### Miss California Is Seen In Action

Here is the speedy craft which recently broke the world's record for the 101 class hydroplane boats at the regatta staged on the Davis Islands water speedway. The boat, owned and piloted by Dick Loyne of Long Beach, Calif., will be seen in Sanford tomorrow in two events of the annual regatta staged by the Sanford Yacht Club.

### Peace Organizations And War Veterans Disagree On Definition Of Americanism

WASHINGTON, Mar. 10. (INS)—The men who fought America's last three wars and peace-loving pacifist organizations are at war over this question, it was learned today. The whole trouble started when a conference of the national commanders of the Grand Army of the Republic, the United Spanish War Veterans, the American Veterans decided upon a definition for Americanism.

# Beautiful Highland Park

Artistic, Unique, Distinctive, Different. In A Class By Itself.

Those terms have sometimes become hackneyed and meaningless as applied to real estate which had nothing to justify their use, but as applied to Highland Park, they are of vital significance and indicate the many things which render this development really distinct and different from any other in Sanford, and set it apart in a class by itself.

The name, Highland Park, expresses two of the main features which make it different from all others, for it is indeed Sanford's highlands, water flowing from it in all directions, north, south, east and west, it catches every breeze that blows, and instead of the conventional checker board street lay out of the ordinary town lot subdivision, its entire surface is landscaped as a park, and within its borders are three areas devoted exclusively to park purposes, all of them actually under development, and one of them

**RAINBOW GARDEN AND POOL** on Colonial Way, near French Avenue, has been nearly completed at a cost of several thousand dollars. All around this garden has been set a hedge of Hibiscus and Alamanda. Flame Vines have been planted at the feet of the trees growing inside and on the building lots surrounding. An Azelea garden has been planted. Cannas have been set in a five foot bed around one side of the circle. Sweet Peas and Nasturtiums are growing around the other half of the circle. Yellow Jasmine Vines are growing by the rustic summer house. A fountain springs from an imitation Calla Lilly in the center of the beautiful pool, and all over the water's surface are now blooming white and yellow flowers. Tropical Lillies, white, purple, red, pink, blue and yellow have been planted in the pool. A water sprinkler system is installed all over the area, and the plants alone which have been set in and around this garden cost nearly \$500. They do not make much show now, but in two or three years this pool and the gardens around it will be surpassingly beautiful.

**SWAN OVAL**, another of the parks, just within the Main Entrance at Elm and Hughey, occupies the most commanding situation in the city for a public park. A fountain costing nearly \$2,000 stands at its northern end. More than 6,000 flower plants, Phlox, Petunias, Cannas and Gladiolas, have just been set around its borders, a water sprinkler system has been installed, and in a few weeks, it will be among the most beautiful features of this show place of Sanford.

**REVONAH PARK** covering a full block at the southeastern corner of the property, bounded by Oak and Franklin on the east and south, and Revonah Circle on the north and west, will be for the exclusive use of owners of property in Highland Park. Here will eventually be erected a club house, courts for tennis, roque and croquet, and a swimming pool, a part of the work already having been done on the latter.

**MORE THAN A THOUSAND FLOWERING SHRUBS** are growing in my nursery rows, and these, with palms and shade trees, will be set out along the drives all over Highland Park. This planting will not be haphazard, as must always be the case when the planting between the curb and sidewalk is left to the individual taste, or entire lack of taste or to the whim or caprice of the lot owners along the street, many of whom do not even plant at all; but will be under a single control and will follow a carefully matured design, harmonious, artistic, and as time goes by and Nature carries on her work, an environment will be created that will attract to the two hundred home sites of Highland Park a group of kindred spirits whose beautiful homes and the grounds surrounding them will reflect the ideals of beauty in which this superb development has been conceived and is being carried out.

**ALL OF THESE THINGS** make Highland Park distinctive, different and in a class by itself, but there are others.

**IT IS CLOSE IN**, being exactly midway between the northern and southern city limits, and with Sanford growing at its present rate, sure to be right in the center of the built up part of the city very soon.

**IT IS FAR REMOVED FROM THE SMOKE** and soot and noise and unsightliness of railroad trains. As the population of the state and county grow, the railroads running through the residential part of Sanford will become more and more objectionable. In what other city can one find fine homes built near the railroads?

**IT IS AN ADVANTAGE TO HIGHLAND PARK** that the new high school is only two blocks away, but it is much better that it is two blocks instead of one.

**IT IS AN ADVANTAGE TO HIGHLAND PARK** that its winding drives will tend to keep out heavy traffic, which will naturally follow the straight avenues surrounding it, thus tending to seclusion and to keep it apart in a class by itself.

**YOU WILL NEVER FIND A BETTER TIME TO BUILD. MATERIAL IS CHEAPER THAN AT ANY TIME SINCE THE WAR.** Some of the main items of construction are actually selling for less than cost to manufacture, due to the necessity of unloading large accumulations of stock. Framing lumber, for instance, can be bought today for half the prices prevailing six or eight months ago.

