

RATIONING CALENDAR

PROCESSED FOODS
Blue A8 through W5 (Book 4) only. Stamps X5, Y8, Z6, A2 and B2 become valid Dec. 1. Blue tokens invalid. Stamps good indefinitely.

MEATS AND FATS
Red A8 through P5 (Book 4) now valid at 10 points each for use with tokens. Both good indefinitely.

The ration value of cranberry butter has been increased to 26 red points per pound.

SUGAR
Sugar stamps No. 30, No. 31, No. 32, No. 33 and No. 34 now good for five pounds each in-

CANNING SUGAR
Stamp No. 40 good for five pounds canning sugar until February 28, 1945. Apply to local boards for supplemental rations.

SHOES
Airplane stamps No. 1, No. 2 and No. 3 (Book 3) valid indefinitely.

Shoes containing small quantities of leather or reinforced fabric uppers, manufactured or imported before November 6, have been made ration-free by the Office of Price Administration.

The action, affecting mostly men's and boy's type shoes such as rubber-soled gymnasium shoes, was taken to enable shoe dealers to move current stocks, OPA said.

GASOLINE
A 13 coupons valid through

December 21. Rationing rules now require that every car owner write his license number and state on each gasoline coupon in his possession as soon as they are issued him by the rationing board.

FUEL OIL
Period 4 and 5 coupons from last year and Period 1 coupons for this season now valid. (Alabama, Tennessee, Mississippi not affected.)

Period 1 and 5 fuel oil coupons, scheduled to expire September 30, and all definite value coupons left over from the past year's ration, may be used in exchange for fuel oil throughout the coming heating year.

FIREWOOD
The Board has established prices as follows on all firewood: 16 inch or less \$21 a cord.

24 inch \$13.50 a cord.
48 inch \$16.50 a cord.

AMMUNITION
In revoking the 25 per cent premium previously allowed for "single" sales of civilian ammunition, OPA said prices now must be computed in proportion to the full box price. When the premium on less than box lot sales was allowed, OPA said, such sales constituted only a small portion of total sales in the nation. However, many retailers last year used the provision to evade ceiling prices, making all buyers purchase their ammunition in broken box lots.

CIGARETTES
Initial complaints of alleged illicit sales of cigarettes prompted District OPA Director Chauncey W. Butler to caution smokers

today that they alone hold the key to whether a full-fledged black market develops from the present acute shortage.

"The shortage," he said, "is obviously aggravated by smokers buying in advance of normal needs to build up personal supplies. Some are apparently willing to pay more than legal prices and are thereby sowing the seed for a black market which will eventually only deprive them further of the cigarettes they cherish."

Under existing regulations, all cigarette retailers are required to post ceiling prices in plain view and are prohibited from exceeding the legal prices by such evasive methods as "tie-in" sales. In individuals are urged to report any suspected violations to their local War Price and Rationing Board.

4 Jap Ships With 5,000 Men Sunk By Bombs

Yanks Kill 277,000 Japanese At Cost Of 21,000 To U.S.; Strong Army Left

(By Associated Press)
Four more Japanese transports, loaded with 5,000 reinforcements for Leyte, were sunk by American bombers in the central Philippine seas, and a freighter and destroyer left aflame.

For the third straight day Tokyo claimed damaging attacks on Allied ships in the Leyte gulf, reporting five transports sunk or damaged.

The storm-halted U.S. infantrymen continued relentless pressure on the worsening Jap positions on Leyte.

The Japanese claimed the capture of three towns. Driving deeper in central China, and reported the removal of Gen. Masakazu Kawabe as commander in Burma.

U.S. Troops have killed at least 277,000 Japanese at cost of 21,000 American fatalities, the Office of War Information revealed last night in a report which said that Japan already has 4,000,000 men in the field and can comfortably equip and train an additional 2,000,000.

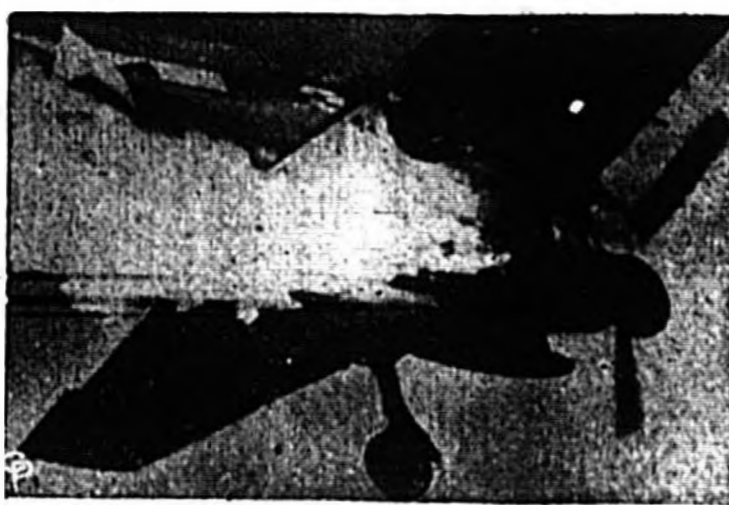

Japan is nowhere near the bottom of the barrel in fighting reserves and can recruit, add millions from subject states.

OWI said in a detailed summation of the characteristics, equipment and organization of Japanese troops based on War Department information.

In addition to the 277,000 Japanese killed in combat, 350,000 are in isolated island pockets cut off from battle or recuperating.

Overall Japanese dead since 1937 outbreak of the war with China total about 2,500,000. OWI said that Japan now has about 2,000,000 troops in China.

BELLY AFLAME, A HELLCAT HEADS FOR HOME ABOARD A CARRIER

AS THE PLANE COMES IN EMERGENCY CREWS ARE READY

FIREFIGHTERS GO TO WORK AS THE PILOT SCOOTS ALONG WING

EMERGENCY ARISE CONSTANTLY aboard our carriers in the Pacific and special crews are expertly trained to meet them. This dramatic action aboard the flat-top Cowpens is but one of many illustrations where prompt work saved both plane and pilot.

At top, a Grumman Hellcat flown by Lt. Alfred Magee, Jr., Pittsburgh, roars over the ship with undercarriage aflame. At a signal from the landing officer he comes in on the flight deck (center) as firefighters and rescue squads stand by. As the plane rolls to a stop (bottom) Magee leaps from the cockpit and tears along the wing to safety. Firefighters smother the flames with chemicals. U.S. Navy photos.

Farm Aims For 1945 Are Set By Agencies

WFA Appeals For Too Much Food Rather Than Too Little

GAINESVILLE, Dec. 1 (AP)—Crop livestock and forest production goals for Florida farmers in 1945, approximately the same as those for 1944, were set today at a session of representatives of all State and Federal agricultural agencies and most farmers' organizations operating in Florida.

Washington representatives said the War Food Administration is asking for ample food production next year, preferring to err on the side of too much rather than too little.

Flora's main Florida's number one war crop, and the goal set for 1945 calls for 120,000 acres to be harvested, which is the same as the goal for 1944. The number of acres to be harvested would be reduced slightly, J. B. Danieles of the Agricultural Adjustment Agency said.

The goals recommended a slight decrease, to 722,000 acres in cotton, largely because oats have been increased from around 65,000 to 100,000 acres. A continued decline in cotton acreage to 30,000 acres is suggested. Five cured tobacco was upped to 20,000 acres, other tobacco (cigar wrapper) kept at 2,500 acres, sweet potatoes reduced to 20,000 acres and tame hay kept at about 150,000 (Continued on Page Two)

Bloody Battle Rages Along Roer River In Drive On Duren

V-2 Bomb Tank Faces The Camera At Last

PHOTOGRAPHED IN BELGIUM in this period, the V-2 rocket tank, which is being used by the German army, is being used to attack the Allies. It is a Signal Corps photograph from London, England.

Record Breaking Air Offensive Results In Heaviest Losses Since April 1943

(By Associated Press)
American armies all along the western front drive menacing wedges toward the Rhineland under ceaseless artillery barrages, forming assault lines before the Roer and Saar rivers and aiming a drive toward the mountain barriers in the south. In the bitterest battle, the 1st, 3rd, 7th and 9th armies, pointed toward Cologne and Disseldorf, Massed on a 20-mile front on the Roer line, the Third Army was firing a solid front of 12 to 15 miles on the west bank of the Saar against the Siegfried line.

(By Associated Press)
First Army Headquarters, France, Dec. 1 (AP)—Hitler's most probable have about 500,000 troops to wage the climactic battle of Germany, including approximately 1,000,000 really fit men according to the best information available.

(By Associated Press)
Two American armies on the 30-mile Roer River front hammered the approaches of three key cities barring the way to the Rhineland. The fighting was described as bloody and relentless as the Argonne Forest in the last war.

