TURKS ARE IN DANGER

Not From Outside But From Inside Foes

GOVERNMENT NOW UNPOPULAR

Other Notes of Interest From all Corners of the Civilized World.

Bulgarians yesterday killed 1,000 dead on the field after engagement yesterday of Blyuk Chakmedy, according to an official report. Since the engagement all has been quiet along the Tchaltja line as well as at Bular. The fall of Adrianople has caused a feeling of deep dejection in all sections which has tended to increase the unpopularity of the government. The British consul at Adrianople sends a message that all the consuls and foreign dignitaries are safe and well. His Bulgarians are safe and well. His report says that Bulgarians took only 15,000 prisoners, the rest of the garrison being missing. It is expected that the powers, not on the subject of an armistice, but on the subject of the partition of the empire.

J. Pierpont Morgan has been pronounced in a condition at Rome. The announcement made today by his attending physicians. For several days he has been unable to stand, and his weakness has given rise to apprehension. Up to Saturday night Mr. Morgan was in bed, and the effort to convey Mr. Morgan to his home in London. Later on Sunday Mr. Morgan died last night.

Ohio and Indiana are Recovering From the Yellow Flood

Death Rate Not as Large as Reported. Conditions Are Vastly Improved.

Huntington, W. Va., March 31.—By Phone to Pittsburgh. This place is in total darkness and is facing a water and food famine. Two persons are reported missing, the property damage, according to close estimates of leading business men will amount to nearly \$10,000,000 and numbers are homeless.

This afternoon at 4 o'clock the river reached a stage of 41.2 feet, the highest in the history of Huntington and a new stationary.

The entire business district is inundated, the water being up to the second floor of all buildings. Many homes have been wrecked and many people have been forced to take refuge in the surrounding woods.

Lawrence Halliday received news to-day of the death of his wife, Mrs. Mary E. Halliday, who died at her home in Huntington, W. Va., on Sunday, March 30.

Hamilton where the destruction was the worst sewerage outlets now are in operation greatly lessening the possibility of disease. An order to sterilize all drinking water was issued today.

Washington, March 31.—The weather bureau tonight issued the following flood bulletin:

The great flood of the Ohio valley is still in progress and it will reach Cincinnati about Tuesday. The river below Cincinnati continues to rise slowly. The gauges were:

Cincinnati	87.7	rising	10.0
Cincinnati	87.7	rising	10.0
Cincinnati	87.7	rising	10.0

A half million dollars could be used in this way by the relief committee. Fifteen thousand houses and other structures or what remains of them must be pulled down and the debris removed. Following are some of the accomplishments since the flood broke over the city Tuesday morning.

The waterworks pumping station is in operation and the restoration of water is greatly hastened by open pipes in walled basins. The pressure is high but growing stronger as leaks are checked.

The main sanitary sewer is in operation although many of the laterals leading from houses are clogged with mud or choked up with water.

The food sewer separate from the sanitary will be in operation tomorrow.

PONCE DeLEON IN FLORIDA

Brilliant Ceremony Opens in Ancient City

FOUR HUNDRETH ANNIVERSARY

Other News and Views of Florida Gained by Special Service

St. Augustine, March 30.—Practically everything else has been set aside and everyone will devote the present week to the proper enjoyment of the Ponce de Leon celebration which will commence here tomorrow and continue daily until Friday evening. Chairman A. W. Corbett and his executive committee together with the sub-committees have put in several weeks of hard work and now every detail of the elaborate program for celebration week has been completed and all is in readiness for the big demonstration. The people are giving their hearty cooperation and support to the celebration, both morally and financially. The entire city is in gala attire, especially in the business sections where practically every building is covered in flags and bunting of variegated colors representing the various nations who have held possession of Florida during periods of the past, of course with the American colors predominating.

The erection of the new grammar school building in Orlando will likely begin during the early part of next month. The new structure will have a seating capacity of 1,144. That manual training structure will be provided. The building will cost in the neighborhood of \$2,000,000.

While the next few weeks the Sempronis Lumber Company expects to be in operation in Jacksonville with a force of about 300 men. The property where the old cannery was located has been purchased by the new company and will be used as the automobile tire factory.

A half million quarts of strawberries was the record for this season which has not come to a close at Lakeland. Although less than one-third the average of last year was planted this season, the yield was the largest ever known in this region. The average of the previous year the average and price to the consumer was 20 cents per quart, which brought about \$100,000 into local circulation.

The contract has been awarded for the erection of the main building for the Florida Military Academy in Jacksonville. The contract calls for a brick and concrete building to be 188 feet in length and 60 feet wide, and a center aisle. The building will be three stories high with ornamental towers. It will front to the southwest on Edgewood square and will have grounds of five acres for a campus and drill grounds for the students.

Several lots on Laurel avenue opposite the West Side Park are in a bad condition. Apparently they have been used for a dumping ground for ages past and should have the attention of the owners or town authorities on Cleaning-up Day. Overgrown with weeds, covered with wagon loads of cans, bottles and other refuse they are a disgrace to any well organized city, in addition to being a menace to health and morals. Laurel avenue is one of the prettiest streets and is one of the approaches to the park. The West Side Improvement Association is fighting an uphill fight to maintain the park (the city's property) and should have the approaches to it at least kept in good condition by the proper authorities.

The Sanford High School basket ball team are to play the Daytona High team at the High School grounds. The line up for the Sanford team is as follows:

Crosby, R. E.
Raynor and Kanner, L. E.
Gilbert, C.
Routh, R. G.
Field, L. G.

The game will be called at 3 o'clock.

The attacks on the power of several judges have been before the Supreme Court since the states. An attempt will be made shortly after the court opens April 7, to show that the judges are not requiring the attorneys to be brought into the case.

The Mexican government has made a formal protest to the American government against the shipment of munitions from the United States to rebels and has requested that a public vigilance be resorted to on the frontier. Mexican officials state that numerous contraband articles, including arms, have been sent across the border in some cases even at the regular ports of entry and are now in the hands of the rebels.

Restructuring the State
It is admitted that the restructuring of the state into congressional districts, the legislature should consider that the state is not evenly and justly represented in relation to the representation of the people.

