## REPUBLICANS ASSAILED IN TALK BY PAT HARRISON

Mississippi Senator Declares G. O. P. Hopelessly Disrupted in Address Delivered at the Notification of Bryan

LINCOLN, Neb., Aug. 19.—The Democratic party is the only party to which progressive elements can look for direction and leadership, Senator Harrison of Mississippi declared Monday night in an official notifying Governor Charles W. Bryan of his nomination for the vice presidency.

Omitting any direct reference to a third ticket in the field, Senator Harrison, who was temporary chairman of the Democratic national convention, declared the national campaign must be contested between a "reactionary" Republican organization and a "progressive" Democratic ticket.

"Whatever independence one may possess and however non-partisan one may be," Senator Harrison said, "he must know that in the coming November election either the Democratic or Republican triumph. The American people themselves must decide between the Republican and the Democratic party as to which will control the government for the next four years."

He assailed the Republican party as "hopelessly disrupted, without plan or purpose, courage or cohesion," and declared it to be dominated by reactionary leadership. He reviewed the record of the Democratic party and extolled the Davis-Bryan combination as one to which the progressive and independent voters could look to "administer government honestly, protect the rights of the masses and solve the economic problems of the day."

After warmly praising the accomplishments of John W. Davis as the party standard bearer, as a member of the house, as solicitor general and as ambassador to Great Britain, Mr. Harrison paid tribute to Governor Bryan as the "Democratic standard bearer" to which the progressive and independent voters could look for direction and leadership.

"Only agency that is today the only agency through which the government can function in an orderly manner during the next four years," he has proven its ability to harmonize differences, unite efforts, and get results through team work, both while in control and while in the minority.

"If the Republican ticket should again triumph, the American people will experience the same antagonisms, the same confusion, the same uncertainties that have characterized the party for four years. How can business contemplate with complacency such a situation? And have not the farmers of the West tasted enough of the bitter dregs of this administration to know that it cannot last?"

"It cannot look, therefore, for support in this campaign from the progressive and independent elements of the country," he said.

"This Democratic party is progressive, as it has always been, and it is the only party organization to which the progressives can look for direction and leadership."

# Members Faculty Of Sanford High School Announced

The names of the faculty of the Sanford High School were made public today by Superintendent T. W. Lawton, who stated that the list is practically complete except that the exact division as to departments has not yet been made. These divisions will probably be made as soon as Prof. G. E. McKay has returned and the teachers have arrived, he said.

The faculty as given out by Mr. Lawton follows: G. E. McKay, principal, and for the departments, Mrs. R. C. Maxwell, Mrs. G. E. McKay, Mrs. W. R. Fort, Miss Ida Gray, Miss Geraldine Muriel, Miss Ethel Henry, Miss Lillian Schwartz, Prof. R. F. Cooper and Prof. K. B. Hall.

"I wish to again call to the attention of the public," said Mr. Lawton, "that the high school will start two weeks earlier than the grammar schools and will last two weeks longer in the spring so that there may be nine months in the high school year, in order that the local school may qualify for the list of Southern Accredited Schools and Colleges."

"Transportation service for pupils, however, will not begin until the opening of the grammar and primary schools," Mr. Lawton further stated, "but it is hoped that every high school student will find a way to get to school during that time so that they may lose none of the year's work."

Mr. Lawton added that lists of teachers for the grammar and primary schools are not yet complete, but that they will be soon, probably some time this week. As soon as the lists are finished they will be made public.

# AIRMEN WILL BE UNABLE TO LEAVE FOR THREE DAYS

## Planes Were Badly Damaged In Attempted Hop-Off Monday—Italian Aviator Will Accept Invitation to Join

REYKJAVIK, ICELAND, Aug. 19.—The American world fliers will be unable to leave Iceland for Greenland for at least three days more, owing to damages suffered by both planes in an attempted start yesterday, when efforts to get off in the heavily loaded machines were in vain.

Lieut. Locatelli, Italian aviator, who has flown here from Pisa, in a trans-Atlantic flight in wake of the Americans, will accept Flight Commander Smith's invitation to accompany the Americans.

Carrying heavy loads of fuel, as it was the intention to fly more than 800 miles across the North Atlantic to Fredericksdal, the machines refused to leave the water. Repeated efforts were made to rise and the strain caused the breaking of the propeller bar of Lieutenant Smith's plane, while the propeller of Lieutenant Nelson's plane was shattered.

