Grim Reaper Claims 'Immortal' WWI Ace Eddie Rickenbacker

MIAMI, Fla. (AP) — Capt. Eddie Rickenbacker, a grade school dropout who survived dogfights with the Red Baron to become a World War I flying ace and the guiding genius behind Eastern Airlines, died today in Zurich, Switzerland, Eastern officials said. He was 82. An Eastern spokesman said Rickenbacker died of heart failure at a Zurich hospital. His

wife was with him at the time. His death ended a career of excitement and danger that prompted him to say in 1970: "I've cheated the old Grim Reaper seven times that I know of." An Eastern spokesman said funeral services would be held in Columbus, Ohio, his native city, later this week.

Rickenbacker was the epitome of every Walter Mitty's dream. As early as 1914, he was pushing race cars to 134 miles an hour on the sands at Daytona Beach. By the time the United States entered World War I, the Columbus, Ohio, native was earning \$40,000 a year as an auto speed demon. In 1917 he enlisted in the Army and became

staff driver for Gen. John J. Pershing, commander of the American Expeditionary Forces. Though 77 and two years over the age limit for airmen, the 6-foot-2 Rickenbacker transferred to the fledgling flight service and got his lieutenant's commission after only 12 practice flights in the fragile Spads.

Radio Orders Hijackers To Kill Or Free Prisoners

DUBAI (AP) — The hijackers of a Japan Air Lines jumbo jet received a message from West Germany today telling them to kill the passengers immediately or release them without further delay.

The message, signed off in code numbers, apparently was a cable sent from West Germany. The message said: "If you intend to kill the passengers on board jumbo 444 do it at once, otherwise we human enough to release them."

message from the terrorists aboard the plane. One of the hijackers is a Japanese, and the president of Japan Air Lines, Shiro Asada, asked to speak to him in Japanese. The air pirates refused, saying they would talk

only to officials of the Dubai government and would make their demands known only after they received orders.

Hit-And-Run Driver Caught In Georgia

TAMPA, Fla. (AP) — A driver who police said killed two young Tampa girls in a deliberate hit-and-run incident surrendered to police in Baxley, Ga. Sunday night, authorities said. Raymond Alwyn McMahon was being held in jail on two charges of first degree murder. Appling County Sheriff J. B. "Red" Carter said. The sheriff said McMahon has waived extradition to Florida. McMahon, 31, was hunted by police for more than a week in the deaths of Roxanne Caton, 13, and her sister, Rabyn, 5. Police said the girls were walking outside their Tampa home July 14 when witnesses told police a blue and white car made several passes through the block, then suddenly swerved from the opposite lane and lunged into the Caton children from behind. Curtis, 12, who was walking along with his sisters, was injured slightly.

The driver scooped up the body of Roxanne and sped away, leaving the other two children lying beside the road. Roxanne's body was found later in a ditch. Sheriff Carter said McMahon told him he rode a bicycle from his mother's home in Orlando, Fla. to Woodbine, Ga., apparently eluding police roadblocks during the massive manhunt.

The sheriff said his men were on the lookout for McMahon because his grandmother, Minnie Hardy, lives in Baxley. "He gave himself up to me about 11:45 p.m. We have him in jail and he said he is ready to return to Florida," Carter said.

McMahon's mother, Betty Swanson, said her son admitted the hit and run incident when he visited her in Orlando a few days after the tragedy. Mrs. Swanson said McMahon told her he "didn't mean to do it."

Cross Florida Canal Comes Under Attack

JACKSONVILLE, Fla. (AP) — Environmental questions on the Cross-Florida Barge Canal seen by the U.S. Forest Service become a focal point today as the second week of a federal court trial on the fate of the canal gets under way.

The Forest Service has recommended that the one-third completed public works project, halted by President Nixon in 1971, be wiped out. This could be done, according to an environmental impact statement filed by the service, by bringing the part of the canal route that follows the Oklawaha River under the Wild and Scenic Rivers Act. Canal rights-of-way along the river route could then become part of the adjacent Ocala National Forest in North-Central Florida.

The area under consideration is predominantly a flood plain which supports an ecologically significant association of plant and animal life, "the Forest Service said. The federal trial before special Judge Harvey Johnson of Omaha, Neb., combines five lawsuits. Three are involved with the fate of the entire proposed route of the canal, from the Atlantic Ocean to the Gulf of Mexico.

The Florida Canal Authority, a strong proponent of the project, has maintained that Nixon did not have the authority to stop something that had been authorized and funded by Congress. Highlight of the first week of the hearing was testimony given by Robert Jordan III, who was special assistant to the Secretary of the Army in charge of public works at the time the work was stopped. Jordan said he felt environmental objections to the canal were met by an alternate route from the central Rockies to the Atlantic coast today, while severe thunderstorms erupted in the extreme southwestern Texas of the panhandle of Texas. Someone once said a good supervisor is a guy who can step on your toes without messing up your shoes.

Nixon's Popularity Sliding

PRINCETON, N. J. (AP) — President Nixon's popularity score has continued to slide and has hit its lowest point since the election in 1968, says the Gallup Poll.

In Gallup's July 6-9 national survey, 49 per cent disapproved of Nixon's handling of the presidency, while 40 per cent approved. That is a five-point drop from a survey taken two weeks earlier.

The poll was taken after his fired White House counsel John W. Dean III had testified at the Senate Watergate hearings but before former Atty. Gen. John N. Mitchell appeared.

The latest poll shows Nixon's rating down 28 points from his high of 68 per cent approval recorded in January, following the Vietnam peace settlement. Gallup said the drop is the sharpest ever recorded in polls of presidential popularity over a six-month period since the mid-1930s.

