Forest Service Offers Rewards For Information

Illegally set forest fires annually destroy thousands of acres in Florida timber and pulpwood worth hundreds of thousands of dollars. Last year, when 8,608 forest fires occurred in the state, \$3,094 were deliberately set and, in spite of rewards offered for information leading to arrest and conviction, the wood arsonist continues his dreadful work.

The Florida Board of Forestry will pay rewards up to \$250 for information resulting in arrest and conviction of a wood arsonist. The Florida Bankers Assn. also maintains a fund for offering cash rewards with 10 of \$100 each payable during any one calendar year. A third reward source is the Florida Forest Arson fund which is provided by a representative group of landowners and the forest industries. This group will pay rewards up to \$1,000.

Last year there were six persons rewarded with total payments of \$500, the Florida Forest Service reported. Of 863 convictions during the year, 54 were felonies.

Under state laws the malicious starting of fires on the lands of other is a felony. Conviction of an offender can bring up to five years' imprisonment. Intentional starting of fires is subject to a fine up to \$1,000 and/or imprisonment up to three years.

Calamity And 'Cuber' Fill Capitol-Gurney

By Jane Casselberry

Twenty members of the Seminole County Young Republican Club joined party faithfuls to through the Coliseum in Orlando Tuesday night for a Lincoln Day celebration.

Highlight of the evening was the speech by Representative Ed Gurney of Winter Park, now serving his freshman term in the U. S. Congress, in which he gave his impressions of the "new frontier" after observing it at close range.

He characterized Washington as being full of "confusing calamity and 'Cuber'." Naming Cuba as the number one issue, he said that all the congressmen's mail is full of letters from constituents asking "what is the administration going to do about Cuba?"

Gurney is not reassured by the Defense Dept.'s "Snow Job" and questioned the administration's confusing reports on the number of Russians stationed in Cuba.

It was first stated that 9,000 Russian troops were in Cuba, later, that 4,000 had been withdrawn and, finally, an estimate was given saying that 6,000 troops still were there.

"These must be the same figures they used to compute the budget," Gurney quipped.

He received very little confidence from the State Dept. briefing in which Averill Harriman reported on Southeast Asia and "Snoopy" Williams' reported on Africa.

He also criticized recent developments in foreign affairs charging the Kennedy administration with embarrassing Great Britain with the Skybolt episode which hurt her chances with the Common Market and with

Athletic Assn. Nets \$300 From Dinner

By Jane Casselberry
The South Seminole Junior High Athletic Assn. served 530 persons at a chicken dinner sponsored by the group last Saturday night in the cafeteria of the Longwood Elementary School.

Proceeds were reported at approximately \$300 which will be applied against the debt for athletic equipment purchased for the school.

Entertainment was provided by the Lyman Dance Band. The Junior High Cheerleaders, dressed in their attractive red sweaters and red and white skirts, served as waitresses.

A scale drawing of the multi-purpose basketball court the association is planning to build at the school was on display.

Laid out in squares, the display was colored and labeled by those purchasing one square foot. Each buyer was presented with an honorary deed.

Anyone wishing to participate in the project may send \$1 for each square he wishes to buy to Mrs. Phyllis Black, of Longwood, association treasurer.

A contest is underway at the school between players on the school team and the

scuttling the friendly government of Canada.

He stated that Congress was shocked when the President presented the budget just short of 100 billion dollars, coldly asked for a 12 billion dollar deficit and then proposed a tax cut. He predicted that such action would further cheapen the dollar and the resulting inflation would hurt the very people the administration is planning to help.

Gurney has been assigned to the very important Space Committee in Congress.

EDITORIAL COMMENT

Help In Drive

Casselberry Volunteers topped Seminole County Fire Dept. in collections for Sunday's Cerebral Palsy Telethon turning in \$364.09 to Sanford's \$323.53 and Longwood's \$200.12.

Altamonte Springs, Oviedo and Lake Mary report that they did not receive sufficient advance notice of scheduled activities to participate in the drive.

Longwood's collections were made under some duress since immediately after the drive got underway the Volunteers were called for standby duty at an accident on the Sanlando Springs Rd. Shortly thereafter they were called to a woods fire out on SR 484 where the truck broke an axle. However, firemen are trained to overcome obstacles and the collection was soon continued in the area.

All of the volunteers who devoted time and effort to the cause, no matter which area they serve, should be highly commended for helping out with such a worthwhile project. Workers such as our Seminole County Firemen played a large part in sending the drive over the top.

Cleveland, Frederick Unopposed; GOP Flops On Candidacy Move

Republican Says He'll Run Then Calls It Quits

With a wholesale scramble of would-be candidates in Tallahassee this morning seeking to beat the noon deadline for qualifying in the special March 26 Legislature election, only Seminole County's Mack Cleveland Jr. and Gordon Frederick escaped opposition. They are the only ones in the entire state field, UPI reported, to win the election without an opponent.

Jan Fortune, English Estates, who obtained qualifying papers at the courthouse here Thursday and who issued a formal statement to a Herald reporter today that he would run on the Republican ticket for the House, failed to qualify.

Miss Audrey Flynn, president of the Seminole County Young Republican Club, said that Fortune was in Tallahassee this morning, called home at 9 a. m. and said he intended to qualify. But UPI reported after the noon deadline that Fortune failed to qualify and that Cleveland and Frederick are without opposition in the March 26 election.

UPI quoted the Secretary of State's office that the two Seminole County Democrats, Cleveland and Frederick, automatically are elected . . . as of March 26 . . . as Seminole County's next State Senator and State Representative, respectively.

Registrar Camilla Bruce reported that the scheduled Feb. 26 party primary elections will not be held since there is no opposition for party nominations.

The March 26 voting will be a "taken election" to place Cleveland and Frederick in office. Cleveland, one-time speaker pro tem of the House resigned as Seminole County's State Representative last week to seek the new Senate seat under the new reapportionment plan. Frederick, one-time State Representative, then qualified for the House seat vacated by Cleveland.

Fortune was endorsed for the GOP nomination by the Seminole County Young Republican Club but it could not be learned if he had won the endorsement of the Seminole County Republican Committee.

Don Willson, GOP county committee chairman, had been quoted his group would have a full slate of candidates in the field. He could not be reached today to learn why the Republicans "fizzled" in placing a slate in the race.

The Herald was still endeavoring to learn at press time why Fortune had failed to qualify for the elections, since he had formally announced his candidacy and had proceeded to Tallahassee to file the necessary qualifying papers.

Cleveland and Frederick will join Rep. Joe Davis as Seminole County's delegation in the State Legislature, which meets in regular session on April 2.

"Words cannot express my sincere appreciation," Cleveland said this afternoon, "to the citizens of Seminole County for allowing me to be nominated as State Senator without opposition."

Frederick is attending a legal institute seminar in Jacksonville today.

Tax Deficit Is Corrected

TALLAHASSEE (UPI) — State Auditor Bryan Willis said today a \$150 deficit found in the books of Orange County Tax Assessor Helen Bennett had been corrected.

The deficit, made up on June 30, 1963, was apparently caused by a duplicate payment for travel expenses.

Qualifying Office Jammed 'Full'

TALLAHASSEE (UPI) — More than 150 candidates qualified for State Legislature seats today as the deadline passed. When Secretary of State Tom Adams announced at high noon that no more papers would be received, some 431 candidates had filed for the 40 seats up for grabs.

