VOLUME XL

SANFORD, FLORIDA, FRIDAY, APRIL 22, 1921

NUMBER 36

## JOINT COMMITTEE NAMED FOR CATTS INVESTIGATION WERE ANNOUNCED TODAY

### House Passed Bills For Qualifications of the Women Voters

## NO INVESTIGATION OF STATE INSANE ASYLUM AT CHATTAHOOCHEE HAS BEEN ORDERED

(By The Associated Press)  
TALLAHASSEE, April 21.—Both the senate and house members of the joint committee for the Catts investigation were announced today. The senate members are Wells and Calkins; and of the House Edges, Bama and Harrell. The house passed bills relative to the qualification for women and other voters and their payment of poll tax. The senate adopted resolutions relative to the loan of boats from the federal government and investigation of the shell fish commission. A resolution authorizing the investigation of the state hospital at Chattahoochee lost in the senate.

## State Compulsory School Law Will Be Amended

(By The Associated Press)  
TALLAHASSEE, April 21.—The state compulsory school attendance law would be amended to permit children to attend school outside working hours in cases where their labor is necessary for the support of parents, under provisions of a bill by Representative Ellis, pending in the lower house of the legislature.

## ANOTHER DEAD SOLDIER HAS COME TO LIFE

(By The Associated Press)  
JACKSONVILLE, April 21.—Local American Legion officials are seeking information as to the whereabouts of Charles Hall, formerly of Wilmington, N. C. Mr. Hall's son, reported dead by the War Department has arrived in Wilmington very much alive and he denies he was ever dead. The elder Hall was reported to be somewhere in Florida.

## AGED PRESBYTERIAN DIES AT N. Y. HOME

(By The Associated Press)  
NEW YORK, April 21.—Reverend A. Woodruff Halsey, aged 69, secretary of the board of foreign relations of the Presbyterian church since 1899, died at his home here last night. He was president of the alumni association of Princeton Theological Seminary.

## Senator Harrison Says Harvey is Political Accident

(By The Associated Press)  
WASHINGTON, April 21.—Senator Harrison, of Mississippi, charged today in the senate that the appointment of George Harvey by President Harding as ambassador to Great Britain was "a reward for his efforts" to discredit the Wilson administration. Harrison declared that Harvey was "a vindictive, self-anointed, intolerant political accident."

## ILLEGITIMATE SON IS NOT ENTITLED TO THE FIELD MILLIONS

(By The Associated Press)  
SPRINGFIELD, Ill., April 21.—Henry Anthony Marsh, son of Henry Fields of Chicago and Peggy Marsh, the actress, is not entitled to receive any of the Marshall Field millions, the supreme court decided today in a ruling. The Marshall Field will specifically exempt from inheritance any illegitimate offspring.

## PREMIERS PLAN TO HOLD A PRIVATE MEETING

(By The Associated Press)  
PARIS, April 21.—Premiers Briand and Lloyd George plan a strictly private conference at the meeting to be held Sunday. No one else will be present, except one secretary for each.

## War Staff Headed By General Pershing In Case of War

(By The Associated Press)  
WASHINGTON, April 21.—Organization of a war staff headed by General Pershing to take charge of field operations of the armies of the United States in time of war was announced today by Secretary Weeks. Instant preparation in time of peace for active military operations was given by the secretary as the reason for the new organization.

## Youthful Bandits Hold Up Real Estate Man, Take His Money

(By The Associated Press)  
CHICAGO, April 21.—Five youthful bandits today in an automobile held up an official of a real estate concern with \$25,000 he was taking to a bank.

## Earthquake Shock At Los Angeles

(By The Associated Press)  
LOS ANGELES, Calif., April 21.—An earthquake shock was felt here at 7:30 this morning. The shock was light and of brief duration. No damage was reported.

## HAYWOOD HAS FLED TO RUSSIA

UNDER SENTENCE TO BEGIN TERM IN LEAVENWORTH PENITENTIARY.

(By The Associated Press)  
CHICAGO, April 21.—Federal officials today received confidential information that William D. Haywood, secretary of the Industrial Workers of the World, and scheduled to begin serving a sentence in the Leavenworth, Kansas, penitentiary, had fled from the United States and was now in Moscow or Riga. Otto Christensen, attorney for Haywood, said he was informed that Haywood sailed from New York April 1, and landed at Riga April 16. He said he thought Haywood had gone to Russia on a personal mission and was not fleeing from the prison sentence.

## Lightning Flashes, Scared Moonshiner But Not for Long

(By The Associated Press)  
ST. AUGUSTINE, April 21.—Vivid flashes of lightning and terrific peals of thunder immediately after he had finished the job of converting a sixty pound lard can into a moonshine still six months ago brought to George Thomas, negro, fears that he had offended the feelings of the god Bacchus and he dumped the contrivance into his back yard near Armstrong, where it remained until recently, he told the jury here the first of the week. As the weeks and months went by and nothing happened, George realized that it was a false alarm and a short time ago he scraped the mud and rust off the apparatus and gave it a trial. It worked. Sheriff Boyce descended upon George a few days ago and now George must pay a fine of \$300 or linger in jail five months.

The still George constructed was a new departure in St. Johns county's moonshine industry. George was shy a coil for the equipment and used as a substitute, a straight piece of galvanized pipe which ran through the coling waters of a pig trough.

## TONIGHT'S OFFERING AT THE STAR THEATRE

Pearl White, one of the best known and most popular actresses in movies today, will appear in her first feature picture, "The Tiger's Cub," at the Star tonight. There will also be a Bennett comedy, "The Fireside Brewer." An evening of enjoyment awaits you.

## BIG FIGHT ON UTILITIES BILL FOR COMMISSION

TALLAHASSEE, April 20.—Delegates from nearly a dozen cities throughout the state were here today to protect at the public hearing on the Calkins bill proposing a public utilities commission, against its inclusion of municipally owned public utilities. Among the places represented were Tampa, Jacksonville, Pensacola, Gainesville, Alachua, Newberry, High Springs, St. Petersburg, Fort Myers, Lakeland, Lake Wales, Frostproof and Bradentown.

Mayor Guyte McCord of Tallahassee acted as master of ceremonies for those opposed to the bill. Chairman Rowe of the senate public utilities committee called on Senator Salkins, attorney for the railroad commission and introducer of the bill, to explain it.

Mr. Calkins said no public utility knew in advance anything about what was to be in it, he alone being responsible for its drafting and introduction. He said he had read carefully the laws of other states which have such commissions and thought it well that Florida should have such a law. It merely extended, he explained, the present powers of the railroad commission, which is virtually a public utilities commission, to gas, water and electric light plants.

Hilton S. Hampton, city attorney of Tampa, spoke at length against the bill, saying it came as a rude shock to the cities of the state, which had not known municipally owned utilities were to be included. He asked why ice companies, of all public utilities, should be exempt. He pointed out that the bill taxes water, light and power companies to maintain the commission, and said he could not find that other utilities are so taxed. He wanted to know why not.

If the bill is passed as it now stands, he claimed that all franchisees and contracts made between cities and public utilities would be null and void or the bill itself would be a nullity, and urged that this should not be the case.

He claimed the cities were stopped from granting competitive franchises in order to get good service and scouted the idea that good service would be given through the commission.

## BALL SEASON OPENS TOMORROW IN FLORIDA ALL ARE READY TO GO

### Games Will Be Played in Jacksonville, Lakeland and Tampa

The base ball season opens in Florida tomorrow and from all indications there will be record crowds at all the ball parks in the state. Sanford is not in the league this season but Sanford fans are just as eager to watch the game and will keep up with their former players and keep up with the old game almost as fervidly as they did when they had one of the cup contenders. The Daily Herald will try and give all the ball news that is possible and keep the Sanford fans in touch with their favorites.

(By The Associated Press)  
JACKSONVILLE, April 21.—The Florida Metropolis today announced it would receive a report play by play on the opening game of the Florida state league at Barrsfield here by wireless. Local Boy Scouts having installed a station in the press box at the field and another on the Metropolis building. Another Scout station with sending radius of two hundred miles will broadcast play ining by ining to amateur operators throughout the state. Daytona opens season in Jacksonville, Orlando in Lakeland, and St. Petersburg in Tampa.

## BROTHERHOOD ENTERTAINMENT AT THE METHODIST CHURCH TONIGHT

The Wesley Brotherhood of the Methodist church will hold their entertainment for their friends tonight in the Methodist church beginning at 8 o'clock. All the members of other churches and all the friends of the Brotherhood and their ladies are invited to attend. Four Sanford speakers will address the meeting with short talks on important subjects of the day.

## SENATORS AND CONGRESSMEN ARE BUSY

WASHINGTON, April 21.—A concerted effort has begun here by Senators Fletcher and Trammell and Congressman Drane to secure an appropriation for enlarging the present federal building at Tampa. Senator Trammell has introduced a bill calling for an appropriation of \$250,000. Both he and the other members of the Florida delegation referred to, according to request from the Tampa board of trade, have the matter of securing estimates up with the supervising architect of the treasury.

Congressman Frank Clark is a member of the house committee which will handle this matter and Senator Trammell also a member of the same committee in the senate. With these forces working tangible results should be forthcoming at an early date.

Senator Trammell has introduced a resolution calling for a survey of the Suwanee river from Ellaville to the Gulf, with a view of providing protection from overflow.

Congressman Drane today resigned his position on the committee on merchant marine and fisheries, and was immediately placed on the very important naval affairs committee of the house. With Senator Trammell already a member of the senate committee, this puts the Floridians in a position to do excellent work along this line. With international relations of the United States with some of the other countries none too well settled it is fortunate that Florida in this congress is to have two members of her delegation looking after naval matters. This is one of the big committees here.