The Ninth Army hurled the Germans back across the Roer River below Julich and toward Eupen, after capturing Weik. The First Army to the south pounded at the approaches of Duren. 20 (Continued on Page Two)

CITY BRIEFS

Taylor Commandry No. 28, Knights Templar will hold a regular convocation at the Masonic Hall tonight at 8:00 o'clock, according to L. B. Steele, Eminent Commander.

William J. Dawson plead guilty this morning before Circuit Judge M. B. Smith to theft from Edgar L. Hawkins of a pocketbook containing \$70. No sentence has yet been given.

Yellow Jackets Defeat Sanford By 24 To 13 Score

Leesburg's Yellowjackets, in a thrilling packed game attended by a large Thanksgiving evening crowd, defeated Sanford High School's Cardinals, 24 to 13 and so won the East Coast Conference championship.

Just one play after Sanford had kicked off to Leesburg, the latter's star full-back, Broadway paced by expert interference, swept around his own right end for a 70 yard touchdown. The Fed defense then stiffened, but on offense they could make but short gains and they were forced to kick. Leesburg, which had failed for the extra point led 6 to 0 at the end of the quarter.

The Fed, paced by Callahan, (Continued on Page Two)

Government Plans Big Post-war Road Building Program

WASHINGTON, Dec. 1 (AP)—A \$1,733,000,000 federal program to modernize the nation's highways after the war was approved yesterday by the House.

The bill, adopted by a voice vote, is generally similar to legislation passed by the Senate but cannot go to the President until the two branches of Congress agree on its specific terms.

The three-year, \$1,733,000,000 program to develop highways and cushion post-war unemployment, the House bill authorizes the federal government to put up \$500,000,000 a year for the next three years for road improvements. The sums would have to be matched dollar-for-dollar by states, which want to share in the road building.

In addition to the federal program the measure authorizes \$173,000,000 for park and Indian reservation roads.

The bill is generally similar to legislation passed by the Senate but cannot go to the President until the two branches of Congress agree on its specific terms.

The three-year, \$1,733,000,000 program to develop highways and cushion post-war unemployment, the House bill authorizes the federal government to put up \$500,000,000 a year for the next three years for road improvements. The sums would have to be matched dollar-for-dollar by states, which want to share in the road building.

Coast Guard Unit Helps In Selling \$4,200 In Bonds

Evans Reveals County Has Invested Over \$6,000,000 In Bonds

Bond sales totaling \$4,200 were made Wednesday evening at the meeting of the Woman's Club of Sanford, Mrs. Dora and Deland members and relatives of the U. S. Coast Guard Auxiliary and Reserve of the Semieville Naval District. These were conducted by Mrs. J. J. Evans, chairman of the auxiliary.

Evans revealed that the county has invested over \$6,000,000 in bonds.

Bond Sales Said Lagging In County By Chairman Evans

Bond sales of the state War Loan are still lagging in Semieville County in comparison with previous sales, it was reported today by Frank Evans, chairman of the county bond drive.

Evans said that the county has invested over \$6,000,000 in bonds.

John Ludwig Dies From Gun Wound Thursday A. M.

Shot Above Temple, No Powder Burns, Believed Accidental

John Ludwig, 34, of Sanford, died Thursday morning from a gunshot wound to the head, believed to be accidental. He was shot while working on a farm near the town.

Lieut. Donald Pearson Makes 74 Missions

MIAH BEACH, Dec. 1 (Special)—Lieut. Donald K. Pearson, 24, of Sanford, has completed 74 missions as a pilot in the Army Air Corps. He was shot down in action over Europe in 1943.

Home On Leave

Editors Note—The following names of men in service "home on leave" have been submitted by the Pilot Club for which Mrs. E. B. Ruffin, telephone 631-2, and Miss Blanche Kennedy, telephone 923-7 have been selected as a committee to secure names of service men and women so that their friends may know when they are in Sanford.

Coxswain William G. Brown has arrived from Miami to spend a short leave with his wife and family.

Littell Is Fired By President For Insubordination

WASHINGTON, Dec. 1 (AP)—President Roosevelt cracked down swiftly yesterday on the latest quarrel within his Administration, firing his own appointee, Assistant Attorney General Norman M. Littell, for "insubordination" to Attorney General Francis Biddle.

It was the sternest Presidential action of his kind since Mr. Roosevelt stripped Vice President Henry A. Wallace and Secretary of Commerce Jesse Jones of authority in wartime foreign economic matters July 15, 1943, and it was one of the rare instances in which Mr. Roosevelt has summarily dismissed a cabinet member.

Attorney General's Aid Had Previously Refused To Resign

WASHINGTON, Dec. 1 (AP)—The House bill allows the \$100,000,000 annual federal road funds on this basis. The bill provides \$225,000,000 for federal and highways; \$160,000,000 for improvement and development of secondary, feeder and farm-to-market roads; \$125,000,000 for federal highways in city areas.

The federal funds for secondary and farm-to-market roads would be apportioned on the following basis: One-third according to population, one-third population and one-third mileage of post roads and mail routes involved in each project.

The legislation provides for the designation of a "national system of interstate highways" to be determined by joint agreement between the state highway departments.

The federal aid program could begin with the start of the new year. An original house proposal to start the program with the first fiscal year after the war was amended on the floor.

1945 Auto Tags Are On Sale In County

Automobile license tags for 1945 are now on sale at the office of Tax Collector Jno. D. Jenkins in the Court House.

Mr. Jenkins today requested that those applying for new vehicle licenses bring their registration cards, and if convenient vehicle title certificates.

The new license plates have low numbers on a black background.

Mrs. Hattie Byrd Hurt In Accident

Mrs. Hattie Byrd, who had requested a ride to town from Charles Burned of Lake Monroe, driving a 36 Plymouth Sedan on the Orlando-Sanford highway recently, suffered a head cut when the car left the highway south of Lake Monroe and knocked over three concrete posts.

Burned, who was unlicensed, told State Highway patrolman L. C. Bender that his headlights went out, causing him to drive off the road.

NO FAMILY ROW

CHUNGKING, Dec. 1 (AP)—A Source close to Generalissimo Chiang Kai-Shek declared today that the family row between the two brothers-in-law, Generalissimo Chiang Kai-Shek and his brother-in-law, Generalissimo Soong, is a family matter and should not be a subject for public discussion.

Capt. Columbus Boyd Is Awarded DFC

TAMPA, Dec. 1 (Special)—In a ceremony at Drew Field, Tampa, Col. Wendell B. McCoy, last commander presented decorations awarded heroes of many theaters of combat in this war.

Among those receiving awards was Capt. Columbus M. Boyd, a native of Sanford, Florida, who received the Distinguished Flying Cross for extraordinary achievement as a B-17 pilot in action against the enemy over Greece and other areas in Europe. Capt. Boyd is at present a member of Squadron T, 32nd AAF Base Unit, Drew Field.

The citation accompanying Capt. Boyd's award told of how his plane left its formation over a harbor in Greece to make a lone bombing run on a Nazi vessel. Direct hits from Boyd's plane destroyed the vessel and then he rejoined his formation.

The Sanford man is a veteran of fifty combat missions against the enemy.

Warren L. Odham Takes Officer Course

ATLANTA, Dec. 1 (Special)—This office has received recent advice that Warren L. Odham, who resides at P. O. Box 518, Sanford, has qualified and been admitted to the Officers Candidate Class at Fort Trumbull, New London, Conn., the U. S. Maritime Service Officers' School.

The son of Mrs. E. B. Odham who resides in Sanford, Officer-Candidate Odham left the employ of the A. H. Bull Company to enter in the U. S. Maritime Service for training in 1943. He has since accumulated the 14 months sea time necessary for admission to the Officers' School.

Upon completion of the specialized 4-month course, during which each candidate is ranked as Chief Petty Officer, he will graduate as a 2nd Lieut., receiving concurrently his commission as an Ensign in the Maritime Service.

Lt. Loyce Ferguson Is Back From Europe

MIAMI BEACH, Dec. 1 (Special)—Lieut. Loyce E. Ferguson, 34, of 309 West Ninth Street, Sanford, has arrived at Army Air Forces Redistribution Station No. 2 in Miami Beach for assignment processing after completing a tour of duty outside the continental United States.

He flew 75 missions as a P-51 pilot during nine months in the European theater shot down one German plane, and won the Distinguished Flying Cross, Air Medal, and Presidential Unit Citation. He worked as a clerk in Price's Grocery, Sanford, before joining the AAF Nov. 15, 1943. His mother, Mrs. Birdie Ferguson, lives at the same address.

Medical examinations and classification interviews at this post, one of five redistribution stations operated by the AAF Personnel Distribution Command for AAF Reserve officers and military men, will determine his new assignment. He will remain here about two weeks, most of which will be devoted to rest and reconditioning.

