HOROSCOPE

By BERNICE BEDEOSI

For Tuesday, July 20, 1976

ARIES (March 21-April 19) Today and tomorrow things could develop that would mean extra dollars in your pocket. Look around. There's a profit to be made.

TAURUS (April 20-May 20) Conditions will be generally favorable where your personal interests are concerned. Take steps now to advance your cause.

GEMINI (May 21-June 20) You do your best working by yourself today. If you have important things to do, get off alone where no one can look over your shoulder.

CANCER (June 21-July 22) Be ready to do all you can today to help a buddy who has stood up for you in the past. This person is well worth all the effort.

LEO (July 23-Aug. 22) Important goals can be achieved today if you're willing to pay the price. Strength of purpose is necessary to scale the mountain.

VIRGO (Aug. 23-Sept. 22) You can put things in their proper perspective today. So long as you approach matters practically, the results will be rewarding.

LIBRA (Sept. 23-Oct. 23) A situation you're involved in may be a profitable turn, especially if those concerned strive to help it along.

SCORPIO (Oct. 24-Nov. 22) You might have to make a decision today, one with far-reaching effects. Once you've thought it through, don't allow your views.

SAGITTARIUS (Nov. 23-Dec. 21) If you've been thinking about embarking on a self-improvement plan, start it today. Your chances of success are excellent.

CAPRICORN (Dec. 22-Jan. 19) Organization and management are your strong suits today. If you have a project with loose ends, now's the time to tie them up.

AQUARIUS (Jan. 20-Feb. 19) Your reservoir of strength today may surprise even you.

PISCES (Feb. 20-March 20) Mental rather than physical efforts will give you more enjoyment today. And you're better equipped to use your creative instincts.

YOUR BIRTHDAY
July 20, 1976

Your hopes will be based on practical foundations this coming year. You should realize your goals, but if you take more time than you anticipate at first.

Weight Affects Blood Pressure

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — My husband has high blood pressure. He takes medicine for it, which necessitates the intake of extra potassium. He gets this through medicine, oranges and bananas. He seems content with this arrangement, but I keep wondering if it is really necessary to continue this way the rest of his life. Is there no way to bring down blood pressure? And as long as he continues to take medicine can he know if his blood pressure is still high without it? He is 37 years old, 5 feet 6, and weighs 182 to 190 pounds. Also are there other ways of getting potassium than a banana a day? He hates them!

DEAR HEADER — You didn't say how high your husband's blood pressure really is. Usually it is necessary for a person who really needs medicine to keep the blood pressure down to continue to take it. The exception would be the person who alters his life style in some manner, such as weight reduction, that helps solve the blood pressure problem.

I suspect your husband could help lower his blood pressure. Unless he is very muscular he is far too heavy. I have always been impressed with what adequate weight reduction can do to lower high blood pressure in many people. I would think your husband may be 40 to 50 pounds overweight, maybe more. He might not need to take so much medicine, or the potassium, because of the medicine. If the basic weight problem were under control, anyone who has any evidence of fat deposits around the waist or small of the back and also has high blood pressure should lose weight until he is really lean, regardless of how many pounds that means he has to lose.

I am sending you The Health Letter, a booklet that gives you more information on what blood pressure means and why it is important to control it. Others who want this information can send a long, stamped, self-addressed envelope with 50 cents for it. Just send your letter to me in care of this newspaper, P.O. Box 154, Radio City Station, New York, N.Y. 10101.

The higher the blood pressure the more likely a person is to develop fatty-cholesterol deposits in the arteries. These can cause strokes or heart attacks. A lot of the success in decreasing the incidence of heart attacks in recent years is due to the control and more effective treatment of high blood pressure, so it is very important. Strokes have increased about 25 per cent in the past 20 years because of a combination of measures, including controlling blood pressure.

The obesity not only elevates the blood pressure but often is associated with a high level of fatty-cholesterol particles in the bloodstream. Losing weight will help lower the fatty-cholesterol levels as well as lower blood pressure.

You can get potassium from milk and you can also get lots of potassium from orange juice. Perhaps your husband would prefer to drink more orange juice and eat fewer bananas. In any case I would strongly recommend that his calories be cut to the point that he gets his weight down and keeps it down. Since his risk of an early heart attack or stroke is increased because of his blood pressure and probably because of his weight I hope he is not also smoking, cigarette smoking being bad enough anyway but when combined with high blood pressure it greatly increases the odds of a major health problem or even sudden death.

queen-ten As it was Ely scored that first trick with his ten. When Jo got in with the ace of clubs she undid her ace a second time and Hal guessed wrong, played dummy's jack and was down one.

Jim: "If Hal had played the jack at trick one, Ely would have taken his question. It would then have been difficult, but not impossible for Jo to underlead her ace a second time. If she had done so South could and probably would still have gone down."

Oswald: "The point of the whole hand is that when you give a player a chance to guess wrong he may do so."

Indictments Dropped Against 3 Juveniles

Armed burglary indictments against three juveniles have been dismissed and their names added to the growing list of dismissals being appealed by district courts by State Atty. Arthur Herring.

Judge Hosemann's ruling agreed with a ruling last week by Seminole-Brevard Chief Circuit Judge Joe A. Cowart Jr. that juveniles can't be indicted by grand juries in Florida on first-degree felony offenses.

Cowart dismissed armed burglary indictments and freed Robert Allen Northwick, 16, of 500 Magnolia Drive, Maitland, and Joseph J. Santarsiere, 17, of 300 Oxford Road, Fern Park.

