

SOUTH ATLANTIC PORTS MENTIONS PORT OF SANFORD SHOWING OUR ADVANTAGES

Says Excessive Freight Rates Instrumental to Our Growth

POINTING THE WAY

TO WATER TRANSPORTATION THAT WAS BEING NEGLECTED AND WILL NOW BE USED

The September issue of the South Atlantic Ports Magazine, published for the upbuilding of the American Merchant Marine and the development of Domestic and Foreign Trade relations through South Atlantic ports, carries a department devoted to the St. Johns River Ports development. In this department are articles on the River Ports of Palatka, DeLand and Sanford, showing the many advantages which each possesses, and which advantages if properly utilized will insure the future of these important river ports. The article on Sanford stresses the fact that the excessive freight rates will be primarily instrumental in its future development and its ability to serve Southern and Central Florida, as a result of its geographical location is also brought out in this article.

The freight differentials as between Sanford and points further South have been noted and the attention of wholesalers and jobbers are called to these salient facts. The South Ports Magazine has a distribution amongst a clientele that are recognized as moulders of public opinion, and publicity appearing in this publication will, without doubt, be productive of great results. A cut of the lake front has been reproduced in this issue and shows up very favorably.

The leading article in this issue, under the caption "Permanent Supremacy on the Seas," suggests a plan of satisfactorily disposing of our government owned merchant marine. The plan briefly is to enforce those provisions of the Jones' Act, approved June 5th, 1920, which will permit the profitable operation of our merchant fleet and prevent the unjust competition from foreign sources to which it has been and is now being subjected. The enforcement of the Jones act will also aid materially in making it profitable, once general conditions effecting the shipping industry return to normalcy. The article continues with a proposal for the issuance of merchant marine bonds and the distribution of these bonds on a prorata basis to each soldier and sailor who served in the late emergency and to the next of kin of the boys who gave their lives to the cause for which the fleet was primarily constructed. The plans would necessarily encourage the formation of an organization which could appropriately be called the Merchant Marine Minute Men of America, to consist of ex-service men in every state in the union.

With the ex-service men shareholders in the greatest enterprise ever attempted by any nation, the foreign propaganda would be eliminated which is now being disseminated throughout the country calling for the junking of this fleet, thereby subjecting our commerce to the dictation of foreign operators.

The editor of this publication has requested the secretary of the Chamber of Commerce to bring this suggestion before the local Post of the American Legion in order to ascertain their views on this matter. If the plan is subsequently approved by legislation these shares would be in lieu of the cash bonus which is being advocated for ex-service men and which the secretary of the treasury had advised would prove disastrous financially if congress decides to distribute a cash bonus for all ex-service men.

CONGRESS BILL MAY PROBE KU KLUX KLAN.

WASHINGTON, Sept. 16.—Investigation by congress of the Ku Klux Klan would be proposed in a resolution which Representative Tague, democrat, Massachusetts, announced today he was having drafted for introduction when the house reassembles next week. The proposed inquiry would be made either by a special committee or by the house judiciary committee.

COMMITTEE OF FLORIDIANS FOR NEW FEDERAL AGRICULTURAL CREDITS LAW

(By The Associated Press) JACKSONVILLE, Sept. 16.—T. L. Wilson, of Bartow; D. M. Lowry, of Tallahassee, and W. F. Cochman, of Jacksonville, will be the Florida members on the committee for carrying out the purposes of section twenty-four of the new federal agricultural credits law according to advices received here from Washington.

Japan Will Not Play Unless Coming Her Way—May Balk

(By The Associated Press) TOKIO, Sept. 16.—It was intimated in responsible quarters here today if China declines recent proposal of Japan regarding turning of Shantung over to China which government considers eminently reasonable in nature, Japan may refuse to discuss Shantung question at the coming Washington conference.

MUNICIPAL PRESSING EQUIPMENT IS LATEST INNOVATION IN MIAMI

MIAMI, Sept. 16.—The city of Miami is to have a municipal pressing shop within the next few days, where her five bank president commissioners can get their pants pressed for a nickel or dime whenever they desire. Henry G. Ralston, recently appointed director of public safety, yesterday ordered the purchase of pressing equipment. A shop will be opened, and all policemen, firemen, commissioners and other city officials will be privileged to make use of it.

FATTY ARBUCKLE WILL GO ON TRIAL ON SOME CHARGE

WITHIN NEXT THREE WEEKS SAYS THE DISTRICT ATTORNEY

(By The Associated Press) SAN FRANCISCO, Sept. 16.—Fatty Arbuckle will go on trial on some charge in connection with the death of Miss Rappe within the next three weeks District Attorney Brady announced today.

LOS ANGELES, Sept. 16.—More than forty quarts of liquor were consumed in the party in Arbuckle's suite in the San Francisco hotel that ended with the death of Miss Rappe according to information given federal officials here last night by a member of the party, authorities announced today. It was declared twenty bottles of whiskey were taken in Arbuckle's car from Los Angeles to San Francisco.

Brady said he would make public today his decision whether to try Fatty Arbuckle for murder or whether he will prosecute him solely upon the manslaughter indictment returned by the grand jury. Arbuckle was to be arraigned before the police judge today for preliminary examination on the charge of murdered preferred by Mrs. M. B. Delmont.

FIVE SENTENCED TO LIFE FOR MURDER.

COLUMBIA, S. C., Sept. 16.—Mother, daughter, son and two male friends of the family were sentenced to life imprisonment by Judge Sease, in the Lexington court today for the killing of Marcellus Cook, aged farmer of Lexington county, and the five were brought to prison here today. The verdict was by consent of attorneys on both sides. The prisoners are Mrs. Julia Cook, wife of the dead man, who was charged with having instigated the crime; Ira Cook her son, who cut his father's throat; Minnie Cook, daughter of the slain man, who held his feet while the crime was committed; Henry Wheeler, a young friend of the family, who was said to be engaged to Minnie Cook, and James Barfield, Jr., also a friend of the family, who was accused of plotting the undoing of the senior Cook.

Messenger From Lost Naturalist

This pigeon was picked up exhausted and bedraggled with rain at Columbus circle, New York. Attached to its leg was a note from Dr. Edmund Heller, naturalist, saying he was lost on Hoodoo mountain, Yellowstone. A Wyoming rancher was told by wire to send a rescue expedition at once, and Doctor Heller was found.

LLOYD GEORGE CANCELLED CONFERENCE

BUT HOPES OF PEACE ARE STILL ENTERTAINED BY BOTH PARTIES

LONDON, Sept. 16.—The fact that Premier Lloyd George is suffering from a chill was confirmed at his official residence in Downing street last night. It was also announced that it would be necessary for the premier to remain indoors for a few days.

LONDON, Sept. 16.—Prime Minister Lloyd George last night cancelled the arrangements for a conference of Sinn Fein delegates with himself and members of his cabinet at Inverness on September 20th.

The arrangements for the proposed Irish peace conference are cancelled but the negotiations still are not ruptured. That in brief is the story of yesterday's unexpected and surprising developments.

Emonn DeValera, the Irish republican leader, having reaffirmed his claim to enter the conference as the representative of an independent sovereign state, Premier Lloyd George declares that such admission is impossible. He announces the cancellation of the arrangements for a conference, and the necessity of his consulting his colleagues on the subject.

CASE OF FORMER A. B. & A. MAN RESTS WITH JURY

FITZGERALD, Ga., Sept. 16.—The fate of O. C. Fairfield, one of twenty-six persons indicted in connection with alleged "interference with employees of the Atlanta, Birmingham & Atlantic railroad" rests with a jury in Ben Hill superior court today. Judge O. T. Gower charged the jury at 9 o'clock.

The grand jury, which is investigating the death of Engineer W. T. Reed, who was shot July 5, had not completed its work last night, although more than thirty witnesses appeared before that body during the day.

