

100 People See New Year's Day Greyhound Races

New-Day Season Sure, Manager Goldberg Advises Big Crowd

A crowd estimated at 2,500 persons saw the New Year's night races at the Longwood track of the Sanford-Orlando Kennel Club, exceeding the free opening-night attendance by about 500.

Brilliantly climaxing the evening's entertainment was the eighth race, the mighty feature. Waltz King, a 7 to 2 favorite to win, not only equaled his own record of running the 1487 foot fury distance in 30 seconds flat but also made it three straight victories in three starts. He paid \$9.20 to win, \$4.60 to place, and \$2.00 to show.

That the track was fast last night was indicated by the fact that Coal Black, W. A. Mason's pride, turned the quarter mile in the seventh race in 27.35 seconds to equal the track record for that distance.

In a New Year's Eve "resolution" which was announced over the public address system, Myer Goldberg, general manager of the plant told a sizable crowd on Tuesday night that "we are determined upon completing our 90-day meeting which began last Saturday night. We believe the people of this section want greyhound racing conducted on a high plane, and I say to you now that this track will operate for 90-days, rain or shine. We plan also to open a meeting in late December of 1936 and operate for 90-days next year."

Ten fast races will be run again tonight, starting at 8:15 o'clock, rain or shine. Weather predictions are for a clear sky, cool temperatures, and trick off-the-road racing, and track officials hope for another large crowd. No minors are allowed on the grounds, however. Mr. Goldberg reminded parents who have been turned away upon several occasions much to their disappointment and the embarrassment of the management.

Official results: Wednesday night, 1st race, Quarter Mile: Center, 12.40; 2nd race, 12.40; 3rd race, 12.40; 4th race, 12.40; 5th race, 12.40; 6th race, 12.40; 7th race, 27.35; 8th race, 12.40; 9th race, 12.40; 10th race, 12.40.

Barrymore At His Best In The Return Of Peter Grimm'

Long famous for his character studies on the stage and screen, Lionel Barrymore is said to bring some of his finest work to the films in his portrayal of Peter's foster daughter but in the production the part is in the hands of lovely Helen Mack who recently appeared as Tanya in the film production of H. Rider Haggard's "She." This is the third time that Miss Mack has appeared with Lionel Barrymore. The first was in "Sweepings" and the second in "Christy's Ranch."

The fictional Peter Grimm has many of the same characteristics that mark the man Barrymore. Both are blunt of speech and dominating in manner, but with an underlying gentleness and sweetness that makes them utterly lovable. Both are lovers of beauty. Peter, Grimm spending his life in the development of flowers while Barrymore devotes his leisure to musical composition and sketching.

Federal Fund For Fruit Fly Losses Sought

Fight Being Renewed
By County Chamber
Of Commerce To
Ask Growers' Help

Estimate Loss of
Over \$8,000,000

Papworth Hopeful Of
Early Action By
Present Congress

Renewing the fight to obtain compensation for losses sustained when fruit and vegetable fields were destroyed several years ago in the campaign to eradicate the Mediterranean fruit fly in this section of Florida, the Seminole County Chamber of Commerce, through its president, H. M. Papworth, has written Florida's senators and congressmen asking them to endeavor to push the measure early during the session of Congress which opened today.

Losses sustained in this part of the state approximated \$8,000,000, claims from growers in Seminole County being about \$1,500,000. Mr. Papworth said today:

"Letters have also been sent to organizations in other counties where heavy fruit fly losses were sustained, asking those organizations to 'get behind' this state's congressional delegation and ask them to work for the passage of an appropriation measure to pay the growers for fruit and vegetables destroyed during the campaign."

"Every grower and every businessman who owns a grove or farm in this section can help by writing to members of Congress," Mr. Papworth said. "We estimate that letters from northern visitors to senators and congressmen from their home states might be of more benefit, as it would be expected that the Florida delegation would favor the measure."

The Mediterranean fruit fly menace hit Florida in 1928-29 and before the pest was brought under control immense damage had been done. However, the greater loss, it is said, was sustained by the wholesale destruction of crops in which the fly did not make its habitat. It was later determined. Not only were citrus groves wiped out in the campaign of eradication, but tomato fields, bean fields, "everything except celery," according to Mr. Papworth, were destroyed.

