

LOYD GEORGE VALEDICTORY SPEECH GENOA CONFERENCE SAYS MEETING BIG SUCCESS

They Have Gathered
Fine Crops of Com-
missions

JUSTIFIED MEETING

AND FRUITFUL RESULTS WITH
ACCURACY FROM GENOA AND
HAGUE CONFERENCE

(By The Associated Press)
GENOA, May 19.—Lloyd George
in his valedictory speech to the econ-
omic conference today said the con-
ference had gathered "fine crops"
namely, meeting to be held at the
Hague, non-aggression pact and re-
ports of finance, transport and econ-
omic commissions, which he said
alone justified holding of the confer-
ence.

Labor of conference will be re-
sumed at the Hague June fifteenth.
The conference adopted the report of
the economic mission which contains
constructive recommendations for
economic reorganization of Europe,
adapted arrangements for conference
at the Hague and proclaimed Lloyd
George's famous non-aggression pact
which though provisional in its na-
ture is hoped to be followed with per-
manent European peace pact.

GENOA, May 19.—The American
ambassador, Richard Washburn
Child and Premier Lloyd George con-
ferred again last evening concerning
the American attitude on The Hague
conference, and again hope was ex-
pressed among all the delegations
that the United States will finally
decide to participate.

After formally adopting the plan
of The Hague meeting and solemnly
affirming the continuance of the
truce throughout the Hague discus-
sions and for four months thereafter
the economic conference did no other
business yesterday. The delegations
are preparing to leave soon after the
plenary session which will be devoted
chiefly to speech-making.

A review of the conference shows
that it never was quite able to re-
cover from the shocks of the separ-
ate treaty Germany and Russia con-
cluded on Easter Sunday. A collec-
tive agreement with Russia was one
of the great sins of the Genoa delib-
erations and the sudden announce-
ment that Germany had negotiated
an agreement alone with Russia en-
gendered suspicions among the pow-
ers which have never been removed.

France voiced her suspicion that
the Russo-German accord might con-
tain secret military clauses, and her
fear that the conference, instead of
bringing harmony to disorganized
Europe, might serve as a ground for
groupings of the powers, calculated
to disturb the peace of Europe.

Mr. Lloyd George in the earlier
days of the conference, alluded to the
dangers through the possibility of
Russia being armed by Ger-
many, and declared that so long as
the frontier disputes in Europe re-
mained unsettled there was just ap-
prehension of future wars.

Although the bolshevik reply to
the proposals of the powers was con-
sidered on the sense that it sugges-
ted a mixed commission to study the
problems involved, the Soviet spokes-
men practically rejected the powers'
suggestions. They were especially
insistent on adhering to their doctrine
of nationalization of private property
including the property of foreigners,
which the nations desired returned to
the former owners.

This insistence broke the back of
the conference. It drove Belgium and
France out of the later deliberations.

America's absence from Genoa in-
creased the difficulties in obtaining
immediate results, and America's re-
fusal of the invitation to participate
in The Hague conference has disap-
pointed those who expected big things
from that conference. Nevertheless
the Genoa conference has served the
great purpose of getting thirty-two
countries of Europe better acquainted
with one another's problems, and has
given birth to a spirit of conciliation,
tolerance and understanding. It has
been responsible for the experts at
Genoa to take up concrete Russian
matters—credits, debts and property
—and finally has created a military
truce for Europe and Asia.

OIL COMPANIES HAVE SURPLUS 800 MILLION GAL.

OF GASOLINE ON HAND DESPITE
THE INCREASE IN
PRICES

(By The Associated Press)
ST. LOUIS, May 19.—Oil companies
have surplus of 800,000,000 gallons of
gasoline on hand despite increase in
price throughout the country accord-
ing to delegates to the convention of
American Automobile Association
which opened here today. Increased
prices of gasoline and legislation pro-
viding severe penalties for automobile
thefts was before the convention to-
day.

TUBERCULIN TEST OF COWS WILL BE MADE

A tuberculin test will be applied to
the cows of Seminole county and
especially of the cows of the various
dairy herds in the county and the
city of Sanford. This is needed as
the physicians claim that many of
the diseases of children are traced di-
rectly to the milk that comes from
tubercular cows of which the owners
have no knowledge until the test is
applied by the State Live Stock Sanitary
Board. The following letter to
Dr. Denton, of this city, is self ex-
planatory:

To the Owners of Dairy Herds Who
are Selling Milk or Other Dairy Pro-
ducts in Seminole County, Florida:

I, Dr. J. F. Denton, county physician,
of Seminole county, have been author-
ized and instructed by the County
Commissioners of said Seminole coun-
ty to require that a tuberculin test be
applied to all cows whose dairy prod-
ucts are sold in Seminole county. Ar-
rangements have therefore been made
with the State Live Stock Sanitary
Board who are co-operating with the
Federal Bureau of Animal Industry
for such tests to be made, beginning,
May 29th, 1922. It is requested that
all herd owners, the products of which
herd are sold in Seminole County, call
at my office before such date, giving
me the number of all cattle in their
herd, number of cows milking, dry
cows, heifers, calves and herd bull as
all animals in such herds are to be
tested. Those owning private cows
from which milk is sold are earnestly
requested to have such cows tested,
which the inspector will be pleased to
do at their request. It is suggested
that privately owned cattle be bunched
at some central points so as to facili-
tate the work. There will be absolu-
tely no charge for this work.

Yours truly,
D. J. F. DENTON,
County Physician,
Sanford, Florida.

LADY RHONDAS CLAIMS SET IN HOUSE OF LORDS HAS NOT BEEN MADE OUT

(By The Associated Press)
LONDON, May 19.—By twenty
to four vote committee on privileges
House of Lords decided today of Lady
Rhondas claim and petition to sit in
the House of Lords, "Not been made
out."

SEVENTY-FIVE MILLION FUND FOR SOUTHERN BAPTISTS IN SOUTH-WIDE CAMPAIGN

Decided Upon Today at the Convention Being
Held in Jacksonville

(By The Associated Press)
JACKSONVILLE, May 19.—Plans for completing the \$75-
000,000 Southern Baptist convention to be outlined and intensive
South-wide campaign launched at conference of Baptist leaders in
Nashville June 21 it was announced at the convention here today.
Plans call for forming organization somewhat similar to the one
that obtained original subscriptions.

King Cole-man Still High Man at Gun Club Shoot

Yesterday was a very unfavorable
day at the traps of the Sanford Rod &
Gun Club. A strong west wind blew
some of the scores of the contestants
into what is sometimes called a
"cocked hat."

King Coleman, who is the headliner
of the Club slid down some 21 points.
Ralph Wight, after shooting but 25
of his string and breaking 24 of them
was called away and did not return.
Some suspect that he sent the "S. O.
S." to Fred and got called while his
score was good. In any case he is
getting along toward the top and bids
fair to give J. B. Coleman a run for
first place in a short time.

The fact that the next state tourna-
ment shoot will be held in Sanford
has added a great deal of interest to
the Club and it is expected that the
contests will be even better in the fu-
ture than in the past.

Next to Ralph Wight, the best
scores of yesterday's contest were
made by W. C. Hill, Dr. Puleston and
John Purdon, Hill having a very slight
lead over the other two and incident-
ally dropped up another notch in the
line-up and is now in third place.

Official score for the day is as fol-
lows:

Coleman, J. B.	50-38	889
Wight, R. B.	25-24	872
Hill, W. C.	75-64	852
Hand, Walter S.		835
Puleston, S.	100-84	828
Hardin, J. L.	75-57	824
Newman, R. A.	50-38	785
Stevens, R. E.	125-96	781
Hutchison, J. C.		780
Whitner, Chas.		766
Hernold, O. P.		740
Purdon, John	50-42	736
Smith, H. P.		733
Maines, Schelle	25-19	733
Maxwell, R. C.	25-19	720
Cowan, J. H.		700
Mobley, E. D.	50-33	673
Crosby, F. L.	75-55	653
Higgins, Ed.		640
Toair, J. N.		630
Herring, Geo. G.		560

Above is record of members only.
Members who have not shot in the
past 30 days are not published.

"DUSTED"

Hooray, Sanford gets the next
year's state shoot, thanks to the boys
who went to Jacksonville. We will
have a chance to see some real sure-
enough marksmanship next spring and
some of the Sanford boys will be right
along with the best of them.

The way that Wight boy shoots
would make Jesse James ashamed of
himself. We hope he can stay at the
traps next Thursday long enough to
shoot out his usual string.

Where, oh where is the "sheriff?"
This promising young man has slipped
down from second to sixth place in
the list. Too much fast company at
the state shoot, perhaps.

Dr. Puleston is getting back in his
old form. Good score yesterday, con-
sidering the wind. He has been hav-

Mob Melts Away After Burning Negro Guilty of Murder

Did Not Think He Had Any Accom-
plishes in Crime

(By The Associated Press)
DAVISBORO, Ga., May 19.—The
mob which burned Charlie Atkins, 15,
negro at a stake yesterday dispersed
today apparently satisfied he alone
was responsible for the death of Mrs.
Elizabeth Kitchens, mail carrier, who
was shot to death.

PROHIBITION NAVY SUCCESS SAYS HAYNES

(By The Associated Press)
WASHINGTON, May 19.—Prohibi-
tion navy successfully blocking the
sea lanes to liquor smugglers Haynes
said today. Location of patrols not
announced but Haynes indicated fleet
distributed along Eastern seaboard.
Rum running decreased since organi-
zation of fleet, especially along the
Florida coast, Haynes said, and search
of twenty-four suspicious crafts in one
day recently failed to uncover liquor
in cargoes.

MAJESTIC BREAKS ALL RECORDS FOR MAIDEN VOYAGE

NEW YORK, May 18.—The Majes-
tic, mammoth new Morvich of the
sea, warped into her pier Thursday
afternoon after a trip from England,
during which she broke all existing
records for maiden voyages on the At-
lantic.

Sir Bertram Haynes, her skipper,
who went to her bridge in successive
steps from cabin boy in the White
Star Line service, had not tried to put
the Majestic at top speed during the
voyage. For two days she had "loaf-
ed" then speeding up, as she ran into
another sea, until she drove along at
a 25.50 knot pace, hitting it up to 26
on the last leg.

