

POLICE TO GIVE BULLETINS ON KIDNAP CASE

Say Replies To Questionnaires Of Press Delay Their Work Of Solving Mystery

NEW YORK, Mar. 11.—(A.P.)—Council for Salvator Spitalo, who is believed to be the kidnaper of the Lindbergh baby, said today that Spitalo has been receiving hundreds of the daily, one of which "looks pretty good." Lawyer Abraham Kesselman said Spitalo will "save for the West" on a tip as soon as his trial on a production conspiracy charge in Brooklyn is completed. Kesselman refused to amplify his statement.

HOPEWELL, Mar. 11.

Colonel Norman Scherwag, superintendent of the New Jersey state police, announced today that the police will discontinue replying to questionnaires on the Lindbergh kidnaping case and instead will issue bulletins at 11 A. M. and 10 P. M.

Answering questionnaires, Scherwag said, has "taken a great deal of our time which really belongs to the advancement of the work" and his statement expressed regret over the attempt that had been made to "dictate to the police" the text of today's bulletin.

He said John Norman Brett, reported friend of servants, arrested by Miami police, was questioned and claims not to be acquainted with any of the Lindbergh family. He further claims he has been in Miami since Jan. 1, 1932.

The latter with construction work being done at the Hoffman estate house is to be examined. No connection of employees has in any way been established, and unless positive information comes this angle of the investigation will be abandoned.

Officials refused to say whether Col. Lindbergh had received any further communications from those who made off with his only child a week ago last Tuesday night.

From a reliable source, it had been learned that two notes, identified as authentic by handwriting and paper, came to the colonel from the kidnaping last Sunday, but it was understood last night that the criminals had represented themselves as unwilling to deal further with the Lindberghs for the present.

For the first time it was disclosed that neither fingerprints nor footprints had been taken of the child, and that shortly a week before the kidnaping the party angle of the police work was abandoned.

Paramount News Will Cover Races Saturday

Participating in the shattering of world records for dirt road motorboats during the races here tomorrow afternoon, Paramount News officials at New York City have telegraphed their Florida cameramen to be present to gather exclusive views of the event.

The cameramen will have at their disposal an airplane and speed boat that every attempt at a world record may be caught on film.

For the first time in years that a motorboat race has been held for the purpose of promoting the national flag.

The afternoon races will be held on the Orange Outboard Club course, where all races, of all classes, and every motorboat being raced in the world will be present.

The Florida Key is a small island in the Florida Keys, and is the only one of its kind in the world.

Capone Suggests That He Be Given Release To Help In Lindbergh Kidnap Case

WASHINGTON, Mar. 11.—(A.P.)—Attorney General Mitchell said today that Al Capone's offer to aid in the Lindbergh baby hunt had not been put before the Justice Department. "We are not doing anything about it," he said.

Other government officials explained the Chicago gangster might enter his offer in a plea to the courts for freedom on bond, then the United States might award Capone a reward of \$100,000 for the return of the child and asked to be let out of jail on bail to help find it.

The scar-faced gang leader indicated that he never dreamed the Lindbergh kid would be kidnaped and had absolutely nothing to do with it—but declared he could "probably do as much as anyone alive toward getting him back."

"I'm telling you the way I stand on the matter," Capone said. "I'll do everything in my power to get the kid back. If the government or anybody else wants to take up my offer, let them do it. I don't know if anybody is trying to arrange the bond matter. But if it is fixed up, somebody else will have to do it. The government won't listen to me. All they're interested about is Al Capone—no matter what he could do for anybody—is in keeping him in jail for as long as possible."

Capone is under sentence to 11 years imprisonment for failure to pay income taxes on the millions made as ruler of Chicago's liquor, gambling and vice. He has been in Cook county jail for four

PLEA MADE TO ALL GERMANY BY HINDENBURG

months awaiting appeal to the higher courts. His statement was made after being visited earlier in the day by Arthur Brisbane, editorial director of the nation-wide chain of Hearst newspapers and Harry Reed, city editor of the Chicago Evening American. Brisbane said after the conference with Capone, however, that he was not acting as an official representative of authorities or of the Lindbergh family.

Capone, considerably heavier after his long confinement and wearing silver-rimmed spectacles because of "a lot of reading," said he would be willing to make bond up to \$200,000 for release until his conviction is either affirmed or reversed.

"I know a lot of people who could help me get the kid back home safe," the 280-pound gangster chief said. "If anybody can do anything about it, I can—and I'm willing to do anything. My wife and I have a son, and if he were kidnaped I'd probably try to built out the walls of this jail with my head to help him. Lindbergh probably feels the same way about it, and I can picture Mrs. Lindbergh's grief."

His release on bond might be brought about, Capone said he believed, by Federal Judge James H. Wilkerson, who sentenced him and several other Chicago gangsters on income tax charges. He also suggested that a United States supreme court justice might be able to arrange it.

AGED WAR LORD CALLS ON SUPPORT TO AID HIM IN HOLDING FATHERLAND TOGETHER

BERLIN, Mar. 11.—(A.P.)—Memories of the stirring days of 1914 and the dark days of 1918 were awakened yesterday by President Paul von Hindenburg in his first and only election campaign address—an address in which he asked for a man "to give his 'last remaining strength' to hold the Fatherland together in the face of problems about which the threat of civil war at home.

The 84-year-old president, the old field marshal once again when he went on the air to ask re-election. His gruff voice was brusque and military. His appeal was to the entire German electorate and not to any particular party.

Not once during his talk did he mention the name of Adolf Hitler, the leader of the national socialists who is his principal opponent in the voting next Sunday. But he answered two criticisms that have been leveled at him by Hitler's Nazis.

To the accusation that he was unfaithful to the "national front" in signing the Young plan, the president said he was "convinced of the necessity of that step to gain our national liberty."

And to criticism directed against him because he signed the emergency decrees which placed a heavy burden on German business and German citizens of all walks of life, he replied: "Last summer we faced the question whether to buy financial relief at the cost of political surrender abroad or to stand our ground as a nation alone and without hesitation I chose the latter course."

He appealed for a rebirth of the feeling of union that swept the country in 1914 and declared that he was impelled to fight for Germany by "the responsibility that made me hold out in the war until I brought my troops home."

He said he was optimistic because of "the emergency legislation enacted by Congress but still more because of those economic changes which are quietly but constantly in progress."

Among his business predictions: "The present low prices of commodities and securities is certain to be followed by a sharp upturn some time."

"Many say if wages are reduced there is less buying power. This is all nonsense, Henry Ford and his wages are a potent factor in getting money again in circulation and credit again established."

"Prosperity returns when wages and rents are so low that competitors bid against us to employ our people, to rent our vacant space and to snap up bargains we ignore."

Excess of debt was the primary cause of the collapse in 1929. This situation is rapidly being corrected.

