Florida Industry Will Be Proud Of Ads Says Graves

LAKELAND- The Chairman of the Citrus Commission today saw the big Commission advertising program for next year as something "the whole industry will be very proud of," and predicted "it good marketing year for all our gruit." will form the basis for another

J. R. (Rip) Graves of Vero Beach said the new program will be presented to the industry at the Commission's meeting on September 16. He, along with five other Commissioners and three top staff members, has just returned from New Yok where they took an advance look at the \$3. 700,000 advertising plans for next season.

Commissioners, in addition to Graves, meeting with Benton & Bowles, Inc., the Commissioner's consumer advertising a geney, ford, chairman of the advertising merchandising committee Tom B. Swann of Winter Haven Vice-chairman of the Commission: Key Scales Jr., of Weirsdale; A. V. Saurman of Clearwater and Albert Carlton of Wauchula, Also present were General Manager Homer E. Hooks; Director of Advertising and Merchandising. Frank D. Arn; and Advertising Manager Harold S. Gardner. Gaves described it as a pro-

ductive and worthwhile trip. "Commission members made many practical suggestions 'n copy text and appeals which will be incorporated in the plans," he said. "We freely reviewed several possible themes for the new program and media combinations for taking it to the greatest numbe of consumers."

Graves said it was certain that the \$5 million advertising-merchandising plan for 1958-59 will be a continuation of the "hard-hitting themes which have done so much in the past to establish citrus as a staple in the American diet, as evidenced this year by heavy sales despite substantially higher prices brought about by the freeze loss-

The Commission Chairman said anore attention would be given to the Vitamin C content of grape-fruit, in all forms, and in what he described as "the powerful health and nutritional values of orange julee in addition to the good taste." He said theese points would be made in new and appeal-

ing ways. "We discussed and considered earefully the tremendous complexities of television advertising," Graves said. "No specific shows were recommended to us by the agency. We likewise discuss the affectiveness of magazine advertis-ing in reaching the masses of consumers with our Florida citrus

He explained that prior to the Commission's September 16 meetmg, the Advertising and Merchanfising Committee would meet with national brand advertisers in the Hirus industry and with advisory comittee "in order to obtain their suggestions and advice" for developing the most effective pro-

"I am firmly convinced that the whole industry will be very proud of the 1988-39 Commission advert-sinb, and that it will form the ininb, and that it will form the hasis for another good marketing year for all our fruit," he added.

The Commission in June adopted a consumer advertising budget amounting to \$8,700,000 of which \$700,000 is to be held in reserve against increasing media and production costs. Also adopted was \$1,500,000 hudget for merchantising.

Seminole County Problems, Needs Dumped In Commissioners' Lap

This is speaking, of course, of the probome of the county.

Many weeks age the Board of Seminole County Commissioners named an advisory

county Commissioners named an advisory examilities—or commission — to study the many problems of Seminole County. It was pointed out that the problems were many, and the solutions hard to some by.

Nevertheless, members of the board of manufactories each named two outstanding attends to the committee, and then added the Seminole County Attorney as the

There is no denying the fact that the sieven man advisory group worked long, herd, and tirelessly. They devoted many hours in long meetings in order to talk with heads of county departments.

And from these conferences, study groups, sarchings, and continual digging, the comlittee members came up with some outtending facts and figures.

Each one of the committee members found the county in the shape that they were told the county would be in. Maybe they found conditions even worse than what her actually expected.

Advisory committee members found that e County is fast losing taxpayers. They found too, that Seminole County is growing faster than anyone would want to on which to operate and expand and keep up with the demands made upon its governing

They found that the tax structure isn't right-that far too many property holders aren't paying their fair share and too many are paying more than their just and equitable share.

But-that's the way they left it. All of this is admitted, by the way, in a letter addressed to the Board of County Commissioners that was expected to incude the recomneedations that might bring Seminole nty back up on its feet in equal recogniwith other counties throughout the

Friday, July 25, 1958

Well—it was dumped right back in their that an elected body of men from all over the State of Florida, set the millage for Seminole County.

However, we bee to differ with the committee in one respect. It is with the paragraph in their report to the Board of County Commissioners which states "The committee feels that the tax problem in this county is more complex than in many others which are enjoying rapid growth of population because this county is and has been basically an agricultural county, with thousands of its acres used for ranching, farming and citrus. Agricultural income or ability to pay taxes out of agricultural income are in no way increased by a growing local popula-tion or by industrial growth and income."

