

### Hi-Guide, Fast Greyhound, Will Try To Win Again

LONGWOOD, Dec. 30.—(Special)—Apparently headed for one of its best seasons in history, racing resumes tonight at the Sanford-Orlando Kennel Club at 8:15 o'clock.

to the post in the feature race, shooting for his second victory of the year. Stamped before the season ever opened as a potential track champion, Hi-Guide will face virtually the same field, with one exception. Clentia, which won Saturday night's eleventh race in lanky fashion, has been added to the field, replacing Dazzy.

day's race, yet circled the field and threatened to catch Hi-Guide for a few fleeting moments, but the C.M. Hall dog had too great a start.

## THE RUBBER SITUATION AND HOW IT AFFECTS TIRES FOR YOUR CAR

With the declaration of war between the United States and the Axis powers, the long-threatened danger of our principal sources of rubber supply has become an unpleasant reality. From Malaya and the Netherlands East Indies comes 75 per cent of the world's rubber and these two countries are now under attack by our enemies. Today, Japanese troops are attempting to penetrate southward through the jungles of Malaya and to land by parachute on the island of Sumatra in a desperate effort to occupy these vital rubber-producing areas and thereby slow the wheels of American industry.

**"RUBBER IN MODERN WARFARE"**

Rubber is indispensable in modern warfare. Airplanes and scout cars, tanks and trucks, barrage balloons and gas masks are only a few of the many essential war materials that require rubber.

**"THE RESERVE SUPPLY OF RUBBER"**

Keenly aware of this strategic importance of rubber and anticipating the day when the United States might be cut off from the far east, our government, in co-operation with the rubber industry, began more than two years ago to build up a reserve supply. After Pearl Harbor it became necessary to take drastic steps to protect this precious store of rubber; and on December 11 our government issued an order prohibiting the sale of tires and tubes to anyone not having a priority rating of A-3 or better. These temporary restrictions will end on January 5, and they will be superseded by new regulations which are now being formulated.

How long such restrictions will remain in force will depend upon the course of future events. Naturally, when our Allied forces are victorious in the far east, shipments of rubber to the United States will be resumed. But in the meantime, steps are being taken to relieve the present situation.

**"FACTS ABOUT SYNTHETIC RUBBER"**

The first of these is the expansion of facilities for the manufacture of synthetic rubber. There are a number of large plants now under construction, and the one for which we are responsible will be ready for production in the first part of 1942. Nearly ten years ago, our organization began experimenting with various types of synthetic rubber, and in May, 1933, we produced the first synthetic rubber tires ever manufactured for U.S. Army's armed forces. As more synthetic rubber became available, we consistently increased our production of synthetic rubber tires. The most important elements needed for the manufacture of synthetic rubber are butadiene and styrene, both by-products of petroleum, which commodity the United States is fortunate in having available within its borders in unlimited quantities.

**"BRAZILIAN RUBBER AVAILABLE"**

Another possible emergency source of rubber is the valley of the Amazon River in South America. From that area, 45,000 tons were shipped in 1919 and it has been estimated that perhaps as many as 500,000,000 wild rubber trees exist in this region. These are not being tapped at the present time because the price of rubber is lower than the price which would be paid the natives for the tapping of these trees. In addition, there is a possibility that some rubber can be obtained from Guayule shrubs, which can be raised in this country and Mexico.

**"AMERICANS SHOULD PRODUCE THEIR OWN RUBBER"**

In this critical hour, when rubber assumes a position of prime importance to our national welfare and to our ultimate victory, I cannot help thinking of the statement made by my father more than 20 years ago when he declared that "Americans should produce their own rubber." To him the dependence of this country upon a single, concentrated area for any basic raw material was economically unsound and it was his premonition of difficulties in the future that led to the establishment of the Firestone rubber plantations in Liberia, which are now being worked to the very limit to produce every possible pound of rubber for our country.

**"HOW TO MAKE YOUR PRESENT TIRES LAST LONGER"**

Naturally, it is going to take time to develop these additional sources of rubber. In the meantime, it is the patriotic duty of every loyal American to help conserve the present supply by making the tires that are now on his car last longer. You can add as much as 50 percent to the life of your tires by observing such simple precautions as keeping them inflated to recommended pressure; driving slowly and avoiding quick starts and sudden stops.

