

# 40-Cent Ticket Admits To Thursday's Big Ball Game

## Price Advance Made When Car Is To Be Given Away

Directors Will Start Reading Coupons 3 O'clock Promptly

Henry Watson, director of the Sanford Baseball Association, says that "box car" letters will be no advance in the admission charge to Sanford Field tomorrow afternoon when the new Ford car is to be given away. Some persons started the story that the admission price tomorrow is to be \$1, but Mr. Watson and other baseball moguls deny that rumor "most emphatically."

The price tomorrow is to be 40 cents as usual, but it will be charged of every entrant. Since a child might be given the car, children will be charged 40 cents instead of the customary 15 cents.

Since Thursday is a half-holiday the game tomorrow will start at 3 o'clock, and the reading of the coupons given by Red Star merchants will begin at that hour. Jimmy Wright, another director, said that it would not surprise him if it took from one and one-half to two hours to read the coupons, as there are more than 165,000 of them.

Rex Packard, vice president of the Sanford Baseball Association, plans to be at Sanford Field tomorrow and to advise other fans to be likewise. With the addition of extra bleachers to be hauled from DeLand it is hoped that there will be seats for the thousands who are expected at the game Thursday, but the earlier a person gets to the park the greater is the certainty that he will get a good seat and be in a position to enjoy the game.

Tickets will go on sale at 1 o'clock.

The car bought by the Red Star merchant, it is to be given to some person who it is at the game, and he must be present when his coupon is read.

The G-Men from Gainesville will be the opposing team in Thursday's game.

## RECORDS TOPPLE AT SOUTHEASTERN TRACK MEET

Ferrist (Spee) Towne, the Georgia sensation, is shown (upper left) doing the 120-high hurdle in 14.1 in the Southeastern conference track meet at Birmingham, Ala., to better the accepted world record by one-tenth of a second. He equaled that mark in the final and captured first place for the event. By clearing the bar at 12 feet, six inches, Arnold Bryan (upper right) of Louisiana State University took first place in that event and helped his school capture its fourth consecutive conference title. At lower left, Dave Rogan of Kentucky is seen at the finish of the mile which he did in 4:17.2, a new conference record. Ferrin Walker, Georgia Tech's "one man track team," is shown (lower right) breaking the tape to win the 100-yard dash. He also won the 220. (Associated Press Photos)

## Daytona Beach Wins As Usual; Saints Beaten

ST. AUGUSTINE, May 20.—Daytona Beach defeated St. Augustine, 10 to 6, here Tuesday in a Florida State League game played under protest by the Saints and in which Umpire Sheffield was all but mobbed by angry St. Augustine fans and players after a list of questioned decisions.

Trailing 3 to 6, St. Augustine shot from behind with three runs in the eighth, but the Islanders concentrated a ninth inning attack off the relief hurling of John Schneider to hit five runs across the plate in scenes of wild disorder as the locals protested vigorously to a number of decisions by the umpire.

The climax came in the ninth when Mayo Langston was called out on strikes without even being close to the batter's box.

The Islanders scored five unearned runs in the first four innings off Howard Davis, who gave way to a pinch hitter in the fifth during the three-run Saint rally. Schneider batted for Davis and drove over two runs with a single. The St. Augustine substitute was rapped for four hits including Manager Anderson's triple with two on as the loop leaders won the game by the ninth.

Off three Daytona hurlers the Saints gathered 13 blows. The game was featured by brilliant fielding on both sides. Frank Colmer, local third sacker, was the hitting star of the game with three for three.

Innings: 020 300 005—10  
Daytona ..... 020 300 005—10  
St. Augustine ..... 010 002 030—6

**TALKS SELF TO BENCH**

DENVER, May 20.—(AP)—Talking one's self out of the ball game is an unusual experience for a high school baseball player. It happened to Ken McLeod, East High catcher, who expressed such disgust over a decision at the plate in a game with North that Umpire T. Mitchell Burns waved him to the bench.

## G-Men Defeated By DeLand Reds In New Series

DELAND, May 20.—The DeLand Reds bunched seven of their eight hits in the sixth inning here Tuesday afternoon to defeat the Gainesville G-Men, 6 to 4, in a Florida State League game. Albritton, Gainesville pitcher, had limited the Reds to one lone hit up to that time, and only one DeLand player had reached third base.

Gainesville rapped Dopey Dean, starting DeLand hurler, for six hits, and three runs before he was relieved in the third frame. Beach, who took Dean's place, held the G-Men to five bingles and one run, and got credit for the win.

A single by Didrikson and a hit batsman started off the rally which saw Kinard, Holdstock, Robertson, and Purcell rap out consecutive singles. Bunch piped up for the second out, but McFarlane and Didrikson, who came to bat for a second time in the inning, collected safeties to bring in two more runs before the Reds were retired.

Gainesville ..... 111 000 001—4  
DeLand ..... 000 005 002—6

Dixie Howell, Alabama's all-American back, is playing baseball with the Portland (Pacific Coast league) club.

## Lookouts Win Game In Final Inning

### Boris Is To Don Lookout Uniform In Thursday Game

### President Of League Is To Pitch First Ball To The G-Men

Boris, first baseman and lead-off man for Palatka, has shed his Asaleas uniform and will don lookout garb tomorrow and play with the locals against the G-Men of Gainesville in the "game of the season" on Sanford Field. He is not only going to play tomorrow, but is going to be with the Lookouts "for keeps."

