Passengers Escape as Liner Is Burned

One hundred and seventy-five passengers and 109 members of the crew were saved when the Clyde liner, Lehape, burned to the water's edge off the Delaware breakwater. It was bound from New York to Florida. This exclusive photo was taken by a cameraman from an airplane that circled over the burning steamer just before the last sailors took to the boats.

STEWART'S WASHINGTON LETTER
By CHARLES P. STEWART

WASHINGTON, Nov. 24.—(AP)—Congressman Davey of Ohio is mild of manner, but he has nerve. Otherwise he never would have dared to announce his authorship of a bill to suspend all civil service rules for two years, that President Coolidge may separate 100,000 to 200,000 federal employees from a half billion dollars' worth of jobs.

Davey says himself that his bill, if passed, "will, for a limited period, give more power to the president (a Republican president and Davey's a Democrat) in time by peace than has been exercised by any war president."

Politicians know very well that it's risky to fire public servants, and the more an administration fires, the riskier it is. Still, the leaders would be inclined to take that risk at present, in the interest of a big saving, which would please the county even if it did create a good many sore heads.

But civil service rules, stand in the way of much firing. Suspending them doubtless has occurred to the administration folk long before now. Yet how could they take the initiative? Their motive would be questioned, of course. They'd be accused of attempting a general clean-out, in order to get their own henchmen in.

Now Congressman Davey, a Democrat, steps into the breach. His bill unquestionably is a genuine economy measure. The government's executive personnel ought to be cut down. If the administration is as nervous as Davey the bill will get its support (if so it will be odd to see a Republican administration backing a Democratic congressman's bill) but it will be hard fought, too.

It's noteworthy that the first broadside against it comes from one of Davey's fellow Democrats, Congressman Black of New York.

Washington—The success of the Italian war debt settlement negotiations came as no surprise to official Washington. The tip was passed out in advance that Count Volpi di Misurata had his orders from Premier Mussolini to come to terms with the United States—to get the best terms he could, but on no account to let the negotiations fall through, as the French negotiations did.

To be sure, agreeing to pay a debt and actually paying it are two quite different things. Nevertheless the Italians did an excellent stroke of business simply in agreeing to pay. Unless and until they default, this country is bound to assume that they mean it. Thereby their credit is greatly strengthened, their money increases in value, their financial position is improved all round—especially to the point—they're able to do some more large scale borrowing here.

All this redounds to the Mussolini government's glory. It redounds to it all the more by reason of its contrast with France's balkiness. Nor is it a bit likely

Faithful

Mrs. Chester Arthur Nelson of St. Louis didn't love her love when she found her husband arrested for bigamy, having had a wife when she married him. "If they put him in jail I'll go there and live with him," she says. She is 18 and has 21.

that the wily Signor Mussolini failed to think of this detail. France, of course, is decidedly a stronger country than Italy. If the former couldn't pay it seemed reasonable to guess that the latter couldn't. And then she "came through" and surprised, not those "in the know," but most people! Immediately, "Good little Italy!" exclaimed everybody.

It's true that the compact between Count Volpi and Secretary Mellon will have to be ratified by the Roma government and by Congress, here in Washington, but indications are that there will be no hitch about this. What Premier Mussolini says "goes" in Rome, and since he wanted an agreement and now he's got it, it's safe to predict that he'll "O. K." it. On the other hand, the Italians have made themselves extremely popular here, so Congress appears reasonably certain to strain every possible point in their favor.

Growth of Sanford

There is really no need to wish that you "were in Florida three or four years ago," for here are greater and surer opportunities today than those tested the courage of the pioneer investors of yesteryear. Sanford today, through its tremendous growth and constant expansion, its huge improvement programs and continuously increasing population and wealth, is in the center of the spotlight of public interest as one of the fastest growing cities in the entire state.

MARVANIA

—places before the investor an unequalled opportunity for the richest margin of profit in the shortest possible time, for Marvania is destined to become Sanford's most exclusive residential and apartment house district; its location, improvements, and surroundings assure that.

Invest in Marvania now while the exceedingly low prices prevail. This development will be taken off the market soon, only to be offered to the public again at much higher prices. Investigate this development today. Prices range from \$2500 to \$3400, 20% cash, balance to suit the purchaser.