The candidates now have 10 days to campaign for votes before the first primary balloting Feb. 26.

Only two candidates won automatic election without a contest. Former Rep. Mack Cleveland Jr. of Sanford was

elected to the Seminole County Senate seat without an opponent, and former Rep. Gordon V. Frederick, Sanford, won Cleveland's old House seat without an opponent.

Richard Carr, St. Petersburg, went unchallenged for the Democratic nomination for Pinellas County's group Five seat, but several Republicans are battling for the seat.

Former State Sen. John Sutton, Orlando, won the Democratic nomination for the Group Three Orange seat but must fight it out on March 12 with Republican Robert H. Elrod, Orlando, also unopposed for his party nomination.

John R. Wood, Sarasota Democrat, received no opposition for his party nomination for Sarasota's new Senate seat, but two Republicans are running.

In Monroe County, Charles Stamm, Key West, was the lone Republican qualifier but will face a Democrat in March.

The 12 House seats to be filled in Dade County attracted the most candidates, more than 100. The Rev. Edward T. Graham, Miami NEA-ACP official, qualified just before the deadline. He will run in Group 13 in Dade County.

JFK Hits Squabbles

WASHINGTON (UPI) — President Kennedy says the Western Allies are "enjoying the luxury" of squabbling over policy and strategy because the Soviet threat to Berlin has receded.

NAS Sailor Found Dead As Bride Waits

A bride-to-be waited in vain at the altar in Miami Thursday.

The bridegroom-to-be, a young sailor, lay dead in their new home here.

Franklin E. Haigh, 21, a native of Miami, was found dead in the bathroom of the home he had rented Feb. 7 at 3406 South Sanford Avenue (rear) between 2:30 and 3 p. m. Thursday.

Haigh, assigned to VAH-9 at Sanford Naval Air Station, had informed his landlord, Lon C. Simerly, 3406 South Sanford Avenue, Wednesday that he had intended leaving early Thursday for Miami to be married.

Mr. and Mrs. Simerly, noting Haigh's car still parked at his home Thursday afternoon, investi-

gated and found the partially-clad body on the bathroom floor.

Justice of the Peace Hugh Duncan, acting coroner, and Deputy James Q. Galloway investigated and reported that apparently Haigh had been in bed and had gone to the bathroom, where he suffered a fatal attack.

Navy personnel at the base Friday refused to divulge any information about Haigh pending an autopsy.

Judge Duncan said death apparently was due to natural causes but that the Navy had removed the body to the Jacksonville Naval Air Station for a post mortem. He said the body probably would be returned to Miami for funeral and burial services.

4 Boys Freed, Hearing Slated

Four boys charged with petty larceny and held in the county jail over last weekend were released last Monday to the custody of their parents, it was learned today.

County Judge Vernon Mize, who committed the boys to jail, refused today to discuss the matter other than a prepared statement he released following publication by The Herald Thursday of a letter of protest by the father of one boy.

Judge Mize's prepared statement follows:

"On Friday, February 8, 1963, four juveniles were taken into custody by the Sanford Police Department and referred to the Juvenile Court. They were charged with petty larceny, having been involved in a series of thefts of articles from the fronts of certain grocery stores around the City of Sanford. A detention order was signed and they were held in detention in the custody of the Seminole County Sheriff's Department until Monday morning, February 11, 1963. After a hearing before the Court, they were released to their parents and the cases were continued by the Court until a later date at which time disposition of the cases will be made."

'Aid' Program Seen To Help Drop-Outs

An expanded vocational education program aimed at those children who leave school at 16 was under prolonged discussion at Thursday's School Board meeting.

A preventive rather than a remedial plan is the purpose of an enlarged program, board members were told by John Angel, principal of South Seminole Junior High School and president of the Juvenile Council.

He explained that many youngsters are not interested in the formal educational format and drop out of school as soon as they reach the age of 16. It is not, he said, that these youngsters are retarded because many have high IQs. It is only that they are interested in mechanical or other vocations rather than academic subjects.

He continued that these youngsters who drop out of school, having no formal education are unable to find suitable employment. Or for that matter, any employment at all.

County Judge Vernon Mize reported that of the 500 children referred to his juvenile court in 1962 at least 25 percent could have been helped

Funds Okayed For Hospital

A \$100,000 building addition program to Seminole Memorial Hospital will be launched about May 1.

Senator Spetsard L. Holland and Congressman A. Sydney Herlong Jr. today notified Robert Besserer, hospital administrator, that the U. S. Department of Health, Education and Welfare has approved a \$65,000 grant under the Hill-Burton program to the local hospital.

This grant will be matched with \$35,000 of hospital funds for the new building program.

Besserer said the new program will include a 16-bed pediatrics department and expansion of the surgery department, kitchen and storage building.

The hospital last October completed construction of a three-story wing with the exception that a part of the third floor is only a "shell." The 16-bed pediatrics department will be placed in this incomplete third floor section.

Besserer said construction bids will be asked in late April and construction should be commenced about May 1.

Soviets Reject Nuclear Plan

GENEVA (UPI) — The Soviet Union today rejected President Kennedy's plan to grant against accidental war. It said the Kremlin's terms for a test ban treaty were the only ones on which a pact could be negotiated.

Chief Soviet delegate Vasilly V. Kuznetsov, a first deputy foreign minister, told the 17-nation disarmament conference the Kennedy plan would just make espionage easy.

At the same time he gave the conference a "take it or leave it" choice of accepting the Kremlin's test ban plan or risk getting no treaty at all.

The anti-accidental war plan, personally pressed by Kennedy in a message to the conference Tuesday, would have set up special observation teams, established instant White House-to-Kremlin communications and carried through other measures designed to prevent war by "accident, miscalculation or failure of communication."

Kuznetsov told the conference Russia insists on acceptance of its terms for such key treaty points as the number of on-site inspections for policing the ban.

Mixed Trading

NEW YORK (UPI) — Stocks opened narrowly mixed in moderately active trading on the "big board" today.

Rev. Grover Sewell

Faith In Our Nation

Many of us are very puzzled and concerned as to what is happening in the thinking of some Americans about our nation's relationship with God. It appears to be very different from that which many of us were taught as children and so we find it necessary to go back into our early background for a re-examination of our position.

As I looked back in history most encouraging and enlightening factors are seen in events resulting from efforts of men who believed that they were directed by God and who became very prominent in the founding and developing of our country.

In history we find that so many of our founding fathers were well versed in theology as well as the hard and difficult problems of state and economics. It is true that

they were thought of as being rebels against tradition of their day but they were not rebels against faith in God.

As we look at some of the testimony of our early leaders we can understand many things. The Pilgrims signed the Mayflower Compact in 1620 before they left the boat and it said, "In the name of God, Amen. We . . . do by these present solemnly and mutually, in the presence of God and of one another, covenant and combine ourselves into a civil body politic."

Benjamin Franklin said, "I believe in one God, Creator of the Universe. That He governs it by His Providence. That He ought to be worshipped. That the most acceptable service we render to Him is doing good to His other children. That the soul of man is immortal." George Washington wrote, "I am sure that there was never a people who had more reason to acknowledge a divine interposition in their affairs than those of the United States."

