## B. Hugh Ansley Named Herald's Sports Editor

J. Marion Harman Sr., executive editor of The Sanford Herald, revealed today that B. Hugh Ansley has accepted appointment as sports editor of the Herald. In announcing Ansley's acceptance, Harman said, "We are pleased to have Hugh join our staff. His previous athletic activities and energetic support of youth activities well qualify him for the job."

Ansley is a graduate of Lyman High School in Longwood, where he held many offices in student government. In his senior year he was selected All Central Florida tackle in football. Other high school athletic honors included Honorable Mention All Central Florida tackle and Honorable Mention All State Tackle.

Ansley then attended Stetson University where he performed as tackle for the latter squad. During this same time he boxed in amateur fights in Orlando. His other athletic endeavors include baseball, wrestling, and golf.

When he accepted the appointment Ansley said, "It is my desire to furnish the readers of the Herald a complete and accurate local sports page. We of the Herald plan to cover all phases of Sanford and Seminole County activities. Such a complete sports page will require the cooperation of all sports clubs, and it is my hope that they will contact me concerning any activity that will be of interest to our readers. It will also be pleased if sportsmen will contact our office concerning events."

Ansley voiced particular enthusiasm in youth's activities and local clubs. "All phases of sports will be covered — football, basketball, baseball, tennis, golf, bowling, hunting, fishing, camping and any other sport — to the extent of cooperation and information given by the various clubs and organizations."

Ansley has attended the University of Houston, University of Tampa, and on returning to Stetson, where he is presently a senior student of education and psychology. He has written free-lance for several southern newspapers and was news-caster for KGUL-TV in Galveston, Texas.

## Principals To Be Guest Speakers At Kiwanis Meet

Principals of Seminole County Schools will feature at the noon luncheon meeting Wednesday of the Sanford Kiwanis Club.

## Women's Golf Assn. To Open Season

President Ruth Herron announced today that the Sanford Women's Golf Association will begin its 1956-57 season this week. The monthly luncheon will be held Wednesday, Sept. 26, at 12:30 at the Mayfair Inn Country Club.

## Weather

Mainly cloudy with occasional showers today and tonight; Tuesday partly cloudy with widely scattered showers; low tonight 73-77

## Herald Acquires 32-Page Press

Fred Perkins, Publisher of The Herald, announced today that The Sanford Herald has purchased a 32 page Scott Rotary Newspaper Printing Press from the Dallas Times of Dallas, Tex.

It will require approximately three months to dismantle the press in Texas, ship it to Sanford, and erect it in The Sanford Herald press room.

The negotiations for the purchase of the press have been going on for some time and were just completed this past Saturday.

"However," he said "this newspaper will continue to stress local coverage, in our news columns, in our society columns, in our sports columns, in our editorial opinions, and in our efforts to bolster the growth of the local area."

This is the first in a series of expansion plans that will cost approximately \$50,000, Perkins said this morning.

"The Sanford Herald will continue to keep up with the expansion and growth of Sanford and Seminole County," he said.

## Board To Consider Five Ordinances

Five ordinances will be considered by the Board of Sanford City Commission at their regularly scheduled meeting tonight.

Special meetings brought the 1956-57 General Government budget into balance and combined with the approval of the Utility Department budget earlier, the entire budget will be covered in one ordinance for the next fiscal year's spending program.

Following a special meeting with the Civil Service Board of Sanford on Thursday evening, the pay schedule, which has been a matter of controversy in both City Commission and City employee circles, comes up for approval by ordinance.

An ordinance creating the position of Finance Director will be presented for first reading and probably passage. The ordinance will provide H. N. Bayer with a supervisory title over the entire group of finance offices at City Hall. Other officers will be appointed as Deputies to the Finance Director.

And additional ordinance for consideration at tonight's meeting will include an amendment to the licensing ordinance in regards to the licensing of sound trucks when used for the holder's own use for advertising.

An amendment to the admission tax ordinance which will direct all taxes derived from tax on Memorial Stadium admissions to the general fund of the city, will be presented for consideration.

Top items on the agenda for tonight will include a discussion with Architect John Burton, IV regarding the Sanford Civic Center, the proposed fire station, and Swimming Pool. It is expected that the discussions relative to the new structures will lead to the adoption of a Capital Improvement program for the city of up to a half-million dollars.

Street lighting bids and bids for two new pumps for the Sanford Fire Department, on the agenda tonight for consideration, are part of the overall Capital Improvement program and will follow, perhaps, the discussions with the architect.

A request to park a house trailer on private property and a request by the Sanford Merchants Association for assistance in paying last year's bills on Christmas lighting will also come before the commissioners for discussion.

## Representative To Give Social Security Info

A representative of the Social Security Administration District Office in Orlando will be at the Chamber of Commerce Building in Sanford on Friday, October 5, Friday, October 12 and Friday, October 19, 1956 between the hours of 9:30 a. m. and noon.

## OHS Graduates Enter Schools, Begin Careers

By MARIAN JONES OVIDO—As the 1956-57 school year gets underway, we look around to see what has happened to the 1956 graduates of the Oviedo High School.

We understand that Ray Fore, captain of last year's basketball team, and Nadine Bostick, salutatorian of the 1956 class, are going to Orlando Junior College.

Pat Walker, valedictorian of the 1956 class and recipient of so many of the honors and awards, has taken up the nursing profession, having entered for her training at Orange Memorial, Orlando. Lorne Mathers, American Legion award winner, and Johnny Selph, talented musician, are going to vocational school in Orlando.

Pleasy Jean Smithson is now a resident of Orlando but under a new title, Mrs. Harold Lyles, married Sept. 9.

Dorothy Simmons also resides in Orlando but has taken up a business career. Olivia Holland, who was already married when she received her diploma, is busily engaged in household duties.

Terry McMahon and James McGill have chosen the business world, also, as well as Hubert Priest and Freddie Wheaton, both prominently known to basketball fans, and Myron Willis, Boys State representative.

Keith Malcolm, voted by the spectators as the most valuable man to the 1955-56 basketball quintet, is at Barber's College, Miami. Good luck to all whatever they do.

Now we turn to the college registrars. The University of Florida, Gainesville, will claim the largest number of these.

Walter and Edward Dosh both returned to Sanford, Walter having caught up with Ed due to Ed's two-year army stretch. With Ed in Gainesville are his pretty wife, Sadye, and Ed Jr., a new addition to the family.

Bob Shaffer returned as a Junior this year. Donald Hardy, who had three years at Gainesville, prior to two years in Germany, has returned to resume his engineering career there. As Don has a five year course, we do not know his status—Junior or Senior. Don took his wife, Georgina, with him to Gainesville, too, to help him with his studies.

Johnny Jones returned to the University as a Sophomore this year. Johnny is looking forward to being with the Varsity basketball team this year. Johnny, who has a four-year scholarship on his basketball record, finished as second highest scorer on the Freshman team last year even though he had been switched from a forward to a guard. Johnny has chosen an engineering profession, also.

Erwin Abel, who entered the University in February last term, returned to resume his studies. Erwin did not have much vacation, as he attended summer school. He also has a brand new wife with him in Gainesville, the former Ann Leinhardt. Ann, who would have been a Junior at FSU this year, plans on transferring to Gainesville.

Ann Pierson, salutatorian of the 1955 class, has returned to Orlando Junior College this year.

Miss Rebekah Tuby, Miss Queen of the 1955 class, and Miss Nancy Myers are sophomores at Southern College, Lakeland, this year. Rebekah attended summer school there. Nancy helped with the recreation program in Oviedo during the summer.

## Mrs. M. Gradick BPW President

Our faces are red! In a picture, appearing on the front page of Friday's Sanford Herald, the president of the local Business and Professional Women's Club was given as Mrs. Sue Stevenson.

## Herlong's Record Hit By Lund

Declaring the record of Cong. A. S. Herlong Jr., to be an insult to the people of the Fifth Congressional District, Arnold L. Lund, Republican nominee, stated that he had not earned the right to be re-elected.

Lund charged that Herlong had either voted against or failed to vote on many important congressional issues. He stated that Herlong had voted against military aid for the Allies and that he failed to vote an appropriation of the Un-American Activities Committee or for the minimum wage law.

"I would rather have our battles fought on foreign soil," he said. "We should not have another 'Pearl Harbor', Lund stated. We must recognize the Allied nations as the outer borders of our defense. I deplore Herlong's action in voting against military aid to our Allies."

"The Un-American Activities Committee is one important means to keep subversives and Communists out of this country and out of the government," he said. "I deplore Herlong's failure to keep this committee alive."

Lund also attacked Herlong's stand on the farm question as a "do-nothing."

"Herlong was against both the proposal for the soil bank as he was against the 90 per cent parity. He offered no other solution for the problem. Didn't he think this to be an important issue. He was in fact an independent 'do-nothing'."

Lund also attacked Herlong for not protecting public interest by voting for a bill exempting natural gas consumers from public utility regulation. He also ridiculed a previous charge made by Herlong that one of his bills had been "pirated." He claimed that Herlong failed to vote on a similar bill when it came up in Congress nine months later.