Old Hickory Case Is Wiped Off Books By U.S. Government

WASHINGTON, Nov. 25.—(AP)—The Old Hickory case, the last of the war fraud charges brought here by the government was wiped off the records of the Columbus Supreme Court today on motion of District Attorney Gordon.

Acting at the request of the defense, the district attorney notified the conspiracy indictments against Everly M. Davis of New York and Ernest C. Morse, of Cincinnati, growing out of the sale of the Old Hickory Power plant at Jacksonville, Tenn.

Morse was formerly director of sales for the War Department. Alex Phillips of New York, indicted with Davis and Morse, has died since the indictment was reported.

Defense counsel pointed out that a civil suit to set aside the sale had resulted in a holding of the contract. The plant cost the government \$50,000,000. The Old Hickory case was the first brought here and the last disposed of. All of the others resulted in verdicts for the accused.

CO-OPERATION OF STATE GROWERS IS APPRECIATED

Agriculture Head Expresses Thanks For Aid Given Him in Enforcing Citrus Fruit Measure Enacted This Year

TALLAHASSEE, Nov. 25.—(AP)—Nathan Mayo, commissioner of agriculture, in a statement to the press here, expressed hearty appreciation for the manner in which growers, packers and shippers of Florida co-operated with the inspectors of the department in enforcing the citrus fruit law enacted by the 1925 legislature.

"It has been through this co-operation," said Mr. Mayo "that this department has successfully enforced the provisions of the act."

"I wish also to express my full appreciation to the officers and members of the Fruitman's club," the statement continues, "for the splendid and whole-hearted co-operation and assistance which they have at all times rendered to the department in its attempt to efficiently and satisfactorily enforce the law."

"The department has been most fortunate indeed in securing the services of such capable inspectors, most of whom are young, energetic college graduates, thoroughly efficient, and have for the most part, served the state to the satisfaction of the department, as well as the citrus industry."

"To the inspectors much credit is due for a successful enforcement of the law, and to them individually and severally I take this method of expressing my sincere

thanks for the splendid service which they have rendered." By enforcing the law, Mr. Mayo declared, Florida has succeeded in turning out a creditable market of citrus fruit, which has resulted in an increasing demand for it in the northern and eastern markets, with the highest prices yet prevailing. The growers, he said, can keep up this standard by broadcasting the fact that they will voluntarily continue their adherence to the citrus fruit laws.

Better Buick operating costs are very low. This car is thrifty—both in purchase price and in ownership.
Buick design protects all operating parts from dust and wear—barricades them with iron or steel housings in the famous Buick "Sealed Chassis" and "Triple Sealed Engine".
The famous Buick Valve-in-Head engine develops

more power from a given quantity of gasoline than other types of engines.
And now, the Buick oil filter makes it necessary to change crankcase oil only at rare intervals.
Even smaller, less powerful cars do not match the Better Buick in low cost of operation and maintenance. You add to your power to economize when you buy a Better Buick!

BIBLE VERSE FOR TODAY

COUNT YOUR BLESSINGS.—Bless the Lord, O my soul; and all that is within, bless His holy name.

Bless the Lord, O my soul, and forget not all His benefits. Who forgiveth all thine iniquities; who healeth all thy diseases; Who redeemeth thy life from destruction; who crowneth thee with loving kindness and tender mercies;

Who satisfieth thy mouth with good things; so that thy youth is renewed like the eagle's. Psalm 103: 1, 5.

PRAYER.—Father, may we come into Thy presence this day in a spirit of genuine thankfulness. Fill our hearts with gratitude for Thy goodness, and for Thy wonderful works unto the children of men, and to Thy name be all honor and praise now and forever. Amen.

THANKSGIVING IN THE COUNTRY

I suppose out in the country they are pillin' up the stuff. The jellies and the cookies, makin' 'em sure they'll have enough; And the women in the kitchen are as busy as can be.

Thanksgiving in the city yearly comes and goes to us, And we're little time for planning, and we're not included to fuss, But Thanksgiving in the country means a week for making plans.

With the clatter of the dishes and the rattling of the pans And the dusting and the sweeping and the baking of the pies For the visitors we're coming with real hunger in their eyes.