Senator Trammell's other committee places, announced today, are claims and inter-oceanic canals. Senator Fletcher is on banking and currency, commerce, military affairs and printing, and is also the only democratic member of the joint committee on printing from the senate.

Congressman Smithwick went to the committee on postoffices and post-roads, while Congressman Clark and Sears also drew good assignments. This gives all the Florida members good working committees for the next two years.

## MEXICO TO CELEBRATE MAY DAY LARGELY

(By The Associated Press)  
MEXICO CITY, April 21.—Elaborate preparations for May Day demonstrations throughout Mexico are being made by the radical element here, and in some quarters grave apprehension that the observation of the day may lead to disorders is felt.

## SURPRISE SHOE STORE ADDS MORE MERCHANDISE FOR THE BIG SALE

The Surprise Shoe Store has just received a large quantity of merchandise by express which Mrs. Saul Robbins made a special trip to purchase. These goods were bought for cash at an unbelievably low price and the astounding values will be passed on to the buying public of Sanford during the gigantic sale now going on. Read Friday's Herald for announcement of the wonderful values, and don't fool yourself by staying away. The Surprise Shoe Store's big sale ends Saturday night, April 23rd. This is your last chance to buy what you need at the phenomenal prices in the big sale. Follow the crowd.

## PLENTY OF LIGHTS.

Through the kindness of Mr. Morris of the Southern Utilities company, the carnival grounds where the K. of C. carnival will take place will be one of the best lighted grounds of any carnival ever held in Sanford.

In addition to the heavy arc lights that will be strung around the grounds with the heavy lights over each attraction and booth, the red, white and blue lights that you saw over the dance at the corner of Magnolia avenue and First street last Tuesday night, will be hung over the carnival. And everyone attending this carnival can be assured in advance that they will get their full money's worth.

The Daily Herald—15c a week, delivered anywhere in Sanford.

## SENATE RATIFIES TREATY TO PAY COLOMBIA MONEY DUE FOR PANAMA SITE

### Florida's Foreign Population Showed Large Increase

(By The Associated Press)  
WASHINGTON, April 21.—Florida's foreign born white population showed a large increase from 1910 to 1920. There were 43,008 foreign born whites in the state at the last census compared with 33,842 in 1910 the census bureau announced. Largest number are Cubans and other West Indians with Italians second and English third.

### Odd Fellows And Rebekahs Elect Officers

(By The Associated Press)  
TAMPA, April 21.—Mrs. Eva Shuss, Tampa, was elected president of the State Rebekah assembly at Arcadia yesterday; R. B. Crawford, of Fort Meade was elected Grand Master of the Odd Fellows. Both organizations selected St. Petersburg for next year's conventions.

### State Convention Parca Philaetha

(By The Associated Press)  
BRADENTOWN, April 21.—The State convention of the Baraca Philaetha began here today to continue through Sunday. Delegates from all sections of the state are attending.

## HARDING WANTS TO TURN OVER FUNDS FARMERS

(By The Associated Press)  
CHICAGO, April 21.—Legislation directing the secretary of the treasury to turn over \$100,000,000 of the profits of the Federal Reserve bank to the Federal land banks to be loaned to cattle raisers, has been recommended by Governor Harding, of the federal reserve board, it is announced here today.

## MEXICO TO CELEBRATE MAY DAY LARGELY

(By The Associated Press)  
MEXICO CITY, April 21.—Elaborate preparations for May Day demonstrations throughout Mexico are being made by the radical element here, and in some quarters grave apprehension that the observation of the day may lead to disorders is felt.

### Harding Wins His First Fight in The Senate

## THREE DEMOCRATS

### OPPOSED TO MEASURE AND SOME REPUBLICANS

WASHINGTON, April 21.—The Colombian treaty, growing out of the partitioning of Panama, was ratified yesterday by the senate. It provides for the payment by the United States of \$25,000,000 to the South American republic, but has yet to be approved by the Colombian assembly.

The vote on ratification was 69 to 19, or eleven more than the necessary two thirds majority.

The Harding administration, thru ratification of the treaty, won its first fight in the senate. The president in a message to the special session of the senate, March 9, five days after his inauguration, recommended ratification as "very helpful at the present time in promoting our friendly relationships." This recommendation was supplemented yesterday by Senator Lodge, of Massachusetts, the Republican leader, who in reply to attacks of Republican senators of the progressive group, declared ratification of the pact was "part of a great national foreign policy" contemplated by President Harding, "towards our neighbors in the Southern and Eastern hemispheres."

## Winston-Salem Man To Be Commissioner of Internal Revenue

(By The Associated Press)  
WASHINGTON, April 21.—Secretary Mellon announced today he had recommended to President Harding the appointment of David H. Blair, of Winston-Salem, N. C., as commissioner of internal revenue.

## FORGOT TO HANG NEGRO PRISONER—LIFE SENTENCE NOW

(By The Associated Press)  
SHREVEPORT, April 21.—The death sentence of Lonnie Eaton, the negro whom the sheriff of Ouachita parish forgot to hang when the day set for the execution came around two months ago, has been commuted by the state pardon board to life imprisonment, according to reports from Baton Rouge.

## PROMINENT YOUNG MAN SHOT AT SANDERSON—MYSTERY ABOUT IT

(By The Associated Press)  
SANDERSON, April 21.—Jamie Milton, a son of former County Judge Milton, of Baker county, was shot and seriously wounded here last night by a young man named Richardson, who was taken to the jail at MacClenny. Milton is expected to recover. The affair is shrouded in mystery and the only statement that Richardson made is that he acted in self-defense.

## Pepper in His Eye Caused Him to Wink, Girl Did Not Respond

(By The Associated Press)  
JACKSONVILLE, April 21.—Chas. B. McAnny, 41, of Lowell, Mass., got a few grains of black pepper in one eye while dining in a restaurant here one day this week and opened and closed the lid several times in an attempt to expel the particles. That was what he told Judge Beckham in police court. A young woman happened to be seated at an adjoining table and in line with his quivering eye called a policeman and had him arrested, declaring he was winking at her. McAnny said he couldn't wink because the eye into which the pepper blew was a glass optic. Judge Beckham thought \$15 and costs would satisfy the injured feelings of the law and levied that tax.

"Yap Situation Tense," says a headline. The thing to do is to put the Yap situation in the past tense.—Toledo Blade.

## SURVEY OF CONDITIONS IN FLORIDA SHOW WELL MUCH ACTIVITY EVERYWHERE

**Building Programs Being Pushed to Meet Shortage**

**BOND ISSUE MADE**

**FARM CONDITIONS ARE GOOD AND SPRING CROPS ARE MOVING.**

WASHINGTON, April 13.—A survey of conditions in employment and business throughout Florida as made by the United States employment service from telegraphic reports received March 31 follows:

**Farm conditions:**—The melon and peach season now at hand in Central Florida will take care of hundreds of orange and grape fruit pickers and packers for two months following the closing of the citrus packing houses. A considerable portion of this winter labor is from northern states and will return to their homes at the close of the melon season. Reports indicate that farmers throughout the state will use about all the common labor available for planting crops.

**General:**—Reports received from organizations covering the state as a whole indicate general activity in pushing building programs to meet the shortage of houses existing in most cities. These reports, also, covering important points throughout the state, show general business activity and are optimistic as regards the business outlook for the future. Leesburg reports sawgrass and paper pulp mill under construction. Road building in the vicinity of Lakeland to the extent of \$400,000 employing 200 men now in progress. St. Augustine reports that during the winter there was a surplus of labor from the north but that class has now disappeared and there is ample employment for home people. Ocala, Orlando, Kissimmee and Fort Myers report a well defined movement to remedy the present shortage by large building activities. Lake Worth reports over 300 houses built last year with further building campaign during present summer and fall. The Chandler Lumber company is building one of the largest sawmills in Florida. Fort Myers reports extensive road building projects requiring a large number of workers in Lee county on the road being constructed from Fort Myers to Palm Beach which is about half completed. Also road to Miami completed to Dade county line from Miami side. Extension of McGregor boulevard to Crescent Beach now under construction. Ninety-two miles of ditch now under way to be completed in 1922 at cost of \$600,000. Extension of the Atlantic Coast Line railroad from Palm Dale to Inokalee. Railroad also being built from Moore Haven to Clewiston. Knitting Mill at Ocala closed for lack of orders. Crate mills generally working at normal capacity.

**Jacksonville:**—Unemployment reported as existing in lumber, shipping and building but latter labor being gradually absorbed. Shortage of dwelling and business properties, but situation forecasts steady improvement. Building permits in February included 30 dwellings, 2 apartment building and miscellaneous business property to the number of 246, totaling about \$500,000. A bond issue for \$2,000,000 for docks, streets and roads authorized at recent election. A \$300,000 concrete viaduct in the course of construction. Several large private plants under way. Total of private and public investments approximately \$1,000,000 with contemplated operations totalling about as much additional. Real estate dealers, contractors and building material men are active. A building plan may be said to be fairly under way. Present industrial activity and plans under consideration indicate steady improvement in conditions and business generally is optimistic as to the outlook.

**Tampa:**—Organized building trades show about 75 per cent unemployed pending wage adjustment. Unemployment generally is not serious. Cigar factories are reported as working part time, about 60 per cent of factory employes having gone back to work. General impression seems to be that while business is not in the best possible condition, just at present, it will show considerable improvement within the next few months.

**Tallahassee:**—Unemployment exists principally in naval stores production. Rents reported as still being high and while building is going on it is confined principally to residences. Gas and electric plant now being built and a lumber yard, recently destroyed by fire, is completing arrangements to rebuild.

