

LOWEST COST MAINTENANCE FOR PENSACOLA

Payments Made By West Florida City For Operation Costs During Year Ending Sept. 30 Given

WASHINGTON, Oct. 13.—(AP)—Payments for maintenance and operation of the general departments of Pensacola, Fla., for the fiscal year ending September 30, 1924, amounted to \$442,940, or \$17.03 per capita, according to the summary of financial statistics, announced by the Department of Commerce.

In 1923 the comparative per capita for maintenance and operation of general departments was \$12.28. Payments for the operation of public service enterprises (waterworks and docks) amounted to \$64,465; interest on debt, \$188,244, and outlays for permanent improvements including those for public service enterprises, \$87,406. The total payments, therefore, for expenses of general departments and public service enterprises, interests and outlays, including schools were \$693,215. The total payments included for the schools amounted to \$192,895. Of this amount \$147,829 represented the expenses for school maintenance; \$44,689, interest on debt; and \$407, school outlays. The total include all payments for the year, whether made from current revenues or from the proceeds of bond issues.

The total revenue receipts of Pensacola for 1924, including schools, were \$710,642, or \$27.33 per capita. This was \$44,803 more than the total payments of the year, exclusive of the payment improvements, and \$1,427 more than the total payments including those for permanent improvements. The revenue receipts includes for the school district amounted to \$201,291. Property taxes represented 64 per cent of the total revenue for 1924, and 44.4 per cent for 1923. There was a decrease of 5.5 per cent in the amount of property taxes collected from 1923 to 1924. The per capita property taxes were \$17.66 in 1924 and \$14.31 in 1923. Earnings of public service for enterprises operated by the city represented 11.5 per cent of the total revenue for 1924 and 10.7 per cent for 1923.

Were You Ever Dunned?

DID some mean (?) merchant confront you with a bill long past due and demand payment?

OR did some authoritative (?) merchant who has been trying for months to get you to "come across" with a payment on account—write you one of those "must have the money" letters?

AND didn't you feel real indignant and swear that you would never deal with that store again?

AND haven't you spurned the merchant's continued appeals to pay that bill that is now long overdue?

YOU certainly have or at least some of you have. But stop and think: Were you then, and are you now justified in "taking your own good time" to pay, especially when the merchant tendered you credit on the basis of his confidence in your ability to pay—your integrity and honesty, and upon your promise to pay promptly.

THERE is really only one person who is injured and that is you. You have injured your reputation—your credit and your standing in Sanford for the manner in which you pay a matter of record with every merchant in Sanford.

SO if you haven't paid those long past due accounts—better make arrangements to talk it over with those you owe. It is really to your advantage to

PURVIS & WILCOX

A Florida-orange ICE CREAM

WHEN everyone's drooping with the heat—is anything in the world so refreshing as fruit ice cream? It just goes to the spot—that frozen velvetiness with fresh-fruit flavor. This recipe calls for Florida oranges—so sweet and juicy—and Borden's Evaporated. Try it once, and you'll know the secret of making fine ice cream without any cream bills. You see Borden's is twice as rich as ordinary milk—that's why it takes the place of cream in your frozen desserts.

- ORANGE ICE CREAM**
- 2 1/2 cups orange juice
 - 1/4 teaspoonful salt
 - Grated rind orange-half
 - 1 1/2 cups Borden's Evaporated milk
 - 1 cup sugar
 - 1/2 teaspoonful vanilla

Add the orange juice to grated rind. Let stand one-half hour. Strain, add sugar and salt, mixing thoroughly. Add milk slowly, then vanilla. Freeze in the usual manner. Serve with a sprinkling of candied orange peel.

Fulton Will Hold Banquet Tonight In The Seminole Grill

Officers of Fulton, Inc. real estate operators and developers of this city, will hold another banquet at the Seminole Grill, according to the announcement made here this morning. It is the purpose of the organization at this time to bring to the attention of the public a number of proposed developments for which plans have been prepared.

Among the establishments contemplated for this community, according to the announcement, will be the erection here of a plant for the construction of concrete blocks to be used in building construction in a number of the corporation's real estate developments in this vicinity.

Arrangements have been completed, it is said, for the establishment of this enterprise at Osteen, where work will be started at once on a contract to provide a large number of combination dwellings and garage buildings for temporary occupancy of persons who would avail themselves of possible shelter during the expected winter tourist rush.

HOMES... marvelous homes

...insure your investment in CORAL GABLES

THEY are calling Coral Gables the "wonder city" of the Miami district. They say that Coral Gables offers the greatest opportunity for investment in the world. They describe Coral Gables in vivid phrases and scintillating superlatives. "Coral Gables," they say, "combines the romance of the South Seas with the opportunities of Wall Street."

"They" are right. Coral Gables flourishes because it is a city of homes. Good home folks by the thousands, from almost every section of the county, are finding in Coral Gables the harbor of their dreams. And they are buying land and building actual "Castles in Spain." They are spending real money on these homes—and marvelous homes they are, with lovely gardens and bright flowers and tall, slim palms waltzing in the wind.

Homes Guarantee Your Investment at Coral Gables
Properties in Coral Gables have risen consistently in value. Some have shown an increase of 100 per cent every year. And authorities are agreed that the greatest advance is yet to come. Month by month, as ground is broken for the new hotels, the new University

of Miami, the magnificent new Sanitarium, values will increase.

Follow the Shrewdest Business Men

Such shrewd business men as Arthur Brisbane, B. C. Forbes, Edmonds, Untermyer, Livermore and a score of others know and appreciate Florida real estate. Roger Babson says: "Florida during the next few years offers the greatest opportunities for making money of all the states."

Invest at Coral Gables now. Ride to success with the thousands who have already seized upon this rare opportunity. If you are a home-seeker or an investor, this is the chance of a lifetime.

Building plots may be secured in Coral Gables by a moderate initial payment. These plots are offered in a wide range of prices, which include all improvements.

Rex Beach was won by the Charm of Coral Gables

Few people know this country better than REX BEACH. He is a man of true discrimination and taste. The beauty of Coral Gables won him immediately. His enthusiasm has led him to write a book upon the miracle of Coral Gables. Let us send it to you, together with full information about Coral Gables, free.

Special Announcement

Get in touch with this office for a trip to Coral Gables. These trips are run at frequent intervals and thousands of congenial and pleasant people are enjoying them. Call or telephone for all the necessary information regarding the best way to visit Miami as our guests.

Illustrated booklets, maps, price lists and complete information about Coral Gables may also be obtained here without obligation to you. Let us show you what has been accomplished in Coral Gables, and tell you of the thousands of opportunities that await the early investor.

Mrs. Maltre of Altamonte and guest, Mrs. Banson, were among the out of town guests at the Bridge Luncheon held at the Woman's Club Tuesday.

Alfred Robson will leave Thursday for Gainesville, Ga., where he will be the guest of friends, enroute to Atlanta, to witness the Florida-Tech football game.

Mrs. E. D. Mobley left Tuesday for Tallahassee where she will visit her daughter, Georgia, who is attending school there. From Tallahassee, Mrs. Mobley will go to Memphis, Tenn., to visit friends.

Rev. M. E. Gabard of Geneva passed through Sanford this morning enroute to Jacksonville. While there he will attend a meeting to discuss ways and means for the establishment of Bryan College at Miami.