With three additional arrests yesterday in connection with the death of Engineer Reed, five persons now are held in the county jail on charges of murder. The warrants for these arrests were sworn to by Mrs. Reed.

John L. Lyle, 55, former member of the board of education and former engineer on the A. B. & A., was taken into custody shortly before noon; J. W. Hornsby, 55, and A. K. Hall, 60, also former engineers; Alf Smith and D. V. Myrick, former employees, are others in-custody of the sheriff.

Judge Gower yesterday held that the walkout of former employees of the A. B. & A. railroad was not an issue in the trial of Fairfield, and he sustained the objection of Solicitor General Wall to the effort of the defense to show that the "strike was justified by acts of officials" of that road. The jury was sent from the court room while the lawyers argued this point.

Christy Mathewson, baseball's grand old man, is on the road to recovery, after a heroic fight against the white plague. If organized baseball had more men of Mathewson's caliber the national game would not be wiggling and wobbling in public estimation, as it has been doing for the past two years.

MEMBERSHIP OF LEAGUE MAY BE INCREASED TO 50

ASSEMBLY TO ACT ON PROPOSALS OF POLITICAL COMMITTEE

GENEVA, Sept. 16.—The membership of the league of nations will be increased to fifty if the assembly adopts the recommendation of the political committee which yesterday decided to approve the admission of Latvia and Estonia. The applications of Lithuania and Hungary were put over, the committee deciding to await M. Hyman's on the efforts to settle the Vilna dispute before acting on Lithuania.

Hungary's application will not come up again until Sept. 23, when Count Apponyi arrives to furnish all necessary information to the commission.

The political committee also decided to recommend to the supreme council the inclusion in the eventual peace treaties with Turkey, a clause safeguarding the interests of Armenia.

The finance committee which is scrutinizing the expenditures of the secretariat as well as the labor bureau, yesterday asked Albert Thomas, head of the labor bureau, how it happened that, although the United States is not a member of the league he had a number of Americans on the payroll.

"I found some remarkably capable men in the United States," M. Thomas replied, "and if I can find more like them I will take them on, wherever they come from."

The preponderance of British and French on the secretariat and the labor bureau is being severely criticised by the representatives of the smaller states. The committee will probably recommend that insofar as possible all states represented in the assembly have proportionate representation in the executive organization.

INDICT BELCHER ON TWO COUNTS DEATH OF GIRL

MANSLAUGHTER AND ACCESSORY AFTER EFFECT BY HIDING BODY

(By The Associated Press)

CLEARWATER, Sept. 16.—Dr. S. J. Belcher, was formally indicted today by the Pinellas county grand jury on two counts in connection with the death of Virginia Turner. One count charged the physician with manslaughter and the other with having been accessory after fact in that he had hidden and disposed of the body of the girl. Dr. Belcher cannot be arraigned to plead before Circuit Judge M. A. McMullen because of relationship of Dr. Belcher and Miss Turner to McMullen and it is believed further action in the case must be postponed until the next term of the circuit court. Meanwhile Belcher is at liberty under \$10,000 bail.

The Birmingham Age-Herald boasts that more manuscripts for magazines and periodicals are submitted from Birmingham than from any other city in the United State except New York. The Montgomery Advertiser takes the role of kill-joy and asks what percentage of the manuscripts submitted are accepted.

BRITISH CRUISER DAUNTLESS BRING BACK THE BODIES VICTIMS OF DIRIGIBLE ZR-2

ENGINE DERAILED KILLING FIREMAN CHICAGO & NORTHWESTERN.

(By The Associated Press) CLINTON, Ia., Sept. 16.—Fireman John Johnson, of Clinton, was killed when the engine of the Chicago & Northwestern railway fast westbound passenger train was derailed in a washout near Belleplaine early today. An unidentified tramp was also killed and Engineer Thomas Lea was badly scalded.

El Paso Against K. K. K., Forbids Masks Being Worn in Public

(By The Associated Press) EL PASO, Sept. 16.—The city council adopted on the first reading an ordinance forbidding public gatherings or demonstrations of masked persons. Permits from police chief are necessary for masked balls or carnivals. Supporters of the ordinance say it is aimed at the Ku Klux Klan.

CALIFORNIA WINTER BASEBALL LEAGUE.

(By The Associated Press) BOSTON, Sept. 16.—The California winter baseball league will look like a major league this year. Ty Cobb announced here last night that he would manage the San Francisco club, going to the coast immediately after the American league season closes. Geo. Sisler will manage the Vernon club, Rogers Hornsby, the Los Angeles, and I understood that Harry Heilmann will probably be manager of the Oakland club.

CONVICT TWO MEN OF DYNAMITING NEGRO HOMES

ORLANDO, Sept. 16.—William Moore and Frank Sanders of Ocoee, were found guilty yesterday in the criminal court on a charge of dynamiting a negro house in Ocoee several weeks ago. Judge Warlowe announced that he would sentence the men some time today. The maximum sentence for the punishment is twenty years' imprisonment, while no minimum is mentioned in the statute. State's Attorney Joseph H. Jones assisted the prosecution.

The jury deliberated about thirty minutes before bringing in the verdict of guilty.

FLORIDA FARMERS IN LINE FOR PART OF NEW AGRICULTURAL CREDITS.

WASHINGTON, Sept. 16.—After a conference heretoday between Senator Fletcher of Florida, W. F. Cochman of Jacksonville, and members of the War Finance Corporation here today, it was announced that arrangements had been perfected for giving the state of Florida three members of the committee and Georgia two, for carrying out the purposes of section twenty-four of the new agricultural credits law.

The three Floridians are: W. F. Cochman of Jacksonville, T. L. Wilson of Bartow, and D. M. Lowry of Tallahassee. The names of the Georgia members have not yet been announced, but it is learned that the chairman will be a prominent Atlanta banker. The headquarters of this committee will be in Atlanta.

Under the law \$1,000,000,000 will be loaned by the committee to agricultural and livestock interests.

Senator Fletcher said today that the naming of three men from Florida and two from Georgia on this committee with headquarters in Atlanta, would place the people of that section in an excellent situation to secure part of this government fund. It is possible that even a lower interest rate than 8 per cent may be secured, 6 per cent of this being charged by the War Finance Corporation and 2 per cent by the banks. If the latter reduce their charges the net result to borrowers would be decreased to that extent.

Bodies of Sixteen American Naval Officers and Men

BROUGHT HOME

CONVOYED BY AMERICAN BATTLESHIPS FUNERAL SHIP ARRIVED TODAY AT N. Y.

(By The Associated Press)

NEW YORK, Sept. 16.—Convoys by American battleships, destroyers and aircraft and marked as a funeral ship by half-masted colors, the British cruiser Dauntless arrived here today from England with the bodies of sixteen American naval officers and men, victims of the ZR-2 disaster. The Dauntless was met far out at sea this morning by the American flotilla and with American destroyer making way the cruiser, followed by other American vessels and with seaplane flying overhead will pass up Ambrose channel to New York navy yard. As soon as the Dauntless is moored the bodies will be removed to temporary chapel to rest until tomorrow when full honors will be given the dead airmen.

After the services the body of Lieutenant Coil will be taken to sea on an American warship and somewhere off the coast will be consigned to the deep in accordance with his wishes. The bodies brought home today included all but one of the Americans who were on the dirigible when it was destroyed. The exception is Rigger, Norman Walker, who escaped with his life but is now in a British hospital.

The Dauntless arrived off Sandy Hook this morning but expected to wait outside the harbor until afternoon for high tide.

Louisville Bans Meeting of Ku Klux Klan, Says Nothing Doing

(By The Associated Press)

LOUISVILLE, Ky., Sept. 16.—The Board of Public Safety today served notice on all citizens to remain away from the proposed meeting of the Ku Klux Klan Sunday night and warned owners of public buildings not to grant their places to the organization. "Should any attempt be made to hold a meeting in defiance of this order" the board's announcement says, "any person who attempts to attend it will be regarded as an unpatriotic citizen and law violator and will be dealt with accordingly."

