

## Birthday Ends In Tragedy For Friends

### ... 'She Was A Well-Behaved Person... We Loved Her'

Fifteen-year-old Sonya Lynn Shingleton liked people. She liked them very much. And she liked her girlfriend 17-year-old Julie Smith, too.

Saturday, Sonya and her father bought a birthday cake for Julie and planned a pleasant dinner to celebrate the Friday birthday.

By 11 p.m. both girls were dead. Both were killed while passengers in a car that went out of control about 10:45 p.m. Saturday and alarmed head-on into a utility pole. The car, driven by Kenneth Robert Deloia, 19, of 1023 Princess Gate Blvd., Maitland, was westbound on SR-426 near the entrance to Trinity Preparatory School in South Seminole County when the mishap occurred, according to the Florida Highway Patrol.

"The girls hadn't been anywhere in particular," Mrs. Shingleton said today. "They were just standing around outside with some other teenagers and I guess they decided to go for a ride."

"I think they stopped off at a local store before the accident occurred. My husband and I were visiting neighbors next door. It's a shame. Both girls were fine girls. Sonya Lynn loved people, she had a good personality and good morals, she didn't smoke, or anything like that. My daughter went shopping with her dad early Saturday to buy a birthday cake for Julie and we planned a quiet dinner for the occasion. She was a good girl, she got along well with people. Sonya was a well-behaved person. She loved us and we loved her very much."

Lake Howell High School cheerleaders held a brief memorial service today for Sonya Lynn when that South Seminole School opened. She was a member of the junior varsity cheerleading squad here, according to her parents with whom she resided at 1015 Bradford Drive, Goldenrod.

Miss Smith, who was a Boone High School student in Orlando, resided with her parents at 726 Tom O'Shanter Drive, Orlando.

Deloia was treated and released at Winter Park Memorial Hospital. A highway patrol spokesman said today no charges have been filed pending further investigation of the accident.

According to Lake Howell assistant principal Raymond Gaines, Miss Shingleton was "a very good student and was active in extracurricular activities at the school." A memorial service will also be held in her honor at the Lake Howell-Lake Brantley football game this Friday night, Gaines said.

Born in La Jolla, Cal., Miss Shingleton came here from Japan in 1970. She was affiliated with Barrett Farms as a horsewoman and was a Lutheran.

She is survived by her parents, Mr. and Mrs. Ben F. Shingleton; grandparents, Mrs. Astrid Lenander, Ahely, Minn., and Mr. and Mrs. W.C. Meyer, Washington, Pa. Funeral services will be at 11 a.m., Tuesday, at Winter Park Funeral Home Chapel, at 4150 Forsyth Rd., with See 2 KILLED, Page 2A

## Lester Maddox 'Guarded' After Heart Attack

ATLANTA (AP) — Lester Maddox, the pickhandle-wielding restaurant owner whose segregationist stands helped propel him to the Georgia governorship, was listed in guarded condition today after suffering a heart attack Sunday night.

Maddox, who would be 63 this Friday, has styled himself as a friend of the "little people" and a foe of liberals and "racial agitators." And he has kept up a running feud with President Carter, whom he preceded as governor in Georgia.

Although Maddox was being treated in the intensive care unit of a Marietta, Ga., hospital north of Atlanta, a hospital spokesman said, "He's alert and oriented, talking to people."

His wife Virginia said he was stricken while working in his front yard.

An ambulance was called after Maddox complained the pain was so severe "he couldn't stand it any more," she said. Maddox was former Gov. Carter's lieutenant governor from 1971-74, but the two often disagreed publicly.

Maddox won a handful of votes as the American Independent party's 1976 presidential candidate, and during that campaign he called Carter a "radical left-winger" and "the most totally dishonest man I ever met."

Back when Carter was governor, Carter said he felt Maddox's "popularity to a substantial degree is founded on racial matters." The racial matter that propelled Maddox to national attention was an early-1960s attempt by blacks to eat at his Pickrick fried-chicken restaurant.

Maddox's supporters guarded the restaurant doors carrying pickhandles, and Maddox later carried and gave away pickhandles as his trademark. Maddox himself was acquitted of a charge that he had pointed a pistol at blacks outside the restaurant.

He closed the restaurant in early 1965 rather than let blacks eat there, blaming civil rights legislation he said was inspired by "deadly and bloody communism."

However, after he won the governorship, Maddox was credited with making substantial strides in letting blacks into mostly white state agencies.

After losing a try for another governor's term in 1974, he went back to the restaurant business, allowing blacks inside but still insisting he was a segregationist.

Recently, he has embarked on a nightclub career in a twoman music and comedy act with a young black man.

Maddox had appeared at Mr. P's in Sanford, Fla. on May 26 and 27 as part of his "Governor and the Dishwasher" nightclub act.

## Longwood Pizza Man Aims At Law KO, After 5-Year Violation

By BOB LLOYD Herald Staff Writer

Pizza restaurant owner Tom Pratt says he's been violating Longwood's "blue law" ordinance for four years by opening on Sunday, and he'll seek a circuit court injunction this week to keep the city from enforcing the ordinance.

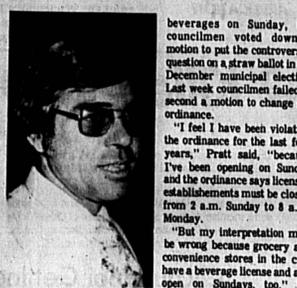

Pratt earlier this month requested the Longwood City Council change the ordinance to allow sale of alcoholic beverages on Sunday, but councilmen voted down a motion to put the controversial question on a straw ballot in the December municipal election. Last week councilmen failed to second a motion to change the ordinance.

