Third Party Will Not Die With LaFollette's Passing Declare Ardent Supporters

Washington, June 19.—The passing of Robert La Follette may be destined to have a great effect upon political events of the next few years than has that of any other American within a decade. His death leaves a great army of followers without a recognized leader. His immediate effect upon the fortunes of the new political organization which he so recently inaugurated can be left only to conjecture, but without undertaking to assess that, his supporters declare the movement will go with increasing momentum.

Stone's Successor Aided in Organized Bank

CLEVELAND, June 18—William P. Prenter, who succeeds the late Warren S. Stone as acting president of the Brotherhood of Locomotive Engineers, is one of the quietest but most influential men in the labor movement today.

As first vice president and treasurer of the brotherhood, he has been in full charge of all financial arrangements for years, and the expansion of the brotherhood's co-operative bank into a \$140,000,000 institution was as much his work as it was Stone's.

Prenter was born in Philadelphia. He moved to the northwest at an early age and became a fireman on the Canadian Pacific Railroad.

After serving his apprenticeship he became an engineer, and graduated into the executive ranks of the brotherhood some twenty-five years ago.

Quite and uncommunicative, he never attained the national prominence that Stone knew, but when the brotherhood began to expand its banking activities, gaining a foothold first in Cleveland, later in New York, and then in many other cities, Prenter was the man behind the scenes who did a good share of the planning.

He is now the oldest ranking officer in the brotherhood, and at the time of Stone's death was cashier of the bank.

Prenter is 68. He lives in a comfortable home here with his wife and daughter.

His subordinates describe him as a man who works 12 hours a day and shuns publicity.

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON—A big tariff fight looms in the offing. Present customs rates are a lot too high, in the opinion of some mighty powerful "interests."

These "interests" are not the kind of what they don't like. Desiring tariff revision downward, they mean to try for it.

Every indication is that they will do this at the next session of Congress.

The protected "interests" on the other hand, will put up a scrap to prevent it that will make the welkin ring to beat all records. In fact, it may be THE big muss in Washington next winter.

Considering how overwhelmingly the party of protection won the last election, all this may seem queer.

Yet, stopping to think about it, one recalls that there have been hints for quite a while of something simmering.

For instance, when the cotton spinners, in convention here a few weeks ago, suggested a higher tariff wall, why did President Coolidge shut them up with the Aesop story—of the dog who, crossing a bridge with a bone in his mouth saw his reflection in the water, mistook it for another dog, and grabbed at the latter's bone and lost his own overboard in doing so.

Then along came "The Magazine of Wall Street" with the prediction that "within 18 months we shall be in the throes of the most sweeping general revision of tariff we have ever known."

And now we have George B. Lockwood's "National Republic," which speaks for old-line Republicanism if any publication does, calling for "a thorough campaign of education" to prevent such a national disaster.

The revision movement's inspiration is America's group of big bankers—the ones with huge foreign investments, notably war loans.

"Within a year," according to "The Magazine of Wall Street," "the consuming masses will begin to rally to the standard of our international bankers and against the manufacturer."

The outcome remains to be seen, of course, but one thing is certain, the "interests" referred to by the Wall Street publication aren't to be sneezed at.

If they have set their hearts on tariff reduction, though they may not get it, the ultra-protectionists will know they've been in a first-class row by the time it's ended.

The bankers' idea is easy enough to understand. When President Harding took office and the Republicans had everything their own way, as traditional protectionists their first act was to put the tariff way up.

There was some talk at the time to the effect that this was going to make it hard for Europe to pay her debts to America—she

had not the money and the tariff wall would prevent her from paying in goods.

Still, the manufacturers wanted it, the farmers thought they did and the bankers evidently resolved to give it a trial, without kicking much.

Now, however, clearly they've made up their minds that it's failed.

They've received practically no interest, from any of their old world debtors except England, and lately even the British have begun intimating that they can't keep it up indefinitely on the present basis.

The tariff, while tremendously important, generally is a dry, tiresome, technical subject, but there ought to be some real thrills in a battle over it, with "high finance" on one side, as challenger, and "big business" in the role of titleholder, on the other.

Horse Expense Nearly Breaks Bulgar Prince

BUDAPEST, June 19.—When the late emperor Charles was banished, prince Francis Esterhazy, in a moment of ardor, promised to shelter and feed the imperial horses "until such time as the Hungarians should want them again."