**"NATION-WIDE SYSTEM OF FACTORY-CONTROLLED RETREAD PLANTS"**

For a number of years, the Firestone organization has been working to develop a nationwide system of retreading tires, and as a result, we have built up a nation-wide system of 152 retread plants, strategically located, to provide retreading service for our dealers and stores and their customers. To meet the present emergency, these plants are operating 24 hours a day, 7 days a week. By the process of retreading which we have developed, as much as 80 percent of the mileage built into the original tread is added to the life of the tire and the quality of workmanship and material is such that we are able to extend our life-time guarantee to every Firestone retread.

**"NEW VICTORY TIRE"**

Still another step which we took some years ago and which will serve our country well today, was the establishment of extensive facilities for reclaiming scrap rubber. Today the Firestone organization has the largest rubber reclaiming capacity in the world and we have the advantage of long experience in developing products made from this material. One of these is a new type of tire made from reclaimed rubber, which will give reasonably satisfactory service when driven at moderate speeds. We have named this product the "Victory Tire" and it is now in production in our factories. We also have in work a new type of tractor tire made from reclaimed rubber to help agriculture continue to play its vitally important part in the war effort.

**"THE PATRIOTIC DUTY OF EVERY CAR OWNER"**

In the laboratories of the Firestone organization, our scientists and engineers are working night and day to find ways of using to best advantage the present rubber supply. Recently, however, the successful reclamation of rubber from the scrap tires of American car owners has become a patriotic duty. It is to get the maximum amount of service out of these tires.

## Allied Strategy Calls For Strong Singapore Defense

### Malayan City Valuable To British As Base To Launch Attacks On Japan

### Martial Law Has Been Proclaimed Four Nipponese Air Raids Are Made On Far Eastern Town

(By Associated Press) SINGAPORE, Dec. 31.—(AP)—Ottawa—Prime Minister Churchill today said he did not have much hope of Italy falling out of the war soon, adding "I'm afraid the organ grinder has the monkey too firmly by the collar."

(By Associated Press) Authoritative London quarters declared, "Allied strategy requires the defense of Singapore, with all the means at our disposal, so that it might serve as a base for a mighty offensive against Japan."

On the Malayan front only slight activity was reported. Martial law was proclaimed throughout the Singapore territory last night after four heavy Japanese air assaults were beaten off with only 11 casualties and machine damage to this big British base last night.

The British command there decried the "unprovoked" Japanese air attacks as "a new phase in the Japanese plan to capture Singapore."

An instant of high natives were being singled out by head-quarters which reported that a large labor force present at a railway station put under attack by Japanese planes "behaved with great calmness."

British aircraft meantime were busy, but the details of action were not disclosed.

### Holland Predicts Rubber Substitute

TALLAHASSEE, Dec. 31.—(AP)—Governor Holland Monday predicted American scientists would produce quick substitutes for rubber supplies now cut off by war in the Pacific.

Because of this confidence in meeting the present emergency, he said he was not disappointed about reports of the attainable rise in rubber prices from the state's resources from gasoline tax revenues from the cost of about \$25,000,000 annually.

"I realize, of course, there will be some curtailment, but I have full confidence in American inventive ingenuity in finding a temporary substitute for rubber that we would just sit down and take it without working out some form of substitute," he said.

"The long-range curtailment of the rubber supply would be a serious blow to this country," the Governor said, "because it would have a bearing upon the increasing capacity of our country to produce goods for export."

## Russian Troops Recapture Two Crimean Towns

### Black Sea Fleet And Caucasus Success Imperil Nazi Army

BERLIN, Dec. 31.—(AP)—Adolf Hitler, in a New Year's order to his troops today declared the Russian Winter counter-attack "Must and will be frustrated," and that year 1942 would see Soviet power broken completely.

(By Associated Press) Russian gains continued today on both the southern (Caucasus) and Moscow fronts.

The British reported further heavy damage to Axis forces south of Adegabia Libya.

Red troops of the Caucasus and the Black Sea fleet have stormed and recaptured the Crimean towns of Kerch and Feodosiya in smashing new success which imperil the entire Nazi army on the Black Sea peninsula. It was officially announced yesterday.

Premier Joseph Stalin immediately sent a message of congratulation to General Kozlov, commander-in-chief on the Caucasus front, and to Red Army Chief of Staff, Marshal S. M. Budennyi, commander-in-chief of the Black Sea fleet which participated in the recapture of Kerch.