"I feel I have been violating the ordinance for the last four years," Pratt said, "because I've been opening on Sunday and the ordinance says licensed establishments must be closed from 2 a.m. Sunday to 8 a.m. Monday."

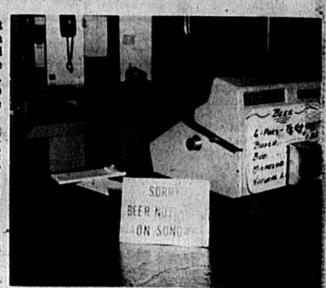

"But my interpretation may be wrong because grocery and convenience stores in the city have a beverage license and are open on Sundays, too," he added.

Pratt says he has customers who want beer with their Sunday pizzas and he charges the Longwood law is discriminatory as competitors outside the city are allowed to sell alcoholic beverages on Sunday.

But since he raised the beverage licenses at his

TOM PRATT ...will seek injunction

SIGN STILL TELLS THE STORY

controversial issue, Pratt says, businesses in Longwood that sell pizza business is up by 20 percent. He says no opposition against the blue law.

"Beer isn't that big an item, except persons who have appeared at two city council meetings in protest. Pratt says so far he hasn't solicited support of other

## If County Steps In, SCA Chiefs Won't Have Veto Power

By MARK WEINBERG Herald Staff Writer

If the Seminole County Commission votes to assume responsibility for the poverty-fighting programs of private, non-profit Seminole Community Action (SCA), the agency's officials wouldn't have a veto power over the county's action, according to a federal anti-poverty official.

Last Tuesday, the commission voted to study the possibility of a county takeover of SCA's programs, which might increase effectiveness of the programs, according to Commissioner Bill Kirchhoff.

SCA now receives federal anti-poverty funds from the Community Services Administration (CSA). If the county takes over SCA's programs, the county would receive the federal funds.

"We could hold up our recognition of the county as the community action agency and funding to the county if local officials wanted to kill the program..."

Regional Director Tom Rafferty

SEVEN OAKS AS VIEWED FROM NORTH TRIPLET DRIVE

### Among The Trees: English Tudor Dream House

#### English Tudor Dream House

When Paul Riddila first saw the thickly wooded lakefront lot on North Triplet Drive in Casselberry, he knew it was just what he and his wife, Joan, had been looking for. They had dreamed of a large, old-fashioned English Tudor dream house. The house, known as Seven Oaks, has 12 rooms, three baths and a two-car garage.

Riddila says he had a long-term plan to build a large, old-fashioned English Tudor dream house. The house, known as Seven Oaks, has 12 rooms, three baths and a two-car garage.

## Mourners On Rampage

### Following Biko Burial

KING WILLIAM'S TOWN, South Africa (AP) — Black leader Steve Biko was buried Sunday after five hours of speeches condemning South Africa's white government at a funeral attended by nearly 20,000 persons. There was only one brief scuffle during the long meeting in the local sports stadium. But afterward, police reported, a crowd of mourners on their way home stoned two black policemen to death, and went on a rampage in a black township outside East London, 30 miles east of King William's Town.

## U.N. Begins Policy Debate

UNITED NATIONS, N.Y. (AP) — The U.N. General Assembly begins policy debate today; the Security Council starts work on the British-American plan for Rhodesia, and U.S. Secretary of State Cyrus R. Vance launches two weeks of talks with visiting foreign ministers.

# Eating Habits: A Classroom Topic

By MARYLYN SHEDDAN  
Herald Writer

Three Seminole County schools will participate in an experimental program involving seven Florida counties intended to provide nutrition information and "help children develop better food habits," according to Charlotte Whitmore, director of food services for the county.

Mrs. Whitmore spoke today to a group of teachers, principals and food service personnel from Ladyville, Goldsboro and Pinecrest Elementary schools, where

grades one through five will participate in the Team Approach to Nutrition and Health Education (TANHE) program.

During a week-long seminar those educators will begin developing plans for implementing TANHE in their own schools. Each school staff is expected to create some effective way to combine its own food service personnel with teachers, Mrs. Whitmore said. Staff members who normally work only in the kitchen will be expected to go into the classroom and discuss eating habits, nutrition and food with students.

"The three participating schools were selected because two of them have self-contained kitchens," Mrs. Whit-

more said, "but the third has no kitchen, and children must eat in their rooms. That gives us some variety, but the school districts are adjacent, so we have similar student backgrounds in all three schools. Almost 2,000 students attend the schools."

Working with Mrs. Whitmore to help schools develop ways to combine kitchen and teaching staffs will be members of the Florida Department of Education, and Alabamian Claire Ruth Hayman, of Hayman Consultants. Mrs. Hayman helped create a pilot program for seven southern states which was the basis for TANHE.

The seminar is being held this week at the Red Carpet Inn, Altamonte Springs.

## In Sunday Fire

# Babysitter Guides Youths To Safety

By BOB LLOYD  
Herald Staff Writer

Seminole sheriff's deputies said an 11-year-old baby sitter led two younger children to safety Sunday afternoon as a fire that started in a bedroom television guided most of a south Seminole residence, causing an estimated \$50,000 damage.

Deputy Ron Gilbert reported Tracy George, 11, of 105 Cottemore Circle East, Welvina

## Action Reports

- \* Police Beat

at the beach at the time of the fire and neighbors took their children into their homes if the parents could be contacted. County fire department investigators estimated damage

to the Kindel residence at \$50,000 and said a major portion of the structure, including a bedroom, dining room, living room, kitchen and hallway were gutted by the blaze.