Mr. and Mrs. W. E. Watson are now pleasantly located in their new home in Rose Court.

Mr. and Mrs. Frank Donaldson have moved into their lovely new home on Avenida Avenue.

John Hudgins will leave Thursday for Atlanta to attend the Florida-Tech football game.

Mrs. Maye Conoley of Valdosta is the guest of her daughters, Mrs. Ray Fox and Mrs. Emmett McColl.

Mrs. E. F. Housholder and Mrs. W. A. Hill are expected home Friday from New York and Washington.

George Roberts of New York City, a winter resident of Sanford, spent Tuesday in Orlando on business.

L. E. Estridge leaves Monday to spend a week in Volusia county in the interests of the Fertilizer company.

Mrs. J. S. Kintz of Texas, travelling through the state, is stopping today to look over the "City Substantial."

Friends of Mrs. Alfred B. Robson will be pleased to learn that she is greatly improved after her serious illness.

A. B. Robson of the Robson-Baggett Realty Co., and Grier Martin motored to Orlando and Tampa Tuesday on business.

M. Foster and daughter of Savannah will be here a short time on their way to the southern part of the state, and are located at the Valdez.

Mrs. John Burdick of Waveross is the guest of her sister, Mrs. J. J. Dickinson at her home on Magnolia Avenue.

Mrs. Monroe Huston returned Wednesday from Tampa, where she has been the guest of Miss Mary Louise Dickinson.

Mrs. H. Rozen and Mrs. Ednor Curlette of Geneva went to Winter Haven yesterday to attend the State Beautification meeting.

Mrs. Rhiles and daughter of Richmond, Va., are pleasantly located with Mrs. W. M. Thigpen at her home on Magnolia Avenue.

Mrs. Volk Williams left Thursday for Fernandina. She will be joined later by Mr. Williams, who has been in New York for some time.

Mr. and Mrs. J. C. Deen and little daughter, Lula Mary, leave next week to visit relatives and friends in Jacksonville and White Sulphur Springs.

Dr. and Mrs. L. A. Brand of Miami stopped over in Sanford Tuesday as the guests of R. E. Harndon enroute from New York to Miami.

Mrs. Wm. A. Moulton of Chicago will be in the city for a few days combining business with pleasure. At present she is at the Hotel Valdez.

Mr. and Mrs. C. H. Walsh and daughter of Wilmington, N. C., will arrive today. They were called here by the death of Mrs. Walsh's mother, Mrs. Leonard.

E. Z. Stines of Mars Hill, N. C., will return Saturday, after spending the summer in Asheville, N. C. He is engaged in the real estate business.

Geo. W. Knight and Frank MacNeill left Wednesday for Asheville, N. C., for a few days on business. Before returning home they will stop in Atlanta.

Miss Rogers Six Pounds in Six Weeks

My dear friends: After my attack of flu I was thin, run-down and weak. I had a shallow complexion, my chest was sunk in and I was continually troubled with gas on my stomach. I felt listless and had lost my appetite. I had read about McCoy's Cod Liver Oil Compound Tablets and decided to give them a trial. At once, I began to pick up an appetite, my cheeks filled out and my complexion became healthy looking and I gained 15 pounds in six weeks and am very thankful for what McCoy's Cod Liver Oil Compound Tablets did for me.

Miss Alberta Rogers, 244 W. Central St., Decatur, Ill.

To take on weight, grow strong and vigorous, to fill out the hollows in cheeks and neck, try McCoy's Cod Liver Oil Compound Tablets for 30 days: 60 Tablets—60 cents at Sanford Drug Co., Union Pharmacy, and drug stores everywhere. If they don't give you wonderful help in 30 days, get your money back—you be the judge. But be sure and ask for McCoy's, the original and genuine.

Milton—Local bank deposits exceeding million-dollar mark.

DRAMA

SAM RAULSTON, INDIANA SOLON

(Continued from Page One)

had made his resolution long before the strike and turmoil of those sweltering July days in Madison Square Garden had so completely recast the complexion of the political horizon. His decision was communicated early to his intimate friends, and he remained adamant to all their pleadings.

The time came during the early summer of 1924 when he made with modesty a public declaration. Speaking to the Indiana State Convention which desired to instruct the state delegation for him, he said:

"There is something about the greatness of this excited position that admonishes me against wanting to undertake the execution of its grave and solemn duties."

Carry Out His Wishes.

The convention bowed to his wishes, but his friends refused to give up hope, believing that if he were drafted he could not refuse to serve. And so under the leadership of Thomas Taggart, Riddian's staid political general, centered around his name one of the most dramatic "dark horse" maneuvers ever attempted in a national political campaign, a maneuver blocked at last by the principal when apparently on the high road to success.

A lawyer by profession and a farmer by inclination, Mr. Raulston never really cared for political office. He preferred the battles of the law, tempered by the quiet and peace of the rolling acres of his Indiana farm. He had an abiding interest in politics, however, and was a firm believer in the bed rock principle of democracy.

Just as he had applied himself assiduously to his duties as governor, so he labored faithfully as a Senator. He was on the floor all

and listened with attention to all debates on important issues, contributing several addresses on tax and tariff questions.

Mr. Raulston was a Presbyterian and a Mason. He married twice, his first wife dying within a year after marriage. His second wife was Miss Jennie Craven, of Central Valley, Ind. By this union, two sons and a daughter were born.

Chicago Sheriff Is Found Guilty Of Bribe Charge

(Continued from Page One)

Westbrook's secretary, and confessed solicitor of bribes, said Hans Thompson and James Fitzgerald, former assistant jail wardens, also were ordered held for the grand jury in \$3,000 bail each for violating four sections of the federal code.

Judge Wilkerson made it plain that he dealt with the respondents today only in connection with Druggan's writ of commitment and that he had taken under advisement "to abide the further order of the court," the accusations concerning the Lake commitment, which also was for a year for the same contempt which involved Druggan.

Scolded for "Closing Eyes."

Judge Wilkerson absolved Sheriff Hoffman from connection with the bribe taking and corruption in his jail, but scolded him for not seeing with his own eyes what he should have seen, and for closing his eyes after he had been shown.

The citations of Fred Strassheim and Arthur Schwantes, former assistant jailors, was ordered continued until December 7, next.

Druggan and Lake were kept in custody by United States deputy marshals to be returned to those jails.

WILL ESTABLISH FISH HATCHERY IN UPPER RIVER

St. Johns or Ocklawaha Are Possible Selections for Site of New Industry According State Game Commission

TALAHASSEE, Oct. 15.—(AP)—In all probability one first fish hatcheries established by State Shell Fish Commissioner T. R. Hodges will be located somewhere on the headwaters of the St. Johns or Ocklawaha river, it was announced at the commissioner's office.

An investigation of the probable location for the hatcheries will be made by Captain Hodges during a trip to be made immediately on the St. Johns, up as far as Volusia Bar on Lake George. During this visit the commissioner will designate herring hauls along the river, as well as make a general inspection of the fishing industry.

F. D. Fant, chairman of the fish hatchery commission will accompany Captain Hodges on the trip.

A provision was embodied in the general salt water fish bill, passed at the last session of the legislature, permitted the use of small nets in the St. Johns for catching herring on established herring hauls, which have been designated by the shell fish commissioner. This act also declared the St. Johns and Lake Okechobee salt water, in order that it might be brought under the administration of the shell fish department.