**THERE HAS BEEN A DECLINE IN LABOR COSTS OF FULLY ONE-THIRD** when both rate per day and efficiency are taken into account

**YOU CAN BUY A BUILDING SITE IN HIGHLAND PARK IF FOR IMMEDIATE IMPROVEMENT AT A PRICE THAT WOULD HAVE BEEN IMPOSSIBLE A YEAR AGO**

and can arrange for terms of payment that would not have been considered then, when everybody was looking for "good buys" and half the owners did not want to sell.

If you can pay all cash for your building site, I will make prices that will astonish you.

If you can go ahead with building now if you had your lot paid for, but can not finance at once the house and lot, I will take a second mortgage with payments spread over a long period for a part or even all of the price of the lot, but these concessions both as to price and terms are only temporary and will be withdrawn as soon as I have eight or ten high class homes under way. Some have already been arranged for. Right now is your time "to get in on the ground floor."

If you have a lot paid for somewhere else and prefer Highland Park (as who would not?) we might arrange for a trade if you will put up a house at once or soon that will conform to the ideals under which Highland Park is being developed.

And do not overlook the fact that with the opening up of spring many skilled mechanics are likely to return north, and thus send the price of skilled labor up again.

I have many books of building plans, containing hundreds of illustrations with floor plans and estimated costs. Come in and see me and let us talk it over, or telephone me and I will go to see you.

**IT IS AN ADVANTAGE TO HIGHLAND PARK** that it lies in the center of the broad white belt extending south and over which the city's greatest growth and development must of necessity proceed.

**BUILDING RESTRICTIONS** are absolutely essential to any high class residential development. The cost of the houses to be built is one of the restrictions that are designed for your protection but is by no means the most important. The outside appearance of a house and how it harmonizes with surrounding houses and its position on the site it occupies, concerns me more than what it costs to build. A house costing \$5,000, or even, with the great reduction in building costs as compared with only a few months ago, if it costs somewhat less than that, might be much more attractive and desirable than another house costing twice that sum. A wide latitude is allowed in the styles of architecture, which may be Colonial or English or Mediterranean, including Spanish, Moorish, Italian, Venetian, etc., but to each style of architecture is assigned a definite part of the development so that the building along each driveway may be harmonious. When you build in Highland Park, you are protected by the restrictions against any one building on the lot adjoining yours or anywhere in the neighborhood an apartment house, or a two family house or an apartment garage, unless to be occupied only by the servant of the owner. You are also protected against your neighbor setting his house or garage on his building site in such a way as to detract from the value of your property. Your neighbor can not annoy you with chickens or cows or other live stock. In a word, the restrictions set forth in every deed to lots in Highland Park are for your protection.

**THE PRICES** set on lots in Highland Park a year ago were very conservative at the time. They are conservative still. Some day, and that day not very far away, they will sell for two or three times as much; and the prices fixed at first, I expect to maintain until they advance, but this applies to lots that may be bought to hold. If you want to build, that is something else again. The stage is all set for building to begin in Highland Park. All the city utilities are actually in. All the paving is complete or under way. The development is proceeding all along the line, and

LEGISLATURE TO REGULATE POWER LINES IN STATE

Attempt Will Be Made During Session To Create Utilities Commission Which Would Supervise All Firms In Fla.

TALLAHASSEE, Fla., Mar. 10.—The regulation of power companies and the power lines in Florida is the subject of a bill introduced in the Florida Legislature...

Public utilities have grown to such proportions in the state that the necessity of regulation by legislation is not only desirable but almost necessary to preserve the safety of the public and prevent the occupation of public highways by power lines which have a tendency to interfere with the operation of telephone services through inductive interference and a tendency to extend the highway itself unsafe from the liability of fallen wires in times of storms...

There was an average daily number of 1,000 prisoners during the month of January. Of 75 convicts received from county jails, 46 were turned over to the state road department for work on the state road camps...

There is a man on either side of the bed. The patient is propped up at an angle of 45 degrees. In perfect rhythm the men press the patient's sides, hollow fashion, forcing the life giving air in and out of the lungs...

Norwood and Allen Battle To Draw Before Large Crowd At The Armory

Willie Norwood and Harry Allen, 130 pounders, fought 10 rounds to a draw at the Armory last night before a large gathering of followers of the fight game. The decision of Referee Benke was a popular one and the customers went home satisfied with the knowledge that an interesting show had been unfolded before their eyes.

From a critical standpoint, the fight was a good one. Both boys were woefully lacking in their knowledge of what to do and what not to do in scientific terms, but they made up for this lack by their willingness to fight. Slugging bees were frequent and bloody.

A preliminary of more or less interest and a battle royal took place in the evening. In all, it was a good show.

Powerful body blows, delivered at least eight times by Allen and aimed directly at Norwood's kidneys, landed full but did not seem to hurt the latter. Several hard overhead rights were also thrown by Allen to Willie's jaw. Allen missed considerably in the latter going and Norwood made up a great amount of lost ground.

In the semi-final, Young-Harper, of Sanford, and Charley Williams, of Titusville, managed to stay on their feet for a masterly eight rounds at the end of which Benke called it a draw. As in the case of the first fight, the satisfaction of the divided payers.

Tired, Aching Feet

THE minute you put your feet in a "Tiz" bath you feel pain being drawn out and comfort just soaking in. How good your tired, swollen, burning feet feel. "Tiz" draws out the poisons that cause tender, aching feet.

