SANFORD, FLORIDA

PHONE 778

Let's Boost Sanford As Finest Convention Community In World I Hundreds of conventions, meetings, as- | in promoting the use of Sanford by the

semblies, and annual get-togethers are held in Florida every year.

These meetings bring thousands of people into Florida who visit with us, spend money with us, and share the glorious Florida sunshine and atmosphere.

What we would like to see is some of those conventions meeting right here in Sanford, for not only do we have the facilities but we have the kind of location that would afford a wider visit to Florida communities than others have at their disposal. We have that neighborliness, that special companionability, that goes with the entertaining of such a group of people who, most of all, want someone in the tropical part of their country to call a friend.

There's a move afoot to form a special bureau in the Seminole County Chamber of Commerce which is to be known as the "Convention and Tourist Bureau". This we admire and would like to see especially active in the bringing to this community these groups of people who are anxious to be among friendly, amicable people to hold their business and social sessions.

Each one of our citizens should be a walking invitation to the various organizations to which they belong. And with the word beng passed along we would soon be realising some results.

It doesn't matter whether the convention groups are large or small, let's invite them all to partake of our hospitality.

Some folks stand back and shy away from issuing such an invitation. Now we should take a different attitude. Invite the groups first and then make the plans known to local authorities for planning and making room for them. The more the merrier.

Sanfrod is a community in which every single citisen should be proud. There's progressiveness, at last. Plenty of growth, expansion, forward looking plans for the fu-ture, and business houses just itching to serve as many more customers as you can mack into their doors.

Let's boost Sanford from shore to shore, from top to bottom, overseas in all direcons, as the finest place in the world to hold a convention.

With every citizen doing his or her part

The Sanford Herald

Thursday, Oct. 13, 1955

TODAY'S BIBLE VERSE One of the two . . was Andrew, Simon Peter's brother. . He brought him unto Jesus.-John 1:40-42.--Andrew did not say so, he said come with me.

hundreds of convention groups coming to Florida, every mail pouch leaving this city should be packed with invitations.

Sanford is the biggest little city, with the biggest best business in the country. Let's boast about it and bring conventions to our community. It means dollars in our pockets. It means packed stores, crowded streets, plenty of customers, lots of enthuslasm. And most of all, it will bring smiles to the faces of everybody and jobs for just as many more.

Now Is Time To Plan

What can we look forward to here in Sanford?

In our way of thinking there's much in store for us in everyway.

Stopping to take stock, we find that everything is growing by leaps and bounds, Building is on the upgrade. Homes are being built at an unprecedented rate for an unprecedented growing population.

Industry is beginning to look at Sanford and Seminole County with a wishful glance. And in many instances those glances are paying off with permanently located businesses.

Why, Sanford is a perfect natural for any growing and expanding industry. We have every qualification to meet the big and little businessman's expectation. And a plus, thrown in, is our excellent weather, good fishing, hunting, and nearness to neighbors throughout Florida.

The cattle industry is no little expansion left. Starting with 17 members last year?

Harry S. Truman favor for the democratic presidential nomination without knowing his words would fighting for the Democratic nommakes jobs has been stimulated."

First he said it was Adlai Few politicians would deny that do now grown to a big 89 members in the stevenson, the man who carried to be in there investment of money in democratic nommakes jobs has been stimulated."

Few politicians would deny that Again, on Sept. 9, he still was in the Stevenson cheering section.

Truman's support in a convention of the democratic nommakes jobs has been stimulated."

Few politicians would deny that that time.

Stevenson, the man who carried to be in there investment of money in though he intended to be in there.

The investment of money in the itself. Starting with 17 members last year next year? and now grown to a big 89 members in the Stevenson, the man who carried Truman's support in a convention Seminole County Cattlemen's Association, the Democratic banner unsuccess-would have great value. He re-

will triple its population in ten years. That means Seminole County will go right along with the same percentage of growth. So we look for a city of 40 to 50 thousand populations are seem to follow.

In any event, Truman's activities in the past few days have contered attention on Democratic Gov. Averell Harriman of New statements. tion by 1965.

Businesswise, we look for expansion that is yet unpredicted. Surely there will be wheels humming, turning out more man made products than ever before, in the coming decade. It is evident that our business sections will move out into a greater space to serve the growing population.