Already chafing under their forced stay at Reykjavik, this misfortune came as a heavy blow to the aviators, but, accustomed to the uncertainty of flying, they soon became reconciled to further delay, and are now anxiously awaiting the arrival of the cruiser, Richmond, which is hurrying here with spare parts for the planes.

It is not expected, however, that the Richmond will reach here before Wednesday. As soon as the cruiser is anchored the necessary parts will be brought ashore and the Americans will set to work immediately making the repairs so as to be ready to start again as soon as patrolling vessels report favorably flying conditions.

# Over Sixty-Six Per Cent of Florida's Celery Crop Is Raised in This County

Total shipments of fruits and vegetables from the State of Florida during the shipping season, Sept. 1 to July 30, 1924, inclusive, were 103,778 cars, according to a report received today from L. M. Rhodes, commissioner of the Florida State Marketing Bureau. All rail, boat and express shipments are included in the report.

Figures compiled by Mr. Rhodes show that this is an increase over the 1922-23 season of 19,736 cars or approximately 23 per cent. During the 533 days of the shipping season, Florida shipped a carload every four and one-half minutes.

Carload shipments of the various products are as follows: California 4,276, celery 3,924, cantaloupes 1,172, grapes 23,949, lettuce 2,057, oranges 30,046, peaches 1,004, pineapples 224, white potatoes 2,412, sweet potatoes 197, strawberries 1,123, tomatoes 10,064, mixed vegetables 4,872, and watermelons 5,111.

Sanford, and Seminole county, according to figures compiled here recently, have in every instance shipped a considerable amount of all fruits and vegetables listed in the state report. A considerable quantity of citrus fruits was shipped from this county, Seminole also holds the record for the largest number of cars of vegetables shipped by any county in Florida by about 2,000 cars.

Of the 8,024 carloads of celery shipped from Florida during the past season, over 5,000 cars were from the Sanford Celery Delta, generally conceded to be the largest individual celery growing section in the world. Sanford shipments of this product amount to approximately 66 per cent of Florida's entire celery crop and about 72 per cent of the state's total vegetable and fruit shipments.

# Defense Counsel Engages In Heated Argument With Noted Alienist For State

## DAVIS TO DELIVER LABOR DAY TALK AT WHEELING

Democratic Candidate for the Presidency Will Deliver Second Address in Home State Before His Western Trip

LOGS VALLEY, N. Y., Aug. 19.—John W. Davis will start his long westward trek with a second address in his home state. It will be delivered at Wheeling, on Labor Day, at a meeting held under the auspices of the Ohio Valley Trade and Labor Assembly.

In declining to expound his views on labor in West Virginia, the Democratic presidential candidate ran counter to the wishes of some of his political advisers who expressed apprehension that such an early return to his native state might be viewed as an evidence that he regarded the state as a very doubtful one.

While giving careful weight to the advice thus received, Mr. Davis decided to accept the invitation extended by President Mahoney of the Ohio Valley Labor Assembly, to face, with laboring men from a number of states, and the Wheeling assembly will afford him that opportunity.

Details regarding the place and hour of the address remain to be settled. Usually such gatherings are held beside the river, with the speaker standing upon the cobblestone wharf, and the audience gathered on the nearby bank where the many thousands can find accommodations.

From Wheeling Mr. Davis will strike into the Northwest. Just how many addresses will be delivered in the West remains to be determined. Mr. Davis is being urged to visit the Pacific coast, those pressing such a course upon him including Isidor B. Dockweiler, Democratic national committee man from California.

Mr. Dockweiler declared today that he regarded California a doubtful state and the Democrats of that state and other coast states were very anxious to have Mr. Davis make a few speeches on the coast.

"Having in mind the strong support La Follette will receive from the Republicans," Mr. Dockweiler said, "and the support he is going to receive not only from the Democrats generally but from many thousands of Independents, I regard California as a doubtful state and the country need not be surprised if a result of a division in the Republican party in California should again go Democratic next November."