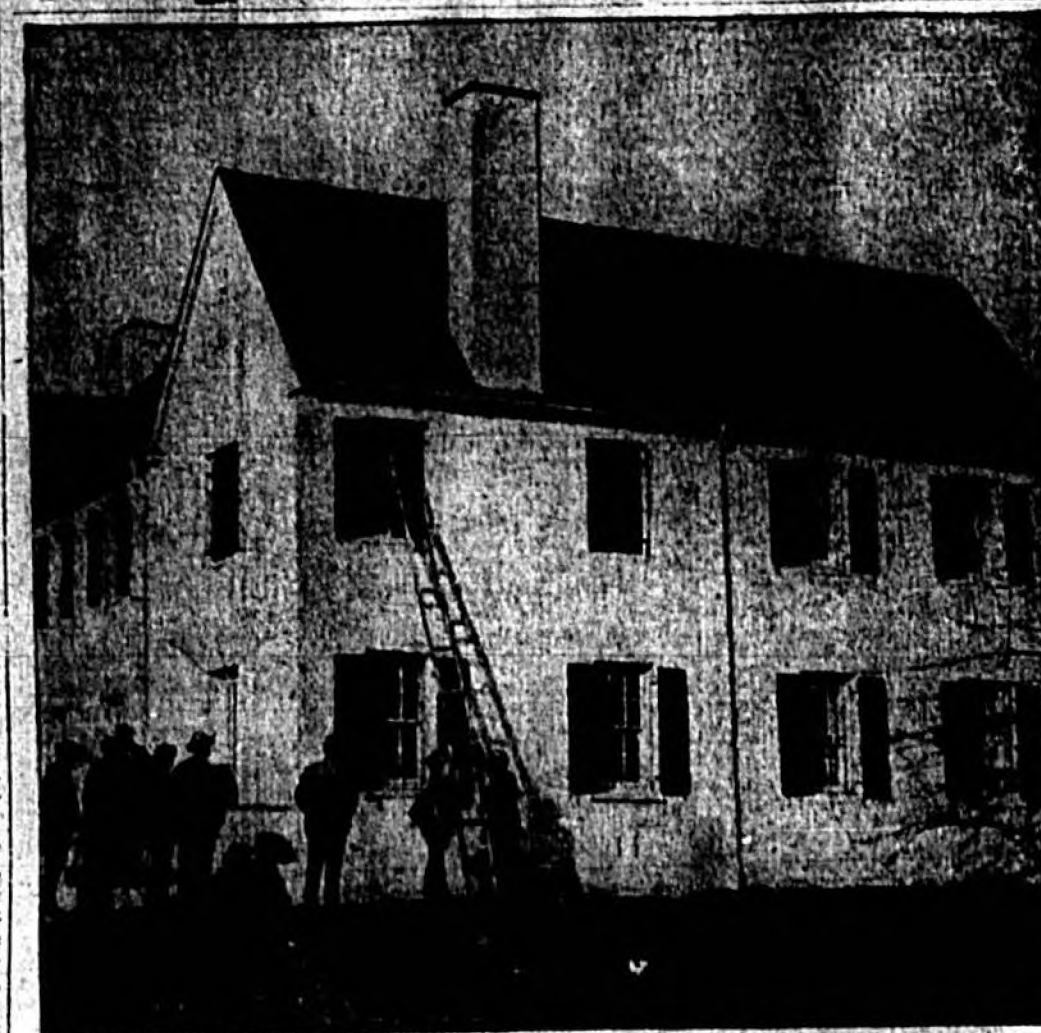

He compared the World War reparations issue to "an international toothache" but said a "statelike" cannot get very much excited over reparations. "German reparations payments will be reduced about 50 percent and although it may be some time before Congress cancels the allied debts, these never will be paid in cash."

"We are on the eve of a gradual tariff dismantling and probably a naval and military reduction."

"The very fact Wall Street and the international bankers are so blue naturally makes a thinking man optimistic. These financiers have always been wrong."

He said the present business contraction will be carried too far and when the condition is generally realized, merchants and manufacturers will stampede to purchase as they stampeded in 1929.

WINDOW USED IN KIDNAPING LINDBERGH BABY

State troopers re-enacting the kidnaping of the Lindbergh baby, showing the window and ladder used by the abductors. Despite the combined efforts of the best criminologists of the country the solution of the crime is apparently as far away now as it was when it was committed on Mar. 1. The most interesting turn in the abduction case is the recent statement of Al Capone that he believed he could solve the mystery provided he were released on bond.

TREE PLANTING EXERCISES HELD AT LAKE MARY

Ceremony In Observance Of Washington Bi-Centennial

Citizens of Lake Mary last night played their part in the observance of the George Washington bi-centennial by staging tree-planting exercises at which Rev. F. M. Marler, of the First Christian Church of Sanford, and Judge James G. Sharon, Sanford, were principal speakers.

Preceding the tree-planting, a program was held in the Lake Mary Community Church, devoted to the occasion in the national colors. The grounds of the church were also decorated, colored lights, and American flags being in evidence on all sides.

The Lake Mary orchestra opened the program by playing the National Anthem, following which an invocation was offered. Talks by Rev. Marler, and Judge Sharon; a reading by Mrs. C. Varn on "Trees of Today," and a reading by Mrs. Cole on "Trees," were heard before the trees to be planted were officially presented.

Formal presentation of trees was made by the following: Alfred King, of the Spanish. (Continued on Page Five)

Inside On Lindbergh Household Related

HOPEWELL, Mar. 11.—(A.P.)—Mrs. Lindbergh was on the same floor as the nursery when the kidnaping of the baby was discovered, it was learned today and the mother and nurse were not immediately alarmed, both thinking Colonel Lindbergh had taken the child downstairs. All previous reports indicated Mrs. Lindbergh was downstairs with her husband and that the nurse, Betty Gow, found the crib empty and rushed downstairs to the parents with the announcement of the kidnaping. It was learned today, however, Mrs. Lindbergh was upstairs preparing to bathe and when it was found the baby was not in its crib she assumed the Colonel had it downstairs.

Charley Robinson Is Crowned Junior City Tennis Champ

Charley Robinson, Junior High School student who was Junior Tennis champion of Sanford last year, successfully defended his crown against Billy Zachry, his final opponent in the recent tournament, and was crowned the 1932 champion. He defeated Zachry, 6-3 and 6-2.

Young Robinson has never lost a set in tournament play during the past three years. He is considered one of the most expert of the nearly 20 boys comprising entrants in the annual tournament staged last week, and he may be groomed for out-of-town competition in Junior divisions.

Doris Garrett won the Girls Junior Tennis crown in the tourney when she defeated Ann Jones, 6-4, in the finals of the girls tourney. Fifteen girls were entered, the largest number since the tourneys began three years ago.

Prof. B. C. Steele, of the Junior High School faculty, who directed the tourney, this morning expressed his appreciation to the City Commissioners for their kindness in allowing the Ninth Street courts to be reserved during the hours of the tournament.

Prince Gives Up Right To Throne For Love

LONDON, Mar. 11.—(A.P.)—Renouncing his rights to the Swedish throne for the love of a commoner, Prince Lennart, grandson of King Gustav of Sweden, and Miss Karin Malmqvist, daughter of a wealthy Stockholm business man, were married today. The couple plan to live in Switzerland where the prince has an estate. He will devote his time largely to cattle raising.

CROPS ARE AGAIN PROTECTED FROM COLD BY WINDS

Lowest Unofficial Report Of Thirty-One Is At Lake Monroe

For the second consecutive day, Seminole County truck growers may thank a steady wind for saving tender vegetables and plants now growing in many fields.

This wind, which yesterday morning aided in preventing a frost of major proportion, came to the aid of the growers early this morning, for although Sanford residents awoke this morning to shiver and believe that a low temperature had been visited upon them, reports from all sections indicate that the lowest unofficial reading was a 31 at Lake Monroe at 4:45 o'clock. That reading jumped to 34 at 5:45 o'clock, and at 9:00 o'clock was up to 42.