Boris comes to Sanford by trade for McNally, who had been traded as part payment for Buddy Lake but who was returned when the Lake deal fell through. McNally is a first baseman, but as the Lookouts don't need two first sackers and do need another good outfielder he was traded to Palatka for Boris. The new man will play left field for the Lookouts.

Sanford fans saw Boris with the Asaleas in the interesting game last Sunday. He was at bat five times, got two hits and made only one error. He has been batting around .350.

G. E. Gilliam, president of the Florida State League, will pitch the first ball in tomorrow's game against the G-Men. The game is to be called at 3 o'clock, but tickets will go on sale at 1 o'clock. These can be purchased at four different booths—at the main entrance, at the side of the main entrance on Mellonville Avenue, at the north end of the grandstand on Mellonville Avenue, and at the east end on Celery Avenue.

Latest estimates were that probably about 5,000 persons will see tomorrow's game here when the New Ford car will be given away.

Rules as to the division of receipts will be waived tomorrow, and the Sanford Baseball Association will get all the receipts.

## Who's Who Among The LOOKOUTS

Doc Harbin, Sanford's fair-haired pitcher, is 24 years of age and is 6 feet tall. He has called Sanford his home since he came here last season to play on the local club, and when not playing baseball diahan out gasoline at a filling station.

Doc (he was christened Ward) Harbin started his baseball career in 1930 when he was attending Oglethorpe University, and then signed with the Corde, Ga. team of the Georgia-Florida League in 1930, playing left field. He was with the Corde club two seasons and during that time his team played exhibition games nearly every Sunday in Tallahassee, and there Doc did the pitching. The result was that after the first year he was classed as a pitcher, a position he has consistently played since then.

In 1932 he signed with the American team of the Georgia-Florida League, but in the middle of 1932 went to the Buford, Ga. club and finished the season there and started the 1934 season with Buford. However, he injured his arm in the summer of '34 and was out of the game the last half of the season. He came to Sanford at the opening of the 1935 season.

While with the Georgia club Harbin hit around .400, and has been a good hitter with the Lookouts.

With Sanford this season Doc has won three of the five games he started, and pitched in three other games, sent in to relieve other pitchers, but too late to save the day for the locals. His pitching average in the League is .600, sixth among all the pitchers in the six clubs.

## Deciding Run Is Put Across Plate By Dave Swindell

### Sweeney Pitched For Sanford In Contest With Palatka Nine

Overcoming a tie in the eighth inning, the Lookouts rallied in the ninth in their game with the Asaleas in Palatka yesterday and won, 4 to 3, making it two straight for Sanford over the Palatka gang. The Lookouts defeated the Asaleas here Sunday, 7 to 2.

Dave Swindell, first Lookout up in the last inning, hit a double and when Maltby bunted toward third and the Asaleas third baseman missed the ball Dave raced home to win the game. Maltby of the Palatka hit a home run, but the Asaleas were unable to gather in more than three runs.

Red Sweeney pitched for the Lookouts, striking out two, walking one and allowing eight hits. A threatened Lookout rally in the fifth was stopped when Cates was called out on an attempted bunt for stepping across the plate after a hit and walks had placed runners on first and second with some away. The following two batters were easy prey.

## Panthers Defeat Reds Tuesday By Score Of 6 To 1

The Panthers in the Legion Junior League defeated the Reds, 6 to 1, yesterday. Sapp and Dyon were one of the winning hits for the Panthers, while Sweeney got the only hit allowed the Reds. Ferguson, pitching for the Panthers, struck out 14 men. Dyon caught for the Panthers. Rumbley and Keef pitched and Powell caught for the Reds. Ravenel umpired the game.

THE SCORE: R H E  
Panthers ..... 6 12  
Reds ..... 1 1 5

## Another Victory Won By Pirates In Lions League

The Pirates of the Lions Junior League managed by Maxwell Stewart, go into the "little world series." They defeated the Yankees yesterday, 16 to 3. Cochran and Willis composed the Pirate battery, while Madden and Greer did the heavy work for the Yankees. The score:

Pirates ..... 0 5 1 3 3 2 2 — 16  
Yankees ..... 0 0 0 0 0 0 0 — 3

The Yankees will play the Seminoles at 4 o'clock this afternoon for second place in the League, and then the "little world series" will start next Friday.

## SCHOOLBOY KANGAROO

KANSAS CITY, Kas. May 20.—Seventeen-year-old Jack Buckman, with one more year of high school ahead, is the envy of college track coaches since he high-jumped 6 feet 5 at the Kansas Relays carnival. A week later he leaped 6 feet 4 to win another title. Five feet 11 1/2 inches tall and weighing 160, he was high scoring forward at the Kansas interscholastic basketball tournament last winter.

## BOUNTY FOR TROUT

SEWARD, Alaska, May 20.—(AP)—Fishermen in the state might well wish they were in Alaska at this time of the angling season. Game officials urge fishermen to catch as many predatory trout as they can—and also pay a bounty of 2 1/2 cents for each trout caught. Several taggers have earned as much as \$2,000 this season. Trout eradication assures a greater supply of salmon—one of Alaska's most important commercial exports.