John Adams declared, "A kind Providence has preserved and supported me for 85 years and seven months, through many dangers and difficulties, though in great weakness, and I am not afraid to trust in its goodness to all eternity." Abraham Lincoln in the Gettysburg Address, gave us the phrase that we all know so well, "This nation under God."

Lake Mary Baptists Set Mission Study

A School of Missions will be held at the First Baptist Church in Lake Mary, starting Sunday and continuing through Friday.

EDITORIAL A Rich Full Life

Dr. E. D. Brownlee, a much beloved former pastor of The First Presbyterian Church of Sanford, died Jan. 28 and a graveside service was held at the Evergreen Cemetery, Jan. 30.

The funeral service was conducted in Zephyrhills.

Dr. Brownlee was born in Plainville, Ga., April 18, 1884. He attended public school in Plainville and continued his education at the University of Georgia, Southwestern Presbyterian University, and Princeton University. He received doctor's degrees from Rollins College and Davidson College.

His first pastorate was at Rock Springs, Ga. which is now in Atlanta. He served the Rock Springs Church for five years after which he moved to Sanford, Florida where he became the pastor of the First Presbyterian Church. He began this work in 1912 and continued until 1948 as senior pastor. He remained pastor emeritus until his death.

When Dr. Brownlee arrived in Sanford he found 135 people on the church roll but this was not to remain so for long. During his ministry 1,829 persons were received as members. Almost half of these people were received by confession of faith. At the time of his retirement from the Sanford Church Dr. Brownlee estimated that he had made more than

30,000 pastoral calls, had preached 5,160 sermons, officiated at 636 weddings, and conducted 740 funerals.

Dr. Brownlee was not content to sit by when he could serve a church in need of pastoral care, so in 1950 he agreed to supply The Inverness Presbyterian Church. This church was organized in 1911 but in 1950 had only 50 members. Within six years the membership had grown to 190 and had discontinued its status as a Home Missions Church to become a self sustaining and contributing Church.

Many phases of the work of the Church have been enriched and forwarded by his efforts. He was interested in higher education and served in this capacity by being a trustee of Agnes Scott College of Decatur, Ga., a director of Davidson College, Davidson, N. C., and a director of Columbia Theological Seminary, Decatur, Ga. He served as moderator of the Synod of Florida and of Saint Johns Presbytery.

Dr. Brownlee did not neglect his duty as a citizen. He was president of the Sanford Kiwanis Club and worshipful master of the Masonic Lodge of Sanford. He spent his last years at Zephyrhills and was the official greeter for Zephyrhills Chamber of Commerce. The people of Zephyrhills awarded him the Chamber of Commerce trophy as the most courteous citizen of their town.

This great man had the fine balance of knowing how to enjoy the lighter side of life. He found time to hunt ducks, was a member of the Audubon Bird Watchers Organization, and made pictures and plaques of thin copper as well as trays of aluminum. His hobbies and work made him a man of greatly varied interests.

The people of Sanford as well as other places will remember with great affection Mrs. Brownlee and a son, Dr. Harry Brownlee of Zephyrhills. Two grandchildren, John and Betsy Ann, as well as two brothers, Lawrence and Carlton, are among the survivors who will miss a great man but who will have much satisfaction in memories of a loved one whose life was truly worthwhile.

DR. BROWNLEE

More than 400 Methodist churches throughout Florida

are holding similar meetings this spring in observance of the 225th anniversary of "Aldersgate Experience" of John Wesley, British founder of Methodism.

The anniversary dates back to 1738 when Wesley, a priest of the Church of England, unwillingly attended a prayer meeting at a little chapel on Aldersgate Street in London.

"I felt my heart strangely warmed," Wesley said in describing the experience which inspired him to become an evangelist within the established church and to launch the Methodist movement that later became a separate denomination.

In most Methodist churches the "New Life" meetings will be followed by a pre-Easter emphasis on visitation evangelism throughout the community.

No Better Buy

In an incisive speech delivered in Jacksonville recently, Chairman Roy W. Russell of the Florida Probation and Parole Commission noted the commission's unified efforts with judges having criminal jurisdiction in coping with Florida's increasing crime problem. Throughout its 21-year history, one of the commission's biggest headaches has been a shortage of funds necessary to carry its vital share of the load. The 1963 Florida Legislature which will gather in April should see that the reasonable requests of the commission for its activities during the coming biennium are granted. Tax dollars are more wisely spent on probation than on any other activity related to the confinement and rehabilitation of those who violate the law.

Simply to place an offender behind bars is at best a temporary remedy. It makes far more sense to follow the course offered by parole: careful review of the offender's record, his attitudes and potential in a parole by a well-qualified group such as members of the Florida Parole Commission; and release of those prisoners qualified on a basis providing some control, assistance and supervision as well as the assurance of return to confinement if any unlawful activity is resumed.

These are the human reasons but there also are important financial reasons for supporting the commission. It offers the state the most effective and economical method known for handling 80 percent of its

convicted felons. The cost of parole is about one-tenth that of putting them in prison. The Parole Commission can provide supervision and control over selected offenders at a cost of about 40 cents a day for each person. The cost of keeping a convict in the prison system is computed at \$3.25 a day.

The unity of action between the commission and criminal court judges stands on many foundations. High among them is a desire to accomplish rehabilitation. Judges help by starting the process early with the presentence investigation and by applying the indeterminate sentence. The commission accomplishes its part by careful screening and post-release control. But to succeed, it must have the necessary men and funds.

Even so, the commission has a remarkable record. In 21 years it has released 18,850 convicts and more than 80 percent of them have become law-abiding citizens. In contrast, about 70 percent of U. S. prisoners discharged without parole recommit serious crimes and return to prison.

The commission's 1963-64 appropriation increase is for two primary purposes, hiring 85 additional parole supervisors and salary increases to reduce its annual loss of one-third of its trained personnel to higher-paying agencies. The increase should be granted. Few better investments for tax dollars will be open to the 1963 Legislature.

Science Know-How

California has roughly 40 percent of the nation's missile and space work, clustered mainly around the huge scientific-educational complexes in the San Francisco and Los Angeles areas.

Massachusetts, offering an even more spectacular scientific center around Boston, also stands high. And it has attracted much related industrial effort in such fields as electronics.

New York figures somewhat in this same picture. So, on a smaller but growing scale do Maryland and Virginia, where industries keyed to space-missile research have sprung up around the focus of the government establishment itself.

Suddenly, however, men in government are indicating their concern that these efforts have been concentrated too narrowly — speaking in terms both of geography and of educational institutions.

Mentioned in President Kennedy's new education message, and set forth in his 1964 budget, is a proposal to spread the scientific-educational base so wider participation in the most advanced government and industrial programs may be possible.

Specifically, the President wants some \$90 million for the coming fiscal year — about three times the current allotment — to permit the National Science Foundation to extend its program of matching grants for the improvement of science facilities at institutions of higher education.

What the government wants to do, say some top officials, is get away from awarding grants to schools simply on the basis of present excellence. The net effect of that practice is to make the already busy,

high-rated institutions, like Harvard, Massachusetts Institute of Technology, Stanford and the University of California, bigger and busier still.

The administration would like to put some of this particular grant money into schools and regions where today there is merely a potential for development.

No specific examples are cited by officials. But North Carolina's not altogether unheralded "research triangle," a budding industrial development fed by three nearby schools, is perhaps a good illustration of the "potential" in some sectors.

