The Case Of American Aid

We are sorry that everyone in Sanford could not hear the remarkable address made by the scholarly young Dean of the Stetson Law School, Thomas Lambert, at the Kiwanis luncheon yesterday. Dean Lambert spent several years in Europe, including four months in Munich, during the critical years prior to 1939, and is well qualified to speak with authority on the subject of American aid to the opponents of Hitlerism.

He did not attempt to defend the British Empire or the Soviet Russians as so many interventionists are making the mistake of doing in these days of cloudy thinking. The choice is not one between absolute purity and the devil. It is not even one between pure democracy and Naz-All oblinate notices, carde of ism, communism or anything else. We have only to make up our minds which is the greater menace to our own soresiments for the purpose as

In the present instance, to know what we should do.

No one can successfully deny that Hitler has at-

tacked practically every country in Europe which did not surrender completely to him before the attack could be made, and even some of those who did, he has attacked. He has attacked them flagrantly, brutally, and wicks the He has murdered private citizens, including women and according to the use for respectively entitled to the use for respectively. Now Dean Lambert says in a situation of this kind there is no point in debating whether he has done these things to us, or will do them to us, or could do them to us if he wanted to. He has outraged humanity and ev-VICTORY OVER DEATH: ery right thinking person in the world should be aligned against him. It is not enough to be neutral, to say that it us the victory through our Lord is none of our business and that we will do nothing about it, one way or the other, until it is our business. In the light of the world situation today, if we are not against

Hitler, we are actually aiding him.

Dean Lambert gave an illustration of a bully walking into a room, picking out a cripple from among those present, and severely beating him. We would not stand for it. Every right thinking man would come to the aid of the cripple. That is not a debatable question. No one would argue that since the bully had not harmed us, we should do nothing about it. We have already done something about it. We have enacted laws which prohibit that sort of thing, and we spend enormous sums of money to maintain police to enforce the laws.

We do not want to go to war over Czechoslovakia.

Italians Demonstrate Their Good Morale

ROME. Oct. 9 —(A)— Demonstrations for Premier Mussolini in four northern cities where
Il Duce gave his people the slogan, "hold fast!" were cited by
the Pascists Wednesday night as
Italy's answer to American suggestions of war-weakened morals.
Mussolini returned to Rome
Wednesday from his tour of Parma. Bologna, Imola and Pienza.
The Pascists said 400,000 persons, mostly workers, who cheered
him showed that hunger and Britlah aid homberdments had falled
to undermine the Italians 'morale or make them weary of the
war.

The fresh squait was enable to make much headway against the first string line, but against the second seven the Tarlets piled through in an impressive enough manner to cause Waite to give his charges a long twoagainst-one drill.

The varsity backs practically had a day off. They punted and passed a little and then atood around and watched the line-men grunt and grean through the rest of the drill until the entire squid indulged in wind sprints.

Ferguson's defensive play ha leng been one of the outstanding features of the Fionda line, and this year he's added to it plenty of offensive prowess enough to the Orange and Blue with three touchdowns.

One of the markers came of

a short pass in the Tampa game last Saturday night, on a play where his chief task was to stretch his six feet, three inche over the heads of defenders. The other scores, however, were some thing to write home about.

"We had a comparatively clean, dry ball throughout the game," he declared. "It takes no longer for a student manager to bring in a clean ball than it does a referee to wipe off one with a soggy towel."

The Texas mentor said football had opened up more. "It no longer is impractical to pass incemplete into the end sone on fourth down," he pointed out. Formerly such a pair resulted in a touchback. Bible also said the Texas-

There may be fewer field goal attempts but one rule change is the to bring more tries from a distance, Bible believes. This is the rule which kills a punt inside the supponents' 18-yard line and makes it a touchback.

"The receiving team must be given the chance to run back the ball from behind the 10-yard line, Bible said. "That opens the gate for more placement kicks instead of punts when teams are inside the 40. Such a play could produce three points and it is covered by the same rule as a punt, except the kicking team can down the ball anywhere on the field."

The Income Taxpsyers' Club, otherwise, known as the Society of Perpetual Gripe, will welcome 2,256,000 additional members into the organization next Mar. 15, Congress has considerately reduced exemptions in order to permit these additional citizens to shore the fun.

A slight intistion fee of \$40,000,000 will be charged these new members, which is approximately the price of 100 new super bombers. Bringing the figures downstairs where we little fellows can understand them, the pitcure fits together something like this:

If you are a single man or a career girl serning \$20 a week you now pay Uncle Sam a mere seven and half cents a week. In 1942 you'll have to cut 41 cents out of the budget pie every week and serve it to the government.

Gentlemen, when you wear HANES Crotch-Guard Sports you hardly know you've got them on. Your legs are free for action in golf, tennis and other sports. Taxes As a Budget Item

If you are s married man with
no dependents, earning \$40 m
week, you never before had to
worry about income taxes. But
your day has come, oldtimer. In
1942, every week you'll have to
set aside for the federal tax collector \$1 cents, or enough money
to keep you in cigaretts.

If you are married, have two dependents, and net \$60 a week,

rou, too, are a newcomer to the income Taxpayers' Club-and your fee will be \$1.12 s week.'

You may think it would be nice

to have a million dollar annual income, but at \$19,230 a week you would have to kick back \$14,098 to the federal collectors, which is \$283 more a week than the year.

And you might shed a tear for the multimillionaire. If he has a net income of \$96,153 a week he will hand over \$75,444 of it to the U. S. Government.