Assistant State Atty. Jay Novick said Monday that State Attorney General Robert Shevin's office is assisting Herring's office in filing appeals in all five cases to the Fourth District Court of Appeals in West Palm Beach.

Grand jury indictments alleged the youths — who were scheduled for adult criminal court trial this week — burglarized residences and armed themselves while inside the houses.

Circuit Judge A. J. Hosemann Jr. Monday granted defense motions to dismiss indictments against William Benjamin Beaver, 16, of 2642 S. Sanford Ave., Robert William Armentrout III, 15, of 2915 S. Palmetto Ave., both Sanford, and Gregory Charles Prager, 17, of St. Petersburg.

Grand jury indictments alleged the youths — who were scheduled for adult criminal court trial this week — burglarized residences and armed themselves while inside the houses.

'Old 31' Gets Probation: 'I Don't Collect No Money'

By BOB LLOYD
Herald Staff Writer

A 93-year-old Midway man, indicted by the statewide grand jury on a felony larceny charge, has pleaded guilty to a misdemeanor — attempting to aid a lottery.

Boy Guess, a social security pensioner who says he was born in 1883 and still works about three months of the year as a vegetable picker, admitted Monday to Circuit Court Judge A. J. Hosemann Jr. that although he can't read or write he answered a telephone at a Washington Street, Midway, residence and passed along bolita numbers.

"I don't collect no bolita money," Guess said, "but I answer the phone sometimes."

Judge Hosemann withheld adjudication of guilt after accepting the elderly man's guilty plea to the misdemeanor count and put him on probation for a year.

Guess told the court that he's not generally known by his name but instead by the nickname "Old 31."

"Near 'bout everybody calls me 'Old 31'," he told the court, explaining somebody gave him the nickname 50 years ago in Tifton, Ga., because he was so lucky at bolita and dice games.

"I've got a feeling you've been in this business a long time," Judge Hosemann commented.

"You won't see me in court no more," Guess promised, agreeing to "tell the truth" to state agents probing a bolita operation in Seminole and Orange counties.

Guess said his last brush with the law was "about 20 years ago when Mr. (Sheriff's Capt. J.Q.) Galloway caught me with three five-gallon jugs of moonshine coming from Geneva."

Guess said he had hidden in underbrush, leaving the "shine on the road, when Galloway yelled that he was surrounded and he came out and surrendered."

Survives 213 Million Mile Trip Viking Lands Safely On Mars

PASADENA, Calif. (AP) — America's Viking 1 spacecraft landed today on a dusty plain of Mars to search for life on the red planet, space officials announced.

Radio signals from the probe, the first American spacecraft to land on Mars, showed it had survived the landing after a 213 million mile trip that began 11 months ago.

Barring difficulties, the unmanned, three-legged lander was to begin taking black-and-white pictures of Chryse Planitia, the Gold Plain of Mars. It is the smoothest place on a planet which is marked by volcanic peaks and deep valleys and craters.

Later exploration is to include life-detection tests and soil sampling.

There was cheering at project headquarters and project manager Jim Martin and other Viking team members gathered around the planet that seemed to resemble canals. But 100 years later an American spacecraft, Mariner, flew past the planet and found that there were no canals.

Scientists expect to see a barren, sandy plain with meteorite craters scattered here and there and volcanic ridges winding across the plain.

The pictures to be radiobacked to earth, were expected to appear on television sets at the Jet Propulsion Laboratory here within an hour.

Viking 1, the first of two unmanned American spacecraft scheduled to land on Mars this summer, was launched last August 20. It arrived near Mars and went into orbit around the planet — which is about half the size of earth — a month ago.

Viking 1 is an identical lander and is soaring through space and is due to enter Martian orbit August 7.

NATION IN BRIEF

Ford Says Pardon Of Nixon Was Right

WASHINGTON (AP) — President Ford says he was right to pardon Richard Nixon in the wake of the Watergate scandals and that the voters will decide if the pardon should be a campaign issue.

Ford was jovial, talking like he had the nomination of his party sewed up, as he held a news conference on the White House lawn Monday.

But Nixon's name and the word Watergate kept popping up, both at the news conference and at the nearby offices of the AFL-CIO, which cited the pardon as one reason in explaining why the labor federation will support Democratic nominee Jimmy Carter over Ford.

Pressed by reporters, Ford said his decision to pardon Nixon was best for the nation. And he added, "I would do it again."

Panel Weighs Tax Bill

WASHINGTON (AP) — The Senate Finance Committee is taking a second look at dozens of amendments that were written into a big tax bill last month, including several that benefit only one or two firms.

Sen. Russell Long, D-La., arranged today's meeting of his committee in response to criticism of the amendments as the Senate readies a vote on extending last year's individual tax cuts at least through next June.

Unless the tax cuts are renewed, a four-member family making \$15,000 annually would face a tax hike of \$180 a year. For a single person earning \$5,000, the increase would be \$182 and for a couple with children and earning \$10,000, there would be a \$204 hike. A family of four earning \$6,000 would pay \$445 more.

AFL-CIO Endorses Carter

WASHINGTON (AP) — Divided in 1972, the House of Labor stands united in its first presidential election. Jimmy Carter has won the AFL-CIO endorsement, with federation President George Meany declaring, "I think we want to change things — change the whole economic picture."

Meany's announcement Monday of the AFL-CIO endorsement gives the Democratic nominee support from virtually the entire labor movement.

The big independent labor groups — among them, the auto and mine workers and the National Education Association — have either endorsed or are expected to soon back the former Georgia governor.

Lawmakers Deny Leak

WASHINGTON (AP) — Congressmen who served on the House intelligence committee are telling investigators they did not leak the panel's report to CBS.