**Pensacola:**—Unemployment in Pensacola appears to be insignificant. There has been a shortage of houses but quite a number are being built and the situation promises to be relieved shortly. Recent bond issue of \$500,000 for public school buildings, \$400,000 for municipal dock and belt line railway, and a proposed issue of \$2,000,000 for paved highways, promise employment for such surplus labor as exists.

**Key West:**—Unemployment at present is confined principally to cigar factories, probably 800 men out of work. Cigar makers, however, are returning to work almost every day. No scarcity of houses for sale, but few can be had at reasonable rent. Chamber of Commerce is working on a plan for starting a housing corporation. Pending projects consists of county road extension \$400,000; appropriation new city park \$10,000; Key West Box factory \$50,000 partly completed; contemplated submarine base \$800,000. This work will all probably be done by local men supplemented by necessary skilled workers from other towns. The general consensus of opinion among business men is that business is improving steadily and will be back to normal within three or four months.

### GENEVA FLASHES

The Whip-poor-wills are singing their merry tune.  
The packing house is running full blast.

Mr. and Mrs. F. G. Robbins lost their little daughter last Thursday. The rest of the family have been very ill but are better now and able to be out.

Mrs. William Daniels has been very ill. Dr. Martin of Ocala, attended her.

Mrs. Will Banning, of Mims, and Herman Daniels were called here on account of their mother's sickness.

Brother Wright preached a fine sermon Sunday morning. Subject "While Mothers Sleep in Oblivion." A large crowd attended.

Prayer meeting at the Baptist church Wednesday at 7:30.

Brother Wright took dinner with Mr. and Mrs. T. W. Prevatt and Mrs. J. M. Prevatt.

Miss Ethel Lefur spent Sunday with Miss Christine McClellan.

The community is full of chicken pox.

Miss Lenore Raulerson, of Palm Beach, is spending a few days with Mrs. Mary Taylor.

Mrs. Coffie and Mr. and Mrs. Danna, of Miami, are spending a few days with Mrs. Harrison and Mrs. Williams.

Mrs. J. M. Prevatt spent last Friday with Mrs. Williams.

Mr. and Mrs. Andrew Curlett spent last Thursday in Sanford.

Mrs. T. W. Prevatt was shopping in Sanford Friday.

Birdy Patteshall was home Sunday from Orlando, spending the day with his folks.

A big still was found by Sheriff Hand at dark swamp last Thursday. 100-gallon capacity.

Mr. and Mrs. Ballard spent Sunday with Mr. and Mrs. T. W. Prevatt.

### LONGWOOD NOTES

Mr. and Mrs. Bailey, of South Carolina, were visiting friends in town a few days this week.

Fred Grist was a visitor in Orlando Friday.

J. E. Pieper, of Orlando, was in town Friday.

Mr. and Mrs. J. S. Dinkel motored to Orlando Saturday.

C. H. Corn and Miss Ruth, Mr. and Mrs. W. J. Corn and J. S. Dinkel motored to Oakland Tuesday afternoon.

Friends of the little Durkman girl will be glad to know she is recovering rapidly. She was bitten twice by a rattlesnake one day last week.

Mrs. J. S. Dinkel and Miss Olive were visitors in Orlando Tuesday.

Miss Ellen Fuller spent the week with her parents, Mr. and Mrs. A. Y. Fuller.

Mr. Riddle, of North Carolina, was the guest of Mr. and Mrs. Fuller for the week end.

A picnic was given at Palm Springs Saturday in honor of Miss Emma Fuller's 10th birthday. There was seven-teen in the party and everyone reported a good time.

This cold weather made us all do a little shivering. No more Palm Springs for a few days.

The Beatty Brothers gave a show and lecture at the Library Wednesday evening, April 14th.

## GOVERNOR KEEPS WORD MAKES GOOD

**PURSUING POLICY OF BACK TO THE CONSTITUTION TO THE LETTER.**

TALLAHASSEE, April 13.—Governor Cary A. Hardee is pursuing his policy of "back to the constitution" with pronounced vigor early in the session.

Concrete evidence of his sincerity of purpose when he sounded this keynote in his first message to the legislature was placed before the house and senate Monday afternoon, following immediately upon their reconvening after the first "week end" of the session. The manifestation was in the shape of a batch of bills offered by various members and immediately recognized as what may be termed "administration bills."

One provided for the abolishment of the state board of health and recreating it in the same breath though in different form, in that the duties and responsibilities of board as it is now organized would be assumed by the governor, the secretary of state and the attorney general. The state health officer would retain his present status, with the single exception of answering to a board made up of constitutional officers, or cabinet officials in other words, instead of a board made up of citizens of the state not elected as members of the state government.

Another provided for the abolishment of the office of state hotel commissioner though the functions of the office and the purpose of the act in reorganizing the office would be carried on. Such duties as would properly come before the state health officer would be assigned to this agency.

A third bill proposes the abolishment of the office of state auditor, at present an elective office in so far as the choice results from a nomination in the democratic primaries. The measure would give the governor and comptroller control over all state auditing and would empower the governor to employ as many as four auditors, if in his judgment it may be deemed necessary, for all or any part of the year, but limits the amount that might be paid to any auditor to not more than \$3,000. All traveling expenses would be paid by the state.

Still another of the "back to the constitution" bills suggests the abolishment of the state board of control, which now has to do with the state's higher institutions of learning. The board of control is one of Florida's best known boards not provided in the constitution and perhaps the most revered and respected. The governor feels it advisable to have the board's work made a part of that of the board of education, which is comprised of state cabinet officials, including the governor.

There is a strong feeling of cooperation evident in both sides of the legislative halls to assist the governor in placing back into the hands of the regularly constituted officials the duties which they believe the framers of the constitution, believed they should shoulder. The doing away with these boards and placing the work on cabinet officials would not only cut down much expense incident to meetings, but would also facilitate operations to the end that whenever occasion suggested the propriety or necessity of a meeting one could be promptly called without expense to the state or loss of time. It is probable that all measures will receive immediate action.

### "MICROBE OF LOVE"

Sounds good and it is good. In fact it is one of the greatest little musical comedies that has ever been presented to the people of Sanford and the parts will be taken by Sanford people making it all the more interesting. "The Microbe of Love" will be presented at the Princess Theatre next Friday night and you should let nothing interfere with your being there. The proceeds go to the athletic department of the Parish House, the plant that is doing such a great work here among the young boys and the young men of Sanford. Remember the date.

**ONE INSPECTION MAY PROLONG THE LIFE OF YOUR BATTERY.** Drive in this week and have that inspection made. We have the agency for the Red Cap Battery, and can give you the best of service on your battery.—B. & O. MOTOR CO. 35-3tc

### CARD OF THANKS

Mr. and Mrs. C. W. Arrants wish to express their thanks to their many kind friends for the floral offering and the many expressions of sympathy in the death of their little son who departed this life on April 1, 1921.

How They're Made

The Secret of the Saving to You

¶ So many people ask us why it is that we can sell Clothcraft Clothes at such moderate prices while other clothes seem so much higher in price.

¶ Our first answer is, "They do not cost us as much," but there is a better reason than that.

¶ The fabrics cost practically the same but Clothcraft Clothes, being made in such enormous quantities by scientific methods, cost much less per suit.

Sanford Shoe & Clothing Co.

### BEGIN HOT WATER DRINKING IF YOU DON'T FEEL RIGHT

Says glass of hot water with phosphate before breakfast washes out poisons.

If you wake up with a bad taste, bad breath and tongue is coated; if your head is aching; if what you eat sours and forms acid in stomach, or you are bilious, constipated, nervous, sallow and can't get feeling just right, begin inside bathing. Drink before breakfast, a glass of hot water with a teaspoonful of limestone phosphate in it. This will flush the poisons and toxins from the stomach, liver, kidneys and bowels and cleanse, sweeten and purify the entire alimentary tract. Do your inside bathing immediately upon arising in the morning to wash out of the system all the previous day's poisonous waste, gases and sour bile before eating more food.

To feel like young folks feel; like you felt before your blood and muscles became loaded with body impurities, get from your pharmacist a quarter pound of limestone phosphate, which is inexpensive and almost tasteless. Men and women who are usually constipated, bilious, headachy or have any stomach disorder should begin this inside bathing before breakfast.—Adv.

### OVIEDO NOTES

Mrs. L. A. Sheldon was called to Orlando Sunday to the bedside of her mother, Mrs. Graham, who seemed to be failing rapidly.

Misses Olive Lesette and Alice Brannon and Messrs Alton Farnell and Francis Swope motored to Orlando Friday morning.

Mrs. C. L. West, Master Charles West, Mrs. H. B. McCall and Miss Ethel Taylor spent Saturday in Orlando.

Mrs. O. P. Swope, Miss Nell Williams and Miss Shirley Swope spent Tuesday afternoon in Sanford.

Mrs. Julius Gist arrived Tuesday for a visit to her parents, Mr. and Mrs. W. R. Kimbrel.

On last Thursday Sheriff Hand of Sanford, Deputy Sheriff Jacobs of Chuluota, Deputy Sheriff Lee of Oviedo and Rev. L. E. Wright captured a big moonshine still between Chuluota and Geneva, in what is known as the Dark swamp. About \$1,600 worth of property was destroyed, but the owners of the still were not captured. J. Bryan was the speaker.

Mrs. W. E. Argo, Palmer Argo and Shirley Swope spent Saturday in Orlando.

Wednesday afternoon was the time appointed for cleaning up the C. E. park and making many necessary improvements there.

Mr. and Mrs. Slay entertained their friends at a dance last Thursday night in the old chapel at Lake Charm.

The Camp Fire Girls will give a play Friday night at the school house. Rev. L. E. Wright, Miss Virginia Wright and Rev. J. N. Thompson motored to Enterprise Monday to attend the laying of the corner stone of the new dormitory of the Methodist Orphanage, at which ceremony Hon. W. J. Bryan was the speaker.