Rainfall Was Light During Last Month

Scant rainfall, .37 of an inch, for the month of November, was reported today by E. F. Whitner, weatherman. Normal rainfall for November is usually 1.77 inches, which makes the deficiency, 1.40 inches. In spite of this, the report shows that there has been an excess for the year of 14.18 inches, much of which was due to heavy summer rains and the hurricane rainfall up to Dec. 1 was 54.82 inches.

Average November temperature of 63.3 was only 1.4 degrees below the average for that month of 64.7 degrees, it was reported.

Lions Club Reports Successful Dance

A "successful" report concerning the recent fund raising dance, Wednesday evening at the Army Club meeting by program chairman John Ivy.

Mr. Ivy reported that the sum of \$150 had been raised by the dance for the Lions aid to the blind fund. Plans were made today to put this fund to active use.

Yellow Jackets Defeat Sanford By 24 To 13 Score

(Continued From Page One) made two first downs in the beginning of the second quarter and got to the Leesburg 35, only to lose the ball when C. Knight, intercepted a long pass. By this time, however, the Feeds were trailing 12 to 0, following a long run for a touchdown at the beginning of the quarter by Leesburg's Harvey. The half ended with the above score.

Leesburg started the second half with a costly fumble on receipt of Sanford's kick, and was forced a bit later to kick to the Sanford 49. Callahan and Dyess began making quick, short cuts good for first downs, and Callahan scored the first Fed touchdown by sheer force. Brumley kicked for the extra Sanford point.

A little later, Broadway broke loose from his own 40 for another Leesburg touchdown, and although the Feeds in turn got to the Jacket's 37, they could not score, and Leesburg led 18 to 0 at the end of the third quarter.

Early in the fourth quarter, Harvey got away for a 55 yard touchdown for Leesburg. The were unable to gain any extra points following their touchdowns. Sanford got started with a good pass from Callahan to Sumler, Brooklin, who had just entered the game for Sanford, ripped through the yellowjacket line for nice gains that finally enabled Callahan to make the Feeds final touchdown.

The Seminole High School band and the Celeryettes gave a fine

review between halves.		
Starting Lineup	Pos.	Leesburg
Sanford	LT	Adams
Rayburn	LE	
Brumley	LT

Littell Is Fired By President For Insubordination

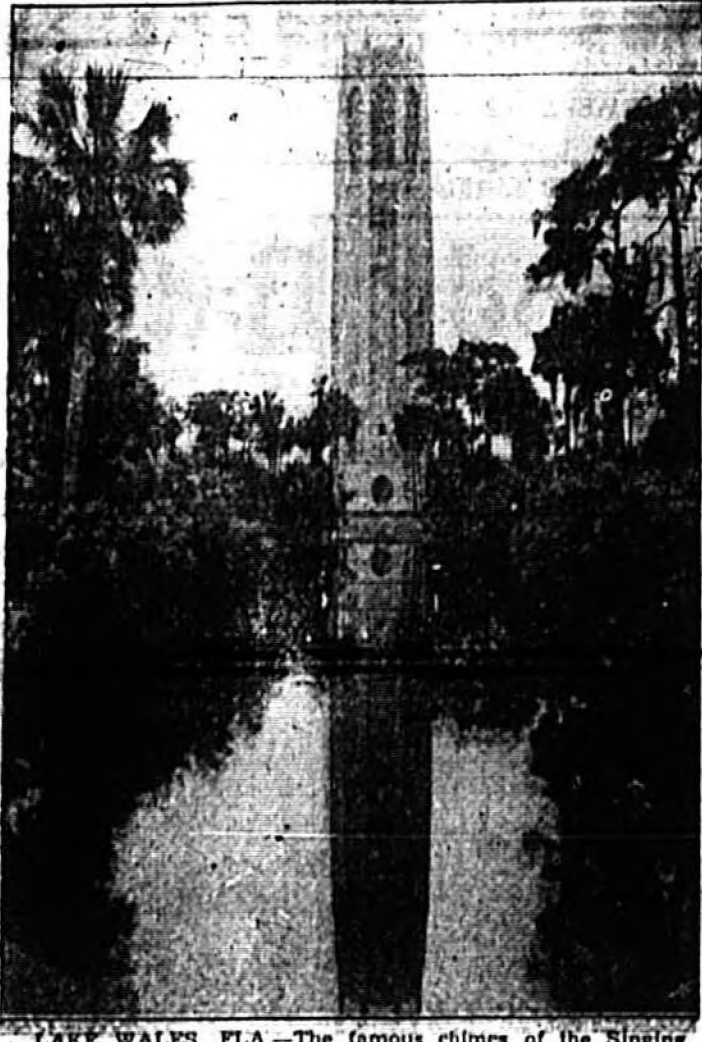

(Continued From Page One) primarily dismissed an Administration official.

His action was disclosed by the Justice Department which made public a brief Presidential statement revealing that Mr. Roosevelt previously had asked Littell to resign "for his own career." Biddle also had asked Littell to resign, but the latter refused. The wording of the Presidential statement suggested that Littell similarly had ignored Mr. Roosevelt's request.

Charges "Subversive"

The Biddle-Littell feud, smouldering since May 14, 1942, broke wide open Wednesday night when the Senate War Investigating Committee made public correspondence from the two men. This included a 26-page document in which Littell, head of the Public Lands Division of the Justice Department, accused Biddle of subversive to former Brain Trustee Thomas (Tommy the Cork) Corcoran at the expense of the taxpayers. He charged that

Carillon Season Opens Dec. 2nd

LAKE WALES, FLA.—The famous chimnes of the Singing Tower will be heard December 2nd at 12 o'clock noon when Anson Brees, famous carillonist, plays the opening program of the 1945 season. The tower is near Lake Wales and just 12 miles from the Florida Cypress Gardens giving visitors a treat of music and flowers on the same trip.

Battle Rages Along Roer River In Drive On Duren

(Continued From Page One) miles southwest of Cologne.

On the central sector the U. S. Third Army drove through tough opposition to the Roer River half a mile west of Merzig. The Seventh Army is within 1 1/2 miles of Hagenau, Berlin said the Nazis are withdrawing from the town, 1 1/2 miles from the Reich frontier.

The Russians in a new offensive west of the Danube River in southwest Hungary surged to within 78 miles of out-flanked Budapest. Other Reda swarmed south from Peca through villages pocketed by a new advance. Northwest of Budapest, the Russians seized Eger and Szekes, strongholds guarding the invasion route into central Slovakia.

In Italy, the Fifth Army advanced on the Florence-Faenza road against light opposition. The Germans are believed withdrawing from the mountains to the Po Valley.

A record-breaking aerial offensive against the Germans forced into the night after the heaviest Allied loss in one day since April. The Allies lost 20 bombers and 30 fighters.

PARIS, Dec. 1. (UP)—American Ninth Army troops, striking behind barages of high-explosive and phosphorus shells which did terrible execution, swept through three more German towns yesterday in their new smash at the left end of the hazy Aachen front and tonight had reached the flooded Roer River along a 20-mile stretch above and below Julich.

The Roer is the last important natural barrier standing between Gen. Dwight D. Eisenhower's attacking forces and the Rhine, some 25 miles to the east.

Captured in the surge of Lieut. Gen. William Simpson's Ninth Army forces east and northeast of Godeskirchen were the blackened villages of Lindern, Florsdorf and Koerdorf, all on or near the west bank of the Roer. In another village, Beek, a mile southwest of Lindern, American troops found more Nazi dead piled in the streets than in any German town yet entered.

As the Germans reeled back under the rain of American shells and before the bayonets of Simpson's doughboys they came under withering attack by Thunderbolt fighter bombers.

Lindern is 1 1/2 miles from the Prussian arsenal and rail city of Munchen Gladbach and stands on high ground overlooking the enemy stronghold of Julich to the southwest. Florsdorf and Koerdorf are Roer River towns between Lianich and Julich.

With the shattering attack by three divisions of the Ninth Army beat back the dual-Germans and threatened to develop into a fierce drive on Dusseldorf, 28 miles away. Lieut. Gen. Courtney Hodges' U. S. First Army doughboys on the right won the fortified towns of Lamersdorf and Grosshau in savage fighting and virtually put the bloody Hurtgen Forest behind them.

Others of Hodges' forces fought a see saw battle for a bridge across the Little Inde River at Idlen, midway of the Aachen front, winning back the western end of the span after once losing it to a furious Nazi counter-attack. On the extreme right, Hodges' men smashed eastward from captured Hurtgen to within about a mile and a half of the Roer River, cutting an important road between Kleinhu and Brandenberg.

The First Army alone bagged more than 6,000 prisoners during the day of ceaseless fighting on the muddy Cologne plain, and the count of dead and wounded Nazis ran higher. American troops fighting inside the village of Merode three and a half miles from the big road center of Duren, lost ground to determined enemy counterattacks.