In Libya, the cornered Axis army had lost 43 of its remaining tanks in a rash and costly effort to break out at the growing British pressure in the Western sands of Cyrenaica, British Middle Eastern headquarters announced yesterday.

## Main Red Cross Committees And Duties Analyzed

"It must be borne in mind that the operations of the Red Cross for which funds are required and financial statements issued do not include the value of the services rendered to the Red Cross by the vast number of volunteers who participated in this work," Mrs. Roy Mann, publicity chairman of the local chapter, said this morning as a preliminary statement in analyzing the main divisions of the war fund program.

The first division is "services to armed forces" which includes production through volunteer workers of surgical dressings and articles of clothing, work for the men in hospitals during convalescence, shipment of deerskin in procuring blood plasma and the securing of medical technology for the Army and Navy.

"Disaster and civilian emergency relief" grows with their relief of emergency needs for food, shelter, clothing and medical attention of the victims of disasters whether such catastrophes are from natural causes or the result of belligerent action," she said.

"Civilian defense services" administered by Red Cross members include an organization of health and educational activities, such as the teaching of areas and the conducting of aerial protection or emergency drills. The volunteer service includes with a large number of sub-committees, education, training, motor corps, etc. has been recently organized in Sanford by Mrs. F. E. Spence, local president, who served Mrs. Walter P. Brown as chairman of the main division.

## Gloria Vanderbilt Weds At 17

Pasquale (Pat) Di Cicco, 32-year-old Hollywood actor's agent, helps his bride, the former Gloria Morgan Vanderbilt, 17-year-old heiress to one of America's oldest fortunes, cut their wedding cake in Beverly Hills, Cal., after being married at the Historic Old Mission in Santa Barbara.

## Dutch Say Allied Aid Is On Way To East War Grounds

### Commander Of Indies Urgently Calls For More Equipment

(By Associated Press) Allied reinforcements were reported by Dutch newspapers last night to be en route to the Pacific for theatre operations as Lieut. Gen. Heita Ter Poorten, the Indies Commander-in-Chief, urgently called for more equipment, fighter planes and anti-aircraft guns, as well as other supplies to repel the Japanese invasion of Dutch soil.

At the same time there were press reports from Sydney that British Prime Minister Churchill had advised Australian Prime Minister John Curtin that Britain and her allies had decided upon a definite plan of action in the Pacific which would enormously improve allied striking power against Japan.

The Indies newspapers asked the public to be patient. They said help was on the way, but stressed that "anonymous difficulties" remained before a general allied offensive could be started.

The general said Japanese fleets roaming the South Pacific were a "very real" threat to bombers operating from New Guinea and the Philippines—a fact already proved by the hard-fought Dutch airman and submarine crews who have so many extended and vulnerable areas to defend.

"Such material support," the general said, "if given with the least possible delay, could even hold off a large-scale Japanese landing attempt."

It was stated officially that no Japanese troops thus far have landed on Dutch territory. There thus still was no official confirmation that Japanese paratroopers had landed in the Medan area of Sumatra on Sunday.

## Charles Tompkins Is Dead Following Lingering Illness

Charles Jefferson Tompkins, who has lived with his son-in-law and daughter, Mr. and Mrs. A. B. Lowrey, for the past 18 months, died at their home, 717 Park Avenue, at 3:30 A.M. Wednesday following a lingering illness.

Mr. Tompkins was born in Monroe County, Ga., Aug. 19, 1884, and formerly lived in Jackson, Ga., and Forest, Ga. He was a member of the Haywood Baptist Church in Forest.

## Reverend V.H. Grantham Talks To Kiwanis Club

### Says "Christianity Is Only Hope For Our World Today"

Declaring that "Christianity is the only hope for the world," Rev. V. H. Grantham pastor of the First Christian Church, delivered an address that was well received by members of the Kiwanis Club at their last meeting of the year this noon at the Valley Hotel.

Rev. Grantham stated, "We have a greater A than the defense of America," which he said, in effect, was the spiritual salvation of the world.

"We need real red blooded men on the battlefield, but I think the Christian soldier is the greatest soldier that exists. The world is filled with the desire to kill and the desire to make people suffer. Physical salvation is necessary, but spiritual feeling must work or physical feeling cannot endure," Rev. Grantham added.

Guests attending the luncheon meeting were Major J. H. Gray, Capt. Karl Nigler and Capt. T. F. McDaniel. Charles Morrison and Herman Morris were re-elected to honorary membership in the club for 1942, and it was announced that 1942 officers will be installed at the meeting next week.