SANFORD, FLORIDA, THURSDAY, MAY 21, 1936

Established in 1908

NUMBER 178

Seminole County Produces More Fruits and Vegetables Than Any Other Area in America

Sanford Is The Only Central Florida City Affording Rail, Highway and Water Transportation

## Conservation Plan Is Ready For Seminole

### Dawson Says Farmers Can Now Apply For Benefits Under Act That Replaces AAA

### Plant Cover Crop To Rebuild Soil

### Celery Growers May Get \$60 Per Acre For Land Taken Out

Seminole County farmers can now apply for benefits under the new Soil Conservation and Domestic Allotment Act passed to replace the invalidated AAA. It was announced today by County Agent C. E. Dawson following an all-day conference in Orlando yesterday with government officials empowered to put the new law into effect in the citrus producing and truck growing areas. The law was passed about two months ago and has been in operation for some time on the West coast where staple crops are grown.

According to Mr. Dawson, the new law will affect every grower in Seminole County when all of its provisions are in force.

The county agent explains that the prime purpose of the program is soil conservation, with erosion reduction as a secondary aim. Soil conservation, as applied to Seminole County, is to be accomplished by making "soil building" a condition for income growers in citrus and truck crops. Under the new law, a farmer who produces citrus or truck crops must plant a cover crop of some kind on the land taken out of production. The cover crop will be built up through the planting of such crops as cow peas, velvet beans, cowpeas, lespedeza or any of the usual soil-building crops.

As explained to the growers by Mr. Dawson, the second aim (soil conservation) is to be accomplished by making "crop diversification" a condition. This, he said, means that if the grower takes out of production a portion of his acreage he will, in effect, be renting his land to the secretary of agriculture. Not more than 15 per cent of a farmer's acreage may be so rented, with the stipulation that a minimum of 15 per cent of the total acreage will be planted to a recognized cover or soil-building crop.

Mr. Dawson said that the rate of payment for celery and other truck crop acreage has not been announced, but the figure of \$60 per acre for celery has been proposed. Just what figure will be placed on celery or other crops is not known, but the payments will be based on a price index and will be in line with the rate of payment for cotton, which has been set at 8 cents per pound of lint cotton, which figures out that the celery farmer receives about \$15 per acre for land diverted from celery to soil building crops. That such a payment for land would be satisfactory to the farmer is shown by the fact that 50 per cent of the acreage has been qualified by calling on the county agent's office to register and complete the necessary work sheets.

Seminole County growers are now being notified by County Agent Dawson in all of the agricultural sections of the county.

## MARITIME NEWS

From the Port of Sanford Florida...

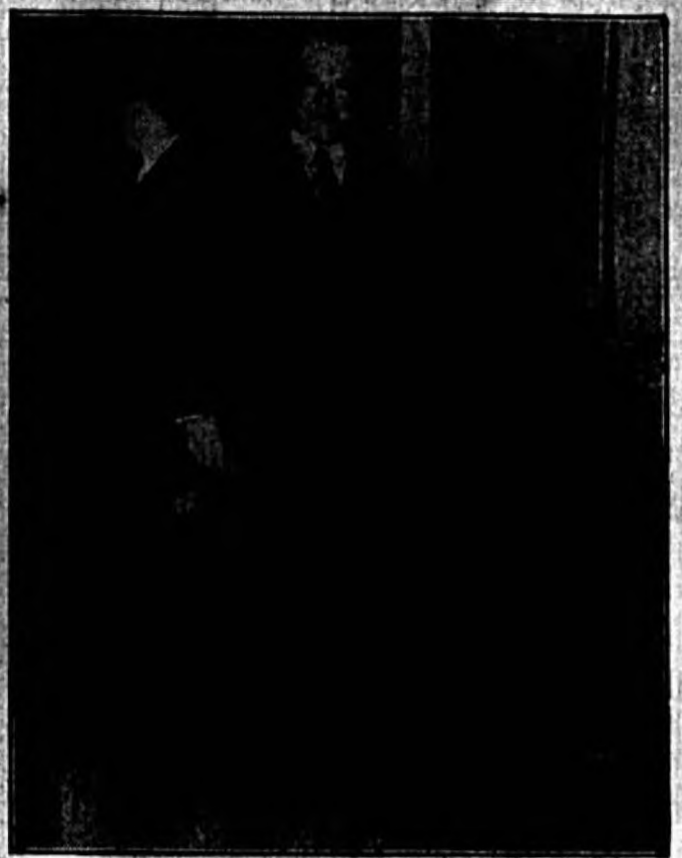

Sanford, Fla., May 21.—(AP)—The steamer "Plymouth" left for Jacksonville today.

The "Plymouth" is the first of a series of new supply boats to be built for the United States Coast Guard.

These boats will be used for patrolling the coast and for other purposes.

The "Plymouth" is the first of a series of new supply boats to be built for the United States Coast Guard.

## HOOVER "NOT A CANDIDATE"

Political speculation as to former President Herbert Hoover's ambitions for another term in the White House was set at rest by his statement in Chicago: "It should be evident by this time that I am not a candidate." He is shown boarding a train for Los Angeles shortly after his disclosure. (AP Photo)

## Pastor's Prayers Are Answered By People Of Oviedo

## Churches Unite For Mid-Week Service With Dr. Carpenter

The pastor of the Oviedo Methodist Church, Dr. W. J. Carpenter, found quite a surprise in store for him when he went to his church on Wednesday evening for prayer meeting. It seemed that his prayers for a large prayer meeting had finally been answered, for shortly after his arrival cars began steaming into the church grounds until approximately 200 people had assembled, composed of old friends, neighbors, Baptists, Methodists and visitors. The occasion was in honor of Dr. Carpenter's eightieth birthday, and the Oviedo Baptist Church had called off their weekly prayer meeting to attend the surprise party in a body.

