Shoplifting Game To Become Harder

ORLANDO (AP)—Shoplifters, who have been costing Florida merchants more than 4 1/2 million dollars a year, will find their game harder after July 1.

On that date a new state law, seriously cramping their varied styles of operation, becomes effective.

Apprehension, detention and arrest will be easier under the new law, sponsored in the recent Legislature by the Florida State Retailers Assn. Penalties will apply, maximums being imprisonment for five years and fines of \$1,000.

The very existence of the new law will cut Florida's losses in half, the association says.

It explained "most shoplifters, especially professionals, will think twice before risking the new handicaps. And amateurs soon will learn their pilfering suddenly has become much more hazardous."

The new law permits a peace officer, merchant or merchant's employe to take a suspected shoplifter into custody in a reasonable manner for a reasonable time and, if necessary, to cause arrest, without being civilly or criminally liable for false arrest, false imprisonment or unlawful detention.

Heretofore, the retailers group says, shoplifters thrived on the willingness of retailers to accept the loss of their merchandise through theft rather than risk a detention or arrest. At best, the merchant would attempt recovery of his goods only after the shoplifter had left the store.

Small stores in small towns have been highly vulnerable to the shoplifting evil. Dallas L. Hostetter, executive director of the association, said.

AMOS ALONZO STAGG, 92, arrives in Chicago from California for the 90th anniversary celebration of his 1905 championship football and track teams at the University of Chicago. The "grand old man of football" is accompanied by his wife, Stella, to the scene of his former triumphs. Stagg coached at the university from 1892 to 1932.

Three Southeast Conference schools — Alabama, Georgia Tech and Tennessee — have played twice in the annual Cotton Bowl football game. Each has won and lost.

Jockey Sammy Boulmetis will be trying for his third Capitol Handicap victory on April 19, opening day at Laurel race track. Boulmetis won on Suleiman in 1951 and Algaair in 1952.

New Gulf No-Nox gives you
not just the highest octane but...
full working octane

because its super-refined to burn clean

This lamp is burning the "DIRTY-BURNING TAIL-END" of gasoline which GULF refines out.

This lamp is burning NEW SUPER-REFINED GULF NO-NOX, the clean-burning super-fuel.

No gasoline, no matter how high the octane, can keep on giving you full power from your engine unless it burns clean.

That's why New Gulf NO-NOX is your best gasoline buy. In making new NO-NOX, Gulf refines out the "dirty-burning tail-end" of gasoline, the No. 1 troublemaker in today's high-compression engines.

As a result, you get a clean-burning gasoline that gives you:

- More complete engine protection than you get with so-called "miracle-additive" gasolines
- Extra gasoline mileage in the kind of short-trip, stop-and-go driving motorists do most
- Freedom from vapor lock, stalling and stumbling in hot-weather driving
- No knock, no surface pre-ignition — even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas-oil team... New Gulf No-Nox Gasoline and New Gulfgrade H.D. Select Motor Oil

The only motor oil in the world that's super-refined by the Alkylate Process for modern high-compression engines.

- Controls carbon — causes of knock, pre-ignition, valve failure.
- Combats corrosive acids, rust and deposits on engine parts.
- Assures lower oil consumption than "oil-soak" oils.
- Provides the toughest protective film ever developed.

Geneva Parley Likely To Get Disarming Plan

By JOHN M. HIGHTOWER
WASHINGTON (AP)—The United States, Britain and France probably will propose at next month's Big Four summit talks that Russia consider a formula for reversing the arms race in Europe.

Airman Is Sought For Questioning In Slaying Of 3

DICKINSON, Tex. (AP)—The search for a tall, young 100-pound airman officers believe may have killed three persons here turned to California today. The airman, described as about 25, is wanted for questioning in the slaying of Mrs. Ruby C. McPherson, 44; her son, George Richard McPherson, 12; and Mrs. Zola Norman, about 65, the mother of Mrs. McPherson. All were found shot to death Saturday night in the pine-shaded McPherson home near the Gulf Freeway. Mrs. McPherson's 1953 automobile was missing, but police said nothing apparently had been taken from the home, and Texas Ranger Johnny Klevenhagen said there was no evidence of a sex crime. Early today, Los Angeles police were checking on a vehicle, described as "almost matching" the teletyped description of the supposed slayer car, the 1953 Ford stolen from the McPherson home.

R. E. Plummer of the Los Angeles detective force said the automobile was found parked on an Ingwood street, its engine still hot. Local and state police both said they could find no motive for the slayings, believed to have occurred late Wednesday or early Thursday.

Strolling In Sanford

Past president of the Sanford Rotary Club George A. Blime was quite surprised at the weekly meeting of the club at the Yacht Club this noon just as he was introduced as the speaker of the day by program chairman J. Ed Best. As the applause subsided, a member of the club called attention to the fact that today was George's birthday, a fact that he was trying to keep a secret despite the fact that he admitted to being "39". After the club sang "Happy Birthday" to him, Mr. Blime proceeded to give a comprehensive and factual report of the proceedings at the 60th Anniversary of Rotary International held recently in Chicago which he and "Mom" Blime attended. In fact, George admitted that the nice scrap-book was "Mom's" handiwork and not his.

The Sanford Tourist and Shufelboard club will not have the covered dish supper at 6:30 in the Club house this Tuesday.

State Accidents Claim 10 Lives

By THE ASSOCIATED PRESS
At least 10 persons met death in Florida accidentally and violently during the weekend a survey early today showed. Traffic victims included Mrs. May D. Rollinson, 74, of Fort Lauderdale, Matthew J. Donohue, 40, Miami; and Mrs. Virginia Savage, 65, Panama City. Two persons drowned on a fishing trip at Stuart Saturday. Little Tommy Hightower, 11, fell into the St. Lucia River. His father, John T. Hightower, 48, plunged in to save him. Both drowned. Donald Barringer, 22, of Largo, drowned yesterday while water skiing at Lake Tarpon near Tarpon Springs. He apparently became tangled in the tow rope. Two student pilots were killed Friday night when their training plane crashed in the Atlantic Ocean. They were Ess. Charles E. Dickerson, 22, Franklinton, N. C., and Lt. (j.g.) R. F. Rudolph, 27, Philadelphia. Miami Electrician James Yates, 40, was accidentally electrocuted Saturday while soldering a wire.

Maine Governor Due To Welcome Eisenhower Today

PARMACHENESE LAKE, Maine (AP)—President Eisenhower, happy over a successful weekend of fishing, gets an official welcome late today to traditionally Republican Maine from Democratic Gov. Edmund S. Muskie.

The governor, the first Democrat to be elected the state's chief executive in 20 years, will greet the President at Skowhegan, home of Republican Sen. Margaret Chase Smith of Maine. Muskie and Eisenhower will attend a clam bake at Mrs. Smith's home. A few hours later Eisenhower will fly back to Washington, ending a six-day tour of northern New England, and go to a late evening White House conference with Secretary of State Dulles on the shooting down of a U. S. Navy patrol plane by Soviet aircraft. After Dulles had reached Eisenhower by telephone here Saturday night, the State Department said the secretary had "accepted with satisfaction the Soviet government's expressions of regret," but felt Russia's offer "fell short of what he had requested" in the light of the information he had received.

Eisenhower fished for about six hours yesterday and caught two salmon and a mess of trout in the Magalloway River at Little Boy Falls. One of the salmon was an 18-inch weighing about two pounds. The other was under the legal "keeping" size of 14 inches and the President threw it back.

Sunken Treasure Makes Men Dream

By CLAUDE ROSE
Sunken treasure has started men dreaming for centuries and in recent years a lot of those dreams have come true off Florida coasts. Remains of an old vessel were brought up off Vera Beach late last week and Joe Lumpkin of The Herald was on hand to cover the story.

Twenty-one-year old Roger King of Vera Beach, on leave from the U. S. Army in Alaska, called on veteran treasure hunter Art McKee Jr. to help him bring up the remains of what is believed to be a Spanish vessel which was wrecked around 1658. No treasure has been found so far but 13 cannons, each weighing 2000-3000 pounds, have been brought up. They hoped to find the brass bow and stern chasers over the weekend. If they were successful, it was believed they would establish the name of the ship and substantiate their claims concerning the date of the wreck. Believed to have washed up on a reef during a hurricane the remains are in about 20 feet of water a mile off shore. Nothing is left of the wooden hull of the vessel; only the cannons and the anchor remain. McKee, who is a professional treasure hunter, will go after even bigger game in mid-July when he starts work off Plantation Key on the first of eight "plate" ships which went down in the year 1733 with thousands of dollars worth of silver aboard.

A fleet of 21 ships left Vera Cruz early in 1733 bound for Spain. In July they replenished in Havana and after leaving there they ran into a hurricane which claimed eight of them.

Last Ditch Fight Set To Keep Baseball Club

Two Persons Die In Desert Ordeal

TWENTYNINE PALMS, Calif. (AP)—Murderous heat, walking sands and shivering nights were a grim memory today for a survivor of a desert jeep ride that claimed two lives.

"It's the worst thing I've been through in 20 years on the desert," estate promoter, he recalled watching one man walk to his death and another die of exposure on the blistering desert when their jeep broke down on an outing last Wednesday. Bunker, recovering in a hospital here, told this story: He and three others set out in the jeep to inspect the Amazon Valley area, which Bunker describes as "ripe for development." They carried water but no food for the half-day journey. The jeep sank in drifting sand in Amazon Canyon, about 30 miles east of here, and the differential broke.

At nightfall, Calvert Wilson, 43, prominent southern California Democratic politician, set out on foot for the highway about 15 miles away. His sun-blackened body was found by researchers two days later about five miles from the jeep, where he had died of exposure and thirst. Bunker, James Thompson, 75, retired Joshua tree businessman; and Lyle W. Robertson, 49, local hardware store owner, remained closer to the jeep. Their water, ran out the next day. The temperature hit 120 degrees. Bunker and Robertson lay on the desert and covered their heads with their shirts.

"But Thompson got away from us and started running in circles," Bunker said. He died a few hours later. Bunker said Simpson was shot in the right side with a 32-caliber pistol during an argument at Orell Vickers' tavern on West 18th St. Holts shot Simpson as Simpson argued with Willie B. Holts, Mose's brother, the officer said. The shooting occurred about 1:30 a. m. Saturday. Mose Holts fled the scene, Galloway said, and was taken to the DeLand bus station by another brother, Albert Holts, who was later arrested on a charge of escape. When arrested, Mose had a ticket to Fitzgerald, Ga., in his possession, Galloway said. Mose is being held in the Volusia County Jail at DeLand on a concealed weapons charge, the officer said, pending the outcome of Simpson's condition. Albert Holts is being held in jail here under \$500 bond, Galloway continued.

Policeman Denies Charge Of Being Brains For Gang

MIAMI (AP)—A young uniformed motorcycle policeman, arrested for investigation of a series of holdups, has denied he was the brains of a gang of four men. Peter V. Balma, 27, was called in by Police Chief Walter Headley and suspended. Then he was arrested by Police Capt. Chester Eldredge Saturday night. Police also arrested Gerald Castell, 42, on the same charge. The arrests followed the story of a third man, Lelloy Horns, now in state prison at Raiford. Horns told Jane Wood, a Miami Daily News reporter, and Eldredge that Balma was the brains of a gang which pulled four hold-ups last year. His story also named another policeman, Lewis Womack who was killed in an unexpected boat explosion last year. Eldredge said two other men have been ordered arrested but said they were not now in town. Balma, after his arrest, said the charges were "lies."

Flood Control Experts Seeking Trouble Spots

JACKSONVILLE (AP)—Representatives of the Jacksonville District Corps of Engineers and the Central and Southern Florida Flood Control District today began an inspection to find trouble spots that could develop during the coming hurricane season. Edwin W. Eden Jr., Anthony Ward and Charles Wiesenfeld represent the engineers. They are accompanied by B. Arnold and other operating personnel of the flood control district. The field party will inspect flood-control works in the Lake Okeechobee - Everglades - Lower East Coast area for possible danger if unusual rainfall conditions should arise.

Evans, Nashville Publisher, Dies

FORT WORTH, Tex. (AP)—Silliman Evans the Nashville Tennessee president-publisher who was called a key pillar figure, was found dead in his bed yesterday, victim of a heart attack. The body will be flown to Nashville tonight after resting at a funeral home here. Evans, 61, died in his sleep Saturday night a few hours after attending the funeral of his old friend and former employer Amos G. Carter, publisher of the Fort Worth Star-Telegram, who died Thursday.

Contest Judges Prefer Blondes

MIAMI BEACH (AP)—Contest judges prefer blondes in Florida. The two winners and the two runners-up in the Miss Florida and Miss Miami Beach contest to choose Miss Universe representatives all were honey blondes. Mariels Gessler, 20, of Tallahassee won the state contest and will be in Long Beach, Calif., in July when the Miss Universe contest opens.

THIS MAP shows the Bering Strait where two Russian MIG fighter planes made an "unprovoked attack" on a U. S. Navy patrol plane off Alaska forcing the American craft to crash-land in flames on St. Lawrence Island (arrow), 40 miles from Russian Siberia. Seven of the 11 crew members aboard the plane were injured. (International)

Ike's Regime Set To Go Along With Security Study

WASHINGTON (AP)—The Eisenhower administration reportedly has decided to go along with a Democratic-sponsored proposal for a bipartisan commission to study the controversial federal employee security program. The measure, sponsored by Senators Humphrey (D-Minn.) and Stennis (D-Miss.), was scheduled for Senate debate today with all signs pointing to overwhelming passage. As the Senate took up the matter, informed sources reported the administration — a few or several weeks of apparent indecision — has decided to support the proposal. Up to now, President Eisenhower and Atty. Gen. Brownell have indicated they felt there was no need for such a study. The proposed 12-member commission would make recommendations to improve the functioning of the security program. A House committee already has approved a companion measure sponsored by Rep. Walter (D-Pa.) Sen. Mundt (R-S.D.), who withheld his vote on the proposal when the Government Operations Committee approved it 10-0 last week, said in an interview he now knows of no opposition. "I'm going to support it on the basis that we can never be too cautious or careful in making certain that the federal security machinery is functioning effectively," he said.

Sights Of Vienna Viewed By Nehru

VIENNA (AP)—Indian Prime Minister Nehru saw the sights of Vienna today as he continued his European tour. Thousands of Austrians lined the road to cheer the Asian leader on his arrival yesterday from Warsaw aboard a special Soviet plane. Nehru leaves the Austrian capital late tonight for Salzburg to preside at a conference there of Indian diplomatic envoys in Europe.

Argentina Frees 19 Party Members

BUENOS AIRES (AP)—Argentina today released 19 leaders of the Radical party who had been detained since the June 16 revolt against President Juan D. Peron's regime. Four other party members were still held. Simultaneously, police at Eva Peron in Buenos Aires province in eastern Argentina, announced the arrest of two persons identified as Communists and two Radical party members on charges of spreading rumors. The nature of the rumors was not disclosed.

Davy Crockett's Popularity Fails

ROANOKE, Va. (AP)—The folks at a Roanoke theater don't know who stole their property Saturday night but they're pretty sure it was 1 male and 2 no child. The stolen property was a seven-foot cardboard picture of Marilyn Monroe, skirts a-flying, which had been set in the lobby to advertise her newest film. Nearby was an equally big picture of Davy Crockett. It was ignored by the thief.