## Sanford "The City Substantial"

THE SANFORD CHAMBER OF COMMERCE AWARDS PRIZES TO THE WINNERS OF THE ESSAY CONTEST

"Sanford, the City Substantial," as we all know, is the ideal place to live, located in the heart of Florida, in Seminole county. Ten years ago, when I came here to live, it was but a small town, with residences widely scattered in all directions, and few business concerns were then in evidence; but people who came here for the many, many advantages Sanford had, and the substantial qualities which were here to build upon, and for these reasons they have chosen this town to make their homes. It has thus grown into a booming, flourishing city, with citizens who are active and alert, watching for new opportunities and boosting their community whenever they can. However, there is still a vast space left for growth, and it is needless to say that this is rapidly developing.

Sanford could well be advertised as a health resort, because everything in a city substantial depends upon the health of its citizens. The health of this community is largely due to its wonderful equable climate; for the short mild winters and the pleasant summers are highly inductive to the citizens in living here.

Another substantial asset in helping to build the community is its good roads; for it must keep in touch with the surrounding cities, transacting business, exchanging ideas, and making the locality, in general, more attractive. Our fine roads are welcoming the many tourists who chose to motor their way through Florida. A very large portion of these lead through Sanford and no better advertisement could be made, of the city, to its visitors, than the smooth, hard roads which are fast making Florida the land for automobiles.

The railroad co-operation is of especially large importance to the town. They give us intercourse with the large cities of the north and the rest of the world. A railroad center is located here, giving employment to a large number of men, with work in the shops. The city could not long survive without this co-operation and it has brought much success to people living here; especially those who ship their products to northern cities.

Another of the greatest assets which Sanford possesses is the beautiful Lake Monroe, through which the St. Johns river flows. It is not only viewed from a commercial point, but also for pleasure purposes. It is entirely navigable and thus enables the people to have low freight rates, which gives us a commercial advantage over the other nearby sections. To increase its value, pleasure boats, docks, a pavilion and numerous other things could be added to attract the tourists and enable them to enjoy the lake to its fullest advantages. If a yacht basin were to be built it would draw northern yacht owners to Sanford, for pleasure trips, excursions, and many other diversions which present themselves on the way. Not only large boats could navigate the river, but also, many small ones, and Sanford would gain prosperity and popularity faster than ever before, for there is no limit to the things that could be accomplished with the river.

However, Sanford has formerly gained largest wealth from the farms. New experiments with the land are being made all of the time. Vegetables and fruits are grown here which were unheard of twenty years ago. The soil is rich and fertile, tiles have been laid as one system of irrigation, and numerous other conveniences with which the farmer has to work, gives large returns, when the land produces vegetables and fruit, which are hard to equal anywhere. Many varieties of vegetables are grown but the leading ones are celery and lettuce, which alone have reaped immense sums of money. Sanford has well been called "The Celery City." Nearly all kinds of citrus fruits are grown and shipped to all parts of the country, so one could not help but see that one of the largest industries of this city is farming and large prospects are in evidence for it.

There have been many new hotels built, but there is room for more; because the population is increasing so fast that we will lose those who are apt to be our best boosters, if we do not build up-to-date accommodations for them in every way. Neither will people live in a community where there are no educational advantages; but that cannot be said of Sanford where there are some of the finest schools in the state.

The moral side of a city also has to do with the number in the population, for churches are required in every locality no matter whether large or small, and Sanford again comes to the front with many fine churches; and the people of this city have shown themselves to be true citizens

as to the moral side of the community. Progress has been shown in our city in other ways. In the building of many new business houses, substantial banks, modern system of city government, well equipped fire department, hospital, library, and large post office. Possibilities of other establishments are unlimited. Larger cold-storage plants are needed, and also a canning factory could be used to advantage. If, in the future, the air mail routes are carried out, Sanford will be made a stopping station for the airplanes. A country club and golf links should be built, and if people must go to theatres, a better class of educational pictures should be shown.

In the past season the people of Sanford have shown their appreciation of a higher class of entertainments, which have been brought here.

The Chamber of Commerce and the Woman's Club are doing their bit in boosting Sanford, and our daily paper attests to the loyalty and progressive spirit of its editor.

So, in summing it all up, the prospects are endless for a greater city, and if one would stop to think they would realize how gratifying the progress of this city must be to our beloved citizen, Mrs. A. E. Phillips, who had the honor of naming our city "Sanford."

The healthiest, prettiest, busiest, Of any city we know, The Tourist City, Celery City, Located on Lake Monroe Miss Nap Paxton.

Before we go into the subject of a City Substantial, we must first know what a city is. Most children when called upon to define a city would say that it consists of a lot of people living close to each other, where in the country people live farther apart, not realizing that it is the difference in government that makes the real distinction. A city differs from a town or village usually by greater population and by greater power of local self government.

A city to be substantial must be built according to its location and business facilities. In Europe and other parts of the world the largest cities are usually capitals as there is a tendency for people to congregate in the capitals. But in the United States we find that the largest cities are rarely capitals, as state capitals are usually centrally located in the states while the location of the largest or most substantial cities is determined by advantages of position with regard to commerce and industry.

One of the principal things to be considered for the welfare of a city is its government. The usual form has a mayor as chief executive officer, but other forms are the city manager plan and the commission form of government. The city substantial should choose the form best adapted to its needs and the wishes of the people. But under any circumstances only honest, upright citizens should be chosen as its officials, the duties of whom should be to provide for the business interests, the residences, the places of recreation, and the means of transportation of the city and to do this in such a manner as will make the city convenient, sanitary and beautiful.

The educational advantages of a city are of almost equal importance. The right kind of board of education, a superintendent of schools who has the interests of the children at heart and proper schools and buildings should be secured.

The city substantial looks well to its public utilities; rail and water communication, street railways, if there are any, its water supply and its lighting system.

The natural resources of a city should be developed so as to secure the best results. If situated on a river, lake or other water communication its water front should be improved to meet local conditions. If a farming section, the farmers interests should be considered.

Other things that tend to make a city substantial are its places of recreation and amusement. Beautiful parks, well planned golf links, baseball diamonds and theatres would be included in this.

The religious life of the people should not by any means be overlooked but the churches of the city should have the hearty support and protection of those in authority.

There are a number of other things that might be mentioned but if the foundation of a city is laid according to the points mentioned above, that city will become a "City Substantial."

EVERETT BROWN.

Sanford is a City Substantial, because being located on the St. Johns river and the Atlantic Coast Line rail-

road, gives it competitive transportation rates. The location on the river provides good drainage facilities and makes a good sewerage system possible.

A Substantial City must have a bountiful supply of wholesome water, this Sanford has from deep artesian wells.

Sanford is also in the middle of one of the largest trucking districts in the state, and that means a lot to the city, and also gives a chance for the shipping business.

There is also country around Sanford suitable for fine golf links and aviation field, and citrus growing.

Lake Monroe and the St. Johns river afford a good place for yachting and boating of all kinds, and there is a fine place for hydroplanes and there is also an established fishing industry which is a source of revenue.

Sanford has strong churches with splendid buildings. This city is also very justly proud of its schools; two modern primary buildings, one up-to-date Grammar school and a very well equipped high school. The handsomest and best built residence in Sanford was adopted for a hospital, which is in good business shape.

When the city was laid out space was left for parks and play grounds some of which have been improved and are in use.

The business in Sanford is good. The bank deposits are greater than this time last year, although there is a general business depression all over the country; this proves the substantial worth of the agricultural districts in this section.

Sanford is not behind in manufacturing as we have crate, citrus wrap, fertilizer, cigar and broom factories; all of which were established here on account of the favorable location as a distributing point.

The Atlantic Coast Line railroad has its shops here, which is one of the important industries.

One of the largest and best equipped icing stations in the South is located here, at which thousands of cars of perishables are iced annually.

Sanford also has a well equipped fruit and vegetable packing house.

Sanford is reached by modern hard-surfaced roads from the North, East South and West, connecting it with all important interior as well as East and West Coast towns, and counties.

The city has also acquired good hotels and many others are in prospect.

All of these substantial improvements, Sanford has and therefore can claim the title of "Sanford the City Substantial."

FRANK CHASE.

A City Substantial must be a City Beautiful and a City Prosperous. A city that is beautiful only has nothing to make money to keep it beautiful, and a city that is prosperous only cannot remain prosperous without beauty to draw people to it.

So, a City Substantial is one possessing both beauty and prosperity.

In considering the City Substantial the location must be well selected. This must be chosen with regard to health and fertility. It should be high and dry; should have pure water and good drainage. It should have at least one natural advantage, such as agricultural or mining resources, being situated on a good waterway or seaport.

If the city is not so fortunate as to possess any of these natural advantages, it must look to manufacturing, railroads, education or tourists for its chief maintenance.

It should have broad boulevards, bordered with beautiful homes.

If substantial it should be like the house, in Christ's sermon, that was built on a rock, (found in St. Matthew 7th chapter.)

The people who make up the City Substantial should next be considered. They should be one hundred per cent American citizens, for the people are the city. That the city may prosper and grow, co-operation is necessary. Public spirited citizens are glad to co-operate with their fellow citizens for the good of their town.

Then the City Substantial must be considered from the spiritual side. No city, even though it has millions of dollars to maintain it, can be substantial unless it is built upon faith and trust in "That Divine Power who controls the destinies of, not only men, but nations and cities."

A stranger contemplating moving into this City Substantial, first asks about the churches and schools.

He wants his family to be among educated Christian people.

The children of America today will be the men and women of tomorrow, and we must have an educated, capable America. The way to do this is by educating our children.

A good library, a good newspaper, and good magazines are also needed in a City Substantial, for reading matter greatly influences the development of the city.

