If you have homes, acreage, groves or rentals — and would like to advertise on our weekly Tour Of Homes and Real Estate Page —

CALL FA2-5612
FOR INFORMATION

While you are out driving, this week-end, take this page with you. The map above will assist you in locating some of Sanford and Seminole County's outstanding real estate. Take a circle tour and see them all, you may find just what you are looking for in the way of a home.

'Customerized' Homes Offered

Drive out west of town. There you find the entrancing "customerized" homes of Shoemaker Construction Company's Ravenna Park and Idyllwilde of Loch Arbor; LMN Builders Tee 'N Green Estates and a little farther on, the fabulous new Greenbriar of Loch Arbor.

If you drive south on Hwy. 17-92 and turn west on Seminole Boulevard you come to LMN Builders Lake Wayman Heights.

Also south of Sanford, near Five Points or south on the Lake Mary-Longwood Road is the new development of Country Club Heights homes whose builders are featuring special bonuses for early qualifiers.

And if you can't make it out to one of these new areas during the week-end, don't worry, they are open all week, and there'll always be someone available to show you around.

Harold Logan, president and general manager of LMN Enterprises has announced that home development in the Tee 'N Green Estates near the Mayfair Golf Course is coming to an end. The company soon will be starting extensive development in the Crystal Lake area.

Associated with LMN Enterprises as vice president and sales manager for Tee 'N Green Estates is Edward E. Leatherbury, who has had 15 years background as a builder and developer in San Fernando Valley, Calif., in Galveston County, Texas, and in Orlando and Winter Park.

Police blotter this morning revealed vandals destroyed \$200 in shrubbery and flowers at Pinecrest School over the weekend.

Mayor Tom McDonald, perturbed over the "downtown situation," will call a meeting this week of a special committee to study ways and plans for improving economics, traffic and other matters. In the committee are Joe Baker, Jimmy Crapps and Al Wilson, city commissioners, and E. C. Harper Jr., B. L. Perkins Jr. and Charles Robinson. Committee also faced with reports of a "giant shopping center" to be announced within three months for immediately south of the city limits.

School Supt. Ray Milwee took off on a much-needed vacation today.

Court Clerk Art Beckwith was happy this morning with receipt of the following letter from the State Comptroller's office: "The State Association of Court Clerks made a wise choice in electing you as its treasurer. I know that your work in this line will be as efficient as it is in your job as Clerk." Nice going, Art.

Maybe that long sought Sanford airport is about to "get off the ground." Reports current the Chamber of Commerce airport committee will come up with something definite at its meeting July 22.

Kiwanis Club Bulletin reports: "The directors decided on John Higginbotham as the recipient of our scholarship fund for this year, Justin is the son of Dottie Austin who 'scouts' our weekly meetings for news for The Sanford Herald." John is a junior at the U of F.

R. E. Porter did a double take this morning when he saw the mayor of our fair city driving a car with Wyoming license tags. Seems Tom is considering purchasing the car from a Navy friend who is deployed.

Here is heartening news for our local businessmen. Florida Retail Federation reports gross sales in Seminole County up 21.3 per cent in May last compared to the same month in 1962. Sales in May 1963 were \$6.19 millions compared to \$5.1 millions in May 1962.

W. H. Stemper, past president of the Seminole County Board of Realtors and past vice president of the Florida Association of Realtors, attended the state group's quarterly seminar at Hollywood last week. He is a member of the state policy committee.

Auditions will be held at 9 a.m. Tuesday and 8 p.m. Thursday at the Chulouta Community building for a variety show sponsored by the Chulouta recreation fund raising committee.

Dave Kanaly, vice president of the Seminole County Young Republicans Club, has been appointed director of the Central Florida "Draft Goldwater for President" group.

GOP Aspirants Parley Leaders
TALLAHASSEE (UPI) — Several of the Republican Party's potential Presidential candidates will have prominent roles in the upcoming National Governor's Conference, Gov. Farris Bryant said. Bryant said New York Gov. Nelson Rockefeller will be chairman of the Civil Rights Committee; Pennsylvania Gov. William Scranton will take part in a panel discussion on unemployment and Gov. George Romney of Michigan will lead a discussion on international trade and economic development. Bryant said he expects the four-day meeting to attract a record attendance of perhaps 1,000.

Summer rates now at the Palms Hotel, our eye-catching, main street hostelry, so we're told.

ART BECKWITH, court clerk, and Henderson Ferguson, courthouse maintenance custodian, inspect the new nylon American flag which flew over the courthouse today for the first time. It replaced an old, worn flag. (Herald Photo)

Thunderstorms Break Drought In Midwest

By United Press International
Thunderstorms which broke a searing drought in the Midwest moved across the Appalachians today, drenching dry New England forests and eased crop conditions along the Atlantic seaboard.

A steady rain fell in the Northeast and scattered showers sprinkled the South and Great Plains. Up to a half-inch of rain fell in the Middle and North Atlantic States Sunday. More than 1 1/2 inches fell at Millville, N. J., in six hours Sunday night. More than an inch of rain hit Curtis, Neb., in less than a half hour.

Cooler air pushed in over the upper Midwest, where temperatures dipped into the 50s during the night. Blythe, Calif., which simmered in 116 degree heat Sunday, cooled off during the night to 104.

Several storm-born tornadoes were reported in the West and South Sunday but caused no serious damage. Two funnel clouds were reported north of Yoder in southeastern Wyoming while a severe weather warning was in effect. Imperial, Neb., also in the danger area, was battered by hailstone.

A small tornado ripped off a roof, tore down television antennas and uprooted a garage five miles north of Elizabeth City in eastern North Carolina Sunday. No injuries were reported.

A 16-year-old boy, swept away Saturday when a flash flood struck his car in an arroyo near Fowler, Colo., was still missing today. A five-foot wall of water rushed along the normally dry Kramer Creek bed and pushed the car about a quarter mile downstream. Authorities said the youth may have been swept 1 1/2 miles into the Arkansas River.

The Weather Bureau said mostly fair skies will cover the West today while showers will continue across the South and Plains.

news... BRIEFS

Divorcee Killed
TAMPA (UPI)—The body of Mrs. Patricia Diana Donley, a 34-year-old divorcee, was found Sunday in a parking lot here. Police said she had been beaten to death.

Red-Sino Meeting
MOSCOW (UPI)—Soviet and Chinese negotiators met today in what might be the final session of their ideological talks, informed sources said.

\$30,000 Theft
MIAMI (UPI)—An estimated \$30,000 in jewelry was stolen last night from the apartment of Margaret Cahill Rice, a New York interior decorator vacationing here.

Student Drowns
HAVANA (UPI)—The newspaper Revolution reported today that Warren Hill, one of 59 American students visiting Cuba, drowned in a hotel swimming pool at the eastern city of Santiago.

300 Killed
DACCIA, Pakistan (UPI)—At least 300 persons have been killed and thousands rendered homeless by floods due to monsoon rains in the Chittagong area of East Pakistan, according to officials.

Find Other Jobs
WASHINGTON (UPI)—The Post Office department is trying to encourage its most highly educated employees — Negro and white — to find other better government jobs, a spokesman said today.

NAAWP Started
CINCINNATI (UPI)—Claiming a membership of about 300 persons in five states, the National Association for the Advancement of White People (NAAWP) was organized here Sunday.

Nazis Arrested
NEW YORK (UPI)—Eight neo-Nazis, including the leader of the National Renaissance Party, were to be arraigned today on charges rising from the distribution of hate literature at a civil rights demonstration.

Migrant Held
SPARTANBURG, S. C. (UPI)—Augusta Kennedy, a 39-year-old migrant worker from Belle Glade, Fla., was being held today in connection with the slaying of a working companion, Dave Houston, 63, also of Belle Glade.

Swift Strike III
FT. BRAGG, N. C. (UPI)—Swift Strike III, a massive movement of men and machines engaged in mock combat, will begin to rumble through 7,500 square miles in North and South Carolina and Georgia July 21 in this nation's largest peacetime maneuver.

Rails, Unions Lax In Dispute, Wirtz Charges

WASHINGTON (UPI)—Labor Secretary W. Willard Wirtz says that neither the railroads nor rail unions is making any real effort to settle their strike-threatening work rules dispute.

Wirtz said Sunday that both sides in the dispute were assuming that the government or Congress would settle it and "there is no affirmative attempt" to break the deadlock.

President Kennedy has named a special committee, headed by Wirtz, to make recommendations for a settlement. He plans to use its report as a basis for proposals to Congress next Monday to end the dispute.

Both the railroads and unions have agreed to hold off any strike action at least until July 29. The carriers have threatened to put into effect work rules that would eliminate thousands of jobs, and the unions have said they would strike if the new rules are applied.

Wirtz, in a television interview, said there still were "all manners of procedures" that could be used for settling the dispute short of compulsory arbitration.

Tampan Arrested
CHATTANOOGA (UPI)—A man identified as Anthony Morvant, 21, Tampa, Fla., was arrested today less than a half hour after a dry cleaning company operator was robbed of \$23. Police said Morvant admitted the armed robbery.

TIPPY has a penchant for boiled eggs. The little black dog of unknown ancestry is pictured here "begging" for his favorite food from Grace Nelson. (Herald Photo)

Two Beaten In Telephone Strike

One Man Arrested By FBI

TAMPA (UPI)—State Sen. C. W. Young met today with officials of General Telephone Co. and planned a later meeting with union leaders in an attempt to end the violence and sabotage which has marked a five-day-old strike. Young, a Pinellas County Republican who is vice chairman of the Senate Committee on Labor and Industry, said his primary objective is to try to stop the damage resulting from the strike.

TAMPA (UPI)—The smoldering General Telephone Co. strike moved into its fifth uneasy day today and one badly beaten management employe lay in a hospital and another faced an operation for a crushed nose.

The Federal Bureau of Investigation announced Sunday it had charged union member Albert Clinton Ash, 35, with "willfully and maliciously interfering with a telephone communication line control by the United States."

Management personnel have been working to repair cut cables and other damage, including broken telephone booths, honey poured into coin slot of pay telephones, burned poles and damaged relay boxes.

The strike began last Thursday when contract negotiations broke down and the International Brotherhood of Electrical Workers threw up picket lines. The strike has resulted in cut cables and other sabotage. The two workers were attacked Sunday in the first violence of the strike.

The FBI, which entered the case when top-priority defense communications cables were cut, said Ash is charged with tampering with equipment at a telephone repeater station on the 22nd Street causeway here.

Gov. Wallace Attacks JFK
WASHINGTON (UPI)—Alabama Gov. George C. Wallace told Congress today that President Kennedy should be "retired from public life" and his civil rights program defeated.

He said the legislation is totally unacceptable to the South and called for a national referendum on the proposals. If a referendum was held, Wallace said the civil rights bill would be overwhelmingly rejected.