This 4,600-acre project could conceivably be a thriving site one day. Already it has made a modestly good start.

Other schools and other regions are deeply envious of the big "magnet" areas around Boston and the Pacific coast. They seek to emulate the North Carolina example and build ambitiously from scratch.

Rightly or wrongly, many political leaders have the idea that the economy of their areas will not prosper as they want it to do unless they can get into the electronics-space-missile vanguard.

Aides say the President also sees major economic value if more regions can take part. No one can quarrel with this goal. A balanced effort nearly always has much to recommend it.

It needs to be noted, however, that there is also much potential political benefit from a spreading of favors in this field. Conversely there is danger — as rumblings in some places indicate — in dispensing grants too narrowly. So this particular program could have many charms for many people.

For the Glory of France

Dr. Crane's Worry Clinic

CARE 0-459: Paul G., aged 20, is a timid engineering student.

"Dr. Crane," he began, "I never go out with girls very much. And when I do, it is really torture!"

"For I am very poor at carrying on conversation. After I have mentioned the weather and possibly our basketball team's success, then I run out of anything to say."

"And I guess I must have dated shy girls, too, for they don't help me much as regards conversation."

"So a pause soon develops and it quickly gets out of hand. Then I feel embarrassed and desperately try to think of something with which to break that long period of silence."

"Because I am under such pressure, I then can't think of a thing. So I am a dud on a date and I haven't the nerve to ask the girl to go out a second time."

In such a dilemma, all of you young folks should remember the key word "H-E-L-P."

For that's what you feel like shouting, since you realize you need help, and fast.

So take the word itself and use it as the "memory device" for starting new conversation.

At the outset, most people employ the weather and maybe some recent athletic contest.

Then the pause begins, so that is where the "H-E-L-P" formula will come to your rescue.

Each letter indicates a field of conversation with the "H" standing for "Hobbies."

Probe around in this realm by asking your companion a question.

Girls, although the boy has invited you for the date, please remember that the male sex is usually not gifted in the field of light conversation.

So a girl should realize it is largely her duty to keep repartee flowing gaily throughout the evening.

Remember, it is not a 50-50 affair, for the girl should shoulder 75% of the load in generating sparkling conversation!

After you have compared notes about your early hobbies, whether these be photography or collecting pads of safety matches, bottle caps or

what not, and if the conversational momentum hasn't built up to the point where it flows thereafter of its own weight, then shift to that letter "E." It represents "Entertainment," including movies, drive-ins, theater parties, dancing, swimming, etc.

It is also wise when asking your companion a question to give him two choices.

Don't just inquire, "What do you think of Drive-In movies?" for that is too vague to elicit a quick reply.

Instead, ask, "Do you think the color is as rich on the Drive-In movie screen as at a regular movie house?"

If you still need more conversation starters, then shift to "L" which stands for "Literature" (including comic books as well as heavier reading).

Then fall back on "P" for "Politics." Avoid partisan feuding but ask if 18-year-olds should be allowed to vote since they are drafted to fight.

For further help, send for my booklet "Formula for Gay Conversation," enclosing a stamped return envelope, plus 20 cents.

Dick West Says

Hotels Springing Up

WASHINGTON (UPI) — New hotels have been springing up in the capital recently in gay profusion, like buttercups.

I don't know why so many people decided almost simultaneously to build a hotel here, but I am glad they did for it has made the winter seem more bearable.

Even under normal conditions competition in the hotel business is rather intense. When you have five or six new ones opening virtually in concert, it gets to be a bit like a Roman holiday.

In vying with each other for public attention, they have done about everything except feed bellhops to the lions.

Each new hotel must make some sort of bid for distinction and this had led to a plethora of so-called "novel features."

In an earlier dispatch on this subject, I expressed concern lest some hotel builder become so intent on providing "novel features" he would forget to provide any bedrooms.

Thus far, that hasn't happened, but the struggle for uniqueness among the hostile hotels has been awesome to behold.

At the moment I am being awed, and maybe even overawed, by the debut of a new caravansary called the Madison. Its claim of distinction is based on something the management describes as "restrained elegance."

This, of course, sets it apart from the other new hotels, where the elegance is more or less unrestrained.

Among the Madison's novel features the heated towel racks. I assume they are what the management means in saying that the hotel is "opulent" without being "obtrusive."

If it had been striving for obtrusive opulence, it undoubtedly would have provided both hot and cold towel racks. It could even have gone a step further and put in some lukewarm towel racks.

I wouldn't attempt to judge the comparative opulence of the new hotels, but I will credit the Madison with putting out the most opulent press kit I have ever seen.

An index brochure whose compartments are held together by a gold cord, it is about the size of the Mona Lisa and ranks in sheer tonnage with the federal budget.

Among its contents is a booklet that advises guests of the hotel what they should wear when invited to the White House and how they should address the President and his wife.

An invitation to the White House isn't included with your room, however. So that leaves at least one novel feature available for the next new hotel.

Political Notebook

WASHINGTON (NEA) — As the House Education and Labor Committee carries on its scheduled two weeks' hearings on the Kennedy administration's omnibus school and college aid program, a welter of conflicting and contradictory proposals are emerging.

This may indicate that everyone agrees that something will have to be done to aid education at all levels. But it is obvious that a number of compromises will have to be made or nothing will be done. And this isn't anything that will correct itself just by leaving it alone.

Rep. Peter Frelinghuysen, R-N.J., ranking member of the House Education committee, and some of his colleagues oppose the idea of an omnibus bill. They want it broken down into separate parts: aid for primary and secondary schools, aid to vocational and specialized schools, revision of the present National Defense Education Act programs for aid to areas affected by federal government employment and extension of college students loans.

The catch in this idea is that last year a half-dozen separate aid-to-education bills were before Congress, the way Representative Frelinghuysen wants it now. The Senate reported out or passed most of these bills. But the House Rules Committee finally told the Department of Health, Education and Welfare in effect: "You can have only one of these bills. Which one do you want?" The answer was they wanted them all.

The House nevertheless passed only one—a five-year low-interest loan plan for college construction. A compromise version of this, including a scholarship program, was worked out with the Senate. But near the end of the session the House sent this back to committee for reconsideration and there it died.

One of the quirks in the present situation is that Sen. Harry Goldwater has come out for a national scholarship program to enable more high school graduates to attend college. The administration wanted some scholarships last year but Congress balked. So the administration dropped the subject this year, except for a research program to see if it was necessary.

Two other Goldwater ideas not in the administration program are tax relief for families with children in college and a tax credit for that part of state and local taxes paid to support primary and secondary education costs by the states.

Best chance for passage now is given to extension of the

National Defense Education Act, due to expire June 30. This program is 12 years old. Under its provisions, some 60,000 new classrooms have been built and local school board aid has been given to educating about two million children of federal employees and armed service personnel in affected areas. The total cost has been \$2.85 billion. This type of aid congressmen like.

General aid for primary and secondary school construction and increasing teachers' salaries is under scrutiny. The modified Kennedy program gives the states final say on how and where the money would be spent. The proposal may find more support this year from congressmen who fear federal control of local education.

But this four-year, \$1.5 billion program still faces opposition because its benefits would be confined to public schools. Parochial and most private schools would be excluded, except for classroom equipment loans, and they claim they are just as hard up.