Accusing Adlai Stevenson of having a promise for everyone on anything, Arnold L. Lund, Republican Nominee for Congress at a meeting of the Lake County Republican Club Friday night stated the presidential aspirant "needs a shove" to continue his campaign of scoping pledges to the crowd.

"His running mate pegs him in the primary," Lund declared. Ed Lee Kefauver accused him of having a speech for New York and an entirely different speech for Florida.

"Stevenson is betraying the South on two vital issues," Lund said. "He wants to abolish the right to work" laws that the South enjoys for the freedom of its workers. He has challenged the President to enforce the Supreme Court decision on segregation. Does he want like to call out the Federal troops to do that or is that what he has in mind if he is elected."

Lund deplored Herlong's support of Stevenson charging that such support was inconsistent with the Congressman's stand in signing the Supreme Court manifesto.

"I cannot understand how he can support a man who is openly betraying the South on this important question," Lund declared.

Lund also assailed the voting record of Herlong as a poor one. "By his failure to be mindful of the needs and welfare of the people, the small wage earner, labor and the farmer, he has forfeited his right to return to the office which he so badly neglected in these eight years," he said.

## Meet Sated Oct. 1 To Form Mental Health Association

All persons interested in the formation of a permanent organization of the Mental Health Association are urged to attend a meeting next Monday Oct. 1, at 8 p.m. at the County Educational building, Commercial and Wood.

### National Kids' Day In Sanford

WHO'S THE KID—A. L. Wilson, president of the Sanford Kiwanis Club, diked out in short pants, buster brown collar, big silk tie, and tam o'hanter, waits in line calmly eating ice cream and reading his comic book, as showtime draws near. It was the Sanford Kiwanis Club's participation in National Kids Day—a free movie, ice cream, and comic books free for the children, arranged through the management of the Ritz Theatre. (Staff Photo)

## Drivers License Renewals 25 Pct. Behind Last Year

Seminole County drivers licenses are approximately 25 per cent behind the renewals made last year, according to Seminole County Judge Ernest Housholder.

Last year, Judge Housholder said, during September, 12,987 licenses were sold. There is an expected increase of at least eight to 10 per cent which means that if everyone secures a license, following the law, it must be done not later than Oct. 1, 1956, he said.

All licenses, during the last week, will be sold at the Court House during the hours of 8:30 a.m. to 5 p.m., weekdays and on Saturdays from 8:30 a.m. to noon.

Judge Housholder reminds Sanford and Seminole County motorists "that only a limited number of employees can work in the space allotted in the Court House," and he urges every one who has not attended to this item, to please do so immediately and avoid the last days an hours of the rush, waiting to be served.

In a tabulation of drivers licenses sold up to the present time, Judge Housholder said that 529 were sold at Oviedo; 35 at Lake Monroe; 183 at Bear Lake; 112 at Longwood; 87 at Geneva; 121 at Lake Mary; 713 at Altamonte Springs; 165 at Prairie Lake; and 7,763 at the Court House in Sanford. This is a total of 9,337 sold to date compared to the more than 12,000 expected to be sold in Seminole County this month.

## Hospital Notes

SEPT. 21 Admissions: Mrs. Ruby Griffin (Sanford) Discharges: Irene Lacey (De Bary) Frank Riddell (Sanford) Edith Black (Sanford) Mrs. B. ## Youths Jam Theatre To See Kids' Day Movie

It's hard to estimate just exactly how many boys and girls attended the National Kids Day movie Saturday morning.

Sponsored by the Sanford Kiwanis Club as a part of their observance of the nationwide events, the movies were arranged through E. Kimbrough, manager of the Ritz Theatre.

Upward of 2,500 children lined up for the first performance of the feature in color and four cartoons.

At no time, with the lobby of the Ritz theatre packed and jammed, did line extend, four deep around the corner and out Second St. to the corner of Palmetto Ave.

Waiting for the youngsters of all ages were cups of ice cream and comic books, all free and with the compliments of the Sanford Kiwanis Club.

In hand to guide the youngsters into the show were A. L. Wilson, president of the Sanford Kiwanis Club, Ed Lane of the club's publicity committee, and Floyd Palmer, chairman of the Kiwanis Club's Marianna Plan committee. Also on hand were George Morgan and Joel Field, members of the club.

So large was the Saturday morning crowd taking advantage of the Kiwanis Club's National Kids' Day celebration that two shows had to be hastily scheduled.

The first show began at 2:30 and the last one was scheduled for 11 o'clock.

Every seat was filled, on the main floor and both balconies. Guests of the Sanford Kiwanis Club and the Ritz Theatre were the children of the Methodist Children's Home in Enterprise.

A. L. Wilson, club president, diked out in short pants, buster brown collar, big bow tie, and a tam o'hanter, was the start of the morning's event as he sauntered through the crowds keeping children calmed down and assuring them of ice cream and comic books.

Floyd Palmer, also with shorts and white shirt, gave up his morning's business to help the children unload from cars, park their bicycles, and look after their safety.

Three representatives of the Sanford Police Department were on hand to help handle the traffic problem caused by the immense crowd and the unloading cars.

"TIPPECANOE AND TYLER, TOO!" This Whig slogan of 1840 referred to General Harrison's rout of Tecumseh's Indians at Tippecanoe; and to John Tyler of Virginia, making his second vice-presidential cry.

To sell a Tippy canoe, or find a tiler too, elect Want Ads to do the job! Call 1821 to reach "campaign headquarters."

## 3 Dead, 42 Missing Are Left In Path

NEW ORLEANS (AP) — Hurricane Flossy, packing 100 mile an hour winds, swept toward northwestern Florida today, leaving three men reported dead and 42 missing after it lashed southeastern Louisiana.

The New Orleans Weather Bureau said the storm, sixth of the season, was centered at 11 a.m. EST about 80 miles southwest of Pensacola, Fla., and moving toward the east-northeast about 12 miles an hour.

"Movement is expected to continue toward the east-northeast at the same rate, bringing the center inland between Pensacola and Apalachicola, Fla., this afternoon or tonight," the bureau said.

The Red Cross in Biloxi said it appeared there was no further threat to Mississippi's Gulf coast. The hurricane had winds estimated at 100 miles per hour near the center and gales extended outward 150 to 200 miles from the center.

The Weather Bureau reported a large squally area off the extreme northwestern Florida coast was causing winds to blow offshore and hold back the danger.

"This creates a dangerous situation," the Weather Bureau said, "since the hurricane winds will suddenly shift and may cause a rapid rise in the tide to about eight feet. This situation exists all the way from Pensacola to St. Marks."

Residents of low-lying areas in the southern Alabama and northwestern Florida areas were moved to emergency shelters while hundreds of persons in southern Louisiana began moving back to their homes.

The storm, which developed early Saturday, originally pointed toward the New Orleans area but took a northeasterly course early today.

Heavy rains fell along the Gulf coast in advance of the storm. The Weather Bureau cautioned persons living in southern Alabama and Georgia and extreme northern Florida to watch for possible flood warnings.

Harold D. Adams, Mobile, Ala., was killed early today when his auto skidded on a rain-slickened suburban road.

Two men were assumed drowned below the mouth of the Mississippi River. Capt. V. J. Greene of the motor vessel Carport reported that Charles Ayres 47, Brookline, N. Y., chief mate of the 300-foot vessel, fell overboard and Second Mate John Ritter jumped in after him and disappeared.

The Coast Guard searched for more than 40 men reported stranded on boats and all right off southern Louisiana.

The Virginia D., a 90-foot tug, sank in Mobile Bay, about 10 miles south of Mobile, early today but the four-man crew was rescued.

## Rev. Delgado's Talks Continue Tomorrow Night

The series of lectures being presented by Morning Circle No. Nine of the First Presbyterian Church will continue Tuesday evening at 8 o'clock in the Church Sanctuary, when the Rev. Oswald Delgado of Winter Park will speak on Presbyterian Beliefs.

This will be the second in a series of three lectures, followed by a question and answer period. The final one will be Sunday night, Sept. 30.

As an added feature for Tuesday night, Mrs. Fred Williams, chairman of the series, has announced that a question box will be available for anyone who may desire to ask any question concerning the talks of the Rev. Delgado.

The service will be held in the Church sanctuary to accommodate the anticipated large attendance. The public is cordially invited to attend.

## Additional Local News On Page 4

The Kiwanis Club of Sanford will be represented at the 1956 convention of the Florida Kiwanis District at Fort Lauderdale, October 7-9. Club President A. L. Wilson announced today.

Local delegates to the convention will be A. L. Wilson, Roy Mann, and Ed Shindler, alternate (names of club's representatives are Capt. Robert W. Jackson, B. B. Crumley and Ralph Smith).

Mr. Simon H. Reynolds, trustee of Kiwanis International, a Rochester, New York businessman, will be a featured speaker during the three-day meeting at the Governor's Club.

