

# Undefeated Eustis Cagers Will Play Here Tonight.

## Sanfordites Await Chance To Avenge 32-14 Setback Suffered On Eustis Floor

### Feds Ready For Battle After Trouncing St. Augustine, 53 To 12

The befuddled McCluskey men, attempting to play the Panthers' style of game, floundered about practically helplessly.

Slated to take the floor for the locals tonight will be Billy Zachry and Art Williams at the forward posts, Jack Purdon in the center position and Johnny Morgan and Dal Ferguson in the defensive positions. Arnold and Bailas are expected to start in the forward positions for the Panthers while Clove, who tallied 16 points in the game two weeks ago, will be in the pivot position. Walker and Horne will start as guards.

The Feds are expected to be in the best of condition tonight following their brilliant play Saturday evening when they topped the St. Augustine cagers by a 55-12 count on the local floor.

The locals took an early lead and were never in danger of losing it at any portion of the contest.

Billy Zachry led the scoring by tallying ten times from the field and once from the foul line for a total of 21 points while Reichert led the visitors with six points.

## Eckersons And St. Johns Win League Games Easily

### B Squad, Lake-Riser Lose To Co-Holders Of First Half Title

Coming through with easy triumphs, the St. Johns River Line and the Eckerson Cannors, co-holders of the first-half championship of the City League, both started off on the right foot as they inaugurated their second half campaigns on the high school floor last night.

The Cannors scored a 22-7 victory over the B squad in the first game of the evening after having a difficult time getting started. After grabbing a 4-1 lead in the first period, the Eckersons were stalled for a while but their height and experience got the better of the little Feds who, despite the game fight, saw the gap widened with the passing of every minute.

It was the last contest for two members of the Eckerson outfit, Vangas and Gravit, both forwards, being scheduled to leave the plant today for positions in other portions of the country. Vangas led his teammates in scoring by tallying 12 points while Gravit came through with six as did Eckerson.

Stenstrom's three points was high for the losers.

In the second contest of the evening, the St. Johns had little trouble downing a fighting Lake-Riser combine as the Cleaners put up a terrific struggle which failed to come up to the attack of the Rivermen. The latter took an early lead, pacing 8 to 3 in the first quarter and added to their margin rapidly.

Whiddon, with eight field goals, a total of 16 points, led the winners while Smith tallied twice from the field and twice from the foul line for a total of six points to top scoring honors for the Cleaners.

# Postoffice Says Sanford Will Get Airmail Delivery

### Service Temporary, Mayor Aspires In Appeal For Local Use Of Facilities

Ask U. S. Aid At Flying Field  
City And Chamber Of Commerce Long Efforts Successful

The Postoffice Department has assured an airmail stop for Sanford, Fla., it was reported today in a telegram from Velle Williams, City Aviation Commissioner, and George Higgins, who were in Washington to make certain in efforts to obtain airmail service here.

Sanford Mayor Edward Higgins issued an appeal yesterday to local merchants and business men to "save the airmail," pointing out that the continuation of service depended largely on the volume of carrying mail.

Mr. Williams informed Mayor Higgins that the department of Commerce has over maintenance of lights on the Sanford flying field to save the City's paying a high bill.

Airmail communications north-bound would have been nightly about 9 o'clock, according to the schedule in effect on the Tampa-Jacksonville leg. Southbound letters would depart and northern mail would arrive shortly before 8 o'clock in the morning.

Since Mr. Williams and Mr. Higgins had not returned this afternoon, there was no way of determining when the new service would be inaugurated. Postoffice officials here said they had received no official information pertaining to the matter.

Efforts to obtain airmail service for Sanford have been in progress for many months of effort by the City and the Seminole Chamber of Commerce, both of which have been exercising all available forces to overcome several obstacles.

It was principally through City Government channels that the Municipal Airport was improved and lighted to meet certain requirements of the Department of Commerce. The field now has the approval of that body.

The Chamber of Commerce's efforts were many, but one of its most important moves was the collection of testimonials from business houses and individuals attesting the need for a faster postal service.

# Seven Burned To Death In Highway Crash

Seven persons were burned to death in flames that broke out a moment after an automobile and a slow-moving produce truck crashed near Lake City, Fla. The charred wreckage of the old-style automobile in which the victims were riding is shown above. The dead were identified tentatively as Clarence May, his wife and their two children who lived near Adel, Ga., and Mrs. Maude Flowers and her two children of Valdosta, Ga. (Associated Press Photo)

# Future Farmers Foresee Excellent Crop Prospect

### Chapter Members Hope To Clear More Than \$3,000 For Year's Activities; Discuss Fair Work

Members of the Seminole Chapter, Future Farmers of America, expect to clear more than \$3,000 from projects operated between Sept. 1, 1936, and Sept. 1, 1937, according to indications in a resume of activities released today by Alex R. Johnson, advisor of the unit.

The following statistics were announced by Mr. Johnson:

Acres of mixed work planned, 207; number of dairy cattle on hand, 10; number of beef cattle on hand, five; number of hogs on hand, 52; units of poultry on hand, 900; honey bees, 52 colonies; nursery under cultivation, 1.2 acres; citrus under cultivation, 11 acres; corn and other field crops under cultivation, 18 acres.

Mr. Johnson explained that the figures applied to work that is planned, adding that more than half of it already has been accomplished and that the final tabulation may really show more than was originally scheduled.

The majority of products produced by chapter members, the advisor said, are marketed locally.

Future Farmers assembled last night and discussed their participation in three fairs—Seminole County Fair, the Tampa Fair, and the Central Florida Exposition at Orlando.

A report on the Chapter's most promising plant set forth that 6,958 pounds of meat are now on hand.

William Burnett and David Earle were named on a committee to lay tentative plans for the annual summer vacation tour.

