

JAPAN FACES CRISIS IN WORLD EVENTS AS PICTURED AT CONFERENCE

Feeling of Resentment Must Be Removed at Once

AMERICA TO LEAD

SINCE AMERICA WAS ONE TO THROW WRENCH IN THE WHEELS

WASHINGTON, Nov. 7.—Japan enters the week of the opening of the armament conference with a critical political situation at home...

Many of the ablest Japanese are now either in Washington or in other parts of the United States engaged in the task of helping their country find its true place in the world.

The present situation is frankly attributed by responsible Japanese to the fact that in her rapid absorption of western civilization, Japan has not realized the inevitable effect of that civilization upon her own countrymen...

Developed to an industrial nation from an agricultural one, Japan, more and more dependent upon her industrial workers, is finding them almost insatiable in their demands...

In foreign political relations, the Japanese people, as a whole, are entirely dissatisfied with the trend of affairs as between their country and the United States.

The action was taken at the request of the state's attorney who said he wanted no technicalities to arise in the trial of Lena Clarke.

SEAPLANES USED TO FIND MISSING FISH.

Washington, Nov. 7.—Seaplanes are being used as a last measure in an attempt to find missing fish off the east coast of England, the department of commerce is advised in a report from Trade Commissioner Butler at London.

Absence of the usual shoals of herring in the North Sea, the report said, has caused much alarm in fishing towns along the coast, and many diverse measures are being employed to find the fish which furnish the populations of the towns a livelihood.

Two reasons have been advanced for the disappearance of the herring, the report notes. One is that explosions in the mine fields in those waters destroyed much of the spawn and the other that the abnormally warm weather of last winter and the past summer had kept the herrings close to the bottom of the sea.

SUSPEND ORDER THAT MENAT STRIKE IN THE COAL MINES.

PITTSBURG, Nov. 5.—Phillip Murray, international vice-president of the United Mine Workers of America, said last night that providing the operators of the Pittsburgh district agree to continue the check-off system of collecting dues, pending developments of the hearing granted the union in the appellate court at Chicago, undoubtedly the miners of District No. 5, ordered to strike at midnight November 7, would continue at work.

Chicago, Nov. 5.—Action of the United States court of appeals here today in suspending that part of the injunction issued by Judge Anderson of Indianapolis applying to the check off system until further order of the court, was acclaimed today by officials of the United Mine Workers' of America as a decided victory.

The court's action allows the holding out of union dues and assessments from the coal miners' pay to be continued by the operators temporarily. An appeal hearing was granted the union for Wednesday, November 16.

Union leaders professed to see in the action today a reopening of the entire case and attorneys for the mine workers said today they would prove that the case had not been handled thoroughly.

The action today, union leaders said, would do much to clear up the labor situation in the mines and would help to hold in line men who had been quitting work without authority.

Operators on the other hand said they saw only a delay of the final issue. They said that it would be better to have the status of the "check off" system decided at once rather than delay a decision until cold weather, if a cessation of work may result.

FEDERAL AID FOR GOOD ROADS IS OUTLINED

MUST HAVE CONNECTED SYSTEM NOT EXCEEDING SEVEN PER CENT

(By The Associated Press) WASHINGTON, Nov. 5.—To secure part or all of its allotment of seventy-five million federal appropriation for road construction the remainder of the fiscal year, a state must select a connected road system not exceeding seven per cent of its entire road mileage for improvement with federal aid, under the terms of the federal highway act, enactment of which has just been completed, according to analysis of bill today by federal farm bureau federation. Amount of federal aid received on any project is not to exceed fifty per cent of estimated cost except in states where more than five per cent of area is unappropriated public land. Florida's allotment as estimated by federation is \$8,868,205.

State Rotarians Had Big Time at Orlando Yesterday

ORLANDO, Nov. 5.—The Orlando Rotary Club and, in fact, the entire city, were hosts for the Rotary clubs of Florida Friday in a day of work and play that left the 300 delegates from all sections of the state tired but happy as they departed for their respective homes. The festivities opened with registration of delegates at the Country Club at 9 a. m., and thereafter golf tournaments, tug of war, bridge, business sessions, a banquet and a dance followed in swift order. The golfing honors of the day went to Lakeland, while Jacksonville made short work of Tampa in the tug of war between the two clubs.

Each of the sixteen Rotary organizations of the state, with the exception of Pensacola, were represented.