Geo. W. Morgan, chairman of the Methodist Church board of stewards of Oviedo, was toastmaster, and welcomed the friends and visitors who gathered on the church lawn, where seats were arranged to accommodate the gathering.

Dr. James S. Day, pastor of the Baptist Church of Oviedo, opened the ceremonies with an invocation, after which the audience sang the familiar hymn, "Blest be the Tie that Binds." Short talks were made by former Mayor James L. Giles of Orlando, who told of his friendship for Dr. Carpenter during the past 49 years. Following the remarks of Mr. Giles the Rev. Mr. Day called upon two young women to escort Dr. Carpenter to the front, and made presentation of a loving cup from the members of the Baptist Church of Oviedo. A bill fold was presented by Geo. W. Morgan, and when it was opened by Dr. Carpenter he found a generous gift in bills inside from friends in Oviedo, Sanford and elsewhere.

Mrs. W. E. Thornton and Mrs. Walter Morgan of Sanford also tendered gifts from friends in Sanford.

After the ceremonies were over delicious refreshments were served.

## West Tennessee Gets TVA's First Power

JACKSON, May 21.—(AP)—The first power from the Tennessee Valley Authority (TVA) was generated today at the first of a series of power-supply plants to be built for the United States.

## CITY NEWS BRIEFS

Judge Jas. G. Sharon and other candidates for Congress are to speak in Ocala this evening.

Fred Coss of Lake City, gubernatorial candidate, will speak in Sanford again next Saturday evening at 7 o'clock.

The weather: Partly cloudy and local showers Friday along the East Coast tonight; extreme northwest, partly cloudy tonight and Friday.

Mattina Beatty, charged with assault and battery, pleaded guilty before County Judge Sharon this morning and was sentenced to pay a fine of \$5 or to go to jail for 60 days. She deposited a bond to guarantee payment of the fine.

Capt. F. S. Feren of the Salvation Army was advised today of the death in New York City yesterday of Commissioner Samuel Brengle, a leader in Salvation Army work. The late commissioner spent his winters in St. Petersburg.

Political candidates and the public in general are invited by the Woodman's Circle to attend a box supper and dance to be given in the W. O. W. hall next Tuesday evening. A silver collection will be taken before the dance.

Several candidates filed their second expense accounts in the County Clerk's office today, but they have until Saturday in which to make such reports. The third and last expense statements must be filed between June 24 and July 2.

Several thousand acres of land comprising portions of the Levy and Young grants have been sold by the Bank of Mulberry for a consideration of about \$4,000 to three residents of Polk county—J. L. Robinson, R. B. Fuller and T. J. Turner. The land is east of Longwood, south of Lake Jessup. A warranty deed transferring the tracts was filed for record yesterday.

Orie R. Mathison, who was injured in an automobile accident in Oviedo last Friday, announced today that he will be confined to his home for several weeks, but that his campaign for county commissioner will continue under the direction of his friends. Though Mr. Mathison suffered a dislocated vertebra in his back and other painful though not serious injuries, he expects to be out in a short time and as good as well.

Frank T. Brown, Jacksonville member of the United States House of Representatives, arrived in Sanford today where he said he intended to make a survey of the county and to hold a "pop" meeting in the town of "Pop" tomorrow.

W. C. Brown, Jacksonville member of the United States House of Representatives, arrived in Sanford today where he said he intended to make a survey of the county and to hold a "pop" meeting in the town of "Pop" tomorrow.

## Many Absentee Ballots Asked For By Voters

### Dozen Electors Who Will Be Away On June 2 Have Voted In Judge's Office

Ballots have been sent to more than 50 residents of Seminole County who are temporarily residing elsewhere, and a dozen electors now in the City but who will not be here on June 2, date for the first primary, have already marked their ballots and sealed them in the office of the County Judge. It is expected that many more ballots will be sent electors who are temporarily absent, and that as the primary date nears, more persons, as they find they will be out of the County, will avail themselves of the opportunity to vote before the date of the primary.

Ballots now being marked will be deposited in their sealed envelopes in ballot boxes on election day and the seals broken and the vote counted by the election judges.

Absentee ballots are being sent to electors who are out of the state, but Seminole County voters who will be elsewhere in Florida on election day will vote in the county where they are located at the time. Upon exhibiting certification of their registration on the books of Seminole County and poll tax receipts for the last two years (unless they are students or other voters who have just become of age and therefore are not required to pay poll tax) they will be given a ballot of the county in which they are voting. The ballot as far as state offices is concerned is the same in all counties, but it will be necessary for the voters to write on the margin the name of the Seminole County man for whom he wishes to vote for a Seminole County office.

## Governor Hoffman Elected Deleg at e To G. O. P. Meeting

NEWARK, N. J., May 21.—(AP)—Gov. Harold G. Hoffman, whose right to represent the Republican party at the national convention was challenged because of his intervention in the hectic last days of the Hauptmann-Lindbergh case, finished last among the party's four elected delegates at-large slate as Gov. Alf M. Landon of Kansas won a sweeping victory in the presidential preference contest.

