

Heavy Rains Hit Truck Crop in Everglades Area

ORLANDO, May 11.—(P)—Further crop damage in the Everglades area from heavy rains was reported yesterday by the Federal Agriculture Marketing Service.

Heavy rains ranging from 2.5 to 9.35 inches in the Belle Glade area practically wound up the shipping of snap beans and tomatoes, the report said.

"Celery in this area also sustained some damage. In other sections rains were light and although considerably below normal harvesting continues."

The bureau said because of heavy rains in the Everglades May 7, shipments of snap beans from Florida would show a sharp reduction this week of May 11, and should be completed about May 20. Most of the supplies will come from North and Central Florida. Lima bean shipments also will be light because of rain damage.

Harvesting of late celery plantings was reported under way at Wierdale, with cutting due to start at Citra May 26. The Spring production of green peppers in the state was estimated at 450,000 bushels, a 20 percent reduction from last year and heavy shipments are not expected until next month.

Early Irish potatoes already are being harvested at Hastings. Watermelon shipments are not expected in any volume until June. Early production of melons in Florida and the Imperial valley of California is placed at 9,925,000 melons compared with 9,180,000 last year.

American Farmers Warned By Germans

BERLIN, May 11.—(P)—In a long article on the blockade, the Frankfurt Zeitung last night warned of the consequences of President Roosevelt's policy for the American farmer.

Roosevelt, whom the Nazi press calls the new Wilson, will not accomplish his "objective of finally checking Germany through a war of hunger against Europe," the newspaper said.

"But he will accomplish something," the paper added. "He will ruin the market for American farm products after the war and American farmers then can thank him that he sacrificed their interests for his illusions."

HELPING BUILDS FLORIDA

Curb On Speculation Sought By Wickard

WASHINGTON, May 11.—(P)—Secretary Wickard asked the commodity futures markets yesterday to help the Agriculture Department prevent undue speculation during the present emergency.

At the same time, he directed J. M. Mohr, chief of the Department's Commodity Exchange Administration, to work out with the markets a program for greater control over speculative activity.

Citrus Workers To Be Placed Under Compensation Law

Housholder Is Among Those Seeking To Exclude Employees Because Of Taxes

Governor's Talk Slated Tomorrow

Terms Of Those On Citrus Commission To End On May 31

TALLAHASSEE, May 12.—With the endorsement of his preliminary program by a majority of the Legislature, Governor Holland today prepared a second message to be addressed to the 1941 session, this time outlining his financial recommendations.

The Governor's message will be read by him tomorrow morning at 11:00 o'clock before a joint session in the House chamber.

TALLAHASSEE, May 13.—The Senate voted 27 to 5 today to put 30,000 workers in Florida's citrus packing houses under the State's unemployment compensation law.

Citrus workers at first were excluded from the benefits of the law, but were stricken by an Administrative ruling that became effective Jan. 1, 1940.

In the House, the unemployment compensation bill was amended to include citrus workers, but its sponsors were unable to get it passed until the Senate made its decision on the amended bill.

The bill provides that packing house workers when unemployed shall be entitled to payments of from \$5 to \$15 per week for a period of from six to 16 weeks, except during the months of July, August and September when citrus normally is out of season.

It levies a payroll tax of 2.7 percent. Senator Rose of Orlando said this would amount to about one-tenth of one cent on each box of citrus.

Senator Housholder of Sanford and Taylor of Largo sought to have workers excluded. Housholder said the Senate should not "handle this additional tax on an industry that already is operating in the red."

Senator King of Winter Haven, who introduced the bill, its sponsors and workers favored the measure in his district. Polk county, which would pay one-fourth of the total tax for the district, is the only one.

Behind the citrus features, the bill increases the minimum (Continued on Page Two)

Organization Of County Defense Force Is Begun

Next Meeting Slated Monday At 8:30 O'clock At Armory

Organization of the Seminole County Home Defense Force was begun last night at the first meeting of the unit at the Armory, but because not enough men turned out to meet the minimum of 50 men, further organization will be completed next Monday at 8:30 o'clock, E. C. Harper, captain of the unit, today announced.

All able-bodied men between the ages of 18 and 55 who are interested in joining the Defense Force were urged by Mr. Harper to attend the meeting Monday night.

Beginning today in the Sanford Herald, a blank will be printed which applicants for the Defense Force may fill out to indicate their intention of joining the unit. The blanks may be left either at The Herald office or with Mr. Harper.

The Defense Force, which, when mustered in will take the place of the National Guard, is seeking three-year enlistment period. Mr. Harper said, and if a man finds that the weekly drills are interfering with his business, he may get a discharge. Discharges are also granted if a man moves away.

The force will be under the control of the State, which may assign it to emergency duty in place of the National Guard, by him, and will receive uniform, rifles and other equipment necessary for training.

Urging men to fill out the forms which will be published beginning today in The Herald, Mr. Harper said the application blanks are not binding but merely indicate that the signer is interested in joining the Defense Force. Those who attend the meeting next Monday, who were not present last night, will be given full information concerning the Defense Work.

Increase Of 270,000 Freight Cars Okeyed

CHICAGO, May 13.—(AP)—Members of the Association of American Railroads accepted yesterday a recommendation by their officials for a net increase of 270,000 freight cars at an approximate cost of \$730,000,000 for the two years from October, 1941, to October, 1942.

This would be a net increase of 10 percent in freight rolling stock. The estimates were worked out jointly by association representatives and the Federal Production Management, top defense production agency, and were based on calculations of the needs of the defense program and stepped up railroad hauling.

While definitely shy of club activity in politics the Sanford Jaycees pursue a yearly project to get every possible vote to the polls. They believe that larger vote makes for better government and, of course, increases our prestige in state and national affairs.

Sunday safety patrol during the rush traffic hours before and after church and Sunday school was organized by James Carl Williams. Carl reports that a serious increase in traffic has been reported through the work of these patrol boys. The committee has organized a safety patrol during the rush traffic hours before and after church and Sunday school.

Nazi Advises Roosevelt He 'Missed Bus'

United Europe Pitted Against U. S., England Predicted By Labor Leader

BERLIN, May 13.—(AP)—Dr. Robert Ley, leader of the German labor front, advised "poor Daddy Roosevelt" today that he "missed the bus," and that in three years at the latest, that part of Europe ruled by Germany would be working full blast for the Reich.

"Then 300,000 Europeans of our continent, with the powerful, inexhaustible resources of their economy and work, will face 130,000,000 Americans x 4 and 40,000,000 Englishmen in a ruined and defeated England," Ley asserted in a newspaper article.

"They will see whether the Anglo-Saxons will overcome the lead of the Germans," President Roosevelt will make a fireside chat to the nation May 27—and not Wednesday night as heretofore announced—and observers last night believed it would be a momentous statement of national policy in a world at arms.

The address will be a substitute for the one the President was to have made Wednesday night before the Pan-American Union. It will be broadcast throughout the United States by the three major networks from 9:30 P. M. to 10:00 P. M. (E. S. T.) and translated for short wave transmission to other countries.

The President will speak from the White House in the presence of the Latin American diplomats who were to have tendered a reception for him Wednesday. White House Secretary Early said it would be a "phony party every informal."

The change in plans was announced by Early after the governing board of the Pan-American Union had adopted a resolution suggesting cancellation of the Wednesday engagement to enable the President to recuperate completely from a stomach disorder.

In announcing the revised plans, Early said he was sorry to explode newspaper dispatches which had speculated on the importance of the Wednesday night speech.

Despite reports from abroad there will be no world-shaking announcement from the President on Wednesday night, he said.

Early would not say whether an important declaration would come in the fireside chat and refused to speculate on the likely burden of the address. He said the President was "feeling perfectly fine" and "working right along" the day "working right along."

Preparations Are In Progress For NYA Art Classes

Final preparations for the NYA Arts and Crafts classes are being made by Mrs. Mayme Hoghik, recently appointed supervisor of the project, and Mrs. Alice Lewis, state advisor from Jacksonville. Both officials went to Orlando this morning to make arrangements for obtaining materials for the classes.