Another committee, composed of Boyd Coleman and John Jones, Jr., was selected to arrange for the chapter's annual father and son banquet, which will be an event of March.

Attending the session were Harvey Hale, Boyd Coleman, John Jones, Jr., Frank Jones, George Mauser, Lionel Appleby, Amos Jones, John Mauser, Herbert Thurston, Robert Mauser, Edward Pridden, William Burnett, David Earle, Henry Jamison, E. D. Tyler, John Davis, Roscoe Whitney, Morris Lodge, Cosie Spivey, Robert Jamison, Lee Hunter, Howard Dague and Mr. Johnson.

# 633 Occupational Licenses Paid In Drive By Police

A City Hall report issued today showed the sale of 633 occupational and professional licenses. The fees became delinquent on Oct. 1.

Police Chief Roy Williams is exerting efforts to collect back license assessments from the 150 delinquents which remain on a list in his possession.

The police officer said it was not the City's desire to take the non-payment to court, but he declared that course of action is open if officials chose to pursue it.

Occupational license fees are looked to strongly as a source of municipal revenue. About \$10,000 was noted in 1936 from this method.

# Legion Auxiliary Sponsors Drive To Get Welfare Funds

The Campbell-Loring Unit No. 23, of the American Legion Auxiliary today announced the sponsorship of a sale drive by the Purdy Brand Flavoring Extracts Company to be started here probably Thursday.

Mrs. Thomas L. Sullivan, president of the unit, said ten percent of the gross receipts will be added to the service organization for use in welfare work.

She said: "The public in Lake City is requested to support this drive. Any co-operation will be deeply appreciated."

Mrs. Sullivan explained that plans have been made to make calls by telephone and deliver orders later.

# Soil Conservation Checks Received By Local Farm Office

Another assignment of checks, compensation for participation in the 1936 soil conservation plan, had been received today by C. R. Dawson, County farm agent.

Slightly more than half the 743 treasury checks to be distributed in this section have been accepted by Mr. Dawson and many of them signed over to their payees.

The farm agent emphasized that farmers and growers should call at his office for checks only upon receipt of a card bearing the information that the check has arrived.

# Solons Offer Compromise For President's Supreme Court Reorganization Plan

## Supreme Court Upholds Penalty In Sales Taxes

### Local Firms To Find Bills Increased Under New Ruling

Eleven Sanford firms and individuals against whom suits have been filed charging non-payment of the State gross receipt tax will have their bills increased considerably under a Supreme Court ruling yesterday, according to the Associated Press.

The Court held that there could be no suspension of the law's provisions for a penalty of two percent a month for failure to pay the taxes when they are due.

Its ruling was brought about by a case in which the East Coast Lumber and Supply Company sought to require Comptroller J. M. Lee to give it a business permit without payment of penalties.

Lee's office said "quite a considerable" sum would result from the penalty provision because hundreds of business firms did not pay the license and gross receipts taxes during the time the law was under court attack upon its constitutionality. Final decision upholding the law was made by the Supreme Court in December.

Occupational licenses were due July 1, 1935. If they were not paid, they now are delinquent 20 months. The penalty for non-payment is two percent a month, or a total of 40 percent. If the license for July 1, 1935, to July 1, 1936, originally was \$10, 40 percent addition makes it \$14.

Under the previous Supreme Court decision, the gross receipt taxes of one-half of one percent went into effect Feb. 25, 1936. Therefore, they now are delinquent by 11 months if they have not been paid.

The penalty for gross receipts tax delinquency also is two percent a month. This tax is payable monthly and the comptroller's office said it could not immediately compute the amounts due or the added penalties.

If the tax in an individual case was as much as \$10 for March, 1936, the penalty added would make \$12.20 now due with subsequent additions for each subsequent month of delinquency.

## Fate Of WPA In County Will Be Announced Soon

### Unit Making Plans To Carry Through Until June 30

Future activities of the WPA in Seminole County may be determined within a very short time, W. S. Earle, work director, said today on the basis of an unofficial statement made by Frank P. Ingram, State Administrator on the latter's return from a conference of State administrators in Chicago.

Plans for the operation of the administration in this County and others through June 30 are being worked out by national officials, Ingram was quoted as saying.

While it had appeared that the middle west flood situation might divert some of the WPA funds intended for Florida, Mr. Earle said Ingram reported no definite mention was made of plans along these lines.

A considerable part of the appropriation recently approved by Congress is being used to ease the distressed condition of people and communities in the flood area.

Ingram reported that he was unable to ascertain whether funds so used will be replaced later in the WPA work relief program.

In this County there are several projects which have been approved but for which no money has been allocated. Work Director Earle indicated that he is soon to begin efforts to obtain funds for beginning work on some of these.

He pointed out that two projects, Sanford Avenue and the Paola Road, will be completed by Saturday, thereby closing several jobs which have been a constant means of livelihood for more than a score of men.

## Beauty To Become Bride Of Barclay

Virginia Moore, a dark-haired beauty from Bennettsville, S. C., is engaged to become the third bride of McClelland Barclay, the noted magazine illustrator and novelist, of feminine beauty. ## Lumber To Finish Athletic Project Ordered By City

Materials to complete the clubhouse at Municipal Athletic Field were ordered by City officials today, according to an announcement made this morning by Mayor Ed Higgins.

An assignment of men from City forces were transferred temporarily to the ball park to rush activities on the important work and insure completion before the arrival of students entering a Chautauogue Lookout-supervised baseball school opening Mar. 1.

Mayor Higgins said the WPA had doubled up its employees on the project in an effort to see the endeavor finished before the deadline.

The City recently was forced to step in and lend assistance to the work which originally was assigned to the WPA, but a withdrawal of funds by the latter to be used in the food area necessarily slowed down work.

## Nurse Recommends Immunization For School Youngsters

Mrs. Dorothy Lamb, public health nurse, today warned parents of school children of the danger in now allowing youngsters to take immunizing serum to prevent the contraction of diphtheria, typhoid fever and smallpox.

