

TAYLOR TALKS ON CANDIDACY AT CITY HALL

Large Senator Makes Appeal For Support Of Semi-amic Voters In Governor's Race

Senator John S. Taylor, of Largo, last night made his appeal for the support of Seminole County's voters before an audience of between 50 and 75 persons scattered through the big City Hall Auditorium. The senator spoke for a little over 45 minutes.

During his entire talk, he mentioned the names of none of his opponents and neither directly nor indirectly made any charges against any of them with the possible exception of veiled jabs at Hathaway and Catts.

He reviewed his eight years in the State Senate and three terms in the House of Representatives, outlined the seven-plank platform on which he is making his race and said a man's private life was the most important thing to consider in selecting a governor.

His allusion to Catts came near the end of his speech when he said the stories being circulated by "some of the Florida cities were suffering because of the closing of the race tracks were absolutely untrue. He said St. Petersburg, which had tracks and every hotel room during the 1926-1927 season, had no tracks and crowded hotels the past winter season.

"If anybody tells you it is necessary to have these institutions," he said, referring to new tracks of gambling establishments, "they are not telling the truth. Such statements are a reflection on the intelligence of the people of Florida."

At the opening of his talk, he said that "good roads" was not an issue in this campaign because all the candidates and everyone else in Florida wanted them. In Senator Taylor's opinion, "There will be good roads with or without me," he said.

Without mentioning Hathaway's name, he said that of many candidates for governor, he would support the man who would build the most miles of road in the least money, keeping the pad department a business institution, and keeping it out of politics.

In school situation he believes the real problem confronting the people. He said the one cent gasoline tax to provide revenue for schools was only a temporary measure, but he would attempt to have it made permanent if he were elected governor. He said if the one cent gasoline tax was permanent, it would cost four mills for them, and the legislature appropriated the money to build them, decided where they should be built and when they should be built. The talk, he said, should be more about what "we've done" than about what "I've done."

President Signs Jones-Reid Bill

WASHINGTON, May 15.—(INS)—A little more than a year after the disastrous Mississippi Valley flood, the \$325,000,000 Jones-Reid Flood Control Bill today became a law. President Coolidge affixed his signature at the White House shortly after 12:30 P. M. No one was present in the office when President Coolidge picked up a pen from his desk and wrote his name on the document.

ASPIRANTS MEET AT LONGWOOD TO SOLICIT SUPPORT

Thirty-Three Candidates For Offices Deliver Appeals To Crowd Of Citizens; George De Cottes Extends Welcome

Thirty-three candidates invaded Longwood last night to make their appeals for support to the citizens of that community. George A. De Cottes, Sanford city attorney, made the speech of welcome to the candidates and the out-of-town visitors who attended the meeting.

The only new development in the rally was the appearance of County Commissioner Frank Evans, of Lake Mary, in his first speech of the campaign. He declined to speak at all the meetings until the one last night. His two opponents, W. B. Bellard and J. M. Douglas, followed him on the platform.

Judge J. G. Sharon and his opponent S. A. B. Wilkinson were the first speakers. They were followed by John G. Leonard, county prosecutor, and his rival for the nomination, Municipal Judge Weymouth E. White.

Other county commissioners who spoke beside Mr. Evans, Mr. Ballard and Mr. Douglas were D. H. C. Ralston, S. E. Long and J. T. McLane. They were followed by J. M. Chaffey and O. P. Hornum, the only two candidates for justice of the peace to appear.

Following the candidates for justice were the aspirants for constable: L. A. Tate, R. C. Wiley, Leslie Bryan, and E. Kinlay. T. W. Lawton superintendent of public instruction and his opponent Mrs. M. M. Maxwell, followed candidates for the legislature: George W. Entwistle, M. M. Lord, R. W. Pearson, J. L. P. Hogan and J. B. Lyle. Candidates for sheriff who talked were E. P. Brady, E. E. Walker, J. E. McPherson and Sheriff C. M. Hood.

A. Vaughn, present tax assessor, was followed by his two opponents, Joe Cloutenden and E. H. Kilbuck. Vance Bondless, clerk of the circuit court, R. R. Deak and D. L. Thrasher spoke for their office.

James J. Parish of Titusville, candidate for reelection to the state senate, was the only candidate for office outside the county to speak.

Mrs. J. D. Roberts Dies Here; Lived In Sanford 20 Years

Funeral services for Mrs. J. D. Roberts, 69 years old, who died at her home, 116 Laurel Avenue, last night, will be conducted by the Rev. W. P. Bohannon, pastor of the First Methodist church of which she was a member.

Mrs. Roberts had been a resident of Sanford for approximately 20 years. She came here from North Carolina. She is survived by her daughters, Mrs. Margaret Roberts, Mrs. Morris Spencer, Mrs. Ernest Gernley, of Sanford and Miss Jessie Street Roberts, of Wilmington, N. C.

Mrs. Roberts had been seriously ill for some time, according to her friends. Yesterday her condition became weaker and she died at 6:55 P. M.

MELLON TALK SHOWS HOOVER HAS SUPPORT

Secretary's Remarks Dispel All Doubt That Delegates From Pennsylvania Will Go Strong For Cabinet Member

Andy Believes Herb Is Best Man In Race

Opponents To Hoover's Selection Claim He Could Not Defeat Al Smith (Nominated)

WASHINGTON, May 15.—(INS)—The Capital wrote to Pennsylvania's 73 votes in the Arkansas City Convention into the Hoover column today. Almost the last lingering doubt that the Mellon-Vare organization will go solidly for Hoover was dispelled today by Secretary Mellon's amplification of his Philadelphia statement.

"I don't see any reason for any doubt as to what I meant," said the Secretary. "I wrote plain English. I think Mr. Hoover can win if he is nominated, and I think he will make a good president. Many things can happen between now and the convention, and for that reason it was thought unwise to make final commitment so far in advance."

The one thing that apparently can switch Pennsylvania from Hoover, it was indicated, would be for President Coolidge to consent to stand again. And that is a very remote possibility, not only in Mr. Mellon's opinion, but in the opinion of every politician in Washington.

Mr. Mellon has had numerous callers since he returned to the Capital. To them he has explained that with President Coolidge out of it he doesn't believe the Kansas City Convention can logically go for Hoover. He considers that the party must go to the country in the approaching campaign on the record of the Coolidge Administration, and he believes it would be entirely logical for the convention to nominate a candidate who has disagreed with Coolidge policies as have both Lowden and Dawes.

The defeatist talk of the anti-Hoover allies has impressed Mr. Mellon much. In discussing this phase of the campaign, Mr. Mellon observed that in the heat of a party convention light there are usually harsh words and intemperance, but that opposition usually evaporates after the convention. He observed and he believes it will be the case of the approaching campaign.

Nevertheless, the hard-boiled "tailies" are going to push the "Hoover can't win" line of attack vigorously for the next few weeks. It is their one big hope of stopping the Cabinet candidate—to convince the party leaders that Hoover cannot carry the rebellious grain belt states, and that he will lose to Al Smith in the populous and wet Eastern states.

The two South Dakota senators, Norbeck and McMeister, are persistently pushing this line of attack. The Republican Party, McMeister said, has always had to rely upon the "northern Republican" states of the Middle West to put it in power and to keep it there, and in his opinion the support of the corn belt is all the more vital this year because of Al Smith's admitted strength in the East.

Sharp Debate Takes Place In Senate On Prohibition Issue: Bruce Flays South

WASHINGTON, May 15.—(INS)—An acrimonious debate on the wet and dry question developed in the Senate today as a result of criticism leveled at the shooting of Jacob D. Hanson, of Fort Niagara, N. Y., by two coast guards, Senator Copeland (D) of New York, presented resolutions urging that the guards be prosecuted. He characterized the affair as an "outrage." "Our roads are no longer safe," Copeland said. Copeland's attack brought Senator Bruce (D) of Maryland, to his feet to declare the whole system of prohibition was based on tyranny. "This system is contrary to human reason and human nature," Bruce said. "It is based on a hypocritical stand." "It is a hypocritical stand," he said. "In South Carolina there is one still to every 240 citizens."

ACROSS NATION PLANE SERVICE TO BE REALITY

Forty-Eight Hour Schedule To Be Maintained By Company Which Is Forming Plans For Coast To Coast Air Routes

Passengers Will Be Carried
On Trains At Night And Day
Giant Airplanes LandingBy

NEW YORK, May 15.—(INS)—Eight hour service from coast to coast for the travelling public of the United States will soon be a reality. Announcement is imminent that it became known today, of the organization of a transcontinental air and railroad system, capitalized at \$5,000,000, which will undertake to cut down the time it now takes to cross the country.

Linked in the reorganization are the Pennsylvania Railroad and the National Air Transport. The new organization will be headed by Santa Fe railroad, the National Air Transport and the Boeing and Western Air Transport companies. The object of the company will be to provide a regular forty-eight to fifty-two hour passenger service from New York to San Francisco. The regular schedule from New York to Los Angeles will require forty-eight hours. Later the service will be extended to San Francisco. Passengers will be carried on trains at night and on planes in the daytime.