Meeting Planned Tuesday

A last-ditch effort to keep the baseball club in Sanford will be made at a meeting at 7:30 p. m. tomorrow at City Hall. Members of a local group which is interested in taking over the franchise from the present organization will be on hand and the situation will be fully discussed. If enough public enthusiasm is shown, there is a possibility the Cardinals will continue to play here after June 30, the deadline set by the present baseball organization headed by R. J. Bauman. Florida State League president John Kridler exhibited optimism and pointed out that other cities in the league have been confronted with similar difficulties and have in most cases worked them out satisfactorily. Sanford has played in the league every year since 1936 with the exception of 1954 Kridler said. "We have never failed to finish a season," he added. If the other local group takes over the franchise and continues playing for the remainder of the season, Sanford can probably get back in the league next year, Kridler emphasized. If Sanford does not finish the season, he said, professional baseball is doomed here. Bauman and other members of the present organization have expressed their willingness to turn over the franchise to another group and to lend their help in carrying out the baseball program.

United Nations Session Hailed As Big Success

SAN FRANCISCO (AP)—Russia and the Western Powers were agreed today that the U. N.'s 10th anniversary session had been well worthwhile. Both acknowledged that the week-long meetings had provided an excellent opportunity for diplomatic contact and that the big power speeches had given each side a better understanding of what to expect at the summit talks in Geneva next month. The anniversary session ended yesterday—just 10 years after the signing of the U. N. Charter—with a declaration by its president, Dr. Ecleo N. Van Kiefers, reaffirming the determination of the 60 nations "to save succeeding generations from the scourge of war." The declaration also pledged the U. N. to press forward with disarmament efforts which have just recently begun to make progress. The session had a few rough moments, when the president waded the gavel and cautioned restraint, but behind the scenes relations between Russia and the Western Powers were unusually cordial.

Blood Sets Off New Hunt In Case Of Missing Pair

WEST PALM BEACH (AP)—A small pool of blood found on the pavement of a road touched off an intensive search near here yesterday, County Investigator John Hatt said. The deputy sheriff, who is working on the disappearance of Judge E. E. Chillingworth and his wife, took 18 officers and two bloodhounds to the scene a few miles northwest of Boca Raton. They searched an area one-fourth mile square but found nothing that would account for the blood, Hatt said. About half an isolated area west of the Yacup was splashed on the road at mato community. Hatt said the stain was no more than two days old.

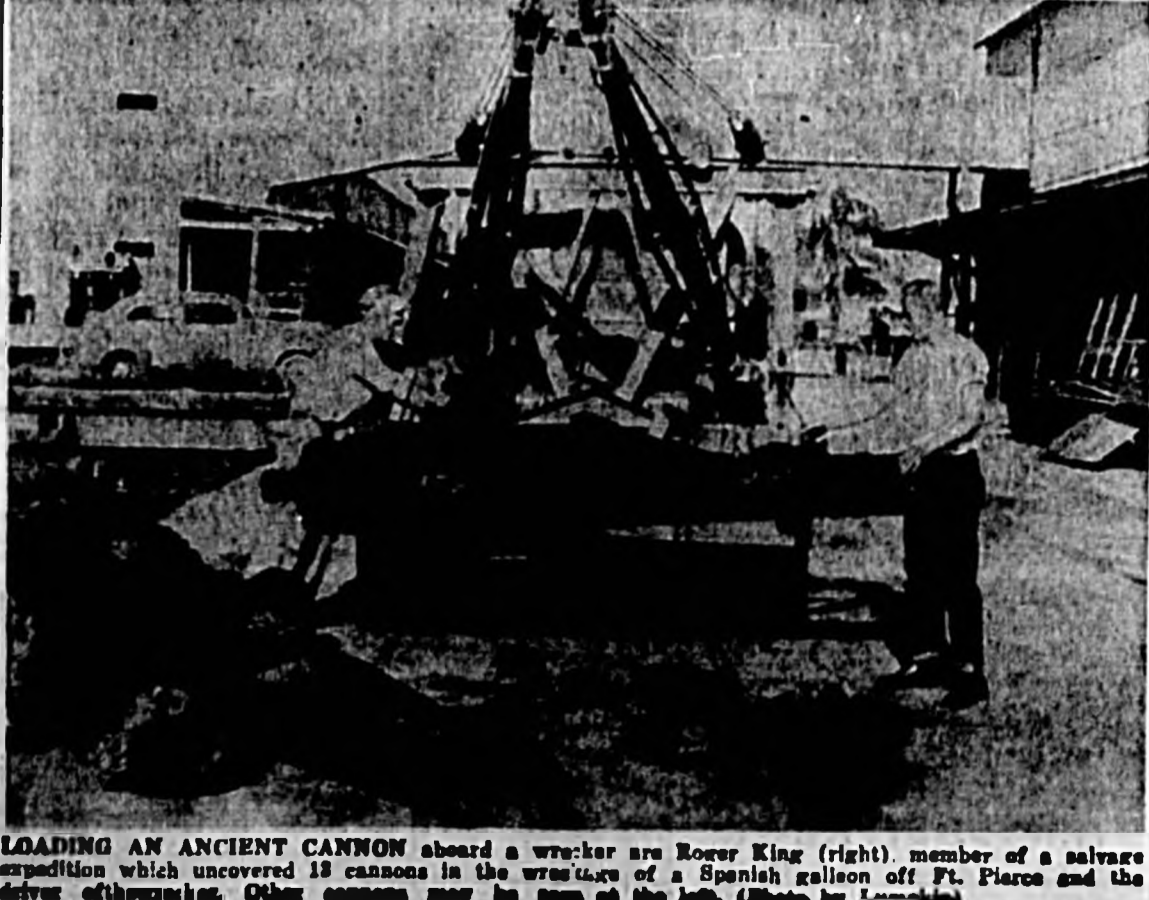

Kangaroo Bounces Around Baltimore

BALTIMORE (AP)—A mother kangaroo broke loose from its handlers after a television appearance and went bouncing about the city for a full hour last night. Once she cleared the hood of an automobile with a beautiful leap. Everywhere she went traffic was disrupted. Children leaned goggle-eyed out of car windows. Women screamed. Three attendants from the zoo, well past the age for springing, were in valiant pursuit. They were joined by six policemen.

Meeting Slated On Right-Of-Way For U.S. 17-92

A proposed resolution to prevent any new construction along the proposed right-of-way for improvement of Highway 17-92 will be discussed Thursday night at a meeting at the American Legion hut at Pacific Lake. The meeting will begin at 7 o'clock. John Fox, county right-of-way agent, said interested persons will be given an opportunity to speak their minds on the issue. Fox pointed out that additional right-of-way for four-laning of 17-92 will not be needed in the thickly-built up commercial area south of Casselberry through Casselberry, or from Onora St. north to French Ave. here.

ROSE ELECTED TAMPA (AP)—Herbert Rose of St. Petersburg was elected commandant of the Marine Corps League of Florida yesterday. Mrs. Margaret Handley, also of St. Petersburg, was elected president of the corps' auxiliary.

LOADING AN ANCIENT CANNON aboard a wrecker are Roger King (right), member of a salvage expedition which uncovered 18 cannons in the wreckage of a Spanish galleon off Ft. Pierce and the driver of the wrecker. Other cannons may be seen at the left. (Photo by Lumbeck)

FRANKIES IN THE HOSPITAL! HE GOT BANGED UP IN AN ACCIDENT! LET'S GO SEE HIM!

OKAY!

SO THEN THE AMBULANCE CAME AND HAULED ME OFF!

GEE!

BUT AREN'T YOU AFRAID OF BEING ARRESTED?

ARRESTED? WHAT FOR?

I MEAN, IT'S AGAINST THE LAW TO LEAVE THE SCENE OF AN ACCIDENT!

WE'RE GOING TO THE SECOND SHOW, SIR! SO DON'T THINK IT'S A DOUBLE AS SNEAKING IN IF WE'RE HOME LATE!

HELLO BOYS?

NO CHANCE OF MAKING THAT MISTAKE! I CAN ALWAYS TELL IT'S YOU BY THE SOUND OF THE THREE DOORS!

THE CAR DOOR, THE FRONT DOOR, AND THEN THE REFRIGERATOR DOOR!

LEROY DID IT! HE GOT A NO-HIT PITCHER OUT AT THE PLATE, TRYING TO STEAL HOME!

CONGRATULATIONS, LEROY! YOU'RE A BORN BALL PLAYER!

DO YOU STILL HATE BASTARD SON?

DAD! NOT HERE AFTER ALL!

I SAW THE LAST INNING! YOU WERE GREAT! ANY MAN WOULD BE PROUD TO CALL YOU HIS SON!

THE LITTLE LEAGUE COACHING BOX

NO MATTER HOW WELL YOU HIT, REMEMBER YOU ARE HELPING THE OPPOSING PITCHER WHEN YOU SWING AT HIS BALL! THROW!

TEN MINUTES BEFORE GAME STARTS! THE BUNDS ARE GOING TO FACE THREE-GAME SERIES!

AM I KIND OF WORRIED ABOUT MY BEHAVIOR? I'M LIKE A BIRD IN A CAGE!

YOU'RE RIGHT, OZARK. HE'S THE MOST RELIABLE AND CONSCIENTIOUS PLAYER ON THE TEAM!

WHICH MEANS WE MUST HAVE A VERY VALID REASON FOR NOT SHOWING UP!

THE LITTLE LEAGUE COACHING BOX

DON'T BACK-PEDAL ON A FLY HIT OVER YOUR HEAD. TURN AWAY, KUNNING AT TOP SPEED. THEN WHIP AND TO MEET THE BALL CATCH!

CROWN PRINCE Constantine, 15, of Greece, recently awarded the revived title of the Duke of Sparta, is shown shot-putting at Anavyrys, a private school near Athens. The Duke has reportedly distinguished himself as an all-around athlete. (International)

Torture Slaying Suspect Trailed To Jacksonville

JACKSONVILLE (AP)—A man suspected of the torture slaying of an elderly Fort Lauderdale woman has been traced to Jacksonville but the trail ends here, police reported.

The victim, Mrs. Jane Barley, 81, was repeatedly stabbed where at her Fort Lauderdale home where she lived alone. She lived long enough to give a description of her assailant whom she knew only as "Mr. Parker."

Police Capt. H. T. Fowler said the description fit that of a man who registered in a Fort Lauderdale motel as Robert Wilson of Baltimore, Md.

Investigation showed, Fowler said, that Wilson on June 9 took a taxi from near Mrs. Barley's house to a motel, called another taxi and asked to be taken to Jacksonville. When the driver refused, Wilson went to a railroad station and bought a train ticket.

Two Fort Lauderdale detectives came here and combed the area street by street without finding him.

Wilson was described as about 25, 5 feet 8, 135 pounds, fair complexioned with dark, unruly hair. He has slouched shoulders and walks in a fast but loose jointed manner.

Committee Okays Request For Jump To Debt Limit

WASHINGTON (AP)—The House Ways and Means Committee today quickly approved an administration request to increase the national debt limit to \$21 billion dollars for another year.

Committee members said the group acted by voice vote in a brief closed session with no dissent heard. The action came after Secretary of the Treasury Humphrey asked for a continuation of the present "temporary" to \$21-billion-dollar ceiling—six billions above that allowed in the permanent law.

"It will be a tight squeeze but we will try to live within it," Humphrey told the committee.

"We may be back next January if the least thing goes wrong," he said. "It's that tight."

The renewed one-year increase in the ceiling is expected to win Congress' passage within a matter of days. The present law permitting the higher ceiling is due to expire next Thursday.

Humphrey foresaw a sharp cut in a \$15-billion-dollar deficit predicted for the government in the coming fiscal year, or perhaps even a balanced budget.

Dairy products supply about 30 per cent of Americans' protein diet.

Bevan Elected To Party Cabinet

LONDON (AP)—Left-wing Laborite Aneurin Bevan has been elected to the party's new shadow cabinet. His selection came 14 months after he quit the old group in protest against party chief Clement Attlee's stand on international affairs.

The fiery Welsh rebel was among 12 top Socialists elected last night to the body, which decides the party's stand on legislation before Parliament. It would take over as the regular Cabinet should the ruling Conservatives be turned out of office and the Laborites succeed in forming a government.

Along with Bevan, the party members in Parliament also named his chief lieutenant Harold Wilson. Wilson, a former trade minister, took over Bevan's seat on the old shadow cabinet when his leader walked out in April 1954.

There are varying theories about the origin of St. Valentine's Day — that it grew out of an old Roman festival, commemorates a third-century martyr or marks the date of the supposed mating of all birds.

REVIEW DENIED

TALLAHASSEE (AP)—The Supreme Court has declined to review a Circuit Court ruling that the children of Allan Platt have the right to attend white schools.

Lake County Circuit Judge Truman G. Futch ruled the Platt children had won the right by default because of failure of the Lake County school board to file an answer in the case within the required time.

Platt had sued for his children's admittance to the white schools from which they had been barred on the ground they had Negro blood. The father said they actually are of Irish-Indian descent.

The school board now is expected to appeal to the Supreme Court from the order entered by Judge Futch in favor of Platt.

It's Normal for Child To Destroy His Toys

By NERMAN H. BUNDESEN, M.D.

DON'T punish your baby for taking his toys apart. He's simply curious, not destructive; for this curiosity is a healthy, normal thing. It's one way in which he learns. If you were a normal child—and I'm sure you were—you probably did the same thing yourself.

Right Kind of Toys

Now it's important that your infant gets the right kind of toys. Things such as large rubber dolls (yes, even for a boy), rattles, blocks and large empty spoils teach him how to use his hands and legs and help to develop both his muscles and his mind.

As your youngster begins to walk you can give him a toy that he can pull after him.

Let me caution you right here not to give your baby too many toys. If you give them all to him at once, it will only confuse him.

All at Once

Also, if he knows he has a lot of toys, even if you don't give them all to him at once, he'll probably play with one for a short time, and then demand another. He'll keep you busy enough without adding this problem.

A few simple toys are enough for any baby, no matter what your financial standing is. If overly generous relatives such as grandparents, for instance, show your tot with toys, be polite but firm. Put most of these toys away. Offer them to your baby later on, when he has grown tired of those he already has.

Learn to Play

Your baby learns a great deal from his play. He will get much more out of playtime if you give him the right kind of toys.

Most older babies enjoy the kind of toys they can work themselves. Don't expect these things to last too long. As I said, your tot will take his toys apart. Let him do it.

QUESTION AND ANSWER

Q: Are moles on the abdomen and back dangerous and are they likely to be cancerous?

A: If moles are chronically irritated or bleed or become considerably enlarged, they should be removed. Certain types of moles should be left alone. Your physician will determine whether or not removal is necessary in your particular case.

2000 BOMBERS in pack-marched from machine gun bullets during the street fighting and bombing in Huesca, Spain during the attempted coup to overthrow the Government of President Juan Peron. The police estimated casualties at 200 dead and at least 1,000 injured. In a nationwide broadcast, Peron claimed victory while blaming the Reds for attacks on the Catholic churches. (International Radiophoto)

If all the cars and trucks exported from New York Harbor in a year were placed end to end they would stretch from Manhattan to Indianapolis, Ind.

