

# WHAT HAS HAPPENED TO US?

## In 20 Years Since Armistice Force Is More Than Ever The Dominating World Factor

BY WILLIS THORNTON  
NEA Service Staff Correspondent

Twenty years ago a weary, bloody world was staggering to the close of four years of World War.

People were told it was the end of an era, the beginning of a Brave New World.

And it was the end of an era. But the new era that began then was not the world envisioned by the muddy, bloody rain in the trenches.

Three million victims of 20 wars rot in their graves since the War to End War.

The League of Nations, which was to bring a new world order of reason and peace, drifts like a leaky and abandoned ship. Democracy is on the defensive in a world which was never less safe for it.

Everywhere the haunting fear of insecurity sends men exchanging after strange causes, economic and political. Children born since 1918 have never known, may never know, the independence of Americans who used to say "Shucks! I can get a job anywhere!"

Force has become the prime criterion, and might makes right in international affairs. In personal affairs, the idea that the end justifies the means is more and more generally accepted.

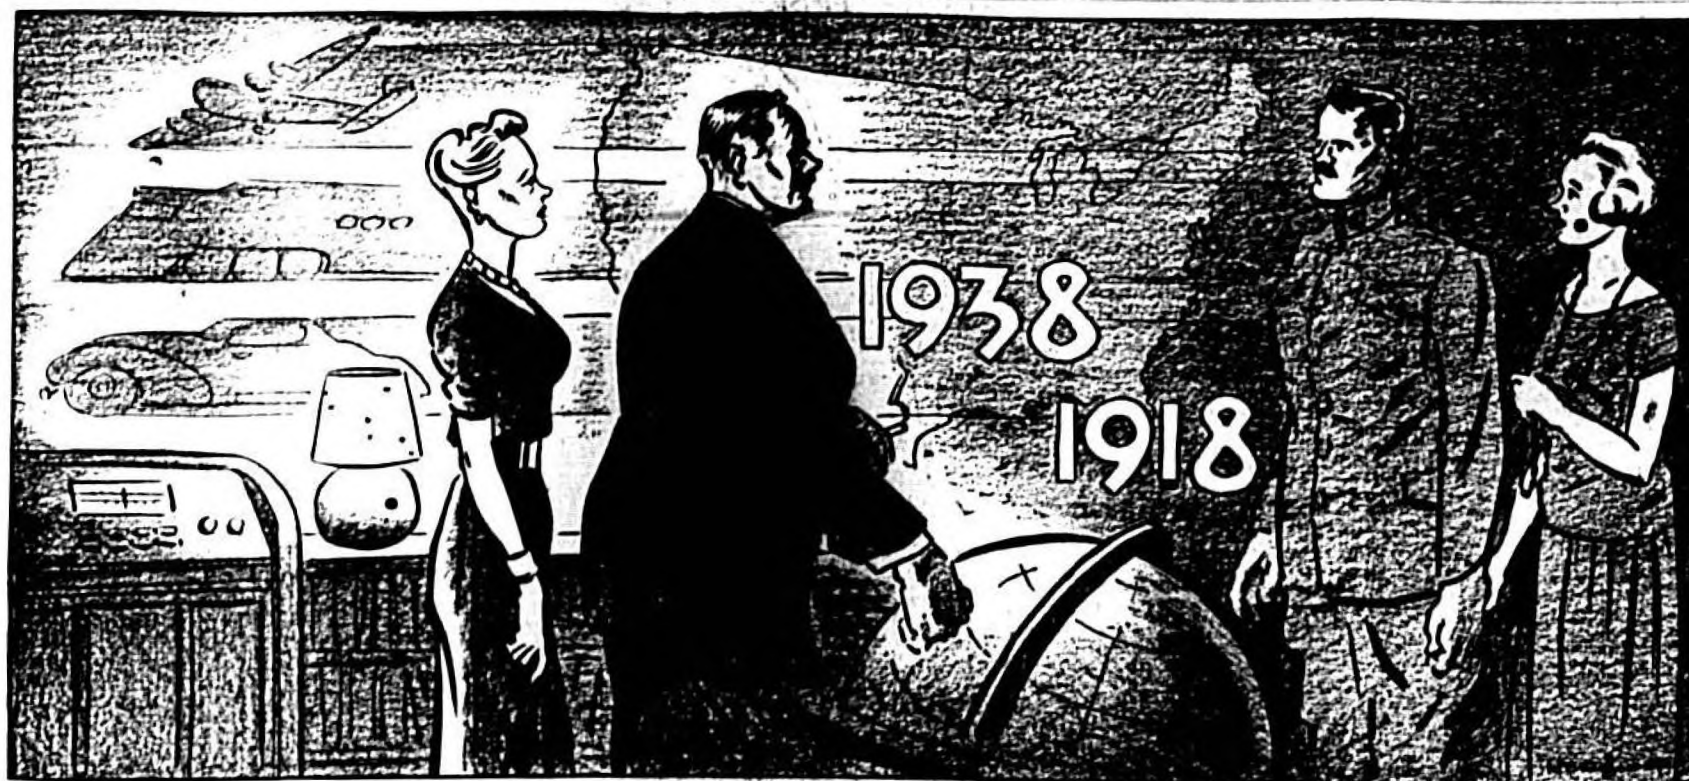

Nevertheless, in the 20 years since "Cease Firing" sounded across Flanders fields, a new world has arisen. Every country in the world would already seem a strange land to a

man who did not live in it.

In 20 years, the population of nearly every country in the world has increased by millions. What to do with this population is the acute problem of every government. The United States alone has 130,000,000 people to contrast to the war-time 100,000,000.

One can pick up the telephone and talk to a person on board a ship in mid-ocean, or to a friend in Europe.

Transcontinental and transoceanic airplane service has reduced journeys that formerly took weeks to days. From New York to Rio is a mere five-day flight. San Francisco to Hong

King can be made in each day.

Whole new industries have arisen.

Women have come into their own during the 20-year period.

Before the World War, a woman earning by living at anything but teaching school was almost a curiosity.

Today there are nearly 11,000,000 women wage-earners in the United States.

sands of new metal alloys and chemical products, light diesel engines, rayon, and their industrial products, quick frozen foods.

WOMEN'S INFLUENCE GROWS

Women have come into their own during the 20-year period.

Before the World War, a woman earning by living at anything but teaching school was almost a curiosity.

Today there are nearly 11,000,000 women wage-earners in the United States.

more than one woman in five. And they vote. Before the war they did not.

There are more old, fewer young people. Before the World War there were 4,000,000 Americans over 65 years old. In 1936 there were 7,500,000, and by 1960 it is expected that there will be 15,000,000.