The undertaking brought to the Prince 90 horses to care for and maintain, and the financial strain, recently, has been heavy. Nevertheless the prince held to his word, despite the protests of members of his family.

Finally the manager of the Esterhazy estate journeyed to Spain and explained the situation to the emperor's daughter. She was understanding and the manager returned with a decree signed by Otto, her eldest son, absolving the prince of his promise. The horses were recently sold at auction.

Younger Generation Makes Bid Thursday For Southern Title

Number Florida Men Remain in Tourney After Winning Over Various Opponents

Harry Ehle Wins Again On Thursday

Many Youngsters In Team Victorious In Thursday Matches

BILTMORE FOREST Club, Asheville, N. C., June 19.—The younger generation in golf made its bid Thursday approaching the South before the semi-finals in the Southern Association championship tournament. Of the eight survivors only one, the veteran T. W. "Tub" Palmer, Miami, Fla., may be classed as amateur. Two, Bobby Spence, Columbia, S. C., and Gleen Crisman, Selma, Ala., are in their teens. The others, Fred Lamprecht, New Orleans; Louis Montedonico, Memphis; Ted Foster, Jacksonville; Chris Brinke, Louisville; and Frank Dyer, Memphis, are young in years but old in golf.

Today brings a stern test. The eight remaining in the contest for the title, go out before noon to reduce the number to four in 18 hole matches, and another series of 18 holes in the afternoon will determine the finalists for the 36 holes of play Saturday.

The age equation brought some striking contrasts Thursday. W. Bunn, brilliant Georgia Tech player, went to the 19th green with "Tub" Palmer to walk before a carefully executed par four against the youngster's five. Gunn could not reach the green with his second, after finding his drive in trouble, and his third was too far away to get down.

Spence, the Columbia lad, turned back on the 16th green, after gaining a two hole advantage on the outgoing round. Spence was not so long from the tee as in previous rounds, but was putting well throughout.

The match between Glenn Crisman and the 18th green, but the 16th hole was an important factor. Here Harris lost and became dormant when he took three putts, Crisman getting his putt down for a par four by using his mid-iron to curve the ball around a dead stymie. Harris came back to win 17, and the home hole was left, Crisman needing but a half to win. The University of Alabama had played his second in a trap and was short of the green on his third, with his opponent well on. Crisman reached the green in four with a comparatively simple putt for five, but leaving Harris two putts to win the hole and prolong the match. The Memphis player did not give the ball a chance and was far short, missing his second putt.

Frank Dyer and Fred Laxton also came to the last hole in doubt. Dyer was one up and needed a half, got a win when he placed his approach chip dead to the pin for a par four. The Charlotte player was up against an almost impossible shot for the birdie needed to win and lost, two up.

Ted Foster, Jacksonville, although one down at the turn, came

back to square the match and reversed the equation by being one up on T. N. Bradshaw, of Atlanta, at the home hole. Here Bradshaw got down a 12 foot putt, but Foster's less vehement effort was enough to make the match two up.

Fred Lamprecht, who has yet to play a bad round at Biltmore Forest, ran true to form and ended his match with Emmett Spicer Jr., five up and four to play. Spicer could not hit his best stride, while Lamprecht was even fours for the holes played.

Louis Montedonico, medalist after a terrific struggle with "Pete" Van Zanit, Greenville, S. C., on the first nine, the match being all even at the turn, came with a rush at the close to win, five up and three to play.

Chris Brinke, Louisville, downed J. C. LeBurgois, New Orleans three and two. The Kentuckian gained an advantage of one up on the first nine, and increased his lead on the back side of the course to three and two.

Play in the lower flights developed much wider margins of victory than was the case in the play of Wednesday.

The championship flight tomorrow brings two Memphis players together in Montedonico and Dyer. Spence's opponent is Foster, and Crisman plays Palmer. Brinke and Lamprecht complete the list.

The play of Florida men in flights other than the championship was:

Second flight—Lawrence Sherrill, Tampa, was defeated by Allen Brown, Clarksville, Tenn., one up.

Tom Aycock Jr., Jacksonville, fell before Raleigh Allen, Asheville 2 and 1.

Third flight—Harry Ehle, Sanford, defeated Gilliland Stikolethor, Asheville, N. C., 3 and 2.

A. C. Ulmer Jr., Jacksonville, won from Bill Spalding, Atlanta, 7 and 6.

Gordon Gibbons, Tampa, was defeated by W. P. Andrews, Chattanooga, one up.

