Pennsylvania Youth Pays For Sex-Slaying Of School Girl

SANFORD, July 12.—(AP)

Marcus C. Powell, Jacksonville, convicted of killing his wife and charged with killing her mother, was executed today in Florida's electric chair at the state prison.

Calm, well dressed in a complete brown ensemble, Powell walked into the death chamber and told 100 witnesses "God bless you, God bless you all," and sat down in the electric chair.

Sheriff Rex Sweet of Duval county threw the switch. Powell was pronounced dead four minutes later. The body was taken to the hospital for autopsy.

The youth, 17-year-old Helen Meyer, high school girl, who was on parole from the reformatory for another sex crime, pleaded guilty to slaying the girl. He said he ran over her with a truck deliberately, attacked her and tossed her body in a well. He later dynamited the well in an effort to hide the body, but it was found.

Plans for the proposed Lake Front Park were presented to the Board of Directors of the Rotary Club at its regular weekly luncheon at the Valley Hotel today.

Harriet L. Fitz, landscape architect, submitted a plan for a large swimming pool and several tennis courts in the park. The plan also includes a tennis court and a building for the use of the club.

W. A. Lamm, speaking for the City Commissioners, stated that the project will take a long time to complete and it must be financed by bonds.

The plan is to construct the park on the site of the former Lake Front Park, which was destroyed by fire in 1928.

The plan also includes a tennis court and a building for the use of the club.

Concentrated action by the various counties of the state is being taken to collect delinquent taxes on property belonging to the railroads, the payment of which is being contested by the courts, was the purpose of a meeting of county school board officials of several counties called in Orlando recently, according to E. F. Housholder, Seminole County Attorney.

A statement made on June 28 by local Tax Collector Jno. D. Jinks revealed that the three railroads owning property in this county are in arrears in payment of State and County taxes in the amount of \$257,872.50 for the years 1934 through 1936.

Up to the present time, the railroads have brought suits contesting the payment of delinquent taxes against J. M. Lee as State Comptroller and that they have been handled by the Attorney General's office. At the meeting, however, it developed that the majority of county officials felt additional counsel should be provided to assist the Attorney General in handling all features of the suits applicable to the various levels of the different counties.

As a result of this discussion a steering committee was appointed to handle matters with the State Comptroller and the Attorney General and make a report of their work to the interested officials.

During the course of the meeting, it developed that very few of the counties had taken individual action against the railroads to protect their interests. However, the attorney for Seminole County, E. F. Housholder, disclosed that Seminole County has entered litigation to defend its rights in the courts in 1935 and again in 1937.

Mr. Housholder reported that Seminole County was associated in the suits for the protection of its rights and has entered defenses to the objections filed by the railroads.

The cases cannot terminate, the attorney concluded, until such time as the Attorney General can bring the cases before the courts.

Delegation attending the Orlando meeting from this county were County Commissioners W. B. Williams, D. L. Thrasher, and F. A. Dyess; T. W. Lawton and L. E. Jordan as representatives of the Seminole County School Board; and County Attorney E. F. Housholder.

Hurt Gives Advice As To Payment Of Security Taxes

Warms Employers To
Make Returns So As
To Avoid Penalties

An effort is being made to collect all delinquent returns from employers under Titles VIII and IX of the Social Security Act, Deputy Collector of Internal Revenue F. L. Hurt, reported today.

Adding that all employers who have failed to make their returns will be subject to a penalty of 25 percent of the amount, Mr. Hurt stated and will be required to show a receipt for the returns, and those who have not filed their returns will have to pay a penalty for their negligence.

The Deputy Internal Revenue Collector stated that a number of the employers he had contacted believed they were exempt from the tax because their employees had not been issued a Social Security number, to this he said it was the duty of the employer to register and file an application for a number for his employee.

Other employers seem to be unaware of the fact that they are required to file returns if they employ less than eight persons, Mr. Hurt continued. Title VIII of the Social Security Act imposes an excise tax of one percent on all remuneration received by employees on both the employer of less than eight persons and the employer for old age benefits under the Social Security Act. This is an altogether separate item from Title IX which affects the employer of 8 or more persons only.