However, the President's score is five points above the lowest recorded for his predecessor, Lyndon B. Johnson. The former president's popularity low was the 35 per cent approval given him in August 1968, when there was general discouragement over the Vietnam war.

The lone survivor, a Canadian citizen, was being treated in the Papete military hospital. A witness, a man named Teva, said: "As soon as the plane took off, it turned to the left. I thought the pilot wanted to avoid the fuel tanks along the edge of the runway, or else the town."

"Then it continued to go down. Before it crashed into the sea, I saw a red flare and then ... a cracking like someone was breaking a plywood board."

The plane, flight 815 from Auckland, New Zealand, to Los Angeles via Papete, crashed within 90 seconds after taking off, officials said.

A Pan American spokesman said there had been no communication from the crew concerning trouble aboard. Bissnette said Bissnette has been placed in the crotch tank several times, twice for setting fires in his cell.

Bissnette is scheduled for trial Aug. 3.

I Found After Jet Crashes

PAPEETE, Tahiti (AP) — A Pan American jetliner carrying 69 passengers and 10 crew members plummeted into the sea shortly after taking off for Los Angeles Sunday night, and authorities reported that one survivor and 12 bodies have been found.

As the hours passed, the possibility of finding other survivors seemed to be diminishing. The lone survivor, a Canadian citizen, was being treated in the Papete military hospital.

A witness, a man named Teva, said: "As soon as the plane took off, it turned to the left. I thought the pilot wanted to avoid the fuel tanks along the edge of the runway, or else the town."

"Then it continued to go down. Before it crashed into the sea, I saw a red flare and then ... a cracking like someone was breaking a plywood board."

"HAMMERIN' HANK" SCORES HISTORIC RUN

HANK AARON belted his 700th career home run Saturday night at Atlanta Stadium, as he makes a bid to top Babe Ruth's major league home run record of 714. Darrell Evans (11) was on base when Aaron hit the ball into the left field seats and is waiting to congratulate the Braves star while umpire Ken Burkhardt of Maitland looks on. Herald staffer Gary Taylor was in Atlanta for the historic event and snapped this picture. His account of the game and other photos appear on page 8A.

Murderer 'Barely' Caught

By GARY TAYLOR
Herald Staff Writer

A Hollywood-movie escape attempt by Roy Ivan Bissnette Jr., the 15-year old accused murderer of an Orlando chef, was foiled after five minutes of "conspicuous" freedom Saturday.

The Pemberton, N.J., youth, running stark naked from the waist down but hampered by leg irons, was grabbed by Jailor Earl Meyers just four blocks from the jail, at the corner of Sanford Ave. and Commercial Street.

Bissnette, a slight, long-haired youth charged in the May gunshot slaying of Charles Newell, apparently crawled through a six by 14 inch hole in the top of the jail's infamous "crotch tank," according to incredulous jailers.

To reach the hole in the tank, where he had been placed less than an hour before the 1 p.m. break for causing a disturbance, Bissnette had to climb eight feet to the ceiling.

But as luck would have it, Bissnette made his break just five minutes before feeding time, and jailers quickly discovered him missing.

Sounding the alarm, jailers started pursuit on foot, while Sanford Police were also alerted of the boy's escape. Jailor Earl Meyers captured Bissnette at Sanford Avenue and Commercial Street, about four blocks from the jail.

Jailers took all of Bissnette's clothing before placing him in the crotch tank, but the teenager grabbed a shirt in the room where the tanks are, and put it on before escaping through a locker door into the jail compound.

Sheriff John Polk said Bissnette apparently jarred the lock door open. Meyers, and James McCall, also a jailer, struggled with the youth. Meyers and Bissnette were both treated at Seminole Memorial Hospital. Meyers, for a pulled arm muscle and Bissnette for a bloody nose.

Polk said Bissnette has been placed in the crotch tank several times, twice for setting fires in his cell. Bissnette is scheduled for trial Aug. 3.

NEWS DIGEST

THE SENATE WATERGATE COMMITTEE has been told by the White House that President Nixon will not surrender White House documents and tapes of presidential conversations.

A TOP NIXON ECONOMIST predicts higher prices under Phase 4 but also says prices will stabilize and unemployment will decrease.

CURRENT EFFORTS BY CONGRESS to get a tighter grip on government spending could lead to a showdown with President Nixon over who is the nation's fiscal boss.

Peronists Without Peron

Argentina Takes A Turn To Right

Argentina's political convulsions, the resignation of a popularly elected president and designation of an interim successor, may well turn out to be a bloodless revolution within the revolution.

When President Hector Campora quit after only 49 days in office, he caught the Argentine people by surprise. True, he had campaigned on a slogan of Campora in the government, Peron in power.

Other Thoughts

We note with satisfaction that the congressional act outlawing head taxes at airports has been signed into law. It abolishes at once the fees levied by various local jurisdictions on air travelers except that communities which beat the deadline may keep their head taxes until next Dec. 31.

Instead, taxpayers all over the land will contribute \$310 million over the next three years for airport and airways development. We believe that users should pay in most cases, but the head tax range from 50 cents to \$3 was arbitrary and inequitable; it had to go.—Miami (Fla.) Herald

China's Militia

Peking Puts Clamp On The Militia

HONG KONG — A major effort is under way in China to strengthen and expand the militia issue, it has three basic purposes.

Only this summer, in fact, has a new campaign to strengthen the militia been organized throughout the country.

And the way that campaign is being run, judging by reports from China's provincial radio stations, is directly tied to the continuing effort to counter the influence in the PLA of the Liberation Army (PLA) and elsewhere of the late Defense Minister Lin Biao.

Nation In Doldrums

Quit Using The Old Crying Towel

One of the newsmagazines recently quoted a presidential aide as saying that, "Everything we touch turns to mud," or words to that effect. Whether or not such a remark was made, it would seem to express our mood as a nation these days.