First project for the students will be the upholstering of furniture. Miss Lewis said yesterday. The finished products are to be used by the living quarters of the Orlando army air base.

Sanford May Sign Baseball Wizard

A confidential report from the office of the Sanford Baseball Association hints that negotiations are now in progress to get one of the most famous coaches in the country to drive the Seminoles to a pennant this year.

Principal hitch in the proceedings, the report disclosed, is the lack of a uniform to fit the general proportions of the baseball mastermind.

The noted coach is a scientific player and is expected to help the local boys solve the equation, his equal runs. As sparkplug of the team he promises to put on a shocking performance.

Officials of the association refuse to make any comments on the salary, time limit of contract or even name of the coach. All they will reveal is that he is a former player and has sent several teams to the top of the pennant race.

Liquor Ordinance Is Approved By City Commission

Dealers Limited To One Per 1800 Population In Sanford

Liquor dealers in Sanford now are limited to one for every 1800 persons, following unanimous approval last night of an ordinance at the regular meeting of the City Commission at the City Hall, H. N. Sayer, clerk, reported today.

It is also provided in the ordinance that no new place shall be set up within 500 feet of one already established. Hotels of 25 or more rooms are exempted from the provisions of the new law, which takes effect immediately.

The ordinance was placed on first reading at a meeting May 24, and at the following meeting a group of liquor dealers protested that no stores could be built within 500 feet of another. The City declined to amend the ordinance, Mr. Sayer explained, and passed it as it was first drawn.

Fire Chief Mack Cleveland announced the commission to provide one of the fire trucks with a new set of tires, and he was authorized to obtain bids and submit them at the next regular meeting.

Purchase of a Case four display for the airport project at a cost of \$245 was approved by the Commission. The show will be brought from the Medlock Tractor Company of Orlando. An offer of \$400 for block 27 in Robertson's Survey was turned down. The offer, made by Charlie Kanner, fell short of the \$750 price set by the Commission, Mr. Sayer said.

Supreme Court To Adjourn On June 2

WASHINGTON, May 13.—(AP)—The Supreme Court announced yesterday that on June 2 it would adjourn until the Fall term begins in October.

Flight Of Hess May Change War's Course, London Says

Housholder Cites 30 Day Ruling On Hospital Changes

Revisions Have Not Yet Been Passed, Senator Announces

State Senator Ernest F. Housholder, in answer to a telegram sent last week by The Sanford Herald, replied Saturday that the amendments to the 1937 hospital act have not been passed by the Legislature, since a 30-day period must elapse after the date the amendments were advertised.

Senator Housholder explained that the telegram sent by The Herald arrived during his absence, and that he had been unable to answer it before.

"It will not be advisable to forward bills for sale prior to the adoption of these correcting amendments," Senator Housholder advised.

The advertisement concerning the proposed changes in the act under which the County was authorized to issue \$70,000 in bonds to pay its share of the hospital project appeared in The Herald on Apr. 28. After May 28 the amendments may be submitted to the Legislature for its action.

One of the principal changes in the hospital act is one providing that out of the first \$100,000 collected from the tax will be paid before any other expenditures are made. Another change authorizes the County to build the hospital at self without the assistance of any governmental agency.

German Ambassador Leaves For Turkey

ISTANBUL, May 13.—(AP)—German Ambassador to Turkey, who may be carrying German collaboration suggestions to the Turkish Government from Berlin, took off on an airplane here yesterday for Ankara, the capital.

Three German consular officials met von Dopen at the airport here during a 40-minute stop in his flight from Berlin, while the Turkish press meanwhile forecast closer relations between Berlin and Ankara, with sharp repercussions in the Far East.

Negro Charged With Assault Is Lynched

QUINCY, May 13.—(AP)—A. C. Williams, 22-year-old negro charged with assaulting a 12-year-old white girl, was found shot to death today, several hours after a mob of men seized him the second time after a first lynching attempt had failed.

No arrests have been made. Sheriff M. P. Luten said, "we have virtually no clues to work on."

City Agrees To Lower Fees For Summer Golfers

Other Changes Voted By Regular Meeting

Green fees of the municipally operated Sanford Country Club were reduced today 25 cents to 50 cents during the summer months and 10 cents during the remainder of the year.

The summer rates will go into effect May 15 and will be in effect until Sept. 1. Mr. Sayer said.

Another regular change, to create a special non-resident membership which would apply to all legal years would apply to Mr. Phoenix, who has sold out of Seminole County, was voted down by the Commission.

The Commission did not see why out-of-town golfers should be given preference over Sanford players, Mr. Sayer said. J. L. Ingley, chairman of the golf committee, and Allan Stewart, club manager, proposed the recommendations in a communication to the Commission. It was decided to give the baseball players special rates because "it is an important part of training." They will not be allowed to play more than nine holes at one time.

Mr. Stewart will leave Sanford May 18, for Petoskey, Mich., where he will be golf pro for the summer months. During his absence, Raymond Lundquist will take over as manager.

JAP DROPS DEAD

High German Leader Came To Britain Sane, Officials In England State

Strange Incident Remains Mystery

Hope Of No. 3 Nazi For Anglo-German Friendship Cited

BERLIN, May 13.—(A. P.)—Close upon Rudolf Hess' flight to Scotland—with what the Nazis called a "Hallucination" of a German-British peace—the sub-leadership of the Reich met today with Adolf Hitler for a show of "determined will for victory."

Hitler addressed the meeting in a response to which, it was said, party leaders gave the Fuehrer a x x x an impressive demonstration of a "determined will for victory."

Rudolf Hess, parachuting from a crash-landed Messerschmitt fighter into a Scottish moor Saturday night—the notorious leader of Nazi party broke the Hitler hierarchy in a development that may alter the course of the European War, London officials today believe.

The British government today said it had no official confirmation of the Nazi leader's flight. But it definitely declared that the flight was a "beneficial" development in the military sense.

It said that the flight was a "beneficial" development in the military sense. It said that the flight was a "beneficial" development in the military sense.

Civic Activities Of Jaycees Are Discussed In Article By Powers

By Harold J. Powers

A quick review of Jaycee projects which have received little publicity reveals the fact that the Sanford club quietly maintains activity in a wide variety of civic interests.

More than a year ago the club determined that Sanford would leave a first class club office and, according to the plan, committee chairman, they spent about six months of intense work before the final results were in hand.

The club has received little publicity reveals the fact that the Sanford club quietly maintains activity in a wide variety of civic interests.

Sanford Legionnaires Invited To Attend Dedication Of Cocoa Home

An invitation to the dedication of the new Legion home and the installation of officers of the Cocoa post has been extended to all Sanford legionnaires by Past Department Commander Lisle Smith, Joel S. Field said today.

The dedication will take place Wednesday, beginning at 6:00 o'clock in the evening. After the installation ceremonies the Cocoa post will be host at a barbecue dinner. All legionnaires who plan to attend are asked to notify Mr. Field.

The Titusville post will have their annual re-dedication of their legion home Friday afternoon at 2:00 and all local members of the legion have been invited in a special letter, received from Stewart. All department officers will be present, including the new commander, Rupert Caviness of Ocala. All legionnaires who plan to attend in Titusville are asked to notify Mr. Field by 9:00 o'clock Thursday morning. Cars will not leave later than 1:00 P. M., Mr. Field said.

TUESDAY, MAY 12, 1941

SCRIPTURE VERSE FOR TODAY

BE A GOOD LISTENER: As an
earring of gold, and a ornament
of fine gold, so is a wise ear.
Proverbs 25:12.

How About The Dependent Children?

With no intention of minimizing the importance of greater appropriations for old age assistance in Florida as provided under a measure increasing rate track taxes, the Herald wishes to speak a word for the dependent children of the state, who it seems are slated for a continued disparity in the allocation of welfare funds.