## Checks Mailed For Dividend Payments

Checks were mailed today in payment of the semi-annual dividend by the First Federal Savings and Loan Association. Secretary James Higgins of the association said today. The dividend was made on the basis of a four percent per annum payment and is the largest amount paid by the association since it was organized in 1924.

## Golfers Will Meet In DeLand To Elect Officers, Arrange Schedule

All Central Florida golf clubs will be represented at a meeting held Monday at 1:00 P. M. at the College Ave. Golf Course in DeLand for the purpose of electing officers and arranging the schedule for the coming year.

The Sanford Country Club will be represented, and it is expected, Mr. Stewart said, that the first tournament of the season will be held at the local club in the past several years. The opening date of play will be Jan. 11.

### Hotel Offered For Emergency First Aid Use

### Station In Longwood To Be Located At St. George Hotel

Mrs. Florence Hunter Clark of Longwood has offered the facilities of the St. George Hotel there to the Philippine Army Defense Council for use as a first aid station, Chairman Dr. C. L. Park of the Health and Housing Division announced today.

Equipment has been received from the United States Army and six first aid stations in the county. The personnel is being selected, and some of the stations have been located.

Other stations will be located in Lake Mary, Lake Monroe and Oviedo in addition to two in Sanford. The Fernald Laughton Memorial Hospital already has been designated as a local station, and two more will be added. Dr. Park declared he "gratefully accepted" Mrs. Clark's offer, and the hotel will be used as the Longwood station.

Stations are needed in Lake Mary, Lake Monroe, Oviedo and two more in Sanford, said Dr. Park, stating that any person who is able to offer a "large" size of a house that can be used as a first aid station, should contact him now. Accommodations are needed immediately, it was added.

## Deferment Asked For Highway Patrolmen

TALLAHASSEE, Dec. 31.—(AP)—The Florida Highway Patrolmen subject to early Army call in the selective service law, are being advised by Governor Holland and cabinet officers serving on the State War Relocation Authority, Executive Board, that the patrolmen are essential in handling military movements and tourist travel on Florida highways during the winter.

## Always Furlough Good Advice, Son

CAMP BLANDING, Dec. 31.—(Special)—A soldier of a Camp Blanding colored engineering regiment wrote home recently telling his mother that he would be home soon on furlough. "I immediately said, 'Don't get any fall, chaplain's assistant in the soldier's outfit—the mother wrote to her son's commanding officer saying 'Please don't let him come home on furlough because it might turn over and hurt him.'"

## U.S. Exhibitions To Be Presented At Fair

TAMPA, Dec. 31.—(Special)—Bringing the American government's defense plan directly to the people, three United States Departments will present exhibits at the Florida State Fair Feb. 8 to 14, General Manager P. T. Strieder announced here today.

The Department of Commerce Department of Agriculture and Maritime Commission have reserved an entire building for the display of displays, secretaries, ship models and educational charts to describe federal operations.

## Mrs. Vanderbilt Is Robbed Of Jewelry

BEVERLY HILLS, Calif., Dec. 31.—(AP)—A robber stole two small pieces of jewelry from Mrs. Gloria Morgan Vanderbilt and her twin sister, Lady Thelma Furness, in the latter's home Monday shortly after a wedding reception for Mrs. Vanderbilt's daughter, Gloria, and Pasquale (Pat) di Cicco.

Detectives said a man, simulating possession of a gun, confronted Mrs. Vanderbilt and Lady Furness, who were alone except for servants, and took a small diamond clip and a piece of Wif-victory costume jewelry. Authorities said value of the jewelry was small.

## The Battle Of The Pacific

(A) Japs made first attempt to establish a foothold in Dutch East Indies. Enemy bombers attacked airport at Merlan as parachute troops were dropped 10 miles away. (B) Action in Malaya—British planes rained the main Jap air base at Patani, across Malaya border in South Thailand, burning at least 10 Jap planes. British were holding 800 miles north of Singapore. (C) Rangoon—400 civilian casualties resulted from the first Jap raid in Burma. (D) Australian bombers set fire to a Jap cruiser off Minahasa Peninsula (Celebes). (E) Philippines—Fighting reported on all fronts on Luzon. Manila was bombed again. Japs landed more troops.

## Banks, Court House, Firms, Stores To Close New Year's

T-morrow when young New Year has stepped in, wearing a smile and top hat and old Father Time has left with lagging footsteps, carrying over his shoulders a scowling Stanford firm and organization will be found observing the holiday.