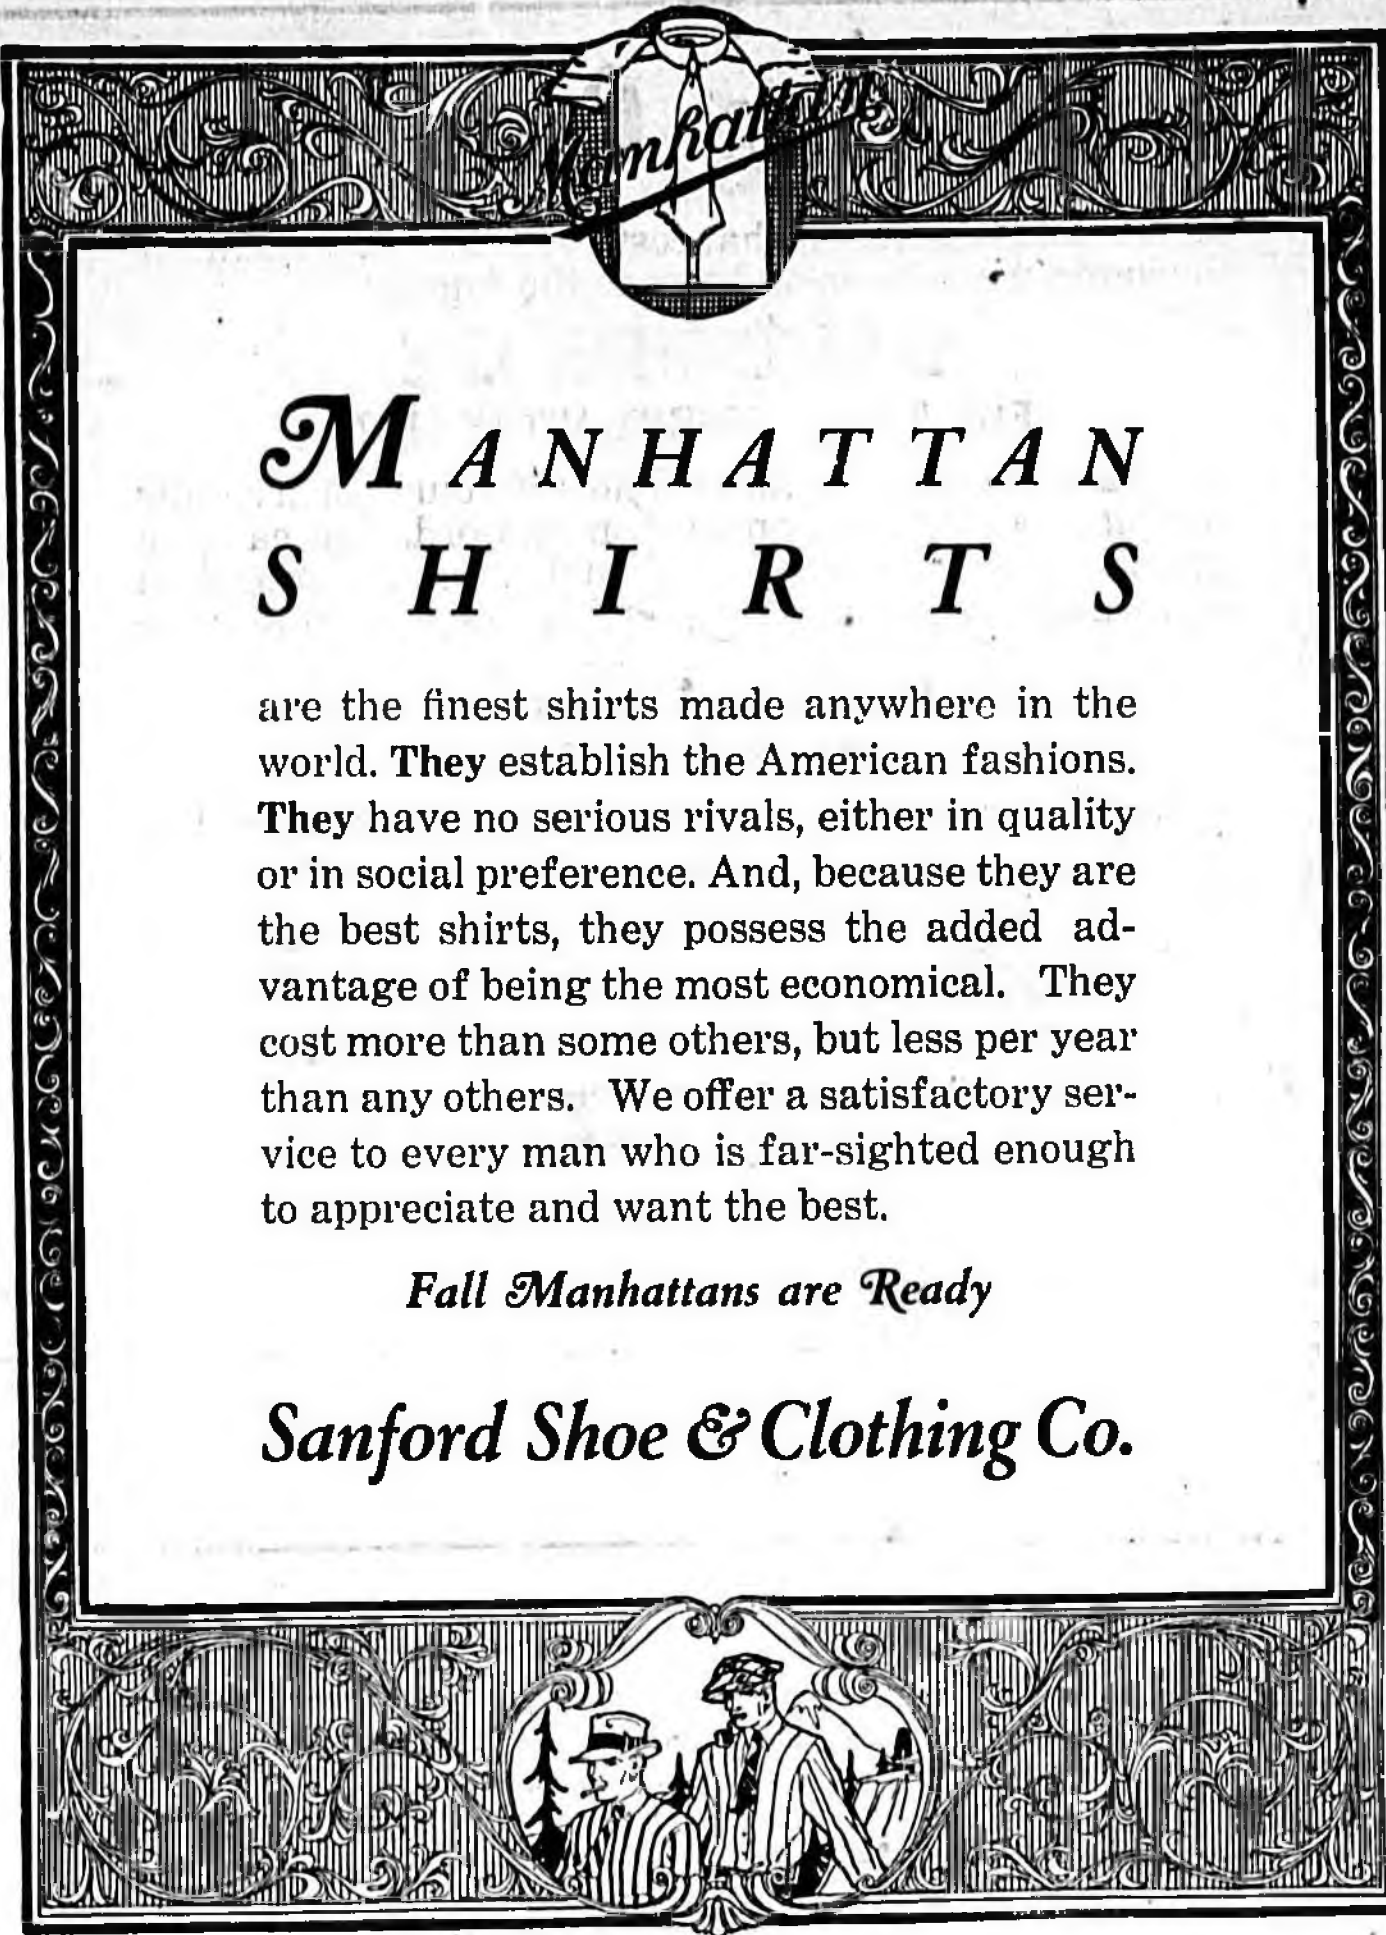

MAY MAKE WINES AT HOME SAYS LAW. HOMBSHELL EXPLODED.