Just five days and 16 hours after
she left Cherbourg, the Majestic whirled
past Ambrose lightship in a cloud
of spray. Then she slowed down to
pick up the liner.

A tug tooted vigorously three
times in welcome. The terrific boom
of the Majestic's whistle answered her
and other ships, waiting to welcome
the new liner, took up the refrain.

Orlando has just opened their gun
club. Negotiations are under way for
some inter-club contests. Hope we
won't need DeCottet's army to settle
the riot.

Among the visitors at the traps who
made good scores yesterday were
George and Paul Pezold. The Club is
always glad to welcome visitors and
they are given the same privileges as
the members at the traps.

SANFORD'S IMMENSE GROWTH SURPRISES THE ENTIRE STATE ---THE BOND ISSUE WAS GREAT

WILL SIEZE ALL PROPERTY BOOZE SELLERS

TO COLLECT FEDERAL TAX FOR
DISTILLING MOON-
SHINE

(By The Associated Press)
MIAMI, May 19.—Revenue officials
today took initial steps to collect fed-
eral tax for distilling from moonshiners
and retail liquor dealers tax from sel-
lers of intoxicants illegally. More
than two hundred seizure warrants
were received and officers began seiz-
ing personal property of persons in
any way connected with illegal liquor
transaction, whether possessors, smug-
glers or distillers.

EDISON FAVORS FORD'S OFFER MUSCLE SHOALS

RECOMMENDATION MADE TO
MEMBERS OF SENATE AGRICULTURE
COMMITTEE

(By The Associated Press)
WASHINGTON, May 19.—Recom-
mendation for acceptance by the gov-
ernment of Ford's offer for develop-
ment of Muscle Shoals has been made
to members of the senate agriculture
committee by Thomas A. Edison, who
recently studied Muscle Shoals plant
in company with Ford.

FIRE AT PASS-A-GRIFFLE FINE GULF RESORT, TWO HOTELS BURNED

(By The Associated Press)
ST. PETERSBURG, May 19.—Pass-
a-Grille, a gulf resort near here suf-
fered another disastrous fire today
when the Holway Hotel and Mason
House were destroyed with a loss of
\$75,000, which was only partly cov-
ered by insurance.

217.00 ACRES OF FARM LANDS UNDER WATER FROM FLOOD

(By The Associated Press)
NEW ORLEANS, May 19.—Two
hundred and seventeen thousand ac-
res of improved farm lands in ten
Louisiana parishes on May 15 were
covered with flood waters running
through the three crevasses in the
Mississippi river levees at Ferriday,
Poydras and Myrtle Grove, accord-
ing to estimates announced yesterday
by L. L. Jones, agricultural statisti-
cian of the United States bureau of
markets and crop estimates in his
first official report of crop damage
and acreage affected in the flooded
territory.

The report declared that the figures
are "preliminary and subject to re-
vision" and do not take into account
the effects of the Hamburg and An-
gola crevasses.

Mrs. Jones also gave out figures
contained in a letter from Joseph C.
Loran, temporary secretary of the
West Mississippi Flood Commission
to Governor Russell of that state
stating that 10,400 persons were in
need of help as a result of the flood
in Mississippi and that 10,800 event-
ually would have to be cared for.

For quick results, try a want ad.

Strangers to City Say Sanford Being Talked About Everywhere FAST GROWING CITY

WITH ALL THE IMPROVEMENTS
CONTEMPLATED THIS SUMMER
SANFORD IS COMING.

For the past twelve months Sanford
has been growing steadily and has
been talked about all over the state by
the traveling men and by the tourists
of the state. Everyone coming to
Sanford now begins talking about the
many big improvements taking place
and the much bigger ones contem-
plated. The two big buildings that will
be erected on the two principal cor-
ners of the city, the many buildings on
other corners and in every part of the
business district, the wholesale houses
locating here, the new business
deals being put over and the hundreds
of dwellings being started all have
their effect.

The bond issue this week is being
heralded far and wide as one of the
great achievements of Sanford and of
this part of the state. It has already
given this city much prestige in com-
mercial circles and new business will
follow it. The St. Johns river cam-
paign that was started in Sanford
many months ago and that showed
fruits at the hearing in Titusville has
also brought the name of Sanford
prominently before the public. In fact
this city has taken on a new lease of
life that is surprising even to the
most optimistic citizens here and the
people of Sanford and the people com-
ing here to do business are wearing a
smile of contentment. New People
are coming here every day to invest in
Sanford real estate and the fact that
one of our corners sold for \$18,000
more than the purchase price in two
year's time and that similar deals are
being made everywhere has startled
the south with the immensity of San-
ford's prospects from every business
angle.

All of this prosperity backed by a
most successful farming season is
bringing Sanford into public notice
such as few cities in Florida have ever
been brought.

Watch us grow.

STEAMER JANELEW HAS BROKEN TURBINE DRIFTING NEAR REEF

(By The Associated Press)
KEY WEST, May 19.—Coast guard
cutter and tug gone to assistance of
American steamer Janelew, New Or-
leans to Savannah, which was reported
by radio today turbine broken and
drifting near alligator reef.

MILLIONS IN LIQUOR SEIZED THIS WEEK BY DRY OFFICERS

(By The Associated Press)
WASHINGTON, May 19.—More
than a million dollar's worth of liquor
was seized during the past week by
recently organized general agents of
the prohibition forces, Haynes an-
nounced today. Florida included in
states where seizures were made.

RIGHT TO CONGRESS TO REGULATE EMPLOYING CHILDREN UNDER 18

(By The Associated Press)
WASHINGTON, May 19.—Joint
resolution proposing federal constitu-
tional amendment giving congress the
right to regulate or prohibit employ-
ment of children under 18 was intro-
duced in the senate today by Johnson,
Republican, California. Said amend-
ment proposed in effect to meet situa-
tion arising from recent decision of
the Supreme Court holding child labor
law unconstitutional.

SEMENOFF RELEASED FROM ARREST TODAY, COURT HAS REVERSAL

(By The Associated Press)
NEW YORK, May 19.—General
Gregorie Semenoff, former Atman of
Cossacks, was ordered released from
arrest today by appellate division of
the supreme court which reversed the
decision of Supreme Court Justice De-
lahanty.

The two Prather Boys, of DeLand, with Walter A. Robinson and Ellis Little, of New Smyrna, might attain the entertainment below if they hold to the rope

17,700 Acres in East Orange County
On Famous Orlando to Ocean Highway
Rich Farming, Citrus and Trucking Lands Being Syndicated in **30 Acre Tracts**
Each tract fronting on Orlando-Ocean Boulevard at the extremely low price of—
\$28.24 per Acre
Five Years in Which to Pay—
Title Good—Warranty Deed Guaranteed
Land May be Occupied Before Payment Completed
This tract consists of 17,700 acres bordering both sides the Orlando-East Coast Sixteen-foot Boulevard for about eight miles, is intersected by the Florida East Coast Railroad and two other main county highways one of which is to be hard-surfaced also.
Upon completion of these hard-surfaced roads the value of this land will increase very substantially as has already been demonstrated in all other sections of Orange County, and the syndicate proposes to sell in small tracts the syndicate holdings at a profit.
This tract is virgin timbered and the timber is conservatively estimated to be worth \$12.00 per acre.

THE UNKNOWN SEX.

Herbert Thinks the Female of the Species a True Sphinx
Holmes E. Herbert, who plays the part of Dunstan Renshaw, about whom the truth is told in "The Truth About Husbands," is a Rugby man with a wide experience on the stage at least with the fair sex, having played opposite such stars as Ethel Barrymore, Grace George, Blanche Bates, Billie Burke and Elsie Ferguson. Despite this he claims to know very little about women. But as he says, who does? He will be seen at the Princess theatre tonight in this Whitman Bennett production, which is adapted from Arthur Wing Pinero's "The Profligate," and released through First National.

Dance at the Montezuma Hotel tonight, 9 o'clock sharp. Admission, \$1.00. 45-11c

"THE RETURN OF MILES O'ROURKE"

An original play by Rev. J. A. Hennessy, Sanford. A story of Irish life of the 20th Century, minus wars and rumors of wars. Laughs follow tears, and thrills follow climaxes. Given under the auspices of All Souls Dramatic Club Sanford. The cast: Miles O'Rourke, the hero, Mr. Thomas Reidy; Urala MacLeigh, the heroine, Mrs. O. P. Herndon; Mrs. O'Rourke, the widow, Mrs. Charles Wood; Bridie O'Moore, the walking library of village secrets, Mrs. Ira Jones; Patay O'Doyle, the Ne'er-do-well, Mr. Larry Stone; Dominic MacLeigh, the regenerated, Mr. Clarence Mahoney; Fr. O'Sullivan, the shepherd of the flock, Mr. John Schirard, Sr.; Shamus Halferty, Mr. Martin Temple; Alex, a farm boy, Mr. Matthew Tarbell, Jr.; A policeman, Mr. Moses Jackson; the singer of Irish songs, Mrs. Marion Giles.

OVIEDO

Rev. J. N. Thompson and R. W. Lawton are attending the Baptist convention in Jacksonville this week. S. W. Swope has improved his place by the installment of a Delco light and water plant.

Mr. and Mrs. E. G. Hancock spent Mother's Day with Mr. Hancock's parents at Oakland.

The first concert to be given by the Oviedo Orchestra was on May 11th, at the school house, under the efficient leadership of Mr. E. A. Ball and assisted by the Legion Saxophone Band of Sanford, a very creditable program was given. The Orchestra was organized five months ago with only four of its seventeen members ever having played their instruments before. Seven of the members could not read music at all and some of them felt that they were "too old to learn" but some progress has been made and the people of Oviedo as well as the members of the Orchestra feel rather proud of what has been accomplished and hope to have a real orchestra before 1923. The only discouraging feature of Thursday evening's performance was that the Saxophone Band, which had only been organized two months could furnish better music than the Orchestra after five months effort. The music of the Saxophone Band was greatly enjoyed and appreciated by the Oviedo people and the members of the Orchestra. Special numbers on program were cornet solo by Master John Shizard, three Zillophone numbers by Robson and sister and a reading by Miss Carter of Sanford. Mrs. G. S. Brown of Golden Rod, Fla., gave two splendid readings which were appreciated and greatly applauded by the audience while the vocal solo by Mrs. C. L. West of Oviedo was as greatly received. Mrs. West's encore was especially sweet and beautifully rendered and brought forth as much applause as the first number. Owing to the fact that it was the Orchestra's first public appearance and not knowing just what to expect, whether some of the members would faint from stage fright and interrupt the program, only the small admission of thirty-five cents was charged, so very little success attended the performance from a financial standpoint. After the concert light refreshments of cream and cake were served to the performers by the orchestra under the supervision of Mrs. S. W. Swope and Mrs. W. E. Young.