"This is first of all—above any objective of river or hill—a battle to kill or imprison Germans," said Associated Press Correspondent William E. White in a front dispatch. "The Army is having to pay for all this, and German resistance has not weakened anywhere."

Merode is a small town of 1,000 people. It is a strategic point on the big road center of Duren, lost ground to determined enemy counterattacks.

Farm Aims For 1945 Are Set By Agencies

(Continued From Page One) acres.

No goals were set on Winter vegetables since these are already planted. For Spring vegetables the group suggested acreage decreases of 10 per cent with snap beans, 25 per cent with cabbage 30 per cent with eggplant and 10 per cent with green peppers. Increased acreages recommended included 12 per cent for lima beans, 15 per cent for white potatoes, and 20 per cent each for green peas and cucumbers. Acreages equal to the harvested acres in 1944 were suggested for tomatoes, celery, escarole and lettuce.

For beef cattle the committee accepted the War Food Administration's recommendation that the number of cattle on farms and ranches be reduced 8 per cent by the end of 1945, which would probably mean heavier marketings during the year. No reduction in sows bred to farrow or in number of hogs raised was recommended, while the goal for sheep and lambs was lowered 22 per cent.

Hens and pullets on farms to the prewar level or about two million head, egg production about the same as in 1944, 18 million dozen, broiler production the same, a 3.1 per cent increase in chicks raised, and 5 per cent more turkeys were the poultry pronouncements.

The ordinary weight of hen eggs is seven ounces to one pound in Spain, eight ounces in England and France, nine in Poland and ten in Germany.

U.S. FIGHTER PILOT Lt. Harold O. Miller of Los Angeles, pictured here in his home with his wife Margaret indicates on a map of the former war front in Normandy the spot where he strafed a German car last July 24 and sent it careening and burning into the roadside ditch. It is now believed that the late Field Marshal Erwin Rommel of Germany was in that car, and that the wounds from which Rommel later died were inflicted by guns of Miller's plane. (International Soundphoto)

Col. Elliott Roosevelt Will Marry Again

BEVERLY HILLS, Calif., Dec. 1. (UP)—Col. Elliott Roosevelt, 24-year-old son of the President within a week will take his third wife, Actress Faye Emerson, 27.

This announcement came yesterday from a spokesman for the colonel and later from blonde Miss Emerson herself, but neither added any details concerning the wedding plans.

However, her mother, Mrs. Jean Young of San Diego said in Beaumont, Tex., that the wedding would be "this week-end." The exact time and place are being kept secret, she said.

Following the ceremony the couple will visit in Beaumont, her childhood home, Mrs. Young added. She said the couple first met in Hollywood.

Miss Emerson, in pictures since 1941, was married once previously to William Wallace Crawford Jr., by whom she has a 5-year-old son, William Wallace Crawford III. They were divorced in 1942.

Roosevelt and his first wife, Elizabeth Donner Roosevelt, were divorced in 1933 at Minden, Nev. Five days later he married Joan Hodgins. She obtained a divorce last April 15 at Fort Worth, Tex., after testifying that he no longer cared for her and that he urged her to bring the suit. She has custody of their three children.

Commissioned a captain in the Army Air Forces in 1943, Roosevelt was promoted to full colonel last April, and is now visiting here on leave after commanding the Allied photographic service in Africa and Sicily.

"he is a spy." Not trusting their prize to the PW interrogators, the doughboys held a summary court martial to decide his fate. They threw the axe at him. The verdict: "Guilty to be executed immediately by bayonet, MI, cleaned, boiled, and eaten when served." This message offered no defense.

BIBLE VERSE FOR TODAY

THE KING NEEDS ROOM. HE WILL NOT SHARE A DEN FILLED WITH EVIL COMPANIONS NOR A MIND FILLED WITH EVIL THOUGHTS. Lift up your heads, oh ye gates, and be ye lifted up ye everlasting doors, and the King of Glory shall come in.—Ps. 24:7.

Star Lovers (From the Christian Science Monitor)

China cuffed in tenement-pale hands. How lovely children are, Communion on a five escape With the evening star.

People who have great estates Buy the stars and own them. Graciously to passers-by These point the Pleiades and Mars. Their slice of sky and friendly stars, These children loan them. BIANCA BRADBURY.

Heritage (From Kaleidograph)

They knew grim hardship's flinty face And life's wolf-taloned claw. They trudged by day, but danced by night To Turkey in the Straw.

Their homes lacked elegance and grace But every rough-hewn rafters Re-echoed often to the sound Of good whole-hearted laughter.

A song was ever on their lips: For they were more than brave. Those pioneers who won the west Went singing to their graves. GAIL BROOK BURKET.

Late October (From The Washington Post)

This kind of day is masculine gender—A rosyid and reckless untamable old toy.

With few finer feelings and those none too tender— Even the earth's just a tarnished old toy.

Whose seas are for wading and treetops, for whipping; Whose landscapes are perfect to run turning wheels.

With the frost-dog following, yelping and nipping. Half playful, half earnest, at swift flying heels! BARBARA MASTERSON.

We see where Great Britain has decided to lift the restrictions on corsets. Making the war a little less rugged on the home front.

Fifteen nations of the world have endorsed the Canadian compromise proposal for the "fifth freedom," freedom of the air for aviation transportation. As free as the air we breathe.

War Romance The boss, short of help, was urging his secretary to postpone her marriage.

"Can't you ask the young man to wait a few weeks?" he queried. "No," she said. "I don't feel I know him that well."—Coronet.

In Nashville, Tenn. some shotgun shells were placed in the other day. The crowd broke through the plate glass window, nearly killing one man and injuring several others, indicating that human nature is pretty much the same no matter where you find it.

Some people still do not understand why we have room in our copy for seemingly unimportant stories when their very important items are left out. The answer is to be found in the manpower shortage, the paper shortage, and the natural human tendency to procrastinate. But there is one way which people who have something they want published in the paper can be reasonably sure it will be. And that is to get it in this office the day before publication. We are sorry, but as a rule we cannot publish items brought in at the last minute. We like to accommodate, but we

Nazi Sanctuary

The right of one pursued to "seek sanctuary" within the precincts of religious property is one which goes back for thousands of years, to the Romans, the Greeks and the Hebrews. It has saved the lives of many innocent persons over the centuries—and of some not so innocent. But it is sometimes embarrassing to the involuntary host, as witness Vatican City today.

Before the liberation of Rome, numbers of Allied war prisoners managed to make their way from Nazi hands to the Vatican, where they were interned until released by the arrival of the Allies in Rome. Today, with Italy an ally of the United Nations, Nazi soldiers are attempting to reach the same sanctuary. Two of them succeeded recently. And although the Holy See is not in sympathy with the ideas they represent, it will protect them as its duty, for its right of neutrality and asylum are beyond dispute and cannot be evaded.

Needless to say, however, it is making sure that no more will find easy entry over its walls.

All Can Be Useful

Is there any job that the army can't use? Paleontology, the knowledge of the bones of animals long extinct, would seem to be one, yet the army can use it and does. A paleontologist in the Smithsonian Institution at Washington was recently commissioned as a captain in the air force.

What can he do? He interprets photographs. As a searcher for hidden sites of fossil bones, he knows the earth, its lines, curves and natural formations. Sir William Matthew Flinders Petrie, the British archaeologist who added greatly to the knowledge of ancient Egypt, could look over a field from horse-back and tell just where to dig for ancient remains. Paleontologists, possessing the same gift, can examine aerial photographs and pick out things which other people would not see or recognize.

No job need be despised in war time, or in peace, either. Everything can be used somewhere.

A Speller's Nightmare

There are only twenty-six letters in the alphabet. So why all the confusion and bother?

If a spirit is a ghost, why is someone to whom we extend hospitality not a ghost? And if palm is the way we have to spell it, why isn't one of our fingers a thumb?

All right, so there's a b in plumber. Then why can't we drive nails with a hammer?

And if we sing a hymn, why don't we dymn the lights?

What a language! How's an unsuspecting soul to know that there's an s in viscount. Or an l in soldier? Or a c in victuals?

If we say kee, why do we write it quay?

And when are they going to get around to spelling colonel so that it looks like what it is?

Perhaps someone can explain why, if whiskey can also be whisky, monkey can't be monky.

Why, if almost everybody wants to spell it ukelele, does dictionary insist on ukulele?

Doesn't the rule plainly say that i comes before e except after c? Then how come leisure, weird and seize?

Hold me back before I commit mayhem on the nearest dictionary!—Norman Lewis in Your Life.

Grand Old Lady

One notable event, too generally overlooked in the pressure of more striking events, was the award made by the American Women's Association for 1944 to Mrs. Carrie Chapman Catt, now in her 85th year. Eight hundred men and women assembled in New York to do her honor, and she was fittingly remembered in hundreds of American cities as a trail-maker and a great woman.