The evening program was featured by an address from Governor John A. Turner of Tampa, who declared that the Florida Rotarians have a "zip and zest" unequaled elsewhere. Before "Governor Johns" arose to speak, he was hailed with a rising wave of applause from the 300 diners present.

"This is a day of faith in your neighbors," asserted Governor Turner, "an individual faith which everyone must maintain. However, faith is at a low ebb at the present time. Nations are trying to embitter each other. Suspicion and fear will have to be destroyed. These cannot be fought with the sword, they must be met with faith. Suspicion and fear overwhelm Europe at the present time and this must be rectified.

"Rotary is a trustful and joyful acceptance of the Golden Rule to the goal of happiness. Internationalism was the chief goal of Rotary this year. Internationalism teaches through education. Next comes boys' work, and judging today's conference, one might think this was our sole ambition. Next comes business methods."

Governor Turner's address teemed with interest and inspiration. He has many friends here and throughout the state, and is a beloved character. He closed his appealing address by declaring that the object of Rotary was to give men a vision so they can make better terms of happiness.

As the evening began, S. Y. Way, general chairman, beamed with pleasure, for more of his committees were functioning perfectly. This time DeWitt Miller and his cohorts were busy arranging a splendid banquet in the large hall room of the Country Club. Throughout the day the visitors paid tribute to the Orlando Country Club which never looked better, the Rotarians' ladies lavishing their finest decorative art upon the interior.

Promptly at 7 o'clock the diners congregated around the long tables and the feast of reason and flow of soul began. Frank Jackson of Tampa, presided. H. Harry Voorhes and Walter W. Rose, rendered a black face sketch which brought forth applause. Mr. Voorhes delivered an address of welcome. Mr. Rose then delivered his address and then both sang a group of songs.

Frank Groover of Jacksonville presented the trophies to the winners in the golf tournament. Sanford Jewett of Lakeland captured first prize, Bill Galley received the runner up trophy and Mrs. Randolph the prize for ladies. The trophies were beautiful works from the Orlando potteries. During the evening the ladies were given souvenirs, these being dainty hand decorated cups, also the work of the Orlando potteries.

Herman Dann, of St. Petersburg, gave a reading and William Myers, of Live Oak, gave an address on boys' work. Others on the program were: Dr. L. A. Blise, of Tampa, who made an eloquent address on the general

subject of boys; Fred Turner talked, and Mrs. Claude Park rendered a group of songs.

During the afternoon, bridge was played by the ladies, there being five tables and one table of 500. Handsome prizes were given. Special souvenir cards were used. Orlando ladies were responsible for many of the pleasing details of the big day. They spared no time or labor in decorating the club house, preparing the punch and greeting the visitors. At the conclusion of the banquet, dancing was enjoyed until a late hour. Music was rendered by the Indiana Five.

BIRTHDAY PARTY AND BRIDGE

Mrs. G. D. Hart was the charming hostess Friday afternoon at her lovely home on Sanford Heights, when she entertained at a birthday party complimenting her little daughter, Georgena, whose fifth birthday anniversary it was. The guests included a number of Georgena's friends and mothers.

This spacious home was beautifully decorated, the color motif of yellow and white being effectively carried out with quantities of bright yellow daisies. In the dining room the pretty birthday cake iced in yellow and topped with five tiny white tapers. Festoons of yellow crepe paper were fastened from the corners of the room to the chandelier and to the corners of the table. The lights were covered with yellow paper which cast a mellow glow over the pretty scene.

Games of all kinds were played by the young guests on the spacious lawn and later the hostess served ice cream, cake and candy as refreshments with snapping favors as souvenirs.

While the children were playing games the mothers and older guests enjoyed a delightful game of bridge, there being five tables of players. High score being made by Mrs. L. P. McCuller who was awarded a cut glass compote.

At the conclusion of the card game Mrs. Hart served dainty refreshments of ice cream, cake and bon bons.

The "young" guests included: Wilson Smith, Braxton Perkins, Charles Betts, Bobbie Marlowe, L. P. McCuller, Carlyle Housholder, Frances Roumillat, Harry Powers, Charles Britt, Richard Deas, Osborne Herndon, Jack Giles, Ralph Tolar, Franklin Bennett, Frederick Daiger, Russell and A. B. Wallace, Henry Wight, Teddy Morse, L. P. Hagan, Billie Ball, Bryan Higgins, Jennings Hurt, Martha Bishop, Bartha Fitts, Kathrine Thigpen, Mirah Ann Powers, Margaret Britt, Louise Purdon, Mary Elizabeth Tolar, Katherine Meisch, Billy Wight, Camilla Deas, Ruth Henry, Rebecca Stevens, Mary Hurt, Caroline Hill, Margaret Bennett, little Miss Appleby and Lena Belle Hagan.