NO COUNTY DIVISION
Deep Laid Scheme Between Sanford and Orlando Exposed

Wagon in the street... members of the division executive committee among them being Forrest Lake, F. P. Foster, Henry McLaudin, J. R. Phillips and F. K. Bates of this city and Messrs. Bradshaw, H. M. Robinson, C. E. Howard, Joseph Ferlie, George Keller and B. Beacham of Orlando slipped into the rear office and listening to their conversation we could ascertain that it has been definitely decided to drop the county division and everybody work for dear old Mother Orange. H. M. Robinson has consented to have F. P. Foster take his place as clerk of the circuit court. Eddy Martin will give up his position to M. W. Lovell. Judge Martin will be re-elected by J. J. Dickinson. I. G. Starbuck was willing for four DeGottos to take his lately acquired solicitor's job. B. Beacham was to have the blessing of Sanford's newspaper editors for the Orlando editors said something nice about the Sanford editor and everybody who had advocated the county division was all right, but the judge...

they are run especially to get the poor man's money. The fact is the poor man has no club, but he ought to have. He ought to have a club that does not take money he needs for bread and clothes, a club that stimulates his mind and his higher social qualities. Neither the poor man nor the rich man needs a club to stimulate the animal impulses, and both of them need homes more than they do clubs.

The "smoothing out" process that is to be initiated this week in preparation for handling tariff revision in the next session that opens April 7, is one of the important steps in the program of tariff preliminaries. Chairman McQuinn of the Senate finance committee will confer with Chairman Underwood of the House ways and means committee tomorrow and both are to talk with President Wilson and arrange for future conferences at which disputed points will be discussed.

Chicken Pilau
A jolly party of young people enjoyed a pleasant car ride to Cameron City Friday evening and a delicious chicken pilau, which an expert chef sent out in the afternoon, had prepared, and had in readiness with all the accompanying accessories on the arrival of the party. With high spirits and merry conversation the awaiting feast was enjoyed by the weird light of huge camp fires, when the happy laughter and jolly talk of the merry party awoke from silence and slumber all the crickets and birds in the vicinity.

After the banquet the car ride homeward was also a pleasant feature of the happy evening.

The members of the party were Mrs. J. J. Purdon, Mrs. T. S. Davis, Mrs. Esie Purdon, Margaret Davis, Linda Connelly, Charlotte Hand, Helen Rowland, Mattie Lips, Ronie Murrell, Eugenia Mauldin, Gladys Morris, Bertha Henry, Lucretia Chappell, Hazel Hand, Agnes Berner, Karl Roumullat, Harold Long, Mulem Wright, Ralph Wright, R. H. New, George McLaughlin, Abner Kanner, Roy Chittenden, George Brown, Ned Chittenden, Sam Pickens, Paul Jones, Osborne Herndon, Henry Purdon, Pope Wicker.

Four Man's Club
The following among all the week requires in comment to express home truths contained therein:
It seems that almost any time something needs to be closed up, it turns out to me a "poor man's club." If the plea of the attorney for the defendant happened to be true, the poor man would show very questionable taste in his clubs. About the only things professing to be poor man's clubs happen to be those violating the law, and one of the things of these places which try to hide their faces from the public is that they are run especially to get the poor man's money. The fact is the poor man has no club, but he ought to have. He ought to have a club that does not take money he needs for bread and clothes, a club that stimulates his mind and his higher social qualities. Neither the poor man nor the rich man needs a club to stimulate the animal impulses, and both of them need homes more than they do clubs.

Morgan's Death
Mr. Morgan died here at 12:00 last night after a critical illness of several weeks. Only by the movement of his right arm, which Morgan showed that he was still conscious, several hours before he died, the doctors were able to ascertain the extent of his condition.

Auction Bridge
The Auction Bridge Club were the guests of Mrs. Robert Newman Monday afternoon. Several prizes were playfully spent in bridge playing.

In Honor of Miss Mauldin
The charming hospitality of Mr. and Mrs. R. W. Herndon was never so much enjoyed as on Thursday evening last when they entertained the younger social set in honor of Miss Eugenia Mauldin of Washington City. The handsome rooms of this lovely home were filled with the pleasure-loving young people of the city. The special features of the evening were dancing, cards and dancing.

Punch was served with cake in the dining room. On the handsome table the elegant pink lace cover in rich design made the beautiful centerpiece a large base of exquisite red roses, more charming and effective.

The excellent music made during the specially attractive and pleasing enjoyment of the evening.

CURBSTONE GLEANINGS

Budget of Optimism Just Between You and Me.

EVEN THE GATE POST NOT IN IT

A Chief is Among Ye Taking Notes and Faith, He'll Prent 'Em— So Says Saunterer.

The West Side Cleaning Up Bug... You see the notion grow... Every body's got the craze...

When a boy becomes a scout is an epoch making event in his life... In Michigan the state fire warden is organizing the boy scouts for the protection of the forests...

It seems appropriate that the beginning of this spirit of chivalry in the boy scout will be commemorated and there is no better way of doing it than to plant a tree and dedicate it to public use.

The tree for planting may be obtained from the woods. The scout should select his own tree and he will take pleasure in hunting for a suitable one.

The planting and care of the tree will have a good influence on the boy scout and he will be amply paid in anticipation when he thinks of his grandchildren who may enjoy its shade and who will say with proud accent, "this noble tree was planted by grandfather who so kindly and wisely thought of us."

President Wilson accepts the honorary presidency of the peace congress of America which meets in the first week of May in St. Louis. Among other who have accepted honorary vice presidencies are ex-President Taft and Senator Root.

Among the active vice presidents are Secretary Bryan, Speaker Clark, Oscar Straus and Andrew Carnegie. Distinguished men are at the head of the leading committee. This is the fourth annual meeting of the congress and the nature and range of its work is well understood.

It is of especial satisfaction to the country that President Wilson indicates his desire to move in the direction of the peace congress that has characterized the congress from the start.

There has not been any expression of peace sentiment with a string to it such as marks the attitude of ex-President Roosevelt, for example that is the doctrine that the way to have peace is to be armed to the teeth and to get the most enormous navy and army that our people will possibly endure from the taxpayer's standpoint.

Suppose it be true that it is unsafe to disarm under present conditions, it is perfectly safe to plead for general disarmament and to promote principles of international disputes of nationalities and to be very earnest in advocacy of such agreements between nations as shall secure final disarmament.

The English speaking nations are expected to take the lead in nearly all the other elements of civilization for centuries, as far as those elements relate to human comfort and well being.

Mayor Spencer and his efficient police force are hot after the blind tigers and every few weeks an offender is sentenced for selling red liquor in a dry town. Last week the Mayor had an aged white man up for this offense and gave him an ample fine and warning to do better in the future.