Great strides made in public health and disease prevention are partly responsible. Despite depression years the people are healthier this year than at any

time in history. Unless an unforeseen epidemic comes, 1938 will see the lowest death rate ever known, below the 1917 rate which was only 11 for every 1000 persons. Only influenza, pneumonia, auto traffic deaths and the social diseases are being successfully attacked.

The rush of people from farms to the cities has practically reversed itself in the United States. By 1935, for instance, 2,600,000 more people were farmers than in 1930. The growth of

great cities formerly taken as inevitable, has been checked.

War scars remained. But more important, the country has "grown up" mentally. People are bright and hard instead of mellow and sentimental. This course is traced by the tran-

sit from the Hesitation Waltz to the Shag, from May Irwin to Dwight Fike, from "Way Down East" to "It Happened One Night," from Romberg to Germaine, from Fick to Billy Rose, from O. Henry to Ernest Hemingway.

The war left spiritual scars unhealed long after the physical wounds had knit. A great moral lullaby swept across the world. In the United States it became apparent in the scandals of the Harding administration. It was seen in 10 years of prohibition and the violent corruption and cynical law avoidance. The rock of era sprung from its root. It was seen in the Ku Klux Klan bid for a secret, unofficial, terroristic government. It flowered in the lax financial morals of the boom era. And its fruit was harvested in the increasingly bitter class conflicts that came with the depression.

The day before Woodrow Wilson was to go before Congress in 1917 and ask that it declare a state of war with Germany, Frank Cobb, editorial writer for the New York World.

In the agony of his decision, Wilson said these words, reported later by Cobb:

"Once lead this people into war and they'll forget there ever was such a thing as tolerance. To fight, you must be brutal and ruthless, and the spirit of ruthless brutality will enter into the very fiber of our national life, infecting Congress, the courts, the policeman on the beat, the man in the street."

The thing Wilson foresaw even as he made his decision for war has happened, not only to his own country, but to the world.

## Voters Make Preparations For Election

Continued from Page One

Unopposed nominee for County Commissioner from District No. 1, F. A. Dyson from District No. 2, W. B. Ballard from District No. 3, J. E. Partin from District No. 4 and W. G. Kibbe from District No. 5.

In Justice of Peace District No. 6, voters will approve the nomination of Roy Burkeholder, and W. A. Lewis for Justice of Peace and Constable respectively.

Since the hospital election on Sept. 27 failed to be valid by a narrow margin of 51 votes, freeholders again will be given an opportunity to express their wishes on the bond issue and tax levy for the proposed hospital.

The final figures released by Supervisor of Registration W. J. Thigpen show that there are now 2,807 persons listed as freeholders, approximately 50 more than were qualified to vote in the first election. A total of 1,404 freeholders must cast ballots in tomorrow's election before it is valid.

The amendments on which voters will decide tomorrow would extend the benefits of Homestead Exemption to persons other than heads of families; another would require 30 days notice before a local or special bill is filed in the legislature; the third would place State appropriations for schools on a parity with other state expendi-

tures and the fourth provides for the appointment, suspension, discharging, or retirement of Florida National Guard officers only on a basis of proficiency, character and service as set out by the War Department of the United States.

County Judge R. W. Ware stated that over 10 absentee ballots have been voted in his office and City Clerk Frank Lamson reported more than 20 for the City election. Friday night was the deadline for casting absentee ballots.

Polls for the City primary will be set up in the Commission room while voters living west of Park Avenue in Precinct No. 1 and I.A. will enter the south door of the City Hall and cast their ballots at the polling places set up in the corner. Polling places for the other precincts are the same as for the primary.

The City Commissioners will meet Wednesday to make an official canvass of the City election returns.

The Sanford Herald, in accordance with its custom, will give out the unofficial returns of the election over a loud speaker as they come in.

POWELL SIGNS CONTRACT

HOLLYWOOD, (AP)—A long disagreement between William Powell and M-G-M studio ended yesterday as Powell agreed to a seven-year contract calling for approximately \$600,000 a year.

For best results in curing the meat, hogs should not be fed for 24 hours before slaughtering.

## Party Leaders Turn To Task Of Getting Out Vote On Eve Of General Election

Continued from Page One

Leahman's strength in New York City and set the governor's plurality here as 371,000, somewhat under the 600,000 votes which Leahman's plurality in the city.

Despite the leader's contradictory predictions, many pollsters regarded the contest as so close that they hedged on a hazard a guess on the outcome and some of them held that a 50,000 shift in votes either way might determine the winner.

The tight contest for governor has dominated the intensive campaigning, although neither major candidate has assented the new deal issue.

The governor has campaigned on his record of three terms at Albany and has held up his administration as financially sound and progressive. He has emphasized his knowledge of state affairs as against Dewey's "ignorance" and held with chairman Farley that Dewey is "the voice of inexperience."

The policies of the Roosevelt administration are directly at stake in the senatorial contest. John Lord O'Brien, Republican opponent of the veteran Senator Wagner, and Edward Corsi, opposing James A. Mead, have announced they will, if elected, work for amendments to the Wagner act and that they favor reduction in government spending, though not at the cost of needed relief.

O'Brien and Corsi hold themselves "liberals" who will work for liberal legislation, but who will not "rubber-stamp" the new deal. O'Brien has declined to meet O'Brien's repeated request for him to state his position on specific changes in the labor law. The senator has campaigned "on his record in the senate and his sponsorship of laws for social and economic equality."

Sixteen different types of jobs are held by the 80 women who were graduated last June from the New York State College of Home Economics.

## Seminole County Given Publicity In Times Union

Continued from Page One

of which has never been devised or brought to the attention of the Department in applying moisture to plant growth.

"Because of these natural resources, there has been developed a highly efficient system of agriculture in the Seminole County delta.

"Production of celery has reached such magnitude that it has made necessary the special training of labor, the construction of many railroad sidings, hard roads, wash houses, packing houses, pre-cooling plants and iced plants in the world is located at Sanford.

"The distribution of this enormous production of celery has caused the organization of efficient shipping associations—both cooperative and independent. The first Farmers' Wholesale Market has been located at Sanford."

Special tribute was paid to C. R. Dawson, county agent, to whom a large measure of credit was given for the success of Seminole County agriculture. The Seminole County Chamber of Commerce was characterized as being composed of a "large membership of thrifty, keen, far-sighted business, professional and agricultural workers" through whose "untiring efforts the county has pushed to the front with great strides."

Seminole County's newspapers were also mentioned as contributing to the welfare of the county, and the article was concluded with the following: "With a live, working Chamber of Commerce, a county agent who knows his business, a fine daily and weekly newspaper, and lands that will rival the famed Nile delta of Egypt, how can Seminole County fail to grow?"

