TALLAHASSEE, May 12 .- The dream of South Floridans that they might get reapportionment at this vession, when the house passed a bill to that effect, was shattered yesterday, when the senate vented its scorn CHINK on the house bill and voted 22 to 10 to indefinitely postpone its considera-

Reapportionment at the next session is all right, however, the senate said, and it concurred in a house amendment to a resolution originating in its side, the whole of which would proffer a proposed constitutional amendment to the voters in 1924, and if ratified, leave it up to the 1925 session to reapportion on the basis of three representatives each for the five most populous counsenate's membership would be inressed to 38 and divided up as nearcounty as possible according to population insofar as county lines

would permit. Little discussion accompanied the death of the immediate reapportionment plan. Its outcome at the hands of the senate was never in doubt but there was some discussion as to the propriety to killing a house bill without even considering, some of the senators holding that such would be discourteous. If the majority held any such scruples, however, it was not reflected in their votes.

Refrigerator

A CLEAN refrigerator is just as important as a sold one. Mold and bacteria quickly appear unless it is cleaned often and cleaned right. Not only cleaned but sterilized; spores and bacteria destroyed. Then your cream will not sour nor your left-overs spoil so quickly. The ideal cleanser is Giant Lye, Ideal for two reasons; it disinfects as it cleans; it is so cheap that you can use it generously.

DIRECTIONS: Dissolve one teaspoonful of Giant Lye in four quarts of warm water. Using a brush, scour trays, inside surfaces and corners with this solution and rinse twice with hot water.

DEATH TOLL IN OIL WELL FIRE MAY REACH 18

CORSICANA, Tex., May 11 .- The Hughes-McKie well, which exploded yesterday, killing at least 15 men, continues to gush forth its giant torch of fire last night, fed by the constant flow of 15,000 barrels of oil and 3,000,000 feet of gas.

For more than 24 hours the flames have leaped high in spectacular capers. Red streaks of fire soar as from a mighty nozzle, disappearing in huge black clouds of smoke, which drift with the wind in a surging

Fire extinguishing equipment is being hurriedly placed. It will be necessary to use fire-foam and steam from a dozen boilers,

The bodies of at least six men remain in the fire zone, according to DeWitt Watkins, one of those in charge of the well today. He said five bodies could be seen and that another workman was missing. One or two spectators have perished he believes. Jim Ball, foreman, in charge of the work, estimates the final death toll will reach 18.

TALLAHASSEE, Fla., May 11.-Florida's public hearings of its convict wrongs came to a close late yes-terday, and members of a joint legislativo committee which developed them announced they would set to work for remedial legislation in the light of what they have heard.

The committee members, two from the senate and three from the house who have devoted virtually all of their time for the present session of the Assembly in airing convict abuse met in executive session yesterday aafternoon, and decided they had Senator John P. Stokes chairman

of the committee, which has heard more than 100 witneses, and covered the ground of the death of Martin Tabert of Munich, N. D., to the time he was arrested here, as a vagrant, sentenced to the Putnam Lumber Company for hire, and them succumbed to the alleged brutal lashes of a convict guard, and through the ugly repetition of alleged conditions in the private camps of Senator T. J. Knabb in Baker county, announced the committee had run the length of its authority and could serve no further useful purposes. The tastimony developed by the committee will be prepared and turned over to the Sanate and House he said, for whatever action they may deem appropriate. The full committee comprised of Mr. Stokes, Senator W. A. MacWillams, and Representatives C. H. Kennerly, John Clay Smith, and Frederick Van Roy attended the meeting.

At the end of their work they were presented with a message from the Senate of North Dakots, voiced through Assistant Attorney Generals J. V. Kneeshaw, and C. Grimson, congratulating and thanking the committee "for the prompt, eficient, fearless, and thorough action in unevering a faulty condition rather than seeking to excuse, and in recommending legislation to remedy such conditions as well as recommending punishment of those found guilty of wrong doing" and carrying with it the good will of the people of North Dakota, for those of the Peninsula

The committee came to its standstill in the case of its inquiry relating to Senator Knabb's camp. Its witnesses were exhausted with the exception of two minor ones, considered THERESERVERSEES HERESERVERSEES HERESERVERSEES

unnecessary in the light of testimony already submitted and the statement of Senator Knabb that he did not desire to be heard. Its records of that phase carried the story of Mrs. Thelma Franklin wife of a post-master in Baker county, to the effect that nine deaths had taken place among Mr. Knabb's convicts during the last twelve months, six of these since last September.

BEAUTIFYING THE HIGHWAYS.

The Wauchula Advocate wishes the legislature would pass a law prohibiting the placing of advertising signs along public highway right-of way ,or upon private property without the consent of the owners, whereupon the Ocala Star says:

Florida roads are becoming things of beauty, they run through beautiful regions, and the people should keep them beautiful by keeping them clean. Marion and the other counties in Florida through which the fine paved thoroughfares run, can do the same thing Lake county has done and is doing. All that is needed is a little determination and the nerve to tear down these unsightly things.

Incidentally, a drive .. over Lake county's fine roads is worth the trip if only to see how much better the vista ahead looks without a whirling side show of cheap ads.

Roofs that Challenge Weather

It was Mark Twain who said, "Everybody talks a lot about the weather but nobody does anything about it.

But there is one thing you can do about the effect of weather on the roofs of your buildings. Cover them with our prepared roofing or shingles and you can laugh at intense heat, pounding rains, driving snow storms and severe cold.

Free booklets and samples. Call at our office and let us tell you how good roofings will save money for you and add distinctive beauty to your buildings through their cheerful colors.