Delegates from 115 clubs, representing a total membership of more than 8000 business and professional leaders, will participate in the various sessions. Committee conferences, a discussion of plans for the coming year, and election of officers will highlight the convention program, Wilson said.

The presiding officer at the three-day session will be Mr. M. Oliver Brainerd, Governor of the Florida Kiwanis District, and Postmaster of the Pensacola Post Office.

Mr. Reynolds, one of the principal speakers, and the official representative of Kiwanis International at the meeting, is a 21-year veteran of Kiwanis.

He has served as president of his home Kiwanis Club in Rochester, as governor of the New York Kiwanis District, and as chairman of a number of district committees. He has also (Continued on Page 4)

# Seminole Smoke Signals

## Gossip Clouds

What is this I hear about Kay Ivey seems she has her eye on a certain sophomore boy who is becoming a very outstanding player on the football team this year. Could his name be Duke?? I wonder what Allen Swain has against girls. You never see him talking to any. Maybe he's allergic to them.

Why is it that Tommy Waters (the sophomore) is always picking on boys that are so much bigger than himself? And he just loves to flirt with girls that are always about three feet taller than he is.

You never walk down the hall without seeing Jane Nelson and Joe Russi. They will probably be going steady the rest of their lives. Good luck to them.

I have heard talk going around among some of the older girls in school, that they simply can't see why Johnny Berley has to be so short and cute. You would think that he would grow just a little bit taller for their benefit wouldn't you?

Have you boys noticed the new Senior girls whose name is Betty Ashby? She sure is a knock-out. And she has a swell personality to go along with her looks.

Who is this we see Henry Cason talking to every second lunch period? The conversation seems to be very interesting too.

Why do we always see Jeff Filby and Ronni Russi coming back from lunch together every day? Come, now, someone let us in on the news.

I wonder if there is some kind of romance going on between June Jennings and Tony Getman? They check each other papers in English, and some how, they always come up with the highest grades in the class. Could it be that Tony knows all the answers?

Eva Joe Wynne is sporting a new type of earring this week. Seems she is having quite a bit of trouble with her ear. Maybe she doesn't like to play volleyball very much. Is that the reason Eva Joe?

There is a certain Senior girl who for the past three years has had a slight crush on a certain Senior boy. What is it all about Margaret?

Hey! Does anyone want to know how to spell Schirhard. If so, just ask Phillip Byrd. I heard in the hall the other day that he had finally learned how to spell it. Come now, Phillip. How?

I hope everyone noticed the bulletin board by the office last week. It was designed and made by Juanita Wynne and Lynda Yeakle. It carried the slogan that seemed to be going around school last week which was "Dump Cocoa". The sign had eleven Indians, each had a cup of Cocoa, spilling it.

It looks as if the Stanleys like the Prices and the Prices like the Stanleys. It seems that Helen and David are following in the footsteps of big brother and sister, Al and Sylvia.

Why was Edith Hanson in such a hurry to ask a certain Sophomore boy to the Girl-Break-Back-to-School dance before someone else asked him?

I am sure everyone enjoyed the football game dance, which was sponsored by the Junior Class. Congratulations Juniors. The decorations were very good, and the floor show was also good.

Glad to see that some of our Senior girls are still in contact with the graduates of '55 and '56. For instance Shirley A. is keeping in touch with Johnny H. and Bobbie C. Is forever looking for a letter from Bob. Also Jeff F. is still going with Robert M. Good luck kid!

Have you noticed kids that every time Pete M. walks by Betty J. mumbles something to herself. What say Betty?

Hey, Ronnie R. what is this great ITEM keeping you at lunch? You have been late quite a bit you know? Could it be that eighth grader?

Hey Freshman! Get a load of this. There is a cute Sophomore boy, brown eyes, brown hair, and name Tommy Tillis. Come on you said get busy, WOW!

Phillips what is it in you say you're OVERT I don't seem to remember the exact words. It was female, wasn't it?

Seems as not one can get any think out of Ann V., except when we ask her she has any interest here, at SES. She always says "oh yes" there's a good looking GUM around that is very interesting.

Wanda Barso is a new girl around school, you guys come on and get busy. She's a blonde!

Ruthie N. sure looks lost this year. Do you miss Gene, Ruthie? GUESS WHO?

This is a cute Junior boy, curly

## National Guard Unit Visits SHS

By P.F.C. C. Robert Carver  
Last Tuesday several of Seminole High boys who are members of the Sanford National Guard Unit, presented an assembly program for the Seminole High boys. The Speakers on the programs were P.F.C. George Houston and P.F.C. Robert Carver.

A talk on the National Guard history and the opportunities that the Guard unit in Sanford has to offer young men of Seminole High was given by P.F.C. Carver, while Houston spoke on equipment.

Through co-operation of Mr. Bracken and the city, the National Guard Unit was able to bring their Armored vehicle, the M-75 (armed Personnel Carrier) to the school. This caused much conversation and excitement among the boys as they were allowed to climb in the vehicle and have a look around. During that time the functions of the M-75 were explained, and how it would be used if a war should break out.

With the Armored Vehicle, there was also a jeep on display. In the jeep a radio was setup, and was demonstrated by Guard members. This caused much conversation among the boys as they took a quick look under the hood.

After the demonstrations everyone returned to their classes. The Guard vehicle prepared to depart for the local Units Motor Pool.

Future plans of the local Guard unit is to try to have a precision drill team made up entirely of enlisted Seminole High boys so that competition drills might be held between other schools that already have drill made up by boys enlisted in the National Guard.

Other members who participated in the program were: P.F.C. Leonard Lepere, P.F.C. Jim Blythe; and Pvt. Ed Sammy Dunn.

## Cheerleaders Read For Sports Season

By MARY JANE FLYNT  
The cheerleaders of Seminole High have been working since Aug. 15, preparing cheers for the coming football and basketball seasons.

Headed by their captain, Doty Metts, they have learned several new cheers and have practiced up on all the old ones.

This year looks as if it will be a good one as far as school spirit is concerned. The whole student body has been behind the cheerleaders in keeping up the pep.

The cheerleaders for this year are: Seniors Captain Doty Metts, Juanita Wynne, Nancy Cash; Juniors: Peggy Jane Lundquist; Shirley Morgan, and Jeff Filby; Sophomores: Linda Yeakle; Freshman: Kay Ivey.

An automatically invention that is needed is brakes that will automatically get tight when the driver does.

black hair, brown eyes and dark complexion. Plays football, and drives a Chevy. He has a sister who is a cheer leader. Know em?

This is an ideal Senior boy. He is well liked by everyone especially Ann V. He is active in football, and has a nice new Mercury to haul the girls around in. Nice, huh, girls? He has light brown hair, blue green eyes, and a nice personality. Know him?

This is a cute blonde, a new student to some of us, but to most of us she is just a good friend who has returned. She has blue eyes, and is a senior. She and her partner (Bobbie L.) won the Jitterbug contest at the "Back to School Dance," Friday a week ago. Know her?

SCHOOL LEADERS, BANKERS, and students discuss the Guidance Conference sponsored by the DCT Club at Seminole High School. (Left to right) just prior to the conference are: T. E. Tucker, President of Florida State Bank, Willis Peacock, vice President of the bank, Andrew Bracken, Seminole High School Principal, Miss Nancy Cash, President of Tri-Hi-Y, and member of the Sally Staff, and cheer leader; Miss Nan Cushing, Vice president of the Tri-Hi-Y, cheer leader, and member of the Sally Staff; Mrs. David Gatchel of Florida State Bank; and Louis J. Girard, D.C.T. Coordinator. (Staff Photo)

## Outstanding FFA Boys To Receive Savings Bonds

A. J. CLEMENTS, REPORTER

A special meeting of the FFA was called Wednesday afternoon by Bill Thompson our Chapter President. The meeting which consisted of the Advisor and the officers, was called to discuss the forth coming activities.

Advisor Mr. West announced that four saving bonds would be given to the most outstanding boys this year following bonds will be presented:

\$25 bond to outstanding chapter farmer;

\$25 bond given by Sherwood Tractor to the boys with the best Farm Shop program;

\$25 bond given by Mr. Hunt to the boy showing the best leadership in the chapter; and \$25 bond for boy with the outstanding Supervised Farming program. This bond is to be given by the Farm Bureau.

The committee decided to have one recreation night each month consisting of movies, parties, and other activities. Discussions and plans followed for the annual Christmas Party and the special attraction which will take place that night.

There are two things some people never seem to get—all they want, and all they deserve.

## In Defense Of Presley

By ANGELO COMPAIN

Don't let the title above mislead you; this is not intended to be read by fans of the "inimitable". Don't read this if you like Elvis Presley. Don't read this if you should consider yourself short-sighted and/or inconsiderate. Do read this if you're human, and do try to understand.

To over one-quarter-million squealing teen-age femmes who have seen their heart-throb in person, Mr. Presley is capable of holding a most-distinguished and to another unattainable position in their sweet little hearts. To millions more of these emotional female fans of his, Mr. Presley is a myth-plus, an answer to a teen-age prayer, a superman, a knight in shining armor, and, I quote, an "ah-aaah-aaah". Obviously, they like him.