With the number of dependent children of needy parents equaling the number of needy old persons, according to surveys, the proportion of money appropriated by the State last year was in the ratio of six to one in favor of the old people. Last September there were pending applications for aid for nearly 19,000 children, whereas there were only 7,007 pending applications for old age assistance on file.

In Seminole County as of last February there were pending 143 applications for old age assistance, with funds available to take care of the need, while 67 families representing 197 dependent children made application for aid, without any money at hand to help them.

It seems to use the most humane, the fairest, and the most economical plan would be to give the children at least an even break with the older group. It is a self-evident fact that if more attention is not paid to our needy boys and girls they will continue to be wards of the state and will ever be a financial burden. With a fairer distribution of funds in their behalf, most of them will have the opportunity of developing character and physical well-being and of becoming worthy self-supporting citizens.

If the new plan for greater appropriations contemplates the same ratio discrimination, then the people, who feel that the quality of our future citizens is of vast importance, should make their convictions known and should demand that the boys and girls who are in no way responsible for their plight shall be given greater consideration.

New Vistas

Passage of a bill to regulate and tax signs on the highways of Florida probably will be effected this week, inasmuch as the house has agreed to a senate-approved bill, with minor amendments, to achieve that end.

It is important to note that the taxing provision of the bill is designed to discourage setting up of billboards along our highways, rather than to raise more revenue for the state.

Garden clubs of Florida have been battling for a dozen or more years to get legislation that would give travelers a chance to view the scenery of Florida, without it being obstructed by boards of all kinds.

The taxing law apparently is the only effective method of curbing them. The cost of billboards, through taxation, can be made so great that it would be uneconomic for businesses to employ them.

There are certain sections of Broward county and Palm Beach county and Dade county so cluttered with signs that the abutting roadside is totally excluded from the view of motorists.

The upper end of Biscayne boulevard, the front-door entrance to Miami used by hundreds of thousands of motorists, is one of the worst eyesores in Florida, one which the Dade County Federation of Garden Clubs has been trying to have removed for years.

If we can obtain some relief from billboards for motorists through this taxing method, it will be worth all the trouble required. And the Garden Clubs of Florida, which have been waging an up-hill fight, will find more ammunition at their hand to carry on.

To the civic spirit of these women Florida owes a debt of gratitude for the splendid work they have done towards opening up new vistas for the automobile traveler through the state.—Miami Herald.

Citrus Measures Are Approved By Florida Senators

(Continued From Page One)

unemployment compensation in all industries from \$3 to \$5 per week and the minimum period in which it may be collected from three to six weeks.

Unanimous passage was accorded by the House to a Senate-approved bill ending the terms of present members of the State Citrus Commission on May 31 so that a new commission can be appointed by Governor Holland.

Seven of the new members must be growers, with four shipper-growers completing the 11-member commission.

Six will be appointed for terms of one year, and five for terms of two years. Afterwards, appointments will be made for two-year terms.

The bill also requires all State citrus inspectors to be licensed as federal inspectors. It defines commercial processing and includes fruit shipped for charitable, relief and canning purposes.

Minor amendments by the House sent the bill back to the Senate before it goes to Governor Holland, who recommended its passage.

Following strictly the program of Governor Holland, the Florida Legislature yesterday voted overwhelmingly to put \$750,000 of accumulated Murphy Act money in the fund from which general State expenses are paid.

The Senate's action in passing

WEEKLY NEWS COLUMN

By JOE HENDRICKS

FLORIDA BOYS, NOTICE—I know that a portion of this announcement is late for the weekly papers. However, it is my hope that some of the daily papers will run it before May 10.

Some time ago I stated that many young Florida boys had written me for appointments to Annapolis and West Point and at that time I proposed the alternative of becoming a cadet in the United States Coast Guard. Now the United States Maritime Commission announced a Cadet Training Program, with competitive examinations to be held in June, 1942. The time for filing application passes on May 10th and I urge those who are interested to apply to R. B. McNulty, Supervisor of Cadet training, United States Maritime Commission, Washington, D. C. This is a splendid opportunity to get into one of the most desirable of the Government's training programs. The Coast Guard also has announced a competitive examination for appointments of cadets to the Coast Guard Academy to be held May 16, 1942. Requirements for entrance are: descriptive information may be obtained by addressing the Commandant, U. S. Coast Guard, Washington, D. C., or if you are in Florida, contact Joe Hendricks, Washington, D. C., I will get that information and the Maritime Commission send the required information. Boys in Florida should be particularly suited for the training of either one of these programs since Florida is surrounded by water and the boys are more adapted to this sort of training. I urge you to make your application. This is an opportunity.

DIFFERENTIALS—I am sure will be assisting to many people to learn that one of the causes for being dead in the setting of the oil and steel strike was because the Southern operators had taken advantage of the Southern operators as Northern industry in the past years. It is attempting to abolish the differential in wages. There is one thing that can be depended upon every time when a differential is in favor of the North. Northern industry will not argue about it, but if the differential favors the South, there will be plenty of criticism raised. In my mind there was an outright agreement between the Northern operators and John L. Lewis to keep the differential in wages between coal and steel. If the differential had remained on it one day longer, the Southern operators would be the victors and the coal and steel industry would be the loser.

CHALLENGE—The American people should be challenged to support the U. S. Maritime Commission and the U. S. Coast Guard. The U. S. Maritime Commission is a part of the U. S. Coast Guard. The U. S. Coast Guard is a part of the U. S. Navy.

Stewart Says Middle Class To Be Squeezed By Tax Program

By CHARLES P. STEWART, Central Press Columnist

THOUGHTS—I'd call 'em night-owls, only nightmares are more realistic, and these thoughts are the real thing.

Thoughts, then, of next year's tax program, as it stands at the present time, are not very bright. The program, as it stands at the present time, is a program that will squeeze the middle class.

The middle class is the backbone of the nation. It is the middle class that pays the taxes. It is the middle class that supports the government. It is the middle class that makes the nation what it is.

The middle class is being squeezed by the tax program. The middle class is being squeezed by the tax program. The middle class is being squeezed by the tax program.

The middle class is being squeezed by the tax program. The middle class is being squeezed by the tax program. The middle class is being squeezed by the tax program.

Riding Motorcycles Prohibited By Order

CAMP BLANDING, May 12—(Special)—Col. Homer W. Hester, commander of the 31st (Dixie) Division's 118 Field Artillery, has issued an order prohibiting the riding of motorcycles by members of his command.

The order was issued after several motorcycle accidents in which soldiers were injured. Col. Hester has issued an order to the effect that only one person at a time shall be allowed to ride a motorcycle on the post.

Col. Hester is in his office at 11:30 a.m. today, but he will be in his office at 1:30 p.m. today.

Program Presented At Meeting Of Circle

Mrs. Kenneth R. Bell, program chairman, presented the members of Circle One of the Methodist Church in the program, "Our Heritage," at the regular business and program meeting of the Women's Society of Christian Service of the Methodist Church yesterday afternoon.

Members taking part on the program included Mrs. Glenn E. McKay, Mrs. T. E. Wilson, Mrs. C. C. Priest, Mrs. R. M. Mason, Sr. Mrs. J. C. Davis and Mrs. R. C. Thomason.

Mrs. John L. Clark presided over the business session after which interesting reports were given by the delegates attending the first state conference of the Women's Society of Christian Service which convened from Apr. 22 to 25 in Lakeland. Those who attended were Mrs. John L. Clark, auxiliary president, Mrs. E. Shoemaker, guild president, Mrs. Arthur Phillips and Mrs. W. S. Thornton.

Highlights of the conference were the devotionals which were led each morning by Mrs. Harold R. Barnes of Enterprise, who is assisted by the deaconesses in charge of the projects within the state which are controlled by the women's Division of Christian Service.

Dr. John Branscomb, pastor of the Methodist Church in Tampa and considered one of the state's most inspirational speakers, conducted the noon time devotionals each day.

Addressing the conference were two outstanding women of American Methodism, Mrs. Helen Semler, a missionary to China and Mrs. B. F. DeVinny, the executive secretary of education and substitution of the Women's Joint Division.