The only employees and employers who are exempt from payment of the tax, he indicated, are railroad workers, federal, state, county and city employees and certain agriculture workers.

Members of the police robbery squad said they were satisfied the much publicized "Paul Brunyan of the fairways," who was arrested on a charge of robbery from New York State, had a spotless record since coming to the screen capital three years ago as John Montague, a strapping, congenial amateur golfer who hobnobbed with motion picture folk and became their friend.

Officers said it would be unnecessary for him to appear at a police lineup Tuesday night. He had volunteered to appear so that victims of recent jewel robberies could view him. Detectives said that he had a "clean record" since his arrival so his appearance would not be requested.

Rollins Head Sails To Europe For Vacation

WINTER PARK, July 12.—Hamilton Holt, president of Rollins College, sailed from Quebec on the "Empress of Britain" on July 10 for a two month's visit to Europe. He was accompanied by his daughter, William Le Ventur, who will spend the coming year in a preparatory school in Switzerland.

Holt will visit his daughter, Mrs. Maurice Rivall in Paris and will take a motor trip through France and Switzerland with his son, John Holt, who is European manager of the International Machines Corporation. He also plans to attend the international meeting of the Church of the United States in Switzerland.

Holt will return to this country on a ship sailing on September 10.

Earhart Hunt Called Off Pending Arrival Of Carrier's Planes

MOSCOW, July 12.—(AP)

The Soviet airplane, thundering towards the United States in a second Soviet attempt to span the roof of the world by air, is headed across Polar Seas. Brief radio reports said all was well aboard the plane and indicated it is making excellent speed on the first stages of the flight to the United States.

The Soviet air ace Mikhail Gromoff and two companions are aboard. They took off here and are expected to follow the path blazed by three other Russian fliers who reached Vancouver, Wash., June 30.

They hope to reach San Francisco before landing.

HONOLULU, July 12.—(AP)—A vast mid-Pacific hunt for Amelia Earhart and Fred Noonan, missing world fliers, was called off today in the isolated Phoenix Islands sector and the searchers awaited arrival of the aircraft carrier Lexington with 63 planes aboard to resume the search for tomorrow. Some Navy officers participating in the search said they had no hope of finding the fliers.

SOCIETY UNIONIST Annual Meeting Of Credit Group Slated July 14th

Sanford Production
Credit Association
To Name Directors

The annual meeting of stockholders of the Sanford Production Credit Association will be held at the City Hall Wednesday morning at 10:00 o'clock, according to information received today from W. H. Andrews, secretary.

A representative of the Production Credit Corporation of Columbia, S. C., will address the group and discuss purposes and operations of the Farm Credit Administration.

Mr. Andrews stated that the Sanford body is a co-operative credit institution which is chartered and incorporated under an Act of Congress and is approved by the office in Columbia. It does not loan government money.

The borrowers' notes are discounted by the Federal Intermediate Credit Bank, a non-profit institution, which borrows the money loaned farmers from the investing public, Mr. Andrews added. The farmers, by pooling their financial needs, are enabled through co-operative channels to go into money markets and obtain working capital at a lower rate of interest. The work that individuals could not do is made possible by their own co-operative association.

According to Mr. Andrews, loans are made on a "conservative basis for constructive, self-liquidating purposes on adequate security. Such loans are building a strong institution. The purchase of credit, and the use of money is a valuable asset as it enables the farmer to operate on a cash basis." Fertile lands and other farm supplies can be purchased at a discount, Mr. Andrews said.

The local organization renders a service to fit the farmers' needs as it supplies cash "at a time when they need it." The amounts may be paid back at the time crops are harvested. A farmer makes his own budget and pays interest only for the time he actually uses the money.

The Association is a co-operative institution and each borrower is a part owner and has a voice in directing its affairs.

Mr. Andrews further stated that this annual meeting is a very important one since two members of the board of directors will be elected. Financial and other additional reports of the past year's operations will be presented. Each member has one vote in electing the directors and will also be given the opportunity of assisting in the planning of work for the coming year.