"Tiz" takes all the soreness out of corns and callouses. Get a box of "Tiz" at any drug or department store for a few cents.

End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and comfortable.

BATHE THEM IN TIZ

IS THERE NO RELIEF FROM SKIN TORTURE?

Must I Continue to Suffer the Unbearable Itching? Are you one of those unfortunate ones who are going through life suffering with a skin disease, making you uncomfortable, making you less efficient, interfering with your working hours, ruining your sleep?

For more than 100 years it has been known that S.S.S. is purely vegetable, extracted from the most medicinal plants and being building up so that you can resist all attacks of skin disease.

Jack's Son a Stock Pens "Hand"

MRS. KIP ASKS FOR WHITE PLAINS (INS)—Alice Jones Rhineland, today fell in the supreme court for \$20,000 additional bond for \$20,000 additional bond.

Both boys were woefully lacking in their knowledge of what to do and what not to do in scientific terms, but they made up for this lack by their willingness to fight.

Slugging bees were frequent and bloody. A preliminary of more or less interest and a battle royal took place in the evening.

In all, it was a good show. Powerful body blows, delivered at least eight times by Allen and aimed directly at Norwood's kidneys.

Landed full but did not seem to hurt the latter. Several hard overhead rights were also thrown by Allen to Willie's jaw.

Allen missed considerably in the latter going and Norwood made up a great amount of lost ground.

In the semi-final, Young-Harper, of Sanford, and Charley Williams, of Titusville, managed to stay on their feet for a masterly eight rounds at the end of which Benke called it a draw.

As in the case of the first fight, the satisfaction of the divided payers.

Both boys were woefully lacking in their knowledge of what to do and what not to do in scientific terms, but they made up for this lack by their willingness to fight.

Listen-in, you roll-your-owners

I DON'T know what kind of tobacco you are making 'em with now, and I don't care. I want to slip you this piece of information, to wit: You never tasted a home-rolled cigarette that could come within a mile of one made with Prince Albert! Read that again.

That's because Prince Albert is the grandest tobacco that ever nestled neat in a makin' paper. P. A. is crimp-cut. It stays put in the paper while you're rolling it. Doesn't spill all around. And that taste! Unlike anything you ever experienced in the home-rolled line. Sweet and mellow and mild, with "come again" written all over it. No two ways about it—better tobacco just naturally makes a better cigarette. Get some P. A. today and get rolling!

Prince Albert is double-barreled smoke-joy... equally good in a cigarette or a jimmy-pipe. Many a fellow who wanted to smoke a pipe but "didn't dare" has become a pipe-regular since discovering P. A. Give Prince Albert a whirl in our pipe on my say-so.

PRINCE ALBERT

-no other tobacco is like it!

The Sanford Herald

YUNNER MEETS CARPENTER

GREENSBORO, N. C., March 10.—(INS)—Jack Turner, of Washington, holder of the army world-weight title, will meet Law Carpenter, middle-weight champion of the south, in a 10 round bout in Greensboro, N. C., on Saturday night.

IF BACK HURTS FLUSH KIDNEYS

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs and excite the kidneys and irritate the entire urinary tract. Flush the kidneys by flushing them with a mild, harmless salt which helps to remove the body's uric acid waste and stimulate them to their normal activity.

Think lots of good water—you can't drink too much. Also get from any pharmacist about four ounces of pure, natural, unadulterated sea water. Take a tablespoonful in a glass of water before you get up in the morning. Do this every day and your kidneys may then get into their normal condition.

The Sanford Herald

Published every afternoon except Sunday at Sanford, Florida, 111 Magnolia Avenue.

Entered as Second Class Matter, October 17, 1919, at the Postoffice at Sanford, Florida, under Act of March 3, 1879.

R. L. DEAN, EDITOR; R. H. BEJIG, MANAGER; HABLE E. JONES, Managing Editor

The Herald, Sanford's pioneer newspaper, subscribes to the International News Service, receiving from it the superior news organization twenty thousand words daily covering all the leading events of the entire world.

The Herald is a member of the United Press Association, an International Association of Publishers, Advertisers and Advertising Agents which requires each publisher-member to submit to a thorough audit of subscription lists in order to verify absolutely all claims of circulation, as well as honest business methods.

THURSDAY, MARCH 10, 1927

- THE HERALD PLATFORM: 1. Extension in city and county administration. 2. Higher water rate to Jacksonville. 3. Construction of St. Johns Indian River. 4. Investigation of monthly "Pay-no-Work" law. 5. Reorganization of building program—houses, hotels, apartment houses. 6. A Community Chest. 7. Completion of city beautification program. 8. A new and modern hospital.

BIBLE VERSE FOR TODAY

GOD IS WISDOM:—Whence then cometh wisdom? and where is the place of understanding? Seeing it is hid from the eyes of all living, God understandeth the way thereof, and he knoweth the place thereof. Job 28:20,21,23.

PRAYED:—O Lord, from the heat blast that earth imparts we turn inflamed to thee again.