Mr. and Mrs. C. S. Lee and Mr. and Mrs. Vern Sley spent Tuesday in Orlando.
Mr. and Mrs. L. E. Wright, Jr., and little daughter Ruth Gene spent several days last week visiting their parents.
Mrs. W. B. Englett and baby returned last week from a visit to Atlanta, Ga. They were met in Jacksonville by Mr. Englett who accompanied them home.
Mrs. Ruth Young and Virginia Wright and R. R. Wright attended the Christian Endeavor Convention in Lakeland last week.
The annual Missionary program of the Baptist church was given Sunday morning. The program consisted of songs and recitations by the little folks and missionary pageants by the older members of the Sunday School. The program was splendidly gotten up and so well rendered that the directors deserve the many congratulations they received.
spent Saturday with Mrs. V. C. Vol.
On Monday night, May 15th, the Oviedo band was re-organized under the leadership of C. L. Lee with Vern Sley as Director. At the first meeting there were about ten members present, but three or four others have expressed a desire to join since Monday night. The band expects to be ready to play for the annual May picnic which will be held just after school closes.

R. M. W. Sturdivant spent Sunday with relatives in Orlando.
Mr. and Mrs. W. J. Lawton spent Tuesday in Orlando.
Mr. and Mrs. B. F. Wheeler were visitors to Sanford Tuesday.
W. B. Williams spent Sunday with his family in Oviedo.

KNIGHTS TEMPLAR, ATTENTION

On Friday evening, May 19, 1922, Right Eminent Samuel A. Johnson, grand commander of Knights Templar of Florida will constitute Taylor Commandry No. 28 and install its officers. All Sir Knights are requested to assemble at the asylum at 5 o'clock Friday afternoon in full uniform for instruction.
At 6 o'clock the grand commander will arrive and be conducted to the Hotel Montezuma to dinner, after which the ceremonies will begin at the asylum.
All Sir Knights having uniforms, please come in full dress.
H. E. TOLAR,
Eminent Commander.

FLORIDA SECRETARIES MEET IN ST. PETERSBURG

OCALA, May 18.—(Special.)—The third annual convention of the Florida State Commercial Secretaries' Association will be held in St. Petersburg, June 2nd and 3rd. Though it is called a convention, this annual gathering of the secretaries and assistant secretaries of the chambers of commerce and boards of trade of Florida is in reality a school, in which are taken up subjects of importance to the secretaries, their organizations and communities, and to the state at large. Then there is the "Question Box," which is a medium thru which the secretaries may present for consideration some particular problem. This year the presidents of the various commercial organizations in the state are especially invited to attend the sessions of the convention and to take part in all discussions. Assistant secretaries are now eligible for membership in the association and all assistant secretaries are all urged to attend with their wives and best girls.

The St. Petersburg Chamber of Commerce has arranged a most attractive program of entertainment. On Friday, June 2nd, there will be a luncheon with the St. Petersburg Rotary Club, compliments of the Tourist News. There will be a separate luncheon for the ladies on this day. On Saturday afternoon there will be a trip to the beach, a shore dinner at Pass-a-Grille and a dance.

The subjects to be discussed at this year's convention will be "Small Town Chamber of Commerce;" "Financing and Membership;" "Freight Traffic;" "Functions of a County Chamber of Commerce;" "Advertising Without Traceable Results;" "The Florida Development Board—Its purposes and Plans;" "Chamber Efficiency with a Small Staff;" and there will be an exhibit of office forms.

All secretaries, assistant secretaries and presidents, whether members of the association or not, are being urged to attend the convention in St. Petersburg. The most successful and longest in service of the commercial secretaries in Florida are numbered among the members of the association and it is believed that if these men had the organization worth while and profitable, the other secretaries and assistant secretaries will find it worth while also.

Dance at the Montezuma Hotel tonight, 9 o'clock sharp. Admission, \$1.00. 45-11c

SANFORD'S TEMPERATURE

Everything sitting pretty today. Good rain last night, bonds carried yesterday, improvements will start now, peppers will bring more money next week, old buildings going down and new ones going up, interest on deferred payments only ten per cent, sweet potatoes coming in soon, watermelons only \$1.50 apiece, fish are biting—well, there is hardly anything more that could be desired and Sanford is the greatest town in the whole world.

The Ford people of Sanford as well as the Western Union recommend this water for batteries. Call phone 311 and have a bottle of this water sent you and protect your health. Elder Springs Water Co. SANFORD FLORIDA

FIGURES OF SPEECH ANNOY

Imaginative Writer Portrays Indignation Meetings to Protest Against Certain Comparisons. New York—Officers of the United States navy took concerted action today in protest of authors and public speakers who use the expression "spend money like a drunken sailor." Philadelphia—An indignation meeting was held today in Independence hall by the Society for the Protection of Hatmakers, who protested the use by writers and public speakers of the expression "as mad as a hatter." Chicago—The Independent Order of Taxicab Drivers will meet tonight at the Blackstone to protest the indiscriminate use of the characterization "a former member of the James gang now driving a taxi," and similar terms of opprobrium they say have been heaped upon chauffeurs who drive cars for hire. Omaha—The local union of jackrab-bit hunters at a meeting today decided to petition congress for a bill prohibiting writers and public speakers using the simile "as wild as a March hare." They say such language is discouraging to those who hunt such prey. San Antonio—The International League of Cattle Makers went on strike today in protest of several vaudeville comedians who recently used the expression "as funny as a cent" in local playhouses.—Kansan City Star.

WERE SYMBOLS OF CREATION

Among Ancient Egyptians the Beetle Was Believed to Be the Form of the Sun God. A scarab is the representation of the sacred beetle found on Egyptian tombs, coins, monuments, obelisks and works of art. The appearance and rapid multiplication of beetles in the mud left on the subsidence of the Nile gave rise to the belief in their spontaneous generation, and they became the symbol of creation and creative power. In their circular shape and the bright golden tints of their wing cases they were thought to resemble the shape and luster of the sun and thus were taken to be the form in which the sun god appeared. Scarabs were cut in stones and employed as seals and amulets. They were bored through their length so that they could be strung like beads. After the coming of the Egyptian with other races, agnostics and Christians interpreted the meaning of these gods in accordance with their own beliefs. Those of the most ancient period, such as are found on monuments, are inscribed with the names of the kings held in highest veneration, Thutmosis III, Ramesses II and Amenophis III, and frequently with some hieroglyphic symbol. The larger of them have some short religious or historic inscription on their under side.

Makeup of Human Body.

One reason why milk is so excellent a food is that it contains much calcium, which is the principal mineral of the human body, contributing to the makeup of the bones and teeth. A grown person carries in his skeleton about four pounds of it, says an exchange. The body contains about three ounces of sodium, combined with chlorine to form common salt. There are also about two ounces of magnesium, which is a silvery-white metal. Another highly inflammable metal contained in the body is potassium—about two and one-half ounces of it. The body contains about 55 ounces of phosphorus. Seven-eighths of the phosphorus is in the bones (going to form phosphate of lime); half an ounce is in the brain tissue; the rest is in the red corpuscles of the blood. Of sulphur there are about four ounces in the bones and teeth. The body is three-fifths water and one-fifth carbon.

Black Hawk in Boston.

For some years Black Hawk lived quietly on a small reservation near Des Moines. In 1837 the peace-loving Keokuk took him with a party of Sauk and Fox chiefs again to Washington, and on this trip he made a visit to Boston. The officials of the city received the august warrior and his companions in Faneuil hall, and the governor of the commonwealth paid them similar honor at the statehouse. Some wurdances were performed on the Common for the amusement of the populace, and afterward the party was taken to see a performance by Edwin Forrest at the Tremont theater. Here all went well, except that at an exciting point in the play the Indians burst into a warwhoop, to the considerable consternation of the women and children present.—Frederic Austin Ogg.

Intelligence of Elephants.

Elephants are extraordinarily intelligent, even in their wild state, but it is an astonishing fact that with all this intelligence the males will invariably permit the approach of human beings (on the right side of the wind) to within 20 or 30 yards with the utmost unconcern. It is on this account many hunters believe that they are blind to anything at close quarters. This opinion, however, is discounted by the fact that the females, particularly if they are with young, get very curious, and more often than not investigate matters, and if they do, do so with trunk aloft, head and ears back, and a "get-out-of-the-way-I'm-coming" tool which beats anything in the jungle.

Photography of Words.

Devaux-Charbonnel, the French scientist, has photographed the variation of current in a microphonic circuit by the aid of a Blondal oscillograph. The photographs are reproductions of the syllables pronounced by a human voice, and it is expected that they will be of use in the solution of various problems in telephony. In studying the impression made by syllables the experimenter found that each syllable is composed of 30 to 40 complete vibrations. The beginning and the end of the syllables are modified by the impressions of the consonants, but the modifications cover only four or five periods, so that each syllable has 20 to 30 regular vibrations corresponding to its vowel. The method permits the study of the higher harmonics, which give character to words.

Codfish.

Codfish is said to be the world's most important—which means the most eaten—fish. Few fish are more prolific. It has been ascertained that one weighing 75 pounds will contain over 9,000,000 eggs. Perhaps the tarpon is one of them, for it is a large fish with a very fine eye. The cod is practically omnivorous. Baiting means to supply great schools wherever food of any sort is found. It is found in many parts of the world other than the North American "banks" and it is said that it has been fished for by fishermen of northern Europe since the beginning of recorded history and of course for uncountable centuries before man began to make written records.

