anford Civic Center Could Serve Many Useful Purposes

Staring us in the face is a vieit from our distinguished Senator George Smathers when hundreds of Sanford and Seminole County citizens would like to hear a report of the accomplishments during the 83rd session of Congress.

However, facilities will allow a maximum of 400 to attend the luncheon given in honor of Senator Smathers, limiting the audience that will hear the outstanding address.

Sanford needs a Civic Center badly, We need auditorium space where the maximum number of people could be allowed to see and hear our distinguished visitors.

Through the proper cooperation, the City of Sanford could have a huge building, located centrally, to take care of many of the community's ills.

For instance, as has been advocated, the Sanford Civic Center could provide a meeting place for local civic clubs, a much needed center for the recreation direction of the community's youth, an auditorium that could be used for many occasions such as the coming address by Senator Smathers, community dances, conventions, mass meetings of every discription a community gathering

Its been a long time since we've heard a steamboat whistle, but it seems as if that familiar sound will become a daily occurance on the St. John's River soon. It's another Kemp-Sodero promotion, and a good one too.

We're harping on a Sanford Civic Center | place that will fill hundreds of needs,

May we suggest that the Seminole County Chamber of Commerce join in the drive for a Sanford Civic Center, possibly making available a larger suite of offices for the expansion of the chamber's facilities for carrying on its much needed work for the community.

If the entire community could only join hands to make the project a success, it would be a matter of only a few months before a grand and spacious building could be erected and not into use.

A central location in Fort Mellon Park between the Sanford awimming pool and the present tennis courts would make possible a Sanford Civic Center secon! to none in Florida for cities of comparable size.

This is really an opportunity for a show of our "civic pri-le".

Sanders is crying the blues, but if his UCLA Bruins fail to repeat as Pacific Coast Conference football champions this fall, the team that beats them is the likely successor.

Sanders lost nine of the 11 starters from last year's unbeaten squad, No. 2 nationally in the Associated Press poll, but has 22 bitermen back. The 1954 Bruins, winners of nine straight, were deprived of the Rose Bowl bid because of the "no repeater" rule. They're eligible—and eager—this fall.

Rated right behind UCLA is eroestown rival Southern California, the conference runner-up a year ago and 20-7 loser to national champion Ohio State in the Rose Bowl. The Trojans are loaded, too. The Nov. 19 game between what appear to be fair and away the best teams on the coast probably will decide the PCC championship.

Two dark horses—perhaps dappled gray is more apt—are

Contrato and a pair of huge ends in Leon Clarke, 6-4 and 215 pounds, and Chuck Griffith, 6-6 and 210.

Washington State and Stanford both are deep in experience but are plagued by remarkably rough schedules. Coach'Al Kirchei's Cougars open against USC and catch UCLA two weeks later. Stanford's Indians must face Ohio State, Michigan State and UCLA in that

Kircher is installing the split-T to replace the single wing at Washington State.