Japanese newshybs carry clusters of bells to supplement their cries of "Wuxtry."

## CITY BRIEFS

(Continued from Page One)

regular meeting of the Board of County Commissioners has been postponed until Wednesday morning at 10:00 o'clock instead of Thursday morning as was announced Saturday, County Clerk O. P. Herndon, said today.

An oyster supper will be served to the members of the Independent Order of Odd Fellows by the Rebekahs in the Odd Fellows Hall tonight at 8:30 o'clock. The supper will be followed by the regular weekly meeting at 8:00 o'clock.

Matters of interest will be discussed and a program in observance of Armistice Day will be given at the regular meeting of the Campbell Lossing Post of American Legion in the Legion hut tonight at 8:00 o'clock. Commander George Weinstein announced today.

The monthly meeting of the Board of Directors of the Seminole County Chamber of Commerce will be held in the Chamber Building Thursday night at 8:00 o'clock. The meeting is regularly held on Tuesday night but was postponed because of the election.

The regular meeting of the

## Distance Record Set By British Airmen

(Continued from Page One)

PORT DAWRIN, Australia, Nov. 7.—(AP)—Nine young British airmen captured the world's non-stop distance record for the Royal Air Force today after a flight across the Indian jungles and Southern Seas from Ismailia, Egypt.

Two of the three Vickers Wellesley bombers in which they flew roared into Port Darwin shortly after noon, having covered approximately 7,160 miles in a few minutes over 48 hours at an average speed of 149 miles an hour.

The third landed at Kupang, Timor Island, about 6,000 miles from Ismailia, due to fuel shortage but it also broke a previous record of 6,106 miles established in July 1937 by three Soviet fliers who flew from Moscow to San Jacinto, Calif., by way of the North Pole.

The income-tax evader is virtually unknown in Japan. Government figures recently issued showed that 92.44 percent of all taxable Japanese have sent in the checks for 1937.

Feminole County Citrus Growers Association scheduled for Tuesday night in Geneva has been postponed until Thursday night because of the election, according to Fred Forward, president. Dr. O. C. Bryan of Bartow will be the guest speaker.

to Your Wishes

Successions from customers like yourself were responsible for thirty-nine changes in the practices and operating methods of your telephone company during the first six months of this year.

Telephone men and women strive constantly to provide a service of steadily improving quality, through adequate research for developing better apparatus, and training to create a more skilled personnel.

But, in addition to furnishing you with telephone service that is technically excellent, they want to provide it in the way that suits you best.

Keeping your telephone service in tune with changing conditions is aided by knowing what you want, when and where you want it, how you want it. This requires organization, to see that no voice is lost.

A committee representing the different departments first considers suggestions from customers and employees in the immediate district. Suggestions then go to a similar size committee, and finally to a general committee for the entire Southern Bell Company, insuring complete consideration.

Over nine million times a day, the telephone system in the South is called on to set up a radio-acted relay channel between two talks who may be across the country or across the continent. Handling all nine million calls every minute, so if they were only one, the one you are making, is one moment of the size of the job that is involved.

It is a job that keeps many thousands of telephone workers busy, but not too busy to make sure that your telephone service is the way you want it to be.

## Election To Decide New Deal's Future; Local Voting Heavy

### 35 Senate, 432 House Seats And 32 Governorships Are In Hands Of Voters

### Victory Claims Of Parties Vary

### Roosevelt Policies Predominate In Congressional Races

The Associated Press reports that America's sovereign voters today to determine the New Deal's future course by choosing congressmen and state officials in a momentous "off year" election.

The outpouring of citizens from factory and field, from kitchen and office, gave every indication of setting a voting record equal only by the 45,000,000 of 1936.

The major offices at stake were 35 Senate seats, 432 House seats and 32 governorships. Only in Maine, which elected a Republican governor and three representatives in September, was no vote being cast.

Candidates were many and issues varied, but in the bulk of the congressional contests the question of support or opposition to Roosevelt policies predominated.

Specific claims of victory by opposing party leaders varied widely. Senator Brown (D-Mich.) and he was convinced there was no recession in Democratic strength. Many other Democrats, however, contended that the Republicans would gain two or three Senators, as many governors, and between 25 and 50 House members.

Republicans predicted gains of from eight to a dozen senatorships and as many governorships.

### National Guards Called Out After Kentucky Shooting

Thirty-five members of a Harlan National Guard company were called out today to stand by for an emergency following a shooting last night. Six men were injured and the shooting in a two-shot contest in which no one was hit.

### Groups Ordered To Harlan After Election Brawl

Authorities refused permission to anyone a long line of them, even members of their families, second Lieutenant Fletcher Bowll of the Harlan Guard and the troops were out on request of Major L. O. Smith of Italian.

### City News Briefs

The weekly meeting of the Woodmen of the World will be held in the Woodman Hall tonight at 7:30 o'clock.

The weekly drill sessions of the three local companies of Florida National Guards were held in the Armory last night.

A marriage license was issued from the office of County Judge R. W. Ware to Miss Mildred Eloise Eddy of Pine Castle and W. A. Simpson of Coleman.

A tarantula, one of the most poisonous of spiders, was found by Elwyn Harrison of the K. and W. Fruit Company here in a crate of bananas which had just arrived.

### CHINESE RULER

Generalissimo Chiang Kai-shek, ruler of the Nationalist Government of China, is expected to visit the United States in the near future.

### Cold Weather But No Frost Is Predicted

### Tropic Disturbance Near Bahamas Has No Threat To East Coast Of Florida

DOUBLE VERSE FOR TODAY

EVERY FELLOW FOR HIMSELF IS DISGRACEFUL: How is one another's burden and so join the law of Christ—Gal 6:2.

ONLY THE HEART

(From Voices) Only the heart shall save the head And make the flesh heroic still. How counterfeit the mind, whose end depends upon the broken will. And whose perspective is the range Of vision's narrow certitude. The mind, pontifical and strange, The heart, still savage and still rude.

War for the brow and for the feet And for the summer of the soul; Only the heart engenders heat And keeps its marble image whole.

There will be time enough to mold The mathematics of the will, When the star Venus has grown cold And Mars broods darkly on a hill. —HAROLD VINALE.

The government accuses the railroads of waste and extravagance. Imagine it, the government!

Whether the South is the Economic Problem No. 1 or not, with most of us Problem No. 1 is economic.

Billy Hand, the fan dancer, was found guilty the other day of assault and battery. She killed them with a look.

Gov. Lehman of New York pronounces his name Leeman. Since he became an office holder, he is of course no longer a layman.