Cord Tire Facts.

A 30 by 3 1/2 cord tire contains almost 9,000 feet of cord or over a mile and a half. A 35 by 5 has over 30,000 feet of cord or over 5 1/2 miles. The cord, similar to medium-weight fishing line, is made of long fiber cotton, of far better grade than used in ordinary cotton goods. Each cord, insulated in rubber, is separated from the next by a layer of rubber insulating, which gives additional strength. A standard make five-inch cord tire has 20 to 25 cords per inch and a strength in fabric carcass alone in excess of 2,100 pounds to the square inch, irrespective of the strength given by other parts.

Sense of Security.

"I hope some day," remarked Mr. Chuggins, "to give up my flivver and have a private yacht." "Why do you prefer the yacht?" "I can go to bed without being disturbed by the fear that some one is going to steal it out of the garage." "I'm Going Right Straight Back to My Dear Old Florida Home," at Hintermister's Piano Store, Welaka Block, 20-17p

GOVERNMENT
PROTECTION

Our government furnishes protection of many kinds for its
citizens, such as food inspection, disease quarantines, safety
appliances on railroads, storm warnings, etc. But in no
respect does the government give the individual more care-
ful protection than in the laws governing National Banks.
These laws not only provide the fullest measure of protection
for the depositor, but they insure the greatest possible
usefulness on the part of National Banks in facilitating
business.

You receive the benefit of these laws the moment you
become a depositor in this bank.

UPSALA AND
GRAPEVILLE

Mrs. Volle Williams went to Or-
lando Wednesday afternoon.

Norman Swanson came over to see
his mother who has recently had a
severe spell of acute indigestion.

Emil Magnuson was a guest at the
home of his sister, Mrs. J. E. Lund-
quist, coming up from Windermere
with Mr. and Mrs. Fry, and as usual
attended the Sunday school.

Mrs. Pritchard is still suffering
from severe headaches; she tells us a
number of Upsala ladies have called
to see her.

George Fuller, who has been at-
tending college near Nashville, Ten-
nessee, is a guest at present at the
home of Mr. and Mrs. Forrest West.
He is a Canadian by birth, but has
lived in West Florida, though his
parents now reside in Detroit.

Mr. and Mrs. Frances Berquist of
Fort Meade made the trip in their
car and are visiting at the home of
his sister, Mrs. E. W. Lundquist.

Mr. and Mrs. West and family
went to Formosa Sunday and again
on Tuesday, the latter time Mrs.
Ballinger went with them to see
Mrs. V. C. Collier.

Fred Krell and wife and little ones
made the trip in their car Friday
from Arcadia where he has been en-
gaged packing oranges. His family
are with Mr. and Mrs. Tyner, Fred
having gone to Ocala for tomato
packing.

Will Henderson, one of the A. C. L.
shop force who is recuperating from
an attack of influenza is spending
this week with his married daughter
in Port Tampa. His little son, Robert
was ill also and Dr. Tolar was
called out.

Mr. August Swanson attended the
service at the Methodist church in
honor of the Royal Neighbors last
Sunday.

Mr. and Mrs. Noah Fry, Mrs. Beng-
ston and Miss Eunice Tyner came up
Saturday from Windermere to spend
the week-end with Mr. and Mrs. T. O.
Tyner, as Mr. Tyner has not been
at all well.

Most of the family attended the
morning service at the Lutheran
church in the Swedish language.

Mr. Cramer and family as usual
spent Saturday with Mrs. V. C. Col-
lier at the sanitarium at Formosa;
Mr. Thomson again being their
guest.

There was a good attendance at the
evening service led by Rev. Walken-
burg at the Lutheran church which
was in English. He took for his text
"The Two Ways," showing by the
word man's freedom of choice. One
thought he emphasized was "The
danger of forgetting God."

Rev. Walkenburg was a guest at
the home of Mr. and Mrs. Carlson,
near Monroe. At the close of the
service he sang sweetly, "He hideth
my soul in the cleft of the rock,"
others joining in on the chorus.

A number from the west side were
present and Carl Pierson brought out
Mr. and Mrs. Helvorson from San-
ford.

Some of the young folks are plan-
ning on a chicken pillau at Crystal
lake this Wednesday evening.

SIFTS CAUSES OF
UNEMPLOYMENT

National Industrial Conference
Report Says Problem War-
rants Deep Study.

MANY WHO WILL NOT WORK

Factors Entering into Relations Be-
tween Employers and Workers
Emphasized—Average Worker
Loses 42 Days a Year.

New York.—Unemployment is a
continuous industrial problem, suf-
ficient in importance to warrant con-
certed effort by economists and busi-
ness men to remove certain of its
causes, is the stand taken by the na-
tional industrial conference board, in
a report on "The Unemployment Prob-
lem." The report gives a comprehen-
sive survey of the extent of unem-
ployment during normal periods and
during the present business depres-
sion, discusses the causes and analyzes
remedies suggested.

The object of this study is to set
forth fundamental principles to be tak-
en into account in considering the
problem, derived from analysis of data
and experience, and from basic eco-
nomic considerations, in order to pro-
vide a guide by which employers or
organizations may approach their un-
employment problems more intelli-
gently.

"The report," says a statement from
the board, "makes a careful distinc-
tion between idleness and unemploy-
ment, which refer to very different
causes. Idleness proceeds from three
principal sources: Unwillingness to
work on the part of those who are
capable of performing work; disabili-
ty, physical or mental, of otherwise
willing workers, and lastly, unemploy-
ment of those who are capable and
willing to work, but cannot find work
because of industrial maladjustments
within the plant or industry, or be-
cause of general economic conditions
at home or abroad.

Causes of Unemployment.

The statement then takes up the
causes of unemployment. They fall
into two classes, described in the
report as follows:

1. Internal causes arising from con-
ditions within individual manufactur-
ing plants. These embrace:

- (a) Personal factors such as strikes
and lockouts, and disability;
- (b) Impersonal factors relating either to
failures of management, resulting in
faulty factory organization, too high
production costs within the control of
management, ineffective sales methods,
lack of materials and equipment, high
labor turnover, or to failure of em-
ployees because of inefficiency, or to
the displacement of hand labor by
machinery.

In the aggregate these causes pro-
duce a more or less continuous per-
centage of unemployment from month
to month and from year to year.

2. External causes due to influences
operating outside of the plant. These
are:

- (a) Of economic origin, resulting
from seasonal variations, business de-
pressions, wasteful systems of com-
modity distribution, deficient labor-
placement facilities; (b) of political
origin, due to immigration and tariff
policies and international relation-
ships.

"It is estimated," the statement says,
"that in 1920 the total number of per-
sons engaged in gainful occupations in
the United States was about 41,000,000.
Most of the available employ-
ment statistics pertain to wage-earners
in the groups of manufacturing and
mechanical industries, which numbered,
in 1920, about 12,800,000. During normal
times, it is estimated that about
1,800,000 of these are out of work,
since, on the average, about 42 days
per year, or about 14 per cent of his
total working time, is lost by each in-
dustrial wage-earner. About seven
days of this lost time is due to sick-
ness. Deducting this, the total loss
caused by unemployment of the aver-
age wage-earner in the United States
is about 35 days a year. This does not
include loss from part-time employ-
ment, for which no reliable figures are
to be had.

Days of Unemployment.

"The average of 35 days does not
apply to every industry, for the work-
ers in many industries are subject to
longer periods of unemployment, while
in others the average is low.

The report estimates that more than
one-quarter of the industrial wage-
earners were out of work on June 1,
1921, representing an estimated total
of 3,500,000 persons.

Many concerns, the report says, are
inventing means to better arrange-
ments within their plants affecting the
cause of unemployment attributed to
personal and impersonal factors within
the establishment. Better methods and
more thorough organization to reduce
friction and to develop industrial co-
operation between employers and em-
ployees are being tested in many in-
dustries. The report points out that
in attempting to remedy the causes of
unemployment attributed to influences
operating outside the plant, there is
need for more adequate system of col-
lecting and disseminating information
showing the trend of prices, the actual
cost of operation and revenues from
industry. "Such a system," it is said,
"will afford a reliable basis of com-
parison within plants at different times
and between individual plants in the
industry as a whole."

WAKE UP PALATKA!

Sanford has just voted a \$625,000 bond issue for municipal improvements. There were only fifty-three votes against the bonds, and over 400 voted for them. Most of this money will be used for paying some of it for a new city hall and a good portion for extending Park avenue into Lake Monroe and construction of a municipal dock. Sanford is coming. More than a year ago we predicted that with its natural resources it could be expected within a very few years to be equal in size to Orlando and as a business center has every advantage with its water transportation and splendid agricultural areas. Sanford is awake. Somebody please shake us.—Palatka News.

Palatka is awake or should be awake if the people will back up Goode Guerry and his Palatka News and Palatka's live Chamber of Commerce. There are more potential possibilities in Palatka than any other city in Florida and no reason in the world why they should not be pushing with Sanford and Orlando and other cities for deeper water in the St. Johns river that would mean so much to Palatka as well as the rest of the St. Johns river towns. The main trouble with Palatka seems to be that they were satisfied with what they already have and believed for years that they could live within themselves. It can't be done, friends. It has never been done yet. It is cooperation of the entire state that is needed to put over the big projects for Florida.

SERVING FLORIDA PRODUCTS.

There are various ways of advertising Florida fruits and vegetables. One restaurant man in Tampa had the right idea about introducing Florida grapefruit this season and he served them free in his restaurant. The Florida Citrus Exchange wanted to extend the markets for grapefruit and sent them to England by the ship load, sent demonstrating agents over there, put the grapefruit in the restaurants and fruit stands, gave them away on demonstration days, told of the healthful properties of grapefruit with the result that next season all England will be eating Florida grapefruit. With the vast amount of fruits and vegetables in Florida we can afford to be generous with them and see that the visitors to the state have them on the table in season even if it is necessary to give them away.