The new train-plane organization will be headed by C. M. Keys, president of the Curtiss Aeroplane and Motor company. Colonel Charles A. Lindbergh was expected to head the company when it was in the formative stage but declined. It is understood that he explained that while he saw in such a combination of services the swift advancement of aviation he reiterated his frequently expressed intention of not becoming financially interested in any individual aircraft company, at least not for the present.

Present plans call for the following method of traveling: Passengers bound for the west coast will enter from New York to Columbus, Ohio, fly from there to Wichita, Kansas, down a train to a point in New Mexico, and then fly to Los Angeles. Plane-train service from Columbus to points south and northwest is planned as soon as the transcontinental route is established. Yuhelquay, 20141

Financing of the new company is in the hands of Hayden, Stone & Company, Blair and Stone & Company, Knight Glanville & Deart of St. Louis, J. C. Willson of Louisville and other banking houses.

The standard scheduled time for the transportation of air mail across the United States today is thirty-one hours. It is now planned to reduce that upon the new traffic service to be built. No definite date has been set for the inauguration of the new transportation system.

The tentative schedule which has been worked out, however, calls for the passenger to go aboard a limited train at the Pennsylvania Station in New York City at six o'clock in the evening. He arrives in Columbus at about eight the next morning. There he will board a multimotored passenger air liner, built for a cruising speed of more than 100 miles an hour and equipped with restaurant service furnished by the Fred Harvey Restaurant System.

At Wichita, the passengers will leave the planes and board a west-bound limited of the Atchafalpa. He will be on the train through the night, changing once more to a plane in the morning at some point in New Mexico. At five o'clock in the afternoon he will land at the Los Angeles airport.

An east-west schedule, equally fast, has been worked out although details have not been revealed. "There is no dearth of passenger business for air lines," said Colonel Paul Henderson, president of the National Air Transport, this morning. The passenger travel on air lines has come a great deal faster than we expected and much faster than we have been able to handle it. The business of the future is most promising."

DETECTIVES SEEK JEWELS

NEW YORK, May 15.—(INS)—Detectives were engaged in an apparently hopeless search today for the driver of a taxicab in which Mrs. Alfred H. Chapin, member of a wealthy Springfield, Mass., family, left an overnight bag containing jewelry valued at \$100,000. The only clue furnished by Mrs. Chapin was that the cab was painted yellow.

British Ace Plans Atlantic Hop When Weather Permits

LONDON, May 15.—(INS)—Capt. Frank T. Courtney, British ace, is expected to hop off for America in a flying boat just as soon as weather conditions permit, it was learned this afternoon. Courtney has been making secret preparations for the flight and is said to have his arrangements practically perfected. There will be three persons in the plane. It is believed that Courtney will follow the same route he planned for his flight last year. At that time he got no further than the Azores, due to storms. He expects to land at the Azores for fuel and then hop off on a non-stop flight to New Foundland. The plane will be equipped with wireless.

YOUNG MEN WILL SEEK RECORD FOR WORLD GIRDLING

Will Attempt To Establish New Speed Mark For Trip Around Globe Will Travel Most Of Way By Airplane

NEW YORK, May 15.—(INS)—Attempting to set a new speed record for a trip around the world, John Henry Mears, theatrical producer, and Charles B. D. Collyer, stunt flyer of Richmond, Va., will leave here June 9 to circle the globe by airplane and ship, they announced today.

The two hope to be back in New York, after their 20,000 mile journey, in 21 days. Mears held the former record for a round-the-world trip, having completely circled the earth in 35 days in 1913. This mark stood for 13 years, the Evan-Wells expedition making the trip in 35 days in 1926.

Mears and Collyer propose to hop off here at daybreak, the morning of June 9, in their "folding plane," the City of New York. They expect to catch the liner, the De France, 200 miles at sea and complete the trans-Atlantic journey on that ship.

After flying across Europe, Russia and the Orient their schedule would place them in Tokyo in time to catch the "Empress of Canada" for Victoria, B. C., where they would take the air again in the last series of flights to New York.

Collyer is still well known in aviation circles and was the first man to fly between Chicago and Minneapolis at night, having accomplished this feat in 1923. The Soviet Government has consented to aid the flyers in their trip across Russia and Siberia they say.

Winner Of Beauty Prize Faces Charge Of Being Firebug

NEW YORK, May 15.—(INS)—The shapely "Miss Mobile of 1926" who was voted the country's third most beautiful girl at the Atlantic City bathing beauty pageant, today faced the charge of being a firebug.

She was scheduled for arraignment in Washington Heights court, accused of having burned down a six-family apartment house in Media, Pa., as revenge for the landlord's impounding of her trunks for not paying the rent.

When she won honors "Miss Mobile" was Miss Vivian McDowell. Now she is Mrs. D. L. Page, wife of former aviation lieutenant. She is twenty-three and, according to police, left her husband several weeks ago because his salary did not keep her wardrobe in the style she desired. "Miss Mobile" denies that she was a firebug. Page, to whom she was wed in St. Petersburg, Fla., manages an ice cream plant at Media.

CITY FATHERS PREPARE SALE OF BOND ISSUE

City Commission Takes Steps To Sell Municipal Bonds Under Refinancing Plans

Part Of Money
For Paving Work

Investigation Will Be
Made Into Remedy
Of Crossing Danger

Preparation for the sale of \$444,000 in municipal refunding bonds under the refinancing plan worked out last Fall was ordered by the City Commission at its regular meeting yesterday afternoon. Between \$300,000 and \$400,000 of the authorized \$1,750,000 paying bond issue will also be offered for sale by the commission to finance the work of finishing paving of a number of streets now only partly completed.

The commission ordered City Attorney George DeCottes to proceed at once with the legal steps necessary before the bonds can be sold. Approximately \$150,000 in bonds to cover interest has been added to the refinancing issues originally planned, according to tentative figures prepared by S. G. Gray, city expert accountant. The \$150,000 will go to pay interest which cannot be paid from taxes because of the small amount of the anticipated total collected.

The small issue of paving bonds, according to the commissioners, will permit the completion of paving on a number of streets and the levying of assessments against property owners who are paying nothing on the nearly completed roads adjacent to their property. The spending of \$300,000 or \$400,000 in the commission's opinion, will permit the collection of between \$100,000 and \$300,000 in paving assessments.

The commission also authorized legal action against property owners who have paid their 1928 personal taxes. Attachments will be levied against the taxpayers if such a step is necessary under the commission's order.

The resignation of Mrs. S. O. Shinhohler from the library board was accepted by the commission. In a letter to them she tendered her resignation because, she said, the commission had acted without consulting the board on various occasions.

Emory S. Martin, In Letter, Denies He's Catts' Backer

Emory S. Martin, candidate for State Comptroller, flatly denied today that he is a supporter of Sidney J. Catts in a letter received from him by The Herald. In his letter, he declares:

"You have misquoted me in this matter. I am not supporting any candidate for Governor and am not interested in their race. This is a matter for the voters to decide for themselves and there is no candidate that will tell you that I am supporting either of them. If I can win my own race, I will certainly be satisfied and shall expect every voter to use their own judgment and vote for their choice for governor."

Blaze In Dormitory Results In 1 Death And Three Injured

SPRINGFIELD, Ohio, May 15.—(INS)—One co-ed was burned to death, and three others injured, in an early morning fire which partly destroyed Woodlock Hall, small dormitory which houses 23 young women, on the campus of the Wittenberg College here.

Hilda Sipe, freshman of Shelby, Ohio, was burned to death. College authorities expressed the belief Miss Sipe fainted when trying to escape. The body was recovered by firemen. First reports which said Miss Alice Olde, of Detroit, was seriously burned were said to be untrue. Miss Olde is very nervous and suffering from shock, the university physician said.

Sanford Boy Given School Scholarship

Merlin C. Barnes, graduate of Seminole High School last spring, has been awarded a scholarship at Rollins College at Winter Park for the coming year, according to a report received here today from the school. Barnes is a freshman at Rollins this year. He has been manager of the varsity football and basketball teams, member of the varsity crew, class president, and a worker in the school Y. M. C. A. The scholarship was awarded on high scholastic standing, outside of all-round ability.

RICH CHICAGOAN AIRS OPINION ON AIDING CHARITIES

Explanation Comes On Heels Of Announcement Of Julius Rosenwald That He Has Added 2 Million More To Fund

CHICAGO, May 15.—(INS)—The unique philosophy which guides Julius Rosenwald in his world-famous philanthropies was announced today in explanation of Mr. Rosenwald's latest gift of \$2,000,000 to charity. The doctrine in a nutshell is: "Do good now."

In announcing the \$2,000,000 gift to the Julius Rosenwald Fund, the famous "mail order" millionaire requested that the fund, exceeding \$29,000,000, be expended within 25 years after his death. Mr. Rosenwald explained that it is his belief that future generations should provide for their own philanthropic needs. He feared long-time endowments and trust funds and asked that charity be dispersed where it is needed in the present.

"Times are changing so rapidly it is impossible for us to predict what the need of future generations is going to be," he said. "For that reason I have called trustees of the Rosenwald Fund to give away the entire fund of more than \$30,000,000 within twenty-five years after my death."