The average family, we're told, in the next ten years, will be earning \$1,400 more when compared with the dollar value today.

And, mark you, ahead of us is the big ated instead of frozen or canned, which will jump in science when food will be irradimake them last indefinitely. That's good news for the Seminele County farmer who will be turning out more and more produce to feed the increasing population, not only here in America, but all over the world. With irradiation, farmers will be able to ship their produce to every corner of the globe without fear of spollage.

It's time to plan now, Modern ideas, modern plans, will not wait for us to sit down slowly and think the matter over. If we want to keep up with the growth around us, then let's grow with the plans.

MAL BOYLE

Bald Eagle Should Get Bald Sooner

"The capies den't develop their thintippe white head plumage still the 4th year. Before that can appear formers and hunters often that the thintippe heavy and the large heavy and them down."

Book, a retired chemistry protocom, belds the melancholy distinction of being custodian of an eagle

LANCASTER, Ps. in-If the bald Alasks, Canada, and the eastern "In 1862," he recalled, "my half of the United States south into father saw a flight of passenger wife, he'd have a better chance Florida.

"In one area in which I counted its occupied nexts if years ago there are now only if to 30."

Both, nearly 36, has been a life-leng naturalist as his father was before him. Having seen the passing of the passenger pigeon, eace probably the most pientiful hird in America, he fears that even strict conservation measures will come too late to save the bald care child been today may feen his life is through, here

How deeply has civilization out the same a power who down the cagle, a bird which has believed this feathered emblan of no real natural enemy?

American might is facing possible estimation within the next 70 years, since the same still plentiful in Alassemblance:

"The cagles den't develop their United States east of the Missiscipal passenger pigeons and tried under the other passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the distance of the missiscipal passenger pigeons and tried under the missiscipal passenger pigeons and

JAMES MARLOW

Whom' Does Truman Favor?

Harry S. Truman favor for the campaigner like Truman spoke out though he intended to be in there

Yes, we can look forward to the cattle industry making huge strides in our community.

Populationwise, it is predicted, and we go along with the predictions, that Sanford will triple its population in ten years. That means Seminals County will so might class the property of the property will so might class the property will so might class the property of the property will be property in a convention would have great value. He remains a voice within the Democratic party who can speak and committee the property will be property in a convention would have great value. He remains a voice within the Democratic party who can speak and committee the property of the property of the property will be property at a convention would have great value. He remains a voice within the Democratic party who can speak and committee the property of the prope

Topsy Turvy Cake

Here's a cake that's just right for the coming fall season barvest-time flavors of maple and apple are combined in a rich and tantalising topping on a delicately tender cake. Only 1/2 package of instant cake mix is used for this dreamy dessert. The other half package can be turned into an 8" layer to be cut into wedge-shape pieces and served with coffee ice cream and butterscotch sauce. Or cupcakes can be made and swirled with rich chocolate frosting. You name it and you can have it with this instantly delightful cake mix-

Maple Apple Upside Down Cake
8/4 cup maple-blended syrup
1/4 cup butter or margarine
Down Wh 1 package Instant Swans Down White Cake Mix 1/4 teaspoon salt
2 cups thinly sliced cooking apples
2 cups thinly sliced cooking apples
2 egg whites, unbeatem

Combine syrup, butter, and salt in saucepan. Bring to a boil over low heat and boil 5 to 8 minutes, without stirring. Pour into 6x5x2inch square pan. Arrange apple slices in overlapping rows on syrup.

Empty cake mix into mixing bowl. Add water and egg whites. Beat 3 minutes until amouth and creamy.

Pour half of the batter* carefully over fruit mixture in pan. Bake upside down cake in moderate oven (350°F.) 30 to 35 minutes. Cool cake in pan 5 minutes. Then invert on serving plate and let stand

1 minute before removing pan. Serve warm with whipped cream. *Pour remaining batter into one t-inch round layer pun or into cuponke pane. Bake as directed on package and serve as another dessert.

School of Medicine has added to its curriculum a course believed to be the only one of its kind in medical education. .