It's time for hallelujahs and a day for being glad, It's a family reunion with nobody feeling sad, With a table set for twenty, piled with every sort of treat.

And more good stuff provided than a regiment could eat, With children most impatient to be set upon the feed; Oh, it's there there is real meaning in a prayer of gratitude.

I suppose out in the country they are working hard today, Getting ready for the children who have grown and gone away, And the coming back Thanksgiving with a dim and misty eye, I can see a dozen barnyards where the turkey feathers fly.

But we're living in the city and we're now no place to go For the old-time glad Thanksgiving which the country people know. —Edgar A. Guest

We know that John Rumbley could sing tenor until we heard him warble very softly, "I'm In The Jail House Now."

The entire first section of Loch-Arbor, Sanford's newest subdivision development, was sold out on the first day, demonstrating clearly the faith that investors have in this city.

Headline says, "Republican Leaders Moving Slowly in Dealing With Insurgents." Which is a good example of knowing which side your bread is buttered on.

A number of scientists of the University of Paris have signed a protest against the verdict rendered in the Scopes trial at Dayton, Tenn. Now let's see, what was that trial about?

No, it wasn't Johnnie Walker who was elected mayor of New York City yesterday, although Jimmie's election is significant of the same thing.—Sanford Herald.

No, Johnny Walker, the best road engineer in Florida, is right on the job completing Marion's fine system of highways.—Ocala Star.

Before Old Ben's "robbed" took charge Johnnie Walker was exceedingly popular in this part. Regiments in pace.—Tampa Telegraph.

The Ninety-Second Psalm

It is a good thing to give thanks unto the Lord, and to sing praises unto thy name, O most High. To show forth thy loving kindness in the morning, and thy faithfulness every night.

Upon an instrument of ten strings, and upon the psaltery; upon the harp with a solemn sound. For thou, Lord hast made me glad through thy work; I will triumph in the works of thy hands.

O Lord, how great are thy works; and thy thoughts are very deep. A brutish man knoweth not; neither doth a fool understand this.

When the wicked spring as the grass, and when all the workers of iniquity do flourish; it is that they shall be destroyed forever. But thou, Lord, art most high for evermore.

For, lo, thine enemies, Lord, for lo, thine enemies shall perish; all the workers of iniquity shall be scattered. But my horns shall thou exalt like the horns of an unicorn; I shall be anointed with fresh oil.

Mine eye also shall see my desire on mine enemies, and mine ears shall hear my desire of the wicked that rise up against me. The righteous shall flourish like the palm tree; he shall grow like a cedar in Lebanon.

Those that be planted in the house of the Lord shall flourish in the courts of our God. They shall still bring forth fruit in old age; they shall be fat and flourishing.

To show that the Lord is upright; he is my rock, and there is no unrighteousness in Him.

That Twelve Pound Look

James Barrie has written a play in which he illustrates the occasional misfortune of success. Some men work for the good of their fellow men. Most men work for the sake of the money or the power they get out of it. It is when a man puts his work above his honor or his religion that success is unfortunate.

In the play Sir Harry is about to be knighted. He sends for a typist to write letters to his friends answering messages of congratulation. When she arrives, he finds her to be Kate, his first wife, whom he divorced fourteen years before.

They are alone and soon are reviewing incidences which led up to their divorce. She had left a letter giving him the impression she had gone away with another man. Sir Harry is keen to know who this man might have been who was so wonderful as to attract a woman from him. Finally she tells him that there was no one. That she left him for no one else, preferring to live alone and make her own way in the world rather than live with him.

This is a terrible blow to his pride. He recalls how he covered her with jewels, the elaborate dinner parties over which she presided, and his incomparable success. He remembers he started life with very little. He worked hard and grew wealthy. He became prominent and a member of fashionable society. He was successful, intolerable successful.

He placed his success above everything else. He dressed his wife in utmost gorgeousness, not because he loved her, but because, so dressed, she made an excellent background for him. He gave huge dinners, not because he had many friends, but because it pleased him to appear popular.

She realized this. She became aware of the fact that while she had been his wife and an equal partner in his life and affairs, she now was merely his chattel, one of his amusements, a part of his many decorations. She began plotting for her freedom.