The measure to appropriate funds to pay the growers, for their property which the government destroyed came up too late in the last two congressional sessions to obtain favorable action, Mr. Papworth said, but if enough growers can be brought to get the bill into the proper committee there is said to be a good prospect of its being passed.

WASHINGTON, Jan. 2.—(AP)—Congressional conflict over taxing the soldiers' bonus was augmented today by a vigorous attack against immediate full payment of tax exemption status on potato set aside upon a poll of the membership on the proposal to change the meeting night from Thursdays to Mondays.

County Agent C. R. Dawson has been notified that the county agents of 12 counties in this section of the state are expected to attend a meeting in Orlando on Jan. 14 and 15.

**Colder Weather
Again Forecast;
No Crop Danger**

Colder weather is forecast again but Meteorologist E. S. Ellison in Lakeland, who makes the predictions for Central Florida, wires The Herald that while the mercury will take a dive tonight there is no danger of frost and that crops will not be damaged.

The official weather forecast put out by the U. S. Bureau in Jacksonville is as follows: "Generally fair tonight and Saturday, somewhat colder tonight with scattered frost in low places of the interior; the extreme north portion, Extreme north west Florida, partly cloudy, warmer in west portion tonight, Saturday partly cloudy, warmer."

The weather continues to grow warmer. The maximum the last day of the old year was 66, New Year's Day the mercury rose to 77 degrees, and yesterday it got up another notch, to 78 degrees. The minimum yesterday was 66 degrees.

Spud Planting Has To Be Cut By 25 Per Cent

Revision Of Plans Of Growers In County Will Be Necessary Under Control Act

Seminole County potato growers must cut their prospective acreage by fully 25 percent or else pay a tax of 45 cents per bushel on all potatoes grown above their allotment.

This was disclosed today after County Agent G. R. Dawson had figured individual allotments in many cases, cutting down the production amount permitted under the Warren Potato Control Act now in force, basing calculations on the applications filed by growers showing the production in recent years. Fred Baetzman, Valencia county farm agent, advised Mr. Dawson in song of the figuring this morning, and the two farm agents had a long discussion as to how best to wade through a long conglomerate of figures and percentages and arrive at the true amount for each grower.

Mr. Dawson said that it appears that planting of potatoes this year will be four times near that of last year, but he will not know the exact amount until the "whole mess of figures" is tabulated. "It looks to me," he said, "that if I ever get it over I will have to get into a boat and row out to the middle of Lake Monroe where I won't be bothered."

Additional applications for tax exemption status on potato set aside will be accepted at the county agent's office and handled in the regular manner, Mr. Dawson said, but these will be closed as late applications and the allotments given these applicants will be taken out of the reserves of 4,500 bushels being allowed by the state committee for that purpose.

After the individual allotments are figured out a committee of farmers will go over the schedule and then an announcement of the allotments will be made.

**\$750,000 More Is
Allotted Schools,
Sholtz Announces**

TALLAHASSEE, Jan. 2.—(AP)—Governor Sholtz announced an allocation of \$750,000, previously made to county school funds, bringing the total since Oct. 1 to \$2,025,635.

He added that another allotment, the largest yet, may be expected Jan. 20, five days after the deadline for purchase of 1936 automobile licenses.

The fund came principally from automobile tags, which accounted for \$500,000. Another \$100,000 was from the state's general treasury, and \$100,000 from the constitutional one mill ad valorem levy and interest on school funds.

Of the total contributed by the state during the present term half a million dollars came from the general treasury.

The Governor said the new allocation was made following a conference with Comptroller J. M. Lee.

Up to Jan. 2, 1935, the state's total contribution to schools for that term was only \$500,000, but on Jan. 2 the state credited \$1,057,161 to the county school funds.

No Time Extension For Buying Licenses

TALLAHASSEE, Jan. 2.—(AP)—Florida motorists are warned by Governor Sholtz that there will be no extension of the deadline for buying new automobile tags.

The law fixes Jan. 15 as the last day for old license plates, but the Governor is given the privilege of extending the time to Feb. 15.

The Governor's warning was to those who are "waiting until the last minute thinking the time will be extended." He urged motorists to avoid the rush which would be inevitable.