# 30 SUMMONED TO ERIE DIRECTORS TESTIFY IN PROBE WOMAN'S DEATH

California Grand Jury Has Issued Subpoenas For Many People to Testify When Murder Will Be Probed

LOS ANGELES, Aug. 19.—Kid McCoy, ex-pugilist, held on suspicion of murder in connection with the death last Tuesday night of Mrs. Theresa Mora, became mentally unbalanced in his cell here today, according to police. Alienists yesterday declared McCoy to be sane.

LOS ANGELES, Aug. 19.—Thirty witnesses were subpoenaed to testify before a county grand jury to investigate the shooting of Theresa Mora last Tuesday night and on which suspicion Kid McCoy, veteran pugilist, is being held. McCoy is entirely sane, according to a verbal report of two alienists to District Attorney Keyes late Monday.

The verbal report was made to the district attorney by Dr. Paul Bowers and Dr. Louis Weber, two of the three alienists engaged in the case. Dr. Victor Parkin, the third, declined to make a statement to the authorities, but announced he would file a written report of his findings early tomorrow.

Dr. Bowers announced McCoy as "suave, diplomatic and cooperative in the tests" adding that the accused ex-pugilist "did very well for a man whose education has been neglected."

The alienist said he based his announcement on facts ascertained after a careful examination of McCoy's family history and personal reactions.

Dr. Weber merely stated that McCoy had been "found sane" while he declared that further details would be included in the written report.

Mrs. Theresa W. Mora, who died here last Tuesday night with a bullet in her brain, and in connection with the death of which McCoy is being held on suspicion of murder, was the wife of a prominent Los Angeles attorney.

# Carpenter's Saw Furnishes Music For Rotary Club

Theodore MacGeen was the center of attraction at the noon luncheon of the Rotary Club at the Montezuma Hotel today when he entertained the members with an ordinary carpenter's saw. The music was apparently enjoyed by everyone present, many of whom have declared that the boy's musical talent is exceptional.

Mr. MacGeen also entertained the Rotarians further with a number of violin selections. M. C. Haddock had charge of the program and many members of the club have thanked him for the entertainment furnished today. There were no speakers.

The short programs and small numbers present are attributed to the fact that about one-third of the members of the local organization are out of town, either on business or on their vacations.

Members present at today's meeting were: George W. Brock, Harry C. Haddock, H. C. D. D. Bose, M. C. Haddock, F. F. Householder, W. M. Hayes, C. E. Henry, H. B. Lewis, Frank McMahon, Frank MacNeill, W. S. Parker, H. E. Stevens, E. E. Stevens, S. O. Shindler, D. L. Thrasher, F. S. Vinnish, and A. E. Yowell.

French Cabinet Says Conference Was Very Successful and Is Highly Pleased

Herriot Receives Thanks Cabinet

French Premier Is To Present Report To Chamber and Senate

PARIS, Aug. 19.—The French cabinet today unanimously approved the work of the French delegation at the international conference in London, thanking it for important results attained in the interest of France.

Such action came after Premier Herriot had made a report on the proceedings of the conference. He will read the declaration before the senate and chamber Thursday.

Since Clemenceau relinquished power, never has a premier been so enthusiastically greeted on returning from an inter-allied conference as was M. Herriot this evening.

Premier Faces Debate.

The premier will have to endure a debate in the chamber, lasting two, perhaps three, weeks, as already eight important interpellations are scheduled and in addition eight prominent orators are on the list for speeches and M. Herriot does not desire to cut short the discussions.

After the chamber debate the senate must be dealt with and former Premier Poincare will take the floor. His speech, while likely to be formidable, is not likely to cause the upper house to deviate from the chamber's course in voting confidence, which already is taken as a foregone conclusion, even among the premier's would-be successors.

When this business has been concluded the government probably will adjourn parliament until October letting internal reforms, ratification of the Lausanne treaty and the agreement with the United States for reimbursement of the costs of the American Rhine forces go over. In the meantime Premier Herriot's return is hailed by the general councils of three departments, the passage of congratulatory resolutions, praising his attitude in London.

# Berlin In Press

BERLIN, Aug. 19.—With the return of the German delegates from the London conference there is a conspicuous moderation in the tone of the editorial discussions on the outcome and political experts are busy figuring out the party lineup in the Reichstag when the government's action is up for approval or rejection.