FBI AGENTS AND the U. S. Post Office officials are investigating the burglary of the Lake Mary Postoffice late Saturday night. Thieves, believed by Postmaster Clarence Donaldson to be children or teenagers, broke the glass windows of the post office boxes and took mail, apparently looking for money. The torn up and

discarded first class mail was discovered on the floor and in the nearby woods. It will not be known whether any money, checks or money orders are missing until owners of the mail have checked with their sources. Donaldson reported that a woman who lives near the postoffice heard the sound of breaking glass, and called him. (Herald Photos)

Bullet Fired Into Cab Of FEC Engine

MIAMI (UPI)—Vice President W. L. Thornton, of the strikebound Florida East Coast Railway, said today he will inform Gov. Farris Bryant and the FBI in Washington of a shooting incident near Miami.

A bullet was fired into the engine cab of a FEC freight near Miami Sunday. Engineer Frank Bellamy, 42, said the bullet, fired from a moving car, struck a speed recorder and passed through a cushion.

Bellamy said the shot came from a car containing three men which followed the train on a road running a parallel course to the track.

The FEC has been plagued by sabotage since 11 non-operating unions went on strike Jan. 23. Since then, most of the railroad's freight service has been restored, but none of its passenger service.

City's Port Loan Bid Clarified By HHFA

City of Sanford must look to other sources than the federal government for a \$10,000 loan to finance a feasibility study of the need of a port terminal on Lake Monroe.

The U. S. Housing and Home Finance Agency at Atlanta, Ga., in a letter addressed to The Sanford Herald today, advised an application by the City for a loan has been

"tabled" pending payment by the City of a \$7,000 loan made in 1946 for the purpose of developing engineering plans for sanitary sewer improvements.

The City contends these plans were junked, and, therefore, the City is not obliged by law to repay the 17-year-old loan.

Mayor Tom McDonald said today the City "in all probability will take up the matter of a feasibility study" at its budget hearing for next year. He added the City would not consider construction of a port terminal without the feasibility study.

The HHFA letter to The Herald, signed by Edward H. Baxter, acting for the regional administrator, reads: "As you know, this Agency has requested repayment of planning funds advanced to the City of Sanford during 1946 for the purpose of developing engineering plans for sanitary sewer improvements. Repayment was requested after a plans comparison revealed that the facilities under construction served the same areas and satisfied the same community need for which the original plans were developed. In reaching this decision newly prepared plans were compared with plans financed by the City with the Federal loan."

"The Law under which the planning advance was made to the City, and the Terms and Conditions of the Planning Agreement, require repayment whenever substitute facilities are constructed which provide the same service in the same areas as originally contemplated. A thorough re-evaluation of the community's

Kennedy Studies Moscow Talks, Rail Dispute

WASHINGTON (UPI)—President Kennedy returned to the White House today from a weekend on Cape Cod to turn his attention to issues ranging from the Moscow talks to the railroad dispute.

The first order of business for Kennedy was meeting with the president of Tanganyika, Julius Nyerere. The President will hold a second meeting with Nyerere this afternoon, but Kennedy's attention also was centered on

"The American-British-Soviet talks starting in Moscow in a new Third One effort to gain at least an agreement to ban nuclear tests in the atmosphere, above ground and under water."

"A six-man fact-finding panel's blue-ribbon study of the railroad work rules dispute which still threatens to touch off a nationwide strike July 29 if unions and companies fail to resolve their 'featherbedding' dispute. The panel must report to Kennedy by a week from today."

4 Bound Over For Larceny

Four Seminole County men charged with grand larceny have been bound over to the Circuit Court, Sheriff J. L. Hobby reported today.

He identified them as Robert Lee King, Thomas L. McCoy, Ronald Scott and Glenn Crawford, a juvenile charged with larceny.

The Sheriff said Crawford and the juvenile surrendered themselves after escaping from Deputy J. Q. Galloway last week.

Who's Drunk?

COLUMBIA, S. C. (UPI)—A "How's that?" expression passed over the judge's face in municipal court today when a defendant was brought before him on a charge of public drunkenness.

Clark T. V. Davis looked at the defendant and said: "You are charged with being guilty. Are you drunk?"

7 Mountaineers Reported Safe

TALKEETNA, Alaska (UPI)—Seven mountaineers from Harvard were continuing their climb up 29,230 foot Mt. McKinley today, no longer the victim of a search.

Veteran bush pilot Don Sheldon popped his light plane through a cloud cover at the 17,000 foot level Sunday and spotted the climbers for whom a search had been conducted since last Wednesday.

Using Her Head

LONDON (UPI)—Hallerina Nadia Nerina said today she bought four "fabulous" hats during a recent shopping spree in New York.

"I can't really explain why I bought them," she said. "I don't wear hats."

CAPT. JAMES O. MAYO is now commanding officer of Heavy Attack Wing One at Sanford Naval Air Station. (Herald Photo)

Mathews To Seek Court Ruling On Eligibility To Make Race

TALLAHASSEE (UPI) — Sen. John E. Mathews says he will seek a court ruling on his eligibility to run for governor.

And he said he is certain the courts will declare him eligible, based on a 1954 decision that Sen. and Acting Gov. Charley Johns could seek the office under somewhat similar circumstances.

Mathews made it clear that bringing the suit does not mean absolutely that he has decided to run.

He won't make up his mind about that until about Aug. 1, he said. But he wants the decision to clear the air.

(Mathews was in Sanford last Friday on a swing around the state to feel out voter opinion on his making the race.)

Supporters of some other possible candidates have been using the alleged ineligibility of Mathews as a weapon to try to keep him out of the race.

The question arises because of a provision in the state constitution that no member of the legislature can, during the time for which he was elected, be appointed or elected, to any office under the constitution that was created or the emoluments thereof increased during such time.

The 1963 legislature raised the pay of the governor to \$25,000 from \$22,500. The

increase was provided in the general appropriations bill, Mathews' term in the Senate does not expire until 1966.

Johns was in a similar situation, although the circumstances were slightly different.

The 1953 legislature increased the governor's pay in the appropriations bill from \$12,000 to \$15,000. Johns became acting governor in the middle of the term, because as Senate president he succeeded to the governorship upon the death of Gov. Dan McCarty.

When he decided to run for the two-year unexpired term, his eligibility was questioned because of the 1953 pay raise to the governor.

The Supreme Court, in a 5-2 split decision, ruled he was eligible.

The court ruled that the prohibition was put into the constitution when Florida was emerging from carpetbag days with memories of political abuses and wanted to prohibit trafficking in public office.

It wanted to remove temptation from the legislature to "featherbed" on the public domain by raising a salary or creating an office and getting themselves appointed to it, the court said.

"Public conditions are vastly different today," the court continued. "With free dissemination of news and close coverage given legislative deliberations by press and radio, the people are better informed concerning actions of their legislators and they can express their approval or disapproval at the polls."

'Gators Snatched
LAPLACE, La. (UPI) — Thieves broke into a snake farm over the weekend and stole 150 alligators, five of them seven feet long.

Boys Recover After Ordeal

PITTSBURGH (UPI) — Three teen-age boys miraculously rescued from an abandoned coal mine where they were lost for two days looked forward today to their release from a hospital and a return to their normal life.

Daniel O'Kain, 18, Bobby Abbott, 14, and Billy Burke, 15, have been in St. Clair Hospital since Saturday evening when a team of mine experts found them huddled in a small cave.

The No. 2 mine of the old Castle Shannon Coal Co. had been boarded up since it was closed in 1938. But the old pit still holds the lure of adventure for boys in the neighborhood.

Took It Hard

LINCOLN, England (UPI) — Employees of the Lincolnshire Road Car Co. went on strike for two hours today in protest of the firing of bus driver Roy Baker.

Baker, 35, killed himself last week, five hours after losing his job.

Fatal accidents in the U. S. showed a 2 per cent decrease over the preceding year in 1961.

Chamber Warns Of Flim-Flam

Seminole County Chamber of Commerce has been informed of a racket—the use of official-looking "Public Notice" mailings to sell so-called "distress" merchandise.

John Krider, manager of the chamber, said that the public notice headings are similar in style to legal notices and auction and bankruptcy announcements. The implication is that the merchandise is being sacrificed at a fraction of its worth to satisfy the claims of creditors.

"Actually," Krider stated, "this is merely a ruse to hoodwink the public."

In a typical example the mailing notes that several tons of brand new cookware with a "list price" of \$199.50 must be sacrificed for \$35, impliedly to satisfy creditors' claims.

"This merchandise is being regularly sold throughout the country in large volume for \$35 by means of this deceptive gimmick," said Krider, noting that the list price of \$199.50 is "wholly fictitious."

The chamber manager said that these "public notices" are the latest in a series of deceptive sales stratagems employed by certain cookware promoters to fool the public.

"Other versions exposed by the National Better Business Bureau, with which the chamber is affiliated, through membership, include the sale of cookware from a hotel suite for a few days by hit-and-run salesmen who claim to be disposing of their goods as a sacrifice because their companies are no longer selling by means of home demonstrations," Krider said.

Another fictional version requires the promoter to dupe a warehouse or freight carrier into publishing an ad offering cookware at an alleged bargain price because it is "unclaimed freight."

Still other reasons given for bogus disposal sales represent that the "distributor is giving up franchise," or that goods offered were "not picked up by our agents," or that the merchandise would have to go to a "sacrifice in order to settle this estate," etc.

"Whatever the stated reason," Krider said, "misuse of the 'distress' appeal in merchandising is a scheme to betray of public confidence in advertising."

Optimism Seen Over Nuclear Talks

OFF TO CONVENTION in Miami are these three delegates of the Sanford Pilot Club. Mrs. Jack Lambertson (left) immediate past president; Miss Janet Smith, new president, and Mrs. Jerry Jernigan, first vice president, check the map. Their destination is the Fountainbleu Hotel in Miami Beach where pilots are holding their international convention. (Herald Photo)

MOSCOW (UPI)—Premier Nikita Khrushchev, joking and apparently in good spirits, met today with British nuclear negotiator Lord Hailsham in a prelude to three-power talks which aim at at least a limited agreement banning tests.

Khrushchev's decision to take a personal hand in the talks was one of the reasons for optimism among diplomats here that success may be in the offing after many months of deadlock on the nuclear testing issue.

Hailsham, Undersecretary of State W. Averell Harriman, the U. S. negotiator, and Soviet Deputy Foreign Minister Valerian A. Zorin all said they hoped the conference would lay the groundwork for a test ban treaty.

Hailsham, Britain's minister of science, held a courtesy meeting with Khrushchev before the formal talks to get acquainted. Khrushchev joked over Hailsham's mistake in confusing Zorin with Foreign Minister Andrei Gromyko Sunday.

Gromyko, also present for the courtesy meeting, was all smiles.

Diplomats expected Khrushchev to sit in at the opening sessions of the negotiations, then turn over the job to a subordinate. But his presence added to other signs that have made observers here optimistic that East and West can reach their first major agreement since the Austrian state treaty of 1955. They included:

- Russia's growing split with Communist China and

its apparent determination to put Khrushchev's "peaceful coexistence" policy ahead of all other considerations, including the unity of the Communist camp.

—Khrushchev's statement in East Berlin earlier this month calling for a partial test ban.

—Western willingness to settle for a limited ban if the Soviets will not agree to a comprehensive one.