To probably one-half the nation, Mr. Presley himself is believed to be a little too emotional, a little carried away, and even a little mentally unbalanced. Many parents think Mr. Presley is responsible for their teen-age daughters' spells, frenzies, and other demonstrations of admiration for him. Believe me, considerate parent, your daughter is old enough to be responsible herself for what she does. If she carries "his" initials on her arm with a switchblade, remember it's her arm. It's no time to hunt "Hound Dog" out of season.

To me, Mr. Presley seems and acts absolutely human. After all, isn't he? You can tell he enjoys

singing. Can you blame him if he's a little "too active"? Who can contain himself if he wants to tell about something that's really exciting? And let's face it: Elvis Presley can sing, and well, too. He is a wonderful singer, if I may commit myself. Probably, I admit, he does swing and sway and rock and roll more than the average singer does. But, if it's a fault, I haven't we all our little faults? Suppose we try to search others for their virtues and ourselves for our vices.

In my opinion we shouldn't argue over such trivialities as what a singer looks like when he sings: we would then be using the wrong one of our senses. There shouldn't even be a controversy over anything as unimportant as the way a singer "keeps time". Let Mr. Presley rest in peace—excuse my figure of speech—and try to worry more about the way a singer sings.

Couldn't we accept him as he is and for what he is? Apparently, we have no other choice; Elvis Presley is and always will be Elvis Presley. He is as essential to the teen-age diet as hot dog—Hound Dog—and as American as baseball. And, if only in the sense of patriotism, we should be proud of America's contribution to the current world-of-music, instead of trying to compare him—and so degrading his originality—with a currently-popular foreign-land-imported—no offense meant—crooner.

Couldn't we accept him as he is and for what he is? Apparently, we have no other choice; Elvis Presley is and always will be Elvis Presley. He is as essential to the teen-age diet as hot dog—Hound Dog—and as American as baseball. And, if only in the sense of patriotism, we should be proud of America's contribution to the current world-of-music, instead of trying to compare him—and so degrading his originality—with a currently-popular foreign-land-imported—no offense meant—crooner.

## Gulf Life - that's my company!

Yes sir, Gulf Life has made it possible to do something big for my boy. (I wish my dad had done the same for me!) I've bought life insurance for him. I'll pay for it until he's 21, then he can take it over.

Age makes a BIG difference. I'm 40 and he's 10. He can get 2 1/2 times as much Gulf Life Preferred Risk as I could buy for the same money. Ask your Gulf Life Representative about Father-Son insurance.

## Job Application Procedure Offered SHS Girls In Talks

By PAT HARRINGTON

In keeping with the Seminole High School policy of attempting to aid students interested in vocational advantages of a high school certificate, Mr. Chard, the D. C. T. co-ordinator presented a program last Tuesday to the sophomore junior and senior girls met in the cafeteria for a series of talks on guidance in applying for a position.

The talks, giving an employment view of an applicants interview were made by President Gene Tucker of the Florida State Bank, Willis Peacock J., and Mrs. David Gatchel, also of that Bank.

Mr. Peacock listed the eight points that he looks for in an interview:

1. Has the applicant graduated from high school?
2. Method of approach for interview.
3. Neatness in appearance and dress.
4. Personality—ability to talk.
5. Initiative—desire to better oneself.
6. Ability to get along with others.
7. Social habits—companions, social activities, reputation in community.
8. Dependability—found by checking school records and references.

Mrs. Gatchel presented a demonstration illustrating the proper and improper way to approach an employer for an interview.

Mr. Tucker mentioned that his bank is co-operating with the Diversified Co-operative Training Program and has, at present, two opportunity for placement there.

**Jokes**  
By BILL THOMPSON  
Mr. Kettle: Brantley could you tell me if I can get to the park by going through this gate?  
Brantley: I guess so Coach. A load of hay just went through.

Pat: I maintain that lovemaking is just the same as it always was.  
Taddy: How do you know?  
Pat: Just read about a Greek maiden who sat and listened to a lyre all evening.

Mr. Kettle: Brantley could you tell me if I can get to the park by going through this gate?  
Brantley: I guess so Coach. A load of hay just went through.

## Meet Our Faculty

Daughter of Mrs. A. B. Stevens and the late Mr. Stevens, Mrs. Mary Joyce Bateman attended schools in Sanford through the tenth grade before moving away. She graduated from Florida Southern at Lakeland.

Despite her youth, Mrs. Bateman is entering her ninth year of teaching. She previously taught for three years in Kissimmee, two years at Aiken, S. C., and this is her third year at Seminole High. She is an able and willing worker in all projects for young people in which she is asked to help.

This year, she is Faculty Advisor for Diversified Cooperative Training and Co-Sponsor of the newly-formed Journalism Club.

Advice to speakers: In the old farmer's words "when you're through pumpin, let go of the handle."

Mrs. Mary Joyce Bateman (Staff Photo)

## Pep Rally Big Success

By Shirley Anderson

To all those who missed the "Giant Pep Rally" Tuesday night, you missed a swell time.

The Band, Majorettes and Pep Club worked hard to bring us a miniature half time under the direction of Ernest Cowley and Barbara Robinson.

John Schirard, president of the Seminole Chiefs Club gave us a short history of the club and then turned the program over to Coach Fred Ganas who called to our attention the new electric score board, a gift of the Florida State Bank. Mr. Ganas then introduced "Andy" Bracken who thanked the people for coming to the "Rally" in spite of the bad weather.

The highlight of the evening was the introduction of the football players and assistant coaches. We then watched various plays on the field while Coach Bill Fleming explained them to the last detail.

Let's all give a big hand to the cheerleaders who worked very hard to make this "Rally" a success.

After talking to various people, it seemed that everyone had a grand time and hoped that we could have many more rallies to help show our team "we're for you".

Beautiful and Compact Four Bedroom Home Ideal for a Growing Family

WITH THE AVERAGE size of the American family increasing, the demand for larger homes is greater today than for the past fifty years. This spacious one-story home fills that need. Four generous bedrooms are located in the right wing. Bedroom windows are shoulder-high, for the flexible arrangement of furniture. A broad fireplace and built-in for books and treasured knick-knacks make the living room cozy and hospitable. Built-in cupboards in the dining room offer space for the storage of linens and dishes. A breakfast nook in the kitchen provides for quick family snacks. In addition to the full-size bath in the bedroom wing, a lavatory off the utility room is handy to the work areas of the home.

### Redoing Kitchen Is 'No. 1 Fix-Up' Project To Many

Color and convenience are the keys to modern kitchen living. Take a long look at your kitchen and see how you can make it more attractive and livable. Perhaps all you need is a new coat of paint to brighten it up and give it a fresh, new look. There are many new, easy to apply paints available in a wide range of colors. Color can also be added with new kitchen appliances in shades to harmonize with your decorating scheme. Colorful floor and counter tiles will add a bright touch and also prove practical and easy to clean. Are your cupboards and cabinets big enough and at the right height? Smart new cabinets and built-ins can be installed to save space and eliminate stretching and stooping. You can choose from beautiful woods, stainless steel and enameled metal to suit your tastes and budget. You can save space with the new refrigerators, freezers, stoves, ovens and other appliances which are incorporated into cabinets, put into the wall or used at table top level.

### MIRACLE CONCRETE COMPANY

RED-I-MIX CONCRETE - - - Free Estimates  
309 Elm Avenue, Sanford Phone 1835

Whether you are doing remodeling, repairing or building, you will find their service economical and meeting every requirement. Each load of RED-I-MIX is carefully compounded and scientifically blended to meet your exact needs, and is delivered where you want it, when you want it.

Quality is one of the guiding influences of this firm. During the 47 years they've been in business, they've never found it necessary to sacrifice quality to gain a price.

Contractors and builders have learned to rely on their prices, their products and their promises. You may depend upon the superior quality of any product they handle.

In this friendly community, this fine firm has grown important with the years. Talk over your concrete construction problems with them, expert and scientific knowledge, backed by years of practical experience, are sure to work to your advantage.

MIRACLE CONCRETE CO. was established in 1910, their years of real service to this community are your guarantee of satisfaction in your every dealing with this dependable firm.

### TABLE SAW TIPS

**AP Newseatures**  
DO... set the saw blade so that it clears the stock by no more than one quarter of an inch.  
DO... when cross cutting, hold the work firmly against the miter gauge and feed it into the blade slowly.  
DO... use a push stick when cutting narrow work so that your hand does not come near the blade at any time.  
DO... get into the habit of standing either to the left or right of the blade when cutting rather than directly behind the blade.  
DO... make regular checks to see that the miter gauge is at right angles to the blade, and that the rip fence is parallel with the blade.  
**DON'T...** neglect to use a saw guard except when doing special cutting—and then be extra careful.  
**DON'T...** use the rip fence as a "stop" in an effort to cut several pieces of wood the same size.  
**DON'T...** forget that you will be able to handle extra-large pieces of lumber much more easily with such accessories as a hold-down and a table extension.  
**DON'T...** ever cut wood on a table saw while holding a conversation.  
Ample, modern, electrical features can also "enlighten" your kitchen living.