The city, of course, should have good transportation. Every city, even though it has waterways, should have good highways and railroads.

The City Substantial should have clean, wholesome amusements that

will have a lasting influence, for the good, on the minds of the children.

There should be clubs that will interest and help them, and other organizations for the betterment of the town and all humanity.

The City Substantial should have large, beautiful parks, containing trees, shrubs and flowers, that give their color and fragrance the year round.

In these parks should be playgrounds for the children. For the older children there should be a gymnasium and courts for basket ball, foot ball, tennis and other athletics.

The City Substantial should also have a good hospital.

I know of a beautifully located city, on the banks of a winding river, that can boast of these elements, and the people have a just right to keep boosting Sanford, OUR City Substantial.

—Georgia Mobley, 8th Grade.

A City Substantial should first have a good location on some navigable river, if possible, and plenty of railroad lines.

It should have good city government, good schools and churches and financial institutions. With all of these requirements the City Substantial needs, first of all, progressive citizens, the majority of whom would endeavor to build up their city by up-to-date methods of advertising.

A City Substantial is built largely upon its citizenship, and many cities have been built where there was nothing to commend them to the attention of men, but by the loyalty and patriotism of the progressive citizens.

The city became great from the very force of their boosting and the faith in which they endowed their city.

A chain is no stronger than its weakest link, and a city is no stronger than its weakest citizen, and too many weak brethren will wreck the hopes of many cities, where the weak and people of little faith predominate and outnumber the progressive citizens.

It takes unselfish devotion to any cause to make it successful and this is more than true of a real city. To build a City Substantial it takes the unselfish work of the real citizens and they are obliged to bury all their petty differences and jealousies and put together for the common welfare of the community. The great spirit of boosting your own home city early and often will do more toward building it up than anything else, regardless of location, wealth or work, and without the real faith in your city you will never make it what it should be.

The spirit that predominates is the unselfish spirit of co-operation in every growing city and where this spirit does not predominate the city is a dead one and no education, government, schools or any other factor will bring it to life.

To have a City Substantial requires the substantial backing of every citizen in it for the better things in life, as well as those substantial and material things and so the City Substantial is built upon the bringing together of real men and women, moral and upright men and women, all members of the chamber of commerce, if possible, and of the Woman's Club and kindred organizations, all members of churches, all standing together for the best in life, for the improvements that all cities need, for better education, for better paid teachers for the schools, for the best schools that money can build, for better entertainments, for wholesome recreation for children, for publicity embodied in better newspapers and magazines and for anything and everything that will build a better city. And to make such a city will take the honest efforts of the real citizens all the time, and every time that duty calls them, early and late, in season and out of season, and by burying their own personal feeling and all thoughts of personal gains, boost their city unceasingly and unflinchingly with the thought uppermost in their minds of loyalty to their city, first, last and always.

Mildred Holly.

STOP CATARRH! OPEN NOSTRILS AND HEAD  
Says Cream Applied in Nostrils Relieves Head-Colds at Once.

If your nostrils are clogged and your head is stuffed and you can't breathe freely because of a cold or catarrh, just get a small bottle of Ely's Cream Balm at any drug store. Apply a little of this fragrant, antiseptic cream into your nostrils and let it penetrate through every air passage of your head, soothing and healing the inflamed, swollen mucous membrane and you get instant relief. Ah! how good it feels. Your nostrils are open, your head is clear, no more hawking, snuffling, blowing; no more headache, dryness or struggling for breath. Ely's Cream Balm is just what sufferers from head colds and catarrh need. It's a delight.—Adv.

## Christian Endeavorers Had Fine Meeting at Presbyterian Church

(From Monday's Daily)

A very interesting meeting was held at the Presbyterian Endeavor last evening. Miss Davidson led the meeting and the subject was on our recreations. Miss Bowler, of the church choir favored us with a fine solo, after which Mr. Holly gave a fine presentation of the subject from the civic point of view. He pointed out the necessity of improvement in this line for the children, in the matter of playgrounds, swimming pools, etc., under municipal supervision, and for the business men, who have little time for such activities. A fine field is open, he stated, for regular classes for the men, where they can meet at least once a week and take up a systematic course of exercises. A similar plan as this is in use by some of the large business organizations of our cities and a regular period is devoted to calisthenics. The physical, as well as the moral and mental effects cannot be overestimated from the results of such classes. Professor Ogilvie of the High School, was the next speaker, and handled the subject from the school's side, showing that activities along this line should be compulsory, and have a regular place in the daily schedule. He stated, in effect, that under the present system in schools, only a few students were deriving any benefits from school recreations—those who participated with the expectations of making one of the various teams. Thus were excluded the majority of pupils who could not come up to certain standard. Not only would systematic exercises, both physical and mental, bring a larger number of pupils up to these standards but all would be benefited to a greater extent. Dr. Brown then gave his views on the subject as a duty of the church to provide a place of recreation and amusement for its members. A growing number of churches, as he said, were making progress in this respect,

providing suitable places for indoor athletics, and other forms of activities in their basements, in an annex or in separate buildings. When Doctor Brownlee had finished the meeting was open for general discussion and some interesting and helpful suggestions were offered. It is to be hoped that some real progress can be made along this line, for owing to the absence in Sanford of Y. W. C. A.'s and Y. M. C. A.'s and modern gymnasiums there is a lack of recreational facilities that compel us to a large extent to go out of the city limits for diversified recreation. We hope to see a large number of our young folks regularly attend our meetings and derive the benefits of our increasing activities.

# MYSTERIOUS MURDER FOUND WITH MAN'S BODY SATURDAY ON ROAD NEAR WINTER PARK

## George Bryant, Aged Resident of Orange County, Killed

### BY SASH WEIGHT

#### IN THE HANDS OF UNKNOWN PARTY WHO BURIED VICTIM IN WOODS.

The finding of a broken wagon by a man named Marden of Winter Park, in the woods one mile east of Florida Sanitarium Saturday morning led to the exposure of a dastardly murder committed some three weeks ago, the victim being George W. Bryant, 60 years old.

Marden noticed wagon in the lonely woods, investigated, and further discovered that a few feet from the wagon indications of the earth having recently been disturbed. Marden notified Sheriff Karel who with his deputy and others visited the scene. Upon digging at the spot a bare foot was discovered a little ways under the ground. The sheriff pulled on the foot which became detached from the body.

The digging was then resumed, first was found the dead body of a dog, then a sash weight, then the remainder of the body. The dog was identified as that belonging to George H. Bryant, an old resident of Orange county. The head was taken to Cary Hands' undertaking establishment as evidence.

Examination of the body found no mark except that on the skull which was crushed in on the right side. The body was dressed in a dark flannel shirt, overalls and the feet were bare. At the inquest it was shown that the wound was caused by the sash weight, which fitted into the wound, and the body was that of George H. Bryant.

The sheriff found about fifty feet from the wagon, which was broken, a mattress with a bloody spot, about the size of a saucer, and about thirty feet from the scene a pillow and blanket.

The coroner's jury will meet Monday at 2 o'clock to resume testimony of witnesses and make a decision.

The coroner's jury consists of A. H. Willett, A. G. Henning and J. B. Finley, Orlando; T. M. Arnold, Conway; John Miller, Gotha; and E. M. Clark, Ocoee; with County Judge Martin officiating as coroner. Other officials were Sheriff Frances Karel and Hon. John C. Jones, acting as state's attorney in the absence of that official attending circuit court at Kissimmee.

The coroner's jury visited the scene and a thorough search was made of the house, which was found stripped. The shoes of the dead man being found in his room.

A theory was given that Bryant had gone to bed, laying on his left side when someone struck the fatal blow with the sash weight, smashing in the right side of the skull. The body was then removed with the mattress and other articles, taken to the lonely woods then buried. The faithful dog must have gone along with the victim and was killed and buried with his master so that the animal's scent would not betray the grave.

It is stated that the victim had a son named John R. Bryant, who is a veteran of the world war, having served with the A. E. F. in France, where he was wounded in the leg. Inquiry discovered the fact that Bryant had written to his lawyers in Orlando from New Jersey about insurance papers and that the communication was received Saturday.

From stories gathered yesterday over the mysterious killing of Bryant, was that Bryant, who had been a citizen of Orange county for many years, was sixty years old and lived with his son and daughter-in-law in a two-story house on the Winter Park about a quarter of a mile from Orlando. Bryant was in the habit of carrying a roll of bills on his person, in value of about two or three hundred dollars. It is stated that there was quarrelling in the family. A neighbor living in a tent a few feet from the home told that four weeks ago today the son, John R. Bryant, told him that a collector had threatened to levy on his father's horses if a feed bill was not immediately paid, and that the elder Bryant was going to "beat it" in order to escape the debt.

The son told the man that his father had left early Sunday morning. The son and his wife were seen by the

man leaving at 11 o'clock in carryall with two good horses, going north.

ORLANDO, April 19.—The coroner's jury empaneled by the county judge, William Martin, on Saturday to inquire into the cause of the death of George H. Bryant, whose body was exhumed after being buried for three weeks in lonely woods west of the Florida Sanitarium, near Orlando, brought in a verdict at 4 o'clock yesterday afternoon that George H. Bryant met his death at the hands of John R. Bryant, his son.

Further testimony brought out at the inquest showed that John R. Bryant, son of the dead man, his wife and baby shared the house of the murdered man on Lake Ivanhoe; that they had come from New York state about four months ago.

It was stated that the son told a fellow employe shortly before George H. Bryant's disappearance that his father promised him a share in the property and that he had failed to keep his promise.

M. E. Powell, of Orlando, testified that he passed John Bryant, his wife and child about five miles south of Sanford between 3 and 4 o'clock Sunday afternoon, March 22, in a wagon with a team of horses, with a horse hitched on behind which by description tallied with the horse owned by George H. Bryant.