Congressmen from predominantly Catholic districts can be counted on to make the same fight for this they did last year and to try to block aid for public schools unless everybody gets it.

Lobbies on both sides of the aid-to-education issue have lined up to testify for and against the Kennedy program.

The opposition, as stated by

Business Briefs

According to a report compiled by the state manager, Whigham led the state in production in November 1962 also.

CHEVROLET TRUCK QUALITY

You can see the difference wherever you look. If you believe various makes of trucks are pretty much alike, you aren't doing justice to your pocketbook. There are differences. A Chevrolet truck welcomes comparison. Look at the little things on it—latches, hinges, stitching in the upholstery. Notice how strong the tailgate is, the rubber encased chains that keep it from sagging. The body floor is made of select wood to eliminate the rust problem and give you better footing. The lower side panels are double-walled; you might dent the inside but it won't show through. Chevrolet designs suspension systems to fit your need. The light-duty type is strong on comfort. Another kind for heavier trucks stiffens up as you increase your load and vice versa. Make sense? If you are going to need a new truck this year, you should look at the quality Chevrolet has to offer. May we bring over a new '63 so you can examine it?

Seminola Rebekahs Hold Installation Ceremonies

By Mrs. Clarence Snyder
Officers of Seminola Rebekah Lodge No. 43 were recently installed at an impressive service at the Odd Fellows Hall.

Refreshments were served in the dining room by the committee, Mrs. Auburn Recker, Mrs. Roche, Mrs. Williams and Mrs. Futrell. Visitors from other Rebekah lodges were from Orlando, DeLand, Carson City, Mich., Doodstock, Conn., Bloomington, Ill., Keene, N. H., Stamford Conn., and White Field, Conn.

Installing officer was Mrs. Velma Sumner, district deputy president of District No. 10 and her installing staff, all members of Lucerne Rebekah Lodge No. 36 of Orlando.

The group pledged allegiance to the flag and sang the Star Spangled Banner followed by the singing of the "Lord's Prayer," by Mrs. Nick Pfeiff.

Mrs. Roche, noble grand, welcomed all members and guests and introduced Mrs. Sumner, DDP, and Mrs. Fannie Spink, past president of the Rebekah Assembly of Florida. The Noble Grand thanked all for their cooperation during the past year and Mrs. Pfeiff sang a song "Thank You for All You've Done," to Mrs. Roche.

All officers and substitute officers of the past year were presented gifts by Mrs. Roche. Mrs. Sumner was then asked to preside. The installing officer invested Mrs. Roche with the regalia of Past Noble Grand and she was escorted to her station.

While Mrs. Julia Sumner sang, "It Is No Secret" the installing officers were presented. The president's colors of lavender and yellow were used in decorating the hall and throughout the ceremony.

Installing officers wore white and each officer installed had an escort dressed in either a lavender or yellow formal. As each elective officer received her obligation, she placed her right hand on a white Bible topped with yellow roses and lavender streamers.

Elective officers installed were Mrs. Clarence Snyder, noble grand; Mrs. Robert Williams, vice grand; Mrs. Betty Snyder, recording secretary; Mrs. Evelyn Hoolehan, financial secretary, and Mrs. Virginia Anderson, treasurer.

The noble grand then named her appointed officers and courtesy officers who were also installed. They are Mrs. Doris Elder, warden; Mrs. Joyce Nicholson, conductor; Mrs. Harry Osteen, chaplain; Mrs. Auburn Recker, musician; Mrs. David Fauver, color bearer; Mrs. H. L. Moore, RSN; Mrs. Brodie Williams, LSN; Mrs. Nell Futrell, BSVG; and Mrs. Mary Jameson, LSVG.

Also Mrs. Hazel Gilhuly, inside guardian, and Mrs. R. H. Heckham, outside guardian. Courtesy officers Mrs. Pearl Byrd, Mrs. D. C. Howard, Mrs. Guy Heall and Mrs. Hilda Gardner.

Mrs. Pfeiff sang an original song "Oh Mother Dear" to the new noble grand. Mrs. Roche received a certificate from Mrs. Henry Jameson and was invited to join the Past Noble Grands. The jewel was pinned on her by her mother, Mrs. R. C. Long.

Smorgasbord Planned Feb. 23

The Swedish smorgasbord, the annual all-you-can-eat meal, is being sponsored by the Ethel Root Circle of the Congregational Christian Church for the 11th consecutive year.

This year, the ladies of the circle are busy with preparations for another delightful and inviting menu. Some of these distinctive treats are prized recipes handed down for generations, while others have been carefully selected and collected by members over the past ten years.

Swedish as well as American dishes will be served to the public Saturday, Feb. 23 from 4:30 to 7:30 p.m. in the Fellowship Hall of the church, corner of 24th Street and Park Ave.

The hall will be decorated in a Swedish theme for the festive affair and those taking part in the dining room will be wearing elaborately embroidered Swedish designed aprons which will add to the Swedish atmosphere.

More than 300 attended this outstanding event last year and more are expected this year, due to the many requests that were received long before preparations had begun. For those who have not attended the smorgasbord, it is a large assortment of tempting dishes served in a colorful, bountiful and inviting manner.

Upon approaching the ice table, one may choose from several different molds such as leverpastej (liverpaste), salmon or lime-walnut. Accompany it with fish salad (a delightful combination of shrimp and imported fish or another tasty fish salad in clamshells. From the main table bubbling hot casseroles at different heights such as: a very old Scandinavian dish, but a new recipe added to the circle's menu - collection, hrona bont (Swedish brown beans), then some subtly flavored kotbullar (Swedish meat balls) prepared in a true Swedish style at home.

You may want to choose from another old recipe all-sallad (herring with apples) or a wonderful combination of cooked vegetable salad with sour cream, gossallad (crisp vegetable salad) or just plain homestyle pickled beets, waldorf salad, deviled stuffed eggs, chicken or potato salad, and the lok paj (onion pie) and Swedish Limpa made at home by one of the members. Brun socerbakka (Swedish brown spice cake), dozens of assorted cookies and very delicately flavored Swedish taris (sand bakkels) are a superb ending.

To eat this feast in the traditional manner, it is quite proper to circle the main table a second time. Milk will be served to the children and plenty of good hot coffee will be available for adults.

Plan now to take advantage of this once-a-year event. Tickets are on sale by members or by calling Mrs. Harold Herbst, general chairman, Mrs. Ralph Lossing or Miss Sandra Corbett, president of the Senior Youth Ministry.

Longwood Personals
Mr. and Mrs. M. E. Rudolph of Orange Ave., Longwood, have as their guests, Mr. and Mrs. S. S. Rudolph of Youngstown, Ohio.

Mr. and Mrs. Thomas Gaddie and Lyle of Hiawatha, Iowa, are spending two weeks with his parents, Mr. and Mrs. Robert Gaddie.

Dear Abby:

By Abigail Van Buren

DEAR ABBY: Today my daughter has a long face because I refused to buy her a formal. She is 11 years old and in the sixth grade. A girl used to get her first formal for the Senior Prom when she was 17. Today they have proms for children in the sixth grade. I hate to see my daughter miss out on the fun with her friends, but we are a medium income family and can't afford formals and all the accessories for 11-year-olds. What is your opinion, Abby? **AVERAGE MOTHER**

DEAR MOTHER: I'm told that the added expenses of extra-curricular events in the modern high school are becoming psychologically tough on have-not kids. So now it's "formals" in the sixth grade? I'm against 'em!