The nurse explained that many students are reporting that parents have looked with disfavor on the immunization process and are not permitting their children to receive an injection.

Mrs. Lamb cautioned that it is exceedingly more dangerous not to take immunization than it is to "take a shot of serum."

Arrangements have been made, she said, for immunizations to be given free of charge by Dr. C. W. Pease, of the State Board of Health. He is slated to arrive here in the near future.

If it is desired, serums may be given by the family physician.

In no instance is the precaution compulsory.

## McNUTT NOMINATED

WASHINGTON, Feb. 17.—(AP)—President Roosevelt today nominated Paul V. McNutt, former governor of Indiana, to be United States high commissioner to the Philippine Islands. McNutt will fill the place that has been vacant since late last summer when Frank Murphy was given leave of absence from the post to run for Governor of Michigan.

## WOMAN DIES IN FALL

TAMPA, Feb. 17.—(AP)—Mrs. William C. Tindel, 30, of Graceville, was killed last night in a fall from a window in the psychiatric ward on the fourth floor of the Tampa Municipal Hospital. County officials said an inquest would not be necessary. She is survived by her husband.

## BEAN DIES

CHICAGO, Feb. 17.—(AP)—Ralph E. Williams, 56, Dean of the Northwestern University College of Commerce, died yesterday after an illness of ten days.

## Red Cross Makes Final Report On Flood Collection

Seminole County citizens contributed \$1,010 to flood sufferers in the Ohio River Valley, according to a final report made today by Mrs. F. D. Scott, acting chairman, of the Red Cross Chapter here during the drive for disaster relief funds.

Unreported individual contributions recently are:

Epworth League Union, \$2; Presbyterian Church, Intermediate Department \$3.31; Osceola, \$1.21; Afro-American Insurance Company, \$5.

Mrs. Scott reiterated her appreciation for the interest this County has shown in the work of bringing relief to persons, most of whom saw all their belongings and homes swept away by flood waters.

## Monday Scheduled As Holiday By Bank, Local Postoffice

The Sanford postoffice and the Sanford Atlantic National Bank will observe Feb. 22, George Washington's birthday, as a holiday and neither will transact business, it was announced today.

Postmaster R. J. Holly said no services will be required of either City or rural carriers and that all windows are to be closed the entire day.

Perishable matter sent by parcel post will be handled as will special delivery, the postmaster said. Mail is to be dispatched as on other days.

Collection from designated street boxes will be made between 1:30 P. M. and 2:30 P. M.

## 500 Sanitary Units To Be Installed At Finish Of Program

Nearly 500 new units for the proper disposition of sewage will have been installed at the completion of the City's drive to clean up certain unsanitary conditions here, Commissioner W. R. Dupree said today.

He reported that the work, which has been under way for more than two weeks, is being accomplished at a minimum of expense to both the municipality and to owners of residences where disposal facilities are being installed.

The commissioner explained that labor is furnished by the WPA, the major part of costs charged to the residence owners affected, and a certain cost share sustained by the City.

All work should be completed before the warm months arrive, Commissioner Dupree declared.

## Trailer Camp Sites Narrowed Down To 2

A City official disclosed today that the number of possible locations for a tourist trailer camp here had been narrowed down to two.

Both sites, the official said, were close to the business center of Sanford and would be convenient for all campers.

He disclosed that a City Commission meeting may be called in the near future to decide on a definite spot for the camp.

## Madison Amendment Is Proposal Made By Wheeler, Bone In Controversy

### Believed Okeah To Both Sides

### Congress Could Enact Measure Voided By Bone

WASHINGTON, Feb. 17.—(AP)—Senators Wheeler, Democrat, Montana, and Bone, Democrat, Washington, proposed today a constitutional amendment which they predicted would be "accepted as a compromise" by both opponents and supporters of President Roosevelt's judicial reorganization program.

Their proposal—patterned after the "Madison Amendment" originally considered during the constitutional convention—would empower Congress to re-act by a two-thirds vote any Federal law invalidated by the Supreme Court. No action would be taken, however, until the new Congress had been elected following the Supreme Court's decision.

Wheeler—opponent of the President's request for authority to increase the High Court's membership unless justified by a 70 retiree—suggested that the amendment might be passed by special convention called in each State, a method provided in the Constitution but rarely used.

Senator Norris, Independent (Nebraska), and other so-called "liberals" who have criticized the President's plan, were expected by some congressmen to back the Wheeler-Bone compromise.

## Public Speaking Classes To Close With Local Fete

A 10-week class in public speaking, which met every Thursday night in the Chamber of Commerce, will be climaxed tomorrow night with a banquet beginning at 7 o'clock in Eddie's Restaurant, Valdez Hotel.

All instruction has been under the direction of Prof. H. E. Fleming, a member of the Rollins College faculty.

About 35 Sanfordites availed themselves to the course, and will have a part in the "graduation" program Thursday, T. E. Simpson, Chamber president, is to be toastmaster.

Although the class has been extremely popular, Prof. Fleming left no indication that the course will be repeated for another group of local citizens.

## Kiwanis Club Sings For Entertainment At Weekly Session

Kiwanians today staged an informal program of group singing which took up the major part of their weekly luncheon session in the clubroom of the Valdez Hotel.

Special entertainment was presented by Mrs. W. G. Fleming, who sang a solo, "The Little Drummer Boy," accompanied by Miss Margaret Davis, and gave two musical readings, (1) "Why?" and (2) "In the Usual Way."

A committee, composed of Arthur Branan, Julius Dingfield and Walter Coleman, was named to investigate methods to counteract clothing for a local boy, in a deficient financial state, who was recently involved in a police investigation. This has been pending in the City Police Department.