The "older" guests were: Mesdames Archie Betts, G. D. Bishop, R. R. Deas, C. L. Britt, J. C. Smith, F. E. Roumillat, W. J. Thigpen, Fred S. Daiger, E. F. Housholder, L. P. McCuller, J. C. Bennett, A. FORTNIGHTLY BRIDGE CLUB

Mrs. Frank L. Miller was the gracious hostess Saturday afternoon when she entertained at a bridge party at her home on Magnolia ave., the guests including the members of the Fortnightly Bridge Club.

Of exceptional interest was the game of bridge played during the afternoon. High score was made by Mrs. F. E. Roumillat, who was presented a pair of silk hose. At the conclusion of the card game, the hostess served deviled crabs, salad, saltines and coffee as refreshments. All the club members were present.

CANOE RACES AND FOOTBALL GAMES ON ARMISTICE DAY.

Frank Akers, of the Akers Tire Co., and several others of the American Legion, are arranging for canoe races and a football game to be held here on Armistice Day. The football game will be between Rollins College and the American Legion and promises some thrills as the Legion has some former college men who are all to the good, although out of practice at present. The football game will be at four o'clock. The canoe races will be a feature of the program and will be held on Lake Monroe at 3:30 o'clock. Rollins College will bring two war canoes and one canoe will be manned by Rollins students and one by Sanford high school students. The war canoes have ten paddles and promise much in the way of thrills as well as spills.

CAUGHT BIG FISH; NED HARRISON DID WITH ONE HAND

The question is now: "If Ned Harrison can catch a 14-lb. bass with one hand what could he do if he had the use of both hands?" For that is what Ned did at one of the lakes near Longwood Saturday and he brought the fish to town to prove it. Ned is the motorcycle officer and some time ago suffered an accident that tore up one of his hands badly and he has been taking an enforced vacation.

This gave him an opportunity to go fishing and he hid himself to the lakes aforesaid and landed the big fish with one hand and this is the fish: Weighed 14 pounds, was 29 inches long, 22 in circumference, his mouth was 5 1/2 inches across. Some fish we will say and it only goes to show that Seminole county has some of the biggest fish in the state and with the many lakes and rivers offers more to the sportsmen and the fishermen than any other part of the state.

HIGH SCHOOL POSTER EXHIBIT.

A number of unusually attractive posters have been on display at the Sanford High School today. These are the work, for the most part, of members of the three upper classes and have been designed in the interest of the Better Speech Campaign in which High School students are taking an active part. Which of these have been voted by the judges to be the most effective of the number will not be announced until the awarding of prizes at the High School on Thursday afternoon. Meanwhile, the posters which after being judged, have been returned to the artists for their initials, will be exhibited in various show windows in conspicuous places about town. The Statute of Liberty poster in which the statue is pictured with Webster's Dictionary under one arm and the light of "Good American Speech" in the other, with the words "Don't Let That Torch Go Out," is up to the usual fine standard of Byron Stephen's work. Rodman Lehman, is a newer addition to Sanford High School's artistic force and his poster calling attention to "Good English" as the "Flower of Expression" is another that deserves particular notice, as does the very carefully executed poster of the Kewpie Scholar which is the work of Nan Pavton.

The other posters seem for the most part more clever in idea than execution, so that altogether they make a very interesting exhibit which will be an effective means of impressing upon our high school friends and the town at large the value of Better English.

FERNDALE APARTMENTS.

W. R. Grovenstein and L. G. Lovelless have secured the Meisch apartments in the former Bishop block and having thoroughly renovated and improved the same have these nice apartments for rent either furnished or unfurnished. Mrs. Lovelless is in charge of the apartments, and anyone wanting first class apartments should see her, at the Ferndale Apartments, over Baumel's store on First street.

MANY DUCKS THIS YEAR.

Bill Jamison, who fishes muchly and makes frequent trips around the Geneva bridge, says that there are more coots and real ducks this season than he has seen for many a season. Bill says that all the folks who run on the river report plenty of ducks and that more of them are coming in all the time. It is said that there are more wild sunflowers or the black-eyed daisies this year as well as other food on the rivers and lakes and that the ducks will stay where there is plenty of food.