Mr. Rosenwald said he realized that such a stipulation was contrary to current practices, adding: "I believe, however, that the greatest good can come through the use of the entire sum, both principal and interest, by the present generation. In keeping with that ideal I have refrained from establishing endowments for universities and other institutions to which I have given gifts apart from the fund."

"Who knows," he concluded, "some day our university will be self-supporting?"

FLYER RELATES THRILLING FIGHT WITH PASSENGER

Account Of Hand-To-Hand Battle With Hammer-Swinging Man 2,000 Feet In Air Is Told By Aviator After Airplane Falls

PONTIAC, Mich., May 15.—(INS)—The thrilling story of his three hand-to-hand battles with a hammer-swinging passenger, 2,000 feet in the air was related today by pilot Harry Anderson, 28, before he fell into a deathlike stupor.

The passenger, Clarence Frechette, 24, has been under police guard at the city hospital since he was pulled from the wreckage of the plane on the grounds of the Pontiac Insane Asylum. "Frechette met me Sunday at Roseville and asked me to take him to Pontiac yesterday," Anderson said.

"While flying the machine I looked over my shoulder and saw Frechette swinging on me with a hammer. The hammer landed my useful blow on the side of my head. I felt the plane go into a spin as I lost consciousness. I recovered sufficiently to pull the plane out of the tail spin when we were close to the ground. But I couldn't keep her from crashing."

Anderson's story was obtained by officers as he went to the operating table. Because it was feared he might not live to make a complete report against Frechette, Anderson's story is fractured, it is believed, and he suffered severe cuts.

Financing of the new company is in the hands of Hayden, Stone & Company, Blair and Stone & Company, Knight Glanville & Deart of St. Louis, J. C. Willson of Louisville and other banking houses.

The standard scheduled time for the transportation of air mail across the United States today is thirty-one hours. It is now planned to reduce that upon the new traffic service to be built. No definite date has been set for the inauguration of the new transportation system.

The tentative schedule which has been worked out, however, calls for the passenger to go aboard a limited train at the Pennsylvania Station in New York City at six o'clock in the evening. He arrives in Columbus at about eight the next morning. There he will board a multimotored passenger air liner, built for a cruising speed of more than 100 miles an hour and equipped with restaurant service furnished by the Fred Harvey Restaurant System.

At Wichita, the passengers will leave the planes and board a west-bound limited of the Atchafalpa. He will be on the train through the night, changing once more to a plane in the morning at some point in New Mexico. At five o'clock in the afternoon he will land at the Los Angeles airport.

An east-west schedule, equally fast, has been worked out although details have not been revealed. "There is no dearth of passenger business for air lines," said Colonel Paul Henderson, president of the National Air Transport, this morning. The passenger travel on air lines has come a great deal faster than we expected and much faster than we have been able to handle it. The business of the future is most promising."

HELFIN CONTINUES ATTACK

WILSON, N. C., May 15.—(INS)—Senator J. Thomas Helfin, the fiery Senator from Alabama, invaded North Carolina for the second time within a month to continue his attack against the Democratic presidential nomination of Governor Al Smith of New York.

Historical Events To Be Enacted At Maryland Capital

ANNAPOLIS, Md., May 15.—(INS)—Historical events in the early colonial history of Annapolis are being re-enacted today at a colonial day festival at the state capital. Thousands of Marylanders and out of state visitors are included in the throngs that are in this quaint little city on the Severn River.

President and Mrs. Coolidge will honor the occasion with their presence today. They will see Gen. George Washington resign his commission in the old state house, and witness six other episodes of the pageant. Governor Ritchie and the governors of the other twelve original states will greet the President upon his arrival.

PASSES CRISIS

BERLIN, May 15.—(INS)—Physicians attending Foreign Secretary Gustave Stresemann said today they believed he had passed the crisis of his illness last night. The patient is suffering from stomach and intestinal catarrh fever complicated by a kidney infection.

LAKE WALES

Bids asked for dredging, ship channel and turning basin of local port to depth of 22 feet.

Famous Yachtsmen Form Plans For Ocean Race To Spain To Be Held In June

BOSTON, May 14. (INS)—With the entry of yachts flying Spanish colors in both major and minor classes, the ocean race from New York to Santander this summer, for the King Alfonso XIII and Queen Victoria Cups, will be much more of an international affair than at first anticipated.

The lavish entertainment that will be extended not only to the hardy mariners, but to less daring Americans who will make the trip following the yachts in a Spanish steamer. It is probable that those on the steamer will see something of the contest on the way over.

When the race committee held its Spring meeting at Washington on May 1st, thirteen able craft were on the rolls, the only withdrawal being the little schooner Diablo which failed to start from Los Angeles early in April, as planned.

Three new boats were entered in the Spring. The first of these was the steel schooner Meteor II which was built for the German Emperor, and launched at Shooter's Island, N. Y. in March, 1902. She was purchased recently by a Spanish yachtsman. She is 161 feet overall and 120 feet on the water line. It is likely that she will be given a Spanish designation for the race.

The Spanish Maria amateur yachtmen negotiated for a smaller American built schooner which they will sail in the Queen Victoria cup class. It will bear the name of Santa Maria, which completes the Columbus trio, as the Pinta formerly the Nicamoris fitting out at City Island, N. Y., for William J. Curtis of New York while the Nina which will fly the colors of Paul Hammond of New York was launched at Monument Beach, Mass., late in April.

The third of the early Spring entries was the bronze schooner

Azara. She will carry the colors of George F. and Francis Baker of the Detroit Yacht Club.

At the May meeting of the race committee it was announced that the official distance for the races of both classes is 3,055 miles from the Ambrose Channel Lightship off the entrance to New York Harbor of Mouro Island just outside of Santander, taking the great circle which passed fairly close to Sable Island. It is expected, however, that most of the yachts will take a more southerly course in order to secure more favorable winds and to avoid as much as possible the ice fields.

The smaller craft, between 55 and 35 feet waterline, will be sent away at noon on June 30, with the usual signals of ten and five minutes before the start. These yachts will sail on a rating similar to that used in the Bermuda race the week before, but without a propeller allowance. They may lug all the sail they wish.

The large yachts will leave exactly a week later and will sail flat. It is expected they will overhaul the little fellows somewhere off the Day of Biscay.

Private Signals

All the yachts will carry numbers and private signals and will burn green, red, and green lights on crossing the finish line at night.

The race committee of the New York Yacht Club composed of Gheradi Davis, Clinton Mackenzie and Edmund Lang will start the boats, while at the finish will be the Spanish race committee made up of Victoriano Lopez Doriga, president, Enrique Careaga and Eduardo Ubao, secretary.

Entries for the Queen Victoria cup will close on June 23, but the books for the yachts for the King Alfonso XIII cup will remain open until July 5, two days before the start.

OPPOSITION TO HOOVER WORKS TO STEM TIDE

(Continued from page 1)

chief opponent, Lowden will enter the Kansas City convention with to be stopped it is Lowden who must be the rallying post for the some 200 votes, and if Hoover is opposition, at least in the early balloting.

"The allies" were admittedly surprised and discomfited by Secretary Mellon's public pat on the back for the Hoover candidacy, but at that they managed to extract some small comfort from the manner in which it was done.

Secretary Mellon clearly revealed that he still has hopes of the fact that he insisted that Pennsylvania's powerful bloc go to Kansas City unpledged and uncommitted was regarded by the allies as a significant and favorable omen.

An interesting story was going the political rounds in Washington today concerning the reason for Secretary Mellon's statement at left Washington, it was said that Philadelphia. When Mr. Mellon had no intention of making the statement which he subsequently made. He had not planned to mention the names of any candidates, but intended merely to compliment the administration of President Coolidge, and let it go at that.

Upon arriving in Philadelphia, the story goes, it was found that the anti-Mellon element in the organization had planned a surprise in the shape of a resolution endorsing the Hoover candidacy. This would have been embarrassing, and might have provoked a real row. In such circumstances, the trouble was averted by Mr. Mellon's agreeing to make the statement in the manner he did.

Herb Hoover Begins Short Vacation in Pennsylvania Town

WILLIAMSPORT, Pa., May 14. (INS)—Secretary of Commerce Herbert Hoover today was to continue his journey to Ognotz, the summer estate of Jay Cook, Jr., of Philadelphia, about 12 miles north of here, where he will spend several days of rest.

Hoover arrived here early last night by motor. He was accompanied by Lawrence Richey, his assistant; Mr. and Mrs. Henry O'Malley, former commissioner of fisheries; and G. C. Leach of the Federal fish culture bureau. They spent the night at the Park Hotel here.

O'Malley and Leach will attend the state convention of the conservation council which opens here today while Hoover and his assistant will go by automobile to Ognotz, located near Salladshutz. The Secretary of Commerce will also visit the Texas Fish and Game Club, located along Larry's Creek, for a fishing excursion.

Hoover refused to discuss politics, saying he was there for a rest and that he had left all politics in Washington. Cook arrived late Saturday night and was at Ognotz today awaiting the commerce secretary.

Police Continue To Hunt C. E. Myers Car

City police and the sheriff's office today were still searching for the Dodge Coupe belonging to C. E. Myers, president of the Inland Supply Company, which was stolen from in front of the Milane Theatre last Monday night. Reports have been received from a number of persons that the car has been seen in Sanford but all efforts to locate it have proved futile. The car was green and had wire wheels. It was practically new.