The official reading, taken at the Municipal Zoo on the lakefront this morning by G. P. Paxton, revealed that the lowest temperature during the night was 40. The 31 figure at Lake Monroe, and several 26's and 28's in the eastern part of the immediate vicinity, indicate that Lake Monroe and the air currents above it may have had a considerable share in laying a frost low.

Mrs. W. H. Allen, of Lake Monroe, reported a heavy frost in a field next her home, but that no (Continued on Page Three)

Fire Department Is Called Out 3 Times

The Sanford Fire Department was called to three sections of the city yesterday to dispose of fires resulting in damages totaling about \$25.

At 7:45 o'clock, an automobile belonging to C. L. Harrison, at Eighteenth Street and Sanford Avenue, caught fire, but no damage was reported.

At 8:40 o'clock a grass fire at Nineteenth Street and Palmetto Avenue became beyond control, but was quickly checked.

At 5:00 o'clock, a small fire in the home of C. E. Rawson, Mellonville Avenue, damaged a settee and rug to about a \$25 extent. An automatic cigarette lighter is believed to have been overturned by a cat, resulting in damages to the settee upon which the lighter fell after it had ignited.

DR. CUMMING TAKES OATH

WASHINGTON, Mar. 11.—(A.P.)—Hugh S. Cumming yesterday took the oath of surgeon general of the public health service for the fourth time.

WINTRY BLAST TAKES SECOND JAB AT STATE

Temperatures Fail To Hit Low As Predicted And Warmer Weather Is On Way

JACKSONVILLE, Mar. 11.—(A.P.)—Wintry weather made itself chilly thrust into Florida today and then withdrew before slowly rising temperatures for the second time in 48 hours. The mercury dropped below freezing but only in a few scattered places.

In the outskirts of Jacksonville a minimum of 27 was recorded, while within the city there was a low of 33. The only other points to experience sub-freezing temperature last night were Hastings with 20 and DeLand with 30.

The state in general was warmer than on the previous night when the coldest weather of the winter prevailed. A heavy frost which meteorologists said probably caused considerable crop damage was reported in the Hastings and Eustis areas.

Light to heavy frost was recorded in the vicinity of Jacksonville. Overcast skies prevented frost extending into the southern portion.

For most southern states a slightly warmer weather prevailed, but it is still cold. Rising temperatures were predicted for tomorrow. Cold and snow (Continued on Page Three)

Big Inter-Church Dinner To Be Held On Monday Evening

One of the most ambitious inter-church meetings ever staged in Sanford will bring together the official boards, Bible School superintendents, and pastors of all Protestant churches at a dinner on 7:30 o'clock Monday evening at the Episcopal Parish House.

Dr. John E. Abbott, of DeLand, said to be one of the foremost speakers in the South, will address his gathering of Sanford religious leaders, bringing to them a message particularly appropriate to the subject of the evening's discussions, "The Observance of Easter."

The major purpose of the united meeting will be to stimulate interest generally, and particularly on the part of the members of this city, in religious matters. At this meeting, details of the mid-day services to be held during Easter week, in some downtown location, will be outlined, and speakers assigned for each day.

It will be the first time that so many church leaders have met for a similar purpose in this city, and it is expected that the results to be obtained will contribute an important advancement in the religious life of this city.

Pryor Places Claim Before State Court

TALLAHASSEE, Mar. 11.—(A.P.)—R. E. L. Pryor, Tampa, chairman of the Republican state executive committee, today placed his claim to the office before the state supreme court in answering a quo warranto writ issued recently against him. Pryor's answer was formal and devoid of any signs of a controversy existing between him and Glen Skipper, Republican national committee member and controller of the party in Florida. Skipper brought the quo warranto proceedings following Pryor's challenge to Pryor to defend his right to the place of party leadership.

MAN FOUND DEAD IN CAR

DELAND, Mar. 11.—(A.P.)—An inquest was called yesterday into the death of Stanley Pomeroy, 39, of Cromwell, Conn., found dead in his car at his garage near Mirson, 18 miles northwest of here. Officers said the car was tightly closed and a hose was running exhaust fumes into it. They also said two outside doors were left.

CHURCHWELL'S

What Does He Know?

The most amazing twist which has developed in the long series of amazing events which have characterized the Lindbergh case from the very beginning occurred yesterday when Al Capone, slaughter house baron, in jail for...

In spite of the fact that most of the authorities who have been working on the case are pretty well agreed that the kidnaping was the work of amateurs and perhaps an inside job, Capone holds to the opposite theory that it was the work of organized gangsters. He knows practically all of the gangsters of the underworld and he promises to make it pretty hot for any of them who might have the child and who would not return it once the order went out from the king of the underworld.

Capone has taken an immense interest in this case from the very beginning. The kidnaping was scarcely two days old when the gangster chief gave out a statement from his cell in the Cook county jail to the effect that he would offer a ten thousand dollar reward for the return of the child and the capture of the kidnapers. He deplored such contemptible acts of outlawry and expressed his utmost sympathy for the aggrieved parents.

His interest in the case, it seems to us, should give the authorities something to think about. It is evident either that Capone is attempting to capitalize on the unfortunate kidnaping and the aroused public sentiment to gain his liberty on the pretext of restoring the child, or that he in reality had something to do with the kidnaping in the first place and will return it only when he has been released from prison.

It is a well known fact that the liquor business has not been realizing the profits during this depression which formerly characterized it. It is also well known that Capone himself has been pressed for cash and is in need of funds to carry on his defense in the federal courts. The fifty thousand dollar ransom would be a big help to him. Furthermore the return of the baby from the hands of Capone might be expected to react favorably for the gangster in the eyes of the general public.

As a matter of fact Capone probably had nothing to do with the kidnaping. It bears the earmarks of one less clever in the acts of the underworld. But if he keeps on talking and promising to return the baby and intimating that he knows a great deal about the case, it might be well to put him through the third degree to find out just what he does know. At least one thing is certain, the federal government will not be foolish enough to turn him loose on the pretext of returning the child.

The Wrong Method

An example of futile and misdirected efforts to obtain unemployment relief was demonstrated in a repulsive and shocking manner recently when a crowd of 3,000 persons battled with police at the gates of the Ford factory at Dearborn with the result that four were killed and 35 injured. So far as is known none of the riotous throng has been employed by Mr. Ford.

Inflamed by communistic speakers and urged on by the bravado of a young woman, the angry mob, apparently, thought that its purpose was the redress of a real or fancied grievance against Mr. Ford and, instead, its wrath upon the heads of innocent but defending policemen, who were as eager to hang on to their jobs as the members of the mob were to get one.

As is usually the case when violence is resorted to, either by mobs or by nations, the combatants become not so much concerned with aims and ideals as with "busting" somebody's head open. The mob which descended upon the Ford plant might just as well have divided up ideas among themselves and "gone at it" with just as good results. They would have had the satisfaction of expressing their emotions and at the same time innocent policemen would not have suffered.

Everyone in the United States is deeply concerned over unemployment and has a great sympathy for willing men who can't obtain work. Mr. Ford, like all other industrialists, is just as anxious to hire more men as the men are to be hired, but the easiest way for the army of idle men to lose the sympathy and assistance of their more fortunate brothers is to start throwing rocks.

SANFORD, TWENTY YEARS AGO

The potato crop of 1911-1912 from Hastings and that vicinity will be the largest in the history of that section, according to statements made by well known planters and shippers in that territory.

