AN EDITORIAL

There are seven candidates in the statewide competition for Governor of Florida for the four-year term beginning Jan. 1, 1957.

When a choice is being made, the important facts to consider are: proven ability; personal strength to cope not only with statewide problems but with national problems and visits to neighbors with more. The meeting fasting only a few that affect our State's economy; the fairness of the candipowerful radio and TV sate upset minutes more than a half-hour date's expressed views; and a well planned, action-filled platform that will benefit the entire State.

Seminole County has, for years, lay dormant, depending Easter Seel sampaign funds was off the sir last night for a a rezoning board at a public hear. mostly on its agricultural products. Roads weren't important, reached a total of \$723.56, Mrs. longer period of time than the ling on the rezoning of French industrial prospects were left for others to consider, and layer or the state of \$723.56 and l Ave property from 18th to 23th growth was something that didn't enter the usual day's thinking.

Beginning with January, 1955 things began to change. commissioners, after a brief ar- There was a different picture in the process of being put together. Roads sprang to life - construction was put into high

It isn't the low price that makes Chevrolet the most popular car going. It's the looks and quality—the ride and roadability—the championship power and performance.

Sure Chevrolet's low price is important. It saves you plenty, when you consider what most other cars cost. But even more important to you are the qualities you get in a new Chevrolet. Like its record-breaking performance (up to 225 h.p.l) and nailed-down stability. These are just two of the things that go to make driving more satisfying—and safer—in a Chevy. Driven one yet? We'll be happy to arrange it.

Money Source Of Problems

Money is a source of endless problems. There are the problems of earning, saving, managing, and safeguarding it. But perhaps the ultimate in monetary problems befell a certain counte we heard about - Mr. and Mrs. Reginald Down,

Their problem began when Mrs. Down nut her husband's shirt, containing \$78.40 in the washing machine. Or perhaps when Mr. Down left his money in his shirt nocket. Or maybe when they nurchased the weshing machine. But that's for them to settle.

At any rate, the washing machine scrubhed and empled most of the money to hits. Inchily, Mrs. Down's suspicions were raised when she saw the corner of a note floating in the soan suds. She summoned her husband who cleaned the machine and disenvered 700 places of the currency, Honefully, he took them to the bank but was told than would have to be nieced together before they could be replaced.

The Downs went to work and six and a half hours leter the 700 pieces were patched into place. The bank exchanged them for crisp, new bills but gave the Downs no borns for their efforts.

There are several modern morals. First, money problems can come in 700 varieties. Second, they don't make money like the kind they used to make. Then it stretched in one or two manageable directions. Now it goes in 700 hewildering ones. Third, washing ma- like to know about a particular interested, either, in agreements with people on Zante He is learn. THE BETEAYAL—Following the Last Supper, Jesus led His disciples to the garden of Getheemane. Thrice, while they slept, Jesus prayed, saying, "O my Father, if this cup may not pass away from me, except that I drink it, thy will be done." Waking the disciples, He told them, "Rise, let us be going: behold, he is at hand that doth betray me." As He spoke, Judas Iscariot, who had plotted against Him for 30 pieces of silver, appeared with "a great multitude with swords and staves, from the chief priests and elders of the people. Now he that betrayed Him gave them a sign, saying, Whomsoever shall I kiss, that same is He; hold him fast," As Judas kissed Him, Jesus was seized and led away to the palace of Calaphas, the high pricet, where the scribes and elders were assembled to hear witnesses against Him.

Joan Collins Says **English Pictures** Lacking In Appeal

HOLLYWOOD & - The trouble with English pictures is that they lack sex appeal. This comes from Joan Collins, provocative young British Import.

The failure of English films to make more of a dent on the Souish market las Las : source of constant concern over there. Ill of Winston Salem, Nr C. are The frank-talking Miss Collins be- visiting Mr. and Mrs, Sidney lieves she has the answer, based Ives III. on her own experience

"R's simply impossible for a girl to get a break in England," she said, echoing a sentiment of another recent import from the Isles, Dana Wynter,

"They're not interested in women in England. They prefer their a shame that girls can't get a parents.