There are towns named "Valentines" in Nebraska, Texas, Arkansas and Arizona and one named "Valentines" in Virginia, says the National Geographic Society.

Lindley Lawyers Ask Dismissal Of Damage Suits

OCALA (AP)—Claiming Edward B. Lindley is an attorney, yesterday asked dismissal of civil damage suits resulting from the slaying of three law officers in a gun battle May 28.

Papers attached to the motions filed in Ocala, Fla., were committed to a mental hospital in Indiana in 1953 and his wife Bertha, 70, appointed his guardian. Lindley is a retired Indiana school teacher.

In the gun battle at the Lindley home here, deputies Bob Wooten and Curtis Youngblood and Asst. Police Chief M. O. Tuck were killed. Lindley was indicted for slaying and his wife as an accessory on each death.

Look 4 Doors and no center posts!

It's the new kind of hardtop—The 4-Door Riviera!

You drop the side windows down on this airy beauty of a Buick with the solid steel roof—and it's as wide open as a Convertible, with no center posts to mar your view. That's what makes it a hardtop. But what makes it a very special kind of hardtop is the fact that it has four doors instead of two.

Cheers? Brother!—they're really rolling out for Buick's 4-Door Riviera!

Now, you see, you can have the tremendously popular styling of a true hardtop combined with the room, comfort and full convenience of a 4-door Sedan.

And it took a completely new kind of body design to come up with this marvel—a new kind of body built to wholly new structural principles.

So it looks like Buick's does it again—because the 4-Door Riviera is a sweeping sensation across the nation.

It's rolling off the assembly lines in volume numbers to meet the demand—in the high-powered CENTURY Series, and in the bedrock-priced SPECIAL Series, illustrated here.

And each one is all Buick—with record-high V8 power, the level steadiness of all-coil-springing, the extra roominess of a full-size Buick Sedan—and, most certainly, with the instantaneous getaway response and bettered gas mileage of Buick's spectacular new Variable Pitch Dynaflow.

Come in for a look at the brand-new kind of hardtop—the 4-Door Riviera. You'll find it priced at the modest extra cost of a 4-door model over a 2-door model—and a buy, too thrilling to pass up.

Thrill of the year is Buick

Social Events

Joy Ruth Class Helps Families By Giving Clothes

The Joy Ruth Class of the First Baptist Church met at the home of Mrs. J. C. Newsome on Lake Markham recently with Mrs. J. W. Carter, president, presiding.

The devotional was given by Mrs. Melvyn Dekle after which monthly reports were given and the visitation was read. Clothes were sorted for needy families.

During the social hour the hostesses had the guests make hats from paper plates and napkins. Refreshments of nuts, cookies, candy and punch were served. As an added surprise cookie hats were served to the guests.

Those present were Mrs. Leland Rudd, Mrs. A. J. Peterson, Mrs. Bennie Austin, Mrs. Calvin A. Wright, Mrs. Charles Morgan and Jimmy, Mrs. J. W. Carter, Mrs. W. B. Howard, Mrs. Robert Hodges, Mrs. Melvyn Dekle, Mrs. Vernon Hasty and Mrs. J. C. Newsome.

Personals

Mrs. J. C. Bills and S. P. Smith have started toward their summer home, Bergennes, Vt. They will stop for ten days at their camp in Hendersonville, N. C. where Mr. and Mrs. John Bills will later bring their family.

Friends of E. E. Walker will be glad to learn that he is improving but is still confined to the Fern-aid Loughton Memorial Hospital.

Mr. and Mrs. Ben Berry of Cincinnati, Ohio have been the guests for the past two weeks of Mr. and Mrs. James Blankenship on Beardall Ave. Mrs. Berry is a cousin of Mrs. Blankenship and niece of Mrs. Whitcomb who makes her home with her daughter, Mrs. Blankenship.

Mrs. C. M. Erson, and Carole of Hatafield, N. J. are the guests of Mr. and Mrs. G. A. Maffett and Mr. and Mrs. Charles Hamill. Mrs. Erson is the sister of Mrs. Maffett and Mrs. Hamill.

Mrs. Sidney Ives of North Elloit Ave. who entered Bowman Gray Hospital in Winston Salem, N. C. this past week, has improved greatly and will return to Sanford next week.

Friends of Judge J. G. Sharon will be glad to learn that he will be back in his office tomorrow after a six weeks absence as the result of an operation.

Miss J. Miller Reveals Plans Of July 2 Rites

Final plans are being announced today for the wedding of Miss Jeanne Lane Miller, daughter of the Rev. and Mrs. John L. Miller and Donald Baron, son of Mr. and Mrs. D. O. Olson of Phoenix, Ariz.

The wedding will be held at the First Baptist Church on Saturday evening, July 2, at 8 o'clock with the Rev. W. P. Brooks Jr. officiating.

Miss Miller has chosen as her maid of honor, Miss Sandra Dunn, and bridesmaids, Miss Patry Collins and Miss Peggy Wright.

Jackie Miller, brother of the bride-elect, will serve as best man, and usher-groomsman will be Bob Wills, Joe Douthitt and Troy Ray Jr.

Soloist will be Miss Norma Payne Harvey, and organist will be Miss Margaret Davis, who has been music teacher of Miss Miller since early childhood.

All friends and relatives are invited to the wedding, and reception which will be held immediately afterward in the Memorial Educational Building.

MRS. ROBERT ERNEST MCKEE (Photo by Cox)

Betty Brisson, Robert McKee Have Beautiful Ceremony Sunday

In a beautiful setting of palms, gladioli and poinsettias against an altar banked with natural greenery Miss Betty Jean Brisson, daughter of Mr. and Mrs. Russell Gordon Brisson was wed to Robert Ernest McKee, son of Elder and Mrs. A. D. McKee of Greenville, Tenn. Sunday, June 26 at 8 p. m. in the Seventh-day Adventist Church with the Elder A. D. McKee officiating.

Organist for the candlelight ceremony was Mrs. Darrell Grieme. Selections played were "Love You Truly," and "O, Perfect Love."

The bride, given in marriage by her father was lovely in a ballerina length traditional white gown of crystalite taffeta accented with a round neckline. Inset with three quarter length sleeves and three quarter length collar was also worn by the radiant bride. She carried a cascade bouquet of white carnations centered by a white orchid with a purple throat.

Miss Constance Ludwig, maid of honor, was gowned in a turquoise crystalite taffeta dress and carried a cascade bouquet of yellow carnations.

Bridesmaid, Miss Celia Youmans, of Tallahassee, wore an identical dress to that of the maid of honor and also carried yellow carnations.

Morris Swinson, Tampa, served as best man and Jim Cochran, Ft. Myers and Robert Brisson brother of the bride, acted as ushers.

Little Rebecca Patterson was flower girl. The bride's mother wore a dress of rose lace with a corsage of white carnations.

The groom's mother chose a blue rose dress and pinned a corsage of white carnations on her left shoulder.

A reception was held immediately after the ceremony in the home of the bride's parents. Brides flowers were used throughout the

The Ladies Auxiliary of the B.P.C. will meet with Mrs. Nan Fortner at 11 a. m. for its monthly business meeting and covered dish luncheon.

The First Baptist Vacation Bible School will begin at 8:30 a. m. for those age three through 16 years.

The First Baptist Vacation Bible School Commencement program will begin at 8 p. m. in the Church Auditorium. The Exhibits will be open to the public at 7:30 p. m.

Milk Refreshments For Teen - Agers Carry Food Values And Taste Good

By ALICE CROWMARTIN
Extension Nutritionist

A getting together of the "gang" usually means "snacks". Why not make these "snacks" pack a lot of food value as well as a taste good?

Teen-agers in their "growing-up process" should get a quart or more of milk a day. Milk contains protein for cell tissue building, three important B vitamins for growth and development and calcium for sound bones and good muscle action.

Few teen-agers, especially our young ladies, get enough milk to take care of their rapid development. Don't preach to them about it though, that won't help a bit. Try instead having plenty of cold milk (any kind) on hand. Dry skim milk is low in calories and makes into delicious "shakes". Besides, it is very inexpensive to use. Keep on hand some "fixings" for milk drinks, too, besides several simple recipes left conveniently near the "fixings".

A quart fruit jar with Bellows are some recipes your teenager will enjoy making up and a tight lid makes a fieshaker, serving to the crowd. They'll be so excited over how good it is, and you can be sure they are getting much needed protein, vitamins and calcium!

Peppermint Smash: Allow 2 1/2 cup cold milk for each person to be served. Pour into shaker. Put one generous scoop of vanilla ice cream into shaker for each 2 1/2 cup milk. Add a tablespoon (or 2 servings) of crushed peppermint candy. Shake. Pour in chilled glasses. Sprinkle with more crushed peppermint and serve at once.

Apricot Cooler: Into shaker pour 3/4 cup milk for each person to be served. Add 1/2 cup of canned apricot nectar for each 3/4 cup milk. Shake. Put a scoop of ice cream in each glass. Pour apricot milk over ice cream, serve with straw and ice-tea spoons. Better use tall glasses!

Banana Shake: Allow 1/2 a well ripened banana for each cup. Mash with a fork or electric mixer until smooth. Pour into shaker with milk. Or add milk to mixer. Add 2 teaspoons sugar and dash of nutmeg for each serving. Shake with several ice cubes. Pour in cold glasses and serve.

Moach Swiss: Mix 1 tablespoon rhocholate syrup with 1/2 cup milk. Dissolve 1 teaspoon instant coffee in 1/4 cup hot water. Add chocolate milk. Add a scoop of vanilla ice cream and shake. This makes one serving. Maybe

Supper Is Given

Mrs. Fay L. Lee of Enterprise entertained on Wednesday night with a buffet supper.

Mrs. Lee had as her guests, Mr. and Mrs. Walter H. Trapp, Mrs. Mary Larson, Mr. Lee, Mrs. Irene Watt, Mrs. Effie Mielke, Joyce Mielke and Pam Mielke.

Try This One

Like to make tarts? Then try this easy delectable recipe.

Turkey Tetrazzini
Green Peas
Hot Biscuits
Spiced Peach Tarts
Beverage

SPICED PEACH TARTS
Ingredients: Rich pie dough (based on 1 1/2 cups flour) 1/2 cup firmly packed light brown sugar, 1 teaspoon cornstarch, dash of salt, 1/2 teaspoon nutmeg, 8 canned sliced peach halves (thoroughly drained).

Method: Roll out pastry and fit into 8 tart pans (each 3 inches across top) or into muffin pans. Mix brown sugar, cornstarch, salt and nutmeg. Put half the mixture into the pastry-lined tart pans or muffin cups. Place a peach half in each tart pan. If muffin cups whose top diameter is less than 3 inches are used cut peach halves in two and fit two peach pieces into each muffin cup. Sprinkle remaining sugar mixture over peaches. Bake in hot (425 degrees) oven 25 to 30 minutes or until pastry is lightly browned. Makes 8 servings.

Swimming Classes Are Completed

For the past six weeks swimming lessons have been given at the Sanford pool, for Brownies and Girl Scouts. Eighty-seven girls took part in these lessons. The classes were for beginners, intermediate, advance and Junior life saving.

The following girls passed their Junior Life Saving Tests: Misses Sandra McKinney, Patricia Clark, Sally Bobb, Marilyn McDaniel, Janet Glenn, Melinda McMurray, and Judy Brown.

The classes were conducted by Mrs. Deva Clark, Mrs. L. J. Butler Jr., Miss Frances Wilson, Mrs. L. A. Olson and Miss Frances Cobb.

Male Ankles Now Are Whistle Bait With Bright Colors

This is the year that the U.S. male comes into his own.

Now his well-turned ankles, exposed by shorter trousers and lower-cut shoes and glorified by dazzling socks, rate whistles from the girls.

Socks for spring and summer are being turned out in every conceivable color, pattern and knit—all for the greater glory of the male ankle. Some of the untraditional colors that will be plainly visible this summer include: hello, shrimp, burnt orange, flamingo, lemon, lime and champagne pink.

It seems the men are buying them, too. Since the first conservative male was won over to a pink shirt, all bars seem to be down.

The vivid tints are used in various ways—as a discreet accent against a neutral background or as a traffic-stopping blaze of color in a hold pattern.

Yarns used in the new socks cover a wide range—daron, nylon, wool-and-nylon, orlon-and-nylon, as well as the more familiar wool, cotton and silk.

Other new wrinkles in the sock lineup are the stretch-to-fit sock and the built-in garter support.

Commander's Wife Is Entertained

Mrs. Paul R. Rupert entertained at her home on Willow Terrace, Norfolk, Va. June 23 in honor of Mrs. Dale Leon Scott Jr., who will be leaving in the near future for Port Lyantev, French Morocco to join her husband, Lt. Cmdr. Dale Scott.

Mrs. E. F. Sunderman served coffee and tea from a table appointed in white and pale pink. About 30 guests were present.

Rehearsal Supper Given Couple, Saturday Evening

The Smithson - McKee rehearsal supper was given Saturday evening by Mr. and Mrs. William Rader McKee, parents of the bridegroom, at their lovely home.

Mixed flowers, artistically arranged, were placed at points of interest throughout the home.

Guests enjoying this affair with the popular couple included the Rev. and Mrs. George Carlton, Mr. and Mrs. P. M. Smithson, Miss Pleasant Jean Smithson, Mr. and Mrs. E. J. Estes, Mr. and Mrs. Merritt Staley, Mrs. Kay Clontz, Jr., Stephen Clontz, Mrs. Ruby Combs, Miss Alice Lee Combs, Mrs. Mary Nichols, Mrs. Alice Thomas, Miss Lynn Thomas, Mrs. James French, Miss Shirley Jones, Miss Louisa Hart, Miss Thelma Bamby, Johnny Jones, Ray Beasley and Mr. and Mrs. Melvin Reed, the latter of Sanford.

The couple will reside after their trip in Tampa.

Out-of-town guests included: Mr. and Mrs. Harry Stephenson, Mr. and Mrs. J. S. Potts, Tampa; Mr. and Mrs. E. R. Swain, Collegeville, Tenn.; Mr. and Mrs. D. R. Brisson, Dayton, Ohio; Mr. and Mrs. L. H. Nichols, Casselberry, Fla.; A. L. Youmans, Tallahassee and Miss Lynne Jensen, Nashville, Tenn.

The bride was born in Sanford and attended Forest Lake Academy Matland, and Southern Missionary College in Collegeville, Tenn. She is presently employed as secretary by the North America Companies in Tampa.

Mr. McKee was born in Hattiesburg, Miss. and attended school in North Carolina and also S. M. C. in Collegeville, Tenn. He is attending the Tampa Business College majoring in accounting.

Rebeah Lodge Meets Thursday

The Seminola Rebekah Lodge No. 43 met in the IOOF hall Thursday night with Noble Grand, Mrs. Mabel Brown presiding.

After routine business and draping of the Charter for a deceased member, Mrs. Katherine McKay, and draping the Altar for the late Grand Master J. C. Conally of Jacksonville the meeting was turned over to Mrs. Blanche Farmer, Mrs. Farmer, district deputy president of No. 10 held a school of instruction.