The members of the cabinet are inclined to view the parliamentary situation with a degree of equanimity born of the conviction that once the opposition forces are given a complete opportunity to examine the balance sheet brought back by Chancellor Marx and Foreign Minister Stresemann and allowed to contemplate the economic and political effects involved in a disavowal of the present government, they will be less inclined to maintain the intransigent attitude reflected in the current editorials.

The chancellor entered upon a series of conferences with the Reichstag party leaders this evening and will continue them for several days or until the Reichstag is convened.

"This was the first post-war conference in which the words 'vanquished' and 'victors' were dispensed with, and throughout our negotiations we were never made to hear one disgruntled word," a participant in the London conference observed today. He praised the spirit of equality that prevailed and said that the closing session was marked by a display of extreme cordiality on all sides.

One of the outstanding achievements of the conference, in the opinion of the German delegates, was the adoption of the principle of arbitration which, it is believed, will measurably simplify the situation.

Second Death In Week  
Mrs. Smith's death makes the second one within a week's time to happen in this city as a result of an automobile accident. On Tuesday night of last week Mrs. T. C. Carlson, an aged resident was killed when an automobile driven by O. W. Styron ran over her body causing injuries from which she died a few hours later. In this case the driver of the car was also exonerated of blame for the woman's death by a coroner's jury which investigated the case Wednesday morning.

agreed to cooperate in the control to be exercised over Germany. Germany is not required to undergo this control passively, but to accept it freely. The method is longer and more difficult to apply, but henceforward Germany can't not say she is yielding to force alone. She has entered into engagements with the United States and with France. Should she fail to meet the engagements thus contracted, the honor of all the nations who entered into these engagements with her would compel them to rise against her.  
Arbitration Novelty  
The adoption of the principle of arbitration when difficulties in carrying the scheme, France, according to M. Herriot, considers a fruitful novelty for the future, and the premier believes this innovation will receive wider application.  
M. Herriot said his adviser intimated under the new scheme of transfers and deliveries in kind France would be able to inscribe a first annuity of about nine hundred million francs. That would be something new.  
"Further," the premier went on, "we are insured coal and coke for a number of years. These are realities. The French people have had enough of following chimeras. The solution we have begun at London brings us substantial realities and peace. Whether one favored the occupation of the Ruhr or not, one must agree that the Dawes scheme furnishes, with pledges infinitely more productive than the former pledges."

mon economic effort and increased happiness and prosperity for the men and women of all countries."  
President Coolidge made no effort to outline concretely the advantages he expects to accrue to this country from the reparations settlement. His expressions were confined to a statement sent out by Secretary Slomp, but which had been written by the president. Mr. Slomp made it public along with a cable from Ambassador Kellogg.  
In discussing the settlement the statement said: "He (the president) believes this is the most important result that has been accomplished since the armistice, with the possible exception of the Washington conference it demonstrates as nothing else could the wisdom of the American position and the effectiveness of the American method of cooperation."  
"With the governments of Europe taking this wise course, there should be little difficulty in securing the necessary financial support from private sources in this country. It looks as if the end of the war had come at last, and the beginning of an honorable, and, we hope, a lasting peace is at hand."  
Will Select Agent  
Within the next two or three days the president will decide on the agent to cooperate with the reparations commission and supervise the carrying out of the Dawes program. Officially he cannot participate in the appointment, but it will have his unofficial sanction.  
Several names have been under consideration. The president would have desired the service of Owen D. Young, who worked with General Dawes, on the committee of experts, and Mr. Young would have been entirely acceptable in Europe. He has, however, declined to serve.

# Scientist Is Planning To Time Rapidity Of Light Beam Travel

SAN FRANCISCO, Aug. 18.—Whether light travels at exactly its estimated speed is a matter that Dr. A. A. Michelson, winner of the Nobel prize for physics in 1907, is endeavoring to determine by a series of experiments.  
The computed rate is 186,000 miles a second, and scientists have used this figure in proportioning their light-year, the yard-stick of the universe.  
Dr. Michelson recently announced that he suspected light travels a bit faster than 186,000 miles a second, or possibly a little slower. He hazarded the guess that the physicists were about 20 miles off in their reckoning, one way or the other. He said that for a month he would try, with the aid of government engineers, to time light rays flashed from Mount Wilson to Mount San Antonio, a distance of 44 miles, in southern California.

Davis Made A Hit

Throughout the United States the nation has rung with praises of John W. Davis's Clarkburg address.