LEBARGE IS COMING HERE WEDNESDAY NIGHT

LeBarge will be at the Baptist Temple Wednesday night. Who is he? Well just read what other places say about him:

Pt. Myers, Fla., News.—Mr. LeBarge is an artist of great versatility.

Galveston, Tex., News.—LeBarge held the attention of the audience. His stories were clever.

New Orleans, La., Picayune.—The entertainment by LeBarge at the Association Building, was enjoyed by all. As a character impersonator in various dialects, and with stringed instruments, Mr. LeBarge is considered the peer of any man ever heard in New Orleans.

U. S. Naval Training Station, San Francisco—My Dear Mr. LeBarge. Your entertainment is still remembered with great satisfaction. We were fortunate in getting such a complete program from a single artist. You combined the artistic and the popular, the serious and the amusing, and pleased all. We want you again soon. —B. R. Patrick, Chaplin, U. S. Navy.

RULES FOR THE PARADE ARMISTICE DAY

All cars that are entered in the parade must be decorated. This is a rule on account of the number of decorated cars that are entered. The parade will form 10:00 and start to move at 10:15 regardless. This is a set rule and be on time.

You will receive your assignment for your position in the parade from Sam Yountz who will be stationed at Sanford avenue and Tenth street. The city band will form at corner Park avenue and 10th street. Please follow these rules to avoid confusion.

KILLED BIG WILD CAT.

A youngster fourteen years old killed a big wild cat on the C. E. Henry place west of the city yesterday. The cat was caught in a steel trap and the boy beat the cat to death with a club. It was a hazardous thing to do for if the cat could have escaped from the trap he would have attacked the lad and done him serious injury. The cat is on exhibition at the Ball Hardware Co., and is attracting considerable attention.

DECORATE YOUR CAR

Many have shown their willingness to decorate cars for the parade. Mr. Yountz has your name taken from the Sanford Herald and expects you will enter your float. He will give you your position in the parade Friday morning at Sanford avenue and Tenth street. Mr. Daugherty has opened an office in the place vacated by the Popular Market in the Welaka building and you can get decorations for your car at a reasonable price and has store front decorations. If you can't enter your car, let us know.

RATHER SEVERE. GROWING INTEREST IN WATERWAYS.

And now some fool board of trade is censuring the Tampa papers because they did not suppress the news of the storm. They could put the blame on Jehovah for permitting the affliction, for the Lord is merciful to the brainless. The Tampa papers did heroically, and none but an ass would censure for overdrawing the danger while yet in the midst of it. Surrounded by calm it is easy to be judicial.—Levy Times-Democrat.

Florida waterways have not in the past had the development and use that their value justifies and the state has lost much in this neglecting them. In this connection it is interesting to note that traffic between Jacksonville and Sanford has grown to such proportions that a dall yboat service is to be established. Revived interest in other important water routes is being evidenced and this method of transportation may yet serve the part it ought to have in state edevlopment. —Plant City Courier.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

RUB PAIN FROM BACK WITH SMALL TRIAL BOTTLE OF OLD "ST. JACOBS OIL"

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints!—Adv.

POLICE WOMEN ASKED FOR CITY OF ORLANDO BY PROBATION SEC'Y.

Miss Maude Minor, secretary of the New York Probation and Protection Association, who ran over to see the sight in Orlando following upon her attendance upon the American Prison Congress which has just closed in Jacksonville, appeared before Mayor Duckworth and Commissioners Topliff and Ayers this morning, to urge the officials to give serious thought to appointment of policewomen on the local force.

Miss Minor, who is a friend of Mrs. Inez Meredith, secretary to Chief of Police Vestel, and who was introduced by Mrs. Meredith, told the officials that it is the modern idea that women should handle women, and that women's organizations are opposed to the practice of men arresting delinquent girls and erring women, and administering justice or correction after the masculine standpoint.

It is the idea that women know the psychology of women, and can therefore best administer corrective measures in cases where the law must be invoked, that is back of this organized effort to have women policemen appointed in the cities of the country, Miss Minor said.

The visitor told the officials that Orlando is not without its cases needing the attention of the probation officer, and the reform institution for women if it is not different from every other town in the country.

"Amongst all these visitors that pour through your gates," she said, "rest assured there are not missing the figures of the frail sisters."

"It is time you gentlemen began to think in these terms, for your own, as I see it, is almost a city."