We find that agriculture is a \$7 million enterprise in Seminole County, as small as it is-and the industry is still growing. That daughter, Mrs. Anna Bell Wrye; sen. 'is wrapped up in agriculture.

There are too many other counties in ville, Tenn. Florida which depend more upon agriculture Mr. and Mrs. Gene Gore are enthan Seminole County. There's just one dif-ference—in Seminole County agriculture is Critchfield. As Genie is a lovely mother and sisters and to get her big business and able to pay its way.

Behind the scenes of the recommendations there are probably the thoughts and fears of the big land owner that "my taxes might be raised" or "my rights come first before others are considered."

The committee is commended for the work and efforts that were expended in studying the needs of Seminole County. Statewide legislation won't solve our problems at home, though. It takes action and interest on the part of the people here.

We need that and need it now.

"If I do," he promised, "I'll buy you that mink stole you keep talk ing about."

Boyd predicted her husband would hit .310.

"If I do," he promised, "I'll buy you that mink stole you keep talk ing about."

Boyd elimbed to .312 Wednesday of the almost perennial prochamps. But that was only part of the almost perennial prochamps. But that was only part of the story. As blocker on pass of the story. As blocke header.

Mobile won the nightcap, an affair that lasted but nine innings and two hours, 35 minutes. Atlanta won the first 11-10, Mobile the second, 6-6.

He should werry. Baltimore boss bar but later sold it, now works for the Post Office in Cleveland, to pay for it in the form of a second, 6-6.

Whatever nappend.

Motiley? The old pro, who opened as but later sold it, now works aget one.

Proving once again that money is the root of all evil even though it will buy anything but poverty.

THE CARD OF THANKS Vary uften a Card of Thanks in The Sanford Marale mosts a need which is difficult to fill in any other way. Not only is a gracious expression of gratitude to these who have seen the tributes but also courteously acknowledges the services and the nessees of the many to whom a personal note of thanks cannot we be mailed.

Newspaper Cards of Thanks are accepted as socially current to mailed.

Newspaper Cards of Thanks are accepted as socially current to mailed.

There is no prescribed form for a Care of Thanks, it can be aborted or as detailed as you desire. When the occasion comes you will find a sympathetically understanding member of our staff to assist you.

THE "IN MEMORIUM" NOTICE It is the custom of many families in this country to commente rate a bereavement by an "in Memorium" notice in nowmond classified columns. They find a real solder therein Proceedings selection of a suitable verse brings back to them tender, plotted recollections. As Eliza Cook, the English poot has so beautiful

"How cruelly sweet are the school that start

that start

What memory plays an eld tune
on the heart."

Most proquently an in Memorium is theorise as the anniversary of death However, other dates, which it is felt are apprepriate or meaningful are also selected. The hirthest of the departed, the wedding anniversary, Memorial Day, even Christman are among other significant occasions chosen.

If you are heattant to express your tender thoughts in posting form, you may avail yourself of the Herald's collection of chains received. These express in poetic beauty the emotions of the heatty strings. Among them are verses appropriate to any devutament.

WELL-TO-DO WAITER from an expensive restaurant A took his young son to the zoo one Sunday, and the two watched the lions being fed. The keeper threw a huge slab of meat into the cage and

went his way. "That wasn't very polite," criticized the son. "Why doesn't he serve nicely, the way you do to your customers?"

"Confidentially," whis-pered the father, "lions are bum tippers." . . .

Sign in an Edinburgh cafe: "In case of attack by intercontinental missiles, remain calm, pay your bill, and then flee for shelter."

In the 1936 Presidential election, when Alf Landon bagged only Maine and Vermont, a friend toted up the returns and eighed, "Tough luck, Chief, but I guess the people have spoken." "That they have," admitted Landon ruefully, "but they didn't have to speak quite as

"The tournament was cancelled on Seminole County roads where restricted zones are located.

The Sheriff stated this morning that there is so much excessive speed that "It is necessary to put a stop to it immediately."

There are restricted zones on Celery Ave., Geneva Ave., Wast First St., 17:02 and other areas where speed is maintained at a rate much lower than open highway speeds. "This is necessary because of congested areas, narrower roads, and heavy traffie," said the Sheriff.