WINTERY WINDS

There are hideous fiends in that wind tonight. As it lashes the naked trees, trees that scrape on the window panes. As ponds, lakes, rivers freeze. The wind is full of my false love's voice. As he sneers and scoffs at me—Me who gave him all for a song And never can be free.

Ah, happy we were for a few short days. Before I knew these tears. But oh, he'll never come back to me And oh, the sluggish years!

Years when the wind will shriek and cry. Years of vicissitude. Oh, what a pity that years are black Because of love's short mood! By Gertrude Kilkland

The ignorance of some individuals is only surpassed by their genius for lying.

Sanford people will have the opportunity of seeing some fast boat racing tomorrow.

The other day Editor Don Lochner, of the Clearmont Press, caught a catfish two columns long.—Times Union. Twenty-four and a half cent wide and type high.

The Yacht Regatta tomorrow will draw people from all over central Florida and should receive the undivided support of all Sanford citizens.

Florida reports warmer weather. We will be hearing of sunny days next.—Waycross Journal-Herald. The sun shone beautifully in Sanford even during the cold snap.

If Cornelius Vanderbilt succeeds in "writing off" that \$3,000,000 indebtedness, he'll have to do something better than "The Experiences of a Club Reporter."

Racetrack man from Miami dropped in the other day and said the next session of the legislature was going to legalize horse race gambling and he asked him did he think the legislature would pass such a law and he said "Money can do anything." Now what do you suppose he meant by that?

Editor Felkel, of the St. Augustine Record told us the other day that if Florida papers are to prosper they must cease to put out the "super-newspapers" of the boom days. We agree with him on that score, and realize that folks want the best, but they want it to last.—Gainesville Sun.

The Key West Citizen suggests the Legislature might pass a law to nullify the "Floridian" and "Florida" argument. But the Palm Beach Independent, Sanford Herald and one or two other papers would go right ahead and violate it.—Tampa Tribune. But if the legislature should decide that "Florida" is the best way to designate a native we suppose the Tribune editor would be one of our most law-abiding citizens.

If that English professor, who states that the prevalence of student suicides in this country is due largely to a lack of physical exercise, should visit some of our American universities he would find more football fields, baseball diamonds, soccer and lacrosse fields, croquet grounds, rowing courses, basketball courts, tennis courts, track fields, golf links, swimming tanks, boating rings, riding rings, squash and handball courts, and hockey rinks than he has ever seen before in his whole life. Evidently he has never heard of our "athletics for all" policy.

"Remember The Maine"

The present situation in China calls to mind the Boxer Rebellion in 1900. The Boxers were an organization not so very different from the Nationalists of Southern China to day. Their original purpose was based on a patriotic motive and was concerned primarily with the defense of China against further foreign concessions and aggressions. Later coming into the control of fanatics, a policy of "exterminate the foreigners" was inaugurated.

It was not long before the legations in Peking were in danger and the foreign powers thought it advisable to dispatch a force of eighteen thousand allies from Taku to the Chinese capital. Before it could arrive the Chancellor of the Japanese Legation was murdered by soldiers and the German ambassador was killed in the streets by a mob. All foreigners took refuge in the British Legation where a state of siege was endured for two months.

The relief expedition finally reached Peking and the besieged foreigners were released. After tedious negotiations which lasted for nearly a year, China was forced to submit to a number of indemnities, among the least of which was the payment of \$333,000,000.

The Cantonese, or Nationalists, have much the same purpose in mind which prompted the Boxers to organize. They are presumably inspired by patriotism and are fighting to get China for the Chinese. "Extra-territoriality" is the bane of their existence. They are intensely opposed to foreign-controlled customs, unequal treaties and concessions of any kind which do not favor the Chinese.

Obviously, they form the side to which an unprejudiced American would naturally lean. Their government, inherited from Dr. Sun Yat Sen, formerly president of China, is the only one of several with any semblance of permanent foundation. General Chang Tso Lin, ruler of Manchuria, and principal rival to the head of the Nationalist government, was formerly a bandit chief. The five or six other governments of China are small and ruled over by petty war lords.

The platform of the southern government has been expressed as follows:

- 1. Unification of the country under the dictatorship of a popular and progressive political group—the People's Party. 2. The overthrow of militarism and the establishment of civil authority. 3. Political education of the masses, looking toward eventual constitutional government.

With such a program, if conscientiously carried out, there can be little fault. It would certainly be to the advantage of the Chinese, and trade with that country once stabilized under a strong central government would soon make up to foreign countries what might be lost in concessions. The trouble with the Nationalists, at least from the American point of view, is that they are lined up with the Russian Soviets, or Bolsheviks.

Just why General Chang Kai Shek, of Canton, should accept help from the Russians is not difficult to see. The Manchurian war lord has as his chief military adviser an Englishman who got his experience in the World War. General Chang Tsung-chang has in his army three thousand anti-Bolshevik Russians. A Frenchman in the department of General Chang Hsueh-liang has charge of the postal service. Why shouldn't the Cantonese get help wherever they can get it, especially since all the Russians want is a chance to spread their Bolshevik doctrine?