Mrs. T. F. Foster, president of the Women's Conference of Miami stated at the conference that "the excellent speakers, inspiring devotionals and reports, coupled with the fact that this will go down in Methodist state history as the first conference of the Women's Society of Christian Service helps explain the large attendance of 932 persons registered for the session."

The conference will be held in 1942 in Miami.

NOTICE
The Antler Lodge of Sanford, Elks, number 1241, is giving a bridge party at the Elks Club this evening at 8:00 o'clock, sponsored by mothers of the Antlers. The public is invited to attend.

NOTICE
The Dirt Gardeners Circle of the Sanford Garden Club will not have its meeting until Thursday, May 22. The meeting will be held at the home of Mrs. S. C. Dickerson at 12:00 o'clock for luncheon.

Steamship Operators Asked For Vessels
WASHINGTON, May 13.—(AP)—The Maritime Commission has called on interstate steamship operators for vessels for the 2,000,000 ton shipping pool recently ordered by President Roosevelt.

A spokesman said today a "reasonable guess" would be that the interstate operators would be asked for 50 ships.

FRIDAY
The Azalea Circle will meet at the home of Mrs. L. E. Spencer at 10:00 A. M. From there they will motor to the home of Mrs. Otto Schmehl in Daytona Beach for luncheon. All members are urged to attend this last meeting of the year.

SATURDAY
Cerebellan girls will have their regular meeting in the Panteon S. Munson Studios on 603 Myrtle at 2:15 P. M.

SUNDAY
Sewing society will continue in the Woman's Club for the Red Cross from 9:30 A. M. until 11:30 A. M. with Mrs. Jack Hall as sponsor.

Miss Edna Rivers has gone to Orlando where she is employed by the Orlando Sentinel.

Mr. and Mrs. W. S. Williams and son of DeLand visited friends here on Saturday.

Mr. and Mrs. E. M. Swain spent last weekend in Cocoa with Mr. and Mrs. Ralph Stewart.

R. U. Hutchison has gone to Gainesville where he is employed at Hagree for a while.

Mr. and Mrs. George W. Huff of Jacksonville, formerly of Sanford, visited friends here on Saturday.

Mrs. Gertha Rivers spent the afternoon Monday in Orlando with her daughter, Miss Edna Rivers.

Frank Geib, who has spent the past three months in Sanford, is returning to his home in Chicago. He plans to return in the fall.

Mrs. J. O. Keeling and son, Jackie, of Battle Creek, Mich., have arrived to visit her brother-in-law and sister, Mr. and Mrs. George Deetich.

Mrs. Fred R. Wilson left Saturday for High Point, N. C., where she will be the guest of her son-in-law and daughter, Mr. and Mrs. Charles R. McCung.

J. L. Thornley has left for the Panama Canal Zone where he will be employed by the government. Mrs. Thornley and small daughter, Peggy Ann, will follow in a short while.

Mr. and Mrs. E. H. Loney had as their guests Sunday, Mrs. Luella Tally of Tavares, Mr. and Mrs. Cottrell Tally and daughter, Kathryn Ann, and Mr. and Mrs. E. L. Loney of Jacksonville.

Mr. and Mrs. William Wade of Hollywood, formerly of Sanford, have recently moved to Orlando. They have been vacationing for the past two weeks in Chittanooga, Tenn., and the Great Smoky Mountains.

Mr. and Mrs. W. P. Chapman, Mrs. W. C. Chapman, Mrs. C. F. Brannan and Russell Alvarez recently explored the famous Endless Caverns at New Market, Va., while on a motor trip through the Shenandoah Valley of Virginia.

New Record Set By Plant City Market
NEW RECORD, May 13 (Special)—More than 3,315 packages of a dozen varieties of vegetables were sold yesterday at the State Farmer's Market to set a new Spring volume record, James McGee, market manager, said.

There was slight change in the returns paid for commodities Saturday. Yesterday's volume: Twenty-one hampers baby limas; 1,128 snap beans; 147 crates of corn; 2,217 cucumbers; 273 white squash; 1,486 yellow squash; four okra; 256 Kentucky Wonder pole beans; 547 Irish potatoes; 34 Ford Hook limas; 508 tomatoes; 2363 peppers and 107 blueberry pons.

Price Cuts On Legal Ads Is Now Illegal
TALLAHASSEE, May 13.—(AP)—Newspaper price-cutting on legal advertisements in Florida is illegal yesterday.

Governor Holland signed a bill which requires all newspapers to charge the same rate for legal advertising.

He also signed into law a measure designating State Road No. 5-A, from High Springs to Perry as Fred P. Parker Memorial Highway in honor of the late State senator from Mayo who died two weeks ago.

How lay as many eggs from March to June as in all the other months of the year.

Citrus Bills To Get Special Consideration
TALLAHASSEE, May 13.—(AP)—Four of 10 bills endorsed by the citrus industry were to come up yesterday by the House citrus committee for special consideration within the next few days.

Children built of Howard County, Holland said, are opposed on the bills but indicate that the four were the most important. They would amend existing laws to prohibit the sale of citrus fruit, except to processors, and to require the use of insecticides on citrus groves.

Miss Pataye Bandy, Carter Wilson Wed

The First Christian Church was the scene yesterday afternoon at 5:00 o'clock of the marriage of Miss Pataye Bandy, daughter of Mrs. A. P. Bandy and the late Mr. Bandy, and Carter Wilson, of Martinsville, Va., son of Mr. and Mrs. S. C. Wilson of Leakeville, N. C. The Rev. Herman Forbes, pastor of the Christian Church of Ft. Pierce, performed the ceremony in the presence of a large number of friends and relatives.

Pastel colored gladioli in pedestal baskets formed the background for the chancel, banked on either side by palm and canted with a pedestal basket of calla lilies, baby breath and fern. Seven branched candelabra holding lighted white tapers were placed on each side of the altar before which the ceremony was exchanged. The windows held arrangements of fern and gladioli.

Preceding the ceremony and while the guests were assembling the pianist, Mrs. J. I. McKwan, played a program of spiritual music including "I Love You Truly" and "Because" which were sung by Mrs. Harris Feltis Leasing. "The Bridal Chorus" from Lohengrin and "The Wedding March" by Mendelssohn were also played. During the ceremony Mrs. McEwan softly played "Liebestraum."

The bride was given in marriage by Wheeler McClelland, an old friend of her late father, and was attended by the bridegroom's sister, Miss Anna Wilson of Dampier, N. C., as maid-of-honor. The bridegroom chose as best man, Elmer Handy, brother of the bride.

Presenting a lovely picture, the bride was gowned in a dress of white brocaded taffeta modeled on princess lines, featuring a sweetheart neckline and long tight fitting sleeves. She carried a bouquet of Rapture roses shawered with white satin ribbons and white sweet peas.

Miss Wilson was crowned in a powder blue dress featuring a tight fitting waist to which was attached a very full skirt. Her flowers were Bicoloris and sweetheart roses, tied with satin ribbons.

Mrs. Bandy, mother of the bride, chose for the occasion a light blue dress, with which she wore white accessories. Her coiffure was of Bicoloris and sweetheart roses.

Mrs. Wilson was born in Sanford and has lived here all of her life, and attended the local schools. Mr. Wilson's home was in Leakeville, N. C., where he was graduated from the Leakeville High School. At present he is connected with the Dupont Mills in Martinsville, Va., where the couple will live.

Immediately following the ceremony the couple left for a honeymoon trip on the East Coast.

Out-of-town guests at the wedding included Mrs. J. F. Eaton and Dorothy Eaton of Orlando, Mrs. Pearl Griffin and Miss Myrtle Griffin of Tavares, Mr. and Mrs. J. W. Griffin and children of New Smyrna and Mr. and Mrs. B. E. Whitaker of Lake Placid.

Burning Faith Said Needed To Win War
KANSAS CITY, May 13.—(AP)—If the democrats are to defeat Hitler, those who seize him with an almost religious fervor, our faith must burn with a flame as white as their," Lord Halifax said last night.