WASHINGTON, Sept. 16.—Internal bureau officials frankly acknowledged today that heads of families may, upon filing of notification with local revenue collectors, manufacture 200 gallons of wine yearly for home use. Treasury regulations making effective such a construction of the law were issued by Internal Revenue Commissioner Roper upon the authority of Secretary McAdoo in October, 1918, and because of the general lack of public knowledge respecting the provision congress never has enacted legislation nullifying it, officials said.

The law applies specifically to exemption from payment of tax officials pointed out, but in its application makes manufacture of wine at home possible provided the manufacture is by the head of a family and the wine produced be not sold or otherwise removed from the place of manufacture.

Among more than 5,000 letters received recently seeking information as to permits for the making of "home made wines" or non-intoxicating fruit juices, were those of at least a dozen clergymen, the internal revenue bureau announced today. The force has been swamped with correspondence since announcement was made that heads of families may make 200 gallons of wine yearly for home use provided a permit is obtained.

were shown with exquisite grace on the youthful forms of the Misses Mildred Holly and LeClare Jones. With equal delight one admired the handsome suit with which was worn a chic little turban featured by Miss Holly; and the pretty afternoon frock of crepe satin, garnished with coral beads with its lovely accessory, a hat of red duvetine and metallic flowers, exhibited by Miss Jones.

The happy blending of colors and the appropriate hats worn with each costume; small hats for morning and sport wear; big hats for afternoon, and gay, brilliant hats for evening, accentuated the charm of the whole show.

For their vaudeville numbers Miss Holly wore a lovely girlish evening frock of blue taffeta. Taffeta has been especially chosen this season in picture frocks for young girls. Her song was a charming selection of the vaudeville group.

Miss Wimbish danced in a becoming Grecian costume of rainbow hues with a Grecian head-dress that was adorable. The sinuous grace of the lithe young body, was the very poetry of motion.

The parade of fashion embraced the fall's most enticing models in all fabrics. Normandine, Ravenna, Andrea, Bolivia, Velours and duve-de-laine, in coats and colors including sorrento, brown, beaver, Harding blue and many others.

No matter what your style-wish may be or what your purse dictates, you can find a pleasing coat style in the display. Suits are featured in Tricotines, Poiret-twill, Serges and Monsayne, the latter a high grade wool material that is catching the popular fancy.

There are practical pretty frocks for every call of the season, refreshingly youthful in line. There is much charming use of fringe and beads; and of contrasting colors of ruffles and sashes there is seemingly no end.

Fashion decrees for afternoon and street wear beautiful dresses fashioned in Cariton crepes, serges, crepe-back satin, Poiret twills and satin-faced canton crepe, beaded and embroidered, that have a distinctive new sleeve that marks the latest fall styles.

A charming model was shown in crepe-back satin which had trimmings of the reversible side with straight bands edged with lace, decorating the lower part of the skirt in horizontal fashion. This was worn by Mrs. Wight.

Not much velvet was shown but metallic brocade holds a place of power for evening and also for bodices joined to other fabrics. Steel beads and brilliant devices, notably in red leather to attract attention, is used in sergo combinations. Fur is used for bands and simply treated. The Oriental touch is seen on many frocks. Black in combination with colored brocades for bodices or worn with girdles in brilliant lines, is fetching and altogether desirable. The Peggy Paige dresses, shown exclusively by the Baumel Specialty Shop in Sanford are the embodiment of all that Paris has dictated for fall.

Distinctive features of the new creations are the sleeves. They not only cover the arm, but the wrist and often droop downward to the knees, introducing the famous Jenny, the DuBarry and Bell sleeves in their variety of enticing lines. The rich autumn colorings of the trimmings are decidedly appealing.

An especially unique model of Peggy Paige designs is of navy Poiret twill, heavy red leather embroidery trims the sleeves and panels. The red leather color and sleeve-cape harmoniously blending. Mrs. Lloyd displayed this frock.

Fascinating and entrancing are the words that fittingly describe the evening gowns in their sunset colors. The designer seems to have caught the rays of the setting sun; borrowed the tints of a marvelous sunrise and dipping into brilliant reds with the hand of a prodigal, have transferred them to fabrics, as an artist would transfer his colors to canvas. Georgette crepe is used in a lavish manner for the splendid beading or crystal work that forms the conspicuous feature of the frock. Beaded nets, taffetas and laces are popular favorites, suitable alike for the matron, the young society debutante and the high school junior.

Baumel is showing an amazing style and value group of blouses that reflect the very best taste in design, made up of the choicest fabrics in all the beautiful colors so much in demand this fall.

And the hats! They are the latest note in style and beauty sponsored by the leading milliners. Among them will be found the sphinx and Elzee models; the Samuel Ach and Kaas beauties, made up in duvetine, velvets and hatters plush. The picture hats are dreams of loveliness with their feathers and flowers. The trim tailored lines of smart turbans and sailors; the feather turbans, and glossy coque feather hat will be found in the newest designs. Catering to the women's trade exclusively the season's novelties and lingerie, the charming negligees are attractive and appealing

Miss Daphne Wimbish was a winsome figure in the Peggy Paige Pettie models for young girls and small women. Especially pretty was an afternoon frock of black satin designed on fashionably straight so very becoming to girlish figures and a deep fringe of jet and white beads accentuate these lines.

Miss Esther Miller's gracious personality, enhanced with peculiar emphasis, the lovely black dinner-gown of georgette and Belgian lace with its jenny neck and lienna sash and facings.

WEATHER REPORT.

Weather and Crop Conditions in Florida For the Week Ending September 13, 1921.

Temperature:—The week was continued moderately high temperatures over most of the section; maximum were well up in the 90's on several days.

Precipitation:—While showers fell in all divisions droughty conditions persist over the section, except in some localities in the central west, and locally elsewhere. The need of rain is decided on uplands. The greatest amounts reported fell in Dade, Hillsboro, Orange, and Hernando counties.

Condition of Crops:—The week was a trying one in some portions of the section where no rain has fallen in more than two weeks. The weather was ideal for cotton picking, much of which is open with picking active; ginning is backward. Truck is generally backward—both seed beds and

that recently planted. The weather is too warm and dry for the setting out of celery. Sweet potatoes, especially on uplands, needs rain as do cane and citrus fruits. The latter made fair progress on low lands, but the need of rain on uplands is pressing. The weather was ideal for haying and harvesting the corn crop, which continues in northern counties. Cooler weather and moderate, although widely distributed, rains would improve the soil and the condition of all crops.

To handle cargoes of grain at whatever port a ship may land in England suction unloading apparatus has been mounted on two railway cars.

The cleats on a new tractor wheel can be withdrawn by levers until they are flush with its surface, preventing injury to improved roads.

The Spanish government will form a permanent commission to plan the construction of a national system for the distribution of electricity.

to the dainty fastidious woman of fashion. She can revel in a riot of color and richness of texture, daintiness and substantially among the remarkable gathering of coats, suits, afternoon and evening gowns, and in fact, lady's wardrobe may be replenished from the sole of her shapely foot, to the crown of her pretty head, at the Baumel Specialty Shop, "where style reigns."