A program of Bible pictures used in the Rebekah work was shown on the screen by Mrs. Emily Jameson.

The hall was beautifully decorated in the president's colors, pink and green. Refreshments were served to 20 members and 25 visitors.

Better than "custom made," Penney's sheer stretchable Gaymode nylons mold to your legs, follow every curve and hollow like a second skin. Seams stay in place... never twist, never turn. And these Gaymodes are glamorously sheer, too. Find them in Gala, a wonderfully soft shade. Sizes Misses, Norm and Long.

Dominican Enterprise

The Dominican Republic is constructing a huge shipyard and a free port, two projects that are being closely scrutinized in the United States.

The shipyard, located on one of the world's busiest sea routes, has a significance beyond the Caribbean. U. S. shipbuilders see this project as a possible threat to the declining East Coast industry. They fear they will be unable to compete with the Dominican shipyard, where labor costs will be far lower than in the United States.

The Dominican shipyard will have five floating docks, the largest 1,105 feet long and 145 feet wide. This dry dock is designed to handle the huge tankers and ore carriers now in use, but it also will be large enough to lift aircraft carriers of the Forrestal class as well as liners like the Queen Mary and the United States.

These new facilities are expected to provide 5,000 jobs for Dominican workers. In addition, a considerable volume of new business will be created. As a result of this project, plans are being considered for an elaborate retail shopping center, where the growing number of tourists from the United States and South America might purchase duty-free gifts from all parts of the world.

Despite the possible competition that may ensue, this project is commendable. It shows that no nation is too small to solve its economic problems. Certainly if expenditures for these projects materialize, the Dominican Republic will reap major

benefits that will make it one of the most important countries in the Caribbean.

Disappearing Parks

Parks are generally taken for granted. They are used and enjoyed. But few people stop to think how they were created. Still fewer think of their future.

Yet the public parks, on the national, state and local levels, are in a tight squeeze. The population is growing. Cities and towns are being built up rapidly. But the public parks remain static. Some indeed, are sacrificed as building sites for "improvements". And without adequate planning, many communities have grown up without adequate provision for parks.

C. McKim Norton, Vice President of the Regional Plan Association of New York City, recently discussed the squeeze-play on the nation's parks in a talk entitled "Disappearing Countryside." He warned that unless corrective measures are taken, New York City, for instance, would become a "continuous tight-packed urban area" requiring an overnight drive to reach the country. "We need to set aside areas," he urged, "that are just a piece of country, informally kept and informally used." This is true of other cities, also. What are we going to do here?

Joseph Prendergast, executive director of the National Recreation Association, went so far as to propose a country-wide conference to be called by President Eisenhower in 1956 to alert the nation to its need for parks and open spaces. The need for such areas becomes more important as the population grows larger and the work week grows shorter. The national parks, which have sufficient facilities for 25,000,000 people annually, were visited by 48,000,000 last year. This indicates the need.

The problem of providing adequate parks and playgrounds for a growing population ought not to be ignored. Yet little will be done unless citizens demand it.

Trash Tossers

It should cost \$10.00 to throw canny wrappers or newspapers on New York City streets or sidewalks, claims Chief Magistrate John M. Murtagh, who has jurisdiction over these violations. He would collect the \$10.00 without fail and allow it to be done by mail.

Throwing unwanted papers or other trash on the streets does not strike careless people as being much of an offense. But when many people do it daily, no amount of street-cleaning apparatus can keep up with the debris.

An ill-kept community inspires no civic pride. Army officers say that to make good soldiers they must first be taught care in dress and bearing. That might be true for cities and towns as well.

STEP DOWN DESIGN

HAL BOYLE

You Can't Act Out Your Dreams

NEW YORK (AP)—Curbstone reflections of a Pavement Plato: One trouble with life is a fellow gets too old to feel at ease while wearing a Davy Crockett hat in public. He no longer can openly act out his daydreams.

So his fantasies go underground in his mind. And they stay there, itching him mentally for years and years.

In time they gradually grow smaller and smaller in scale. Haven't yours? Can't you remember when maybe you dreamed of running into a burning building and rescuing a beautiful lady? Or of finding \$100,000 in the street?

Today none of those daydreams flicker through your head. They don't even make sense as daydreams after 40.

If the loveliest woman in the world leaned her head out the window of a flaming dwelling, I'd merely stand there on the pavement and help her yell "Help!" I know my limitations. I wouldn't run up a flight of steps now to rescue anything except my social security card—and it would have to be in terrible peril at that. In middle age a man no longer pictures himself in his daydreams as a great hero or a great rascal. He realizes he no longer has the desire—or energy—to be either.

His dreams of glory come down to small daily dramas in which he sees himself mastering some ordinary social situation that has always frustrated him before. For example, he has just got a haircut. The barber looks up a perfunctory mirror and says, "Okay!"

For 100 times in a row in the last 30 years the victim has meekly murmured, "Uh-huh," and said, "But in his daydream he suddenly rebels and says:

"No, it certainly isn't okay, Tony. You got it parted wrong. There are at least 6 hairs too long on the right side. And I told you to life the sideburns, and you didn't. Want me to look like a sleepdog? Now get out your scissors and do the job right—for once!"

The abashed barber bows ass to his task. When he is finished our little hero steps from his chair with a crisp, "That's better!" As he swaggers from the shop the other customers break into admiring applause.

Or suppose you are on a bus making the long voyage home and the driver says, "Pleezmoveback-innabuss, movebackinnabuss," and you try to. And a fat lady says, "Who you shovin', Gargantua?" Instead of subsiding in mumbling apologetic apology, you sing out loud and clear:

"Out of my way, fat lady. I'm going to get to the back of the bus if I have to carve my way through a wall of living flesh—and I do mean your flesh!"

Well, the driver slaps the bus. Tears streaming down his cheeks he comes back, shakes your hand and mutters, "Pal, pal—after all these years, somebody dine it at least. Somebody moved uppinnabackuhubuss."

I have two simple daydreams myself. In one I am cashing my paycheck and the bank teller asks, "Do you have any identification with you?" Instead of fumbling through my pockets, I merely fix him with a pair of steel blue eyes and tell him coldly, "my face is my identification in this man's town, sonny." He takes one hurried look—and cashes the check pronto.

In the other I go with a guest into one of the velvet rope restaurants, and when the headwaiter snootily asks if I have a reservation, I tell him:

"I have a reservation? Look, mister, I don't even own an Indian. Now quit stalling, and show us a table."

Overcome by this bit of swift repartee, the humbled headwaiter drops his velvet rope and steers us to the best table in the place. In another variation of this daydream I merely take out a Boy Scout knife, hack the rope in two, and stink right by the headwaiter as nearby girls look up and ask, "Who is he? Who is he?"

But, of course, this is probably the average man's most common daydream: He wakes up to find his house is finally paid for and doesn't need any repairs, his car is paid for and there isn't even a knock in the motor. He sits down to breakfast and neither his wife nor the kids hit him for money. He reaches in his pocket and is pleasantly dazed to find he still has \$10 left—and it's only two days till payday.

Man, that's real dreaming! Who'd rather be Davy Crockett?

Half the housewives who live in cities can fruits or vegetables in their own homes.

Inside Washington

WASHINGTON—Look for an increase in Democratic sniping at such federal regulatory agencies as the Federal Communications Commission as the big political year of 1956 draws closer. These agencies are now run, of course, by President Eisenhower's appointees and Democrats will charge they are no longer bipartisan or quasijudicial.

For instance, Democratic National Chairman Paul M. Butler recently complained about remarks made by FCC Chairman George C. McConaughy. Butler quoted McConaughy as urging members of the National Association of Radio and Television Broadcasters at their annual convention to "bend every effort to have President Eisenhower address you for the next succeeding five years."

The Democratic chairman then pointed out that the broadcasters "cannot stay in business without the licenses granted by the commission. Mr. McConaughy heads."

Butler complained that the FCC "bypassed the recommend-

ations of its own examiners and denied new TV licenses" to two "prominent people" who supported Adlai E. Stevenson for the presidency in 1952.

Great Debate—There apparently is a bit of confusion in official Washington as to the administration's policy on exporting American farm surpluses. It seemed as if Agriculture Secretary Ezra Taft Benson had killed off any thought of trading surpluses with the Communist bloc when he said several weeks ago that he didn't see any possibility of conditions developing to the point where such trade would be advisable.

However, shortly after Benson's statement, a lesser Commerce department official told a congressional committee that the matter was still under consideration at the policy-making level. Some confusion is probably understandable since there are so many interests to be reconciled.

The deciding factor in the case of exporting to the free world probably will be whether any large deliveries of surpluses can be made overseas without severely damaging the economies of other friendly countries.

The State department is firmly against doing anything that would hurt any of this country's allies, many of whom are economically dependent on agricultural exports. However, the administration is facing some congressional pressure to increase exports of United States farm surpluses.

Some officials, but certainly not all, officially feel that selling a limited amount of agricultural exports behind the Iron Curtain might be an answer.

Election Tips—Members of a Senate subcommittee considering election law reform picked up some possible tips on how to get themselves re-elected recently.

Samuel Lubell, a political analyst, testified that he has asked many people in various parts of

the country what led them to vote as they did in congressional elections.

Lubell said some told him they voted for a certain congressman because he gave them a shopping bag. He also said another answer he got was "I voted for this man because I got a letter from him once."

TODAY'S BIBLE VERSE
Have faith in God.—Mark 11:22.—We cannot make the world a better place, but we can make one little corner better. Leave the rest to God, he is well able to uphold his universe and bring about his own ends at last.

JAMES MARLOW

New Plan Has Built-In Protection

WASHINGTON (AP)—Ford and General Motors didn't sign their lives away. Their agreement to pay laid-off workers has built-in protections. Roadblocks must be overcome. And there is not a true guaranteed wage at all.

The roadblocks:
1. The plan dies unless the federal government lets the companies treat as deductible expenses on their income taxes the contributions they put into their funds for laid-off workers.

2. The plan dies unless states containing two thirds of Ford and GM workers say they can, if laid off, collect both the pay from the companies and the full unemployment insurance given by the states. The deadline for approval is June 1, 1957.

3. Most, if not all, states have rules or laws, varying from state to state, against giving an unemployed worker any state insurance, or in some cases full state insurance, if he is collecting payments from his old company.

Ford has 140,000 workers scattered over more than 25 states. GM has 250,000 workers in even more states.

The companies will act aside in

trust funds 5 cents on each hour's work done by their employees until, in the case of Ford, the fund reaches 55 million dollars, and, in the case of GM, 150 million dollars.

In case of layoffs, they'll pay their unemployed workers out of those funds, reducing their payments by 30 per cent if the funds drop to 15 per cent of the maximum level and stopping payments altogether if the funds drop to 5 per cent.

A true guaranteed wage plan assures workers either steady employment or approximately full pay for as much as a year if they lose their jobs. The Ford and GM plans do neither.

Company officials have described their agreement as a supplemental pay plan.

They'll give their workers between 52 and 82 for a maximum of 25 weeks. How much each worker gets from them depends on how much he worked at it and what state he lives in.

All states pay unemployment insurance but they vary in amount and duration. Some give the insurance for 18 weeks; some give it for more than 25. The companies

agree to pay their unemployed people for no more than 26 weeks. They state their case this way:

Their unemployment pay, added to the state unemployment insurance a worker gets, could give him up to 60 to 65 per cent of his take-home pay when he was working.

Most of the present residents of Haiti are descendants of the slaves imported from Africa by early French settlers.

When birds of species which can be taught to talk are released in pairs or groups they seldom talk.

It stands alone in the world today—

New Octane Bonus Amoco-Gas

The present epidemic of octane claims is based on laboratory ratings. They are ratings obtained by adding lead. And lead doesn't all burn up. It leaves harmful deposits that can turn your engine into an octane trap—a trap that catches and wastes octane!

Then the octane performance in your car suffers. That's the difference between laboratory octane and usable road octane.

A great, new unleaded gas with an Octane BONUS

Out of the world's largest Ultraforming unit comes the clear answer to octane... a white, premium gas with such natural high-octane value that no lead is needed!

All the high-octane energy in the new Ultraformed Amoco-Gas is *usable octane* on the road where it counts. It can all burn... it can all go to the wheels. There's no octane waste due to lead deposits.

So you get a *bonus* in every gallon of the new Amoco-Gas—an *Octane Bonus* that multiplies itself into extra gas mileage. Try the new, Ultraformed Amoco-Gas—it's wonderful!

The white gas with the

Octane BONUS

Bonus Mileage—because it contains no lead!

THE BOSS OF BROKEN SPUR

CHAPTER SEVEN

OVER supper Kerry studied his father's temper as a sailor might have studied the weather. When, halfway through the meal, Rob broke the silence with a "Pass the biscuits, kid," Kerry was sufficiently encouraged to open a conversation. When Rob called him "kid," it usually meant he was in a mellowing good mood—at least, not mad at him. He called him "son" when he was pleased with him, "waddie" in rare moments of tenderness.

"I heard something down at the bunk today," he hadn't been a fortune teller, but he had a hunch that just looked at him under lowered lids and said nothing. "Something I figured you ought to know about," he plowed ahead. "There's talk going around among the seafarers that you're laying claim to that land they're on." If there was a flicker of expression on the handsome, impassive features, he couldn't make it out. "Well," he demanded abruptly, "are you?"

"None better," Rob drawled. "Never knew you to get so stirred up about Broken Spur's business before."

"Well, if there's going to be trouble, I'll be in it, won't I? But you might as well know about it." "I might," Rob agreed drily. "I could over find you when things are happening. Who told you this?"

"Jim Larrabee."

"And wouldn't he get his information?"

"He wouldn't say."

"Larrabee's got some, for a seafarer, Rob growled. "He wouldn't mention it if anybody's loose tongue wagging."

"Then that's all it is—just talk? What's what I told him, but—"

"If I thought you were on my mind, you reckon I'd wait five years to move back here? They're not, as far as I know. There's old Jim Larrabee's granddaddy's name on the land grants aren't exactly surveyor's jobs. When the country

was half empty, people weren't so fussy about boundaries. I doubt if the old Doc who sold me the land could have said himself exactly where his claim ended."

So that was that, but Kerry didn't feel as relieved as he should have. A rumor, true or false, dropped into the uneasy peace of the country, could be a spark dropped in dry grass, setting a blaze that once started might spread out of all proportion to its trifling cause—and watching Rob's face across the table, he suspected he wasn't alone in his thoughts.

The schoolhouse was pretty well crowded when Kerry and Lita arrived. Old Bill Haggerty was leading his fiddle sing, and the center of the floor was a shifting pattern of colors—men's bright shirts and red bandannas, women's assorted bonnets, mostly of women. Seated the benches along the walls, the straight line of them broken by little clumps of standing men who hadn't yet found partners.

It all looked festive and innocent enough, but Kerry was aware, with a tingle in his nerves, of tension underlying the gaiety. The seafarers were drawn together in tight, distinct bunches, and the looks they sent in the direction of the men who hadn't yet found partners.