### OTHER IMPROVEMENTS

Paint, wallpaper, new built-ins in other rooms in the home, when combined with careful planning and ingenuity can help transform even the oldest rooms to fresh-new beauty.  
Heavy ornate moldings, oversized fireplaces and mantels, clumsy book cases and closets, dark woodwork and trim can all be easily and economically eliminated. Wallpaper and paint treatments can help while architectural flaws, and give a new look to old living, dining and bed rooms.

### AN EFFICIENT CLOSET

A great convenience while hanging laundry on your clothesline. It hangs up tops, and prevents your having to stoop to pick up pins. A clean line and pins help to guarantee that your laundry will be as clean when you take it down as when it came out of the suds.

### DOWN AND A TABLE EXTENSION

**DON'T...** ever cut wood on a table saw while holding a conversation.

## Fall Cleaning Can Be Fun

### Fall Cleaning Can Be Fun With Planning

Fall cleaning may be fun project—a time to see up the old and plan some new accessories for the home. It doesn't need to be drudgery.

Find a good outline for chores, the right equipment and proper dress, and you can learn to enjoy the job. Schedule cleaning chores, room by room. Plan your work so that you find time for an afternoon nap.

Some homemakers like to clean one room thoroughly each day, preferring the rotation plan to any other system, giving other rooms a once-over lightly each day.

Other homemakers prefer doing heavy cleaning all in one day; routine chores like bedmaking, dusting and kitchen mopping every day.

A bride has a good opportunity to start out from scratch. She doesn't need to use Mom's methods unless she finds them to her liking, or routine will depend on the equipment—washing machine, freezer; whether she shops for groceries or gets them delivered. It makes a difference in planning.

### TESTED SHORTCUTS

Here are some ideas other young homemakers have established. Perhaps they will help you plan your schedule:

—List all supplies and equipment you need to do the job. Take advantage of new products especially created to make the job easier.

—Get one of the creamy pastes that cover hands and fingernails and apply it before cleaning. It'll help the dirt be more easily removed after your cleaning project.

—Consider these cleaning aids: bottled detergents to make suds for washing dishes, nylons, woolens... water softeners... window cleaners with spray applicators... liquid starch for a bright new look to window curtains... new oven cleaner with its own applicator... A bottle of liquid furniture wax goes a long way... bleach for cleaning and sanitizing bathroom fixtures, kitchen tile, sink, refrigerator and range... sudsy ammonia for grease stained areas... insecticides.

### SPENDING CHORES

Most housewives moving into new establishments will find more conveniences than there were a few years ago, enabling home chores to take on a dual role. Here are a few ideas:

—Clothes may be washed and spun dry while you clean up the kitchen (put out milk bottles, wash dishes, wipe off appliances, shine pots, mop floor).

—Dinner might be cooked with the new stove timers while you shop.

—Dishes might be washed in a dishwasher while you clean an entire room.

—Cook your dinner—casserole, stew or ragout—hours in advance. Have it set to pop in the oven anytime.

—Spend the last few hours in relaxation awaiting your man's return home. Take a bath, put on something attractive. It's a good time to knit, darn, sew on buttons.

—It's a good idea to have the table set, the dinner in the oven and

the kitchen sparkling clean when your husband returns from work. Even if you do not have all the modern appliances you can accomplish that much, and still look relaxed when he gets home.

Post a schedule in the kitchen where you can see it. Put under a "once-a-week" heading such chores as defrosting the refrigerator, cleaning out the pantry of whatever, and under "twice-a-month" urtic mattresses, shampooing area rugs, washing windows.

**GREASE-PROOF WALL.**  
A kitchen wall around the range can be made impervious to grease splatters and easy to keep clean by paneling it with plastic finished headboard. This material with a baked coating in wood grain and marble designs as well as in solid colors is available at well stocked lumber yards.

**CLEAR AS GLASS.**  
Glass, according to its manufacturers, is virtually impervious to wear and corrosion, and has probably the lowest upkeep cost of any material used in a house (if you don't count window washing).

**VERSATILE PLASTIC BROOM SWEEP CLEAN, KEEPS CLEAN.**  
Even brooms are specialized these days. The latest has a plastic brush adjustable to three positions—for sweeping the floor, or dusting walls and ceiling.

It's said to attract and hold dust, thus eliminating dust clouds. The plastic bristles are very easy to wash by simply swishing them in lukewarm soap or detergent suds, then rinsing and hanging to dry.

Bloom is a term used to describe the cloudy look on wood furniture caused by dampness. To remove it, wipe the surface with a sudsy cloth and rinse with a clean damp cloth. When dry, re-wax or repolish the wood.

Experts who make much of the plastic used for housewares state that "warm sudsy water, allowed by a clear rinse, is all that's necessary" to keep them clean.

Before tackling "dirty" housework, scrape your fingertips over a bar of soap to fill up the space between the nail and skin. Soil won't have a chance to mar your hands with an ugly brown nail line, and the hardened soap will wash away later as you wash your hands.

A trick to remember for white trimmings: iron with the straight of the material. This keeps linings flat. To make sure that the lining does not roll over, run large basting stitches around the edges of collars and cuffs before washing; remove after pressing.

## Remodeling Can Up Value Of Older Homes

Changing living habits, newest developments in the field of electrical and mechanical devices for more comfortable living, and the perpetual desire to "keep up with the Joneses", are motivating factors that make older homes less desirable to their owners and stimulate the ever-growing trend to residential remodeling.

Home-owners ask—Is it possible to bring these old homes up to modern standards? Yes! In most cases it is more economical to remodel and renovate than selling at a sacrifice and building anew.

Which portions of the house are most likely to be out of date? The two rooms where the greatest changes have been made are—the kitchen and the bathroom.

**MODERNIZING THE KITCHEN.**  
Many times there is enough space in the old kitchen to do an expert rejuvenating job. If the service porch, entry way or old-type pantry is included in the remodeling plan—even more space can be made available.

Our modern kitchens gleam with porcelain, tile, aluminum and other metals, formica and fine woods. Built-ins, multi-purpose storage cabinets, lazy susan shelves, cabinet sinks—all make every bit of wall and floor space count for maximum efficiency.

Breakfast bars and eating nooks are all helping the kitchen take on more of the living-room air. Even fireplaces and barbecue equipment can be an integral part of family living in the kitchen.

**UP-TO-DATE BATHROOMS.**  
The bathroom is the second room

in the house where changes have been made.

There should be at least one shower and one bathtub in every home. If they can be separate units, so much the better. Built-in lavatories with counter space and storage units are important bathroom accessories. Medicine chests are recessed, larger and handsome. Ceramic tile terrazzo, linoleum or asphalt or asphalt or vinyl tiles add color and keep bathroom floors easy to clean.

Wall surfaces will take tile or plastic coverings for bright beauty and cleanliness.

**NEW HEATING SYSTEMS.**  
High on the list of wanted home improvements is a new, convenient heating system. The time is nearing when the average homeowner will consider both heating and cooling systems a "must" for his home.

In planning the conditioning units for home comfort, the range of units is large and varied. There are sizes and types for every home and every possible climate. Newest compact furnaces and cooling systems can often be fitted into closet areas.

**EXTERIOR ALTERATIONS.**  
Extra remodeling can take many forms. It can be very extensive so that all traces of the original appearance are removed or it can be limited and the most made of small changes. Changes in landscaping can do a great deal to soften objectionable building features that cannot be changed. Landscaping is as much a matter of design as is architecture.

and there are men and women who are especially trained to help you.

A remodeling project should be approached with a great deal of thought. Professional assistance is your assurance that you will get the best possible job for the least amount of money.

# Public Urged To Visit Herald During National Newspaper Week Oct. 1-8

Your newspaper is freedom's key to better living. It unlocks the door to a richer life for everyone.

And from this, the theme "Your Newspaper - Freedom's Key To Better Living" has been chosen for the nationwide observance of "National Newspaper Week" Oct. 1-8.

In this country the concepts of a free press and a free society developed together. Because it is free the American newspaper has been able to broaden its activities and to meet new demands as the nation has grown. Today the newspaper fulfills a myriad of functions.

And in order for the citizens, clubs, organizations, and schools of Sanford and Seminole County to see, firsthand, how the functions of a newspaper are handled, from the writing of news, the creation of advertisements, the setting of type, and the printing of the paper, throughout the week of October 1, the public is invited to visit the Sanford Herald.

The hours when individuals, organizations, school classes, and groups will be shown through the Sanford Herald's plant will be from 2 to 5 p.m.

In the myriad of functions the newspaper fulfills there are the Homemakers page containing helpful facts. Women read these pages to learn how to prepare a delicious meal or remove an ink spot from a carpet. The advertiser promotes his products in a field of open competition. The more he advertises the more he sells and the more he sells the more he reduces prices. Factories, production and payrolls grow. Bigger payrolls result in more prosperous communities and a stronger nation.