The railroad bosses have decided not to insist upon a wage cut at this time. And Cheselovky talks, agreed to give up the Sultanland.

Secretary Wallace is said to be planning another sugar production cut for Florida. Must be trying to sweeten the Colorado beet growers.

The political campaign throughout the country ended in a blaze of ostentatious in spite of the fact that showers on Monday had put out most of the forest fires.

There's one thing about it, Armistice Day this year will probably be celebrated more widely in Germany than America, since it has now been determined who actually won the war.

One of the "un-American activities" we've been hearing so much about lately is the practice of certain candidates for public office criticizing the government. Can you imagine it? Un-American to attack public office holders?

Quarant this sentence: "The dictators must be whipped and I am ready to join the army that attacks the job."—Key West City. That is easy. The dictators must be whipped and I'll be glad to see England and France do it.

We were talking to a farmer the other day whose taxes and interest amounted to \$500 a year. He can't make it. The overhead will finally sink him. There are few businesses into which the labor of one man is put that can support an overhead of this kind—Theodore Star Advertiser.

The problem of that farmer is the problem of every business man every other man who works for a living. How to pay his taxes and

The McCall Case

The latest move of the McCall defense forces in seeking to save the kidnaper of little "Skogie" Cash from the punishment he so justly deserves comes as somewhat of a shock to believers in law and order who thought that the prevention of a bloody South Florida lynching would be followed by the speedy execution of the laws of Florida.

It was nearly six months ago that the little Princeton child was kidnapped. McCall was speedily apprehended through the efficient co-operation of federal G-Men and local deputies, and brought to trial. He was promptly found guilty, a fact which of course did away with the necessity of a jury trial. And in accordance with the law was promptly sentenced to death on June 16.

McCall has been languishing in the State prison ever since. Though the date of his execution was set, it was shortly afterward cancelled by an appeal to the Supreme Court. Now the defense is seeking a new trial on the grounds that even though McCall did plead guilty, he should have had a jury to decide whether or not he was guilty.

Of course all this legal maneuvering is merely to delay the proper execution of the law and to prevent justice being done. There isn't the slightest doubt about McCall's guilt. We may not agree that the electric chair is the best means of disposing of such a criminal, but that is what the laws of Florida provide.

The trouble is that McCall belongs to a politically prominent North Florida family, and the crime of which he is guilty occurred in a remote part of South Florida. He has now been removed far from the scene of his atrocious crime, and far from the influence of the friends of the aggrieved parent. Already those who were interested in seeing justice done have nearly forgotten the case, those now interested in it are trying to save the life of the murderer.

If the matter can be pingponged long enough in the courts, then it will be an easy matter to secure a pardon for him.

Safety Drive

The National Safety Council has launched a drive to cut down the usually heavy November and December traffic accident fatalities by 20 percent. With the slogan, "Keep the fifth man alive," the Safety Council will try to maintain the consistently low record already established for this year throughout the remaining months which ordinarily see the heaviest traffic toll.

If the 20 percent reduction rate can be maintained the rest of the year, the Council said, the 1938 traffic toll will be approximately 8,000 below last year's total of 39,500 and this year will go down as the most encouraging in the nation's history from the traffic safety viewpoint. A uniform 20 percent drop in fatalities means, the Council pointed out, that one out of every five persons doomed to die in traffic this year will be spared.

The nation-wide campaign being conducted by the Council, and participated in by 32 other national organizations, is prompted by the fact that November and December annually are bugaboo months for traffic safety. Last November traffic deaths totalled 3,750. The December toll was 3,730. Over a five-year period the November toll was 20 percent and the December total 30 percent greater than the year-long monthly average. The reasons for this, Council engineers say, are bad weather, more hours of darkness and the Christmas holiday rush.

In only one other year since traffic fatality figures first were compiled nationally in 1906 has there been a reduction in the annual toll, the Council said. That was in 1932. The extent of the recent gains is more impressive because of the fact that the period of unbroken reductions began in November, 1937. The Council is taking its nationwide campaign straight to police chiefs, motor vehicle administrators, and other public officials, to community safety council officials and safety contact men in thousands of cities.

"This year, for the first time," said D. D. Fennell, president of the National Safety Council, "we have a fine chance of effecting really substantial reductions in traffic fatalities. Everything depends on this final two-month period—the period when normally we pile up huge death tolls. Too many of us have felt that a steady increase in the traffic toll was inevitable. We now are proving that it isn't."

Duck Season To Open In Seminole Five Days Early

(Continued from Page One) The hunting season for other game does not open until Nov. 25.

Several hundred Seminole County hunters have cleaned their guns in preparation for what is believed by sportsmen will be one of the best duck seasons in many years because of the large size of the early flocks which have been seen on Lake Monroe and Lake Jessup already.

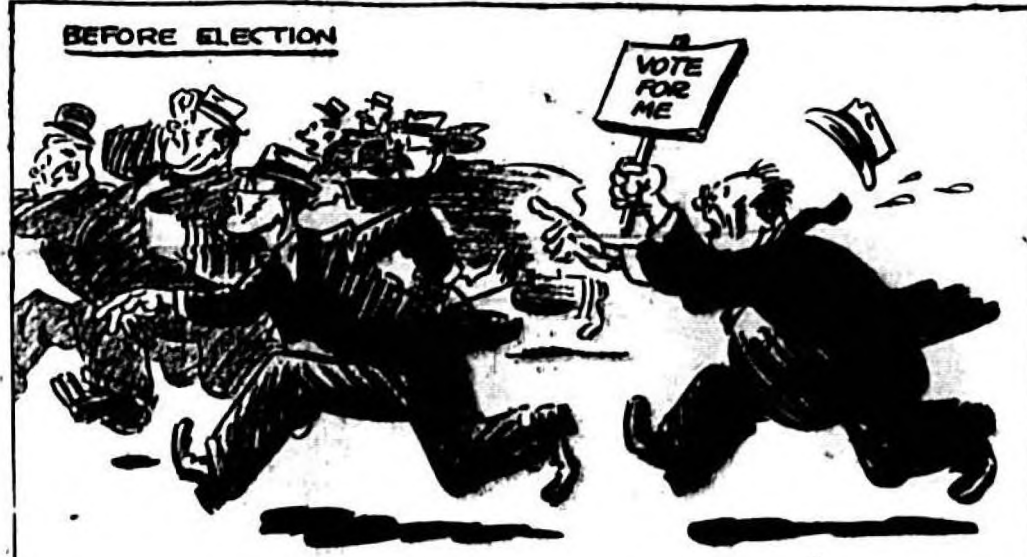

Regarding the advancement in the open season on these migratory birds, Attorney General George Cooper Gibbs at Tallahassee told I. N. Kennedy, secretary of the game and fresh water fish commission, that the State law provides for a duck hunting season to conform with the federal regulations, according to a press dispatch.