At present the board of directors includes Ralph B. Campbell, John Metch, Jr., Charles L. J. Jolly, and Dr. C. H. Taylor.

Plans For Camp By Girl Scouts Being Placed In Motion

Sanford Girl Scouts are making plans for a two-day pioneer camp and Court of Awards at Camp, Wikehiki on Aug. 15, according to Miss Irene Hilton, captain of the local troop.

Lieutenant Joyce King, Gail DeForest, Mable Chapman, and Doris McCall will have charge of the camping activities.

The camp is located near Lake Mary and will be used with special permission from the Boy Scouts.

The Court of Awards will be held Aug. 20 at 7:00 o'clock Miss Hilton said.

The next four meetings will be spent in the making of cooking utensils and oil cloth bedding.

WASHINGTON DAYBOOK

WASHINGTON, July 12.—Jefferson Island, like the "Grand hotel," undoubtedly will go down in history as the place where nothing ever happens. Jefferson island is a little blob out in Chesapeake bay which you could easily walk across or around in a very few minutes without any great harm to yourself or the island. There the President played smiling guest of honor to some 350 senators and representatives who were expected by earnest administrationists to return to Washington convinced of...

The Democrats who went included both supporters and critics of the President's program. Before they went, the critics were fairly certain they had the President licked entirely on the court plan that the "ever-normal granary" farm plan was dead for this session, and that a mere tiff of the executive reorganized bill was all that the President expected to salvage his session from his somewhat recalcitrant congress. When they came back, these critics, who had seen their colleagues tested under the rays of the President's good humor, were less certain of their position.

Several still thought there would be no vote on the original Presidential plan by which Mr. Roosevelt sought to appoint comparative youngsters to the court; match all the oldsters. But they believed there would be a vote on the formula of Senator Hatch of New Mexico, one of the majority of the Judiciary committee which rejected the President's plan.

The Hatch formula, which is to be considered revised from its first draft, will provide that the President may appoint the new Justice a year to match oldsters on the court. But the court is not to be permanently increased above nine members, so vacancies caused by retirement or death may not be filled unless they lower the...

Expert Navigation Subdues Body That Trapped Aviator

By DEVON E. FRANCIS PORT WASHINGTON, N. Y. July 12.—(AP)—Undramatically, methodically, winged yachts streak along the air lanes between Europe and America, between America and Asia. In the water wilderness of the Pacific the world's most famous aviator, Amelia Earhart, is lost. The big transport airplanes fly unerringly to their goals; Miss Earhart, accomplished air woman though she is, misses her tiny target, Howland Island.

The answer may be precise navigation. The same formula developed in the 14th century by mariners who braved the ocean beyond the sight of land is used today by crews of the big flying boats to chart their courses and rob the seas of their terrors.

Today, of course, there have multiple navigational aids in their cabins. The ocean transporters "beacon" the sun and the stars for bearings. They chart their positions by radio transmission. They check their results with dead reckoning and bulwark all their findings with calculations as to drift.

Periodically, the navy ocean transport navigators come aboard a "pinpoint" or aluminum comb. As it breaks on the water far below, he trails his sights as it to determine whether wind is blowing his craft off course.

The reason for the search for the flight engineer, mechanic, radio operator and probable steward, as well, meanwhile fighting off insupportable fatigue. Both on the Pacific transporters and the transatlantic survey planes those duties are broken down and assigned to half a dozen men.

All hands get ample rest. Precise navigation is the product. In flying from Lee, New Guinea, to minute Howland Island, Noonan spent a multiplicity of duties. A sturdy airplane and patient motors could not erase the mistake of plotting a wrong position on the map.

When not fishing or hunting in the hills and rocky canyons he strolls, squirrel-like, about spacious lawns, inspecting the peacan and oak trees and his ducks and pheasants.

While Administration ranks stammer this summer in the hubbly—political as well as the other kind—of Washington, the vice president keeps quiet on political matters, and makes his plans for recreation on a "day to day" basis.

"If anyone wants to see me they will have to take their chances on finding me here," he says. "I gave an appointment to everyone who asked it I would never get out of the house."