The Union News Co., have the station restaurant here in Sanford and had the proper advertising spirit this winter when they served Sanford celery and lettuce free at meals. Many hundreds of visitors to the state stopping off here for meals saw Sanford products and ate them probably because they were served without cost and they will remember the brand and eat them again at other places where they have to pay for them. It might pay the Chamber of Commerce to have celery hearts at the station next winter for visitors in order to advertise

THE HEINZ MAN

will demonstrate the 57 famous varieties at—

DEANE TURNER'S GROCERY

Saturday

9:00 to 5:00

Sanford celery not to advertise Sanford or sell celery lands but to get the people in the habit of eating Sanford products and calling for them in their home markets.

There are various ways of advertising the fruits and vegetables of Florida and if all the hotels and restaurants could give away our products or at least place them on the table at very reasonable prices and let their tourist guests know they were Sanford products it would help the growers immeasurably and it would pay the growers to co-operate in this respect and give away a crate of vegetables now and then to the restaurants for advertising purposes. There are plenty of people in the United States that know nothing about Sanford products but they would know more about them if they were given the opportunity of tasting them fresh from the fields during the season and especially if these products could be served free. It has always been a mystery not only to the visitors to the state but the home people as well just why the products of a certain section should be scarcer and higher in price at the particular section in which they are raised than other places. The kind of advertising stunt pulled by the Union News Co., in this city is one of the best ways in which the visitors are not only impressed by the products but by the city that believes in advertising.

THE FLORIDA MAGAZINE.

We have just received the May number of the Florida Magazine and it is one of the finest works of art that has been turned out in Florida in many a day. The cover is all that could be desired for a real Florida magazine showing a walk through the wonderful Royal Palms and in the corner a dash of vivid red of one of Florida's celebrated blossoms that have made the state famous in the winter. With the blue sky and the verdant green of the grassy lawn on the sides the cover is typical of the land of flowers. In fact the cover of the Florida Magazine has at last brought out the real Florida—the first magazine that has attempted to reproduce the rich colorings made by Dame Nature for the benefit of Florida people and her visitors. The May number is filled with good reading matter, stories, descriptive matter of the right sort and all compiled into a beautiful book that is bound to attract attention wherever it goes. We congratulate the Florida Magazine. At last we have a magazine of the state true to name and we hope for the publishers all the success that they can attain and this should be a full measure.

EQUALIZATION OF TAXES IS NOT A POSSIBILITY.

No doubt the next legislature will be asked to abolish the office of tax equalizer. The most optimistic advocate of the system which has been tried out can not hope for its survival. Florida is a state of such diversified industries and such wide ranges of values, and with such fluctuating local conditions that Mr. Dawson had no chance to carry out the purposes for which his office was created with any degree of success or satisfaction.

The trouble is not with Mr. Dawson. We do not believe a better man could have been secured to attempt the work assigned to him, and to give to it the most careful thought and study, and apply the sincerest endeavors to the execution of the provisions of the law. But Mr. Dawson, nor any other man, can eliminate selfishness, jealousy or the natural opposition to paying tax of any kind. One county was afraid it would pay to the state more than its just proportion, and no man could fix the basis of payment satisfactorily. Where this element of uncertainty existed, agreement was impossible.

But the failure of the system brings us a step nearer to that system of securing the state revenue which we believe will ultimately prevail here. It means, we believe, that each county will be left to fix its own valuations on realty and personal property, and that its contribution to the state revenue will be through licenses alone. This is the fairest method, and has proven workable in many states. It makes it possible for counties to assess at full value, gives the state the credit of its actual wealth based on tax assessments, permits of proper income for schools and other county needs and eliminates the jockeying to keep down valuations and consequent running up the millage.

Several attempts have been made to get a plan started for passage of an act making radical change in the state's taxation system, and it may be that the next legislature will develop sufficient interest in the matter to make these changes.—Palatka News.

BUILDING BETTER ROADS.

Mankind has been using highways since the dawn of civilization, and it would be reasonable to suppose that by this time the art of road building had reached perfection. Two thous-

and years ago the Romans were constructing highways so excellent that some are still being used. Until recently few roads had been built which were better. The invention of new paving materials had made improvement possible, but even the best roads today fall far short of being all they could be desired. There is a long way to go before perfection will be attained.

These thoughts are prompted by a Washington dispatch telling of a new device which is being utilized by the bureau of roads in the United States department of agriculture to discover what thickness of roadbed should be constructed for heavy or light traffic on various kinds of soil. The device indicates how the burden of traffic is distributed through the roadbed to the soil on which it rests and gives road-makers a guide to the kind of construction which is best adapted to varying kinds of sub-surfaces.

Automobiles and particularly motor trucks are responsible for the keenness of the interest now taken in road building and for the efforts which are being made to improve highway construction. These vehicles present problems with which it was not necessary to cope prior to the invention of the automobile. The heavy trucks put a strain on highways to which they were never previously subjected.

The problem will be solved and a new type of road suited to heavy automobile traffic evolved. Just as it was some years after the invention of railroads before rails of the weight now used and the standard gauge track were adopted it may be years before a highway perfectly adapted to automobile traffic will be established. But steady progress is being made. Every year sees an addition made to the knowledge of what is required.—DeLand News.

THIS AIREDALE REAL FRIEND

Dog, Allowed Liberty, Brings Dainties to Hound Which is Confined to Its Kennel.

Kind heartedness that might well serve as an example for human kind is displayed by "Pat" an Airedale pup of Point Pleasant, W. Va., says a correspondent, the object of its fine feeling being a hound owned by Bert Shifflet. The story of the four-footed pet's benevolence is attested by members of both families, who are neighbors. Shifflet keeps his hound, "Jack," tied in the back yard. Thomas Airedale, however, has the untrammeled liberty of a freeborn American dog and makes the most of it. He is a good forger and knows the location and probable yield of every garbage can in the neighborhood. Mrs. Shifflet feeds Jack generously, and not infrequently the menu contains an appetizing bone, but she did not give Jack all the bones that accumulated beside his kennel. All became clear the other day when Mrs. Shifflet saw the Airedale approach Jack's kennel with a big soupbone in his mouth, set it down in front of his tethered friend, wag his tail cheerfully, bark a message of good cheer, dance playfully about for a moment and then dash off for some new adventure. A watch kept on the Airedale showed that trips were made to the hound's quarters every day. Sometimes instead of a bone the offering was a bit of meat or some other dainty.

OLD MINE STILL PRODUCING

That at Falun, Sweden, Has Been Delivering Up Its Riches Since the Year 1225.

On the outskirts of the town of Falun, in the north of Sweden, is the oldest mine in the world. It began to produce copper in 1225.

In the Seventeenth century this mine was the chief source of the copper supply of Europe. Today it no longer produces copper in large quantities, but from its deep-cut galleries come the sulphur pyrites that are used for the manufacture of sulphuric acid and other chemicals.

It is one of the most old-fashioned mines imaginable. You will find no rapid hauling machinery, no cage that descends at lightning speed into the bowels of the earth. You walk into the mine through sloping galleries, and then climb down to its depths by means of long ladders. As you descend you wish that you had brought an overcoat, for the walls are covered with ice. Ventilation and drainage are accomplished by means of the most antiquated pumping gear in existence in any pit.

Besides copper and pyrites, the Falun mine produces gold. From it came all the gold used to make the Swedish crown and scepter, and it has provided most of the metal for the gold coinage of that country.

GET A COPY OF "SALLY"

Only 76 out of 40 copies of Salmandundi are left. If you are planning on getting one do not delay as you may get left. The books are selling fast and the public seems very well pleased. Don't read the other fellow's, but one of your own. We feel confident that you will not regret it.

Leave your order for Stone's Layer Cake for delivery Saturday. L. P. McCuller. 42-6tc

Daily Fashion Hint

PRACTICAL STYLES FOR YOUTHFUL FIGURES

The little morning frock to the left is fashioned of check voile, trimmed with plain satin. The front of the waist is cut on the bias and applied with a trimming of buttons. Blanket-stitch embroidery finishes the round collar and cuffless sleeves. Medium size requires 3 1/2 yards 36-inch check and 1/2 yard 36-inch plain material.

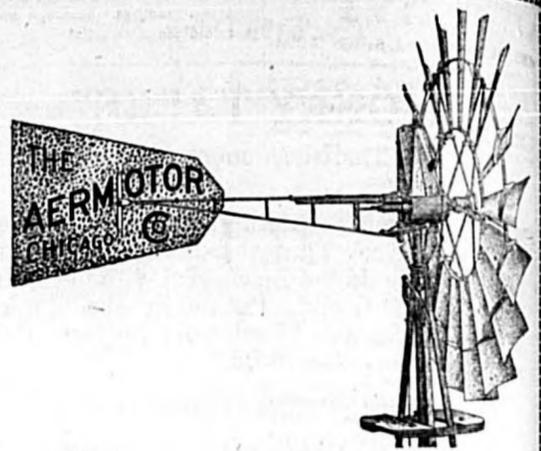

Any of the inexpensive silk-and-wool mixtures may be used for the second dress, designed for misses and small women. The skirt is trimmed with silk braid, which is used also to finish the round collar. The sides are slashed below the waist-line, the lower edges being gathered and sewn to the upper edges. The belt is of fancy leather. Medium size requires 3 1/2 yards 36-inch material and 9 yards of braid.

First Model: Pictorial Review Dress No. 9571. Sizes, 34 to 44 inches bust and 16 to 20 years. Price, 35 cents. Second Design: Dress No. 9572. Sizes, 14 to 20 years. Price, 35 cents.

We want to ask every loyal citizen of Sanford that can possibly spare bed rooms May 26th and 27th to please notify Sanford Shrine Club or phone 104. It will be necessary to list your rooms early. 42-5tc

ALL DAY MEETING.

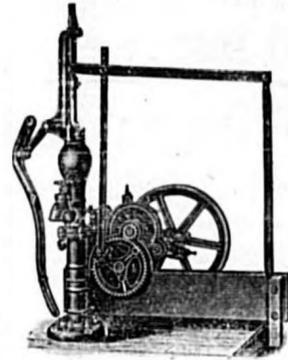

There will be an all-day meeting of the League of Women's Voters and the County Federation of Women's Clubs Thursday, May 25, beginning at 9 a. m., at the Woman's Club. A picnic unch will be served.

If you have any friends visiting you or if you are going anywhere or coming home, or if you are entertaining, write a card to this department, giving details, or telephone the item. It will be greatly appreciated.