"Thus and thus only," the British ambassador to the United States declared in an address at a public meeting, "may this dark menace to our people's lives and human freedom perish in the unquenchable fire of our resolve."

Trade Pacts Sought With Two Nations
WASHINGTON, May 13.—(AP)—The United States government, seeking to close important gaps in hemisphere economic defense, announced its intention last night to negotiate reciprocal trade agreements with Argentina and Uruguay, chief producing countries in Latin America.

Earlier negotiations with the two southern republics broke down last year after strong opposition developed in cattle raising and agricultural states to any concessions allowing in ports of competing products.

CLUBS TO MEET
WEST PALM BEACH, May 13.—(AP)—The annual convention of the Florida Federation of Business and Professional Women's Clubs will open here Thursday. Officers will be elected Saturday.

BLEACHERS STARTED
CAMP BLANDING, May 13.—(Special)—Construction was begun last night on bleachers around the 116th Field Artillery's boxing arena. The seating capacity will be 500 persons. Lt. Woodrow Hickey, recreation officer of the 116th (Dial) Division, directed the work.

NAMED FOR PROMOTION
WASHINGTON, May 13.—(AP)—The annual convention of the Florida Federation of Business and Professional Women's Clubs will open here Thursday. Officers will be elected Saturday.

Job Outlook For College Students Is Termed Good

TALLAHASSEE, May 13.—(Special)—Prospects of jobs for the 1941 and largest graduating class of Florida State College for Women is "the best ever," according to Dr. Elizabeth Gordon Andrews, college director of personnel and placement. She estimates placement will be made of 85 to 95 percent of the entire class which consists of 277 master's and four-year candidates; plus the two-year degree candidates.

Placement of Florida State College graduates in recent years shows a trend toward an increase in the number of young women going into fields other than teaching in business, social work, home economics fields, as laboratory technicians, in personnel and government executive positions, she said.

Teaching remains the largest field in placement of Florida State College graduates, however, with heavier placements in secondary rather than elementary schools. Subjects in which she anticipates the greatest demand in the secondary schools are: commerce, home economics, mathematics and science, English, and social studies.

Other fields in which she anticipates the largest number of requests are business—with openings in secretarial, administrative and accounting positions; government work, as junior executives or in secretarial positions; social work; dietetics; school library work; home supervisors; and in high demand for technically trained graduates in the last year or so has been largely in social welfare, commerce, government offices and in dietetics, but is too early to note whether there has been an increase or decrease as yet, she said.

Qualifications principally sought by employers of the graduates in order of their importance, she said, are scholarship, campus popularity, character and adaptability.

At Florida State College individual conferences are held with each senior to help her get a job and vocational guidance lectures are a part of the placement program. The placement bureau serves both the prospective employer and the graduate at no cost to either.

Younger Draftees Asked By Hershey
WASHINGTON, May 13.—(AP)—The nation's acting draft chief yesterday asked Congress to revise the Selective Training and Service Act to provide deferment of men by age groups—a move designed to place the military training act on a youth basis.

The request, made by Brig. Gen. Lewis B. Hershey in a letter to House Speaker Rayburn, marked the first official recommendation for a change in the draft law.

The move came as draft of fiscal districts that classification of all men who registered last October to determine the number of skilled workers available in the nation's production schedule.

Two Italians Afe Arrested In Miami
MIAMI, May 13.—(AP)—Immigration Inspector W. H. Thomas said yesterday two Italians formerly employed at the New York World's Fair had been arrested on deportation warrants under orders from the Department of Justice.

Thomas listed the men as Alfredo Gallo, 29, and Vittorio Pons, 27.

AWARD FOR MACDILL JOB
WASHINGTON, May 13.—(AP)—The War Department announced the award to the Florida Portland Cement Company of Tampa of a \$11,200 contract for Portland cement for MacDill Field. Delivery date was not disclosed.

KILLED IN AIR RAID
LONDON, May 13.—(AP)—The British radio reported last night that Mrs. M. Butler and Mrs. H. M. Richardson of the United States ambulance corps in Britain were killed in last Saturday night's devastating air raid.

REPORTS RAIL INCOME
NEW YORK, May 13.—(AP)—Atlantic Coast Line railroad reported yesterday net income for the March quarter of \$3,253,547.

Some economists figure that, during the World War, it took 248 minutes of farm labor to produce the same amount of wheat 100 minutes now produce. And vast increases in efficiency of personnel, methods, and equipment has halved the time required to drill U. S. oil wells.

Sanford Loses To Islanders By 6-1 In Colorful Tilt

Justice And Jusczyk Trade Blows In Argument Over Break Up Of Double Play

Leesburg Meets Seminoles Here

Seminole Bested In Quarrel With Ump On Disputed Play

Sanford lost the game, an argument with the umpire and a draw in a fight at Daytona Beach last night when the Island hurler, Floyd Thierolf, hit Seminoles bats to five hits while striking out 15 men to win the game, 6-1.

Tonight the Seminoles face the Leesburg Anglers on the home field at 8:00 o'clock and all school children are admitted free.

Whitlock hit a triple in the sixth inning to drive Booth from first base, gained through a walk in the home plate for the lone score of the locals. Only batter to get more than one hit was catcher Charlie Girk, who drove out a pair of singles in three times at bat.

The argument with the umpire came in the eighth inning when a ball hit by Cost, Islander left fielder, went through Mutt Williams for an error. Cost continued to second and Clarence "Pop" Pflf relayed the ball back to second. As Cost came in to second the ball went through Joe Justice for an error and rolled over to the Islander's dugout.

The runner made third on the overthrow and stopped when the ball was recovered by Ernie LaValley. Then the plate umpire, Morgan, waved the runner in to second base. The argument was whether the man had reached second before the ball, since he is allowed the base he is trying for and an extra base when the ball returns the dugout.

The Sanford players maintained the man was on that base since the play was on that base but the umpire said the man was trying for third since he slid into second ahead of the ball. The umpire won the decision.

Justice and Edmond Jusczyk got into an argument in the second inning when the Daytona runner came together with Justice off second base in the first as an attempted double play to first base. Joe's throw to first was held up and the runner made it safe. Jusczyk and Justice had words and then blows for a minute but the base umpire and Justice grabbed the two. As soon as it looked clear more words passed and Justice dove at Jusczyk again. Neither player suffered any damage in the tilt and both were allowed to remain in the game.

Sanford batters looked like wildcats against Thierolf who struck 15 of them and walked on three. Daugherty struck out twice, gave two bases on balls, and struck out six of them.

Seminole in a row during the sixth, seventh and eighth inning. Ernie LaValley continued his smooth play at first, accounting for 13 putouts, one unassisted. Both Daugherty and Girk accounted for three assists. Charlie made a quick throw to second to catch Costa trying a steal in the fifth, retiring the side.

MEDICAL BILL PASSED

TALLAHASSEE, May 13.—(Special.) The House yesterday passed, 82 to 0, a Senate-approved bill requiring doctors and mid-wives to apply silver-nitrate solution to babies' eyes within one hour after birth.

Brother Team As Batter Due To Teacher's Idea

A prim Missouri schoolmarm at the other end of the state was chalked up with an assist for the St. Louis Cardinals setting out as league-leaders on their first Eastern trip of the year.

"St. Louis, W.S. L.S. PC-737" is how it read at the top of the National League percentage table the day the Red Birds soared toward the Atlantic slope. In the leading averages "W. Cooper, A.B. 25, H.H. BA-337" tells a large part of the Southwestern's success story.

"He's my natcher," Manager Billy Southworth told them at Spring training camp. "He's big and he's the fastest catcher in the league. I don't know any one on my club who can outrun him and we've got some tall hustlers. He's got a grand arm and he knows how to catch."

Their schoolteacher, Miss Frances Montgomery, decided an arm like that should be put to use pitching the baseball. The school had no baseball team, but when Miss Montgomery went to work, a team promptly came to life with Miss Montgomery as coach.