The herring is a salt water fish, coming into the fresh waters to spawn like the roach. They are caught in great quantities on the upper St. Johns, near Palatka and Welaka. Thousands of barrels are shipped annually to northern markets from Jacksonville, Palatka and Welaka. The St. Johns produces several million pounds of cutfish annually besides many species of scale fish. Fresh water fish are in much demand in northwestern markets.

Clearwater—\$1,000,000 hotel proposed for Clearwater Island Beach.

Vanderbilt University Celebrates Fiftieth Anniversary During Week

NASHVILLE, Tenn., Oct. 15.—(AP)—Vanderbilt University will celebrate its fiftieth anniversary in a series of exercises to be held here October 15 to 18.

College officials announce that the occasion will be made of international interest as there will be in attendance representatives from more than three hundred American and foreign colleges. Germany, France, Scotland, Chile, Belgium, Australia, Italy and Japan are among the foreign countries that will send delegates.

The widespread interest being shown in the Vanderbilt celebration is considered by college officials as a confirmation of the foresight of Cornelius Vanderbilt (Commander) Vanderbilt, founder of the university, who said: "If Vanderbilt shall through its influence, contribute to strengthening the ties which should exist between all sections of our common country, I shall feel that it has accomplished one of the objects that led me to take interest in it."

The formal opening of the university's new medical plant, erected at a cost of \$3,000,000 and provided with an initial endowment of \$5,000,000 will be held during the celebration. Alumni Hall, erected in memory of Vanderbilt's ward and will also be dedicated.

The formal addresses on anniversary day will be delivered by Albert Shaw, editor of Review of Reviews, and Sir Robert Falconer, president of the University of Toronto. Mr. Daeschner, French ambassador to the United States, will speak at the opening of the Alumni Memorial Hall. Others who will speak at these exercises are Minor General Robert L. Bullard, U. S. A.; Normal Davis, former acting secretary of state; Charles Caslon, New York banker; and David

Morton, Amherst College.

Others who will attend as guest of the university are Don Honorio Puerreydon, Argentine ambassador to the United States; who will represent the National University of La Plata; Adolph Ochs, owner of the New York Times; John J. Tigert, United States commissioner of education; Justice McKeen of the United States Supreme Court; and B. Carroll Reese, Tennessee congressman.

President H. A. Murphree, of the University of Florida, will be among the heads of the leading institutions of the country that will attend the celebration.

Numerous Vanderbilt graduates are expected to gather here from all parts of the country and especially from the south, to attend the celebration and the home-coming which will be held at the same time.