She recommended that with women police, go the probation officer and the reformatory.—Orlando Reporter-Star.

BE PRETTY! TURN GRAY HAIR DARK

TRY GRANDMOTHER'S OLD FAVORITE RECIPE OF SAGE TEA AND SULPHUR

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.—Adv.

CONFEDERATE VETERANS ATTENTION.

All the Confederate Veterans in Seminole county are to be the guests of DeV. Howard Chapter Daughters of the Confederacy on Armistice Day, at which time a special car will be provided for them to ride in the parade, and they are to be the guests of the chapter for the day. All of them who are living in Seminole county are requested to report to Mrs. J. Nolle Tolar, in order that their names can be filed for reference. 182-8tp

SPORT WORLD

FLORIDA TIES UP WITH CAROLINA IN EXCITING CONTEST.

TAMPA, Nov. 7.—Played off their feet in the first period when South Carolina marched eighty yards to a touchdown in eighteen plays, Florida came back, forced Carolina behind her goal post, blocked and recovered a kick there for a touchdown, tying the score and then battered the game-cocks back into a corner inside their own thirty yard line. The game ended with the score 7 to 7.

GAINESVILLE ROMPS ON LEON.

GAINESVILLE, Nov. 7.—Gainesville high had no trouble smothering Leon high on the local gridiron, piling up a score of 41 to 0. The Tallahasseeans never threatened during the game. Three of the local touchdowns resulted from straight football and two from forward passes, while the other came near the end of the game when Vickery received a punt and squirmed his way sixty yards to the goal line.

OCALA HIGH SCHOOL TURNS ON DELAND.

OCALA, Nov. 7.—The Ocala high school football team Saturday gave DeLand high school team a taste of their own medicine by defeating them here by the score of 14 to 7. Ocala outplayed the visitors at all times, earning both of their touchdowns, while the one of DeLand was made on a fumble.

The first touchdown for Ocala was made by James Knight in the first quarter, while the second was made by "Monk" Smith in the second quarter. Tatum, for the visitors, made his in the second half.

All of the Ocala boys did splendid work in the game. They have made a wonderful improvement since their first game. The stars of the game were Smith, Knight, Williams, for the home team, and Tatum and Coppage for DeLand.

EAT LESS MEAT IF BACK HURTS

TAKE A GLASS OF SALTS TO FLUSH KIDNEYS IF BLADDER BOTHERS YOU.

Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and causes all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.—Adv.

ORLANDO, FOOTBALL TOWN.

That Orlando is the coming football town of the State is more than a possibility. Located in the central part of the State, easily accessible by excellent roads to centers of population throughout Florida, possessing a clean sporting element, and with the Rollins football team next door, there is every natural advantage. With the backing of those interested in the great American college sport, there is every indication that Orlando will figure prominently in future gridiron battles.

The fangling ahead of the Rollins Tars is focusing the attention of the State on Orlando. Beginning with the annual classic between the University of Florida and Rollins College, which was held early in the season, there have been staged in Orlando more collegiate football games than in any other city in the State. Today Orlando is dividing honors with Tampa. Rollins has brought to Orlando at an cost of some \$1,500 the strong team of one of the oldest colleges in the south—the College of Charleston, S. C. The University of Florida has brought to Tampa the University of South Carolina. The result of two of the south's great battles then will be eagerly received from these two Florida cities. If Rollins is given the proper support in her endeavor to bring to Orlando teams of such high calibre, it is more than likely that she will be able to stage more and greater games in 1922.—Saturday's Orlando Sentinel.

Healing Cream Stops Catarrh

Clogged Air Passages Open at Once—Nose and Throat Clear.

If your nostrils are clogged and your head stuffed because of catarrh or a cold, get Ely's Cream Balm at any drug store. Apply a little of this pure, antiseptic, germ destroying cream into your nostrils and let it penetrate through every air passage of your head and membranes. Instant relief.

How good it feels. Your head is clear. Your nostrils are open. You breathe freely. No more hawking or snuffling. Head colds and catarrh yield like magic. Don't stay stuffed up, choked up and miserable. Relief is sure.—Adv.

NOTICE, G. I. A.

There will be a regular meeting of G. I. A. Tuesday, November 8th at 8:30 p. m. at Masonic Hall. All members requested to be present. FANNIE MCCONNELL, President.

Fort Lauderdale's new packing house is complete, and has been tried out by the management, according to the Sentinel. Every piece of machinery seemed to be in perfect working order. The packing house will be ready to handle the first fruit coming in, and greatly assist in moving the excellent crop that is expected.