She hired a typewriter, learned to operate it and then got work. This, without his suspecting it in the least. When she had saved twelve pounds, she bought the typewriter. Then with a sigh of relief, and leaving a farewell note to her husband, she departed.

Now fourteen years later, she tells Sir Harry, who has married again, to beware of the twelve pound look. Perhaps his present wife is plotting her escape. No woman can stand too much success in her husband.

Perhaps there are in Sanford instances of excessive success. Certainly there are many men in Sanford who have recently and suddenly become fabulously rich. Perhaps they take their success nonchalantly and without too much conceit. But if they do not, if they think their present wealth is due entirely to unusual mental powers, and a depth of foresight and wisdom, which places them on a pedestal somewhat above the average mortal, they had better watch for that twelve pound look.

These (speculative) conditions are temporary. Born of the boom, they will die with it. Florida must go through the experiences that always accompany boom times wherever they may develop. But residents of the state are looking forward to the time when speculation shall cease, prices seek a normal level and the state rid itself of speculators now regarded as objectionable; when Florida shall be left free to make the steady progress that well-wishers see in prospect for it.—New York Times.

Florida And Ohio

A number of concerns in Florida are taking the same attitude toward Ohio and the knocking communities of the North, that those same communities are taking towards Florida, with the exception that all Florida business interests are doing is to quit trading with firms in Ohio and other points and they are dealing on the square and not misrepresenting anything. We believe that such an attitude will do as much towards softening the untruthful heart of some of the Ohio knockers, which includes the Scripps-Howard corporation of Ohio and California, as anything that could be done.

A typical letter returned to an Ohio firm which is doing a big business in Florida follows: "Gentlemen: Your request for further business received but we are trying to co-operate with Florida boosters and Florida interests and one plan is not to patronize any firm in Ohio until the Ohio bankers, the Ohio newspapers, etc., quit lying and knocking on Florida. We do not fear the truth."

"Since Lakeland has been included in the list of the Ohio knockers, we are becoming especially interested over the misrepresentation and until Ohio business men who want to be fair and

are not afraid of a square deal, wake up and stop the banks and newspapers, Ohio will receive the kick back before long. "We are sorry but desire that you cancel all future orders that are not covered by any contract." The above letter sent to more Ohio firms who ship to Florida would help bring Ohio back to normalcy and wake them up to the situation that Florida does not intend to put up with the misrepresentation any longer. If those firms want to print the truth about any special persons or sections or cities or business institutions that is all right, but when they make it all general about Florida and the statements are untrue for the most part of the state, then it is a different matter. Not a single article that has appeared in the knocking papers has specified any definite hotel, restaurant, individual or corporation, simply because the writers knew they could get away with generalities and wide sweeping statements, and they also know that what was said in another way would have to be proven because no person in Florida is going to stand for the misrepresentation and knocking that have been going on, if it changes to be him individually. Therefore the thing for Florida people to do is fight back in the open and stop all business going to firms that help sustain the knockers.

\$4,000 a Foot, Rent. Law Against Strikes? Well, We struck One. The Ladies of Bryn Mawr BY ARTHUR BRISBANE (Copyright 1925)

WHAT WILL happen if they ever have a real estate boom in New York City? How high would prices go? One piece of land in West Forty-Second Street has been rented for 21 years at \$4,000 a front foot. This means paying a rental \$4,000 for a front foot, four per cent on \$100,000. At that rate as the Astors used to figure values a 20 foot lot would be worth \$2,000,000. Weep, single taxers, for it is all solid unearned increment.

WASHINGTON SUGGESTS that the President, annoyed by the unions' threat to call a soft coal strike, will ask for "a law against strikes in basic industries." Strikes would not be permitted if they interfered with public comfort or any necessary public work, such as mines and other work.

IT IS easy to suggest a law, easier than it would be to get it. To get it would be much easier than to enforce it. Once it was against the law to strike in this country. And in England, formerly a workman was forbidden even to wander away from his own parish to seek work in another; The punishment was branding on the cheek. How far this republic will go back in that direction remains to be seen.