At the center of one of these groups stood Tim Larrabee and the two other boys, Fred and Young Kate. Their faces were red and hot, suggesting more than a couple of drinks. Tim, with his head thrust forward and his eyes like hot coals under the brilliant bonnets, reminded Kerry of a bull about to charge. He was talking when he caught sight of Lita, and he broke off with his mouth open. The whole of his big frame stiffened, and Kerry's own muscles went tense with an apprehension that the young seafarer was going to jump him right then. But Fred Cullen touched his arm and murmured something in his ear, and he slowly subsided.

"Let's dance, honey," Kerry put an arm around Lita's waist and swung her out onto the floor. She was worth Tim's stare, and all the others that were being less obviously laid on her. She was tantalizingly beautiful.

While Bill was tuning up for the next, the door swung open to let

in Cameron and Christie. Her eyes travelled around the room, resting for a few seconds on Kerry and Lita, then going over and past them, with no sign of feeling disturbing their blue serenity. Suddenly it came over him that bringing Lita here had been a fool kid's trick.

Bill struck up Red River Valley, and Christie moved out onto the dance floor in Cameron's arms. At Lita's tug on his sleeve, Kerry turned impatiently, resenting her warm, possessive touch.

"Don't you want to dance, Kerry?" She looked and sounded like a disappointed child. She wasn't to blame for the way he felt. He made himself smile at her. "Sure, honey. Just getting my wind."

He kept his attention conscientiously on her, but the salt had gone out of the evening. The tune ended to a spatter of applause. Bill, protesting, "You folks don't seem to realize addin' the thirty work," stepped down to where half-a-dozen bottles were being cordially attended.

"Hello, Riordan," it was Cameron's voice, casually friendly. Just as casually, Kerry turned around.

"Howdy, Lita, I'd like to make you acquainted with Wayne Cameron. Miss Dawson."

"A pleasure, Miss Dawson," Cameron smiled with just the right amount of respectful interest. Lita, Kerry couldn't help noticing, was showing considerable more than that. What was it about this raw-boned hombre that got the women?

"And I reckon you know Miss Toland, Lita?"

"Don't believe I do."

"I haven't got a partner of applause. Neither girl offered to shake hands. It was a distinct relief when the music started up again.

"May I have this one, Miss Dawson?"

"Why, if Kerry don't mind—"

"No, sure, go ahead."

Cameron guided Lita out among the dancers. Kerry looked at Christie—

She stepped into the circle of his tentatively extended arm. They made a couple of turns in silence, then, "She's very pretty, Kerry."

"Thanks."

Silence again. If there was anything more to be said between them, it was too much to say with this crowd around them.

(To Be Continued)

Rotarians Set Plans For Year

Members of the incoming Rotary Club board of directors for 1955-56 met with committee chairmen and officers at the home of incoming president William Bush Jr. Thursday night.

Plans for the new administration were discussed and Bush announced this list of directors, officers and committee chairmen and members.

Board of directors—Bush, Clarence Redding, Charles Persons, Earl Turner, A. W. Epps Jr., Gene Tucker, R. J. Bauman, Jack Rattigan and H. H. Coleman.

Club officers—Bush, president; Dr. R. W. Precht, secretary; the Rev. Lucian Scott, sergeant-at-arms, and Walter M. Haynes, treasurer.

Club service—Gene Tucker, director in charge.

Community service—Dr. Epps Jr., director in charge.

Program committee—W. C. Hutchinson Jr., chairman; T. E. Tucker, C. L. Redding, Charles S. Morrison, Harry Weir, Milton D. Ladd, Fred Perkins, Tommy Mero and C. L. Park Jr.

Attendance committee—Lloyd J. Lowe, chairman; Frank Noel, P. J. Westgate, Robert Cornell, R. A. Newman Jr., and John Payne.

Fellowship committee—M. L. Raborn, chairman; Henry Simpson, Frank Evans, Ed Heat, Gordon Bradley and Charles Wagner.

Membership committee—Clarence Redding, chairman; Jack Rattigan, W. A. Lettler, H. H. Pope, and Randall Chase.

Public Information committee—Myron Beck, chairman; and Fred Perkins.

Rotary Information committee—George Stine, chairman; Jack Rattigan, Walter Haynes, B. L. Perkins Jr., and George W. Touhy.

Classification committee—E. A. Moughton Jr., chairman; A. C. Stine, and Orville Touchton.

Magazine committee—B. L. Perkins Jr., chairman; B. L. Perkins Sr., W. B. Nicholson, William E. Kader and W. C. Hutchinson Sr.

Club activities committee—Al Lee, chairman; F. Roumillat Sr., F. E. Roumillat Jr., James Holtzclaw, Tom Brown, Tom Jones and Earl Turner.

Music committee—Charles F. Morrison, chairman; Harry Kudell and C. W. Baker.

Youth committee—John Pope, chairman; John Morgan, Roy Holter, Bonny Powell, Ben Wiggins, Orville Touchton, F. D. Scott and Charles Vodopich.

Community project committee—Lowell Oster, chairman; Fred Williams, the Rev. H. L. Zimmerman, Orville Barks, and Dr. Epps Jr.

Student loan committee—Robert Trus, chairman; Leroy Anderson and Bill Kirk.

Club history committee—Walter Haynes, chairman; Dr. A. W. Epps Sr. and Dr. C. L. Parks Sr.

International service committee

Don Bisplinghoff Wins State Open

FORT LAUDERDALE (AP)—Chubby Don Bisplinghoff won the Florida State Open championship yesterday.

After defeating pro Lloyd Watkins by one stroke Bisplinghoff said he would compete in the Colonial Invitational in Memphis July 6.

He said he would continue with other tournaments this summer and then take a crack at the national amateur title at Chicago's Tam O'Shanter.

He finished the 72-hole Florida Open with a total of 294 after matching par 72 on the final round. Watkins had 289.

Bisplinghoff's victory depended on whether Watkins sank a six-foot putt at the 18th and final hole.

It was the second straight year an amateur has whipped the field of professionals. Jim McJoy of Lake Worth did it last year but he came in 15th with a score of 307 this year.

Watkins, as high professional, won \$500 of the \$2,000 offered the professionals. The amateurs split \$1,000 worth of merchandise.

Henry Castillo of Tampa was tied with 293, amateur Ray Terry of Cocoa and Jim Wages of Orlando tied for fourth with 294 and Steve Warga of Miami was 30th with 295.

Jackson, Slade To Meet Tonight In Return Fight

Tommy Jackson, the heavy-weight hurricane who blew himself out, will try and stir up a stiff breeze tonight in a return encounter with Jimmy Slade, the ring "cutie" from New York.

It was Slade who halted Jackson's meteoric rise 14 months ago. The veteran 28-year-old whipped the strapping, 23-year-old Jackson in a 10-rounder. The defeat came after Jackson had soundly trounced Rex Layne, Clarence Henry and Don Bucceroni and appeared headed for a shot at the title.

Nino Valdes further defeated Jackson by stopping him in the second round three months later. Since then the 191-pound, 6-2 1/2 Jackson has won five straight over mediocre opposition. He is rated the fourth contender.

Slade, onetime conqueror of Don Cockell, is on the downgrade. He has lost four of his last five. This looks like a good spot for Jackson to gain revenge.

The bout at New York's St. Nicholas Arena will be telecast (DuMont-TV, 9 p.m. EST).

Lightweight Champion Jimmy Carter is a 3-1 choice to retain his title in a 15-rounder with Cincinnati's Wallace (Bud) Smith at the Boston Garden Wednesday night. The bout will be broadcast and telecast (ABC-TV and radio, 9 p.m. EST) with New England blacked out.

This is the 11th title fight for the 21-year-old New Yorker, only fighter to win a title three times. An in-and-out, Carter was beaten in his last start by Orlando Zuluetta on April 20, Smith, 26, was held to a 10-round draw by Johnny Gonsalves on Jan. 8, the challenger's most recent outing.

Workers Union (AFL) is striking over contract differences. The union wants 8 1/2 cents more in wages and benefits. The industry has offered about 4 1/2 cents. The wages now run from \$1.31 to \$2.27.

Seven phosphate firms operating in Polk County and eastern Hillsborough County are strikebound. The area is the largest producing one in the world.

Tony Trabert May Have Golden Week

WIMBLEDON, England (AP)—This could be a golden week for the globe-trotting Tony Trabert. Just three matches against a handful of the world's top tennis artists separate him from a title which is almost a prerequisite for turning professional.

Last year a cluster of blisters on his racket hand ended his chances of pulling off the title. This year he's feeling fine, no blisters bother him an inch, playing well enough to win the Wimbledon title. The title would surely lead to tempting offers to join pro ranks.

Trabert, who so far hasn't lost a set in the three matches he's played, has said often he wouldn't look down his nose at any offer.

Since the war three men who won the Wimbledon have turned pro. They were Yvon Petra of France, winner in 1946, Jack Kramer, United States, 1947, and Frank Sedgeman, Australia, 1952.

Trabert tangles with Jaroslav Drobny, the current title holder, today. He shouldn't have much difficulty if he plays as he's been doing so far.

Budge Patty of Los Angeles, is also in Trabert's hall of the draw, but he first comes up against Lew Hoad in the quarterfinals today. Odds are on Trabert meeting Hoad in the semifinals. The win-

Phosphate Strike Settlement Hopes Become Brighter

PLANT CITY (AP)—Prospects for settlement of the phosphate area strike affecting 3,000 union workers appeared a little brighter today.

Union officials said they had accepted an invitation from William S. Pierce, regional director of the Federal Mediation and Conciliation Service, to meet in Atlanta for "top level exploratory talks."

They said they understood top executives of the phosphate companies also had accepted.

Talks will be held tomorrow and Sunday.

The International Chemical worker could possibly meet Ken Rosewall of Australia in the finals.

Little Rock Gets Another Manager

With attendance well below the break-even point and an inept ball club hopelessly wired in the Southern Assn. cellar, Little Rock baseball officials turned today to a new manager with only a flicker of hope that the fellow can switch directions for the "wrong way" Travelers.

Bob Mavis quit as Trav skipper yesterday and called the woes of managing such a team "unbearable." The Rocks dropped both halves of a doubleheader to Nashville 7-3 and 9-4 to fall 28 games off the pace and 18 1/2 behind seventh place Mobile. The Sunday twin bill attracted 494 customers.

General Manager Ray W... who tried to talk Mavis out of quitting, promised a new manager for tonight's encounter with the Vols. He said he would be someone not presently with the club.

Birmingham breathed on the neck of poor sitting Memphis today when a 6-0 Barons victory over the Atlanta Crackers, Memphis and Chattanooga were rained out of a doubleheader. Birmingham's victory left the young Barons only half a game out of first place.

New Orleans beat Mobile 3-2 in the window of a suspended contest of May 23, but the Bears trounced the Pelicans 10-3 in the regularly scheduled game.

Marine scientist, after a survey, predict a booming tuna fishing industry for Texas' Gulf coast. The true Texas, no doubt, would scorn hook and line and simply lassoo the bigger ones.

Humphrey Sees Sharp Decrease

WASHINGTON (AP)—Secretary of the Treasury Humphrey foresaw today a sharp cut in a 2 1/2-billion-dollar deficit predicted for the government in the coming fiscal year, or even perhaps a balanced budget.

Humphrey disclosed the government's improved financial outlook for the bookkeeping year beginning a week hence in testimony prepared for the House Ways and Means Committee. "We hope and believe," he said, "that the government can get along on a temporary one-year extension of the public debt limit at its present \$11-billion-dollar level."

Humphrey said "our present promising business and international outlook" is the foundation of his optimism that there is no need for a more permanent higher ceiling.

Cardinals Take Two Games From Cocoa

By THE ASSOCIATED PRESS
The Florida State League played baseball in only one city yesterday but that program at Sanford was enough to make up for what was

rained out elsewhere.
The afternoon game of the split doubleheader went off speedily in just under two hours, but the night game started late because of rain

and dragged on until after midnight.
Sanford swept both games over Cocoa 6-4 and 3-2 before the meager crowds of 113 in the afternoon and 91 at night.

This may be the last week for Sanford in the league although a group is trying to get backing to take over the franchise and keep the team there when the present owners turn over the franchise

Thursday.
The Cardinals chased Cocoa's Joe Petriello in four innings of the first game, banking him for nine hits and five runs. Then they cut off a late Cocoa rally in the

second game. Bud Miller hit a grand slam home run while Ronald Manfredi handbatted Cocoa with six hits.
Postponements of the other scheduled games set up double-

headers for tonight at Orlando, Gainesville and Daytona Beach, Cocoa.

Players Eye National League 'Rookie Of The Year' Award

It's Likely To Go To Virdon Or Arroyo

By JOE REICHER
The Associated Press

If St. Louis outfielder Bill Virdon doesn't win the National League Rookie of the Year award, his teammate, pitcher Luis Arroyo, will. Anyway, it's almost a cinch to be in the Cardinal family.

Virdon was the whole show yesterday as the Cardinals swept both ends of a double-header for the first time this year, walloping the New York Giants 9-3 and 7-2. The bespectacled center fielder batted in six runs with a single, two doubles, a triple and home run to boost his average to .324.

Saturday night, Arroyo whipped the Giants for his ninth victory against two losses (both by one-run margins). The Puerto Rican southpaw leads all National League hurlers with a brilliant 2.01 earned run average.

A couple of American League rookies — New York's Elton Howard and Cleveland's Herb Score — boosted their slugging averages to .324.

Score worked five relief innings in the nightcap and pitched brilliantly. He permitted only one hit, walked two and struck out nine in five innings to boost his strike-

out lead to 120.
The Yankees picked up a full game on the runner-up Chicago White Sox, who saw their five-game winning streak go up in smoke after losing two games to Boston 5-2 and 8-2.

Sports Roundup

By GAYLE TALBOT
NEW YORK — Commissioner Ford Frick is extremely pleased with the response his office is getting to questionnaires inviting the country's fans and sports writers to tell him how baseball can be improved.

"We are getting a fine response from every quarter," he said today. "and from what I've seen I think there are going to be some big surprises when the final result is tallied. I believe the club owners will profit from it."

Without elaborating on the surprises in store, he seemed to make it clear as he went along that he was hearing a great deal about the length of today's big league games. Or perhaps it was only that we drew him out on the subject, it being this long-suffering critic's pet peeve.

"Of course they are running too long," he said. "Everybody must know it by this time. What you say about the managers slowing things down with all their pitching changes is true, but the pitchers and batters are just as guilty. Too many pitchers won't come in there with that ball, when it's what they're out there to do, and the batters keep stepping out of the box just as the pitchers finally start their delivery."

"If I had any say about the playing rules, which I don't, I think I would make it so that a batter steps out at his own peril once he takes his stance. If a strike came over after he stepped out, that's what it would be."

"I think we've lost something in having the humpless clear out in the country the way they are in most parks now. It seems to take a pitcher an hour to walk in. Most humpless used to be close to the stands where you could watch them warming up, and I always liked that."

Without elaborating on the surprises in store, he seemed to make it clear as he went along that he was hearing a great deal about the length of today's big league games. Or perhaps it was only that we drew him out on the subject, it being this long-suffering critic's pet peeve.

"If I had any say about the playing rules, which I don't, I think I would make it so that a batter steps out at his own peril once he takes his stance. If a strike came over after he stepped out, that's what it would be."