Don't forget that Friday is Armistice Day and if you have a car in the parade you should be planning for it.

The Palatka News states that the Vego Hair Plant in that city was destroyed by fire Saturday. This means that we can get no more hair, we suppose.

DeLand has the right idea and they have the right kind of people behind it. The ashes from the great hotel fire over there were not cold when the Daily News was out yelling for subscriptions for a new fire-proof and modern hotel to be built on the site of the old Putnam Inn. That is the spirit that builds cities and we want to congratulate the News and the people of DeLand on their fine spirit.

We note by the state papers that Sanford won the state golf championship for Rotary at the big Rotary meeting down at Orlando last Friday. It has not been definitely stated but we suppose it was Sid Chase, Harry Stevens or Charlie Henry that did the trick as all three of these gentlemen are expert golfers and have played some very close games on the fine Sanford golf links at our Country Club, yes.

More ducks and other game are reported this year than ever before and the hands of the Seminole County Game Protective Association should be upheld in their efforts to have the game laws enforced. What this country will really come to in a few years will be a law prohibiting shooting for two years—that is unless the present laws are enforced to the letter. It is unfair to the people who are trying to uphold the game laws and are waiting for the 20th only to find out that the turkeys and ducks and deer have all been scared away by the people who hunt any time they please.

Dispatches Wednesday said the Clyde Steamship Line would put on a daily service to New York from Jacksonville, and that a daily steamboat service on the St. Johns river between Jacksonville and Sanford would begin November 15. Ocala is asleep to one of her best interests or her business men would establish a boat line to connect with the St. Johns river boats at Palatka, or, better still, at Welaka. Freight boats running between Silver Springs and Welaka would save greatly in time and fuel over a run to Palatka. Thirty-five years ago, Welaka was doing a considerable steamboat business, and there is no reason why it shouldn't be revived.—Ocala Star.

Editor J. C. Brossier has gone to the hospital, or somewhere today to have his tonsils cut out. We wish him well, but somehow or other that sort of stunt, like the toothache or falling in love, is more of a comedy than a tragedy. Reminds us of the story of the fellow who came home one afternoon and found a note from his wife. He read the note with startled eyes and, recovering from the shock, grabbed his hat and ran for the nearest hospital. He confidently expected to find his wife there, but she was not there. Then he went to a second hospital and a third, and so on until he had covered the whole lot. Then he took a doctor into his confidence, and together they read the note. It ran thus: "Dear John—Don't be uneasy about me, I've gone to have my tonsils cut out."—Orlando Reporter-Star.

SANFORD'S GREAT POSSIBILITIES.

An unusually large volume of correspondence is being received daily by the Chamber of Commerce containing inquiries from prospective investors and home seekers as well as those desiring to spend the winter in Florida. A great many of these inquiries have resulted from the wide distribution of the Sanford booklets to practically every section of the country and also from the general publicity emanating from the Chamber of Commerce. These inquiries are sure indications that Sanford will entertain an unprecedented number of visitors this coming season and the Chamber of Commerce is endeavoring to make provision to provide accommodations for them. While the rooms listed with the organization evidence a desire on the part of some of our citizens to cooperate, there should be listed every available room in the city that could be utilized for housing these people. A large number of people in Sanford this winter is much desired, as people of affluence never attracted to a dead community.

The argument raised by those opposed to any further exploitation of Sanford has been "Why advertise when we have no accommodations?" The answer to this is "Advertise that you need accommodations to remedy a condition caused by a phenomenal growth." This policy will attract investors to Sanford who will take advantage of these conditions and, from an investment standpoint, will erect apartment houses, hotels and whatever other accommodations are necessary to provide for those who desire to locate here and participate in the era of greater development destined for Sanford.

This development is assured by three important fundamentals which together guarantee its future as the largest city in this section of the state. They are first, agriculture, second, rail and water facilities and third, its possibilities as a tourist resort. A great deal of money, time and effort has already been expended on its agricultural development, as a result of which its back country has become nationally renowned. The farming industry has reached magnificent proportions and in addition to which is being development to a greater extent each year along more scientific lines, so that at the present time it is not only self-sustaining but it is also the principal revenue producer for the city.

In the development of the farming industry, the two subsequent factors particularly affecting Sanford proper have not been developed to any appreciable extent, but, when developed, will prove as equally remunerative as is our fertile acreage. Under the caption of rail and water facilities, Sanford looms potentially as a distributing center for the reason that the consequent preferential freight rates have always been important factors in the development of the recognized distributing centers of the country.