It is not known definitely what steps are being taken to apprehend John R. Bryant and his wife, who are reported in New Jersey.

The elder Bryant's body was found last Saturday by a Mr. Marden, of Winter Park, who happened to see a wagon standing beneath a tree in the woods. Investigating, he found that the earth beneath the wagon had been dug into recently, and excavating with his hands he discovered a bare foot. Pulling on the foot, it came loose from the remainder of the body. The body was exhumed, and with it was found also the body of the old man's pet dog. Bryant, who was sixty years old, had been killed by being hit over the head with a window sash weight. This weight was found buried with the body of the man and the little dog. The mattress from the old man's bed was found nearby, bloodstained. It is believed the son murdered his father while the old man lay asleep on his bed in his home.

A firm of lawyers here had a letter from John Bryant a few days ago relative to insurance which his father carried.

"I NEVER KNEW YOU COULD KEEP RATS OUT OF A BUTCHER SHOP."

What Ralph Watkins says: "Figured rats around store had enough to feed on; wouldn't touch anything suspicious. Heard about RAT-SNAP, gave it a trial. Results were wonderful. ## SOUR STOMACH INDIGESTION

### Theford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Theford's Black-Draught, the genuine herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver.

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Theford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Theford's. E. M.

## IS SURPRISE TO MISS UNDERWOOD

### NEVER DREAMED A MEDICINE COULD DO ANYONE AS MUCH GOOD AS TANLAC HAS HER, SHE SAYS.

"I wasn't sick exactly, just run down and needed an all-round building up, and that is exactly what Tanlac did for me," said Miss Edith Underwood, who lives at 108 Oak Street, West Tampa.

"Several months ago I lost my appetite and began to lose weight. I was nervous and at nights got very little sleep. I was generally out of sorts and had such a tired draggy feeling, the least little task was a burden to me. I had awful headaches, too; they felt just like an iron band was drawn around my head and was pressing it in. I even shudder now when I think of them.

"I am sure I got Tanlac just in time to save me from a severe sick spell, possibly a general breakdown. It certainly was a big surprise to me the way this medicine took hold of me and built me up. My appetite is splendid now, and I have gained ten pounds in weight. I sleep sound every night and wake up in the morning bright and cheerful. It was just the right medicine for me, gave me strength and energy which I needed so much. It benefited me in every way; I couldn't have asked for more; in fact, I never dreamed a medicine could do as much good in such a short time.

"Tanlac certainly stands out supreme above any other medicine I ever tried."—Adv.

## FREIGHT LINE BETWEEN ORLANDO AND SANFORD.

Robertson-McKee Motor company have just closed a deal with F. Watts for the Reo speed wagon to operate a freight line from Orlando to Sanford. Mr. Watts selected the Reo truck after having watched this wonderful power to deliver the goods. Mr. Watts is now circulating among the merchants soliciting business for his freight route which will be inaugurated about the first of next week. Mr. Watts has been operating the City Beautiful transfer, under the name of Watts & Son, in Orlando for some time.—Orlando Sentinel.

## IF BACK HURTS BEGIN ON SALTS

### FLUSH YOUR KIDNEYS OCCASIONALLY IF YOU EAT MEAT REGULARLY

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and get poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.—Adv.

## LARGE DELEGATION OF ORLANDO PRESBYTERIANS AT SANFORD.

The Orlando First Presbyterian church is well represented at the Presbyterial being held in Sanford this week. Among those attending from Orlando are the following: Rev. and Mrs. T. H. McConnell, Mrs. I. W. Mathews; Mrs. J. B. McGruder, Mrs. G. Max Smith, Mrs. E. T. Jackson, Mrs. A. A. Carmack, Mrs. J. M. McCluskey, Miss Telford, Mrs. S. E. Ives Jr., Mrs. S. G. Walker, Mrs. F. Lewter, Mrs. G. A. Ranne, Mrs. Ingram, Mrs. L. G. Starbuck, Mrs. S. D. Hardaway, Mrs. Miller, Mrs. T. P. Grant, Mrs. R. L. Hyer, and Mrs. F. J. Terry.—Orlando Sentinel.

YOU certainly want to save money, and you would like to have better bakings. Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs. Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality. It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit. It is used by more housewives and domestic scientists than any other brand. It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet. Gluten is the muscle building part of flour which is of great importance. To be sure you get it in your bakings use plain flour and good baking powder, (not self-rising flour).

**THE AMERICAN PRESS ASSOCIATION**

Agricultural report from Washington tells how to distinguish lamb from mutton. Down here we leave it to the honest (?) butcher.

Don't you think we have a wonderful city here on the banks of the St. Johns? And don't you think you can help it to become more wonderful?

Sanford is to build a tourist hotel costing \$800,000 and a golf course costing thousands more. Who says there's no nerve in celery.—Tampa Tribune.

Those tourists who were so cocksure that the winter was over and rushed back north will have the pleasure of wading around in the snow this morning and we hope they get enough of it. April is the prettiest month in the year and so few stay to enjoy it.

"I like to see a man proud of the place in which he lives. I like to see a man live so that his place will be proud of him. Be honest, but hate no one; overturn a man's wrong-doing, but do not overturn him unless it must be done in overturning the wrong; stand with anybody that stands right; stand with him while he is right and part with him when he goes wrong."—Abraham Lincoln.

Many of our people spend time and money going west in the summer to see the mountains when they could, for much less expense, go to the mountains of North Carolina and get the same benefits. The mountains of Colorado may be larger and there may be more of them, but North Carolina is hard to beat when it comes to the real benefits to be derived from the mountain air. And our own southern mountains are only a few hours ride from Florida.

**NOW IS THE ACCEPTED TIME.**

There is a tide in the affairs of men which taken at the flow leads on to fortune. One of our great poets said these words many years ago and he never said a truer sentence in his life. There is a tide in the affairs of the city of Sanford right now that taken at the flow will lead us all to fortune—if not all of us at least all of those who have boats and nets that they can scoop the catch when it comes by. Not all of us will ever have fortunes but the people of this city will help themselves and their town immeasurably in the next twelve months or they will sit down and let the opportunity pass them by. It is hardly necessary to go into details about what Sanford is doing or expects to do. There are several big propositions contemplated here now that any one of which means fortune to Sanford. This paper has the inside dope on these plans but cannot give them to the public. There are many secrets locked up in the bosoms of newspaper men all the time and there is a time to give out publicity on affairs and there are times to keep the details to yourself until the plans mature. But this we can say to the people of Sanford:

These big things for Sanford hinge quite a bit on the amount of ginger and pep displayed by the city during the summer. They depend very much on the attitude of the citizens of Sanford toward big projects and toward strangers in our midst who want to invest their money here. They depend very much on whether the city as a whole intends to go forward and display the proper amount of optimism or the proper amount of interest in all that pertains to the building of this city. This is not giving advice or slandering anyone. It is simply facts stated in the right spirit to all those who in the past have not taken an active part in matter of making Sanford a big city, in taking advantage of the many good propositions that have come our way and helping that broad minded spirit of helping everything that was for the good of Sanford. But of all the good things coming our way in the past there has never been a time in our history when absolute co-operation was as essential as right now. We should get that spirit of cohesiveness that will hold us together regardless of politics, religion or business relations. It is that spirit that will bind us together even if we are bitter partisans to the point of enmity. It is that spirit of getting together of every man and woman in Sanford to take up these

large affairs that are in our grasp right now and push them to completion. It is that spirit that will bury all previous differences under that broad banner of public welfare and public good and go ahead without any sense of that tired feeling that stops progress in the summer time. We have no time for summer siestas here if we intend to do those things that are up to the entire citizenship.

Sanford is on the edge of the biggest boom in her history. We can either start the ball rolling down hill and let it roll faster and faster with the momentum gathering at every jump and getting to the bottom where prosperity is written in big letters or we can leave the ball at the top of the hill where it is just as liable to roll to the other side where dead towns are congregated. Nothing will keep this town from going ahead and becoming a city of twenty-five thousand people in the next five years if all of the big projects are launched this summer that should be launched and they will be put over if we just go after them in the right spirit and the right spirit is that spirit of getting together and staying together to the end of the chapter. In this respect we also call your attention again to the fact that only by the Chamber of Commerce and kindred organizations can we expect to give our undivided efforts to any proposition and make it a success. Organization alone can perfect plans and put them in completed form in the making of a big city and organization can only come from a real organization that makes this their business.

**WITH THE EDITORS.**

Thos. J. Howarth of the Chester, (Ill.) Tribune, writes about his trip to Florida, and makes the following comment, editorially, that is worth reading:

Towns of the size of Chester in Florida have bonded indebtedness running into the hundreds of thousands of dollars. These bonds are mortgages on the physical properties of the cities placed in the firm assurance that public improvements—good roads, good educational institutions, adequate public utilities, and good public buildings—will attract people and capital from communities which have less faith in their ability to grow. The rapid growth of Florida cities in the past ten years is confirmation of the correctness of the history of the people of Florida. The same theory is finding confirmation in cities of the

north. Towns everywhere grow in proportion to the faith their inhabitants have in them, which faith must be shown in investments in those public utilities and improvements which put more pleasure in life. The inhabitants of a town who expect foreigners to invest in a community in which they themselves refuse to invest are presumptuous.

And then he describes his trip thro Florida and has the following about Sanford:

We were met at Winter Park by autos from Sanford, a city whose people are extremely proud of their town and surrounding country. It is here the celery industry of Florida reaches its highest development. Hundreds of acres of celery may be seen flourishing here. As we passed through this section the harvest of the crop was in full blast, and the fields were alive with men and women cutting and packing the celery. Our autos were stopped as we passed along to permit the distribution of the celery to members of the party, a small envelope of salt being passed out with each stalk. I wish to testify here that I have never eaten such delicious celery, every bite crisp and of delicious flavor from the heart out to the largest blade of the stalk. Developed land in this section sells for from \$1,250 to \$1,500 an acre. A celery grower told me that the grower was receiving about three cents a stalk for the celery in the car. It was expected that 3,000 cars of celery would be shipped from the Sanford district this year.