CALENDAR

Friday—Mrs. W. C. Hill will entertain the members of the Lucky Thirteen Bridge Club and one extra table honoring Mrs. Walter Wight.

Friday—"Old Plantation" given by the members of the Westminster Club at the Parish House.

Friday—"The Return of Miles O'Rourke" given at the K. C. Hall on Oak avenue, at 8:15 P. M. under the auspices of the Catholic ladies.

Monday—Mrs. Porter Wakefield will entertain the members of the Business and Professional Women's Club with a garden party at her home in Geneva, at 7:30 p. m.

Monday—Mrs. R. W. Pearman will entertain the members of the St. Agnes Guild at her home on West First street, at 3:30 p. m.

Mrs. G. C. Goddard of Lakeland, and Mrs. I. E. Rogers, of Savannah, Ga., who have been the guests of their sister, Mrs. Alfred Lilja returned to their homes yesterday afternoon.

The S. H. S. Alumni banquet will be given at the Valdez at 8:30 Wednesday night, May 31st. All graduates, former teachers of S. H. S. and present and former school board members who desire to have reservations made for them for this banquet kindly notify the secretary at once.—Z. C. Davison, Cor. Sec.

Sanford is again honored with two state officers for the K. of C. Clarence V. Mahoney was elected secretary at the convention which was held this week at St. Petersburg and Charles L. Britt was re-elected treasurer. The K. C. convention will be held next year at Jacksonville.

NEWTON-LAVINKA

A wedding of much interest to the many friends of this popular young couple was that of Mrs. Pearl La Vinka and Mr. Carlyle Newton which was solemnized yesterday afternoon in DeLand, Rev. Lawrence Radcliffe, pastor of the Methodist church officiating.

The bride is formerly from Daytona and is a young woman of charming personality. Mr. Newton is a brother of J. L. Newton, of the Herald, and holds a responsible position with the National Supply Co., of Waycross, Ga. Mr. and Mrs. Newton are spending a few days here before going to Waycross. Their many friends wish them every future happiness.

PURVIS-LONG

Miss Virginia Long and Wm. Purvis were married in Tampa on Wednesday, May 17th and at present are guests of Mr. Purvis' parents, Dr. and Mrs. James Purvis, in Tampa. Mrs. Purvis is the eldest daughter of Mr. and Mrs. Ross C. Long and has been a very popular east side girl. She has been bookkeeper in the Caldwell store for the past year. Mr. Purvis is the youngest son of his parents and was in the navy during the world war and since has been in the merchant marine service. They have the best wishes of a host of friends for their future happiness.

SOCIAL SERVICE DEPARTMENT

Mrs. W. S. Thornton delightfully entertained the Social Service Department of the Methodist Missionary Society on Tuesday afternoon with a porch party. Those receiving with Mrs. Thornton were Mesdames Eldridge, Smale and Higgins. The devotional exercises were conducted by the president, Mrs. Kelly. Topics of study for the day being "South American Missions." Papers read by Mrs. Chappell, Mrs. Wells and Mrs. Phil-

TONIGHT AT 8:15

"THE RETURN OF MILES O'ROURKE"

An original play by Rev. J. A. Hennesey, Sanford

Given under the auspices of ALL SOULS DRAMATIC CLUB

Mesdames O. P. Herndon, Ira W. Jones, June Roumillat and Charles Wood.

Messrs. Moses Jackson, Clarence V. Mahoney, Thomas J. A. Reidy, J. Schirard, Sr., E. W. Stiles, Larry Stone, Matthew Tarbell, Jr., and Martin Temple.

Prices: Adults, 75; Children, 25c

ips were interesting and instructive. Little Miss Koons of the 6th grade gave two readings. Although only 10 years old she is an artist.

"Smile Through Your Tears" was sung by Mrs. Claude Herndon in her usual pleasing way.

Punch was served during the afternoon and at the conclusion of the program. Ice cream and cake were served. There were 40 ladies present, all thoroughly enjoyed the genuine welcome and hospitality accorded them by Mrs. Thornton and her assistants.—Reporter.

EVENING BRIDGE

Wednesday evening, Mr. and Mrs. F. E. Roumillat entertained the members of the Evening Bridge Club most delightfully at their attractive home on Palmetto ave. There being three tables of players.

Of exceptional interest was the game of bridge played during the evening, the prize for high score among the ladies a rag rag, was won by Mrs. S. Puleston, while the men's prize, silk socks, were won by Dr. Ralph Stevens.

At the conclusion of the card game, a delicious ice course was served.

Those enjoying the cordial hospitality of Mr. and Mrs. Roumillat were Dr. and Mrs. S. Puleston, Mr. and Mrs. R. A. Newman, Judge and Mrs. E. F. Housholder, Mr. and Mrs. D. L. Thrasher, Col. and Mrs. George W. Knight, Mrs. George DeCottes and Dr. Ralph Stevens.

IDLERS BRIDGE CLUB

Mrs. Harry Herren was the gracious hostess yesterday when she entertained at bridge at her home on East Second street, the guests including the members of the Idlers Bridge Club and one extra table.

After several absorbing games of bridge, scores were counted and the prize for high score was awarded to Mrs. A. W. Fitts.

Dainty refreshments consisting of ice cream and cake were served at the conclusion of the game.

Besides the club members, Mrs. Herren's guests were Mrs. A. W. Fitts, Mrs. Walter Wight, Mrs. Percy Mero and Mrs. Sanford Doudney.

G. I. A. BANQUET

The ladies of the G. I. A. entertained their husbands and the ladies of the Lakeland chapter G. I. A., at a banquet, Wednesday evening at the Masonic Hall.

Pink and white oleander and quantities of palms and ferns were artistically used in decorating the hall. The banquet tables were also decorated with oleander, carnations and graceful sprays of asparagus fern.

Mrs. Fannie McConnell, president of the local chapter, in a few well chosen words welcomed the guests. Several toasts were made during the evening, among them being Mrs. Al Lilja, who gave a toast to the visiting chapter, Mrs. Holcom responding. Mrs. Barber gave a toast to the chief of the local B. of L. E., and Mr. Shelly responded.

At the conclusion of the banquet the guests assembled in the Masonic Hall for the program, which included a group of songs by twelve ladies in uniform dress, they later gave a fancy drill under the able leadership of Mrs. J. E. Coulter and Mrs. Tyre.

Mary Elizabeth Moye delighted the guests with a group of piano solos, and two lovely dances were also enjoyed. The first being a Japanese dance by Julia Higgins, Katherine Meisch, R. E. Griffin and Ellen Telford. The second being "Youth and Beauty" by Ellen Telford and R. E. Griffin. Music was furnished throughout the evening by Mrs. Turner Houser and Al Witherington.

About one hundred guests enjoyed this delightful event. Those attending from out of town were Mrs. Fullerton, Mrs. Cone, Mr. and Mrs. Mims, Mrs. Holcom, Mrs. Tolson, Mrs. G. C. Goddard of Lakeland and Mrs. I. E. Rogers of Savannah, Ga.

VESSELS DRIVEN ASHORE BY EASTERN GALE NEAR NEW YORK

(By The Associated Press) NEW YORK, May 19.—Driven by a vivacious eastern gale, two government vessels, Eagle Boat number 17 and army steamer General John W. Wilkins, went ashore on Long Island early today and reported breaking up. The Eagle was recently attached to the prohibition navy. Crews of both vessels landed safely.

FOUR MEN KILLED IN IRISH RIOTS DRAGGED FROM BEDS

(By The Associated Press) BELFAST, May 19.—Four men, all Catholics, were dragged from their beds at Desert Martin, county Derby, early today and murdered. Half of village burned.

WARNED BY PHONE

Telephone Transmitters Give Alarm of Breaking Dam.

Disaster May Be Averted by Spoken Word That Travels Faster Than the Flood.

Terrible disasters have been caused by the irresistible swirl of rushing floods, in which unsuspecting persons were caught without warning. In one instance, years ago, a gay party on a four-horse trolley was enthusiastically exploring the wonders and beauties of Turkey Creek canon, near Golden, Colo. Gathering rainclouds failed to cast a shadow upon their high spirits, and no serious thought was given to danger from the rapidly approaching storm, because the tourists were not familiar with the characteristics of the local tempests, nor with the topography of the surrounding country.

The storm suddenly burst with great fury upon the unprepared pleasure seekers and the deluge of water caused them quickly to abandon the trolley and hunt for shelter. Closely huddled against the towering sides of the canon, they soon realized, with anxiety, that they had not reckoned with the forces of nature. The terrific rush of water down the canon sides swept them from their feet, and down to the bed of the canon, where a torrent of water now raged. Despite their struggles, many of the party lost their lives, and those surviving were seriously injured.

Another instance was the great flood at Johnstown, Pa., and the more recent was the disastrous flood at Pueblo, Colo., where the toll of lives and property damage, reached enormous proportions.

As a protection against such terrible events as these, a system of huge telephone transmitters and amplifiers has been produced which will throw the human voice a distance of four miles. Extensive tests have been made with this apparatus, which have proved the practicability and success of the endeavor. These tests were conducted in the Catskill mountains by a specially trained group of operators. A tower, thirty feet high, was erected to hold the gigantic amplifiers and the immense projectors which measured fifteen feet in length and four feet in height.

To determine just how far the human voice could be heard with these aids, was accomplished in rather a weird manner, because the time selected was at night. Four men took up previously agreed-upon stations, at distances of one, two, three, and four miles from the tower. As the time drew near for the experiments, the four men applied matches to specially prepared torches, which gave large flaring flames.

Meanwhile at the tower were gathered a party of men chosen to observe the tests, and who interestedly watched the tiny flickering torches in the distance. When the "zero hour" or time set for tests, arrived, the operator at the tower took his place before the transmitter of the apparatus, and in a natural tone of voice, ordered the far-off men to wave their torches.

Breathlessly the watchers at the tower peered through the tiny blackness at the flickering points of fire, and the nearest torch was seen to describe vigorous circles in the air. Exclamations of satisfaction came from the watchers, which rose to a shout, as the second, then the third, and finally the fourth torch was seen to dip and wave wildly in the darkness, thus showing plainly that all the men had heard the command. The operator at the transmitter then spoke to the men again, in reply to their ready signals, and bade them wait for further instructions.—H. A. Lane in Popular Mechanics Magazine.

