GERMANS STRIKE AT ENGLISH COAST

THE EXPECTED RAID HAS AT LAST BEEN MADE ON ENGLAND

London, Dec. 18. For the first time in centuries England has been struck by a foreign foe, a squadron of swift German cruisers having crept through the fog Thursday night to the eastern coast and fired their guns against the Britons.

When day broke they began bombardment of three important towns: Hartlepool, at the mouth of the Tees; Whitby, 35 miles southward, and Scarborough, noted as a pleasure resort, 15 miles beyond.

Men, women and children of the civilian population were left dead and wounded, struck without warning while at work. In all the casualties number 112 according to the official list, of whom thirty-two are known to be dead.

The hostile squadron escaped in the mist after an encounter with the coast guard vessel.

Henry Oscar Clark

Henry Oscar Clark, father of Mrs. J. C. Ellsworth, who resides near Moore's Station died at his home in Southland, Michigan on Dec. 11th. He was born in Buffalo in 1825 and came of a parentage of which any man could be proud.

Mr. Clark lived most of his life in Genesee County, Mich., and coming from a fighting stock, when the Civil War broke out joined the 11th Michigan and served with honor throughout the war.

Mr. and Mrs. A. K. Powers and little son, Kinchen left yesterday for the old home in North Carolina near Wallace, where they will spend the Christmas holidays.

LETTUCE BRINGS A GOOD PRICE

When lettuce brings a good price at a sheriff's sale it means that lettuce is bringing a good price in the market. Owing to some litigation between Mr. Fleischer and a partner in a lettuce crop the lettuce was sold by Sheriff Hand as it arrived at the loading station and at the forced sale brought 80 cents per crate.

CROP REPORT OF SEMINOLE COUNTY

AGRICULTURAL STATISTICS AS GATHERED BY AN OFFICIAL OF THE COUNTY

The agricultural statistics recently compiled by Davis Hart for Seminole County are very interesting, showing as they do the varied crops, acreage and value of same. They are as follows:

Table with 4 columns: Crop, Amount, Acres, Value. Lists various crops like Corn, Oats, Sweet Potatoes, Sugar Cane, Field Hay, Native Grass, Onions, Lettuce, Celery, Peppers, Irish Potatoes, Cabbage, Tomatoes, Squash, Eggplant, Cucumbers, Watermelons, English Peas, Beans, Oranges, Grapefruit, Pecans, Strawberries, Peaches, Grapes, Wine, Horses, Cows, Milk, Butter, etc.

TO ABOLISH THE TAX COMMISSION

The tax assessors of Florida will ask the next session of the legislature to pass an act abolishing the Florida Tax Commission, according to a statement made by County Tax Assessor Arthur Butt, who recently returned from a meeting of the tax assessors at Jacksonville.

Mr. Butt says that a resolution was passed for legislative enactment, which will give each county the right to sell all unredeemed tax certificates from 1878 to and including 1912. The sale is to be at public auction, the property bringing whatever it will, and the purchaser to be given a bona fide state deed to same.

Another recommendation is to get rid of the erroneous descriptions now on the books of various clerks, securing legislative enactment that will wipe out the entire list at one time, and will give a clean and correct set of books. Reporter-Star.

Deep Water in Orlando

The Times-Union of Saturday contains the following note of interest in Orlando:

"Yesterday morning the commodious houseboat Framalin arrived in this port from Chesapeake Bay on her way to Sanford. She is now moored at the S. B. Hubbard Company's wharf. The vessel is owned and commanded by Capt. James Laughlin 3d. She has the distinction of being the only vessel shown on the shipping register from Orlando.

"The Framalin is 62 feet over all and has a breadth of beam of 16 feet. She is modern in every particular. Capt. Laughlin will take his vessel south to Sanford within the next few days, where he will spend the winter. The Framalin may be used for cruising in Florida waters during the winter season. Capt. Laughlin built the Framalin in Orlando. Since being launched the vessel has covered many thousands of miles up and down the Atlantic coast."

Presented With Jewel

At the meeting of the Sanford Lodge of Elks on Wednesday night Past Exalted Ruler Cruse Barnes was presented with a beautiful jewel by the lodge. Dr. T. A. Neal made the presentation speech and in a few words expressed the admiration and respect felt by each member of the lodge for Mr. Barnes. In receiving the jewel Mr. Barnes was most grateful in his remarks and pledged his loyalty to the lodge, promising to give the same unstinted labor toward the betterment of the lodge that he had while holding the position of Exalted Ruler. The jewel was a beautiful piece of work being in the shape of an Elks pin suspended from a gold pendant and engraved with the name of the recipient and the lodge. The gift was a beautiful tribute to the Past Exalted Ruler and is greatly appreciated by him.