But it is not from Democrats alone that Davis's speech has received compliments.

"The greater part of Mr. Davis's speech of acceptance is exactly what one would expect from a man of his learning and literary gifts confronted by the situation which faces him.

"He does not mention the Klan by name and it was idle for the anti-Klan enthusiasts to expect that he would mention it.

As for the press of Florida, all agree that in John W. Davis Democracy has a leader, with every qualification, who will leave no stone unturned, no honest effort untried, in his endeavor to "bring the government back to the people."

In his speech of acceptance following notification that he had been chosen by the Democrats of the United States as their choice for the presidency, John W. Davis declared that the supreme need of the hour is to bring back to the people confidence in their government.

Democrats, however divided in the convention, ought to be well pleased with the speech of acceptance. He cordially accepts the platform.

There is not a weak phrase in the utterances of the man. He has "named a name" as the French say, in every declaration.

That is the Davis way. The shortcomings of the Coolidge-Harding regime were pointed out, plainly, logically, as Davis would in presenting a case to a jury—briefly.

Loyalty to law and the upholding of all laws with the courage to enforce them is another assurance made by the nominee of the Democratic party.

Mr. Davis is emphatic in his statements concerning the enforcement of law. He wisely refrains from selecting any particular law that ought to be enforced at the exclusion of others, but reminds the country that the law is the land and that every citizen and especially every officer who has taken an oath to support the Constitution is bound in faith and morals to enforce every law, if he is in a position to do so.

At the very outset of his speech, Mr. Davis set a high standard for the battle which we are now to wage—that the purpose of the Democratic party in this campaign is not only to "bring the government back to the people" but to "bring back to the people confidence in their government."

Labor and the farmers ought by all means to be well satisfied at the Davis statement. All that could be fairly asked and reasonably expected by them is pledged as part of the purpose of himself and his party.

If there were those who believe that the able lawyer in his vast experience at the bar had drifted into a reactionary state of mind, then Mr. Davis has brought to them an awakening.

One of the charms of the speech is the high note of sentiment in which it is started. This note will in itself give the man a human touch, a kinship to the millions who can understand the emotion which the feelings which have led me to fix our meeting at this spot in the hills of West Virginia.

Finally, and with reference to another matter of very considerable importance, Mr. Davis says: "Deeds are of more consequence than words."

Other waves carried the stirring words of Davis—sentences that each struck like a pile driver a telling blow—to the far corners of the earth.

And it is not unlikely that the radio will wield a mighty influence in this campaign, for the voice of Davis is musical and pleasing, his diction and rhetoric beyond scholarly criticism, and his delivery full of force and sincerity.

Science Miracles... Flying and Camels... Rockefeller in Japan... Polo for Mr. Coolidge... BY ARTHUR BRISBANE (Copyright 1924)

SCIENCE BEATS fiction, magic, spiritualism and many of the miracles. Science can perform its miracles every day in the presence of a crowd.

Men in a flying machine can't hear each other. The roar of the motor prevents. But with the motor roaring a full mile above Central Park in New York, a flier talked by radio to thousands below.

They heard his voice distinctly. Starting a new rife in today and trying to attract attention would require miracles most sensational.

ENGLAND SENDS troops, battleships, cruisers, flying machines, bare-legged Highlanders to the Sudan. That's a rich country, supplying raw materials, and wise Britain won't lose it.

The old days are gone when savages in the desert could defy civilization. Flying machines beat camels in crossing deserts.

THE ROCKEFELLER Foundation, distributing some of the \$5,000,000 on a health institution in Japan. This enterprise, which may soften Japanese bitterness, will carry on in Japan work that the Rockefellers have begun in China, fighting disease, teaching people to take care of themselves.

FIGHTING DISEASE at its source is useful to the whole world. Plagues that strike Europe and America often have traveled from the East, cholera, and "Spanish" influenza, for instance.

Another work Mr. Rockefeller is doing, without, perhaps, thinking seriously about it. By decreasing Asia's death rate, he is increasing the world's percentage of Asiatic population.

That five million dollar Rockefeller Institute in Japan may be represented by five million extra soldiers in a war of the East against the West one hundred years hence.

HOWEVER, THE Rockefellers, father and son, both deeply religious, probably feel that they can safely go ahead doing what they can to save human life, leaving the rest to divine wisdom.

