#### PEOPLE'S BANK OF SANFORD

THIS IS TO CERTIFY that this Bank has a contract with THE AMERICAN BANKERS' INSURANCE COMPANY of Chicago whereby it agrees to deposit all of the money received for Insurance in This Section in This Bank, and the same to be loaned out in this community. This means long time loans at lower rates of interest. H. E. TOLAR, Cashier

**Sanford 9, Orlando 2**

The Tourists came up yesterday flushed with victory and intending to do it again. Everybody seemed to be doing it and from that day before it looked so easy, but that bunch of Collegians were simply laying for those swell headed Tourists and—the score was Sanford 9, Orlando 2.

Just to encourage a few bets the Collegians allowed the Tourists to pile up two runs in the very beginning and then when their hopes were raised so high they let them down with a sickening thud and the fall was all the harder. In vain the managers and sub managers and the captains and the privates and the Ft. Dade soldier tried to rally the demoralized forces of the Tourists. They were down and out and there was no way to bring them back to life.

There was a large crowd present, all of Orlando coming up to see the Collegians wiped off the earth by the victorious Tourists, but how meek and lowly they went back home and how rough the road seemed to be.

Today we go to Orlando and will endeavor to give them heart disease in their own town where they can have the assistance of Orlando physicians. Every body is doing it and the Collegians say they will just put the jinx on the Tourists any old time they feel like it.

**Summary:**

Earned runs, Sanford 3, Orlando 2. Left on bases, Sanford 3, Orlando 5. First base on errors, Sanford 7, Orlando, 1. Home runs, Edwards. Struck out by Wallace 9, Wilson 7. Double plays, F. Pounds to Gore, Edwards to Calmes. Hit by Pitcher, Wallace 1 (Bejnett).

**An Interesting Game**

The Orlando boys came down Wednesday with the intention of winning another game and strange to relate they did just that thing and won it after Sanford had said game gagged and tied to the post. The game was a most pleasing affair up to the seventh, for there were no runs recorded for Orlando and Sanford had made a home run. After that inning Manager Cheney left his seat in the grand stand and being a Taft man decided to run the steam roller over Sanford and as he circulated among his hired men he carefully played with a pink slip. The Orlando bunch tightened up at once and Clyde Pounds started the fireworks by getting to first and by a series of real good hits, and aided by a bungle or two from Sanford, the Orlando Tourists squeezed in two runs and we just couldn't help it.

Lee and Lowe were the battery for Sanford, and Valden and Beardall for Orlando.

The game was a good one from the view point of a disinterested spectator, but of course the disappointed fans have another story to tell. Sanford and Orlando are very evenly matched and some real good games are promised. Let every one attend the games and help the association along.

**Hot From the Bat**

Jim Harris has organized a rag time band on the grounds and with cow bell accompaniment makes lovely music.

The Collegians and Tourists are pretty evenly matched and we are looking forward to some real nice playing this season.

Clyde Pounds is just as good as ever and seems to be the only man on the Tourist team that has a bit of Ginger in him.

We need a larger grand stand. The teachers are all right but when the boys get excited they are liable to have a sunstroke.

## ....HAYING TIME....

We have the Most Complete Stock of Harvesting Machinery in the county

### McCormick Mowers, :::

### Hay Rakes and Tedders

Lowest Prices--also Scythes, Snathes and Grinders

We put down Artesian Wells and install Irrigation Plants of every description

## The Geo. H. Fernald Hardware Co.

That boy Farmer made one of the greatest one hand stabs for a fly on Wednesday and got away with it. His play brought the crowd up standing.

The Collegian who has the best batting average at the end of the season will get a fine suit of clothes from Palmer & Seigh, the well known haberdashers.

Biddy Gore and Clyde Pounds receive a warm welcome in Sanford. They are both good boys and are not to be blamed for working with the Tourists. Their parents hired them out.

Edwards knocked a ball over the house yesterday and they haven't found it yet. The day before Lowe did the same and the fans say that the Collegians have the hardest hitting bunch that ever graced the Sanford diamond.

## Summer Rash Washed Away

You can stop that irritating itch from summer skin troubles in two seconds by a mild, soothing wash.

Yes, just a few drops of D. D. D. Prescription for Eczema and there is instant relief—the skin is cooled and healed and you have absolute protection from summer rash, dangerous pimples, ivy poison, bites, hives, prickly heat and all other skin troubles that hot weather often brings.

We have sold many good antiseptic remedies for the skin but none that we can recommend as highly as the famous D. D. D. Prescription.

Get a 35c trial bottle anyway—we know it will do the work.

Other druggists keep this D. D. D. Prescription—the demand is so great they all have to stock it—but if you come to our store, we will give you the first dollar bottle on our positive no pay guarantee, that D. D. D. will stop the itch at once.

## NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

### HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurried Readers

United States Senator Francis G. Newlands of Nevada has drafted a platform which he desires adopted by the Baltimore convention and today he came over from Washington to submit the planks that he has drawn to National Chairman Mack who informed him that his tentative platform should be submitted to the committee on resolutions.

Two dark horse booms for the Democratic Presidential nomination were informally launched today by national committeemen. The talk centered about Mayor Gaynor of New York, and Governor Eugene Foss of Massachusetts. Whether the movement in behalf of Mayor Gaynor is being encouraged by Charles F. Murphy, leader of Tammany Hall, could not be learned here, but those directing the candidacy of Governor Wilson said they had been informed that Leader Murphy was of the opinion that New York should make no choice for President until after the Chicago convention.

An eastward storm now over the Great Lakes and another disturbance to cross the country appearing in the northwest, about Thursday, were announced in the weather bureau's week ahead forecast tonight. The prediction was for showers in the east and south the first of the week with rising pressure and cooler weather until the latter part of the week, in the middle west and the eastern states and fair the next several days over the middle west and far west. The next disturbance from the northwest prevailing over the west at the close of the week will be attended by local showers and thunderstorms and preceded by a general rise in temperature.

Twenty-eight persons are known to have been killed and many injured by a storm that passed over central West Missouri late Saturday, demolishing buildings, tearing down wires and leaving the smaller towns and country homes completely wrecked. From meagre reports that have been received, it is believed that the storm that struck Kansas city late Sunday, causing the death of two persons and doing damage amounting to many thousands of dollars, swept to the south through Bates county, where it left a trail of death and destruction. The path of the storm there was half a mile wide and five miles long. Between Merwin and Adrian nineteen persons were killed.

With a paid in capital of \$500,000, and the right to increase to \$1,000,000, the first mill of the United Lumber Corporation will commence operations in Waycross this week, and a second mill will open within a few weeks. The stockholders at their first meeting elected officers as follows: President, L. J. Cooper of Waycross; first vice-president, T. A. McMillan of Beach; second vice president and general manager, T. A. Calhoun of Beach; treasurer, N. P. Jenrette of Waycross; secretary, Eugene R. Derat, of Jacksonville, Fla.; Directors: Carl Warfield of Fernandina, Fla.; C. W. Deen of Lakeland, Fla.; L. J. Cooper, W. W. Lambdin, H. P. Jenrette, Geo. W. Dean of Waycross, T. H. McMillan and T. H. Calhoun of Beach; Eugene R. DeRay of Jacksonville.

#### Flitted Up Fine Offices

T. K. Bates of the Title Bond & Guarantee Co. has rented the new room recently built at the rear of his former office in the Enaminger building and is using both offices, one for business and one for a reception room. The new room has been equipped with new office furniture and modern appliances for the real estate business and the office presents a very neat and attractive appearance. Bates is a hustler and believes in having everything right up to the minute. He is preparing beforehand for the big rush of home-seekers that will take place in the early fall and he expects to locate a bunch of them on the west side, giving them the inside on outside property.

## FINE PROGRAM FOR EDITORS

Pencil Pushers Will Enjoy Palatka Meeting This Week

Palatka will be ready to entertain the State Press Association June 20-22, as all the arrangements have been looked after by the several committees of the local newspaper fraternity.

The association will be called to order by President F. Ross McCormack, Democrat, Live Oak, in the parlors of the Putnam House.

Invocation, Rev. William Wylie. Vocal solo, Miss Devereux. Address of welcome, Mayor E. W. Warren.

Response, Hon. Frank E. Harris, Banner, Ocala.

Vocal solo, Mrs. W. T. Hamm. Annual address, President F. Ross McCormack, Live Oak Democrat.

Piano selection, Mrs. J. E. Lucas. Piano Solo, Mrs. W. T. Hamm. Recitation, Mr. W. G. Tilghman.

On Friday the editors will go to Crescent City on the Steamer Crescent and be entertained at lunch by the V. T. A. of that thriving and beautiful little town. A session of the association will be held aboard the boat both going and returning.

At the Putnam House on Friday evening at 10 o'clock an elaborate banquet will be served, preceding which the following literary program will be given:

Invocation, Rev. W. M. Poage.

The Editor as a President Maker. Hon. Frank L. Mayes, editor of the Pensacola Journal.

The Newspaper as an Aid in Municipal Progress, Dr. W. E. Warren, mayor of Palatka.

How It Feels to Be a Nestor to a Bunch Like This, Hon. Frank E. Harris, editor of the Ocala Banner.

The Newspaper as a Trust Buster, Hon. Chris Codrington, Editor of DeLand News.

The Press as an Industrial Booster, Hon. H. R. Davis, President of Palatka Board of Trade.

The Editor's Duty Towards the Good Roads Movement, Hon. E. S. Matthews, editor of the Starke Telegraph.

Invitations to banquet limited to association members and guests, admission by card.

An auto drive about the city and to the potato fields at East Palatka and Hastings the next morning will wind up the 1912 meeting of the state pencil pushers.

#### Had A Great Trip

C. C. Coffee, the well known show-salesman that represents the firm of E. A. Weill & Co., of Savannah has returned to Sanford after a trip to the Ten Thousand Islands, where he sold show to all the stores along the route. He made the trip from Punta Gorda in a small fishing boat and said that half the time the boat was suspended between water and sky and just as they were about to eat dinner a heavy roll washed it overboard and the mate with it, but he was rescued and the meal resumed. He spent about two weeks on the trip and thoroughly enjoyed it and sold a fine bill of goods to the merchants. Mr. Coffee also has some large fish stories to tell, which can be taken with a grain of salt, being salt water tales as it were.