The driver of the car in which I rode was a large stock-holder and manager of a sixty-acre tract which was devoted to the raising of celery. He told me that the market this year was not nearly so good as last year for celery. "I might tell you," he said, "what we cleared from our tract last year, but you would not believe me, so I will not tell you." Celery land must be highly developed. Not only must there be irrigation, but there must be drainage, and a celery farm must be tilled about every sixty feet. Quantities of fertilizers are used in the preparation of the soil for a crop of celery.

## CHAMBER OF COMMERCE WILL START CAMPAIGN FOR NEW MEMBERS

(From Wednesday's Daily)  
The Sanford Chamber of Commerce will put on a membership campaign and the campaign will start immediately. Hon. Forest Lake has accepted the chairmanship of the membership drive and he has called in some good ones to help him and they will make a thorough canvass of the city in the endeavor to get every citizen into the ranks of the working members. The annual dues are not everything. The Chamber of Commerce does not only want the dues but they want the active participation of the members in everything that the Chamber of Commerce undertakes. Every real citizen of Sanford will become an active member of the Chamber of Commerce for he already knows what it means to Sanford to have a live organization of this kind in Sanford. If a man can afford \$25 to join the Chamber of Commerce it is a public duty to make that contribution for the development of Sanford. Membership in the Chamber of Commerce shows your sympathy with an organized effort to better the city and life within it. The things that

are worth doing are brought to successful issue only through united demand and interest. As a member of the Chamber of Commerce you are afforded an opportunity to work for conditions you have as a good citizen long hoped for; you can help things happen. If one gives his best efforts he is justified in looking for results favorable to himself, material and ethical. He profits in dollars and cents through the increased prestige of his city but best of all in personal satisfaction at having come out of his own shell of self interest and broadened his horizon. He is a small man and a mean man who cares only for his own success and for the prosperity of his own generation alone. Therefore the broad-minded citizen seeks to ally himself with those forces which are building the city of the future, for his children and his children's children. The Chamber of Commerce movement ought to prove a big impetus to the growth of the city in every phase of its life. Don't you want to have a part in this?

## UPSALA AND GRAPEVILLE

A number of autos were trying out the new brick road on Sunday. It extends clear to Paola now, passing through Upsala, the last link, the last link, the short cut through the J. E. Lundquist place, has been opened to the public this week.

Mrs. Barney Beck was on the sick list with severe stomach trouble a number of days last week.

Mrs. J. E. Vaughn was a caller at the home of Mrs. T. O. Tyner Wednesday.

Mrs. Mabel Krill has been in town a number of times lately, having some had teeth extracted.

W. C. Miller, of Orlando, spent last Sunday at the home of his daughter, Mrs. Volle Williams.

Glad to note that C. M. Williams, who was on the sick list for a week, is again able to be around.

Mrs. Horne, of Orlando, is spending a few days with her friend, Mrs. Westerlick.

We are all so sorry to hear of the terrible accident which occurred Monday noon at the A. C. L. yards when Andrew Bertelson, of Upsala, came so near being killed when the engine started while he was at work under the front of the tank car. We hear that the leg was broken below the knee and at the ankle and that some crushed toes had to be amputated. He was taken at once to the Fernald-Laughton hospital where friends say he is resting as easy as could be expected. We extend our sympathy to the sufferer and his family.

Judge Benton and wife and daughters, Alice and Helen, near Maitland, came up Tuesday by auto to spend the night at the home of Mr. and Mrs. A. F. Westerlick, motoring on the next day to Jacksonville where they took the boat for New York for their summer home at Rochester, N. Y. They are so much pleased with Florida they have bought them another place and expect to put up a residence on it to suit themselves on Lake Maitland.

This has been written with our left hand in a basin of hot salt water, as on the evening of the 9th we happened to a painful little accident cutting off the end of the thumb, while killing a chicken. Dr. Denton was called and soon checked the arteries bleeding. It is doing well now.

Mrs. Tyner took us in for the first dressing. We appreciate very much the kindness and sympathy of our friends in our little misfortune.

417 Sanford Avenue

## Some FACTS About

**Ford**  
THE UNIVERSAL CAR

Here are authentic figures from the Ford Factory at Detroit. They show you just how many Ford cars and trucks have been built each month since January 1, 1921, and how many have been sold to retail customers, in the United States.

	Produced	Deliv. to Retail Customers
JANUARY	29,883	57,208
FEBRUARY	35,305	63,603
MARCH	61,886	87,221
Total Production	127,074	Tot. Ret. Sales 208,032

showing that actual sales for the first three months of 1921 exceeded production by 80,958 Ford cars and trucks!

April requisitions already specify 107,719 additional cars and trucks and the estimated April output of the factory and assembly plants combined calls for only 90,000!

These facts clearly show that the demand for Ford products is growing much faster than manufacturing facilities to produce and were it not for the dealers' limited stocks, which are now being rapidly depleted, many more customers would have been compelled to wait for their cars. It will be only a matter of weeks, therefore, until a big surplus of orders will prevent anything like prompt deliveries.

If you would be sure of having your Ford car or truck when you want it, you should place your order now. Don't delay. Phone us or drop us a card.

### CELERY CULTIVATION AT SANFORD.

We on the south side of Milwaukee know a little about celery cultivation, having seen those big celery fields west of 22nd avenue, which have nearly disappeared to make room for residences, but celery culture by the Comstock family never approached the celery culture at Sanford, Florida, whose system of sub-irrigation, sub-areation and sub-drainage costs \$250 per acre, but an acre of land, we were told, at Sanford has produced 70 tons of vegetables in a season, of nine months and sold for \$4,064.00, excluding freight rates of approximately \$1,000. We understand that 313 cars were shipped the week before we reached Sanford and 2,151 cars since Christmas. A bunch of celery and paper of salt being presented to each of the occupants of over 100 autos. Sanford district have the underground system of irrigation and the earth is so fertile that three crops a year may be rotated by the man who can keep up with the productive soil.—Milwaukee Times.

"And There Wasn't the Slightest Smell from Dead Rats."

Writes John Simpkins, farmer of Annandale, N. J.: "Rats were costing me hundreds yearly; tried dogs, ferrets, poison, could not get rid of them. Bought \$1.25 pkg. of RAT-SNAP (5 cakes). Used half, not a live rat since. Dead ones a plenty. I like RAT-SNAP because after killing rats it dries them up—leaves no smell." Three sizes, 35c, 65c, \$1.25. Sold and guaranteed by Ball Hardware Co.—Adv.

The disciples of Bacchus are still claiming that prohibition is a failure, but they will have to admit that they are forced to work overtime finding their favorite brands.

FOR SALE—Large WAREHOUSE with rail road siding. Three blocks from center of city.—Geo. W. Knight, Real Estate and Insurance, Sanford. 35-1f

Dr. Sawyer, the president's physician, may be an excellent gentleman of medicine, but General Dawes has the only word that describes his appearance in uniform.

"Direct action" in Britain takes the form of "direct inaction"—Greenville (S. C.) Piedmont.

Considering the anguish of those who are trying to collect the indemnity, one suspects at times that losing the war was just another of Germany's atrocities.—Baltimore Sun.

"The Florida Wild Life League and its principles are sweeping Florida," says the Orlando Sentinel. Beware of false interpretations!

"In case of fire—keep your head," advises the Gainesville News. It would also be wise to not forget your clothes.

### Nine Are Injured On Southern Train By Freight Train Door

(By The Associated Press)  
CHARLOTTE, N. C., April 18.—Nine persons were slightly injured at China Grove near here today when two Southern railway passenger trains were side-swiped by a hanging door on a north-bound freight. Four of the injured were brought to a local hospital.

# STORM CARRIED DEATH ON THE WINGS OF WIND 100 LOSE THEIR LIVES

## Property Loss Mounts Up Into the Millions

### GEORGIA HIT ALSO

#### CROPS WIPED OUT BY STORM, ADDING TO THE BIG LOSSES

MEMPHIS, April 18.—That the death toll from tornadoes and heavy rain storms which swept over six Southern states late Friday and Saturday will reach 100, was indicated by reports from isolated sections last night, while the loss to property and crops will run into the millions. The known dead last night total ninety-seven.

Many of the storm swept sections are still shut off from wire communication and reports of additional casualties are slowly coming in from relief parties.

The list of dead and injured, according to reports available early today, is as follows:

Texas—Avinger, 6; Atlanta, 1; Queen City, Cass county, 2; and several missing, and probably three near O'Farrell.

Arkansas—Pike county, one dead; twelve injured, four probably fatally; Yell county, one dead, ten injured, two probably fatally; Miller county, ten whites and seven negroes dead; twenty-three seriously injured; Pope county, three dead, and a number seriously injured; Hempstead county, twenty white persons and twenty-one negroes dead, fourteen seriously injured, several fatally. A number of sections hit by the storm have not been heard from.

Mississippi—Five dead at Stee, one at Sontag, one at Rural Hill, and one in railroad washout near Mossell.

Alabama—Five dead at Cave Springs, near Tusculum; five at Ralph, Tuscaloosa county; three at Sulligent, Lamar county and one in Dallas county. Torrential rains which followed the wind in all the states hit by tornadoes have delayed relief work and hindered the compiling of accurate lists of casualties.

In Arkansas where the greatest havoc was wrought, the Red Cross is at work in Hempstead and Miller counties, where hundreds of families are homeless. Tents have been furnished by the national guard, and blankets and provisions are being rushed to the sufferers.