HILLSBOROUGH GOES "WET"

Tampa, Fla., Dec. 17. Hillsborough county voted to retain the saloon Tuesday by a majority of 1,500, according to the latest returns, with but two or three small precincts missing. The only section of the county which was wet and which was voted dry was Plant City, the scene of recent disturbances at a prohibition rally. The foreign element in Tampa was largely responsible for the result. Approximately 6,000 votes were polled.

UNCLE SAM'S ORDER HAS BEEN OBEYED

THE MEXICAN FORCES HARK TO THE CALL FROM AMERICA

Washington, D. C., Dec. 17. While American reinforcements were ready to entrain today for Naco, Ariz., administration officials learned through unofficial advices that Gov. Maytorena, commander of the Villa troops besieging the Mexican town of Naco had announced he would discontinue firing on American territory. This compliance with the order of Provisional President Guiterrez, it was believed here, would relieve a tense situation.

The Washington government had been notified that the orders of Guiterrez, to his commander had been dispatched. It had warned both factions that unless the firing ceased American artillery would shell the Mexican troops out of their positions. The reinforcements ordered yesterday to proceed to Naco to reinforce Brigadier General Bliss were expected to reach their destination within three days and it was the general impression here that if at the end of that period firing across the border had not ceased the American troops would be ordered to return to the line.

The reinforcements are being sent to Naco in response to the request of General Bliss, as a precautionary measure. The troops are the Eleventh, Eighteenth and Twenty-second infantry from Texas and three batteries of artillery from Fort Sill, Okla. With these reinforcements the American forces at Naco would be brought up to approximately 6,000 men, including eleven troops of cavalry, three regiments of infantry and six batteries of artillery with twenty-four guns.

TO ESTABLISH A RESCUE HOME

By a unanimous vote on last Sunday the Baptist church of this city authorized the establishment of a rescue home for the winter. The rooms of the old Baptist church have been supplied with cots and comforts. For the past week the committee in charge has supplied beds and meals for homeless people. The following committee was appointed by the church to look after this work: J. D. Hood, chairman; George McGahabin, J. C. Roberts, J. F. Turner and F. P. Rines. Mr. George Hyman has been acting as manager for the past week.

Mercer Glee Club

In making appropriations for your Christmas holidays be sure to take into account the Mercer Glee Club which is to give an entertainment in the Temple lecture room, corner of Park avenue and Sixth street. There are twelve young men in the club and all experienced entertainers. This is the eighth year the club has toured. Tickets will be on sale at the drug stores and at the Temple at 50 cents for adults and 25 cents for children under 14 years. This entertainment is put on under the management of the Temple Lyceum Association.

All the European governments at war are encouraging the marriage of young women to their betrothed husbands before the men go to the front. The result will be that this time next year there will be thousands of babies whose fathers died on the battlefield before the children were born. The governments are virtually saying to their young men, "Breed before you die."

He says it takes more than a houl or two to "down" him when there is a good time on hand. Lithia, one of the precincts in Hillsborough county went dry in the recent election. Lithia was running true to form.

Maybe the war in Europe and the big German guns are responsible for the many changes in the weather this winter. With the few cloudy days we are all about to have the blues.

Perry M. Colson and R. W. Davit have been nominated for Register and Receiver of the Land Office as Gainesville. One is a progressive, the other a reactionary of the strongest type.—DeFuniak Breeze.

Which is an even stand off, eh, Bro. Morris?

The Miami Metropolis says that if physicians of Florida know that certain injurious dopes and drugs are being sold as patent medicines they should come out squarely and state the names of them in order that the public could be prepared for sudden death.

Florida papers were on the job as usual and published fine Christmas editions. There were many of them and space will not permit a special mention but like all Florida journals they demonstrated the high caste of our newspapers and the weeklies were there also with illustrated covers and big cuttings. There is no state in the Union that can boast of so many real good newspapers as Florida.

The many compliments paid The Herald by the home people are appreciated more than the editor and business manager and all the force can tell and it is such words of encouragement that makes our work seem lighter. The special number of The Herald was compiled in the regular time allotted for the regular edition and no special effort was made to publish a monster edition, but the ready response of the merchants assisted in making the cutting larger than the usual Tuesday number and the capable Herald staff was ready to supply the number of pages. It only demonstrates what The Herald could do when the occasion and the advertising requires.