H. R. Louden, Winter Haven, won from R. H. Jones, Atlanta, one up.

Fourth flight—Clarence Campbell, Ocala, won from Roger H. Smith, Asheville, by default.

Fifth flight—Fred Eansor, Jacksonville, was defeated by F. J. Henth, Chattanooga, 4 and 3.

LAKELAND-FEDS GAME CALLED IN 5TH INNING, RAIN

Score Tied 1-1 With Lakeland Team at Bat and One Out. Two on Bases; Over 4,000 Klansmen Crowd Park

With approximately 4000 knights of the Ku Klux Klan crowding the baseball park at Lakeland Thursday afternoon the Sanford and the Lakeland teams of the Florida State League battled to a 1 to 1 tie through the four initial innings of the game, after which the game was called on account of rain. The game was called by the umpire early in the fifth after the Highlanders had one out and two on bases.

Although somewhat discouraged by the play of the Sanford team during the past two weeks, local enthusiasts are of the belief that the Celerymen are about to cut short the prolonged visit of "old man Jinx" to their camp and beginning to play real baseball.

It is believed that by the time the Celerymen return to Sanford for their next home game they will have annexed a number of victories and will be making a strong bid for top position in the league. Their next game here is with St. Petersburg on June 29 when they begin a three game series with team. They then remain here for games with Lakeland on July 3, 4, and 5, a double header being scheduled for Independence Day.

SAINTS LOSE 4TH STRAIGHT, TAMPA WINNING GAME 8-3

Tampa 8, St. Pete 3
TAMPA, June 19.—The Smokers handed the Saints their fourth straight defeat Thursday afternoon by winning the first game of the series, 8 to 3. Knights held the winners to five hits while he was on the mound but his wildness forced him out of the game with two down in the fifth and the bases full. Edwards went to the mound with two balls on Allen after Lee had been purposely walked. The Tampa manager struck out with the count standing 4 to 3.

British Girls Given Welcome In Canada

WINNIPEG, Man., June 19.—The domestic servant problem in Winnipeg has been materially relieved by the arrival of a batch of British girls, included among the large quota of settlers reaching here during the past few weeks.

While the majority of these domestics have remained in this city a number have proceeded to different points in the west. The girls were brought to Canada under the auspices of the Salvation Army.

Statistics show that the population of western Canada has been augmented by more than 6,000 newcomers during May, the majority immigrating under the British Empire colonization scheme.

Alaska Votes Money To Improve College

ANCHORAGE, Alaska, June 19.—An appropriation of \$163,500 granted the Alaska College of Agriculture and School of Mines by the territorial legislature which met last winter at Juneau, will enable several improvements, Judge Charles E. Eamell, president of the institution, said here.

The appropriation provides for an addition to the main building, a dormitory to cost \$25,000, and a power plant. Requests for \$22,500 to be used in agricultural work and \$10,000 for school of mines extension work were denied.

The institution is at Fairbanks, farther north than any other of its kind in the world.

Tampa—\$50,000 synagogue will be erected on Palm avenue.

Why Thin, Pale Girls Are Unpopular

It is a well known fact that thin, pale or raw, poorly developed girls, with dark circles under the eyes, and who always appear tired and listless, do not attract friends. Yet in thousands of cases these conditions are due merely to the lack of pure, red blood, sufficient iron into their blood. These girls are rich in health giving iron. By simply getting other girls as attractive and so popular. But be sure that the iron you take is organic iron—Nuxated Iron—and not the old-fashioned liquid medicines or pills made from mineral iron that often injured the teeth and disturbed the stomach. Nuxated Iron contains organic iron, like the iron in your own blood. Try it for two weeks and notice the strength you gain. Money back if not improved. At all good druggists.

Why Thin, Pale Girls Are Unpopular

It is a well known fact that thin, pale or raw, poorly developed girls, with dark circles under the eyes, and who always appear tired and listless, do not attract friends. Yet in thousands of cases these conditions are due merely to the lack of pure, red blood, sufficient iron into their blood. These girls are rich in health giving iron. By simply getting other girls as attractive and so popular. But be sure that the iron you take is organic iron—Nuxated Iron—and not the old-fashioned liquid medicines or pills made from mineral iron that often injured the teeth and disturbed the stomach. Nuxated Iron contains organic iron, like the iron in your own blood. Try it for two weeks and notice the strength you gain. Money back if not improved. At all good druggists.