#### Deaths in the Family

Several Sanford people have been saddened this week by the intelligence of deaths of relatives.

Mrs. W. P. Fields of Sanford Heights is at River Junction, where she was called on the sad mission of the death of her father.

J. D. Davison received a wire last Friday, announcing the death of his favorite sister who died in New York. Mrs. Davison is in Vermont and Mr. Davison could not leave to attend the funeral.

#### Not So Bad in Florida

Two men in the postoffice talking. Said one, "It costs so much to live here in Florida!" Said the other, "Oh, I don't know! A quarter's worth of grits will last a long time; there are plenty of fish in the lakes and ocean waiting for your hook; a few cents will buy lots of vegetables seeds and a little labor will produce you a big crop; it costs nothing for fuel to heat you and but a few clothes are required to cover you! I guess if it comes right down to bed rock hard times a man can get along pretty cheaply." And that's no joke.—Palm Beach County.

## MAY BE A DARK HORSE

The Republican Convention Will Make History Today

### TAFT AND ROOSEVELT ARE SURE

Big Convention Will Be The Scene of A Warm and Also Lengthy Political Encounter

Chicago, June 18—While still claiming that Colonel Roosevelt will control the Republican National Convention and be nominated on the first ballot for President, the Roosevelt leaders spent yesterday working out the details of their plan of attack on the Taft program as outlined last night. There was no talk of stampede among the Roosevelt forces today. The former President's adherents asserted positively that their control of the convention would be through delegates seated in favor of Roosevelt.

There were several flashes of fire and charges of "graft, bribery and corruption" from the Taft headquarters, but it was everywhere agreed that the day had been one of the quietest preceding a convention in years.

Last night the Taft leaders were continuing a council of war, begun early in the day, while the Roosevelt people were whooping things up at a remarkable mass meeting in the auditorium theater, where Colonel Roosevelt addressed a cheering mass of humanity. The doors of the theater had been besieged for hours before they were opened and it seemed that half of the police force of Chicago had been thrown about the approaches to the building.

Uncertainty as to the result of the situation was as prevalent today as at any time since the Republican forces began their invasion of Chicago and neither Taft nor the Roosevelt headquarters were certain of the number of delegates they could depend on with any degree of confidence. The final claims and figures put out—each side claiming a clear majority—were those of hope rather than conviction.

#### REVIVAL MEETINGS CLOSE

Successful Meeting and Many Conversions Made in This City

The revival meetings held in this city for the past two weeks by Messrs. Bass and Stapleton came to a close Sunday night amid a blaze of glory, the largest tent being filled to overflowing and the night meeting lasting until 11 o'clock. Over two hundred conversions were made and the city has experienced a religious awakening unlike anything of the kind ever witnessed in Sanford. Mr. Bass never minced words in his discourses and the way that sin and evil was pictured by him was strong enough to bring the most hardened sinner to his knees and the mighty truth prevailed in the end. The continued rains part of the first week interfered with the meeting and some of the people living in the suburbs were forced to be absent, but with the return of good weather the crowds grew larger and the interest stronger, and the last few nights were continued successes in winning people to the churches of the city.

The generous Sanford people responded on Sunday to an appeal for help to aid the evangelists in their work and over \$300 were raised at the morning and night services.

As a recognition of the good services of Rev. Summers the people took up a purse for him and his family and he was made the recipient of over \$50, a little token that was greatly appreciated by that worthy man.

Bass and Stapleton are called away to Texas, where they will be engaged all summer in the great work of winning souls to God, and wherever they may be engaged in the Lord's vineyard the prayers of the people of Sanford will follow them, and should they ever return to this city they will certainly be warmly welcomed.

#### Killing at Ocala

Ocala, June 16.—According to information received over the telephone late this afternoon from Lynne, a small station about eighteen miles east of Ocala, Mann Fort shot and killed his wife whose name was not learned. Sheriff Galloway and Deputy Sheriff Brigrance left immediately for Lynne and further information regarding the tragedy is unobtainable.

## RESUME OF PAST SEASON

Season Was Not A Good One For Our Vegetable Growers

Sanford vegetable growers worked hard this season but climatic conditions were against them. Those who came out even consider themselves lucky and it is said only a very few made much money. The Sanford section is not surpassed as far as natural advantages are concerned. Almost the entire acreage is sub-irrigated and the truck farms are a model of neatness and are owned and worked by intelligent farmers. But all of this counts for naught when weather conditions during the entire season are against the crops. There has been too much rain time and time again this season, which had a tendency to cause blight in the fields and to help along every kind of bug and insect which destroys the growing crops.

The celery crop was particularly affected by the blight and did not attain its full growth. Most of the truckers waited until March 1st before harvesting, in order for the celery to attain a better growth. At that time it was hit by the blight which swept over the fields and thousands of dollars' worth of damage was done within less than a week.

J. E. Pace, one of the largest growers in this section, said: "I have been growing celery and other vegetables for fifteen years in the Sanford section and this is the first year that I have lost money. I probably would have pulled out all right this year if I had grown a larger acreage of Irish potatoes as this is about the only crop on which the growers made good money."

The truckers are now shipping tomatoes and the crop is about half moved. Eggplant and peppers are moving quite freely and both crops are of good quality.

Despite the poor season, this locality up to May 1 shipped 729 cars of celery, 494 cars of lettuce and 50 cars of beans and other vegetables. This does not include the express shipments. To June 1, the total shipments were more than 1,350 cars of vegetables. The Southern Express Co. has handled 80,000 packages and will handle before the close of the season 100,000 packages of vegetables.

The Florida Vegetable Growers' Association has handled 175 cars of celery, 75 cars of lettuce and 50 cars of potatoes and mixed vegetables.

Despite the unfavorable season the association reports it has done remarkably well. In some instances the growers netted a neat little sum and it is said in no instance have they failed to realize a little profit. The association will continue next year under the same management.

The Irish potato crop was the best money maker this season and a larger acreage will be planted this fall. The growers have received splendid prices for this crop. Next season there will be less celery planted than ever before in the celery delta, and the acreage will be planted to other vegetables as the truckers are diversifying crops. The growers say they will take hold with renewed energy next fall and the vegetable acreage will be fully as large as the past season.

N. Y. Packer.

#### Auto Kills Man

Daytona, June 16.—George Swap, a winter resident of Ormond, was run down and fatally injured Tuesday evening, between 6 and 7 o'clock, by a car driven by C. A. Young of this city.

Mr. Swap never regained consciousness after the accident and died Thursday night about nine o'clock. Mr. Swap was an elderly man of 72 and deaf. It is charged that Mr. Young was driving at full speed without a light, and that he did not stop the car to ascertain the extent of the injuries he had inflicted.

Young was arrested by Deputy Sheriff J. R. Davis, and Justice Macon Thornwell of Ormond being out of town, the case was taken before Justice Zuber of this city, and Young was bound over in the sum of \$1,000.

#### Enjoying Porto Rico

A. Robbins presented the Herald office with a stalk of coffee beans from the island of Porto Rico this week. The coffee was sent to him by his daughter, Mrs. Harvey, who with her husband, Prof. Harvey is now touring the islands and enjoying the trip very much. They expected to return to the states via Cuba but on account of the revolution now going on they have decided to pass up the Pearl of the Antilles until the revolution has been settled.

## ALL AROUND FLORIDA

The General News of The Land of Flowers.

### CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

It is probable that Brooksville will have a Truckers' Association. Such an association would be of untold benefit to the growers.

Tampa is preparing for a big charity conference meeting. The second annual meeting of Charities and Corrections of this state will be held there on December 7th, 8th and 9th.

Material is being placed on the ground in Lakeland for the new Chautauqua Auditorium. This building will have a seating capacity of 1,700 people and will be one of the handsomest auditoriums in the state.

The Brooksville city council has sold the \$12,000 of bonds and as soon as the funds are available, pavement will be put down on the principal streets of Brooksville. The pavement will be made of vitrified brick.

A Civic League has just been organized in Orlando. The organization has for its purpose the establishment of public parks and other such improvements as are essential in building a desirable residential city.

One county in Florida has decided, it seems, that the juvenile court judge is an important factor. Escambia county commissioners have raised the salary of the officer from twenty-five to one hundred and twenty-five dollars a month.

The Starke Telegraph has contracted the linotype fever, and has established among its readers a "Linotype Club," the members of which pay five years' subscription in advance. The people are loyal to the Telegraph and are joining the club in large numbers.

The Florida Epworth League Conference has just closed a most successful meeting in Tallahassee. There was a large number of delegates present and they received a most hospitable welcome. This association has a membership of nearly five thousand in this state.

A. C. L. officials state that train service is again complete on the Fort Myers division. For several days after the heavy rains of last week and the early part of the present week, passengers for Fort Myers were taken off the trains at Punta Gorda and carried by boat to Fort Myers.

News comes from Miami that the recent heavy rains in that section and along the East Coast have damaged the pineapple crop irreparably, and will cause considerable loss to the growers. The season should now be at its height, but the rains have made it impossible to get men to work in the fields, thus causing the fruit to ripen to a point where it will not stand shipping.

Fort Myers is growing and as the houses and people multiply there are greater demands upon the facilities and utilities. The Press of a few days ago told of four new wells to be put down in districts where the supply was not adequate, "which will not only give them the needed water supply and sewerage, but will enable the people in the district to feel more secure from the dangers of fire."

#### Cut the Weeds

We want to respectfully suggest that the weeds be cut. The city has weeds on its streets and some private parties have weeds in their yards or on vacant lots owned by them.

There are a hundred reasons why the weeds should not be allowed to stand. The reasons have been stated a hundred times before, so it is not necessary to state them again. Just cut the weeds.

We have an excellent weed crop this year. Let us harvest it, not next week or tomorrow, but right now.

Cut those weeds.—Lakeland Telegram.

#### Pass The Pie

Homonassa celebrates an annual Huckleberry day, on which all the people of the town go to the woods and pick berries. For a week following this glorious occasion, life in Homonassa is one great huckleberry pie.