An unfortunate tragedy occurred at St. Augustine Sunday evening when a portion of "Whitney's Olden House" was destroyed by fire and Mr. Everett C. Whitney, the owner, was burned to death in the building. The fire and tragedy occurred on Hospital Street and in the heart of the city, causing a great deal of excitement and the assembling of an enormous crowd. The origin of the fire is not definitely known, but it is presumed to have been caused through accident by Whitney, who was the occupant of the building and slept in his room at the time.

Monday afternoon, the 26th day of Feb., at 4:30 P. M., Miss Mamie Thomas, the daughter of Judge and Mrs. George C. Thomas, was the most popular young woman of Athens, Ga., and Dr. A. H. Thomas, a father being a well known man of Savannah, were quietly married at the home of her parents, in the presence of a few friends, by the pastor, Rev. S. H. Hill, in a most impressive manner.

On Friday evening, the people of Sanford will have the opportunity to see a most interesting and unusual show at the Sanford Theatre.

STATE BEAUTIFICATION

For nearly ten years past the Florida State Chamber of Commerce has been back of this beautification work, being firmly convinced that it has positive value. On April 30, next, the eighteenth semi-annual beautification conference, under the auspices of this state-wide organization, will be held in Sanford, a central point that readily can be reached from all sections of the state. While previous beautification conferences have been interesting, the one to be held in Sanford on the last day of this month promises to be unusually and intensely interesting because of the very great interest that now is being taken in the movement whereby Florida beauty is to be made something of positive value as well as a "by-the-way" thing.

Hutchison Gives Address Before Farmers' Club

(Continued from Page One) routes to New York, while there are about 90 different combinations of routes by which the lowest rail rate and fastest schedule apply to Chicago," he said.

Rates and service being the same via the different routes, prompted Mr. Hutchison to say that shippers should decide between them according to their own treatment, prompt settlement of claims, assistance in obtaining advantageous or fair rates and other things of this nature.

"Some of you shippers in the Sanford-Oviedo district have insisted a certain carrier from receiving the long haul on celery, vegetables and other traffic, because instead of assisting the growers in obtaining fair rates, the carrier has been instrumental in establishing rates which are on a higher basis than from competitive producing sections," he said.

Five definitions were given to the word "diversion" as it applied to the celery industry, the speaker asserting that the privilege of diverting or reconsigning shipments "is of great value and benefit to the shipper; in fact, it is essential to many of the perishable food industries which thrive without it."

How celery is reconsigned to purchasers after it has been rolled to a large consuming center, and how shippers may divert or reconsign their celery from an overstocked market, were pictured in hearing out the value of diversion.

It is important that a shipper control the route of movement of his product," Mr. Hutchison said, "and he should be familiar with carriers' schedules and thoroughly familiar with the details and requirements of the rules and practices of the carriers with respect to diversion of shipments so that a request for that service may be placed in the proper form, and with the proper representative of the carrier. Quick action and correct procedure are of the greatest moment in these cases, for the slightest delay or error in presenting the request to the carrier may be costly to the shipper. If the carrier mishandles the diversion and loss results, the shipper may collect from the carrier."

The seller will be responsible to the buyer but the carrier will not be responsible to the shipper for reason of mis-quotation of rates. However, if the shipper names the rate and route on the bill of lading or diversion order, and the rate is not applicable via that route, and the carrier does not notify the shipper that either both the rate or route is incorrect, the carrier is liable for any damages caused.

Vice-President Rex Packard, presiding over the meeting, appointed a committee composed of Morris Spencer, Gus Schmah, and A. Corpany to make a preliminary investigation regarding the annual Farmers Day Celebration in May, and to report at the next meeting.

"If a shipment is sold on the basis of a delivered price on the basis of freight rate quoted, and if it is assessed and is incorrect, the carrier may collect the undercharge," Mr. Hutchison stated.

Hence there is very good reason for expecting that the Sanford beautification conference will be the most largely attended of any this year, as yet has been held—not only the most largely attended, but also, the most profitable, for those in attendance.

ster may be costly to the shipper. If the carrier mishandles the diversion and loss results, the shipper may collect from the carrier."

The seller will be responsible to the buyer but the carrier will not be responsible to the shipper for reason of mis-quotation of rates. However, if the shipper names the rate and route on the bill of lading or diversion order, and the rate is not applicable via that route, and the carrier does not notify the shipper that either both the rate or route is incorrect, the carrier is liable for any damages caused.

Vice-President Rex Packard, presiding over the meeting, appointed a committee composed of Morris Spencer, Gus Schmah, and A. Corpany to make a preliminary investigation regarding the annual Farmers Day Celebration in May, and to report at the next meeting.

"If a shipment is sold on the basis of a delivered price on the basis of freight rate quoted, and if it is assessed and is incorrect, the carrier may collect the undercharge," Mr. Hutchison stated.

Hence there is very good reason for expecting that the Sanford beautification conference will be the most largely attended of any this year, as yet has been held—not only the most largely attended, but also, the most profitable, for those in attendance.

Social And Personal Activities

MARGARET PETERS, Society Editor Office Telephone 148.

FRIDAY.
Regular meeting of Seminole County League will be held at 8:00 o'clock at the OMA Fellowship Hall.

SATURDAY.
The Garden Club will give a luncheon from 1:30 to 5:00 o'clock at the home of Mrs. Fred Williams, Oak Avenue.
The hostess, Mrs. Henry Williams, and her guests, Mrs. Julian Williams, of Charleston, W. Va., and the Ocala Music Club will meet at 8:15 o'clock at the studio of Mrs. Fannie S. Mussen, Myrtle Street.

MONDAY.
The St. Ann's Guild of Holy Cross Episcopal Church will meet at 8 o'clock at the parish house for its regular business meeting.

Monthly business meeting of the Women's Missionary Society of the First Methodist Church will be held at 8:00 o'clock at the church.

Regular business meeting of the Women's Missionary Society of the First Baptist Church will meet at 8:30 o'clock at the church.
The Business Board of the First Baptist Church will meet at 3:30 o'clock at the church.

Members of the Board of the Presbyterian Church Auxiliary will have an important meeting in the business room of the church at 8:00 o'clock. At 8:30 o'clock, the regular business meeting of the Auxiliary will be held in the social room.

TUESDAY.
A district rally of the Women's Missionary Union of the Seminole County Association will be held beginning at 10:00 o'clock at the First Baptist Church. Members are asked to bring lunch.

WEDNESDAY.
The Sarah Parker Methodist Church Club will have a social party beginning at 9:00 A. M. at the church annex. A covered plate luncheon will be served at 1:30.

NOTICE

San Lando Springs will be the scene of a party to be given to the members of the Congregational Christian Endeavor of this city. The party will meet at the Congregational parish house at 7:30 o'clock and will proceed from there in a body to the Springs.

DELAND PICNIC

The Volusia County Picnic Association will hold its annual picnic at Deland on Wednesday, March 16, at the Deland Chamber of Commerce, in celebration of the Association's twentieth anniversary. A business meeting will be held at 11:00 A. M. and will be followed by a basket picnic at 11:30 P. M. and an entertainment at 2:00 P. M.