The federal biological survey advanced the 1938 season to open Nov. 15, and Kennedy first stated that it would not apply to Florida.

Gibbs prepared the new opinion after Oklawaha county and some others inquired about the action of the state law providing that county commissioners may ask for the State season to be advanced if it begins later than the federal season.

U. S. experts of farm products in the past 18 years has averaged \$1,220,000,000 annually, and since 1920 have fallen 25

RUNNING FOR CONGRESS

35 Senate, 432 House Seats And 32 Governorships Are In Hands Of Voters

(Continued from Page One) ships, and upwards of 30 or more House seats.

WASHINGTON, Nov. 8.—(AP)—Five states and two widely separated geographical areas stand out as places to watch in today's national elections.

The states are New York, Pennsylvania, Ohio, Michigan and Wisconsin. Widely differing factors serve to give each its own unique value this year.

The geographical areas which will be under special scrutiny for voter reaction are the great interior 12-state farm belt, and the three Pacific coast states, Washington, Oregon and California.

New York always heads the national election day parade for interest because of its 47 electoral votes and the huge delegation it sends to congress.

Dr. D. C. Witt Will Visit County Schools

Dr. D. C. Witt of the State Board of Health in Jacksonville, will visit all Seminole County Schools tomorrow and Thursday for the annual immunization for diphtheria and small pox.

His itinerary for Wednesday includes all the rural schools of the county and for Thursday the five Sanford schools.

His schedule for Wednesday is as follows: Lake Monroe 8:30-9:00; Lake Mary 9:15-9:45; Lyons 10:00-10:30; Ovid 10:45-11:15; Geneva and Geneva 11:45-12:15.

Atlanta (AP)—John Ringling North, president of Ringling Brothers Circus and Ringling Bros. Museum, announced last night that the circus show troupe was "settled" on the "big show" schedule for the winter season.

CITY BRIEFS

The weekly luncheon of the Kiwanis Club will be held in the Vauxhall Hotel Wednesday at 12:15 o'clock.

The regular meeting of the Board of County Commissioners will be held in the Court House Wednesday morning at 10:00 o'clock.

An oyster supper was served to members of the Independent Order of Odd Fellows prior to their meeting in the Odd Fellows Hall last night.

The regular monthly meeting of the Board of Directors of the Seminole County Chamber of Commerce will be held in the Chamber building Thursday night at 8:00 o'clock.

According to Sheriff Hand, Deputy Sheriff Hickson, who investigated the auto accident on West First Street near Catfish Springs Saturday stated that he was confident Stewart Dutton was not driving the truck in which a negro, Richard Roper was electrocuted when struck by a live wire.

Lunar Eclipse Is Visible To Many Sanford Citizens

Along the Atlantic Coast, the moon rose, in partial eclipse, at 4:43 P. M. (Eastern standard time), just seven minutes before sunset.

In the East, the eclipse became total just five minutes before sunset at 4:56 P. M. The total eclipse ended at 6:07 P. M. The moon left the umbra, the black earth shadow, at 1:13 P. M. and passed out of the penumbra, the hazy shadow, at 8:14 P. M.

In most of New England, the spectacle was perfectly visible in clear skies. A ground haze obstructed vision from the earth in New York City, but a party of scientists from the American Museum of Natural History went up in a transport plane to 15,000 feet and gave a running description of the phenomenon by radio.

In the Rocky Mountains, observers saw the moon rise with the eclipse already fading. Those who watched on the West Coast caught just a glimpse, with the earth's shadow, a smoky haze from the face of the moon.

CIRCUS STREET ENDS

Atlanta (AP)—John Ringling North, president of Ringling Brothers Circus and Ringling Bros. Museum, announced last night that the circus show troupe was "settled" on the "big show" schedule for the winter season.

SANFORD FORUM

Please give room in your parlor to the following: Fellow Farmers: We are living in a new era; and every day brings you new opportunities which tend to benefit you. Why don't you wake up?—L. L. ZERNOWEN, Editor.

It is nothing but fair to remind you that F. D. Roosevelt, our beloved President, with clear vision and untold courage, said: "The Southerner's trouble as a whole lies in the first place with the railroads—which charged us unfair freight rates. I charged that they bleed us white. And now the goose can't lay any golden eggs for them."

Wake up, farmers! While yet there is time, join the "Growers' Union," which will work for you for a cent to you not over one-third of a cent a day. It's time that you should catch up the lost time while you were slumbering. Put your shoulder to the wheel! don't let George do it for you. Remember, fried chicken will not fall from heaven in your mouth unless you fry one and help yourself.

Quite a number of good farmers lost not only their farms; but the homes too. Remember this is the year in

which a straw keeps you afloat. If the straw is not strong enough to support you, down you go forever. Then what next? Bread line? Where is your profit? We intend to call a meeting of the "Growers' Union" in the near future. Will you come to the meeting? You will prove what you are worth; prosperity or poverty. Remember the "Growers' Union" will formulate a program which tends to rehabilitate the Southern farmers in general. Read "The Sanford Herald" every day. You will find the date and place of the "Growers' Union" meeting. NICK ZERNOVEN, Grower.

A total of 1,221,399,000 American-made cigarettes valued at \$8,127,226 were exported during the first eight months of 1938, a gain of about 15 percent over the same period of 1937.

# Greyhounds Beat Apopka Eleven By Score Of 14 To 12

## Entzinger Makes 2 Touchdowns For Lyman While McCloud Stars For Darters

APOPKA—Big "Red" McCloud, halfback and captain of the Apopka Blue Darters, hammered away at the Lyman Greyhounds like a wild-man yesterday afternoon, but despite his great running, the Blue Darters went down in defeat by a score of 14 to 12.

As usual McCloud did most of the ball carrying for Apopka, piling up 84 yards from scrimmage besides making one of the touchdowns and setting up the other one.

It was McCloud, who marched down the field early in the first quarter to put the Darters in scoring position. After leading his mates down to Lyman's 10-yard stripe, he shot a pass to Goding, who crossed the pay dirt standing up. Try for the extra point over the line failed.

Although McCloud stood out as a star for Apopka, there was another great little man on the

field, who chalked up both touchdowns for Lyman. He was Full-back Entzinger. And besides his great running, he turned in some nice kicking, getting off several punts for 65 yards.

Soon after Apopka scored in the opening period, the Greyhounds took the ball after the kickoff and marched down to the 20 yard line, where the ball was given to Entzinger and he raved around right end for the tally. He also kicked the extra point.