Government offices, including the selective service office on Second Street, will be closed. Postmaster R. J. Holly said today that since Jan. 1 is a national holiday, no services will be required of either rural or city carriers. Special delivery and perishable matter will be handled as usual and mail will be dispatched from the office the same as on other days. Collection from designated street boxes will be made between the hours of 1:30 P. M. and 2:30 P. M.

Dry goods stores and concerns who handle produce or vegetables which are grown in this vicinity will observe the holiday. The Court House will be closed all day tomorrow, also both the Sanford Atlantic National Bank and Florida State Bank of Sanford.

There will be no critics of The Sanford Herald published tomorrow. The Garden Club will announce the winners in its annual "lighted living Christmas tree" contest which ends tonight, Mrs. I. E. Hoy, chairman of the contest, stated today.

## City Will Install Air Raid Siren At Water Plant Tower

Meeting in special session to clear up a number of routine matters, the City Commission made arrangements Monday night to install an air raid siren at the water plant tower, H. N. Sawyer, city clerk, stated yesterday. The siren will be placed soon for the siren, he added.

Commissioners authorized J. D. Abrahams, water plant engineer, to attend the civilian defense course to be presented by the P. E. U. in Tampa, Jan. 5 to 10. The course will deal with all forms of defense steps to be taken to safeguard lives.

The use of the Mayor's office will be allowed for the conducting of a first aid course by Mrs. Henry McLain, Jr., former colored school teacher, Mr. Sawyer concluded.

## AWEDEN CLOTHES RATIONED

STOCKHOLM, Dec. 31.—(AP)—War-stocked but neutral Sweden Tuesday ordered the rationing of clothes, beginning Jan. 4. To prevent a last-minute buying spree, the government banned the sale of any kind of wearing apparel before that date.

### Invaders Are Six Miles From City

### Tokyo Dive Bombers Control Roads And Have Aired Units

(The Associated Press) An attempt to evacuate 800 seriously wounded Americans from Luzon Island was apparently foreshadowed in the last stages of the 25-day-old battle of Manila today as Gen. Douglas MacArthur's armies fell back under an assault of overwhelming Japanese infantry, tanks, and dive bombers.

An attempt to evacuate 300 seriously wounded Americans from Luzon Island was apparently foreshadowed in the last stages of the 25-day-old battle of Manila today as Gen. Douglas MacArthur's armies fell back under an assault of overwhelming Japanese infantry, tanks, and dive bombers.

Dispatches from Shanghai said the invaders are only six and one-fourth miles from Manila. Simultaneously, an Associated Press correspondent reported that the southern battle line is only a 30-minute drive by automobile from the capital this morning.

Gen. MacArthur, field headquarters announced: "The enemy is driving in great force from both north and south. His dive bombers practically control the roads from the air."

The Japanese are using vast quantities of tanks and armored units. "Our lines are being pushed back."

An Army bulletin said an attempt to evacuate the seriously wounded from Luzon was made on a ship flying U. S. and Red Cross flags. No other details were given.

The War Department today said American and Philippine troops continue "strong resistance, and are inflicting heavy losses on the enemy" in the fierce battle for Manila.

From Tokyo, Dowie reported today that Japanese forces had thrust to less than 20 miles from Manila from the southwest, and were pushing Gen. Douglas MacArthur's troops back to new lines in a drive from the north.

## War Leads All Other Florida News In 1941

(The Associated Press) Florida's tax revision, divorce racket, financial comeback and administration changes—prime news for state papers in an ordinary year—ran poor seconds to war in 1941.

Lacking the lustre of public emotion and dimmed by a storm of far greater magnitude, some of the state's most significant legislation of recent years was pushed to inside pages while national affairs and world conflict took over page one.

Florida, of course, had its proportionate share in the war and preparations for war with its brilliant array of Army and Navy installations and its hero of the first days of Japan's attack, Capt. Colin P. Kelly, Jr.

For strictly Florida news, Gov. Spessard L. Holland's virtually complete control over State matters and his far-reaching program for revising the tax structure stand out among the events of 1941.

Holland, serving his first year as Governor, dominated the State Legislature and received nearly everything he asked of it. His supervision was apparent in nearly every instance of a major Florida event involving politics, taxation, public finance, law enforcement, defense or disaster.