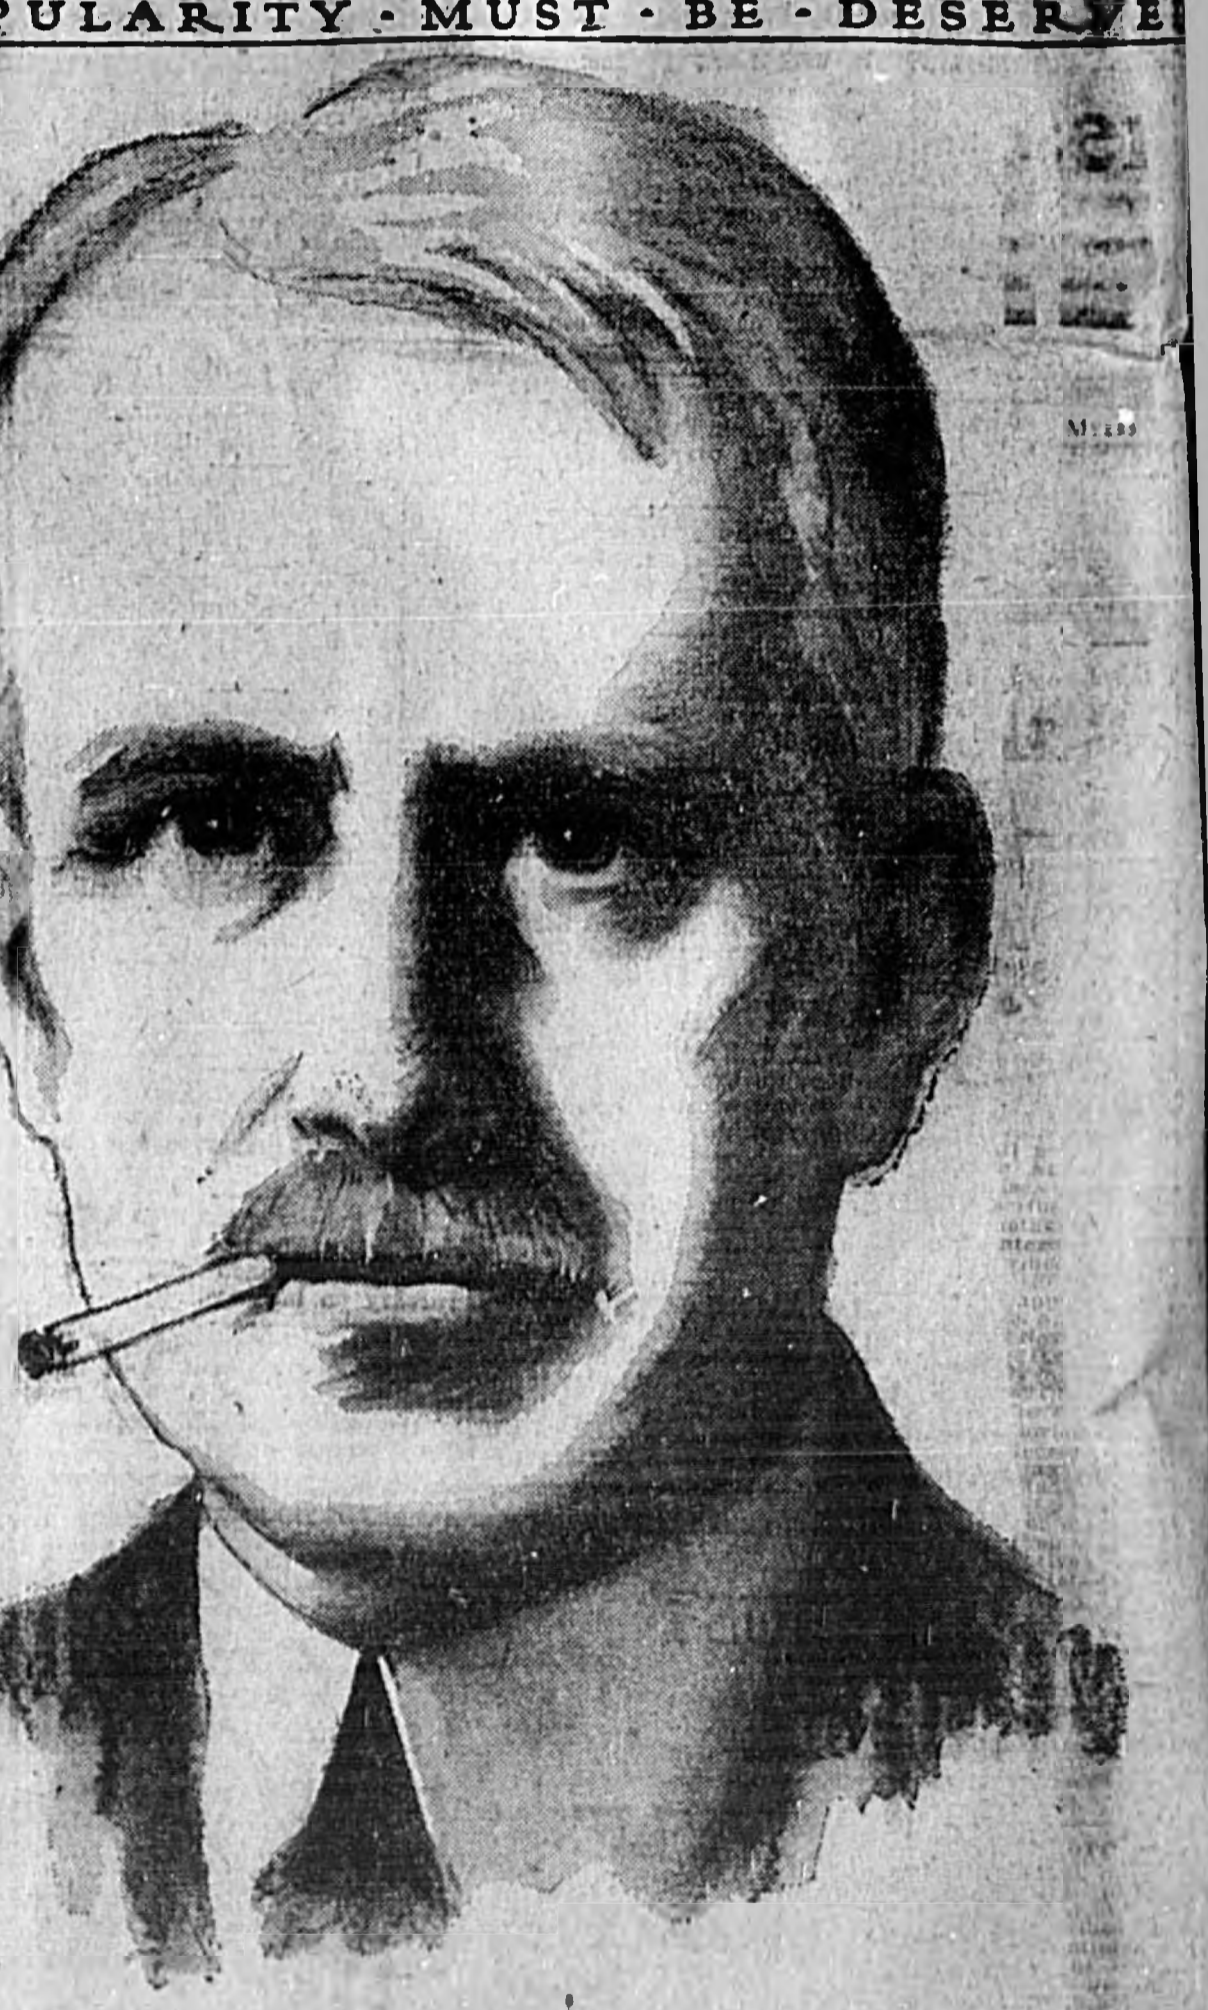

A football game and an historical pageant in the Vanderbilt stadium will parade and reunions will feature the activities of the student and alumni gatherings.

The Danger Signal!

When a passenger train was speeding along in the night, unaware of a broken bridge ahead, a boy climbed out on the bridge, waved a lantern and saved the train a wreck. Over fifty years ago, Dr. R. V. Pierce, a distinguished physician, knew of the danger symptoms that threaten humanity—loss of appetite, languor, lack of strength, and, being a student of the medicinal value of herbs compounded a wonderful remedy, Dr. Pierce's Golden Medical Discovery, a tonic and blood purifier. Vim, Vigor, Vitality follow its use. Try it! Don't forget the Danger Signal.

SUCH POPULARITY MUST BE DESERVED

Thin, Pale, Tired? Look Out For Chronic Fatigue

One of the most insidious ailments today is chronic fatigue. Thousands are only half-alive, constantly suffering with weakness, nervousness, palpitation of the heart, headaches, etc.—gradually taking medicines—when, in the great majority of cases, the real trouble is chronic fatigue.

Chronic fatigue is entirely different from the "healthy" fatigue you feel after hard work. Chronic fatigue comes from within. Your nerves, muscles, organs, etc., have become run-down and cannot function properly.

To conquer it you must go to its cause—in the blood. For it is from the blood that every muscle, nerve and organ gets its nourishment. So when you are thin, pale, tired and run-down, it is usually because your blood is thin and pale, lacking in sufficient organic iron to carry strength to the starved tissues.

What you need, then, is not mere tonics, but more organic iron in your blood, so it can carry strength and vigor to every part of your body.

Don't take the older mineral iron medicines which many doctors now say do little good. Take organic iron—Nuxated Iron—which is like the iron in your blood and like that in spinach and lentils. Unlike ordinary mineral iron it will not injure the teeth nor disturb the stomach, but is promptly assimilated.

Take Nuxated Iron for just two weeks and you'll be amazed how much stronger you feel—how the color comes back to your cheeks and the sparkle and life to your eyes. Money back if not improved. At all good druggists.

ESSEX

a Famous Six—Built on Hudson Patents

\$795 for the Coach

Quality Gave Volume—Volume Gave This Amazing Price

Everyone knows the superiority of six cylinders. Those who know are not content with less than Super-Six performance. It increases power, smoothness, flexibility and car life without adding to weight or motor size. Its principle is patented and exclusive to Hudson and Essex. It accounts for the world's largest selling sixes.

In Essex the cost is within the price of practically all car buyers. Super-Six advantages and Hudson Essex quality give vast volume, and volume makes possible the lowest prices in history.

There is a big saving in Essex cost, a greater economy in operation, and a finer satisfaction from the ease and comfort of riding and driving. Everywhere it is regarded with Hudson as the

His Grid's Biggest

This full-blooded Choctaw Indian is said to be the biggest football player in the game this season. He's Theodore "Tiny" Roebuck, star tackle with the Haskell Indians. He is six feet, six inches tall and weighs 240 pounds. They say opposing linemen let him have his own way pretty much, too. Small wonder!

**Commissioner Mayo In State
Names Florida's Natural Resources**

In an article especially prepared for the Associated Press, Commissioner Nathan Mayo, of the State Department of Agriculture, places the natural resources of Florida under five heads, namely: agriculture, timber, naval stores, fisheries, and minerals.

The industries built on these five resources as a foundation, writes the commissioner, include practically everything that has made our common country the greatest force in the comity of nations.

Pointing out that the agriculture of the state is sufficiently developed to prove the potentialities of the state and that they are equal to the other great agricultural states, the commissioner showed while only two and a half million acres of land are now in cultivation in Florida, the annual income from this source is around \$90,000,000. This includes 100,000 cars of fruits and vegetables, 120,000 barrels of syrup; five million pounds of cotton; 18,000 bales of cotton; 6,000 cars of potatoes; 10,000 cars of tomatoes; and 5,000 cars of water-mellons.

Mayo, "I bespeak a state without a rival in the production of many crops and a commerce that exceeds the dreams of the past."

Discussing the other natural resources of the state separately, Commissioner Mayo said: "Florida is cutting lumber at the rate of a billion feet a year. Timber has always been a leading source of income and still is. Our two million acres of merchantable timber is an asset of which any state should be proud. We have timber enough to build homes for twenty million people. The output of turpentine is eight million gallons yearly and of rosin 500,000 barrels."