WEEKEND BURGLARY Sheriff's deputies today were investigating a reported weekend burglary at the residence of Charles Jefferson Gaines, 3430 Bowman Dr., south Seminole. Deputy Robert O'Connor reported a ladies heirloom gold bracelet, two watches, two calculators,

numerous old coins, \$50 in pennies in three jars and assorted jewelry were listed as missing following the break-in. Deputies said Terry Fuller, of Apartment 303, Foccroft Apartments, Howell Branch

road, south Seminole, reported property valued at \$300 was missing following a breaking and entering at a mobile home, a television, a moped bicycle, a tape recorder and an AM-FM radio.

Deputies also are investigating the weekend theft

of a compressor, electric motor and 120-foot nylon hose from an unlocked pump house on Camp San Pedro of the Bays in south Seminole.

WOMAN JAILED Altamonte Springs police jailed Wanda Elaine Moore, 21, on suspicion of shoplifting \$5,000 worth of merchandise from a store on a grand larceny charge. Officers said the woman allegedly concealed \$12 in merchandise in a purse and was stopped by store security personnel at Bobbig's son's Department Store.

# Checking Out Check-Out

DALLAS (AP) — While customers are checking out the cover of *Esquire* magazine, the girl on the cover is checking them out.

"People buy that magazine all the time," says Debbie Wagener, Dallas Cowboy cheerleader and supermarket checkout girl.

"No one ever realizes it's me. They look me right in the eye and talk about the magazine cover and never know it's me."

But the 20-year-old cheerleader says there's a pretty good reason for the lack of recognition. "I never appear in the eye and talk about the magazine cover and never know it's me."

BUENA VISTA, Calif. (AP) — For Oscar Ballina, 47, of the three-month dance marathons of the Depression, it was a long and hard day of hours of dancing was as easy as a bunny hop for Peter Rabbit.

"It was just a short one," said Ballina, 78, of San Diego after finishing his third in Sunday's charity event at East's Berry Farm. Proceeds are going to the St. Jude's Hospital in Memphis, Tenn.

Ballina said he first waltzed in a marathon more than 40 years ago in the now defunct Egyptian ballroom in Santa Monica.

The Sunday fox trot was his first over for Ballina's partner, Dorothy McClernan, 57, of Hawaiian Gardens.

"It's fine, thank you," she said after the dance. "I think our dance a few more years yet."

Ballina and his partner each won \$500 for third place and a color television for being the oldest contestants. The winners were a Santa Barbara couple, Stuart Eisenman and Jennifer Collins, both in their early 20s.

Officials say thousands of misdeeds, supposedly screened by recruiters, are unable to read at fifth-grade level. That makes their understanding of training manuals and technical material next to impossible.

If recruits can't read fourth-grade work, they're honorably discharged. Those who score at fourth, fifth or sixth grade levels are given a chance to volunteer for remedial classes.

ORLANDO (AP) — Navy recruits are introduced to the mysteries of seamanship and naval warfare at the Orlando Naval Training Center. Some also learn about verbs, adjectives and nouns.

Officials say thousands of misdeeds, supposedly screened by recruiters, are unable to read at fifth-grade level. That makes their understanding of training manuals and technical material next to impossible.

# FLORIDA IN BRIEF

## State's New Pay Program Angering Some Lawmakers

TALLAHASSEE (AP) — The state differential program designed to make state salaries competitive with outside industry has angered many lawmakers because it created pay raises differing as much as \$120 a month for workers in different counties.

## Frozen Orange Juice Shortage May Be Helped By Price Hikes

Florida's citrus industry may be slowly winning its immediate problem with short supply of frozen concentrated orange juice with the help of price increases, United Growers said today.

Gen. Mgr. Wilson McGee of the Orlando-based grower organization said industry was still watching day-to-day to see if an increase from the present wholesale price of \$3.05 a dozen 6-oz. can equivalents was needed.

But, he added there is more optimism now than formerly that the serious supply drain may have been effectively checked by the price increase which he said was necessary and the "only effective weapon in our arsenal to retain enough reserve to stay in the market place."

## Water Fit To Drink Again

NORTH MIAMI BEACH (AP) — The water is fit to drink again in this Miami suburban area, but officials are still puzzled over what got in the water system to cause the two-day disruption.

Some 70,000 residents and tourists living in the 36-square-mile area spent two days filling jugs with water from neighboring cities or from large tanker units supplied by the Air Force.

## Airlines To Appeal Ruling

MIAMI (AP) — Eastern Airlines says it will appeal a \$1.5 million award given to a pilot who charged he was harassed for testifying about a problem aboard a jet which crashed. A Miami jury awarded Don Geilert, 45, the settlement Friday.

Geilert said he was warned not to testify about a malfunction aboard a Lockheed TriStar that crashed in the Everglades in 1971, killing 101.

Geilert told investigators of warning Eastern officials that the jet's autopilot could become disengaged without the pilot's knowledge.

Investigators later ruled the autopilot was involved in the crash.

# SHE'S A WINNER

Seminole High School senior Vansheska Henderson accepts semi-finalist National Merit Scholarship from assistant principal Wayne Egge. Vansheska, daughter of Harold and the late Cleota Henderson, now lives with her grandparents, Mr. and Mrs. Willie Frank Nelson, 1118 West 8th St., Sanford. Miss Henderson hopes to attend Oral Roberts University and study medicine.

# W. Springs Firemen Eyes May Hurt \$\$

By JANE CASSELLBERRY  
Herald Staff Writer

Water Springs City Atty. Gary Massey is looking into the possibility that federal revenue sharing funds might be jeopardized because the city is employing fulltime firefighters who have not been certified by the state Bureau of Fire Standards and Training.

Fire Chief Charles Holman said Massey would give his opinion at tonight's council meeting.