House ethics committee investigators said Monday that after more than 400 interviews and \$150,000 spent, they have not been able to determine who gave Scharr a copy of the intelligence committee report.

BICENTENNIAL DESSERT
Sanford Nursing Home residents celebrated the Bicentennial last week with a cake from Flagship Bank of Sanford, presented by Irene Brown (second from left). Joe Anderson, Doris Jones R.N., Myriene Bullard L.P.N. and Dorothy Wisner accepted the cake. Cakes were also presented to Lakeshore Nursing Center and Good Samaritan Nursing Home.

Fifth Gambling Suspect Indicted By Grand Jury

By BOB LLOYD
Herald Staff Writer

A fifth suspect whose residence was raided by state agents June 30 has been indicted by a statewide grand jury probing illegal lottery (books) activities in central Florida.

Raymond Lamarr Smith, 49, of 905 S. Orange Ave., Debrah A. Williams, 18, apartment 66, William Clark Court and Dewey H. Smith, 53, of 1900 W. 18th St., all of Sanford.

The addresses listed by all five suspects when they were arrested at county jail are locations raided by state, city and county officers three weeks ago in which evidence reportedly was seized, including cash and betting paraphernalia that authorities said was linked to a \$50,000-a-week lottery operation in Seminole and Orange counties.

Grant May Fund Welcome Station

Sanford may get a welcome station near the Auto-Train station on west SR-46 sooner than was hoped, according to Jack Horner, executive manager of the Greater Sanford Chamber of Commerce.

Horner told the Chamber directors this morning that plans are in the works to apply for a federal grant through the U.S. Dept. of Commerce to help pay a tourist information building near the Auto-Train terminal.

He also said that through the efforts of Sanford physician Dr. Luis Perez, hopes for getting such a grant appear good.

The welcome station idea has been kicking around for many months and Horner said members of the Retired Senior Volunteer Program (RSVP) are willing to man the station and tell persons departing from Auto-Train of the advantages of spending some of their vacation time in the Sanford area.

Sikes Panel Awaits Data

WASHINGTON (AP) — The House ethics committee has been waiting for one piece of information in its probe of allegations against Rep. Robert L.F. Sikes, D-Fla., before voting whether to release his report. Chairman John Flynt says.

Flynt refused Monday to describe the piece of information but said he expected to get it today and his panel will vote this week on the Sikes report.

That means the report will not likely be released before next week because House rules normally require a three-day wait for the filing of minority views after the vote on releasing the report.

Ford, Reagan Focus On Delegates

WASHINGTON (AP) — The Ford-Reagan battle for the Republican presidential nomination apparently will focus this week on alternating claims from each side about delegates captured from the uncommitted category.

The President Ford Committee scheduled a news conference today to lay claim to uncommitted delegates, including some from New York.

Ronald Reagan's campaign manager said Monday the former California governor will have at least 10 more delegates than he needs to win a first ballot victory over President Ford at the GOP convention in Kansas City. And campaign officials listed as many Reagan voters one delegate each from Delaware, Virginia and North Dakota.

Coker Quits, Backs Vihlen

CLEARWATER — Robert C. Coker, Democratic candidate for the U.S. House of Representatives, has withdrawn from the race and announced his support for opponent Sid Vihlen Jr., of Seminole County.

Coker, an attorney who ran an unsuccessful campaign in the Democratic primary for the same District 5 seat in 1974, said he is withdrawing because of previous business commitments and responsibilities.

In making the announcement Monday, Coker said: "It is with deep regret I must withdraw my name as a candidate for the U.S. House of Representatives for the 7th District. I have searched long and hard and consulted with my family and staff in order to reach this decision. At this time, previous business commitments and responsibilities, which I had felt would be resolved when I announced, have not been completed. I intend to remain active within the Democratic Party and encourage my supporters to carefully select another candidate for the Fifth District Congressional seat, a candidate that will deal with the issues and that can best represent their views. I personally think that candidate is Sid Vihlen from Seminole County."

"In closing, I would like to thank the hundreds of people that have given me their support and encouragement. I ask for your understanding and empathize with your disappointment."

Seminole Air Cadet Honored

Virginia Birmingham of Seminole Cadet Squadron 0816 of the Civil Air Patrol was named best new cadet at an encampment in Daytona Beach earlier this month.

Air patrol members from Central Florida, the Daytona area and the Palm Beach area attended the encampment.

Three cadets in the Seminole squadron — Miss Birmingham, Mark Cominski and Susan Prazmieniecki of the 77th District.

Cadets in the Seminole squadron were in the top four per cent nationally on a medical aptitude test and won an oil company \$500 award as an outstanding student in chemistry.

Argentine Guerrilla Slain

BUENOS AIRES, Argentina (AP) — Army troops killed Argentina's most-wanted guerrilla, Roberto Santucho, and his second in command, police sources reported.

Intelligence officials said the slaying Monday night of Santucho and Enrique Gorriaran Merlo might be a death blow to their Marxist People's Revolutionary Army (ERP), considered the most potent of the two leftist guerrilla organizations at war with the government.

Security forces killed Juan N. Carrizo, the fourth man in the ERP high command, earlier this month and captured a number of records and documents of the organization. The ERP's third in command, Domingo Mena, is still at large.

Police Alerted For Riots

JOHANNESBURG, South Africa (AP) — Reinforced police patrols were on the alert for a new outbreak of rioting today in the Soweto township eight miles south of Johannesburg. But the disturbance of the black uprising last month remained calm.

The government postponed the reopening of black schools, scheduled for today, following widespread riots of antigovernment demonstrations in Soweto to coincide with the resumption of classes.