It is amusing to read Mrs. Catt's pungent remarks on that occasion, regarding the struggle of women to gain human and property rights possessed by men, including their long denial of the right to vote, because of "the tradition that all women had been cursed by Eve's sin."

This war is showing, more clearly than ever before, how women can and will rise to worthy participation in a great human cause.

THE CONFUSED PUBLIC

Nearly half the public thinks that manufacturers have been making too much money out of the war, according to the results of a poll based on 2,500 interviews conducted for the Association of National Advertisers by the Opinion Research Corporation. The average of all opinions expressed was that industry is making a profit of 80 per cent, whereas 10 per cent is considered by those polled as a fair rate.

The public thinks that labor has followed right after industry in getting the lion's share of economic benefit of the war, with wholesalers, jobbers, railroads, chain stores, independent retailers and farmers benefiting in that order.

It is astonishing that in the light of all that has been done to counteract the propaganda about corporate war profits such ideas as this should still prevail in this year 1944. The fact is that, instead of earning 30 per cent on their net worth, the leading corporations of the nation will show a net return for the present year, on the basis of nine months' figures, of 8.8 per cent. This compares with 8.5 per cent for 1939 and is, as a matter of fact, not a great deal higher than the average of the last twenty years, which was 8.1 per cent. The biggest earning years of the corporation were the years 1940 and 1941, before war-time taxes became fully effective. For the five years, 1940-44, the average has been 10.3 per cent; for the American war period, 1942-44, it has been 9.6 per cent.

How has labor fared? Before war broke out in Europe in September, 1939, weekly earnings of all factory workers averaged \$27.29. In September, 1944, the corresponding figure was \$49.43. This latter figure represents a rise of 81.5 since January 1, 1941, which is the base date for the Little Steel formula and a rise of 81 per cent over the last month of world peace, August, 1939.

A MESSAGE TO OUR PATRONS The EVA-BESS BEAUTY SHOP will be closed Monday - Tuesday - Wednesday so that the operators can attend the Florida Southern Beautician's Convention which will be held in the MacFadden-Deauville Hotel in Miami

"MAN OF THE YEAR"

TOO LATE TO CLASSIFY

By RUSSELL KAY

For 65 years, Florida newspaper men and women have gathered in convention to discuss their problems, renew friendships and exchange ideas. For 65 years, successive Necrology committees have retired to prepare suitable resolutions on the death of such members as had been called to their reward since the previous meeting.

Such action has become routine as it is with all organizations. Such resolutions read in open meetings are taken up and supplied to the family of the deceased and to the press while record of the action is filed in the dusty archives to be forgotten.

As 65 association presidents before him had done, Owen A. Brice, publisher of the Lake Wales News and 1944 president of the organization, appointed a Necrology committee at the opening of the 65th annual convention held at Silver Springs last week.

During the past twelve months the Florida Press Association lost more outstanding members than at any similar period in its history. Including three past presidents, one a past president of the National Editorial Association as well as the wives of two presidential and several other long active in service to the organization and to the communities in which they lived.

Among these was Gilbert Freeman, publisher of the Avon Park Sun, known and loved by people throughout the state because of his long and faithful service in many fields. Possessed of a dynamic personality and boundless energy, he made friends everywhere by being one. His sudden and unexpected passing a few days prior to the annual convention made his loss on this occasion doubly felt by everyone who had known his cordial handshake, his infectious laugh, his bubbling enthusiasm.

Not content to have the memory of Gilbert Freeman confined to the stercorated action of a Necrology committee and feeling that something more lasting and more fitting could and should be done to preserve his memory, Editor Ed Menninger, publisher of the Stuart News, advanced the suggestion that the association sponsor the planting of a memorial tree to be dedicated with fitting ceremony and identified with a suitable bronze plaque, himself a collector of rare and beautiful flowering trees. Menninger explained that he had brought with him to the convention a tree to be so dedicated and advised that should the members approve the plan they would be happy to provide the trees from his gardens and nursery to be dedicated in a like manner to other deceased editors. Approval of the membership was instantaneous and unanimous and the first memorial tree to be

gorgeous white and gold camellia-like flowers, delicately scented and it produces a large globular, woody shelled edible fruit. The mature tree reaches a height of 25 or more feet while its spread averages 30 feet.

At the close of the afternoon session the 110 editors attending the convention assembled at a location in the beautiful park, especially selected by Ray and Davidson, where State Comptroller Col. Jim Lee, in a voice that was choked with emotion pronounced the following sincere and heartfelt dedication and turned the first spadeful of earth for the planting.

"In humble submission to the will of a Divine Providence which has so recently and suddenly called from our midst a faithful member of this organization, a true friend to all mankind and an energetic public servant, we solemnly and reverently here plant this tree as a token of our love and high esteem for the late Gilbert Freeman. May this plant flourish and grow into a great and dense tree of its kind and thereby reflect honor and glory to the one in whose name and memory it is this day planted."

It is the plan of the Press Association to similarly dedicate memorial trees honoring the memory of distinguished deceased members in the hope that as they serve to keep alive the truest memories of those we loved, they will likewise bring joy and pleasure to thousands yet unborn, who in the years to come will enjoy their floral beauty, breathe their fragrance and find rest and peace beneath their sheltering branches.

"Utility" beef is just as high in nutritive value as are the top grades of beef.

The recovery of copper from old tin cans now accounts for about ten per cent of the total U. S. copper production.

In 1940, the 97 Illinois automotive plants had an annual output valued at \$88,845,000.

Social And Personal Activities

Social Calendar

FRIDAY
The regular meeting of the American Legion Auxiliary, Campbell-Lossing Unit 53, will be held at 7:30 P. M. in the Legion Hut. Refreshments will be served and plans will be completed for Christmas Welfare work.

MONDAY
The Dependable Class of the First Methodist Church will meet at 8:00 P. M. at the home of Mrs. J. D. Callahan, 731 East Twentieth Street, with Mrs. Porter Lanning as co-hostess.

Circles of the W. S. C. S. of the First Methodist Church will meet as follows:
Circle One, in the Annex at 7:30 P. M.
Circle Two, with Mrs. L. P. Hagan, Sr. at 1:00 P. M.
Circle Four, with Mrs. W. C. Hill at 3:00 P. M.

The Dependable Class of the First Methodist Church will meet at 8:00 P. M. at the home of Mrs. J. D. Callahan, 731 East Twentieth Street, with Mrs. Porter Lanning as co-hostess.

There will be a board meeting of the Woman's Auxiliary of the First Presbyterian Church at the home of Mrs. E. D. Brownlee, 900 Palmetto Avenue at 3:00 P. M.

St. Theresa's Chapter of Holy Cross Episcopal Church will meet at the home of Mrs. H. E. Hansell, 1515 Magnolia Avenue at 3:30 P. M.

The W. M. U. of the First Baptist Church will meet at the church at 3:30 P. M. for "foreign mission."

The Beardsall Avenue circle will meet at the church at 3:00 P. M.

TUESDAY
Circle Three of the W. S. C. S. of the First Methodist Church will meet with Mrs. C. P. Herndon at 1:00 P. M.

WEDNESDAY
At 7:30 P. M. the W. M. U. of the First Baptist Church will present a pageant at the church.

25 Spurling Members Have Family Reunion
The Spurling family held its twenty-fifth annual family reunion Thanksgiving Day at the home of Mr. and Mrs. R. J. Cowan in Orlando, with 25 of its 32 members present.

The following attended the reunion: Mrs. J. E. Spurling, M. and Mrs. George Wells, Mr. and Mrs. L. T. Fringer, Mr. and Mrs. B. A. Monforton, Mrs. H. F. Currie, Mrs. Ruth Seib, Miss Gladys Wells, Sabina and Sonny Monforton, Barbara Seib, Tony Stringer and Terrie Seib, all of Sanford.

Also Mr. and Mrs. Cowan, Mrs. H. P. Danforth, Dan Danforth, Marc Danforth and Ralph Cowan, Jr. of Orlando and Mr. and Mrs. E. E. Keene, Miss Dorothy Keene and Miss Joan Keene of Jacksonville.

At the end of World War I Gen. Douglas MacArthur was the youngest and most decorated brigadier general in the U. S. Army.

The beams of the largest American battleships are restricted to 108 feet to permit passage through Panama Canal locks, which are only 110 feet wide.

In the Belgian Congo any Congolese Negro may practice any vocation and rise to any position, according to his ability and choice.

Party Given Honoring Mrs. Stinson Kinlaw

Mrs. Stinson Kinlaw, recent bride, was honored with a miscellaneous shower and bridge and luncheon party Monday evening at the home of Mrs. Herbert Stoothoff.

Arrangements of white and yellow chrysanthemums were used to decorate the rooms of the Stoothoff residence. The bridal motif was carried out in other decorations also. At the conclusion of games, Mrs. Henry McLellan, Jr. and Mrs. Joe Jarrell were awarded first and second high scores among the bridge players, while Mrs. George Habe won high score in bridge and Miss Versa Woodcock won low score.