Tractor Trains For Africa

Highway freight trains consisting of tractors and trailers are being tried out in South Africa. The government, which has charge of railway transportation, is conducting the experiment. Building material, merchandise, fruit and other heavy classes of freight are being hauled.

(Legal Notices)

FRED T. WILLIAMS, CIVIL ENGINEER, Sanford, Florida.

BIDS FOR ROAD CONSTRUCTION

Sealed bids will be received by the Board of County Commissioners of Seminole County, Florida, on or before 10 A. M. June 4, 1928 for improving the following roads:

(1) Nolan Ave. to be cleared from Chapman Road north to old Orlando Road.

(2) Extension of Bay Street South of Oviello through Section 31, T. 22 N., R. 12 E., Seminole County, Fla.

The work to consist of clearing, grading, and construction of bridges.

A \$100,000 certified check made payable to V. E. Douglas, clerk of the Court, must accompany each bid. The check of the successful bidder will be retained by the Board in lieu of a bond until the work is completed.

The Board reserves the right to reject any or all bids, or accept any bid or part thereof which, in their judgment will be to the best interest of the County.

V. E. DOUGLASS, Clerk of Board of County Commissioners.

(TOO LATE TO CLASSIFY)

LOST: Saturday off of truck, one unloading tank truck hose, about ten feet long. Finder please return to H. L. Pace, Agt., Pan-American Petroleum Co.

STAGE GUN BATTLE

NEW YORK, May 14. (INS)—The crowded southern tip of Manhattan Island with its streets packed by noon day thousands was the scene today of a spectacular running gun battle between police and five bandits. More than a score of shots were fired, and one pedestrian was wounded before the bandit car stalled, at Washington and Hector Streets, and was abandoned by four of the gunmen. A fifth man, the driver was arrested.

DECLARED SUICIDE

PEEKSKILL, N. Y., May 14. (INS)—Police learned today that Roland F. Lewis, nineteen-year-old Columbia University sophomore whose body was found hanging from a tree on a farm near here, had been brooding over the fact that his father had refused to let him visit Europe this summer. They declared he was a suicide.

Daytona Beach—Volusia County Y. M. C. A. to rebuild summer camp quarters at Lake Winona.

Ben Lindsey Backs Companionate Idea Of Marriage

LOS ANGELES, Cal., May 14.—"American is bootlegging matrimony as well as liquor," former Judge Ben Lindsey of Denver, Colo., said today as he arrived from Colorado for a few weeks visit. He was met at the station by Josephine Haldeman-Julius and Aubrey Roselle, of Kansas City, Kans., America's first companionate marriage couple.

"Love, marriage and divorce are handled surreptitiously," said Lindsey, "as if they were a disgrace, with the result that disgraceful circumstances are often more attendant."

He then launched into a discussion of the companionate marriage as a remedy. "Companionate marriage is a sane, wholesome and logical solution of a perfectly natural desire of two young people who

love each other, to marry," Judge Lindsey asserted. He added that the term "companionate marriage" is not a "trick name for free love."

"The estimable ministers and blue-lawyers who are fighting the companionate marriage are by the same token playing into the hands of those who sanction free love. Companionately wed people are as much married as anyone who ever freed a minister equipped with a license. See this? And then he held up the small hand of the equally small "Mrs. Roselle" or Miss Haldeman-Julius as she prefers to be designated, to exhibit a wedding ring of engraved platinum according to the approved style.

The main difference between the companionate marriage and the other kind is the fact that companionately married people are financially independent of each other.

In this case, he emphasized, indicating Josephine and Aubrey, "the fathers are paying the bills."

Tampa—Nearly half million dollars in building permits were issued here during March.

Reports Indicate Revival Of Gold Mining Industry In Sections Of Colorado

DENVER, May 14. (INS)—New discoveries, new development and a greater interest in gold production has brought about a tremendous revival in the gold mining industry of Colorado, reports to International News Service show.

From New York, Detroit, St. Louis, Texas and California men of money and pioneer spirit are turning to Colorado which is reputed to have more gold areas undeveloped or partially developed than any other state.

Of course, Cripple Creek with its past record of over 400 millions in gold, still holds the spotlight of attention. In that district the Pinnacle group lying north of the famous Isabella on Bull Hill has been bought by Zeb Kendall of San Francisco, and associates, who have placed Al. D. Myers, veteran of Cripple Creek and pioneer of Goldfield, Nev., in charge. His work has opened up big bodies of new and high grade ore on the third and fourth levels in virgin ground on the north contact.

Colorful History

In the midst of the big mines of Bull Hill including the Portland, Independence, Cresson and a tax has the famous Dead Pine which was recently leased and bonded to Joe I. Shale and R. D. Garrett and associates of Los Angeles.

The Dead Pine is rich in colorful history of the early boom days of Cripple Creek. It was the scene of two bitterly fought labor wars between its owners and the old Western Federation of Miners, when William D. (Big Bill) Hayward, now in Soviet Russia, was in control of the miners organization. The Dead Pine also was the scene of extensive "high grading" activities, it being related that one miner carried out \$800 a day in ore in his lunch bucket over a period of several weeks. The Dead Pine was never worked below 630 feet because of the labor wars, while most of its neighbors have produced down to 2,500 and 3,000 feet.

Many of the leading mine operators of Cripple Creek were of the opinion that the Dead Pine covered the "taboo" mother lode of the Cripple Creek camp. The new California owners have already put a crew to work to develop it by modern methods.

Chester S. Bunker of Fort Worth, Tex., prominent oil and mining man, recently visited the Cripple Creek district with engineers, and has announced that he plans to acquire leases in other Colorado camps and in northern New Mexico. John Fox of San Francisco, is acting as chief engineer for Bunker.

Old Mines Consolidated

At Idaho Springs and Central City, Clear Creek and Gilpin counties west of Denver, the famous Newhouse tunnel now called the Argo tunnel, has been rehabilitated

through its four miles of length by Harold Thorne, clubman of New York and London, who has consolidated practically all the old mines that the tunnel was designed to unwater. He has 14 groups, that have produced \$125,000,000 in the past, and has erected a modern flotation mill of 150 tons capacity.

All the world has heard of the romance of the Little Annie mine at Summitville, Colorado, the richest single gold mine in the world. Here Judge J. C. Wiley of Denver, and Jack Pickens, veteran hard rock miner, are taking out ore reported to be running as high as 1000 in gold content.

Judge Wiley and Pickens have leases on estates covering most of the famous South Mountain, from which huge fortunes in gold have been taken in the past. California capitalists are reported negotiating for the Wiley-Pickens holding on the mountain.

In addition to a great deal of gold activity by mining men of Colorado there is a great activity by outside men in camps that have been little noticed in recent years. At Alma, Colo., W. Kennon Jewett, formerly of Colorado Springs, now of Pasadena, Cal., has opened a world of high grade ore on the old London mine. Next him M. J. Burke has opened the same vein on the American mine. At Creede Clarence Witherow has made a fortune in the old Commodore once owned by the R. states and the Hughes estate of Denver.

Open New Mines

At Lake City several new mines have been opened and the old Ute and Uley have come to life with big bodies of ore and a new mill of 200 tons capacity. As Aspen mining men from Utah have taken the 800 acres of the old D. C. R. Brown holdings and have opened a big body of silver lead ore at 800 feet depth in virgin territory. At Lincoln Gulch near Aspen a new mine of silver, lead and gold ore has been opened by J. J. Yechel and associates including former Governor O. H. Shoup, of Colorado.

Leadville is too old and requires a story to need attention but even here Oklahoma oil men working with Star drills on a new system of exploring have opened one of the biggest mines in the famous old district. The Lowry flotation mill is running to capacity of 300 tons daily and will double its capacity this summer.

What is true of Leadville is true of the famous San Juan triangle including Ouray, Silverton, Durango, Telluride, Jasper and Platora. This district is always busy for it is one of the richest in Colorado. As Jasper a new mine has been opened with vast quantities of ore worth \$20 to the ton and a new flotation mill will start work this month.

Never again say--

*Is that all you paid for this...?
Where did you ever find these...?
Why, it cost me nearly twice that much!
Do tell me where you get them for that!
How do you ever manage so well on so little?
But, aren't they awfully expensive?
I wish I could do it.*

READ the advertisements. Know what you want before you go to buy. Get the most for your money by knowing what manufacturers and merchants are offering.

Advertisements will keep you abreast of the times. They will enable you to spend the family income wisely. They will help you to live better at less cost.

Then--when remarks similar to those above are made to you, pass on this good advise, for all who want the best at the least cost --read advertisements.

TUESDAY, MAY 15.

BIBLE VERSE FOR TODAY

LIFE OR DEATH—As righteousness tendeth to life; so he that pursueth it to his own death.—Prov. 11:19.

MARKET STREET

He stops in front of the store window where Little white chicks in brooder roll like balls. He looks at dry brown bulb, all people stare.

We have never heard anyone say anything against Senator Taylor but we have never heard anyone say he had any chance of election.

A number of newspaper editors throughout the state seem to be of the opinion that second choice votes will name the next governor, so don't forget to name your second choice.