In all probability General Chang Kai Shek has no intention of turning his guns on any foreign people. If he can once gain control of China, either through defeat or conversion of his opponents, it is expected that he will be willing to deal with the Powers by negotiation and treaty, a method which it is most likely the Powers themselves would prefer. The danger lies in radicalism among Cantonese sympathizers outside of the control of General Chang Kai Shek himself. Marshall Sun Chang-fang, holding out against Nationalism, rules Shanghai and the surrounding country where most of the foreigners have congregated, but in his province and even in his army are many Chinese who are openly supporters of the "China for the Chinese" movement.

Many battleships of many nations lie peacefully waiting off Shanghai. Every precaution for their protection undoubtedly has been taken by commanding officers. Yet it might not be impossible for a group of Chinese coolies to blow one of them up.

It was twenty-nine years ago last month that the Battleship Maine, in Havana harbor, was destroyed by an explosion.

No Evidence

Not long ago the well-wishers of law enforcement took heart when the sheriff of Howard county and a dozen or more of his deputies and other police officers were arrested on charges of conspiracy to violate the Eighteenth Amendment. It was almost the first time that prohibition agents in this state had made so bold as to tackle anything bigger than a "nigger still."

But the United States commissioner dismissed the case because the federal authorities failed to appear for the prosecution. Probably there was nothing else he could do. He certainly could not convict if there was no evidence. But the prohibition amendment will never be enforced by merely arresting guilty individuals. There must be some penalty. And the penalty must be something more severe than a mere fine. Almost any business is willing to pay a tax.

The regrettable part about it is, however, that the federal agents should fool the people into believing they are doing something when they arrest a violator but fail to get the evidence.

FLORIDA'S MILK DISPLAY

POPK COUNTY RECORD

A company manufacturing powdered milk would be but to advertise it has recently undertaken a publicity campaign in this state alleging that its product is "Florida's most dependable milk supply."

This is a gross libel on the dairy men who produce Florida's millions of gallons of fresh milk. No state in the Union has more strict laws requiring cleanliness, healthful cattle, and better standards to a higher degree than Florida.

Last year the shortage in fresh milk led to large importations from Tennessee, Virginia, and on north as far as Wisconsin. Since then the state board of health has been making investigations and is considering asking the legislature for a bill lowering such milk because so much of it comes from farms that are not up to Florida standards. At the same time the state agricultural bureau is announcing that Florida's dairy herds have grown to such an extent in the past year that for the first time in history this state is now producing a surplus of fresh milk. It is asking the co-operation of Floridians in using this home product.

Of course the fresh milk supply is not evenly distributed over this state. In certain areas the dairy cows are far below requirements yet. Although we have not heard officially, we judge that the surplus is in north Florida which has adopted dairying on a large scale in recent years, particularly around Tallahassee. But indications are that distribution will be bettered and Florida soon be able to fill all its needs in fresh healthful and rich milk as well as many of the other dairy products through creameries being established in north and west Florida.

As Brisbane Sees It

By ARTHUR BRISBANE

A Blow To Japan. Dove In Sabre Handle. Mellon Savs Money. Coolidge Will Go West. Copyright 1927, by Star Co.

LATER NEWS from Japan is distressing, thousands killed by earthquake and tidal wave. At the front door of Japan, in the Pacific ocean, is the deepest hole in the world. Land slipping into this chasm causes earthquakes and tidal waves, but the Japanese are not discouraged.

CHINA IS A WARNING for nations controlled by pacifists. Ever since Confucius, and before, the philosophical Chinese have had for motto, "Why fight?" And ever since that time outsiders of the Jenghis Khan type have come in to conquer and rule peaceful Chinese. Some made them let the hair grow long, a convenient handle for chopping off their heads. Others made the women squeeze their feet so that they couldn't run away.

MUSSOLINI'S fascisti is a little picture showing the dove of peace nesting in the handle of a big sabre with a line saying it is the safest place for a peace nest. If you don't want people to fight you, keep ready to fight. Nobody ever slipped Jack Dempsey's face.

AT ST. AUGUSTINE, before he was elected, President Harding said to this writer: "The second richest man in the world will be my secretary of the treasury. What do you think of that?"

SECRETARY MELLON has confirmed the writer's statement to President Harding that the second richest man in the world should know something about money and be a good man to look after Uncle Sam's cash.

WORKING FOR the wages of an average chief clerk, Mr. Mellon has already reduced the national debt by seven and a half billion and will refund the 4-1-4 per cent liberty bonds, exchanging them for 3-1-2 per cent five year treasury notes. This one transaction will save the people \$21,000,000 a year in interest charges. It is a good thing to confide in an important job to one that understands that kind of a job.

PRESIDENT COOLIDGE will spend his vacation in the West, in response to many invitations. He would drive in a big automobile from Kansas City to Seattle, from Seattle down to San Diego, fishing here and there. He would see millions of Americans that like him, and that expect to visit for him the second time in 1928.

GERALD FRITZ GIBBONS, taking over the radio in Boston, will endeavor to hypnotize listeners. He says he will tell them to lock their fingers, and they would be able to unlock them. He will make them laugh, cry and believe their right arms are insensible to pain, or a sign of getting colder if it cut him. Of course, it can be done. Human beings can hypnotize themselves and have done so for thousands of years. The fanatic that cuts holes in his back or allows others to do it, singing the praises of his God, feeling no pain, hypnotizes himself. To be hypnotized simply means to suspend temporarily certain functions. The marvel is that they work at all, not that they can be interrupted.