Club guests were Augustus Ashman of Philadelphia, Pa.; E. Kirshoff, Jr., Sanford; and Ted Rice of Cincinnati, Ohio.

## Submarine Fleet Center Of Drama In Ritz Offering

With Richard Dix, Dolores Del Rio and Chester Morris sharing the starring roles, Columbia's "Devil's Playground," a dynamic comedy-drama based on the exploits of the brave lads in the United States submarine fleet, opens its local run at the Ritz Theater today.

Revolving about the unusual triangle of two navy officers, once inseparable, who part over the friendship of a voluptuous airman interested in neither of them, "Devil's Playground" turns its attention in a sensational climax to a spectacular crash between a huge, derelict ocean liner and a fully manned submarine.

With a gaping hole in the hull, the sleek, grey sea dog sinks to the bottom, fifty fathoms below the surface. With the crew trapped in an airtight compartment, diver after diver attempts the hazardous descent with a life-bearing hose but the pressure at fifty fathoms is too much to overcome.

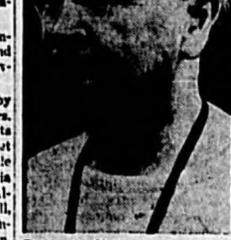

Dix, as the navy's ace diver, is probably the only man able to make contact with the sunken hull, but refuses to try it. The dramatic situation unfolds in a rapid-fire succession of thrills, romance and action-packed comedy.

Mrs. B. B. Baggett motored to Bok Tower Sunday.

The Rev. and Mrs. A. H. Cox had as their guests over the weekend Mr. and Mrs. L. J. Carlton and daughter, Joanne, of Wauchope, and son, Lewis, from Mt. Verde Vocational School.

Mrs. B. D. Croup of Pittsburgh, Pa., is the house guest of Mrs. Harry Lewis, Mrs. Croup and Mrs. Lewis' other guests, C. A. Croup of LaPort, Ind., Harry Lewis of Deluth, Minn., have been extensively entertained by their hosts and friends during their visit in Sanford.

# Congress Lists Nepotism Not Dead Yet

WASHINGTON, Feb. 16.—The month pay rolls for the Seventy-fifth Congress have revealed a similarity of names suggesting that nepotism still is widely practiced on Capitol Hill. It is perfectly legal to give jobs to relatives, but this practice frequently is criticized.

Twenty-eight members of the House were shown by the pay roll list to have clerks bearing last names identical with their own. In some instances Representatives have traded relatives with other Congressmen.

The pay roll revealed that some Representatives defeated in the 1936 primaries or in the election had added to clerical pay rolls during their last few months in office persons bearing their own last names.

Members of Congress receive office space and equipment here and an annual allotment for clerical help, the bill being paid by the government. Similarity of names does not demonstrate nepotism, but it often is evidence that a Congressman has given a relative a job.

Representative Thomas L. Blanton, Democrat of Texas, defeated in the Texas run-off primary last August, shifted his clerical list from Oct. 1 through Dec. 30, M. Blanton and W. W. Blanton, were put on as clerks, M. Blanton at \$208.33 a month and W. W. at \$208.33.

F. F. Hammond, Democrat of Ohio, and D. S. Earhart, Democrat of Ohio, elected to fill unexpired Seventy-fourth Congressional terms in November, made full use of their election. Although Congress was not in session, they personally drew two months' share each of the \$10,000 annual salary. In addition, Hammond had on his pay roll A. G. Hammond and Earhart had Alice D. Earhart at \$216.60.

Representative George Huddleston, of Alabama, leader in the

fight against the utility "death sentence," was defeated in the Alabama primary June 9. On Aug. 1 a new clerk appeared on his pay roll—Bertha Huddleston, \$175 a month.

Last Spring Representative J. L. Adair, Democrat of Illinois, announced he would not run for re-election. On May 1 Maude E. Adair came on the pay roll as a clerk at \$112.50 a month.

Other "name duck" instances: Percy L. Gassaway, Democrat of Oklahoma, defeated in the Oklahoma primary July 7; Lillian Gassaway, \$225 a month, September through December.

L. T. Marshall, Republican of Ohio, defeated in the November election; Max Marshall, Nov. 1-Jan. 1, \$311 a month.

L. T. Morita, Democrat of Pennsylvania, defeated for re-nomination in Pennsylvania primary Apr. 28; Agnes M. Moritz, May 15-Jan. 2, \$125 a month.

J. N. Sandlin, Democrat of Louisiana, defeated for re-nomination in Louisiana primary; Emma L. Sandlin, \$325 a month, November-December.

W. J. Sears, Democrat of Florida, defeated in June 2 primary; D. W. Sears, July 1-December, \$21.66 a month.

Members of the Seventy-fifth Congress with clerks having names similar to their own were: A. Leonard Allen, Democrat of Louisiana; Harold L. Allen, \$192.48 a month.

W. F. Allen, Democrat of Delaware; W. F. Allen, Jr., \$155.55.

# Last Quarter Rally Gives Eustis Win Here

## Undefeated Panthers Come From Behind To Hand Feds 29-20 Defeat In Thriller

### Sanford Loses After Sporting Five Point Edge In 3rd Quarter

Playing a brand of ball superior to any that displayed here before this season, the Celery Feds gave the undefeated Eustis Panthers a real fright last night on the local court as the Feds held them the visitors came from behind to score a 29-20 victory.

The locals presented a smooth attack which was worked almost to perfection while their defense clicked well during the entire contest with the exception of three fatal minutes in the final quarter. The Feds, up until that time, never trailed by more than four points and held the lead twice, the second time pacing a five point margin.

After the Panthers had taken a 3-0 lead, the Melars men counted for two points but the visitors stretched the margin to 5-2 following which the locals took the lead at 6-5 only to lose it, trailing 8-7 at the quarter. At half time, they were behind, 11 to 9, but in the third period, knotted the count at 13-11 and then forged ahead into the lead, stretching it to 18-13 and leading 18-11 at the end of the period.