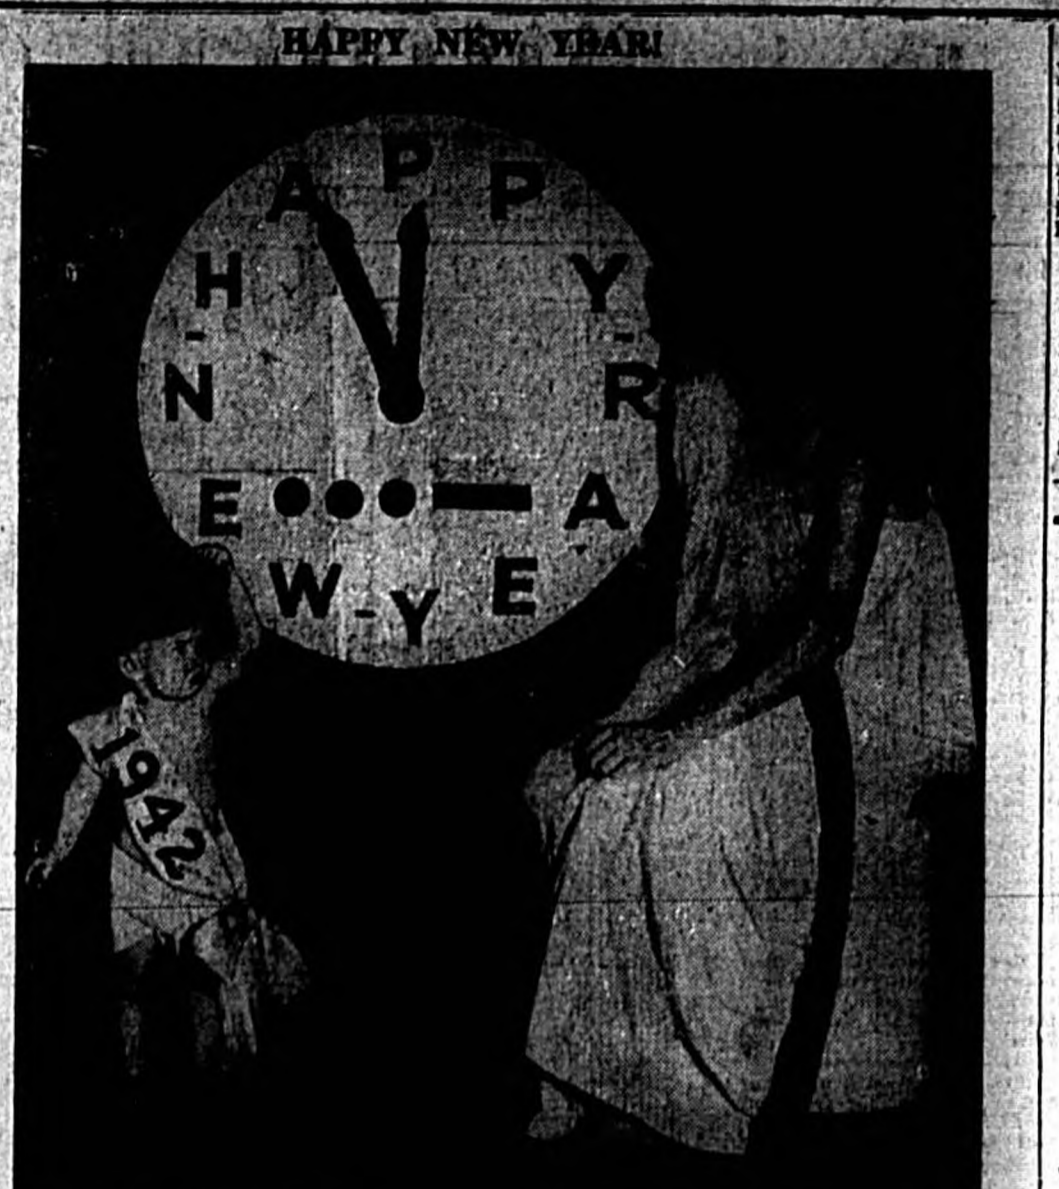

## MILEY SLAYER SENTENCED

LEXINGTON, Ky., Dec. 31.—(AP)—Thomas C. Foy, 31-year-old former convict, Tuesday was sentenced to die in the state's electric chair Feb. 15, for his admitted participation in the slaying of self-starvation Miley and her mother.

Happy New Year!

