Painter May Have Had Successful Qualities All the Time, and Then Again-

"Realism may not always prove up as an artistic quality," explained the old critic, "but it sometimes hits the spot as a business proposition.

"I'm thinking of Daubit. Daubit was a middle-aged painter with a future behind him in the little town he hailed from. He stuck to idealism until he saw that it was no use, then he turned realist and took the step that made him.

"About this time he met a spinster in ill health, fifty years old, and rich as Croesus. The spinster was passionately fond of cats, and of one big old tabby in particular.

"Daubit saw his chance. He pulled the strings and arranged for a business interview with her. He talked glibly and persuaded her to sit for her portrait. She agreed to let him paint her as she liked best to sit at home, with the stipulation that if the picture did not suit she need not pay

"But our painter wasn't to be balked or daunted. He borrowed money on

Just when him. she was ready to speak the tabby approached the picture, seemed to notice it for the first time-it was on the floor-and then, smelling, mewing, and evidently delighted, did her best to get at the basket.

"The spinster changed her mind instantly. She took the cat's word for its excellence and bought the picture at a good round price.

"She hung the picture in her home, and in six months Daubit was there with her to help her enjoy it. His marriage to her made him a celebrity among all the rich people, and now he sells more than he can paint."

NEGRO SHOT

HAD BEEN ACTING SUS-PICIOUSLY AND WENT FOR GUN WHEN HALTED

Either Burglar Bill or one of his pals, or at least a negro who has been loitering around the residences of Tenth street lately was shot and killed on Sanford Ave., last Sunday night by Policeman Vickery.

This city has been bothered by the depredations of a burgalr or gang of burglars for the past three weeks and the citizens and the police force have been keeping a sharp look-out for intruders. On Sunday night about cleven o clock police headquarters received several calls from the vicinity of tenth street and Magnolia and Pack avenues where his hands the negro went after a on sale there gun or some other weapons in his J. There were several indication of the burglars being in evidence on Saturday night and they were getting very bold in their depredations.

Orlando Auto City

Orlando, July 26. Orlando rides in motor cars! For years this city has claimed to be the automobile city of America. Now just after the completion of the new city direct-Qry, which gives her credit for 8,000 population, it may be interesting to know how many cars there are owned in the city, and what part of the total population is in the auto class.

A trip to the tax assessor's office is a most convincing method of proving Orlando s claim to motor precedence. Recently obtained figures from that source show that there are 584 autos licensed here. Take these figures and divide them into the total population and you will find that there is one auto to every fourteen persons in the city.

ILENIUN, EVERYBUDY! KINDS OF LOTS FOR ALL KINDS OF PEOPLE

The extensive Holden Estate properties have just been acquired by the THATCHER REALTY COMPANY, and their sale will be vigorously pushed.

This company bought these properties because of the belief that from the stand point of opportunity and development, Florida is the best State in the Union, and that Sanford is the best place in Florida.

Sanford's celebrated celery lands are unrivalled. Nowhere else on the face of the earth can there be found such a combination of fertile lands, cheap and unlimited water supply for irrigation purposes, perpetual summer climate, and adequate shipping facilities by land and sea to the world's greatest markets.

THREE REASONS WHY.

Sanford is unmatched as a fruit and trucking center.

Sanford is at the head of navigation on the St. Johns River, and has, thereby, water contact with Jacksonville and the sea. Freight rates are thus cheapened to Sanford, and the city is destined to be a wholesale center, and Florida's interior metropolis.

Sanford's wonderful lake and river system, its unsurpassed fishing and hunting preserves, and its delightful climate, render it the Nation's ideal resort.

There are many more reasons which might be given to prove that Sanford is bound to rapidly grow; but for the present, these are sufficient.

No better, safer opportunities for investment can be found anywhere than we now offer the public. We have twelve hundred Sanford lots for sale, and they are situated in every desirable part of the city.

Lots for Sanford citizens in the city's most desirable residence sections.

Lots for railroad men convenient to their work.

Lots for thrifty colored folks in sections convenient to their churches and schools.

Lots for those of other communities and States who want to invest their money in splendid real estate that is rapidly enhancing in value.

We sell on easy terms; a small payment in cash, and the balance on easy monthly payments.

SANFORD IS ON THE EVE OF A GREAT DEVELOPMENT. BUY NOW AND GROW WITH IT.

Lots, celery farms, improved and unimproved, and other lands, in the flowing well districts of Seminole and Volusia Counties, Florida, are offered for sale by us.

Titles perfect.