There seems to be some excitement about the Sanford postoffice which tickles my risibilities none, because, the Sanford postoffice will not be an issue for three years yet, and the present dry applications may be dealt by that time.

I note by the papers that Orlando failing to convince the people that county division is a bad thing has been obliged to take the loser's argument and dig up the threadbare argument of wet and dry again.

The cause of forest conservation receives a strong boost from the disastrous floods up in the Ohio valley. They furnish an impressive object lesson of what forest management can do.

The cause of forest conservation receives a strong boost from the disastrous floods up in the Ohio valley. They furnish an impressive object lesson of what forest management can do.

When one considers that it costs over two billion dollars a year to maintain peace on the doctrine of being always highly prepared for war, one may realize the enormous sum of human labor that is practically burned up and rendered useless by world armament.

A want ad is a good investment

THE SANFORD HERALD Published Every Tuesday and Friday Morning by THE HERALD PRINTING COMPANY

And again we ask, what has the wet and dry question to do with county division? And how about that wet petition in Orlando?

Rumor has it that Sanford gardeners are seeking for lettuce, dredging for celery and hopelessly fishing for a county seat.—Orlando Sentinel.

Exclude the tirade of abuse against the "County ring" and will some one from Sanford please arise and recite their reasons for secession? Orlando Sentinel.

What's the use? Orlando wants statistics would commence talking about wet and dry. Our reasons for secession are the same that have started revolutions since the world began—revolutions that always succeed.

SPEAKING OF THE DEAD A prospective candidate for coroner in the new county of "Harney" was told that there was nothing in the office anyway, as only occasionally there was a dead body for him to hold in request over and Kentucky and if he thought he would work up a good business.

THE FLOODS Such widespread and appalling damage to property and life as has been wrought by the floods of the past two weeks seldom has been recorded. The federal authorities are doing everything in their power to grant relief and the state authorities are rushing succor and relief as fast as possible.

MUNICIPAL OWNERSHIP The following paragraph appearing in the Gainesville Sun and the Lakeland Telegram should give food for thought to the people of Miami: No doubt the Southern Utilities Co. would like to obtain possession of Gainesville's water and light plant, but the people would turn down any proposition made for the same just at this time.

Florida BELIEVES IN HERSELF Florida is a smallish state in some dimensions. In population it ranked thirty-third at the last census. Its manufactures are trivial when compared with those of Pennsylvania. It has no mines underground. Time was, perhaps, when its ideal corresponded to its material caliber.

Again We Say

MUST BE PROGRESSIVES Because a man is a Democrat is not sufficient for him to receive preferment in a Federal appointment. There are thousands of men in Florida and elsewhere who are Democrats and who are more from habit than from any other conviction.

THE WET AND DRY QUESTION The Sanford Herald says that Orange county is already divided. The editor of the Herald does not believe that himself, but he might wish it were so, for every day lessens their chances.

SPEAKING OF THE WETS During the last wet and dry election Orlando called upon the good people of Sanford for assistance and Sanford prohibitionists responded nobly.

GENERAL LEGISLATION President Wilson has passed a bill with a broad and generous scope for the relief of the people of the United States.

Again We Say

P-R-O-T-E-C-T-I-O-N

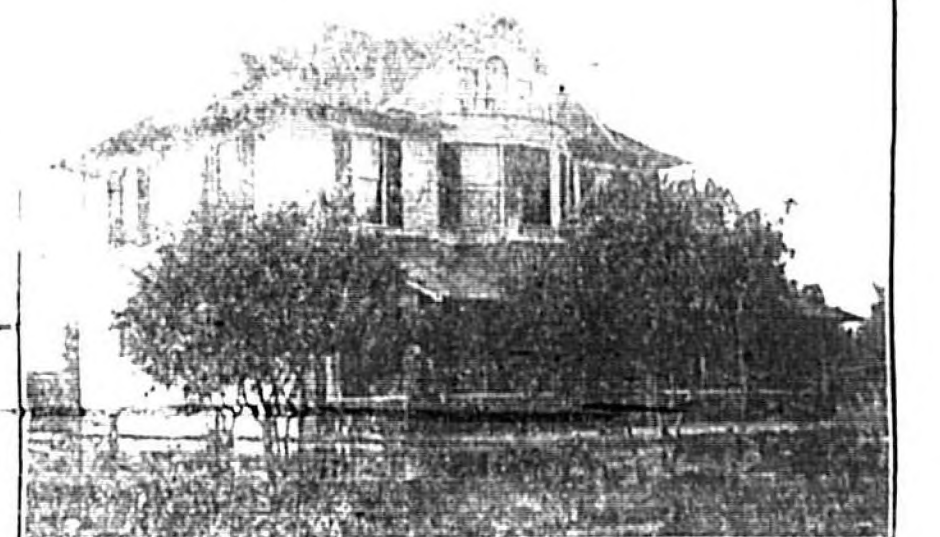

When the plan of guaranteeing banks deposits was launched into this country, prominent banks raised their voices in protest against a system which they claimed would not only destroy the banks' individuality, but would greatly encourage a lax system of vigilance in the different banks affected.

As to the banks' individuality, we all know this would be a mighty poor world if we were all alike in our aspirations, and our attainments, and we are equally positive that this ineffable human attribute will never be done away with through any law that might be placed upon the statute books; however were such thing possible, it is there one of us willing to sacrifice the greatest good to the greatest number on the altar of some man's individuality? I am sure there is not.

THE PEOPLES BANK OF SANFORD was founded on the solid rock of DEPOSIT INSURANCE and, under the management of men of high standing and sound judgment, has thrived and prospered.

LOCAL NEWS

Mrs. Ernest Molnar is the guest of her parents, Mr. and Mrs. Takach.

T. W. Hriggs left yesterday for Warwick, Rhode Island, where he will spend the summer, returning to Sanford in the early fall.

Mr. and Mrs. Hamery and daughter returned to their home in Youngstown, Ohio today after a visit with their cousin, Mrs. B. E. Takach.

C. A. Smith, the Fixit man is busily engaged in repainting and remodeling the Draper place south of the city, on the Sanford avenue road.

Capt. and Mrs. B. F. Whitner arrived in the city Friday and are visiting their daughter and son, Mrs. S. O. Chase and B. F. Whitner, Jr.

W. D. Wildman, J. R. Wildman and Miss Laura Davis motored to Daytona last Saturday and report a delightful trip, returning the same day.