Entzinger turned in his second touchdown of the afternoon in the second quarter when Apopka, on their own goal line, kicked a punt which went straight up in the air, falling on the Darters' 10-yard line. Entzinger recovered the punt and stepped across the pay dirt M. Hudson went over the line for the extra point.

Apopka also scored in the second period as McCloud went over on a short run after he had led the Darters through the field again. Lyman threatened to chalk up a third touchdown in the second period when they drove down to Apopka's one-yard line. But the

# Injuries Badly Cripple Tars For Havana U. Game

## Several Regulars To Be On Sidelines For Another Week

WINTER PARK, Nov. 8.— Jack McDowall will give his badly crippled Rollins squad another light day of practice today in preparation for the international encounter Friday night in Orlando against the University of Havana.

With four of his regulars on the sidelines for at least another week McDowall yesterday tried various backfield and line combinations in short signal and dummy scrimmage drills, contact work for both the freshman and varsity squads has been discarded this week because of the fear of further injury to the players.

Ollie Daugherty, Little Entente back of two seasons, Dick Turkel, stellar center, Lou Bethea, brilliant sophomore runner, and Carl Thompson, veteran and dependable tackle, are all out of action until the Ohio Wesleyan game next week. Earl Brankert, sophomore blocking back and placement kicker, extraordinary, is still supporting a separated shoulder in a sling and will probably be out for another two weeks.

McDowall used senior Snooks Melonis in place of Daugherty in the right wingback slot for the first string backfield yesterday. Melonis formerly ran from the left, but with Joe Justice performing in brilliant style at this post, McDowall decided to shift Melonis.

With both Bethea and Daugherty out, Rollins will be weakened at the wingback positions, with only little Sammy Hardman ready for reserve duty. Both Bethea and Daugherty ran from right, their loss leaving a decided gap at this post.

### LEGAL NOTICE

**RECAPTURE PROCLAMATION**  
Under and by virtue of authority in me vested as the Sheriff of the City of Sanford, Florida, I hereby call a General Municipal Election to be held throughout the City of Sanford, Florida, on the 4th day of December, 1938, for the election of two City Commissioners for the term of office of three years each. Said election shall be held at the City Hall in said City of Sanford, Florida, in conformity with the laws and ordinances relating to the election now in force in said city. The Polls will be open at 7 o'clock A. M. Eastern Standard Time and will close at sundown on said date. I hereby appoint Messrs. J. B. Boudinot, J. W. Beck and R. H. Chapman as Inspectors and I hereby appoint Messrs. J. B. Boudinot, J. W. Beck and R. H. Chapman as Judges of said election. I have caused to be affixed to this Proclamation the seal of the City of Sanford, Florida, and the seal of the said City Commissioner and the seal of the said City Clerk. Witness my hand and the seal of the City of Sanford, Florida, this 8th day of November, 1938.

J. R. WILLIAMS  
SHERIFF OF SANFORD, FLORIDA

### NOTICE TO CREDITORS

As Administrator of the Estate of JEANETTE HERNANDEZ, I hereby notify and require to present all claims and demands against the estate of THOMAS W. WILLIAMS, deceased, late of said County, to the County Judge of said County, Florida, at his office in the court house at Sanford, Florida, within eight calendar months from the date of the first publication of this notice. Each claim of demand must be in writing and must state the place of residence and past office address of the claimant and must be sworn to by the claimant, agent or attorney, on the same will become void according to law. This 11th day of October, 1938.

JENNIE A. WILLIAMS  
Administrator of the Estate of THOMAS W. WILLIAMS, Deceased.

Blue Darters came to life and took the ball over after the fourth down.

# Feds Get Light Workout For Game With Orlando Tonight

By JULIAN STENSTROM

Head Coach Leonard L. McLucas sent his 1938 gridiron machine through a light workout yesterday afternoon in preparation for the annual classic tonight with the Orlando Senior High School Tigers.

Head Coach Harry Greene of the Orlando aggregation sent his crippled machine through a light but fast session featuring signal drills and a punting practice.

The game was originally scheduled for last Friday night, but was called off because of rain.

Coach Harry Green is none too optimistic over the outcome of the contest tonight as the Orlando eleven will be minus the services of two of their star players.

Mundy Arnold, best runner on the squad, as well as being one of the passers, has an injury that will probably keep him out of the line-up for a couple of weeks.

Maurice Linton, the best end on the squad, is still nursing shoulder

and hip injuries and it is not likely that he will get into the scrap with the Feds.

Coach Greene made several changes in the line-up, which was scheduled to start last Friday night. He has substituted Knight at left end in place of Phillips and will use Phin at left tackle in place of Keith. And Flanagan will start at left guard, taking the place of Sheppard.

The Feds are hoping for an upset tonight as they have been pointing to the Orlando game all season. It is their great game of the year and will be out in full force to turn back the Tigers.

Sanford has been defeated twice this season, by Daytona Beach and Ocala. The Tigers have also lost a pair of games, to Daytona and Robert E. Lee.

- The starting line-ups follow:
- |         |      |         |
|---------|------|---------|

## GOP Stages Comeback By Upsetting Demos In Strategic States

New Dealers Are Delivered First Major Election Defeat In Six Years

Democrats Retain Congress Control

Republicans Elect 11 Senators And Gain 62 Seats In House

The Republican party hit the comeback trail of political power today by upsetting Democratic regimes in a dozen strategic states, among them Pennsylvania. It delivered to the New Deal its first major election reverse since Franklin Roosevelt six years ago.

Democrats, nevertheless, retained control of Congress and more than half the governorships. An early afternoon tabulation indicated the Democrats had elected 232 congressmen, the Republicans 143, the Progressives 2 while 58 were still in doubt.

Thus the Republicans already had a net gain of 62 House seats. In the Senate the Democrats elected 21, and had 45 holdovers for a total of 66. The Republicans elected 11, had 12 holdovers and a total of 23. Forty-nine is necessary for a majority.

Of the 32 governorships presently the Democrats elected 11, the Progressives 15, the Republicans 16 for a gain of 11, the Progressives and Progressives each lost one.

In the two biggest state elections—New York and Pennsylvania—the major parties split even. Gov. Herbert H. Lehman, New York Democrat, won re-election.

Proposed Bond Issues Defeated By Duval Voters

JACKSONVILLE, Nov. 9.—(AP)—Duval county's property owning voters yesterday started a "hit down" strike and by not going to the polls in the second time in two months defeated proposed public works bond issues.

The vote in the School Tax District One (Jacksonville and immediate environs), was 6372 for; 452 against. The needed majority to meet the requirements of the State law which makes bond elections invalid unless a majority of the qualified freeholders actually participate in the voting was about 10,100.