JUGGLING FIGURES

What a lot of forms of fraud and meanness are beyond any power of punishment!

A citizen of St. Petersburg, who recently returned from the north hands us a card given him on the train out of Jacksonville by some person representing either the hotel named on it or the city of Orlando, or both. The card is that of the Hotel Astor, Orlando, and on the reverse side is a table of distances from other Florida towns from Orlando and their populations. As some of these populations given agree precisely with the United States census it must be assumed that the United States census figures were before the compiler and therefore that such deviations from the census figures as are made are made intentionally and with purpose to deceive.

Orlando in bold face type at the top is given "population 8,000."

St. Augustine, for instance is given 4,272; which is exactly the U. S. census for 1900—the census of 1910 giving here 5,494.

Ormond is given 595; the census of 1900—that of 1910 being 780.

Pulaska is given 3,301; the census of 1910 being 3,779.

St. Petersburg is given 4,127; which is the U. S. census figure of 1910 all right.

But Orlando's population according to the same U. S. census was only 3,894; and yet it is given as 8,000—or twice that of St. Petersburg.

The trick of course is in giving the 1910—or 1900—census figures for the other towns, and an estimated present census for Orlando. If this enterprising Orlando booster had used the same standard for both he would have had both according to the U. S. census of 1910—viz, Orlando, 3,894; St. Petersburg, 4,127—or, according to the present Polk directory estimates, Orlando, 8,000, St. Petersburg 11,000.

Some difference; and the other way about, too.—St. Petersburg Times. And yet it was a good scheme at that and the hotel man deserves a medal for being an Orlando booster.

AS CODRINGTON SEES IT

The State Supreme Court has reversed Judge Perkins' decision in the Sanford brick road controversy and the case now stands practically where it was two years ago. Brick are lying alongside the road while the tax payers are plowing through sand up to the hubs of their wagons and autos. The brick has been paid for out of bond funds in other words the people have paid for the hard surfacing material and ride in sand. All the trouble has been caused by a few knot-headed cases who insist in having their own property enhanced in value at the expense of the whole county. There are such people in every community. We have them in DeLand today—people who will fight our proposed bond issue for no valid reason whatever. One or two of the opponents here are opponents just to oppose, one or two are opposed to any public improvement; and one or two are fighting the proposition just to oppose.

The money to complete the roads as specified is not available it is impossible for the commissioners to fulfill the terms of the election call or the decision of the supreme court and some higher power than the supreme court will have to render a decision that will find a way to place money in the district road treasury where money does not now exist. The Herald has no suggestion to offer other than for the people of both sides of the controversy to get together, cut the width of the roads and build them now. The commissioners are helpless in the face of the decision of the courts and it is strictly up to the people to bury their differences and build roads if not sixteen feet wide then twelve or nine—but build them.

NO STATE DIVISION

Editor Howard of the Orange County Citizen does not favor the talk of dividing the state of Florida, as suggested by a contributor to the Reporter-Star called "Sigma" last week. We are sorry to hear that Bro Howard does not favor this idea for we were just preparing to support Orlando for the capital of East Florida or South Florida or whatever the new state would be called, but now he has utterly refused by the following very sensible argument.

"Our Friend Sigma, of Washington, D. C. is 'dreaming' in his proposition to divide Florida.

Such talk from a resident of Washington may do no particular harm but why not dream about dividing the District of Columbia or the state of Virginia, because northern Virginia and southern Virginia are very much unlike.

Why not separate 'Sigma's' head and his 'linguistic' tongue from his toes, since he can only wriggle them."

The fact that the state of Florida is an empire in itself, capable of growing every variety of farm and orchard products is only an argument for remaining as it is and not a reason for division.

Besides whenever a star is being made about making a capital of Orlando or any other city, it simply means a better light will be thrown on the merits of the proposition and that Friend "Sigma" would put a stigma on our own people."

CHARITY

There are hundreds of poor fellows walking through Florida, stealing rides on trains and working all kinds of stunts to get along. They have left the frozen north and come south to escape the cold weather.

