Zionism--Hope of world

San Francisco, Cal., June 25.—Pastor Russell addressed large audiences twice today at the Golden Gate. He addressed a convention of the "International Bible Students Association" in session here. He has been making a sort of continental tour, including Indianapolis, St. Louis, Kansas City, Pueblo, Colorado Springs, Denver, Salt Lake City, Los Angeles, Pasadena and Santa Cruz. In all these cities local branches of the "I. B. S. A." invited him and made arrangements for public addresses. A train-load of Bible Students are with him—about one hundred and fifty in all.

Meetings are to be held returning at Sacramento, Portland, Tacoma, Seattle, Vancouver, Calgary, Winnipeg, Duluth, Buffalo and Toronto. The scheme is a novel and a benevolent one; for surely what he has undertaken and is carrying out is not a lady man's burden.

The Earthly Zionism.
Speaking from the text, "The Law shall go forth from Mt. Zion and the Word of the Lord from Jerusalem" (Isaiah II, 3), Pastor Russell declared that Christians had inadvertently misappropriated to themselves many promises of the Scriptures which are not wholly theirs. Christian creeds and theories have surmised that, through the rejection of Jesus, all Jews dying in unbelief of Messiah were forfeited to an eternity of torture because of that unbelief in the Only Name.

A more careful study of the Bible, he declared, is showing Bible Students the error of this position. Jews who do not accept Jesus as their Savior and who do not believe in His steps is the "narrow way" with indeed fall of attaining a place with Jesus in His Throne of glory. They will fall to become joint-heirs with Him in His glorious Messianic Kingdom. They will fall to become members of the spiritual seed of Abraham, respecting whom St. Paul said, "If ye be Christ's, then are ye Abraham's seed and heirs according to the promise (Galatians III, 29)."

The Heavenly Zionism.
The Zionism of the past eighteen

centuries has been of the heavenly kind. It has been alluring and inspiring to loving zeal, obedience and activity such as have the "hearing ear," the heavenly calling to joint-heirship with Messiah. This glorious privilege is about to end because the full number predestinated of the Lord will soon have been completed. Meantime, the Pastor and others of God's consecrated people should be Zionists in the highest sense of the word and, laying aside every weight and every besetting sin, each should strive to make his "calling and election sure" to a place in the Heavenly Zion—the Kingdom of Messiah.

It will be from this Mt. Zion, the spiritual Kingdom of Messiah, that the Law will go forth during the thousand years of the Messianic reign; the great Judge and Law-giver of the world will be the glorified Redeemer, and His associates, in His various offices of Prophet, Priest, King, Judge and Mediator, will be the faithful Zionists of the present time who follow in the steps of their Redeemer, delighting to lay down their lives for the Truth's sake and for the brethren's sake, in co-operation with the great Captain of their salvation, through the merit of His imputed righteousness.

The Word From Jerusalem.
As soon as Mt. Zion, the Kingdom, shall be completed by the glorification of the last member of the Church, it will be time for the Law to go forth therefrom for the correction of the world's affairs in righteousness—for the overthrow of every form of iniquity and everything contrary to the Golden Rule. In other words, when the Kingdom class shall have been completed by the elective process, which is the Divine arrangement of this age, forthwith that Kingdom will come into power and the reign of righteousness will begin.

Zionism, amongst the Jews today, we believe the world is striving for—a preparation of national Israel for the great blessing which so soon will open at their door. As they begin to really appreciate the Land of Promise, the rich promises in connection with that land must become theirs, and the inspiration of those promises will lead their hearts back to the Lord in prayer and supplication and will lead the feet of a reverential, representative number of them back to the land itself, to which the Lord declared He would bring them; and that from thence they should be picked up no more at all. Remember, in this connection, St. Paul's reference to the New Covenant and the time when it will go into force with Israel, as recorded in Romans XI, 27.

New Woman's Exchange

A little Tea Shop and Woman's Exchange is now in full swing in our city. It can be found in room 9, Welbourne block. Come up and see what it really is like, you can have an iced beverage accompanied by dairy sandwiches or cake, or order a light lunch, any hour of the day after ten o'clock in the morning. What is nicer on a hot day—in attractive surroundings. There will be fancy articles on sale. Mayhap just what you are looking for and haven't time to make. You can be either patroness, patron, or contributor. Of course you are solicited to help make this needed departure in our city's success.

To those anticipating working in conjunction with the exchange let us whisper, there is not a membership fee exacted, merely the ten-cent cent on the dollar to pay Miss Keeler for the handling and showing your goods. You can phone or go in and see her—order cakes, salads or even sandwiches. This most certainly ought to appeal to the ladies of Sanford.

THE POWER OF PERSUASION

When hearts are hungry lead a diamond, but send along a box of don-bons first to smooth the pathway.

Another Thing

Be sure of the quality of the don-bons. If you get them from us you will know they are right. That means fresh and pure quality don-bons corresponding with the quality of the recipient.

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Episode of the Week's Most Important Happenings in the State's Domain.

West Palm Beach has ordered another carload of oil for use on the city's streets. The results obtained with that used three months ago have been very pleasing.

Miami citizens are planning to rid that city of the little English sparrows which within five years have literally overrun the residence sections of the city.

Two lads are en route from Chattanooga to Jacksonville, riding their bicycles the entire distance. The trip should be made with ease.

Jim Lee, a colored restaurant keeper, was killed in Ocala by G. D. Washburn, white, in the act of stealing chickens from the latter's chicken yard. The negro was shot three times, any one of which would have caused death.

Rev. W. J. Carpenter, pastor of the First Methodist church of Tampa, is attending the Bible conference at Winona Lake, Ind. He writes that he has secured the services of Rev. "Billy" Sunday, ex-baseball player and popular revivalist, to come to Tampa for the purpose of conducting a union revival service.

Growers in the vicinity of Lakeland and surrounding country are now busily engaged in preparing land for fall and winter crops, and indications point to a large acreage of both strawberries and vegetables.

Sept. 2.—As a sequel to a long standing feud and as a result of which Daniel Cooley, a prominent naval stores operator of Santa Rosa county, was shot and killed last Sunday, Alf and Arch Cooley, brother and cousin respectively of the dead man, were shot and killed from ambush near Milton.

Five violent deaths within five days of last week and within a radius of four miles have excited the women and children of the neighborhood known as McCalland Postoffice near Pensacola that they are afraid to leave their houses even in daylight. State Attorney Wilson has gone to the scene, it is said, with a view to putting to an end lawlessness in that county.

Word reached Jacksonville on Monday of the death of William E. Pabor, which occurred in Denver, Col., August 29. Deceased was well known in journalistic circles throughout Florida and Colorado and was for a number of years agricultural editor of the Florida Times-Union.

Bradentown cannot keep up with its population. Within the past year 500 new houses have been erected, and still the demand far exceeds the supply.

Shrimps are now plentiful in the river and large quantities are being caught. They are very low and mean to be especially delicious in the vicinity of the South Bridge, which has of late been fairly lined in the early morning hours with parties bent upon their capture. —Daytona News.

The contract for the construction of the Sanford waterworks is completed, and the work of the engineers will be completed by the board trustees. All the contracts will be for the waterworks, to be completed by the council and the construction of the same by those who desire to take advantage of the service. The new plant will have a flow of 300 gallons a minute, and the engine houses equipped with twenty horse-power engines for pumping.

The letters and literature, and the Tampa papers sent out by the board of trade in the year ending August 31, the first since its organization by the Chamber of Commerce and the Publicity club, is estimated as having brought to that city and section 1,000 families. In a brief report issued by Secretary Powell he is shown to have answered 22,933 letters from something over 7,000 people who had become interested in this section of Florida.

The Catholics in Eustis and the surrounding neighborhood are building a beautiful stone church in the very heart of the town. They are being aided by the public-spirited non-Catholics of Lake county. The handsome edifice is to cost \$250,000.

TO AFFILIATE INTERESTS?

Florida Vegetable and Fruit Growers May Get Together

Will the Florida Citrus exchange and the Florida Vegetable Growers' Association affiliate? The Tampa Times, after interviewing officers of the Citrus exchange, published the following:

"That a fusion between the Florida Citrus exchange and the Florida Vegetable Growers' Association, may be effected in the not far distant future is the belief of the officers of the former body.

"Last year overtures were made to the vegetable growers at Sanford to this end but at that time the negotiations were not favorably received. It seems. This year, however, there appears to be a complete revision of feeling on the part of the vegetable men and the prospects of the two bodies working in conjunction are considered exceedingly bright.

"The citrus exchange would welcome such a fusion, officers of that organization state, and it will be wholly up to the vegetable men whether or not such an affiliation is to be brought about. That the combined efforts of the two bodies working to the best advantage in placing Florida products on the market would prove mutually beneficial is felt here.

"While the Florida Citrus exchange was organized primarily for the citrus growers of the state, and ordinarily would not care to dabble in the vegetable market, as the two are vastly different from each other and it would necessitate the employing of experts in both fields, the fact that in season the fruit growers are also concerned in raising and marketing vegetables, puts a somewhat different light on the matter. In order to benefit the members of the exchange who are interested in vegetable growing, it is considered that a fusion of the two interests under one head, would prove highly advantageous.

"It is understood that the officers and directors of the vegetable association are likewise favorably inclined toward an affiliation of the two bodies to the mutual advantage of both."

The Eastern Star Celebrates

Thursday, August 31st, being the birthday of Robert Morris, the founder of the Eastern Star, and as this day has been set aside as a festive day for the order.

Seminole Chapter of Sanford celebrated the occasion with a luncheon picnic at Westside park, from 4 to 6 p. m. Though the skies were over-shadowed with clouds, the stars still shown brightly. A pleasant afternoon was spent and plans were discussed as to how best to cooperate with our Masonic brothers so that these two grand kindred orders might be brought in closer touch with one another, as the founder of the Eastern Star who was an enthusiastic Mason intended that they should.

As the hour had arrived for the stars to disappear they bade adieu with a wish that the chain would be unbroken when they appeared again to celebrate, August 31st, 1912.

Kindergarten Will Open

A long felt want is soon to be realized in Sanford, with the opening of a private kindergarten, conducted by Miss Virian Yeiser. Miss Yeiser graduated with honors from the Duval high school a year ago and having always been interested in kindergarten work, spent the past summer in Miss Jacob's kindergarten training school where she received the very best instruction in that line. The mothers of Sanford will no doubt greet with enthusiasm the news that the kindergarten class will open this first week in October.

Rev. McKinnon to Leave

On last Sunday morning at the Presbytery church, Rev. J. F. McKinnon who has been the pastor for more than five years announced to the congregation that he would ask to be released from the pastorate in order to give due attention to the office of County Superintendent of Public Instruction to which he has been appointed. This matter will be considered at a congregational meeting to be called at an early date, but in the meanwhile Mr. McKinnon will continue to supply the church.

For The Primary

There will be a Mass Meeting at the city hall to-night, to plan the primary to be held in November, and every white voter is urged to attend. The primary has been contemplated for several years in Sanford, and now is the time to put it in effect.