The schools have been closed since the rioting last month in which 170 blacks and two whites were killed, and there were fears that the postponement would touch off new disturbances in the sprawling ghetto where the trouble last month began.

Tampan Collects Antique Tools

AUBURNDALE (AP) — "What they did was this," says Blair, sliding the book tender's two legs down over the thumb. "The fishermen would put it down over the side of their dory, place the book between the curves and force it around to put the bend back in it."

"I'd consider it one of my most unique finds," he says, adding he "picked it up in Nova Scotia for 50 cents."

With carpenter's planes of all ages, sizes and descriptions he showed above and behind him, the gray-bearded collector explained how he became interested in old tools.

FLORIDA IN BRIEF

State Employes Violate Park System Regulations

TALLAHASSEE (AP) — State park employes looked the other way when some 450 Department of Agriculture employes and family members lapped a beer keg at a park where drinking is prohibited.

They also looked the other way as the picnicking state employes passed the gate where park users normally are charged a 25 cent fee, the Tallahassee Democrat reported Monday.

Agriculture Commissioner Doyle Conner is a member of the Cabinet, which oversees the state park system.

"If a Cabinet member asks for something, you give it to him," said a spokesman for the Division of Parks.

Medical School Bias Claimed

JACKSONVILLE (AP) — A college honors graduate who won a \$500 award for his chemistry work says he was turned down for medical school in the United States because women and blacks are getting preferential treatment.

"Medical schools have certain quotas they must fill," Lynnwood Cleveland, 24, said Monday. "The standards for acceptance are different for each category. Minorities and females are having the easiest time getting in."

Cleveland earned a 3.15 grade average in a 4.0 system at Jacksonville University, was in the top four per cent nationally on a medical aptitude test and won an oil company \$500 award as an outstanding student in chemistry.

Survival Course Is Popular

OCALA NATIONAL FOREST (AP) — For \$60 each, about 100 Florida youngsters waded in swamps to their armpits, scrapped for food and water and fished with bows and arrows as part of a survival course in the wilderness.

And just as those children ages 8-14 ended a one-week course recently at the state Game and Fresh Water Fish Commission's Lake Eaton camp in the Ocala National Forest, another group headed for the wilderness sites.

The 50-acre camp 2 1/2 miles northeast of Ocala is one of two operated by the commission. The other is at the J.W. Corbett Wildlife Management Area near West Palm Beach.

Tanzler Suspension Argued

TALLAHASSEE (AP) — Attorneys for Jacksonville Mayor Hans Tanzler have argued before the Supreme Court that alleged crimes listed in Tanzler's indictment are insufficient grounds to suspend him from office.

But Gov. Reubin Askew's general counsel, Don Middlebrooks, contended Monday that Askew has the power to suspend Tanzler because one of the charges is a felony.

Tanzler, Jacksonville mayor since 1967 and president of the National League of Cities, was indicted two weeks ago on charges of failing to report \$15,000 in campaign contributions and lying about it under oath.

Tied To 'Steal-To-Order' Ring

By BOB LLOYD
Herald Staff Writer

Mrs. Carolyn Fields Crowder, 43, of 551 Karen Ave., Altamonte Springs, has been sentenced to 18 months probation by Circuit Court Judge A. J. Hosemann Jr. on her not guilty plea to a charge of attempted burglary, receiving and concealing property stolen by members of a multi-county "steal-to-order" burglary ring last year.

Her husband, Donald H. Crowder, 44, was convicted in connection with the burglary ring that authorities said did a million-dollar-a-year business and was earlier sentenced to five years in prison, fined \$5,000 and given seven years probation. An appeals court recently upheld his sentence.

In other sentences on Monday, Judge Hosemann sentenced five years in prison plus 15 years probation to Michael J. Ray, 20, of Maitland. Ray

Other Officers Also Named

Jackson Elected To SCOPA Chairmanship

By KRIS NASH
Herald Staff Writer

Former Lake Mary Mayor Donald Jackson was elected chairman of the Seminole County Port Authority (SCOPA) Monday night, heading a slate of five officers installed by the board for the coming year.

Jackson took over the meeting from its outgoing chairman Thomas Binford, whose four-year term on the Port Authority ended July 15.

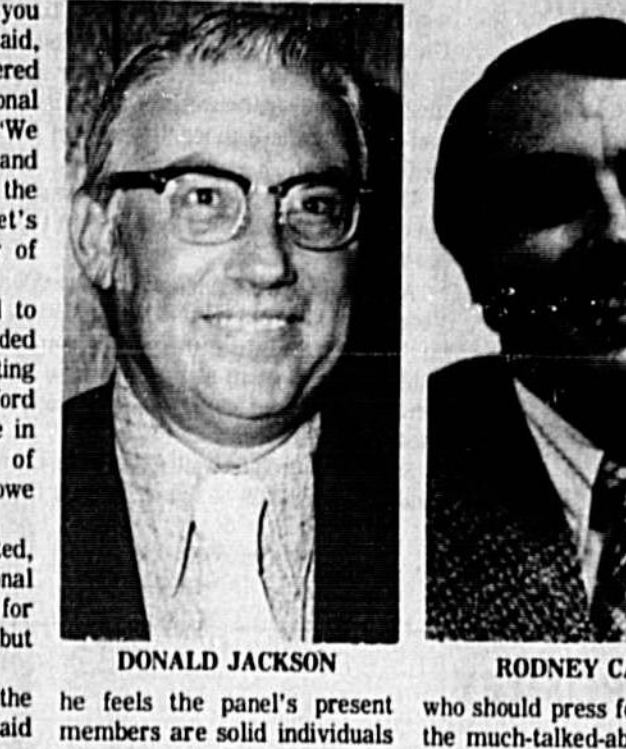

In addition to Jackson, other SCOPA officers approved by acclamation for 1978-79 were: Rodney Cable, vice-chairman; James Lewis, secretary; David Gunter, assistant secretary; and Edward Blackshear, treasurer.