Mrs. Ida S. Parramore and daughter, Miss Annie, returned to their home in Jacksonville Friday after a visit of several days with Mrs. Parramore's mother, Mrs. A. A. Sistine.

The West Side Improvement Association meeting will be held at the Robbins Nest Thursday afternoon at 3 o'clock. There will be matters of importance to come before the association. A full attendance is desired.

Miss Eugenia Mauldin left Friday night for her home in Washington City, after a pleasant visit with her aunts, Mrs. A. P. and Mrs. H. B. Connelly and their families. Miss Mauldin made many friends during her short stay in the city who will always welcome her return.

Miss Annie McDermid of Columbia, South Carolina, arrived in the city last week and is the charming house guest of her aunt, Mrs. J. N. Robson and family. This is not Miss McDermid's first visit to Sanford and the many friends of this attractive young lady in the city are giving her a cordial welcome.

Complimentary to Miss Mauldin Mrs. A. P. Connelly was the gracious hostess at a very delightful theatre party Wednesday evening complimentary to her charming niece, Miss Eugenia Mauldin of Washington City, who spent the Easter holidays the guest of her aunts, Mrs. A. P. and Mrs. H. B. Connelly.

On the return of the party from the theatre several pleasant parlor games were played, after which delicious ice cream with strawberries and whipped cream and cake were served.

Mrs. Connelly's guests were Misses Eugenia Mauldin, Essie Fardon, Helen Rowland, Margaret Davis, Annie Whitner, Lettie Caldwell, Linda Connelly, Lucca Chappell, Gladys Morris, Annie Parramore, Roy Chittenden, Osborne Herndon, Ralph Wight, Karl Roumillat, George McLoughlin, Harold Long, Randall Chase, Alce Kanier, Benjamin Whitner, Vivian Spear, Mrs. Connelly and Mrs. B. W. Herndon chaperones.

Sunday School Institute Under the auspices of the Congregational church there will be held an educational Sunday school rally Wednesday and Thursday, April 9 and 10.

There will be an evening session on Wednesday at which time Hon. S. T. Johnson of Florida, chairman National Council Apportionment Committee and Rev. Geo. B. Waldron, Home Missionary Supt. of Florida will make addresses. Thursday afternoon and night the speakers will be James F. O'Brien, D. D., Educational Secretary for the south in Sunday school work for the Congregational Sunday school and publishing society, and Rev. Wm. H. Hopkins of Atlanta, Ga., the new Congregational superintendent of the south. The coming of these experts on the religious education of the young will be a rare opportunity for all Sunday school and church workers of Sanford, to whom a most cordial invitation is extended to be present at all meetings. To every one interested in Sunday school work the institute will be of inestimable value. A question box will be operated and questions answered. Wherever these educational rallies are held they have developed a larger vision of the possibilities of Sunday school work, and created a greater degree of interest, hence the coming of these able men to Sanford is a splendid opportunity that our people should embrace. It is hoped that every Sunday school in Sanford and the vicinity of Sanford will send its special delegate as well as every officer and teacher of the various denominations to these meetings. To be a real, genuine rally there must be the cooperation of every

church in Sanford. The work is well in hand and the various committees have been appointed as follows:

- Business Committee—Rev. Geo. B. Waldron
Entertainment Committee—Mrs. C. E. Walker and Ladies' Union Congregational church.
Music Committee—E. T. Woodruff and C. E. Walker.
Decorating Committee—Mrs. Finlay Munson, Harry and Beecher Kent.
Invitation and Publicity Committee—Rev. J. T. Langley, Miss Carrie Essminger, Mrs. R. A. Terheun.

Twenty Pound Cabbage This may not sound large to some of the older growers but a twenty pound cabbage is the largest that has come forward this season and if any one around here has any larger ones they will have to come forward and show them, for we have one in the Herald office now that tips the beam at full twenty pounds. It was raised by Capt. Smith who lives near Monroe and it seems to have been raised well, probably upon the Presbyterian doctrines, which in part may account for the thrifty growth.

The Herald contest for big cabbages closed two weeks ago, in which Mr. Muirhead won by bringing in a cabbage weighing fifteen pounds. While we cannot award the prize to Capt. Smith we can make him the office winner until some one beats his record. The big cabbage is one exhibition at The Herald office and is creating much excitement among the visitors to the city. Although of an immense size the cabbage is very firm and fine.

Commission for Orlando Orlando, March 28—Following the example of progressive cities throughout the country a mass meeting of representative citizens here adopted a simplified charter for a commission form of government tonight, following previous agitation, with no apparent opposition. They adopted a charter to be presented at once to the city council for approval, asking that body to recommend the same to the Legislature, to be voted on before January 1. The charter is based on those successfully used in the Carolinas, Texas and New Jersey. There is every indication of the ratification of the proposed charter.

An address by Wm. F. McCombs, chairman of the Democratic National Committee, in which the manager of President Wilson's campaign paid a high tribute to the power of the country press, was one of the principal features of the midwinter meeting of the Arkansas Press Association held at Little Rock.

Mr. McCombs has been spending a week at his old home at Hamburg, Ark., and accepted an invitation to address the meeting at the press association. Following his address Mr. McCombs was elected an honorary member of the body.

Mr. McCombs, in his address, gave a large part of the credit for the nomination and election of Mr. Wilson to the assistance given by the Democratic country press.

"If I were asked to pick out the greatest single influence in the country, said Mr. McCombs, "it would be the country newspaper. Every page of it is read, 'patted' 'busted' and all I know, because I have studied the matter in fact, I have sent out a good deal of 'boiler plate' myself.

"A man cannot write a column of news matter without writing an editorial—putting his own opinions into it. One doesn't have to look at the editorial page to gather opinions—every reporter in a sense is moulding public opinion. I used to think reporters were 'etherical beings, plucking news items out of the air—nobody ever seeing them.' But I find that reporters are intensely human.

"If you take a reporter into your confidence you need have no reason to worry, but if you don't—God help you. In the past two years I have had occasion to see a great deal of them. In fact, I have called as many as ten of them into my room at one time and have interviewed them. And from them I have gained many valuable ideas and suggestions. In these two years never has a reporter violated my confidence."—Ex.