The attractively arranged stage formed an appropriate setting for the gorgeous display of fashion and beauty, arranged and conducted personally by Mr. and Mrs. Baumel, whose advent into the business life of Sanford is regarded as an acquisition to be appreciated. In addition to the joy of the fashion show a most delightful and entertaining vaudeville program was rendered throughout the evening including enjoyable musical selections by Fellows' orchestra, and embracing some of the best local talent. A popular hit was the concluding parody on the song, "I Never Knew" composed for the occasion by Mr. Allison and Mr. Baumel and sung by Mr. Allison. All the numbers were excellently rendered and were received with appreciative applause. The entertainment program follows:

PICNIC BIRTHDAY PARTY

Mrs. A. E. Hill entertained most delightfully yesterday afternoon at a picnic and swimming party in compliment to her grand daughter, Miss Olive Newman, the occasion being her fourteenth birthday anniversary. Misses Mildred Holly, Mary Elizabeth Puleston, and Emily Griffin and Harry Woodruff also shared honors, it being their birthdays.

The merry group of young folks met at the home of Mrs. Hill, going from there in a large truck to Crystal Lake, where swimming, games, tug-of-war, skipping rope, boat rides, swimming matches, etc., were enjoyed until late in the afternoon when a large picnic luncheon was served. After supper the guests enjoyed dancing at the home of Mr. and Mrs. Fred Williams at the lake. A Victrola having been brought out early in the day.

A large birthday cake with all the symbols baked in it afforded much merriment. Harry Woodruff finding the quarter and Robert Jenkins the thimble. As the honorees cut the cake each gave a witty toast.

Mrs. Hill was assisted in entertaining the young folks by Mr. and Mrs. D. L. Thrasher, Mrs. R. E. Newman, Mrs. W. C. Hill, Mrs. S. Puleston, Mr. and Mrs. Fred Williams, Mrs. J. E. Pace and Mrs. LeGette.

SACRAMENTAL WINE HAS 30 DAYS LEFT.

WASHINGTON, Sept. 16.—Distribution of wines for sacramental purposes by wholesale dealers is to be permitted for thirty days more, Commissioner Blair said today.

Regulations restricting the sale of liquors at wholesale to manufacturers and wholesale druggists were suspended so far as they applied to wines for religious purposes until September 15, and pending final determination as to the status of sacramental wine dealers. Mr. Blair said the further suspension was granted.

Two hundred and sixty-three manufacturing establishments in Tampa increased the value of raw materials in process of manufacture \$25,188,000 in 1919, according to the preliminary report of the federal census bureau announced today.

This report contains the following important figures: Persons engaged in manufacture, 14,251; proprietors and firm members, 306; salaried employees, 908; average number wage earners, 13,079; primary horsepower, 7,513; capital, \$38,824,000; services, \$18,809,000; salaries, \$2,305,000; wages, \$14,534,000; materials, \$17,273,000; and value of products, \$42,461,000.

For home use a phonograph and motion picture machine have been combined in a single cabinet.

UPSALA AND GRAPEVILLE

What beautiful summer weather, but we are needing a good soaking rain badly. Some of the groves the leaves of the oranges are curling from the drought.

Mrs. J. A. Vaughn was quite sick for a few days last week with stomach trouble and the doctor was called to attend her.

Mr. and Mrs. Neil Swanson have purchased themselves a fine new touring Ford and last week, A. F. Wester-dick built for them a new garage.

We understand Clarence Bergquist is now a full fledged tire man, having finished his four years' apprenticeship at the A. C. L. shops. That's the kind of boys the world needs that is not afraid of work and can stick to a thing once well begun.

Mr. and Mrs. August Swanson and Archie, moved last week and the first of this, into their own new home in Grapeville and are now busy getting settled.

Mr. and Mrs. Barney Beck entertained their parents—Mr. and Mrs. Wester-dick and V. C. Collier, of Sanford, on the evening of the 6th, in honor of the birthday of the host, with a supper party with cream and cake as a treat.

Mr. and Mrs. Ambrose spent Labor Day with her mother, Mrs. Perry, at Palatka, their little daughter, Roberta returned home with them.

Mr. and Mrs. A. L. Campbell spent a recent week-end with her mother and sister, at St. Augustine, and are now planning a trip to visit his mother in Indiana.

Mr. and Mrs. Lucas and their two little ones, from Longwood, and the minister from Orlando, were dinner guests on Saturday at the home of Mr. and Mrs. Wester-dick.

On Sunday Alfred Ericson motored down to Orlando with Mr. and Mrs. Emil Magnuson as it was thought best for Mrs. Magnuson to enter Dr. Christ's hospital after an X-ray examination here. Her many friends and relatives are hoping after the operation which she will undergo next week that she may regain her usual health. They also went down to see her on Monday.

Rev. Clark will preach for us Sunday at Upsala at 3 o'clock. We liked him so well we shall be glad to hear him again. We understand that he was long a missionary in Alaska lately coming here with his family from California. Mr. Ericson kindly offered to bring him over from his home near the Orlando road.

LONGWOOD

Miss Ellen Fuller left Sunday for Tallahassee, where she will enter the Florida State College.

Longwood is the proud possessor of a brand new postoffice which they moved into last Friday.

J. S. Dinkel was transacting business in Sanford and Orlando Saturday.

Mrs. Hutchenson and children of Quincy, is the guest of Mr. and Mrs. William Allen.

Mrs. S. A. Wilkinson and baby, of Tampa, are visiting her parents.

P. B. Truett has moved into his store in South Longwood.

The Longwood school will open October 3rd, with Mr. Miller, of Uniontown, Ohio, as principal. The primary teacher is to be appointed later. Miss Omah Allen entertained his house guests, Friday evening, at the library. Games were played and cake and punch was served.

C. W. Entzinger, Louis Entzinger and J. F. McGhaney, were visitors in Sanford Monday.

Friends of Tunis Lewis will regret to hear he is in the Fernald-McLaughlin hospital.

Louis Entzinger returned from Tampa Sunday, J. T. McGhaney returning with him.

Harry Phipps is the guest of his brother, J. E. Phipps, for a few days.

Mr. and Mrs. Frank Topf, of Orlando, were visiting Mr. and Mrs. A. Y. Fuller, Wednesday.

Mrs. J. H. Allen has been having her store building remodeled and enlarged, and moved into the new part this week.

INGENIOUS AND MODISH

Among the new suits for fall and winter there are none in which the season's style features have been used to better advantage than in the model illustrated. Its coat is of medium length, with embroidered panel at the front and the much-admired bell sleeve. It is trimmed with a band and a collar of fur.

IN RED AND BLACK

The vogue for black has made such an impression on the world of fashion that designers of children's clothes have taken advantage of it in the production of new things for fall. It appears in this pretty dress with its waist of black tulle silk and hand embroidered dots of red. The skirt is red and black Scotch plaid with a wide belt that folds over a narrow black sash of fine ribbon.

GOVERNOR PRESENT AT OPENING DAY OF COLLEGE FOR WOMEN.

TALLAHASSEE, Sept. 10.—The formal opening of the Florida State College for Women took place with Governor Hardee, other state officials and ministers of the city offering the students a welcome to Tallahassee. Dormitories were opened Monday and since that time young women from all parts of the state have been arriving on every train. Registration of new students took place and with the opening exercises to be concluded, everything will be in readiness for the beginning of class work at once. It is expected the total enrollment will be approximately 750.

USE SULPHUR TO HEAL YOUR SKIN

BROKEN OUT SKIN AND ITCHING ECZEMA HELPED OVER NIGHT

For unsightly skin eruptions, rash or blotches on face, neck, arms or body, you do not have to wait for relief from torture or embarrassment, declares a noted skin specialist. Apply a little Mentho-Sulphur and improvement shows next day.

Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation. The moment you apply it healing begins. Only those who have had unsightly skin troubles can know the delight this Mentho-Sulphur brings. Even fiery, itching eczema is dried right up.

Get a small jar from any good druggist and use it like cold cream.—Adv.

ACCESSIBILITY BUSINESS OPPORTUNITY PROGRESSIVENESS COMPETITION LOOKING AHEAD

LOOKING AHEAD is one of the important subjects in our series. Ahead we can see a City of 25,000 and build and live to fit the niche.

THE FUTURE of any City Substantial depends largely on the growth and success of its retail business houses, and such growth will be impossible unless HOME PATRONAGE is practiced by the people of the community.

ASK YOUR MERCHANT first if he can't supply your needs and if he can't tell him it will be necessary to send out-of-town. Then when another article is needed endeavor to secure it again and if not successful tell him again you must patronize outside firms. This intent on your part helps the merchant supply the demand.

LOOK AHEAD by patronizing home industry and the city that helps the community.

WILL KU KLUX DISBAND ORDER IS NOT GENERAL BUT HITS TENNESSEE.

BRISTOL, Tenn., Sept. 10.—Official disbandment of the Knights of the Ku Klux Klan was ordered last night it was announced by officers. The reason for the action was not made public.

Although the above dispatch reporting the order for the disbanding of the Knights of the Ku Klux Klan is vague and indefinite indications are that the order has been given only in the town of Bristol and does not affect the order elsewhere. No word could be obtained last night from William J. Simmons, Atlanta, imperial wizard of the Klan.

It is probable, also, that the alleged expose recently published by the New York World and the growing sentiment against the Klan had something to do with the order for disbanding.—Tampa Tribune.

DERANGED MIND MADE UP STORY OF ATTACK BY CATTLE RUSTLERS.

BISBEE, Ariz., Sept. 16.—The story of a brutal attack on Miss Sadi Champion by cattle rustlers believed to be Mexicans, as related by her last night, was the result of a disordered mind caused by injuries sustained when her horse fell on her, officers investigating the case declared today.

The horse became tangled in a barbed wire fence, which scratched the girl about the face and otherwise injured her as she fell, they said. No cattle are missing from the ranch, the officers said, and the girl has denied parts of the story as she regains her mental composure.

JOE EARMAN WILL SERVE AS JUDGE OF MUNICIPAL COURT.

WEST PALM BEACH, Sept. 16.—Joe L. Earman, formerly president of the State Board of Health, and former newspaper publisher, has announced his acceptance of office of municipal judge to which he was appointed by the city commission. Earman served as judge for a period of eight months some time ago.

"I serve notice that as judge, I shall know no friends and no enemies," Mr. Earman said in announcing his acceptance.

"I am going to stick to the law, and let the fines and sentences fall where they may. It won't do a bit of good for any one to come trotting around to my private office to try to fix things up. I shall mix common sense with law but no sentiment or personal feelings."

Mr. Earman first was mentioned for the office at a meeting of citizens in North Borough on August 31, who named him as their candidate for the position. At that time Mr. Earman, when informed of the action of the meeting, said:

"It is a proposition that makes more enemies than any other public office in Palm Beach county. A man practically sacrifices himself, provided he does his duty. I pretend to be honest, and during my eight months as judge I find some of my best friends. Some of them took it as they should, and others hate me to this day."

GUARANTY BANK AND TRUST COMPANY WILL REOPEN BUSINESS. What are believed to be plans for the rehabilitation and reorganization of the Guaranty Trust & Savings Bank, Bay and Ocean streets, which closed its doors a week ago to untangle its financial affairs, are being considered by a committee representing the Jacksonville Clearing House. The committee has been deliberating for several days, it became known Tuesday. It is headed by Charles H. Mann, chairman of the board of the Citizens Bank. Its membership is said to embrace representatives of all local banking houses. Monday's session of the committee

STATE NEWS TAMPA—James H. Tucker, foreman of the press room of the Tampa Times has just completed his fourteenth year without losing a day, or even part of a day, from work and by way of making it a mark for others to shoot at, he never been late on the job during the entire time. Tucker was ill once during the influenza epidemic—his illness during the fourteen years—but it didn't keep him from work. He came to the Times as press room apprentice, janitor and general factotum. In those days the Times was printed on an 8 page Cox Dup'x press, with impressions directly from the type. The paper owned only two linotypes and delivered its editions to the postoffice in a hand truck. The Society Editor was assistant bookkeeper and D. B. McKay, the publisher, himself set type in rush periods. Tucker's wages were \$7.50 a week and not belonging to a union then he worked twelve hours daily. He was promoted by degrees until three years ago when he was made foreman of the press room. Tucker now works only eight hours a day and received several times the wages of fourteen years ago. He lives in his own \$7,000 home and goes to work each morning in his own automobile. He says he will take a vacation some day when he feels he is in need of one. WEST PALM BEACH—One sixteen year old lad of this city had changed his opinion of the police. Policeman H. L. Verner last Saturday night, acting under directions from Chief Mathews to pick up all vagrants, took the boy into custody. The lad, who had all of the appearances of being homeless, was taken to police headquarters for investigation. The boy said he and his father had started from Detroit for Florida but the going becoming hard the father deserted him in Georgia and left him to shift for himself. The father had spent last year at Lake Worth, he said, so he set out for that place and had nearly reached there when the officer picked him up. He had made his way south on foot, with an occasional lift by passing motorists, and was worn out when he, with his pathetic little bundle under his arm, ran afoul of Verner. He was hungry, too, and the first thing the policeman did when he learned of the pangs of hunger was to fill up the hollow spaces with a good meal. The one thing that impressed Verner was the cleanliness of the boy. Even after the long, hard journey, the young fellow had managed to find a place to bathe and preserve an appearance of tidiness. He was intelligent and there was nothing of the hangdog about the way he looked at one. He met the gaze of Verner squarely while he told a straightforward story of how he happened into the plight in which he was found, and these won for him the help he needed. Verner took the boy to a houseboat he has at the lake and Monday morning got busy and found him a job in a restaurant where he will get his room and board and enough money to make himself supporting. Insted until 10 p. m. but no conclusions have yet been reached. Chairman Mann declined to discuss the matter Tuesday, but admitted that the committee had not reached a final decision. W. M. Bostwick, president of the Guaranty Bank, likewise, declined to talk. However, it is said, the committee is nearing a solution of its problem and a formal announcement will be forthcoming shortly. According to R. A. Gray, representing the state comptroller at Tallahassee, who closed the Guaranty Bank at the request of its board of directors, his work is about half completed. A large clerical staff is engaged in a mass of detailed work which Mr. Gray said remained to be done. The investigation, he said has revealed nothing out of the ordinary, but he declined to enter into a discussion of the findings thus far. In the opinion of Mr. Gray a plan will be evolved by which the bank will be re-opened. He expressed the belief that all depositors and stockholders will be taken care of. Mr. Gray would not discuss the reorganization plans, saying he was not at liberty to make any statement at this time. The general belief is that the bank will soon be reorganized and throw open its doors for business. In the meantime, depositors are marking time, and awaiting developments.—Jacksonville Metropolis. Everything is showing the touch of
 propriety in this guide.
 Nothing like the old times, cleaning
 up the yard, putting on new
 trimmings. It shows pride in your
 city.

One of the biggest days ever will
 be the Merchants' Gam Day, on Sep-
 tember 27, at which time there will
 be one of the greatest thrills that have
 ever thronged Sanford. They are
 coming. Get your stores ready.

Some people think it takes nothing
 to operate a daily paper. Or rather
 they seem to think it is no more
 than a job. They do not think and yet
 all of us go right on thinking. Think
 about it.

Sanford cannot hold on longer than
 most sections of the country, on
 account of the flowing well, but San-
 ford, along with the balance of the
 state, needs rain just now. And the
 weather man says, "fair and warm-
 er."