Harriman made it clear on his arrival Sunday that the United States would like to end all testing, if agreement can be reached on inspection systems.

"We have come with the instruction to do everything for the conclusion of a comprehensive ban on nuclear tests with the proper safeguards," he said.

"But if we cannot get a concrete test ban, we have prepared to agree on a partial test ban which would be a first step in the negotiation of a complete treaty."

Khrushchev's East Berlin speech and Western statements have indicated that the best chances for agreement now are on a ban of all tests

Tighter Boycott Of Cuba Urged

WASHINGTON (UPI)—Sen. Karl E. Mundt (R-S.D.) called on the Kennedy administration today to tighten what he termed its "half-hearted" economic boycott of Cuba.

Mundt recommended a four-part program of action "far short of war" which would deny U. S. ports to ships of any country letting its vessels trade with Cuba and would use the Foreign Aid program to reward nations joining in an anti-Castro effort.

He also proposed that the Organization of American States and NATO be asked officially to halt trade with Cuba and that similar requests go to every other nation outside Communist domination.

Mundt, in the latest in a series of Republican Senate speeches on Cuba, said that the number of trips by free-world ships to Cuba had increased since January and that the "volume of Soviet-bloc shipping to Cuba seems to be rising."

He conceded that there was a "virtually complete embargo on U. S.-Cuba trade" in effect since February 1962 and that most Latin American countries were sharply curtailing their own Cuban trade.

But Mundt said a provision of the Foreign Aid Act denying assistance to countries whose ships carry arms or strategic materials to Cuba was not being enforced as to NATO-type aid to NATO countries. Thus, he said, the aid restriction is "virtually inapplicable."

The other present restriction, Mundt said, is an order of last February barring U. S. government-financed cargoes to foreign ships that have traded with Cuba since Jan. 1.

The GOP senator called this a "half-hearted program." He said the number of trips made by free world ships to Cuba "actually was lower in January, one month before the administration's order went into effect, than in any month since then through May."

Mundt cited a Maritime Administration report showing that ships of a dozen free world countries made 113 trips to Cuba through May 31, while Polish ships made seven, Britain with 23 ships and Greece with 23 had the largest numbers of vessels involved.

"The fact of the matter is that the United States has not demonstrated that it really means business when it says that Communist power in this hemisphere is intolerable, non-negotiable, and must be eliminated," Mundt said.

"To continue to do nothing is the most dangerous policy of all," he insisted.

AFL-CIO Hits Rates Increase

WASHINGTON (UPI)—The AFL-CIO told the Federal Reserve Board Sunday that it strongly opposed any moves that would increase interest rates.

AFL-CIO President George Meany said in a letter to reserve board Chairman William Martin that moves to tighten the money supply now would be "dangerous." Meany called for lower interest rates to stimulate the economy.

Russian Author At Reception

MOSCOW (UPI)—Ilya Ehrenburg, 73-year-old "dean" of Soviet letters, attended a Basille Day reception at the French Embassy Sunday in his first public appearance since he was denounced by Premier Nikita S. Khrushchev last March.

Ehrenburg chatted with guests but steered his remarks away from his chastisement for "unorthodox" views of the Stalin era. The writer, who is suffering from a heart ailment, appeared frail and drawn.

Anything Goes

RICHMOND, Va. (UPI)—Housewives here said today a door-to-door salesman was selling door signs reading "No salesman."

Goldwater In '63 - But 64

Underneath all the obviously genuine Republican clamor for Sen. Barry Goldwater as a presidential candidate, a hard fact remains unchanged: Party leaders in the big industrial states continue to shy away from him on grounds he can't be elected. At the moment these leaders have no candidate. New York Gov. Nelson Rockefeller's evidently sagging fortunes depress them. They think Michigan's Governor Romney is too "irregular," a Republican, and Pennsylvania's Governor Scranton too little known.

These latter conditions presumably could change. Romney might begin making more regular party sounds. If there was a turn toward William Scranton, the party's publicity machinery might do a surprisingly fast buildup.

Then, too, Rockefeller might regain some of his lost stature if the impact of his remarriage and other matters were to lessen in the next few months.

One veteran Republican professional believes the only way Goldwater can win the big state leaders—and most of their delegates votes at the San Francisco convention—is to run up a few smashing scores in the 1964 presidential primaries.

This, it is argued, would clearly establish his national vote-getting powers to the satisfaction of even the most skeptical big state leader.

Goldwater's presently avowed backers in the draft movement favor his entry in several carefully chosen primaries, though they are not yet saying which ones. With Rockefeller's current decline, they face the primary hurdles with much more confidence than earlier.

But there is a risk in the primary course for Goldwater, as for anyone. A refurbished Rockefeller might take him in a few key spots. Word has it that a clash between the two in California, for immensely high delegate stakes, would be very close—with heavy damage to the loser.

Whatever the pitfalls in the primary game, no professional worth his salt questions that Goldwater today is the front-running candidate.

At some stage in the months ahead, if the senator's head of steam keeps building, the big state chiefs might just decide to shrug off their doubts about him and let the Goldwater tide bowl them along to his nomination next July.

It is not yet clear, however, that they have already lost the power to stop him. The big states represent hundreds of delegate votes. Some smaller states will follow their lead.

If a big rash of favorite sons appear on the 1964 scene, it will be a signal that leaders still doubt Goldwater's suitability and are playing for time while they seek another horse.

Peter Edson

Political Notebook

In spite of all its difficulties the United Nations is now said to be beginning to find its way around. In the opinion of Harlan Cleveland, assistant secretary of state for international organization affairs, this is particularly true of the UN specialized agency programs in the developing countries that need help the most.

The popular impression of the UN is that it is as clumsy and unsure of itself as most teenagers. It is badly financed. It is not as well staffed as it should be because the principle of a completely impartial, international civil service has not yet been established. Also, the split between Communist and free nations makes complete co-operation impossible.

It may take the rest of this century for all these flaws of organization to be worked out by meaningful charter revision and the slow evolution of what UN can and can't do.

One of the encouraging signs, Cleveland believes, is found in the appointment of UN "Resident Representatives" to co-ordinate programs in countries being given the world organization's specialized agency technical assistance.

There are now 61 of these UN resident representatives serving in the developing countries. They act as top advisers to government officials in the countries to which they are assigned and oversee the

work of two or more aid programs.

In some countries the resident representative is given diplomatic status and ranked as an important consultant. In other countries he is considered just a liaison officer or a technician with a special mission in his own field of competence.

There is no established protocol governing the range or responsibility of a resident representative. None is a native of the country to which he is assigned. George Ivan Smith, an Australian, is mentioned by Cleveland as a typical resident representative doing an outstanding job in Tanganyika.

Present practice is for the resident representative to be appointed by the head of the UN Expanded Program For Technical Assistance—now David Owen of the United Kingdom—with the concurrence of the UN Special Fund director for preinvestment planning—now Paul Hoffman of the United States.

The idea is growing, however, that these resident representatives should be appointed by the UN secretary general and that they will become, in effect, UN ambassadors.

It is believed that such a development would give the UN increased status in the countries to which it gives aid. It would also simplify operations for receiving govern-

ments.

First step towards co-ordinating the work of the UN specialized agencies has just been made in a recommendation to the State Department from its Advisory Committee on International Organization, headed by Sol M. Linowitz of the Xerox Corp., Rochester, N. Y.

Its plan is to put UN Technical Assistance and Special Fund Planning—a \$250 million operation last year—into the program.

This is one of three reorganization plans being submitted to the UN by the United States. The first dealt with improving the staffing of UN agencies. Some of the reforms suggested last year to Secretary General U Thant are now being put into effect.

The final report, still in preparation, will deal with UN financial and budgetary operations which are still in something of a mess.

The six weeks special session of the UN General Assembly just adjourned in New York failed to come up with any permanent solutions to the problems of how to make member countries pay their assessments.

As of May 31, 11 nations owed a total of \$555,000 on 1961 assessments and 30 nations owed a total of \$5 million on 1962 assessments.

The special session finally adopted seven resolutions which will tide the UN through Dec. 31. This year's assessments are now \$11 million in arrears. But the same problem for next year will be back on the agenda of the new General Assembly convening in mid-September. It is generally admitted that it will take a long time to put the UN on a sound working basis.

Mined Waters

Dr. Crane's Worry Clinic

CASE P-41: Dr. Abel Z. aged 35, is a brilliant dental surgeon. "Dr. Crane," he began, "you recently mentioned the use of sea salt and ocean water as possible aids for preventing deficiency diseases. "For you pointed out the fact that ALL the water-soluble chemical elements on this earth are dissolved in the sea. "Yet many of them have been washed out of the land to a large degree. "Your ideas are right in line with our latest research in the field of biochemistry, as shown by the fluoridation of drinking water. "The Food and Drug Administration frantically tried to belittle your suggestions and even issued a news bulletin saying there is nothing of medical value in the sea. "How do they explain the use of sea iodine in ordinary iodized salt? "Or the iron and calcium and many other chemicals in sea water that are now standard treatment in modern medicine?"

The history of science is studded with similar "old fogies" who also tried to stop the progress of truth. For instance, cod-liver oil was rejected as useless by a supposedly reputable medical body as late as 1919. Dr. Jenner's vaccination for small pox was pooh poohed, too. And Pasteur was nearly driven out of France by the medical societies for showing how to inoculate sheep against anthrax. When Stephenson's locomotive made a test run at 30 miles per hour, the Munich College of Physicians warned against railway travel. Its report said the trees and houses that flashed past the eyes would damage vision. And in England, it was stated that such terrific speeds would even cause insanity. The French scientist Lalande "proved" to his scientific world that airplane flight was a scientific impossibility! Even the use of the white potato was likewise attacked by the clergy in England, who thundered against it from their pulpits. They claimed that it was poison and would even sterilize the soil so nothing else would grow on ground previously used for a potato patch. After five futile years, wealthy Thomas Coke still couldn't get his tenant farmer to grow potatoes. But across the English channel in France, a smart druggist turned the trick by using psychology. He hired soldiers to patrol his experimental potato farm. But at night he secretly withdrew the guards. By day, he would then lead distinguished guests through the field and serve them raw potatoes, right out of the ground. They smacked their lips and exclaimed, while the poor peasants looked on from outside the cordon of soldiers. This strategy placed prestige on the potato, so the peasants robbed the potato patch at night and thus in one season France popularized the potato though England had failed to do so after 5 years.

Dick West Says

Posture Plays Part

WASHINGTON (UPI) — At the last meeting of our neighborhood literacy society we had an interesting discussion on the qualities that a person needs to become a successful writer. Some said the most important quality is the ability to compose long murky paragraphs that invoke the atmosphere of an apartment hallway at eventide when one of the tenants is cooking cabbage. Others said the most important quality is to have a friend on the selection committee of a book club. Still others said the most important quality is an encyclopedic grasp of four-letter words. Surprisingly enough, nobody except me mentioned poor posture as a necessary qualification for a literary career. This leads me to believe that the importance of bad posture has never been adequately explained. I'll concede that my observations have been generally limited to the journalistic branch of literature, but the fact is that I have never known a first rate writer who had good posture. By the process of inductive reasoning a conclusion can therefore be drawn that their success is due at least in part to bad posture.