"I don't have any glowing acceptance speech like you heard last week," Jackson said, referring to oratory delivered at the Democratic National Convention in New York. "We are here for one purpose and that is the efficiency of the port's operation, so let's proceed to the next order of business."

The slate was presented to the panel by Cable, who headed up a three-man nominating committee named by Binford last month. Assisting Cable in drafting the roster of prospective officers were Howe and Jackson.

Before the slate was adopted, Binford called for additional nominations from the floor for each of the five positions, but none were made.

Binford, who has chaired the SCOPA board since 1974, said he feels the panel's present members are solid individuals.

DONALD JACKSON feels the panel's present members are solid individuals.

RODNEY CABLE who should press for action on the much-talked-about merger

of SCOPA with the Seminole County Industrial Development Authority (SIDA), the county's other industry-seeking agency.

"I predict in the near, foreseeable future that the SIDA board will be integrated into the Port Authority," Binford said. "There is no reason now whatsoever for the existence of SIDA. It should be integrated into the Port, and I think that will happen."

Replacing Binford on the SCOPA panel is Wendell Agee of Sanford, who was appointed last week by the Seminole County Commission.

In other business, SCOPA Administrator James Ryan announced that the Port is in the process of obtaining meteorological equipment which would enable Sanford to submit various weather statistics to television and radio stations in the area.

Ryan said the equipment, approved by the National Weather Bureau, will provide pressure readings for airings on Orlando television Channels 2 and 9 as well as on local radio outlets.

"You know how you always see Tallahassee and Tampa and these places listed on TV with high and low temperatures," Ryan told board members. "I thought if we could get Sanford mentioned on these occasions it might prompt somebody to say, 'Where's Sanford?' and get us some recognition."

AWARD PRESENTED
Lieutenant Commander Henry M. (Jim) Thompson (left) son of Mr. and Mrs. Alexander Thompson of Lake Monroe, has been awarded first prize in a contest to design the insignia for the newest of the Navy's nuclear-powered aircraft carriers, the Dwight D. Eisenhower. Dorman W. Morris (second from left), president and chairman of the board of the Bank of Newport News, Va., presents a \$50 U.S. Savings Bond to Leonard B. Aaron, 1974 crusade chairman of the Peninsula Unit of the American Cancer Society. The bond was presented to LCDR Thompson for the winning entry. The ship's commanding officer, Captain William E. Ramsey looks on.

Oil Companies Boosted On Swamp Road Question

TALLAHASSEE (AP) — Oil companies seeking expanded drilling in the Big Cypress Swamp received good news as the Cabinet took up the matter today.

The U.S. Interior Department announced that it had no objections to a proposed 11-mile road that would cut through the swamp. The area is being purchased for \$156 million in a federal-state project to set up the national preserve.

The National Wildlife Federation and the Florida Wildlife Federation have been the most vocal groups opposing the road, saying that further oil exploration should be halted until the Interior Department draws up a master plan for preservation of the swamp.

The groups have charged that continued drilling might force Congress to rethink whether it wanted to spend huge sums on what was nothing more than a developed oil tract.

However, Exxon said that extensive studies had shown the road would not harm plant or animal life.

Also on the Cabinet agenda was a charge that the Cross-Florida Barge Canal Authority had violated Cabinet instructions not to enter into new sales.

Atty. Gen. Robert Shriver requested injunctive relief in federal court in Philadelphia violated that ban. The suit was filed to try to keep secret findings of the Army Corps of engineers.

His news represented a setback to environmentalists who have fought the proposed road, charging it would cut in half the

Court Ruling Shows Logic

The United States appears to be coming full circle on the issue of capital punishment. The U.S. Supreme Court has now affirmed one of the oldest rules of human society—that some crimes are grievous enough to demand the life of the criminal.

No death sentences have been carried out in this country since 1967, when challenges of the constitutionality of capital punishment began constituting the hand of the executioner. The Supreme Court in 1972 upheld those challenges in a 5-4 decision but left the way open for states to revise their statutes covering capital crimes in effort to meet constitutional objections.

Most states have done so, and the effect of the recent decision in five new cases brought before the court was to sort out the features of new state laws which pass the constitutional test and those which do not. California is among 16 states whose newly enacted death penalty laws appear to satisfy the test. Laws in 18 other states apparently fail.

The overriding significance of the opinions handed down, however, is that a majority of the court has reached a consensus on the fundamental question of capital punishment. Only two justices—Thurgood Marshall and William J. Brennan, Jr.—remain convinced that the death penalty is wrong in principle. And eight of the nine justices who participated in the 1972 decision are still on the court.

The fact that so many states have sought to restore capital punishment since 1972 impressed the court. "It is now evident," wrote Justice Potter Stewart in the key opinion, "that a large proportion of American society continues to regard it (the death penalty) as an appropriate and necessary criminal sanction." The task of assuring that the penalty is not applied in an "arbitrary and capricious manner," which was the main objection made by the court in 1972, has been found to be not insuperable.

This ruling from the nation's highest court of appeal will clarify the fate of persons sentenced to death under new state laws but it is not likely to end the philosophical arguments about capital punishment. Justice Stewart acknowledged that the court had seen no evidence proving that the death penalty is a deterrent to crime. What has been seen is the overwhelming judgment of legislators that it does, and the Supreme Court cannot overturn that judgment.