**CURBSTONE GLEANINGS**

**A Budget of Opinion "Just Between You and Me"**

**EVEN THE GATE POST NOT IN IT**

**A Chief Is Among Ye Taking Notes and Faith, He'll Preat 'Em"—So Says Samterer.**

¶ An advertisement in a nearby daily reads, "How to actually keep mosquitoes from biting you for ten cents." Those mosquitoes must belong to the union with a fixed scale for services rendered. Country mosquitoes are not so particular and will bite you for nothing and thank you for the privilege.

¶ I see by The Herald that a home fire insurance company is talked of here. Such a company has been found to solve the question in other localities and at the present rate of insurance here something will have to be done. I don't know anything about the figures on a home insurance company. I did start to figure once how much the fire insurance companies took out of Sanford every year, and by the time I had covered a whole ledger I gave it up, because no one would believe them when they were ready.

You are doubtless familiar with the story of little Johnny and how the cat got out of the well. Johnny's teacher gave him a mathematical example: "If a cat was in a well 100 feet deep, climbed up two feet every day and fell back three every night how long would it take the cat to get out of the well. Johnny covered his slate with figures, then told his teacher, "If I had two more slates, I'd have that cat in hell in two hours."

¶ In introducing a resolution in the Senate for the purpose of ascertaining why the United States government should be sending troops to Cuba without the authorization of Congress, Senator Bacon of Georgia, is making a very pertinent inquiry. Why should the American government send a military force into any foreign country except upon the authority of Congress? It is true that Americans and their property in certain parts of Cuba are in danger from the operations of the insurgents, but the same may be said of conditions in Mexico, where the revolution is even more pronounced than in the island republic. Why isn't it as necessary to send expeditions into Mexico as it is to send them into Cuba?

That conditions in Cuba are quite serious there is no question. They have assumed very critical proportions, but in what way is the United States government under greater obligations to protect Americans and American interests there than in Mexico? If the United States must preserve peace in any hemisphere republic why not in all of them? It is true that the United States government made it possible for the Cuban government to be established. But, having done this and turned the government of the island over to the people thereof, has not the obligation of this government, as a matter of fact ceased? Is this government called upon to continue to expend millions of dollars every year in order to preserve the peace there? If so, it is time that we should say to Cuba and Cubans, "You must keep the peace or we shall force you to do it, and if it shall come to this you will have to pay the price."

If the people of Cuba are incapable of self-government they should say so. They cannot reasonably expect the people of the United States to continue to spend millions of dollars in their behalf. The United States cannot afford to keep a standing army in Cuba all the time, or even a part of the time. Already this government has been compelled to take charge of the affairs of that republic twice and straighten them out. If it must continue to do this, it would seem that, although there is objection to the annexation of the island, this may become a necessity after awhile. The United States cannot afford to continue doing indefinitely as it has been doing in reference to Cuba.

¶ Sanford offers much to the small factory in the way of a site. There are numerous factories that are contemplating locating in the south and just the other day a branch of the Beech Nut factory was located in Tampa. There are numerous canning factories in the United States that are just as large as this factory and they could be induced to locate here where the water and freight rates and the location would mean so much to them. When one stops to think about the different products that are laying out in the fields going to waste, the proposition assumes large proportions. Putting up watermelon pickles alone could employ a factory for several months and the product would virtually cost the factory

nothing, and so many different varieties could be made from them. The different fruits and vegetables of Florida are just coming into public notice in the north and in a few years they will be in steady demand. The Business Men's League could be instrumental in looking up and locating all of these many good things here in our town and how the payrolls on Saturday would help out the business man. However you seem well content to sit down and let them go by and while tomatoes are spoiling in the field the grocery trust is boosting the price of canned tomatoes and you are cheerfully paying the cost. No wonder the cost of living increases each year.

¶ Some time ago I advocated the idea of a Y. M. C. A. building or something along that same plan as a place for our young men to while away the evenings. As yet I have had no second to my motion, and now that the summer days are upon us would it not be a grand recreation place replete with a swimming pool, bowling alley and reading room?

The boys need something of this kind and while I admit that it would be rather difficult to start anything now with hotels and base ball and brick roads in the way, but the idea should not get away from you, and with the proper agitation some rich man will recognize the claims of our young men and maybe open his heart by a large donation. This reminds me that in the tourist hotel there will be a source of bounteous gifts from the tourists who are quick to recognize the needs of the boys and we can get a Y. M. C. A. and a Chautauqua building and several badly needed improvements with funds started by the big hearted people that come here to make their home during the winter. Sanford made a mistake when this city failed to interest Jas. M. Gamble, the well known philanthropist who has done so much in Florida and expects to work wonderful changes over at Enterprise. We need such men in Sanford and a tourist hotel will be instrumental in bringing them here.

**Like Many Writers**

Mintie— I wonder what ever became of Jennie Smart, who took first prize in our graduating class? Mame— "Why don't you know?" She wrote an article on The Degradation of American Womanhood, got \$1000 for it from a magazine, went into Wall street, made a fortune, and went to Europe and bought one of the sweetest little princess you ever saw!"— Terre Haute Express

**Steel Bridge Over the St. Johns**

Communication between Orange and Volusia counties will be greatly facilitated by the new steel bridge, starting from the foot of Celery avenue, Sanford, and crossing the St. Johns river into Volusia. The bridge has been provided for by the people of Orange county and a number of individuals in New Smyrna and Osteen, and that neighborhood. The approaches to the bridge have already been made and the plans for the structure, which will cost about \$6,500 are being prepared for submission to the United States engineering department. The new bridge will prove of great value in Orange and adjoining counties and add a link in the road chains that will some time make a tour by road through the state possible and pleasant. De Land News.

**New Tourist Hotel**

Things are moving finely for the new hotel and that Sanford will soon be a Florida Mecca for the winter tourist is now practically an assured fact. Mr. Field states that every one approached is heartily in favor of the project and that the proceedings have exceeded expectations.

Of course there will be great numbers who will not be able to be seen personally and they are requested to call at Room 8, Peoples Bank Building and inspect the plans and obtain all particulars. This applies to every one who has the best interests of Sanford at heart and who wishes to see his city grow.

To take stock in this hotel is to pull for Sanford. This hotel is a vital question and cannot be overlooked by any tax payer in Orange county, as it will be the means of stopping tourists in the county, who otherwise would go further south and there build winter homes. The hotel should be ready for occupation for the coming winter and to do this dirt should be broken within the next sixty days. This will necessarily hasten matters, so don't wait to be called on, but sign for your subscription NOW. We understand that this stock is payable only 20 per cent when Company is formed and the balance 10 per cent a month, so this will impose a hardship on no one. You should act at once.

**That New Tourist Hotel**

There is now some talk of the erection of a tourist hotel in Sanford. It is generally conceded by those who are acquainted with the hotel business that Sanford, being at the head of navigation on the St. Johns river, thus causing thousands of visitors to the southern portion of the state to stop off in Sanford whether they care to or not, makes of this city one of the most advantageous points in the state for the erection of a modern hotel of ample proportions.

Sanford's present large hotel, the Sanford House, is of an ancient vintage and its patrons from afar have been educated to use equipment which it does not possess as the building is as much antiquated as the furnishings. To correct these discrepancies it is proposed by the owners of the present stock in the new project to enable it to become the possessor of sufficient lake front property to make a very adaptable site and with this assurance in hand the promoters are going ahead and getting things in shape to properly finance the proposition which has for its purpose the giving to Sanford of a modern hostelry that will care properly for every stranger who may care to stop within our gates.

The company will have a capital stock of \$125,000 and with this money they propose to fill in certain parts of the river front of the present hotel and erect thereon a building that will be a credit to all Florida. Plans are now in process of preparation and when a few more points pertaining to the matter have been adjusted the work of raising the money will be started and pushed to its finality. The owners of the present hotel have agreed to destroy the present building by tearing it down and removing it from its present site, thus opening up the entire grounds between First street and Commercial avenue for business houses, sites for which there is an absolute scarcity in this city at present.— Times-Union.

**Tunguse Reindeer the Best**

The reindeer is more to his owner than any other beast of burden, the hard furnishing meat drink clothing and candles. The size and strength of the reindeer varies in different parts of the Arctic, the finest being those owned by the Tunguse tribe in Eastern Siberia, the Tunguse deer stand as high as five feet and are frequently used for riding.

**Pope's Revenue From Eels**

The greatest eel breeding establishment in the world is that of Comacchio, on the Adriatic, where the industry is carried on with scientific care. This eel nursery consists of a gigantic swamp, measuring 140 miles in circumference and is of ancient origin since in the sixteenth century it yielded an annual revenue of \$6,000 to the Pope.

**Leaning Tower's Secret**

The Leaning Tower of Pisa is no danger of falling. For over eight hundred years it has been inclined to one side, but it is said to be as safe today as when it was built. This is because the workmen found it settling to one side while they were erecting it, so the tower was made accordingly.

**Too Many Left-Handed**

Inquiry among 250,270 men of the German army developed that 10,292 of them were left-handed. The investigators claim left-handed persons are not the equal of right-handed ones in physical and mental strength.

**Your Printing**

If it is worth doing at all, it's worth doing well.

First class work at all times is our motto.

Let us figure with you on your next job.

**ALL MEN HAVE THE SAME CHANCE**

Why is it? YOU have it and so do I, but you take advantage of it and I don't. You succeed in life and I don't. Why is it? So easy to answer. You save your money and I don't, and consequently you succeed and I don't. Which are you? Better come in to see us. You'll find us ready to serve you.

CLOTHES THAT SATISFY

FURNISHINGS FOR MEN WHO KNOW

117 First Street

SANFORD, FLORIDA

THE SANFORD HERALD

Published Every Tuesday and Friday Morning By THE HERALD PRINTING COMPANY

R. J. HOLLY, Editor W. M. HAYNES, Business Manager

Subscription Price, \$2.00 a Year in Advance

Delivered in the City by carrier \$2.00 per year in advance or 20c per month. Payments in advance must be made at office.

Entered as second-class mail matter August 22nd 1908, at the Postoffice at Sanford, Florida, under Act of March 3rd, 1879.

Office in Herald Building Telephone No. 148

Next Thursday, the editor of The Herald, accompanied by a body guard of other citizens, and all of them under the surveillance of their wives will attend the press association meeting at Palatka.

The very fact that Sanford has been made a special road district and will call an election to vote bonds for brick roads has given this district much notice of a complimentary character.