Bryan's Primary Bill The newspapers of Florida are discussing with much favor the proposed primary bill for Florida which is being prepared by United States Senator Bryan of Florida and which purports to correct the many evils in the present

equipped to prepare the bill needed for this state. Senator Bryan has run the gauntlet of a primary and he has given the matter a great deal of study. His motive is to knock out the possibility of all forms of graft—to enable the poor man to seek office—to prevent Republicans from participating in a Democratic primary—to make the pri-

mary law a just and fair one. Senator Bryan is engaged in a good work, because one of Florida's greatest needs is a model, just and honest primary law.—Miss

Notice
The annual meeting of the Sanford Hospital Association will be held at the office of M. F. Robinson, on second floor of the Welborne Block at 8 p. m. Tuesday April 1st, 1913.
This meeting is for the election of officers and trustees for the ensuing year and such other business as may come before the meeting. A full attendance is desired.

Vacant City Lots, from 300 to 2000 dollars.
Wild Lands, in tracts from 10 acres to 30,000 acres.

RICH'D H. MARKS, Sanford, Florida

FAVORS PRIMARY PLAN

State Prefers Favorable To Primary For Postmasters

Many of the state papers are discussing the primary plan for choosing postmasters. Two of them are given below. At the primary election to nominate a postmaster for Arcadia on April 22 all white male patrons of the office over the age of 21 years, who reside in that election district and who register in the special registration book for such election, will be permitted to vote.

Some complaint may be made against permitting white Republicans to vote in the primary, but the Sun believes the permission is right and proper. Take Gainesville, for instance. Many of our largest property owners and best citizens are white Republicans, as much interested in the proper conduct of the post-office as any Democrat, and they should be permitted a vote as to what Democrat should take Postmaster Lynch's place if a primary be held for such purpose.

Arcadia is the first Florida town to hold primaries for the nomination of a postmaster. The first primary will be held April 22nd and the second primary, if necessary, will take place May 6th. Inasmuch as there are several politicians in Florida who have said that it would be impossible to arrange and hold primaries for postmasters it may be of interest to them to know how easily Arcadia made arrangements to let the people vote. Each candidate is assessed \$10 for the expense of the primary and it is provided that no one can become a candidate unless he is a Democratic elector residing in the election district in which the postoffice is located and declares his adherence to the principles and organization of the Democratic party, national, state, county and city.

It is also of interest that the County Democratic Executive Committee of DeSoto county passed a resolution on the 4th of February declaring in favor of filling all vacancies in the office of postmaster in DeSoto county by primaries wherever such vacancies occur. The primaries are to be held at Arcadia first because it is the first place in DeSoto county where a vacancy happens to occur.

The action of the county committee was the result of a resolution passed by a mass meeting of the citizens of Arcadia held on the 12th of last December requesting the committee to endorse the primary idea.

It is understood that Congressman Sparkman will recommend for the appointment whoever is nominated in the primaries. He could not be expected to do otherwise, because it will not be quite two years before he will have to ask the people of Arcadia again for their votes. It can always be taken for granted that a Democratic Congressman will abide the result of such a primary because they realize that it would be disastrous for them to turn down the will of a majority of the Democratic electors as expressed at the polls. To ignore a primary would get a Congressman "in bad" beyond redemption with a great deal more of his constituents than the ones interested in the nomination of the postmaster. The people of any town interested in nominating a postmaster by Democratic primaries need lose no sleep over the possibility of the Congressman not recommending the nominee of the primaries. Their jobs depend on the people and if there is anything which any of them know how to do better than to listen to the voice of the people, it has not been discovered up to this good hour.—Pensacola News.

Legislature News The Herald will have full accounts of the doings of the Legislature and there will be big doings when the county division matter comes up. If you are not a subscriber to The Herald stop borrowing your neighbors and get the paper first hand.

STATE CONFERENCE

Noted Educators Meet in Gainesville and Discuss Important Questions. The annual conference of county superintendents of school boards and high school boards and high school principals in session at Gainesville will meet at Fort Myers next year. Jacksonville, Tallahassee, Pensacola and Miami were also contestants for the honor.

Welcome addresses were made Thursday by Dr. J. L. Kelly, superintendent of Alachua county, who called the convention to order. Dr. A. A. Murphree, president of the University of Florida, Dr. J. Harrison Hodges and A. G. T. Moore, secretary board of trade, Supt. Sheats responded for the convention. The following committees were appointed.

Press Committee—P. W. Carr, B. B. Lane, W. B. Tate. Legislative Committee—R. E. Hall, J. H. Workman, W. D. Carn, Dr. A. A. Murphree and George M. Lynch.

The program for yesterday morning was the consideration of the two general topics, the County Superintendent and the State School Fund. It was generally apparent that the convention favored a gradual raising of the educational and profession qualifications of county superintendents. These subjects were discussed by Superintendent J. T. Diamond of Santa Rosa County, and Superintendent R. E. Hall, of Duval County respectively. Superintendent Diamond advancing as an ideal qualification a college education, or its equivalent, and Superintendent Hall insisting on an ideal standard for expert service, with the same qualifications as a high school principal, and with special training for superintendency in order to secure a professional quality of supervision. Superintendent J. H. Brinson in discussing other necessary qualifications, emphasized the need of tact to adjust the delicate situations that he must meet, and character that would not permit real adaptability to become mixed with hypocrisy. The superintendent's duties toward school officials and patrons were discussed by Chairman L. W. Kikliter of Bradford County board of public instruction, who emphasized the necessity for character, leadership, an open mind and respectful attitude in adjusting differences with patrons, in comparison with a spirit which sometimes leads to overbearing and dictatorial conduct on the part of the executive officer of a county school system. Superintendent Dixie M. Holms, of Pinellas County, discussed the superintendent's duty in the selection of teachers. He believed that board and superintendent should consult together, that the superintendent should advise the board but that upon this body should rest the final responsibility of selecting teachers. The question of the selection of superintendents was discussed by Principal N. J. Perkins of Sanford, in the absence of Principal W. S. Coleman, of Orlando, the idea being advanced that county boards should select the superintendent from those in every way qualified without respect to residence. General discussion of the topic of superintendency was opened by Superintendent W. A. Dopson of Baker County and taken part in by a number of superintendents and principals.

The topic of the State School Fund was considered with regard to the following phases, Its Present Amount and How Invested. Superintendent J. Q. Palmer, Duval county, Why Should It Not Be Loaned to the County at the Same Rate (three to five per cent). Supt. D. D. Corbett, and How to Proceed to Secure Needed Legislation, Supt. H. W. Hodges. The discussions were timely and suggestive, and the prevailing opinion of the convention seemed to be that the principal of the state school should be loaned within the state to the county school boards, on sufficient security, and at the same low rate of interest now received, and that in this way needed funds could be secured for the upbuilding of the system, and the principal of the fund kept inviolate.