"This is final," he said. "There will be no change. The money goes to schools, and we are making all effort to get it in as early as we can. It will not

Vance E. Douglass Pleads Guilty To Embezzling County Funds And Is Sentenced To Term Of 3 Years

Vance E. Douglass, former clerk of courts for Seminole County, removed from office last year by Governor Sholtz because of shortages in his accounts, pleaded guilty this afternoon before Judge M. B. Smith in Circuit Court and was promptly sentenced to serve a term of three years in the State Penitentiary at Raiford.

The former clerk of courts was indicted for embezzling County funds on three different dates. One indictment charged him with embezzling the sum of \$1,200.76 on April 10, 1932; of \$1,042.22 on Mar. 10, 1933; and of \$1,032.42 on Jan. 10, 1935. When the cases against him were set for trial bonds in the sum of \$4,000 were fixed by the Court.

The case against the former clerk, who was indicted by the last Grand Jury on three counts, was to have been called for trial at the resumption of the Fall term of Court next Monday.

He pleaded guilty to one indictment, and the other two were

dismissed by an attorney.

Dick Powell Will Be Here In New Musical

Airplane song, crackling comedy and a heart-tugging romance fill the speedy sequences of 20th Century's "Thanks a Million," the bright new musical with a million dollar's worth of stars which comes Sunday and Monday to the Milano Theater.

"With Dick Powell and Ann Dvorak enacting the chief romantic roles, "Thanks a Million" presents Fred Allen, Patay Kelly, Paul Whitehead and his band with Ramona Rubinstein, Raymond Walburn and the Yacht Club Boys. They all set real parts in a real story.

The plot of "Thanks a Million" revolves about the grief and comedy a tank-toned company encounters under the masterful direction of Fred Allen.

Dick Powell is the featured singer of the company, and Anna Dvorak and Patay Kelly do the dancing. But Dick doesn't want to sing through a megaphone, and Allen has some peculiar ideas about that and also about how they can make money. Some hilarious sketches are the result.

In the climax of the film, Powell overcomes recognition and a radio contest. And Miss Dvorak says she will be his, although some resistance is threatened for a time by the interests of lovely Eddie Lang.

Also, Dick is playing a concert opposite Fred Allen, Andrew Tombes and Alan Dinsmore, are the actors who are seen in various featured roles.

Music includes a Million Dollar Band, Gus Kahn and Al Jolson. Songs include "I've Got Sunshine." The picture was originally produced by David O. Selznick.

Supreme Court May Chart Course Of 74th Session Of Congress Opening Today

WASHINGTON, Jan. 2.—(P)—Washington's perennial big show on Capitol Hill opened at noon today, with mystery shrouding the prospective performance by a cast of 90 senators and 402 representatives.

The Senate seats formerly occupied by Harry Long, the master showman, and Senator Schall, another "New Deal" foe, will be vacant as will the seats of three representatives.

To a greater extent than any national legislature within the memory of observers here and perhaps in congressional history, the Seventy-fourth Congress convened for its second session with widespread uncertainty as to what its major mission will prove to be.

Not until the verdicts of the U.S. Supreme Court on measures touching the economic interests of millions of American citizens have been handed down can a legislative "must" program be framed.

Although President Roosevelt, who has promised a decreasing deficit, can map for the Congress a budgetary blueprint or suggest revisions in existing laws here and there, the legislative schedule to end with the enactment of the "New Deal" must await the action of the high court.

The momentous decision on the validity of AAA, involving pending taxes which provide hundreds of millions of dollars to finance crop control, may be re-

turned soon after the recent recessions on Jan. 6, following its abbreviated Christmas recess.

Should the court find AAA unconstitutional, Congress would be plunged immediately into a struggle to evolve a new farm relief program.

Decisions affecting the validity of the public utility, the Tennessee Valley Authority and the Gulfay coal control measures also are expected this winter. The Social Security law and the Wagner Labor Disputes Act, possibly may be passed upon by the court before Congress adjourns. Should any of these be declared invalid, efforts may be made to reenact them in constitutional form.