Isn't it funny that Senator Trammell doesn't come to Sanford to make a speech? Maybe he suspects someone might ask him some embarrassing questions about the St. Johns River.

Seminole County candidates for one thing and another have spent no less than \$5,850 during the first part of the campaign. And some of the gubernatorial candidates are spending almost that much every day.

Senator Waybright, we understand, has challenged Doyle Carlton to debate with him and we are moved to wonder what in the world the Duval Senator is running for and how much is he getting for it.

The G. O. P.'s in Florida are not very strong when united, but with two factions fighting each other and setting up separate conventions, it is hard to see where they will ever be given any consideration whatever.

Bob Holly had a big time in Washington last week testifying before the Federal Trade Commission. He admitted he got plenty of publicity for his employers. Everyone likes Bob and runs his stuff in whenever possible.

Five tons of gold were recently transported by truck through the streets of London without guards, detectives or armed escort of any kind. If that had happened in this country, it would have been necessary to divide the spoils among a hundred thousand crooks.

Rockefeller has ordered Stewart to resign and Stewart says he won't. Time was when a nod of the head was enough from a Rockefeller. And we doubt if even yet the head of the Indiana company will prove strong enough to oppose successfully the oil king's suggestion.

Police Court Stories

The question is continually arising in the newspaper world as to whether police court stories should receive publicity. We find on the part of many citizens, especially of those who might have a part in such a story themselves some day, a decided antipathy for such publicity.

Among many newspapermen, the position is taken that only by keeping the law-abiding citizens thoroughly posted on conditions in the underworld and police courts can crime be held in check.

The fact that the feelings of socially prominent persons are sometimes hurt when they find their names among the others in police court stories after violating some traffic ordinance, may be unfortunate but is no fault of the newspapers.

Not long ago the American Society of Newspaper Editors met in Washington, D. C., and a hypothetical story was prepared to see what reputable newspapers would do with it.

It was the consensus of opinion among the editors at the conference that the newspaper's first duty was to its subscribers and that the story should by all means be published, but that it should be handled straight-forwardly, without bias, and without playing up its sensational features.

Armed Camps

In New York yesterday, Nate Weinzimmer, last of the notorious Whittemore gang, went on trial on the charge of robbery, while detectives and patrolmen transformed the criminal court building into a veritable armed camp in the fear that gunmen might invade the courtroom to save their former partner in crime, who faces, if convicted, a forty year term as a second offender.

That these extensive precautions were necessary, to permit the dispensing of justice in what is considered the greatest city of the western world, is a deplorable situation and offers a sad commentary upon our methods of jurisprudence and the manner in which gangsters and crooks have come to regard the sanctity of the courts.

But today through some deplorable twist in the evolution of our society there has come into existence a pernicious influence which strikes straight at the roots of good government and bids well, if not corrected, to destroy completely whatever faith the public may have in receiving protection through the medium of accepted channels.

PART OF THE RECORD

A circular has been issued in Hamilton county which deals with "The Unpardonable Crime Among Men and Part of the Record of Sidney J. Catts When He was Governor." It is reproduced here, without comment for there seems to be no comment necessary.

Suppose my mother, or wife, or sister, or daughter, had been the victim of a negro rapist—and the negro rapist had been sent to the chain-gang—and then Governor Catts should give him a pardon for a Christmas present?

1—Tim Butler, negro, sent up from Hamilton county, to serve a sentence of 19 years, at hard labor, in the state prison, for the crime of "ASSAULT TO RAPE." His victim was Mrs. Ulmer Goolsby, born and reared in Hamilton county, a daughter of the late Mack Hall and the young wife of C. C. Goolsby, and a first cousin of Joe Bellflower.

2—J. C. Norris was sent up from Duval county to life imprisonment for rape. Pardoned by Governor Catts on August 1st, 1917.

3—Herbert Stone, sent up from Polk county for 12 years, for assault to rape. He had only served two years and 18 days of his sentence when Governor Catts gave him a pardon on September 7th, 1917.

4—Will Graham, was sent up from Volusia county to life imprisonment for rape. Governor Catts gave him a pardon for a Christmas present on December 24th, 1917.

5—Ed Gadsden, was sent up from Hillsborough county for 20 years for assault to rape. He had only served about half his time when Governor Catts gave him a Christmas present. Pardoned December 24th, 1917.

6—John Ward, sent up from Duval county to life imprisonment for rape. Pardoned by Governor Catts on August 31st, 1918.

Tallahassee, Florida, by writing for them. Besides casting a pall of sadness and heart-aches in many happy homes, it cost the taxpayers thousands of dollars to convict these criminals, and Sidney J. Catts, when governor of Florida, gave them their freedom.

For the love of your home, your loved ones and friends for the love of righteousness and your native land—Don't vote for Sidney J. Catts.

Your fellow citizens, C. C. GOOLSBY and JOE BELLFLOWER Messrs. Goolsby and Bellflower have not only gone to the official record but, the facts of their statement but they prefer information as to where and how anybody in the state wants verification of it can obtain it.

No doubt there will still be some Floridians who will vote for the former governor as the democratic nominee for the governorship, even in the face of this recital of what official documents show as to his record when he formerly was chief executive. It is difficult to conceive of how they can do so.

Office Telephone 148 MRS. FRED. S. DAIGER, Society Editor Residence Tel. 87-

Social Calendar

TUESDAY
 The First Baptist Church will meet at 7:30 at the home of Mrs. Ira Howard, 1112 Laurel Avenue.
 Meeting of the Woman's Club held at 3:00 o'clock, followed by a program at 4:00 honoring the Cecilia Music Society.
 Robert J. Holly Jr., will entertain the members of the Dupont Bridge Club at her home in the evening.
 The Women's Circle of the Presbyterian Church will meet at 7:30 at the home of Mrs. Jean Maxwell, 327 West Street, with Miss Maxwell, Dorothy Stokes and Miss Hammond as hostesses.
WEDNESDAY
 The Seminoles Chapter No. 2 O. E. S. will hold regular meeting at 7:00 at the Masonic Temple.
 The Riley with expression recital, "Riley with Pictures," by the entire expression department of the Sanford Seminoles High School at 8:00 o'clock.
 The Turner Circle of the First Baptist Church will meet at the home of Mrs. J. D. Dossy at 4:30 with Mrs. J. Dossy, Mrs. B. W. Wainwright and Mrs. L. B. Bragg as hostesses.
 The Welfare Department of the Woman's Club will meet at 3:00 at the home of Mrs. G. S. Littrell.
FRIDAY
 C. T. U. will hold regular meeting at the home of Mrs. James Chiland, 309 French Avenue, at 7:30. Full attendance requested.
 The Bee Sewing Club will meet at the home of Mrs. G. S. Littrell.
SATURDAY
 Piano Pupils of Miss Margaret will present recital at 3:30 at her studio on West First Street.
 Childrens Story Hour at 10:00 at the Library.
 Dr. Charles P. Vincent has returned home from Laurens, S. C., where he accompanied Mrs. Vincent, who will spend several weeks with relatives.

Maria Gibson Circle Has Regular Meeting

The Maria Gibson Circle of the Woman's Missionary Society of the First Methodist Church held its regular monthly meeting at the home of Mrs. J. R. Forest, 113 East Fifth St., with Mrs. R. G. Hickson as assistant hostess. The devotional exercises were in charge of Mrs. Lela Legette. The minutes of last meeting were read and approved. Two new members were added to the circle, Mrs. W. N. Lano and Mrs. C. B. Knapp. Thirteen visits to the sick, two visits in the interest of the church and twenty-one bouquets sent were reported by the members. The next meeting will be held on the second Monday in June with Mrs. W. P. Fields as hostess. The Treasurer collected the dues for the month. Sunshine money collected amounted to sixty-two cents.

At the conclusion of the business session the hostesses, Mrs. Forest and Mrs. Hickson served delightful refreshments of brick ice cream and cake. The circle was honored at this meeting with a visit from Mrs. C. H. Smith, the President of the Woman's Missionary Society, who spoke in behalf of the work of the circle and its connection with the state organization. She also spoke along political lines and urged all women to qualify to vote and to study the matter earnestly so that their votes would be intelligent and for the best interests of their town, county, state and national government.

Organ Club Holds Session On Monday

The Pipe Organ Club of the First Baptist Church held its business and social meeting, Monday afternoon at the church parlors, with Mrs. Merriweather G. Lewis and Mrs. Clifford Walker as hostesses. Easter lilies and gladiolus combined with ferns were used with artistic effect about the room where the members assembled.

Mrs. Francis E. Bolt, club president, presided over the business session which followed the luncheon with a program by Mrs. J. C. McCord. The roll call was reported with each member's name followed by a short story "Mother's Day" Mrs. J. Shonice Allen read an article on "Home and Mother."

At the conclusion of business, a social hour was enjoyed when the hostesses served a buffet course with punch.