FOR THOUSANDS of years the human race has wondered what would happen if the earth struck a comet. Night before last it found out, and nothing happened. The earth ploughed through what is left of Biela's comet astronomers say it was as though a bullet had gone through a fog cloud. No result, except the falling of small meteors melted in the upper atmosphere.

BIELA'S COMET came into our solar system about 100 years ago, was "captured," as the astronomers put it, by our giant neighbor Jupiter, 258,000 miles in circumference. Now the poor comet is broken up, and any planet can safely pass through it.

YOUNG LADIES of Bryn Mawr who rule themselves, have decided that the cigarette is more powerful than the yearning for a perfect life. So the law against cigarettes goes into the waste basket, and each "hall of residence" will have its smoking room for the charming, learned young ladies.

Nevertheless, those that do not smoke will make, physically speaking, much better mothers than the girls that do smoke.

COLONEL MITCHELL confirms the statement of other experienced fliers that our United States airplanes are "flaming coffins"; any undertaker can prove his intelligence by moving to one of our flying fields.

However, that does not interest gentlemen that give orders to American fliers, or sent the Shenandoah to be wrecked in a thunderstorm. Their aircraft theorizing is done on the ground.

UNION LABOR, having succeeded admirably in banking, enterprises, proposes to try insurance. Instead of paying outside companies to insure them, the workmen will insure themselves, and plan a \$300,000,000 concern.

INSURING YOURSELF is sensible, if you are big enough for it. When Judge Gary took charge of the steel company, he started "self insurance," setting aside each year the amount saved in premiums not spent. In a short time the fund amounted to \$10,000,000. Eventually the amount thus saved on insurance will equal par on all the common stock in the steel company.

THE GORGAS Memorial Institute maps out a program that should add 10 or 15 years to the average human life and save billions of dollars. Part of the fight will be against mosquitoes, that cause 3,000,000 cases of malaria a year. A man with malaria is like an engine with water in the gasoline his capacity is cut down fifty per cent.

Fighting malaria should be the business of the government. Flying machines could be used to spray swamps that breed malarial mosquitoes, and end that plague.

Your Uncle Sam Is Good At This

HEADED FOR REVOLUTION

MACON TELEGRAPH

Only the death of Mussolini, either from the disease which has wracked his system during the past year, or death from the bullet of an assassin, will save Italy from a revolution. She is headed for it as certainly as France was headed for the Eighteenth century revolution, but it will not be so long delayed in coming as was the revolution which ran the streets of Paris red with blood.

The people of France, particularly the long-suffering peasantry, had stood the tyranny and abuse of the nobility and the extravagance of the Bourbon kings for centuries. When they did rise in their might and in their wrath, they put the heel upon the necks of the Bourbons and the nobility. Conscious of their power, they inaugurated a Reign of Terror that was more horrible and more bloody than the misrule of the nobility.

History will repeat itself in France, if Mussolini's power is not soon cut off. He took the reins of power at a time when the Bolsheviks had seized factories and were seizing more. He stood at the moment he entered Rome, under the summons of King Victor Emmanuel, as the potential savior of his nation, as a world hero, who might go down through the centuries as the benefactor of the Italian people and the stabilizer of the Italian economic structure at a time when it was about to topple under the burden of foreign debts and domestic depression.

Instead, he has used the power to magnify his own glory. His most recent offrontery was to go before the Senate and the Chamber of Deputies and demand a law which would make him accountable only to the King of Italy. That would mean, of course, that Mussolini would be accountable only to himself, for the ruling Prince of the House of Savoy recognizes that Mussolini might exile him at any moment he chose, or might have him assassinated by the Fascists, who have grown somewhat adept in the gentle art

of slaughtering Mussolini's enemies and rivals. It may be expected that once a man so ambitious as Mussolini, had a measure adopted which would set him up as the sole arbiter of Italy's destinies, he would not hesitate to dissolve the Parliament and send its members to their homes, retaining the reins solely to himself. In many of the things he has done, Mussolini has shown himself to be nothing less than a genius. In others, he has demonstrated himself to be a dolt. In this enlightened day, the peoples of the world will not long remain content with the heel of a tyrant upon their necks; they will not long forbear the loss of rights and privileges they and their ancestors have won through the blood of generations. They are not content to deliver their fortunes, their bodies and their souls, into the hands of a man who has proved himself to be brutal, vain, glorious and consumed by ambition. They will not suffer themselves to be whipped and tyrannized by his hirelings, the Fascisti, into obeying the will of the dictator. They will not suffer themselves long to be deprived of their constitutional rights of freedom of suffrage and freedom of speech and freedom of the press. Italy will not live long under the covering lash of a tyrant.