Notice

Notice is hereby given that after sixty days from the date hereof we intend to have a bill introduced in the Florida Legislature at Tallahassee, asking for the division of Orange county on the township line dividing townships 20 and 21 north and twenty-two, except that portion which will not be included as per the map which will be attached to the bill, the object and purpose being to make and create a new county out of that territory lying north of said division line in Orange county and separate it from that portion lying south thereof. Dated this 30th day of January, 1918. COMMITTEE 150 ON COUNTY DIVISION. Frank P. Forster, Chairman. Thomas K. Bates, Sec'y.

CITRUS GROWERS CONVENTION
Big Meeting Arranged for Tampa on Thursday, April 17
 On Thursday, April 17, there has been called to meet at the Tampa Bay Casino at Tampa, Florida at 9 o'clock in the morning, a general convention of citrus growers of the state, whether affiliated with the Florida Citrus Exchange or not, to discuss the desirability and feasibility of organizing a Florida equivalent of the California Citrus Protective League; and we trust that as many of our growers as can do so will be present at this convention, which will be presided over by Prof. H. Harold Hume, the president of the Florida State Horticultural Society.
 On the following day, Friday, April 18, will be held the annual convention of the members of the Florida Citrus Exchange, and we sincerely trust that every member of the Exchange can see his way clear to be present at this convention, and make it the biggest and most rousing convention that the Exchange has ever had.

It is contemplated to have several of our district managers present at this meeting who have never met with us before—men that you will all be interested in. The convention will be conducted with and hearing talk. The financial condition of the Florida Citrus Exchange will also be discussed very thoroughly and fully, and as this convention of ours is held on the day following the general convention, for the purpose of establishing a state wide citrus protective association, any of our members who contemplate attending either of these conventions can attend both.
 Very truly yours,
FLORIDA CITRUS EXCHANGE.

Eustis Visitors Here
 Among the prominent visitors to the city today were Messrs. Clarence Woods and Mr. Prolieu of Eustis. Mr. Woods is the versatile editor of the Eustis Lake Region, one of the finest weekly papers in the south and Mr. Prolieu is a member of the city council of Eustis. Both of them were callers at The Herald office—an appreciated visit.

Had a Runaway
 The little son of Joe Cameron, and the little nephew, of Mr. Cameron, while driving a mule and spring wagon through town last Saturday had a rather exciting

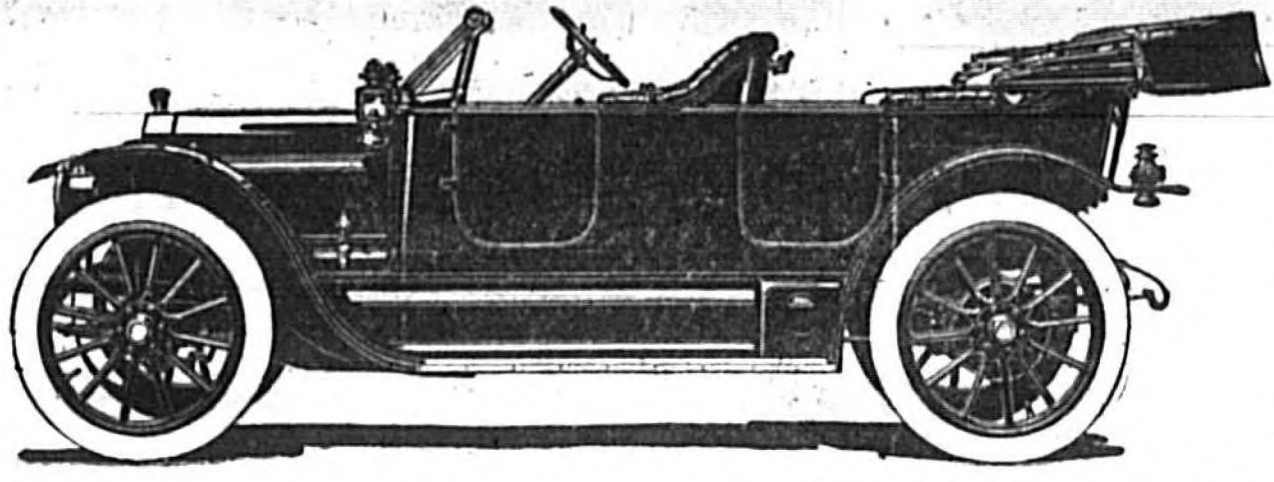

runaway that seemed to the spectators very serious at first. The mule became frightened on Second street and started to run. Near Hand's stable the little Moore boy was thrown out suddenly. The mule and wagon were stayed with the mule and almost ran into a moving train on First street, but a kind Providence was watching over him and the mule was finally stopped near the freight depot after a hair breath escape from death.

Scholey is Here
 That does not mean anything to the average reader of The Herald but to the editor it means much. Four years ago, C. H. Scholey, editor of the Guilford, Conn., Shore Line Times, spent a few hours in Sanford and left on the Clyde Line going north. On the boat he picked up a copy of The Herald and was so pleased with the various descriptions of different enterprises that he wrote the editor for exchange of papers and since that time he has read The Herald and a great intimacy has sprung up between the editors. Scholey has wanted to return to Sanford and the opportunity offering last week to take a trip to Florida he included Sanford in his itinerary and spent two days here. Our only fishing because he would never have left Sanford then. He expects to return at an early date and may become identified with our city as a winter resident. He would certainly give him and his good wife a real southern welcome and we know what no place in Florida would suit them quite as well as Sanford. Being a true newspaper man Scholey is a good booster and we expect him to talk to all his Connecticut friends this summer.

Lecture at Imperial
 Mrs. Kate Richards O'Hare will deliver her celebrated lecture, "Common Sense and the Liquor Traffic" at the Imperial Theatre on the night of April 16th. Admission 10 cents. Everyone should hear this celebrated lecture.

AUTOMOBILE!