Medical columns offer the advice of competent physicians who answer questions, give advice and offer suggestions, all in the interest of better health.

Local health authorities make their important announcements in the Sanford Herald's news pages.

Homes are improved by readers of the how-to-do-it columns. They mend sagging doors, silence squeaky floors and repair plumbing. Homeowners build backyard patios and apartment dwellers redecorate and refurbish.

Gardeners, both the homegrown variety and the professional, depend on the garden news to tell them what to do and how to use new

chemicals that promote plant life and control insects and weeds.

News columns report with comparative objectivity on the activities of the great, near great and the common people, the meetings, conventions, speeches and interviews.

Readers learn who is sick, who died, who married, who was divorced, who took his own life, who was hurt in an accident, the tolls of disaster and of the eternal efforts of the wrongdoer and his nemesis, the lawman.

Your newspaper scrutinizes courts, the law, politics, elections and government. They inform and sometimes arouse the electorate.

Through editorials problems are posed and thinking is guided. It is through the editorial columns of your newspaper that readers can view, by word picture, some of the inner workings of your city, county and state governments.

Special occasions are chronicled from the words of music, art, the theatre, books, and Hollywood.

Americans have more leisure time than ever before and in turn rely on local newspapers for more and more suggestions of what to do with it. The person with time on his hands automatically consults the newspaper to learn more about his hobby the road to the beach or the ski area, for reports on spectator sports and outdoor activities—golf, fishing, hunting, and boating.

Radio listeners refer to the program time tables. A few children even learn to read while studying television schedules.

The classified advertising section provides a daily market place for buyer and seller, a market place so vast as to be immeasurable and one that sometimes extends halfway around the world.

In civic promotions better living results in such projects as the construction of a playground of the control of pollution of the water and air. Corrupt police departments are reorganized. Political rascals are turned out. Safety campaigns are launched.

Mighty fund raising drives set out annually to whip poverty, polio, cancer, heart disease, muscular dystrophy and similar afflictions. Their workers call repeatedly on newspapers for support. They receive it, too. Your local newspaper is wholeheartedly behind wholesome youth activities, and in other ways keep wary vigil over juvenile problems.

Many a boy has begun a business career on a newspaper route in Sanford and Seminole County.

Your newspaper does all these things, and more. Perhaps, the most important function of your newspaper is that it, with its comics, cartoons, and funny stories, brings a little laughter into the world every day.

Your newspaper plays an important part in the happenings of your community every day—and those who guide the policies and every day help bring you in closer touch with your neighbors, friends and acquaintances, are proud of their contribution to the community's daily life.

The Sanford Herald is anxious for everyone to see its plant during National Newspaper week, Oct. 1-8. This is your invitation to visit us from 2 to 5 each day.

## Local Kiwanis

(Continued From Page 1)  
served as chairman of the International Committee on Support of Churches in Their Spiritual Arms, and the International Committee on New Club Building for the United States. He is a member of the Rochester Chamber of Commerce, the Community Chest Committee, the American Legion, and the National Conference of Clans and Jews. He is a charter member of the Advisory Board of the Salvation Army in Rochester.

## Mrs. Velma Lloyd Dies In Georgia

Mrs. Velma Lloyd, 64, passed away very suddenly Friday night at Soperton, Ga.

She was born June 22, 1891 and had lived in Sanford for 18 years. She made her home at Higgins Terrace.

She was a member of the Baptist Church of Sanford.

Mrs. Lloyd was the wife of the late Clyde Lloyd.

Survivors include: three daughters, Mrs. Ruby Hamby, Tampa; Mrs. Edith Jones, Sanford; and Mrs. Jathies Colley, Mobile, Ala.

Also two sisters, Mrs. Hattie Kersey, Adrain, Ga.; Mrs. Selma Abercrombie, Marietta, Ga.; two brothers, John S. Horton, Scott, Ga. and Carlos Horton, Adrain, Ga.

Funeral services were held at Brandon Funeral Home at 2 p.m. Sunday with Dr. W. P. Brooks Jr. officiating.

Burial was in Evergreen Cemetery.

## Family, Friends Help Mrs. Baker Observe Birthday

Mrs. Nettie Baker, mother of Col. W. E. Baker, Lake Mary, has been a patient at the Central Florida TB Hospital in Orlando for over 4 years. On Sept. 8 she spent her 64th birthday there, gladdened not only by attentions of her family and friends, but by the remembrances of 68 total strangers! Prior to the occasion, an item had appeared in a Charleston, West Virginia paper, telling of her approaching anniversary and mentioning the fact that it would be the fourth year she had been in the hospital. And so 68 kindhearted people sent her cards and letters and presents. The picture, showing her with her cards, she will use for her thank you notes!

Since 1928, Mrs. Baker, the widow of the late Raleigh D. Baker has made her home in Central Florida. Before her illness, she had her own cottage adjoining the home of her son, in Lake Mary. She has seven sons and one daughter, also grandchildren and 11 great-grandchildren.

GAS PRICE WAR GAINING STRENGTH  
St. Petersburg, Fla., (U. S. A) — A gas price war is gradually gaining strength in St. Petersburg.

Many stations still are holding to old prices pegged at about \$1.00 cents a gallon for regular. Premium prices run a couple of cents higher. Prices at independent stations are a cent or two lower on each grade.

## Explorer Scouts Spend Week End At Pinecastle AFB

Explorer Scouts from two Sanford troops spent an entire week-end at Pinecastle Air Force Base where they inspected planes, trained in the Link trainers, and experienced altitude chamber operation.

Berry St. John, Al Phelps, Robert Kubanks and David Bramlett of Troop 345 along with Billy Tyre, Carl Remusat, Ted Jackson, and Terry Griffin of Troop 34, and their leader, B. Farrell, spent Friday, Saturday and Sunday at the nearby base.

The Scouts were billeted in groups of three on their arrival and assigned to partitioned barracks at the base.

Following the evening meal, the entire group of Explorer Scouts witnessed the planning of an actual mission in the Pinecastle Air Force Base "Briefing Room."

Saturday's events included practice on Link Trainers, B-47 Gun Control Units, Altitude Chambers where an altitude of 63,000 feet was simulated. The morning was climaxed by a tour of base operations and weather briefings, plus a look into a B-47.

Hand grenade, machine gun and rifle demonstrations formed a part of the afternoon events. Performance by sentry dogs and a judo demonstration were also seen. The group was taken, in the evening, to the Orlando Air Force Base for a dance.

Church services were held in the Base Chapel and were attended by the entire group on the morning of the final day. The afternoon LAKE MAND — Bill

Globemaster and the presentation of awards.

The Explorer Scouts of Sanford expressed their appreciation to Col. Michael N. W. McCoy, Commander of Pinecastle Air Force Base, and to Lt. A. J. McGill, Lt. A. Thomas, and S/Sgt. A. Wilson, project officers, for their efforts

## Lions Club Hears Talk About Polio

By MR. CASSELBERRY—The Lions Club heard Dr. Ted Dippy, of Winter Park give a talk on Polio and the advancement made through research in helping to curb the crippling disease. Dr. Dippy stated that progress in the field of research has been advanced as much of ten years or more, largely through cooperation of the National Foundation. The speaker also gave some fundamental precautions to be observed in event even a mild epidemic may be prevalent and, briefly classified the three types of the disease.

Tickets for a seven-act variety show, a joint benefit performance being staged by Casselberry and Sanford Lions have been distributed, according to Joe Wiemer and C. K. (Bud) Fisher, co-chairman for the benefit show. The two clubs will conduct sales and, the bands of Seminole High and Lyman School will share in the proceeds of tickets they sell. The show will be staged in the auditorium of Seminole High School on Nov. 8 at 8 p. m. Proceeds will be used by the two clubs to promote their work in sight conservation.

Walter J. Krohne, Jr., scoutmaster of troop 341 said that the Lions troop will be host at Boy Scouts district meeting at the Community Methodist Church on Oct. 11, at 7:30 p. m. And, on Oct. 15, troop 341 will be host at the St. Johns River District Boy Scouts Court

"in making our stay at Pinecastle an enjoyable one."

## Public Confabs To Open JACKSONVILLE (AP) — A series of public conferences to consider proposed standards for grading frozen raw breaded shrimp will open here Oct. 31. The Fish and Wildlife Service said in Washington yesterday.

The federal agency, with the cooperation of the industry, has developed a draft of voluntary standards to be considered.

Other hearings will be held Nov. 3 at New Orleans; Nov. 5 at Brownsville, Tex.; Nov. 9 at Los Angeles and Nov. 12 at Chicago.

## SERGEANT RECEIVES WAR CROSS

MIAMI (AP) — Sgt. Elia L. DiSanto yesterday received the French Croix de Guerre war cross for a battlefield exploit of 11 years ago.

DiSanto was decorated at the annual review of his National Guard outfit, the 1st Battalion of the 211th Infantry, for knocking out a German rocket and machine gun position with gun and grenades.