The end which will come to Mussolini, if he continues on his way, is inevitable. It is the end which came to Caesar; it is the end which will come to any man who drinks deep draughts of power and gets drunk upon it.

SECOND ANNUAL ART EXHIBIT AND STUDIO TEA ELICIT MUCH PRAISE

Too much credit cannot be given the Literature Department of the Woman's Club for its annual art exhibits given each year, which would indeed be a credit to a city twice the size of Sanford.

On Wednesday afternoon the department gave the second exhibit and studio tea, with Mrs. John R. MacDonald as chairman. Quite a large number of interested visitors, not only club members but also out-of-town people availed themselves of the opportunity of viewing the large and varied collection of antiques.

The large club lounge, was most artistic with its decorations of cut flowers, autumn leaves and bright bits of pottery. At one end was the daintily appointed tea table suggestive of the harvest season, with its center piece, a huge blue bowl filled with fruits of all kinds pouring coffee and tea during the afternoon were: Mrs. E. A. Moffett and Mrs. Elmer D. Haines of Altamonte Springs. They were assisted in serving sandwiches, cakes and mints by the younger club members.

Greeting the guests upon arrival was the chairman of the department, Mrs. C. C. Woodruff and the club president, Mrs. Henry Wight.

Miss McNulty of Orlando gave a most interesting talk on "Colonial Weaving" explaining materials, patterns and designs, and illustrating them with finished rug runners and other lovely articles.

The club is deeply indebted to Mrs. William Moore Scott who personally collected the wonderful display of pottery of all kinds, the sale of which was a huge success.

In viewing the exhibits of antiques, much admiration was shown by the visitors in the antiques shown by Mrs. Butelle, which included a pair of brass candlesticks used by Marie Antoinette.

Mrs. E. A. Moffett's collection of silver dating back over 200 years, and also old Chinaware of Colonial periods were greatly complimented.

Quaint coverlets, spreads, quilts, paisley shawls and rugs were on exhibit by Mrs. Raymond Key. Hand woven and hand made baby clothes, night caps and other garments were much appreciated by the needleworkers who examined Ellsworth. Several ancient books were also included in her collection.

Other antiques equally interesting were displayed by various members and friends of the club. The whole affair was a marked success due to the untiring efforts of the chairman, Mrs. MacDonald and her capable assistants.

Duplicate Bridge Club Entertained Tuesday By Mrs. Chas. Henry

Quantities of roses, calendulas, bougainvillea and other cut flowers were used in artistic profusion on Tuesday when Mrs. Charles E. Henry entertained the members of the Tuesday Duplicate Bridge Club at her home on Magnolia Avenue.

Tallies done in fascinating autumnal designs were used in marking the places of the players, and the spirited game of duplicate bridge resulted in Mrs. Ralph Wight, Mrs. S. M. Lloyd, Mrs. George Knight, and Mrs. Le Roy Chittenden, in holding high scores.

Following the card game the hostess, assisted by Miss Florence Henry, served tempting refreshments of shrimp salad, saltines, olives, cake and coffee.

Mrs. Henry's guests were Mrs. Ralph Wight and guest Mrs. Lucius McLeod of Tampa, Mrs. S. M. Lloyd, Mrs. George Knight, Mrs. Le Roy Chittenden, Mrs. Harry B. Lewis, Mrs. R. C. Bower, and Mrs. Sam Yountz.

Azarian Class Holds An Enjoyable Social

The Azarian Class met Tuesday afternoon at the home of Mrs. Leo Echols with Mrs. Charles Echols as assistant hostess.

A short business session was held at the close of which a social hour was enjoyed, when several interesting contests afforded much merriment. The prize was won by Mrs. De Coursey, teacher of the class. A delicious salad and ice course was served late in the afternoon by the hostesses assisted by Mrs. Pippens.