DEAR ABBY: I have a sick-in-the-head husband and his jealousy is driving me out of my mind. I am not allowed to speak to any man in our neighborhood or to any other man. Even relatives! If I even look at them he accuses me of all kinds of dirty things. I have never given him any reason to doubt me. I can't just pitch him because we have children. He tells me he is not sick in the head, but what else would you call it? What am I going to do? Now I am getting jealous. Jealous of women who have sane husbands.

DEAR JEALOUS: If your husband had a toothache, you would get him to a dentist by hook or crook, wouldn't you? Well, there are doctors who take care of "sick-in-the-head"

people, too. What are you waiting for?

DEAR ABBY: I am a single woman of 28 who has never been married. I live alone and support myself. I recently met a very handsome man who fell for me fast. He talked of "our future together" and I thought I had finally found my man. I was completely bowled over last night when he asked me for a loan of \$500. He's a salesman and told me how well he was doing. I asked him if he'd sign a note for it and he said if he had wanted to sign a note he could have gone to a bank. Now I have my doubts about him. Half of me wants to continue seeing him and half of me tells me to quit him. I am —

DEAR SHATTERED: Better to be "temporarily shattered" than permanently broke. Listen to the half with the brains in it. Romeoos who mix moonlight and marriage are a poor risk.

CONFIDENTIAL TO TED: People are governed by the head. A kind heart is of little value in chess.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

Hate to write letters? Send one dollar to ABBY, Box 3365, BEVERLY HILLS, CALIF., for Abby's new booklet, "HOW TO WRITE LETTERS FOR ALL OCCASIONS."

One of the best defensive plays of the recent annual St. Paul Winter Carnival tournament was made by James Dolan.

He opened the king of diamonds against South's three no-trump contract and continued the suit. South won the third lead and ran off four clubs and two spades. Mr. Dolan had to make two discards. His first was the deuce of hearts, his second the deuce of spades.

South, one of Minnesota's top players, went into a huddle. Jim still held three diamonds. His other card was the king. Possibly, but not probably. If not, South had a

cinch play. He led his queen of hearts expecting that East would win with the king and lead to dummy's ten of hearts or queen of spades.

Unfortunately for South, Jim produced the king of hearts and made the rest of the tricks with his remaining diamonds to set the hand two.

At other tables, the West player would keep the king of hearts guarded and throw away a diamond. After that, South would simply lead a diamond and throw West in the lead. West could cash his last diamonds and then have to lead up the ace-queen of hearts.

We The Women:

By Ruth Millett

It's often best to say "No, thank you" to the helpful offers of others, especially to those who say—

"I can get it for you wholesale." Chances are you'll end up with a substitute for what you really wanted, or with a lemon you can't complain about.

"I'll show you a short cut." The driver who lets a passenger show him a short cut all too often winds up lost and out of sorts.

"Let me show you an easy way to do that." It may be an easier way for the other person, but much harder for you than the way you're familiar with.

"You must look up this friend of mine when you are in such-and-such a place." It isn't likely the friend of a friend is going to be elated over having to play host to a total stranger. If he is elated, he'll probably be a bore you'll wish you had never looked up.

"The best thing to do for a cold is..." You can be

pretty sure that the best thing to do for a cold or any other ailment is NOT to take second-hand medical advice.

"Why don't you do that yourself instead of hiring it done, and save money?" If you were an adept do-it-yourselfer you would have thought of doing it yourself. If you aren't, chances are the job is a lot harder than your helpful friend led you to believe.

"There's a nice young man I want you to meet." On second thought, perhaps you had better take a chance on this one—but don't be disappointed if the nice young man is a

lad you have trouble discouraging. Most would-be matchmakers think any two persons of the opposite sex who aren't married are sure to be "just right" for each other.

Lewis Film Is Slated For Ritz

Fans of the "private-eye" school of paperback literature — and publishers happily boast they number in the millions—should see what Jerry Lewis does to the stereotypes identified with his new Paramount comedy, "It's Only Money" opens Sunday at the Ritz Theatre. This unquestionably is one of Jerry's funniest and most imaginative films, starring him as a radio and television repairman who wants, with all his heart and what passes for his brain, to be a private detective.

The story concerns his joining forces, uninvited, with his friend—an actual private detective—in the search for the missing heir to millions left by an electronics genius. It will come as no surprise to detective story readers that Jerry is himself the missing heir. As he unwittingly seeks himself, he is subjected to a number of hysterically funny attempts on his life which involve, among other hijinks, a homicidal butler, and a platoon of man-chopping lawn mowers.

"RUN FOR YOUR LIVES," screams Jerry Lewis as he is being chased by a monster lawnmower in a scene from his latest Paramount picture "It's Only Money" opening Sunday at the Ritz Theatre. The monster lawnmower is only one of the many loony devices his enemies employ to lay him low in this hilarious comedy.

DORIS DAY, Stephen Boyd, Jimmy Durante and Martha Raye are the dazzling stars of "Billy Rose's Jumbo," Metro-Goldwyn-Myer's spectacular musical with a circus background, in which all four sing, dance and appear in thrilling stunts, including equestrian feats and high-wire performances. Based on the Broadway stage success, the big Panavision and color attraction features seven Rodgers and Hart song hits and many of the world's most famous circus acts. The Joe Pasternak Production was directed by Charles Walters.

Jumbo Set For Drive-In

One of the most joyous, romantic, spangled, star-and-song studded musicals ever to emerge from Metro-Goldwyn-Myer is "Billy Rose's Jumbo," screen version in Panavision and Metrocolor of the memorable Broadway stage hit, will play at the Movieland Drive-In Sunday.

Its big cast, headed by Doris Day, Stephen Boyd, Jimmy Durante and Martha Raye, with Dean Jagger co-starred, also features 50 specialties by the world's top circus stars, including the endearing elephant who plays the title role, and its musical highlights include seven great song hits by Richard Rodgers and Lorenz Hart.

Not only does a glittering array of aerial, tight-rope, trapeze, swimming, slide-for-life, wire, rope-twimp, alldie-for-life,

tumbling, juggling, unicyclist and animal acts, together with bareback equestrian routines and precision ballets, fill the screen in a sprawling circus erected over six acres on one of MGM's largest lots, with the huge Big Top as the hub, but the stars actually join the circus headliners in many of the spellbinding aerial acts.

The other feature on the program, which will play through Tuesday, is "The Savage Guns" with Richard Basehart.

On Wednesday and Thursday, "All In A Night's Work" and "Go Naked In The World" will play.

A triple horror show is slated for Friday and Saturday. The three films are "Tell-Tale Heart," "Catiki" and "Tormented."

Now that everyone is back from those (huff puff) 50 mile hikes, you're probably ready for a little relaxation and refreshment. So sit down for a while and rest those weary bones; try your exercise in the form of elbow bending.

With the outside entrance to the lovely Mayfair Inn Shalimar Lounge it is easy to make this the place for that intimate last drink at the end of a night out... Or stay the entire evening in the romantic atmosphere of the Shalimar, where carved wood and brass and fine fabrics contribute to the Oriental mood. Lou Feldman and his orchestra provide the musical background for listening or dancing and Sanforites are more than welcome to come in and enjoy the beautiful Shalimar.