This is something that the journalist schools and creative writing courses apparently have been neglecting. Which is a pity. Not everyone can have a friend on a book club selection board, but almost anyone can, with proper instruction and practice, develop poor posture. There is a sound physiological basis for arguing that bad posture is a vital force in literature. Most composition nowadays is done on a typewriter, and it has been scientifically established that when a person sits down at a typewriter his thoughts rush to his feet. Sitting erectly with spine straight and shoulders square impedes the circulation of thought waves, which tend to follow a curved line, and prevents them from returning to the brain. When I am at my typewriter, I try to overcome the natural inertia of thought waves by drawing my knees up under my chin in an approximation of the fetal position. This lessens the distance that the thought waves must travel vertically and provides a sinuous path from the feet to the brain. Other newspapermen I know seek the same results of slumping into the chair and extending the legs as far under the desk as possible. This

forms a horizontal plane over which thought waves can flow with relatively little gravitational resistance. Actually, thought waves move most freely when the body is supine, but I don't recommend that. It gives passers-by the impression that the writer is taking a nap.

U. S. Attorneys Set To Answer Charges

NASHVILLE, Tenn. (UPI) — Federal attorneys today were scheduled to answer defense charges that Justice Department investigators threatened witnesses appearing before the grand jury which indicted Teamster President James E. Hoffa and 10 others for alleged jury tampering.

A number of affidavits depicting alleged coercion on the part of agents was expected to be filed by the government along with a dismissal of motions seeking to free the defendants or grant them a change of venue.

In motions filed last week, Hoffa's lawyers alleged that "Thomas Ewing Parks, one of the defendants, was offered a 'deal,' if he would testify against Hoffa."

A special assistant to U. S. Atty. Gen. Robert Kennedy was in the jury room, in violation of federal law.

An organizer for Teamsters Local 217 was threatened with deportation if he refused to testify.

A government prosecutor, in the presence of the grand jury, implied that a female witness might be carrying on an affair with one of the defendants.

Hoffa and the others were indicted in May for allegedly attempting to bribe jurors and prospective jurors during the union leader's trial here last year on charges of sharing a \$1 million payoff from a trucking firm in violation of the Taft-Hartley law.

The government alleges that bribes totaling at least \$75,000 were offered during the nine-week trial. Two jurors and a prospective juror were

dismissed from that case.

The defendants all pleaded innocent to charges of jury tampering and are free on bond.

They are scheduled to appear at a hearing before Federal Judge Frank Gray Jr. July 22 on pre-trial motions filed in the case.

Jury had set today as the deadline for the government to file answers to the pre-trial motions filed by the defense last week.

Mrs. Chapman Rites Conducted

Mrs. E. T. Chapman, of Sanford, died at 3 p.m. Sunday at Seminole Memorial Hospital following a short illness.

She was born in Kissimmee and resided in Sanford all her life. She was a member of the First Methodist Church and an active member of the W.S.C.S. of the church.

Survivors are her husband, E. T. Chapman; one brother, John E. Anderson; two sisters, Miss Lucille Anderson and Mrs. A. L. Meyers, all of Sanford, and a nephew, Dr. A. L. Meyers Jr., of Dundee.

Funeral services were held at 10:30 this morning at the Brisson Funeral Home with Rev. John Adams Jr. officiating. Burial was in Evergreen Cemetery.

Palbearers were M. E. Baker, Charles H. Williams, L. M. Swain, E. D. Kirchhoff, R. W. Sturdevant and J. C. Davis.

Samuel Miller Funeral Held

Samuel D. Miller, 37, died last Thursday at 11:15 a.m. in Florence, S. C. He had made his home in Lake Mary for the past four months and formerly lived in Cocoa Beach.

He was owner and operator of the Sam and Kathy Bar in Lake Mary and was a member of the Moose Lodge in Lake Mary.

Survivors include his wife, Katherine, and one daughter, Shirley, of Staunton, Va.

Funeral services were to be held today at 4:30 p.m. at Brisson Funeral Home with Rev. Gail B. Smith, of Central Baptist Church of Sanford, officiating. Interment was to be in Lakeview Cemetery.

World Beauties Practice For Miami Pageant

MIAMI BEACH (UPI) — Some of the most beautiful women in the world practiced poise today for the opening of the week-long Miss Universe pageant.

Although actual competition does not begin until Tuesday night, the 97 beauties began receiving instructions from old hands and contest officials, learned in the art of beauty review.

Miss Universe of 1963 will be crowned before a national television audience at Convention Hall here Saturday night. The title is based on beauty and carriage. No talent is involved.

Miss U. S. A. preliminaries will be held Tuesday and one of the American beauties will be crowned Wednesday night to compete with the global contestants in the Miss Universe preliminaries Thursday.

Hot, humid weather felled eight Miss Universe contestants at ceremonies Sunday night as temperature hovered at 78 with the humidity a sticky 79.

Seven of the beauties had to leave the stage. They were Miss Israel, Sherine Ibrahim; Miss Iceland, Theodora Thordardottir; Miss Brazil, Ida Marie Varnes; Miss Scotland, Gay Taylor; Miss Belgium, Irene Godin; Miss Indiana, Vickie Little, and Miss Nicaragua, Leda Zanchez.

Miss Wisconsin, Lynn Korchnoff, collapsed just after the show ended and had to be revived with smelling salts.

Lawmakers To Study Tax Cuts

WASHINGTON (UPI) — House tax legislators were to resume work today on drafting a bill containing administration proposals for tax reduction and reform.

The House Ways and Means Committee has been recessed for three weeks to allow staff members time to draft a tentative measure after lengthy hearings held earlier this year.

Before the tax bill can be sent to the House floor for a vote, the committee must still act on three areas:

Make final decisions on the many structural changes in the tax code; decide if it wants to continue favorable tax rates now provided on income from stock dividends; and decide how much to reduce individual and corporate income tax rates.

So far, the bill is expected to provide a cut of between \$8 billion and \$10 billion in individual and corporate income taxes. Its chances of final passage are considered

better than 50-50 despite the legislative tieup threatened by the coming fight over civil rights legislation.

Other congressional news: Civil Rights: Alabama Gov. George C. Wallace was expected to make the latest attack on the Kennedy administration's proposals to end segregation in public accommodations. Wallace was scheduled to appear before the Senate Commerce Committee as the second Southern governor to testify on the proposal which would ban discrimination in interstate businesses such as hotels, motels and restaurants.

Trade: Sen. Hugh Scott (R-Pa.) said he has asked President Kennedy to bring Canada under provisions of the "Buy American" act because allowing their firms to compete for U. S. defense contracts has hurt U. S. workers. If the measure was applied to Canada it would bring a handicap of six to 12 percent on Canadian bids for contracts when competing with U. S. companies.

NOTICE FOR BIDS

The Board of County Commissioners of Seminole County, Florida will receive bids at the office of Arthur H. Beckwith, Jr., in the courthouse at Sanford, Florida up to 2:00 P. M., Monday, July 22, 1963, for the following:

Two (2) 12,000 gal. cap. horizontal cylindrical black iron gasoline storage tanks for underground service, bearing Underwriters' Label. Approximate dimensions: 10 feet diameter x 25 feet 6 inches long. Each tank to have three (3) four inch tank flanges in the top near one end, and one (1) four inch tank flange near opposite end; one (1) 28 inch bolted type manhole; necessary lifting brackets and approved bituminous exterior coating.

Price bid shall be for the tanks complete and delivered to the County Road Department on U. S. 17-2, four (4) miles South of Sanford, Florida, and should include all State and Federal taxes and alternate or optional items as specified and will be considered in awarding the contract. Bid should be accompanied by shop drawings covering the items to be supplied.

Bid to be enclosed in a sealed envelope plainly marked on the outside "BID FOR TWO (2) PUMP TANKS, open July 22, 1963."

Bids will be opened at a meeting to be held in the County Commission Meeting Room in the Courthouse at Sanford, Florida, Tuesday, July 23, 1963, at 10:30 A. M. or as soon thereafter as possible.

The right is reserved to waive any irregularities or technicalities in bids and to select any or all bids.

Western Union Rate Raise OK'd

WASHINGTON (UPI) — The Federal Communications Commission authorized Western Union Thursday to raise its rates for domestic public messages by 10 per cent.

The new rates will provide an estimated \$18.5 million in added annual revenues for Western Union.

The increase does not apply to press messages, private line or customer-to-customer telex or to money order charges.

Control Board Meets July 18

TALLAHASSEE (UPI) — The Board of Control will meet here July 18-19 to adopt budgets for the coming year for state universities.

Thursday, July 18, will be turned over to the budgeting process for the seven universities and divisions of higher education in Florida. On the following day, the board will take up the usual agenda items for the schools.

Thomas Nast's original cartoon of the donkey as a symbol of the Democratic party was published during the Civil War.

Afternoon Party Honors Bride-Elect

One of the prettiest parties of the summer season, and the first in a series of pre-nuptial events for Miss Frances Strickland, was a tea Friday afternoon at the Mayfair home of Mrs. John Ivey. Co-hostesses were Mrs. W. G. Fleming of Tavares.

Around 70 guests called between the hours of 4 and 5:30 and were greeted at the door by Miss Kay Ivey. In the receiving line were the hostesses, the honoree and her mother, Mrs. M. R. Strickland.

Lovely floral arrangements, with roses predominating, were placed at vantage points in the Ivey home. Silver and crystal appointments and roses in pastel shades decorated the tea table which was covered with an Italian cut-work cloth. Centering the table was a low bouquet of roses in a crystal and silver bowl and on either side silver goblets held nosegays in lace doilies and white satin streamers that extended to the table.

A conversation piece was the beautiful wedding ring set mold with a pink lily floating in the center.

Mrs. T. F. McDaniel presided at the silver punch bowl and assisting in the dining room were Miss Marilyn McDaniel, Mrs. C. L. Powell, Miss Rose Kratzer, Miss DiAnn Alken and Mrs. J. A. Calhoun.

Parties on Calendar
Miss Strickland, who will become the bride of John Thomas Bowden, of Macon, Ga., on Aug. 31 at the First Methodist Church, has many parties marked on her social calendar. Among them are a miscellaneous shower Friday July 19 at the home of Mrs. Ira Southward and a luncheon July 27 at the home of Mrs. W. A. Kratzer.

Stretch Fabrics Great For Sports

By Helen Hennessy
Women's Editor
Newspaper Enterprise Assn.
NEW YORK (UPI)—Judging from the frothy selection of fashion items sold as "sportswear," it would seem that all American women aren't enthusiastic about "vignah."

But among lace bikinis that wouldn't last a minute in the surf and organdy drindl dresses for shell gatherers there is legitimate sportswear for the active sportswoman. And these sports clothes are handsomely designed to combine comfort and fashion.

The introduction of stretch nylon and the successful blending of synthetics and cotton have made handsome active sportswear possible. If cycling is your choice of exercise, you can ride your bike in comfortable, good-looking long pants of cotton and nylon stretch denim. They are light in weight, beautifully tailored and launder in a jiffy.