The vote in the four county-wide bond elections was as follows (the necessary majority would have been 12,422):

The \$917,000 in bonds for the improvement of the road system, including the creation of the Hogan route in the beaches, 8111 for; 895 against.

The \$2,500,000 for the proposed Arlington-East Jacksonville Bridge, 5434 for; 1340 against.

The \$352,000 for the building of an annex to the Courthouse 5228 for; 1124 against.

The \$65,000 for the improvement of the Army: 5315 for; 1000 against.

The total vote in the city-wide bond election was announced at 7:57, with the required majority 864.

The vote in the individual issues was as follows: Auditorium, 6790 for; 784 against. Yacht basin, 5280 for; 1181 against. Incinerator, 4097 for; 821 against. Fire station, 4785 for; 786 against. Davis Street viaduct, 6018 for; 524 against. Broad Street viaduct and Myrtle Avenue underpass, 4481 for; 703 against. Park improvements, 2928 for; 964 against. Airport improvements, 4191 for; 908 against. Sewer, water, paving, other street improvements, 600 for; 600 against. Playhouse in Murray Hill, Norfolk and Grand Park, 3797 for; 601 against. Refueling pool in Grand Park, 1010 for; 1010 against. Stadium and Stadium Wards, 1010 for; 1010 against.

### Daughter Unveils Bronze Of Rogers

The gravely humorous eyes of Sculptor Jo Davidson's bronze memorial to Will Rogers, cowboy humorist, look down into the pretty, bright face of his only daughter, Mary, as she unveils the statue during dedication of the Will Rogers Memorial Museum in Claremore, Okla. The heads of Sculptor Davidson and Rogers' whom are seen in the left foreground.

### Work Of American Red Cross Shows Volume Increase

Sharon Says Work Is Made Possible Only Through Roll Call

Along the nation's highways, in underprivileged homes and isolated communities, in hospitals, military stations, schools, and on far-flung beaches, the work of the American Red Cross has been carried on in increasing volume, James G. Sharon, Jr., local chairman of the annual Red Cross Roll Call, pointed out yesterday.

In reviewing some of the work done locally and nationally by Red Cross workers during the past year, Mr. Sharon said that great strides had been made in reaching increasing numbers of Americans everywhere, and cited the fact that in the Red Cross campaign to eliminate accidents in homes and on farms, 18,000,000 householders had been advised how to eradicate existing accident hazards.

"Red Cross public health nurses made more than 1,000,000 visits to or on behalf of the sick during the past twelve months," Mr. Sharon said. "They are carrying out their work in communities where nursing and medical aid are not readily available, including homes in mountains, in small country towns, on prairies, and on isolated islands off our coasts. At the same time, these nurses have examined 859,187 school children for possible physical defects that need correction, and where it was found necessary the proper treatment was arranged."

He said, too, that 295,022 physical defects had been corrected.

## Foreclosures, Wage Law Are Hit By Growers

Meet Called To Discuss Means Of Saving Farms, Reducing Growing Costs

Growers in the present predicament through the enactment of the wage and hour law and the necessity for additional labor to the necessity for farmers who face foreclosures.

Mr. Schmah, president of the Seminole County Agricultural Association, announced today that a meeting of local growers and interested parties will be held Monday night when an attempt will be made to find a solution to these problems.

The government sponsored farm program has already brought a number of foreclosures on delinquent farm mortgages in this county, Mr. Schmah pointed out.

Some program can surely be worked out," Mr. Schmah continued, "whereby the farmers can reformulate them since they have developed them to their present high state through hard work and a great deal of expense."

Mr. Schmah pointed out that for the past five years market prices for vegetables have declined while the cost of production has increased. The default of mortgages, Mr. Schmah pointed out, is not because farmers are unable to pay, but because for the past five years they have not been able to pay the cost of production from the prices received for their products.

"Production costs have increased more rapidly than the market prices," he said.

Advocating a mortgage moratorium, Mr. Schmah pointed out that it may be possible through cooperation of the vegetable growers to secure a moratorium and some play to assure greater revenues for growers.

83 Hotels Reported In Seminole County

TALLAHASSEE, Nov. 9.—Winter visitors in Seminole county will find 83 hotels, apartments and rooming houses available for their use, with a total of 976 rooms, and operating under supervision of the Florida State Hotel Commission, it was reported today by Commissioner V. M. Taylor.

Statistics compiled by the hotel commission at close of the last license year on October 1 showed that the county has registered with the hotel commission 6 hotels with 257 rooms; 21 apartment houses with 441 rooms; and 56 rooming houses with 278 rooms available.

Building Permits For \$4,700 Are Issued

Building permits in the amount of \$4,700 were issued by local Building Inspector G. P. Paxton at the City Hall yesterday, records revealed.

Riddle and Putnam, Inc. was granted permission to begin work on a house in Sanford Heights, facing 28th Street between Oak and Elm Avenues at an estimated cost of \$4,000.

The HOLC was also given permission to make repairs to a two-story frame building on Laurel Avenue between Ninth and Seventh Streets at an estimated cost of \$700. Clarence Smith, local contractor, will have charge of this work.

Golf Course Greens To Be Opened Saturday

The newly planted greens at the Sanford Country Club are coming along nicely, A. C. Fort, manager of the club, said today.

## Hospital Bonds Approved By Overwhelming Majority; Rollins And Gut Elected

Florida Voters Give Approval To Amendments

Pepper Given Overwhelming Majority Over His Opponent

NEW COMMISSIONERS

JACKSONVILLE, Nov. 9.—(AP)—Florida voters, ignored Gov. F. P. O'Connell's advice and adopted three other State constitutional amendments in the election yesterday, in place of amendments claimed by the National Guard and its supporters.

The voters' usual overwhelming majorities to Senator Claude Pepper and A. Pat Cannon, the new fourth district representative, the only Democratic candidates to win their offices who had kept their opposition.

Pepper won approval of the amendment which places the State Military and Naval Affairs and regulations and eliminates the Government's power to suspend citizenship.

It was from 596 present out of the State's 1,341 precincts that the National Guard amendment was approved 62.28.

The vote in 409 precincts was 50.17 to 49.83 favoring the amendment putting public school appropriations on a parity with those for other governmental functions.

In 608 precincts the vote was 69.11 to 30.89 for extending the term of office of judges to eight years and to include judges and justices who can then be re-elected.

The vote in 402 precincts was 77.02 to 22.98 in favor of the amendment requiring advance action before the introduction of local bills in the Legislature.

Rollins, from 636 precincts gave Pepper 90.15 votes for the senate to 9.84 for Thomas J. Swann, Republican.

