Why Not, "Sanford The Safest City"

Keep it in mind. Among the thousand of desirable win-er visitors coming into Florida nie many undesirables. Desperadoes of the worst type, petty swindlers of every description, and between the two extremes a long list of spe-clai-line crooks, all intending to "clean up" while they enjoy the sunshine of a Florida winter.

There was a time when it was not profitable for the big criminals to come to Florida. They did not find enough business here to make a visit profitable. But they find it now. They know there are "pickings" in the race track towns. They know there are sporting tourists ready to take the balt on their confidence schemes. They find their opportunity to make big hauls of one kind and another. And so far, Florida has had no law-enforcement officials clever enough, or honest enough, as the case may be, to protect the state against the work of the master crooks.

For that matter there seems to be but little protection has passed from the scene, and for the public against any kind of crook. The newspapers home folks, and interested tourists of the state publish daily lists of amazingly bold crimes. "The Fountain of Youth"

A gift of ten added years of life, rich, full and enjoyable, is yours to command.

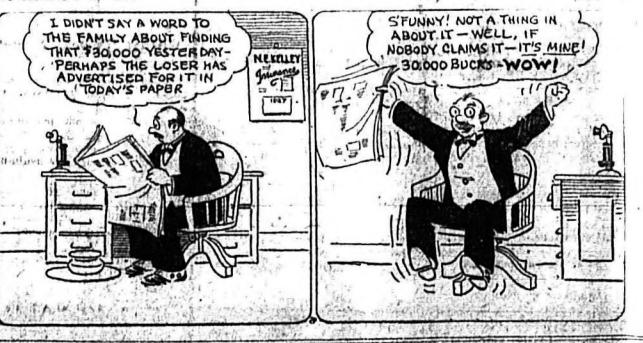

Pence de Leon actually found his "Fountain of Youth" in highland Florida, but expected too much from it and turned back without fairly testing its powers.

Scores today are profiting where Ponce de Leon only doubted. They are finding rejuvenation, health and new zest in the Year-around tempered waters of the mighty springs, on fascinating golf fairways, on the lakes and streams and in the fields with rod or gun, and in the substantial homes that overlook and add a modern note to the most beautiful spot in Florida.