The course, called "Man and ing catchall patch work of thought designed to broaden the outlook of the student, doctor and help him to become more than a mere mechanic of the human body.

drawing increasing attention in the training of young doctors, often tak ing the form of having senior students "sit in" with family doctors at work in general practice clinics

The Maryland course, however, undertakes to broaden the student's outlook at the very begin-ning of his medical training.

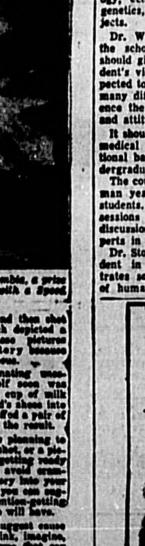

Dr. William S. Stone, dean o the school of medicine, says it should give perspective to the stu-dent's view of humanity. It is expected to arouse his interest in the many different forces which influence the origin, growth, functions and attitudes of a human being.

It should extend the range of the medical student's general educa-tional background acquired in un-

man year and is required of all students. It consists of two hour sessions of lectures and panel

discussions each Saturday by ex-perts in widely varied fields.

Dr. Stone maintains that the stu-dent in medical school concen-trates so intensely on the details of human structure and function

Mamie Is Signing

DENVER to The White House says Mamie Eisenhower so far has signed more than 11,000 "thank you" notes acknowledging part of the "tens of thousands" of getwell messages President Eisen-

more and means to see that every message gets a reply, James C. Hagerty, Eisenhower's press

secretary, said Monday, Hagerty said he checked the statement about more than 11,000 10 . PURNETURE- 2 "nele fleeds-20 signatures with Mrs. Eisenhower

"It is, of course, impossible to answer personally all of the mail. 22-ELECTRICAL SPRVICES which right now totals tens of thonsands," Hagerty said. From earls and service, G. H. High, Oviede, are being prepared to acknowledge Phone 4151 or Sandord messages which do not get a per-

"Both the President and Mrs. Eisenhower are deeply grateful for your message before our more Eisenhower are deeply grateful for than 18,000 readers. Tell 'em to the thousands of 'get well' wishes and prayers for recovery that have come from people throughout the nation and the world," Hagerty

dition herself since childhoust is feeling "fine" and bearing up well.

FROZEN ASSETS

MIDLAND, Tex. 18 Somebody broke into Louis Moore's home and stole a wire gasket filled with frozen steaks from his food locker. A week later the freezer again. was raidd. This time the culprit rturned the hasket - empty.

CLEVELAND, OF Cabbie Lou-Takacs is happy he gut that five cent tip. Shortly after a fare handed him five punnies for a tip, Tahars was held up by a gunman who robbed him of \$10. Police arrested a suspect who pretested his innocence. But Takacs rememhered one of his tip pennies had been blackened and had a dent in it. Sure enough, it was in the auspect's pocket.

REST ORDERED JERUSALEM - David Ben-Gurion, 69, premier - designate of Israel, was ordered by his doctors today to have absolute rest for a

week. A medical bulletin said Ben-Guron "feels well," but that he needs a rest in view of fatigue.

Ben-Gurion has been under strain recently, first with three midsummer Israeli election campaign and later with his efforts to form a new coalition government. He was to have presented his cabinet to parliament Monday.

Woman **Becomes** Frightened Auto Skids Into Ditch

An early morning secident on eminole Roulevard near the city 1952 Willys Station wagon, triven by Mrs. Syn a Geiger Mever. 49-year-old Port Orange ousewife, left the highway and nashed into the tall grass along the edge of the embankment.

Mrs. Mclver was traveling outh, on her way to the Orlanda Air Force Base Hospital accompanied by her 80-year-old mother, when she met a tractor and trailer moving north, Mrs. Melver said she eased her car to the right to allow the truck, to pass, became frightened, and lost control of her

According to Sanford Police Dopartment Patrolman Arnold Willams who completed the investigation of the accident the car first left the highway at the entrance to a motel along Seminole Boulsand for a distance of 128 feet. The car came back on the pavement for a very short distance leaving the highway again for a distance of 104 feet. Coming back on the highway again for 62 feet and then back off hitting soft dirk on the shoulder, turning over for a distance of 29 feet, then end for "A Big, Wale, Wonderful World", end for 21 feet. The car traveled ill be presented by the Seminole a distance of 425 feet out of con-