Minds And Metals React Similarly Under Pressure. CAMBRIDGE, Mass., July 12.—Minds and metals, when under high pressure, have a strange similarity. Minds too hard pressed cease men to be angry, to growl and snap—or to be excited and speech and snarl—or to be deadly earnest. Listen now, to a description of metals under a sheering stress of 700,000 pounds to the square inch in the laboratory of Dr. P. W. Bridgman, Harvard university, 110 says:

"Some substances chatter, others squeak, others make a grinding noise and one has been found to hiss. Most important is snapping." The "protest," as Dr. Bridgman calls these noises, depend directly on the atomic and crystalline structure of the metal. The scientific explanation of the noise reads not so differently from man's commonest ideas of mind structure.

SEAMAN ARRESTED

BOSTON, July 12. (AP)—A seaman accused by his captain of assault and setting fire to the ship off the west African coast was taken into custody yesterday as the American freighter West Lashaway docked. A deputy marshal arrested the seaman, Edward Brennan, 27, of Jersey City, N. J., and said he would be arraigned today.

ALL HANDS. These men composed the crew when the ship took off from Port Washington, N. Y., for the first trans-Atlantic hop last night. Capt. H. E. Gray, W. S. De Lima, first officer; William Mastland, navigator; C. D. Wright, engineering officer; Walter Smith, assistant engineering officer; Walter Etchison, third engineering officer; Thomas Roberts, radio operator, and William Thaler, steward.

HORSEPLAY. Here is Bob Burns, movie and radio comedian, and his wife, the former Harriet Foster, who is also his secretary, as they watched the horses on the new racetrack at Del Mar, Cal. The track is Blig Crosby's newest venture.

Kay Francis Stars In Film, 'Another Dawn'

Going far afield for a picturesque setting for a movie, Warner Bros. this time chose Iraq (which used to be Arabia) as a locale. They placed a British garrison there, had its members surrounded by wild natives, and offered the problem of how the soldiers and their officers and wives were to be saved—if saved they might be.

"Another Dawn" is the name of the picture. It is scheduled to open on Tuesday at the Ritz Theater. Add to that situation the fact that Kay Francis is the lady most chiefly concerned—and that the two men who love her are Errol Flynn and Ian Hunter—and both have a chance to save her and the garrison—and you have the ingredients of real drama.

It all makes a very thrilling movie, and preview experts have put it up to the top of the list among the action and romance pictures of the year.

Errol Flynn is said to surpass his performance in that history-making movie, "The Charge of the Light Brigade." And it is said, too, that Hunter (once the fool of all the matinee girls in London), has the best opportunity that has come to him since the Warners imported him to play the Duke of Athens in "A Midsummer Night's Dream."

There are mountains and deserts and a lot of fighting and some extremely daring airplane flying in "Another Dawn," the producers declare. Also a stirring climax when the time comes for one or the other of Miss Francis' adorners to save the garrison.

Britain Tries To Fulfill Its Treaty Pledges

The British Class of the First Baptist Church has called off the dogs which was to be held Wednesday at Daytona Beach.

Partition Of Palestine Proposed To End Race Clashes

After effects of the World War, continuing to isolate Europe, are now being repercussions in the Holy Land, where a British commission has proposed the partition of Palestine to end Jewish-Arab bitterness and bring to fulfillment two British promises dating from the European conflict.

In 1918, in order to unite the Arabs and lead them to throw off the Turkish yoke—Turkey then being an ally of Germany—Great Britain promised independence to the Arab provinces of the Turkish empire. Lawrence successfully led the "Revolt in the Desert."

In 1917, seeking the support of world Jewry in the darkest days of the war, the British government, through the Balfour Declaration, promised a national homeland for the Jews in Palestine.

Fulfillment of both promises has proved troublesome.

The rising tide of nationalism among the Arab and Jewish populations of Palestine, and particularly the influx of Jews escaping from persecution in Central Europe, made peaceful solution well-nigh impossible. As a result, the British government appointed a royal commission to investigate and make recommendations.