Middlecoff Wins Western Tourney

PORTLAND, Ore. (AP)—Dr. Cary Middlecoff headed for his Memphis, Tenn., home today for a three-week rest after pocketing the \$2,400 top money in the 32nd annual Western Open here.

The golfing dentist came from behind with a dramatic 29-34-43 in the final round yesterday to overtake Mike Souchak, husky Durham, N.C., pro, who had led him by four strokes after 34 holes.

Middlecoff, at 27, was 16 strokes under par for the four day, 72-hole event.

He tied the Portland Golf Club course's 18-hole record, clubbing out nine birdies.

Souchak battled hard to catch Middlecoff, who plays out of Kiamasha Lake, N.Y. Souchak ended the first nine holes in 34 to find that the dentist was one stroke ahead of him.

But the powerful Souchak's approaches and putts were not sharp enough. He finished with 34-35-40 for a total of 274.

Gene Litter, Palm Springs, Calif., and Bob Rosburg, San Francisco, tied for third at 275.

Litter, an ex-national amateur champion, came in with 33-34-67 for the round. Rosburg shot 30-32-65.

Souchak won \$1,800. Litter and Rosburg each took away \$13,000.

Middlecoff launched his assault on the fast, straight 6,000-yard par-72 layout at the third hole. There he got his first birdie with a long approach shot and an 18-inch putt.

At the end of nine he was 6 under par. That's where most of the crowd estimated at 5,000

switched from other favorites such as Sam Snead and Souchak to swell Middlecoff's gallery and cheer him on.

Snead disappointed his usual big gallery by taking a 74 to wind up in a tie with five others for 10th at 283.

Fifth place and \$1,000 went to Julius Boros, Mid Pines, N.C., with 276.

Blistered Blonde Claims Ski Crown After Sea Voyage

NASSAU, Bahamas (AP)—A blistered blonde laid claim to the long-distance salt water ski crown today after completing a 200-mile sea voyage riding only one ski.

Delores Kipple, 32, managed to stay on the ski for 10 hours and 25 minutes yesterday while making the windy crossing from Miami to Nassau. She was buffeted and battered by waves as high as eight feet. At least twice, her father, a professional skier riding in the tow boat, thought of calling off the trip.

The exhausted girl collapsed in the surf when the long trip was over and asked for "a glass of water and a rubdown."

Her hands were cut and her legs blistered by salt water.

She surpassed by four miles the record set by Bruce Parker and Evie Wolford in 1933. The team made their 196-mile trip on the usual two skis.

Willard Nixon won his own game

in the opener for the Red Sox with a bases-loaded double in the eighth that broke up a 2-2 deadlock. Jackie Jensen took charge in the second game, driving in three runs with his 15th homer and two singles.

Southpaw Alex Kellner turned in a brilliant one-hitter and drove in the only run in the Athletics'

1-0 victory over Jim Wilson of Baltimore. Joe Astroth doubled in the sixth and scored on Kellner's single. Gus Zernial doubled in the sixth and scored on Kellner's single. Gus Zernial hit his 16th four-bagger and Hector Lopez had a perfect three for three, including three runs, as Ray Herbert gained his first win of the year in the

nightcap.
After Ferris Fain's pinch hit single drove in the tying run in the ninth, Detroit sewed up the game in the 10th on Al Kaline's walk and hits by Jack Phillips and Ray Boone. Washington smashed eight extra-base hits in the nightcap, including a pair of two-run triples by Roy Sievers.

Bryan Captures Second Straight Racing Car Title

LANGHORNE, Pa. (AP)—Jimmy Bryan, Phoenix, Ariz., has captured his second successive 100-mile National AAA racing car championship.

Bryan successfully defended his championship yesterday at the Langhorne Speedway when he covered the 100 miles in 43:40.71, finishing about 10 seconds ahead of Bob Mueller, winner of the classic Indianapolis "100."

The race was run on two Sundays since the first race was stopped because of rain. Bryan picked up his lead yesterday when the race resumed on the 40th lap and held it all the way for the 60,000 first prize money finishing 200 yards ahead of Mueller.

San Francisco, Englewood, Calif., was third, and Mike Magill, Modesto, Mo., finished fourth.

Research Team Comes Up With Better Bandage

Patrolman Pete Zedra stands on a street to direct cars that are willing to gamble on chances of getting across the flood waters swirling about him on a main street in Las Vegas, Nev. In this American Monte Carlo, a routine rain storm quickly turned into a cloudburst, with huge hailstones breaking windows and pelting roofs. This time Las Vegas was the million-dollar loser. (International Soundphoto)

By ALTON L. BLAKESLEE Associated Press Science Reporter

NEW YORK (AP)—Take nothing, divide it into smaller bits of nothing, and you get a better bandage.

This is what one research team did to come up with plastic adhesive bandages that won't leave your skin whitened and wrinkled after 24 hours.

The new bandage has holes in the plastic strip, over the gauze pad of the bandage. The holes let air in, and permit evaporation of water from inside.

Two holes, or even four, in the bandage, didn't ventilate very efficiently, hence skin beneath would turn white and macerated if you got the bandage wet while wearing it.

The answer was to divide the two holes into 20 little holes or vents. The 20 little holes are no larger in total area than the two large ones on the older style bandage.

A mathematician assisted in the research conducted by a manufacturer of surgical dressings, Johnson & Johnson, New Brunswick, N.J. Employees wore bandages with the different arrangements of ventilating holes to learn which best prevented the whitening effect.

Radioactive atoms are going to work in Richmond, Va., to give you more pleasing cigarettes.

The goal is to trace the chemicals that give its flavor and taste back to the origins in the tobacco leaf. Then strains of tobacco might be developed which yielded the maximum amount of the chemicals which people like in their smoke.

Radioactive atoms can be traced wherever they go, and the specific components that form the smoke can be traced back. The tracing also can show what happens to

smoke or its components when taken into the mouth — body.

Most of the taste from smoke comes from solid particles in the smoke, less from gases, researchers find.

Radioactive carbon is one very useful atom for the tracing work. Tobacco grown in special greenhouses can be exposed to radioactive carbon dioxide, and the plant takes up some of the radio-carbon.

Hydrogen also can be introduced into the plant, to aid in tracing some components that contain hydrogen. Tobacco contains sugar, and radioactive sugar can be added to tobacco. Then, as the tobacco burns, smoke can be traced to learn where it goes in the body. Radioactive flax can show how much of the smoke comes from cigarette paper.

The radioactivity research is being conducted by the American Tobacco Co. As part of its program the company gave the medical college of Virginia \$120,000 for a special atomic greenhouse to grow radioactive tobacco.

Duke Trying Out New Hair Grower

LONDON (AP)—The Duke of Edinburgh, thinning on top at 41, is trying out a new hair grower. Barber Charles Tupper, who has clipped royal locks at Buckingham Palace most of this century, said the lotion is "light and nongreasy, specially blended with a little oil."

Weather

Partly cloudy through Thursday with scattered mostly afternoon and evening showers, few night and early morning showers southeast coast.

PRIEST ADMINISTERS last rites as a doctor and police work vainly to save the lives of Ansel Matos and his playmate, John Cotton. The 11-year-old boys died of suffocation under a landslide that buried them while they were playing in an eight-foot-deep excavation in Queens, N. Y. Two other youths, one 11 and the other 5, were rescued by Passersby, who dug them out with their hands. (International)

Downing Of Plane Local Occurrence, Eisenhower Feels

WASHINGTON (AP)—President Eisenhower said today he was sure the Russians' shooting down of a U.S. Navy plane was a local occurrence and not a matter of policy. The President's statement was made at a news conference at which he also chided the Democratic-controlled Congress for leaving undone, as he put it, a long list of legislative proposals—some of them, he declared, vital to the nation. In discussing the plane incident, Eisenhower went somewhat further than did Secretary of State Dulles who had said yesterday that he believed no deliberate Soviet policy was involved. Eisenhower said it is very encouraging to note the attitude taken by the Soviet government which has expressed regret for the incident and offered to pay half the damage. The United States has not accepted the Soviet offer.

Peace Ship Plan Loses By 1 Vote

WASHINGTON (AP)—Senate Democrats sank President Eisenhower's atomic peace ship project by one vote yesterday after all Republican senators voting rallied to the chief executive.

B52 Best Bomber In World Today, Air Force Claims

WASHINGTON (AP)—The Air Force says it has in the B52 the best bomber "in the world today," has fighters ready to move anywhere on the globe and is making advances in developing continent-to-continent missiles. The outline of air strength was contained in the Defense Department semiannual report released yesterday, with a demand from a Democratic senator to Secretary of Defense Wilson to answer a dozen questions dealing with the quality and quantity of Russian planes and missiles. The brief air section of the report, covering a six-month period ending last Dec. 31 was written by Secretary Harold Talbot. He said the program to build a 137-wing Air Force (from a present strength of 121 wings) has not been changed, although "it must constantly be reevaluated in the light of growing Communist capabilities."

Strolling In Sanford

The monthly Coffee Club meeting for Chamber of Commerce members and new business was held tomorrow morning in the U.S.O. building.

The many friends of Mr. and Mrs. Mason Wharton will regret to learn of the death of Mr. Wharton's father, W. W. Wharton, in Orlando Tuesday.

T. W. Freeman, Atlantic Coast Line Section Master at Lake Mary, was the recipient Saturday of an emblem pin in recognition of twenty-five years' service with the railroad. Presentation was made by Roadmaster J. F. Lewis at Coast Line General Offices in Sanford.

Any one interested in getting a free hat box, may drop by B. L. Perkins & Son and pick up one.

There seemed to be some doubt in the minds of the Kiwanians assembled at the Yacht Club this noon at their regular weekly meeting when Ed Lane, in making presentation to Oscar H. Harrison, the retiring Asst. Postmaster of Sanford, was talking to and about the right man for Oscar to say, "No that's not right!" The crowd got a big kick out of Oscar's differing with Ed and also enjoyed O. P. Bernard's answers to quizmaster Charlie Morrison's questions. In fact, Charlie gave O. P. a silver dollar contributed by Earl Higginbotham, to sit down and embarrass him any more.

The Seminole County Sportsmen's Association will hold its annual election of officers at 8 p. m. Thursday at the Court House.

King Hakon VII Injured In Fall

OSLO, Norway (AP)—Norway's King Hakon VII fell today and broke a thigh bone. The 52-year-old monarch was moved immediately to a hospital. In a communique, the hospital said his condition is satisfactory and that no complications have arisen. He slipped on the bathroom floor in his summer resort at Vigsoy, outside Oslo.

Ives Says Demos Trying To Climb On Ike Bandwagon

WASHINGTON (AP)—Sen. Ives (R-N.Y.) accused Democrats today of "trying to climb on the Eisenhower bandwagon" with claims that they are supporting the President's programs in Congress. Ives said in an interview he regards a statement yesterday by Sen. Lyndon B. Johnson (D-Tex) as indicating the Democrats have concluded Eisenhower will be re-elected next year and have decided to concentrate on efforts to retain their control of Congress. Johnson, the Senate Democratic leader, said in a statement the Senate's record in this session improves Eisenhower's contention during the campaign last October that Democratic control of Congress would result in "a cold war of partisan politics."

New Group Will Keep Team Here

It looks like Sanford will remain in the Florida State League. At a meeting last night 125 supporters agreed to form a new organization to take over when the present owners give up the club on June 30. League President John Kinder estimated the new group would need only \$2,000 new capital to finish the season. He said 15 persons already have promised to buy a \$100 share of stock each, leaving five shares to be sold. Sanford Enterprises Inc., the present owner, plans to give up the club because it is not a paying venture. However, R. J. Bauman, president said the club will be even financially or a little ahead by the end of the month. The Sanford players responded to the good news last night by running their winning string to four straight—longest of the season—by shutting out West Palm Beach 4-0.

Russia's Molotov Has Great Time During U.S. Visit

UNITED NATIONS N.Y. (AP)—Comrade tourist V. M. Molotov had a wonderful time in the United States. He wants to make another visit sometime. The Soviet foreign minister booked passage home today aboard the liner Queen Elizabeth, after traveling to San Francisco and back by train. He looked happier than when he reached this country two weeks ago for the 10th anniversary celebration of the United Nations. The 63-year-old Bolshevik ought to have been happy. He was the lion of the hour at parties in San Francisco. Once, a middle-aged lady surprised even Molotov by bowing and kissing his hand at the reception given by Secretary of State Dulles. He got a 10-gallon hat at Cheyenne Wyo. as a souvenir of the Wild West. That hat, too small for him, is in his baggage en route to Moscow. He was as tickled as a boy getting his first Davy Crockett hat. He walked and talked in San Francisco with an air of assurance, helping reports he is on the way out. He appears to be going back to the dark rooms of the Kremlin much the better for breathing good American air.

\$16,000 Is Won By Grandmother On Quiz Program

NEW YORK (AP)—A 72-year-old grandmother won \$16,000 last night for naming seven of Joseph's 11 brothers on the CBS-TV show, "64,000 Question." She had chosen the Bible as the source of her questioning. Mrs. Catherine Kretzler, 71, who has six sons and nine grandchildren had the choice of taking the \$8,000 she won last week or going for \$16,000 on a double-or-nothing basis. She discussed the matter with her sons and their wives during the week. When she appeared on the show last night, she remarked that "the \$8,000 looks like a lot of money," and then asked for the \$16,000 question.

Copter Searching For Missing Men Crashes In Sea

TOKYO (AP)—A Marine helicopter searching for two downed Marine pilots drifting helplessly in the Pacific more than 72 hours, crashed in the sea today and one of its crewmen is missing, the Navy said. Three others were rescued. The four-armed search plane, which crashed near the first two raft-borne pilots, Contact was lost, however, with their feeble radio. Last night a Marine fury disappeared in the search and its pilot, Lt. Alan M. McAnany of Yonkers, N.Y., is missing also. In the 20,000-square-mile search area, a bright June sun burned away the fog that repeatedly had after planes glimpsed the bobbing life rafts at the first two downed pilots. But a refreshing wind had kicked up a heavier, more dangerous sea.

Soil And Water Plans Discussed

A general discussion of local soil and water conservation problems featured a meeting last night of the board of supervisors of the Seminole Soil Conservation District. Among topics discussed were the needs and value of a District nursery in trying out new grasses and legumes which would be better adapted to local soil and climatic conditions. Another topic that received considerable discussion was the services of a Farm Forester which will be available to farmers, who are not Scouts, and other interested organizations beginning in October of this year. The services of a Farm Forester were recently made available by the local county commissioner.

Bandits Captured At Jacksonville

JACKSONVILLE (AP)—City police early today shot up a stolen car and captured a bandit gang of three Marines who had robbed a Jacksonville, Ga., motel. Jailed on armed robbery charges were three men from the Marine barracks at the Naval Air Station: Pfc. Linton Wilson Crosby, 19, who was shot in the calf of the right leg during the wild chase; S. Sgt. Miner Peyton Robinson 25; Pvt. Harvey Carlton Kilpatrick, 18. The three were traveling in a 1953 Oldsmobile that was stolen here last night and was wanted for the \$20 robbery about 3 a. m. at the Georgian Motel, Charlton County Sheriff J. O. Sikes said in an alert to Jacksonville detectives bureau.