The strong-arm youngster, whose name was Morton Cooper, needed his little brother, Walker Cooper, as catcher, or else the games would be just an exhibition of passed balls. Little Walker preferred playing centerfield and passing the pill, but a school-teacher's word is law. Walker dutifully donned the board of education's mask and windpaw.

He did it for good old Atherton Grade. So here he is today, not only renowned with Mort as big league baseball's top-flight brother or battery, but likewise snark-plugging the entire Cardinals pitching staff so that the Red Bird flag floated from the first place mast-head again, just as in the lustrous prime of O'Farrell and Jimmy Wilson, great Card catchers ahead of him.

or \$4.07 a common share, compared with \$7.65, 213, or 92 cents a share, in the March quarter of 1940.

NOTICE

The Board of County Commissioners of Seminole County, Florida, will receive bids at the Clerk's Office in Sanford on June 9th on the following:

Two (2) 12 inch wheel base dump trucks with cab, 92 H. P. Motor-Heavy duty engine 100 X 20 front tires and 18 X 20 dual rear 2 speed axle (Morton or Rustell) Woods dump body with hydraulic lift installed-overload or helper spring installed.

The Board reserves the right to reject any or all offers or accept the bid they deem to be for the best interest of the County. Alternate bids must be submitted separately. Price guaranteed for 10 days. Immediate delivery. The successful bidder to accept in trade one Mack J. and one GMC Truck.

O. P. Herndon, Clerk

IN THE CIRCUIT COURT NINTH JUDICIAL CIRCUIT OF FLORIDA, DISTRICT OF SEMINOLE COUNTY IN CHANCERY

W.D. 628

CITY OF SANFORD, a municipal corporation, Plaintiff,

vs.

THE STATE OF FLORIDA, Defendant.

validating and confirming City of Sanford, Florida, defending Bonds issue of 1941, to be dated March 1, 1941, in the sum of \$112,000.00, subdivided into three (3) series as follows, to-wit: Series D, \$12,000.00; Series E, \$20,000.00; and Series F, \$80,000.00, as fully described in said petition for validation and that the Honorable J. H. Smith, one of the Judges of said Court, has issued an order requiring that cause be shown, if any there be, at the Court-house in Tallahassee, Florida, at ten o'clock A. M. on the 23rd day of May, A. D. 1941, why said bonds shall not be validated and confirmed, and you are hereby notified to show cause, if any you have, at the time and place specified in said order, why said bonds should not be validated and confirmed.

This notice shall be published in The Sanford Herald, a newspaper published in said City of Sanford, Florida, once each week for three (3) consecutive weeks prior to said hearing, the first publication thereof to be at least eighteen (18) days prior to the date of said hearing.

WITNESS my hand and the official seal of said Court, at Sanford, Florida, this 23rd day of May, A. D. 1941.

O. P. HERNDON,
Clerk of the Circuit Court Ninth Judicial Circuit in and for Seminole County, Florida.

FRED H. WILSON,
Counsel for Plaintiff.

IN THE CIRCUIT COURT, NINTH JUDICIAL CIRCUIT IN AND FOR SEMINOLE COUNTY, FLORIDA IN CHANCERY

LYONA SALTER, Complainant,

vs.

SHELTON SALTER, Defendant,

TO: SHELTON SALTER, whose residence is unknown.

You are hereby ordered to appear on the 2nd day of June 1941 at the Bill of Complaint filed against you in the above entitled cause and The Sanford Herald newspaper, published in Seminole County, Florida, is hereby designated as the newspaper in which this order shall be published for four consecutive weeks. Witness my hand and seal as Clerk of the above titled Court this 23rd day of April, 1941.

O. P. HERNDON,
Clerk of the Circuit Court Seminole County, Florida.

NOTICE OF INTENTION TO ADOPT INFANT CHILD

Notice is hereby given that the undersigned J. M. GRADICK and wife MYRTLE C. GRADICK, Sanford, Seminole County, Florida, will on Friday, the 26th day of May, A. D. 1941, at 10 o'clock A. M., apply to the Judge of the Circuit Court in Chambers at Sanford, Seminole County, Florida, for authority to adopt an infant female child, eight years of age, named BEVERLY CAMERON, of GARLAND W. SPENCER, Attorney for Petitioners.

AMOCO

does it again!

The Company that gave America its FIRST special motor fuel is now FIRST AGAIN...with new, mightier HYDRO-FORMED AMOCO!

Over twenty-five years ago, the American Oil Company gave Amoco-Gas to the public. It was the first special motor fuel—making possible the high compression automobile motor.

At first people smiled—wondered why a special fuel was necessary. Then they tried Amoco-Gas, and discovered that they obtained performance and economy absolutely impossible for any ordinary gasoline to deliver.

Steadily Improved, Year by Year

As motors became more powerful, as compression increased, as operating temperatures moved up, Amoco-Gas kept pace, stepping up quality and efficiency with each motor improvement.

Amoco Does It Again!

For years chemists and engineers have striven to improve gasoline efficiency even more, by regulating its combustion in the cylinders. They knew that if a way could be found to cut down violent, explosive shock, much power-waste could be eliminated—transformed into useful energy.

Hydro-forming Solves The Problem!

Now the problem has been solved by the revolutionary new Hydro-forming Process of refining gasoline, pioneered by the American Oil Company, and used to make Hydro-formed Amoco-Gas.

Hydro-forming imparts new and even mightier qualities to Amoco. Most important of all, it permits combustion control—Flame Control!

Flame Control Gives Cushioned Power!

Hydro-formed Amoco-Gas burns in a different way. Flame Control reduces violent, explosive shock, cuts down waste, and produces more useful energy. Cushioned Power now replaces severe detonation—delivers a satin-soft, s-m-o-o-t-h surge of energy—a flow of driving power that follows the pistons through their entire course. Vibration is hushed—destructive pounding on bearings and moving parts is reduced.

Better Road Octane!

Official results of road tests by Industry Committees show that conventional gasolines, on the average, lose octanes on the road. Hydro-formed Amoco-Gas actually gains them—surpassing laboratory figures because its knock-arresting constituents become vaporized, distributed more evenly and impartially to all cylinders alike.

An All-time High in Quality!

Good as Amoco-Gas has always been, it is now mightier than ever—reaching an all-time high in quality and efficiency. Everything that makes for outstanding performance moves to new levels. Point for point, it is the finest motor fuel we have ever produced.

Test Hydro-formed Amoco-Gas yourself! Compare it feature for feature, with any other gas you have ever used. See how it outdates your old conception of quick starting, of getaway and pickup, of pulling power and mileage.

Never before have we made such a mighty motor fuel!

Always the best—now better than ever!

Governor Calls For Broad Revision In Florida's Tax Laws

Higher Auto Licenses And New Levy On Stocks In Stores Asked In Message

Finance Problem Is Said Critical

More Money Needed To Replace Loss, Holland Announces

TALLAHASSEE, May 14.—(AP)—Governor Holland proposed today that the Florida Legislature increase the cost of automobile license tags on 300,000 cars, levy a new tax on the stocks in retail stores and put "teeth" in tax collection laws in order to meet "the critical problem" of State finances.

In his second address to the Legislature, devoted exclusively to money matters, the Governor urged Senators and representatives to meet the situation by levying a new tax on the stocks in retail stores and put "teeth" in tax collection laws in order to meet "the critical problem" of State finances.

Barnes Suggests Educating Child For Citizenship

Kiwians Hear Discussion Of Welfare Work For Children

Education of children to become better men and women is the way to reduce tomorrow's America, the Rev. Harold R. Barnes, superintendent of the Methodist Children's Home at Enterprise, told the Kiwanis Club at its weekly luncheon at the Valdes Hotel today, adding that an understanding of childhood is a requisite in dealing with them.

Training in religion is essential to producing good citizens, the speaker declared, and "teaching the child how to live will help produce men and women of the kind we want to live in tomorrow's America," he said.