Of the 10 men in the fire department only Holman and firefighter transferred from Water Park Fire Department have been certified, the chief said.

The chief reported to council last week that the state has refused to certify two full-time firefighters because they did not meet vision requirements without their glasses.

Both men joined the department as volunteer firemen when they were 16, according to Holman. One became a paid fireman two and a half years ago and the other a year and a half ago, he said.

Holman said he has had an ongoing battle with the state in trying to obtain a waiver permitting the men to be certified.

HELMAN, who was hired as the city's first paid fireman in 1972, was appointed fire chief and empowered with administrative authority only after the city passed an ordinance in October, 1974, officially creating a city fire department. Holman said it is possible to obtain a waiver to certify the men as firefighters.

With the benefit of CETA (Comprehensive Employment and Training Act) funding, two additional men were hired in the first two months of 1975. Two more firefighters were hired in January, 1976. Others were added later to meet the second fire station. Volunteer firemen still back up the paid men and are compensated on an individual basis.

Holman said that when he first became chief, "We were only through SCOT (State Council on Occupational Training) because we were state regulations."

He said he is waiting the guidelines from the city council. If the two men in question are not allowed to continue in their present capacity as firefighters, Holman said it may be possible to retain them as rescue personnel because

# TV Violence On Trial In Murder Case

By JANE CASSELLBERRY  
Herald Staff Writer

MIAMI (AP) — A defense attorney in a murder case hopes to get television violence on trial in defense of a 15-year-old boy he says is addicted to TV crime shows.

Attorney Ellis Rubin says his defense of Ronald Darnon in the trial beginning today will be an "absolutely unprecedented" portrayal of "television violence."

Despite a judge's warning that Rubin will not be allowed to make a general indictment of television, the attorney has said that TV is pertinent to the case and has even subpoenaed Telly Savalas, star of the "Kojak" series.

In addition, television and still cameras will be in the courtroom as part of a camera experiment ordered by the Florida Supreme Court two months ago.

Zamora and Carroll Agrella, 24, are accused of first-degree murder in the shooting slaying of Elmer Haggard, 65, on June 4 during a robbery at her Miami Beach home. Zamora has pleaded innocent by reason of insanity. Agrella, who will be tried separately, has pleaded innocent.

"An indictment predicated on emotional instability is very unacceptable to the public," Rubin has said. "Why do children love television? Why do sponsors spend millions of dollars a month advertising their products on television? And finally, why does television violence tempt actual children?"

Rubin said Zamora was addicted to violent crime shows such as "Kojak," "Police Woman" and a film about mass murderer Charles Manson.

"The conclusion of the crime was exactly what I had seen on a 'Kojak' episode a year earlier," Rubin said.

Savalas, who was served with a lifetime subpoena while on a visit here, said he is opposed to violence on television, yet he contradicted there was never any such link-up.

At the same court trial against the Florida law which requires the teaching of the practice of every Christian virtue.

The court ruled that Bible readings during a morning inspirational period in the Orange County schools were unconstitutional and threw out a policy allowing Bible distribution in schools.

Eight families with various religious affiliations have been fighting the school board since 1970.

# 'Stateless Vessel' 40 Lbs. Pot Seized

MIAMI (AP) — An 80-foot coastal freighter carrying an array of national flags and registration papers along with 400 lbs. of marijuana was seized in international waters off Haiti, the U.S. Coast Guard said.

Crewmen from the Coast Guard cutter Shearwater boarded the freighter on Sunday near Cape St. Nicholas in the Windward Passage off the northern tip of Haiti, said Lt. Norris Turner.

He said the ship was considered a "stateless vessel" since it displayed no national flag or identification. Both are required in international waters, Turner said.

The boarding party found papers registering the ship under several different names. National flags for Honduras, Panama and the Netherlands also were found on board, he said.

The marijuana hauls were in a hold, but radio transmissions from the Shearwater didn't make clear how much pot was estimated to be aboard, Turner said.

The freighter was manned by an Ecuadorian operator and seven Colombian crewmen, Turner said. The ship and crew were being brought back to Miami late Sunday. Turner said the trip could take two days.

Lake Mary's Youth Program

It is one thing to cry, complain and bemoan how so many of today's youths for one reason or the other take the wrong road in early life and end up in trouble.

It is another thing to do something positive about it when it counts.

That's exactly what Lake Mary is doing with its new Police Youth Action Center — part of the Police Predelinquent Intervention Guidance Program. It is a refreshing innovation.

The program evolved from a grant proposal submitted to the federal Law Enforcement Assistance Administration by Lake Mary Police Chief Harry S. Benson and Dr. D.E. (Scott) Burr from Florida Technological University.

Both men are to be commended for their foresighted efforts.

And then there is Rolando Figueroa who is devoting full time to coordinate the program.

"Our primary concern is for us to be able to intervene and provide some guidance when a child first gets in trouble — before they can ever get to court," explains Mr. Figueroa.

That's the key — detouring a youngster's route so he doesn't end up with a police record or worse.

The program, in operation since June, was originally funded by CETA for seven months. The grant has now been extended for five months through June 1978. It provides opportunities for football, volleyball, air hockey, pool, or skiing on Lake Crystal.

The number of activities has increased since the program found a new building, thanks to David Davies, regional executive director of the Boy Scouts who gave approval for use of the Boy Scout building in Lake Mary.

But money is still a problem, with several projects planned to raise funding. It would be worthwhile for area residents to check with Rolando Figueroa through the Lake Mary Police Department to find out how they can help with this immensely worthwhile project.

Mr. Figueroa's dream is for the program to be just the kick-off point of a county-wide predelinquent intervention guidance program which would operate through all of the police departments in the county.