The Herald has been receiving about two columns per week of free stuff from the Bureau of Economics, whatever that is, and this matter sets forth in facts and figures that the railroads are losing money every year and proves it.

Lake Will Be Speaker

Hon. Forrest Lake of this city, who is a candidate for Speaker of the House at the next session of the Legislature is meeting with encouragement from every part of the state, and while having strong opposition in several quarters will have no trouble in landing this coveted position.

A ROAD TO THE BEACH

From reports of the Daytona-DeLand road there is danger in driving a car over to the beach now on account of the condition of the road. There were several accidents along this road last Saturday and Sunday and the drivers claim that the road is very narrow and rough, and going at a fair rate of speed it is almost impossible to pass another car in safety.

NEWSPAPERS AND THEIR OWNERS

We venture a word suggestive of reform for Florida newspapers, in regard to ownership.

We believe in publicity, as to all public institutions and business. While newspapers are private businesses, there is a difference between ours and a store, bank or factory.

To have the greatest influence for good the editorial page should be recognized as the expression of honest conviction. Would not the power of the press for good be increased if the names of the owners were published in every issue of the paper?

It is charged that many of the newspapers are owned by "certain interests." Would not public respect for and confidence in the profession be increased if every paper was required by law to publish the names of every owner and stockholder?

We make the suggestion: Is it desirable? Is it practicable? We want to extend and increase the usefulness of the press.—Arcadia News.

OPINIONS OF THE EDITOR

If you want to find out something about intolerance go into the newspaper business. Then you will find out that the expression of opinions is certain to cause some people to write letters to you, calling down in the "letter to the editor" or make remarks about you to other people.

Consider the plight of the editor. He must keep telling what he thinks about this or that from day to day. Also consider the possible plight of some of his critics if they should be compelled to so completely unbecome themselves. Think of this and consider how well most editors get away with the promulgation of the contents of their think tanks and you will feel like congratulating them.

Some editors make the most of their tanks with a skill that is admirable. Some of them are artists in selecting subjects which cause very few people to gnash their teeth, no matter what views are entertained or what side is advocated. Others are lucky in striking a popular chord more often than otherwise.

Sealed bids for grading the road from the west end of the Sanford-Geneva bridge west to the east end of the graded road, through Beck Hammock, on the Sanford and Geneva road, will be received by the board of county commissioners for Orange county until Saturday, June 29th, 1912.

Said grade to be thirty (30) feet wide at the base, and twenty (20) feet wide at the top, two and a half (2 1/2) feet wide in the center and two (2) feet high on each side, ten (10) feet from center, and protected along both sides of the grade 10 feet from the center, with logs, not less than twenty (20) inches high, logging to extend through the Cabbage Hammock from the river to the prairie.

APPLICATION FOR TAX DEED

Under Sec. 8 of Chapter 4882, Laws of Florida Notice is hereby given that Sarah Purson of Sanford, Fla., purchaser of Tax Certificate No. 187, 188, 189 and 190, dated the 8th day of June, A. D. 1910, has filed said certificate in my office, and has made application for Tax Deeds to issue in accordance with law. Said certificates embrace the following described property, situated in Orange county, Florida, to-wit: Cert. 187, W 1/4 of NW 1/4 of SW 1/4, Sec. 26, Tp. 19 S., R. 29 E., and W 1/4 of E 1/4 of SW 1/4 of NE 1/4, Sec. 26, Tp. 19 S., R. 29 E. Cert. 188: NW 1/4 of NE 1/4 and N 1/4 of N 1/4 SW 1/4 of NE 1/4 and W 1/4 of SW 1/4 of NE 1/4, Sec. 27, Tp. 19 S., R. 29 E. Cert. 189: E 1/2 of NE 1/4 of SE 1/4, Sec. 27, Tp. 19 S., R. 29 E.

THE DEMOCRATIC NOMINEES

All of the delegates to the Democratic national convention have now been chosen except the eight from Vermont and they will be elected on June 18.

The result shows Speaker Clark and Governor Wilson running a neck and neck race with the apparent odds slightly in favor of Governor Wilson. The delegate strength of each candidate is as follows:

Table listing delegate counts for Governor Wilson and Speaker Clark across various states like New Jersey, Pennsylvania, Texas, Wisconsin, Minnesota, North Carolina, South Carolina, Michigan, Tennessee, Virginia, Oregon, Louisiana, Oklahoma, South Dakota, Maine, New Hampshire, Delaware, Utah, Porto Rico, Illinois, Arizona.

Table listing delegate counts for Mr. Underwood across various states like Alabama, Mississippi, Florida, North Carolina, Georgia.

Table listing delegate counts for Governor Harmon across various states like Nebraska, Ohio, West Virginia.

Table listing delegate counts for Other Candidates including Gov. Foss, Massachusetts; Gov. Baldwin, Connecticut; Gov. Marshall, Indiana; Gov. Burke, North Dakota.

North Dakota which is instructed for Governor Burke, and will cast a complimentary vote for him on the first ballot, is for Governor Wilson and will go to the later on the second ballot.

In the Ohio delegation, 19 of the 48 members were elected as Wilson delegates, but under the unit rule they are counted for Harmon. A fight will be made, it is said, upon the floor of the convention to resist the attempt of the Harmon interests to control these 19 delegates.

The figures and facts as they exist are nomination of either Wilson, Clark, or a dark horse. Governor Harmon is regarded as being entirely eliminated. Mr. Underwood will probably increase his vote some if any considerable number of votes should be necessary, but his prospects of nomination do not appear to be such that any one would bet much money on it.

Altogether the fight is going to be a very interesting one, with the friends of Clark and Wilson controlling the situation.—Pensacola News.

THE HOUSE OF CUNNINGHAM

Due to its individuality of service; its individuality of methods; its increasing efforts in behalf of home-owners, this house-furnishing store has made itself known from one end of Florida to the other.

THIS store is the depot and market for the output of the finest furniture made in America, handling such products as are manufactured by Berkey & Gay; Chas. P. Limbert; Luce Furniture Company, and, in fact, all the very best concerns of Grand Rapids are fully represented.

OUR PIANO DEPARTMENT

ONE of the finest appointed Piano Stores in the South is located on the first floor of our building. The display embraces only the finest makes—the kinds that are dependable and worthy.

FOR the benefit of your home, your purse, your peace and contentment— GET ACQUAINTED WITH CUNNINGHAM

# PURELY PERSONAL

### The April Chorus

About Jones resigned his job, just because it made him tired.  
 Sewin' circle met next day and decided he was "dred."  
 Bushrod Packer brak his leg fallin' off a lud of hay. That he was rip-roarin drunk was told in the town next day.  
 Kara Spink walked down the street with a lady, and of course, People had it that his wife had decided on divorce.  
 Smith hired a stenographer, as his business had enlarged.  
 And the tongue wagged cozily till the lady was discharged.  
 Mr. Peabody took a trip with some outside business men.  
 Sewin' circle, when it met, softly whispered, "Sounded again."  
 Hinks sold his touring car, didn't like the one he had.  
 And the word was passed around that his business had been bad.  
 Mrs. Parkins needed clothes, and she started savin' trash.  
 Selling eggs and butter and cutting down her husband's cash.  
 Bought herself a summer suit and a four-foot ligher hat.  
 Folks could not make out how she could afford to dress like that.  
 Like within the party gates will not please the anvil kind.  
 For we think they will be told: "Leave your ham-mery all behind."  
 —Ray K. Moulton in Boston Globe.

Born to Mr. and Mrs. J. L. Ingram on June 14th, a girl.

John Branham, the efficient county road Supervisor has been in the Sanford section for several days.

Beth Woodruff, of Orlando, spent several days of this week in this city looking after his interests.

Will Branch of Orlando has been in the city several days the guest of Chester Kennison on his fine yacht, Verona.

H. H. Chappell left yesterday for New York and other northern cities in the interests of the Florida Gardens Co.

The many friends of James Williams are glad to see him out again after a serious illness of several weeks duration.

Palmer & Seigh are putting on a big summer sale and have some great bargains to offer in clothing and furnishings.

Roy Spurling is now helping to feed the multitude at the Sanford House having accepted a position as night clerk.

Vance Douglass is now engaged in fitting the public with good clothes being with the Sanford Shoe and Clothing Co.

Mr. and Mrs. S. M. Schwartz have gone to their home in Chicago after spending the winter at their beautiful home on Lake Onoro.

The weather was just a trifle hotter this week than the oldest inhabitants can remember. You can fry eggs on the brick streets.

The new hotel is progressing nicely thank you and if you put your name down on the subscription list we can have the work start by August first.

Mrs. Bull and little son Earnest left Saturday for points in New Jersey, after spending several weeks with her sister, Mrs. C. H. Dingee, on Sanford Heights.

Hon. J. N. Whitner leaves tonight for New York where he goes on important business transactions. He ought to have some real good news for Sanford when he returns.

Mr. and Mrs. L. A. Brumley and family and Mrs. Cliff Bell and family left yesterday for North Carolina where they will spend a month recuperating in the mountain air.

Editor E. A. Douglas, of the Oviedo Advance, was in the city today calling on his many friends. Ligo has the sympathy of the people in his fight against the Orlando steam roller.

Any one wanting pineapples to preserve should see Geo. B. Ivey, mgr. Mary Hale Fruit Stand, corner 2nd and Palmetto avenue. Can sell cheap, by dozen, half crate or crate.

The Sanford Herald has purchased a fine E. M. F. car of the 1898 model to deliver printed matter in the city and collect bills, the latter business being very strong at this time of the year.

Dean Spencer of Orlando spent several hours yesterday in the city and his many friends were glad to see him again. The Dean has entirely recovered from his automobile accident suffered some time ago.

Word comes from A. McDonald of Celery Ave. who has been critically ill at Fayetteville, N. C. that he is slowly improving. Mr. and Mrs. McDonald will be compelled to remain in Fayetteville several months longer where Mr. Mc. is under the care of the hospital physicians.

Roy G. Taylor will leave tomorrow for New York and other points north and expects to visit his old home at Indianapolis. He has been on the cler-

ical force of the Sanford House during the winter season and expects to return in the fall. Here's hoping he will have a berth in the New Lakeview Hotel upon his return.