WHETHER PROVIDENCE plans to keep Asiatic and European populations balanced or not, it is certain that some disasters that hit Asia are above the helping powers even of the Rockefeller pocket-book.

THE GREAT GOD Demos is influenced by little things. President Coolidge will show political wisdom if he denials the rumor that he is to watch a polo game with the Prince of Wales.

SEVEN YOUNG MEN are locked up in New Jersey for holding up a young man and woman in an automobile. They beat the young man into insensibility, assaulted and horribly maltreated the young woman.

AS TO THE OLD women 'carry' angel cake' to the young criminals, they would make interesting subjects for the specialists in the Loeb-Leopold case.

THE ACID TEST

WAYCROSS JOURNAL-HERALD

Despite what a man may say about himself or claim for himself there always comes a time when these utterances and claims are tested by his fellow men.

When a proposition is up for discussion he is one of the main speakers. "This must be put across," he says, "It will undoubtedly benefit the city. We should all vote to carry this through to success."

There are found some who are willing to work on the committee, who are willing to perform the drudgery, the quiet unostentatious, sometimes almost unnoticed, toil that precedes success.

There is a far worse fate. He was first appointed on a committee of five. Then four fellow committee members learned the truth.

### MISS CARRIE DARSEY AND SHELLEY HARVEY ARE MARRIED AT 11 O'CLOCK.

A beautiful home ceremony taking place today at 11 o'clock was the wedding of Miss Carrie Darsey and Shelley Harvey, which was solemnized at the home of the bride's parents, Mr. and Mrs. E. B. Darsey, on West First street. The entire lower floor was decorated with potted plants, pink and white asters and pink rosebuds carrying out the color scheme of pink and white.

In the spacious drawing room where the ceremony was performed an improvised altar of potted ferns in tall floor baskets with pink and white aster in large baskets. In front of the altar a small white gate was placed around with ferns and pink lovers' wreath vines.

Rev. W. J. Carpenter of the First Methodist church, performed the ring ceremony very impressively before a large number of relatives and close friends of both parties.

Miss Julia Loring, at the piano rendered a few selected numbers before the wedding party entered. The Wedding Chorus from Lohengrin was played as the bride party took its place at the altar.

Miss Roxie Darsey, sister of the bride and Herbert Harvey, brother of the groom, descended the stairs together and stood on each side of the improvised gateway.

Miss Darsey was lovely in a Nile green voile dress made with exquisite cream and green satin ribbons in bouffant style. She carried an arm bouquet of sweet-heart roses.

The bride entered on the arm of the groom and together they took their place in front of the altar. The bride never looked lovelier

### Five College Men Are Here Working For a Scholarship

Five young college men, working for the scholarship offered by the Pictorial Review Company, arrived here Monday and are making their headquarters at the store of George Speer & Son, local agents for the Pictorial Review.

Each summer the Pictorial Review Company sends out teams of young men to solicit subscribers to their magazine and in return for the young men's efforts gives them a scholarship to any university or college of their choosing.

The team here is captained by P. L. Crenshaw, of the University of Georgia, and is composed of Richard H. Atkinson, also of the University of Georgia, Sam Huffman and Wade L. Smith, of the University of Florida, and Dean Rogers, of Emory University.

These boys are to be congratulated on their efforts to receive a college education and you can rely on the fact, gentle reader, that you will receive a visit from these young men ere they pull anchor for the next town.

### 300 Cuban Girls To Be In Key West Festival

KEY WEST, Aug. 19.—Three hundred of Cuba's fairest bobbed-haired girls will come to Key West to participate in the celebration to be held here October 8 to 12 in connection with dedication ceremonies for the San Carlos building. They probably will take part in the parade that will be given on the afternoon of October 10. According to advance information the girls will be arranged in groups, demonstrating styles, so that in every case the particular mode of bobbing will be emphasized.

### Farmers Wanted To Settle Railway Route

ANCHORAGE, Alaska, Aug. 19.—Colonization of the lands along the government's Alaska railroad will be pressed on the secretary of the interior by the railroad management. It was stated here by Captain John Hughes, in charge of the supply department.

It was explained that supplies for the road were imported from the states, when they might as well be produced on Alaska soil. The road has adopted a policy of giving preference to Alaskan farmers for all products purchased.