"Ultimately," he says, "perhaps all youth services — school counselors, psychological counselors, various youth programs — could work cooperatively, each referring to the other as need be."

It is a joint venture worth pursuing. And we wish Mr. Figueroa the best of luck. With community awareness and cooperation, we are certain he will succeed.

Israel Compromise?

The gathering of Arab and Israeli diplomats in New York for the fall session of the United Nations General Assembly may not produce peace in the Middle East but it will help answer an overriding question.

Are the prospects for an Arab-Israeli settlement really deteriorating, as many observers believe, or is it simply that things always look darkest before the dawn?

President Carter has tried to put a bright light on the prospects for getting the Arabs and Israelis together. But the fact is that the advent of the Begin government in Jerusalem, and its puzzling, if not exasperating, policies toward Jewish settlements in the occupied territories, widened the gulf between the two sides in the Middle East and put a new strain on U.S.-Israeli relations.

And Secretary of State Cyrus Vance's trip to the region last summer, which was supposed to move the parties closer to a new round of negotiations at Geneva, only served to emphasize how distant that goal remains.

Uninformed Home Buyer And Law

WASHINGTON—For most Americans, it is the single largest financial transaction they will confront throughout their lives. But both buyers and sellers are regularly cheated because only the "experts" fully understand what's happening — and their profits often are contingent upon keeping consumers uninformed.

The transaction is the buying or selling of a house, a tension-filled experience because most of us face it so infrequently (perhaps once or twice and seldom more than a half-dozen times) that we never learn much about the complex and arcane procedures.

A recent University of Houston study concludes that the sale or purchase of a house is so traumatic it ranks not far behind divorce or the death of a spouse in terms of producing stress in those involved.

Even those who criticize the federal government for excessive meddling in the affairs of individuals and businesses probably would agree that this is one area where Washington could and should intervene to eliminate abuses.

A recent University of Houston study concludes that the sale or purchase of a house is so traumatic it ranks not far behind divorce or the death of a spouse in terms of producing stress in those involved.

Even those who criticize the federal government for excessive meddling in the affairs of individuals and businesses probably would agree that this is one area where Washington could and should intervene to eliminate abuses.

There is, in fact, a law which directs the Department of Housing and Urban Development (HUD) to provide such protection for the consumer: the Real Estate Settlement Procedures Act, first passed by Congress in December 1974.

But only a year later, the politically powerful "settlement industry," realizing that its lucrative fees were endangered, pressured Congress to rewrite and drastically weaken the law.

Eliminated in the January 1976 revision, for example, were key provisions requiring a) that both buyers and sellers be informed in advance of the settlement of all fees to be imposed, and b) disclosure of the price paid the last time the house changed hands.

"They passed a very strong law, then gutted it a year later. It is the fastest repeal since prohibition," says Washington attorney Frederick L. Kasz. "There's no effective consumer lobby dealing with housing, while the industry undoubtedly has one of the strongest lobbies in Washington."

A 42-year-old native of Chicago and a graduate of the University of Michigan Law School, Kasz is a rare example of a lawyer specializing in the real estate field who actually cares about saving money for his clients.

Kasz not only arranges for a full range of settlement services, at costs lower than prevailing market rates, for home buyers and sellers. He also repeatedly has gone into court to file lawsuits, several of them successful, seeking return of real estate practices.

A typical civil suit successfully challenged the tradition under which savings and loan associations, banks and other mortgage holders in the District of Columbia were not required to pay interest on the money deposited monthly by the home owners and earmarked for annual or semi-annual payment of the property taxes, insurance and other fixed fees.

What can be expected from Seminole County commissioner-designate John R. Alexander when he assumes his new office on Oct. 13?

Alexander, himself, would probably be hard-pressed to say exactly what he will do in every situation. But, during the days he led the county's governing body he followed a few simple rules and expected his colleagues to do the same.

The only maneuver he had problems with in those days was Lawrence Swofford of Altamonte Springs, a strong leader himself. And their differences which appeared substantial at a time, on retrospect seem to have been to a degree conflicts of two strong wills and personalities.

Alexander expected promptness — meetings scheduled for 9 a.m. began promptly at 9 with all members of the board in attendance. In the summertime if vacations were to be had, all members took them at the same time or at least split up their vacations in such a manner that they were in the county to attend the Tuesday meetings.

It was a rare occasion when the board functioned with anyone absent. All like Alexander built their lives around their county commission duties and responsibilities. Salary for the job during those times was \$8,000 to \$8,000 annually, much less than the \$18,744 yearly pay today.

There was no walking about the room or leaving the commission chamber during meetings. If someone started wiggling in his chair or got the eye of the chairman, Alexander called a recess for those gentlemen to make the necessary trip.

Everyone on the board went to lunch during the appointed hour and when Alexander said "hour" he meant exactly 60 minutes or less. Citizens appearing before the board, although they might not have liked the decisions, were treated courteously, according to the Southern style, with yes and no manners and yes and no airs.

And, all the members of the board did their homework and were up on the issues.

The summer months — budget time — was a real trial and tribulation as the commission met daily beginning at 9 through until 6 or 8 with one hour for lunch Monday through Friday and many times on Saturdays.

Ashby Jones of the Clerk of the Circuit Court's office was on hand as he is today with his trusty adding machine as cubs and slashes were made in department budget requests. To increase taxes was a "no-no" that the commissioner avoided like the plague. Incidentally, certified public accountant

and County Commissioner at that time, John Fitzpatrick checked out Ashby's adding machine mathematics many times in his head and almost as often by striking the adding machine keys in what seemed like the speed of light rapidly.