A. P. Connelly, first president of the Kiwanis Club, was a guest at the luncheon and was introduced by Jno. D. Jenkins, Sidney J. Nix, secretary, announced that the Centric Division Rally will be held Thursday in Clermont. Dr. L. T. Doss and County Judge R. W. Wray were honored on their birthdays.

The Rev. Barnes, who was introduced by the Rev. W. P. Buhman, pointed out that "it costs less to care for a child than it does for a criminal, though America and the world has not yet been awakened to this fact."

Several years ago a youth committed a murder in the Loop district of Chicago, Rev. Barnes said, and the trial cost Cook county \$100,000.

"You're right there in the Poop district was a minister who maintained a home for underprivileged children, and not once had any of his minister's charges been arrested for a crime," Rev. Barnes declared. "That \$20,000 would have gone a long way in the operating expenses of the institution."

The Methodist Children's Home, of which Rev. Barnes has been superintendent since Feb. 1, recently was asked to take in three children but was forced to turn down the children because it was crowded.

Soderblom Pictured In Legion's Paper

Carl A. Soderblom, former Sanford resident who is now in the United States Navy, is pictured in the current issue of the Florida Legionnaire in the column, "Home of Legionnaires."

Under a picture of young Soderblom, his Navy uniform is the following sketch:

Seen April 8, 1917, at Fairfax, E. C. Graduated from Seminole High School and made good in the studies in business administration, also in music, guitar, violin and piano accordion. He is a charter member of Sons of American Legion Post No. 82, Sanford, Florida.

He was a member of the U. S. Navy Band, 1917, for four years.

planning of the session backed a first gas tax plan, and to both houses of the Legislature.

"Several worthwhile objectives have been accomplished by passage of the bills," he declared. "The additional credits set up will take care with certainty of needs of all counties for the first two years before the amendment, if ratified, can become effective."

"After adoption of the amendment, materially reduced rates of interest will be possible either for refunding or temporary financing. That will mean the problem that has been permanently solved."

The new program gives the State Road Department four, instead of the present three, cents of the tax on a gallon of gasoline and cuts the counties down from three to two cents of the tax.

The bills passed yesterday will become effective July 1.

Rescued At Sea

Pictured aboard a British warship this English mother and child were rescued from an open boat after spending 22 hours on the stormy Atlantic when the vessel, on which they were passengers, was torpedoed by a German submarine.

Exclusion Of Apartments, Hotels From Homestead Exemption Is Requested

TALLAHASSEE, May 14.—(AP)—Governor Spessard L. Holland called today for sweeping tax law changes by the Legislature which has voted nearly everything he asked at the beginning of the 1941 session.

Appearing before the House and Senate in joint meeting for the second time, the 48-year-old Governor proposed:

1. Full cash value assessment of real estate, with resulting local millage decreases, to bring in expensive homesteads now unassessed because of low valuations and the \$5,000 constitutional exemption.

2. A narrowed definition of "homestead" to exclude hotels, apartment houses and business establishments "now enjoying homestead exemption privileges."

3. Strict tax collection machinery, so that enforceable tax deeds can be obtained by the purchasers of delinquent tax certificates.

4. Correction of administrative deficiencies in the tangible personal tax law, making such delinquent taxes liens against the real and personal property of the taxpayer.

5. Creation of the office of State Tax Commissioner to supervise the reconstruction of the ad valorem taxation system in counties and districts.

6. Uniform assessment and valuation of intangible property for taxes, with strict collection laws. By a constitutional amendment adopted last year, Florida prohibited ad valorem taxation for State government purposes, which had amounted to \$1,674,776 in 1940.

"The State has withdrawn from property taxation," Governor Holland said. "The old system is no longer appropriate. A new system must be provided by the Legislature before its adjournment as a basis for sound and continuing county and district taxation. The county governments and the people have the right to exact from us a system stronger and fairer than the one under which we have existed for so many years."

"Uniform assessment procedure and valuation is the first objective. Material increases in valuation will be practicable in counties where the valuations have been lowest and full cash value assessment, as now provided by law, will be in order on the 1942 rolls."

"I know of no other way to reduce the burden of the faithful taxpayers who are always carried their part of the load and more. No such extravagant extension of a real tax collection law, with teeth in it."

"Full cash valuation is an objective for 1942 and can be attained without hardship on the property which does not rightfully belong to most of them. The present abominably low level of valuation (about 25 percent average) has operated to bring entirely under the homestead tax exemption properties worth as much as 30 or 40 thousand dollars, or even more. No such extravagant extension of a real tax collection law, with teeth in it."

Holland said the proposed law (Continued on Page Three)

Hull Confers With Envoy From Russia

Showdown In Relation Between U. S. And Soviet Is Believed To Be Near

WASHINGTON, May 14.—(AP)—A showdown in the uncertain relations between the United States and Soviet Russia was believed imminent today as an afternoon conference was arranged for Secretary of State Hull and Soviet Ambassador Constantin Dumanovsky—their first in more than a year.

That Dumanovsky's call on Hull was important for the future of Russo-American relations was taken for granted by well-informed quarters, though both American and Russian circles were silent as to its purpose or significance.

President Roosevelt reviewed neutrality patrol operations and military base construction problems with top-ranking Navy and Army officers Tuesday as the nation awaited his next move in the battle of the Atlantic.

He met first with Brig. Gen. Thomas M. Robins, assistant chief of Army engineers, who has charge of all military engineering construction including that done on the newly-acquired bases in the Atlantic. Later, he presumably discussed with Rear Admiral King, commander-in-chief of the Atlantic fleet, conditions growing out of extension of patrol activities to safeguard shipments of war materials to Great Britain.

No details of the conversations were made public. They were held after cancellation of the third White House press conference in eight days to allow the President to recuperate completely from an intestinal attack. He remained in the White House proper on orders of his physician, Rear Admiral McFarlane, but the President's secretary, Stephen T. Early, said Roosevelt is "in shape" and "everything is all right."

Meanwhile, the Senate headed into a showdown fight on the issue of when it was to bring up today the House-approved bill authorizing the President to requisition idle foreign ships in American ports.

Senator Charles McNary, Republican, New Hampshire, still is determined to offer an anti-convoys amendment and force a record vote on it, insisting it will be "a non-interference" amendment. He urged McNary not to offer it. They argue that defeat of the proposal would strengthen force pressing for convoys.

Charlie Robinson Improves Slightly

Charlie Robinson, 23, who received a fractured skull in an accident Monday night when he was thrown from a motorcycle, showed a "slight improvement" today, his physician said, but he is not yet out of danger.

Sonny Headlight, Enterprise negro who was riding with Mr. Robinson on the motorcycle, also received a fractured skull and is attendant at the Memorial Hospital said his condition was satisfactory.

Mr. Robinson, an employee of the City Ice and Fuel Co., was driving the motorcycle on Lake Shore Boulevard about three miles from Sanford when he lost control of the machine and was hurled to the highway. In addition to the skull injury, his arm was fractured.

Chicago had the first automobile taxicab. It appeared on the streets in 1911.

Fire Destroys Skating Rink In Old Armory

Loss Estimated At \$23,000 In Equipment And Building

Fire of an undetermined origin last night destroyed the skating rink, housed in the old armory building, causing a loss of about \$23,000 to all involved including the owner of the building, Mr. Edward Lane, the owners of the floor, heirs of a Mr. Patterson of Lakeland, who recently died, and the owner of the equipment, Mark B. Parr of Cincinnati.

Flames had spread through the whole building before the firemen were called and on their arrival the entire floor was ablaze and the roof beginning to catch.

Fire Chief Mack Cleveland said: "Greatest individual loss was to the owner of the building, Mrs. Lane, who set a value of \$20,000 on it. She had insurance on the structure amounting to about one-fifth of the value, her husband carried. Several weeks ago she had gone to the City Hall to pay up the taxes."

The floor of the building had been installed for Mr. Patterson at a cost of about \$2,000, one of the heirs, W. C. Reed of Lakeland, estimated. No insurance was held on the expensive floor, made of hickory to give a hard surface.