Attic Cleaner

She Has Fashion-Minded Dilemma

BY JOY STILLEY NEW YORK (AP) — Never throw out today what you may be able to wear tomorrow. If I had only followed that maxim I could become the most stylish lady on my block by just digging into my attic instead of my wallet.

division within Peronism, was seen the afternoon of June 20, as Peron himself was flying home from his exile in Madrid. The shoot-out between Peronists spouting the "Socialist" line and those proclaiming their "nationalist" faith in the throng waiting near Ezeiza airport to honor Peron cost at least 70 lives.

Seventy head in an outburst of political violence is unheard of in Argentina. It is believed to be the heaviest toll of death since the revolution of 1955 ousted Peron from the Casa Rosada, the presidential palace.

Now the Chinese leaders want to get the troops back into their barracks and under firm Communist Party control. To re-innocentiate the PLA soldiers in the Maoist precept that the party must control the gun and never the other way around.

Our country has never been and never will be perfect. We had a violent birth and have lived from crisis to crisis ever since. In the process of growing up, we invented a way of life that is the envy of the rest of the world.

We cannot move to a better place because there is no better place. We certainly have no monopoly on national pollution, corruption, devaluation, investigation, assassination, delinquents, dropouts, drugs, rapists, rapes, muggings, strikes, floods, earthquakes, welfare abuse, consumer fraud, fuel crisis, shoddy goods; Cambodia, MIAs, ABMs, CIA, FBI, conspiracies, bugs, traffic jams, dirty zno vies, jerry-built homes, overcrowded schools, recalled cars, and Watergate. Always Watergate. Like Hungary Danzbergfeld, we get no respect. Lord, how we pity you.

This self-staged wake is disturbing because it is so untypical of Americans. We have been in worse trouble before, but never before have we taken it so hard. We are not a stoic people, but neither are we cry-babies. Now until now, that is.

caught dead with a matched sweater set in her bureau drawer, and I surely wasn't going to be able to wear tomorrow. If I had only followed that maxim I could become the most stylish lady on my block by just digging into my attic instead of my wallet.

BRUCE BOSSAT

Crisis on crisis is Nixon dilemma

In the constantly evolving speculation over President Nixon and Watergate, a current favorite is that he is hanging a crippled presidency for more than three years if he can.

Left out of the guesswork because so difficult to gauge, is what the effect of such circumstances would be upon the President as a man.

Some knowledgeable sources in Washington are painting a dark picture of how the federal establishment is working right now, and an even blacker one for the months just ahead.

Another who deals closely with government at high levels thinks Mr. Nixon, Watergate aside, is heading into a series of dilemmas that may make the United States as un-governable as New York City has been reported to be for years.

Most acutely obvious is the rash of shortages in farm products and the attendant food price surges they are causing. That this problem is going to get worse is a common Washington forecast. Beyond this, dispiriting general inflation seems far from any sort of relief.

And it's being suggested that automobile gasoline shortages, real or contrived, may be as nothing compared to the truly menacing prospect of a wintertime home fuel oil shortage — particularly in landlocked parts of the country where difficulties of transportation and distribution could aggravate the problem.

These economic hazards for the home front can't be separated of course from our ties with our great trading partners in Europe and Japan. They have their own stake in seeing us get onto a stronger, clearer course, and the September world trade talks will be bent toward that end.

But those talks won't get far if our foreign friends don't bear with thought-out policy lines delivered with the unmistakable firmness of commanding White House authority. Today that authority is in just about the same shabby shape as soybeans.

In this town — and the words spread fast — the White House is seen this summer as a disintegrated establishment. John Connally is yesterday's consultant. The current betting concerns how long the skilled, seasoned Melvin Laird will last.

Given all this, given a President who needs to get on top of things, the question may be whether Richard Nixon can survive Watergate and all these other engulfing dilemmas. It may be rather sheerly he will want to survive a crisis that appears to have no end.

WEST PALM BEACH, Fla. (AP) — The U.S. Marines are hitting the beaches again, but this time they're looking for looting longhairs who might make good recruits.

MIAMI (AP) — A former Air Force pilot says Viet Cong hospitals were bombed by Americans in South Vietnam but that the word "hospital" was left out of intelligence reports on the bombing raids.

Gerald J. Greven of Miami said Sunday he directed the bombing strike in 1969 and was reprimanded for identifying it as such over his radio and later in a briefing.

An aide to Sen. Harold Hughes, D-Iowa, said Hughes will request that Greven testify before the Armed Services Committee.

The committee is investigating secret American war tactics in Indochina. Greven, 30, said he also had knowledge of B52 bombings in Cambodia in early 1969 when the Pentagon said it began secret bombings in that country.

Greven said he called Hughes' office last week after learning of the committee's probe. A Hughes aide said he assumed Greven would soon be called to testify.

Florida Digest

POLICE SAY THE DEAD SUSPECT in a sado-masochistic orgy killing of an Ohio youth and the rape-torture of his female teenage companion had a criminal record dating to 1945.

THE MARINES hit the beaches again, but this time in search of longhairs, surfers and swimmers who may make good recruits.

THE FLORIDA HIGHWAY PATROL says at least 14 persons lost their lives on state roadways over the weekend.

MEMBERS OF THE STATE'S NEW ENERGY COMMITTEE will have to work fast because the problem they have been assigned to study already has reached crisis proportions, says one of its co-chairmen.

ENVIRONMENTAL QUESTIONS about the Cross-Florida Barge Canal became a focal point in the second week of a federal court trial to decide the fate of the aborted North-Central Florida waterway.