Citrus Pact Draft Will Arrive Today

Draft of a proposed marketing agreement for the Florida citrus industry will arrive in Orlando from Washington this morning by airmail, J. I. Banks, vice-president of the Florida Citrus Growers, Inc., announced yesterday afternoon.

Mr. Banks refused to say what the terms of the agreement would be but did admit that he expected the AAA officials had merely ironed out the technical details of a form of agreement asked by the growers during the recent Washington conference.

Since the return of the delegates from Washington, however, it appeared that the majority of the shipping fraternity, including the Florida Citrus Exchange was pulling for a grade and size agreement.

Townsendites Urged To Attend Meeting

All Townsendites are urged to be on hand at the regular Thursday evening meeting at 7:30 o'clock in the Welka Building by Secretary Arthur Kirchoff, who revealed today that Dr. Townsend has just returned from Hawaii and will report on the success of the transaction tax in the Townsend Weekly.

Mr. Kirchoff said election results Thursday in the nation showed that Townsendites have strengthened their position in Congress.

VACATIONS FOR PRISONERS

MONTGOMERY, Ala.—(AP)—Convinced of the success of a Christmas parole system he inaugurated 11 years ago, Gov. Bill Graves said yesterday he would reward nearly 800 State convicts with "good behavior" vacations during the coming Yule season.

As a result of the City election yesterday H. James and George Rollins elected to the City Commission to take the places now held by W. R. Duffree and A. W. Lee.

### Plans For Holy Land Partition Are Abandoned

British To Seek Amicable Settlement In Racial Parley

LONDON, Nov. 9.—(AP)—The British government announced today that it has abandoned its plan to partition Palestine.

In a conference in London and Arab will be announced in London and attempt made to work out an amicable settlement.

If the conference fails, the government will back their own decision in the light of their examination of the problem and of the discussions in London and announce the policy which they propose to pursue.

This action comes in contrast of the Royal Commission headed by Sir John Woodhead. The government said the creation of an independent Arab and Jewish States made Palestine appear "impractical."

The report came as 20,000 British soldiers might be ordered to the Holy Land where an Arab rebellion against British rule and Jewish immigration has resulted in 2,173 casualties in the last four months.

Threat of a cabinet reshuffle by the government on Saturday developed last night when several ministers objected to the new financial reform proposals.

### City News Briefs

Plans for an initiation to be held at the next regular meeting were made by the Woodmen of the World at their meeting last night, C. C. Collins reported today.

The regular meeting of the Episcopal Men's Club will be held in the Parish House Thursday evening meeting at 8:00 o'clock. Harry Kent is chairman of the program committee.

The regular meeting of the Board of Directors of the Seminole County Chamber of Commerce will be held in the Chamber building Thursday night at 8:00 o'clock.

A checker match between eight Sanford and the same number of Daytona Beach players was held at the regular meeting of the Chess and Checker Club in the Valdes last night.

Peter Schaal, formerly connected with The Sanford Herald, has taken over duties as executive secretary of the Winter Haven Chamber of Commerce. For several

### Boyle Says Grand Jury Will Probe Bolita Operations

Arguments In Jarrell Case To Be Heard In High Court Dec. 9

State Attorney David E. Boyle announced today that he has filed for the Fall term of Circuit Court to be selected next Monday morning will make a thorough investigation of Bolita operations in Seminole County which are again thought to be a multi-million dollar racket.

The Grand Jury a year ago which resulted in the indictment of three alleged "Bolita Boys" and the arrest and sentencing of Joseph W. J. Smith to one year in the penitentiary at Raiford.

Boyle said he had prepared briefs in the case for the State's argument and will argue the case for the State before the high tribunal on Dec. 9.

Pointing out that the activities of "Bolita boys" in Seminole County are continuing despite warnings, Mr. Boyle declared that the coming Grand Jury will take definite steps to halt the racket.

At opening of the Fall term of Court yesterday, Judge Boyle granted a motion by Mr. Boyle to quash the jury venire drawn. Judge Smith drew a new jury list selected by the County Commission to serve as jurors in open court yesterday. The motion was requested because the jurors had not been regularly drawn.

The Sheriff's office today served summonses on those to appear in court for duty next Monday morning at 10:00 o'clock.

Mr. Boyle stated that the Grand Jury had the following cases on schedule for investigation:

Frank King, negro, charged with murder; Jesse Avary, negro, charged with murder; General Turner and Raymond Giffin, charged with larceny of a cow; Fred Whiddon, Andrew Tucker and Charlie Montes, charged with armed robbery; Harold Bright and Hubert Bowling, charged with breaking and entering; Robert Gooden, negro, charged with breaking and entering.

Also William Schultz and Mydelle Oglesby, charged with breaking and entering; J. C. Hastings, negro, charged with assault in an attempt to commit murder; William Clark, negro, charged with larceny of a cow; and Harvey Hodges, charged with embezzlement.

Mostly cloudy occasional rain in east and south portions Thursday and on East Coast and in extreme south portions tonight.

### Six To One Majority For Hospital Gains Necessary Total To Make Election Valid

All Amendments Are Approved

Pepper Carries Seminole County With Vote Of 1796 To 557

Seminole County freeholders tracked to the polls in unprecedented numbers yesterday and voted 1332 to 231 in favor of a \$70,000 bond issue for the construction of a \$127,000 PWA County-owned hospital with at least 63 blank ballots cast.

The total number of freeholders voting reached 1626, or 222 more than the required number, on the basis of The Herald's unofficial tabulation of the results last night.

In the City election, H. James and George Rollins were elected to the Commission seats now occupied by W. R. Duffree and A. W. Lee who did not seek reelection.

In Group No. 1 Mr. Gut received 382 votes to 382 for James G. Sharon. It is an election which saw the heaviest turnout of voters in recent years. In Group No. 2 Mr. Rollins received 1332 votes to 231 for James G. Sharon.

Other voters who also voted for a number of other persons who were not candidates. H. D. Welborn whose name appeared on the ballot although he had previously withdrawn received 11 votes. James O. Huff received 1 vote. W. R. Rota 1 vote, and Charles Stenworth 1 vote.

In the general election Claude Pepper won an overwhelming victory over his Republican opponent, Thomas E. Swann. All four of the constitutional amendments voted on yesterday also carried in the county as well as throughout the entire state.

In the hospital referendum the bonds carried in every precinct except Altamonte which voted 4 to 19 against. Highest favorable percentages were recorded in Fern Park which was 37 to 1 in favor and Slavia which was 18 to 1 in favor.

Ballot percentages in the City turned in striking juxtaposition for the hospital. There were 1084 votes polled in Sanford with 899 (Continued on page six)