Mrs. Bass and Stapleton who have been conducting a successful revival meeting here for the past few weeks left yesterday for their home in Georgia, where they will rest several days before resuming their labors in Texas where they expect to be engaged for the next three weeks. Mr. Stapleton expects to spend the last part of the winter season in Sanford.

### The Every Week Club

Mrs. O. W. Brady entertained the Every Week Bridge Club Thursday afternoon at her home on Magnolia avenue. Mrs. C. O. McLaughlin won the first prize and Mrs. W. D. Holden the second.

After the game salad, sandwiches, olives and ice tea were served. Mrs. Brady's guests were Mrs. C. M. Vorce, Mrs. C. O. McLaughlin, Mrs. Forrest Lake, Mrs. Anno, Mrs. T. A. Neal, Mrs. W. D. Holden, Mrs. R. L. Hughes.

### Mrs. Peabody Successful

Editor The Herald, Sanford, Fla.  
 Mrs. H. H. Peabody, 117 W. 10th St., of your city won the second prize for your state in our Kitchen Economy Contest for May. We thought this fact might be of interest to you.

You are probably familiar with the conditions of this contest, which has been widely advertised, and know that we are giving away \$500.00 per month to the housewives of this country for original, practical recipes which will tend to reduce the cost of living.

With the idea that you may wish to give your readers the benefit of this lady's efforts, we show below the recipe which brought this prize to your community. Yours very truly,

### ARMOUR & COMPANY

*Sculpted Corn and Tomatoes* Butter well a deep baking dish. In the bottom place a layer of cold boiled potatoes, sliced thin, then a layer of corn, (about half a can), grate an onion and sprinkle over this season with salt, pepper and butter. Add another layer of potatoes and the rest of the corn seasoning as before and cover the whole with cracker crumbs. Pour over this a cup of scalded milk in which one quarter of a teaspoonful of Armour's Extract of Beef has been dissolved. Bake half an hour in moderate oven.

### Dr. Davis Coming

Dr. J. C. Davis, the well-known optician, will be at the Robbins' Nest Monday, June 17th for one week. Eyes tested free.

Head aches of years' standing cured with glasses by Dr. Davis.

Don't neglect your children's eyes. References: Dr. J. N. Robson, Dr. O. W. King, Med. Ex. A. C. L. J. E. Pace. 81-2tc

### Notice

Good farm and buggy horse for sale and two milk cows with calves. Apply to Thomas E. Wilson. 58-1f

The Gate City House has brought down the high cost of living. Only \$4.00 per week for the finest table board in the city. See Parker. 28

### Good Summer Trade

A trip down the line these summer days will convince anyone that Sanford business firms are not suffering from a summer drouth in the way of trade. Recognizing the forerunner of a dull summer, Sanford merchants are making extra efforts to stimulate trade and the result is most satisfactory. The stores are all offering special bargains and people from a distance are coming to Sanford to do all their trading. Good roads will soon have the effect of bringing more people here and with all the improvements of building roads and the new hotel there will be something doing in the business line all summer.

### For A Better Grade

In this issue of The Herald bids are asked for the grading of the Geneva road through Beck Hammock, and this road when finished will be twenty feet wide on the approach to the new drawbridge, thus giving the travel a fine road to Geneva. Both approaches to the new drawbridge will be made wider and this road will soon be a fine high and dry thoroughfare over what was formerly a swamp and in wet weather almost impassable. Commissioner Soodruff deserves great credit for his untiring work in behalf of the county and especially this end of the county. In his term he has worked wonders in the road, bridge and other improvements with the limited means afforded by the county fund. With the brick roads in conjunction with our fine bridges this section will be the best in the entire south.

### WHERE IS DR. LEWIS?

Different Claims are Against Proprietor of an Exchange at Sanford

Where is Dr. Lewis of the Lewis Vegetable Exchange of Sanford. Some three weeks ago Dr. Lewis started that he was going to South Carolina, and a few days ago when The Packer man was in Sanford no trace of him had been found. In Packer June 1, an attachment was placed on the Lewis Vegetable Exchange office by creditors, and there are many growers of the state and business men of Sanford and other places who are left to mourn the doctor's departure.

Mrs. Lewis, who is at Enterprise, stated that she did not know where he is. He left a small satchel in which he carries his papers and rubber stamps, in the office of the Sanford Produce Co., and the proprietor, H. H. Deane, who is a personal friend of the doctor, states that he has heard nothing from him and has written several letters to Charleston and other points which have been returned undelivered. Is the doctor hiding to evade his creditors or has he met with an accident or with foul play? The question is being asked frequently.—New York Packer.

### Come to the Salt Breezes

The Bay View Hotel, and The Shelter Sanatorium, Hawks Park, Fla.—open all summer. Ten dollars a week for well people, and twenty-five a week for sick ones. 72-Tues-U

Five or six doses of "666" will break any case of chills and fever; it acts on the liver better than Calomel and does not gripe or sicken.

Wade, the Tuner, Orlando. 1f

# PENNANT-WINNING PLAYS

By IRWIN M. HOWE, Official Statistician of the American League

## A CHAMPIONSHIP FOR TIGERS CINCHED BY "WILD BILL"

**F**EW pitchers, if any, ever have hurled a more wonderful game in a supreme crisis than Bill Donovan of the Detroit Tigers against the Chicago White Sox October 6, 1908. Although the entire championship hinged on that contest, "Wild Bill" worked with consummate ease and surprising indifference.

It was a hard game to lose and glorious victory to win. It marked probably the heaviest blow the Chicago American league fans ever suffered and stands the crowning feat of an interesting figure of the diamond.

No race like that of 1908 ever had been seen in the circuit. Eight days before the close of the season, four teams were bunched so closely that any one might have taken the flag. With the elimination of Cleveland and St. Louis, Chicago and Detroit remained to battle in the last series.

"Wild Bill" Donovan.

Jennings led his Tigers into Chicago October 3, confident of winning the bunting. The White Sox were compelled to fight in the last ditch with a fearful handicap. Fielder Jones had to coach his men to three victories in a row in order to win. The loss of one game would spell defeat.

White Sox fans, rated among the most loyal in baseball, were under high tension when Doc White won the first game and Ed Walsh had taken the second. These victories served as giant dynamos generating a magnetic energy that set White Sox fandom afire.

It was moving day on the South Side, Chicago, October 6, the day of the final clash. Those who had followed the fortunes of Comiskey admired the inside baseball of the "Wild Bill" coached by the resourceful Jones, and marveled at the wonderful enduring powers of Walsh, were eager to gain admittance to the park. President Comiskey had bolted the gates, turning away thousands. These fans had come forth to celebrate a victory. Their enthusiasm was keyed up to the breaking point. Manager Jones had used up his available pitchers and Doc White, much

overworked, was sent up to win a pennant.

Bunting, confident, and with an indifferent air, Donovan ascended the pitcher's mound to do battle with his famed opponent. His remarkable control, great speed and unconcern struck terror to the hearts of the home rooters. One by one he mowed down the opposition until the fans despaired. The Tigers' leading pitcher seemed invincible. Not one player reached first in four innings except Fred Parent, who had walked in the second.

In the first Detroit inning, McIntyre singled, Crawford doubled and Cobb tripled, driving in two runs. Fielder Jones in desperation rushed Walsh to the front to save the day. Frank Smith, the Piano Mover, followed in the seventh, but to no avail.

When the ninth inning came Donovan did not waver. He mowed down the desperate White Sox in the order of their appearance. Only two hits, both singles, were made off his huriling and the home club was whitewashed. Chicago fans were stunned and Detroit celebrated a great triumph. Donovan had made baseball history by adding luster to a spectacular championship and tearing the very heart-strings from one of the largest fan constituencies in the game.

FAMOUS "DOMEHEAD" PLAYS  
ON MAJOR LEAGUE DIAMONDS  
Explained by Leading  
Baseball Players to  
**HUGH S. FULLERTON**  
By SHERWOOD MAGEE.

Premier Hitter and Outfielder, Philadelphia Nationals, One of the Most Dangerous and Brilliant Men in the Game.

From my observation of bad breaks most of them are the result of forgetting the game and paying attention to some opponent. If you can get an opposing player to arguing or quarreling, he is bound to get his mind away from the game and make mistakes that would be impossible under any other circumstances. I used to try it on opposing pitchers and on basemen when I was on the bases, and it worked well. If I could get one really angry with me by talking to him or "chewing" with him, he was gone. And the worst mistake I think I ever made came through just that sort of thing. Johnny Evers of the Cubs is one of my best friends, but on the ball field he is a crab and always at some one. I picked him up

mark, because I knew his weakness for argument and talking to opposing players, and for two years we had regular rows every time I came to bat or got on the bases. When he was at bat or on bases I was too far out to be heard, so we had peace. I had an idea that as he was excitable it wouldn't be hard to get his "goat," and I guess as soon as I started he came to the same conclusion about me. Anyhow, it got to be a game and we were after each other all the time. If either of us got anything on the other we never stopped.

One day I was on first and a fly ball was hit out. Of course as I was running at top speed I couldn't see where the ball was, but I saw Evers tear over toward second, dive as if he was trying to reach a ground ball, and stumble and fall, kicking up a lot of dust. I tore on as hard as possible, and I was almost to third, going at top speed, when I heard him yelping at me and everyone laughing. Schulte had caught the ball on the fly, tossed it back to Chance, and I was doubled up. Evers made the most of it and he mentioned it every time I moved. I couldn't say a word back because he had tricked me cleverly, and I had to wait my turn. It came just two days later. I was on first again with no one out, and was running on a hit-and-run play when the batter hit the ball hard. From the crack it sounded like a base hit, but of course I couldn't see the ball. Evers went diving down toward second, stumbled, pretended to be reaching for the ball, and threw up a lot of dust. I backed up fast toward first base talking to him something like this:

"You four-flush runt, you pulled that on me the other day. What do you think this is, you crab?" and a lot

Sherwood Magee.

more. All the time I was trotting backwards toward first. Suddenly I heard a yelp from the catcher, Schulte had trapped the ball instead of catching it. The batter wasn't running out the hit. Schulte threw to first, retiring the runner, and I was trapped between first and second and doubled up again. I was sore enough to bite some one, but it taught me not to lose sight of the ball and not to waste time talking to opposing players, especially when there is some one on the opposing team who is likely to turn a trick. I evened up with Evers before the season was over—and if he wants to tell his worst play maybe he'll tell that end of our argument. When we go after each other on the ball field now we do it with one eye on the ball all the time.