Minstrel Show Of Van Arnam Will Be At Milane Thursday

John E. Van Arnam can be given the title of theatrical architect par excellence, as he has constructed a bridge of minstrelsy that passes from the early '60s to the year 1933, a bridge of sweet melody, whistling melodies, Mississippi River romance and all the charms of minstrelsy of a bygone era.

Perhaps the best reason one can give for the never-ending popularity of a minstrel show lies in the fact that it is an "American institution." John E. Van Arnam has accomplished something that every manager has tried, but failed in the attempt—that is—Mr. Van Arnam has dovetailed across the break which separates the older from the modern school of minstrelsy. The old-time favorites are all in evidence, mingled with a number of up-to-the-minute novelties. Van Arnam's Minstrel show will be at the Milane Theatre next Thursday.

It is quite evident that Mr. Van Arnam knows just what the audience theater goes want in a show of entertainment—real, familiar songs that are sung with joy from a minstrel's heart. Probably if the show were not presented, the folks who never miss a minstrel performance would be sadly disappointed. It is a well-known fact that audiences delight in the music that are most reminiscent of the minstrel songs of a bygone era. However, the "KING JAZZ" by the Monarch of American harmony, plays a prominent part in the show. The minstrel provides sorrow-defying, joy-inspiring, heart-rending, and heart-cork celebrating.

The Cast and Goodie Show from Florida possesses 1,221 songs of which 700 are written by the authors of the Atlantic, and 1,000 songs written by the Gulf of Mexico.

Mrs. Carroll Hostess At Party Last Night

Compelling Mr. and Mrs. F. M. Brower, of Philadelphia, Pa., who are visiting their son-in-law and daughter, Mr. and Mrs. R. L. Glenn, Mrs. E. M. Carroll entertained with a party last night at her home, 110 West Seventeenth Street. During the evening music was rendered for the entertainment of the guests by Mrs. R. L. Glenn, Miss Annie Belle Dyson, Dr. J. W. Rucker, and Charles T. Henderson.

The rooms where the guests were entertained were decorated with vases and bowls of garden flowers. Refreshments were served at a late hour by the hostess. Those invited to be with Mr. and Mrs. Brower were: Mr. and Mrs. Charles T. Henderson, Dr. and Mrs. J. W. Rucker, Mr. and Mrs. W. C. DeCoursey, Mr. and Mrs. R. J. Nix, Mrs. Joe Barnes, Mrs. A. C. Williams, Mrs. F. R. Dyson, Mr. and Mrs. R. L. Glenn, Miss Mildred Nix, Miss Annie Belle Dyson, and Norman Glenn.

Crops Are Again Protected From Cold By Winds

(Continued from Page One) damage had resulted as far as Mr. Allen were able to ascertain.

Rufus Vining, also a resident of the Lake Monroe section, reported only a little frost, and that in sheltered and low points. He expressed the opinion that there was no loss in that section of the county.

C. H. Ellis, Lake Mary, reported an unofficial reading of 33 at 6:30 o'clock, but no frost. "There was plenty of wind out here all night long," he said.

J. C. Liveworth, South Bradwell Avenue, reported a 33 degree temperature about 4:30 after 6:00 o'clock, but no damage of any kind.

Emil Armstrong, Lake Mary, a resident of the Lake Mary section, reported no damage, little frost, and no ice in his section.

Mrs. Fred Holly saw frost on her roof at Lake Monroe this morning, and was told that at 6:30 o'clock a thermometer there read 36. E. F. Kaezerman, residing near the Holly property, reported a 31 at 4:45 o'clock, but said that the thermometer jumped quickly in the next few hours. He has several acres of eggplant and peppers which he said were not damaged.

Mrs. J. D. Davidson, of the Paula section, reported a 41 early this morning, no frost, and no damage. "I was rather surprised that the thermometer registered 41, because it felt much colder," she said.

Labor Urges Huge Building Program To Save Country

WASHINGTON, Mar. 11. (A.P.)—From organized labor there came yesterday an urgent plea for a huge program of public works to save the country from unemployment and its "serious human consequences."

The American Federation of Labor in a statement delivered before a Senate labor subcommittee by Edward F. McGuire, endorsed in general the La Follette bill for nation-wide public construction to be financed by a \$5,000,000,000 issue of "prosperity bonds."

"The principal criticism we have heard of this bill is its cost," said McGuire. "Our answer to that is that the cost of unemployment will far exceed eventually the cost of creating employment."

"Already the serious human consequences of unemployment are apparent. There is loss of courage, bitterness, disrespect for law, and desperation."

"We do not see any improvement in employment up to the first of this month."

"We don't look for any marked increase in employment for 1932 or 1933. We predict that we will have just as much suffering next winter as we have had the past unless the federal government will take the initiative to create work for the people."

Personals

Mr. and Mrs. R. L. Glenn and son, Norman Glenn, spent today in Jacksonville.

C. K. Swindle, of Jacksonville, formerly of this city, spent today here on business.

Mr. and Mrs. Frank L. Woodruff have returned from a trip to points on the East Coast where they spent a few days.

Mrs. Frank L. Miller and Mrs. J. E. Brouse plan to return tomorrow from Jacksonville where they have been visiting Mrs. Lulu Clay for a few days.

Mrs. C. E. Henry and Miss Ruth Henry, of Jacksonville, who are visiting friends here, spent yesterday in Orlando.

Mrs. A. J. Guyon, of Boston, Mass., is here for a short time as the guest of Mrs. Ben Cantwell at her home on Park Avenue.

Mr. and Mrs. F. M. Brower, of Philadelphia, Pa., plan to return to their home the first part of the week after spending some time here with their son-in-law and daughter, Mr. and Mrs. R. L. Glenn, 106 East Fourth Street.

POLICE GIVE BULLETINS ON KIDNAP CASE

(Continued from Page One) involved about the make shift ladder tossed aside by the abductors after they used it to gain entrance to the nursery of the Lindbergh home.

The wood from which the ladder was identified as having come from excess material left over after a construction job at the Skillman state home for epileptics, and police said their investigation at Skillman, near here, was being continued.

A statement was made, however, by R. B. Hullfish, who superintended the construction of the Lindbergh home, that the wood might have been secured from any one in a number of building jobs in the region, even the construction of the Lindbergh home itself.

Even in Europe a search of the Ile de France for the missing child was made when the liner touched at Plymouth, England, following reports the Lindbergh boy was being held on board a ship. Nine children were found among the passengers, but all were identified.

A child found near the ladder of the home here formed a focal point for another phase of the police inquiry. It was smeared with fingerprints, but all were so blurred that police said they proved of little value in tracing the instrument.

A third line being followed was a "re-checking" of the abandoned houses, the small farms and the little homes in the hilly Sourdland countryside surrounding the Lindbergh estate.

Troopers who have guarded the Lindbergh estate and the road leading to it for more than a week were replaced by others during the morning. It was officially stated the change was merely a matter of police routine.

Col. H. Norman Schwarzkopf, superintendent of state police, said there are now 80 or 90 men detailed to the estate, Jersey City and Newark detectives working on the case, it was disclosed, so the troopers will not mistake them for prowlers.

The use of the outfits by plain clothes men even led to rumors that Col. Lindbergh had been traveling around the countryside in the blue garb of a state officer.

The ninth day since the kidnaping brought more than the usual crop of wild rumors, which were exploded one by one.

The first was that the child was being brought back on a fast train when it reached New York and found it had no private car attached, as had been reported, and that there was no child aboard.