More than 170,000 persons voted for Hoffman's foe, Franklin W. Fort, who sought election solely on the issue that it would be "rebuke" to the governor "dragging Jersey justice in the mire" in the Hauptmann case.

Although he led Fort by approximately 46,000 votes, the governor trailed the state's high man, former Ambassador Walter E. Edge, by more than 67,000 votes and National Committee-woman Edna B. Conklin by 700 votes.

## Soviet Official Is Refused Admission To United States

SAN FRANCISCO, May 21.—Jacques Grossman Gutzman, 45, an attaché of the foreign department of the Russian government, was refused entry to the United States at the Angel Island port of entry yesterday.

Edward W. Cahill, commissioner of immigration, said Gutzman refused to answer when asked whether he would destroy it.

Over the protest of M. G. Gallovich, Soviet consul in San Francisco, the immigration board then voted to banish the Russian at Angel Island.

Gallovich said he would appeal to Washington. He said Gutzman was unable to understand the question. Gutzman came to the United States to study dairy farming.

## Zeppelin Takes Off On Trip To Germany

LAKERSBURG, N. J., May 21.—(AP)—The German dirigible Hindenburg, carrying 28 passengers, took off for Germany at 10:30 a. m. today on its second voyage since its return to the Atlantic.

## Prediction Is Of Acquittal In Tampa Case

### Charge To Jury Will Be It Must Acquit If Abduction Was Only For Flogging

BARTOW, May 21.—(AP)—Start of the final arguments in the lengthy Tampa flogging trial disclosed that Judge Robert T. Dewell proposes to charge the jury it must acquit the five former policemen remaining as defendants if it believes the purpose of Eugene F. Poulnot's abduction was flogging rather than confinement.

Poulnot, Sam Rogers and Joseph Shoemaker, who died of his injuries, were beaten, tarred and feathered last Nov. 13 after being seized outside the Tampa police station. Since assault is only a misdemeanor in this state, the prosecution placed charges of conspiracy, false imprisonment and kidnapping against the seven former policemen indicted in the case. Judge Dewell last week asked the jury to return a verdict of acquittal to strike all charges except that of kidnapping and to direct the acquittal of two defendants.

Information on the kidnapping count charges Poulnot was abducted "with intent to cause him to be secretly confined and imprisoned against his will." Judge Dewell furnished opposing counsel with copies of the charge he will deliver at the conclusion of the arguments, probably late tomorrow.

E. A. Boasage of the defense, who opened the arguments, told the jury that the judge would charge this intent must be specifically proved. He started to read a portion of the charge to the jury, but the judge stopped him. Boasage's argument chiefly attacked the credibility of state witnesses. The state produced a number of Tampa policemen who testified they gave false information at the Tampa police department hearing on the case.

Wallace Shafer, assistant Polk county solicitor, opened arguments for the state.

## Unemployed Rail Workers Will Be Given Protection

WASHINGTON, May 21.—(AP)—Successful conclusion of negotiations on an agreement for the protection of employees thrown out of work in railroad consolidation was announced by representatives of rail labor and management after a conference with President Roosevelt today.

The agreement provides for a scale of dismissal wages ranging up to one year's salary for employees who have been in service 15 years or longer. At their option, the workers also would be entitled to accept part salary payments over a period of months.

The President some time ago asked labor and railroad executives to reach agreement.

## High School Girls Will Sell Poppies

The annual sale of poppies made by the disabled veterans to raise funds with which charitable work is conducted in home communities will be held in Sanford next Saturday by High School girls. It is announced by Mrs. T. L. Sullivan, chairman of the committee for the American Legion Auxiliary which will have charge of the sale, "Poppy Day" always comes on the Saturday preceding Memorial Day.

## G. V. Mason, Former Resident, Died Today

G. V. Mason, former resident of Sanford, died from a heart attack in St. Petersburg this morning. He was the father of Mrs. A. E. Stevens who left for St. Petersburg upon receipt of the sad news.

## WHAT'S DOING

## "THEY GOT WHAT THEY PAID FOR"

These candid camera views show Dr. F. E. Townsend on the witness stand as he told a House investigating committee his old age pension organization had collected "in the neighborhood of a million dollars." Questioned as to what contributors received in return, he said, "they got our organization, which is exactly what they paid for." (AP Photos)

## Comptroller Says \$410,000,000 For Governor Traded Electrification Is Unsecured Notes Made Available

TALLAHASSEE, May 21.—(AP)—Two circuit judges elected in Dade county passed approval on the reorganization sale of the Dade County Security Company, State Comptroller J. M. Lee told an enthusiastic crowd in the city park Wednesday night, pointing out that the Court record bears witness that Judge Trammell swore he signed the order shortly after dinner, a week or 10 days after the matter had been laid before him.

Without referring to the governor by name, the comptroller pointed out that the \$59,000 of his notes traded by the liquidator of the Volusia County Bank for \$65,000 of Sanford bonds were unsecured notes, with \$60,000 in unpaid judgments ahead of them. He also stated that the liquidator still holds \$50,000 of the bonds, and the other \$5,000 were sold at "the full cash value."