THE GROWERS' PICNIC

All Are Invited to Come And Enjoy The Day

ON THURSDAY SEPTEMBER 14

Many Prominent Speakers To Be Present and Address the Meeting of Growers

The annual growers' picnic will take place at Beck's Grove, near Cameron City, on Thursday, Sept. 14. The picnic will be a basket affair, supplemented by a fine fish fry, and to those familiar with these annual picnics there is no need to expatiate at length upon the good time to be had. Along with the good things to eat will be a feast of reason with prominent speakers like Senator Bryan, Congressman Clark and Prof. Rolfs of the experimental station, and the 1911 Genie will eclipse all former ones.

Word has been received by the Growers from each of the speakers and all are sure that they can be present. It would be hard indeed to secure better or more interesting speakers than have been secured for this occasion. They are all well known to the people of this section and throughout the state and a large crowd is expected.

It should be remembered by those who expect to attend the picnic that the speaking will take place rain or shine at the Cameron City church which is near the park will be used should rain prevent the use of the park. This church will accommodate several hundred people if necessary.

Look for the big red posters and keep the date in your mind.

"God Bless Our Free Press"

The Coming Nation in passing judgment on commercial journalism says: "Every newspaper in this country is free to express any opinion it pleases so long as that opinion does not offend the administration, nor Mr. Morgan, nor the banks nor the railroad companies, nor the department stores, nor the big advertisers, nor Postmaster-General Hitchcock, nor the management of the Associated Press, nor the Guggenheims, nor the Standard Oil interests, nor the Merchants and Manufacturers' Associations, nor the chamber of commerce, nor the stock exchange, nor influential senators, nor a few other interests, unassorted. God bless our free press! What should we do without it? These must be lively times in most newspaper offices where long lists are kept of men and interests that must not be offended and the topics that must not be discussed. I am told that in some places the lists grow so long that no one mind can keep the run of them."

In commenting on the above Claude J. Engle, in Dixie, remarks:

"Perhaps this explains why there is more interest taken nowadays in who owns a newspaper than in who edits it."

"The subsidization of the local daily press has been self evident for many years. It includes the demands of railroad officials, the large advertisers, city officials who give out 'pep' bankers who get mixed up in unsavory things, steamship lines which issue free passes. The local list of immunes is a lengthy one so far as the daily papers are concerned."

"Dixie has no immune list." "No Immune List" should be a newspaper's badge of honor, but there are only a few who wear it. It is more profitable to maintain silence and this is the age of the dollar.

Want to be Mayor of Sanford

News comes from Sanford that Messrs. W. D. Holden and G. W. Spencer are both desirous of serving that city as its mayor. We are not very well acquainted with Mr. Spencer, but we do know that Mr. Holden is a man of affairs and is good material for the office he seeks. He is a son of our good old friend, "Uncle Billy" Holden, of this section, and like his father, he is all right. Besides, Mr. Holden has been largely instrumental in pushing Sanford forward, and for his good work in that line he is entitled to recognition. —Reporter Star.

Pensacola will likely stand third in lumber exports for the United States when the accounts are made up by the Government experts. In imports of mahogany that city will probably stand first, with New York second.

The United States National Association of Postoffice Clerks is holding the annual meeting in Jacksonville this week.

CITY COUNCIL MEETS

Heartily in Favor of A White Man's Primary

City Council met in regular session September 5th at 7:30 p. m. Present W. D. Holden President, pro tem H. R. Steynas J. D. Davison S. Runge H. Ward B. A. Howard. Absent D. L. Thrasher. Minutes of the last meeting read and approved. The reports of Marshal and Treasurer for August read and ordered filed. Moved and seconded that the matter of the non fulfillment of the Sanitary contract by E. E. Brady be referred to the Sanitary Committee, with instruction to report at the next meeting. Carried. Moved and seconded that no more money be paid Mr. Brady on Scavenger contract until the Sanitary committee makes its report. Carried. The Clerk was instructed to purchase a book and employ an assistance to transfer the names in the old registration book to the new. Moved and seconded that the following resolution be adopted:

Whereas, At the last meeting of the City Council, a petition was presented signed by G. W. Spencer, W. H. Underwood and P. M. Elder and a large number of the other citizens of the city of Sanford, requesting the adoption of an ordinance providing for the holding of a white man's primary in the City of Sanford for the purpose of nominating all candidates for City offices and.

Whereas said petition was referred to the City Attorney for an opinion as to the legality of such an ordinance and.

Whereas a mass meeting of the citizens has been called to decide upon the method of effecting this measure. Now, therefore,

Be it Resolved, By the City Council that all white citizens of the city of Sanford be requested to attend said meeting for the purpose of effecting the organization aforesaid. Carried.

The assessment books for the year 1911 were presented by the assessor and were examined and accepted.

Moved and seconded that the bills as signed by the President and approved by the finance committee be paid. Carried. Moved and seconded that the council now adjourn. Carried.

M. W. Lovell, Clerk.

The Caldwell Boys

David and Wideman Caldwell, grandsons of the late Dr. Andrew Caldwell, of Sanford, Florida, arrived yesterday afternoon and are guests in the home of Mr. and Mrs. W. S. Lyon. They will spend several days here with relatives and renewing acquaintances of their grand-father, whose name is prominently connected with the early development of Greensboro.

Older residents remember well Dr. Andrew Caldwell and these will be glad to welcome the grand-sons of such a generally beloved and admired grand-sire. The Messrs. Caldwell are prominent merchants of Sanford and are now en route to northern markets to buy fall stocks. —Greensboro (N. C.) News.

Worm Eats The Ice

An ice-dealer in Massachusetts has discovered something new in entomology. It is an ice-worm, that eats nothing but clear ice and gets in its work in the short interval between the ice wagon and the customer's refrigerator. It is being investigated, not as might be supposed by the bureau of entomology, but by the state sealer of weights and measures. Climate and geographical situation seem to exercise no influence upon this strange creature. He is abundant everywhere. Many specimens, or at least many signs of their work, have been observed in Tampa. —Tampa Times.

Home Destroyed by Fire

The home of R. F. Washburne, on the Chappel place was destroyed by fire last Saturday and the entire contents a total loss. Mr. Washburne and his family were away at the time and the flames had gained control before discovered. Assisted by generous donations of friends Mr. Washburne was enabled to take another house and go to housekeeping again. The origin of the fire is unknown.

Swam Across Menroe

Harry Kanner braved the raging deep last Sunday and swam across Lake Monroe in record time. He was accompanied by a boat and reached to within a short distance of the Enterprise dock. On account of his negligence attire he could not land at the dock, but the judges decided that he made the distance all right and established a new record on Menroe.

NEW CRATE FACTORY

Sanford Will Be the Site of Mammoth Industry

SITE PURCHASED THIS WEEK

Sanford Offers a Fine Local Market for Industry of This Kind—Details Will Be Given Later

The Sanford Manufacturing Company is a new concern that will establish a large crate and box factory in Sanford at an early date. The details of the company cannot be given until next week.

The site purchased from the Holden Real Estate Company is on the west side opposite the Virginia-Carolina Chemical Company's plant and borders on Lake Monroe giving the factory ample railroad facilities as well as the water transportation.

The question of the site has been settled in charge are here, today and will make the matter public next week.

Complimentary Dance

One of the most enjoyable social affairs of the season was a dance given by Pope Wicker in honor of Jack Whitaker of Camden, S. C. The guests were received by Miss Gene Wicker on the veranda which was made beautiful with decorations of palms, ferns and golden rod. Delightful music was rendered by Misses Lovell and Fox. Late in the evening refreshments were served. Those present were Misses Emil Purdon, Linda Conelly, Lucie Chappell, Margaret Davis, Charlotte Hand, Margaret Wight, Lillian Higgins, Ruby Betts and Elsie Coats, of Daytona Beach, and Jack Whitaker, Seth Woodruff, Osborne Herndon, Clarence Mahoney, Mac Butt, Karl Hamilton, George McLaughlin, Frank Campbell and Pope Wicker.

New Society Will Organize

On the afternoon of September 14th, at 3 o'clock, the young ladies of Sanford will assemble at the residence of Mrs. Edury Wight for the purpose of organizing themselves into a benevolent society. The name and scope of the society will be determined at the meeting, and it is hoped that every young lady in Sanford above sixteen years of age will be present and take part. Invitations by telephone and postal card will be sent out, but if by oversight any one is not notified, this announcement is to be taken as a cordial wish for co-operation and encouragement. Committee: Misses Mabel Bowler, Elizabeth McLaughlin, Mabel Hand.

Growers Will Make Killing

Florida truckers are preparing to make a big killing this winter through the practical failure of the Irish potato crop of the North and East. Acreage for the full harvest, which is being planted now, has been practically doubled. The big crop, however, will be planted in January.

Old potatoes are now selling at \$5 to \$8 per barrel, and it is expected that the new crop will bring equally good prices. There is now a notable shortage of seed potatoes. Florida's potatoes have always been welcomed into the market, but the state has never gone in for their culture on anything like the scale that will prevail this year.

At Methodist Church

Major Sumner will preach both morning and evening at the First Methodist Church. Morning services at 11 o'clock; subject: "The Church and the Social Problem."

Evening services 7:30 o'clock; subject: "The Last Great Day." All are cordially invited to attend. Seats free.

Story Telling Discontinued

With the delightful stories of Misses Linda Laffer and Gene Wicker last Saturday afternoon, the weekly hour in the park will be discontinued. This has represented the summer work of the W. C. T. U., and it is hoped that the idea will be taken up again later and enlarged upon.

Match 'A' Fiasco!

George Hack Tuesday morning complained of a pain in the knee wrenched in Monday's wrestling match with Frank Gotch. There is no indication of a serious injury. The Russian expects to sail from New York for England on September 9. Gotch had a good night's sleep. He will at once return to his Iowa farm, leaving for Humboldt. The city authorities term Monday's match not a "fiasco" but a "fiasco."

BOYS' HIGH-CLASS NEW FALL SUITS

EVERY one of these suits is made from materials selected by a fabric expert. In selecting a fabric we require a dressy effect, as soft and as near as possible to a SPOT PROOF material, and in a color that does not SHOW DUST or retain lint. And above all, we require that the fabric must give long and satisfactory wear; must look good and wear well until the end. For the workmanship, we lay down certain rules that insure thoroughness—a strong stitching with a specially selected thread that will stand the playing strain of a strong, healthy boy; and in the modeling we require a degree of SMART STYLE that speaks for itself. The styles are DOUBLE-BREADED and SINGLE-BREADED Coats with full Peg Knickerbocker Trousers; Coats cut long with center vent in back. The suits come in Cheviot, Cassimer, Serges, etc. All the new fall shades in Grey, Brown, Tan, Olive and Blue Serges are here for you to choose from.

SIZES -- NINE TO SEVENTEEN

IN ORDER TO INTRODUCE THE LORD BALTIMORE

Brand of Boys' Clothing, we will give for the next thirty days, to every boy purchasing one of these fine suits, a Watch Guaranteed to keep perfect time one year.