Steel Firms Getting Ready For Shutdown

PITTSBURGH (AP)—The United States Steel Corp. threatened with an industry-wide strike at midnight tomorrow, announced it would start banking its furnaces before noon today.

A Big Steel spokesman said the company expected to complete the huge operation by 11 p. m. Employees of other companies in the mammoth basic steel industry have been alerted to begin orderly shutdowns.

Banking of the plant blast furnaces is a gradual process, slowed to prevent damage in the cooling process.

The CIO United Steelworkers mapped shutdown talks with the producers in last-minute efforts to get a wage higher than presently offered.

U. S. Steel, which employs 150,000 of the U.S. 600,000 members, held firm to its original offer of slightly more than 10 cents an hour.

Basic steelworkers now average \$2.31 an hour. While the industry prepared for a possible strike, government mediators in Washington kept a close watch on the situation.

Major producers following Big Steel's lead in offering about 10 cents an hour include Inland, Republic Steel Corp., Bethlehem Steel Corp., Jones & Laughlin and Youngstown Sheet & Tube. Clifford Hood, president of U. S. Steel said in a statement last night the industry is threatened with "a wholly unnecessary strike."

Mrs. Patricia Holfeild-Lund, 28, lies in bed in New York on her arrival in New York after a flight from Peru last February while accompanying her husband, an Oslo businessman, in Lima. Mrs. Holfeild-Lund will be cared for at a New York hospital before leaving for her home in Norway. She was with her in Dr. Christine Amundson, a police expert from Norway. (International)

Humphrey Urges Pressure On Reds To Free Airmen

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today urge President Eisenhower should urge Soviet Russia to "bring pressure" on Communist China for release of all American Peoples holds. Should that fail, he said in an interview, the United States should be prepared to take the matter up directly with Red China. He said the United States should press Russian leaders at the July 15 Big Four summit conference to use their influence toward freeing 11 U.S. airmen held in Communist jails and a number of civilians detained in China. Without mentioning the prisoner issue, Secretary of State Dulles told a news conference yesterday he does not rule out the possibility of direct talks with Red China on some matters.

Fireworks Blast Kills 3 Shoppers In Retail Store

SPRINGFIELD, Mo. (AP)—A fireworks display in a retail store blew up yesterday, causing the deaths of three shoppers. The exploding firecrackers and skyrockets scattered flames through the one-story structure. The building was destroyed. The three shoppers perished in a restroom where they had fled to escape the flames. They were Mrs. Margaret Clegg, 36, and two sisters, Mary Williams, 11, and Linda Kay Williams, 7. It was not known what touched off the fireworks. An employee of the store was overcome by smoke but 14 other employees and four customers escaped injury.

Bill Collector Is Arrested In Beating Of Woman

LIVE OAK (AP)—A bill collector was arrested and jailed \$1,000 bond today in the case of a Negro woman who claimed she was beaten. He is Henry McGaghren of Williston who was charged, however, only with breaking and entering the home of Mary Ann Brown, 18, who said he beat her in a dispute over a bill. The case was investigated by the Suwannee County grand jury yesterday along with the case of Richard Cooke, 25, Negro father of nine children who said a band of men beat him several weeks ago.

Greyhound Bus Strike Vote Is Counted By Union

CHARLESTON, W. Va. (AP)—Union representatives counted votes today to determine if the 10-state strike of some 725 Atlantic Greyhound bus drivers would be on or off.

The ballots were marked yesterday and last night by drivers in the system stretching from Pittsburgh to Jacksonville, Fla. They were expected to favor acceptance of the tentative contract signed early Monday morning by representatives of the company and division 1493 of the AFL, Motor Coach Employees Union.

The union set a time of 1 p. m. (EST) to begin tallying the votes at union meetings here, in Hoonole and Portsmouth Va., Winston-Salem, Charlotte, Raleigh and Asheville, N. C., Columbia, S. C., Atlanta, Ga., and Jacksonville.

Second Top Aide Of Peron Quits

BUENOS AIRES (AP)—A second top aide of Argentine President Juan D. Peron reportedly has decided to step out in the aftermath of the June 16 revolt. He is Angel Gabriel Borlenghi, who as interior minister played a major role in the government's anticlerical campaign.

Reliable sources said last night that Borlenghi, 42, has decided to retire from public life "because of ill health." The informants said he told visitors yesterday he would soon make a trip abroad.

The reports of Borlenghi's retirement came a day after Eduardo Vuletich, secretary general of the powerful General Confederation of Labor, was said to have stepped down in favor of his assistant, Hector Hugo de Pietro. Vuletich also was active in the fight against the Roman Catholic Church.

State House Has Only 74 Employes

TALLAHASSEE (AP)—The House of Representatives now has only 74 employes and is expected to have even fewer as the extraordinary reorganization session wears on.

Speaker David said the dwindling payroll amounts to a 50 per cent drop in employes since start of the extraordinary session June 6.

Woman Acquitted In Shooting Case

PORT LAUDERDALE (AP)—Mrs. Edna Saunders, 29, was found innocent today of charges that she shot her husband to death. A jury returned the verdict after more than eight hours of debate. Five psychiatrists testified that Mrs. Saunders could have been under emotional stress at the time the man, Fred Saunders, 43, was killed.

WEAVER FIRM MIAMI BEACH (AP)—Berlin Selton of Key West is the new president of the Southwestern Fisheries Assn., succeeding Louis Fischer of Coosa.

BIG QUESTION IDAHO FALLS, Idaho (AP)—The Idaho Falls Chamber of Commerce tourist aid service didn't have the answer to one question yesterday. An unidentified woman tourist seeking information of Yellowstone National Park asked: When do they turn on Old Faithful?

James Williams Taken By Death

James S. Williams Sr., father of James S. Williams Jr., this City, died suddenly in Palatka Monday. Funeral services were held today at 9 p. m. in Palatka. Mr. Williams will be remembered by his many friends, for the part he played in the organizing and developing of Industrial Insurance throughout the state.

WOMAN KILLED WEST PALM BEACH

WEST PALM BEACH (AP)—James Scott, 34, was helping install a new elevator in a 14-story building when he leaned into the adjoining shaft yesterday. An elevator taking a passenger down crushed him.

Prime Minister Of Burma Arrives In Washington

WASHINGTON (AP)—Prime Minister U Nu of Burma arrives today to discuss Far East tensions with President Eisenhower and Secretary of State Dulles.

The scholarly Prime Minister, who has offered to help bridge the gap between Communist China and the United States, arranged to meet with Dulles and Eisenhower shortly after his arrival by air from New York.

He will remain in Washington until Sunday. Dulles pointedly opened the way for any proposals U Nu may have by saying at his news conference yesterday he looked forward to the Asian leader's visit. He said he expected to discuss problems dealing with relaxation of tensions in the Far East.

Titusville Plant Leveled By Fire

TITUSVILLE (AP)—Fire yesterday leveled the Nevins Fruit Co. citrus packing house here with damage estimated at \$4 million dollars. The plant, one of the largest on the east coast, had closed down operations for the season.

Fire Chief Walter P. Giles blamed lightning for the blaze that started as an electrical rain storm passed over.

Roy Campanella's Name Is Injected Into Liquor Case

NEW YORK (AP)—The name of Roy Campanella, star catcher of the Brooklyn Dodgers, entered a State Liquor Authority investigation today. The New York Journal-American said Campanella, owner of a Harlem liquor store, would be questioned by investigators who contend SLA agents took bribes from owners of bars and package stores.

Roy Campanella's Name Is Injected Into Liquor Case

The newspaper said Campanella, who has been a player in the liquor and package stores since 1933, is alleged to have given \$50,000 to SLA agents to help them obtain a liquor license for his store.

"They are not investigating me," the newspaper quoted Campanella as saying. "They are investigating the liquor board and its employees. Thank God, I've got a good, clean business. I borrowed money from the ball club and mortgaged my home to buy it."

Investigators termed the SLA "rotten from top to bottom."

Union Seeks End To Picketing Ban

TAMPA (AP)—Union workers at the Coronet Phosphate plant at Plant City have asked that the court order restraining them from picketing be dissolved. Although still approving rearmament in principle, many of Chapter Konrad Adenauer's own supporters complained that the measure contained no guarantee of civilian control over the military and could lead to a resurgence of German militarism.

The sharp blow to Adenauer's plans came last night after a heated debate in the Bundestag (lower house). Government sources said new proposals would be readied but there was considerable doubt that the legislators could prepare and pass another bill before the start of their scheduled summer recess July 18.

The Chancellor had wanted the enlistment of volunteers under way quickly to give the free world and the Russians additional evidence before the start of the Big Four summit talks next month that West Germany is determined to rebuild its armed strength.

Dr. Michael Price DeBono, a noted eye specialist, died yesterday in the veterans administration hospital of a heart attack.

MIAMI (AP)—Dr. Michael Price DeBono, a noted eye specialist, died yesterday in the veterans administration hospital of a heart attack.

German Enlistments Strike Another Snag

BONN, West Germany (AP)—A new delay in putting the first West Germans into uniform was seen today as the lower house of Parliament sent a bill to call up the first volunteers to committees for re-orientation.

Although still approving rearmament in principle, many of Chapter Konrad Adenauer's own supporters complained that the measure contained no guarantee of civilian control over the military and could lead to a resurgence of German militarism.

The sharp blow to Adenauer's plans came last night after a heated

THAT YOU SINGING, MORTY?

Research Team Comes Up With Better Bandage

PATROLMAN Pete Zedra stands on a crate to direct cars that are willing to gamble on chances of getting across the flood waters swirling about him on a main street in Las Vegas, Nev. In this American Monte Carlo, a routine rain storm quickly turned into a cloudburst, with huge hailstones breaking windows and pelting roofs. This time Las Vegas was the million-dollar loser. (International Soundphoto)

By ALTON L. BLAKESLEE Associated Press Science Reporter

NEW YORK (AP)—Take nothing, divide it into smaller bits of nothing, and you get a better bandage.

This is what one research team did to come up with plastic adhesive bandages that won't leave your skin whitened and wrinkled after 24 hours.

The new bandage has holes in the plastic strip, over the gauze pad of the bandage. The holes let air in, and permit evaporation of water from inside.

Two holes, or even four, in the bandage, didn't ventilate very efficiently, hence skin beneath would turn white and macerated if you got the bandage wet while wearing it.

The answer was to divide the two holes into 20 little holes or vents. The 20 little holes are no larger in total area than the two large ones on the older style bandage.

A mathematician assisted in the research conducted by a manufacturer of surgical dressings, Johnson & Johnson, New Brunswick, N.J. Employees wore bandages with the different arrangements of ventilating holes to learn which best prevented the whitening effect.

Radioactive atoms are going to work in Richmond, Va., to give you more pleasing cigarettes.

The goal is to trace the chemicals that give its flavor and taste back to the origins in the tobacco leaf. Then strains of tobacco might be developed which yielded the maximum amount of the chemicals which people like in their smoke.

Radioactive atoms can be traced wherever they go, and the specific components that form the smoke can be traced back. The tracing also can show what happens to

smoke or its components when taken into the mouth — body.

Most of the taste from smoke comes from solid particles in the smoke, less from gases, researchers find.

Radioactive carbon is one very useful atom for the tracing work. Tobacco grown in special greenhouses can be exposed to radioactive carbon dioxide, and the plant takes up some of the radio-carbon.

Hydrogen also can be introduced into the plant, to aid in tracing some components that contain hydrogen. Tobacco contains sugar, and radioactive sugar can be added to tobacco. Then, as the tobacco burns, smoke can be traced to learn where it goes in the body. Radioactive flax can show how much of the smoke comes from cigarette paper.

The radioactivity research is being conducted by the American Tobacco Co. As part of its program the company gave the medical college of Virginia \$120,000 for a special atomic greenhouse to grow radioactive tobacco.

Duke Trying Out New Hair Grower

LONDON (AP)—The Duke of Edinburgh, thinning on top at 41, is trying out a new hair grower. Barber Charles Tupper, who has clipped royal locks at Buckingham Palace most of this century, said the lotion is "light and nongreasy, specially blended with a little oil."

In early-day New York City, theater seats were not reserved and those who bought tickets often sent their servants to the theater early to hold seats for them.

PRIEST ADMINS last rites as a doctor and police work vainly to save the lives of Ansel Matos and his playmate, John Cotton. The 11-year-old boys died of suffocation under a landslide that buried them while they were playing in an eight-foot-deep excavation in Queens, N. Y. Two other youths, one 11 and the other 6, were rescued by Passersby, who dug them out with their hands. (International)

Downing Of Plane Local Occurrence, Eisenhower Feels

WASHINGTON (AP)—President Eisenhower said today he was sure the Russians' shooting down of a U.S. Navy plane was a local occurrence and not a matter of policy. The President's statement was made at a news conference at which he also chided the Democratic-controlled Congress for leaving undone, as he put it, a long list of legislative proposals—some of them, he declared, vital to the nation. In discussing the plane incident, Eisenhower went somewhat further than did Secretary of State Dulles who had said yesterday that he believed no deliberate Soviet policy was involved. Eisenhower said it is very encouraging to note the attitude taken by the Soviet government which has expressed regret for the incident and offered to pay half the damage. The United States has not accepted the Soviet offer.

Strolling In Sanford

The monthly Coffee Club meeting for Chamber of Commerce members and new business will be held tomorrow morning in the U.S.O. building.

The many friends of Mr. and Mrs. Mason Wharton will regret to learn of the death of Mr. Wharton's father, W. W. Wharton, in Orlando Tuesday.

T. W. Freeman, Atlantic Coast Line Section Master at Lake Mary, was the recipient Saturday of an emblem pin in recognition of twenty-five years' service with the railroad. Presentation was made by Roadmaster J. F. Lewis at Coast Line General Offices in Sanford.

Any one interested in getting a free hat box, may drop by B. L. Perkins & Son and pick up one.

There seemed to be some doubt in the minds of the Kiwanians assembled at the Yacht Club this noon at their regular weekly meeting when Ed Lane, in making presentation to Oscar H. Harrison, the retiring Asst. Postmaster of Sanford, was talking to and about the right man for Oscar kept saying, "No that's not right." The crowd got a big kick out of Oscar's differing with Ed and also enjoyed O. P. Harndon's answers to quizmaster Charlie Morrison's questions. In fact, Charlie gave O. P. a silver dollar contributed by Earl Higginbotham, to sit down and not embarrass him any more.

The Seminole County Sportsmen's Association will hold its annual election of officers at 9 p. m. Thursday at the Court House.

King Haakon VII Injured In Fall

OSLO, Norway (AP)—Norway's King Haakon VII fell today and broke a thigh bone. The 82-year-old monarch was moved immediately to a hospital. In a communique, the hospital said his condition is satisfactory and that no complications have arisen. He slipped on the bathroom floor in his summer resort at Brygoy, outside Oslo.

Peace Ship Plan Loses By 1 Vote

WASHINGTON (AP)—Senate Democrats sank President Eisenhower's atomic peace ship project by one vote yesterday after all Republican senators voting rallied to the chief executive.