"Florida has nearly three million acres of waters filled with fish. Our normal catch of fish is sixty million pounds annually and 125,000 barrels of shell fish. The minerals of Florida capable of being worked commercially are phosphates, of which she produces eighty per cent of the output of the United States; fuller earth, of which she produces also eighty per cent of the output of the United States; kaolin, brick and pottery clay. The aggregate value of these vary from twelve to twenty million dollars annually.

"Florida will soon have a fine system of good roads as any state in the Union. We have ten thousand miles of paved roads. The state is spending eleven million dollars annually and the counties twice as much.

"The realization of the wonderful possibilities of Florida has some continental. All roads lead to Florida. The state will profit more than others from the great stride in commerce with Latin America that looms in the future. "When the history of 1925 is written, it will appear that the migration to Florida amounted to a stampede. Development will be rapid under ample capital of the northerners who desire a better climate."

**London Lawyers To
Revive Old Custom
Of Holding Moots**

LONDON, Oct. 15.—(P)—A revival of the old custom of holding "moots" in the Middle Temple is being planned for November.

The moot is a mock trial designed to give men in the legal profession—and now women—the opportunity of arguing legal problems arising from established facts in the firm in which cases are argued in the Court of Appeal. Two counsel are assigned for each side and when they have put their case, the judges give judgment. Justice Sankey has promised to preside over the first moot.

**Martian Search
Water And Oxygen
Astronomers Find**

PASADENA, Cal., Oct. 15.—(P)—Home brew is a necessity on the planet Mars, provided there is life there, and also provided that life requires moisture to live, in the opinion of Dr. Charles E. St. John, astronomer and physicist of the Mount Wilson observatory near here.

The water supply on Mars, as revealed in a series of tests just completed by Dr. St. John, is about one-twentieth that found on the tops of the semi-arid mountains of Southern California.

Besides being on perpetual emergency rations of water, the Martians, if there are any such creatures, also are short of what this planet calls air. The oxygen supply there is only 60 percent of that

of Earth. The water supply on Mars, as revealed in a series of tests just completed by Dr. St. John, is about one-twentieth that found on the tops of the semi-arid mountains of Southern California.

**Rail Board Is
Hearing On
Haul Rates**

PASSAGE, Fla., Oct. 15.—Florida Railroad Commission is just received official notice from the Interstate Commerce Commission that Ex-Ex will conduct the line haul rates on citrus, vegetables, melons, and strawberries, to be made, November 4.

The Interstate Commerce Commission is hearing virtually all of the United States, the title, however, is Commissioner of the Florida, complaints, vs. and Rockfish Railroad et al. defendants.

Mr. Miller will open the hearing at 10 o'clock. The hearing affects the alleged and unreasonable rates of the railroads on Florida from distribution to the state to interstate.

An effort will be made to get railroad officials, to at least equalize with those prevailing in other similar commodities distributed through the state.

Mr. Sully has been found on a schooner, the Louie B. Sully, which arrived here yesterday. He answered the complaint of the popular song by a mason, ground hog, name is "Sully". She was boarded 5 months ago, it was

**Arab Says Historic
'Needle's Eye' Was
Gate In Fortress**

PITTSBURGH, Kan., Oct. 15.—(P)—The "needle's eye" referred to in the New Testament is a small gate in the Wall of Jerusalem, not a sewing needle, at least in the opinion of Job Negeim, 23 year old Arab guide in the Holy Land, who is studying music at the Pittsburgh State Teachers College.

The Biblical passage to which the modern Job has adduced a new meaning is in Mark 10-25, wherein Jesus chided those who "trust in riches," saying: "It is easier for a camel to go through the eye of a needle, than for a rich man to enter the kingdom of heaven."

"The needle's eye," says Negeim, "commonly misunderstood as the eye of a sewing needle, is known to Jerusalem as a small gate within a larger gate in the city walls. It is for the use of pedestrians after the larger gate is closed for the night for protection. The gate is so low that an average sized man must stoop low to go through it."

**Forestry Service In
Oregon Is Successful**

EUGENE, Ore., Oct. 15.—(P)—Reforestation of the Mount Hebo Douglas fir area of the Siuslaw National Forest in Western Oregon has proved successful. Trees planted from 1912 to 1916 are 8 to 16 feet high, the average height being 10 feet.

In addition to the replanting started in 1912, approximately 180,000 fir seedlings were set out two years ago. Four out of five of these trees are growing, except on the highest mountains, where there is little protection from the elements.

**State College Girls
Elect Class Officers
To Fill Old Vacancies**

TALLAHASSEE, Oct. 15.—(P)—Eunice Milliner, of Madison, was elected associate editor; Mary Ruth Murray, Miami, assistant sports editor; and Ellen McConnell, Tampa, assistant business manager, of the Flambeau, student publication of the Florida State College for Women. They will fill vacancies caused by absentees from college this year.

Margaret Benbow, of Palatka, was elected Freshman cheer-leader; she is the only officer elected by the Freshman class until the second semester, and the girl elected to that position is virtually in charge of the entire class.

Joyce Pritchard, of Plant City; Gladys Rush, Maitland; Frances Mitchell, St. Petersburg; and Elizabeth Lansden, Jacksonville, were "tapped" for Freshman Commission of Student Government. About 40 girls are "tapped" each February to make up the Freshman Commission. They co-operate with the Student Government Council in every way.

Helen Lynch, of St. Petersburg, was elected vice president of the Athletic Association.

THOMAS HARDY ILL

LONDON, Oct. 15.—(P)—Thomas Hardy was unable to come to London for the first presentation in England of his dramatization of his novel, "Tess of the D'Urbervilles," but Mrs. Hardy made the trip to London and after seeing the play expressed her approval of the portrayal of Tess by Miss Gwen Frangcon-Davies. Mrs. Hardy said her husband is only slightly indisposed and is ordinarily enjoying good health in spite of his 85 years.