Members in attendance were Mrs. J. Maurice Allen, Mrs. Clifford Baker, Mrs. R. H. Barr, Mrs. Loeley Bryan, Mrs. R. F. Cooper, Mrs. Francis E. Bolt, Mrs. C. H. Cook, Mr. J. H. Colclough, Mrs. J. E. E. Stridge, Mrs. Robert L. Glenn, Mrs. W. D. Gardner, Mrs. Merriweather G. Lewis, Mrs. J. L. Miller, Mrs. H. G. Methuen, Mrs. Robert Maaska, Mrs. A. A. Meuchel, Mrs. J. C. Mitchell, Mrs. Sidney J. Nix, Mrs. A. M. Phillips, Mrs. R. W. Lawton, Mrs. James G. Sharon, Mrs. R. E. Tabor, Mrs. Clifford

Personals

Mr. and Mrs. James Huff left Tuesday morning for Jacksonville where they will spend a few days.

Mrs. A. Riser, Mrs. Jennie Morrison and Mrs. Vaughan Maxwell, who have been the guests of Mrs. Archie Helts, left on the boat Sunday for their homes at Augusta, Ga.

Robert J. Holly Sr., returned home Sunday from Washington, D. C., where he spent the past week on business.

Mr. and Mrs. A. B. Peterson motored to Orlando, Monday where they spent the afternoon.

Mr. and Mrs. Glenn E. Mc Kay returned home Monday evening from Jacksonville where they spent a short time on business.

John Gove is in Jacksonville for a few days attending to business.

Lesley Moughton left Monday for Jacksonville where he went on business.

St. Agnes Guild Has Its Annual Election

The annual meeting and election of officers of the St. Agnes Guild of Holy Cross Episcopal Church was held Monday afternoon at the Parish House. Routine business was carried out, when reports were read by the standing officers and committee chairmen. Mrs. Perkins reported that the lunches provided for a boy, had been paid, and also announced that corporate communion for the women of the church would be held next Sunday morning.

Mrs. Whitner, vice president of the Service League, was present and displayed the United Thank Offering posters, and also asked that all members place money from the blue boxes in sealed envelopes and put them on offering plates, Sunday morning.

Mrs. Grover C. Cochran, educational secretary, announced that the study of the book, "The Reason Why" would be made during Advent, instead of this summer as previously planned.

After all business had been transacted election of officers took place, resulting as follows: president, Mrs. Braxton Lester; vice president, Mrs. George McRory; secretary, Mrs. Hayward Walker; treasurer, Mrs. W. W. Warner; L. F. C. Custodian, Mrs. Mortimer Glover; Box chairman, Mrs. S. M. Lloyd; Social service secretary, Mrs. John W. Meisch; Warden, Mrs. C. A. Anderson; Mrs. Kent Bolton, Mrs. H. R. Odum, Mrs. A. C. Lendon and Mrs. W. A. Zachary.

Jr., Educational secretary, Mrs. Grover C. Cochran, a rising vote of thanks was given Mrs. Fred Daiger, retiring president.

Members present at this meeting were Mrs. Cauthen Hutchinson, Mrs. George McRory, Mrs. Grover C. Cochran, Mrs. John W. Meisch Jr., Mrs. Braxton L. Perkins, Miss Mildred Huston, Mrs. Chris Matthews, Mrs. M. Minarik, Mrs. S. M. Lloyd, Mrs. Wilfred Lewis and Mrs. Fred Daiger Jr.

CHURCH CIRCE MEETS

The Mary Lambeth Circle of the First Methodist Church met Monday afternoon at the home of Mrs. Tom Bolt on Palmetta Avenue for its regular business and social meeting. The hostesses for the afternoon were Mrs. Bolt, Mrs. W.

T. Laird and Mrs. O. S. Jernigan. Adorning the rooms where the members assembled were baskets of betunias, larkspurs and other lovely Spring cut flowers and ferns.

The meeting was presided over by the circle chairman, Mrs. W. C. Hill, and routine business carried out. Mrs. C. H. Smith, president of the missionary society was present and made a very interesting talk.

A social period followed the business session at which time the hostesses served sherbet and home made cake.

An invasion of gypsies into Cannes, France, recently caused a protest to authorities that the unwelcome visitors were "too dirty."

To the Ladies of Sanford and Seminole County

It is brought to our attention from time to time that a large part of the consuming public is skeptical of "factory made" ice cream. We have found many especially so of Strawberry and other fruit creams, they being under the impression that these creams are made as cheaply as possible and that extracts or some other sort of substitute are used in the place of the fruit.

It has been brought to our minds especially during the past month or so when some of our customers or other visitors in our plant expressed great surprise or delight when they noticed that we were using REAL STRAWBERRIES in our Strawberry Cream, and in other cases those who noticed some of our help preparing the fresh berries.

In justice to ourselves and for the information of our customers, we wish to make the following remarks in regard to our fruit creams:

1. Our STRAWBERRY Ice Cream is made from our regular Ice Cream "mix" with the addition of the freezer of sufficient STRAWBERRY FRUIT to give it the proper flavor, but not enough to impair the body or holding quality of the frozen product. In addition to the fruit, a small quantity of harmless pure food strawberry color is added to give the finished product the desired uniform pink color usually associated and demanded in Strawberry Creams. These that freeze cream at home know that the berries alone will give the cream only a very pale pink color. Therefore a small amount of color is added not for the purpose of deception, but for uniformity and to fill the trade demand.

Please note that no strawberry extract or so-called "syrup" of any kind whatever is used in our cream. If the berries do not give it sufficient flavor it goes without.

During the local strawberry season we buy sufficient berries to take care of our needs as long as they are obtainable at reasonable prices. So far this season we have used close to 1000 baskets of local berries, and have in our cold storage room at present 40 gallons of the fresh crushed fruit prepared in our own plant for our immediate needs.

When strawberries are not in season or the price prohibitive for manufacturing purposes we have, and have had for the past several years, connections whereby we get the Tennessee or Maryland berries which are bought in season, held in cold storage for us, and are mixed with sugar and shipped out in barrels or large cans as ordered. This assures us of a supply of berries of good quality for use the year round, and in no case do we use the ordinary canned or preserved berry.

2. Our PINEAPPLE ICE CREAM is made from the usual "Mix" with the addition of the freezer of sufficient crushed Hawaiian Pineapple.

3. Our BANANA, or BANANA NUT Ice Cream is made the same as above with the addition of the freezer of sufficient SOUND RIPE BANANAS, or Bananas and Chopped Nuts, usually English Walnuts, Grape Nuts, or Chopped Almonds, as the case demands.

4. For our CHOCOLATE Ice Cream we use a special high grade Cocoa put up by Van Houtens, cherries, nuts, or mixtures that are prepared specially for use in ice cream by houses of national reputation that specialize in this particular line of business. These items, as in all of our other supplies, are bought by us on a quality basis only.

Our customers and friends are invited at all times to visit our plant and ask to be shown thru. While in our plant we will be glad to have you inspect or taste our store of fruits, sweet milk, sweet cream, and all other ingredients that go into the finished product. Come now and see more crushed berries than you have ever seen in your life. Sample them, and also sample our barrel of Tennessee berries that we are holding in reserve to use when all local berries are gone.

For those that have never seen snow we have a real treat to see the snow in our cold storage room where we carry our stock of ice cream at a temperature of from 0 to 10 below 0.

Our ice cream is a healthful and concentrated food. We are anxious for you to see why, and why with its added milk fat and milk solids not fat it has greater food value than home made ice cream.

Prominent Attorney Of Palm Beach Reveals Real Power Of Florida In Talk

The real strength of Florida was indicated by Orol J. Myers, prominent Palm Beach attorney, who spoke before the Kiwanis Club here Wednesday noon, part of his address which surveys the situation in Florida today follows:

The year of 1927 will ever be looked upon as the worst year in the history of Florida. We, of Florida, have been living in a morgue for the last eighteen months, grieving because we have felt that our fortunes were lost and that our friends had forsaken us and that our opportunity was gone forever. This condition has kept ten and even hundreds of millions of dollars from Florida because all we have been able to talk about is our troubles. Our mental attitude has been such that we have been unable to make ourselves understand the vast benefit that has come to Florida from the boom.

In the last three years there has been spent in permanent improvements in the State of Florida, \$1,250,000,000, as follows:

Railroads	\$150,000,000
Telephone & Telegraph	200,000,000
Office Buildings	200,000,000
Homes & Apartments	300,000,000
Hotels	125,000,000
Power and Light	100,000,000
Ports and Harbors	42,000,000
City Development	200,000,000
Highway Construction	100,000,000

These improvements are permanent and cannot be taken away from us, and hundreds of millions more are now being spent for development of the same character. The benefit in the future development of Florida from these improvements cannot be comprehended. The human mind cannot conceive how much they really mean to the immediate future development of the State. Railroads, telephones, electricity, port and harbor development and good highways have been the great need for the development of the farming and other industries of Florida. The good roads have enabled the citrus and truck growers to market their products in a way that has heretofore been impossible, and the harbors will bring that competition with the railroads which will

provide a rate that will enable the producers to market his products in competition with every other market of the world. No organizations in the world are so thoroughly organized as the railroads, telephones and power and lighting companies. They make surveys and look into the future in a way that individuals cannot. The expenditures of these vast sums of money by these great organizations are evidence enough to the thinking men that the future of the State of Florida is assured. Unless there were great possibilities these vast sums would not have been expended, and we should remember at this time that the hundreds of millions spent in Florida during the so-called boom will require the expenditure of millions more to protect the investments already made by the capital from the North which they will protect. The fact that money has not been altogether withdrawn from Florida is evidenced by the fact that in the building program in Florida in 1927 more money was expended than in any of the following states: Alabama, Arizona, Arkansas, Colorado, Delaware, District of Columbia, Idaho, Iowa, Virginia, Kansas, Kentucky, Louisiana, Mississippi, Montana, Nevada, Nebraska, New Hampshire, New Mexico, North Carolina, North Dakota, Maryland, Minnesota, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Utah, West Virginia, Washington and Wyoming. Florida has but 1,253,000 people—less people than in the city of Los Angeles, the City of Cleveland, and many other of our larger cities, yet in this State more money was expended in building construction in 1927 than in the following states all together: Arizona, Arkansas, Oregon, New Hampshire, New Mexico, North Dakota, Virginia, Rhode Island, South Dakota, West Virginia, Wyoming, and today more capital is seeking investment in Florida than in any year of its history.