SUITS PRICED FROM \$5.00 TO \$10.00

CURBSTONE GLEANINGS

A Budget of Opinion "Just Between You and Me"

EVEN THE GATE POST NOT IN IT

A Chief Is Among Ye Taking Notes and Faith, He'll Prent 'Em" — So Says Saunterer.

The Jewel of North America — In Sanford (By Tasa P.)

When the North is wrapped in ice and snow, And winds from the Arctic regions blow, Where shall the seekers of treasure go? — To Sanford.

Where the sun shines warm in winter days, And soft winds breathe from every bay, Coily on Lake Meade lay, — In Sanford.

And dwellers bring to wondering view, Enchanting scenes and visions new, Flowers and palms, and other things of blue, — In Sanford.

But days seem short, nights quickly fall, We're no desire for a Northland call, For Southern glamour is over all, — At Sanford.

There's a varied charm we can't express, A restful peace from care and stress, A sort of bliss, a world-happiness, — About Sanford.

And when we reach Heaven's gate, If it be closed and we're too late, We'll just go back and daily wait, — In Sanford.

For howbeit this are the blissiest seats, And nowhere else in life so sweet, And never had heaven seemed so near, — At In Sanford.

Some time ago there was a kick against the extravagant manner in which the city council was spending the people's money in the matter of collecting the trash and garbage and the bucket system. There were several wise heads who made the assertion that they could attend to this matter so much better and with less expense than could the city and among them was one E. E. Brady, who was given the job at once by the city at his contract price. Mr. Brady is probably going to attend to this job but he is not giving service and every day there are kicks registered against him and complaints about the manner in which the trash and buckets are being neglected. I get it straight that in this private affair the tax payer is suffering much more than he would if the city had charge under a competent sanitary inspector. I think that Inspector Williams should be given the authority to jack up the men who are not attending to this job as they should. Mr. Brady is a busy man and does not get around to look after this job which is no excuse on his part and only follows out my assertion a year ago that the city was probably doing this work

about as cheap as it could be done. We would like to get the figures on this work from the street committee and also their opinion as to the efficiency of the two methods. My idea for the solution of this problem and also the fire department was the one advanced by a man from Gainesville who stated that two horses and wagons could attend to the fire department and the sanitary business also and save the city money but the council has already purchased the fire truck and this plan of combining the two departments is lost. For one I am heartily in favor of the city attending to its own business in the matter of public utilities and the sanitary department. Mr. Brady is a staunch advocate of municipal ownership and yet he has attempted to revert the municipal administration of this department to that of private control and has failed to demonstrate the benefits.

I hear complaints are being made against the city council for expenditures and among them is the office of Sanitary Inspector now being held by Sam Williams. I do not agree with them for Mr. Williams has earned his salary and more as the following figures sent to me will show:

For the six months of 1910 with no inspector on the job the sanitary taxes amount to \$909.38.

For the six months of 1911 with Williams on the job the amount was \$2,297.30.

The state appoints a sanitary inspector where one is needed and fixes his salary which the city is forced to pay and all the inspector handles with is sanitation and diseases in case of epidemics.

Is it better to have a man like Williams appointed by the city and more than making good than for an inspector to be appointed by the state and just draw his salary. The truth about these kicks is that many people hate to pay a sanitary tax and Williams is too good a collector.

The city council of every city makes mistakes. Our council is no exception to the rule but one of their mistakes was not in the appointment of a good sanitary inspector and the results will, I think, bear them out in my statement.

All this hullabaloo about the Vegetable Growers Association will not result in any good to our city or to the industry that buys gifts for the majority of us. Give them a chance to make good and uphold their hands instead of

trying to drag them down. We can never hope to get results unless we get together and this seems almost impossible.

The growth of the picture postal card has been enormous, not only in this county, but all over the world; and there is scarce a hamlet anywhere whose salient features—whether it has any or not—are not pictured in gaudy colors on postal cards ready to be sent by tourists to their friends as indisputable evidence of their visit. And the picture postal card has been a great boon in many ways. Undoubtedly it has done much to widen man's acquaintance and increase the bounds of courtesy, for the traveler in strange territory who, busied with their rights and wonders, has scarce time to write letters to his most intimate friends can take time to drop postal cards to a large circle; the picture on the back being the justification, the sender of the card is not required to write more than a word. But there have long been signs that the picture postal card habit is being grievously abused. From pictures of scenery, monuments and public buildings were developed the picture postal containing some unconventional greeting in words; the slang phrases appearing then slang phrases illustrated with rudely drawn caricatures, something after the fashion of the offensive and unkind comic valentines, and finally came the picture postal card frankly vulgar and indecent. So large has this practice of sending offensive postal cards grown that it is reported that the postal authorities have determined to take steps to put an end to their sale. Sincerely I hope that such a crusade will be successful and to the end that it may be I would suggest that the most effective work the postal authorities could do in this direction would be to suppress all the offensive cards that were submitted to the mails. Through these cards the name of the sender might easily be procured and the

Under present conditions the Sanford House is as good and in many instances much better than the average Florida hotel. There is not a man in the business today that can conduct a better hotel than Mr. Deiver and his guests are aware of this fact, but he is handicapped in the matter of rooms as he will acknowledge himself and while the Sanford House is equal to the present day volume of business it would not take care of a large number of tourists and hence my statement last week. I make this explanation because some of my critics assert that I am knocking the town which is certainly as far from my intentions as can be. These little items come up in my weekly perorations and cause more or less comment favorable and otherwise. The reader can draw his own conclusion—said conclusion making but very little difference to me, only I am not a knocker just for the pleasure of knocking

It has come to my ears that my statement about the Sanford House was not in tone and good taste. I said that the Sanford House needed more repairs, and it is a self-evident fact. I have no wish to knock the hotel or any hotel in Sanford. They are all doing the best they can and when my article was written it was with the understanding that the present management of the Sanford House intended to build a large tourist hotel at a later date which is highly probable.

Under present conditions the Sanford House is as good and in many instances much better than the average Florida hotel. There is not a man in the business today that can conduct a better hotel than Mr. Deiver and his guests are aware of this fact, but he is handicapped in the matter of rooms as he will acknowledge himself and while the Sanford House is equal to the present day volume of business it would not take care of a large number of tourists and hence my statement last week. I make this explanation because some of my critics assert that I am knocking the town which is certainly as far from my intentions as can be. COLUMN DEVOTED TO PEOPLE

In This Department Will be Found the
Views, Opinions and Comments
of Practical Writers.

Bawls Out The Bull
Ed. Herald—Years ago the West had trouble
with a blood thirsty Indian, "Sitting Bull". His
story excites itself. This time with a cow crazy
writing Bull—Perry.

Mr. BULL:

If the cattle interests of this great
country of ours could only employ the
aid and brains of one or two more
able and comprehensive "Bull" writers
on the subject of protection for the
woods cows as yourself, we poor Hay-
seeds would feel like crawling in a hole
and pulling it after us. Your first article
on the subject was a Master-piece of
work and brain power. Your arguments
most strong and convincing, leaving but
little hope for us or our crops and every-
thing for the cow, yet we did feel that
we still had a fighting chance, but your
second edition which appears in the
Herald is the last straw that broke the
Camels' back and all hopes for us are
gone—and in the future when we chance
to meet a cow or bull in the road we
will take up our bat with the greatest
reverence and respect, having in mind
that famous, most wonderful and power-
ful writer—John Bull.

Your articles on the cow question should
be published throughout the universe in
all the United States Government should
be called upon to pay you a good big
salary to travel and lecture upon the
subject of "bawling" for the cows—
especially in those states that have no
fence law—and the poor cow has no
rights but only spend her life guarded
by the pasture fence, while the Hayseeds
enjoy the status of freedom and their
crops are safe from the midnight thief.
Out set your interests in the beef trade.
You can make more money and gain
far more fame by blowing up this great
cock which you have started through
the columns of the Herald.
Don't bother that great and busy brain
of yours about such trifles as Celery and
Lettuce grown in the prosperity of
Sanford, Citrus Exchange, Florida Veg-
etable Growers Association and the Com-

mission Merchants will take care of such
small matters. And in conclusion will
say that we Hayseeds out at Cameron
City fully realize the fact that you are
a high bred bull. No piney wood stock
in your views. Keep in the middle of
the road and don't get your horns
tangled up with a barbed wire fence.
C. G. PERRY.

Soaks Railroad Company
EDITOR SANFORD HERALD.

Your article "Corporations are not
Heartless" in last issue of July 28.

While the party mentioned is highly
respected for his stability and ability and
fairmindedness by all who know him and
have learned his ways of dealings, and
appreciate him as an official and citizen.
You forget to look around and see the
living evidences among you. For in-
stance in the case of Yardmaster Beatty,
who was yardmaster here for a number
of years, happened to the misfortune of
losing his legs and then was not hostile
to the corporation, and as soon as he
wanted consideration was subrogated in
situation from original position and the
only consideration he gets they are not
going to make any changes in the yard,
and the reason for this given out from
high authority is he is wanting in "upper
story". Before he lost his legs he was not
deficient in this respect for a term of
years in active service. In this fair
show us the body exhibited in this one
particular, how do you know when his
time is up he will be all in down and out.

And again Engineer Davis was injured
and not willing to be hostile, came to
them in fair, square, equitable manner,
and asked for consideration in as much
as something to do for a livelihood and
consideration of lost time, and to be told:
"If you report you can go on your run."
Not able to do that. Asked if something
happens and can't fix the same you go-
ing to consider not able to do better on
account of being one-handed, answered,
"No, your services would not be satisfac-
tory."

Just think of the thousands now over
the country who are out of work and
the reason is "services not satisfactory."
Now show me the heart in this!

Who are your patrons and when you
blow your horn, look around and see
something. Learn conditions and know
what you are giving vent to. Turn all
the shades of light on this subject and
give the public facts, not fictions. Inves-
tigate and see and know that fair-mind-
ed and honorable acts of men toward
your praised corporations are met with

rebuffs and the infallible denunciation of
heartlessness and of rascals "not consid-
ered."
A Railroad Man

Illustrated Bible Lectures

There seems to be an increasing in-
terest on the part of many to hear the
ILLUSTRATED BIBLE LECTURES which
are nightly being delivered at the Gospel
Temple, Cor. Park Ave. and Seventh street.
A recent lecture on the subject of the
Millennium was of special interest to
those who have given thought to this
subject.

The speaker said the word "Millennium"
was from two Latin words "Mille", mean-
ing a thousand, and "annus", year. The
word signifies a thousand years, without
any reference whatever to the character
of the period, whether good or bad.

The popular view of this subject is that
the gospel of Christ will so far control
the minds and hearts of men that the
whole world finally be converted and
become holy by its influence, that wars
will cease, and that this happy state
will continue one thousand years, and
that during this time Christ will reign
with his people spiritually.