Nor is the court insensitive to the argument that demanding a human life in retribution for a crime is inhumane. Again, Justice Stewart points to enactment of capital punishment laws as "an expression of the community's belief that certain crimes are themselves so grievous an affront to humanity that the only adequate response may be the death penalty."

A period of great agonizing and deliberation for lawmakers and jurists in America may now be coming to an end. The pronouncements from the Supreme Court in answering the constitutional questions arising about the death penalty have been logical and responsible. The moral law which has always stood behind various death penalty statutes, as imperfect as the application of those statutes might have been, remains the ultimate guide.

Jobs Funding
President Ford should sign the jobs program bill which is on his desk.

It is directed at two persistent problems which remain troublesome despite the general improvement in the economy—continued high unemployment in the construction industry and the layoffs that are occurring as state and local governments struggle to balance their budgets.

A similar bill that would have cost \$6.2 billion was vetoed by the President in February on the ground that it was inflationary. He called it "little more than an election-year pork barrel."

But the price tag has now been reduced to \$4 billion. The new legislation is a compromise. It provides \$2 billion for job-creating state and local public works projects, \$1.25 billion for counter-cyclical anti-recessionary aid to help state and local governments maintain services and \$700 million for waste water treatment programs.

BERRY'S WORLD
A spokesman for Reagan categorically denied that the former California governor has established irrevocable trusts for his children. We called this to the attention of the Ford aides, who were upset that we had obtained their confidential memo.

They acknowledged that they had no "hard evidence" to prove their case against Reagan. But if Reagan isn't hiding income in irrevocable trusts, they said, he must be hiding it somewhere else.

Reagan has only himself to blame for the questions that have been raised about his tax returns. Several months ago, we asked all the major presidential candidates for their income tax returns for the past five years. To avoid future Washington scandals, we contended, the public has the right to know whether presidential aspirants have a clean financial record.

Reagan was the only candidate who refused to do that.

"You do that very well, but I'm not doing cabinet job interviews today!"

The Clock

By BILL CURRIE

NEW YORK — Like the Republicans, the Democrats are in erratic search of an economic program.

There is no problem with pious generalities—less unemployment, tax reform, greater exports, trust busting, getting the able-bodied off welfare, slashing government waste, bringing the bureaucracy into line.

In this, Democratic high-sounding rhetoric is as like Republican pronouncements as two peas in a pod.

It's in getting down to details that all are like blind men walking down a foggy alley with no exits.

On unemployment, the Democrats have only a government-financed employment bill so expensive and so disruptive of the economy that some of its most influential endorsers are backing away. There is good reason to believe that the proposal was introduced only with the certainty President Ford would veto it.

In essence, the bill would guarantee a government job to hundreds of thousands of unemployed persons. It would be a job that would be paid for by the private industry that could somehow be encouraged to provide more jobs, but has offered no more than patchwork thoughts on the subject.

Jimmy Carter has come up with the thought that private industry could somehow be encouraged to provide more jobs, but has offered no more than patchwork thoughts on the subject.

As for the tax reform, the Democrats are in complete disarray. The work has been done through the ranks of the Democratic leadership that one way or another the oil companies have joined in a conspiracy. And that they must be broken up—vertically, horizontally, or crosswise.

Democratic and Republican leaders are earnestly studying increases in U.S. energy production. And plans flow like rivers out of every doorway. But there is no agreement on any of the proposals.

Tax reform is in a class by itself. All Democrats and Republicans want to close tax loopholes—all loopholes, that is, except those which benefit them and their constituents.

JACK ANDERSON
Fora Aides Eye Reagan Taxes

WASHINGTON — President Ford's campaign aides are trying to make a case of tax avoidance against Ronald Reagan. The President's men, searching for material to embarrass Reagan, have asked a law firm to analyze the information he has released about his finances. The tax lawyers concluded, according to a confidential campaign memorandum, that he must be using his children to escape paying full taxes.

The confidential analysis indicates that Reagan's taxable income is "ordinarily low" for a man with his financial background and assets. "The lawyers, therefore, believe that Reagan 'most likely has a number of irrevocable trusts for his children. In that way, income derived from such trusts would not be reported by Mr. Reagan but would be reported by his children on their tax returns.'"

A spokesman for Reagan categorically denied that the former California governor has established irrevocable trusts for his children. We called this to the attention of the Ford aides, who were upset that we had obtained their confidential memo.

They acknowledged that they had no "hard evidence" to prove their case against Reagan. But if Reagan isn't hiding income in irrevocable trusts, they said, he must be hiding it somewhere else.

Reagan has only himself to blame for the questions that have been raised about his tax returns. Several months ago, we asked all the major presidential candidates for their income tax returns for the past five years. To avoid future Washington scandals, we contended, the public has the right to know whether presidential aspirants have a clean financial record.

Reagan was the only candidate who refused to do that.

"You do that very well, but I'm not doing cabinet job interviews today!"

If you read Monday's Evening Herald, you undoubtedly noticed a story at the bottom of Page 1A which was headlined, "Ford 'Entertains Uncommitted Delegates at White House.'"

When the story first crossed our desk, we immediately had a gut reaction that all isn't on the up-and-up somewhere along the line in our political system.

Of course, we've long felt there are a lot of things out of line in our political system, but this one story particularly got to us.

After all, neither incumbent President Gerald Ford nor challenger Ronald Reagan has a firm hold on the Republican presidential nomination and either one could win at next month's Kansas City convention if they can muster enough of the 172 uncommitted delegates.