The first three minutes of the final saw every member of the visiting aggregation rally in order to take a 21-18 edge after which it was too late for the Sanfords to do much.

Arnold opened the fray with a foul conversion and was followed by Close's failure to do the same. Walker made an underbasket shot after which Johnnie Morgan stepped from under the hoop. Horne missed a foul but made up for it with a pretty one-hander from the right side of the court. Purdon's two fouls and Morgan's field goal from the right side of the floor

sent the Feds into the lead, 6 to 5, after which Phillips tallied from the foul line but Close made a field goal and a foul to give Eustis an 8-7 lead.

Zachry missed a technical foul shot to open the second quarter. Bailes tallied after dribbling in. Horne made a foul shot and Zachry scored from beneath the hoop to complete the scoring for the half.

Johnnie Morgan's shot from the left side of the court tied the count in the third period at 11-11, but Bailes made one from inside the foul line to send Eustis ahead. Phillips missed a foul conversion but Purdon tapped in the rebound to send the count to 13-13. Zachry made one of two fouls, Dal Ferguson made an underbasket shot and Phillips tapped in a rebound to give Sanford an 18-13 edge. Horne's foul sent the count to 18-14 as the quarter ended.

The opening minutes of the final period spelled defeat for the local fighting Feds as Close made an underbasket shot, Walker tapped in a rebound, Horne tallied from under the hoop as did Bailes, and Arnold came through with a one-hander from the right side to give Eustis a 21-18 edge. Morgan missed a foul. Arnold made one and Close tallied from under the goal. Purdon made an underbasket shot, Dal Ferguson missed two foul conversions and Close did likewise but made up for it with a field goal that completed the scoring for the contest.

It was indeed a tough battle for the locals to lose but the Feds deserve a good deal of credit for the game they played. At that, they gave the visiting combine one of its greatest scares of the season, sending the later home to remember their return game in Sanford.

The St. Johns team will also come in for its share of the blame. Close, elongated center of the

## Atlantics Will Battle Eckerson; St. Johns Meet Barnett's Here

Arrangements were completed today by Arthur Branan, cashier of the Sanford Atlantic National Bank, for two more than interesting contests which will take place Saturday night on the Seminole High School floor when two of the outstanding teams of the Jacksonville area will clash with Sanford's two outstanding teams.

The contest which will probably top the program is the second one of the evening, scheduled to begin at 9:00 o'clock, will feature the Atlantic National Bank team of Jacksonville, last year's champions of the Commercial League there after winning ten consecutive games. The Jax bankers, who have dropped but one contest this season, will battle the local Jefferson Cannons who are a regular record, having won 12 of 13 games.

The first half title of the night will be fought Saturday evening when the Sanford National Bank team, also of Jacksonville. The Rivermen, like the Eckersons, have lost but one contest during their 1937 league campaign, that being a 31-26 setback handed them by the local B signal in the first game of the season. The Barnettets have been running rough shod over practically all their opponents this year.

The St. Johns-Barnett Bank contest is slated to get underway at 8:00 P. M.

Sanford led the tallying with four field goals and a foul, a total of nine points. Bailes and Horne followed with six points each. Morgan, with three field goals, a rebound, with two field goals and two fouls, also making six points, were high men for the Feds.

The lineup:

SANFORD	PG	F	T
Zachry, F.	1	1	3
Morgan, F.	3	0	6
Purdon, C.	2	2	4
D. Ferguson, G.	1	0	2

**Fish Commission Bans Seining For Shad In Waterways Of County**

Anglers today were denied the privilege of seining for shad in the waters of the county following the action of state authorities who have placed a ban on such actions, according to E. F. Householder, county attorney.

Fishermen had previously petitioned the commissioner, asking for an open season but H. L. McDonald, fish commissioner in this section, stated in regards to the ban, that it would be harmful to bass and other fresh water fish if seining for shad would be permitted.

## Joe Louis Must Win Cafeteria Plan Is Used In Agriculture

KANSAS CITY, Feb. 17.—(AP)—Joe Louis, suffering from dental prestige as a result of his failure to knock out Bob Pastor, will seek to straighten out at the expense of Nattie Brown in a scheduled 10 round bout tonight.

Brown, who in 1935 stayed ten rounds with the Brown Bomber, declares he can do it again, but the idea is practically rejected with him. Odds on the fight are prohibitive.

Matchmaker Frank Gallo estimated the probable gate would hit \$30,000 or possibly \$35,000. Louis will receive 40 percent; Brown 15 percent.

Louis must win by a quick knockout or his gate appeal may drop to a point where the local dock board of control would be without a fountain pen when it comes to signing for the proposed title bout.

The bout is scheduled to start at 11:05 P. M., Eastern Standard time, and will be broadcast (NBC Blue Network).

### Over Florida To Make Trip With Legislators Conference

ORLANDO, Fla., Feb. 21.—Senator D. Stuart Gilchrist, chairman of the Florida Legislature, announced today he will devote practically all of his time between now and the opening of the Legislature to these matters. He expects to leave about March 1 a tour of the State for the purpose of listening in person to the views of the people upon matters of interest which will demand attention of the Legislature. He was asked for an expression of his views as to what would be the most important matters to be considered by the Legislature, the usual fiscal policies of the Florida Legislature and Congress of the United States seem to have laws either on the books or in the process of enactment, covering every phase of human activity. The people of Florida demand a right to expect the Legislature to exercise its powers in governmental affairs, but there seems to be a difference of opinion as to what constitutes efficiency. Certainly it ought not to be that any institution supported by the State, or any department of government, is to have its efficiency impaired, or that essential activities in step with the development and exhibition of the States resources should be curtailed. There is another question of great importance and one which has not received the consideration it deserves. That is, that the responsibility for raising revenue should be placed upon the Legislature, of which no department or institution has a member. It is hoped—but with less confidence.