The speaker maintained that the
millennial reign with Christ brought to
view in Revelation 20:5 is not on this
earth but in heaven, for when the
righteous dead are raised at his second
coming (1 Cor. 15:51-55) they are caught
up the Lord in the air (1 Thes. 4:16-17)
and taken to Heaven, where Christ is
(John 14:3). John, while in holy vision
on Patmos, had a view on them there,
and heard their anthems of praise and
shouts of victory. Compare Rev. 20:4,
16:2; 4:1-6; 14:1-3; 19:1-9. Thus the saints
live and reign with CHRIST IN HEAVEN
during the thousand years after the first
resurrection, or the resurrection of the
JUST.

But it should be remembered that when
Christ comes the second time and gives
life to the righteous, the brightness and
glory of His presence consume the
wicked, so that the earth is depopulated
and left desolate.

Weak Eyes
Weak eyes are made strong by Leon-
ardi's Eye Lotion. Inflammation is cured
without pain in one day. No other eye
remedy so pure and healing. Keeps the
eyes in working trim. It makes strong
eyes. Guaranteed or money refunded.

THE SANFORD HERALD
 Published Every Friday Morning By
THE HERALD PRINTING COMPANY
 R. J. HULLY, Editor
 W. M. HAYNES, Business Manager
 Subscription Price, \$2.00 a Year in Advance
 Entered as second-class mail matter August 22nd
 1908, at the Postoffice at Sanford, Florida,
 under Act of March 3rd, 1879.
 Office in Herald Building Telephone No. 148

Kissimmee will occupy a space in the Commercial Congress building at Washington, D. C., and have a fine display there for the next two years paying \$30 per month. Could Sanford spend this amount of money more advantageously?

The Sanford Herald will soon be a semi-weekly. Editor Holly will have to have an auto to get the news. Well, the Celery City editor should have coined enough by this time to get a Brush runabout at least. Success to his new venture.—Lake Region.

The report from the Weather Bureau for July for the whole United States contains a very interesting weather map, showing that Florida had the lowest maximum temperature of any State in the Union. Florida is quoted at 90 and the North Atlantic states at 92 to 95, and the Middle West States at 100 to 110.

A most excellent diversion now practiced by the W. C. T. U. of Sanford is the gathering of the children in the city park every Saturday afternoon for the purpose of being entertained with pretty stories by a committee of ladies appointed weekly. What a pretty and profitable custom this is, and we commend it to the good women of Tallahassee. The children would enjoy it, and would be far better for their than time idly spent on the streets.—Tallahassee Democrat.

Our busy season is approaching and the city election should not be allowed to cause ill-feeling or engender enmity that would interrupt the commercial relations of our citizens. Sanford is entering one of the most prosperous seasons in the history of the city. Regardless of the hot air and bombast of the politician the city will be here the day after election and Sanford is not resting upon the shoulders of the mayor and aldermen, but we are busy—too busy for any interruptions.

The Lee County News, at Fort Myers, has been discontinued and the outfit packed up and shipped to Webster where it is presumed a paper will be started. The News was a good paper, but, notwithstanding the extremely favorable conditions at Fort Myers there was no room for two publications, and especially after the Press started a daily edition, the outcome of the struggle was inevitable. No matter how fertile the field, newspapers just can't be made to flourish where there are too many in the acre.—Lakeland News.

THANKS!
 The Sanford Herald has just celebrated another birthday anniversary and Editor Holly says that "since the inception of The Herald just three years ago the policy of the paper has never been shaken by the sunshine of prosperity or the dark clouds of adversity." The Herald, beginning with its first issue, was a booster for Sanford, and the fact that the census figures showed it a 250 per cent. increase causes Editor Holly to feel that he has a right to be pleased and satisfied. There can be no question as to the influence wielded for good by a well-managed newspaper and that The Herald is one of the best in the Florida journalistic family is conceded without a dissenting voice. For the further advance of Sanford and vicinity it is to be hoped that Editor Holly and The Herald will "live long and prosper."—Times-Union.

FIRE INSURANCE RATES
 The Kissimmee Valley Gazette tells of the arrival in that city of a new chemical engine for the use of the fire department. This is a mark of progress and, as the Gazette properly tells, means a reduction in the insurance rates in that city. The matter of insurance is one that is often overlooked, when a man is arranging to move into a new section. But few business men neglect to cover their property with insurance—and when they come to discuss premiums with the agents, as it often happens they are surprised, and just as likely displeased, because the rates are higher than they had cause to suspect. Insufficient fire protection is the cause of high insurance rates, and the addition of modern machinery for fighting fire and the establishment of fire bolts and requiring certain rules for general protection, will always result in better conditions and more satisfied settlers.—Times-Union.

BUSINESS MEN FOR CITY OFFICIALS
 The showing made by the city plants for the first six months of the present year is certainly most creditable. The figures speak for themselves. But back of the results as they appear in the semi-annual report stands out one fact which must not be overlooked by the taxpayers. This fact is, that it pays to have business men in charge of the business of the city. Such men have been successful in their own work, and know how to handle the large affairs of the city government to the best advantage. The manner in which the Board of Bond Trustees handles the affairs of this city should be appreciated by all citizens. This board has always worked to the advantage of the city, and is a modified form of commission government. The board is stronger today than it was ten years ago, and its strength has come from its business-like administration of the city's affairs.—Jacksonville Metropolis.

FACTORIES FOR SANFORD
 The Herald has harped upon the factory question for the past three years and attempted to prove beyond a shadow of doubt that Sanford offered all the inducements necessary for the establishment of factories. Our efforts are likely to be rewarded and word comes this week of the establishment of a large crate mill at this place. Sanford uses as many crates as any other section of Florida and yet for years the business has been handled through middlemen. The result has been unsatisfactory to the growers and Sanford money has gone to enrich the coffers of a foreign corporation. Now that a factory of the kind is an established fact, our many claims as a factory site second to none in the state, should be recognized by other business firms and barrel factories, broom factories, paper mills, canning factories and many wholesale houses will come into our midst. Sanford has the central location, the railroad facilities and the water transportation and our citizens can be depended upon to meet the prospective customers half way and make other advances that are reasonable. The factory with the regular weekly pay-roll will mean more to Sanford than any other form of industry, and the day our large crate mill starts will mean the beginning of an era of prosperity founded upon a solid basis.

WATER NEARLY FREE
 Since the city of Pensacola has owned the water plant, about three years, that department has realized a profit of approximately eighteen thousand dollars a year. Last year it was about twenty thousand and the committee contemplates a profit of about sixteen thousand dollars this year. The department now has on hand over twenty thousand dollars and most extensive improvements have been made lately. Of course, it must be remembered that the plant has been maintained, improvements have been paid for, the works are more valuable than they were three years ago, and the rates have been considerably reduced. But the point the Evening News wishes to make is this: No profit should be made on the city's water. The principal of government is not to make money. No government or part of any government should be operated for the purpose of realizing profits, and few are. The duty of the water committee is to make the price of water just as near free as possible. When all the costs of maintenance have been paid and necessary improvements made the water department has done all that it should or is supposed to do.

Water should be free, or as nearly free as possible to the people, because abundance of water means better sanitary conditions, a more healthy people and a beautification of the city. All people, especially the poorer ones, with plenty of water at little cost, can afford to have larger and more flourishing flower gardens, for they would be watered more freely than if the water cost the residents as much as it does at present. Water, like air and light, ought to be free to mankind, or as nearly so as possible. The water committee should lower the water rates to the minimum. We do not want the water department to make any profits, but simply to improve and maintain itself.—Pensacola News.

Presbyterian Church
 Rev. J. F. McClannan will preach at the Presbyterian Church next Sabbath morning and evening as usual. All are cordially invited to attend the services.

ANNOUNCEMENTS
 For Mayor
 As the nearest month of the year, I hereby announce that I am a candidate for the office of Mayor of the City of Sanford, at the December election.
 W. D. HAZEN
 I am a candidate for the position of Mayor of Sanford subject to the decision of the primary election and solicit your support and support.
 W. D. HAZEN

IN FERTILE FLORIDA

Ft. Ogden has organized a Citrus Growers' association and applied for letters patent.

The scuppernon grape crop is to be heavy throughout the state this fall.

Brown-corn is looking well, but the average is not as heavy as it should be.

The pineapple industry on the East Coast is being revived. One firm has shipped 100,000 Cuban slips for planting.

Dunedin reports a large crop of mangoes and guavas with prices profitable.

Germany used \$4,847,584 worth of oranges last year, the fruit being imported from Spain and Italy. Here is a field for Florida.

George Hooker of Sidney has a pumpkin vine covering 65 square feet of ground with 100 pumpkins on it.

The state is still deficient in rainfall, which augurs plenty of rain in September when it is needed to cool off the atmosphere of the hottest month of the year in Florida.

Southern California is planting many acres of the avocado pear tree. This California spirit there are corporations which are risking as high as 100 acres to this fruit.

The crop of velvet beans this season will be the heaviest ever in the history of the state. This bean is more proficient in proteins than alfalfa and the Florida farmer is just learning that it is a very profitable forage crop besides valuable to the soil to plow under.

In Tampa one velvet bean stalk has provided foliage for a pergola eight feet high, six feet wide and 24 feet long.

California pears, peaches, apples and grapes are selling at \$1.25 a crate in the Tampa market. The grower must be getting the "little end of the horn" back on the Pacific coast. Why? Because when this crop is ripe in California 87 per cent. of the states of the Union have all this kind of fruit they want—in fact it is rotting on the tree or vine for want of purchasers.

The total shipment of grapefruit and oranges from Habana, which takes in at least one-half of the citrus fruit territory of Cuba geographically speaking, amounted to 19,501 crates, of which 13,890 went to New York, 4,740 to New Orleans, and 871 to Mobile. This statement will give a fair idea of the nonexpansion of the citrus fruit business of Cuba.

Campus News—University of Florida
A most excellent report from the War Department at Washington has recently reached the office in regard to the condition of the Department of Military Science.

A supply of office equipment, typewriters, etc., has just been received and installed in the Secretary's office.

A number of men continue to work on the various walks and roads over the University Campus.

A handsome booklet of the University has just come from the press. It contains pictures of the buildings, campus student organizations, and various phases of college life, and may be had for the asking.

Dean James N. Anderson, of the College of Arts and Sciences, with his family, is spending his vacation at Williamston, S. C.

Dr. C. L. Crow, Professor of Modern Languages, and family are spending their summer at Newport, Va.

St. Cloud wants municipal improvements and on Monday last held an election for the purpose of voting on the bonding question.

CATARRH CURED
Drive The Poison Germs Out of Your Blood With Leonard's Blood Elixir and Get Well

No other disease is as common and prevalent as catarrh. The mucous membrane; that is, the pink flesh lining the inside of the mouth and respiratory organs, discharging an irritating fluid. This condition is called catarrh and is due to poisonous germs in the blood. No local treatment can cure catarrh. It may give relief for a short time, but catarrh poison is in the blood and the trouble will soon return, even worse than before.