"It's not the people's fault. They're interested in sex. It's the producers. They don't care about making pictures about girls. They prefer to make them shout trains or auto races or bird watchers or the old vicar who is dying of cancer, Marilyn Monroe would never have had a chance in Eng-

What about Diana Dors, England's answer to Double M? "It took Diana 12 years in films

to get where she is," Joan replied. "I know, because she is a friend of mine," But she agreed that Diana is known in this country more by her publicity than her films.

That Joan could qualify in the sex sweepstakes is without question I watched her perform a dance number for "The Opposite Sex," in which she plays the siren role performed by Paulette God dard in the original version of "The Women." She slinked down a stairway and wiggled in as close to the humps and grinds as the censor will allow in films. She also has not one, but two bathtub acenes.

Britain was never like this!

Turned the old woman quickly over on her stomach, pulled the covers up to her waist and pushed her nightgown so that her thin back lay here. If there was one thing Doe had taught her how to do well, it was to give a back rub to a bedridden patient. She went vigorously to work, rubbing and kneading with palms and strong fingers, seeking out nerve centers, relaxing and the stational patient. The stiffness went gradually out the picture for him to see, "This is not going to stare at us sny more in the way he did that day not going to stare at us sny more in the really. Else why would he be kissing her the way he did that day not going to stare at us sny more

The stiffness went gradually out of her patient, gradually the old woman relaxed and resisted Lora's hands no longer.
"You're going to feel wonderful

"You're going to feel wonderful
now," Lora said. "You're even
going to stop being indignant with
me for helping you."
When she had completed her
ministrations and had her patient
covered and warm again, she hurried to the kitchen for a beain of ried to the kitchen for a beam of warm water, winked at the alarmed Ellie, and returned to wash Mrs. Tyler's face and hands and comb her thin, snaried hair. Through it all, the old woman lay with her eyes tightly closed, weak, helpless, with her impotent anger fading in spite of herself.

Lors went to the window. "My father believed in frash air," she

father believed in fresh air," she said as she opened the shutters. Mrs. Tyler drew a deep lungful of cold fresh air and shuddered

Lors laughed out loud. "There! I knew I'd have you feeling better.

MI-WAY 17-93 — 8 Miles South Of Senford Turn West At Red Arrow

RAIN OR SHINE

In this year's Economy Run a new Ford V-8, with Fordomatic was the official victor over every car in its field, with a winning average of 47.7643 ton-miles per gallon. This means that the sturdier, heavier Ford carried more weight, with greater gas economy per pound than any car in its field.

This latest Ford victory was scored over a rough and rigorous 1,468.8-mile route running from Los Angeles to Colorado Springs. The winning Ford threaded its way over the tough and twisting course averaging better than 40 mph. Through the heat of Death Valley and over the chilling height of an 11,000-foot mountain peak . . . through

the gas-eating stop-and-go of city traffic and over the straight-line open road ... Ford proved anew its traditional reputation for economical performance.

The winning Ford was a regular-produc-tion model taken right from the assembly line and officially impounded until the starter's gun sounded. It was no different than thousands of '56 Fords you see on the road and in dealers' showrooms. This proves that Ford, the Performance, Style and Safety leader, leads in Economy, tool That adds up to four big reasons why the '56 Ford is worth more when you buy it, while you drive it, and when you sell it, tool

Florida May Wind Up With Record

TALLAHASSEE .- On the bas sis of preliminary figures released yesterday, Florida appears likely to wind up with a record regist tration of about 115 million voters

for the May primaries.

A tabulation by Secretary of State R. A. Gray showed that Flore ids had 1.199.266 registered voters

as of Feb. 1. Since registration books for the May 8 and May 29 primaries don's close until April 7, this total probably will be boosted by 250,000 to

This was the first time Feb. 1 registration totals have been taken. It was one of the requirements of the 1856 election po