Makeshift Road Construction

When the present campaign of hard road building was begun in Orange county in 1895 there was little in the way of concrete examples for the officials to follow. They had to go ahead and do the best they could with the materials at hand and the materials have proven to be poorly adapted to the construction of such roads as are designed to take care of heavy and constant traffic.

The above condition precludes the possibility of any further road building of a serviceable nature by the county officials, the results showing that their efforts have been fruitless, insofar as permanent betterment is concerned as the condition of the various hard surfaced highways in the county will attest. The fact has been conclusively established that a road to be serviceable should be permanent. It should be built of such materials as will stand ordinary traffic.

The tax payers of Orange county have been called upon to pay out many good sized fortunes to defray the construction charge of these TEMPORARY EXPEDIENTS in the form of one type of road or another. Enough money has been buried in experimenting with various materials in an honest effort to discover that which is the best adapted and the most durable, the least expensive, and of most general utility to the communities through which they extend, to have by now surfaced all the main traveled roads in the county with brick.

The county commissioners have authorized a vote to be taken on the matter on July 13th, to decide officially and legally if it is the sense of the communities interested to establish and maintain this special road and bridge district. To enable one to vote on the question he should be legally and properly registered, with his poll tax paid, as a voter of one or the other of the precincts and in addition to this the voter must be an owner of real estate within the boundaries of the proposed district, in his own name and right.

Information relating to this proposition may be had of the official committee by application to its secretary. This is the first of a series of articles that will appear in each of the semi-weekly issues of the Sanford Herald relating to good roads, until the date of the election.

EXECUTIVE COMMITTEE, By Thomas K. Bates, Sec'y.

Value of Manual Training. It is not only the delicacy of his sense of touch that gives to man his marvelous skill with his fingers, so that he can make all manner of tools and instruments, nothing being too fine for him to handle. This is one argument in favor of manual training which teaches children how to use their hands and enables them to acquire so much useful knowledge through their fingers.—New York Sun.

Judge Leaves Faulty Will. It is strange how many talented judges and lawyers have failed to draw up their own wills correctly. The English Judge Lushington, who died recently, leaving an estate of nearly \$100,000, overlooked the important necessity of having his will and a codicil to it properly attested. Perhaps he intended that his professional colleagues should benefit indirectly by the consequent litigation.

Given Appropriate Name. "Beagumite" is the name given to the new seaweed vulcanite of J. S. Campbell, London chemist. It is proof against heat, cold, oils and the weather, and is recommended as an electric insulator, and a material for bolting, steam packing, vehicle tires, and even for shoes.

Another Steamship Line

An effort, we learn, is to be made by capitalists, with the cooperation of the business men of Sanford, DeLand and other cities to have another line of steamers on the St. Johns between Jacksonville and the first named city, with the purpose in view of getting a daily steamer service on the river for the towns cooperating. The business interests of the towns named will give all their business to the new line in consideration of this improved service. DeLand should take a big and united interest in this move. The town has hoped for years that the A. C. L. would put the main line through the place, it is entitled to it, but it has been nothing but hope, and we still have the little old branch that is a great detriment to the city. We have petitioned and petitioned the officials of the road for the main line, but of no avail. The road gets business sufficient from the place to give it better and more direct transportation facilities. It should be denied every dollar's worth of business here, and if this new proposed river line will come, our people should and will give it all the business here. Then the A. C. L. can discontinue this branch service.—DeLand Record.

Willows as Mourning Symbol.

The Babylonian willow, with its long drooping branches, has come to be the symbol of mourning the world over. Even in China it is planted in such places. There seems to be much authority for believing that it was upon this tree that the Israelites hung their harps before their sorrowing departure from Babylon, whence, perhaps, arose the symbolism of the tree.

Is Golf Scotch or Dutch?

The origin of golf, one of the most popular pastimes in the United Kingdom, has generally been ascribed to Scotland. But this is a fallacy. Lately, however, it is asserted that it is to Holland we owe this game, and that it was brought from Holland to Scotland. For instance, the name "golf" itself is derived from the Dutch word *rolf*, meaning a bat or club. "Fore" — the word shouted before driving off — is derived from the Dutch word *voor*, meaning in front. From "put-ten" — the Dutch word to hole — we get our English word put; and *niblick* — the Scotch "knibloch," a knob of wood — is derived from the Dutch *knobbe-lachtig*, meaning knotty.

He Was Enlightened.

We don't approve of the impertinence, but perhaps in the following case the grouchy street car passenger got no more than he deserved. He had asked a conductor if he knew when a certain train left the North station, and on being answered in the negative he exclaimed offensively: "Why is it that this road employs so many farmers?" Just to look after the cattle that travel on the cars, was the conductor's quick retort.—Boston Transcript.

Bees Were Too Busy.

The mystery of the stopping of the town clock at Newton N. J. was solved after two days' investigation when three "little busy bees" were found on one of the delicate pieces of mechanism of the big timepiece. No doubt trying to "improve each shining hour."

Say, You!

HOW about that printing job you're in need of?

Come in and see us about it at your first opportunity. Don't wait until the very last moment but give us a little time and we'll show you what high grade work we can turn out.

A Needed Reform

There is entirely too much circumlocution in the matter of paying taxes in Florida. A non-resident who owns property in Florida wishing to learn the amount of taxes due on his property is compelled to write to the clerk of the circuit court or to the tax collector (whose office may or may not be at the county seat) who may or may not write and inform the property owner as to the amount of state and county taxes, and the name of the person to whom to send the money. Upon paying this the average man thinks he has paid his taxes. He has only begun. He must now write to the city authorities and learn the amount of his city taxes, and upon ascertaining this amount he will have to send it. There are in every community men who will attend to this matter for small fees—and these fees, though small, are often as much as the taxes.

In the past Florida has conducted her offices for the benefit of the office holders and not for the benefit of the taxpayers. Because one, "good fellow" held the office of county treasurer in each of the 48 counties, these 48 offices have been continued when they are of no more use to the people than a testament is to a frog. Because some two or three hundred "good fellows" have held the office of county and city tax collectors, the Legislature has continued the offices and has put the tax-payers to needless expense.

All taxes should be collected by the state government, through the office of the clerk of the circuit court. All offices of tax-collectors, both county and city should be abolished. But this is something that will take years to work out satisfactorily. In the meantime, however, the Legislature should pass a general law authorizing any town or city to turn over to the county tax collector its tax roll and provide fees for the collection of city taxes at the same time as city and state taxes, and would be a saving in time and annoyance to property holders.—DeLand News.

Debt Collection.

No doubt the world owes all of us a debt, but the question of collection is one which does not seem to be in a fair way to be settled. It is a lamentable fact that there will never again be such brilliant truths and withisms spoken as those which were given to the world by the ancients. Still, there is hope in reflecting that they were born before we were and naturally had the first chance.

Soaked Charlie Jones

Resenting attacks made on his character and business dealings, D. M. McMillan, the well known naval stores operator, administered a severe beating Friday morning to Charles E. Jones, associate editor at Jacksonville of Dixie's Claude L. Engle's paper, who for several weeks has been devoting considerable space to Mr. McMillan and his business associates. Jones is confined to his home on Third street, suffering from severe cuts and bruises on the back of his head and over the left eye.

The affray took place on the corner of Third and Salnut streets at about 8 o'clock, but was over before any one could reach the two men. However, a crowd quickly gathered, and Jones was taken to his residence a short distance away, while Mr. McMillan returned home in his automobile to get an extra pair of glasses. Jones' wounds are painful, and will probably require attention for several days. Mr. McMillan was not injured in the least.

When seen at his residence on Third street, Jones declared that Mr. McMillan had attacked him without warning. He said that he had turned away from McMillan, believing the latter was armed, and that as he turned his back McMillan struck him in the head. He said he wheeled to grasp his assailant, and as he did, McMillan struck him over the eye before they fell in a clench. Jones' left temple showed where one of the blows landed, and a lump on the back of his head also attested to another blow. Besides this he had other bruises. Lakeland Telegram.

Notice of an Election to Establish Special Road and Bridge District in Orange County, Florida, and Determine if Cost of the Building of Such Roads and Bridges Shall be Paid by Issue of Bonds to be Paid by a Tax Upon the Taxable Property in Said District.

Whereas, a petition was presented to the board of county commissioners of Orange county, Florida, on the 7th day of May, 1912, signed by one-fourth of the registered voters of the district hereinafter described, praying that they desire to have constructed and established a special road and bridge district, and to have constructed within said district permanent roads and bridges within the territory which it is proposed to create (said special road and bridge district, said territory being described as follows and the petition further providing as follows:

Beginning at a point on the Wekiva river on the east side, on the township line between Townships 18 and 20, South Range 29 East, and running thence east along said township line to the section post at northeast corner of Section 5 Township 20 South, Range 30 East, thence running south on said section line to the southeast corner of said section, thence south along the south boundary of said Section 29, Township 20, South Range 30 East, thence running east to the waters of Lake Joseph, thence following the north line of the waters of said Lake Joseph to the St. Johns river, thence following the waters of the St. Johns river on the south side of said river to the waters of Lake Monroe, thence following the waters of said Lake Monroe on the south side thereof, to the waters of the St. Johns river west of Lake Monroe, thence following the south line of said St. Johns river to the junction with the Wekiva river, thence following the east side of the waters of the Wekiva river to the point of beginning.

That the description and proposed location of the roads and bridges to be constructed, laid out and improved, is as follows, to-wit: Colony avenue to the ferry three miles, road to be constructed of vitrified brick for a width of sixteen feet. Beardsall avenue to Union City three miles, road to be constructed of vitrified brick for a width of nine feet. Sanford and Orlando road eight miles, to be constructed of vitrified brick for a width of fourteen feet within city limits of Sanford, and nine feet from said limits to Soldier Creek. First street west to Sylvan Lake, five and a half miles, road to be constructed of vitrified brick for a width of fourteen feet within the city limits, and as far west as the old Stenstrom place, and from said Stenstrom place to the range line at Sylvan Lake for a width of nine feet. From First street at the old Stenstrom place to Monroe Ferry two miles, road to be constructed of vitrified brick for a width of nine feet. Beardsall avenue to Monroe Ferry one mile, road to be constructed of vitrified brick for a width of nine feet.