We are not inclined to doubt the
 goodness of this old world just be-
 cause a few tragedies occur here and
 there. We are still responsible for
 our children regardless of the trend
 of the time and the teachings in the
 home life of the child will usually
 predominate in after life.

Some people attribute the "wild
 night life" to illicit booze. This, prob-
 ably comes from the anti-prohibition-
 ist. Some people attribute the crime
 wave to booze alone. This is the rabid
 prohibitionist. Some people attribute
 the present day expenses to post-war
 conditions. In this they are partly
 right. But the fact remains that too
 many people have gotten away from
 old time religion and taken up too
 many "isms and ics" and other hal-
 lucinations (as it paraded) for what is
 supposed to ail them. Wherever there
 is real religion there is little crime,
 and you can mark that down in your
 hat.

BEING LED INTO THE WILDER-
NESS.
 We had placed great hope in the
 "ship by water" conference, held at
 Orlando Tuesday night. Palatka
 interested in this great problem of
 traffic thought that something con-
 crete for the establishment and main-
 tenance of a water transportation sys-
 tem from interior Florida to tide wa-
 ter would be proposed. But according
 to reports there was but a reiteration
 of an understanding that has existed
 for many years that utilization of the
 St. Johns river for central Florida will
 go a far way today in the solution of
 traffic problems, a citation of the mil-
 lions lost through failure to utilize the
 river, a very substantial enshrinement
 of Sanford as a "port" and a prevail-
 ing motion that steps be taken to en-
 courage fruit and truck growers to
 ship by water. To this end another
 meeting will be held two weeks hence
 when plans for getting the message to
 the growers will be submitted.
 In the meantime Sanford is busy
 printing banners with "Ship By Wa-
 ter" on them, and just beneath this
 slogan is "By Way of Sanford."

But if Sanford wants to do a prac-
 tical thing, and if Orlando statisti-
 cians who loaded the atmosphere with
 figures Tuesday night will first insure
 a retention of the present river rates,
 or even of lower rates, they will have
 accomplished a great deal. Conspic-
 uous along the side lines were officials
 of the Clyde Line. They must have
 rubbed their hands in glee as they
 watched all live wires rushing in as
 commercial soliciting agents for their
 line while there reposed at Tallahassee
 a Clyde Line petition to the railroad
 commission for permission to increase
 rates on the river between Sanford
 and Jacksonville that will practically
 place Sanford's water rate on the
 same basis as the rail haul. And then,
 when the water rate is up, the rails,
 it is reasonable to suppose, will go
 up again. In fact this is already pro-
 posed, for Sanford can find in the last
 proposed increases that her rail rates
 were advanced about five to ten times
 as much as were Gainesville's and
 some of the other interior points.

Doesn't Sanford and Orlando know
 that the "interlocking directorates"
 between railroads and steamer lines
 control the Clyde Line, and that when
 they begin prying up the rates so
 that there will be no such thing as
 competing water rates nothing will
 stop them but the establishment and
 operation of independent boat lines
 from interior points to tidewater?
 Didn't they see the Clyde Line officials
 broaden their smiles as the clamor
 for "ship by water," grew into a din?

Until there is a transportation line
 operating on the St. Johns river,
 which is not controlled by the rail-
 roads, and which is operated at a
 reasonable profit the benefits of a
 "ship by water" movement can only
 be enjoyed at the pleasure of the
 controlling "interlocking directorates."
 Palatka has an independent boat line
 between this point and Jacksonville.
 Several mishaps and bad manage-
 ment, at times, have not made it a
 flattering financial proposition, but
 with a union of shipping forces to
 keep it busy, and with a determined
 effort on the part of shippers to uti-
 lize its services it can be extended un-
 til it will serve all of the territory
 by cutting from prohibitive trans-
 portation charges.—Palatka News.

You may be right in your surmises
 but you are wrong in the theory that
 Sanford and Orlando are asleep on
 the job or that they are working sple-
 didly for the Clyde Line or any other line.
 What Sanford and Orlando are work-
 ing for is to get all the traffic on
 the river that the steamers can carry
 —get the people into the idea of ship-
 ping by water first and then if the
 Clyde Line raises the rate there are
 other boat lines ready to take the job.
 The river is free, it belongs to no cor-
 poration and anyone can operate a
 boat line on the St. Johns river and
 had you been at the meeting at Or-
 lando you would have heard it said that
 after time that the fruits and vege-
 tables would be barged to Palatka
 and there meet the ocean going ves-
 sels. That is our idea all through,
 should the Clyde Line raise rates or
 any other line raise rates and our
 river is our strong point—it is never
 up to the people as to whether they
 want it themselves or want the cor-
 porations to have it all. But mean-
 time the ship-by-water agitation is
 doing just what should be done and it
 is better to be doing something than
 standing still which seems to be the
 attitude of other cities that are di-
 rectly interested in this movement, it
 is our intention to make Palatka the
 point of shipments but it will be up to
 Palatka to run a steamer line to San-
 ford else leave it as at present with
 the Clyde Line, the only line between
 Sanford and Palatka. No one expects
 to set the world on fire this season. It
 will take time and money to work out
 the great transportation problem but
 with all the publicity that we are try-
 ing to give the world will sit up and
 take notice and there will be a way.
 It is always easier to tell on the tele-
 vision and criticize the players than to
 play in the game yourself and unless

You have something definite to offer
 to combat the influence of that "inter-
 locking directorate" it will do you well
 to help educate the public and at
 least doing something—not dreaming
 them all day long.

**ANOTHER CAPITAL REMOVAL
 REASON**
 The Times-Union prints some inter-
 esting data, taken from an old Gov-
 ernment report, DeSlover and Butler, ge-
 ography of Florida, published in 1885.
 The state then consisted of but twenty-
 eight counties, with a total popula-
 tion of 87,445, according to the 1850
 census figures. Leon county was the
 largest in population, having 11,442.

Seven counties west of the Suwan-
 nee river held 49,240 of the total state
 population, considerably more than
 half the entire number of people in
 Florida at that date.
 The five southern Florida counties,
 of Dade, Hillsborough, Orange, St.
 Lucie and Monroe, had a combined
 population of 6,520.

A comparative showing of those
 seven northern counties and the five
 southern counties, then, and now, is
 interesting below of 1850 and now

Counties (N)	1850	1921
Calhoun	4,808	14,291
Escambia	4,350	40,384
Gadsden	8,784	22,061
Jefferson	6,639	31,224
Leon	7,718	14,592
Madison	5,400	16,516
Total	49,240	166,939

Briefly stated, this means that while
 the seven northern counties were in-
 creasing less than 42 per cent in seven-
 ty years, the five southern counties
 grew in population more than 34
 times their 1850 total or over 3,400
 per cent!

Looking at it from another angle,
 these five southern counties have more
 population now by 11,309 than the
 seven northern counties, and have
 more population by 99,808 than the
 entire state had in 1850.
 Again, in 1850, for every man in
 the five southern Florida counties,
 the seven northern Florida counties
 had ten men, but in 1921 for every
 man in the five southern Florida
 counties, the seven northern Florida
 counties had a little less than nine-
 tenths of a man!

Inasmuch as we have studiously
 avoided using the terms "south" Flor-
 ida, and "north" Florida, these figures
 will probably be taken for their real
 value in showing another reason why
 the capital of this state should be
 moved nearer to where the growth
 has been during the last seventy
 years.—Tampa Tribune.

**ATTRactions OF FLORIDA
 WIDELY ADVERTISED**
 Under the caption, "A Lesson from
 Florida," the Columbia (S. C.) Rec-
 ord makes note of the effective and
 widespread advertising of Florida's
 attractions and resources by the
 state's commercial organizations and
 the railroads.
 If the business men's organizations
 of Columbia wish to get a pointer
 from the live ones they might well
 keep an eye on Florida. While the
 people of South Carolina are discuss-
 ing the September hot wave and beat-
 ing ice for a cold drink, Florida civic
 organizations have been storming
 their friends in the north with a post-
 card shower. These postcards bear
 messages of cheer and hospitality in
 the land of flowers.

