Pioneer Night Is Held At Lake Mary For 25th Occasion

Contributions Of El- Doctor Sander Young Americans Told By Speakers

The progress of Seminole County and the opportunities now enloyed by youth here through the efforts of pioneers was pointed out to more than 207 pioneers by Judge Douglas Stenstrom, Jack Ratigan, Fred Wilson and Volle Williams, Jr., at the Pioneer Night celebration Friday night at the Lake Mary Community Home.

Frank Evans, himself a Lake Mary pioneer resident, conducted the program for the 25th time. and was congratulated by Fred Wilson for the outstanding enjoy-ment which he has brought to the pioneers of Seminole County.

The Community House, the gift of Mr. Evans to Lake Mary, was packed to capacity, and the elderly persons applauded the outstanding program of entertainment, including the music of the Seminole High School, the wit and humor of the four speakers, an amusing one act skit played by Miss Elizabeth Speers and Miss Clara Speem, and the showing of Florida

Yet in spite of the tragical ex-periences of multitudes some think they can take a chance when they bays no chance. A prudent man ferseeth the evil, and hideth him-pelf,—Proc. 23:3.

Don't forget -or neglect- to vote tomorrow.

Present federal deficit for this fiscal year is \$2,780,000,000. Present estimate for the year is five and one-half billion dollars. Yet if Senator Pepper had his way, got through the Townsend Plan, social ze I medicine, and a Gandy bridge in every pot, the dollars, Is there any greater hardship that can befall any people, working people, that is, than to be the victims of a bankrupt government with crushing taxation?

Vote For The Stadium

If as many people vote in tomorrow's referendum as did in the one two weeks ago, there is very liftle doubt in our opinion that the proposed athletic stadium will be approved. The danger of defeat, however, lies in the complacency, and inertia which develop whenever there is liftle pronounced opposition. We would, therefore, caution supporters of the project and all those who want to see progress continue in Sanford not only to vote themselves, but all o to help get others out.

We would also like to remind those who may be afraid that Sanford is attempting too ambitious a project or who have heard other flaws picked in the proposal that—they are not voting on whether to build a \$165,000 stadium, telepater the usual supply of all varieties of ruit and vegetables of the control of the control of the proposal that—they are not voting on whether to build a \$165,000 stadium, telepater the usual supply of all varieties of ruit and vegetables of the control of the proposal that—they are not voting on whether to borrow—the money or the control of the control of the project all success of \$22,000 to \$3.50.

The Sanford State Market and the proposal that—they are not voting on whether to borrow—the money or the control of the

or a \$75,000 stadium, or whether to borrow-the money or to pay cash for it, or whether to finance it with revenues from the light company or cigarette coupons. They are merely asked to indicate to the City Commission whether or not they want a new stadium.

The details of the project will be worked out later by the Commissioners. They will decide after a careful study or the facts how big a stadium to build, how much of it to build now, and how much later, what the seating capacity will be, how to finance it and all that sort of thing. The Commission is composed of duly chosen representatives of the people and are answerable to the people for their acts. It is perfectly proper that they should be entrusted with the details concerning the stadium as with all the other municipal problems with which they constantly deal.

We are convinced that Sanford does need to much of it to move the week of March 20th and a fairly good volume by April ist. There is an estimated slight increase in tomato acreage over last spring. Harvesting of sweet corn is anticipated about the middle of March with some early plot beans coming in about the same time.

"10.230 grates of attanhance."

We are convinced that Sanford does need a new stadium. The one we have is in a deplorable condition. No doubt it could be repaired and put in useable condition. But it is now over 25 years old, and as with all frame structured. of this kind there comes a time when it is no longer economically sound to go to the expense of repairing it year after year. The cost of upkeep has long since passed the point where it would actually be cheaper to build a new one.

We are convinced, too, that baseball will always be a major sport in Sanford. Baseball always has been a big attraction and a principal form of recreation in this city. Whether it was during the boom of the 20s, or the long years of the depression that followed, nothing so attracted the crowds here in Sanford as baseball. The people in Sanford like baseball, and baseball has been good to Sanford.

One of the major contributing factors to Sanford's ket with good cutting expected growth and progress since the war has been the location during the current week. here of the New York Giants training camp, It has brought in nearly a thousand baseball players from all over the country each winter. It has resulted in the purchase and operation by the Giants of the Mayfair Inn which in turn Fort Pierce State Market. has brought in many hundreds of winter visitors. It has added nearly a million dollars a year to local channels of

The construction of a new stadium would be but one more milestone in the development of Sanford as a great Paving of the area around the new baseball center, and in the future progress and prosperity of our community. Let's keep the ball rolling. Vote for the

"Come to think of it," the Parson said, "if each town, big and little, would correct its own evils, the nation would find its own affairs in good shape. And when all the nations have their own evils cured, the old world will have no trouble

"A month of jubilee," he answered. "Let's have a month of debt-paying. Let's clean up old accounts. If some of us are too much in arrears to pay in full, let's pay as much as we can, and show we are not dead beats.

"I am thinking, perhaps you have guessed," went on, of both kinds of debts-the kind we you with service. of us are in debt for kindness shown us, for good will that has come our way, for inspiration

say it worked wonders, for not only did it give business a big lift, but created a new neighborli-

ness. "Parson was right," one man says, "the world could get a lot of good from a month of jubilee."