**"As Satisfactory
as any Gas Stove"**

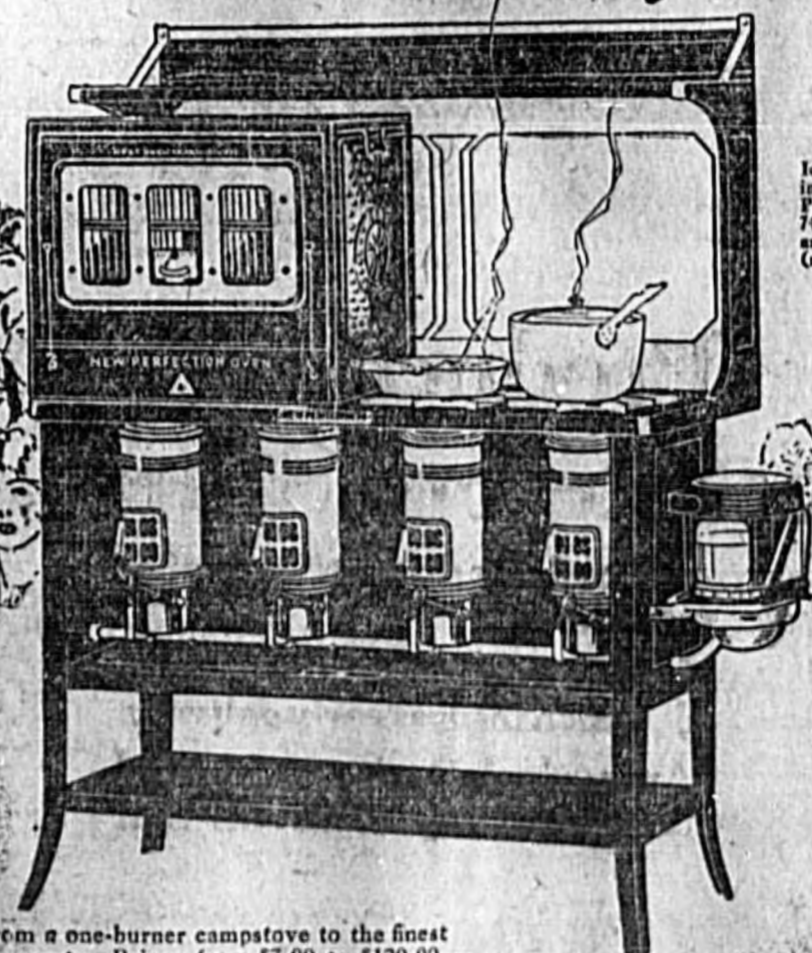

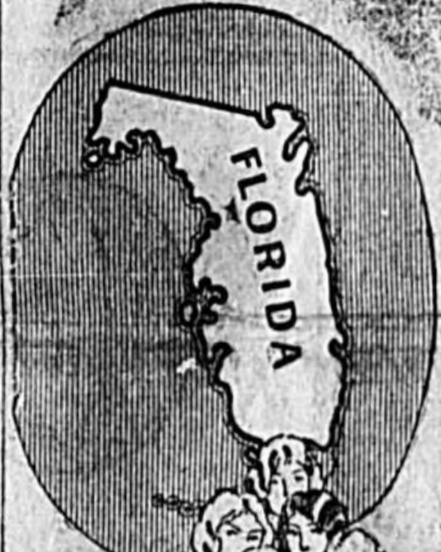

That's the opinion of C. J. Knab, 1805 Ionia Street, Jacksonville.

Read this letter:

"After having used a gas stove for fifteen years I thought I could never get used to an oil stove.

"However, after getting a Perfection Stove, I could see no difference in performance. I experienced no oil odor or anything distasteful in any way. In my estimation the Perfection is the best of all oil stoves."

C. J. Knab

Ideal for Florida cooking is this four burner Perfection Stove, No. 74. Complete with oven and white enamel back (not including cutlery) only \$48.55.

All sizes from a one-burner campstove to the finest five burner range. Prices from \$7.00 to \$120.00.

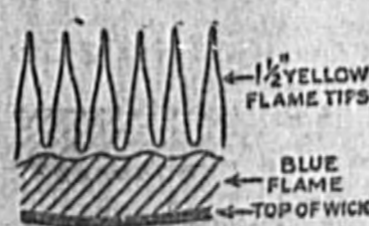

Don't long for a gas stove if you live in a no-gas district, or where gas rates are high. Buy a Perfection Oil Stove. You will agree with the writer that it is as satisfactory as a gas stove.

Thousands of Florida women are getting gas stove satisfaction plus from their Perfections. For Perfections are absolutely dependable. They do the cooking on time. With them, the dish that's successful today will be successful tomorrow.

At the touch of a match to the wick Perfections start to cook. Perfections burn only kerosene, that safe, cheap fuel. Easily extinguished, too. Merely turn the wick 'way down.

As to heat—you can have it in varying

quantities, for each Perfection burner is independently operated, and gives every range of heat. For the very hot flame used in frying tempting steaks, turn the wick high enough to produce yellow tips 1 1/2 inches long above the blue flame. For a gentle simmering flame, lower the wick. You can easily adjust each wick, for any cooking process.

This Flame for Frying Steak

For fluffy biscuits, dainty puddings, toothsome roasts, or juicy steaks, use a Perfection. You'll be more than satisfied with the results.

Any stove dealer will gladly show you Perfection models. They are equipped with from one to five burners, and vary in price from \$7.00 to \$120.00 for our finest range with built-in oven.

FOUR WAY :: :: :: :: By Williams

BY GEORGE, I DON'T UNDERSTAND THAT! I WAS MERELY PLAYING A FEW PIECES ON THE PHONOGRAPH, I PLAYED 'GEE I WISH THAT I HAD A GIRL' AND 'SOMEBODY STOLE MY GAL', AND WHEN I PUT ON 'LOST A WONDERFUL GIRL'—WHY HE—HE—THAT'S STRANGE!

ONLY PLAYED THEM THREE PIECES? WELL, THAT IS STRANGE, VERY VERY STRANGE, ONLY THREE PIECES!

AM-HUH-UCK-GUG I-UH-GUMF-I SWALLED SOME TBACKER ARR-EE-HEE-M-M-RMP.

THE DUKE JOINS THE OUTLAWS.

BEGIN CRUSADE ON VENDORS OF BAD FOOD STUFF

"Bootlegging" Citrus Fruit Not Inspected Properly As Provided By Law; Commissioner Issues Warning

TALLAHASSEE, Oct. 15.—(AP)—The "bootlegging" vendors of citrus fruit are going to have a hard road to travel during the inspection period this season. So are the growers who sell fruit to wagons or trucks without having it inspected, certified and stamped. Commissioners of Agriculture have been instructed all inspectors in the citrus belt to keep a sharp look-out for wagons and trucks that go into the groves to load and haul fruit to the market.

The commissioner points out to the inspectors that it is unlawful for any person to sell, or offer for sale, transport, prepare, receive or deliver for transportation or market, any citrus fruit between August 31 and November 26 in any year, unless such fruit is accompanied by a certificate of inspection and maturity thereof, issued by a duly authorized inspector.

This, he advised, applies with equal force to fruit delivered to wagons and trucks in the groves to that delivered to packing houses. The inspectors are under instructions to rigidly enforce the law in this and all other respects.

Attention of the inspectors is called by Commissioner Mayo to provisions of the citrus fruit law fixing fines of \$50 to \$1,000 or by imprisonment for one to 12 months or both fine and imprisonment for violations of the law.

WASHINGTON, Oct. 15.—(AP)—The name "blue stain" as applied to certain discolorations on lumber is a ten million dollar hoodoo, says the National Lumber Manufacturers' Association, which has begun a campaign to popularize use of such lumber and find a new name for the stain which will remove the curse from it.

"Blue stain" is regarded as a blemish in lumber grading, but Association officials declare they have been assured by the Forest Service that it does not detract from the usefulness of the lumber for many purposes.

Chemical dips have been tried in an effort to remove "blue stain," but have been found impracticable. A committee reported that the present unpopularity of the stain was resulting in a loss of \$10,000,000 annually to lumber producers, and that the best means of improving the situation lay in the discovery of a less obnoxious name that would convert the blueness into an asset.

Fuel Association Gets Greetings of President At Meet

ATLANTIC CITY, Oct. 15.—(AP)—A message from President Coolidge read today before the American Gas Association by its President, H. C. Abell, said that the future of the gas industry "depended, entirely on the extent to which it devoted itself to public service, as well as public gain."