Its possibilities as a tourist town are unlimited. It possesses all the natural fundamentals of a recognized tourist city, being particularly fortunate in the matter of climate and location. It is true that it has yet to acquire the recreational features usually found in tourist cities, as golf courses and tourist hotels, but a proper application of effort on the part of our citizens can secure these things, and, among tourists make the name Sanford one to conjure with.

The Sanford Chamber of Commerce through its various committees, is expending the major part of its effort in the development of Sanford as a commercial center and tourist resort, and during the short period since its organization it has been unusually successful in both lines of endeavor. The new wholesale concerns which have located here within the past year, the daily boat service made necessary as a result of the Chamber's ship-by-water campaign, the success of the plans expediting the movement of perishables are all tangible accomplishments resulting from the efforts of the Chamber of Commerce to have utilized to the fullest extent our exceptional transportation facilities.

The Chamber of Commerce will also have perfected immediately a part of its plans to provide recreation for the tourists, who will winter here. Committees are now working on plans for a golf course and beautifying the lake front and these plans, when completed, will be carried through promptly. It will require, however, a continuous campaign, both abroad and at home, to obtain this desired development for Sanford and active support of those individuals representing the business interests of Sanford, as well as the unified co-operation, of the other local city organizations with the Chamber of Commerce. Our agricultural prominence has been made possible only by the great amount of effort that has been expended in the past. With the same manner of support assured it, the Chamber of Commerce can accomplish even greater results in the economic development of Sanford. It is imper-

ative, however, that in order to retrieve the time lost during Sanford's Rip Van Winkle period, extraordinary efforts be made by those individuals who are earnestly interested in a Greater Sanford. These individuals, if not already members, should immediately become affiliated with the Chamber of Commerce in the work it is doing. The Sanford Chamber of Commerce is an active organization and it is a trite saying that where there is civic interest and action there is invariably bound to be growth.

If Sanford is to be a big city commercially and as a tourist resort, it will be only through the work of big men with broad visions. No individual is bigger than his community no matter how small that community may be.

Be a booster. Boosting is infectious, it stimulates civic action and it has always proven an antidote for picayunish personal and factional jealousy. The Chamber of Commerce is composed of boosters who are actually doing things for Sanford and they are big things, too.

Are you a member of the Chamber of Commerce assisting in building up a Greater Sanford or are you one of those on the outside prone to criticize that which has not been done but expending no effort to materialize that which others are attempting to have done?

BETTER SPEECH WEEK

One of the greatest campaigns and one that costs nothing is inaugurated this week by the schools of the state and one that has already been organized by the schools of other states. This is the Good Speech Week or in other words a week's campaign put on by the school children and various organizations for the promotion of better English language not only in the schools but in the home as well.

It is a campaign fraught with great importance—just how great will take some time and study to determine but the direct results will be apparent to everyone. All of us know that we do not use the best of English at all times. We may intend to use it, we may try to use it, we may use it at times but for the day in and day out people who use the best of English aside from the professors and teachers there are very, very few who can say they qualify.

We think of it at times and most of us use good English in writing for we have more time to consider the words but the great majority of the people these days get in the habit of lopping off letters, using slang expressions, poor division of words, poor pronunciation, etc. We all do it and few are innocent. The campaign then will help all of us and the school children most of all.

The object of "American Speech Week" is said to be to enlist the school boys and girls in a campaign against bad English, bad grammar, incorrect spelling and pronunciation of words and other abuses of the language. In many towns and cities throughout the country teachers, students, club members, ministers and other public-spirited citizens are co-operating in the effort to "Clean up our English." The need for such a "cleanup" was so keenly felt by the national council of teachers of English that they recently set apart for nation-wide observance the first week in November of each year for concerted effort in the schools, the homes and the business houses, to improve the speech and manners of the American people, to preserve the beauty and melody of the English language and to help in Americanizing the many foreigners living in this country.

A DISCREDITABLE FACT.

The wholesale price of eggs shipped here from Tennessee is around 60 cents a dozen. Fully eighty per cent of the eggs consumed are produced outside of the State. As every menu contains this important article, it means that there is a tax, amounting to millions of dollars a year, on the people of the State for an article which can be produced here cheaper and easier than anywhere else in the United States.