THE EXPRESS COMPANIES

Hard Hit by Operation of The
Parcels Post

COUNSEL SUBMITS STATEMENTS

Other News of the World in General
That May Interest Herald
Readers

Washington, April 4.—Express companies of the country have been hard hit by the operation of the new parcel post system, according to a statement submitted to the Interstate Commerce Commission today by counsel for the companies in their final argument against the reduction in express rates proposed by the commission. It was declared that the companies had suffered a loss approximating 25 per cent in small packages business—a loss which amounts to about 6 per cent of the gross revenues of the companies. Walter Hines asserted that for the five companies he represented—the Adams, American, United States, Southern and Wells-Fargo, application of the proposed rates to present business would reduce revenues about \$26,000,000 a year, or 5.85 cents on every dollar's worth of business done. Such a reduction in revenues, he said, would be absolutely destructive. He maintained also that the formula made rates would disturb seriously business conditions in large centers, such as New York and Chicago, by forcing a readjustment of competitive business conditions. B. F. Fairchild of the New York Chamber of Commerce for the express shippers attacked Mr. Hines' argument as "purely theoretical and hypothetical" and insisted that the proposed rates would yield an ample revenue to the express companies. He maintained also that the present allowances made by the express companies to the railroads for transporting service were excessive.

China and the Philippines question came prominently before the cabinet this week. The President and his advisors discussed the advisability of recognizing the Chinese republic at an early date and there is every likelihood that the United States will be the first of the powers to act.

The breaking off of all negotiations for peace with Zapata has forced the government to mobilize a strong force for a campaign against the southern rebels. This has been done in spite of the fact that rebel successes in the north have made imperative the dispatch of a large part of the regular army to that region.

Democrats swept Chicago in Tuesday's municipal election, returning 22 aldermen and the superior court judge, city clerk and city treasurer. The proposed bond issue of \$2,880,000 urged by the Hearst-Harrison factions of the Democratic party carried by a small margin.

The use of Boston as a clearing house by smugglers of women's gowns is to be investigated by a federal grand jury, a special session to begin next Tuesday.

"Dayton is facing one of the gravest problems that any city of the world ever faced and we want the world to know we need money and food for our stricken people," said John H. Patterson, president of the relief committee, tonight after he returned in company with H. E. Talbot, chief engineer, from a tour of the sections of Dayton swept by the flood last week. In speaking of the tentative plan to ask the federal government for a loan of from \$20,000,000 to \$40,000,000 to be used in reconstruction work, Mr. Patterson said: "At a meeting of bankers and officials of the building association this evening it was decided to make an appeal for federal aid. The banks and building associations have \$60,000,000 worth of assets which they will put up as collateral. It may be deemed advisable to ask the government to give us some financial assistance. We feel that the disaster is an emergency which would justify extraordinary action on the part of congress."

Sanford Assists the Flood Sufferers of Ohio and Indiana

Noble Girls of the Lend a Hand Club Solicit Donations and Receive a Ready Response

Sanford is composed of the biggest bunch of large hearted people in the world and they are never appealed to in vain when it comes to assisting the afflicted or distressed. When the first news of the dreadful disaster in the Ohio and Indiana districts came to the people of this city the thoughts of all became centered on the idea of helping the people in the valleys of the raging torrents. Chief among the philanthropic bodies of Sanford is the noble band of workers, the Lend a Hand Club, composed of girls under the direction of their patroness, Mrs. Wight, and hardly had the news been flashed over the wires telling of the frightful loss of life and the dire need for the living before this band of noble ladies had started ways for raising money and supplies. Donations were sought and freely given. Entertainments were planned and ably seconded by the managers of the moving picture shows and in two days' time \$159.10 had been raised and forwarded by the society. The following letter means that the flood sufferers will be relieved as other sections followed Sanford's lead and donated quite as liberally:

Treasurer National Red Cross Society, Washington, D. C.:
Dear Sir—We are herewith handing you draft on National Park Bank, New York City, for \$159.10 for relief of the flood and storm sufferers. This amount was raised by the Lend a Hand Society of Sanford, Florida, by soliciting donations, and by benefit performances at the two theatres of the city.
Yours truly,
B. F. WHITNER,
Asst. Cashier.

Lyman R. Johnson
The Angel of Death entered the home of Mr. and Mrs. Norman R. Johnson Wednesday night and bore back to the cradle roll of heaven, their little son, Lyman R., aged 17 months, one of twins. Little Lyman had never been strong and for six weeks has been very ill. Sweet and lovely was this little son, and the hearts of their many friends go out in loving sympathy to the bereaved parents. Lyman was one of the first cradle roll babies of the Congregational Sunday School and the Sunday School at large extend deepest sympathy to the bereaved parents. The funeral took place from the home at 2 o'clock Thursday afternoon.

Cleaning Day Great Success.
The effort put forth by the West Side Improvement Association, and declaration for an official Cleaning up Day in the west side has met with undeniable success, as can plainly be seen if one takes the trouble to walk or drive through that end of town. From the A. C. L. R. R. to the beautiful home of Mr. and Mrs. Carter on First street, the cleaning up has been almost unanimous as evidenced by the well-ordered grounds of private homes and public hostilities, the clean cut parkways and neatly trimmed trees. Everybody on the West Side caught the spirit and "co-operation," the well worn slogan of the campaign, has proven beyond a doubt that it can accomplish wonders. From the railroad to the west, and from the lake front to the south, the West Side has had a general cleaning up that has never been known before in the history of Sanford. It is the talk of the town. Perhaps among the most notable improvements are the lots on the corner of First street and Elm Ave., and the Parker lots on Myrtle, but everywhere the residents have responded generously to the call. Gentlemen have given time and personal labor on their own and the property of others; some have contributed cash, while still others employed labor to be used on the unimproved lots. Beyond the brightest day met with a cordial support but now let us keep up the good work, not once a year but regularly let us have clean-up days in the West Side. It means cleanliness, health and beauty, and enhances the value of property. The West Side Improvement Association cordially thanks one and all who helped in any way to make cleaning up day a splendid success.

Eighteen solid cars of heavy lumber, and the first special "lumber train" that ever was shown Tampa is a record. The Hart Lumber Company and the Great Manufacturing Company of Jacksonville have received orders from lines which have been put out of commission by the flood to ship every foot of lumber that it is possible to get to different points where a bridge is either down or the track is washed away.

THE NEXT LEGISLATURE

Promises to Wake Up Things In Tallahassee

EXCITING SESSION IS PROMISED

Many Measures will be Introduced and Third House will be Busy

Tallahassee, April 4. Next week this capital will begin to assume the air of a legislative center for this year there are to be some important measures offered and some queer bills placed on the files. There will be many introduced and no doubt but few passed but this will be one of the most exciting sessions in the history of Florida. The "third house" this year promises to be large and opulent and therein lies the excitement.