\$100,000,000 for Toys.

The people of the United States spent more than \$100,000,000 for toys and games during 1921. The National City bank announces that the factory value of toys manufactured here more than tripled when the war cut us off from Germany, formerly the chief source of our toy imports. In 1919 the value of toys made here was \$40,000,000 as against \$14,000,000 in 1914.

Toy imports fell from \$80,000,000 in the year before the war to \$1,000,000 in 1918. In 1920 imports rose to \$6,000,000, and this year to \$10,000,000. Capital engaged in the industry here advanced from \$10,000,000 in 1914 to \$25,000,000 in 1919. Exports of American toys advanced from less than \$1,000,000 in the year before the war to \$4,000,000 in 1920.—New York Sun.

ITCHING ECZEMA DRIED RIGHT UP WITH SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment and disfigurement. Sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.—Adv.

Caterpillar Parade.

One day over in France a soldier noticed a cord of soft brown chentille striped with red in the white road. He writes about it in the Christian Science Monitor. "I stopped to examine it, attracted by the color," he continues, "and found a living line of velvety caterpillars. There were fifty-two of them. Head to tail in a curving row they were all moving in one direction downhill.

"A cart passed by. The vibrations made by the wheels broke the line up into tiny zig-zags. Each caterpillar lost touch with his neighbor and moved aside in slantwise fashion. Quickly, however, they rejoined and took up their forward journey." The onlooker inquired, and was told that the march of the caterpillars was a common thing in France. "They build their nests in the pines, and when they have need of a new feeding ground they all move down the trees and march away."

Deadly Carbon Monoxide.

Warning against the deadly carbon monoxide gas, which is the most widely distributed and most frequent cause of industrial accidents and deaths in dwellings, has been issued by the federal bureau of mines.

This gas is a product of incomplete combustion. Because it is without color, odor or taste its presence is frequently unsuspected. It may be found in buildings having a leaky furnace or chimney and in buildings where a gas stove has improper flue connection, such as is often found in tenements, tailor shops and boarding houses. This gas is formed in stoker rooms, in refineries, cement and brick plants, mines and tunnels. The exhaust from gasoline motors usually contains 5 to 7 per cent carbon monoxide and sometimes 13 per cent. Deaths from running an automobile engine in a closed garage are not infrequent.

DID HIM MORE GOOD

Many men and women suffer from backache, rheumatic pains, stiff joints, sore muscles and other results of kidney trouble because they neglected the first warning symptoms. Foley Kidney Pills aid the kidneys to throw out poisonous waste matter that causes pain and misery. Stephen Lewis, Eldridge, Ky., writes: "Foley Kidney Pills did me more good than all the other medicine I ever took. I had kidney trouble ten years. I don't have any pain like I had before I took them." Sold everywhere.—Adv.

HILL HARDWARE COMPANY

EAST SANFORD

Dame Rumor says four June brides for the east side, the only announcement so far is of the coming marriage of Miss Ruby Hart and Herman Middleton, which will take place June 17.

Mrs. Ben Monroe, who has been very ill at the Fernald-Laughton hospital for the past two weeks, will be at home again soon, we are pleased to say.

Mr. and Mrs. Toyama drove to Daytona Beach Sunday to visit friends in their new Oakland touring car.

Mrs. Christ Bucurel was giving a delightful surprise Mothers' Day. Mrs. Nick Zernovean arranged the entertainment, a large quantity of ice cream and cakes were prepared and seventeen children and eight grown-up enjoyed the feast at the Bucurel home.

Mr. and Mrs. Henry Ferguson have sold their house and five acre farm on Richmond avenue to Mr. and Mrs. Perry Anthony. Mr. Anthony has been foreman for H. R. Stevens for the past year. The Ferguson's came here from Parkton, N. C., about two years ago and will return there next week.

The Ferguson young people, six in number, were given a delightful farewell party Tuesday evening. All of the young people hereabouts were in attendance.

A. Corpany is driving a fine young team of mules bought of Charles King who brought a car load of mules here recently from Missouri.

The Southern Utilities Company are erecting electric light poles on Celery avenue extending to the St. Johns river, the electric light service will soon be ready for the people living along the avenue at \$2 per month. Lights will be furnished to each residence. Beardall avenue will be the next street to be served.

The roads about Cameron City are county roads, laid out by the county commissioners and surveyed by county surveyors. Noticed in a Sanford Herald editorial the other day a doubt mentioned to the effect that they were not county roads.

The several Humphrey families and a large party of their friends, had an all day picnic near Myers fish camp on Wednesday. A round-up of the Humphrey horses that are pastured at the head of Lake Jessup took place, the family are dividing their stock into ten different portions with all stock to be rebranded and numbered according to which member of the family they belong to. Some job, as the Humphrey family are about the largest stock owners in Seminole county.

It will not be many years that there will be any wood land left in the truck land section of East Sanford. At the present time land on Richmond avenue is being cleared on the A. B. Cameron, R. L. Garrison and John Peters places on Cameron road. Joe Cameron, C. F. Williams, W. W. Miller, Fred Walsma and Charles Dunn are clearing and Nick Zernovean has just finished clearing his Beardall avenue land and L. Roze is clearing and J. C. Ellsworth will begin more clearing at once. It had come to the place where more land had to be cleared if the farming section continued to grow as every available bit of land was under cultivation this season. We had another fine little rain here Wednesday night, which is thankfully appreciated.

TRAIN SCHEDULE

CORRECTED TO NOV. 16, 1921

Table with columns for Southbound, Northbound, and Triby Branch, listing train numbers, arrival, and departure times.

SANFORD MEN ELECTED TO OFFICE AT K. OF C. MEETING

ST. PETERSBURG, May 18.—C. R. Rogero was re-elected state deputy of the Knights of Columbus for the coming year at the closing session of the state convention here yesterday and Jacksonville was selected as the 1923 meeting place. The other officers of the order are as follows:

Clarence Mahoney, Sanford, state secretary; C. L. Britt, Sanford, state treasurer; George C. Hoffman, Pensacola, state advocate; Harry L. Rung, Jacksonville, state warden.

Delegates to the supreme convention to be held in Atlantic City, in August, are C. R. Rogero, St. Augustine, and H. P. Baya, Tampa, and alternates George Hoffman, Pensacola, and C. Roy Munde, Jacksonville. The convention came to a close at noon and the entire delegation left for an automobile ride at Pass-a-Grille. The dance last night wound up the convention.

NOTICE TO CONTRACTORS

Bids on painting the nurses' home of the Fernald-Lawton Hospital will be received on or before ten o'clock

Saturday morning, May 20, 1922. Bids should be made for labor and materials combined and separately. Each bid must be accompanied by a check for \$10.00. The committee reserves the right to reject any or all bids.

T. W. LAWTON, President Hospital Association. Office in Courthouse. 40-6tp

MR. W. A. MacWILLIAMS CANDIDATE FOR CONGRESS HAS ISSUED THE FOLLOWING SEATEMENT

- 1. I am not the candidate of any class, faction nor special interests. 2. I stand for liberal appropriations for Education, realizing if our country is to endure, its citizens must be informed of the basic principals of our Government. 3. The National Road Laws should be amended to bring about the changes of specifications for road building in the State in accordance with our local and climatic conditions, thereby giving us greater benefits from Government aid. 4. I am in favor of the Govern-

ment turning over to Henry Ford Muscle Shoals, to the end that the farmers may secure cheaper fertilizers.

5. I believe in a country which produces more than it consumes, a high protective tariff is economically unwise, but if the consumers of the Fourth District are compelled to pay a high protective price for the articles of production should be protected.

6. I believe the Government should generously meet its full duty to our ex-service men. For once let history show Republics are grateful.

7. I am in favor of the present limitation on immigration, but would favor an absolute bar for a specified number of years.

8. Florida's greatest problem for further development is transportation and improvement of inland waterways. I cannot promise to obtain all the Fourth District needs and desires at the hands of the General Government, but I do promise untiring, attentive and energetic efforts in that behalf.

9. I believe changes in the Federal Reserve Bank Act should be made, it never was intended that the Government should exploit the borrow-

ing public in the sum of over one hundred millions a year, and this after the paying of exorbitantly high salaries and bonuses to its officers and employees, and all this against the small banks and in the interests of the large Banks in the money centers of our country.

10. I believe the present laws for reforestation should be enlarged and made more effective.

11. I believe in economy in handling Governmental affairs, there exists undue extravagance at present. The Government has no right to take any more money from the people than is necessary to economically administer the Government.

Geese Are Attracted by City and Captured

Lemoore, Cal.—Attracted by the street lights shining through the dense fog, thousands of wild geese took refuge on the city streets, their cries keeping residents awake the greater part of the night. Street cleaners ran home for guns and killed a number of the birds. People living in the downtown district said hundreds of the birds were sitting on the pavements while the air was alive with them. Late merry-makers added hunting to their sport.

FIRST GERMAN SKYSCRAPER

City of Hamburg to Have 16-Story Building—More Expected to Follow.

Hamburg, Germany.—The first skyscraper in Germany will soon be constructed in the old business section of Hamburg. It will be sixteen stories high, topping the highest building in Germany at this time by five stories.

Architects believe the construction of this building will institute the era of skyscrapers in Germany, and expect to see a number of similar buildings go up within the next few years. Unusual difficulties must be overcome. The city water plant is equipped to furnish water to the eleventh story, and this brought up the question of fire danger and insurance, as well as the probability of financial loss in view of difficulties in renting offices on the five higher floors.

Despite these difficulties the promoters have secured permission to erect the structure, "provided the building does not destroy the architectural symmetry" of the streets.

TAKING BABY FOR AIRING

A typical Indian servant girl carrying her young charge in the popular Indian fashion, the baby carriage being still unknown in La Paz, Bolivia.

INDIAN TERROR NOW TAMED

Woman Now Greets "Agency People" With Kiss Instead of Tomahawk—Wants Auto.