Other reports which were denied were that the child had been found within five miles of his hilltop home and that he had been located in Westport, Conn., by Sheriff Thomas Reilly of Bridgeport and taken to a hospital.

WINTRY BLAST TAKES SECOND JAB AT STATE

(Continued from Page One) mated over much of the East, Midwest, Southwest, and Rocky Mountain sections.

Wednesday night's frost and cold resulted in damage to truck crops in widely scattered sections. The worst report came from Williston where it was said "apparently everything killed." Ice was reported there a quarter of an inch thick. The Florida marketing bureau's correspondent said "necessary to replant cucumbers, watermelons, beans, squash and that was up and growing."

Leesburg reported "No damage by frost here today." Lake Okechobee points likewise reported no damage on account of high winds, but great fears were expressed that everything might be killed last night.

Hosbrell reported loss in that territory approximated 50 percent of beans, 10 percent of tomatoes, and other vegetables 15 to 20 percent. The temperature went as low as 24.

Wauchula said "light breeze most of the night prevented heavy frost damage except on much lands. Don't think damage will exceed 10 percent to cucumbers, beans and tomatoes. No damage to potatoes, but looks bad for tonight."

Orlando's report was no appreciable damage in Orange county. Cucumbers, tomatoes and other tender vegetables were somewhat damaged by cold winds Saturday.

No damage was reported from Winter Haven, where the minimum temperature was 35 Wednesday night, but light to heavy frost was predicted last night if the weather remained clear.

H. L. Robinson, general manager of the Hastings potato growers association, reported no damage to that crop in the Hastings and Palatka areas.

Pensacola had the coldest weather in the state Wednesday night, 22 degrees. Apalachicola, Gainesville and Hastings had readings of 28; Ocala 20 and Kissia and Orlando 32. Tallahassee had 24 and Jacksonville an official 27, with a reading of 25 in lowlands outside the city.

No injury to citrus was reported. Truck growers placed their highest hopes last night in a continuation of winds.

Big Day Promised In Motorboat Race Events Saturday

(Continued from Page One) vision of the National Outboard Association. All persons are eligible to enter the races, provided they are members of the F. I. M. A.

The races begin at 1:30 o'clock. A loud speaking apparatus will be erected in the use in broadcasting to the spectators, the events as they are run off. Prizes of \$10, \$20, and \$25, cups and ribbons will be awarded winners in each race, while an added trophy, offered by the Association goes to the driver scoring highest number of points during the afternoon. A special purse of \$50 in gold, donated by Sanford merchants, goes to the driver making the fastest time in any heat during the afternoon.

A special attraction in the form of a fleet of six airplanes whose pilots will perform during stunts during the afternoon, is promised by Bronson Lamb, Jacksonville, winner of the Premier Mussolini gold trophy at New Smyrna. Mr. Lamb will be here with a fleet of drivers, including George McFarland and Travis Chestnut, all Jacksonville drivers.

Other entrants are Clyde Smith, Atlanta; Bill Crawford, of Miami; Larry Dodd; Earl Greah, and his son, Carl Greah, Jr., 13-year-old driver and winner of the Class "A" race at New Smyrna. George Cook and Cal Leath, Alabama champions; George Martin, national Class "C" champion, and Tommy Estlick, holder of the world's speed record of 56.625 miles an hour.

Races will be run in Class "B," "C" and "F," and if there are six or more drivers there will be a class "A" race. Speeds which may be expected are: 38 miles an hour in Class "A"; 43 miles an hour in Class "B"; 48 miles an hour in Class "C"; and 55 miles an hour in Class "F."

Commodore Phil H. Reid, Rockville Center, N. Y., will be official starter; Commodore William Sherman, Miami, official scorer; Commodore Guy McLaughlin, official inspector; Commodore Boston B. Bell, Palm Beach, official timer, and W. D. Hoffman, Sanford, official referee.

FALL IN BANK FAILURES SEEN AS GOOD SIGN

Only 1 National Institution Has Closed Since February, 17

WASHINGTON, Mar. 11.—A remarkable drop in bank failures, recorded by the Federal Reserve Board, has taken its place with a number of other favorable factors in the domestic and international business situation, indicating a trend toward stabilization and business revival.

Only one national bank has failed since Feb. 17, and failures for the whole of February were only one-third of those in January.

Banks are reported to be already expanding credit on the assistance of the Reconstruction Finance Corporation.

Money in circulation for the fourth consecutive week declined, the sum reaching \$9,000,000, indicating that an equivalent sum had come out of hoarding.

The Reconstruction Finance Corporation has already granted loans to five railroads, and the Interstate Commerce Commission has given approval to loans to eight more.

In England improved financial conditions have led to advance payment of loans from Wall Street, and British bonds have been received favorably.

In the United States, the great American Telephone & Telegraph Company, with 650,000 stockholders, report making record earnings in 1931, the total being \$106,666,634.

With the foregoing, among other factors pointing to possible business stabilization, the President's anti-hoarding campaign will be launched over the radio Sunday, with issuance of the new 2 per cent "baby bonds" on Monday. In connection with a statement by Mr. Ogden L. Mills, Secretary of the Treasury, published in the official organ of the American Bankers' Association, revealed recently the procedure proposed.

"It is confidently believed," Mr. Mills said, in part, "that once the unfortunate consequences of the diversion of currency from normal channels of trade and industry are realized, the response will be immediate. An appeal will be made to all those who may be holders of idle funds to redeposit them in banks, or to invest them in some good security."

"The work of the Citizens' Campaign will be facilitated if persons who desire to invest in this form of security are able to obtain the new certificates in their own community and without delay," he said.

JUDGE FOUND INDISCREET

RICHMOND, Va., Mar. 11. (A.P.)—A general assembly in investigating committee which found Judge Thomas B. Robertson "indiscreet" and at times unable to "restrain his temper" told the Senate yesterday it had uncovered no facts warranting the judge's removal from the Hopewell Corporation Court bench.

Construction of Old Fort Club on the north end of Amelia Island, began in 1942. It is now abandoned, but remains a monument to the builders of that day.

China Demanding Japs Withdraw As Requisite To Truce

SHANGHAI, Mar. 11.—(A.P.)—The Chinese government yesterday reiterated its demand for unconditional evacuation of Japanese troops as a pre-requisite to truce negotiations.

New peace proposals had come from Marmoro Shigemitsu, Japanese minister to China, who informed Chinese authorities that Japanese officials were ready to start negotiations in accordance with the League of Nations assembly resolution adopted Mar. 4.

Improvement in the situation, however, was reflected by the departure of five United States destroyers.

The Perry, the John D. Ford, and the Horie left for Manila, the Edsall went to Amoy and the Truxton to Nanjing.

The Japanese minister said "we consider it a matter of urgent necessity to reach a definite agreement for cessation of hostilities forthwith, then we may discuss and determine arrangements for a withdrawal of Japanese troops."

"Falling to hear anything from the Chinese, however, since the League's resolution was passed, the Japanese authorities wish to make clear their readiness to negotiate along the line laid down by the League resolution."

Japanese officials announced that all their losses from the beginning of hostilities on the night of Jan. 28 to Mar. 5 totaled 632 dead and 2972 wounded.

The League resolution of Mar. 4 called on Japan and China to cease hostilities and recommend that negotiations be started to regulate the withdrawal of the Japanese forces.

