## **Village Firemen Set Training** On 'Mop Up'

By Margaret Cosby The North Orlando Fire Department's firematic officers decided at their recent business meeting that training program for the month f April would be based on "salvage and overhaul," less popularly referred to as

"mop up." It was reported by Bob La-Follette that automobile identification plates had been ordered and notice had been received they should be arriving momentarily. At Thursday's regular

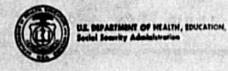

meeting of the department in the building adjacent to Village Hall details of the women's fire training program will be discussed and times, places, and dates will be worked out so that members of the Auxiliary and other women of the community who are interested in joining the regular Volunteer Fire Department may participate in this unique but worthwhile

civic project. Chuck Holzman reported h is working on up-to-date call lists and these revised lists will be distributed before the next meeting. The call lists are u\_ed solely by the volunteers in the event of a fir as a chain of calls to alert the members.

COLUMBUS, Ga. (UPI) . An airport control tower operator reported seeing a glowing, oblong object maneuvering high in the sky Sunday. He said it was tracked on ra-

Six Columbus policemen, and a control tower operator at Ft. Benning, Ga., also said they saw the strange object. Doyle Palmer, an air traffic control operator at Muscogee County Airport, said he first spotted the greenish white, cigar shaped object at about 5:30 a.m., and that it was tracked on radar at Atlanta for over an hour. He estimated its height at about 5,000

Palmer said he had first thought the object was a star, "but you don't pick up stars on radar." He said he could still see it clearly after the sun came up-when stars normally disappear-but by that time it had shrunk to the size of a pinhead and was moving

Columbus police detective G. H. Ferguson said he spotted the object after hearing radio reports about it. He described the glowing thing as wedge-shaped and said he saw it rising in the air. He reported it was much brighter and moved faster than a star. Ferguson said he observed the object until after 7 a.m. Don Haddock of radio station WDAK also said he watched a triangle - shaped glowing object in the same area until about 7 a.m. All reports concurred on the

New Report Destroys Old Myths

## Old Maids Happy; Bachelors Are Lonely

WASHINGTON - (NEA) - The carefree bachelor and the bitter old maid may exist only in the minds of fiction writers.

A recently released study by a California psychiatrist reports that in real life unmarried men generally turn out to be more unhappy and maladjusted than either single or married women and that married men are the happiest of all four. Conducted by Dr. Genevieve Knupfer, a psychiatrist at the Mental Research Institute Berkeley, the study was financed by a grant from the Institute of Mental Health.

we ever dreamed of being.