This is a discreditable fact, and we venture to pronounce it such in the face of any possible censure from those who are always super-sensitive about anything that sounds like criticism.

Florida never can enjoy that high degree of assured prosperity to which her situation entitles her until she learns to look after the little branches of industry. No man ever made a million dollars, perhaps, raising poultry; but no man in Florida, who goes at it with any reasonable degree of intelligence, can fail to make a decent profit on his labor and investment. There is a city in California as large as Lakeland which flourishes almost exclusively upon its poultry products. The climate, soil and natural surroundings are less favorable to that business there than here. The Petaluma poulterers encountered difficulties which do not exist here. But

they put energy, determination, and a just appreciation of the cumulative value of small profits into the business, and they succeeded.

Florida ought to produce all the poultry and eggs needed for home consumption. It ought to produce a surplus to send out of the State. Its refusal to do so, manly, we believe, because too many people regard poultry raising as an undignified trade, results in the loss of a profitable business and an unjust and unnecessary increase in the cost of living, both to those who live here all the year and those who spend the winter in this State.—Lakeland Telegram.

TRIBUNE IS GREAT PAPER.

The Sunday Morning Tribune carried a special section of 40 pages, eight columns to the page, making 320 columns of advertising for the Tampa Hardware Co., of Tampa. The Tampa Hardware Co., and the Tampa Tribune are to be congratulated upon meeting up with each other. Such enterprise is commendable when it is known that some of the greatest magazines in the country devoted to the printing trade say this is the largest single advertisement printed by any newspaper in the United States. The Sunday Tribune had the following taken from an editorial on the subject:

"The Tribune takes unusual pride in sending out today, as a supplement to its regular Sunday edition, the LARGEST NEWSPAPER ADVERTISEMENT OF ONE CONCERN EVER PRINTED IN THE UNITED STATES.

"This is not an idle or unsubstantiated boast. The Tribune referred the proposition to an unquestioned authority, Printer's Ink, which advised that the largest single newspaper advertisement of which it had record was of twenty-eight pages.

"The advertisement of the Tampa Hardware Company, which goes out with today's Tribune, is FORTY PAGES.

These forty pages are all devoted to one Tampa enterprise.

"It should be a source of pride to Tampa and to Florida that they have a commercial concern capable of an advertising achievement of this volume and importance."

We congratulate the Tribune, South Florida's great newspaper.

BUY A FLAG

The school children will make a canvass of the homes tomorrow and endeavor to place a nice flag in every house. How fine it would be on Armistice Day to see the Stars and Stripes floating from every home in Sanford. That will not be the case of course, but almost every home will have flags of some kind and while there are only 200 of the big flags to sell by the children it is almost certain that every one will try and buy one of these flags that are a real bargain at the price. And then the money over and above the cost price goes to the football team of the High School which is also a worthy object. Get a flag when the children come to see you.

EFFORTS ARE REWARDED.

The efforts of the Chamber of Commerce to start some big things here for the winter season are being rewarded and the number of members attending the weekly luncheons at the Valdez are increasing demonstrating that the real citizens of Sanford recognize the good work of the Chamber of Commerce and are willing to come in and do their part in this great work. A great city is being started.

SANFORD'S TEMPERATURE

Well, it is divine, this weather. Not too hot or too cold but just right. Looks like rain this afternoon but we hope not. It should not, must not rain on our Armistice Day celebration on Friday next. There is "heaucoup" doings to have any rain that day or that night. And then all this week we need the sun and the clear weather to make real lettuce. But it is not for us to say and we will take the rains as they come. Our weather is good enough at any time of the year. Just think of 86 in November.

SOMETHING ABOUT JUDGE ADAMS.

Bristow Adams, who is to judge the University of Florida Newspaper contest, which will be put on by the General Extension Division, during the State Fair at Jacksonville, November 12-19, has had much experience in these contests, having judged similar ones for States of New York, Minnesota and Kansas. He is professor of agricultural journalism at Cornell University, and has had long experience in newspaper work. He is editor of the Cornell agricultural publications, and was, for a number of years, in charge of the news services and publication work of the United States Forest Service. He has also done similar work for the federal department of agriculture, and last year compiled the department's agricultural almanac. His newspaper experience has been gained on both the Atlantic and Pacific coasts.

He is familiar with Florida conditions, because during his service with the government he made a number of forest plantations in this State.

Our idea of a courageous man is one who tells a woman her baby isn't pretty or tells a man his home brew isn't fit to drink.