Sheriff Farley Is Given Freedom On Charge Of Larceny

NEW YORK, Mar. 11. (A.P.)—Thomas M. Farley yesterday was freed of second degree grand larceny charges but the office held when the allegations against him were made still was occupied by another Tammany chief, John E. Sheehy.

Farley, dismissed from the post of sheriff of New York county by Governor Roosevelt to whom he failed to explain satisfactorily the source of large deposits in recent years, smiled when he heard Judge Frosch's verdict of acquittal.

The former sheriff commented: "The judge said I have to say, and said it better than I can. It's a perfect vindication for me. I didn't do anything I wouldn't do again."

Meanwhile, the practice which brought about the charges keeping interest on funds of litigants was being handled by Farley's successor, Sheehy, in a manner different from that of Farley. Sheehy announced he would keep all interest in a case until a court should decide to whom the money belongs, the sheriff of litigants of the county.

The specific charge against Farley was stealing \$116,711 in interest on a fund in his official custody as sheriff. Judge Frosch held there was insufficient evidence with regard to the intent of the former sheriff to warrant sending the case to the jury.

The \$116,711 constituted only a small fraction of the total Samuel Seabury, counsel to the Hofstadter committee investigating city affairs, charged Farley took unlawfully.

English Bank Rate Has Been Reduced From Five To Four

LONDON, Mar. 11. (A.P.)—A jubilant shout of "four" was raised by a great throng of financial men jamming the streets in the neighborhood of the Bank of England when it was announced yesterday that the bank rate had been reduced from five to four percent.

This was the second reduction in three weeks. Feb. 18 the rate was lowered to five percent from six—the figure at which it had stood since Great Britain left the gold standard last September.

Financial circles pointed out that industry now will have to pay only five percent for its bank advances, and that commercial undertakings will be further helped by the transferring of money from bank deposit accounts, which now will earn only two percent.

The lowering of the bank rate was generally accepted as further evidence that Britain had collected all—or almost all—of the necessary dollars and francs of American and French credits.

Hoarded Money Is Finding Its Way Into Circulation

CHICAGO, Mar. 11.—(A.P.)—\$770,000,000 in hoarded money is flowing back into the banks and trade channels, the citizens reconstruction organization learned yesterday from its campaigners throughout the states.

It drove to draw money from hoarding, backed by a new United States treasury certificate issue, has moved forward only a few days but its momentum was such that extension of the campaign for a fortnight or more was likely.

Here were some of the reports received yesterday from state headquarters: Atlanta bank deposits have gained \$7,000,000 since Feb. 1. J. F. Harris of Palm Beach said he found good response in Florida and said the campaign could not be stopped, for Mar. 18 had been scheduled as a special day for observance in the schools and the south did not work so rapidly as New Englanders.

PLEAS ARE MADE TO JURORS IN CARVER CASE

Defendant Is Pictured Alternately As Killer And Protector

ARGOADA, Mar. 11.—(A.P.)—William Raymond Carver, on trial here for the hatchet slaying of his wife two years ago, alternately was pictured as a murderer for money and as the justified avenger of his wife's brutal murder by a negro, as opposing counsel argued the case before a circuit court jury yesterday.

The first characterization was by J. Lee, assistant prosecutor of the former Philadelphia and Miami real estate operator, and the second by T. E. Price of Miami, defense counsel.

Carver was charged by the state with slaying his wife and baby and shooting Ben Whitehead, negro yard servant, in a plot to collect his wife's insurance money. His defense is that he shot the negro when he discovered the servant had killed Mrs. Carver and the child at the Carver home in Sebring, Apr. 2, 1930.

Additional counsel will be completed today with addresses by State Senators W. D. Hill, chief defense attorney, and by L. H. Burton, state's attorney.

Carver's fate probably will be decided before a jury for the week and time later today. He was indicted and given a life sentence when tried at Sebring in 1930. The supreme court granted him a new trial which was brought here on a writ of habeas corpus.

Carver's counsel yesterday lost another move to have him acquitted on a directed verdict by the jury. The motion was made when Burton announced the state would offer no rebuttal testimony following conclusion of the defense case late Wednesday.

Lee, in making the first argument, said it was the contention of the state that Carver beat his wife and child to death with the hatchet and killed the negro as a screen behind which to hide his guilt.

Having a \$10,000 double indemnity life insurance policy before the jury, Lee shouted "here is the money for this most atrocious crime."

Sport Briefs

FORD MYERS, Mar. 11.—(A.P.)—Shortstop Joe Holly flew into camp from Hot Springs, Ark., yesterday but he did not get into the five-inning intra-club game which the Philadelphia Athletics played. The "B" team of rookies handed the regulars a hard trouncing to the tune of 9 to 0. The victors scored two runs in the fourth inning and piled up five more in the fifth.

Boley, who was sold to Cleveland and then returned to the A's when the deal was disapproved, has been conditioning with George Earnshaw and Al Simmons and said he was in great shape. He took his first workout soon after his arrival.

WINTER HAVEN, Mar. 11.—(A.P.)—The Philadelphia Nationals divided against themselves again yesterday and team A, comprised mostly of regulars, won from team B in six innings by the lumpy score of 1 to 0.

The old hands scored their lone run off Recruit Bill Hargrove in his first inning. Lefty Woodington pitched the last three innings for the B men and held the regulars hitless. Dick Bartell and Barney Friberg saw action for the first time since they were traded to the Phillies. They will be Sylvester Johnson, Bill Hallahan and Paul Derringer.

"Cold weather" caused cancellation of yesterday's game with Indianapolis but Street sent his men through a short workout.

ST. PETERSBURG, Mar. 11.—(A.P.)—The Boston Braves' practice yesterday consisted of little else than jogging about Waterfront Park and throwing a few baseballs. It was much too cold for anything else.

Manager Bill McKechnie hoped to give the Braves a strenuous workout to prepare them for Saturday's exhibition clash with the New York Yankees. Filled by the elements, he plans to give his players a long hitting practice today. He claims they need that more than anything else.

SAVANNAH, Ga., Mar. 11.—(A.P.)—Although it was cold enough for our muffs here yesterday, Manager "Shono" Collins ordered his Boston Red Sox squad to take a short but snappy workout to relieve the traffic congestion in the hotel lobby.

The Red Sox players, who have yet to go through a practice game, although most of their American League rivals have their exhibition schedules well under way, shivered through a spell of batting practice and pepper exercises.

Collins threatened his squad with an 18-inning practice game, at the first opportunity.

ST. PETERSBURG, Mar. 11.—(A.P.)—Not a bat was swung in the New York Yankees training camp yesterday as cold weather kept all but the hardest indoors.

Once Manager Joe McCarthy decided to call off practice for the day, a few of the boys went out to a golf course. Among these, of course, was Babe Ruth. He made up a foursome with Sam Byrd, Cy Perkins and Lyn Lary.

Major General Charles P. Sumner, Retired Chief of Staff of the United States Army, Is a Native of Columbia County

The Department of Agriculture estimated Florida could feed 15,000,000 persons if its soil produced to its full capacity.

The postoffice building at St. Augustine was constructed in 1898 as a mansion for the Spanish governor of Florida. It had been standing nearly ten years when Jamestown, Virginia, was founded; it was sixteen years old when the Dutch built the first fort on Manhattan Island, and more than twenty years old when the Pilgrim Fathers set foot upon Plymouth Rock. Elizabeth then was Queen of England and Shakespeare was at the height of his career.