In those days, there were not nearly so many superintendents of the road department, who in an instant could recall the condition of every county and state road and the work most recently done or done even the year before. County Engineer Bill Bush and Lavender worked hand in hand and Bush would report the activity of his department each Tuesday and his recollection ability often for the commissioners' benefit.

One of the most trying times during those Alexander years was when the state's first GOP governor since reconstruction, Claude R. Kirk, took office and buses began to roll. The appointed sheriff, Pete Millot and Alexander butted heads often and fought their battles in the newspaper. When Millot in one of his blasts referred to Alexander and the commissioners as "Little Caesar and his four footmen," Alexander took the remark in stride. Not so with Swofford who said that he was no one's footman. Those were exciting days.

By all accounts, Dr. McKelvey was the "best" as in the title of Jimmy Carter's autobiography, "Why Not the Best?" Internationally recognized for his investigations into problems related to long-range energy and mineral resource needs, and for his analyses and assessments of sea bed resources at the world, Carter plan was with Swofford who said that he was no one's footman. Those were exciting days.

Even Interior Secretary Cecil Andrus, who named Dr. McKelvey, says he made a "significant contribution" to the nation's scientific advancement, and kept the USGS on "an even keel" while "maintaining its highest traditions," etc., etc.

So, why was Dr. McKelvey given the bum's rush? Well, the official reason is that Secretary Andrus simply wanted his "own man" since the USGS had to be expanded, its responsibilities increased, etc., etc.

Fine, then who is this person? Well, the secretary doesn't have anyone specific in mind, Esarterter explains. He says the National Academy of Science will submit a list of possible replacements, however, the secretary may or may not select from this list.

Sorry, but this pathetic excuse will not fly. What really happened is obviously, as The Wall Street Journal has observed, an example of "Washington Behind Closed Doors."

Dr. McKelvey's problem undoubtedly was that he was out of sync with the Carter administration's political line that "we are running out of gas and oil." Earlier this year, he was named a member of the National Energy Plan, I interviewed Dr. McKelvey and asked if he agreed with this assertion. "No, I don't feel that way myself," he replied, agreeing that the negativism of the Eastern Star and Brotherhood of Railroad Trainmen.

PEOPLE

Pope Paul 80 Today; 'Obliged To Humility'

VATICAN CITY (AP) — Pope Paul VI celebrated his 80th birthday today, and said the end of his life is approaching. But one of his close associates said he doubted the pontiff would abide by the retirement-80 rule he has set for his cardinals.

Pope Paul told a crowd of 50,000 in St. Peter's Square Sunday that his birthday "pre-announces that our end in the order of temporal life is approaching."

"This obliges us to great humility," the pontiff said. "We feel the fragility of being human to which we are subject as Christ was at the crucifix."

NEW YORK (AP) — Lillian Carter has become the first woman ever awarded the Synagogue Council of America's "Covenant of Peace" prize.

The President's mother received the award Sunday for "distinguished contributions to the furtherance of international understanding, justice and peace."

The council cited Mrs. Carter for the rearing of four children, a career as a registered nurse and two years in India with the "Peace Corps."

"Throughout her life she has taught me and the other members of our family by example and precept, the importance of living in a manner which carries out the teachings of our Bible and the Judaic Christian tradition," Carter said in a telegram to the council.

Miss Lillian Gets Peace Award

"Throughout her life she has taught me and the other members of our family by example and precept, the importance of living in a manner which carries out the teachings of our Bible and the Judaic Christian tradition," Carter said in a telegram to the council.

A Woman For President?

DENVER (AP) — Nominating a woman for the U.S. presidency "would be the most exciting thing the GOP could do," says Mary Crisp, a Republican National Committee chairman.

She suggested that Ann Armstrong, the former ambassador to England, would be a good candidate.

"I think we're ready," Mrs. Crisp said. "We have to be bold and take risks and change the perception of the GOP."

Mrs. Crisp, of Phoenix, Ariz., was in Denver this weekend to speak to women's groups at Colorado College.

AREA DEATHS

PHILIP ALLEN

Philip J. Allen, 82, of 11 Holly Ave., Sanford died Saturday. He was born in Enterprise and came to Sanford 30 years ago. He was a retired trainman with the Atlantic Coast Line Railroad. He was a member of First Presbyterian Church, the Masons, the Order of the Eastern Star and Brotherhood of Railroad Trainmen.

Survivors include two daughters, Mrs. Kathryn Wynan, Sanford, and Mrs. Phyllis A. Shaffer, Columbus, Ohio; a sister, Mrs. Robert Cole, Sanford; five grandchildren and several great-grandchildren.

Brison Funeral Home is in charge of arrangements.

MRS. FRANCES R. HEYMAN

Mrs. Frances R. Heyman, 79, of 518 Orange Drive, Altamonte Springs, died Sunday, Born in Union Bridge, Md., she moved to Altamonte Springs in 1964 from New York City.

South Lebanon: A Truce Wins OK

BEIRUT, Lebanon (AP) — The Lebanese and Israeli governments and Palestinian leaders agreed to a truce in South Lebanon arranged by the United States, Beirut radio reported today.

A spokesman for Arafat's high command said contacts were "under way to work out final details of a cease-fire that will preserve Lebanon's territorial integrity."

The Israeli Defense Ministry in Tel Aviv said the truce agreement called for withdrawal of the Palestinian guerrillas from positions north of the border from which they could shell towns and settlements in northern Israel.

Israeli armored forces began withdrawing from south Lebanon. Reporters and photographers on the Israeli side were invited to watch the withdrawal although the Israeli government previously denied that it had any ground forces in Lebanon.

Israeli tanks, armored personnel carriers, a half-track and several jeeps roared through a gate in the border fence near the Israeli town of Metulla early today. Some 40 reporters and photographers were on hand, "to cover the return of a force whose entry was heavily denied," one reporter commented.