The next meeting will be held with Mrs. George on Laurel Avenue.

Women Prisoners Who Escaped From Prison Recaptured

NASHVILLE, Tenn., Nov. 25.—(AP)—Three women prisoners, two negroes and one white, were back in their cells today after having escaped from the Davidson county jail here last night in a successful attempt to obtain the key of the prison and with which they escaped. The two other women in the cell with them failed to escape. The women were recaptured within ten minutes after the matron had freed herself and aroused guards in the jail building. They were July Mathews and Ella Williams, negroes, serving sentences for violations of the bone dry law and Bernice Creek, white, serving a sentence for theft of an automobile. Mrs. Stolzer said one of them screamed for help, pretending she was ill. When the matron arrived and bent over her she was seized from behind by two others and gagged with a sheet and her arms bound behind her. She was then choked until faint and her arms twisted when she refused to reveal the location of the keys to the corridor into which the cell opened. One of the women, however, finally found the keys in an anteroom and the three fled.

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART

WASHINGTON, Nov. 26.—(AP)—The best luck a government employe can have" said an elderly chief clerk who has spent all his adult years in a bureau of one of the Washington executive departments, "is to be fired before he has time to become really dependent on his job. Under the old spoils system, when a general cleaning out usually followed a change in administration, there was some hope of this. The civil service commission practically has ended it. Today a federal appointment generally means a life sentence. The poor boob who gets one doesn't know it at the time, but he might as well be accepting a nice cell in the Atlanta Penitentiary. The chances for advancement are about equal in either case. In Washington maybe you win your way up a chief clerkship. At Atlanta, if you're good, they make you a trusty."

Locked up young, I wouldn't have acquired a family to support on an inadequate salary. They tell me well-behaved prisoners are made very comfortable. At any rate, they don't have to worry. And if they don't like it, they can get out, sometimes. Their terms expire or they escape or are pardoned. "In Washington—take me, for instance. I spend my waking hours figuring on schemes to make ends meet. At night I dream about it. It isn't only the necessities. I have a 'front' to keep up. My family has to work, too, or we couldn't do it. And hardly anybody, once fairly settled in it, ever is able to get out of the government service."

Real Estate Boom Is Affecting Acreage Of Leading Florida Crops

CHICAGO, Nov. 25.—(AP)—The real estate boom in Florida seems to be affecting the state's acreage of leading crops of vegetables. A report today by the U. S. Bureau of Agriculture Economics is authority for this statement. The report says that the less than half of last year's plantings of tomatoes will be made along the east coast south. Intentions are to plant only 4,100 acres of tomatoes in Broward, Dade and Palm Beach counties, compared with 10,300 acres last season and 15,000 acres in 1924. Shortage of labor for farming purposes is a serious factor in addition to the land encroachment of real estate and building operations. Manatee county, Florida, which usually ships 1,200 cars of celery, may have only 300 or 400 this season. Lettuce acreage in that county is also cut in half. Furthermore, the represented Florida cabbage acreage may be 20 per cent less than last year.

1st Commercial Plane To Be Used In State Will Be Shipped Soon

TALLAHASSEE, Nov. 25.—(AP)—The first airplane to be used in commercial aviation in Florida will leave the Ford Air Post Dec. 15 for Florida, according to a telegram received by Senator Hodges from Reed M. Chambers, superintendent of the airplane section of the Henry Ford plant, and read in the senate today. A group of four planes will leave the Ford Air Post on that date, the telegram stated and will come directly to Florida. The proposed route of the planes which will operate in Florida Senator Hodges said, will be Pensacola to Tallahassee across to Tampa and there to Miami and West Palm Beach route Jacksonville. They will connect with the Wampanoag lines at the latter place, and then go back to Tallahassee. The Florida Airways Co. has been incorporated under the laws of the state, Senator Hodges announced with a capital stock of \$1,500,000. The general offices, it was said, will be located here.

SUPPLY FOR 10 YEARS WASHINGTON, Nov. 25.—(AP)—The supply of pre-prohibition whiskey is enough to last 10 years if disposed of legally, Prohibition Director Jones says. The amount in bonded warehouses is 20,000,000 gallons and none is being made lawfully.