Naturally there is not enough work to keep these hundreds in food and clothing and they are wandering up and down the state looking for something to eat. They are deserving and should at least have a meal and if possible a place to sleep, but thanks to the climate of Florida there are few nights when they can not be comfortable under the stars with the sky for their roof. We had a Charity Association at one time that did good work in taking care of the worthy ones in our midst but like many other good things died for lack of nourishment from the public. The Herald thinks it would be well to have some kind of headquarters during the winter months supported by the nickels and dimes of our people who are now throwing them away on mistaken charity. Where a man or woman or child could get enough for a cup of coffee and a sandwich at least. Regardless of what some may think of these people who at first glance may seem worthless, the editor of The Herald is convinced that many of them are worthy. We have no regard for the professional beggar who makes Florida every winter to rake off a fat living but we do think that a man who is seeking work and seems willing to work should have a meal if it is possible to give him one. This is real charity and none of us will suffer for having donated that much in the cause of suffering humanity. Let the ladies of the Welfare Department take up this matter of a Charity Association and if possible rejuvenate the old association.

THE BRICK ROAD STATUS

So many anxious inquiries are being made at The Herald office every day that we cannot answer them all separately and will endeavor in a few words to quiet the fears of the anxious ones and relate the facts as we see them. The injunction is an old story and everyone is familiar with the facts where the residents

of Celery avenue joined with Chase, Whitner et al., etc. to compel the county commissioners to build the roads as the election specified. The bond money, falling short the commissioners could not build Celery avenue 16 feet wide and the injunction was prayed for to stop the building of any brick roads that were over 9 feet wide. The roads in the special district that were 9 feet wide were all built while the matter was in the hands of the court. Judge Perkins decided in favor of the county commissioners and moved to dissolve the injunction. The matter was taken to the supreme court and the opinion of the supreme court was published in last Tuesday's paper. It upholds the injunction and states that the commissioners should have built and must now build the roads as specified in the call for the election. As the matter now stands there will be no roads built unless the matter can be compromised in some manner.

Seed Potato Warning

The Department of Agriculture is sending out the following warning: The farmers of New Jersey, other Middle Atlantic states and the southern states are warned by the department to see that the seed potatoes they buy bear the white label of the Potato Inspection service of this department. This label is placed on each container and certifies that the potatoes have been examined by Federal inspectors and found free from powdery scab, that they were grown on farms free from, and have not in any way been exposed to this disease.

They are warned against the use of table potatoes for planting purposes, as these, even though they do not show the disease, may have been exposed to powdery scab. Table potatoes are usually shipped from Maine in bulk and the car carries a blue certification tag, while seed potatoes are in sacks or other containers of a capacity not to exceed 50 pounds, and each container is separately certified.

Some dealers have been buying table stock and selling it for seed. These men are not violating any law, but they are exposing their customers to the risk of the introduction of a dangerous disease and a quarantine should the powdery scab be introduced.

The white seed certificate relates only to freedom from powdery scab but potatoes so certified are likely to be of better quality and less moved than the table stock potatoes. The supply of certified seed potatoes in Maine is ample and the price this year is low so that there is no excuse for planting table stock potatoes.

The department also states that the rigid inspection and other precautions through around certified seed stock from quarantined districts make such stock as safe as potatoes from non-infected areas and often better selected.

Farmers Are Alright

Washington, Dec. 10.—There is no emergency which justifies government assistance to farmers directly through the use of government cash or credit, says Secretary Houston, of the Department of Agriculture, in his annual report to President Wilson. Secretary Houston's statement is regarded as indicating the policy of the Administration on rural credits.

As the new bank law "takes just and particular knowledge of the farmers' requirements," he suggests that any additional credit needs of the agricultural community be cared for by "cooperative credit associations," by means of which the combined credit of farming communities could be utilized, and by a system of land mortgage banks, both systems privately capitalized.

The report says: "The American farmer is sturdy, self-reliant and independent. He is not in the condition of serfdom or semi-serfdom in which were the European peoples, for whom government aid was extended in some form or other during the last century."

In advocating a land mortgage banking system and a system of cooperative credit associations, the report says the use of the funds loaned for productive purposes on the farms covered by the mortgages should be insisted upon.

Investigation, he says, shows the need of a reorganization of the distribution process.

Secretary Houston asks congress for an additional emergency appropriation of several million dollars on account of the recent outbreak of the foot and mouth disease among cattle.

The secretary recommends consideration of legislation to establish a permissive warehousing system for grain and cotton. He pointed out that the warehouse facilities for cotton in the south are not centralized. "If the warehouses now in existence," said the report, "were re-

modeled so as to comply with the underwriters' requirements, and were bonded, and if adequate business methods were adopted, the financing of the cotton crop would be materially improved."

COAST'S BIG SPORTING YEAR

Practical Agreement on Athletic Carnival in Connection With the 1915 Fair in San Francisco.