CHARLES M. SCHWAB, able business man, leaving Europe, says he is never going back. Also, he knows he is getting old, "because I am losing the thrill of gambling." That is not a sign of getting old, only a sign of getting wise. The wonder is that an able man as Schwab should ever have found a thrill in gambling. Gamblers substitute false excitement for real achievement. Men that are real doers are rarely gamblers, and men that have no serious occupation are gamblers nearly always. All savages, and few philosophers gamble.

DR. JAMES A. BEEBEE, President of Alleghany College, says Protestants are constantly being told to pray but are not told how to pray. He advises them to use a rosary, and with its aid to concentrate thought on pray, "holding the mind to the meditation at hand."

DR. BEEBEE, formerly head of the school of theology at Boston University, says everything should be made practical and definite. Tibetans and other Eastern peoples use a prayer-wheel. You pay so much to the priests attempting to go your way, and he will grind the prayers you order. But, of course, there is no merit in such haphazard praying.

THE SUPREME COURT decides unanimously that Texas law forbidding negroes to vote at Democratic primaries is unconstitutional. It is a most important decision, and not to the South only, since it may mean federal control over local primaries.

THIS COUNTRY last year imported more than \$40,000,000 worth of peaches, pines, etc., \$900,000 more than the year before. And those purchases were made without the assistance of the strict race of bartenders, to each of whom a large dividend was necessary as a white apron.

Company's Coming

IMPERATIVE NEED OF ECONOMY

PALM BEACH INDEPENDENT

The city of West Palm Beach is not a very rich city. Business is not up to its usual standard, but it would be considered good if not better in the average American city.

But the city government is doing to hard man, and never gets a dollar without losing the eagle's tail feather to whoever it pulls the coin away from. Consequently and logically the local government is dispensing with the services of all except those not absolutely necessary to hold the works. We understand ten policemen were laid off a few weeks ago, and the recreation department has been disbanded, along with a considerable number of other people, some of whom were not necessary anyhow, along with some others whose services, tho' not imperative to the citizens mind.

Now, we think it is time to cut off the hand, which is certainly a non-essential and cost we are told fifty thousand dollars a year. If we have been managing the city, we would have cut off the hand before we would have laid off the policemen, of which the city never has had too many. We do not understand why cities employ bands and recreation departments. Neither is in the legitimate scope of a government's work, and both are decidedly for the benefit of a class. For instance the West Palm Beach recreation department, while it was exceedingly managed by efficient and conscientious people, was not able to reach to the children of the city. It is no use to say that all who came would receive attention for one private theater tickets, ice cream and ham and eggs are things the people should buy for themselves at the times and places they want them. Let the city commission cut out the band.

PROTECT THE WILD FLOWERS

PORTLAND (ORE.) TELEGRAM

HOUSE BILL, No. 295 should be passed, if only for the educational value of its first section, which declares it "to be the duty of all citizens of this state to protect the wild flowers of this state, in this act referred to from needless destruction and waste."

It is the purpose of the bill to forbid the digging from high ways and public lands and from private properties without the permission of the owner, certain bulbs, corns, roots or plants, or to export them from the state except under prescribed restrictions.

The bill was introduced by Mr. Earl Bronough and is sponsored by the Portland Garden Club. There are few who realize the extent to which mutilation and destruction of our wild flowers has already been carried. One needs but to read the list of once familiar flowers included in the bill to appreciate how rapidly they are coming to be only a memory. There are all the wild lilies, the Fritillaria, known as

This does the work of 50 pounds of ice—and more—every day!

Be ready for hot weather—make your ice box a Frigidaire

If it were possible for you to keep your ice-box filled—constantly—24 hours a day—you would still not have as good refrigeration as the Frigidaire frost-coil will give you, without any attention on your part.

If you have any standard make of ice-box, you can have Frigidaire installed in it and from that time you can forget about refrigeration. Your meats, vegetables and other foods will be kept better than you were ever able to keep them before. Spoiled foods will be a thing of the past. Come in and let us demonstrate Frigidaire to you.

Sanford Electric Co. 116 Magnolia Ave. Frigidaire PRODUCTS & GENERAL MOTORS

## "GREAT GOD BROWN" PRESENTED AT WOMAN'S CLUB MEETING

At the regular meeting of the Literature Department of the Woman's Club Wednesday afternoon, Miss Elsa Butell gave a very fine presentation of Eugene O'Neill's "The Great God Brown" following the business meeting.

Mrs. Ann Van Ness Brown, chairman, expressed the appreciation of the department to Mrs. Daniel Webster and Mrs. John Leonard for coaching "Her Husband's Wife" and "The Florist Shop" respectively, and to the casts who helped make these plays so successful. It was voted to repeat "Her Husband's Wife" at the earliest possible date.

Mrs. Francis E. Bolt and Mrs. Fred Wilson were appointed to represent the Literature Department in preparing for the Presbyterians Luncheon to be given April 14 and 15 under the auspices of the Woman's Club.