In the North Atlantic Ocean waves forty feet high are considered of extreme height, but a picture of a sixty-foot wave was taken from the Leviathan in November of last year.

WOMAN SLEEPS WONDERFUL ALL NIGHT

"After taking Adlerika, the pain in my side (due to gas) is gone and I now eat and sleep wonderful." (signed) Mrs. O. McGinnis. ONE spoonful Adlerika removes GAS and often brings astonishing relief to the stomach. Brings out a surprising amount of old waste matter you never thought was in your system. Stops that full, bloated feeling and makes you happy and cheerful. Excellent for chronic constipation. Sold by Union Pharmacy.

MARVANIA

The Ideal Investment

The really worthwhile investment is the one where you can place a small amount of capital and be assured a generous return on your money; an investment where the risk is absent and where every part of the property points to soundness and stability. This is exactly the type investment that is being offered in Marvania.

Already many investors have recognized this as their opportunity to purchase a small amount, property that will in a short time have an enhanced value. The people will share in the profits which Marvania assures, the same liberal profits to be shared by those who heed the natural impulse and invest now in this development of opportunity.

Prices range from \$2500 to \$3400, 20% cash, balance can be arranged to suit purchaser.

THIS PROPERTY WILL BE TAKEN OFF THE MARKET SOON TO BE REPLACED AT MUCH HIGHER PRICES.

Rollins Will Meet Howard Eleven On Winter Park Field

WINTER PARK, Nov. 26.—(AP)—After emerging credibly from hard fought struggles with such strong S. I. A. A. elevens as Oglethorpe, Chattanooga, Mississippi, Millsap, and Birmingham Southern the Howard College "Bull dogs" of Birmingham, Ala., have invaded Florida and will clash with the Tars of Rollins College on the Winter Park gridiron at 3 o'clock Thursday afternoon, this game constituting the big turkey day attraction of central Florida, the 1st home game of the Rollins season and the first S. I. A. A. contest to be played in Florida this fall.

Captain Lofroof and his band of Tars has been directing their hopes toward the winning of this Thanksgiving Day and if deterrence will enhance their chances to win Florida will conquer Alabama today, when the Tars and Bulldogs come together. It is expected that the brilliant aerial attack of Rollins that was a feature of the Armistice Game will be a determining factor in the turkey day encounter.

Wednesday Night Ring Battles

SIOUX FALLS—Emil Morrow, negro middleweight of Sioux Falls, knocked out Dave Johnson, Milwaukee, substitute for Joe Gans, Fargo in the fifth round. SAN FRANCISCO—Gordon,

Billy Bancroft, halfback, who is hailed as the "Red" Grange of the S. I. A. A. In his first year on the varsity Bancroft has scored against every team. Howard has played against this season, including Auburn, conquerors of Vanderbilt, which the Bulldogs held to a 7-6 game. But just as Grange was stopped by Michigan, Rollins expects to close Bancroft's damper.

New York featherweight and young Farrell, Los Angeles fought a draw (10 rounds). Batling Manning, New Orleans negro welterweight, won a knockout over Joe Skirk, Los Angeles (6 rounds).

CLEVELAND—George Gibbons, Cleveland middleweight, scored two knockouts in two hours against Frank Klaus (10) and Billy Hirsch Canton (14).

WILMINGTON, CALIF.—Sailor Ritchie King, All-Navy featherweight titlist won a decision from Andre Dupre, France (10).

Thanksgiving Day

LOCATION

The Dream Home, located next to the Model home, is in Pine Heights, one of Sanford's fast growing highly restricted residential centers. A more ideal or a more beautiful location could not have been selected than here amid Sanford's tropical pines.

DESCRIPTION

Artistic and individual tiling has been used in the construction of the balcony, arcade, porch and bath. Such features as built-in book cases, magazine case, china cases, kitchen cabinet, kitchen table and full length mirrors add greatly to the desirability of this home.

FEATURES

The Dream Home embodies only the features that make a home ideal from an artistic point of view and for comfortable living. The six rooms and bath are sufficient to make this home commodious. Oak floors have been laid through out the home.