Listing four bank buildings, in Chlipay, Daytona, New Smyrna and Orlando, sold to banking institutions in each town, and eight spittoons sold to Ed Ball at \$5 each, the comptroller said he knew of no other transactions between his liquidators and duPont interests.

Lee told his hearers he had permitted the staff correspondent of the Miami Tribune to make a complete investigation of bank liquidations in Dade, Volusia, Hillsborough and other counties, and that after a 40 weeks' probe the correspondent had written in his paper advising "Face it was possible he had been led astray in the preparation of some of his campaign depth bombs."

## Nearly Half Million Allotted To Schools

TALLAHASSEE, May 21.—(AP)—The state comptroller's office last night announced an allocation of \$485,766 to the county school fund for apportionment by the department of education.

It brings to \$9,477,808 the amount disbursed through the state school fund to the counties this school year. The comptroller's office said it represented \$700 for each teacher and in the state.

The new allocation came from the general revenue fund. Amounts each county will receive will be determined by the department of education, probably today.

Seminole County's share of the school apportionment is \$4,221.21.

## TAUGHT AIR DEFENSE

COPENHAGEN, May 21.—(AP)—Copenhagen residents are to receive formal training in air defense from 1,000 citizens organized as members of the official Air Protection Union. The corps will direct salvage and rescue operations if necessary.

## LITERACY IMPROVED

CHUNGKING, China, May 21.—Here in western China the "new life" movement initiated by Gen. Chiang Kai-Shek has resulted in a sharp rise in literacy. Where less than 10 percent of the children used to attend school, there are today 12,000 of the city's 35,000 youngsters on the rolls.

WARSAW, May 21.—(AP)—The Bank of Poland has set aside 20,000,000 zlotys (\$2,500,000) for the financing of public works, especially highways, in the government's work program.

## Charge Denied That Townsend Misused Mail

### 'Townsendgrams' Sent To Clubs To Raise Congressional Fund Of \$11,490

### Expects Election Of Townsendites

### Author Of Plan Says His Movement Will "Sweep The West"

WASHINGTON, May 21.—(AP)—An assertion, instantly denied, that the Townsend old age pension organization used the mails to defraud was made today before the House investigating committee. James R. Sullivan, committee counsel, declared that \$11,490 was raised for a "congressional fund" by appeal to Townsend Clubs sent through the mails in the form of "Townsendgrams."

Dr. F. E. Townsend, founder of movement, was on the stand for the third day and denied knowledge of the appeal "until after it was out." He added he did not believe the mails "were used to defraud." Sullivan said that prior to the "Townsendgram" appeal, the organization raised \$25,000 to defray expenses of seven men brought to Washington in January, 1935, to draft the McGraw-Hill embodying a form on the Townsend plan, and work for its passage. Dr. Townsend disclaimed knowledge of Sullivan's assertion that only \$1,804 of the \$25,000 was used before the "Townsendgram" appeal was made for additional funds.

Dr. Townsend predicted to reporters the next Congress would have at least 200 House members pledged to his plan.

The doctor contended his organization would gain about 150 House members in addition to the 50 or 60 House Townsendites now claimed.

"We will sweep the country West of the Mississippi," he said, adding he had several conferences with Father Coughlin, Detroit radio priest, and leader of the National Union for Social Justice, and with Gerald K. Smith, an organizer for the share-the-wealth movement launched by the late Senator Huey P. Long.

The pension leader said, however, a third party alliance of the three organizations was not contemplated at this time.

## Governor Lehman Of New York Will Not Seek A Second Term

ALBANY, N. Y., May 21.—(AP)—Herbert H. Lehman, successor to President Roosevelt as New York's governor and staunch supporter of New Deal policies, announced yesterday that he will not seek re-election for a third term.

Immediately, there were indications of a powerful "draft movement" on the part of Democratic leaders who had counted on the governor's candidacy to strengthen the President's campaign in his home state.

President Roosevelt expressed the hope Mr. Lehman would see his way clear to run for re-election, adding that he had known of the governor's intentions for some time.

## JUNTA RESIGNS

LA PAZ, Bolivia, May 21.—The junta which took control of the government after ousting President Luis Torres Soriano last Sunday, has resigned.

## LOCAL WEATHER

### Progress Made In Getting Ready To Pension The Aged

### Social Welfare Board Set Up To Handle Fund Distribution

ORLANDO, May 21.—The 1936 Social Welfare Act of Florida, which created the Board of Social Welfare, was passed by the Legislature a year ago. Since that time, considerable progress has been made in preparing the state for participation in some of the important provisions of the National Social Security Act.

In giving services to the WPA, CCC and the NYA, the staffs of the district boards have certified over 100,000 persons to these agencies as being eligible for employment. In addition, the districts certified over 4,000 canal workers. The district staffs are supplying approximately 33,000

families in the state with food, bedding and clothing.

The State Board of Social Welfare had to decide on the best use of the final grant of money made by the Federal Emergency Administration last December. If this money had been used for direct relief, it would have provided \$9,000 a month to each of the 25,000 families who were eligible for relief, after the cost of certifying men to the WPA had been deducted and after the cost of administering surplus commodities had been taken out.