A New Fish

Hon. Ed. Walthall, ex-Seminole, Hudson Essex Co., Sanford, Fla. Dear Ed: All my life I have cherished the ambition to do something for humanity that would sink my foot-prints so deep in the sands of time that the waves of all eternity could not wash 'em away. A laudable ambition!

I have just had the inspiration of what I ought to do. I got the idea either from Burbank, who developed the white blackberry, or from old Uncle Rufus, who brought in the first heavy lightwood knots, I don't know which.

As I figure it, I could do the most good in the greatest number if I made fishing better for the people of the world. Think how much happier people would be if fishing were only 10 per cent better, then imagine the ecstasy of the world if fishing were made thousands of times better!

So with this thought, the inspiration came to me—the great idea that is destined to emancipate humanity from the hum-drum.

My idea is to follow the lead of Burbank and, by a series of crosses, develop a new species of fish. I have decided to cross the shad, the jelly fish, the mosquito and the tangerine orange. I am now working in the shed and the fish, the jelly fish, the mosquito and the tangerine orange, that will give me a boneless shad. Does that stretch your imagination too far?

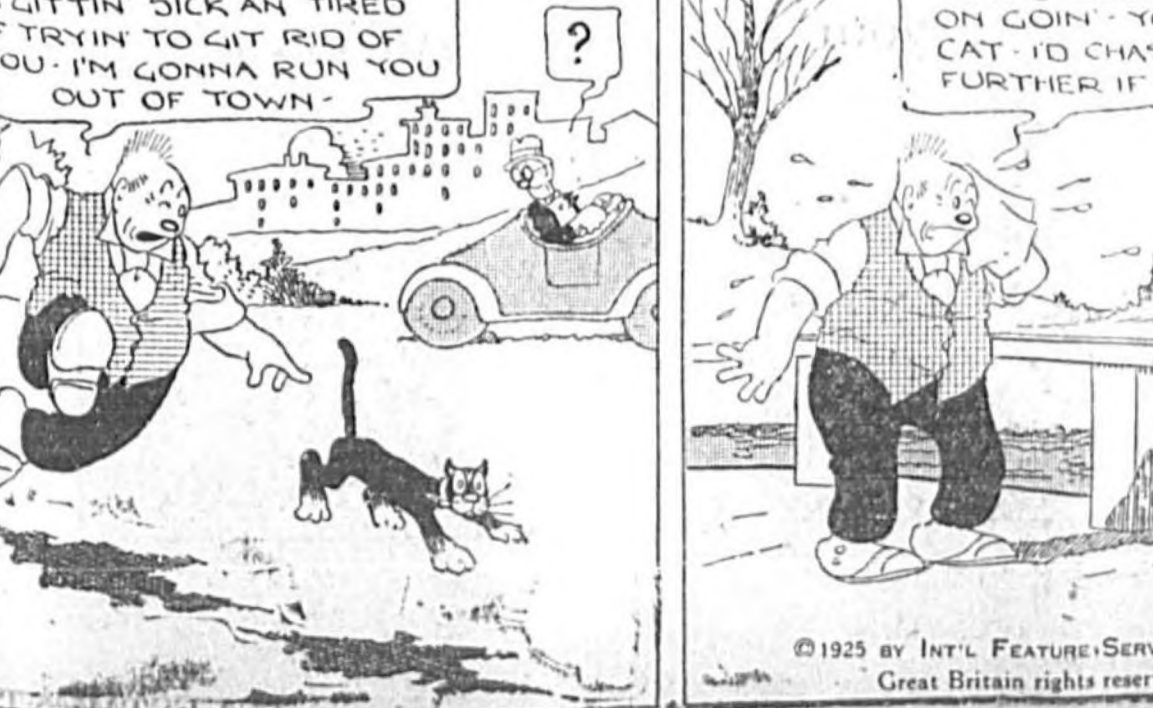

When I have developed a boneless shad, I will cross that with the mosquito, first to increase the size of the fish and then to have a species that will bite anything, anywhere, any time. Think of the money that will save for the purchase of fishing tackle! Any old tackle will do the work.

My last step will be to cross this boneless, biting shad with the tangerine orange, so you can peel its skin off with your fingers and drop it right into the frying pan.

Think of the lying that will be saved when all of our streams are stocked with this new species. There would be no excuse for a fisherman to lie any more. A man who wouldn't be satisfied with what he'd actually catch on his day's fish then wouldn't even be satisfied with an Essex Coach automobile. And that means you couldn't satisfy him at all.