Cuba To Free Yacht, Five After Payoff

ATLANTA, Ga. (AP) — Two Miamians, an Atlanta couple and a Canadian yacht skipper are expected to sail out of Havana Harbor today after being held by the Cuban government since June 29, a relative of one of the five says.

Vernon Boggs of Atlanta said his daughter, Eleanor Webb of suburban Atlanta, telephoned him from Havana Saturday night. He said she told him that money which the Cuban government had demanded for the release of the five had been deposited with Canadian authorities in Ottawa, Canada.

"As soon as the paperwork is completed, they will be free to go," Boggs said.

Boggs said his daughter did not discuss the amount of money in her call. But earlier published reports quoted her husband, Mike Webb, as saying the Cuban government wanted \$4,168 for expenses.

Marine Recruiters Combing Beaches

WEST PALM BEACH, Fla. (AP) — The U.S. Marines are hitting the beaches again, but this time they're looking for looting longhairs who might make good recruits.

Pilot Says Hospitals Bombed

MIAMI (AP) — A former Air Force pilot says Viet Cong hospitals were bombed by Americans in South Vietnam but that the word "hospital" was left out of intelligence reports on the bombing raids.

Gerald J. Greven of Miami said Sunday he directed the bombing strike in 1969 and was reprimanded for identifying it as such over his radio and later in a briefing.

An aide to Sen. Harold Hughes, D-Iowa, said Hughes will request that Greven testify before the Armed Services Committee.

Greven said he called Hughes' office last week after learning of the committee's probe. A Hughes aide said he assumed Greven would soon be called to testify.

Greven said he regretted directing the hospital bombing strike and would tell all he knows to the committee.

Dead Rape-Torture Suspect Had Criminal Record Since 1945

MIAMI (AP) — Police say the dead suspect in a sado-masochistic orgy killing of an Ohio youth and the rape-torture of his female teenage companion had a criminal record dating to 1945.

MIAMI (AP) — Police say the dead suspect in a sado-masochistic orgy killing of an Ohio youth and the rape-torture of his female teenage companion had a criminal record dating to 1945.

Homicide detective Don Mathews said Dade County police were reopening several unsolved cases to determine if Albert Brust, 44, could be connected with them.

Brust, found dead Saturday in the backyard of his home, apparently was a poison suicide victim, investigating officers said. An autopsy had not been completed last Sunday.

The backed up body of a 16-year-old boy, Mark Bernard Matson of Washington

Court House, Ohio, was found cemented in a shower stall next to a torture chamber rigged for what police speculated were sexual devolution orgies in Brust's suburban Miami home. Police revealed that Brust registered with county officials as a criminal on the same day he applied for a position as a Dade County building inspector last year.

He had been charged with kidnap, robbery, assault and grand larceny in New York in 1951 and was sentenced to 3-to-10 years in prison, police said. He was paroled in 1957.

As a minimum housing inspector, Brust inspected homes older than 15 years.

Mother, Son Traffic Victims

A Fort Lauderdale mother and her infant son were among the 12 victims of traffic accidents in the state during the weekend, the Florida Highway Patrol says.

The James Queen, 36, of Miami, died Friday night in a two-car wreck on State Road 84 in Broward County.

Samuel Canon, 18, of Crystal River, was killed when his car spun out of control in Citrus County late Friday and hit a tree.

Robert Monroe, 36, of Fort Lauderdale, was killed Friday when struck by a car while walking along a street in his hometown.

And an unidentified man was killed Saturday in a collision north of Palm Beach.

The Florida Highway Patrol begins keeping weekend traffic logs at 6 p.m. each Friday and ends them at midnight Sunday.

The dismembered body of young Matson was found after neighbors called police to report that Brust, sitting in a lawn chair in back of his house, appeared to be dead. Police immediately contacted a 15-year-old girl from Frankfort, Ky., who had told police in nearby Fort Lauderdale last week that she and the youth had been picked up by the driver of a white van while hitchhiking in Fort Lauderdale.

'Hammer' Hits 700th For Fans In Atlanta

By GARY TAYLOR
 Herald Staff Writer

ATLANTA, Ga. — With the mighty swing and the crack of the bat, everyone knew the ball was gone. But no one made a sound, most didn't even breathe until the ball landed some 34 seats up in the left field pavilion.

Then the fans at Atlanta Stadium exploded into cheers and applause as Henry Louis Aaron circled the basepaths crossing the plate with his 700th career home run, and pulling to within 14 of the all-time career home run mark set by the great Babe Ruth.

With the 16,236 fans sitting on the edges of their seats, Aaron slugged a breaking ball into left field for a single his first time up.

Darrell Evans applied to lead off the third inning, and after a loud round of applause, Aaron stepped to the plate for his second at bat of the game. The first pitch was a ball, and then National League umpire Ken Burkhart of Maitland called the second pitch by Philadelphia Phillies pitcher Bret A. Brett a strike. That brought a round of boos from the fans, but they quieted as Brett stepped on the rubber for the next pitch.

Since everything thrown at Aaron in the first inning was "breaking stuff," Hammer's Hank anticipated a fast ball. The ball however, in fact, and with a snap of his powerful wrists, Aaron gave the ball a ride that left no doubt in anyone's mind that it was a home run.

"Sure, I knew it was out of the ball park," Aaron admitted ruefully. "The Hammer," he reached the seats. An Atlanta teenager, who graduated from the same

school that Hank Aaron Jr. attends, retrieved the ball, and collected 700 silver dollars when he turned it over to Aaron after the game.

"I'm glad I hit this one here, among the home fans. I'd like to get 714 and 715 here too, but you can't pick and choose when you hit home runs.

Unfortunately, hometown fans have seen very few of the milestones of Aaron's career.

It all started on April 23, 1954, when Vic Raschi of St. Louis served up the "igopher ball" to "The Hammer."