Eufala, Okla. — Civilization gets them all; the old wild reservation Indians are fast passing.

One of the last of the old regime has just shown the devastating effects of the white man's habits.

Ellen Perryman, full-blood Creek woman, who was one of the principal leaders of the Creeks, has conferred with Indian agency officials at Muskogee in regard to the purchase of a "fiver."

She has now lost all of her animosity toward the "agency people," against whom she fought so fiercely. Instead of greeting them with a tomahawk, as she did in the days of the rebellion, she recently planted a resounding kiss on the cheeks of several of them—much to their embarrassment—and her husband, who accompanied her, seemed not to mind this caprice of his spouse in the least.

Ellen now lives on a farm in McIntosh county, and is contented and peaceful, it is said.

HARVARD ENTRANTS ARE FIT

Examinations This Year Show Young Men Are Remarkably Free From Bodily Ills.

Cambridge, Mass.—Young men entering Harvard this year were remarkably free from serious physical defects. Dr. Rogers I. Lee, professor of hygiene, found in examination, it was announced recently, less than 1 per cent of the men examined were found to have neglected teeth, poor eyesight or enlarged, diseased tonsils.

Dr. Lee attributed the freedom from physical defects to the thoroughness of the physical examinations of the schools, and to the intelligent interest of the lily in matters that concern the health of their children.

About 48 per cent of the freshmen and 64 per cent of the men entering the business school said they smoked.

HOUR OF TERROR IN RUSSIA

When Women Wait for the Call of Death From the Drearly Calls In Petrograd.

The dingy interior of the headquarters of the extraordinary commission in Petrograd, with its bare stairs and passages, is an eerie place at all times of the year, but never is its somber, sorrow-laden gloom so intense as on a December afternoon when dusk is sinking into darkness.

While we made our preparations, there sat in one of the inner chambers at No. 2 Gorohovaya, on wooden planks which took the place of bedsteads, a group of women, from thirty to forty in number, their faces undistinguishable in the growing darkness. The room was overheated and nauseatingly stuffy, but the patient figures paid no heed, nor appeared to care whether it were hot or cold, dark or light. A few chatted in undertones, but most of them sat motionless and silent, waiting, endlessly waiting.

The terror hour was not yet—it came only at 7 each evening. Then each victim knew that if the heavy door was opened and her name called, she would pass out into eternity, for executions were carried out in the evening and the bodies removed at night.

At 7 o'clock, all talk, all action ceased. The white-faced women sat still, eyes fixed on the heavy folding door. When it creaked every figure became rigid. A moment of glacially intolerable suspense, a silence that could be felt, and in the silence—a name. And when the name was spoken, every figure—but one—would imperceptibly relax. Here and there a lip would twitch, here and there a smile would flicker. But no one would break the dread silence. One of their number was doomed.

The figure that bore the name would rise, move slowly, with unnatural gait, tottering along the narrow aisle between the plank couches. Some would look up and some would look down, and some would pray, or mutter, "Tomorrow, maybe I." Or there would be a frantic shriek, a brutal struggle, and worse than death would fill the chamber.—St. Paul Oakes (British Secret Intelligence Service), in Harper's Magazine.

Making a Fire.

Some months ago the press reported a man who, while hunting in the wilds of Canada, lost his way, and having nothing to eat but raw meat, and no fire, starved almost to death before he was rescued. And only recently a freshman from Syracuse university was hunting in the Adirondacks and, losing his way and having no fire, froze nearly to death.

Had they been brought up in the South before the Civil war and been accustomed, as I was, to hunting with a muzzle-loading shotgun, with paper for wadding, and had been accustomed to setting the paper on fire after firing the gun, they would have had no trouble in starting a fire, writes a Mississippi correspondent of the New York Times. During the Civil war, when a boy of about seventeen, a lieutenant and I were sent into north Mississippi, and on reaching Tallahatchie river in the night and finding the river nearly level with its banks, no way to cross and no one in calling distance, the weather being cool, we had to have a fire. I discharged one chamber of my pistol, cut a piece out of my shirt tail, put a blank cartridge in my pistol, rammed the cloth down on it, fired it, and in a short while had a good fire.

It would seem that the men referred to never thought of such a recourse. Whether they did or not, this may remind some weary, hungry sportsman how he may start a fire.

From Artist to Foreign Minister.

On her return to Chicago, Miss Jane Addams told how she recently met, in the lobby of her hotel at Budapest, a Hungarian whose acquaintance she had made at Zurich in 1919. At that time he was a struggling artist—an amateur who was a refugee from his native country and was earning a living by painting Swiss mountains and lakes and selling them to tourists. He was also studying commercial engraving. When she came across him again at Budapest Miss Addams discussed the political situation with him, and was surprised at the knowledge he showed of public questions, especially in the field of foreign affairs. Finally she remarked to him: "For an artist, you are singularly well informed on politics." He replied, with a smile: "Well, I ought to be, I suppose. You see, I am the minister for foreign affairs."

It was Count Banffy, the Hungarian foreign minister.

Illinois Holds First Place

Illinois greenhouse men have more square feet of space under glass than has any other single state. Illinois ranks first, with 19,629,091 square feet of space under glass, according to a recent census report. In fact, more than half of the total area under glass in the greenhouses of the United States on January 1, 1920, was reported in five states. The other four states are: Ohio, 10,307,183 square feet; New York, 19,280,628; Pennsylvania, 10,623,335; and Massachusetts, 12,003,023. Illinois sold \$9,978,000 worth of flowers and plants in 1919, taking rank at the top of the list.

In Conference.

Candidate for Mayor (just nominated)—I propose to take a firm stand in favor of more parks for the people. Campaign Manager—Good! That ought to get you the solid nurse-maids' and highwaymen's vote.—Life.

LUCKY ARTIST WON FORTUNE

Comfortable Sum Bequeathed Painter Who Had Reproduced Features of Beloved Daughter.

A fortune of £40,000, (\$230,000), which was bequeathed by the late Robert B. Hawley, president of the Cuban-American Sugar company, to Mr. Learned and his family was the romantic sequel to Mr. Learned having painted a portrait of the sugar magnate's dead daughter. Mr. Hawley made a fortune in the export business, and in 1896 he was elected to congress. Just after he left congress his daughter Sue died, and he was heart-broken. The only likeness that he possessed of his loved one was a small photograph, and this lacked much of the fine animation that had characterized her face.

Taking the photo Mr. Learned went to Arthur G. Learned, a rising young artist, and asked him to make a portrait that would recall something of the inspiration the girl had been in her father's life. The picture was made and it exceeded the hopes of the grief-stricken father. The latter was so grateful that he became on the closest terms of friendship with the painter and his family. Mr. Hawley died in November and left to Mr. Learned and his wife £20,000, (\$100,000), and to their little son £2,000 (\$10,000), and a trust fund of £24,000, (\$120,000).—Manchester Guardian Weekly.

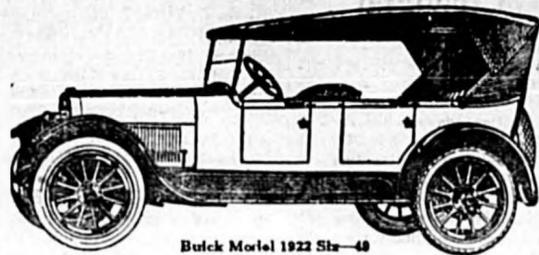

OPEN FIREPLACE A NUISANCE

Women of Past Generations Considered the Huge Affairs of Those Days as Unnecessary.

Nowadays one of the most convincing proofs that you can give to the fact that your city apartment is of the highest class and unlike the ordinary is to say that it has "open fireplace." Even a single "open fireplace" in an apartment is enough to raise it from the shoddy majority. And, of course, when we dream of owning a house in the country most of us, nine out of ten of us, think of an open fireplace as a sine qua non of such an abode.

But our grandmothers had no such opinions of open fireplaces.

Open fireplaces were a real humiliation to the woman who had them in her house 50 years or more ago. At least that feeling prevailed in this country. A small grate fire, that held a few shovels of coal was another matter, but the sort of fireplace where logs burned across firelogs was—well, it was one of the crudities that most persons did not like to possess. Yes, there was a time when a Franklin burner or a drum stove was considered more of an ornament to the well-furnished drawing room than the sort of wide-hearthed fireplace that we covet nowadays.

Buick Model 1922 Six-48

The Four Chassis— Standard Buick all Through

From tire carrier to radiator, the Buick four chassis is of the same powerful construction as the Buick six.

Buick cars for twenty years have been built for dependability—and the Buick four embodies standard units which have proved themselves through years of service.

Compare the Buick four chassis part by part with any other four cylinder car.

To the Voters of Seminole County

I AM AGAIN CALLING YOUR ATTENTION TO MY STAND ON CERTAIN ISSUES THAT ARE OF IMPORTANCE, NOT ONLY TO SEMINOLE COUNTY BUT TO THE STATE OF FLORIDA

- 1.—Re-apportionment of our State.
- 2.—Tax Reform.
- 3.—Relief for the Present Financial Condition of our School Fund.
- 4.—A Fish and Game Law that will Protect our Fish and Game. Will Support any Bill Approved by Our Seminole County Fish & Game Protective Association.
- 5.—I Favor a State-Wide No-Fence Law with Referendum Clause that will give ample time for Preparation by Stock Men.

The State Road Department as now being Operated is a Farce and should be Reorganized and placed upon a more business like and practical basis.

I am against State-Wide Bond Issues for the building of roads, unless said bond issues absorb all county bond issues.

There seems to be many rumors or reasons being circulated around the County why Swope should not be sent to the legislature, as follows, to-wit:

- 1.—Because he is a Republican (which I am not).
- 2.—Because he is a Northern Man.
- 3.—Because he is not a Sanford man.
- 4.—Because he is against the American Legion.

In order that the Voters of the County may have an opportunity to become familiar with the issues mentioned above, and to have an answer to the above reasons why they should have, I am ready at any time to meet my opponent to discuss the above issues and reasons, at the Court House or before any organization of the City of Sanford, and in every precinct in Seminole County. Meetings to be arranged by the Seminole County Democratic Executive Committee.

O. P. SWOPE
 Candidate for State Legislature