## PUBLIC CONFABS TO OPEN JACKSONVILLE (AP) — A series of public conferences to consider proposed standards for grading frozen raw breaded shrimp will open here Oct. 31. The Fish and Wildlife Service said in Washington yesterday.

The federal agency, with the cooperation of the industry, has developed a draft of voluntary standards to be considered.

Other hearings will be held Nov. 3 at New Orleans; Nov. 5 at Brownsville, Tex.; Nov. 9 at Los Angeles and Nov. 12 at Chicago.

## Public To Present Problems At Milk Commission Meets

JACKSONVILLE (U. S. A) — The series of hearings by the Florida Milk Commission will give the public an opportunity to present their problems and offer suggestions. Chairman Dexter Lowry of Tallahassee said Wednesday.

The hearings, which open at Pensacola early next month and later will be held at several other cities around the state, are not primarily for the purpose of price fixing, Lowry said.

The commission listed six possible actions which may result from the hearings:

1. Consolidating the 18 milk marketing areas into five or six.
2. Suspending price controls on all dairy products other than Class 1 fluid milk.
3. Suspending price controls except at the producer level.
4. Reviewing the cost of milk production.
5. Re-classifying milk from the present system in which classes are determined according to ultimate use the processor or distributor will make of the milk it buys from producer.
6. Establishing standards of 4 per cent butterfat for all Class 1 fluid milk. The state requires 3.25 per cent butterfat but many cities and counties have a 4 per cent minimum.

### Spotlight On Hollywood

HOLLYWOOD (A)—Can you imagine spending 24 hours a day with your mate, week in and week out?

Probably not. It seems impossible for any two human beings to get along together without being apart some of the time.

Yet Albert Hackett and Frances Goodrich do it. They not only get along, but have won a Pulitzer Prize for playwrighting and have a fabulous string of screen play successes.

The Hacketts are the authors of "Diary of Anne Frank," which won the Pulitzer nod for 1955 and is still playing in packed houses in New York. Their film credits stretch from here to Catalina, including such nifties as "Naughty Marietta," "The Thin Man series," "Ab, Wilderness," "Easter Parade," "It's a Wonderful Life," "Father of the Bride," etc., etc.

They just returned from France, where they researched their next script, the film version of Francoise Sagan's book, "A Certain Smile."

The Hacketts live in a roomy house in fashionable BelAir, a tribute to their financial accomplishments. They greeted me at the door, Hackett, an earnest man with a grey crewcut, and his wife, equally earnest and with a handsome head of red hair.

I asked them how they managed to get along so well. "I don't suppose we would be able to do it unless we worked together," she remarked. "We love our work and are stimulated by it. Besides, I have a great respect for the talents of Mr. Hackett."

Her husband picked up the cue. "And I have a great respect for the talents of Mrs. Hack—I mean Miss Goodrich," he said.

This collaboration has been going on since the early '30s. Both acted on the New York stage with some success. They decided to try writing plays together but didn't click until the third try, "Up Pops The Devil" in 1931.

"We got married after it proved a hit," said Hackett. "After all, we had to see if the collaboration was going to take."

It did. From then on they were the thoroughbreds of the MGM writing stable, leaving "about every 10 years" to do a play. One occasion for an absence was when they had nervous breakdowns. They do everything, together.

### News Of Men In Service

MOREHEAD, CITY, N. C. (FH TNC)—Pvt. Jack D. Petty, son of Mr. and Mrs. Alvin J. Petty of Route 1, Box 138; Pvt. John E. Smith, son of Mrs. Susie Smith of Route 1, Box 138; and Pvt. Willie D. ## Church Observes 31st Anniversary

OFFICERS OF THE FIRST CHRISTIAN church taken at the 31st anniversary celebration last Sunday. Left to right, they are: George W. Morgan, Mrs. O. T. Pearson, Bert E. Parvis, B. H. Williams, W. H. Young, the Rev. Perry L. Stone, and O. D. Landress. Officers not present when picture was made included Earl Evans, Mrs. Eunice Horton, Clyde Feathers, and Lester Tharpe. (Staff Photo)

## Local Church Has 31st Anniversary, Homecoming

Last Sunday the First Christian Church (Disciples of Christ) held its 31st anniversary and homecoming. The church in Sanford was organized Sept. 20, 1925 and the present building dedicated on Mother's Day, 1929. The building fund mortgage on the church was burned on Mother's Day, 1943.

The Rev. Perry L. Stone, minister conducted the morning worship service, using the subject, "Christ's Church." Mrs. Ruby Wilt conducted the choir in singing "God's House." The sanctuary was filled to capacity. Dinner was then spread on tables erected on the church lawn, featuring fried chicken and all the good with it.

After the bounteous luncheon the afternoon session was called with Mrs. N. V. Farmer again at the organ. Congregational singing was featured followed by the choir singing "The Lord is in This Place" again led by Mrs. Deitz. Several long time leaders in the church were asked to make remarks which were recorded for the church archives. The congregation was honored to have the Rev. Lawrence Ashley of Ocala, Executive Secretary of the Florida Christian Missionary Society, to give the afternoon address taking as his subject "Hearing the Word of God." An offering was taken for the Building Fund of the Educational Building.

## Tax Levy Set With No Increase In Millage

The more than one million dollar "overall" budget for the city of Sanford became official last night supported by a resolution and the adoption of an ordinance.

An ordinance was immediately adopted, following the official approval of the budget, which set the tax levy for the fiscal year 1957-58.

The ordinance fixed the tax levy at 13.6 mills and stipulated in the ordinance as a "sum necessary for the operation of the City of Sanford."

Commissioners pointed out that the budget needs were met without increasing the tax millage even though the demands on the city were greater. 7.5 mills of the tax will be allocated to the General Operating expense of the city and six mills for Debt Service.

City Manager Warren E. Knowles, reporting to the commissioners on the importance of a pay schedule, said that "over 58 percent of the City of Sanford's annual expenditures are for the payment of salaries."

## Wilson's Condition Said Satisfactory

WASHINGTON (AP)—Secretary of Defense Wilson was described as being in satisfactory condition at Walter Reed Army Hospital today after undergoing surgery.

## Boat Explodes, Catches Fire; 2 Men Escape

A 39-foot boat blew up and caught fire in Lake George late yesterday afternoon, according to its owner Ollis Owens of Sanford. Owens said this morning that he and his brother, Blanton Owens of Longwood, were fishing in Lake George right at the mouth of Jupiter Run in the south portion of the lake when the explosion and fire occurred.

The inboard cabin cruiser carried 65 gallons of gasoline which Owens said he had just put in the tank which held 80 gallons. "I had to crawl through the cabin and out of the hatch," Owens said, "but my brother was on the deck."

Owens stated this morning that his knee was injured as he came through the hatch. "We didn't have time to get anything off the boat," he said. "I tried to get the fire extinguisher operating but the fire was so hot we had to get away from it."

Owens said that he and his brother stayed at the scene of the fire in a small boat they were towing and from which they had been fishing, and the boat was still burning when they left.

When the tank exploded, Owens said, it went up into the air just like an atomic bomb, mushrooming and settling on the water. "We left the scene of the fire and went to Silver Glenn. But it took us about three hours to paddle through hyacinths with our hands," Owens said.

"The loss," he said, "is covered by insurance."

## 19 Boys, Girls To Get Water Safety Awards

Red Cross Water Safety awards will be mailed to 19 boys and girls who passed required tests as Beginner Swimmers and to 13 boys and girls who passed the required tests as Intermediate swimmers, under the instruction of Robert A. Samuel, who this summer qualified in Senior Life Saving, followed by a qualifying course as Life Saving and swimming instructor.