Present were: Mrs. Stinson Kinlaw, Mrs. McLellan, Mrs. Jarrell, Mrs. Habe, Mrs. R. McLellan, Mrs. Gregory Kinlaw, Mrs. Walter Meriwether, Mrs. Fred Pope, Mrs. Roy Tillie, Mrs. J. H. Teague, Mrs. Ellen Vickery, Mrs. Red Windham, Mrs. C. W. Johnson, Mrs. Cory Baker, Mrs. J. P. Cullen, Mrs. J. W. Kinlaw, Mrs. Stoothoff, Miss Woodcock, Miss Sally Halburn and Miss Amy Wenver.

RURAL COMMON SENSE

By Spud Johnson

POSTWAR PERIOD WILL BRING PROBLEMS FOR FAMILY SIZED FARMS

While the war is not yet over, and everyone is bending his best energies to the winning of the great conflict, yet far-sighted farmers as well as leaders of industry are looking ahead to the future. They are asking the question, "What will the postwar period bring?" And the question cannot be answered simply and definitely, because it is so complicated.

However, there is general consent that the postwar period will bring problems for all classes of people in its train. The war has not solved farm problems; it has merely postponed some of them. But people are accustomed to facing and overcoming problems and there is no reason to believe that the ones following the war will be insurmountable.

Difficulties of the small farmer, the operator of a family sized farm, were giving concern before the war. There was a tendency for mass production with its attendant large-scale operations which made for economy. That the future will bring in that connection is still a matter of concern not only to small farmers but also to agricultural leaders.

Secretary of Agriculture Wickard said recently that "the ideal of the independent farm family, busy and secure on its own land, is embedded in the very foundation of our American way of life. Unless that way of life changes completely, the family farm must remain one of its chief foundation stones. The family sized farm makes for fairer distribution of farm income, for better care of the soil for better citizenship and for happier living."

He declared that preserving the traditional way of farm living does not necessarily mean turning back the clock of efficiency. "I am convinced that the family sized farm can be just as efficient as the larger unit—perhaps

Personals

Miss Theo Vickery has left for Key West where she will be employed for several months.

Friends of Mrs. John Boniface (the former Leona Vaughn), will be interested to know that she is now employed at Ann's Miral Beauty Salon as a beautician.

Mrs. Fred Stone and young son, Fred, Jr. are the guests of Mrs. Stone's parents, Mr. and Mrs. J. A. Strange, Myrtle Avenue.

Mrs. Gordon Bradley and her young daughter, Barbara, have gone to Philadelphia to join Pvt. Bradley who is spending a furlough there with relatives.

Mr. and Mrs. J. W. Vickery and children returned today to their home in Palatka after visiting with Mrs. Ellen Vickery. They were accompanied by Mrs. J. S. Leo and son, Wylie, of Lattimore, N. C. who have been the guests of Mrs. Leo's mother for the past three weeks.

BIRTH ANNOUNCEMENTS

Mr. and Mrs. R. E. Elsberry announce the birth of a daughter, Dorothy Ann, Wednesday, Nov. 29 at Fernald-Loughton Memorial Hospital.

Mr. and Mrs. H. E. Long announce the birth of a son, Harold Ernest, Jr., Nov. 29 at Fernald-Loughton Memorial Hospital. Mrs. Long is the former Elizabeth Tuten.

In some instances more efficient," he said. He believes that a fair break with its competitors is all the family sized farm will need to assure its future.

The Secretary cited legislation already on the statute books giving aid to small farmers, and asserted that one handicap which might face the small farmer in the future is for large operators and industry to reduce wages to such a level that the small operator, who does all or most of his own work, gets a mere pittance or is forced out of business.

The master key to the future of the family sized farm, is co-operation, Secretary Wickard believes. He says that cooperation through national farm organizations in national farm program and through farmer-owned and operated cooperative associations is essential. Through cooperation in their purchase and use of various small farm machinery and equipment that is necessary to modern, efficient production. Already, he says, manufacturers have shown interest in designing and building smaller models of power machinery fitted to the needs of small farms. Extension of rural electrification, almost sure to follow the war, will enable small farmers to use dozens of fairly expensive appliances that will match the work of heavier machinery on larger farms.

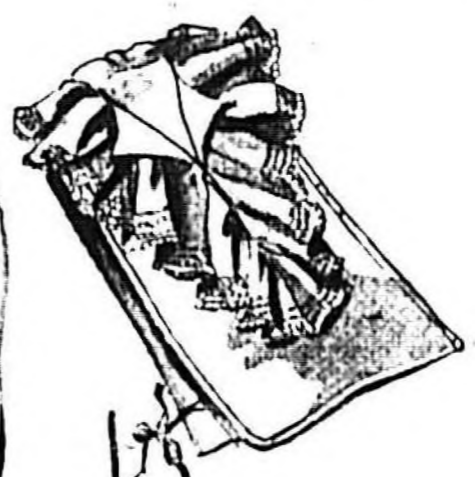

CARD OF THANKS
I wish to take this opportunity to thank my friends and neighbors for their kindnesses during the illness and death of my wife

SEMINOLE TIRE SHOP, Inc. 201 N. Park Ave. Phone 37

tain nor Russia has been furnished the United States' prize Norden bombsight for use in their warplanes, it was revealed yesterday, as the hitherto secret device, a machine with startling metal gears, became available for public inspection at two places in New York.

A close look, plus demonstration of effectiveness in a bomber trainer, can be had at the Navy aviation exhibit in the Museum of Science and Industry, 30 Rockefeller Plaza, for any one with thirty cents' admission. A free view, but from outside a railed circle ten feet in diameter, can be had at the Bank of the Manhattan Company lobby, 49 Wall Street, in the war bond drive.

Only United States planes use the Norden sight, according to Captain Frederick E. Entwistle, seagoing veteran of twenty-seven years in the Navy and assistant

WITH CASH-ON-HAND

NOT TO BE OPENED UNTIL CHRISTMAS! YOU WON'T HAVE EXTRA BILLS THIS CHRISTMAS!

How would you like to go right through with all your holiday plans, and not have to worry about bills at all? IT CAN be done. With a quick cash loan from us, you can pay ALL your bills at one time, and really enjoy the holidays. You won't have to worry about repayments either, for the small monthly payments are arranged to fit in with your budget NEXT YEAR. Come in today. We welcome single-signature accounts.

Superfortress Crew Saved In Sea Off Saipan

B-29 Lost In Raid Wasted Gas Trying To Find a Target

A SUPERFORTRESS BASE, Saipan, Dec. 1.—One of the two B-29s lost last week in the first Superfortress raid on Tokyo came down in a rough sea when its gasoline supply gave out only half an hour from home. The bomber had circled Tokyo for over 20 hours seeking an appropriate target in a rough sea when its gasoline supply gave out only half an hour from home. The bomber had circled Tokyo for over 20 hours seeking an appropriate target in a rough sea when its gasoline supply gave out only half an hour from home.

Asked about Axis efforts to obtain the sight, Captain Entwistle replied: "Obviously, with the large number of planes over Europe, the enemy by now has some indications of the instrument which has caused so much damage." But he added: "With all the scientific talent in Germany it is doubted very much if they could have been built by them during the war."

For the invention of the bombsight and other devices "which should hasten the peace," the 1944 Holley Medal of the American Society of Mechanical Engineers will be awarded next Wednesday night to Mr. Norden, born sixty-four years ago in Java.

No Clew To Principles Even public showings gave a clew to the principles behind the workings of the bombsight. They showed the device consists of: stabilizer unit, housed in black cubic inches. Surrounding this is the sight itself, roughly a cylinder fourteen inches long and seven in diameter. These two weigh about sixty pounds and have electrical connections to an automatic pilot which gives the bombardier command of the plane during the bomb run and which brings the total weight to ninety pounds. There are more than 2,000 parts, but the whole costs less than \$10,000.

The bombsight's problem has always been to allow for his own speed and altitude, motion of a target, direction and drift of wind, weight of the bomb and number of bombs among other items.

Demonstrating the operation yesterday, Navy experts showed the bombardier need supply answers to but two questions in the present Mark 15 sight—the type of bomb and the direction to target. The first can be adjusted before the run begins. The direction is sighted by intersecting two crosshairs over the target, taking fifteen to twenty seconds.

Bond Is Forfeited In Municipal Court On Liquor Charge

T-Sgt. Brooks Jones Is Awarded DFC

Bond of \$101 of Janie Sykes, negro, charged with illegal sale of liquor who failed to appear before Judge J. G. Sharon in City Court Monday, was forfeited. A number of bonds of white persons who failed to appear to answer charges were also forfeited. These persons and charges were: Rudson Huisby, drunk and disorderly; \$25; Clyde C. DeLoach, drunk and disorderly; \$25; Willie M. Morton drunk and disorderly; \$25; J. D. Squires, reckless driving, case dismissed; Shuford E. Brunton, held for investigation, case dismissed; Lloyd E. Boyd, drunkenness, \$11 bond forfeited.