A few minutes after the withdrawal started, two of the Palestinians' Katyusha rockets hit Qiryat Shmona, about four miles south of the border. One blew up in a public park, and it

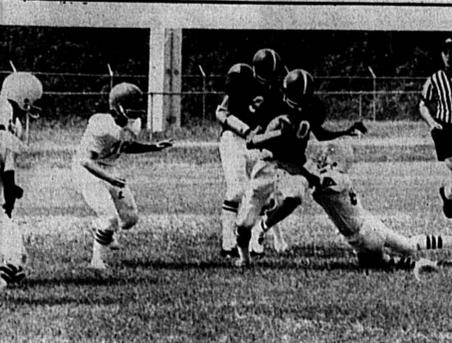

was not learned immediately if there were any casualties. Sources at the Israeli Defense Ministry said the Syrian government joined in the negotiations and would try to persuade the Palestinians to observe the agreement.

Sources close to the Lebanese government and Arafat spoke of a "partial" pullback.

And that would be even worse for the environment. "The enforcement of forest and wildlife conservation could be seriously affected," the State Department says.

Another environmental concern grows out of the treaty provision for consideration of a new sea level canal. Scientists have warned that the construction of a direct link between the two oceans cannot be foreseen, and the State Department said there would have to be extensive environmental studies if the United States sought to build a new canal.

Under the treaty, about 80 per cent of the Canal Zone would be placed under Panamanian control at the outset, with the rest of the area remaining in U.S. jurisdiction for operation of the canal until the year 2000, when it, too, would go to Panama.

ANDERSON MCKINES TRIES TO SQUIRM AWAY FROM TACKLER

SANFORD MIDGETS CHEERLEADERS GO THROUGH THEIR PACES

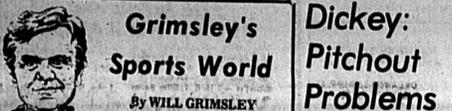

Sanford, Teague, Milwaukee Junior Midgets Roll

Sanford, Teague and Milwaukee pulled off midget victories Saturday as the Pop Warner League kicked off weekend No. 2 with a full complement of games.

Sanford stopped South Seminoles, 7-0, while Teague took 19-12 measure of Conway-Milwee defeated Pinecastle, 20-13.

# For 1978... Chevy Chevette announces a decrease in price and an increase in value.

## A lot more standard

Our nifty 2-door Chevette Hatchback just got a lot niftier. Because we've added eighteen new standard features.

Features that most people want in a car. Like a quality-built Delco AM radio, a larger 1.6 Liter engine, white stripe tires and wheel trim rings. Even swing-out rear windows.

All things considered, the new '78 2-door Chevette Hatchback is considerably more car. And a very considerable value.

New standard features on the '78 2-door Chevette Hatchback

- Delco AM radio
- 1.6 Liter engine
- Swing-out rear windows
- Reclining front bucket seats
- White stripe tires
- Sport steering wheel
- Console
- Wheel trim rings
- Bumper rub strips
- Protective body side moldings
- Cigarette lighter
- Color-keyed instrument panel
- Glove compartment lock
- Deluxe grille... and more...
- 18 new features in all.

Some early production Chevettes in dealer inventory won't have reclining seats. The suggested base price will be reduced accordingly.

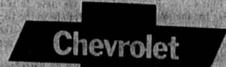

The '78 2-door Chevette Hatchback is

# \$282 less

Now here's the really good news.

We added those 18 items to the 1978 2-door Chevette Hatchback, yet, based on a comparison of manufacturer's suggested retail prices, we still kept the price \$282 below what last year's model would have cost with the same equipment. More Chevette for less money. Amazing and true.

And now there's a brand-new Chevette, too. A 4-door Hatchback with two more doors, a roomy back seat and all the new standard features, except swing-out rear windows. In fact, it has more rear seat leg room than the 1977 Toyota Corolla or Datsun B-210 4-door sedans. Even the 1977 Honda Civic Wagon. For 1978, Chevette's a lot of car for your money.

SEE WHAT'S NEW TODAY IN A CHEVROLET.

## Briefly

### Sanford Exchange Gets Extended Phone Service

Interested in saving as much as 62 per cent of day-time toll rates on long distance calls to Orlando? Southern Bell's Extended Community Calling option can do just that for certain customers in the Sanford Exchange, local manager Tom Hunt has announced. The service provides the typical flat-rate local calling that all customers now have, plus measured dial calling from Sanford-321-322-323 subscribers to all subscribers in the Orlando Exchange.

"There is no one-time charge to add to Extended Community Calling," Hunt added. Customers interested in subscribing to the Extended Community Calling option should contact the Sanford Business Office.

### Sanfordite At Dartmouth

Elizabeth A. Sirkin of Sanford, was among approximately 1,050 students entering the freshman class at Dartmouth College, Hanover, N.H., this month.

She is the daughter of Mr. and Mrs. Stephen M. Sirkin, Silver Lake, Sanford, and a 1977 graduate of the Hotchkiss School in Lakeville, Conn. Active in chorus, with the Madrigals, and the Medical Club, she was also on the staff of the school literary magazine.

### Diabetes Lecture Set

Dr. William L. Chick, M.D., one of the top authorities in the field of diabetes research, will speak at the Orange Memorial Hospital Auditorium, Friday, Sept. 30, at 7:30 p.m. His topic for the lecture will be "Recent Progress in Diabetes Research." An Associate Professor of Medicine at Harvard Medical School, Dr. Chick is presently involved in the research and development of the artificial pancreas at the Elliott P. Joslin Laboratory of Boston.

