide you with a contract for one of our lots and the opportunity of doubling your money in the next six months.

10. STRATEGIC LOCATION

Oak Hill is located at the corner of Geneva and Mellonville Avenues, both of which are soon to be paved. Geneva Avenue will then become the outlet for that fertile garden land, east Sanford.