The prospects for 1942 may not immediately seem to be pleasant and yet we may rest assured that there will be the usual moments of happiness...

WEDNESDAY, DEC. 31, 1941... BIBLE VERSE FOR TODAY... THERE IS A SPIRITUAL LAW OF THIEF...

But withal, there will be the joy of meeting difficult problems and overcoming them. If life were all easy there would be no fun in it.

Throughout 1942, come what may, there will be dances and parties. There will be singing in the streets and in homes.

Life is like that. Napoleon with all his turmoil for a whole generation could not stop that. Neither can Hitler.

Although there are many things which may have proved discouraging to the public as the year of 1941 comes to a close, it may be well to see what happened away back there in first World War days for the folks who stayed at home.

St. Petersburg reports as follows: All Florida cities, so far heard from reported no noticeable slump in business in the winter of 1917-18.

That was also true of St. Petersburg, as analysis of 1918-19 business statistics for the season of 1915-14 were 19,929. They fell off to 11,818 in the following year, and increased to 18,418 in the winter of 1916-17.

Then came a freak season. With America still out of the war and not expecting to go in; with industry humming, and rapid increases in wages, employment, and profits; St. Petersburg had a boom season, with an increase of 50 percent over the previous year.

This unexpected increase took the city by surprise. The town was overrun by tourists, many of whom complained of inadequate accommodations and swore they would never return.

So it was expected that the next season, which followed, would be the worst. The number registered dropped to 16,414. But this was certainly no more than would have been expected, war or no war, and far less than was feared.

Then, as now, wild rumors of a bad season were circulated. "ONE OF THE longest names on record is that of a daughter of Arthur Pepper, a London laundryman. Fordham-Missouri Are Rated Even With Georgia And Duke Favored

The gathering throng milling through hotel lobbies, the French quarter and along gay Canal Street, New Orleans found you had to give odds on either team to get a Sugar Bowl bet down, but there seemed to be more Fordham than Missouri money in sight.

"We're asking you to lay six to five and take your pick," reported one attendant at one of the most elaborate establishments of chance. "Or we will take one point and even money."

Meanwhile yesterday was worryin' day for a couple of gentlemen in the barbecue belt. Reading from left to right, the established browns were the choice possessions of Messrs. Lon Bliner, head man of Ore-

gon State's busy Beavers, and Wallace Wade, who is in the driver's seat for Duke—each brushing up for Thursday's Rose Bowl game.

Naturally, neither of them comes right out in meeting to let the world in on it. But after close and careful study of the complete scouting reports each received from coaching pals, neither Lon nor Wallace knows what the other's cooking, so they don't know just how to set the table to get ready for it.

From Miami, two scores from anywhere football teams with deadly last-minute punches look like sure bets to hold 35,000 Orange Bowl spectators in their seats until the final whistle Thursday.

Those who have examined the season records of Georgia and Texas Christian University won't be pushing toward the exits early if the score is as close as all signs indicate.

Only T. C. U. player definitely out is John Bond, a full back, who is recovering from

a broken shoulder. No new injuries have plagued Georgia since the Bulldogs started practice here, and Coach Wally Butts said after a workout on pass defenses, that "we are as ready as we ever will be."

The Cotton Bowl picture was completed yesterday with the arrival of a grimy determination Texas A. and M. team that immediately went about practice camp with an eye toward winning its third post-season game in three years.

Across town Alabama's Crimson Tide struggled with its pass defense because Coach Frank Thomas, conceding that the Aggies would score several times, wanted to hold the wild Cadet aerial offense in check enough for his hard ground game to meet the issue.

Coach Homer Norton of the Southwest Conference champions met Thomas' prediction with the forecast that Alabama also "will score several times."

Writer Names Boxing Highlight Of Season

By DILON GRAHAM NEW YORK, Dec. 31.—(AP)—FLY thousand fatalities stood shouting as the thirteenth round of a championship fight began in the Polo Grounds last June. A fast, clever boxer had outpointed the ring's superman, heavyweight king Joe Louis, for a dozen rounds; had staggered him in the twelfth.

Gandhi Resigns As Indian Party Head

BARDOLI, India, Dec. 31.—(AP)—Mohandas K. Gandhi, long leader of India's independent movement was relieved of his leadership of the All India Congress party today at his own request. Gandhi decided to retain his freedom to oppose all violence and could not go along with majority of the party's executive committee in a step toward cooperation in Britain's war effort.