Aaron's 100th blast came August 15, 1957 in Cincinnati and the 200th shot was July 3, 1960 in St. Louis. Number 300 came April 19, 1963 at New York, and the 400th career shot came three years and a day later at Philadelphia.

Atlanta fans saw the 500th and 600th homers, and they both came off San Francisco hurlers. Mike McCormick dashed up the pitch for the 500th April 27, 1971, and Aaron hit the 600th off Gaylord Perry April 27, 1971.

Aaron passed Willie Mays to move into the number two spot of all-time home run hitters, June 16, 1972 in Philadelphia. Wayne Twitchell was the victim of that round-tripper.

Brett was happy to have posted his ninth win of the season, a career high, and said Aaron's homer was "the first one he's hit off me and it'll be the last."

Aaron said he was waiting on the last ball, the same pitch Brett used to strike out "The Hammer."

Hammer" earlier in the season at Philadelphia.

By no means was the pitch grooved, Aaron said after the game, adding, "And you can tell the Commissioner that. He referred to over-reaction by Major League Commissioner Bowie Kuhn, when some pitchers said they might grove the pitch if they face Aaron when he had 713 home runs.

Aaron's only regret was that the Braves didn't win the game. They suffered an 8-4 loss, although Aaron's two-out shot had put them in front 3-1. The Braves also lost the

games when Aaron hit his 600th at Philadelphia.

Aaron wanted to reach 700 by the All-Star break, and after he played in that game Tuesday night, he feels his chances are good at reaching 715 this year.

Aaron says he believes the pressure will help when he reaches 715. Evans, on base when Aaron hit the 700th, said "Hank didn't say a word when he crossed the plate. There was just a big smile on his face. He was shaking a little bit. That was the first time I've seen him get really emotional.

SHOWING OFF HIS HOME RUN BALL ... Aaron in Braves dressing room

Witnesses Aaron Homer 'Chances' Lure Racing Writer

By GARY TAYLOR
 Herald Staff Writer

ATLANTA, Ga. — What started out as a trip to Atlanta to cover the Dixie 500 stock car race turned out to be a chance to see major league baseball history in the making.

On the way to Atlanta Friday night, I had tuned into the final couple of innings of a Braves-Phillies game, and heard mention of the fact that Hank

Aaron had clouted his 699th home run.

So Saturday afternoon, having returned from the Atlanta International Raceway where the final qualifying session had been completed, I decided to take in a ballgame.

It's hard to put into words the way I felt when I watched "The Hammer" swing, heard the shrill crack of the bat against the horsehide ball, and then watched it sail deep to left field. I knew it was gone ... so did

everyone else. But I still held my breath, trying to take pictures of Aaron circling the basepaths, but still watch the ball on its historic flight into the left field pavilion.

I've talked to Aaron dozens of times, both on the field before games and in the dressing room afterwards, but never have I seen "Hammer" Hank act in such an easy-going manner, as he did after being number 700.

"I'm not a drinking man, but I couldn't resist a chance to sip

champagne in the dressing room afterwards, poured by Aaron as photographers, me included, snapped hundreds of pictures.

It was a breath-taking sight to see that ball sail over the fence, watch Hank circle the bases and then see him come out of the dugout twice as the crowd gave him a full five-minute standing ovation.

For Aaron, the only sad part was the Braves' loss. But I thought it was unbelievable that less than 17,000 people bothered to go out to the stadium Saturday night to watch the historic homer.

But the fans that were present seemed to be genuinely rooting for "The Hammer," despite all the talk of dissent about Aaron breaking Babe Ruth's record.

Conkka has a pulled thigh muscle and Morris suffered a hip injury in a scrimmage at Miami Saturday night. Hubert Gim and Charlie Leight are the probable replacements if Conkka and Morris can't play Monday, in another departure from the past, didn't have any of Miami's scrimmages scouted.

"I'm not worried about Miami," said McKay. "I worry about my team. They're not going to do anything differently. Winners don't change. It's the losers who change every five seconds."

Secrecy Shrouds College All-Star Grid Game Plan

By JOE MOSSHIL
 Associated Press Sports Writer

CHICAGO (AP) — The College All-Stars, winners in the last decade against professional football champions, will not discuss their talents until Friday night when they tangle with the Miami Dolphins at Soldier Field.

Never in the 46-year history of the game has a team been kept as undercover as the current squad mixed with All-Americans and top pro draft choices.

The All-Stars have picked up the label of "Mystery Team" and have been accused of training at John McKay's "Country Club."

McKay, who guided the Southern California Trojans to the national championship last season, is making his first appearance as the All-Star coach and has assumed the usual routine of former seasons.

The first thing McKay did was cut the two-day drills to one a day. Instead of the three or four scrimmages a week, he has held only one limited scrimmage since the camp opened. McKay also ruled out the usual scrimmage against the Chicago Bears in which the collegians receive their professional baptism.

As a result, this will be the healthiest All-Star squad to take the field against the pros. While the All-Stars will be healthy, such is not the case with the Dolphins. Fullback Larry Conkka and halfback Mercury Morris, the first two runners from one team to gain 1,000 yards in one season, might miss the big game.

Someday, Someone May Beat Pearson

By GARY TAYLOR
 Motorsports Editor

HAMPTON, Ga. — The "Silver Fox" is getting a green complexion these days ... money green, and to the tune of nearly \$11 million.

David Pearson reeled off his ninth NASCAR Grand National win in 10 starts Sunday as he drove the Wood Brothers Pursator Mercury to a victory in the Dixie 500 at the Atlanta International Raceway, giving the 39-year-old Spartanburg, S.C. driver both events at that track this season.