Spotted an old player piano at the Lake Monroe Inn... the best part about it is that there is no official pianist. Instead guests are invited to try their hands and feet at making beautiful music. There is every kind; sing along, pop, even some twist rollers. What could be more riotous than twisting to the music of a player piano? While you're there try the delicious steak and enjoy the view over Lake Monroe.

If you ladies feel left out because only the men are getting the exercise, here's good news for you. Every Thursday morning at Melodee Skating Rink from 10:00 till noon, a housewives class meets to learn everything from the basics through dancing. This sounds like an easy way to work off those extra pounds you may have picked up over the winter, besides learning grace and coordination. Drop in your pennies too for one of the six contestants in the "Queen of Hearts" contest, then go next door to Jet Lanes for a few lines of bowling.

If you are not too tuckered out from hiking, dash out to Beardsall and Geneva and try your luck at shuffleboard. Every Wednesday night at 8 p.m., the Drift Inn is sponsoring a shuffleboard tournament. Anyone is eligible and winners will be announced. For those hunger pangs, try the stacked ham on rye. More passive types can sit and listen to the music of the Casuala from 12:30 till 2 a.m. every Friday and Saturday nights.

More news out at Club Diamond where a special T-Bone steak with potatoes, salad and French bread is being served for a very modest price as the club's facilities completely return to normal. Mel Murray, who has appeared on national TV and has done considerable night club work in the country is bringing out boogie woogie comedy every night. On Sunday, a knock down and drag out jam session shakes the walls as local musicians belt out their improvisations.

Pleasantly around the corner from most offices in town is the Caribe lounge, in the Valdez Hotel. It is convenient to stop in during lunch or after work, and no matter how many times you see them, you won't fail to laugh at

the "art" on the walls. These pictures are genuine works of art, captioned by more modern expressions. You can also have meals until 8 p.m. and listen to Bill Slayton and the Hideaways.

One thing about the Capri, although it is an impressive place, you do not have to dress impressively to be at home there. Sports shirts and sweaters are as welcome as suits and ties. Sometime when you are in the mood for dinner out at someplace special but don't want to dress up, the Capri is the place. Or, on the way home from work on one of those days when you simply cannot face the kitchen, stop in and enjoy a comfortable meal.

As mentioned last week, Spencers is a popular stopping off place for the men, but the ladies have their day too. Luncheons, bridge sessions and other parties are held in the "Vieux Carre" room which can be partitioned off for privacy. The room is a complete outdoor scene of the New Orleans French Quarter with wrought iron tables and chairs, brick walls and street lanterns. It has an enjoyable, "sit around and stay awhile" atmosphere; a fitting background for Spencer's fine foods and drinks.

Taking a trip to Tampa Sunday will be the Skate City Rollers Dance and Figure Club. The club, whose purpose is to promote interest in skating through competition and shows, will participate in the Mid-Florida Skating Association meet at Tampa. They will compete in figure, dance and figure skating. The club is open to anyone who can skate and although most of the members are interested in competition and shows, participation in those events is not required.

You can tell this '63 on sight—even at night!

For years now, Pontiacs have been the easiest cars to pick out in a crowd. And the '63's are no exception. At night, with the highway driving beam on, Pontiac identifies itself by its unique over-and-under headlight arrangement. (It's more than just a nice styling touch—the headlights aim better this way.) By day, of course, a new boldly linear grille design sets Pontiac beautifully apart from the which-car-is-which problem. Another way you can tell the '63 Pontiac is by looking at the drivers. They're the ones who are smiling. Say—maybe you'd better see your dealer about that. He's smiling about Pontiac too. **Wide-Track Pontiac.**

Missing Paper Caper

"Mystery of the Missing Republican" has been solved. Both wire services, United Press and Associated Press, reported Friday afternoon and Saturday morning that Seminole County's Mack Cleveland Jr. and Gordon Frederick were unopposed for the Senate and House, respectively, in the special March 26 Legislature election. Further, the wire services reported they were the only candidates from among more than 400 who were unopposed in the primary and in the general election.

Friday's Herald raised the question, "Where was Jan Fortune?" For Fortune, of English Estates, had formally announced Friday morning he intended filing for the Republican nomination for State Representative in the House from Seminole County.

A representative of Fortune telephoned The Herald late Friday that Fortune had qualified. A telephone check with the Secretary of State's office at Tallahassee verified that fact, and that Fortune's papers had been misplaced in the State Secretary's office. Therefore, Cleveland is the only unopposed candidate in the entire state ticket. A Democrat, he will be automatically elected for a four-year term as Seminole County's first State Senator representing only this county. Previously, Seminole and Brevard County shared the Senatorial seat.

There will be no primary election, originally scheduled for Feb. 26, according to Registrar Camilla Bruce, since there is no party opposition.

Frederick, a Democrat, and Fortune, a Republican, will fight it out in the special March 26 general election for the House seat vacated earlier this month by Cleveland. The term will run to the November 1964 elections.

Frederick previously served Seminole County in the State House of Representatives. Fortune is a political newcomer, and has the endorsement of the Seminole County Young Republican Club.

Jan Eric, at 2120 Sunderland Road, English Estates. At to his campaign, Fortune said that "I believe in a strong two-party system and I am in this race to win. I promise an aggressive representation for all the people of Seminole County and will work for progress in the whole county. I am in favor of fiscal responsibility in government."

W. P. Medical, of Altamonte Springs, will serve as his campaign treasurer.

The Herald talked with Fortune Sunday noon and was informed the Martin Company has agreed to a 60-day leave-of-absence for Fortune, if elected, to attend the Legislature session opening April 2.

He is a member of several technical societies, the Masons, Seminole County Young Republican Club and All Saints Episcopal Church. He resides with his wife, Donna, and eight-year-old son,

Red Hijackers Offer To Surrender Freighter

United Press International Pro-Communist hijackers aboard the Venezuelan freighter Ansoategui offered today to surrender to Brazilian authorities at their obscure anchorage in Brazil's north coastal waters.

Brazilian destroyers were expected to leave their base at Belem and head for a rendezvous with the hijacked ship 800 miles to the north and halfway between Devil's Island and the mouth of the Amazon River.

Brazilian authorities have promised the hijackers political asylum.

In Washington, Assistant Secretary of State Edwin M. Martin told a House Foreign Affairs subcommittee today that the present anchorage and the offer of asylum by Brazil "makes it sure of them avoiding capture."

In two radiograms directed to news agencies, second mate Wismar Medina Rojas took sole responsibility for the seizure of the ship last Tuesday and said all personnel were safe.

Court Strikes Down Dodge Law

WASHINGTON (UPI)—The Supreme Court today struck down as "punitive" a federal law which takes away the citizenship of a native-born American if he dodges the draft by going abroad.

Ruled unconstitutional was a section of the Nationality Act of 1940.

The government appealed when two lower courts found the statute unconstitutional. The issue has been argued five times before the high court.

Today's 5 to 4 decision recalled two related rulings of 1958 when the court split 5 to 4 over nationality issues.

In 1958 the justices held that Congress may decree loss of nationality if a citizen votes in a foreign election but not if he deserts the armed forces in wartime.