Railroad officials in Florida have
 already announced winter tourist
 rates before summer's sun began to
 put the brakes on the sparkplug.
 Great black type in northern newspa-
 pers in all sections of the country in-
 form the people that winter tourist
 rates to Florida will be on sale in all
 territory this season from October 1,
 1921, to April 1, 1922, with final re-
 turn limit May 31.

Following this advertisement, the
 Florida Development Board suggested
 that a postcard campaign be started
 and this was done. We have pointed
 out reasons for Florida's popularity
 in getting the cream of the travel
 many times before. It may not be
 amiss, however, to again remark that
 the chief reason for it is that Florida
 is the only section that indicates it
 desires anybody to visit it.
 The people of that state boast their
 climate, their scenery and their
 healthfulness from one end of the
 year to the other. They do not allow
 the people in the rest of the world to
 forget that there is a place below the
 frost belt, where the flowers bloom
 eternally and the people play continu-
 ally. They indicate strongly that
 other players are welcome, and the
 other players accept, going right thru

regulate and accept in South Carolina
 and Georgia, equal to any other state
 Florida has. But the travelers do
 not know it. In South Carolina
 she has told them they are wanted
 and so they rush right through
 this state like a herd of the in-
 fernal region.

REGULATING RENTS
 Tenant associations in many parts
 of the country are agitating for laws
 to regulate rents. In some places,
 notably in New York city, they have
 secured such laws and the courts
 have passed on them. Before press-
 ing for a decision elsewhere, it would
 be well to study the operation of the
 laws in that city.

The courts there have decided that a
 fair rental is not more than the mar-
 ket value of the property. To any
 one who understands the basis of real
 estate value—namely, that it is more
 a capitalization of rental value—
 such a decision sounds like a mockery.
 It is. It does not, and can not, in
 any but exceptional cases, protect the
 tenant to any extent whatever, be-
 cause the value of the property will
 naturally be just ten times the
 amount of the annual rent, no matter
 what that is.

The law of supply and demand al-
 ways has regulated rentals in a gen-
 eral, and in the long run, sufficient,
 way. Sometimes it operates against
 the tenant when there happens to be
 a scarcity of houses. Then, as build-
 ing goes ahead under the impulse of
 high rents, it swings around and op-
 erates to the advantage of the tenant.
 Many an expensive building has failed
 to yield revenues, and the owner has
 been glad to lease it for sufficient to
 pay the taxes. In many towns and
 cities, where some temporary setback
 has reduced population, houses have
 stood empty and tenants have been
 welcomed at figures representing not
 two per cent of what would be the
 value of the property under normal
 conditions.

These things will all happen again.
 Besides, with the improved system of
 transportation, tenants in most places
 are almost independent of landlords.
 They can dwell far out in the suburbs.
 They can live in automobile houses,
 houseboats or tents. They can, and
 do, in many cases, avoid all rents by
 providing their own living quarters,
 and the tendency in that direction is
 increasing by leaps and bounds.

The best way to treat the rental
 problem is to let it alone. If rents
 get too high, the greed of the land-
 lords will prompt them to multiply
 buildings, and this will bring rents
 down to, or more likely, below, the
 normal basis. To get the law mixed
 up with the problem might result in
 making landlordism a legalized monop-
 oly.—Lakeland Telegram.

SANFORD'S TEMPERATURE

Well, well, well, here we are again with the old "temperus fugit" stuff right off the reel. Our weather man has been fishing for the past three days and probably trying to whistle up that storm that we will need before it becomes cooler. But 94 for the maximum is not bad and if it will not go any higher we will be satisfied and then the nights are so cool and the early mornings are cold, actually cold:

The Cocon Tribune wants the city to start a school to instruct people of that city about their home town. This would be a good plan, for too many people are ignorant of their own city, county and state. "Oh, I haven't been here so very long myself" is taken as a good excuse for ignorance.

Illinois Governor Wants Change Venue — Can't Get Fair Trial

Alleged That Judge Smith is Prejudiced

(By The Associated Press) SPRINGFIELD, Sept. 16.—Petitions for a change of venue from Sangamon county and affidavits alleging Judge E. S. Smith was prejudiced and could not give a fair trial was filed with the court today by Governor Small and Vernon Curtis, banker, both under indictment charged with embezzlement and operations of confidence game.

Grand Jury Indicts Tarpon Physician for Manslaughter

CLEARWATER, Sept. 16.—Dr. I. J. Belcher of Tarpon Springs was indicted by the Pinellas county grand jury here on the charge of manslaughter in connection with the death of Virginia Turner, twenty-one-year-old daughter of A. C. Turner of this city. Miss Turner's body, with a stab wound in the heart and left shoulder broken, was fished out of Booker creek, near Lake Butler, on the late afternoon of August 27.

The formal indictment was not handed in to the court today, but will be tomorrow. Judge M. A. McMullen will then probably set a date for the trial, but it is considered rather unlikely that the trial of the Tarpon Springs physician will be held at this term of the court. It is probable also that Judge McMullen will request the governor to appoint another judge to try the case, as he is related to the defendant, and also was related to the unfortunate young woman. Dr. Belcher and Miss Turner were cousins.

The principal witness before the grand jury was Detective Fred Thomas of the Thomas National Detective Agency, Tampa, who, acting for the aged father of the girl, worked on the case and traced the placing of the girl's body in Booker creek apparently to Dr. Belcher. Other witnesses are alleged to have testified before the grand jury to seeing Miss Turner in Dr. Belcher's office, she having gone there, it is alleged, to seek his help in the performance of a criminal operation to save her good name. Other witnesses were the Ballards, father, mother and son, of Oldsmar, owners of the garage there, and who assisted the doctor in getting his car out of the mire at Booker creek about 2 o'clock on the morning preceding recovery of the body. Belcher gave the Ballards a fictitious name, but they identified him as the man when Detective Thomas brought the doctor to their place later.

The manslaughter charge is the same under which he was held for the grand jury by the coroner's jury, and his bond of \$10,000 was promptly furnished by friends. He is represented by Attorneys Thomas Palmer W. B. Dickinson and A. B. McMullen, of Tampa, while the state is represented by State Attorney E. P. Wilson and Judge H. C. Gordon, the latter of Tampa.

Florida's Gridiron Boys Will Be in Fine Shape With F. B. Strategists

GAINESVILLE, Sept. 16.—Florida's gridiron prospects this season are brighter than ever before, according to followers of the Gators, who have acted with enthusiasm the return of several of last year's letter men and the large field of youngsters. Coach "Bill" Kline and Major Van Fleet, military instructor and football strategist have already begun their work of building up the machine that will represent the University this season. His preliminary observations have convinced Coach Kline that he will have much more material to choose from this season than last. Approximately forty men came out on the first call recently. Of this number fourteen were last year "varsity" men.

Carl "Tootie" Perry, one time star center for Florida, came to Gainesville to see things started and brought in tow his younger brother, Henry, whose high school records are said to promise well. His weight and physique conform pretty much to that of Carl Dixon, who was ineligible last season, is expected to return this year, and some of his proponents predict Southern fame for him. Dixon, so the dormitory gossip goes, will bring some promising high school material.

Among the last year men to return are: "Chick" Bird, E. B. Wutchuck, "Ann" Anderson, Joe Merrin Jim Merrin, Bob Swanson, R. B. Woodward, T. H. Carlton, G. B. Stanley, J. O. Cox, R. Simmons, C. Tolbert, E. Perry and W. Mahannah.

Gunn, Moss and Hitchcock are also expected to come back this year. Some of the youngsters will have to contend themselves with making the squad this year because of the one year rule, while others served their apprenticeship last season and now hope to make the "varsity."

Major Van Fleet came to Florida from the University of Kansas. At one time he starred in West Point's backfield.