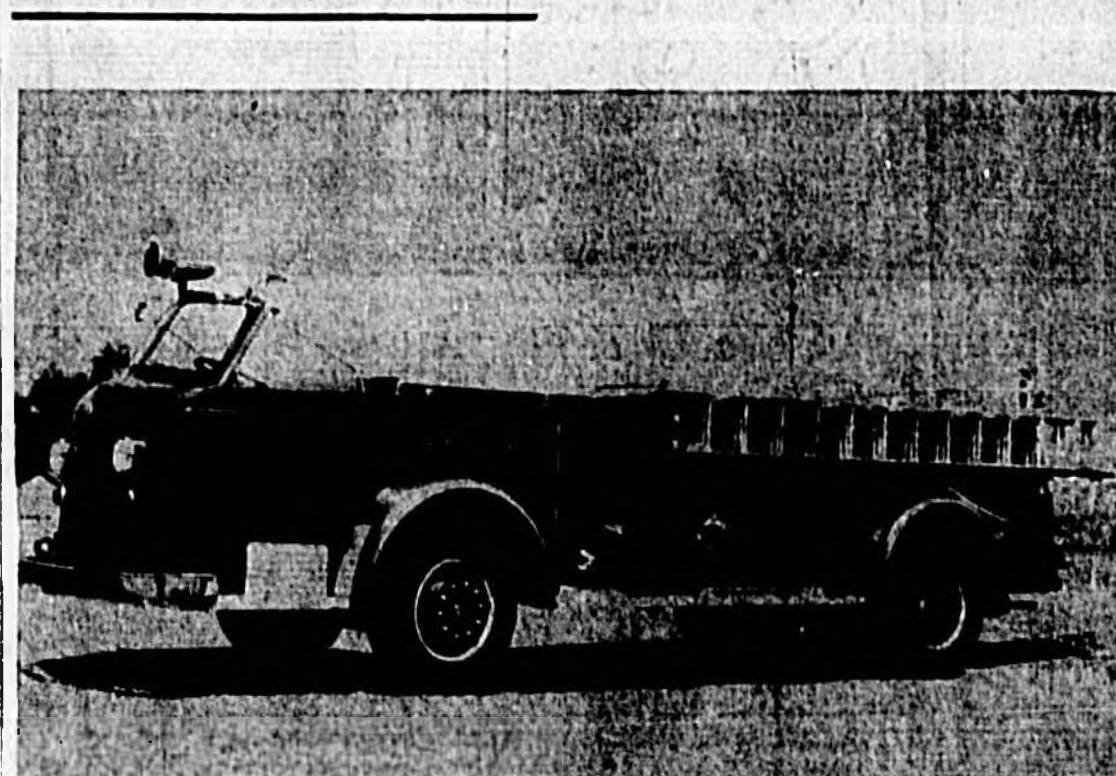

Those passing the Beginner Swimmers tests were Carol Samuel, Marilyn and Wayne Epps, Cathy and Donald Green, Cindy, Chris, Robert, and Steve Wilson, Helen Mann, Sandra Katz, Myra and Charles Meeks, Sandra and Nancy Perkins, Barbara, Robert and William Smith, and Robert King.

Those passing the required tests for Intermediate Swimmers were: Carol Samuel, Marilyn and Wayne Epps, Jack Ivey, Donald Green, Myra and Charles Meeks, Nancy Perkins, Robert King, William Smith, Chris, Robert and Steve Wilson.

Certificates will be mailed by the Seminole County Chapter of the American Red Cross.

# Commission Okays Overall Capital Improvement Program

## New Fire Trucks For Sanford

THE BOARD OF CITY COMMISSIONERS last night approved the purchase of two fire trucks shown above. Both trucks will be American LaFrance Pumps of 750 gallon capacity and will be fully equipped.

## \$400,000 Financing Necessary

The Board of Sanford City Commissioners, in a lengthy session last night, put their stamp of approval on the overall "Capital Improvement Program" contingent upon a commitment for \$400,000 necessary to complete the city-wide improvements which have been in the planning stage for many weeks.

It was pointed out that the funds for the construction of a new Municipal Civic Center, Fire Station, Colored Swimming Pool, street lighting, new fire Department pumps, and other improvements will not come from taxpayers pockets but will come from the Florida Power and Light Co. franchise monies.

The Mayor, F. D. Scott, City Attorney William C. Hutchison, City Clerk H. N. Sayer, and City Manager Warren E. Knowles were appointed to a committee to secure a commitment for funds of \$400,000.

City Manager Warren E. Knowles pointed out that the overall program will actually require \$633,000. However, funds from the commitment will be spent as needed for the program and unused funds would revert back to the agency from which the funds are secured.

The total value of the projects comes to \$478,000, said the City Manager, but the trade-in of used equipment and the cash on hand reduces the amount of cash needed to the \$328,000.

Architect John Burton IV, present at last night's meeting, displayed plans for a modern Fire Station proposed on a French Ave. location, which met immediate approval of the Board of City Commissioners. "This is the first of this type of Fire Station I have ever seen," said Burton as he described the open area for the parking of fire trucks. The new Fire Station No. 3 will cost the city, in its Capital Improvement Program, slightly in excess of \$1,000.

Also approved last night at the city hall session was the purchase of two American LaFrance pumps of 750 gallon capacity. The trucks will be fully equipped with hose and fire fighting equipment. Architect John Burton IV, pointed out to the Board of Commissioners last night that the new Colored Swimming Pool will not exceed an estimated \$200,000.

Burton was instructed to begin immediately construction plans and specifications for the three building programs. Completion of the plans however will be dependent upon the commitment for funds.

The scale model of the proposed Sanford Civic Center was on display at the Board of Commissioners meeting. Actual cost of construction will come to an estimated \$164,000. In addition, however, there is a \$18,000 cost for equipment, with the balance of the estimate cost in architects fees. Approval of the Capital Improvement program last night brings to Sanford one of the first overall programs for Sanford in many years.

## Car Dealer Will Attend Special Meet In Atlanta

Arthur Pleva, Seminole County Motors, Dodge-Plymouth dealer at 319 E. First St., will leave for Atlanta this week-end to attend a special meeting of Dodge-Plymouth dealers next Monday at the Naval Air Station here, to review merchandising plans for his coming year.

Highlight of the session, according to Art Pleva will be the first private showing of the new Automobile '57 Dodge-Plymouth line of cars and trucks. Top level factory officials will address the session, at which it is expected many startling changes in design will be disclosed.

Pleva is planning to leave here with other Dodge-Plymouth dealers by car, and will make his headquarters during his visit at the Georgia Hotel.

## CofC Coffee Club Meeting Thursday

The regular monthly "Coffee Club" of the Seminole County Chamber of Commerce will be held Thursday morning at 10 o'clock at the Chamber of Commerce Building.

Members get together for "coffee and doughnuts" during the half-hour session where new business people of the city and visitors are introduced.

## Raceway Proves Top Training Center

Historic Seminole Raceway training track, which has been the prep school for numerous world trotters and pacers, is continuing to show up as a top training center on basis of recent rolling in from the harness race owners of the nation.

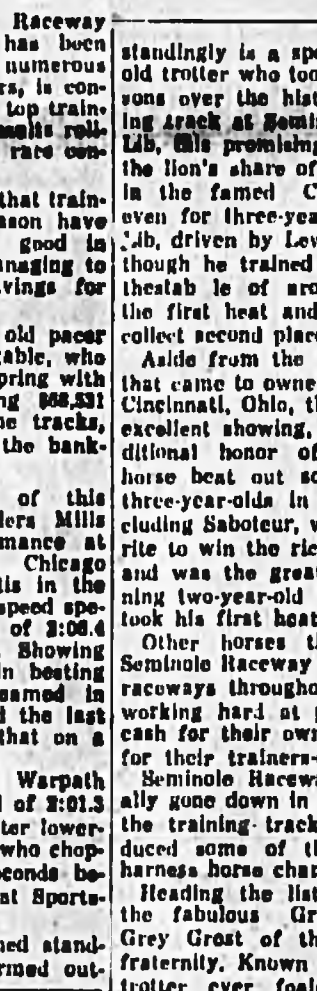

Two of the 150 horses that trained at Seminole last season have shown up exceptionally good in the race summaries, managing to increase their bank savings for owners.

Warpath, a five year old pacer in the Saunders Mills Stable, who went to the races this spring with earnings already totaling \$28,231 from his showing at the track, has continued to boost the bank roll considerably.

Outstanding showing of this mainstay of the Saunders Mills barn was his performance at Sportsman's Park in Chicago where with C. W. Curtis in the sulky he won the \$5,000 speed special event in the time of 3:08.4 on a rain-soaked track. Showing what he had in mind in beating the other speedsters teamed in the race, Warpath paced the last half mile in 59.3—and that on a slow track.

Earlier in the season Warpath had set the track record of 3:01.3 but his best time was later lowered by another speedster who chopped off another two seconds before the season ended at Sportsman's Park.

## Proposed Fire Station No. 2

Another Seminole-trained standardbred who has performed outstandingly is a speedy three-year-old trotter who took his initial lessons over the historic mile training track at Seminole. Named Ad Lib, this promising colt picked up the lion's share of a \$18,500 purse in the famed Columbian stake even for three-year-old trotters. Od 'Jib, driven by Lew Huber Jr., although he trained at Seminole in the stable of arrol Hanks, won the first heat and came back to collect second place in the second.

Aside from the money earnings that came to owner Roy Elliott of Cincinnati, Ohio, through Ad Lib's excellent showing, he had the additional honor of watching his horse beat out some of the top three-year-olds in the nation, including Saboteur, who was a favorite to win the rich Hambletonian and was the greatest money-winning two-year-old in 1955. Ad Lib took his first heat at 3:08.

Other horses that trained at Seminole Raceway are scattered at racetracks throughout the east, all working hard at picking up cold cash for their owners and honors for their trainers/drivers.

Seminole Raceway has historically gone down in record books as the training track that has produced some of the nation's top harness horse champions.

## Weather

Partly cloudy to occasionally cloudy with occasional showers through Wednesday; low tonight 62-72.

## Additional Local News On Page 8

Members of the Seminole County Junior Chamber of Commerce will learn more about the proposed program of the Seminole Chamber of Commerce during the coming year at their noon luncheon meeting at the Yacht Club Thursday.

Clifford McKibbin, president of the Seminole County Chamber of Commerce will be the principal speaker.

Jack Howell, director of the local Jaycees, will introduce the speaker.