The following chairmen were appointed by Mrs. Brown: Membership: Mrs. Maude E. Clark; House: Mrs. G. P. Paxton; Program: Mrs. E. D. Hall, with Mrs. E. D. Brown, Mrs. J. R. Cogburn, and Mrs. R. L. Deane assisting; Press: Miss Love Turner and Mrs. R. A. Winston; Mrs. Henry Wight will continue as general club chairman.

After some discussion it was voted to continue the study of contemporary drama next year and also to have play readings.

## Bridge Party Is Given On Tuesday Afternoon By Miss Ruth Henry

Miss Ruth Henry entertained most pleasantly Tuesday afternoon at bridge at her home on Magnolia Avenue, the guests being members of her bridge club.

In the room where the card tables had been placed for play, quantities of spring cut flowers combined with greenery were used with artistic effect.

Tallies symbolic of spring were used for the game and when scores had been added the prize for the highest score, half crystals, went to Miss Elizabeth Turnbull.

Late in the afternoon the hostess served a tempting salad course with gingerale.

Those playing were the Misses Emily Griffin, Rebecca Stevens, Kitty Du Bose, Olive Newman, Elizabeth Turnbull, Camilla Pules, Naomi Srogan and Ruth Henry.

## Presbyterian Young People Meet Friday, Saturday In Lakeland

Presbyterian young people from all over south Florida will meet in Lakeland at the First Presbyterian Church for a two day conference beginning Friday evening, closing Saturday at noon for the purpose of organizing the Presbyterian young people's league.

The St. Johns Presbyterian covers all peninsular Florida, beginning at Daytona Beach on the East Coast and Inverness on the West Coast thence southward to Key West. A large gathering is expected.

## Mrs. C. M. Hand and Mrs. A. L. Betts Returned Home Wednesday from Jacksonville where they Spent the Past Week

Mrs. and Mrs. Calvin Teague, Misses Katherine Teague, Miss Teague Simmons, Mrs. C. Robert McGowan, and Edgerly Patterson formed a congenial party motoring to Daytona Beach Wednesday evening.

## Pretty Compliment Is Given Thursday For Visitor From Boston

A pretty compliment to Miss Josephine Fish of Boston, Mass., the house guest of Mrs. Ernest McCowan Galloway, was the tea given Thursday afternoon by Mrs. K. B. Dutton and Mrs. Mattie G. Pace, at the attractive home of Mrs. Dutton on Magnolia Avenue.

The cozy home was beautifully adorned with quantities of cut flowers and ferns. In the living room baskets and bowls of calendulas, snap dragons and poppies were effectively used in decorating. In the dining room the pastel tints were emphasized with sweet peas, roses, agratum and baby's breath.

Gracing the center of the lace-covered tea table was a large Dutch silver basket filled with exquisite pink roses, baby breath and agratum. Silver crescent held mints and salted nuts. Presiding over the tea service was Mrs. Henry Wight.

The guest list included only the members of the church which the hostesses attend.

## Mrs. Fields Hostess At Delightful Bridge Party, On Wednesday

An exceptionally enjoyable bridge party was that of Wednesday evening when Mrs. Earle T. Fields entertained members of her bridge club at her home on Martin Street.

## Delightful Courtesy Given For Miss Fish By Mrs. A. M. Phillips

A lovely social courtesy of Thursday was the luncheon given by Mrs. A. M. Phillips at her home on Oak Avenue, honoring Miss Josephine Fish of Boston, Mass., the guest of Mrs. E. M. Galloway.

Yellow and green were the colors chosen to decorate for this affair. Bowls of calendulas, nasturtiums and ferns were arranged with pleasing effect about the various rooms.

The luncheon table was spread with a dainty luncheon set edged with yellow, and was centered by a low green pottery bowl filled with yellow nasturtiums and sprigs of asparagus ferns. The place cards were done in floral designs carrying out the color scheme.

At 1 o'clock a delectable six-course luncheon was served. Covers were laid for Miss Josephine Fish, Mrs. Ernest M. Galloway, Mrs. J. H. Colclough, Miss Margaret Davis and Mrs. Phillips.

## Delightful Bridge Party, On Wednesday

News From The Training Camps

SHREVEPORT, La., Mar. 10.—The task of filling the place in centerfield, made vacant by Johnny Meitell's rash attempt at suicide, was occupying the attention of Ray Schalk today. It is believed Schalk will use Bill Barrett, Mosby's roommate.

AVALON, CATALINA ISLAND, Cal., Mar. 10.—Another layoff for the Cubs loomed today as a result of the spring-like showers that have deluged the Pacific coast the past two weeks. The players spent yesterday in a 'huddle' discussing the strange case of Johnny Meitell. Several wired messages of cheer to their fellow townsmen.

LAKELAND, Fla., Mar. 10.—Having evened accounts with the Cincinnati Reds in the two exhibition series, the Cleveland Indians today prepared to take on the Boston Braves Friday at Tallahassee. The Sewell brothers, Joe and Luke, are expected to report to manager McCallister today or tomorrow.

SARASOTA, Fla., Mar. 10.—The New York Giants, thrashed by the Athletics 13 to 5, visit Palmetto today for a game with Buffalo. Devoorn, featured at bat, getting four hits. Hisey by Wheat and Cobb helped the machmen, while Hornsby whiffed twice.