FEC Merger Would Help Workers, Spokesman Says

JACKSONVILLE (UPI)—A merger by the strike-bound Florida East Coast Railway with any other major Florida carrier would probably help the workers' cause, a union spokesman said today.

"In the event of a merger, specially with Southern or the Atlantic Coastline Railroads, the chances are good our wage demands would be met immediately and we could all go back to work," the railroader said.

Merger rumors sprung up last week when the price of FEC stock rose from \$5 to \$7 despite the strike. Wall Streeters said it was rumored Southern or ACL was making a new bid for control of the FEC. At close of business last week, FEC stock was selling at \$6.50.

FEC spokesmen have declined to comment on the rumors. But Vice President W. L. Thornton in St. Augustine said of the price increase: "It appears some people have confidence in us."

John Mathews of Jacksonville and Verle Pope of St. Augustine, who met with the strikers yesterday, said if the merger rumors were true, the takeover probably would not come for at least a year.

The strike began Jan. 23 and is now in its 28th day without a sign of a settlement. The 1,200 striking members of 11 non-operating unions have demand a 10.25 cents per hour increase; the FEC says it cannot afford the hike.

The union spokesman told United Press International a merger would have to be approved by the Interstate Commerce Commission.

"The ICC has strong regulations protecting workers' jobs in any merger or abandonment. We would probably be in a better position if the FEC merged."

"But even if it decided just to go ahead and abandon the entire line, the ICC would make certain our income was protected."

The spokesman said the only way a merger could hurt would be in that some men would lose their jobs. "The number would be comparatively few. Not enough to make us fight a merger."

Navy Polaris Shot Flops; 'Blown Up'

CAPE CANAVERAL (UPI)—A Navy attempt to score the third straight success with its powerful new Polaris A3 missile failed today when the rocket went off course and had to be blown up.

The bullet-shaped A3 mightiest weapon ever developed for submarines, thundered from a land-based launching pad on Cape Canaveral at 9 a. m.

But within two minutes, the Polaris careened wildly off course high in the sky, and appeared to nose sharply upward.

A range safety officer quickly flipped two switches that triggered radio signals to touch off an explosive "destruct" package which destroyed the errant rocket in flight.

The debris plunged into the Atlantic well east of land. The failure came on the heels of a pair of roaring

Indigent Care To Be Talked By Commission

The County Commission will meet with officials of the proposed Retirement Life Inc., a Delray nursing home at 7:30 p. m. tonight to discuss farming out the county's white indigent residents now living at the county home.

The meeting will be held at the commission chambers in the courthouse.

County Commission Chairman J. C. Hutchison today said officials of the proposed home had agreed to take care of some of the white patients "but we haven't talked price yet," Hutchison said.

Bids on the home are expected to be opened Feb. 28.

The 98 to 112 bed facility is being built by local men, headed by Dr. Leonard Munson, as president, and Robert Resner, hospital administrator and Tom Armo of Delray, as the other officers.

Delray men, including builder W. C. Miller, and Dr. Mack Lipton are on the board of directors, along with architect Jim Chapman, and attorneys Kenneth Leffer and Bill Hutchison.

When plans for the home were revealed, Dr. Munson stated that it would meet all state and AMA requirements, and was not designed to be fancy or elaborate, but is to be kept simple and efficient to keep down costs.

The nursing home will have facilities to care for the patients if they become ill, and they will be under the care of their personal physician, and the supervising medical staff.

Fern Park Incorporation Is Proposed

Incorporation of the community of Fern Park as a municipality was proposed today in a legislative hearing at the courthouse. The local legislative delegation was asked to have the Legislature, meeting in April, approve a city charter, subject to a referendum.

Rep. Joe Davis, presently the only elected legislator, called today's hearing.

Sitting in at his invitation were Mack Cleveland Jr., Democratic nominee for Senator unopposed in the special March 26 general election, and Gordon Frederick and Jan Fortune, Democratic and Republican nominees, respectively, for the House seat vacated by Cleveland earlier this month.

Vernon W. Dunn, speaking for the Fern Park incorporation and charter committee, requested "an act to create and organize . . . a municipality to be known and designated as the 'City of Fern Park' and to define its territorial boundaries and to provide for the government, jurisdiction, powers, privileges, franchises and immunities, and to provide for a referendum election to determine whether this act shall take effect."

The delegation also was requested to sponsor a bill abolishing the current charter of the Town of Casselberry and substituting an up-to-date charter. Kenneth McIntosh, town attorney speaking for Mayor Fred Heath, explained the present charter is "antiquated and obsolete for a modern community." He added the proposal, if approved by the Legislature, would be submitted to a referendum vote.

Mayor Tom McDonald, of Sanford, requested the delegation to make an investigation and "pursue state-wide legislation" to eliminate contamination of well fields for municipal water supplies. He explained there is no effective control method over sewage and waste disposal, adding there are "too many septic tanks in some areas."

Mayor Leo Gary, of Oviedo, asked for legislation permitting the writing-off of some delinquent taxes, some as much as 25 years old, and for permission to adopt the county's percentage on discount rates on taxes.

McDonald and Gary stated Sanford and Oviedo have voted approval of the proposed increase in cigarette taxes.

North Orlando sought a bill to rename Molnar Avenue (SR-434) to North Orlando Boulevard. The delegation advised this request should be referred to the County Commission, with it to forward a formal application to the State Road Department.

Mayor Al Lorman, of Longwood, said that city favors a bill providing for re-registration of voters.

George Bobrow submitted a number of petitions as a sample of public opinion favoring annexation by cities and counties without referendum votes.

The delegation recessed at noon until 1 p. m.

Fitzpatrick To Ask For Pay Raise

County Commissioner John Fitzpatrick plans to ask the Legislature delegation this afternoon to boost county commissioners salary and proposed support of state-wide legislation for a countywide fire district.

County commissioners met informally in the office of Chairman J. C. Hutchison this morning to discuss proposed legislation.

Although there was no mention of a pay raise at the meeting, Fitzpatrick told the Herald prior, that he will ask for a boost in salary for the governing body "as an individual commissioner."

Fitzpatrick said he would ask the delegation to use their judgment as to how much.

During the meeting, the commission asked county commission approval in support of setting up by referendum a countywide fire district.

Commissioner John Alexander said he felt that such legislation would not pass in municipalities and the board tabled action pending further study.

Other legislation the commission will ask for will be establishing and acquiring water conservation and control facilities as well as permanent legislation designating a criminal court of records to be established here if the county population hits 100,000.

Casselberry Board To Meet

The Casselberry Board of Aldermen will meet in continued session at 7:30 p. m. today in the Women's Club Building on Overbrook Dr.

Business carried over from last Monday's meeting includes appointment of a building inspector to replace Alderman Cliff Overman whose resignation is effective this month.

The board also will consider the proposed budget for the Casselberry Recreation Commission and a report on the proposed county study and survey to provide drainage outfalls for the area.

Urban Control In Legislature?

TALLAHASSEE (UPI)—Florida lawmakers and veteran political observers are wondering today if the state's new legislative reapportionment plan may be the beginning of eventual big-city domination of state government.

Urban areas have had the potential to control the Legislature for some 10 years. The potential has yet to materialize.

But the 43-senator, 112-representative plan is a breakthrough and may provide the stimulus needed to rally urban lawmakers into a united action force.

Many observers feel urban voters were the big force behind the state's latest redistricting efforts.