Pearson finished more than a lap ahead of second place Cale Yarborough of Timmonsville, S.C., driving the Junior crew Chevrolet prepared by Kar Kare Chevrolet, who was Pearson's only "close" competition for the final 175 laps of the 328-lap contest.

Average speed of the race, which was slowed by six caution periods for 48 laps, was 130.21 mph, more than 12 mph off the record set by Richard Petty in 1970. Pearson led Yarborough four times for 119 laps and Yarborough four times for 110 laps.

Pearson won the Dixie 500 in 1968, 1970 and 1972. He has won 113,350 of becoming stock car racing's second million-dollar winner. Pearson, who was lagged the "Silver Fox" because of his greying hair, has won more than \$160,000 this season and \$986,650 during his 14-year racing career.

Yarborough was the only driver remaining in the same lap with Pearson for Sunday's race after 150 laps. But on the 164th lap, he lost control of his Chevy coming off the fourth turn of the 1.52-mile banked oval. He locked the car down, and blew three tires in the process, although he was able to drive around the track and back to the pits on the inner liners.

"He really had to stand on the brakes to lock a car down like that," commented Kar Kare crew chief Richard Hodges. "He did one heck of a good job of holding the car."

After managing to overtake Yarborough, Pearson ran just ahead of him for more than 50 laps, staying in the same lap with the leader. But they both went to the pits on the 203rd lap. Pearson left him with just the clothes he was wearing and

Pearson was running a few feet behind Isaac, and as late as he was "about as close as I could get to being involved." Pearson went under Isaac's car while it was sliding sideways down the track.

Thirteen laps later, Buddy Baker in the K and K Insurance Dodge spun off the track along the backstretch breaking the rear housing and springs when he hit the dirt. Baker, who had climbed from the 25th starting position to second place, did a good job of keeping the car off the guard rail and wall.

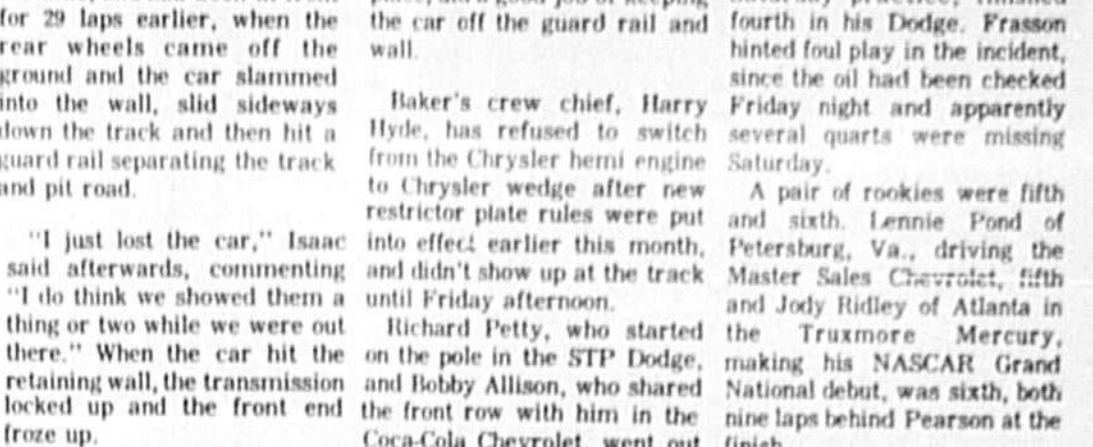

Baker's crew chief, Harry Hyde, has refused to switch from the Chrysler hemi engine to Chrysler wedge after new restrictor plate rules were put into effect earlier this month, although he didn't show up at the track until Friday afternoon.

Richard Petty, who started there on the pole in the STP Dodge, and Bobby Allison, who shared the front row with him in the Coca-Cola Chevrolet, went out

early with engine problems. Petty had got a lap down when he chucked a tire on the 1st lap.

Only one of the Hometown, Ala. brothers was around at the finish. Donnie Allison was third in the DiGard Chevrolet, although he was running five laps off the pace at the finish. Joe Frasson, of Golden Valley, Minn., who had to make a last minute switch from a wedge to hemi engine, after blowing the wedge during a Saturday practice, finished fourth in his Dodge. Frasson hauled foul play in the incident, since the oil had been checked Friday night and apparently several quarts were missing Saturday.

A pair of rookies were fifth and sixth. Lennie Pond of Petersburg, Va., driving the Master Sales Chevrolet, fifth and Jody Ridley of Atlanta in the Frasson Mercury, making his NASCAR Grand National debut, was sixth, both nine laps behind Pearson at the finish.

'Ailing' Runners Unsure

MINSK, U.S.S.R. (AP) — The United States track team is preparing to do a little retraining for its two-day duel meet against the Soviet Union which begins tonight.

Commenting on the injuries and absences hampering his team, U.S. Coach Jim Hush said, "our team will dig a little deeper, there is a little pride there because it's the Russians we're going against."

High jumper Dwight Stones who set a world record in Munich is not along on the Soviet trip, and one of America's top runners, Steve Prefontaine, has been forced to the sidelines with back trouble.

Others who did not make the trip were Marshall Hill who passed the meet because of a dispute with Hush over whether he could return home following the meet, and Benny Brown in the 400.

Maurice Peoples was slightly ill, but will compete in the 1600 meter relay with Jimmy Redd and Maxie Parks replacing him and Brown in the 400.

Pole vaulter Mike Cotton is a doubtful starter because of a shoulder muscle pull and Hush said, "We don't know if he can compete until just before the meet."

Atlanta Results

Congress May Battle Nixon's Purse Strings

By EDMOND LEBRETON
Associated Press Writer
WASHINGTON (AP) — Congress is trying to find ways of getting a tighter grip on government spending, and its efforts may lead to a showdown with President Nixon over who is the nation's ultimate fiscal boss.