B52 Best Bomber In World Today, Air Force Claims

WASHINGTON (AP)—The Air Force says it has in the B52 the best bomber "in the world today," has fighters ready to move anywhere on the globe and is making advances in developing continent-to-continent missiles. The outline of air strength was contained in the Defense Department semiannual report released yesterday, with a demand from a Democratic senator to Secretary of Defense Wilson to answer a dozen questions dealing with the quality and quantity of Russian planes and missiles. The brief air section of the report, covering a six-month period ending last Dec. 31, was written by Secretary Harold Talbot. He said the program to build a 137-wing Air Force (from a present strength of 121 wings) has not been changed, although "it must constantly be reevaluated in the light of growing Communist capabilities."

Prime Minister Of Burma Arrives In Washington

WASHINGTON (AP)—Prime Minister U Nu of Burma arrives today to discuss Far East tensions with President Eisenhower and Secretary of State Dulles. The scholarly Prime Minister, who has offered to help bridge the gap between Communist China and the United States, arranged to meet with Dulles and Eisenhower shortly after his arrival by air from New York. He will remain in Washington until Sunday. Dulles pointedly opened the way for any proposals U Nu may have by saying at his news conference yesterday he looked forward to the Asian leader's visit. He said he expected to discuss problems dealing with relaxation of tensions in the Far East.

Titusville Plant Leveled By Fire

TITUSVILLE (AP)—Fire yesterday leveled the Nevins Fruit Co. citrus packing house here with damage estimated at \$4 million dollars. The plant, one of the largest on the east coast, had closed down operations for the season. Fire Chief Walter P. Giles blamed lightning for the blaze that started as an electrical rain storm passed over.

STRIKE ENDS

MILTON (AP)—A three-day strike work assignment at the 23 million dollar Escambia Bay Chemical Co. plant site ended when construction workers went back to work yesterday.

SPECIALIST DIES

MIAMI (AP)—Dr. Michael Price DeBorja, a noted eye specialist, died yesterday in the veterans administration hospital of a heart attack.

Roy Campanella's Name Is Injected Into Liquor Case

NEW YORK (AP)—The name of Roy Campanella, star catcher of the Brooklyn Dodgers, entered a State Liquor Authority investigation today.

The New York Journal-American said Campanella, owner of a Harlem liquor store, would be questioned by investigators who contend SLA agents took bribes from owners of bars and package stores.

The newspaper said Campanella, who was arrested before J. Erwin Shapiro, state investigation commissioner and asked to produce his book.

"They are not investigating me," the newspaper quoted Campanella as saying. "They are investigating the liquor board and its employees. Thank God, I've got a good, clean business. I borrowed money from the ball club and mortgaged my home to buy it."

Investigators termed the SLA "rotten from top to bottom."

Rain-Making Firm Starts To Work

LAKE CITY (AP)—A Denver, Colo., rain-increasing firm went to work today on a contract to boost the rainfall in 20 North Florida counties and 2 in South Florida. Approximately 24 million acres of farm and timberland are included in the program. Water Resources Development Corp. agreed to the undertaking for \$21,500, slightly less than a cent an acre for a year's coverage.

Union Seeks End To Picketing Ban

TAMPA (AP)—Union workers at the Coronet Phosphate plant at Plant City have asked that the court order restraining them from picketing be dissolved. Although still approving rearmament in principle, many of Chancellor Konrad Adenauer's own supporters complained that the measure contained no guarantee of civilian control over the military and could lead to a resurgence of German militarism. The sharp blow to Adenauer's plans came last night after a heated

Ives Says Demos Trying To Climb On Ike Bandwagon

WASHINGTON (AP)—Sen. Ives (R-N.Y.) accused Democrats today of "trying to climb on the Eisenhower bandwagon" with claims that they are supporting the President's program in Congress. Ives said in an interview he regards a statement yesterday by Sen. Lyndon B. Johnson (-Tex) as indicating the Democrats have concluded Eisenhower will be re-elected next year and have decided to concentrate on efforts to retain their control of Congress. Johnson, the Senate Democratic leader, said in a statement the Senate's record in this session improves Eisenhower's contention that the Democrats are "facing up to a cold war of partisan politics." After the Democrats did win control, Eisenhower told a news conference the words he used were too strong for what he had in mind. Ives said a list as Johnson said represent the character of the current legislative program showed the Democrats are "facing in two directions." He noted that Johnson, shortly after issuing his statement, rallied Democratic forces to defeat a GOP attempt to authorize the atomic peace ship Eisenhower has proposed.

Soil And Water Plans Discussed

A general discussion of local soil and water conservation problems featured a meeting last night of the board of supervisors of the Seminole Soil Conservation District. Among topics discussed were the needs and value of a District nursery in trying out new grasses and legumes which would be better adapted to local soil and climatic conditions. Another topic that received considerable discussion was the services of a Farm Forester which will be available to farmers, school teachers, Scouts, and other interested organizations beginning in October of this year. The services of a Farm Forester were recently made available by the local county commissioners. Eight conservation farm plans were worked out with operators of the District during June. A conservation farm plan is a written plan of operations whereby each acre of land on a farm will be used to produce the crops and treated according to its soil type. It is best capable of producing the most and improved. A detailed survey of the land up to a depth of 60 inches, by a trained soil scientist, is used as the basis for the plan. The plan consists of an aerial photograph showing the various types of soil on the farm, a land use map showing what each field will be used for, and a set of written instructions as to the best methods of carrying out the plan of operations. Any land owner can obtain a plan for his farm by applying to one of the local supervisors or to the work unit office in the Atlantic Bank Building. These services are provided free of cost to the farmer by the District.

Fireworks Blast Kills 3 Shoppers In Retail Store

SPRINGFIELD, Mo., (AP)—A fireworks display in a retail store blew up yesterday, causing the deaths of three shoppers. The exploding firecrackers and skyrocket scattered flames through the one-story structure. The building was destroyed. The three shoppers perished in a room where they had fled to escape the flames. They were Mrs. Margaret Clark, 50, and two sisters, Mary Williams, 11, and Linda Kay Williams, 7. It was not known what touched off the fireworks. An employee of the store was overcome by smoke but 14 other employees and four customers escaped injury. Mayor Warren Turner called a special meeting of the City Council today to consider a resolution to ban sale of fireworks in the city. Clarence Wheeler, co-owner of the store, estimated damage at \$275,000.

380 Road Deaths Predicted For July 4 Weekend

CHICAGO (AP)—A July 4 weekend automobile traffic death toll of 380 was forecast today by the National Safety Council. The estimate covers the period from 8 p. m. Friday until midnight Monday and takes into account only immediate deaths and not those occurring later from injuries suffered over the weekend. More than 40 million cars will be on the move over the holiday, a factor that the council said will produce an added travel hazard.

Draft Bill Goes To Eisenhower

WASHINGTON (AP)—Legislation to extend the regular draft and the doctors draft—both of which otherwise would expire at midnight tomorrow—went to the President today for signature. And the President's disputed military reserve program, in a new and modified form, was ready for House consideration, possibly in a few days.

German Enlistments Strike Another Snag

BONN, West Germany (AP)—A new delay in putting the first West German uniforms was seen today as the lower house of Parliament sent a bill to call up the first volunteers to committees for re-education. Although still approving rearmament in principle, many of Chancellor Konrad Adenauer's own supporters complained that the measure contained no guarantee of civilian control over the military and could lead to a resurgence of German militarism. The sharp blow to Adenauer's plans came last night after a heated

New Group Will Keep Team Here

It looks like Sanford will remain in the Florida State League. At a meeting last night 125 supporters agreed to form a new organization to take over when the present owners give up the club on June 30.

League President John Kinder estimated the new group would need only \$2,000 new capital to finish the season. He said 15 persons already have promised to buy a \$100 share of stock each, leaving five shares to be sold. Sanford Enterprises Inc., the present owner, plans to give up the club because it is not a paying venture. However, R. J. Baum, president said the club will be even financially or a little ahead by the end of the month. The Sanford players responded to the good news last night by running their winning string to four straight—longest of the season—by shutting out West Palm Beach 4-0.

Copter Searching For Missing Men Crashes In Sea

TOKYO (AP)—A Marine helicopter searching for two downed Marine pilots drifting helplessly in the Pacific more than 72 hours, crashed in the sea today and one of its crewmen is missing, the Navy said. Three others were rescued. The four-armed search helicopter and its pilot, Lt. Alan M. McNamara of Yonkers, N.Y., is missing also. In the 20,000-square-mile search area, a bright June sun burned away the fog that repeatedly had after planes glimpsed the bobbing life rafts of the first two downed pilots. But a rearing wind had kicked up a heavier, more dangerous sea.

Bandits Captured At Jacksonville

JACKSONVILLE (AP)—City police early today shot up a stolen car and captured a bandit gang of three Marines who had robbed a Folkston, Ga., motel. Jailed on armed robbery charges were three men from the Marine barracks at the Naval Air Station: Pfc. Clinton Wilson Crosby, 19, who was shot in the calf of the right leg during the wild chase; S. Sgt. Miner Peyton Robinson 25; Pvt. Harvey Carlton Kilpatrick, 18. The three were traveling in a 1953 Oldsmobile that was stolen here last night and was wanted for the \$20 robbery about 3 a. m. at the Georgian Motel, Charlton County Sheriff J. O. Sikes said in an alarm to Jacksonville detective bureau.

State House Has Only 74 Employees

TALLAHASSEE (AP)—The House of Representatives now has only 74 employees and is expected to have even fewer as the extraordinary reappointment session wears on. Speaker David said the dwindling payroll amounts to a 50 percent drop in employees since start of the extraordinary session June 6.

James Williams Taken By Death

James S. Williams Sr., father of James S. Williams Jr., this City, died suddenly in Palatka Monday. Funeral services were held today at 2 p. m. in Palatka. Mr. Williams will be remembered by his many friends, for the part he played in the organizing and developing of Industrial Insurance throughout the state.

WOMAN KILLED

WEST PALM BEACH (AP)—James Scott, 54, was helping install a new elevator in a 14-story building when he leaped into the adjoining shaft yesterday. An elevator taking a passenger down crushed him.

Russia's Molotov Has Great Time During U.S. Visit

UNITED NATIONS N.Y. (AP)—Comrade tourist V. M. Molotov had a wonderful time in the United States. He wants to make another visit sometime. The Soviet foreign minister booked passage home today aboard the liner Queen Elizabeth, after traveling to San Francisco and back by train. He looked happier than when he reached this country two weeks ago for the 10th anniversary celebration of the United Nations. The 63-year-old Bolshevik ought to have been happy. He was the lion of the hour at parties in San Francisco. Once, a middle-aged lady surprised even Molotov by bowing and kissing his hand at the reception given by Secretary of State Dulles. He got a 10-gallon hat at Cheyenne Wyo. as a souvenir of the Wild West. That hat, too small for him, is in his baggage en route to Moscow. He was as tickled as a boy getting his first Davy Crockett hat. He walked and talked in San Francisco with an air of assurance helping reports he is on the way out. He appears to be going back to the dark rooms of the Kremlin much the better for breathing good American air.

\$16,000 Is Won By Grandmother On Quiz Program

NEW YORK (AP)—A Camp Hill, Pa., grandmother won \$16,000 last night for naming seven of Joseph's 11 brothers on the CBS-TV show, "24,000 Question." She had chosen the Bible as the source of her questioning. Mrs. Catherine Kreitzer, 81, who has six sons and nine grandchildren had the choice of taking the \$8,000 she won last week or going for \$16,000 on a double-or-nothing basis. She discussed the matter with her sons and their wives during the week. When she appeared on the show last night, she remarked that "the \$8,000 looks like a lot of money," and then asked for the \$16,000 question.

Steel Firms Getting Ready For Shutdown

MRS. PATRICIA HOLFELDT-LUND, 28, lies in bed in New York on her arrival in New York after a flight from Peru last February while accompanying her husband, an Oslo businessman, in Lima. Mrs. Holfeldt-Lund will be cared for at a New York hospital before leaving for her home in Norway. She was with her Dr. Christine Amundsen, a police expert from Norway. (International)

Humphrey Urges Pressure On Reds To Free Airmen

WASHINGTON (AP)—Sen. Humphrey (D-Minn.) said today President Eisenhower should urge Soviet Russia to "bring pressure" on Communist China for release of all American Peeping holes. Should that fail, he said in an interview, the United States should be prepared to take the matter up directly with Red China. He said the United States should press Russian leaders at the July 15 Big Four summit conference to use their influence toward freeing 11 U.S. airmen held in Communist jails and a number of civilians detained in China. Without mentioning the prisoner issue, Secretary of State Dulles told a news conference yesterday he does not rule out the possibility of direct talks with Red China on some matters.

Bill Collector Is Arrested In Beating Of Woman

LIVE OAK (AP)—A bill collector arrested and jailed \$1,000 bond today in the case of a Negro woman who claimed she was beaten. He is Henry McGaghren of Williston who was charged, however, only with breaking and entering the home of Mary Ann Brown, 18, who said he beat her in a dispute over a bill. The case was investigated by the Suwannee County grand jury yesterday along with the case of Richard Cooke, 25, Negro father of nine children who said a band of men beat him several weeks ago.

Greyhound Bus Strike Vote Is Counted By Union

CHARLESTON, W. Va., (AP)—Union representatives counted votes today to determine if the 10-state strike of some 725 Atlantic Greyhound bus drivers would be on or off. The ballots were marked yesterday and last night by drivers in the system stretching from Pittsburgh to Jacksonville, Fla. They were expected to favor acceptance of the tentative contract signed early Monday morning by representatives of the company and division 1493 of the AFL, Motor Coach Employees Union. The union set a time of 1 p. m. (EST) to begin tallying the votes at union meetings here, in Hooles and Portsmouth Va., Winston-Salem, Charlotte, Raleigh and Asheville, N. C., Columbia, S.C., Atlanta, Ga., and Jacksonville.

Woman Acquitted In Shooting Case

PORT LAUDERDALE (AP)—Mrs. Edna Saunders, 29, was found innocent today of charges that she shot her husband to death. A jury returned the verdict after more than eight hours of debate. Five psychiatrists testified that Mrs. Saunders could have been under emotional stress at the time the man, Fred Saunders, 43, was killed.

Second Top Aide Of Peron Quits

BUENOS AIRES (AP)—A second top aide of Argentine President Juan D. Peron reportedly has decided to step out in the aftermath of the June 16 revolt. He is Angel Gabriel Borlenghi, who as interior minister played a major role in the government's anticatholic campaign. The reports of Borlenghi's resignation came a day after Eduardo Vulelich, secretary general of the powerful General Confederation of Labor, was said to have stepped down in favor of his assistant, Hector Hugo de Pietro. Vulelich also was active in the fight against the Roman Catholic Church.

Billy Graham To Visit Netherland

HOBTMUND, Germany (AP)—Billy Graham trained his sights on the Netherlands today after winding up a six-city revival tour of West Germany. The American evangelist closed his weeklong German crusade last night, preaching to a crowd of 25,000 in this industrial Ruhr city. He speaks in Rotterdam tomorrow, in Oslo, Norway, July 3, and in Göteborg, Sweden's second largest city, July 5. He also has scheduled a revival meeting in Geneva, Switzerland, July 17, on the eve of the opening there of the Big Four summit conference.

Weather

Partly cloudy through Thursday with scattered mostly afternoon and evening thunderstorms, few night and early morning showers southeast coast.