Leonard's Blood Elixir cures catarrh in the right way and in the only way,—by purifying the blood and driving out all the poisonous catarrh germs from the system. Do not expect to be cured by any local application. Catarrh is a deep-seated affection that needs the persistent use of a blood purifier like Leonard's Blood Elixir, although the first bottle almost invariably shows a decided benefit. In fact there is nothing that gives as quick relief in catarrh troubles as this remedy.

In all blood diseases such as tumors, ulcers, rheumatism, syphilis, kidney and liver complaints, catarrh, etc., Leonard's Blood Elixir is the best home treatment that can be used; in fact, it is better than the medicines used in many hospitals and will give quicker and more permanent results. It has cured thousands of cases of blood poison after they were given up by physicians who said there was no help for the patients.

Leonard's Blood Elixir is a true blood purifier and maker of new, rich, red blood. Careful experiments have shown that it increases the amount of new blood several ounces a day. In this way it gives new life and new vigor to the system and tones up and strengthens the organs by furnishing a supply of clean, pure, rich, health-giving blood. Circulating through the veins of the mucous membrane, this new, rich blood drives out the catarrh germs and puts the whole system into a healthy condition so that the invasion of catarrh can be and are resisted. No sufferer from catarrh should go a day longer without using Leonard's Blood Elixir.

The \$1000.00 guarantee given by Mr. Leonard inspires confidence in the use of his blood Elixir. Every dealer is authorized under this \$1000.00 guarantee to refund money on first bottle to any purchaser of Leonard's Blood Elixir who is not perfectly satisfied with the results it has given. No other remedy for catarrh or blood poison has ever given a guarantee like this because no other remedy ever equaled Leonard's Blood Elixir in scientific merit and curative power.

For Sale By Wm. G. Aldridge, Sanford, Florida

A Statement
Some Claims and
A Challenge
Statement.
The Florida Citrus Exchange hereby announces that it has averaged for the growers affiliated with the Exchange a higher price—net on the trees—for their oranges shipped through the Exchange, this season, than any other marketing agency in the State of Florida, has paid an average to its growers for oranges of similar grade, pack and quality.
Some Claims
CLAIM No. 1—The Florida Citrus Exchange claims that it has handled its citrus fruits, from time of loading on cars until delivered at destination, including all charges of selling (which include brokerage, auction charges, salaries, telegrams, and every expense of whatever nature and kind incurred in selling such fruit) for less actual charges to the grower owning said fruit, than any other marketing agency in the State of Florida.
CLAIM No. 2—The Florida Citrus Exchange claims that it has obtained from the purchasers in the market places of the United States, a higher price for the citrus fruits handled by the Florida Citrus Exchange during the season of 1910-11 than has been obtained by any other marketing agency in the State of Florida for fruit of similar grade and quality, sold at the same times.
CLAIM No. 3—The Florida Citrus Exchange claims that today its packs and brands stand higher with the trade that purchases and sells citrus fruits in the markets of the country than the packs and brands of any other marketing agency in the citrus deal in Florida, for fruit of same grade and quality.
CLAIM No. 4—The Florida Citrus Exchange claims that it is the only agency operating in the citrus deal in Florida that renders an honest, intelligible account sale to its shippers, in that it is the only agency in Florida that states on its account sale the actual date and place of sale, the actual amount of money received for the fruit sold, the name of the purchaser; and plainly states all deductions of every nature and kind from the gross proceeds of the sale, which enables the grower to readily and intelligently check back to see whether he has received an honest accounting or not.
CLAIM No. 5—The Florida Citrus Exchange claims that no agency for the sale of citrus fruits, operating in Florida, actually handles the fruit of its patron for total gross charge to the grower of 10 cents a box—or anything near that sum—to include all costs of handling, of whatsoever nature and kind; including brokerage, auction charges, commissions, salaries and other elaborate and undetailed expenses. **AS MANY GROWERS HAVE BEEN MISLED INTO BELIEVING,**
CLAIM No. 6—The Florida Citrus Exchange claims that it is the only marketing agency operating in citrus fruits in Florida that pays in full to the growers for whom it ships, all of the claims it collects from transportation companies for loss, damage and overcharge.
A Challenge.
The Florida Citrus Exchange hereby challenges any marketing agency operating in the State of Florida to disprove any of the six foregoing claims—not by mere ex-parte statements, but by positive proof backed up by evidence, to be submitted to three unprejudiced, nonpartisan growers and operators of experience in the State of Florida; and we will suggest as nominees for this Committee of Arbitration three men well known throughout the State, none of whom are affiliated with the Florida Citrus Exchange, or have any leaning or partisanship therefor,—to-wit:
MR. KIMBALL C. ATWOOD,
MR. J. H. PRESTON,
MR. H. B. STEVENS,
and we will select as our Expert to check up from the books of any acceptor of this challenge, our Cashier, Mr. Charles G. Harness, who is to have just as free access to the books and records of the challenging party as the representative of the challenger shall have in investigating our books and records.
Moral.—Ship through the Exchange and Get It All.

Your Debt to the Paper

The editor, says the East Liverpool (O.) Review, knows more people than any man in trade, profession or calling in the community. He knows their wants, their wishes, their weaknesses, their follies, their vices and their virtues. He is the custodian of their innermost secrets. He has gazed upon the gruesome skeleton in practically every family closet within the jurisdiction of his newspapers, and if he were to speak out and tell all he knows, the community would be shaken from center to circumference with the revelations of a scandal. But he does not choose to speak out in that manner, for he desires to exploit only the good that men and women do and thus exalt the community. He would rather exploit virtue than expose vice, notwithstanding that the majority of the reading public are clamorous for the sensational. His purpose is to elevate the standing of his publication as well as that of the community.

The people of every community owe a debt of gratitude to their newspapers. Some of them are not always eager to discharge that debt. They are rather inclined to give the newspapers the worst of it. They seem to forget, at the time being that the newspapers have already shielded, or defended, them from the private lives and saved them from business ruin and social ostracism. The newspapers would probably do the same thing again and even in the face of provocation and the menage of those people's base indignities. The trouble is that, while exposing the moral obliquity of some, pain and sorrow, and humiliation are brought upon others, who are innocent. That is another reason why the well-regulated newspaper remains quiescent under aggravating circumstances.

Sanford the Place

C. P. Ristow, of Sterling, Ill., arrived in the city of Sanford and is looking for a chance to share 'crop until he can become acquainted with conditions here. Mr. Ristow has been farming in Canada but states that the country is so cold for six months out of the year that life is not what it seems to be in Florida. Mr. Ristow was attracted to Sanford through The Herald and expects to purchase a home here and remain for the rest of his life.

COUNTY HAPPENINGS

A Budget of Interesting Items From Correspondents

THE EVENTS OF ORANGE COUNTY

Efficient Staff of Reporters Weekly Covers the Territory for The Herald

PAOLA POINTS

To the Editor of The Herald: Say! has any other place a plague of mosquitos, or have they all congregated in Paola? They fairly spoil our moonlight nights and are above a "nip" in the broad daylight.

Mrs. T. E. Wilson of Sylvan Lake left Sunday August 27th, for a trip to New York State, accompanied as far as Jacksonville by Mr. Wilson.

B. C. Hartley made a flying visit to his home here last week, returning to Taylorville to work permanently.

Mrs. F. A. Johnson of Markham was the unfortunate victim of a mules unhappy disposition several days since, narrowly escaping serious injury and is still laid up for repairs.

Mr. and Mrs. W. H. Taylor returned

Luke Balcom of Tampa spent a few days in Paola last week on his way north.

Davis Hart, of Markham has returned from his visit to Co.

Another picnic party went to Palm Springs last week and report a fine time.

MOORE'S STATION

Special Correspondence to The Herald: Mr. and Mrs. C. W. Powell and family and Mrs. A. W. Powell of West Sanford, were entertained Sunday at the home of Mr. and Mrs. I. D. Hart, at Beck Station. James McMillan has an interesting lot of young alligators and eggs at his home which attracts many visitors. Mr. McMillan raises them for the trade.

The McClelland children spent Sunday in Sanford with their aunt, Mrs. Will Hilliard.

The important time-worn question, whether woman shall or shall not vote has finally been settled by the young peoples' debating club here—that woman shall vote, last meeting held at Mrs. Ella Greenland's.

Mrs. C. C. Worthington of Lake Onora left for Cincinnati, Ohio, last Thursday, called by the death of her brother.

Doc Castle, the Geneva avenue farmer, is mourning the death of his fine mule, Maude.

Barnum Page who has been spending sometime at the home of his sister, Mrs. Walter Dresser, returned to his home in Watertown, N. Y.

Harry Ward and G. C. Chamberlain were in Orlando on business last Thursday.

Roy Laxton will have charge of Sanford farm on Melonville avenue instead of the Grim place.

Dame Rumor says Alex Vaughn has made another trip to Canton, Ohio, and this time married Miss Bulah Dunlap, a former resident of this place.

Howard-Packard Land Co. have purchased the F. E. Moore place on Central.

J. F. McClelland was at Lake Harney Sunday with a party of friends.

A party of young folks are planning to take in the dance Friday night at the hall in Geneva.

CAMERON CITY CLIPPINGS

Special Cor. to The Herald: Mrs. Worthington of Lake Onora, was called to Cincinnati last Sunday by the unexpected death of her brother.

Mr. Doherty has rented Dr. Babb's farm of Beardsley Ave. and he and his family will soon move into the house.

Among the Monday visitors at Cameron City were Messrs. Doherty, Doherty and Goss.

Mr. Allen is busy in Sanford these days organizing a lot of the Apple and Moon.

Many people have been interested in the alligator hunting at Mr. McMillan's. Several hundred pigs have been hunted and he has found a good sale for the baby alligators. The people drove over Sunday afternoon to witness the night.

The contest is let for Mr. Kennedy's house, north of the city, and the work will commence at once.

Mr. Howard and family and Miss Mabel Anderson have returned from their summer outing in the north.

The Farmers Club met Tuesday evening and the different committees reported on the progress of their work in the preparation being made to entertain the annual growers picnic to be held in Cameron City Sept. the Fourteenth. Everything progressing nicely.

FROM MACARONI DELTA

By Wireless Telephone

Rube Finkbner, who sued for a divorce from his wife on account of her failure to support him, has dismissed his suit as his wife has inherited considerable property.

Several suits of flea proof underwear have been purchased by our folks getting ready for the picnic at Cameron City.

Zack Statesman produced a hybrid cucumber last summer that is half cucumber and half gourd. It grows much larger than the ordinary cucumber but doesn't cause shooting pains in the stomach like the thoroughbred cucumber.

Mart Buster, the landlord of the Buster house, has advertised that from now on he will serve real cow butter to his guests, which will no doubt draw much more trade to his hotel. Mart is a hustler and knows what his guests want all right, all right.

Big Douglas, the editor of the Oviedo Avalanche is being urged to run for Congress at large, but his friends are uncertain about him, as he wears non-union breeches and suspenders which may handicap the race.