Early action is expected in Congress on the soldiers' bonus, affecting millions of World War veterans and their families directly as well as beneficiaries and millions of federal government taxpayers indirectly. Advocates of immediate payment of the bonus express confidence in victory at this session even if the President vetoes the bill.

Fireworks are in prospect along other congressional lines. Inves-

tigations into labor activities, with J. P. Morgan featured as the chief witness before a Senate committee and inquiries into alleged lobbying enterprises by so-called "Big Business" groups are slated for reexamination this year. Rumania was third with

Aged Colored Pastor Appreciates Letter From Sanford Clergy

In appreciation of a letter from the Baptist Ministers' Congress of Sanford congratulating him on his long pastorate of St. Paul's Baptist Church (colored), the Rev. C. Brewer, pastor of the colored church, writes as follows:

"It is very gratifying to me to know that the Baptist Ministers' Congress has recognized me in this appreciative manner, and I wish to acknowledge the same."

"I have served the good people of Sanford for 45 years as a pastor, and I am now 81 years old, and am very grateful to the many friends of both races for their splendid co-operation, and good wishes to help make my work here a success."

"The brothers have my constant prayers for their success in the ministry, and may God the Father of all, bless and keep you, and make you a blessing to this community in which we live."

"May I further wish you the season's choicest blessings, and that the New Year will be a year of prosperity and happiness to each of you, as well as to the cause of Jesus Christ."

Association here.

Speaking on "The Responsibility of the Press," a Democracy,

Milton said, in his prepared address. He told his readers of a world of good men opposed by bad men, and he was always on the side of the good."

Recovery Notes Is Struck By Music During The Year

Opera Is Revived As New Talent Makes Stage Appearance

By JOHN BELBY
NEW YORK, Jan. 2.—(AP)—Music, which had shown signs of becoming a chronic invalid under depression conditions pulled itself out of bed and started moving briskly about last year.

At least twelve major orchestras and the Metropolitan Opera were in a bad way at the beginning of the season. All seem more secure than for years at the beginning of this one.

The New York Philharmonic-Symphony Society was considering a merger with the Met; this

was stamped out of existence by Arturo Toscanini, and the orchestra has proceeded with renewed vigor since that day. The Los Angeles Philharmonic was also as general director, was speaking very steadily, and it seems to have recovered its breath. And Philadelphia, considerably shaken by the resignation of Arthur Judson, manager, and the threatened resignation of Leopold Stokowski, conductor, is calm again.

For Stokowski did not leave; indeed, he is conducting more this winter than last. And Alfred Reginald Allen, the new manager, has dropped Mr. Judson's artistically successful but financially unsuccessful operatic venture.

The concert business has produced no very startling new features but has found business better by 50 percent in some cases. Probably the increasing interest in ballet is the year's most noticeable change.

The addition of Kirsten Flagstad to the recital field has created a considerable stir. If Enid Santo is as good a recitalist as she was assisting contralto for Otto Klemperer's performance of the second Mahler symphony, she may prove of equal or greater value.

The only new operas of great moment were Dmitri Shostakovich's "Lady Macbeth of Mzensk" and George Gershwin's "Porgy and Bess." Both were well received by the critics. The Cleveland Orchestra was responsible for the first; the Theatrical Guild for the second.

But the Met provided the most

The Gophers Steal Boys Are Beaten In Beats In Jacksonville

The Hawks On Card For Game Tonight At New Track

Gophers which had never been in race since being brought to Jacksonville, Kinnel Club with new Raymond performed great style before a large and hot night.

Each night track was a little slower than that of the previous night, while White King equalized one another distance round at Raymond, although Trotter, who, one of Walker's Sharps, was equal to the greater miles round in the seventh race while he stayed off in 2nd race.

Night's card of 10 events is to be followed by the same over a shorter distance, Captain Red, Green Jester, Whistler, and White Leader are among the stars listed to race this evening in the night's last race.

Details of the track were presented today to discuss the final work of the 10-day meeting at Raymond. Trotter, who is not with the horses that have unfortunately sustained the most damage, is to be examined by a veterinarian appointed earlier to conduct the examination and report of the condition and support of the animals of several tracks.

With the exception of Memphis, the animals have been kept in stalls, and it is noted that the other tracks are in better condition than those who are involved with the removal of many of the animals.