### Club To Hear Doctor

The first meeting of the fall season for the Great Lakes Club of Deltona will be held in the Deltona Community Center Sept. 28 beginning with a social hour at 5 p.m. followed by dinner at 6 p.m. Reservations are required.

A program has been arranged by Mrs. Ruth Paetz whose brother, Dr. James Q. Reber of Chevy Chase, Md., will present a slide illustrated lecture on "Forever England."

## Sewing Toys That Teach Makes Kindergarten Fun

By JAN FREEMAN  
Herald Correspondent

"Toys should be something children can put their hands on and can be washed when dirty. And since paper wears and tears, toys you sew are so very important," Catherine Wheelchel said.

Mrs. Wheelchel uses many toys sewn from fabric scraps in her kindergarten teaching at Idylwild Elementary School. These are simple learning aids, such as a cloth book with each page designed to develop a certain skill.

Year after year, Mrs. Catherine

Wheelchel becomes a very special teacher to many little boys and girls, and parent too. Learning becomes interesting and fun, because of all the extra love that she puts into teaching with the learning toys she sews.

Mrs. Wheelchel recently taught a three-hour seminar on "Toys You Can Sew" at the Parent Resource Center on Seminole Community College campus. She is looking forward to more seminars this Fall.

"I get the greatest joy from making something a child will love from a few scraps," says Catherine.

A Longwood mother, Terry Griffith, made a counting inch worm during the workshop and said "My little boy hasn't put it down yet, and I've already been to the fabric shop for materials to make more toys."

Mastering the art of tying a shoelace is a big accomplishment for a child, not to mention the relief for mother, so why not make it a game with a toy to practice on?

If you are interested in attending a future "Toys You Can Sew" workshop, please call the Parent Resource Center, telephone, 323-1450, Ext. 303-304, Seminole Community College.

## Barnhart-Keltner

### Wedding Vows Exchanged

Debra Kay Barnhart and Jack Timothy Keltner were married at noon Saturday at the Community United Methodist Church, Casselberry.

Rev. Arthur Padgett and Rev. Delmas Copeland, former church minister who is now pastor of the First United Methodist Church of Vero Beach, were the officiating clergymen.

The bride is the daughter of Mr. and Mrs. Donald E. Barnhart, and the bridegroom's parents are Mr. and Mrs. C. Eugene Keltner, all of Longwood.

Given in marriage by her father, the bride chose for her vows a formal silk organza gown with a lace overlay which terminated in a full train. Her tiered veil of illusion was floor-length.

Dawn Bray attended the bride as maid of honor. The bridesmaids were Robin Basinger and Wendy Wright. They wore pale blue gowns and carried hand bouquets of daisies.

Robert Schmidt served the bridegroom as best man. Ushers were Dale Keltner, brother of the bridegroom, Madison, Wis., and David Barnhart, brother of the bride.

After the ceremony a reception was held in Fellowship Hall of the church.

Following a wedding trip to Ft. Lauderdale, the newlyweds will make their home in Longwood. The bride is employed by McNamara Pontiac. The bridegroom is a psychiatric technician at Lake Sumter Mental Center, Eustis.

MRS. JACK TIMOTHY KELTNER

## Announcing . . .

MR. PAUL SMITH

of the  
Storrs Schaefer Tailors

will be in our store

TUESDAY, SEPT. 27

Mr. Smith will be showing a complete line of the newest fall & winter fabrics. He will be happy to take your measurements for suits, sport coats or slacks to be delivered at your convenience.

## She Breaks Down And Cries Over Living In New York

DEAR ABBY: I'm a 24-year-old California woman who fell in love with a terrific eligible bachelor while vacationing in New York.

We're planning a November wedding, but every time I think of living in New York I break down in tears. I hate New York. I was born and raised in California, and all my friends and family live here.

We have to live in New York because my fiancé is a physician, and his father (also a physician) is retiring and leaving him a wonderful established practice.

I've asked my fiancé to consider taking the California Medical Boards so he can practice there, but he says it's foolish to start all over again in California when he has a successful ready-made practice in New York. I know he's right. But as much as I love him, I know I'll be miserable in New York.

Please answer soon as time is running out. TORN

DEAR TORN: If you "know" you'll be miserable in New York, you will be. And he'll be miserable, knowing that you're miserable, which will make for a miserable marriage.

Unless you got to New York determined to build a new and happy life for your sake and his, call the wedding off and stay in California.

DEAR ABBY: I am involved with an older married man with whom I have a unique relationship. He never questions me about other men, and I never question him about his wife — although I admit, I'm curious.

He pursued me, I didn't pursue him, and from the very beginning he told me he was a "happily married man."

My question: Why would a "happily married man" want to have an affair? Or is the affair a sign that something is wrong with his marriage? CURIOUS

DEAR CURIOUS: It's possible for a man who is sufficiently satisfied with his

Dear Abby

enjoy fooling around with you, but don't get any crazy ideas about marriage, because I'm perfectly happy with things the way they are."

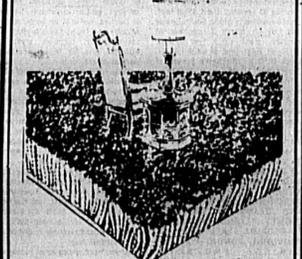

...Everyone has a problem. What's yours? For a personal reply, write to: ABBY: Box No. 470, L.A., Calif. 90049. Enclose stamped, self-addressed envelope. Please state to write letters. Send \$1 to Abigail Van Buren, 122 Lacey Dr., Beverly Hills, Calif. 90212, for Abby's booklet "How to Write Letters for All Occasions." Please enclose a self-addressed, stamped (20 cent) envelope.