Legislation that sponsors a claim will allow Congress to recapture from the president much of the spending initiative gained momentum last Thursday when the House Rules Committee, after weeks of hesitation, opened hearings on it. A Senate Government Operations subcommittee is also working on the bill, which was drafted by a special House-Senate study committee.

Libyan Boss To 'Unresign' After Rebuff

DeBary Children On Stage

By FANNETTE EDWARDS
Herald Correspondent
DEBARY — Rehearsals for two summer plays are well under way by the Children's Summer Theatre under the direction of The DeBary Players.

The play, "Cinderella," which will be presented on Aug. 3 and 4, at 7 p.m. is being directed by Miss Eleanor Robbins and Miss Lauretta McGarry. This play will be presented on Friday and Saturday, Aug. 31 and Sept. 1, at 7 p.m.

The President's budget, sent to Congress each January. It is not binding on Congress. But exceeding it exposes the lawmakers—especially in times of divided government—to charges of irresponsibility. Congress has experimented with adopting spending ceilings, but the effectiveness of these has been debated. More directly, Presidents for many years, and President Nixon particularly, have resorted to impounding money—refusing to spend all that Congress has appropriated.

Congress and the President are in continuing confrontation on this issue. The House has scheduled debate Tuesday on a bill limiting his authority to cut authorized spending without Congress' approval. In broad outline, the proposed new system would work this way: Budget committees would be composed in the House and Senate of some members from the taxing and spending committees and some from the membership at large. There would be a joint staff for the two committees, headed by a legislative budget director.

Dean Lied About 'Tap: Ehrlichman

WASHINGTON (AP) — John D. Ehrlichman today told the Senate Watergate committee that John W. Dean III lied.

Ehrlichman, once the chief domestic adviser to President Nixon, said he and others in the White House relied on Dean for information about the Watergate wiretapping affair.

Ehrlichman said in prepared testimony that White House counsel Dean's story that the Watergate affair was the center of attention at the White House is "false as all the other falsehoods" Dean gave the Senate panel.

"I do not suggest that we were all just too busy to have noticed," Ehrlichman said. "We did notice, and we kept in touch with John Dean on the assumption that he was giving us complete and accurate information."

For his own part, Ehrlichman said, "I sincerely do not believe I am guilty of any wrongdoing."

In a 30-page statement prepared for his appearance as a witness before the committee, Ehrlichman defended the Nixon administration against Dean. He accused Dean of a "galling, pleading repetition of the old story about fear and paranoia in the White House."

Ehrlichman's opening statement contained no response to the specific allegations against him. Dean says Ehrlichman ordered him to destroy material from wiretapper E. Howard Hunt's White House safe shortly after the Watergate break-in, and said Ehrlichman authorized the use of hush money to buy silence from the original

'Dean's story is false than all other falsehoods' he gave the Senate panel

Watergate defendants, among other things. Ehrlichman insisted that Dean rarely informed him about Watergate despite Dean's testimony that the cover-up was a major concern of Ehrlichman and staff chief H. R. Haldeeman.

Ehrlichman said his log shows 22 meetings with Dean, eight of them on non-Watergate subjects. "Of the remainder," he said, "not all were devoted to talk about aspects of Watergate."

Ehrlichman complained that his name constantly was hyped with that of Haldeeman as if they were Siamese twins.

"Mr. Haldeeman and I had vastly different duties, areas and methods of operation," Ehrlichman said. "I had very little knowledge of what he was doing day by day."

Ehrlichman appeared under subpoena, without any immunity from prosecution. He said he would refute all allegations of criminal activity against him. "I look forward to your questions," he said.

He said he looks forward to answering questions concerning the Dean investigation, the White House plumb, whether there is any connection between the Ellsberg psychiatrist's break-in and the Watergate, the payment of

money to the Watergate defendants. The Senate committee and special prosecutor Archibald Cox served subpoenas on Nixon Monday ordering him to produce tape recordings and papers bearing on the probe.

Ehrlichman listed a dozen other incidents and accounts that he would address including the destruction of documents, instructions on executive clemency, meetings with CIA officials, "why I taped some of the interviews and telephone conversations I have turned over to this committee," when he learned of the wiretapping plan, when he learned of the Ellsberg psychiatrist's break-in and the Watergate, the payment of

money to the Watergate defendants. The Senate committee and special prosecutor Archibald Cox served subpoenas on Nixon Monday ordering him to produce tape recordings and papers bearing on the probe.

Ehrlichman said he also wants to discuss "the President's continued effort to obtain and publish a full, fact-by-fact account of Watergate in its several aspects, which he never got it."

Ehrlichman said, "I am here to refute every charge of illegal conduct on my part which has been made during the course of these hearings, including material leaked to the news media."

Ehrlichman said he also wants to discuss "the President's continued effort to obtain and publish a full, fact-by-fact account of Watergate in its several aspects, which he never got it."

City-County Separation Bid Should Find Seminole 'Okay'

By CHRIS NELSON
Herald Staff Writer

Although a state legislative committee will study next year the practical "separation of powers" between city and county governments — perhaps using federal revenue sharing funds to compel adherence to its recommendations — Seminole County should come out in all its comparisons.

At least that's the opinion of Betty Simcoe, newly appointed county administrative assistant, upon hearing of the Florida Local Government Study Commission, which voted to find methods to encourage consolidated services it deems appropriate.

Among the points listed by committee members as targets for the study are such obvious ones as garbage collection, a uniform emergency telephone number, city-county service area boundaries, and centralized administration.

"We already have some of these things or are working on them," she said Tuesday, pointing to last week's meeting on the "911" emergency telephone number between area police, fire and medical authorities.