For the golf course, there are classic shirts in stretch nylon. The stretch adds the important arm freedom necessary to make that hoped-for 74. These can be worn with stretch nylon golf shorts for maximum comfort.

For the woman who prefers not to wear shorts on the green, there are pleid gold dresses in cotton and stretch nylon, especially tailored to add sizz to your swing.

Armed shankin offers its easy-care qualities to the tennis enthusiast in pleated shorts or graceful semi-pleated shifts that will keep their pristine freshness through countless matches.

If the active gal feels slighted because her spectators have a wider variety of sports clothes, she may yet have her day. Should physical fitness become a national pastime, those organdy drindls will disappear from the sportswear counters almost, you might say, overnight.

BRIDE-ELECT Miss Frances Strickland is the center of attention here as she is being served refreshments by Miss Kay Ivey at the Tea in her honor Friday afternoon. Pictured here, left to right, are Mrs. M. R. Strickland, the honoree, Miss Ivey, and the two hostesses, Mrs. W. G. Fleming of Tavares and Mrs. John Ivey. (Herald Photo)

July Social Held For Navy Wives

Officers' Wives of VAH-3 held their July Coffee at the B. O. Q. of the Naval Air Station with Mrs. Tom Hite and Mrs. Harvey Aubuchon as hostesses.

The coffee table was centered with a straw basket filled with colorful zinnias. Danish pastries, cakes and coffee, were served to the 38 wives present.

Mrs. Robert Kennedy and Mrs. Cara Foster were introduced and welcomed as new VAH-3 wives by Mrs. Roy Farmer. Mrs. Farmer reminded the wives to make reservations for the All Wives Election Board Coffee on July 18. Mrs. Clifford Nelson, whose husband is going to the Wing, was presented with a farewell gift.

Mrs. Dick Wells won the door prize. The next functions of the VAH-3 Officers' Wives will be a bridge session Aug. 1, a coffee Aug. 8, and a luncheon on Aug. 15.

Dress Up For Them, Says Famous Singer

By Alicia Hart
The incomparable Hildegarde is on a crusade. Fed up with the worship of the youthful look, she says she wants to lead the mature women in a march for their rightful glamour status.

"Why should a woman over 50 resign herself to being dowdy?" she asks.

"A housewife should think of her family as her audience. I work hard to keep well-groomed and well-dressed for my audiences. I would never let them down. Why should she?"

At 50, Hildegarde maintains her weight at 136 pounds, with 15-minute-a-day exercising and dieting. She is a bug about health foods but I learned her real secret is under-eating. She thanks her mother for this disciplined attitude toward food.

"I may sound harsh," she explained while eyeing a bowl of peanuts during an interview at the Forum in New York, "but Mother insisted we leave the table a little bit hungry."

Hildegarde is all for cosmetics, if properly used, for the mature woman. "If eye make-up makes you look prettier, then use it. But please, please don't dye your hair black," she begs of mature women. "I will make your features so harsh. Brownish or Auburn hair shades are softer colors for you."

She also feels strongly that, "A woman at any age should treat her skin like fine china. As you mature, use creams daily. Select quality creams and remember you need a cream that stimulates circulation from within."

Along with her comments about diet exercise and mental attitude, Hildegarde passes on this simple facial exercise: "Tighten your upper lip over your teeth. Keeping your lip in this position, open and close your mouth 20 times. This works wonders for those little wrinkles that are so quick to appear."

Pritchard-Smith Vows Said July 6th

Captain Shirley Clayton Smith, U. S. A. F., daughter of Mr. and Mrs. Edwin Clayton Smith Jr., of Sanford, became the bride of Major Kenneth Eugene Pritchard, U. S. A. F., July 6, at the chapel of Trux Field in Madison, Wis. The chaplain of the base officiated.

The groom is the son of Mr. and Mrs. O. L. Pritchard of Columbus, Ohio.

The bride, given in marriage by her father, wore a street-length dress of white plique with inserts of Irish lace complemented my white accessories and a corsage of carnations.

Mrs. Smith chose for her daughter's wedding a blue voile afternoon dress and pinned a corsage of pale yellow carnations at the waist.

Following the ceremony the bride's parents entertained with a wedding luncheon.

Garden Gate

By Mrs. Eric Viblen
HEMEROCALLIS CIRCLE
What is world gardening? It is simply trying to create world peace and friendship through gardening.

Former President Eisenhower proposed his "people-to-people program" to encourage individuals to make contacts with people in other lands. We are trying to reach the little man as he is the one we are trying to help. To quote a young Japanese junior high school English teacher in Takamatsu, "We are in Japan trying to understand you, and you must try to understand us, then we will have international peace."

We are collecting tree seeds for this man, as he cares for the extensive school grounds and would like to obtain seeds of trees that could withstand 50 degrees F.

Children in many lands must have their own school supplies before they can attend school, especially in Hons-Kong, Viet Nam, India and Korea. Just \$1.00 sent through Care furnishes a year's supply for children who are either orphans or refugees and who would get no schooling. These children, all too soon, will be the citizens of tomorrow. The Federation of Garden Clubs sends bundles of medical journals to Japan to doctors requesting them, thousands of gardening magazines, books, pounds of seeds, pictures, maps, dry materials, flower arrangement calendars, children's clothing, school supplies, and self-help hand tools.

One man to whom the Federation writes is behind the iron curtain in Hungary. His letters are pathetic in what they do not say rather than what they say. At one time he farmed 35 acres, now he has a small lot where he raises bees and a few bulbs.

Thousands of packages of both flower and vegetable seeds could be sent to countries both in and out of the iron curtain. Magazines, books, especially women's magazines showing how the American woman lives, hundreds of thousands of old Christmas cards and boxes of jewelry are sent to the little children whose lives are brightened by such small gestures.

A package of food through Care contains 22 pounds of farm surplus consisting of rice, flour, shortening, dry skim milk powder and corn meal. The recipients often make underwear for the children and the man of the house out of the flour sacks. We do not realize the poverty in the world from this land of ours, this land of plenty.

I believe if peace comes and when it comes, it will come through the little man whose stomach is fed, whose children are sent to school, and who is taught to help himself. Won't you join the Federation of Garden Clubs in this heart warming work? We need you, and you, and you.

Personal

Miss Carolyn Watson left Friday for several weeks visit with relatives in Jacksonville. The Circle Y of the Barnett Memorial Methodist Church met Tuesday at the church for their regular meeting. Important items, as plans for the new year, were the main items of business.

Personal

Mr. and Mrs. Ben Evans of Sunset Drive, Casselberry, have received word of the arrival of a new grandson and namesake, Benjamin Robinson Evans, III, born to their son and daughter-in-law, Mr. and Mrs. Daniel M. Evans, III, of Arvada, Colo., on July 8.

Growing Girls? Here's How To Lengthen Dress

Mothers of growing girls find that hemlines are a constant problem. And problems increase if the child's dress is purchased ready-made, or if it was made without a growth tuck to allow for lengthening.

How to disguise the crease after letting down a hem is one troublesome question.

One way to avoid a crease is to leave the hem where it is and work with the shirt body to gain extra length. There are several easy and attractive ways that will help lengthen a dress.

Set several bands of contrasting fabric into skirt, with a bow at center front to add decorative trim. Set-in bands afford length to skirt and bodice, too, if needed.

Even if the bodice doesn't need lengthening, it's better to carry the bands to the top in some manner to tie the design together. They can be stitched onto the bodice either vertically or horizontally.

A wide band of contrasting fabric at skirt bottom. Then make a crushed cummerbund of the same fabric for the waistline, to tie the skirt in with the top.

When the bodice of the dress needs quite a bit of added length, too, you might use a midriff of contrasting fabric to extend the waist length as needed. Then add the same fabric to the top of the skirt to lengthen it and create an entirely new costume for midday.

Perky commercial banding can be used to add length as well as to trim a child's dress. Hand fagoting, too, enables you to add length as well as detail. You can also buy this by the yard in tape form for this purpose.

DOWN TO EARTH NEW YORK (UPI)—As the mother-to-be gains weight, the additional strain on her feet may make them larger.

Advise the Public Affairs Committee here: "She needs low-heeled sturdy oxfords made of soft leather and having plenty of toe room. To help her maintain proper balance, even her dress shoes should have broad, low heels."

Dear Abby: By Abigail Van Buren

DEAR ABBY: I have the sweetest husband in the world, and an adorable son. Five months ago I went to work to help out with the bills. In our four years of marriage I never looked at another man. Then my boss started to get chummy with me. I was flattered because he was wealthy and important, and I was nobody. He's 18 years older than I am and not very good-looking. (He can't compare with my husband.) I can't explain it, but when this fat, bald, aging man leaned over and kissed me one day I was thrilled to pieces. Now he kisses me every chance he gets. I know it's wrong, Abby, but I can't stop. I know I could get him away from his wife, but I wouldn't want him for a husband. Isn't that the most ridiculous thing you ever heard of? How can I break away?

MIXED UP

DEAR MIXED: Give your boss two weeks' notice and leave. And if you must work, now that you know your weakness, get a job in an all-woman office.

DEAR ABBY: When two people are in love with one another, whose place is it to say first, "I love you"? The guy's or the girl's? I am inclined to believe that old adage, "Ladies first", holds true here. Am I correct? S. P. W.

DEAR S. P. W.: No. The gentleman opens the bidding. If hearts are trumps, the lady redoubles.

DEAR ABBY: Do you think I am old-fashioned to believe that a man doesn't have a girl's best interests at heart if he invites her to his apartment for dinner and brings her home at three A. M.? I am not suggesting that they are doing anything immoral, but I think it looks bad for the girl to be seen leaving a man's apartment at that hour. They are both fine people. My daughter is the girl and she is in love with this man. She says "appearances" are not important. I can't say too much to her because she is 23 and has always been well-behaved. This is the first serious disagreement we've ever had and if you think I'm wrong to object, please tell me.

WORRIED MOTHER

DEAR MOTHER: "Appearances" ARE important. They shape a person's reputation—and a girl has only one reputation. Your daughter is "in love" with a very, selfish man, and you may quote me.

DEAR ABBY: Some very close friends of mine have told me that in the state of Illinois, if you are pregnant, you can get married without your parents' consent, even if you are under age. Is this true?

WONDERING

DEAR WONDERING: If a girl is under age, no matter in WHAT state she is, she needs her parents' consent to marry.

What's on your mind? For a personal reply, send a self-addressed, stamped envelope to Abby, Box 3365, Beverly Hills, Calif.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, Box 3365, Beverly Hills, Calif.

SALE-A-RAMA begins today for six weeks special at all Tip-Top Stores in Sanford. Standing before the meat counter, stacked high with Swift's Tru-Tender beef, which is featured in the special six weeks promotion are market manager Leonard Beal, H. D. Mims, manager of Swift and Co. in Orlando and Joe Gazil, owner of Tip-Top. (Herald Photo)

Tru-Tender Beef Sale Featured

Delicious Swift's Tru-Tender beef, "so succulent you can cut it with a fork," will be the headline feature at the giant Tip-Top Sale-a-Rama beginning today at all Tip-Top stores.