Equipment in the building was valued at between \$700 and \$1,000, according to one report. Most of the loss was in the skates used by the patrons.

The call to the station came at 2:28 o'clock this morning. As soon as the firemen arrived they set up two hoses, as many as could be handled by the number of men on duty, Chief Cleveland said. The floor was a solid sheet of flame and the fire had started coming out of the windows at the ends of the building, catching the roof.

Several firemen had their faces and backs blistered by the heat from the fire while trying to get close enough to the building to save it. It was impossible to enter the building from any direction when the firemen arrived, the chief explained.

A bell boy at the Hotel Mayfair first discovered the fire and turned in the alarm. Cracking of the hardwood floors was heard all the way to Twentieth Street and French Avenue one bystander said.

It is the first serious fire Sanford has had in about a year and a half, Chief Cleveland stated. The last big fire was at the plant of the United Lumber Company.

Britain To Continue Restrictions On Japs

LONDON, May 14.—(AP)—Foreign Secretary, Eden bluntly warned Japan today that British economic restrictions against her would not be eased unless Japan recognizes British rights in China.

He said instructions to this effect had been sent to the British ambassador at Tokyo.

Seminole Excluded From Dry Cleaning Measure By House

Measure would have excluded Seminole County dry cleaners and St. Johns counties from the Florida dry cleaning law by a bill which has been passed by the House of Representatives.

The law, which was passed at the legislative session four years ago, would have excluded Seminole County dry cleaning establishments in the state in an effort to eliminate price cutting.

Dry cleaners in Seminole County felt that the law was unfair to them and that the Florida Dry Cleaning Co. explained and sought its repeal at the session two years ago.

Mr. Laney declared that the law was a burden upon the small establishments since they had to pay the same fee as the larger businesses.

Repeal of the law was voted down by the House two years ago, but Seminole County dry cleaners asked the current session of the Legislature to kill the law. The repealing bill was killed in committee, but later brought up in the House, where it failed to receive the necessary two-thirds majority for passage, Mr. Laney said.

Exclusion of the three counties which fall in the 20,000 population bracket, would be a big help to the dry cleaners, Mr. Laney believes.

French Government Okeys Nazi Terms

VICHY, France, May 14.—(AP)—The French government today unanimously approved the terms negotiated between Adolf Hitler and French Vice Premier Jean Darlan, presenting the United States with what diplomatic circles called an accomplished fact of European co-operation designed to halt American entry into the war.

There was still no official indication of what terms were involved, but diplomatic circles agreed generally the terms included not only economic but political collaboration between the French and their German conquerors.

\$5,043.75 Worth Of Defense Bonds Sold

Postmaster R. J. Holly said today that \$5,043.75 worth of defense bonds and \$44.40 in defense stamps had been sold at the Post Office since the issues went on sale May 1.

Three \$100 bonds and one \$200 have been sold, and the balance was in \$25 and \$50 denominations, Mr. Holly said.

"Several people are buying books of 25 cent defense stamps, and will turn them in for a bond when the amount reaches \$18.75," Mr. Holly stated. This bond will be worth \$25 in 10 years, the postmaster added.

Mystery Clouds Disposition Of DuBary Estate

32 Heirs Estimated With 13 Of Them Now In Germany

Mystery surrounds the disposition of the estate of Mrs. Benjamin Brewster, whose body was found in the wreckage of an airplane which crashed in the mountains of Pennsylvania Monday night.

According to the will of Adolph DuBary, who owned the property near Enterprise, and kept it for a winter home, Mrs. Brewster was to be the last sole owner of the estate and at her death it was to be divided among the members of the family.

There is a large number of heirs to the estate. One estimate is given as 32, with 13 of these residing in Germany, further complicating the disposition. Superintendent of the division, James Padgett, today said he was not sure of that number but that there are a large number of heirs and many of them in Germany.

Mrs. Brewster and her husband were just in the process of a restoration of the property, Mr. Padgett said. They were stacking the woods with quail and had just filled their kennels with hunting dogs. Usually the owners spend only January and February on the estate but last year Mrs. Brewster came down several times during the year and was planning four trips this year.

The property consists of about 5,000 acres of land, originally planted as orange and pecan groves, Count Frederick DuBary bought the property in 1865 or '70, Mr. Padgett said, and started building the main hall of residence during the year and was planning four trips this year.

Heads of the main building a number of smaller buildings are grouped around at a distance. There is a two-story frame house for the superintendent of the property and a barn and a wagon shed for farm implements and a huge hay barn that was converted into an airplane hanger six years ago. On the grounds are two runways for planes big enough to accommodate a three-place Waco, Mr. Padgett said. Other buildings are a laundry, a house for the colored help on the estate, several kennels for the bird dogs and fox dogs, and a private swimming pool.

ALEXANDRIA BOMBED

NEW YORK, May 14.—(AP)—The British radio, heard last night by CBS, asserted that it was officially announced in Cairo that "bombs were dropped on Alexandria this morning" but that neither damage nor casualties resulted.

LOCAL WEATHER

Fair tonight and Thursday; not much change in temperature.

Deputy Fuehrer May Already Have Disclosed War Information, Radio Says

Tension Reported Among Germans

Few Casualties Reported In Aerial Attack On Britain

Rudolf Hess, escaped Nazi deputy Fuehrer, was described by the British radio today as talking and writing "words which will make the German High Command sweat"—the first semi-official intimation that he may already have divulged vital German military secrets.

British military intelligence officers were reported questioning the Nazi closely.

Simultaneously, the government-controlled BBC began a barrage of broadcasts daily to Germany on the Hess affair. The London Daily Mail said in preliminary conversations Hess "indicated his personal disgust with the Nazi party," and told of a mounting tension among Adolf Hitler's party chieftains.

He indicated he planned to visit the Duke of Hamilton in Glasgow in an effort to bring about peace.

The Germans received an obliging warning against listening to foreign broadcasts on the strange case. Even as the British radio flooded the air-waves with Hess stories in Czech, Spanish, Norwegian, French, German and other languages, the official German news agency DNB published a list of seven recent cases in which persons were sentenced to four to six years terms for turning on radios of foreign broadcasts.

In the aerial war, Britain reported the second consecutive night of small-scale raids, but casualties were few.

Rudolf Hess shortly will be faced by Prime Minister Churchill himself in a private interview affording him the chance to tell the story of his aerial runaway from Germany and to give up local secrets that might conceivably affect the future course of the war.

Whether Hitler's long-time friend and turncoat deputy will describe the real inside story of Germany to the veteran journalist Churchill, was a matter of high speculation today.

The highly placed Britons already were declaring that the battle would be Germany's almost inevitable flight to Britain had given this country more military advantage "than a major victory on the battlefield."

The effect on German morale in the flight alone was worth that much, they said, and Churchill himself was quick to seize upon this point when he declared on learning of Hess' arrival:

"The maggot is in the apple. When and where the prime minister and the surrendered promoter of war will meet was not disclosed, but the London Daily Mail said Hess already had been moved from a Glasgow hospital to a place nearer London."

And already, it said, while Hess recovers from a broken ankle bone suffered in his parachute descent to a Scottish moor, British officials are talking to him.

Hess has described to these questioners real conditions in Germany and amid the Nazi hierarchy, the paper said, adding:

"He spoke freely and frankly and it is said to have incited his personal disgust with the Nazi Party and its policy. The tension between party leaders appears to have reached a state of considerable acuteness in recent weeks."

The German High Command yesterday proclaimed extension (Continued on Page Two)

Plattsburg Woman To Head Baptists

BIRMINGHAM, May 14.—(AP)—Mrs. F. W. Armstrong of Plattsburg, Md., was re-elected president of the Women's Missionary Union today as that Auxiliary to the Southern Baptist Convention ended a three-day session.

Miss Kathleen Mallory, Birmingham, was re-elected executive secretary and Miss Juliette Mathe, Birmingham, was again chosen young people's secretary.