The commission has recommended partition of the Holy Land into sovereign Jewish and Arab states, with a new British mandate over an area containing Jerusalem, Bethlehem and Nazareth. At present all of Palestine is administered by the British government under a League of Nations Mandate.

Palestine is about 140 miles long, 50 miles wide at the top, and 100 miles wide in the south. It contains about 20,000 square miles, 4,100 of which is a small American state. The British Mandate for Palestine was established in 1920 at Balfour, although since then the Jewish and Arab populations have increased to 1,000,000.

The effect of the royal commission's recommendations, if adopted, would be to create two sovereign states, one Jewish, on the coast of Palestine, and the other Arab, in the interior. The Jewish state would be the present Mandate for Trans-Jordan, and the Arab state would be the present Mandate for Palestine.

Another result would be the creation of a Jewish state, through the Balfour Declaration, and the creation of an Arab state, through the Balfour Declaration.

Elizabeth of Great Britain will get an honorary citizenship from the University of London.

James Casey, who has been visiting C. B. Clon, left Wednesday for Atlanta, Ga.

Mrs. J. F. McMillon of Barnesville, Ga., who has been visiting her daughter, Mrs. Ruth McGowan, left for her home on Wednesday.

Mr. and Mrs. B. L. Wheeler left Wednesday for an extended vacation in Georgia, Tennessee and North Carolina.

A total of 27,500,570 persons entered the U. S. from abroad by ship in 1936—1,294,204 more by water.

Sanford Lookouts Split Their Weekend Tilts

Beat Daytona Beach In Ninth Inning Rally But Fall To Leesburg, 3 To 1

Brainard Hurls Islanders Game And Is Nicked For Seven Hits; Mote Gives Up Eleven In Gondolier Game

By JULIAN STENSTROM

The Sanford Lookouts divided their weekend contest with the Daytona Beach Islanders and the Leesburg Gondoliers when on Saturday night, manager Lee Head sent out a screaming single into center field to score two runners ahead of him in the ninth inning and give the Lookouts a well earned victory over the 'Is by a 3 to 1 score.

The Leesburg Gondoliers pinned the ears of "Dazzy" Mote back to his head yesterday afternoon in Leesburg when the Gondoliers' pitcher, the Sanford star for four weeks, four singles and a triple to make a total of nine hits and give the Meadow's outfit a 3 to 1 victory.

On the mound for the locals Saturday night was Big Dan Brainard. He was nipped for a total of seven hits while his mates collected 11 off the offerings of Stan Charkut and Roy Bourrell. Brainard issued one base on balls and fanned five of the Islanders. Charkut fanned seven of the Lookouts but issued four free passes to the initial back.

The Daytona Beach outfit scored twice in the second inning and once again in the fifth. The Lookouts gathered a rally in the sixth and once again in the eighth and when they went to bat in the final ninth it proved fatal to the Islanders. Rodgers struck out, but Langston started the big rally with a single into center field. Al Kasso dumped a bunt in front of the plate and beat it out for a hit. Langston going to second base. Roy Bourrell came to the rescue and relieved Charkut, but he walked Martin on four pitched balls to fill the bases. With one away, Lee Head was thrown three straight balls. Bourrell then split the plate with the next two and attempted to split it with the third but it was too good and Head slashed out a single into center field to score both Langston and Kasso and win the game.

In the Leesburg contest yesterday Mote was on the mound for the locals but facing him and out-fishing him was Merrit Hubbell, brother of the King Carl of the Giants. Hubbell allowed the locals only six hits while his mates collected nine off the Lookout ace.

The locals secured their only run of the game in the initial inning when Langston singled to center field and scored when Kasso doubled to left field.

Hubbell himself was one of the batting stars of the game with a single and a double in three trips to the platter.

The Lookouts meet the Gondoliers under the floodlights at the Sanford Municipal Athletic Field in a return game. Jake Hunch is slated to be on the mound for the Leesburg nine while Cristfield hurls for the locals.

Gulls Hand St. Augustine Third Straight Defeat

1's Swamp Palatka While G-Men Down DeLand Reds, 4-2

ORLANDO, July 12.—Little Fotech Mathias scored his fourth victory of the season over the St. Augustine Saints at Tinker Field yesterday when he pitched the Orlando Gulls to a 6 to 1 victory in which he gave up but four hits.