### California Shows Three Necessities Following Crashes

SAN FRANCISCO, Feb. 17.—(AP)—There are only three essential things to do after a motor accident, but so many people forget them that the California State Automobile Association has sent out a reminder to its members. They are:  
1—Give or obtain aid for all injured persons.  
2—Announce your identity to the driver of the other car and get his own name, address and license number.  
3—If you are insured, do not concede liability or agree to pay or accept damages; that is up to the insurance company.  
After these matters are taken care of the motorist may take the names of witnesses, report the matter to police and—if he likes—get into an argument.  
Brazil has approximately 2226, 143,600 paper money currently in circulation.

### Biggest American Ship Involved In Ship Collision

PORTLAND, Ore., Feb. 21.—(AP)—The Italian steamer, Fulvia, and the American freighter, Edward L. Johnson, collided in a gale on the Columbia river today, the Fulvia striking up to her gunwale and the Johnson's bow striking the Italian's bow. The Johnson was heavily damaged.  
Port news after the crash the crew members of the Johnson were rescued and taken to the Fulvia. The Italian crew was rescued by the U. S. Coast Guard.  
The cause of the collision of the two ships was not immediately ascertained but may have been the work of a strong current. The Johnson was pictured in reports as grinding into the side of the Fulvia after the crash with her bow stove in. The river was thought to be about 50 feet deep at the scene of the collision which would explain the stability of the Fulvia. The Johnson was a passenger carrier but governmentally had been but her crew aboard.

## Insurgent Victories Spot Landscape In Spanish Civil War

### Triple Air Attack On Madrid Leaves Scores Dead; Mass Offensive Telling

### Portugal Refuses To Join Nations

### 47 Foreign Volunteers Killed As Truck Hits Rebels

Insurgent victories dotted the Spanish war map today as Generalissimo Francisco Franco's men were hurled against Government troops in mass offensives southeast of Madrid and a triple air attack left many dead and wounded in Madrid streets.

While the civil war raged with renewed intensity, Portugal remained aloof from intervention efforts in London, again refusing to join 26 nations in a plan to stop Franco's march on Spain.

In France, however, President Albert Lebrun signed a decree prohibiting Frenchmen from joining either side in the war. The general ban on foreign volunteers to Spain is effective Saturday midnight.

Severe fighting was reported in France, however, as the Spanish army reported another delay in consideration of the Florida ship canal, according to the Associated Press.

## Engineers Again Credit Company Delay Report On State Waterway

### Final Drafts Being Prepared; Finish Is Seen This Week

Army engineers in Washington yesterday reported another delay in consideration of the Florida ship canal, according to the Associated Press.

The Board of Engineers for Rivers and Harbors had been expected in some quarters to complete its work this week and transmit a report to Chief Engineer E. M. Markham.

However, the War Department said final drafts still are being prepared and another board meeting will be necessary before the report is adopted. The meeting date has not been set.

One source quoted Markham, said the Associated Press, as saying he would complete his study of the report within a week after he received it. On that basis, this source predicted the project would be placed before the House Committee on Rivers and Harbors early in March.

It was unofficially reported that final meeting of the Board would be held next week.

When the group does assemble for a final consideration of the controversial waterway, it will find itself faced with a multitude of data compiled largely by Seminole County interests who oppose the canal.

Too, there will be set forth in brief reasons why South Florida interests have no desire to see the huge project finished.

The principal objection by all opponents is that the 30-foot cut across the center of the State will do irreparable damage to the section's fresh water supply and—according to opponents' data—will make a virtual wasteland of the region.

## Reports Bright Year Of Action

### \$500,000 In Business Passes In Channels Of Production Unit

Nearly half a million dollars in business for the present season was reported today by S. E. Andrews, head of the Sanford Production Credit Administration of Columbia, S. C.

The Association, Mr. Andrews explained, makes short-term loans for production and livestock purposes. Every County in North Carolina, South Carolina, Georgia and Florida is provided for in the organization's setup.

There are 94 associations in the district, he said.

Mr. Andrews announced the forthcoming meeting of the Credit Association for Sanford, Miami, Orlando, Plant City, Bradenton and Jacksonville, but added that the definite date had not been established.

He said approximately 25,000 (Continued on Page Three)

## RESIDENTS OF TERRORIZED SECTION

Men were asked to probe the activities of mysterious hooded night riders terrorizing Brunswick county, N. C., after two of the men shown above received threatening notes, a third said he expects one, and the other approved the riders' activities "if they can do any good." Earl Fennell (top left), who lives in South Carolina near the North Carolina line, and Robey B. Long (top right) of Hickman's Crossroads, N. C., said they received warnings. Cobie Hickman (below left) of Hickman's Crossroads said he expects a warning note. Rev. Vance Simmons (below right) declared "If they (the floggers) can do any good, they are all right."

## President Proposes Adoption Of System For Crop Insurance

### Gordon Barnett Sets Forth Plans For Legislature

### Highway Safety Major Points In Program Of 1937 Session

Gordon Barnett, State legislator-elect from Seminole County, today set forth several proposed laws which he intends working and included provisions for making highways safer.

He said he will make earnest efforts to enter legislation to provide State drivers' license for all operators of automobiles, and for an annual inspection of all motor vehicles.

Mr. Barnett reported that the Florida Automobile Dealers' Association, in convention today at Orlando, are solidly behind the proposal, adding that its legislative committee has already laid down certain suggestions that may be incorporated in the proposed law.

The local legislator also announced a schedule designed to rid the highways of roaming cattle, which he described as "something not satisfactory or pleasing to northern visitors."

Mr. Barnett said that he had not considered any provision for the cost of maintaining cattle-free highways but pointed out that revenue for the project may come from three sources—the cattlemen from cost to cost, in cooperation with NEA Service, Inc.