The amount estimated as necessary to pay for the construction of the roads set forth in Two Hundred Thousand Dollars. Estimated. The cost of such construction is to be paid for by the issue and sale of bonds for said amount, payable thirty years after date, with interest at not exceeding six per cent per annum from date of sale, said bonds not to be sold or otherwise disposed of for less than face value.

Now, notice is hereby given that on the 13th day of July, A. D. 1912, an election will be held and the same is hereby ordered, by the qualified electors who are free holders in the above described district, to determine if the above described territory shall be constituted into a special road and bridge district of Orange county, Florida, as prayed for by petitioners, and if there shall be constituted within said special district, as above defined, permanent roads and bridges, as prayed for, and as fully described in the petition on file with the board of county commissioners of said county, and if Two Hundred Thousand Dollars shall be raised by the issue and sale of bonds payable thirty years after date, with interest not to exceed six per cent per annum from date of sale of said bonds, the said bonds not to be sold for less than face value, a special tax to be assessed and collected upon the property within said district and applied solely to the payment of interest, and to create a sinking fund to pay and discharge said bonds.

The following persons are appointed as managers of said election: Precinct No. 3: E. W. Dunn, clerk, T. S. Davis, H. B. Whitton, A. B. Hammett, inspectors. Precinct No. 4: A. A. Hicks, clerk, H. B. C. Rabun, C. D. Pearson, L. Kels, inspectors. Precinct No. 20: A. E. Spjollom, clerk, H. J. Overstreet, J. G. Martin, J. F. Simdell, inspectors. Precinct No. 25: R. C. Maxwell, clerk, J. I. Anderson, Leroy Tillis, W. H. Hand, inspectors.

The election shall be held at the voting precincts within the above described territory. Only duly qualified electors who are free holders shall be entitled to vote at said election. The said election shall be held in compliance with the general laws of the state of Florida. The inspectors holding said election shall immediately make returns to the board of county commissioners after said election is held according to this call.

Done and ordered in open board, this 4th day of June, A. D. 1912. M. G. OVERSTREET, Chairman Board of County Commissioners of Orange County, Florida. Attest: H. M. ROBINSON, Clerk of the Board of County Commissioners of Orange County, Florida.

**Three Games Here This Week**

Sanford will have three games here this week, commencing today with Orlando. Tomorrow with Kissimmee and Friday with Orlando again. The boys are getting warmed up to their work now and some gilt edge playing will result. Sam Edwards, the Georgia Cotton Blossom has arrived in the city and will do some of the heaving for the Collegians. His old side kick, Red Barber, is doing the receiving for Orlando and both teams are strengthening the teams and preparing for a battle royal. There are few teams in the state playing as good an article of ball as the Sanford and Orlando teams and the two cities are receiving notice in the state papers and special write ups of the Sandspur League appear each day. There is no advertisement in the summer time like a good ball team.

**Sanford 2, Orlando 0**

We did it again  
And in their own town.  
The rain tried to be good to Orlando again but it held up just long enough to play the game and the game went to Sanford, by the score of 2 to 0.

The sporting editor of The Herald was not at the game, being too busy figuring up the batting averages of the Orlando players who failed to hit the ball on Thursday.

Modesty forbids a detailed account of the game. We could ask the Orlando papers for information on the subject but they have lost interest in the game since Tuesday and claim now that there is more fun in going fishing than in playing ball. However the score tells the tale better than tongue or pen:

Sanford		AB	R	H	PO	A	E
Brittain, 3rd	4	1	0	1	1	1	1
Edwards, 2nd	3	1	2	1	0	0	0

Wilson batted for Gore in 7th inning.  
Score by innings:

	R	H	E
Sanford	0	0	1
Orlando	0	0	0

Summary  
Two base hits, Pounds, Boyer.  
Three base hits, Edwards.  
Struck out by Lee 9, by Windham 4.  
Left on bases on balls off Windham 1.  
Bases Orlando 6, Sanford 2.  
Wild throw Wilson.  
Sacrifice hits Edwards and Swink.  
Time 1:45.  
Umpires, Tilden and Moore.

**From Orlando's Viewpoint**

A listless game, full of errors and weak play—that's the one-line story of yesterday's game between Orlando and Sanford. The score was nine to two in favor of Celery Town.

The Orlando boys started out as though they were going to take the heights, making two runs in the first inning, but after that they apparently decided that the day was too hot, and Sanford too easy, to do much real work.

It was Orlando's bad day and Sanford's good one, that fetched the runs.

A number of local rooters went up the country to hoot themselves hoarse when the home runs and the two-baggers should come. Their gladness turned to mourning, however, and they came home sobbing.

Our say-so to the boys is, that they ought not only to be written up, but jacked up, when they allow Sanford to beat 'em.

Wilson pitched for Orlando, with Barber behind the bat. Wallace put 'em over for Sanford, with Lowe doing the signalling.

Wallace distinguished himself in the first inning by finding Wilson for a home run. And oh, how the Celery Tops did wave and rustle with animation.—Reporter-Satar.

**There are Two Kinds of Chill Tonic PLANKS AND OTHERS**

## NEWS OF THE WORLD

Items of Interest Gleaned From Various Sources

### HAPPENINGS DURING THE WEEK

Here the Readers Will Find a Brief Historical Spring Flowing For Hurred Readers

Interest is keen in the fifth annual convention of the National Association of Real Estate Exchanges, which opened in Louisville Wednesday and the occasion is expected to prove the most successful in the history of the organization.

The President vetoed the army appropriation bill. He returned the bill to Congress with a message indicating his disapproval of the legislative provision, which would oust Major Gen. Leonard Wood, of the office of Chief of Staff on March 4 next. In his message the President said:

Attorney General Wickersham was advised today that the National Packing Company would be voluntarily dissolved by the beef packers by August 1. In view of this action Mr. Wickersham announced that the government would hold in abeyance the civil suit which it proposed to bring against the company to compel its disintegration.

"The army of the United States is far too vital an institution to the people of this country to be made the victim of hasty or imperfect theories of legislation. As was pointed out by the chairman of the senate monetary committee it is well known that the war college and the general staff have been for many months reorganizing. At the present time, therefore, it is especially inappropriate in my opinion to force upon the statute books legislation enacted without the usual deliberation and care."

Decisions said to control 116 suits involving 200 plantations, worth several million dollars, in the flood section of the Mississippi river valley between New Orleans and Cairo, Ill., were announced today by the court of claims mainly in favor of the land owners on the question of government liability for damages accruing from levee construction work. For seventeen years the controversy has been waged before this court, involving the legal liability of the federal government for having constructed and completed the levee system along both sides of the Mississippi river by confining the flood waters in a narrower channel and placing plantation lands between the improved levee system and the low water banks of the river, now in the adopted artificial channel and thus destroying these lands.

### Leesburg's New Booklet

At the meeting of the Leesburg Board of Trade advertising committee held this week, it was decided to publish an entirely new booklet, showing by pen and picture the advantages and natural resources of the city and surroundings.

It was the opinion of the committee that better results would be obtained if the preparation and publishing of the book were placed in the hands of a professional commercial journalist, consequently the contract was placed with Percy P. Vyle, Florida's well known booklet writer, who spent a few hours in Sanford on Wednesday, looking after the interests of his business in this city.

### Keep the Children Employed

That sounds like a good suggestion, coming from Superintendent Wirt of Gary, Ind., to keep the children busy from the time of rising in the morning until the time of retiring at night—provided of course the occupation is beneficial, and, naturally, no other kind would be suggested. It is a good thing to keep children employed, especially when the employment can be made to interest them, an nothing could have better effect toward keeping them out of mischief, and, when the employment is turned to good account they must be a valuable return. It is certainly a good recommendation for any school, when, like the one held up as a sample, the children will "climb fences to get to it." Would that we had more of such schools—had them everywhere.

Nolly Tolar and Paul Biggers are trying to make the boys comfortable these warm days at Paul's Place.

## MONEY IN SPRING CROPS

Sanford Growers Received Good Prices For Vegetables

The belief that there was no money made in Sanford on the spring crops this year sounds peculiar to a man who has followed the game straight through both in raising the stuff and shipping it. There is more chance for the grower to make money from the spring crops than any other kind and the man who lets celery alone and pays more attention to potatoes, tomatoes, egg plants, peppers, etc., will always make good at the end of the season and the expense of raising them is very light. The following figures on stuff being shipped will bear out this statement:

Over 3,500 packages—peppers and egg plants—were shipped from Sanford section in the past two weeks. Some of the growers had peppers and egg plants to net them upwards \$2.50 per crate f. o. b. car Sanford. Cincinnati, Chicago, New York, Boston and Baltimore have been getting the bulk of shipments. Egg plants sold as high as \$6.00 in Chicago and peppers in Cincinnati sold as high as \$4.00. Western markets are lower this week, but Boston quoting egg plants, peppers from \$3.50 crate, while same prices prevailed in Baltimore and New York.

### One Lady Officer Dies

Richmond, Va., June 19. Capt. Sallie M. Tompkins, said to be the only woman who ever received a military commission from President Davis of the Confederate states, is in a dying condition at the Confederate Home of Needy Women here, suffering with acute indigestion. She was one of the ministering angels of the Lost Cause and in recognition of her unselfish labors and unquestioned executive ability, President Davis bestowed on her the rank of captain of cavalry.

### Sunday at the Methodist Church

Sunday school 9:45 a. m., J. K. Mettinger, Supt.  
Preaching 11 a. m., by pastor. Subject, "Good Clothes."  
Preaching 8 p. m., by pastor. Subject, "A Prayer Meeting in Hell."  
Prof. C. L. Polk is in charge of the choir at this church and good music will be rendered at each service.

### Next Sunday Afternoon

That long delayed Associated Churches meeting is to be held at the Star Theatre at four o'clock next Sunday afternoon. It is important that every one who believes in this movement should be there and help to get it started right. The constitution is to be adopted and directors and officers elected to carry on the work. Let every citizen of Sanford be there.

### Those Tent Meetings

Mr. Waldron will tell what he thinks about the Bass and Stapleton tent meetings at the Congregational church next Sunday night, at 7:30. Come and hear what he has to say.