It was the Saint's third straight defeat and it was charged against Claude Blair, new left-hander recently acquired from the Jacksonville club of the South Atlantic League. Although he gave up but three hits in five innings, Blair was removed for a pinch batter after the Gulls had scored four runs off him.

The first run came in the second on a walk, a sacrifice, an infield out, an error by Clehon, a walk which filled the bases, and a walk to Mathias, forcing the run across. Blair pitched in the fourth with Zappale tripling with two out and scored on Clehon's smash through third. After that only five Saints got on base and only one to second.

Granel opened the Gull fourth with a triple, to be scored on Mathias single. Roberson sacrificed Mathias to second and he scored when Cates let Blair throw a third on Looney's roller get away from him. Looney stole third and scored on Shirley's fly to left. The Gulls greeted Car Weigle with a run in sixth when Looney drew a walk with two out, Cole singled through third and Shirley singled to right. The final Gull run came in the seventh on singles by Savich and Granel and Mathias' home run. Granel's sacrifice bunt scored its first night "runner" here to merrily night at 8:15 o'clock with Looney as the opposition.

Last Of Mills Opens Doors To Employees

Men Enter Gates Over Which Are Notices Explaining Former Conditions Preval

No Agreements Have Been Made

Any Signs Of Violence Notably Absent As Police Stand Guard

EAST CHICAGO, July 13. (AP)—Idle for 46 days, steel workers marched peacefully through the gates of Youngstown Sheet and Tube Company plants here and at South Chicago today to resume production at the last of the strikebound Calumet district mills.

By trains, city buses and automobiles they came, reporting at the gates marked with large notices that "This plant is open for work on the conditions which existed when work was stopped on May 20."

The signs, bearing the name of the manager, J. E. Bally of the Youngstown and Chicago district asked "We have not made any agreement or contract with any official person or organization."

Bally's assistant said almost 2,500 were back at the Indiana Harbor mill at 8:20 A. M. The normal day force was 3,000 he said. Patrols of railroad and city police watched over the throng.

Protest Made To Andrews On Wage Bill

Black-Connery Bill Is Opposed By Numerous Growers, Shippers Of This Section

After receiving a petition from the Seminole Agriculture Association signed by many of the growers and shippers in this area who wished to go on record as opposing the proposed Black-Connery bill, Charles O. Andrews, Florida representative in the United States Senate, in a letter to the agriculture association announced that he was opposed to the bill in its present form and would continue his opposition until an amendment was added to take care of the "peculiar southern problem."

"I am naturally in sympathy with labor problems," the Senator stated, "but this proposed bill as it is written would in my opinion practically cripple citrus, agriculture, turpentine, phosphate, lumber, and many other Southern industries to such an extent that in the long run it would be unfortunate to labor also."

"I assure you that I am opposing the bill in its present form and will continue to do so vigorously unless there is a clear definite wage and hour differential amendment provided for our peculiar Southern problem."

Soviet Airmen Cross Pole On Flight To U. S.

Fliers Are Reported As Having Reached Point Over British Columbia In Canada

Cyclone, And Snow Successfully Met

Plane Is Making Better Speed Than One Which Made 1st Try

SAN FRANCISCO, July 13. (AP)—Three Soviet airmen raced southward over desolate Northern Canada today on Russia's second Moscow to San Francisco flight.

Hurdling a cyclone and fighting a snowstorm, the big single motored monoplane crossed safely over the North Pole last night and early today flew over Great Bear Lake.

The U. S. Army Signal Corps received the first message direct at 11:35 A. M. (EST) today when the plane reported itself at Latitude 60 degrees 30 minutes and Longitude 130.

Army officers said this indicated the plane had reached Northern British Columbia between Fort Nelson and Hudson's Hope at that hour.

Speed of the plane was estimated at 120 miles an hour, far above that of the preceding Russian plane which landed at Vancouver, Washington, about 700 miles short of its goal.