Approximately 60,000,000 other Americans, readers of the 700 papers using NEA Service, will have the privilege of joining in this efficient expression of public opinion.

No plan suggested by President Roosevelt has aroused more comment than his suggested enlargement of the Supreme Court.

Lines are being drawn sharply within the electorate. Few are without definite opinion, for or against the plan which would give the President power to increase the Court membership to 15 by appointing one new member for each present member over 70 years old.

### Seven Athletes Signed For 1937 Baseball Season

### Club Officials Ask \$500 For Deposit Required By Unit

Officials of the Sanford Baseball Association today began assembling its players for the 1937 season by mailing seven contracts to men who performed on the local diamond last year.

Playing agreements went to Eddie Davis, Bill Cates, Erskine Hoover, Joe Bistruff, Orman Moller, Owen Wright and Shory Mabby.

Simultaneously, President Henry Wason and Secretary Treasurer Jimmy Wright announced that \$500—the source of which has not been determined—is necessary before the club can re-enter the Florida State League.

This sum, the officials said, is the deposit required by the Association of Professional Baseball Leagues as a token of good faith. It is returned at the end of the season.

Club directors said they were making an effort to recruit for another season the services of Del's Moe and Gilberto Torres who were assigned to Chattanooga at the end of last season and can (Continued on Page Three)

### Plan Would Protect Farmers Against Disastrous Years, Drought, Insects

### Storage Reserve Also Is Hinted

### Government Officials Estimate Big Cost Of New Suggestion

WASHINGTON, Feb. 18. (AP)—President Roosevelt recommended to Congress today the adoption of a system of crop insurance to provide the farmer with a buffer against disastrous crop failures.

He said such insurance coupled with a system of storage reserves for crop surpluses in good years "would assist in providing a more nearly even flow of farm supplies, thus stabilizing buying power and contributing to the security of business and employment."

"A program of crop insurance and storage of reserves," he said, "should be part of the foundation of the agricultural policy which we are building and which must include the conservation of soil and water, better land use, increased farm income, and alleviation of distress in rural areas arising out of factors beyond the control of individual producers."

The President sent to Congress with his message a report of his special committee of Government officials which planned the insurance program.

## Local Grapefruit Growers Assemble Here On March 1

Seminole County grapefruit growers will meet here on the night of Mar. 1, an assembly called by the State Chamber of Commerce, according to press dispatches originating in Jacksonville.

Harold Cole, president of the Chamber, made the announcement, although the purpose of the session was not disclosed. Thirteen other similar conclaves for growers in other grapefruit producing counties are planned.

It was believed the meeting is scheduled to review the progress made by the Government in the latter's surplus crop production program.

In buying on the tree grapefruit at 21 cents per box, the Government established a minimum price for fruit and insured the producer some profit.

Surplus purchases were distributed to relief clients who could not afford to buy citrus, thereby offering no competition to the regular market.

## Local Girls Show Small Interest In NYA Instructions

Little interest has been displayed in the opportunities offered girls by the National Youth Administration camps, Mrs. J. P. Ridge, director of social welfare in Seminole County, said today.

She said that only one inquiry has been received on the numerous courses in NYA camps which will open next month in Tampa and St. Augustine.

Mrs. Ridge pointed out that other than having an excellent chance of becoming proficient in a profession, students are paid for the time they are in camp and are given all expenses.

Courses include costume designing, drafting and interior decorating, business English, social science, dramatics, home economics, first aid, home hygiene and music.

Information on the classes may be obtained at Mrs. Ridge's office in the Court House.

Girls from relief families are eligible.

## Sanford Is Given Chance To Vote On Court Program

### Straw Ballots To Be Printed In Issue Of The Herald Tomorrow; Mark And Return Votes

Here is your chance to have a say on President Roosevelt's proposal to revamp the Supreme Court.

It is in the form of a nationwide poll conducted by The Herald and 700 other newspapers from coast to coast, in cooperation with NEA Service, Inc.

Approximately 60,000,000 other Americans, readers of the 700 papers using NEA Service, will have the privilege of joining in this efficient expression of public opinion.

No plan suggested by President Roosevelt has aroused more comment than his suggested enlargement of the Supreme Court.

Lines are being drawn sharply within the electorate. Few are without definite opinion, for or against the plan which would give the President power to increase the Court membership to 15 by appointing one new member for each present member over 70 years old.

## Law Enforcement Body After Users Of Old Licenses

Sheriff Charlie Hand today warned Seminole County motorists to "show a 1937 license tag or keep your automobiles and trucks off the highways."

"An overly sufficient period of leniency has been granted, the sheriff asserted, in which every one driving a motor vehicle should have obtained a '37 plate and complied with the State license law."

"The County doesn't want to inconvenience anyone," Sheriff Hand remarked, "but it does want to see that the tag law is abided by."

He pointed out that Gov. Cote allowed a full month of grace before instituting the law-enforcing departments to "crack down" on violators.

Sheriff Hand, sometime after the deadline, followed a policy of warning violators one time but adopting sterner measures on the second offense.

## Sharon And Wilson Lead Finance Drive Of Salvation Army

Judge James G. Sharon will act as general chairman and Fred E. Wilson as vice-chairman of the Salvation Army annual finance drive beginning about Mar. 16, Capt. Fred Feren, of the local Army Post, said today.

Capt. Feren announced that no headquarters had yet been chosen for the campaign, although one downtown building is under consideration.

The captain explained that volunteer workers are critical for the work of raising finances to run the Army during the ensuing year.

Approximately \$3,500 is expected to be raised, according to preliminary budget estimates.

## Sanford Schools Co-operate With Shakespeare Film

Senior and Junior High Schools of Sanford today announced their cooperation with the scheduled showing of Shakespeare's "Midsummer's Night Dream" at the Ritz Theater for Friday, Feb. 26.