ST. PETERSBURG, Fla., Mar. 10.—The Yankees left here early today for Orlando to engage the Reds in the first contest of a three game series. It will be the Yanks' first exhibition game of the season.

CLEARWATER, Fla., Mar. 10.—James Elliot, obtained by Brooklyn from the Coast League, is pitching impressively in practice games and will be retained. Outfielders Max Casey and Gus Felix have reported.

TAMPA, Fla., Mar. 10.—The Nationals left camp today for Bradenton where they take on the Braves today. Games with the Giants are scheduled for Friday and Saturday. Rube Marquard, the new time "111,000 beauty" is trying to hook up with the Nationals. He is working out regularly.

SAN ANTONIO, Tex., Mar. 10.—Manager Morarty of the Tigers was so pleased with the first game between the regulars and the rookies, which the regulars won with a burst of speed at the end, 5 to 4, that he plans to make such games regular daily features of his training. Two Tiger pitchers, Watts and Wells are complaining of sore arms.

ST. PETERSBURG, Fla., Mar. 10.—The Braves play the Cleveland Indians here this afternoon. The Indians were brought here by Jack McCallister, one of the new managers, making his bow in the big league.

War In Nicaragua, Seen From The Air

From the soaring airplane of Lee Mason, American aviator in the Diaz conservative army, this spectacle of the burning city of Chenango, in revolution-torn Nicaragua, was pictured. Aerial photographers were impressed by the clarity of the view, declaring it to be one of the best shots of actual warfare ever taken from above.

173,051,574 Pounds Of Fish Shipped By Florida During Past Two Years, Says Report

ASSTALLAH, Fla., Mar. 10 (AP)—Florida, during the past two years, has shipped 173,051,574 pounds of fish which sold for approximately \$25,500,000, according to a report issued today by the state fish commissioner T. R. Hodges in his biennial report in the hands today of the state printer.

The fishing industry stands today as one of the Florida's surest and best money producing industries and is engaged in by more people than any other occupation other than farming, Captain Hodges says.

planted on the various reefs in the state and as a result many thousands of barrels of fine oysters have been gathered from the depleted reefs which were reseeded.

WASHINGTON LETTER

By RODNEY DUTCHER WASHINGTON, Mar. 10.—Young Bob La Follette, who is a model of sartorial perfection despite the fact that he is the darling of the flowing-tie gentry, is the latest addition to the ranks of those who are trying to find out if President Coolidge's intentions are serious.

for the country and its institutions. This continues the social, it slightly futile, game of trying to learn whether the president really does want another term in the White House, and, if so, what can be done about it.

A resolution identical with the La Follette resolution, except for a minor word or two, was overwhelmingly passed by the House of Representatives during Ulysses Grant's second presidential term in 1875. In that year there was far more future over the third term issue than there has been since.

The old New York Herald, under James Gordon Bennett, led a bitter fight against Grant's third term ambitions. It shouted of "the terror of Caesarism."

As is now the case in connection with President Coolidge, there was an immense amount of speculation as to Grant's intentions.

Republican congressmen were thrown into a panic, taken by astonishment. Springer moved the previous question and shut off all debate.

The resolution against a third term was adopted by vote of 232 to 178. Among the 18 were six northerners and four southern Republicans.

"The specter of forfeited patronage and revoked appointments peered from behind the record of today's vote," the correspondent observed, "forecasting Grant's ire against those who had deserted him."

Blaine returned, admitting that

he had ducked the issue lest he appear ambitious to be Grant's successor if he voted "aye" and because he would disappoint his friends if he voted "nay."

HELP FROM THE Fields And Forests! Many years ago, Dr. Pierce, a skillful physician, who realized the value of herbs, knew that the Indian women used decoctions made of certain herbs and that they usually passed painlessly through the ordeal of childbirth. He used the same herbs and roots to prepare an improved and more palatable nerve tonic for women's use and called it Dr. Pierce's Favorite Prescription. It has been a great favorite for fifty years and still is a real help to women suffering from illa peculiar to their sex.

Getting Up Nights For Bladder Relief is Nature's Danger Signal, Columbus Minister's Wife Relates Experience. Mrs. W. H. Mitchell, 424 No. Park St., Columbus, Ohio, says: "My wife was troubled seriously with bladder irritation until we used Bladder Relief (Keller Formula). She would have got up 6 or 8 times each night. Will gladly answer any inquiry."

DAUGHTERS OF WESLEY Will Have a COOKED FOOD SALE in front of the Figgly Wiggly Saturday at 9 o'clock

Man Loses His "Growth" Wife Hagg

"There is nothing I know of for constipation and flatulence of the abdomen, and I have used many of the remedies I used to have—Jaco's, because—Adelphia, BOTH upper and lower gives the system a relief, and clears out the bowels, which usually cause nervousness, headache, just as full stops GAS, and full, bloated feeling, so you can eat better and sleep better. Even if bowels more sluggish brings out much poison which you never was in your system and may have long caused trouble matter what you have in stomach and bowels, Adelia will surprise you.—Lancet Store and other drug stores."