If one traveled northward from Palm Beach and stopped on the latitude of Jacksonville, he would be in the Atlantic Ocean, about sixty miles east of the city.

Major General Charles P. Sumner, retired Chief of Staff of the United States Army, is a native of Columbia county.

The Department of Agriculture estimated Florida could feed 15,000,000 persons if its soil produced to its full capacity.

John McGraw Will Use the Same Lineup with Cubs in the Two Extra-Added Games on Catalina Island Earlier This Month

The spring football squad was divided today into two groups of 22 each. Coach Bachman announced the following:

"Oranges" — Butler, Rogers, Williams, Herberg and Parker, ends; Simpson, Starbuck, Slavin and Billings, tackles; Brown, Green, Bryson and Handley, guards; Vanaman and Madigan, centers; E. Davis and Beck, quarterbacks; Kinney, Henderson and McAuley, halfbacks; Moye and Campbell, fullbacks.

"Blues" — DeVane, T. Davis, McLean and Blizner, ends; Taylor, Eter, Stark and Schuman, McCampbell, guards; Lau and Ochsner, centers; Kelly and Priest, quarterbacks; Covington, Brown, Besant and Wood, halfbacks; Hughes and Stok, fullbacks.

Five Southern Conference officials, Ted Arnold, Tom Sebrin, Johnny Marshall, Walter Lynch and Pete Burkholder, will be here to handle the four quarters of play Saturday.

Considerable interest has been evinced by local grid fans in the play of George McCampbell, 150 pound guard, who is said to rival Metzger, Notre Dame's All-American of two years ago. McCampbell was a star on the freshman team here last year.

The game Saturday is one of several special attractions arranged by the University of Florida for week-end visitors. Coach Bachman is hopeful of a big gallery. No admission will be charged.

Junior High School Baseball League Will Begin Games

Baseball makes an early return to Sanford this year, for, starting next Monday afternoon at 4:00 o'clock, two of the four teams comprising the newly created Junior High School baseball league, will begin a nine-week season in a game at the Ninth Street Park.

The league was organized under the sponsorship of Prof. B. C. Steele, at the Junior High School. More than 50 boys are now seeking places on the four teams. All Junior High School pupils are eligible provided they do not play in the Lions Club league.

During the season, each team will play with other teams (five games), while at the end of the season, a picked team will play the Freshman team, of Seminole High School in a five-game series. Games will be played on Tuesday and Thursday afternoons at 4:00 o'clock. Four games will be played next week to allow all teams to catch up with the proposed schedule. Games will be played on Monday, Tuesday, Wednesday and Thursday.

Team captains are: Lester Phillips, of the Indians; R. L. Evans, of the Senators; Talmadge Metz, of the Cardinals, and Billy Brown, of the Athletics.

WHAT IS THE THRIFTY THREE RATE

Your new Thrifty Three one meter residential electric rate is made up of a flat rate, and then THE THRIFTY THREE

732

7 cents a kilowatt hour for the small first block

3 cents a kilowatt hour for the small second block

2 cents a kilowatt hour for all the rest

After the small blocks of seven cent and five cent kilowatt hours are used, you are putting to work the thriftiest of the Thrifty Three... electricity at two cents a kilowatt hour. Ask any Company employee how the Thrifty Three can help you.

NATION BACKING EFFORT TO TRAIN FOR CITIZENSHIP

Current Information On Subject Of Government Is Object

WASHINGTON, Mar. 11.—A captain of state chairmanships received at the national headquarters of The United States Society here, now bring the roll of states up to twenty-five. This means that more than half the nation has joined the movement for non-partisan training in citizenship.

With the completion of organization work, the enrollment of citizens which is followed immediately by the distribution without charge, to schools and other groups of current information and study helps on the subject of government.

The United States Society was

conceived by a number of Americans well known in national affairs as a project for combating the ignorance and indifference toward government and to build up an informed electorate. On its board of advisers are: a former president of the United States, David Coolidge; two former members of presidential cabinets, Elihu Root and Newton D. Baker; a college president, John Grier Hibben, and an economist and businessman, Owen D. Young.

The program of The United States Society for giving practical aid without charge in teaching government in the schools and colleges is not intended to substitute but to supplement present methods of instruction. Every channel of instruction available is to be made use of. Comment and news of current events will be provided; round table discussions will be promoted; radio broadcasting will be utilized; information will be assembled for distribution to schools, colleges, libraries, industries, farms and homes.

Officers of The United States Society serve without compensation.

House To Vote On Bill That Will Aid Burdened Farmers

WASHINGTON, Mar. 11.—(A.P.)—The question of \$100,000,000 worth of aid to debt-burdened farmers in drainage, irrigation and levee districts now can be brought to a vote in the House on Mar. 23.

Availing themselves of a new vote, proponents of the legislation yesterday saw the necessary 145th algebra had been fixed to a petition to take the bill away from the rules committee and let the House decide for itself whether it wants to consider the measure.

The bill, drafted by Chairman Hall and approved by the irrigation committee, would create a \$100,000,000 revolving fund out of which the secretary of the interior could make loans to levee, drainage or irrigation districts or to county boards of supervisors or other political subdivisions.

This money could be used to pay maturing principal and interest on outstanding bond issues.

Hill said he would call the bill up in the House at the first opportunity.

ELIZABETH GILBERT

Jack Hixon, of Sanford, was a caller here last Monday.

Mr. Caven, one of the train masters of the A. C. L., was a business caller here Thursday.

Mr. and Mrs. Beach and Mr. and Mrs. H. S. Packard attended the Baptist Church in Winter Garden Sunday.

Mr. and Mrs. Henry Seaver visited the latter's sister, Miss Rita Grindie, in Mt. Dora Monday.

A few of the high school students of Lyman School presented short episodes of the life of George Washington before the Eastern Star in Sanford last Thursday evening. The casts and scenes were as follows: His education, Dan Gilbert; Stone Thrower, Roy Gray; Indian Attack, Howard Lyman & Washington and Le Roy Bester as the Indians; Leading the army, Howard Lyman; Crossing the Delaware, Howard Lyman and William Matthews; Marriage, Howard Lyman as Washington, Elizabeth Gilbert as Martha Curtis and Clyde Whitehead as the minister; Kingstip refused and inauguration, Howard Lyman; Betsy Ross making the flag, Ellen Overstreet as Betsy Ross, Margaret Whitehead and Dorothy Zimmerman. The under was Gladys Stomerek and the prizes were Ruth Prosser and Inez Kyle.

Mr. and Mrs. R. W. Turnbull entertained last Wednesday evening at three tables of bridge. High score prizes were won by Mrs. J. G. Turnbull and O. W. Locke. Delicious refreshments consisting of chicken salad, rolls, coffee and coffee were served.

Mr. and Mrs. Monte Smithson, of Winter Park, were the guests of Mrs. E. A. Lyman Sunday.

Mr. and Mrs. A. E. Manning, of Orlando, called on Mr. and Mrs. C. A. Benson Friday.

Mr. and Mrs. W. H. E. had attended a meeting of the United Spanish War Veterans in Orlando Friday.

The friends of Milford Barton will be glad to learn that he has sufficiently recovered after undergoing an operation at the Shriners Hospital in St. Petersburg to return to his home here.

Mr. and Mrs. H. S. Packard and Mr. and Mrs. Beach visited in Umatilla Friday.

Mr. and Mrs. William Harker expect to return to their home in Ohio about the first of April.