I asked a party the other day the question: "Was there as many people crossed the St. John's River bridge in February, 1928 as in February 1925?" his answer was "no," yet the actual figures show that in February, 1928 only 16,249 people crossed this bridge, while in February of 1925, 20,000 people crossed this bridge from other states. The truth is, the housing facilities of Florida have so increased since the busy season of 1925 that with more people in Florida than there were in 1925, we have been unable to appreciate the increase. The hotel rooms for instance, have increased approximately 200,000 rooms.

In our wall we say we must go back to 1924 and start in again. This is impossible. The bank clearings in 1926 were 102.4 per cent greater than in 1924. The bank clearings in 1927 in Jacksonville, as compared with 1924, increased 32 per cent, in Miami more than 50 per cent, in Tampa more than 34 per cent. The lowest amount of electricity used in 1927, or in August of 1927, was 43,710 kilowatt hours, which was more than 2,000 kilowatt hours greater than January, or the peak of 1926, which was only 41,432.

The future possibilities of Florida are almost unlimited. We are told that California last year produced and shipped east to market, \$105,000,000 in poultry and more than \$30,000,000 in eggs. A survey of Florida by the finest experts in the poultry industry tell us that Florida has the finest climate and possibilities for the poultry industry in the United States, yet up to this time we have not produced sufficient to supply our own needs, lacking in this particular field alone \$14,000,000. In the citrus industry the possibilities of Florida have scarcely been scratched. With our splendid system of highways, railroads and harbors, Florida should make a big sale in 1935 for Calif. to market any citrus fruits, poultry, poultry products, or winter grown vegetables east of the Mississippi river. The consumers of the products of Florida are four times greater than California, and the bursting of the so-called boom has brought us back to earth and the development of our real money producing industries has again started in, and a vigorous and substantial basis, and really the greatest asset after all, coming out of the boom, is the putting of our people back to work.

Again in the dairy industry, Florida consumes about \$35,000,000 of dairy products. Of this enormous amount, less than \$10,000,000 are produced at home and approximately \$24,000,000 imported, and the finest experts in the dairy in-

dustry tell us without fear of contradiction, that the possibilities in this line are unlimited in Florida, and cannot be equalled any place else in the United States. With this opportunity open, as well as the almost unlimited openings in other fields, we, of Florida, should ever look forward without complaint, but with a hope backed by constructive efforts and thoughts, and the assurance that within ten years Florida, without doubt, Florida will be the greatest producing state in the union. Today, Florida pays approximately \$130,000,000 for imported products and we produce and ship from this state but \$162,000,000. In other words, the importations offset our exportations until we have but \$32,000,000 on the credit side of the ledger, when with the efforts and constructive thought now being put in the production and marketing of Florida products, within five years the credit side of the ledger should show a credit in excess of \$500,000,000 annually. This is fully borne out and supported by the report of Grovesnor Dave in his industrial survey of Florida, which is now completed and will soon be released. May I urge here that everyone interested in Florida watch for this release and secure at the earliest possible moment, the report of the industrial survey of Mr. Dave.

Remember, more than \$6,000,000 of tomatoes have been shipped from the Redland districts of Florida this year; more than \$6,000,000 of celery will be shipped from Seminole County alone. This year Seminole County will produce one-third of the celery to be shipped to markets in the entire United States. Polk county citizens have already received more than \$16,000,000 from their citrus crop.

I challenge anyone to cite me a community of similar size in the United States with an equal return, either in gross or per capita of any single product, not mentioning the numerous other vegetable and fruit products of these localities.

The survey of the sugar industry of Florida, according to Mr. Dawe, will be able to produce sufficient to supply the world. This industry is bringing annually to the State of Louisiana, approximately \$60,000,000, yet the actual tests in Florida show the possibilities from three to four times that of Louisiana, and today United States is importing \$250,000,000 of sugar annually.

Again may I urge the necessity of everyone interested in Florida, whether a resident or non-resident, their duty to know the facts and truth about Florida, and in this connection, the importance of everyone securing at the earliest possible moment the report of Mr. Dawe, as the possibilities of Florida are too numerous for me to try to enumerate here.

IDEAL LOCATION TURNS PITTSBURGH TOWARDS FLYING

Strategic Situation Of Great Industrial Center At Junction Of Far Flung Rivers System Lends Itself To Flying

PITTSBURGH, May 15.—(INS)—Pittsburgh, industrial giant, has become interested in aviation.

Pittsburgh is advantageously located as an opportune landing or hopping-off point. Just as the junction of Monongahela and Allegheny rivers here form the Ohio and make Pittsburgh the key to the west by water, so also has nature endowed Pittsburgh in an aerial way because of its physical make-up.

The mountain chains in this section of the country provide treacherous for airplane engines tired after long trips and thus Pittsburgh is nominated as a logical place to prepare a plane for the tricky way of mountain and valley, fogs and airpockets.

The Blue Ridge Mountain extends its chain of peaks along much of the southern portion of the state east of Pittsburgh while to the south and west of Pittsburgh the Allegheny Mountains, part of the Appalachians, form no small hazard for airplane pilots.

Weather Observers

It is necessary to traverse the Alleghenies to get into West Virginia and Ohio from here, and in some spots special observers are stationed to render reports on weather conditions. In the mountains along the southern section of the state, several pilots have been lost after being forced down in the forests, particularly near Belmont.

Things have happened in Pittsburgh recently to bring aviation more quickly to the fore.

Outstanding, probably, is the award of the national elimination balloon races to be staged here Memorial Day. It is expected to attract more attention in things aeronautical in Pittsburgh than any other event since the visit of Col. Charles A. Lindbergh.

There's been much clamoring for a high city airport, located centrally and ideal in every way. It has been pointed out that the airplane fields here are inadequate both as to size and location.

Coming Traffic

The decision of the Fokker Aircraft Corporation to construct its main plant in Moundsville, near Wheeling, W. Va. pleased Pittsburgh. It is scarcely a half-hour's trip by airplane from here, and its location so near Pittsburgh was looked upon as a harbinger to the establishment of more industries whose output is pertinent to aviation.

Airway firms are making bids to land here. A group has asked the State Public Service Commission for a charter for a freight and passenger transportation line between Pennsylvania, from Pittsburgh to Harrisburg to Philadelphia.

The Stout Air Lines, Inc., are reported ready to extend an air-path to Pittsburgh. Several aviation projects have been rumored.

The propeller on the plane hall of "We" and on most of the other planes which figured in epic flights were made by Standard Steel Propeller Company, West Homestead, eight miles from Pittsburgh.

Pittsburgh's drinking of orange juice can now receive the golden product proclaimed proudly by California, within 28 hours after it leaves that state, because this city has been routed as a depot on a national airline express.

STARKE Bradford County used total of 176 tons of fertilizer during March.

SEEKS SCHOOL POSITION

Mrs. Maybelle Maxwell, for many years a teacher in the Sanford schools, is now a candidate for the Democratic nomination for county superintendent of public instruction. She is waging an active campaign against T. W. Lawton, the incumbent, throughout the county.

TAYLOR TALKS ON CANDIDACY AT CITY HALL

(Continued from page 1)

on real estate and personal property to collect the same revenue.

One third of the gasoline tax, he said, was paid by non-residents who put their children in Florida schools during the winter months.

Senator Taylor said he had amended the school survey bill on the floor of the senate in the last session of the legislature to increase the appropriation for that purpose from \$15,000 to \$30,000, providing the sum necessary to properly carry out the work. He said the women of the state were entitled to credit for the increase of the bill.

He called attention to the other plank of his platform. He said he advocated the amendment for Confederate veterans to be paid from funds already collected by the state. He declared he had secured I funds for the widows of deceased Confederate soldiers and had secured the same for the widows of Confederate soldiers who had died in the line of duty.

He was introduced by Mayor E. F. Housholder, who praised the senator as a clean, upright man well-suited for the office.

Health HINTS

By DR. J. C. HOWELL

200 West Gore Ave., Orlando, Florida

Hemorrhoids, Gas and Indigestion

Woman 27 years of age, suffering from hemorrhoids, gas and indigestion, came for treatment. She was very weak and nervous, troubled with insomnia. She tried so many different doctors, but she had almost given up hope of getting better. She was taking three cups of coffee a day to keep herself up.