Claim Austrian Was First Man to Invent Typewriting Machine

HERKIMER, N. Y., Oct. 15.—(AP)—Austrian claims that the typewriter is an Austrian, not an American, invention, which were given concrete form by the recent unveiling of a memorial tablet at Innsbruck, Austria, to Peter Mitterdorfer as the inventor of the typewriter, are challenged by John W. Vrooman, president of the Herkimer County Historical Society.

JAPAN COMBATS ILLITERACY

TOKYO, Oct. 15.—(AP)—During the conscript examination, the authorities discovered that more than 20 percent of the young men examined for the army were unable to write their own names. Consequently the department of education has decided to establish a system of circulating classes for the illiterate youth of the Empire.

Seaboard Air Line To Build New Depot As Litigation Ends

TALLAHASSEE, Fla., Oct. 15.—(AP)—The Seaboard Air Line has agreed to erect a train shed at Lake City, thereby ending litigation pending some time.

The case originated when the Columbia County Chamber of Commerce, in May, 1923, petitioned the Railroad Commission to order the Seaboard Air Line and Georgia Southern and Florida to construct a shed at their Lake City terminal. After hearing witnesses for both sides a few days later, the commission issued an order directing the two railroads to place the desired facilities at the Lake City Station.

The matter was later taken to the state supreme court. An opinion was handed down that the two railroads should not be ordered to shoulder an equal burden of the expenses, as one of the lines would have to erect a larger shed.

Last June, in order to conform to the supreme court's ruling, the commission amended its original order, specifying the work desired of each road.

When neither carrier complied with the order, the matter was continued in the supreme court, with the resultant recent acquisition of the Seaboard Air Line.

French At Loss To Understand Yankee Appetite For Corn

PARIS, Oct. 15.—(AP)—The American appetite for green corn, a delicacy almost unknown in France, caused the Paris Midi to comment in a paragraph that was headed with the French proverb "there is no arguing about taste and color."

The head waiter of a leading restaurant brings in with ceremony a weird dish which he lays before his American customers, observed Midi. He places before them great white cylinders which the people from across the Atlantic seize and eat with relish.

"What ever is that they are eating?" asks a Parisian. The waiter explains that it is boiled maize. He brings a green head to the Parisian and shows him the contents.

"And you are asked for many of these?" "Thirty or forty a day." Why cross the ocean to eat boiled maize in a Paris restaurant, concludes Midi.

Sebring—200-acre tract of land north of Lakewood Terrace, to be developed into subdivision.

HINDU NABOB IS CREATING STIR AT LEAGUE MEET

Maharajah of Patiala, Said To Be World's Richest, Is Center of Attraction At Conference at Geneva

GENEVA, Oct. 15.—(AP)—So accustomed is Geneva to greatness within its borders that it rarely gets excited over an important new comer, but it awoke with sudden interest with the advent of the Maharajah of Patiala, who came as one of the Indian delegates to the League of Nations assembly. The Maharajah is credited with being the world's richest resident.

In the ballrooms of the hotels where various delegations gave receptions with dancing a feature, the Maharajah was the center of attraction. Despite his rather ponderous body he waltzed gracefully with some of the fairest of the ladies present. His bottom glittered with precious pendants and in the lobes of his ears shone huge pearls encircled with diamonds.

The Maharajah came with a suite of fourteen persons. He proved a source of material delight to Geneva shopkeepers. He is reported to have spent \$10,000 alone in the purchase of watches and binoculars, with an accent on binoculars, for which he seems to have a passion as a collector. He developed into such a fantastic and interesting personality that eventually to escape the crowds he was forced to leave his hotel by the kitchen door to attain his automobile unmolested.

But if the Maharajah was ever in the public eye his spouse, the Maharani, and her two ladies-in-waiting, remained in obscurity. They went not to receptions, dinners or balls, ate their meals in the seclusion of their apartments and only emerged for drives in closed motor-cars.

Lakeland—This place to have a new up-to-date tourist camp.

Winter Haven—Plans preparing for construction of modern business block, on East Central Avenue.

D. 1925, will sell at public outcry to the highest and best bidder for cash at the front door of the Court House in Sanford, Seminole County, Florida, on Monday, the 22nd day of November, A. D. 1925, between the hours of 11:00 a. m. and 3:00 p. m. the following described property, situated, lying and being in Seminole County, Florida, which under the terms of the Decree aforesaid was ordered to be sold by the undersigned Special Master, to-wit: Lots 2 and 10 of Block 1 of Cameron Sub-Division, as per Plat thereof recorded in the public records of Seminole County, Florida, in Plat Book "1" at page "90"; and also all that part of Lot 53, lying East of the A. C. L. R. R. and Lots 12, 13 and 14 of Sanford Cemetery Delta Sub-Division, according to the plat thereof duly recorded in the public records of Seminole County, Florida.

S. A. B. WILKINSON, Special Master. GEORGE O. HERRING, Solicitor for Complainants.

At the request of many citizens tax-payers and property owners hereinafter described, notice is hereby given of intention to apply to the Legislature of the State of Florida, during the month of November, 1925, for the passage of an Act of the Legislature amending Section 8, of Chapter 2887, Laws of Florida, 1924, the purpose of said amendment being to enlarge the territorial limits of the City of Sanford, Florida, to include and embrace the following described lands in Seminole County, Florida, not now a part of the corporate limits of the City of Sanford, Florida, more particularly described as follows: to-wit: Section Twenty (20), Twenty-one (21), Twenty-eight (28), Twenty-nine (29), the Southeast Quarter of the Southeast Quarter of Section Thirty (30), the East Quarter of Section Thirty-one (31), the West Half of Section Thirty-two (32), the North Half of the Northeast Quar-

ter of Section Thirty-two (32); and the North Half of the Northwest Quarter of Section Thirty-three (33), all in Township Nineteen (19) South, Range Thirty-one (31) East; and the Northeast Quarter of the Northeast Quarter of Section Six (6), and the North Half of the Northwest Quarter of Section Five (5), all in Township Twenty (20), South, Range Thirty-one (31) East. Dated at Sanford, Florida, this 9th day of September, A. D. 1925.

FORREST LAKE R. O. CHASE, C. J. MARSHALL, As the City Commissioner of the City of Sanford, Florida.

NOTICE OF SALE
Notice is hereby given that I, as Special Master appointed in the Chancery cause of Joseph W. Corley and W. L. Henley, complainants, vs. Charles H. Whitner et al. in pursuance of an order made and entered in said cause on the 22nd day of September, A. D. 1925, will sell at public outcry to the highest and best bidder for cash at the front door of the Court House in Sanford, Seminole County, Florida, on Monday, the 22nd day of November, A. D. 1925, between the hours of 11:00 a. m. and 3:00 p. m. the following described property, situated, lying and being in Seminole County, Florida, which under the terms of the Decree aforesaid was ordered to be sold by the undersigned Special Master, to-wit: Lots 2 and 10 of Block 1 of Cameron Sub-Division, as per Plat thereof recorded in the public records of Seminole County, Florida, in Plat Book "1" at page "90"; and also all that part of Lot 53, lying East of the A. CONTINUED RAIN MAY HALT FINAL GAME 2ND TIME

Downpour Through the Night May Render Field Unfit to Play Upon; Aldridge and Johnson Certain to Pitch

PITTSBURGH, Pa., Oct. 15.—Rain blocked the world's series program for the second time Wednesday when a heavy downpour, starting nearly an hour before the seventh and deciding game was scheduled at Forbes Field, drenched the ball park and forced a postponement.