The extent of property loss cannot be determined for days. In Arkansas on many plantations in Miller and Hempstead counties, a rich farming section, practically every building was destroyed, newly planted crops washed out, orchards ruined, roads and bridges badly damaged, almost all telephone and telegraph wires destroyed and railroad tracks washed out at many places. Farm houses some distance from the direct path of the storm were damaged. Estimates of the property loss in these two counties last night exceeded \$2,000,000.

At Atlanta, O'Farrell and Avinger, across the Arkansas line in Texas, many farm houses and outbuildings were destroyed and crops in these sections are said to be almost a complete loss.

Heavy loss in Tennessee is reported at Newport, Lynnville and Connersville. In Shelby county alone, the county commissioners last night estimated the loss on roads and bridges washed away was \$75,000.

In Mississippi, in addition to actual loss from the high winds, much farm land will be inundated by the rapidly rising streams throughout the state. A number of railroads in that state report tracks washed out and damage to road beds by the unprecedented rainfall. A report received last night from Amite county says ten farm houses were destroyed by a storm late Saturday and ten persons injured, one fatally.

In Alabama, property loss in Birmingham is estimated at \$200,000 with ten injured. Heavy rains and high wind in several parts of north Alabama also are reported to have caused heavy property and crop loss.

In Georgia, where a heavy wind and rain storm struck Rome, the property loss will exceed \$200,000, it is reported.

The Savannah News wants to know if Mr. Hughes is taking notes for his book on Mr. Harding. Well, the precedent has been set—and the administration is young yet.

"Better-Get-Better." Do it Now. If

## Jno. D. Jenkins Presented With Jewel By Masonic Lodge

(From Wednesday's Daily)

Jno. D. Jenkins is the proud owner of a new Past Master's Jewel presented to him last night by the Masonic Lodge, of which he was master during 1920.

The presentation was made by Dr. George Hyman at the regular meeting of the lodge held last night. Dr. Hyman, in a few appropriate words told of the service Mr. Jenkins had been to the lodge and of the esteem in which he is held by the membership. The presentation came as a complete surprise to Mr. Jenkins, who had been assisting in the exemplification of the Third Degree to a class of eight candidates.

Much interest is being shown by the local Masons in their several Masonic bodies in the city. Work is put on at practically every meeting and the attendance at the meeting was never better. Over sixty men were present at the meeting night night, including the following visitors:

- Harry Smoot, F. Church, H. W. Cowie and J. R. Wadsworth, Eustis.
- W. I. Bagwell, Mt. Dora.
- C. B. Gifford, Rolla, N. D.
- L. P. Houston, Hammond, Ind.
- F. M. Taylor, Montgomery, Ala.
- C. E. McKee, Armistead, Ala.
- C. E. Secrest, Concord, Ky.
- Frank W. Grayham, Tampa, Fla.
- J. P. Anderson, Ludlow, Ky.
- F. P. H. Ackers, Jr., Albany, Ga.
- S. A. Webb, Live Oak, Fla.

## MRS. B. F. GRAHAM DIES AT HOME OF DAUGHTER

(From Saturday's Daily)

The many friends of Mr. and Mrs. H. W. Barr will be pained to learn of the death of Mrs. B. F. Graham, mother of Mrs. Barr, at their home, 400 East Central avenue.

Mrs. Graham, who reached the good ripe age of 76, was born in Urbana, Ohio, and educated at the Woman's College in Chillicothe, Ohio. She married Mr. B. F. Graham in Clarinda, Iowa. Six children were born of that union, two of whom, Mrs. L. A. Sheldon, of Geneva, Fla., and Mrs. W. H. Barr, of Orlando, are still living.

Mrs. Graham was a life long member of the Presbyterian church, of a cheerful, loving disposition; faithfulness and loyalty were her strong characteristics. She was unusually active and strong for a woman of her age, and will be greatly missed by a wide circle of friends.

Mrs. L. A. Sheldon will accompany the remains to Loveland, Colo., where they will be placed beside her husband who preceded her in death nearly twelve years ago. There will be a brief service conducted here for the family by Rev. E. D. Brownlee, of Sanford, her pastor, assisted by Dr. T. H. McConnell. The regular funeral services will be held in Loveland, Colo., where other relatives and many old friends still live.—Orlando Sentinel.

## Polk County Election For School Bonds

(By The Associated Press)

## HOT WATER FOR SICK HEADACHES

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headaches are caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head, producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilid, aspirin or the bromides, which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast will not only wash these poisons from your system and cure you of headache, but will cleanse, purify and freshen the alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation, or sour, acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.—Adv.

## Capitol Appropriation Bill Cut to \$200,000

TALLAHASSEE, April 20.—Senator Lindsay succeeded in getting the capitol appropriation cut from \$250,000 to \$200,000, when the matter came up on the order of second reading in the senate Monday, but his effort to have the time deferred to Jan. 1 was not successful. Mr. Lindsay pointed out that the estimate for the large sum was made more than a year ago when prices were much higher than now and said that if it was a fair estimate that it was more than likely that the smaller sum would do now. Senator Lowery of Leon made a fight to have the higher sum maintained in the bill but failed.

Lindsay then tried to put on an amendment deferring the action on the matter to Jan. 1, saying that this would make it unnecessary to add the amount needed in this year's tax and would thus relieve the people that far. Lowery showed that the board of state institutions is to do the work and that it does not have to begin work at once unless it thinks best. It can, if materials should seem high, wait for a lower period. This amendment failed and the bill went to third reading.

## JENKINS-MONROE

(From Monday's Daily)

Miss Lucille Jenkins and James Lionel Monroe were united in marriage at Daytona Saturday afternoon at four o'clock. The marriage was a surprise to their many friends and the families of the contracting parties for while it was known that they would wed some time in the near future it was not known that it would take place just when it did. The young folks are both well known in Sanford where they have been residents since early childhood. The bride is the daughter of Mr. and Mrs. R. P. Jenkins, Mr. Jenkins being a well known engineer on the A. C. L. Ry., and is a Sanford High School pupil, having a large circle of friends among the younger society set and being beloved by all who knew her for her many charming traits of character.

The groom is the eldest son of Mrs. Roberts, formerly Mrs. D. G. Monroe, and is a young man of sterling worth and character who has been living in Sanford for the past fifteen years or more and since serving his country in the navy during the war has been engaged here in the vegetable business with his uncle, Ben Monroe, on Celery avenue.

The young people expect to make Sanford their future home and will go to housekeeping as soon as they can build their new home. The many friends extend congratulations in which the Herald joins.

## RATS PASS UP ALL OTHER FOOD FOR ONE MEAL OF RAT-SNAP.

Their first meal of RAT-SNAP is their last. Kills in a few minutes. Dries up the carcass. Rats killed with RAT-SNAP leave no odor. RAT-SNAP comes in cake form. Sold and guaranteed by Ball Hardware Co.—Adv.

## \$1,824,784.47 Asked For State Schools

(By The Associated Press)

TALLAHASSEE, April 16.—At a joint meeting of the committee appointed from the state board of education and the state board of control held in the executive offices yesterday at which all members of the state board of education were present and at which the state board of control was represented by its chairman, Hon. J. B. Hodges, and its chairman, Hon. P. K. Yonge, and assisted by Dr. Wilmon Newell, the board of education suggested as a basis for a proposed budget to be presented to the legislature for appropriations for the institutions of higher learning, the following as the idea of the board of education as the maximum figures:

University of Florida.....	500,000.00
College for women .....	600,000.00
Institution for deaf, dumb and blind .....	225,000.00
A. & M. college (colored) .....	60,000.00
University extension work .....	60,000.00
To match Smith-Lever fund .....	91,784.47
Summer Schools .....	30,000.00
Plant board .....	250,000.00
Exp. board of control.....	8,000.00

Total.....\$1,824,784.47

The board of control was expected to confer with heads of the institutions and to present a detailed budget distributing these amounts.

These figures contemplated considerable additional building at the major institutions, higher salaries for teachers and more professors and teachers.

## More than just materials

When you let us supply your building needs you get a great deal more than just so many feet of lumber—bundles of shingles—pounds of nails—or panels of Beaver Board.

You get the benefit of our building material knowledge and experience in Service that helps you get the results you want at the right price. Service first in planning the work—more service in selecting proper materials—speedy service in delivering the goods.

You pay for the materials. The service pays for itself in the larger volume of business it brings through super-satisfied customers.

It will pay you to be one of them.

## Pays for Fertilizer

Summer fertilizer on citrus trees pays for itself in two ways—gives larger fruit, therefore more boxes, and a greater bearing surface for next year's crop. We recommend

<b>SEMINOLE TREE GROWER</b> 4% Amm., 6% A. P. A., 8% Pot.	<b>IDEAL HIGH GRADE FRUITER</b> 4% Amm., 8% A. P. A., 4% Pot.
<b>IDEAL FRUIT and VINE MANURE</b> 3% Amm., 0% A. P. A., 10% Pot.	<b>W. &amp; T.'s Seminole Fruit Manure</b> 3% Amm., 8% A. P. A., 5% Pot.

THESE two telegrams, one from the far East, the other from the far West, are typical of the many telegrams which are being received from every section of the country asking for immediate shipment of Buick cars and for an increase in dealers allotments.

They prove in a most conclusive manner the demand for Buick cars—a demand which is particularly gratifying now when motor car values are being scrutinized as never before and when final sales are consummated upon the basis of greater relative values and actual demonstrated worth.

A good indication of the demand for Buick on the Atlantic Coast.

Active buying, too, is stimulated by a realization of the periodical shortage of Buick cars and the desire to insure Spring deliveries by the immediate placing of orders.