Absalom Boliver, who studied law six months in "Squire Hoplight's" office, is going to run for justice of the peace.

and the dumping Senatus society, and his great-grandfather fit in the revolutionary war.

Rev. Lige McSwatt preached his favorite sermon, "The Return of the Probable" last Sunday by request of his congregation. When Rev. Lige dwells on the terrible suffering of the young man who is fighting pigs in order to get his share of the hush for a noontday lunch the whole congregation blubbers to beat the band.

Growing Apples in Orange Co You can grow anything in Orange County.

About the only fruit that was lacking was apples and now comes Mr. and Mrs. Frank Johnson, the Burbanks of the Orange county, who have successfully grown apples and can prove it by the fruit. Some time ago Mr. Johnson conceived the idea of grafting a hardy apple stock upon a haw bush and the experiment proved successful. From the tree now two years old he has a crop of nineteen fine apples. The fruit is not a small, knotty type of the usual southern apple but a fair sized, smooth green apple that bids fair to become a marketable quantity.

The Johnsons have a fine farm near Markham where they take a special pride in producing the best of everything in the fruit and vegetable line and their place is a revelation to the man who is ignorant of what can really be grown in Florida.

Mrs. Johnson expects to take the apples to the Orange county fair for an exhibit together with a fine display of pecans, fruits, vegetables and chickens raised upon their place.

We need more people like the Johnsons who are willing to sacrifice time and money in experimenting with Florida soil and making the waste places blossom like the rose.

Short Potato Crop

W. B. Powell secretary of the Tampa Board of Trade, has returned from a visit to the coast and potato belt of Florida. He says:

"Crop conditions in the Middle States are not the best. The wheat crop was fair, but the best crop is cut in two by the chinch bug. The hay crop was curtailed by the drought early in the summer. They have a tremendous fruit crop. There are no more apples that the farmers in some instances are filling their cisterns with cider, and in others using their sixty-foot silos to store the cider. Big, fine apples are selling for 30 cents per bushel, grapes are being given away, and so low in price when shipped that it does not pay for the picking and the basket. Big, magnificent, luscious peaches are going for 75 cents per bushel. Peaches are not handled at all, and are allowed to rot under the trees covered with the fruit. That's the trouble with the middle States—when there is an average crop the fruit does not command any price because everybody in twenty States has all they can use. Potatoes are selling for 75 cents a peck, and it will be about every Florida farmer to plant both sweet and Irish potatoes this year. There is to be a potato famine all through the North. The hot weather killed the tomato crop and tomatoes are selling as high as in Florida. The Florida farmer would also do well to plant tomatoes heavily, as there will not be sufficient tomatoes for the canners."

Tayon Springs cultivates the sea. The gulf gives up to that little city from \$3,000 to \$7,000 worth of sponges each and every week in the year. They use no fertilizer and never find the rains deficient for ample returns.

In union there is strength. We have the goods you need, and the price you can do the rest. Sanford Furniture Co. 35-17

Couldn't Walk! "I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardul for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years." TAKE CARDUI The Women's Tonic We have thousands of such letters, and more are arriving daily. Such earnest testimony from those who have tried it, surely proves the great value of this vegetable tonic, medicine for women. Cardul relieves women's sufferings, and builds weak women up to health and strength. If you are a woman, give it a trial. It should help you, for it has helped a million others. It is made from pure, harmless, herb ingredients, which act promptly and surely on the womanly organs. It is a good tonic. Try it! Your druggist sells it. Write for Medical Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for special instructions, and 64 page book, "Home Treatment for Women," sent free. 15¢

IDEAL FERTILIZERS BEST To gain a place on our regular list a formula must not only produce results, but results with a PROFIT. The user of fertilizers considers the effect on his pocket-book the REAL result. IDEAL FERTILIZERS produces the right effect, for it works with Nature. The preference of each class of vegetation for its source of plant food is carefully studied as well as the proper proportions to give perfect balance—no lack, no waste. With proper application of proper food vegetation outgrows diseases and insects to a great extent, and being strong and vigorous, produces fruit that is pleasing to the eye and palate, and brings financial returns pleasing to the grower. Do not lose the maximum profit due you by using poorly balanced plant food from improper sources. IDEAL stands for PROFIT. Call at our Sanford Branch Warehouse in charge of R. C. Maxwell or address Wilson & Toomer Fertilizer Company JACKSONVILLE FLORIDA

Lost—Childs hat trimmed with roses between depot and J. M. Lord's residence. Finder please return to Herald Office, or J. M. Lord's residence. 4-11c

Another Land Sale The Howard Packard Land Co. sold ten acres of land near Cameron City belonging to Prof. Maria to Chas. H. Fulton of Philadelphia. Mr. Fulton will remove to this city and engage in farming.

Purchased Entire Business Strolling by the Abernathy-McLaughlin furniture store a Herald representative was surprised to see three car-loads of furniture being unloaded. A word with Mr. Abernathy elicited the information that he had recently purchased the interest of Mr. McLaughlin, who was desirous of putting more capital in his Tampa store.

Mr. Abernathy has great faith in the future of Sanford and has purchased a fine stock of furniture and stoves. The three-piece library suites in fumed oak and early English finish are bound to prove popular and the entire line of house-furnishing is up to date in every particular. Mr. Abernathy has a back page in the Herald to keep Sanford posted on furniture news and desires the ladies especially to come to his store and see the beautiful line of new furniture.

Why BE SICK OUT IN the country far away from a doctor. Come to Sanford's PRIVATE HOSPITAL at Second Street and Laurel Avenue and be under the care of an experienced nurse. No Tuberculosis patients accepted.

Large Herd of Moose Instituted

A more enthusiastic gathering of men were never before together than when Sanford Lodge of Loyal Order of Moose No. 742 was instituted last night in the Masonic Hall. D. Lindemann national organizer assisted by Bro. Allen from Colorado and Bro. Kraus of Jacksonville duly installed the local lodge as well as the officers. The charter will remain open until Wednesday night, Sept. 20th, at which time the regular initiation will take effect which is \$25.00. So those wishing to join should take advantage of this rate. The chair called for remarks to which the officers and members responded with the desire to have at least 200 members by Sept. 20th, the following are the officers.

Past Dictator, W. L. Morgan; Dictator, Dr. J. N. Robinson; V. Dictator, W. J. Morrison; Prelate, R. G. Hickson; Treasurer, L. G. Stringfellow; Secretary, R. H. Giger; Sgt. at Arms, Frank Graves; Inner Guard, S. Tillford; Outer Guard, B. Long; Trustees, M. F. Tontain, J. F. Doolahan, N. O. Garner; Physician, Dr. J. N. Robinson.

Any one wishing to make application kindly call at Dr. Robinson's office

Labored on Labor Day

On Monday, Sept. 4th. (Labor Day) about a dozen (men) members of the church and others put in a few hours cleaning off the yard and grounds of the Congregational church. They made a great improvement and there is still room for improvement which they hope to accomplish in the near future. The ladies of the church agreed to give the men their dinner if they would come and work. The ladies did their part of the work well, for all who partook of the refreshments were well pleased and were glad to be there. The weather was rather warm for some of the laborers that were not used to being out in the sun. The only unpleasant feature of the occasion was that a colored man named Green stepped on a nail and put him out of business for a short time.

W. D. Holden for Mayor

W. D. Holden announces his candidacy for mayor, subject to the decision of the primary. Mr. Holden has been identified with the interests of Sanford for the past five years and having served two years upon the board of aldermen, is entitled to go higher up having a thorough knowledge of city affairs. He has always been foremost in every progressive movement and his policy is clearly defined.

Meeting of W. C. T. U.

The regular business meeting for Sept. of the W. C. T. U. will be held at half past three o'clock on Tuesday afternoon at the Congregational Church. As this is to be an occasion of reunion after the summer recess it is hoped there will be a very full attendance of all officers and members. The topic for the program and discussion will be "A brief review of Florida laws concerning women and children."

Sanford 6, Leesburg 1

In the great game last Monday between Sanford and Leesburg the tribe of Jim Harris proved too strong for the Lake Co. boys and at the end the score was 6 to 1 in favor of Sanford. Wallace and Allen were the battery for Sanford and the rest is easily told. There were no really brilliant plays but the game was as good as the average and enjoyed by the crowd present. More games will follow during the month.

TO BE SUCCESSFUL AT

VOLUSIA FARMS

KEEP OUT OF THE RUTS

Keep out of the ruts when you settle on Volusia Farms: Don't do anything for the reason that your neighbor is doing it. Have a reason of your own. Have a mind of your own both to learn and act upon what you learn. Don't emulate the example of the Chinese who do things because their fathers and grandfathers did them.

Solve **your** problems, **your** land, **your** crops, **your** live stock. Don't come to Volusia Farms with the idea that you can farm in the same way as you farmed in the north and then, knock Florida because you did not adapt yourself to Florida climate, Florida soil and Florida methods. **Try to improve our methods and our crops.** Give thought for the morrow. Try to get all out of each acre that it will produce the year round.

Endless opportunities are yours for the making. No need to seek them. They are here waiting for you if you have ambition enough to make a close study of your business.

Farming is a business just in the same way as keeping a store or running a mill. Possibly farming is the most exacting of all businesses in that it needs men of brains, ambition, stickability. Volusia Farms offers opportunities for the brainiest, most ambitious men in the country who are long on stickability.

The resources of Volusia Farms have hardly been scratched. There is likely no end to them for the man who gives his attention, his energies and his best thought to making the rich soil produce its limits.

There are possibly many new varieties of vegetable, fruits, nuts, grasses and leguminous crops that can be grown here for the sake of a little experimentation. Volusia Farms territory has already proven itself for beans, peas, potatoes, radishes, beets, cucumbers, egg plant peppers, tomatoes, cabbage, sugar cane and a host of other things; oranges, grapefruit, tangerines, kumquats, grapes, and so forth, but we believe that many other articles of food for man and beast can be raised here to the ultimate profit of the grower, and our country.

Alfalfa, for instance. A large number of farmers are experimenting with this valuable forage plant. The minute a Volusia farmer succeeds in growing it at a reasonable cost, the value of all these lands will increase marvellously in monetary value.

Cotton, too, is probably the finest cash crop that can be grown on these lands. Long staple cotton crops can be converted into cash immediately, or can be held for taking advantage of market fluctuations—but any time you want to sell your cotton you can get the cash for it.

Live stock farming assuredly appeals to broad-minded men as be-

ing a source of large income. At a time when the country is groaning under the extortions of the beef trust and Florida fails to meet the demand of home consumers, the market for live stock is immediate. Florida imports large quantities of western meat while her own prairies, capable of sustaining thousands of cattle, are neglected. A little study along the line of growing feed in conjunction with the keeping of live stock—a little step out of the rut, will make many a man rich.

And why not go in for poultry raising as a BUSINESS? It is reported that on a poultry farm near Volusia Farms, the owner is clearing \$2 a year on every chicken. Florida imports large quantities of poultry into a market that can be supplied by Florida Grown Poultry, Florida Laid Eggs, Florida Chicks.