An opulent third house draws the janglers on as well as the legislators. Some historic poker games between the regulars and the unlookers are promised, for in those games some big winnings are recorded by certain lawmakers while their opponents are the most cheerful losers that can be imagined.

Nearly every member of both houses will be called upon to introduce bills. An avalanche of new legislation is to be started. Its end is problematical. Among the measures in sight now are the following:

- A bill for State-wide Sunday baseball.
- The National constitutional amendment for the direct election of United States Senators.
- Woman suffrage for Florida.
- The convict lease system.
- A State highway system and a fifty million dollar bond issue for good roads.
- The abolition of the fee system.
- The short ballot system for the State.
- The creation of a State tax Commission.
- The creation of a public service commission.
- Charter bills for various cities, including commission government charters for Pensacola and Jacksonville and probably Tampa.
- The initiative and referendum.
- A bill providing for commission government in any town of the State that it may be desired.
- A bill allowing cities to amend their charters without going before the Legislature, it being contended that half the consideration of local bills.
- An absentee voting bill, allowing traveling men to vote by mail.
- The income tax may come up in order to place this State on record although the amendment has become part of the national constitution by the vote of a sufficient number of other State Assemblies.
- The Federal primary will be considered and the State committee probably will be asked to call same.
- Pensions for aged teachers.

The proposed reapportionment of the State which would do away with the Congressman at Large.

The State of West Florida may be submitted to the people.

The usual bills to increase the powers of the Railroad Commission.

All the reforms suggested in the Governor's message, and those suggested that are not reforms.

Fish bills, the division of counties and other local bills galore.

Jacksonville will have a large number of measures, among them in the city employees' insurance fund, the charter amendment, good roads, water across the St. Johns river, Tugboat system advocated by real estate men and numerous bills of a general nature.

Married in Bathing Suit.
West Palm Beach, Fla., April 3.—A romance of the sea, having its inception some two weeks ago, when the parties met for the first time in the waters at the bathing beach, had its culmination Tuesday in a most original and novel manner when Miss Landa Lund and Frederick Kirchner were united in the sacred bonds of matrimony.

The bride was dressed in a handsome silk bathing costume. In her hair were arranged orange blossoms, a large bouquet of which she carried in her hand. The groom likewise was dressed in his bathing suit. The minister wore the ordinary clerical costume. At the appropriate moment the groom produced from a mysterious recess of his costume the wedding ring. The minister concluded the ceremony with placing the ring on the finger of the trembling bride, which was the signal for a mighty cheer by the crowd.

Old Bomb Exploded.
Fernandina, Fla., April 3.—Having found several bombs in old fort near the city, Giuseppe Giannimo and Tony Franciso, Italian fishermen, took one measuring five inches in diameter to Salvador's fish house on the wharf today, where they commenced to investigate. Consequently both are fatally injured, Giuseppe being shown minus a leg, while the other had his arm blown off.

The two fishermen had on several occasions noticed the old bombs which had lain idle since the Civil war. Securing hammers they commenced to beat on the metal. Suddenly there was a terrific explosion and one went a leg and an arm, while the roof of the fish house, together with a portion of the side of the building, went up in the air.

"We hita da bom' wit' da ham', an' com' da bigga noise," explained Giuseppe.

The people of Arcadia are agitating the matter of building suburban trolley lines from that town out in different directions into the surrounding country and the nearby settlements. An excellent idea. There is nothing that will cause the country within a few miles of the town to settle up more rapidly than providing means for the people to get in and out quickly and cheaply.

FLAGLER CRITICALLY ILL

The Great Man of Florida is Not Expected to Live

ACCIDENT STARTED HIS DECLINE

Other News and Views of the State of Florida by Grapevine Telegraph

Florida, and the whole country, is in breathless suspense at news of the serious illness of Henry M. Flagler. In his eighty-fourth year, he is still the idol of those who know what he has been worth to this state. A success in every undertaking he has assumed in his early years, he organized great industries and started on the road to success corporations that have caused nations to acclaim them. Salt, petroleum and railroads were his specialty. With all his other achievements, it is in Florida that he really shines as a star of the first magnitude; and Florida will ever hold his name in grateful memory for his work in making possible what the state is today.

About 100 representative citizens met at the Arcadia opera house Tuesday night for the purpose of organizing a Democratic club, also for recommending for appointment as postmaster of Arcadia such a man as shall be nominated by the Democrats of District No. 9 on April 22, and for legalizing the call made for the primary or primaries and election for postmaster. About 100 names were enrolled. Officers elected were: A. C. Freeman, president, A. L. Durranco, secretary, committee appointed to draft resolutions, J. I. Jones, J. W. Burton and Andrew Carter. They were directed to send a copy of the resolutions, when drafted, to Congressman Sparkman, setting forth the object of the meeting and requesting him to abide by the primary on April 22, which would be the voice of the people of District No. 9 for postmaster.

The people of Clearwater mean to have that big new hotel before another season opens. There was a big boating meeting held by the chamber of commerce last week at which four thousand dollars was pledged as a bonus, and since the meeting through the work of a special committee there has been nearly two thousand dollars more added to this amount. It is proposed to increase the fund to ten thousand dollars, when the chamber of commerce will be ready to receive propositions from hotel men who mean business.

The brush and woodenware factory at Tampa is an active industry. The brushes are made from the fibre of the saw palmetto roots. Extensive improvements are going to be made on the plant in a short time.

With a large colony of its membership established at Middlesboro, Ky., a small one at Florence, Ala., and individuals at other points beyond the state, the Tennessee House of Representatives met at 10 o'clock this morning and adjourned without a roll call until this afternoon. A counting of noses, however showed sixty-one members present, sixty-six being a quorum. Until a quorum is restored the wheels of legislation are securely tied.

It may be that John Trice, president of the Citizens Bank and Trust Company, will have some trouble in sitting under his "own vine and fig tree" when he gets his new bungalow done at Anna Street. He will not be able to sit on the porch, or his kitchen door. His bungalow is built directly over the water on piles near the end of the dock and set in ten or twelve feet of the water. Mackerel, kingfish, flounders and many other kinds of fish may be caught from off the dock with great ease as visitors to the beach will testify and Colonel Trice can catch them as well from his home as they can be caught from the dock.—Tampa Times.