This specially processed Texas beef is sold on a "guaranteed-tender-or-your-money-back" basis.

"Not only is it tender as advertised but it is quality beef with that rich, mouth-watering flavor," said H. D. Mims, manager of Swift and Co. offices in Orlando.

Tip-Top stores, which regularly stock this quality beef at door-busting prices, have gained a reputation for "really good meat."

For the next six weeks, Swift's Tru-Tender Beef will be featured at money-saving prices to give everyone an opportunity to sample this delicious beef and stock up on it while prices are low.

"The repeat calls for this tender, specially processed beef is growing by leaps and bounds," said Mims.

Jacoby On Bridge By Oswald Jacoby

If you can restrain your curiosity and not look at the East and West hands you can learn a valuable lesson in dummy play.

East wins the first trick with the ace of clubs and returns the suit. You win the trick and are now ready to apply the code word, "Arch." (Analyze the lead) and "R" (Review the bidding), but you do count your winners and get to eight easily, since you have two hearts, four diamonds and two clubs. Now you try "H" and ask yourself, "How can I make a ninth trick?"

You have two good places to try. If West holds both the ace and queen of spades or if you can guess which of the two high spades he holds you can make your ninth trick in that suit. How about the hearts? You don't know, but you can cash dummy's ace and king of hearts and see what happens. You do this and when the ten drops you have your ninth trick for the taking. You simply play a third heart and set up a heart trick.

Of course, a duplicate player might decide to go for a top and start proceedings by leading a spade toward dummy and going up with the king in the likely event that West played low. This would give him 10 tricks if the cards lie, but would cost him his contract if East held the ace of spades.

We The Women: By Ruth Millett

There's a new book which offers clubwomen hundreds of money-raising ideas. I haven't read them all, but I will be willing to bet they all involve hours of hard work, numerous committees, hours of telephoning, hiring of baby sitters for many of the members involved, and, in the end, a group of women complaining to their families about how tired they are.

Back in the days when women had no money they could call their own and joint checking accounts were unheard of, women had to dream up moneymaking schemes to finance their pet charities and community projects.

But now that most women can lay their hands on a little cash, and when time should mean more to them than a small cash donation—why do women keep on with their endless moneymaking projects?

Why do they continue to work themselves to death on bake sales and silver teas and bazaars, instead of contributing a small amount each, and using their time and energy for something else?

A cash contribution would not cost most clubwomen more than what it costs them to do their part in staging a moneymaking project, if they consider cost-of-the-gasoline they spend running errands, the cost of baby sitters who take over for them while they work for free, and the meals their families take out.

Legal Notice

NOTICE FOR BIDS

The Board of County Commissioners of Seminole County, Florida, will receive bids at the office of Arthur H. Beckwith, Jr., in the Courthouse at Sanford, Florida, up to 5:00 P. M. Monday, August 12, 1963, for the following:

Approximately 1400 board feet of dressed No. 1 K.D. Southern Pine lumber, approximately 1200 square feet of galvanized steel roofing and siding, a keel of nails, and miscellaneous hardware.

Itemized list of materials, giving dimensions, size and numbers required, may be obtained at the office of the Seminole County Engineer in the Court House, Sanford, Florida. Bid price shall be for the materials delivered to the County House Department on U. S. 17-11, four (4) miles South of Sanford, Florida, and should include or list separately all State and Federal taxes. Delivery date must be specified and will be considered in awarding the contract.

Bids to be enclosed in sealed envelopes plainly marked on the outside, "BID FOR EQUIPMENT SHED MATERIALS," open August 12, 1963. Bids will be opened at a meeting to be held in the County Commission Meeting Room in the Courthouse at Sanford, Florida, Tuesday, August 13, 1963, at 10:00 A.M. or as soon thereafter as possible.

The right is reserved to waive any irregularities of technicalities in bids and to reject any or all bids.

PIN-FALL

MILWAUKEE (NEA) — If your average is 155, you have hit the norm among nearly five million members of the American Bowling Congress.

A survey conducted following the 1960-61 season showed that rollers averaged 153.968. This was less than one point below the national average shown in a survey made after the 1954-55 season.

In this period between the two surveys, membership more than doubled, indicating the newcomers to the game are catching up rapidly.

Wrap-Up

RALEIGH, N. C. (NEA)—Technicians of the North Carolina Wildlife Resources Commission are trying to solve the mystery of the wrapped-up catfish.

John Curtis, whose hobby is skin diving, went down to 85 feet in a North Carolina river. He discovered a bush growing on the bottom which was fastened with thick brown moss. One piece of moss had a catfish rolled up in it. Curtis thought the fish was dead and prodded it. The fish scooted away.

Curtis discovered two other catfish, wrapped up in the moss in the same underwater bush.

Wildlife experts are trying to determine whether the fish were wrapped up to hide from predators or merely trying to keep warm.

Variations

DALLAS, Tex. (NEA) — Bill Howton, the Dallas Cowboys' split end, will come into the season needing only 18 receptions and 47 yards to break two National Football League receiving records, both held by the great Don Hutson of Green Bay.

Although he seems certain to break both—489 receptions and 7,922 yards gained receiving, Howton says: "It gets tougher all the time. When I entered the NFL in 1952, pass coverage was either some or man-to-man."

Sanford Nine Meets Orlando

Yankees Lead American With 6 1/2 Games

By TIM MOKIARTY
UPI Sports Writer

When Mickey Mantle suffered a broken bone in his left foot June 5, manager Ralph Houk of the New York Yankees insisted "we're not going to lay down and die."

He uttered virtually the same words when Roger Maris, the other half of the Yankees' dreaded "M & M" combo, was knocked out of action with a sore back nine days ago.

Houk's grammar may have been faulty but not his logic. Mantle is back with the club but it may be a few more days before Houk writes his name on the lineup card.

Yet during his absence the Yankees have won 27 of 41 games. With both Mantle and Maris missing during the past week, Houk's men have won five of seven.

The Yankees increased their first place bulge in the American League to 6 1/2 games Sunday by taking a pair from the Kansas City Athletics, 11-4 and 5-0.

The Boston Red Sox and the Chicago White Sox remained in a virtual tie for second by splitting twinbills.

The Red Sox blanked the Los Angeles Angels, 5-0, after suffering a 10-8 setback and the White Sox pulled out a 3-2 victory after losing to the Baltimore Orioles, 6-3.

The Minnesota Twins swept their doubleheader with the Cleveland Indians, 5-3 and 8-2, and the Detroit at Washington twinbill was rained out.

The Chicago Cubs defeated the St. Louis Cardinals, 7-3, after a 10-3 loss, the Milwaukee Braves won, 7-4, after losing to the Cincinnati Reds, 5-3, and the Houston Colt .45s scored an 8-3 win that extended the New York Mets' losing streak to 15 games in other National League action.

TULIP TIME — Theo Messidor inhales the smell of tulips at his farm near Amsterdam before leaving for New York. The champion trotter of The Netherlands will compete in the Roosevelt International for the world trotting title at Roosevelt Raceway, Westbury, N. Y., Saturday.

Dodgers Lead National With 6 1/2 Games

By Fred DOWN
UPI Sports Writer

The Los Angeles Dodgers are opening up such a huge lead that they may be able to let the New York Mets play out the last month of the schedule for them.

It's been almost a decade—1955, to be exact—since any National League team held a 6 1/2-game first-place lead at this stage of the race and, lest it be forgotten, that was the year in which the Dodgers gave Brooklyn its one and only world championship.

Apparently determined to avoid a repetition of the collapse that cost them the 1962 pennant, the Dodgers increased their 1963 lead to 6 1/2 games Sunday when they beat the Philadelphia Phillies, 3-2, in a game shortened to six innings by rain. The victory was their seventh in a row and their 12th in their last 18 games.

Johnny Podres continued the excellent pitching which has marked the Dodger drive with a seven-hitter for his eighth victory against six losses. Dodger pitchers have given up only eight runs in the seven-game winning streak and have allowed two runs or less in 12 of their last 18 games.

The Chicago Cubs defeated the St. Louis Cardinals, 7-3, after a 10-3 loss, the Milwaukee Braves won, 7-4, after losing to the Cincinnati Reds, 5-3, and the Houston Colt .45s scored an 8-3 win that extended the New York Mets' losing streak to 15 games in other National League action.

18-Year-Old Captures PGA

SACRAMENTO, Calif. (UPI) — On the strength of long-range putts that were stroked so solidly that they rattled the pin before they dropped into the cup, 18-year-old Bobby Lunn of San Francisco held the National Public Links golf championship today.

"They were the key shots," he said after he had disposed of Steve Opperman, who lives not far away in San Francisco, one-up in the 36 hole final Saturday.

The first, a 32-footer, came on the fourth hole of the morning round and put Bobby one-up. The second came in the afternoon on the eighth hole, 25 feet and got Lunn a birdie—which was good for only a halve.

But to the 3,000 fans following the match in 100-degree heat, they were the thrills — and the important shots of the day.

Sanford All-Stars Split Twin Bill
Sanford All-Stars split a double-header with Eau Gallie in softball play Saturday. Eau Gallie took the first game 5-4 behind the pitching of Moore. Brownell of Eau Gallie slammed out the only home run.

Sanford took the second game 12-3 with Jim Jernigan the winning pitcher. Home runs were tallied by L. Williams, Emerson, Helman, Jernigan, Risner and Bowling.

Larry Williams, Sanford left fielder, had 12 putouts.

Spencer Released
CINCINNATI (UPI) — Infielder Daryl Spencer was given his unconditional release by the Cincinnati Reds Sunday in order to make room on their roster for third-baseman Gene Freese. Spencer, who has a 244 lifetime batting average in the majors, hit .230 in 50 games for the Reds this year.

All-Stars Win 16-2
Sanford American League All-Stars downed the Lake Mary Giants 16-2 in an exhibition game Saturday.

The All-Stars, behind the four-hit pitching of Brantley, tallied 12 hits in six innings of play.

Sport Summary For Weekend

By United Press International

Saturday
MEXICO CITY — Sugar Ramos retained his world featherweight boxing championship with a unanimous 16-round decision over Rafiu King of Nigeria.

INGLEWOOD, Calif. — Candy, a New Zealand bred 24-1 longshot, won the \$102,100 Hollywood Gold Cup at Hollywood Park.

CHICAGO — Candy Spots out-duelled B. Major to capture the \$110,833 American Derby at Arlington.

OCEANPORT, N. J. — Decidedly upset the favored Mongo to win the \$111,300 Monmouth Handicap at Monmouth Park.

NEW YORK — Outing Class captured the \$85,000 Dwyer Handicap at Aqueduct as the favored Chateaugay finished third.

KANSAS CITY, Mo. — Early Wynn became the 14th pitcher ever to win 300 major league baseball games when he pitched the Cleveland Indians to a 7-4 victory over Kansas City in the second game of a doubleheader.

Ralston, Budding
BAASTAD, Sweden (UPI) — Dennis Ralston of Bakersfield, Calif., and Edda Budding of Germany defeated Sweden's Thomas Halberg and Katarina Bartholdson, 6-2, 6-1, Sunday to win the mixed doubles title in the Swedish International tennis tournament.