The Board members had to decide whether it was more valuable to provide one month's relief of \$9 to those families, or to maintain a staff of welfare workers to carry out the plans and programs which had been formulated in the last session of the Legislature. If this money had been used for one month's relief, Florida would have forfeited the possibility of participating in the National Social Security program, and plans for working with the Boys and Girls' Industrial Schools, Florida, State Hospitals and the maintenance of an administration which permitted Florida to take advantage of federal funds when they were available.

The State Board of Social Welfare has developed a plan for old age pensions, which may begin July 1st if every county participates. They have begun the parole system for state institutions; they have carried out the duties of certifying eligible workers to the Work Program; have distributed surplus commodities; have increased and improved the services to children's agencies and institutions; and have begun to plan for future handling of welfare problems in co-operation with the counties and the state. If the money had been used for relief purposes last December, there would have been no possibility of Florida participating in the old age pension plan; there would have been no services to state institutions; and there would have been no way of developing the district board plan. The welfare program would have ended and the counties would have had the entire responsibility until the next session of the Legislature.

The Board of Social Welfare is making every effort to make old age pensions available to aged people beginning July 1st. Many states are already receiving money from the federal government and unless every county in Florida contributes toward the old age pension, we, as federal taxpayers, will continue to help pay old age pensions in other states and receive no benefits in Florida.

At the next State Legislature, a plan will be suggested whereby the state may participate in old age pension; but from July 1st until that time, Florida can receive old age pensions if every county appropriates some money.

No money appropriated by the county is spent for administration of the pension. The federal government matches the county money and all of these funds are used for direct pensions to the aged. The present Board of Social Welfare staff, which has as one of its duties the administration of federal security funds, will distribute the pensions. Twice the

### WHERE 4 DIED IN CLUB FIRE

Firemen are seen surveying the wrecked interior of the Club Shamrock at San Francisco, where two men and two women died in a fire started by the flaming torch of a dancer. The club manager said flimsy decorations and paper mache ceiling burst into flames when Peggy Blossom, the dancer, raised her arm to avoid a patron's attempt to light a cigarette from the torch she was carrying. (AP Photo)

### Constitutionality Of Fruit Dealers' License Attacked

TALLAHASSEE, May 21.—(AP)—Constitutionality of an act by the 1934 Legislature providing for licensing and bonding citrus fruit dealers was questioned and defended in the Supreme Court this week.

Lawyers on both sides presented arguments in a case in which Nathan Mayo, commissioner of agriculture, seeks reversal of a lower court injunction preventing enforcement of the law against the Polk Canning Company, an Indiana corporation.

The injunction was granted by Circuit Judge J. B. Johnson of Tallahassee. Mayo appealed it.

The Polk Company contended it was not a citrus dealer, because it bought citrus for cash or credits to the producers, thereby becoming the owner of the fruit it uses in canning. This business, the company asserted, was exempt from the licensing and bonding law.

Further, the company contended the law is unconstitutional because of discrimination in favor of citrus growers against canners of citrus.

Counsel for Mayo argued canning companies are citrus dealers within the meaning of the law. They also asserted the law did not violate the Constitution.

The court took the case under consideration.

The act was one of a series of measures passed by the last Legislature to set up regulation for the citrus industry.

### Conservation Program Ready For Seminole

(Continued From Page One)

Court House to fill out a work sheet so that they may become eligible to participate in the benefits of the program.

"Making out the work sheet does not bind the grower to any program or requirements," Mr. Dawson said. "It is simply a matter of receiving a payment if certain things are done. If at any time the grower changes his mind, and does not carry out his intended program, he simply gives up his right to receive payment. In other words, the entire program from start to finish is voluntary."

"An example would be like this: A 20-acre celery farmer would be entitled to divert 18 per cent, or three acres of his farm from celery to a soil building crop. If the rate of payment on celery happened to be \$60 per acre, the grower's diversion payment would be three times \$60 or \$180, and if the entire 20 acres were then planted to a soil building crop and this would add \$20 to the payment, making a total of \$200, the grower would derive from his participation in the new program."

If sufficient number of growers participate there will be a considerable reduction in acreage, the county agent said.

The act was one of a series of measures passed by the last Legislature to set up regulation for the citrus industry.

### Business Forces Lee To Cancel Speaking Trip Through State

TALLAHASSEE, May 21.—State Comptroller J. M. Lee was called back to the city today by official business which forced cancellation of another planned trip throughout South Florida.

This is the fourth time during the present campaign that Mr. Lee has cancelled his speaking tours when called to his desk.

The task of raising the nine million dollars promised the schools covered with litigation over the chin wire taxes, slot machines and other revenue acts, has prevented the comptroller from making the speaking engagements that he wanted and had planned to make.

Mr. Lee said: "I deeply regret my inability to make the rounds of the state and meet my friends, especially the thousands of sincere patriotic taxpayers who have rallied to every call made and whose loyalty to the state has been the accomplishment of my administration and I feel that all of these will understand my inability to make these trips."

### Mrs. Possetter Tells Of Flowers At Meet

(Continued from page 3)

a mother's love. Its enduring characteristics represent her fidelity. The crowning touch of all is the habit of the carnation of folding its faded petals over its heart instead of dropping them like other flowers, illustrates as no other picture, the undying quality of a mother's love.