The delay is not only disappointing to close to 50,000 fans, the largest crowd of the series, but continued steadily tonight with prospects that it would even be impossible to resume play today.

The weather man's forecast was for rain throughout the night and morning, with a chance of clearing in the afternoon. Even so it would be doubtful whether the diamond would be in playing condition, although tarpaulins were spread over the infield to keep as much of the field as possible from becoming a quagmire.

Delay Is Unexpected.

The delay came unexpectedly, in spite of the overcast sky and murky atmosphere of the day, but the accompanying extra day of rest was hailed as a benefit by followers of both clubs after the first feeling of disappointment had subsided.

The benefit rests chiefly among the pitching staffs of the two teams, Walter Johnson and Victor Aldridge, who tonight were picked definitely by Managers Bill McKechnie and Bucky Harris for the final battle in which the title now held by Washington and aspirations entertained by Pittsburgh both will be in the balance.

Rival Harter Rest.

These two, each victorious twice so far and standing head and shoulders above all swirling rivals, were slated to have it out in the final struggle today in spite of the short rest they have had. Johnson, as a matter of fact, who also has been handicapped by a "Charley Horse" in his right leg, was keenly disappointed by the postponement, feeling that he was "right" for the day, but tomorrow, if the deciding game goes on, the big train will be able to take the hill with the benefit of three full days of rest since his performance Sunday when he blanked the Pirates as much rest as Johnson had between his first and second games.

A good deal of mystery shrouded Pittsburgh's pitching choice today, with the prevailing opinion being that "Jughandle Johnny" Morrison was to start, to stick as long as he was effective, and then give way to Aldridge, who pitched his last

victory only on Monday. Aldridge, however, is the most rugged member of the Pirates staff and his mates are confident that with two days' rest he will be in top condition to make his bid for a third triumph today.

Managers Confident.

McKechnie and Harris both agreed that any advantages to be gained by the postponement were about equally divided and both were equally confident that they will pull out the decisive victory.

The Senators are just as much afraid of Aldridge as we are of Johnson," said McKechnie, "and Vic will be ready to go out at top speed today. I think he would have done but the additional day of rest will give him just what he needs."

At the same time, McKechnie intimated that he might be able to count today, if necessary, on Lee Meadows, bespectacled veteran, whose arm went bad after the first game, and necessitated a slight operation to straighten the muscles.

Meadows has recovered rapidly, McKechnie said, and may be in condition to pitch effectively, with another day's rest. Lee has been warming up regularly the last two days. If Aldridge is not able to shoulder the entire burden, Meadows may get back into the fray.

Harris, Johnson and Clark Griffith, Washington president, mapped out their strategy at a council of war in the clubhouse and it was a disappointment to them to have their plans put off. The players, as a whole, took the postponement calmly, though there was evidence of the strain that is upon both teams and their desire to reach a conclusion as quickly as possible.

Bumper Wheat Crop Reported in Sweden

STOCKHOLM, Oct. 15.—(AP)—The breadstuff crop in Sweden this year is more than twice as large as that of last year and the requirements for imports of American wheat flour will be correspondingly reduced. Not since 1921 has there been such a harvest. The greatest gains have been made in rye and wheat sown last fall. The unusually mild winter is believed to have been chiefly responsible.

The yield of rye has been more than sufficient to satisfy the country's normal needs and the calculated requirements for imports of wheat have been reduced from 339,000 tons in 1923 to 180,000.

FOOTBALL TEAM PREPARING FOR PLANT CITY GAME

Coach Welch Put Players Through Stiff Workouts in Anticipation of Hard Game; Team Shows Improvement

HARLAN W. KELLEY

Coach Welch is driving his men hard this week in preparation for the game with Plant City Saturday. It is a much harder task than would ordinarily be supposed as Plant City is represented by a very strong team this year and Sanford has great need for improvement before it will be in proper shape to tackle a team of the calibre of Plant City.

Although the showing of the team in the St. Cloud game was a vast improvement over the showing at Leesburg the week previous, there are yet many rough spots to be ironed out and glaring faults to be corrected. While the team seemed to be playing very good football to the casual or inexperienced observer last Saturday, the opposition was too weak to make mistakes particularly noticeable. It will be different, however, in the case of Plant City. It is with this in mind that Coach Welch is driving his men so strenuously this week.

The men are getting much needed drills in punt and pass formations and are also perfecting their defense for these plays. It was the weakness in this department of the game that was outstanding last Saturday. A great deal of improvement can be noticed already, and the prospects are that Plant City will face a better all around team than did St. Cloud.

Hard scrimmages and daily laps around the track are showing their results in the splendid conditioning of the men. It begins to look like a very hard fought battle with Sanford's chances improving with each practice.

Brown To Be Able To Play Against Tech On Saturday

UNIVERSITY OF FLORIDA, Oct. 15.—(AP)—Florida's hopes rose somewhat on Fleming Field yesterday, for Dick Brown, one of the most consistent and hardest driving yard gainers Florida football history has known, returned to the fold and looked as if he means to play some corking good football Saturday when the Gators of Florida hurl themselves into the teeth of one of the fiercest blowing Tornadoes Dixie battlefields have seen in years.

Horse Bishop, another sparkling halfback, with fine possibilities, who with Brown, were the only Gators who did not get into action last Saturday, was again in togs yesterday and looked all determined to aid in repelling the Tech storm, if it lies within the power

Dodge Brothers Dealers Sell Good Used Cars

One of the Most Valuable Automobile Franchises in America Is OPEN!

This opportunity will appeal irresistibly to some aggressive business man, or group of men

For more than a quarter of a century, C. W. Nash has been a conspicuous figure in the automobile world. His career at every point has been marked by success. As he has progressed, the army of dealers who distribute Nash motor cars throughout the Nation have, month after month, and year after year, received their full share of the prosperity that has followed each new advancement of this foremost motor car builder.

with a powerful, strongly financed, most successful organization; if you desire to enter a sound, profitable, clean business, we would like to tell you about the Nash dealers' franchise. We would like to tell you how Sales opportunities will be built for you through the expenditure of millions of dollars in National advertising and how every year your franchise will be more valuable. We would like to tell you how others in far less promising communities than this have built splendid business.

As a result the Nash contract is rigidly regarded by automobile men as one of the most valuable and profitable. If you would ask an established Nash dealer to estimate the value of his franchise you would be amazed at the high price he would set as its fair earning power. As a Nash dealer, one man in a small Southern town is doing a \$140,000 business with but \$10,000 invested. Another Southern man does a \$280,000 business on a \$25,000 investment. Yet, despite the fact that the Nash franchise is so valuable the right kind of a man, or group of men, can obtain it in this community without a penny's cost. The opportunity is obvious and every ambitious man who is not irrevocably anchored will thrill to its promise.

The Martin-Nash Motor Company of Atlanta and Jacksonville, Southeastern Distributors, have an unusually liberal plan of cooperating with you in sales and service development, as well as a plan for sharing in your own advertising.

Get the facts now. The Nash Agency will soon be placed in your city. A moderate investment is necessary, plus energy and foresight, but the franchise provides safeguards that absolutely insure the invested capital.

Before you right now is a real opportunity. Come to Atlanta. Wire us. Phone us. Or sign the coupon, and a representative of this organization will bring ALL the facts to you.