So, now that all the delegates have been selected (and there are 225 of them), all but those 172 are committed to one candidate or the other.

According to Associated Press figures, Ford has 1,066 in his corner while Reagan has the remaining 1,020. And those 172 who can swing the pendulum one way or the other aren't about to make up their minds until the convention—or so they say.

Yet we wonder. Consider this, if you will: Here's rancher Reagan at home digging post holes on his ranch while the President of the United States is hosting a big portion of those uncommitted delegates at a White House reception.

Now does that seem fair? I mean, wouldn't you feel flattered if the President invited you to the White House for cocktails? We would and did, only the last time we were invited we had to turn him down—too busy.

This isn't the first time the President has invited delegates to the White House and we doubt if it will be the last between now and the GOP convention.

But isn't it, or doesn't it seem, like he's buying the nomination with a few drinks and hors d'oeuvres?

And who's footing the bill for all this—the Ford campaign committee? Oh sure, we feel certain the committee is buying the drinks and food, etc., but who's footing the bill for all the other extras that go along with such an affair?

Certainly somewhere along the line, some fair, even if it's just a few pennies to turn on an extra light bulb.

Could Reagan, or any other challenger get like treatment? Absolutely not and that's why we think the incumbent has an unfair advantage—even if he didn't get elected to the office himself.

That's 30...

JOHN D. LOFTON JR.
Mondale A Staunch Liberal

NEW YORK — In picking Sen. Walter Mondale as his vice presidential running mate, Jimmy Carter tells us the Minnesota Democrat is "most compatible with me," that there are "no discernible differences between his positions and mine." So, who is Walter Mondale and what does he stand for?

In September 1973, when asked on "Meet the Press" where he differed significantly with George McGovern on the issues, Mondale ducked the question, saying he didn't like labels, but he made up his own mind, he didn't like being compared to others, etc. He replied: "I am a pragmatic, progressive Democrat. My record is there and you can look at it."

Five years ago, when asked on "Meet the Press" where he differed significantly with George McGovern on the issues, Mondale ducked the question, saying he didn't like labels, but he made up his own mind, he didn't like being compared to others, etc. He replied: "I am a pragmatic, progressive Democrat. My record is there and you can look at it."

According to the two most liberal organizations that rate members of Congress—the Americans for Democratic Action (ADA) and the AFL-CIO's Committee on Political Education (COPE)—Mondale is a nearly "perfect" liberal, a man who hides newspaper reporter Albert Eisele has described as having been his Senate career on issues that were "the touchstones of New Deal-New Frontier-Great Society liberalism."

For the first session of the 94th Congress, the ADA rates Mondale as having been "in harmony with liberal policies" 94 per cent of the time, voting "right" on 17 out of 18 issues. This is a score five points higher than George McGovern.

For the first session of the 94th Congress, the ADA rates Mondale as having been "in harmony with liberal policies" 94 per cent of the time, voting "right" on 17 out of 18 issues. This is a score five points higher than George McGovern.

For the first session of the 94th Congress, the ADA rates Mondale as having been "in harmony with liberal policies" 94 per cent of the time, voting "right" on 17 out of 18 issues. This is a score five points higher than George McGovern.

Julie E. Jones, K.G. McGee Jr. Exchange Vows

Julie Emerson Jones and Kenneth Gerard McGee Jr. were married July 3 at the home of the bride's parents, Mr. and Mrs. Tudor Griffith Jones Jr., 975 Orchard Drive, Naples. Rev. Joseph Weaver was the officiating clergyman at the 7 p.m. ceremony.

The bridegroom is the son of Mr. and Mrs. Kenneth Gerard McGee Sr., 85 Sweethear Branch Longwood. Lori Golden, pianist, presented selections of nuptial selections.

Given in marriage by her father, the bride chose for her vows a candlelight gown fashioned with a tiered lace skirt with lace ruffles accenting the neckline and sleeves. Her headpiece was a modified lace mantilla and she carried a bouquet of yellow roses, white daisies and baby's breath.

Sarah Evelyn Jones of Gainesville attended her sister as maid of honor. She wore a floor length pink and white gown and carried a bouquet of pink roses, baby's breath and daisies.

Mark Francis McGee served his brother as best man. The bride's parents entertained at a reception in the home immediately following the ceremony.

After a wedding trip to Vanderbilt Beach, the bride and groom will be making their home at Gainesville where both are juniors at the University of Florida. The bridegroom is a member of Pi Kappa Phi fraternity.

Bride's Book
In And Around Sanford
Former Resident Entertains

By DORIS DIETRICH
Herald Correspondent

Sue (Doris Sue Williams) Eisele of Shaker Heights, Ohio, is currently visiting with her sister and husband, Mr. and Mrs. Boyd (Nancy) Coleman, and other family members. Before arriving in early July, Sue had planned a cocktail party-but got into for her many Sanford friends. She is a 1939 graduate of Seminole High School.

Who Sue is reuniting with longtime Sanford friends, her attorney husband, Edward, and 14-year-old son, Bill, are on a fishing expedition in Newfoundland.

The Saturday night gathering at the Coleman home was a delightful homecoming fete. The two sisters combined their culinary aptitudes and served a delicious buffet dinner in a red and white candlelight setting.

Invited to join the former Sanforites and the Colemans were Jerri and Bill Kirk, Liz and Norman Helfrich, Dorothy and Doc McElroy, Annette and Kenneth Wing, Nancy and James Terwilliger and Shirley and Carl Schilke.