Even if the 911 number does not work out, due to go into operation next month is a centralized emergency call center in the sheriff's department, which should serve as a "small beginning," Mrs. Simcoe said.

Also apparently in line with the committee's thinking is the county offer to unify such administrative services as voter registration and tax assessment, with county officers handling both these tasks county-wide.

While not an official county project, Commissioner Greg

Drummond is still working on his "unigovernment" proposal, which would wipe out city governments, and establish a single, large county commission comprised of elected representatives from each of the municipalities.

Under Drummond's scheme, which has been ridiculed by Altamonte Springs Mayor Lawrence Swafford as "stilly," the consolidated county municipal services would be provided over by a county administrator.

Mrs. Simcoe was careful to spell out the differences between herself and some future county administrator — should the commission attempt to establish the position.

3rd Man Arrested In Lee Death Try

By BOB LLOYD
Herald Staff Writer

A third suspect has been arrested and police are searching for a fourth man in the June 1971 gangland style assassination attempt on gambler Clyde Lee near Longwood.

Jack Henriquez of Tampa is free on \$20,000 bond on charges of assault to murder and conspiracy in the telephone booth shooting of Lee on SR 434 at Interstate Four. He was arrested July 9 in Pinellas County.

State Atty. Abbott Herring's office today would not release the name of another man charged with Henriquez since he has not been arrested.

Harlan "The Colonel" Blackburn, former central Florida crime czar now serving a 22-year federal prison sentence, and Sam Cagnina, convicted Tampa robber, face trial Sept. 10 at Sanford on the same charges in the attempt on Lee's life.

Herring's office wouldn't comment today on the alleged roles Henriquez and the unidentified fugitive played in the slaying attempt.

Informations filed June 8, the same day charges were filed against Blackburn and Cagnina, charged Henriquez and the other man "did assault Clyde Lee with a pistol . . . and conspired and confederated together to commit a felony punishable by death or life imprisonment."

Witnesses told police there were three men in a green rental sedan that escaped on I-4 after one of the men, identified by Herring as Cagnina, sprayed pistol fire into the telephone booth as Lee was talking by telephone with Blackburn.

Lee staggered from the shattered booth and later recovered from the gunshot wounds. He is now serving a three year prison sentence at Avon Park for a gambling conviction.

Henriquez's arraignment to Sanford has been continued to next Monday. Herring's office said he was not brought to Seminole because Pinellas authorities said he faces charges there.

Economist Predicts Food Prices Stabilizing

WASHINGTON (AP) — A top Nixon economist has predicted higher food prices under Phase 4, but says prices will stabilize and unemployment will decrease.

Herbert Stein, chairman of the Council of Economic Advisors, also said the country was nearing the end of an economic boom and "we have a good chance of slowing the boom down without what would ordinarily be called a recession."

Stein, Agriculture Secretary Earl L. Buttz, and Labor Secretary Peter J. Brennan appeared Sunday on separate television news interview shows.

Buttz also predicted higher prices for farm products under the Phase 4 anti-inflation program, but said "the heavy part of the rise is behind us."

Brennan, also discussing Phase 4, called the wage guidelines flexible and said he anticipates

the President's budget, sent to Congress each January. It is not binding on Congress. But exceeding it exposes the lawmakers—especially in times of divided government—to charges of irresponsibility. Congress has experimented with adopting spending ceilings, but the effectiveness of these has been debated. More directly, Presidents for many years, and President Nixon particularly, have resorted to impounding money—refusing to spend all that Congress has appropriated.

Casselberry Will Study Regional Utilities System

By J. RICHARDS
Herald Staff Writer

CASSELBERRY — In a 3-1 vote Monday, city council authorized a feasibility study of a regional utilities system, contending that a similar Orlando-based plan is "inadequate for the entire south Seminole and Casselberry area."

In the absence of Chairman John Leighty, Councilman Edith Duerr presided over the meeting that stretched for more than one-half hour past the council's own 10:30 p.m. time limit.

The council also authorized the purchase of a fire truck from Central Florida Mack Truck for \$47,998.85, going through its lengthy agenda list

quickly to make up for more than two hours of a public hearing that extended past its half-hour time limit.

Councilman John Zacco cast the only dissenting vote, calling the regional utilities system study "mighty poor planning," and wanting to have additional work sessions with additional information.

The council had already had a work session on the proposed study on May 14, city utility Director John Lane pointed out. Saying that the city already needed to expand its utility system and that the Orlando "interim solution"

study would mean "excessive pollution" to the area, Duerr pushed the proposal during lengthy discussion.

"We can't wait four years for federal funds to do the study like Orlando did," said Lane, adding that the study would find an "interim solution."

Sanford To Offer County Services

By BOB LLOYD
Herald Staff Writer

Sanford city commissioners agreed Monday to provide city water and sewer service on a contract basis to a 48-acre tract southeast of the city limits on SR 427 proposed for development with 122 homes by Newberg Development Corp.

City Manager Warren Knowles said utility customers on the Newberg tract will pay 125 per cent utility rates and the city will effectively control the development density on the tract to single-family homes by limiting water flow to 80,000 gallons a day under the contract (the average daily use for 120 homes).

Since the development will be in the county, it could possibly be zoned for multi-family construction.

Commissioners turned down

service now will benefit "one developer at the taxpayers' expense."

A subsequent utility service request was tabled until consulting engineer Cal Cooklin reported last week service to the tract would make no significant impact on the present city utility systems.

Commissioner Julian Stenstrom said Monday the Newberg property "will eventually come into the city" and there was no reason to deny the utility service request.

Stenstrom said the city will get \$66,000 in tap fees from the Newberg development.

Commissioners Gordon Meyer and A. C. McClanahan voted against the contract utility service. Meyer said he favors utility service when the tract is annexed and McClanahan charged the