This entire Bulletin could be filled with instances of golden opportunities for men who will get out of the ruts. The only reason why Florida imports these quantities of fresh and canned foods is because people are too much inclined to keep in the rut—they do things because their neighbors do them; they do not diversify.

The successful Volusia farmer will not put all of his eggs in one basket by growing a single crop. He will be alive and up-to-date. He will diversify. He will have many strings to his bow. He will have something to sell the entire year, because the soil will produce the entire year by right methods of planting and cultivation. He will have corn, hogs, sheep, wool, honey, poultry, vegetables, eggs, and so on, all bringing good profits.

He will learn as he goes along. He won't be like the farmer who raised and fed hogs for ten years and never learned a thing, while not much over a mile from him lives another farmer who has been raising hogs for two years longer and he is a rich man. He made a close study of hog raising, making experiments in a limited way and carefully testing methods he read about and for eight years he never lost a pig.

Don't chase after fads. There are no end of fads started, as in every other business and also deep ruts to drop into that lead to failure. Investigate Volusia Farms for yourself and from the standpoint of what you want to do there. We want you to see Volusia Farms for yourself. While we are always willing to make a selection for you, we prefer not to sell an acre sight unseen. We want you to be satisfied, successful, happy, head and shoulders above those in deep ruts. We want you to be among

the leading men of the county, careful and business like in your farm operations and in your marketing. We want you to accumulate a surplus at the bank as a result of your foresight and uncommon practice on the farm. Test things for yourself—KEEP OUT OF THE RUTS.

Prices Will Be Revised After September 1st

NEWS OF THE WORLD

Items of Interest Gleaned from Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Married Readers

N.C., Sept. 3.—Two distinct earthquake shocks were experienced in Washington at a late hour Sunday night. The shocks were several minutes apart and each was of considerable duration. Houses were severely shaken but so far as can be learned no damage was done. The people for a time were panic stricken. Reports from nearby points today indicated that the shocks were general in this immediate section.

The sister dreadnoughts Florida and Utah, the mightiest warships in the American navy, will be in fighting trim by November 15, according to the calculations of the naval expert.

New York is now claiming to be the largest city in the world. The estimate of the health department shows that its administrative boroughs on January 1, last, had a population of 4,983,888. A census just completed shows that the administrative county and city of London has a population of 4,522,628. If London holds her present place as first city of the world she will have to include the outlying metropolitan police districts, which will increase her population to 7,500,000.

Sept. 4.—William A. Larned, of Summit, N. J., is national lawn tennis champion for another year. This resulted by Larned's decisive victory over Maurice E. McLoughlin, of San Francisco, the young player who last Saturday won the right to challenge the champion by defeating former Champion Beals C. Wright of Boston, in the final round of the all-comers' tournament.

It is said that the United States government has agreed to sell to Turkey four of our obsolete warships, but four that have made history for us and for which the nation feels a great sentimental attachment. They are the New York, which was Sampson's flagship in the Spanish war; the Brooklyn, that was Schley's flagship at Santiago; the Olympia, Dewey's flagship at Manila Bay, and the

Raleigh, which was with Dewey's fleet on that fateful first of May.

Mr. Taft's promises and pledges in regard to the tariff will hereafter be received by the country with a good deal of allowance, because the people know what he will do by what he has done.

The temperance people are much exercised over the question as to whether or not, in his investigations into the true inwardness of the cocktail cherry, Dr. Wiley has to drink all the cocktails to get to the cherries.

Scores of persons were injured in a wreck on the Long Island railroad at Rockaway Beach Tuesday morning. A panic among the passengers followed upon the wreck and many were hurt in the mad rush to get out of the cars.

The Beattie case is expected to go to the jury tomorrow and the world awaits their decision. Meantime Beulah Binford and Paul Beattie will be released and both expect to go on the stage.

United States Senator Joseph W. Bailey today confirmed his announcement of last night that he would not be a candidate for re-election to the United States senate. His term expires March 3, 1913.

Because he believes that under the present conditions it is impossible for negroes to prosper in southern Oklahoma since the recent race riots in that section, Dovey Costner, a negro farmer of the bet-class, has announced that he will head a band of fifty negroes in an expedition to colonize in Liberia.

A Democratic primary election was held throughout Virginia yesterday for the nomination of two United States Senators, members of the legislature and county officials. The campaign has been one of the quietest that the Old Dominion has seen in years. Even the senatorial contests have failed to arouse the usual amount of interest and enthusiasm, although the interest has increased to a noticeable extent during the closing days of the campaign.

Organized New Church

EDITOR SANFORD HERALD:
Brother J. S. Thrasher has been preaching in the Upsala neighborhood, and we are all pleased with his preaching. The Cumberland Presbyterians kindly let us have their house and we have organized a Missionary Baptist church, and held services every night this week. There are several to be baptized next Sunday at 3 p. m. in Crystal Lake. Brother Thrasher is a sound gospel preacher, and gets next to the sinner. All members come out.

Rev. J. F. McKinnon Has Resigned

Rev. J. F. McKinnon, who was recently appointed Superintendent of Public Instruction for this county to succeed the late Maj. W. B. Lynch, has resigned as pastor of the Presbyterian church of Sanford and the members of that church are now on the lookout for a successor to him. Rev. McKinnon is very much loved by the congregation he leaves and it was with much reluctance that he was given up. It was reported that he would move to this city in order that he could be more convenient to his office, but we cannot vouch for the truthfulness of the report. We hope, however, that he will do so. Orlando wants all the good citizens she can get, and certainly this man of God is in that category.—Reporter-Star.

THE SANFORD HERALD

IN SANFORD—Life is Worth Living

Number 5

SANFORD, FLORIDA, FRIDAY, SEPTEMBER 15, 1911

Volume IV

ALL AROUND FLORIDA

The General News of The Land of Flowers.

CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Florida Homeland Co., a colonization scheme which succeeded in settling 150 families (500 or 600 people in all) on land at a new place known as Celery City, near Maytown in Volusia county, is having troubles of its own, and the company seems to have met with dire misfortune, for now The Homeland Co., its officers and all the settlers who bought lands from them, are parties to a suit in the circuit court at Gainesville, Fla., brought by the company of the property, Hodges, O'Hara & Russell. It is hoped that the latter company will be able to deed the lands back to the poor deluded purchasers as soon as the foreclosure suits are settled.—Florida Star.

Volusia county boys are much interested in the corn contests that have been inaugurated by the Farmers' Club of Lakeland and it seems that there will be a number of contestants when the entries are all in. The prize offered for the best crop of corn produced on one acre of land by a young man under 21 years of age is \$100 and other prizes are offered for the next best, third and fourth, and so on in order of merit to sixth.

A series of lectures has been arranged in Gadsden county for the farmers' cooperative demonstration department to be delivered in Quincy and Greensboro this month. Speakers will be present from the agricultural college at Gainesville, and the work will no doubt be interesting.

Daytona is expecting to have a fine new passenger station before many months have passed away, although there is some delay in getting started. The new station, according to the Journal, will be of brick or stone and have a train shed extending 1,200 feet.

Fort Pierce is looking towards better things and making a bid for substantial and considerable progress. At the last meeting of the city council a communication was read from the mayor in which the needs of Fort Pierce were set forth, and it was shown that by the issuance of bonds to the value of about \$75,000 the place could probably have installed and put in operation a waterworks system, sewerage system and electric light plant.

One of the largest land deals made in Hernando county this year was that made last Monday between Capt. W. J. Hillman of Live Oak and the Weeks Brothers, of Enville, this county. Capt. Hillman sold to them 12,000 acres of Hernando county lands, the consideration being \$144,000.

Hastings will plant every available acre to spring potatoes. This means that with the land cleared since last season that there will about 3,500 acres planted in Hastings proper, and nearly 6,000 acres in the section. Growers are making preparations to plant second crop of potatoes extensively and if the weather permits the acreage will be the largest in several years.—Hastings News.

The automobile license tax law, passed at the last session of the legislature is unconstitutional and owners of autos in Florida do not pay a license tax to the state. Such is the ruling made by Judge W. S. Bullock of the Fifth judicial circuit at Ocala in the case of John H. Spencer, the well known automobile dealer, who brought a test case in the circuit court to determine the constitutionality of the act. He was represented by H. M. Hampton, while the state was represented by State Attorney Edwin W. Davis.

St. Cloud has a splendid Women's Club and they believe in doing something. The town has been divided into sections and a committee appointed in each section for work.

M. W. Lovell For Clerk.
In this issue appears the announcement of M. W. Lovell for City Clerk and Assessor. Mr. Lovell has held this position for one year, and given satisfaction in every way and with a strict adherence to duty. He made many friends. A thorough business man with a knowledge of property values, he has filled the position with credit to himself and will undoubtedly succeed himself since the people want a man of experience to hold this responsible position.

SANFORD IS A CLEAN CITY

Chairman of Sanitary Committee Writes of Conditions in His District

The following letter from S. Runge, chairman of the sanitary committee, about conditions in Sanford from the viewpoint of the city officials, is interesting:

Mr. Editor:

Referring to the controversy in your paper about the city-cleaning and sanitary work I wish to call the attention of some of the kickers to a few facts. I have made a careful inspection of a number of our neighboring cities to compare their general cleanliness and sanitary conditions and I have found beyond any doubt that our city of Sanford is far above any of them in this respect. Comparatively we have the cleanest town in this part of the State and part of the credit for this is due E. E. Brady and Sam Williams.

Referring to the controversy in your paper about the city-cleaning and sanitary work I wish to call the attention of some of the kickers to a few facts. I have made a careful inspection of a number of our neighboring cities to compare their general cleanliness and sanitary conditions and I have found beyond any doubt that our city of Sanford is far above any of them in this respect. Comparatively we have the cleanest town in this part of the State and part of the credit for this is due E. E. Brady and Sam Williams.

Every citizen should comply strictly with the ordinances and regulations that have been passed and published by the city government, and which are: That all trash and garbage shall be placed in a covered receptacle, in the alley, where it is conveniently to be reached by the garbage wagon. Brush and grass must be placed in alley or on parkway of street, to be removed by the city cart, not by the garbage wagon.

All complaints of non-removal should be made to the city clerk, who keeps same on file to report to the proper parties and the council. Instead of compliance with these rules, I find on careful inspection, that but few of our citizens are taking advantage of the offer of the city, to sell their good trash-cans at cost price, but that even some of the smallest residences keep their garbage in broken and dilapidated old boxes and barrels where chickens and dogs have free access, and so create a condition of filth around their residences, that it is hard to overcome by the garbage man with pitch-fork and rakes for helpers. Also I find that garbage receptacles are not always kept in or near alley, but in any place around the house, in two instances near the parlor window and in some even inside the kitchen. It speaks well for the garbage man that he goes to the trouble of hunting up these boxes inside the premises, to which he is not held under his contract.