Scotland's favorite folk instrument, the bagpipe, first was mentioned historically in Rome during the first century.

Southpaw Heads Toward Riches

LYTHAM ST ANNES, England (UPI) — Bob Charles, the New Zealand southpaw swinger with the soft putting touch, is headed toward the richest year of his brief professional golfing career.

A former banker who turned pro in 1960, Charles sealed the third spot in the World Series of Golf at Akron, Ohio, Sept. 7-8, by winning the British Open over Phil Rodgers of La Jolla, Calif., by eight strokes in a 36-hole playoff Saturday.

Charles joined Masters champion Jack Nicklaus and U. S. Open King Julius Boros in the September tourney that features a first prize of \$30,000. The fourth slot in the PGA event goes to the PGA winner at Dallas, Tex., next weekend.

Charles joined Masters champion Jack Nicklaus and U. S. Open King Julius Boros in the September tourney that features a first prize of \$30,000. The fourth slot in the PGA event goes to the PGA winner at Dallas, Tex., next weekend.

Charles joined Masters champion Jack Nicklaus and U. S. Open King Julius Boros in the September tourney that features a first prize of \$30,000. The fourth slot in the PGA event goes to the PGA winner at Dallas, Tex., next weekend.

Bryant Pledges Fight Against Civil Rights

TALLAHASSEE (UPI) — Gov. Farris Bryant has already said he'll fight any civil rights proposals at the National Governors' Conference at Miami Beach, but today he listed the things he'll plug.

—Cold war education to teach the nation's everyday citizens the dangers of Communism.

—A state fight against the federal government in its attempt to take over off-shore tidelands from coastal states.

—Seek more volunteer states to help in the Cuban refugee resettlement program.

Another main aim at holding the conference in Florida, the governor said, is to give the nation's chief executives "the kind of exposure we need in order to attract national political conventions and the like." He said the expense would pay off in terms of nationwide publicity.

The conference, for which the past legislature appropriated \$75,000, will boost Florida's tourist and convention potential, Bryant said. The conference will cost much more than \$75,000, but industry from around the state is also chipping in for the July 21-24 gathering.

Bryant, who is chairman of the conference committee on cold war education, will present an action report recommending what the governors can do in each of their states to accomplish the objectives of teaching citizens the dangers of communism.

He said he will report on the progress of a voluntary resettlement program for Cuban refugees and encourage additional help in moving some of the Cubans from Miami where more than 100,000 of them are living.

Also Bryant said, he will push the fight against the federal government which says it doubts that states should have ownership of valuable natural fill lands lying off the coast.

Bryant said he is especially concerned that no civil rights issues be injected at the meeting and will ask that a full vote of the governors be needed to bring up such hot potato legislation.

He said it would pit southern and northern governors against each other and would damage the purpose of the conference. Gov. Nelson Rockefeller of New York is pushing such a resolution and reportedly will ask that it be passed by the conference.

Bryant said that using the conference as a "sounding board" for upcoming presidential elections will cause the chief executives to "stay away if they're going to be browbeaten with controversy."

Baby Lifeguards

LOS ANGELES (UPI) — The occupation of pool sitters, a classification officially recognized by the state employment office, is catching on big in Southern California.

The aquatic counterpart of the baby sitters gets \$1 to \$1.25 an hour for his labors.

Ancient Romans reproduced artificial pearls in large numbers.

Seven Fatalities Listed In State Over Weekend

MIAMI (UPI) — At least seven persons died in accidents over the weekend in Florida, including a Miami woman who was crushed to death by her own car.

Mrs. Alice Gomez, 35, was dragged 30 feet and wedged beneath the front end of her automobile Sunday after it was hit from behind by a pickup truck. Police said she had stepped out of her car after stopping for a traffic light to see what was delaying traffic.

Mrs. Carol Easton, 24, of West Palm Beach, was killed Sunday in a head-on collision at Boynton Beach.

Two teenagers were killed early Sunday when their car smashed into a bridge abutment on State Road 35, 10 miles north of Dade City. They were identified as driver Robert Curtis Mason, 18, of Zephyrhills, and Norman Dennis McCarthy, 17, of Dade City.

An eight-year-old Miami boy, Louis Burkett, was struck and killed by a car in Miami Saturday.

John Monahan, 50, of Wimauma, died in a Tampa hospital Saturday, just a few hours after he was injured in a motor scooter accident.

Ira Douglas of Miami died Saturday when a 15-ton road scraper slipped off a jack while he was changing the blade.

Shoot Each Other

CORNEY, Eng. (UPI) — Bob Steele shot a fox Thursday and was, in turn, shot by the fox. Steele said the dying fox leaped at him, struck his gun and caused it to fire, sending a bullet through his hand.

The leatherback, world's largest turtle, sometimes reaches an eight-foot length and a weight exceeding a half ton.

Super Highway Joins Florida And Georgia

VALDOSTA, Ga. (UPI) — Georgia and Florida joined hands today in opening 26 miles of Interstate 75 and linking the super-highway systems of the two states for the first time.

Gov. Carl Sanders of Georgia and Gov. Farris Bryant of Florida jointly dedicated the four-lane, limited-access highway segment in ceremonies held at the boundary between the two states.

Sanders, in a prepared text, said the opened segment connecting Valdosta, Ga., with Jasper, Fla., not only formed a physical link but symbolized ties that bind two "good neighbors" together.

The route is already opened north of Valdosta to Unadilla, Ga., and the new addition extends the completed and opened stretch of Interstate highway to 125 miles, second longest in the southeast.

The longest stretch in the southeast consists of 140 miles of Interstate 26 in South Carolina between Orangeburg and Spartanburg.

Sanders said his administration will give priority to completing the entire Georgia segment of Interstate 75 generally following the route of U. S. 411 from Chattanooga, Tenn., to Unadilla.

"I'm sure that we all share the dream that (three and one-half years from now) it will be possible for a motorist to drive all the way from Chattanooga to Miami without encountering a stop sign," Sanders said.

Georgia has construction underway on 32 miles between Unadilla and the south side of Macon and 41 miles from the Tennessee line southward to Calhoun, Ga.

The newly opened segment became the first link of the interstate systems with a neighboring state for both Georgia and Florida.

Sanders and Bryant rolled

Soviet Troops Disarm Cubans

WASHINGTON (UPI)—The Citizens Committee for a Free Cuba said Sunday that a refugee had reported Soviet troops are continuing to disarm Cuban militia to prevent a possible uprising.

The organization quoted Juan Francisco Guerra, 33, an electrical repairman who recently fled from Cuba.

Red Newspaper Blasts Kennedy

TOKYO (UPI)—A newspaper in Communist North Korea has called President Kennedy a "third class clown" for proclaiming "Captive Nations Week" and urging prayers for freedom, according to a Pyongyang radio broadcast monitored here.

The broadcast said the remark was made in a commentary in the newspaper Rodong Shinmoon. The newspaper was quoted as calling Captive Nations Week "a despicable annual campaign of the U. S. ruling circles."

Shins and feet of cattle make the best grade of neat-foot oil, but feet of horses and sheep sometimes are used.

County Gives Two Buildings Top Priority

Sanford Beats Orlando

Sub-Courthouse, Home Pushed

Second Game In Legion Play Tonight

Want a free steak dinner? Donate a pint of blood between 2:30 and 8:30 p.m. Thursday at the blood bank. Then take your card to the Elks Club and the steak is on the house. Russ Spencer reports. Elks maintains a blood bank of its own, along with serving the community.

Why not pleasure yourself tonight and witness a top baseball game, at the same time supporting the Sanford team in the American Legion League? Sanford faces Orlando in the second of a 2-out-of-3 series tonight at 7:30 p.m. at Oak Ridge Field, Orlando. Sanford copped the first game last night.

Board of Equalization, with very few complaints — not more than 10 — from property owners, recessed this morning until Thursday morning.

Want a job? Mayor Fred Heath of Casselberry still is looking for someone to fill the post of assistant town clerk. Says a qualified resident of Casselberry doesn't apply soon he'll be obliged to look elsewhere.

Sponsors of the American Legion baseball team are a bit unhappy with the City of Sanford. Charge they can't afford to rent the Municipal Stadium at \$50 a game, plus charge for the lights and \$3 for a city employee to unlock the gates. But Jim Jernigan, recreation director, explained the regular fee for the stadium is \$75 plus lights plus \$3 for a custodian to remain on the job to oversee things. Jim added, however, the City has been letting the Legion have the stadium for \$25 a game in order to promote these baseball games.

This will give you a picture of the efficiency of our police department. Not a day passes but the police blotter contains a report that an officer found a door or a window of a business house open at night and the necessary precautions taken. Seems our businessmen are sometimes careless in locking up for the night... but the police look out for their interests.

A. C. Rector, pharmacist at the Medical Center Pharmacy, was elected as one of the regional vice presidents of the 42nd Division (Kainbow) Veterans Association at the 5th annual reunion held recently at Tulsa, Okla. His wife, not to be outdone, was appointed parliamentary of the Women's Auxiliary.

Shrine Club is throwing a picnic for the members of its Junior League baseball team Thursday evening at Sandalwood Springs. Just to show appreciation for the fine showing the youngsters made.

The solar eclipse Saturday evening probably will damage the eyes of a number of Floridians, especially unsuspecting children, warns the Florida Council for the Blind. The eclipse, at about 5:47 p.m., will produce a darkened sun which will permit people to look directly at it. This direct view can cause incurable burns of the retina from the infra-red rays of the sun. The Council explains that despite the use of darkened glasses, smoked glass or exposed photographic film the burns can occur if people stare into the eclipse. Council advises to watch the eclipse through your television set.

Our learn something new every day item: Florida laws require that persons desiring to enter the liquor business must be checked out and approved by the FBI.

Henry Tamm, acting city manager, reported today city street employees are ready to open Poplar Avenue between Third and Fourth Streets, and Fourth Street between Poplar and Pecan Avenues. Terminology is "stabilizing" — that is, clay top rather than blacktop.

In a thrill-packed game Monday evening, Sanford edged Orlando 3-2 in the American Legion Baseball League district semi-finals at Orlando. It was a pitchers' contest all the way.

The win Monday evening places Sanford only one game away from the state championship tournament later this month at Tampa. Sanford will play Orlando again tonight in the second of a 2-out-of-3 series at Oak Ridge Field.

Manager F. R. Thomas said this morning that should Sanford lose this evening the play-off game will be here at Municipal Stadium probably Thursday evening.

Southpaw Jimmy Courier, of Oviedo, sparked the Sanford nine last night, striking out 16 of the opposition. Then in the third inning Jimmy drove in the winning run with a single over second base.

Sanford scored one in the second and two in the third in the nine-inning contest. Marvin Dawkins, Orlando pitcher, slammed out a home run in the fifth. Orlando tallied its second run on a fielder's choice in the sixth.