While members of the Olympic congress have been debating on the standardized program for future international meetings the powers that be on the Pacific coast have practically agreed on the athletic carnival of sports scheduled in connection with the 1915 fair in San Francisco.

Almost every day from the time the gates open officially until its close, December 4, McGovern goes on to say, "the fair will bristle with athletic activity. Nowhere in the world has such a stupendous program ever been outlined."

According to McGovern, every form of sport, from the most ancient to the most modern, will be indulged in. All of the national championships of the A. A. U. are open to amateur athletes of the world.

In addition to the champs the following international events have been decided upon: April 26 to 30, fencing; May 5 to 8, boxing; August 2 to 4, cycling; August 5 to 6, dumb-bell and weight lifting; August 13 to 14, intercollegiate championships; September 6, pentathlon (five events); September 13 to 18, United States Football association soccer championships; tennis champs during September, and October 4 to 9, lacrosse.

Agitation at Columbia for Renewal of Gridiron Contests—Open Style Removes Danger.

An agitation has started for a renewal of football activities at Columbia college. Those who favor the reintroduction of football at the college point out that the main objection that the Columbia faculty had concerning the game now is removed.

The new style game, it is pointed out now to the faculty, has removed much of the danger in football.

Columbia has a student enrollment of about six thousand and from among this collection of youths it could mobilize enough footballers to give the best teams in the country a real battle for annual honors.

Eastern Star

Mrs. Mary C. English, Grand Matron of the Order of the Eastern Star for the state of Florida made her official visit to Seminole Chapter No. 2, Tuesday night, Dec. 15.

There was an unusually large gathering of Eastern Stars present upon this occasion, the largest in fact since the Grand Chapter meeting in the spring.

The work of the order was exemplified in a most impressive manner, after which Mrs. English made an excellent address touching upon the effective work of the order, its aims and purposes and splendidly organized chapters.

After the more serious business of the meeting was disposed of, an informal reception was held and dainty refreshments served by the hostesses of the evening, Mesdames Devine, Alice Hill, Bryan, Robbins and Parker.

Visitors present were Mrs. Thompson of Ohio and Mrs. McGarahan of Ocala.

Wednesday afternoon at 3 p. m. Mrs. English held a school of instruction for the members of the local chapter that was interesting and of value to those in attendance.

Seaside Party

Among the attractive affairs of the season was the charming little Kewpie party given by Mrs. Aylett Fitts, Jr., last evening.

The party was given by Mrs. Aylett Fitts, Jr., last evening, complimentary to the young ladies who have been assisting the Social Department dancing school.

Throughout the lower floor the decorations were suggestive of Christmas, with here and there cunning little kewpies peeping from among the vines or hanging from the bells.

The banyan was entwined with the graceful vines of star jessamine and Christmas decorations were everywhere.

Over the windows and doors hung strings of green and red ornaments, from which

the pretty red bells and sprigs of holly and mistletoe drooped in artistic effect. There was absolutely no chance for the girls to get away from the mistletoe for great branches of it were hanging in the most unexpected places.

After supper an archery contest afforded much amusement. Two large hearts ornamented with the inevitable kewpies were pinned upon the curtains.

There will be many professional dancers who will give exhibitions in all the new dances and a well known Indian artist, "The Princess Red Feather" will recite her own Indian poems.

The entertainment will be known as "Lady Ross Day."

The marriage of Miss Georgia Long and Dr. George Bridgeman, both of New Martinsville, West Virginia was solemnized at the Baptist parsonage, Monday afternoon at 2 o'clock.

The members of the Every Week Bridge Club were delightfully entertained by Mrs. Margaret Barnes yesterday afternoon at the attractive little home on the Heights.

Among the many conventions to be held in Sanford during the season none will be as important as the State Federation of Labor which meets here on January 12, 13, and 14th. AN ORLANDO BOY WILL FLY HERE

KARL KUHLE TO MAKE AEROPLANE FLIGHTS AT THE COUNTY FAIR

One of the greatest attractions of the Seminole County Fair will be the aeroplane flights that will take place each day over the city and lake and will be absolutely free to everybody. Another pleasing feature is the fact that the young aviator who will make these flights will be an Orlando boy who has taken up aviation and made a remarkable success. Anyone who has lived in Orlando during the past few years will remember Karl Kuhl, who since flying machines have come into vogue has talked of nothing else and his parents could never get him to do anything else besides making aeroplanes and flying machines and in doing so he finally allowed him to take a course in aviation under some of the best of the Hypnotical and other sciences and now he has invaded the field and bids fair to become one of the best in the business. He has been flying at all the big meets in the north and also the fairs throughout the south this season...