The following bonds of negroes were forfeited: Wilson M. McBurney, charged with reckless driving; \$5; James Wilson, charged with drunkenness, \$11; Ray and disorderly; \$25; Clyde C. DeLoach, drunk and disorderly; \$25; Willie M. Morton drunk and disorderly; \$25; J. D. Squires, reckless driving, case dismissed; Shuford E. Brunton, held for investigation, case dismissed; Lloyd E. Boyd, drunkenness, \$11 bond forfeited.

Other bonds were forfeited of negroes on the following charges: Leroy Williams, drunk and disorderly; \$25; Eddie Wood, run red light; \$5; Alfred Kilpatrick, drunk and disorderly; \$25; For failure to take VD treatment Amanda Williams was fined \$5 and Wilma Brown, \$3.

In Friday court, \$16 bond of W. H. Walwright, charged with drunkenness, was forfeited. The case of James H. Iden, charged with reckless driving, was continued. Bond of \$11 of Charlie Glenn, charged with drunkenness, was forfeited. M. M. Lord was fined \$2 for reckless driving.

Negro cases, charges and bonds forfeited were: Harold Holton, for drunkenness and disorderly conduct, \$25 and for resisting great, \$51; Leroy Bradwell, drunkenness, \$11; Edward Holton, disorderly conduct, \$11.

The following negroes were fined on charges named: George Barnes and William Johnson, larceny, \$20 or 60 days each; Andrew Wilson, assault, \$50 fine or 90 days; Lela Daniel, drunkenness, \$10 or 30 days; Willie Bradwell, drunkenness, \$5 or 15 days; Willie James, drunkenness, \$10 or 30 days and for assault and battery, \$25 or 90 days; Dave Wright, disorderly conduct, \$10 or 30 days; Cases of Charlie Guise, charged with disorderly conduct and James McKnight, held for investigation, were dismissed.

Florida Delegation Asked To Freeze Tax JACKSONVILLE, Nov. 29.—(Special)—All members of Florida's Congressional Delegation have been asked to support the proposed amendment freezing Old Age and Survivors Insurance Tax at the present two-percent basis for the year 1945, Harold Coffey, executive vice president, stated today.

"After a very complete study of the situation the State organization has concluded that there is no justification for the increase which would double both employee and employer contributions to this fund," Coffey said. "We point out that the revenue in the Social Security fund now stands between five billion dollars and six billion dollars and is more than adequate for any foreseeable demands. Freezing at the present level would save taxpayers an estimated one and one-half billion dollars in 1945."

was one of the last to climb aboard. Fuselage Shown In Sun A B-29 search plane picked them up soon after daybreak, circled overhead and dropped wings; then at 9 A.M. some P-47s came out and took up the sky watch.

It was the glint of early sunlight on the broken half of the aluminum fuselage of the Superfortress which first attracted the search plane to the spot. The bomber fuselage had broken in two but in airtight chambers kept it afloat and the rafters were affected. A destroyer came alongside and took the men aboard about 3 P.M.

strator said, "you can practically drop a bomb into a pickle barrel." Beside the airplane trainer, a map of a German target city unfolded on a huge horizontal screen. Flying a single 185 to 190 miles an hour, bomb doors opened in a hazy, misty, rain-filled sky. At seven miles altitude, such parabolics and land inside a target circle, wreaking devastation a quarter-mile across.

Mr. Norden, entrusted with the precision problem by the Navy in 1921, the tale showed, started with a stabilizer to eliminate fuselage motion. He next had to stabilize the telescope sight and work out a system for setting up a range angle.

Meanwhile, Captain Entwistle, born in Louisiana, R.I., and commissioned in 1901, had begun a correspondence in 1916, with the Navy Department from station in China waters. In 1922 he was called back to work with Mr. Norden. Their patent was taken out in 1928.

Production was set at seventy sights a year before the war, but since then the sight has gone into every Army and Navy bomber.

Enriched At U. of F. 93 World War 2 Vets

GAINESVILLE, Dec. 1. (Special)—Ninety-three World War 2 veterans enrolled as students at the University of Florida gave an average of 18 months service to their country before separation from the Army and Navy. Analysis of personal cards revealed today.

Two of the men served more than two years each, both in the Army. Minimum time was one month, served by each of four persons in the Army, Navy, Naval Reserve and the Marines.

Most of the veterans, who are studying in the university under federal veterans' legislation and, in the case of 23, on their own resources, are natives of Florida. Seventy-eight give Florida home addresses, Jacksonville for 10, and Tampa and Gainesville for six each.

All sections of the state are represented, the addresses showing 43 Florida cities and towns. As to services, 50 served in the Army and 32 in branches of the Navy. One served 13 months in the Royal Canadian Air Force.

The university is not a strange place to 32 of these veterans who are former students and alumni of the University of Florida. Twenty-three withdrew from the general college to enter the services while six withdrew from the upper division as juniors and seniors to enter. Three had graduated before going to the resources, are natives of Florida. Seventy-eight give Florida home addresses, Jacksonville for 10, and Tampa and Gainesville for six each.

WASHINGTON, D. C., Dec. 1. (Special)—A prediction that American farmers will invest more money in bonds during the Sixth War Loan than in any previous drive was made today by the War Finance Division of the U. S. Treasury.

Farmers bought \$1,250,000,000 worth of War Bonds during 1943, according to the Bureau of Agricultural Economics. In 1944 it is believed they can and should purchase a total of \$2,000,000,000, Ted R. Gamble, national director of the War Finance Division said.

Income at Peak

The Sixth War Loan starting November 20, comes at an ideal time for agriculture, he pointed out.

This is not only the time when farm income is at a seasonal peak, but 1944 marks three years of record breaking farm income, he said.

Based on information obtained from the 1943 Agricultural Section of the War Finance Division estimates the 1944 cash farm income at \$20,600,000,000, compared with \$20,000,000,000 in 1943. Although net farm income, due to higher operating costs, may not be greater than in 1943, most farmers now have reduced their debts and consequently will have more money to put into War Bonds, the division reports.

In the twelve months ending January 1, 1944, farmers reduced real estate mortgages alone by \$650,000,000.

American Farmers Are Expected To Invest More Money In 6th War Loan

WASHINGTON, D. C., Dec. 1. (Special)—A prediction that American farmers will invest more money in bonds during the Sixth War Loan than in any previous drive was made today by the War Finance Division of the U. S. Treasury.

Farmers bought \$1,250,000,000 worth of War Bonds during 1943, according to the Bureau of Agricultural Economics. In 1944 it is believed they can and should purchase a total of \$2,000,000,000, Ted R. Gamble, national director of the War Finance Division said.

Six Georgia Tech Men From Florida

MIAMI, Fla., Dec. 1. (Special)—The State of Florida will be well represented in the Orange Bowl football game here New Year's Day. Six members of Georgia Tech's Orange Bowl squad are from Florida, and at least two will be in the starting lineup against the University of Tulsa.

Center Ed Holsinger from Tampa has answered the opening whistle for most of Tech's games this fall, and Charley Helzer from Orlando and George Hills from Jacksonville have been alternating as regular quarterback. Jimmy Wilson, from Miami, has seen much service at end for the Engineers.

Quarterback Andy McGill from Haines City and End Bob Mitchell from Miami, also members of the Tech squad, may get into the New Year's game, too.

Wilson and Hills both earned letters with the 1943 Engineers. Holsinger is a Naval transfer from Duke.

A seventh member of the Tech squad, Halfback Jack Bill, is the son of J. T. Bill, Miami radio news editor and commentator. His home town is listed as Dallas, however, on the roster.

Tokyo Is Given Worst Blitz Of This War

Bombs Unloaded With Pinpoint Accuracy On Engine Plants Despite Jap Flak

WASHINGTON, Dec. 4. (AP)—American submarines have bagged five Japanese ships, including a light cruiser and destroyer. The others were medium cargo vessels, one tanker, four medium cargo transports, three small cargo ships. The Navy's announcement increased the total of Jap ships sunk by submarines to 874.

Tokyo lay in fresh ruins and flames today after a sizeable force of Superfortresses, striking in midafternoon yesterday, made the most successful of four raids on Japan's capital city. They unloaded bombs with pinpoint accuracy for an hour and a half, despite an intense attack by anti-aircraft fire interceptors.

The results were reported as good. The prime objective was the Musashima engine factory in the Makuhara area. Tokyo claimed 14 Superfortresses were destroyed and seven others probably.

Japanese spearheads, making their deepest penetration of China, advanced to within 74 miles from Kweiyang on the Burma Road after driving 25 miles into Kweichow province.