Right fielder Tommy Brooks proved a hero, too, for the Sanford team when he made a game-saving catch of a long fly ball in the eighth, sewing up the ball game. As Thomas phrased it, "It was a long home run clear out to the backstops until Tommy snagged it, wrapping up the game for Sanford."

Under present law, if one or more sons of a family die because of military duty, the surviving son is exempt. The new measure would broaden the law to include fathers. House approval was by voice vote.

County Red Cross Elects Directors

Howard Hodges, president of the Sanford Atlantic Bank, was elected to head the Seminole County Chapter of the American Red Cross at the annual meeting held Monday at the health center.

Named by chapter members to serve with Hodges for the coming year were Mrs. George Wells as first vice chairman; E. C. Harper Jr. as second vice chairman; Floyd C. Richards as secretary and James McKee as treasurer.

After the appointment of one, two and three year directors the group was given a short orientation course by John S. Gibson, field representative.

HOWARD HODGES

The Sanford Herald

Nasser May Try To Put Satellite In Orbit Tuesday

CAIRO, U. A. R. (UPI) — President Gamal Abdel Nasser may attempt to orbit a space satellite to coincide with next Tuesday's 11th anniversary of the Egyptian revolution, informed sources said today.

There was no immediate official comment on the report. But it followed a demonstration Monday at which Nasser and his top military chiefs watched the "successful" firing of ground-to-air missiles, built with the aid of German scientists.

Sources said the launching of a three-stage rocket to place a satellite in orbit may now be tried on or before Tuesday. They said such a rocket was test-fired successfully last winter.

A feat of this type would give Nasser an enormous propaganda boost, make Egypt the third nation behind the United States and the Soviet Union to orbit a satellite and cause grave concern in Israel.

30-Day Weather Forecast Given

WASHINGTON (UPI) — The weather bureau forecasts below normal or normal temperatures for most of the eastern half of the nation during the next 30 days.

The bureau predicts below normal temperatures for the Pacific Northwest and northern Rocky Mountain states, and above normal in the southwest central plains and upper Great Lakes.

Subnormal rain fall was forecast for the southwestern states and the upper Great Lakes and east Gulf states. Above normal rainfall is expected in the Northwest and from the Appalachian Mountains to the Atlantic Coast. Elsewhere, rainfall will be near normal, the bureau said.

GINDERVILLE VOLUNTEER FIRE DEPT. officials, struggling to activate fire protection for the area south of the city limits, make plans for a Fish Fry July 26 at the Farmer's Auction as their first big fund-raising drive. From left are Carroll Burke, secretary; Leon Steinyer, treasurer and James Michaels, president.

Ginderville Fire Department Sets Benefit

First fund-raising project of the newly-organized Ginderville Fire Dept. will be a Fish Fry to be held at the Farmer's Auction on Hwy. 17-92, July 26. President James J. Michael announced today.

Members of the department met Monday in the cafeteria of the IRL plant to make plans and appointed Mrs. Lee Elder and Mrs. Louise Bridges as chairmen of the Fish Fry arrangements.

Mrs. Elder announced a meeting of all women of the community Wednesday at 2 p. m. at Michaels Grocery to form committees and set up plans for the fish fry.

Tickets will go on sale Thursday at the IRL plant, Michaels Grocery, Steinmeyer Roofing Co., Floral Lights, Grocery and Mona's Florist and Gift Shop on Hwy. 17-92.

The Ginderville Fire Dept. area has been defined as a five mile radius east, south and west of the Old Orlando Hwy. The area covered will extend west until it merges with the area covered by the Lake Mary Fire Dept., which reaches in or near the Five Points area.

The volunteers meet the first and third Monday of each month, with the next meeting on Aug. 5, scheduled to be a membership drive. All families of the community are invited and urged to attend.

Michael said that the organization must raise at least \$3,000 to get started and begin acquisition of a fire truck. He urged that all persons in the defined area participate in the protection of their homes by assisting with and attending the fish fry and the meetings of the volunteer groups.

Casselberry Votes Sept. 5

By Jane Casselberry — The date for the special referendum on the new proposed charter for the Town of Casselberry has been set for Thursday, Sept. 5, and the last day for voters to register will be Monday, Aug. 5.

The approval of 51 per cent of the registered voters is needed for the charter to be accepted.

All civic clubs in the community will be asked to assist in a campaign to get residents to register and vote.

An ordinance was passed annexing parts of Seminole Park, Casselberry Heights, Enchanted Manor and all of Edgewood Manor to the town.

Purchase was authorized of a duplicating machine for \$240 and a tape recorder and microphone for \$235 plus three additional microphones and a headset.

The tape recorder will be used to record meetings of the council and will serve as an aid to the town clerk in transcribing her minutes.

An ordinance was passed providing an increase in cigarette tax as passed by the state legislature making the town eligible to benefit from this increase.

A plat for ten lots submitted by Ralph Parks as part of "Land O' Lakes" Country Club on Winter Park Drive was accepted and approved.

The property is zoned R-1A and Mr. Parks has requested that it be changed to R-1AA. A check for \$13.05 was received refunding the town for the operation.

Regis J. Siamour, 41, was reported to have been making satisfactory progress following the historic transplant but suffered a relapse Sunday.

Doctors at Presbyterian University Hospital where the operation was performed said contributory causes of his death were heart failure, a drop of blood pressure and a staphylococcus infection in his own lung.

UF Researcher To Get Award

GAINESVILLE (UPI) — One of the highest honors in the field of medical research will go to a University of Florida Medical College professor.

Dr. Richard T. Smith, a professor in the department of pediatrics, was named Monday to receive the 1963 E. Mead Johnson Research Award for his study of immunity to disease.

E. H. Christopherson, executive director of the American Academy of Pediatrics in Evanston, Ill., said Smith will receive the award for his demonstrations that newborn infants are able to build their immunity to disease from birth and possibly earlier.

Man With Lung Implant Dies — PITTSBURGH (UPI) — An accountant who had a dead man's lung implanted in his chest died Monday a week after the operation.

Regis J. Siamour, 41, was reported to have been making satisfactory progress following the historic transplant but suffered a relapse Sunday.

Doctors at Presbyterian University Hospital where the operation was performed said contributory causes of his death were heart failure, a drop of blood pressure and a staphylococcus infection in his own lung.

Strike Ties Up Miami Shipping — MIAMI (UPI) — A surprise strike by longshoremen yesterday put the freeze on all shipping by sea from this bustling port, but cruise ship traffic went on as normal.

Shipping agents and dock officials said they did not know if the strike would continue today, and union spokesmen were not available for comment.

Dock officials also said they did not know if the walkout, called to protest use of non-union baggage handlers aboard the Miami-to-Bahamas cruise ships, was sanctioned by the International Longshoremen's Association (ILA) or was a "wildcat."

The strike halted loading and unloading of five merchant ships here yesterday.

Egged Off — ST. AUGUSTINE (UPI) — The turtle egg gathering season has ended in St. Johns and Flagler counties.

Grid Coach Kills Wife In Accident

OXFORD, Miss. (UPI) — University of Mississippi basketball coach John A. Hovious accidentally shot his wife to death here today when a shotgun he was loading discharged, officers said.

Mrs. Hovious died soon after the accident. Officers said she was struck in the stomach.

Officers said Hovious was loading the shotgun to chase away some dogs that had been disturbing the family.

Mrs. Hovious was the former Katherine Tennant of Vicksburg. They were married in 1941 and have four sons. Hovious joined the Ole Miss football staff in 1946.

Sanford Boy's Condition 'Fair'

Attaches at the Fish Memorial Hospital at New Smyrna Beach reported today that Robert Driscoll, 11, the Sanford boy who was attacked and bitten by a fish late Monday afternoon, was in "fairly good condition" at noon today.

He is the son of Mr. and Mrs. Louis Driscoll of 203 Laurel Ave.

Electronics Up In Dull Market

NEW YORK (UPI) — Electronics provided the best gains in an irregularly higher and less active stock market today.

IBM spearheaded the electronics gainers, up more than 2 on record second quarter earnings.

This was followed by Beckman, Control Data, Electronic Associates, Minneapolis-Honeywell and Schlumberger—all up 1 or more.

Steels improved on news that production last week rose slightly. Chrysler rose more than a point in the autos.

Talks Recessed

MOSCOW (UPI) — Soviet and Chinese delegates today took an apparent recess from their talks on the split in the world Communist movement.

Execution Set

TALLAHASSEE (UPI) — Mass murderer Dennis M. Whitney will die in the electric chair Thursday for killing a Miami service station attendant.

Miss Universe

MIAMI BEACH (UPI) — Official competition in the 1963 Miss Universe contest opened today with the preliminary round for 43 American beauties shooting at the Miss U.S.A. title.

Land Leased

TALLAHASSEE (UPI) — The Cabinet today leased 24,830 acres of state land in Duval County for oil exploration. The lease went to Wendell L. Roberts, a consulting engineer.

Detroit Uneasy

DETROIT (UPI) — An uneasy truce hung over the Motor City today following Monday night's debris-throwing melee which threatened to explode into a riot. Scores from the angry mob were arrested.

More Pay OK'd

TALLAHASSEE (UPI) — The Cabinet Budget Commission approved another batch of new salaries for top state employees today, including posts in the departments of education and the comptroller.

Asks Protection

LONDON (UPI) — Italian Scientist Dr. Giuseppe Marzelli, the first man accused of preparing to spy to win acquittal from a British court since the start of the cold war, said today he may ask for police protection against the threat of Soviet revenge.

Rocky Again

MASSENA, N. Y. (UPI) — Gov. Nelson A. Rockefeller leveled another attack on the presidential candidacy of Sen. Barry Goldwater Monday night, expressing the fear that the Arizona conservative will become a "captive" candidate of extreme right wing factions.

Charge Denied

NASHVILLE, Tenn. (UPI) — Federal attorneys denied Monday defense claims that they offered to "take care" of one of the defendants in the James R. Hoffa jury tampering case, in briefs filed with District Court Judge Frank Gray. The government said it did offer, however, to protect Thomas Ewing Parks, one of the defendants, if he would testify against the Teamsters president.

Fat Lady Just A 'Foodoholic'

LOS ANGELES — Mrs. Elaine Johnson, conceding that her battle with the scales was far from won just because she dropped from 315 pounds to 184 pounds during a six-month diet in a hospital: "It never will be over because I'm a foodoholic."

Operator's Dad Fires At Truck

TAMPA (UPI) — The father of a General Telephone Co. operator in Lakeland fired six shots at a fleeing truck from which paint was thrown on his house last night, the company reported today.

Operator's Dad Fires At Truck

Company spokesmen said paint was thrown on two houses in Lakeland and four telephone cables were cut in Sarasota as sabotage and vandalism continued in the bitter six-day-old strike.

Operator's Dad Fires At Truck

Meanwhile, Tampa police sought Samuel D. Gaver, 40, Tampa, on a warrant for assault and battery in the beating Sunday of two management employees.

Operator's Dad Fires At Truck

George Sarris of Lakeland fired six shots from a .45 caliber automatic pistol at a truck after green paint was thrown on his house Monday night, expressing the fear that the Arizona conservative will become a "captive" candidate of extreme right wing factions.