E. E. Brady holds the contract with the city for cleaning streets and removing garbage; he is under bond to fulfill this contract. If reasonable complaints are brought before the city council that he is violating his contract the council is fully able to take care of it and will see that it is remedied or that suitable fines and penalties are exacted.

The office of the sanitary inspector is held by the council to be one of greatest importance to the welfare of the city, and the present inspector would certainly not hold his job for any length of time, if his services were not entirely satisfactory to the board.

To the man from Gainesville who wants to run the fire department and street cleaning together with two wagons and also to the member of our kicking friends, I would suggest that they kindly take the trouble to attend the meetings of the council regularly and also get some real facts and figures from the city clerk's books as to the amount of work that is to be done and what it is going to cost them, they almost be able to really know what they are talking about.

In conclusion I wish to say again: Be sure you have complied with the city's sanitary ordinances. If then you have reasonable grounds for complaining, make same to the city clerk, make them good and strong and rest assured that the sanitary board will see to it that justice is done the tax-payer.

S. Runge,
Chairman Sanitary Committee.

Dick Calhoun Returns

After spending several weeks traveling through the Northwest, and covering every state from Florida to California, Dick Calhoun has returned home. He thoroughly enjoyed the trip in every way, but still adheres to the belief that Florida is the best state in the union.

BIG GROWERS' PICNIC

Ideal Day and Ideal Location Draws Crowd

FISH FRY WAS GRAND SUCCESS

Prominent Speakers Make Interesting Talks to Our Celery Delta Farmers

The Growers' Picnic, the annual event of the celery delta, seems to grow larger and better each year and the affair yesterday at Beck's Park was one of the best ever pulled off in this section.

Despite the warm weather the park was cool and shady all day, caressed by wandering breezes from Jessup-clos by. In the morning while the fish were frying and preparations being made for luncheon, Prof. Rolfs of the experimental station at Gainesville made an able and eloquent address to the farmers. He punctuated his remarks by statistics showing the best crops to plant, the way to plant them and the way to harvest them. As the dinner hour approached Prof. Rolfs grew uneasy, because he thought the people were hungry, but they would not let him desert and asked him question after question about hay, corn, silos, etc. Prof. Rolfs was just as willing to impart information as the farmers were to ask for it and it is safe to predict that no more enthusiastic teacher and pupils ever met. The visit of this walking encyclopaedia of crop information to the celery delta will be productive of much good and the results will be noticeable in the near future.

About one o'clock the crowd gathered around the various tables and supplemented by plenty of fish and hot coffee spread a feast of all the delicacies of the season and how those people did wrap themselves around that good cooking. An hour was spent in pleasant chat after lunch when Chairman Lake called the meeting to order again and introduced Senator N. P. Bryan to the audience. This was Senator Bryan's first visit to Sanford since his election and his remarks were listened to with marked attention. He made an eloquent plea for good citizenship, paid a high tribute to Prof. Rolfs and the work of the University and urged the young men to make the best of their educational advantages.

Chairman Lake then introduced Hon. Frank Clark and the crowd recognizing their old friend gave him a hearty greeting. Mr. Clark always at his best in making an address was heartily endorsed as he pictured the beauties of nature the best and vast resources as they are exemplified in the state of Florida. He brought forth many a laugh as he quoted part of his recent famous speech before Congress about Florida and asked the people of Sanford to furnish the crops and make good before the thousands of visitors flooded into Florida. Mr. Clark's remarks were also directed at citizenship and the need of a better education along the lines of political economy and a better knowledge of affairs at Washington.

Mr. Clark's address closed the exercises for the day and the people spent the rest of the afternoon in enjoying the amusement and discussing the crop future. The Sanford Traction Company and the Sanford Everglades Railway handed the large crowd in an admirable manner and the park being close to the transportation line made the place an ideal location for the large gathering. So popular have these annual picnics become in this section that a movement is being planned to make a small county fair out of the next picnic and induce the farmers and their wives to make a display of farm products and live stock. There is no other section of the entire south where a better opportunity exists for a display of diversified farming than the great Sanford celery delta and these annual gatherings are a great pleasure as well as assistance to the farmer and city dweller. Much of the success of the picnic yesterday was due to the good people of this section, by Mayor Lake and the city council, by Cameron City and by the generous merchants of Sanford and the following committee:

Chairman of Committee, J. C. Rich; Secretary, J. W. Harper; Finance, G. C. McDonough, chairman; L. A. Brumby, E. E. Brady. Speakers, Advertising and Music: W. M. Haynes, chairman; C. C. Worthington, F. M. Berry, Frank Greenman. Grounds and Transportation, A. F. Rosenthal, chairman; Dr. W. A. Minnick, M. M. Smith, Guy Ellsworth, H. H. Chappell, T. H. Johnston, G. F. Smith. Refreshments: R. E. Carmly chairman, F. F. Dutton and C. O. McLaughlin.

THE ROAD TO NEW SMYRNA

Volusia County Commissioners Urged to Help With the Good Work

With the Atlantic coast and some of the finest bathing to be had anywhere, only about sixty miles away, hardly a half day's drive, it behooves those who enjoy outings there, or contemplate making the trip at any time, to urge Volusia county to get her roads in better shape. True, the trip can be made now without danger of bogging down or turning over, but a very small outlay of cash would mean a great deal to the travelling public. The new viaduct and bridge at the St. Johns' Ferry has been completed, making the ferry only across the main channel, which saves at least three-fourths of the time usually consumed there, while the long embankments on each side of the river are in good shape, the road as far as Osteen being in fairly passable condition.

Free of the main road, some preparation made on the road from Osteen to New Smyrna, by way of Indian Springs, but in one or two places, especially during rainy weather, this road is boggy and requires some very fine driving to get through. These places are now wide, however, and could be made in splendid shape by putting in a corduroy road, not over twenty-five yards long at about three places, which would make it passable the entire route, saving at least a third of the distance from this city to Coronado and New Smyrna, to those seeking an outlet to the ocean who do not care to make Daytona their destination; going by the way of Enterprise and DeLand.

It is understood that citizens of Volusia living in the DeLand and Daytona sections are opposed to this strip of road, claiming that travel will be diverted from their sections and hoping that the road, which has been under construction for the past year or two will be abandoned or left in a state unfit for travel. It is to be hoped, however, that Volusia's commissioners will take this matter up immediately as the new road is badly needed and will prove a popular highway from the south to New Smyrna and the coast. A convict camp is established this side of the ferry, in Orange, and the road from Sanford out Celery avenue being greatly improved.—Reporter-Star.

Criminal Court

Criminal court convened Monday morning with Judge Warlow on the bench. Prosecutor DeCortes being on hand, evidently determined to give all the law-breakers the fullest extent of the law. Following are the cases already disposed of and verdicts:

A. Sullivan, charged with offensive language, caught a fine of \$5 and costs. William Fields, forgery, guilty; seven months on the road.

Mr. Jordan, selling liquor, six months on the road and \$300 and costs, and in the event the \$500 is not paid an additional year on the road, making eighteen months in all.

Jim Robinson, charged with arson, was acquitted.

Allen Ambrose, vagrancy; three months on the road.

Leonard Adams, assault and battery; not guilty.

Sam Thomas, concealed weapons; \$100 and costs, or six months.

Charles Cason, concealed weapons; \$100 and costs, or six months.

Ling Martson, careless use of fire-arms; \$25 and costs, or three months.

John Hudson, Jr., larceny; four months.

George Morgan, larceny; four months.

G. W. West, assault and battery; \$500 and costs or three months.

C. C. Lee, killing deer; \$25 and costs or three months.

Ben Lang, larceny; four months.

Oscar Preston, concealed weapons; \$100 and costs.

Sam Epps, gambling; sixty days.

Geo. Thompson, gambling; sixty days.

Charles Bell, gambling; sixty days.

Sam Williams, beating way on train; thirty days.—Reporter-Star.

William A. Herring.
W. A. Herring died at his home on Maple avenue last Friday night after a lingering illness. Mr. Herring had been a resident of Sanford for the last two years, being identified with the firm of W. G. Hammond & Co. He was sixty-five years of age and a native of Michigan. He leaves a wife to mourn his loss. Interment was made in Lakeview cemetery on Saturday, Rev. Summers officiating.

NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

Sept. 11.—Speaker Champ Clark of the house of representatives is the hero of his old home town, Louisiana, this week. He is being entertained by the home-folks, and they have gathered here from all parts of Pike county to do honor to a "native son" who has brought glory to his state by being elected speaker of the national legislature and so conducting himself that he is considered a possible candidate for the presidency on the democratic ticket of 1912.

While thousands of persons are staying in China because of the havoc wrought on crops by the great floods in the valley of the Yang tse Kiang river, and France is torn by riots amounting almost to civil war over the high cost of living, which is increasing in Europe, as well as in the United States, there is renewed attention in the United States to conditions here. It is a fact that prices here have reached the highest level for twelve years.

Cabled advices from the American minister at Peking to the government brings very disquieting news from China. Blood has been spilled in the province of Sze Chuen and the situation is daily becoming more serious, with the possibility of massacres of foreigners in the more remote sections.

Nearly 25,000 persons engaged in the textile industry resumed work this week after various periods of idleness due to the curtailment policy practised by the manufacturers throughout New England.

It is earnestly hoped that the announcement lately made by Senator Bailey, that upon the conclusion of his present term, which will be on March 3rd, 1913, he will not accept re-election, but will finally retire from public life, was made in good faith and with the purpose of living up to it.

Death of Dr. Eaton

Dr. L. D. Eaton of Mt. Dora passed away at the Sanford Hospital Tuesday morning in an attack of congestive fever. The doctor was widely known and highly regarded in this state, where he had made his home since '82. He was 64 years old and had been an invalid for many years suffering from bronchial catarrh and asthma, and yet did much good work in his chosen profession. He will be sadly missed and his loss sincerely mourned by many who were his patients and his friends.

Many of the Mt. Dora friends came over to attend the funeral services which was conducted by the Knights of Pythias of which order he was an honored member.

The remains were sent to Homer, N. Y., his early home, where they will be met and cared for by the Knight and his relatives there. Mrs. Eaton, who has faithfully cared for him in all his sickness, will remain south for the present.

Coming to Sanford

The greatest of all love stories, by William Shakespeare, Romeo and Juliet, will be given to Sanford people in the course of ten days by one of the strongest dramatic companies producing plays—the Transhouse Company, which will insure elaborate staging, good acting and perfect photography. The Star has other good things in store for the people and their daily programs now consist of the newest film service ever given in Sanford.

The management has booked the entire series of the great Matt and Jeff pictures which will be run about one each week.

Nothing is too good for the people of Sanford and the management of the Star proposes to give them the greatest photographs produced in both independent and licensed films. Watch the bills for dates!

Mr. Roland C. Shaefer, of Ohio, who with his father-in-law, Mr. Bader, purchased ten acres of virgin celery land on the west side, has arrived in Sanford and will begin improving his property at once by erecting buildings, clearing the land and getting ready for vegetable growing as it is done in the celery delta.