Sketches of the play by the famous English writer have been distributed for study by all English classes from the ninth grade through the 12th.

The school "in" with the picture is in line with a policy adopted in almost every American city where the play has been shown. It was announced.

Joseph L. Marentent, theater manager, said the picture will be seen here only one day.

## Activity Reported In Immunization Of Children In School

Stimulated activity by parents who wish their children to be immunized against typhoid, diphtheria and small pox was reported today by Mrs. Dorothy Lamb, public school nurse.

A typographical error in yesterday's Herald quoted Mrs. Lamb as warning parents of school children "of the danger in not allowing young ones to take immunization serum." The sentence should have read "in not allowing youngsters to take immunization serum."

Mrs. Lamb used the immunization, pointing out that it can be obtained free of charge from a State health officer who is scheduled to arrive here soon, or that it may be secured by payment of the regular fee—from the family physician.

## Florida Sheriffs Recommend County Motorized Units

Recommendations for County motor units under the supervision of the sheriff's office, were made in Jacksonville yesterday at a special called meeting of the Florida Sheriffs' Association, C. M. Hand, Seminole sheriff, said today.

The body looked with disfavor on the State-supervised unit patrolled by former Gov. Dave Sholtz, pointing out that it was a needless expense, according to Mr. Hand.

A county patrol, Sheriff Hand pointed out in an address before the Association, could function with less cost and more efficiency because its director would be constantly in a small vicinity covered by the unit.

Some financial aid for the county's department may be necessary from the State. Mr. Hand reported that this allocation would be considerably under that expended by the State patrol which Gov. Fred Cone abolished.

## Coast Line Leads American Railways In Safety Record

The Atlantic Coast Line railway led the nation's rails in safety for the year of 1936, according to a report issued by Robert Scott, director of insurance and safety, and released today by W. A. Leavitt, shop superintendent of the ACL in Sanford.

Based on statistics compiled by class "A" railroads, the largest in the country, the Coast Line piled up a ratio of 3.05 hours per million man hours.

Mr. Leavitt explained this to mean that for every million hours worked by ACL employees, only 3.05 hours were lost because of injuries due to accidents.

Twenty-seven transportation companies were listed in the report which had a total ratio of 6.81 man-hours per million man hours.

## 90-Day Trial Set For Airmail Here; Intense Use Urged

Sanford's airmail "trial" will last about 90 days, Volie Williams, Sanford aviation committeeman, said today on his return from Washington where he and George McRory contacted Postoffice Department officials and obtained airmail service for the City.

Mr. Williams announced that the speedier postal facilities will go into effect probably before Mar. 1.

He said one week of work is needed at Municipal Airport. Upon completion of this, Department of Commerce inspectors will place their final and formal approval on the flying field and give mail planes permission to land there.

The aviation committeeman and Mayor Ed Higgins each stressed the importance of heavy use of airmail during the trial period, since its permanence depends on its initial reception here.

Mr. McRory said Congressman Joe Hendricks, National Democratic Committeeman H. H. Wells, Second Assistant Postmaster General Harley Branch, and H. E. Graddick, superintendent of the airmail, were instrumental in the successful culmination of the Washington trip.

## Helen Chapman To Seek State Honor In Essay Contest

Miss Helen Chapman of Seminole High School tomorrow will compete for the Irving Bacheller gold medal, an award for the best historical essay written by a Florida high school student.

Competition is scheduled to be held at "Gais 'O the Isle," Mr. Bacheller's estate in Winter Park near Rollins College.

The local girl was one of six finalists selected in a State-wide contest. Her work is "Mellonville Avenue, an Historical Landmark of My County."

Other contestants are Robert Getts of Fernandina; John Pihula of Daytona Beach; Margaret Borchardt of Tampa; Thelma Gray of Bradenton; and Francis Linfers of Ft. Lauderdale.

All six will be awarded some recognition for their works, but the first place victor receives a gold medal.

## Seminole Display Of Home Products Takes Second Award At Orlando Fair

Seminole County's display of home-canned and preserved products won second award at the Central Florida Exposition in Orlando, and missed first place by only one point, fair officials said today.

This attractive display was assembled and arranged by Miss Josephine Boydson, County Home Demonstration agent, and consists of 157 containers of various dried and 256 varieties of canned products. Seminole's total score was 957, while Ocala County took first place by her score of 958.

This County's exhibit of crystallized fruits and candies also won second premium.

Third place went to Seminole's exhibit of fruits other than citrus, including tropical fruits and nuts.

Ocala County took first place over Seminole in vegetables and garden products by only seven points, due to a larger number of varieties. However, the Exhibit Committee of the Seminole County Chamber of Commerce announced that Seminole scored higher in quality and arrangement of this particular display.

## Sharon And Wilson Lead Finance Drive Of Salvation Army

Judge James G. Sharon will act as general chairman and Fred E. Wilson as vice-chairman of the Salvation Army annual finance drive beginning about Mar. 16, Capt. Fred Feren, of the local Army Post, said today.

Capt. Feren announced that no headquarters had yet been chosen for the campaign, although one downtown building is under consideration.

The captain explained that volunteer workers are critical for the work of raising finances to run the Army during the ensuing year.

Approximately \$3,500 is expected to be raised, according to preliminary budget estimates.

## Sanford Schools Co-operate With Shakespeare Film

Senior and Junior High Schools of Sanford today announced their cooperation with the scheduled showing of Shakespeare's "Midsummer's Night Dream" at the Ritz Theater for Friday, Feb. 26.

Sketches of the play by the famous English writer have been distributed for study by all English classes from the ninth grade through the 12th.

The school "in" with the picture is in line with a policy adopted in almost every American city where the play has been shown. It was announced.

Joseph L. Marentent, theater manager, said the picture will be seen here only one day.