Also Virginia and Jack Burney, Ann and Ben Howland, Marilyn and Kelly Welch, Sophie and Kay Shoemaker, Martha and Ned Yancy, Zonia and Art Beckwith, Gladys and Bill Wray, Doris and Carl Dietrich, Wilma and Peggy Dean and Bob and Bill Pegg.

Also Betty and Charles Bowers, Martha and Bill Vihlen, Lucy and L.B. McLeod Jr., Nancy and Norman and Norman Weekink, Derieux and Ralph Dean and Bill and Peggy Conroy.

Also Bettie and Bob Karg, Bill and Walter Gielow, Jane and Spence Williams, Ann and Dick Allen, Dottie and Jack Bessie and Brock Perkins and Elizabeth and Frank Mebane.

During his lifetime Dick Aiken has sung at so many weddings he has lost count, including the wedding of Donna Lee Harper and Attorney Reubin Askew.

When daughter, Missy, became the bride of Paul Aiken, Dick Aiken was the only one who did not sing, but he also gave his daughter in marriage after she was escorted to him by her brother, Dickie Aiken.

Ann and Dick are the parents of ten talented children. Ann said, "I would swap places with anybody in the world. I just can't imagine life without being surrounded by children."

Frank Mebane recalls the fond memories associated with Sanford's historical landmark, the 23rd St. Ball, Police Academy, local residents were up in arms over the demise of the social gala. Frank and his wife, Elizabeth, whom he married while he was the resident manager, hit upon the idea of carrying the tradition on.

They organized the first Annual Champagne Ball under the auspices of Seminole Mutual Concert Association (SMCA) in 1963.

This year, held at the Mayfair Country Club, attracted more than 300 patrons. A large tent was brought in to accommodate the overflow. The service is poor.

December night was comfortable and the result was a formidable success. Today the Champagne Ball is legend.

December will see the 12th Annual Champagne Ball in full swing. While there are always yearning the 1976-77 ball chairman, Peggy Conrad, is making plans for the glittering gala.

Mr. and Mrs. Rod (Jean) Patterson are vacationing in Canada where they are attending the World Olympics. Along the way the couple visited some of the nation's historical sites and en route saw the world's largest "hot air balloon" in other areas.

Lives of Super Stars' Wives Are Not Exactly Super Secure

NEW YORK (AP)—"I was interested to know what kind of women are married to the men we have raised to national superstardom. Is the man who jumps higher and runs faster really super?" explains Jeanne Parr of her two-year project interviewing wives of sports stars.

"And what I found out is they're not married to a super man. They're married to a man who is a good athlete and a difficult man," added the author of "The Superwives," a book she wrote about the lives of 29 women whose husbands are top players in every major sport.

They include Helen (Mrs. O.J.) Simpson, Marilyn (Mrs. Pete) Rose, Winnie (Mrs. Arnold) Palmer, Mary (Mrs. Al) Laver, Barbara (Mrs. Jack) Nicklaus and Nancy (Mrs. Tom) Seaver.

"I spent two days and sometimes three, against further debate on Ralph Nader's branch, the Agency for Consumer Advocacy, and further Senate discussion of the Big Labor-led Common Sense Picketing bill; and for writing the 1976 defense authorization bill by \$12 billion, and his vote to discontinue the country's last Anti-Ballistic Missile (ABM) site in North Dakota.

The former head of the ADA, Joe Isha, who has known Mondale for 25 years, says there is no one in public life he respects more. Rauh says of Mondale — who himself headed the ADA's student branch in 1968 — that he is positively "lyrical" about everything the Minnesota Democrat stands for and that "I would mortgage my house if it would help him."

"I don't think anyone was unhappy over my comments — just unhappy over their own, shocked that they said what they did," she said. "Even one who came out looking, warm and zany saw herself in print and was absolutely undone."

"The women agreed to be interviewed, Miss Parr, curled on the gold quilted bedspread in her hotel room in a white pantsuit and champagne-colored sweater. "The air that rarified for him is polluted for her," by the sea, she hopes "some of the talent of famous writers who live around me will rub off on me. Though I think of myself as a reporter rather than a writer."

"I admire these women for coping and in that sense they are super wives doing a super job. As far as I, I wouldn't marry Joe Namath if he didn't do it," she added emphatically.

"The Superwives" is published by Coward, McCann & Geophagen.

D'Acquisto Wins First

By The Associated Press
Some walks, some runs and John D'Acquisto usually headed for the nearest exit. It got so bad that one writer nicknamed him "Ball Four" D'Acquisto.

After posting San Francisco rookie records with 15 wins and 187 strikeouts in 1974, D'Acquisto underwent elbow surgery last year that limited him to 10 appearances with a 2-4 record and a dismal 10.29 earned run average.

Eight starts and seven relief jobs this season were a much better — an 8-5 record — in ERA — but the hard-throwing right-hander worked eight promising innings Monday against St. Louis. He allowed only four hits and two runs and walked off with his first victory as a starter since April 16, 1975, as the Giants defeated the Cardinals 4-2.

Never beset with pinpoint control, D'Acquisto issued eight walks, five in the first three innings. He didn't walk anyone from the fourth through the seventh and when he returned to the mound the small candlestick pitcher had a standing ovation.

"I never gave up on myself, and five were behind me all the way," D'Acquisto said. "I had everything going. It was a big stepping stone for me."

D'Acquisto took a 5-1 lead into the ninth but walked pinch hitter Jerry Mumphrey and threw two balls to Bake McBride before being relieved by Mike Caldwell, who was picked for a two-run single by Lou Brock.

D'Acquisto also helped himself with his bat. He singled in the third inning and eventually scored the tying run and doubled and scored in the sixth.