In the Philippines area a U.S. bomber sank four ships and damaged 13 other craft. In Chungking the Chinese government underwent a further shakeup today when Foreign Minister T. Y. Seng's appointment as acting vice president of Yuan Province, succeeding his father-in-law H. H. Kung, the first time a son has succeeded a father.

Home On Leave

Editors Note—The following names of boys in service "home on leave" have been submitted by the Pilot Club for which Mrs. Z. B. Ratliff, telephone 531-J, and Miss Blanche Kennedy, telephone 923-W have been selected as a committee to secure names of service men and women as that their friends may know when they are in Sanford.

Major and Mrs. Julian Adams are the parents of Mr. and Mrs. J. Ross Adams for a few days. Major Adams is stationed at Strother Field, Winfield, Kas. and Mrs. Adams is a flight nurse with an air evacuation squadron in Orlando.

Cpl. J. Clay Williams of Tampa is spending a 15-day furlough with relatives.

Pvt. Carter Harry is spending a short furlough with his parents, Mr. and Mrs. Lloyd L. Harvey.

F/Sgt. Tim Stevens Wins DFC in Burma

MIAMI BEACH, Fla., Dec. 4. (Special)—F/Sgt. Timothy Stevens, 22, of Sanford, Fla., has arrived at Army Air Forces Redistribution Station No. 2 in Miami Beach for assignment processing after completing a tour of duty outside the continental United States.

Sgt. Stevens flew 40 missions as a B-24 Liberator crew member on the China-Burma-India theater of operations, for which he was awarded the Distinguished Flying Cross with oak leaf cluster and the Air Medal with oak leaf cluster. He is the son of Mr. and Mrs. J. P. Stevens, 900 Elm Avenue.

Medical examinations and classification interviews at this post, one of five redistribution stations operated by the AAF Personnel Distribution Command for AAF preference officers and selected sergeants, will continue his assignment. He will remain here about two weeks, much of which will be devoted to rest and recreation.

Lustig Reports Loss Of Book And Cash

J. R. Lustig, 450 Elm Avenue, informed police at 4:30 a. m. Monday that he had lost a book and \$20 in cash. He had been looking into his home by snatching the lock on his door with a rock and had stolen from his trousers pocket, \$20 in cash, his drivers license, ration book and other valuables.

Police patrolmen traced footprints believed to be those of a burglar, but failed to locate the man in the City Hall where they last saw him on the night of the theft. They are still working on the case.

Joseph Cameron Oil Man Declares Pioneer Rancher Oil Bearing Strata Died On Friday Exist In Florida

Eighty Year Old Resident Succumbs After Long Illness

Oil Traps Should Be Found At Shallower Depths Than So Far

Friday evening marked the passing of one of Seminole County's oldest pioneers, Joseph Cameron, 80, whose life was historically intertwined with that of Sanford and the large cattle and celery raising industries of this section. Mr. Cameron died at his home at 610 Oak Avenue after an illness of seven months.

Funeral services for Mr. Cameron were held Sunday afternoon at 4:30 o'clock at the First Baptist Church with the Rev. W. D. Brooks and the Rev. Dr. E. D. Brown officiating. Interment was in Lakeview Cemetery. Acting as pallbearers were: Fred R. Wilson, W. A. Luff, S. F. Doudney, R. H. White, R. W. Deane and Judge J. H. Sharver.

Mr. Cameron was born at Americus, Ga. July 11, 1864, and when but a lad of eight, came with his family by boat on the St. Johns River to the settlement of Ft. Reed, located south of the present site of the Sanford Naval Air Station, at a time when Sanford was known as Ft. Mellon.

For a time he helped his father, Henry S. Cameron, in the raising of cattle on the huge ranch that stretched from Celery Avenue to Lake Jessup. He then served for 10 years in the coal capacity of town marshal and tax collector of the new town of Sanford. Later he took up celery growing and moved back to the old home place on Miller Avenue. Aided by Joe Whitner, he subdivided and sold as 10 and 20 acre farms, much of the large ranch across bounded by Erison Avenue, Celery Avenue, the St. Johns River and Lake Jessup.

He gave rights of way for and promoted the coming here of the Sanford and Everglades Railway. In 1913, with others he journeyed to Tallahassee to aid in the separation of Seminole from Orange County. (Continued on Page Four)

Truck owners who have problems to take up with the office of Defense Transportation are advised by A. B. Peterson of the Seminole County Price and Rationing Board that they may confer with H. W. Preston of the ODT at the Army from 10:00 o'clock until noon tomorrow.

Salvage of 1945 auto tags is reported to be brisk, according to Tax Collector J. D. Jenkins. No frost damage locally in crops has been reported after recent cold nights, according to County Agent C. E. Dawson.

Greek Premier Says Radicals Plan Civil War

General Strike Follows Killing Of 21 By Police In Nicosia In Athens Sunday

ATHENS, Dec. 4. (AP)—General Katsaris, acting military governor of Athens, today gave the armed EAM formations 72 hours notice to quit the area.

ATHENS, Dec. 4. (AP)—Greek Premier George Papandreu charged today that left wing factions are deliberately fomenting civil war as a general strike left Athens without electricity, gas or communications. At the same time, he said, 21 persons were killed and 110 wounded.

The government is unable to communicate with the resistance due to the radio being out. Martial law has been declared in Athens and a strike was threatened earlier by the left wing EAM (National Liberation Front) after EAM police fired on EAM demonstrators.

British Sherman tanks, scout cars and armored cars patrolled the streets of the Greek capital, and RAF and British air force and U.S. transport planes circled over the city this afternoon.

Large crowds assembled outside the U.S. Embassy in Athens. A British radio broadcast was heard by EAM and other groups in Athens this afternoon.

The crisis arose out of the EAM's refusal to accept the Papandreu plan to organize the demobilized and disbanded Epirus and Thessaly army units. EAM refused to accept a scheduled EAM Communist demonstration Sunday, but the P.A.M. did not. The demonstration nevertheless called on Dec. 4. A.M. and ordered a general strike on Monday.

By 10 A.M. the city had been paralyzed and the streets were filled with British armored cars. The shooting began when British troops entered the city. The government forces were ordered to fire on the demonstrators. The demonstrators carried the stars and stripes and union jack.

As the night wore on, demonstrators rushed to within 100 yards of police headquarters, the corner of the square where I was standing. I saw the British Royal Air Force planes and the British Royal Air Force planes and the British Royal Air Force planes.

Senator Pepper Is Against Compulsory Military Training

Senator Claude Pepper introduced a bill after the war, according to a letter recently received from him by The Sanford Herald.

"I would not like to see us inaugurate compulsory military training after the war as a peace measure," he wrote. "Undoubtedly, our goal after the war is to set up the kind of an international organization which will eliminate the necessity of constantly preparing for war."

"That does not mean that we are not going to keep an adequate force to control our interests and our part to restrain the 'gangster' nations, but military training breeds militarism, and I am sure that we can obtain, through volunteers, a force adequate to our needs. I do, however, believe that military training is excellent discipline and physical education for those who take it."

President's Son Takes Third Wife

GRAND CANYON, Ariz., Dec. 4. (AP)—Col. Elliott Roosevelt, son of the President and Faye Emerson, Hollywood actress, were married at 9 A. M. yesterday at Yavapai Observation Station on the rim of the Grand Canyon.

The ceremony was performed by Rev. Roger Sawyer of Williams, Ariz. They were attended by Jack Fyfe, president of Transcontinental and Western Air Inc., and Mrs. Joseph Livengood of Los Angeles. The latter is a granddaughter of the late Mrs. Ernest Schumann.

A wedding breakfast was held at El Tovar Hotel following the ceremony. The bridal party flew here Saturday from Los Angeles.

Col. Roosevelt is on leave from the army air forces after commanding the Allied photographic service in Africa. He was divorced from Elizabeth Donner Roosevelt and Ruth Goggins Roosevelt. Miss Emerson was divorced from William Wallace Crawford.

Clarence Alexander Wounded In France

Cpl. Clarence Alexander, who was reported to have been wounded in France, is now recovering in the hospital at the Army Air Corps in France. He was wounded on Oct. 15, 1941, while serving with the Army Air Corps in France.

Cpl. Alexander was born in Sanford, attended local schools, and has served in the Army for six years, the last 18 months of which were overseas. He received his initial Army training at Ft. Benning, Ga. and later at Camp Polk, La.

Funeral Rites Held For John Ludwig

Funeral services for John Ludwig, prominent local grower who died Thursday morning as the result of a bullet wound believed to have been accidentally inflicted, were held Sunday afternoon at 3:00 o'clock at the Elks Lodge.

Active pallbearers were: Fred G. Zerrener, R. A. Cobb, T. C. Brown, W. H. Stewart, H. R. Long and Henry Thurston. The Elks Lodge of which Mr. Ludwig was a member, attended the funeral in a body.