GREAT BATTLE TO BE FOUGHT

WARSAW WILL DECIDE THE WAR IN THE EASTERN WAR ZONE

London, England, Dec. 22.—The great battle west of Warsaw remains to be fought out, judging from indications in recent dispatches from Berlin and Petrograd. It appears today to British observers that the German contention that General von Hindenburg had scored a notable success over the Russians must be qualified. A recent claim of a crushing Russian victory near Lodz which subsequently proved to be premature and exaggerated. Von Hindenburg's army has advanced steadily toward the Polish capital, but the Russians in falling back appear to have taken new positions in strong entrenchments, and altogether the invaders are within two or three days' march of Warsaw, there is good reason to believe much hard fighting must take place before it can be determined whether this latest German attempt will be successful.

Great Sport Here

The good hunting in and around Sanford is bringing many sportsmen to this city to take advantage of the same. It is certain that the great reaches of the upper St. Johns five have no equal in deer, bear, ducks, turkey and quail shooting and the men who want real sport are finding it out. There are several at the Sanford House this week who are forming parties to go into the wilderness of Black Hammock and the upper St. Johns and every party that returns to the city brings back deer and turkey, to say nothing of the quail and ducks. Not only is the shooting good but the lakes and rivers offer great sport to the fishermen and the upper river is said to be alive with big bass all eager to bite at live bait or troll.

Frank, a Jew, against the conviction of January 26, 1913, of the murder of Mary Phagan.

Early Morning Blaze

Shortly after one o'clock this morning the washhouse at the home of E. Runge on Elm avenue and Third was discovered on fire and the blowing of the engine whistles and the water works soon aroused the populace. The fire department responded quickly but the flames were so far advanced that all they could do was to save the house and adjoining property. The wash house was destroyed and all the clothes of the family that were in the building, making it very inconvenient for them and entailing considerable loss.

J. W. Osteen of the firm of N. H. Ross & Co. of Atamocles Springs

was in the city yesterday. He brought in a box of fine pecans for the editor's Christmas present and it is certainly appreciated. The Oak Knoll Farm is one of the show places of Seminole county, as it demonstrates what a man can do in this county in the way of growing fruits, vegetables, good live stock and pecans. Mr. Osteen is on the fair committee and will make an exhibit at the great Seminole County Fair here in February.

Don't forget the annual Eagles ball on the night of the 31st.

CAR OF FRUIT DONATED RED CROSS

GROWERS, SHIPPERS, RAILROADS, COMMISSION MEN GIVE SERVICES

One of the largest donations to the Red Cross fund for the sufferers in the European war was a car load of grapefruit that was recently sent out of Florida the entire proceeds of which brought the sum of \$800. The grapefruit was donated by the growers to the Woman's Club at Homestead, Fla., and the packing and handling was donated by Chase & Co. of Sanford and Jacksonville. The freight charges were donated by the different railroads over which the car was shipped. The auction charges donated by Brown & Secomb and the catalogue donated by the Fruit Trade Journal. This was showing the spirit of the people in furthering the great cause of the Red Cross in the gigantic struggle now going on in Europe and the part played by all those who so kindly donated their services is worthy of a compliment from press and the people not only of this country but of the world.

In a special conference of pastors and Sunday school superintendents it has been decided to have 1000 in the Sanford Sunday schools on the first Sunday of the New Year, January 1st. Emperor Will Be Well Again

Emperor William has recovered from his illness and returned to the front. Berlin advises lead to the belief he has turned westward. If that is so the battle conditions the emperor will find are less spectacular than those prevailing in the east, because with the exception of the allies' offensive on the north of their line, little but siege warfare is being recorded. That is emphasized in all official communications which measure the day's gain in scanty yards and through the gain or loss of a trench or an outcropping.

Santa Claus Here

The children of Sanford were delighted yesterday when the real Santa Claus came down a real chimney for their education at the department store of D. A. Caldwell & Co. For an hour or more before Santa was due to make his appearance the corner of First street and Magnolia was crowded with youngsters and when Santa came out of the chimney and walked around the window there was a howl of delight and a rush for the window by the crowd of young folks. After looking at the window for a few minutes Santa was taken in the car of David Caldwell and rode around the streets. This was Santa Claus up to date, for he it is known the grand oldascal now rides in autos instead of a sleigh with his reindeers. The enterprise of Caldwell on this occasion was very commendable and the success of their original idea was ample to repay them for their time and trouble.