### Florida Railroad Commission Makes Line Rules Public

TALLAHASSEE, FLA., Aug. 19.—The state railroad commission has made public, in two parts, rules, regulations and specifications governing construction and maintenance of electric light and power lines, and telephone, telegraph and other signal lines over or under the tracks of steam railroads in the state. Twenty-one pages are devoted to instructions for crossings by high power and electric transmission lines, while twenty-two pages are devoted to telegraph and telephone wire crossings.

The rules and regulations were promulgated at the result of hearings here several weeks ago in which representatives of the railroads and the telephone, telegraph and power companies participated in arguments before the commission. The railroads contended that the construction of wire crossings should be regulated as a protection to railroad men who were forced to ride atop trains.

Provision was made in this respect for clearance above the track rails of 22 feet from trolley contact conductors to 37 feet for electric supply lines of less than 500 volts to ground.

The specifications, which are patterned after those in effect in Tennessee, give detailed instructions as to construction, including location of poles, type of poles, cross arms, pins, insulators, the wires, conductors, sags, guys, suspension strands, underbridge crossings, underground crossings for telephone and telegraph wires, and strength required, calculation of stresses in conductors, loads upon supports, steel pins and splicing and jointing of wires, and other details.

G. C. Seals and Cecil Daniel of Jacksonville, arrived on the Osceola Sunday, while in the city they were the guests of John T. Brady.

Mrs. H. G. Diedrick and Miss Gladys Dietrich left Sunday on the Osceola for Jacksonville. From there they will take a steamer for New York expecting to be away for several months.

Mr. and Mrs. C. S. Wentworth returned to Sanford from Bradenton Sunday and were the guests of the latter's sister, Miss Jessie Hutchinson. Mr. and Mrs. Wentworth left Monday for their home in Bradenton.

### COOLIDGE HAS QUIET SUNDAY AT PLYMOUTH

#### President Attends Services At Little Church and Visits Burial Place of His Son

PLYMOUTH, Vt., Aug. 19.—President Coolidge again attended services Sunday afternoon in the one-room Union church here and with friends and neighbors who crowded the little building listened to a sermon on "The lesson of simplicity."

Because of his duties at his regular church in the morning, the Rev. John White of the Episcopal church, Sherbourne, Vt., near here, came here in the afternoon and the services started today, as usual, at 2:30 p. m.

The president with Mrs. Coolidge and John, their son, and the president's father, sat in the regular family pew, in the third of the seven rows of seats. An organ played by the pastor's daughter, led the audience in the singing of hymns. The church stands directly across the road from the Coolidge home.

"Obedience to the simple demands of life," the Rev. Mr. White told the congregation, "is the course through which we receive God's greatest blessings. We strip off affection. We must learn from humble folks."

This morning the family again visited the cemetery where are buried Calvin, Jr., and the president's mother and sister. In the evening they took a short motor ride through winding roads of this hilly country.

As on yesterday, Mr. Coolidge spent Sunday reading and resting. Yesterday afternoon he was joined by Mr. Kellogg, cabin by C. Bascom Sloop, his secretary, and this was the first physical attention he had given to official duties since arriving here yesterday. Through special wires, Mr. Sloop is in constant touch with Washington.

The roads leading to his village were crowded again today by motorists but those who stopped were kept at a distance from the Coolidge home.

### Orlando To Celebrate Fiftieth Anniversary

ORLANDO, Aug. 19.—Recommendation has been made by the chamber of commerce that Orlando observe its fiftieth birthday anniversary with a week's celebration in March 1925. George Nash, chairman of the publicity committee of chamber, who made the recommendation in his report for the past year, outlined tentative plans for the celebration which would include special sermons by clergymen, open house, at clubs and residences, and costume balls; historical exhibits, floral parade and motor trips through the county, among other things.

### COUNTY MANAGER RESIGNS

### Bay County to Build 100 Miles New Roads

PANAMA CITY, Aug. 19.—The Bay county commissioners have contracted for the construction of approximately 100 miles of highway extending along the route of the much-talked of Gulf Coast highway which at this point on the map runs about southeast and northwest. Besides the new highway construction, provision has been made for the building of a bridge across St. Andrews bay at Lynn Haven to take the place of the existing ferry. In use. This bridge will open new territory in the county which has heretofore had little connection with other sections of the county in a commercial way.