On May 8, 1914, President Wilson signed a resolution designating Second Sunday in May each year as Mother's Day. This being done under the suggestion and full support of Miss Jarvis. The President himself led the way 22 years ago, a white carnation in his buttonhole, his family accompanying him, to do public honor to the best mother who ever lived. Today many other nations join in observing this most sacred day. Now we wear white for the mother who has passed on and red or pink flowers for the living mother.

Many people have made it a habit to plant a memorial tree "To Mother" each Mother's Day. Little did Anna Reeves Jarvis, mothering all who came her way, ever, in any sense, realize that her example would prove the inspiration for an earth-wide movement and that she would be recognized by the grateful world as "Mother of Mother's Day."

"The flower cannot tell what becomes of the odor wafted away from it on each breath of the wind.

So may no man measure the influence of his habits."

### Hotel Profits Rise Under Rule Of Nazis

BERLIN, May 21.—(AP)—Hotel operators have national socialism to thank for renewed prosperity since 1932, according to semi-official announcement.

In 1932 says the source, their aggregate turnover was \$1,840,000,000. By 1934 it had increased by \$80,000,000.

Another \$120,000,000 was added in 1935, according to the announcement, coinciding with momentum gained by the Hitler regime.

At the same time bankruptcies decreased from 265 in 1932 to 23 in 1935.

### Constitutionality Of Fruit Dealers' License Attacked

TALLAHASSEE, May 21.—(AP)—Constitutionality of an act by the 1934 Legislature providing for licensing and bonding citrus fruit dealers was questioned and defended in the Supreme Court this week.

Lawyers on both sides presented arguments in a case in which Nathan Mayo, commissioner of agriculture, seeks reversal of a lower court injunction preventing enforcement of the law against the Polk Canning Company, an Indiana corporation.

The Polk Company contended it was not a citrus dealer, because it bought citrus for cash or credits to the producers, thereby becoming the owner of the fruit it uses in canning. This business, the company asserted, was exempt from the licensing and bonding law.

Further, the company contended the law is unconstitutional because of discrimination in favor of citrus growers against canners of citrus.

Counsel for Mayo argued canning companies are citrus dealers within the meaning of the law. They also asserted the law did not violate the Constitution.

The court took the case under consideration.

The act was one of a series of measures passed by the last Legislature to set up regulation for the citrus industry.

### Business Forces Lee To Cancel Speaking Trip Through State

TALLAHASSEE, May 21.—State Comptroller J. M. Lee was called back to the city today by official business which forced cancellation of another planned trip throughout South Florida.

This is the fourth time during the present campaign that Mr. Lee has cancelled his speaking tours when called to his desk.

The task of raising the nine million dollars promised the schools covered with litigation over the chin wire taxes, slot machines and other revenue acts, has prevented the comptroller from making the speaking engagements that he wanted and had planned to make.

Mr. Lee said: "I deeply regret my inability to make the rounds of the state and meet my friends, especially the thousands of sincere patriotic taxpayers who have rallied to every call made and whose loyalty to the state has been the accomplishment of my administration and I feel that all of these will understand my inability to make these trips."

### Mrs. Possetter Tells Of Flowers At Meet

(Continued from page 3)

a mother's love. Its enduring characteristics represent her fidelity. The crowning touch of all is the habit of the carnation of folding its faded petals over its heart instead of dropping them like other flowers, illustrates as no other picture, the undying quality of a mother's love.

On May 8, 1914, President Wilson signed a resolution designating Second Sunday in May each year as Mother's Day. This being done under the suggestion and full support of Miss Jarvis. The President himself led the way 22 years ago, a white carnation in his buttonhole, his family accompanying him, to do public honor to the best mother who ever lived. Today many other nations join in observing this most sacred day. Now we wear white for the mother who has passed on and red or pink flowers for the living mother.

Many people have made it a habit to plant a memorial tree "To Mother" each Mother's Day. Little did Anna Reeves Jarvis, mothering all who came her way, ever, in any sense, realize that her example would prove the inspiration for an earth-wide movement and that she would be recognized by the grateful world as "Mother of Mother's Day."

"The flower cannot tell what becomes of the odor wafted away from it on each breath of the wind.

So may no man measure the influence of his habits."

### GOOD MELON CROP LIVE OAK, May 21.—Watermelons will soon be "smilin' on de vine" in Suwannee county. County Agent E. C. Kierce says the crop at this time is above average in condition.

### Constitutionality Of Fruit Dealers' License Attacked

TALLAHASSEE, May 21.—(AP)—Constitutionality of an act by the 1934 Legislature providing for licensing and bonding citrus fruit dealers was questioned and defended in the Supreme Court this week.

Lawyers on both sides presented arguments in a case in which Nathan Mayo, commissioner of agriculture, seeks reversal of a lower court injunction preventing enforcement of the law against the Polk Canning Company, an Indiana corporation.

The injunction was granted by Circuit Judge J. B. Johnson of Tallahassee. Mayo appealed it.

The Polk Company contended it was not a citrus dealer, because it bought citrus for cash or credits to the producers, thereby becoming the owner of the fruit it uses in canning. This business, the company asserted, was exempt from the licensing and bonding law.

Further, the company contended the law is unconstitutional because of discrimination in favor of citrus growers against canners of citrus.

Counsel for Mayo argued canning companies are citrus dealers within the meaning of the law. They also asserted the law did not violate the Constitution.

The court took the case under consideration.

The act was one of a series of measures passed by the last Legislature to set up regulation for the citrus industry.