In the morning will be given the second of the sermons to children. There were twenty-eight children that stayed to hear the children's sermon preached last Sunday. Let more stay next Sunday and let the parents come too. The subject will be "What the Clock Tells Me." This is another object sermon.

### Weather Report

Overcast weather. Probably showers south and central portions of state to night or Saturday.

### Will Improve Farm

Mr. and Mrs. R. F. Tracey of Argonia, Kans., arrived in Sanford yesterday and will begin improvements on their farm at once. Mr. Tracey spent the winter in Sanford and after watching carefully the progress and marketing of Sanford's last winter crop purchased a farm near Beardall and Celery avenues. He will begin improvements at once and hopes to get the place in cultivation at an early date.

### Will Buy A Machine

The Kissimmee Valley Gazette has placed an order for a linotype machine to be installed in their office not later than the first of September. It is understood that this added equipment has been made absolutely necessary by the growing business of the Valley Gazette.

## FOUR MINUTE SESSION

The Republican Convention Is Moving Very Slowly

### BRYAN PRESENT AS REPORTER

Roosevelt Men Come Back Again In The Credential Committee Meetings

Chicago, June 20.—Exactly four minutes 12:02 to 12:06 p. m. was the duration of the opening session of the third day of the Republican national convention. The immense crowd—nearly 14,000 people—who had fought their way into the hall after an hour or more in line had to go out again.

The only business done was the prayer, and the motion of Watson of Indiana to be in recess until 4 p. m.

The ostensible reason for the recess was the fact that the credentials committee, at work upon the contests affecting the personnel of the convention had only fairly begun its work.

The various delegations had begun straggling in about 11:30; the crowds at the doors outside forcing them to enter singly. The band began playing popular airs at 11 o'clock, and continued up until the gavel fell.

The only welcoming applause this morning was for William Jennings Bryan, who is reporting the convention for a number of newspapers.

Roosevelt members of the credentials committee, acting under the suggestion of Colonel Roosevelt, returned to the meeting of that body today.

Their statement last night that they had left the committee for good was followed by a decision to go back and participate in the meeting of that committee today.

Under the revised rules, the Roosevelt men claimed that they had won their chief points, namely to secure the introduction of new evidence and greater time for debate.

More than an hour and a quarter was occupied by the Roosevelt attorneys in presenting the Roosevelt side of the case that of the Ninth Alabama District.

Members of the committee express doubt as to the possibility of concluding the 72 contest hearings in time to make a report to the national convention today.

Roosevelt members of the credential committee agreed in a conference at noon to push only the Arizona, California, Texas and Washington contest cases, 18 delegates in all.

They declared these were the most important cases. The agreement was made in the hope of shortening the committee's sessions.

The total number of contests involved in the Hadley resolution was 72 and included also 22 delegates from Arkansas, Indiana, Kentucky, Michigan and Tennessee.

The prospect of holding the national convention idle for several days while these were considered, induced Roosevelt men to agree to abandon the last group and center their fight on Mr. Halbert stated that "seven or eight Roosevelt men had agreed to the plan" and that it would be formally presented to the convention.

The Ninth Alabama contest involved the control of the district committee. Roosevelt men claimed the Taft forces had bolted while the latter claimed they had actual control of the committee and that the Roosevelt men had used an unauthorized resignation of a Taft member in order to fill his place.

Under the rule admitting new evidence the Roosevelt attorneys succeeded in introducing an affidavit from the Taft secretary of the district committee to show the Taft men had been "bolted."

### Ain't It The Truth?

When things do not suit a citizen he generally drops into the printing office and says to the editor: "It's an infernal outrage! It is your duty to denounce it as such through your paper. Burn 'em up!" If the editor acts upon this advice and the persons who are "burned up" resent the burning, does the citizen stand back of the editor? Not on your life. He has business around the corner. People are mighty tickled to have a newspaper "jump on" somebody, but when the newspaper has a little item that rubs their fur the wrong way, they are up and coming. Think of these things the next time you want a newspaper to "burn 'em up," and go and burn 'em up yourself.—Lakeland Telegram.

## TURNED BILLY LOOSE

Ball Player Was Not Even Fined For Disorderly Conduct

In Mayor's Court Wednesday morning the participants in the afternoon's unpleasantness were present and after the facts in the case had been gleaned the Mayor decided to allow Billy Beardall the freedom of the county, upon his promise to be good in the future. Billy said he lost his temper and the affair is patched up as far as the legal aspect goes. But the decision does not suit the people of this city who want good order enforced at the ball grounds and this decision of Mayor Spencer's establishes a precedent and the uniform of a ball player seems to be a protection from the law. The fight at the grounds last Tuesday was a fight and should have been punished, no matter who was the aggressor or who the participants. The matter is not a base ball matter but a municipal affair, and governed by the laws and ordinances of the city of Sanford, which distinctly states the penalty attached for assault and battery, and if Tuesday's affair was not plain assault and battery, in the police category, then the people who witnessed the affair are prevaricators. The Herald has no wish to air the affair. We are glad it has been amicably settled, but the man or men who fight on the ball diamond are common offenders against the common law and as such should be punished and such an act will have a salutary effect upon future trouble makers.

### Bryan Enjoys Convention

Chicago, Ill., June 21. Col. William Jennings Bryan of Nebraska, the Democratic candidate of the Democratic party for President and attending the convention here as a working newspaper man, says he is enjoying the gathering more than any other Republican gathering he ever attended. He says this is so, because he has been bested by both of the leading candidates for the Republican nomination for the presidency and is in position to go to the loser and assure him that defeat is not fatal, that he, having had it for his portion three times is still alive and enjoying himself and is, therefore, an authority on the subject.

As to the winner, he says whatever mistakes are made this week, the Democrats will have full opportunity and power to correct at Baltimore.

"Not a single worry for me," said the colonel. "You see I am having the time of my life."

### At The Presbyterian Church

Rev. J. F. McKinnon will preach at the Presbyterian church next Sunday morning and evening. All are cordially invited.

C. Green and B. Jolly, the popular comedians who have made hundreds laugh at the Star Theater will close their engagement at the Star Saturday night, Friday night they will present the "Dutchman and the Girl," a fine comedy act and Saturday night "Willie's Finish," the act which was such a big hit in Jacksonville. The pictures have been unusually pleasing this week, and features of the "Star" brand are billed for Friday and Saturday nights. The same low prices prevail and a show that will please the most fastidious will be seen at the Star both nights. Your last chance to C. Green and B. Jolly.

### Writing About Brick Roads

The Herald is in receipt of many letters from foreign residents wanting information regarding the bond issue for brick roads and all of the non-residents who own property here are heartily in favor of the new road district and the brick roads. Most of them live in communities where the roads are made permanent and naturally they favor the same treatment in Florida, where the need of good roads is so manifest. Several of these tax payers cannot vote here but they are instructing their friends who can vote to support the bond issue for the increase in value to the property will more than pay for the improvements.

### Cooked Food Sale

The ladies of the Presbyterian church will have a cooked food sale at the store of I. P. McCuller tomorrow afternoon. Pies, cakes, salads, etc.

## ALL AROUND FLORIDA

The General News of The Land of Flowers.

### CULLED FROM THE STATE PRESS

An Epitome of the Week's Most Important Happenings in the State's Domain.

The Seaside Inn at Daytona Beach opened for the season last Wednesday. It is understood that over 100 partook of the opening dinner. After the dinner a big reception and dance was enjoyed.

Crystal Springs is the name of a new town which is being established at the southern edge of Pasco county, on the Seaboard Air Line railway, about midway between Plant City and Dade City.

Lakeland is soon to have an up-to-date hospital, citizens having subscribed stock sufficient to show that the venture will prove a certainty. The hospital will cost in the neighborhood of \$15,000 and will be erected in the Drane addition.

Jacksonville, through the efforts of J. D. Rooney, assistant industrial agent of the Seaboard Air Line railway, is to be made the headquarters of the Womanada Land Association, a concern having a capital of \$300,000, which will have for its chief purpose the development of 18,000 acres of land in Duval and Nassau counties.

Buoyant with the anticipation of a fine day's outing with a number of his young friends at Worthington Springs, when he left Gainesville Sunday morning Homer H. Hankin, 14 years of age, son of H. H. Hankin, secretary of the American Pecan Company, was returned to his home a corpse Sunday night, followed by the grief-stricken father, who was almost frantic from the effects of his experience. The lad had been drowned in a bayou of the Santa Fe river, within sight of a dozen of his companions, who were out enjoying a swim, and for three hours or more the body was under the water, finally being discovered in about twelve feet of water, but lodged under a brush only about two feet below the surface.

For some time there has been considerable talk of another election to determine whether Miami should issue another series of bonds, for improvements which are very necessary. It is generally acknowledged the necessity of this step. The city council has ordered an election to take place on August 27th to determine whether said bonds shall be issued. The bonds are to be issued for the following purposes and none of the funds are to be diverted for other purposes. For sewerage the sum of \$15,000, for the purpose of widening, opening and paving streets, \$20,000; for acquiring property for docks, parks, etc., \$60,000, for the purpose of acquiring and equipping a fire sub-station, \$5,000; for payment of existing indebtedness, \$20,000, for the purpose of constructing furniture for destroying garbage, \$5,000.

### Cut In Price Of Ice

With the price of ice cut in half, practically speaking, consumers can now have this essential commodity at 20 cents per hundred pounds and in households ice will be delivered at the same rate, in small quantities, as it has been to the wholesale consumers.

Beginning with today, this new rate goes into effect and Jacksonville will have manufactured ice as cheap as it is possible to sell and deliver it and perhaps it will be the lowest rate anywhere in the United States. There is no telling how long the cut in rates will be in effect, but with a competition started the local concerns will maintain the new prices for a considerable time.—Jacksonville Times-Union.

### Heavy Frost In Orlando

Reports from Orlando indicate that a heavy frost hit that city last Tuesday. It occurred shortly after the ball game here and was noticeable as soon as the players and their friends arrived back home. Manager Cheney has ordered a new player from the South Atlantic League to prevent a repetition of these killing frosts in the future and Orlando hopes to warm the atmosphere to such an extent that the home team will not have their fingers touched by the cold again this winter.