After a thorough examination was discovered that her trouble was due to indigestion and the gastro-intestinal tract. She had been eating distilled foods, which had set up an acid condition, resulting in constipation and hemorrhoids. Just as it does in most cases, sooner or later.

Seven weeks after beginning treatment she had a thorough examination and found that hemorrhoids that had troubled her so badly had gone. She had no gas, her appetite was so good that she was finding it hard to get enough food to satisfy her. She was having good normal movements, sleeping well and was able to get on with her work. Usually she is very grateful that what has been done and is willing to tell any body about her condition.

Dr. J. C. Howell, 200 W. Gore Ave., Telephone 4355. You will be surprised how quickly you will get well without loss of time from business. Write or phone for free literature and consultation.

FRUIT FOR FUN

THE summer sport season is here again. Already the sports goods dealers are going around with smiles wreathing their faces. Already the outdoor lover is counting over his cash and spending his evening's leisure on his summer vacation. What shall it be—motoring, camping, sailing? Or, if these ideas seem too strenuous, how about renting a summer bungalow with enticing tennis courts, golf courses, and swimming pools nearby? Or else, if you prefer to stay home, there are always picnics which can be organized at a moment's notice.

However different these methods of fun-making are, they all have one question in common. What shall we eat? And it is no little question, for even the man who eats to live may find that the fresh air and sunlight of the outdoors makes him want to live on eat.

Feeding the Sportsman

After a strenuous day in the open, substantial foods are needed, and the woman who prepares a meal for a party just returning from a long motor drive, or an afternoon of sports, realizes that dinner, the climax of the day, must be made as good fun as the rest of it. Of all the fruits which can be used in party menus, pineapple is doubtably the most versatile one. For a breakfast to follow a mountain hike to see the sunrise, what could be better than pineapple waffles or fried pineapple and pineapple? For the luncheon preceding a tennis match there are serious pineapple entries, salads and desserts. After the match a cooling drink with the syrup of canned pineapple sandwiches or cakes, are de-

licious. In both the formal dinner and the impromptu supper pineapple can once more play its part.

A light tea which will be refreshing and cooling after an afternoon in the hot summer sun could consist of society punch, pineapple sandwiches, and cheese straws. To make the punch mix three-fourths cup sugar and one cup water, and boil for five minutes. Chill and add one cup syrup drained from crushed pineapple, the juice from two oranges, and one cup of ice water. Add one orange sliced very thin with out removing rind, one-half cup crushed pineapple, and one tablespoon minced Maraschino cherries. Pour over a square of ice in a pitcher. The sandwich filling is so delicious that it is wise to make an extra large quantity of sandwiches. Blend one-third cup of almonds, shred them and brown gently in two tablespoons butter. Drain two cups crushed Hawaiian pineapple and add to nuts, browning very slightly. Cool. Add twelve pickles chopped fine. Work in one-fourth cup cream cheese gently until soft paste is formed, adding a bit of pineapple syrup. Season with salt and paprika.

For the Beginning or End

Either to begin or to end the day pineapple waffles are delicious. Mix and sift one and three-fourths cups flour, four teaspoons baking powder and one-half teaspoon salt. Add gradually one cup milk, two beaten egg yolks, and three tablespoons melted butter. Add one-half cup thoroughly drained crushed Hawaiian pineapple. Fold in two well-beaten egg whites. Bake on waffle iron. To the syrup drained from the pineapple add one and one-half cups sugar and one cup water. Boil this to a syrup, and serve

with the waffles. This dish is suitable either at breakfast or at a late supper.

Another breakfast dish de luxe is French toast with pineapple. Sift together one cup flour, one-half teaspoon salt, one teaspoon baking powder, add one cup milk and two well-beaten eggs; beat well. Dip round slices of white bread into batter and fry in hot fat. Lay on plate, dust with sugar and top with a slice of Hawaiian pineapple. In the center of the pineapple put one-half teaspoon red jelly.

When Days Are Warm

With spring comes the possibility of making lovely salads with the fresh fruits that are on the market. A delicious salad is made as follows: Arrange six slices of canned Hawaiian pineapple on the leaves from a head of lettuce. Cut two medium-sized bananas into slices, cover with one-third cup lemon juice. Let stand five minutes and drain. Arrange a circle of banana slices close to the edge of each piece of pineapple. Pick some stemmed strawberries in center of each pineapple slice, and garnish with unstemmed strawberries; it will take about two cups in all. Serve with pineapple cream dressing made as follows: melt one tablespoon butter in top of double boiler, add one tablespoon of flour, one-eighth teaspoon of salt. Stir well and add one cup pineapple syrup and two tablespoons lemon juice. When smooth, remove, chill and fold in one-half cup beaten cream.

A novel sherbet for warm days is pineapple ginger sherbet. Cut one ounce candied ginger in small pieces; add three cups water, one cup sugar, and one-third cup lemon juice. Boil fifteen minutes. Cool. Add one cup of crushed pineapple and freeze.

Daughter Of Baker Forsakes Worldly Things For Convent

CHICAGO, May 15.—(INS)—Miss Jane Bremner, 19, daughter of James R. Bremner, millionaire biscuit manufacturer, has wired her father from Europe that she is returning home to enter a convent, it became known today.

The girl, it was said, had expressed a desire to embrace religious life following her graduation from Piedmont College, near Philadelphia. Her parents persuaded her to wait until she had seen something of the world. Mrs. Bremner took Jane and her four sisters to Europe last fall.

Neither the garments of the new sister, Marion, who is collecting her trousseau in the fashionable shops of London and Paris, could cause Jane to forget her original intention. According to the message to her father, the girl has set her heart on joining the sisters of the Holy Child Jesus at Sharon, Penna. The order has several colleges, including Rosemont College.

TREND OF PRICES GOES FORWARD IN STOCK TRADINGS

Statistics Show That Present Bull Movement Really Began in 1921 And Has Gone Through Many Vicissitudes

NEW YORK, May 15.—(INS)—In every year since 1921, the average price of representative industrial stocks has risen into new high territory, and, with more or less reaction, has ultimately been able to retain the ground gained.

As a matter of fact, most of the statistical comparisons mark the beginning of the current bull movement in August 1921, since which time, with many vicissitudes, and more than one heart-breaking tumble on the part of both the bulls and the bears, the major trend of prices has been upward. The beginning of the movement was probably nothing more than the natural recoil from the unwarranted depths to which prices of important groups had been pushed by the collapse of business and commodity prices in 1921, but it is a fair assertion to say that its continuance has been closely related to the steady expansion of individual and corporate wealth in this country.

From what source comes this enormous increase in wealth? Primarily from the increasing operations and profits of the business and industrial corporations, coupled with the ability of home and foreign markets to absorb their increasing outputs at prices which permit larger wages to American workmen and increased dividends to stockholders.

The necessity of "catching up" on commercial building and city and suburban dwellings subtracted by the world war was perhaps one of the greatest factors in American prosperity since the beginning of 1922. The five-year period inaugurated an era of better and more comfortable and commodious private dwellings, hotels and cooperative apartments, while cultivating a taste for "summer homes" special to the country and seaside private resorts.

But this is only one phase of the subject. The piling up of corporate and profitable marketing of products in the last five years has been an unprecedented and almost unexampled feat, not far removed from the fairy tales of the days gone by. No Aladdin's lamp of myth and fancy has ever bestowed as much as has actually been acquired by these rich corporations in the half decade under review and never in the history of the country have employees and small stockholders received such a large share of this newly created wealth.

The average American, instead following the precedent of a few generations ago, when criticism and vituperation of all kinds were hurled without discrimination against all who were successful in business, has found that it pays to align his meagre capital with theirs, joining in partnership through the simple process of stock purchasing. The purchase of a few shares of stock, facilities for which are now furnished by the New York Stock Exchange and the various unlisted markets, has been the first step on the road to modest fortune for hundreds of investors in all parts of the country.

Individual cases have come to the attention of this writer, of investors of moderate means having purchased two or three shares of stock of the National City Bank of New York, the Chase Bank of

London, May 10.—(INS)—With the world beginning to applaud the Prince of Wales for his pluck and daring in the saddle it is difficult to realize that less than eight years ago he almost disliked horses, and at that time owned only one aged black mare.

With a thorough characteristic of him in all his doings, he has taken up riding and now is as good as the majority of point-to-point riders in the country, as witnessed by his recent sensational victory over seasoned men.

Riding in point-to-point races is now his chief interest in life, and in both racing and hunting circles here he is looked upon as one of the hardest and most accomplished riders.

Had Good Training
 Early in the hunting season 1921-22, the Prince underwent a course of strenuous and detailed training under Captain George Drummond, a famous rough-rider. He made his debut at a meet of the Cottingham House at Stapleford Park.

From that day the Prince's love of horses and keenness and enthusiasm for fox hunting has increased by leaps and bounds, and today the Royal stables at Craven Lodge, Melton Mowbray, in the center of England's finest fox-hunting district, are occupied by one of the finest studs in the country.

The horses, which are most beautifully balanced, being of the same build and temperament, are more than once it has been pointed out that, for size, the Prince rides abnormally strong horses.

Included in his stable are
